

PPR and PPC Performance Reports for Hospitals to Be Accessible June 1, 2019

Information posted May 10, 2019

On June 1, 2019, hospitals will receive access to their state fiscal year 2018 hospital-level Potentially Preventable Readmissions (PPR) and Potentially Preventable Complications (PPC) PDF reports.

These reports are compiled using fee-for-service claims and managed care organization inpatient data from September 1, 2017, to August 31, 2018 (state fiscal year 2018). For this reporting period, payment adjustments to hospitals based on PPR and PPC performance will be effective on September 1, 2019.

The hospital-level reports will be delivered on June 1, 2019, to user accounts on the TMHP secure provider portal. To access this portal, visit tmhp.com:

- Click on "Providers," then click on "Log in to My Account," and enter the proper credentials.
- The PPR and PPC reports are available for download under the "Potentially Preventable Events (PPE) Provider Reports" tab.

Personnel who routinely access Remittance and Status Reports, submit claims, and check eligibility will be granted access to download the reports from the portal.

For technical assistance with accessing the provider portal or creating an account, users must contact the TMHP EDI Helpdesk at 1-888-863-3638, from 7:00 a.m. to 7:00 p.m., Central Time. More information can be found at the TMHP Account Activation page: secure.tmhp.com/AccountActivation.

Providers can find more information, including additional documents and program resources, about the hospital quality-based PPR and PPC program on the HHS Potentially Preventable Events (PPE) webpage:

hhs.texas.gov/about-hhs/process-improvement/medicaid-chip-quality-efficiency-improvement/potentially-preventable-events.

Providers with questions about this program can email MCD_PPR_PPC@hhsc.state.tx.us

For more information, call the TMHP Contact Center at 1-800-925-9126.
