## 5.3.1.110 Children's Medicaid Dental Services Program Financial Statistical Report (FSR) Instructions Version 2.1

### **Objective**

All entities contracting with the State of Texas to arrange for or to provide dental health care to enrollees in the Children's Medicaid Dental Services Program must submit Children's Medicaid Dental Services Program Financial Statistical Reports (FSRs) for the statewide Service Area (SA) in accordance with the Contract for Services between HHSC and Dental Contractor, and in accordance with the instructions below.

### **General**

All Children's Medicaid Dental Services Program FSRs must be completed using the locked Microsoft Excel template provided by HHSC. Data integrity is critical to the automated compilation of the data. Do not alter the file name, sheet names, existing cell locations, or formatting of the data in the file and sheets. Do not add or delete any columns or rows. **Any deviations from the locked template will render the FSR unreadable by the software application and therefore unacceptable to HHSC.**

All shaded data fields in the FSR represent fields where data input is required. In order to maintain consistency please ensure that the data input is in black. All data fields not shaded represents referenced data or calculations. All line numbers in these instructions refer to the line numbers in column A on each worksheet.

**Cells can be linked within the template but there can be no outside links to the Dental Contractor Accounting Systems or other contractor sources.**

The following note is included on all FSR pages **"Note: Except where stated otherwise, reporting is on an incurred basis (that is, reported in the period corresponding to dates of service, rather than to date paid). All prior quarters' data must be updated to reflect the most recent revised IBNR estimates."** Also, Member months' data must be updated in accordance with information provided by the enrollment broker.

**Before completing the Children's Medicaid Dental Services Program FSR, complete the Admin and QI FSR.**
