¹ The age group is determined by the age of the youngest victim for the number of investigations and number of violations while the age group is determined by the age of each victim for the number of victims with confirmed serious injuries and child fatalities.

² When Age of child is calculated as 14years or more, then the Age Group is > 13. Age group of > 13 year old may be a result of a data error entry as child care operations care for children younger than 14 years old.

³ When Date of birth not entered or entered incorrectly for child, Age Group is "Unknown" .

⁴ Includes only those Investigation Violations that are marked as Non-Compliant and has a admin review status of "Waived" or "Upheld"

⁵ A serious injury is not considered confirmed until the investigation results are sent to the provider. Serious Injury is captured in CLASS application and hence data for this report to calculate the count of victims with serious injury is from CLASS.

Note - If there is an investigation with multiple confirmed victims but only 1 victim had a serious injury then the count of victims with confirmed serious injury will be 1.
