Application for a §1915(c) Home and Community-Based Services Waiver

PURPOSE OF THE HCBS WAIVER PROGRAM

The Medicaid Home and Community-Based Services (HCBS) waiver program is authorized in §1915(c) of the Social Security Act. The program permits a state to furnish an array of home and community-based services that assist Medicaid beneficiaries to live in the community and avoid institutionalization. The State has broad discretion to design its waiver program to address the needs of the waivers target population. Waiver services complement and/or supplement the services that are available to participants through the Medicaid State plan and other federal, state and local public programs as well as the supports that families and communities provide.

The Centers for Medicare & Medicaid Services (CMS) recognizes that the design and operational features of a waiver program will vary depending on the specific needs of the target population, the resources available to the state, service delivery system structure, state goals and objectives, and other factors. A State has the latitude to design a waiver program that is cost-effective and employs a variety of service delivery approaches, including participant direction of services.

Request for an Amendment to a §1915(c) Home and Community-Based Services Waiver

1. Request Information

   A. The State of Texas requests approval for an amendment to the following Medicaid home and community-based services waiver approved under authority of §1915(c) of the Social Security Act.
   
   B. Program Title: Community Living Assistance and Support Services (CLASS)
   
   C. Waiver Number: TX.0221
   
   D. Amendment Number: TX.0221.R06.07
   
   E. Proposed Effective Date: 08/31/22
   
   08/31/22

2. Purpose(s) of Amendment

Purpose(s) of the Amendment. Describe the purpose(s) of the amendment:

Appendix B: Participant Access and Eligibility
The unduplicated number of participants (Factor C) and point-in-time (PIT) numbers increased for waiver years 3, 4 and 5.

Appendix C: Participant Services:
HHSC amended section C-1/C-3 "Service Specification" for the Supported Employment service under the limits on the amount, frequency, or duration section to clarify that supported employment is not available to individuals under a program funded under section 110 of the Rehabilitation Act of 1973.

Appendix G: Participant Safeguards:
HHSC removed the in-person requirement to allow Financial Management Services Agencies and consumer directed services employers to attend training online.

Appendix J: Cost Neutrality Demonstration
HHSC revised the unduplicated number of participants (Factor C) and PIT as well as the calculations for the overall projected cost of waiver services (Factor D) and the overall projected cost of other Medicaid services furnished to waiver participants (D Prime (D’)) for the waiver years 3, 4, and 5.

08/24/2022
3. Nature of the Amendment

A. Component(s) of the Approved Waiver Affected by the Amendment. This amendment affects the following component(s) of the approved waiver. Revisions to the affected subsection(s) of these component(s) are being submitted concurrently (check each that applies):

<table>

B. Nature of the Amendment. Indicate the nature of the changes to the waiver that are proposed in the amendment (check each that applies):

- ☐ Modify target group(s)
- ☐ Modify Medicaid eligibility
- ☐ Add/delete services
- ☐ Revise service specifications
- ☐ Revise provider qualifications
- ☒ Increase/decrease number of participants
- ☒ Revise cost neutrality demonstration

08/24/2022
Application for a §1915(c) Home and Community-Based Services Waiver

1. Request Information (1 of 3)

A. The State of Texas requests approval for a Medicaid home and community-based services (HCBS) waiver under the authority of §1915(c) of the Social Security Act (the Act).

B. Program Title (optional - this title will be used to locate this waiver in the finder):

Community Living Assistance and Support Services (CLASS)

C. Type of Request: amendment

Requested Approval Period: (For new waivers requesting five year approval periods, the waiver must serve individuals who are dually eligible for Medicaid and Medicare.)

☐ 3 years  ☒ 5 years

Original Base Waiver Number: TX.0221
Waiver Number: TX.0221.R06.07
Draft ID: TX.033.06.03

D. Type of Waiver (select only one):

Regular Waiver

E. Proposed Effective Date of Waiver being Amended: 09/01/19
Approved Effective Date of Waiver being Amended: 09/01/19

PRA Disclosure Statement

The purpose of this application is for states to request a Medicaid Section 1915(c) home and community-based services (HCBS) waiver. Section 1915(c) of the Social Security Act authorizes the Secretary of Health and Human Services to waive certain specific Medicaid statutory requirements so that a state may voluntarily offer HCBS to state-specified target group(s) of Medicaid beneficiaries who need a level of institutional care that is provided under the Medicaid state plan. Under the Privacy Act of 1974 any personally identifying information obtained will be kept private to the extent of the law.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-0449 (Expires: December 31, 2023). The time required to complete this information collection is estimated to average 160 hours per response for a new waiver application and 75 hours per response for a renewal application, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

1. Request Information (2 of 3)

F. Level(s) of Care. This waiver is requested in order to provide home and community-based waiver services to individuals who, but for the provision of such services, would require the following level(s) of care, the costs of which would be

☐ Add participant-direction of services
☐ Other
  Specify:

08/24/2022
reimbursed under the approved Medicaid state plan (check each that applies):

☐ Hospital
   Select applicable level of care
   ☐ Hospital as defined in 42 CFR §440.10
      If applicable, specify whether the state additionally limits the waiver to subcategories of the hospital level of care:

☐ Inpatient psychiatric facility for individuals age 21 and under as provided in 42 CFR §440.160

☐ Nursing Facility
   Select applicable level of care
   ☐ Nursing Facility as defined in 42 CFR ??440.40 and 42 CFR ??440.155
      If applicable, specify whether the state additionally limits the waiver to subcategories of the nursing facility level of care:

☐ Institution for Mental Disease for persons with mental illnesses aged 65 and older as provided in 42 CFR §440.140

☒ Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) (as defined in 42 CFR §440.150)
   If applicable, specify whether the state additionally limits the waiver to subcategories of the ICF/IID level of care:

1. Request Information (3 of 3)

G. Concurrent Operation with Other Programs. This waiver operates concurrently with another program (or programs) approved under the following authorities
   Select one:
   ☐ Not applicable
   ☐ Applicable
      Check the applicable authority or authorities:
      ☐ Services furnished under the provisions of §1915(a)(1)(a) of the Act and described in Appendix I
      ☐ Waiver(s) authorized under §1915(b) of the Act.
         Specify the §1915(b) waiver program and indicate whether a §1915(b) waiver application has been submitted or previously approved:

Specify the §1915(b) authorities under which this program operates (check each that applies):
   ☐ §1915(b)(1) (mandated enrollment to managed care)
   ☐ §1915(b)(2) (central broker)
   ☐ §1915(b)(3) (employ cost savings to furnish additional services)
   ☐ §1915(b)(4) (selective contracting/limit number of providers)
   ☐ A program operated under §1932(a) of the Act.
      Specify the nature of the state plan benefit and indicate whether the state plan amendment has been submitted or
H. Dual Eligibility for Medicaid and Medicare.

Check if applicable:

☒ This waiver provides services for individuals who are eligible for both Medicare and Medicaid.

2. Brief Waiver Description

**Brief Waiver Description.** *In one page or less,* briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods.
The Community Living Assistance and Support Services (CLASS) waiver, first authorized September 1, 1991, provides community-based services and supports to eligible individuals as an alternative to an intermediate care facility for individuals with intellectual disabilities. CLASS waiver services are intended to, as a whole, enhance the individual's integration into the community, maintain or improve the individual's independent functioning, and prevent the individual's admission to an institution. Services and supports are intended to enhance an individual's quality of life, functional independence, health and welfare, and to supplement, rather than replace, existing informal or formal supports and resources.

As of September 1, 2017, HHSC solely operates the CLASS waiver program.

CLASS services are provided using contracted providers. The case management agency only provides case management services, such as, coordinating the development of the individual's service plan; informing the individual of the service delivery options (consumer directed services option and provider managed services option) and assisting the individual in accessing non-waiver services. If the individual chooses the consumer directed services option, a financial management services agency provides financial management services and may provide support consultation. A direct services agency, licensed as a home and community support services agency, provides all other services except transition assistance services, which are provided by contracted transition assistance services providers. When notified of their release from the CLASS interest list, applicants choose a case management agency and direct services agency to complete their enrollment. HHSC does not provide CLASS waiver services to individuals who are inpatients of a hospital, nursing facility, assisted living facility, or intermediate care facility. CLASS waiver services are available statewide.

The direct services agency completes assessments to establish a level of care for CLASS waiver services. HHSC reviews that information to authorize the level of care. After all requirements for eligibility are met, and at least annually thereafter, the service planning team, which includes the individual and legally authorized representative, develops a person-centered service plan that addresses the individual's needs. The process emphasizes the provision of supports and services necessary to maintain successful integration in the community. The service plan describes the waiver services to be furnished, their frequency, and the type of provider who will furnish each. The service plan also includes the justification for those services based on needs identified by the individual or legally authorized representative and supported by assessments. Providers deliver all waiver services according to the service plan. An individual must continue to meet financial and level of care requirements to remain eligible for CLASS waiver services.

When the service plan is developed, the individual receiving services may choose to self-direct residential habilitation, support consultation, nursing, physical therapy, occupational therapy, speech and language pathology, supported employment, employment assistance, respite services, and cognitive rehabilitation therapy through the consumer directed services option. All other services are provided by the direct services agency chosen by the individual. An individual choosing the provider-managed service delivery option selects a direct services agency for all services included in the service plan, except case management and transition assistance services. Case management services are provided to all individuals receiving services in CLASS.

3. Components of the Waiver Request

The waiver application consists of the following components. Note: Item 3-E must be completed.

A. Waiver Administration and Operation. Appendix A specifies the administrative and operational structure of this waiver.

B. Participant Access and Eligibility. Appendix B specifies the target group(s) of individuals who are served in this waiver, the number of participants that the state expects to serve during each year that the waiver is in effect, applicable Medicaid eligibility and post-eligibility (if applicable) requirements, and procedures for the evaluation and reevaluation of level of care.

C. Participant Services. Appendix C specifies the home and community-based waiver services that are furnished through the waiver, including applicable limitations on such services.

D. Participant-Centered Service Planning and Delivery. Appendix D specifies the procedures and methods that the state uses to develop, implement and monitor the participant-centered service plan (of care).

E. Participant-Direction of Services. When the state provides for participant direction of services, Appendix E specifies the participant direction opportunities that are offered in the waiver and the supports that are available to participants who direct their services. (Select one):
Yes. This waiver provides participant direction opportunities. Appendix E is required.

No. This waiver does not provide participant direction opportunities. Appendix E is not required.

F. Participant Rights. Appendix F specifies how the state informs participants of their Medicaid Fair Hearing rights and other procedures to address participant grievances and complaints.

G. Participant Safeguards. Appendix G describes the safeguards that the state has established to assure the health and welfare of waiver participants in specified areas.

H. Quality Improvement Strategy. Appendix H contains the Quality Improvement Strategy for this waiver.

I. Financial Accountability. Appendix I describes the methods by which the state makes payments for waiver services, ensures the integrity of these payments, and complies with applicable federal requirements concerning payments and federal financial participation.

J. Cost-Neutrality Demonstration. Appendix J contains the state's demonstration that the waiver is cost-neutral.

4. Waiver(s) Requested

A. Comparability. The state requests a waiver of the requirements contained in §1902(a)(10)(B) of the Act in order to provide the services specified in Appendix C that are not otherwise available under the approved Medicaid state plan to individuals who: (a) require the level(s) of care specified in Item 1.F and (b) meet the target group criteria specified in Appendix B.

B. Income and Resources for the Medically Needy. Indicate whether the state requests a waiver of §1902(a)(10)(C)(i)(III) of the Act in order to use institutional income and resource rules for the medically needy (select one):

- Not Applicable
- No
- Yes

C. Statewideness. Indicate whether the state requests a waiver of the statewideness requirements in §1902(a)(1) of the Act (select one):

- No
- Yes

If yes, specify the waiver of statewideness that is requested (check each that applies):

- Geographic Limitation. A waiver of statewideness is requested in order to furnish services under this waiver only to individuals who reside in the following geographic areas or political subdivisions of the state. Specify the areas to which this waiver applies and, as applicable, the phase-in schedule of the waiver by geographic area:

- Limited Implementation of Participant-Direction. A waiver of statewideness is requested in order to make participant-direction of services as specified in Appendix E available only to individuals who reside in the following geographic areas or political subdivisions of the state. Participants who reside in these areas may elect to direct their services as provided by the state or receive comparable services through the service delivery methods that are in effect elsewhere in the state. Specify the areas of the state affected by this waiver and, as applicable, the phase-in schedule of the waiver by geographic area:

5. Assurances

In accordance with 42 CFR §441.302, the state provides the following assurances to CMS:

08/24/2022
A. Health & Welfare: The state assures that necessary safeguards have been taken to protect the health and welfare of persons receiving services under this waiver. These safeguards include:

1. As specified in Appendix C, adequate standards for all types of providers that provide services under this waiver;

2. Assurance that the standards of any state licensure or certification requirements specified in Appendix C are met for services or for individuals furnishing services that are provided under the waiver. The state assures that these requirements are met on the date that the services are furnished; and,

3. Assurance that all facilities subject to §1616(e) of the Act where home and community-based waiver services are provided comply with the applicable state standards for board and care facilities as specified in Appendix C.

B. Financial Accountability. The state assures financial accountability for funds expended for home and community-based services and maintains and makes available to the Department of Health and Human Services (including the Office of the Inspector General), the Comptroller General, or other designees, appropriate financial records documenting the cost of services provided under the waiver. Methods of financial accountability are specified in Appendix I.

C. Evaluation of Need: The state assures that it provides for an initial evaluation (and periodic reevaluations, at least annually) of the need for a level of care specified for this waiver, when there is a reasonable indication that an individual might need such services in the near future (one month or less) but for the receipt of home and community-based services under this waiver. The procedures for evaluation and reevaluation of level of care are specified in Appendix B.

D. Choice of Alternatives: The state assures that when an individual is determined to be likely to require the level of care specified for this waiver and is in a target group specified in Appendix B, the individual (or, legal representative, if applicable) is:

1. Informed of any feasible alternatives under the waiver; and,

2. Given the choice of either institutional or home and community-based waiver services. Appendix B specifies the procedures that the state employs to ensure that individuals are informed of feasible alternatives under the waiver and given the choice of institutional or home and community-based waiver services.

E. Average Per Capita Expenditures: The state assures that, for any year that the waiver is in effect, the average per capita expenditures under the waiver will not exceed 100 percent of the average per capita expenditures that would have been made under the Medicaid state plan for the level(s) of care specified for this waiver had the waiver not been granted. Cost-neutrality is demonstrated in Appendix J.

F. Actual Total Expenditures: The state assures that the actual total expenditures for home and community-based waiver and other Medicaid services and its claim for FFP in expenditures for the services provided to individuals under the waiver will not, in any year of the waiver period, exceed 100 percent of the amount that would be incurred in the absence of the waiver by the state's Medicaid program for these individuals in the institutional setting(s) specified for this waiver.

G. Institutionalization Absent Waiver: The state assures that, absent the waiver, individuals served in the waiver would receive the appropriate type of Medicaid-funded institutional care for the level of care specified for this waiver.

H. Reporting: The state assures that annually it will provide CMS with information concerning the impact of the waiver on the type, amount and cost of services provided under the Medicaid state plan and on the health and welfare of waiver participants. This information will be consistent with a data collection plan designed by CMS.

I. Habilitation Services. The state assures that prevocational, educational, or supported employment services, or a combination of these services, if provided as habilitation services under the waiver are: (1) not otherwise available to the individual through a local educational agency under the Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973; and, (2) furnished as part of expanded habilitation services.

J. Services for Individuals with Chronic Mental Illness. The state assures that federal financial participation (FFP) will not be claimed in expenditures for waiver services including, but not limited to, day treatment or partial hospitalization, psychosocial rehabilitation services, and clinic services provided as home and community-based services to individuals with chronic mental illnesses if these individuals, in the absence of a waiver, would be placed in an IMD and are: (1) age 22 to 64; (2) age 65 and older and the state has not included the optional Medicaid benefit cited in 42 CFR §440.140; or (3) age 21 and under and the state has not included the optional Medicaid benefit cited in 42 CFR § 440.160.
6. Additional Requirements

Note: Item 6-I must be completed.

A. Service Plan. In accordance with 42 CFR §441.301(b)(1)(i), a participant-centered service plan (of care) is developed for each participant employing the procedures specified in Appendix D. All waiver services are furnished pursuant to the service plan. The service plan describes: (a) the waiver services that are furnished to the participant, their projected frequency and the type of provider that furnishes each service and (b) the other services (regardless of funding source, including state plan services) and informal supports that complement waiver services in meeting the needs of the participant. The service plan is subject to the approval of the Medicaid agency. Federal financial participation (FFP) is not claimed for waiver services furnished prior to the development of the service plan or for services that are not included in the service plan.

B. Inpatients. In accordance with 42 CFR §441.301(b)(1)(ii), waiver services are not furnished to individuals who are inpatients of a hospital, nursing facility or ICF/IID.

C. Room and Board. In accordance with 42 CFR §441.310(a)(2), FFP is not claimed for the cost of room and board except when: (a) provided as part of respite services in a facility approved by the state that is not a private residence or (b) claimed as a portion of the rent and food that may be reasonably attributed to an unrelated caregiver who resides in the same household as the participant, as provided in Appendix I.

D. Access to Services. The state does not limit or restrict participant access to waiver services except as provided in Appendix C.

E. Free Choice of Provider. In accordance with 42 CFR §431.151, a participant may select any willing and qualified provider to furnish waiver services included in the service plan unless the state has received approval to limit the number of providers under the provisions of §1915(b) or another provision of the Act.

F. FFP Limitation. In accordance with 42 CFR §433 Subpart D, FFP is not claimed for services when another third-party (e.g., another third party health insurer or other federal or state program) is legally liable and responsible for the provision and payment of the service. FFP also may not be claimed for services that are available without charge, or as free care to the community. Services will not be considered to be without charge, or free care, when (1) the provider establishes a fee schedule for each service available and (2) collects insurance information from all those served (Medicaid, and non-Medicaid), and bills other legally liable third party insurers. Alternatively, if a provider certifies that a particular legally liable third party insurer does not pay for the service(s), the provider may not generate further bills for that insurer for that annual period.

G. Fair Hearing: The state provides the opportunity to request a Fair Hearing under 42 CFR §431 Subpart E, to individuals: (a) who are not given the choice of home and community-based waiver services as an alternative to institutional level of care specified for this waiver; (b) who are denied the service(s) of their choice or the provider(s) of their choice; or (c) whose services are denied, suspended, reduced or terminated. Appendix F specifies the state's procedures to provide individuals the opportunity to request a Fair Hearing, including providing notice of action as required in 42 CFR §431.210.

H. Quality Improvement. The state operates a formal, comprehensive system to ensure that the waiver meets the assurances and other requirements contained in this application. Through an ongoing process of discovery, remediation and improvement, the state assures the health and welfare of participants by monitoring: (a) level of care determinations; (b) individual plans and services delivery; (c) provider qualifications; (d) participant health and welfare; (e) financial oversight and (f) administrative oversight of the waiver. The state further assures that all problems identified through its discovery processes are addressed in an appropriate and timely manner, consistent with the severity and nature of the problem. During the period that the waiver is in effect, the state will implement the Quality Improvement Strategy specified in Appendix H.

I. Public Input. Describe how the state secures public input into the development of the waiver:
HHSC will distribute the CLASS amendment Tribal Notification to the tribal representatives on April 1, 2022. The Tribal Notification provided contact information to request copies of the amendment, provide comments, and request information from HHSC via email, mail, or telephone. HHSC provides copies free of charge. The state did not receive any comments from the tribal representatives.

The Public Notice of Intent (PNI) for the CLASS amendment will be published in the Texas Register on April 8, 2022, allowing a 30-day comment period in compliance with federal and state requirements. The Texas Register is published weekly and is the journal of state agency rulemaking for Texas. In addition to activities related to rules, the Texas Register publishes various public notices including attorney general opinions, gubernatorial appointments, state agency requests for proposals and other documents, and it is used regularly by stakeholders. HHSC publishes all Medicaid waiver submissions in the Texas Register in addition to many other notices. The publication is available online and in hard copy at the Texas State Library and Archives Commission, the State Law Library, the Legislative Reference Library located in the State Capitol building, and the University of North Texas libraries. All of these sites are located in Austin, except for the University of North Texas, which is located in Denton. Printed copies of the Texas Register are also available through paid subscription; subscribers include cities, counties, and public libraries throughout the state. The PNI provided contact information to request copies of the amendment, provide comments, and request information from the State via email, mail, or telephone.

HHSC also sent a request to the HHSC Office of Social Services to distribute notice of the amendment to 290 local eligibility offices with instructions to post the notice in public areas.

HHSC posted the amendment on the HHSC website at https://hhs.texas.gov/laws-regulations/policies-rules/waivers.

The public comment period expired on May 9, 2022. During the public comment period, the State did not receive any public comments.

J. Notice to Tribal Governments. The state assures that it has notified in writing all federally-recognized Tribal Governments that maintain a primary office and/or majority population within the State of the State's intent to submit a Medicaid waiver request or renewal request to CMS at least 60 days before the anticipated submission date is provided by Presidential Executive Order 13175 of November 6, 2000. Evidence of the applicable notice is available through the Medicaid Agency.

7. Contact Person(s)

A. The Medicaid agency representative with whom CMS should communicate regarding the waiver is:

<table>
<thead>
<tr>
<th>Last Name:</th>
<th>Fox</th>
</tr>
</thead>
<tbody>
<tr>
<td>First Name:</td>
<td>Steve</td>
</tr>
<tr>

8. Authorizing Signature

This document, together with the attached revisions to the affected components of the waiver, constitutes the state’s request to amend its approved waiver under §1915(c) of the Social Security Act. The state affirms that it will abide by all provisions of the
waiver, including the provisions of this amendment when approved by CMS. The state further attests that it will continuously operate the waiver in accordance with the assurances specified in Section V and the additional requirements specified in Section VI of the approved waiver. The state certifies that additional proposed revisions to the waiver request will be submitted by the Medicaid agency in the form of additional waiver amendments.

Signature: JAYASREE SANKARAN

State Medicaid Director or Designee

Submission Date: Aug 12, 2022

Note: The Signature and Submission Date fields will be automatically completed when the State Medicaid Director submits the application.

Attachment #1: Transition Plan
Check the box next to any of the following changes from the current approved waiver. Check all boxes that apply.

☐ Replacing an approved waiver with this waiver.

☐ Combining waivers.

☐ Splitting one waiver into two waivers.

☐ Eliminating a service.

☐ Adding or decreasing an individual cost limit pertaining to eligibility.

☐ Adding or decreasing limits to a service or a set of services, as specified in Appendix C.

☐ Reducing the unduplicated count of participants (Factor C).

☐ Adding new, or decreasing, a limitation on the number of participants served at any point in time.

08/24/2022
Making any changes that could result in some participants losing eligibility or being transferred to another waiver under 1915(c) or another Medicaid authority.

Making any changes that could result in reduced services to participants.

Specify the transition plan for the waiver:

Attachment #2: Home and Community-Based Settings Waiver Transition Plan

Specify the state's process to bring this waiver into compliance with federal home and community-based (HCB) settings requirements at 42 CFR 441.301(c)(4)-(5), and associated CMS guidance.

Consult with CMS for instructions before completing this item. This field describes the status of a transition process at the point in time of submission. Relevant information in the planning phase will differ from information required to describe attainment of milestones.

To the extent that the state has submitted a statewide HCB settings transition plan to CMS, the description in this field may reference that statewide plan. The narrative in this field must include enough information to demonstrate that this waiver complies with federal HCB settings requirements, including the compliance and transition requirements at 42 CFR 441.301(c)(6), and that this submission is consistent with the portions of the statewide HCB settings transition plan that are germane to this waiver. Quote or summarize germane portions of the statewide HCB settings transition plan as required.

Note that Appendix C-5 HCB Settings describes settings that do not require transition; the settings listed there meet federal HCB setting requirements as of the date of submission. Do not duplicate that information here.

Update this field and Appendix C-5 when submitting a renewal or amendment to this waiver for other purposes. It is not necessary for the state to amend the waiver solely for the purpose of updating this field and Appendix C-5. At the end of the state’s HCB settings transition process for this waiver, when all waiver settings meet federal HCB setting requirements, enter "Completed" in this field, and include in Section C-5 the information on all HCB settings in the waiver.

The state assures that this waiver renewal will be subject to any provisions or requirements included in the state's most recent and/or approved home and community-based settings Statewide Transition Plan. The state will implement any CMCS required changes by the end of the transition period as outlined in the home and community-based settings Statewide Transition Plan.

Additional Needed Information (Optional)

Provide additional needed information for the waiver (optional):

Appendix A: Waiver Administration and Operation

1. State Line of Authority for Waiver Operation. Specify the state line of authority for the operation of the waiver (select one):

- ☐ The waiver is operated by the state Medicaid agency.

Specify the Medicaid agency division/unit that has line authority for the operation of the waiver program (select one):

- ☐ The Medical Assistance Unit.

Specify the unit name:

| Medicaid and CHIP services |

(Do not complete item A-2)

- ☐ Another division/unit within the state Medicaid agency that is separate from the Medical Assistance Unit.

08/24/2022
Specify the division/unit name. This includes administrations/divisions under the umbrella agency that has been identified as the Single State Medicaid Agency.

(Complete item A-2-a).

**The waiver is operated by a separate agency of the state that is not a division/unit of the Medicaid agency.**

Specify the division/unit name:

In accordance with 42 CFR §431.10, the Medicaid agency exercises administrative discretion in the administration and supervision of the waiver and issues policies, rules and regulations related to the waiver. The interagency agreement or memorandum of understanding that sets forth the authority and arrangements for this policy is available through the Medicaid agency to CMS upon request. (Complete item A-2-b).

### Appendix A: Waiver Administration and Operation

#### 2. Oversight of Performance.

**a. Medicaid Director Oversight of Performance When the Waiver is Operated by another Division/Unit within the State Medicaid Agency.** When the waiver is operated by another division/administration within the umbrella agency designated as the Single State Medicaid Agency. Specify (a) the functions performed by that division/administration (i.e., the Developmental Disabilities Administration within the Single State Medicaid Agency), (b) the document utilized to outline the roles and responsibilities related to waiver operation, and (c) the methods that are employed by the designated State Medicaid Director (in some instances, the head of umbrella agency) in the oversight of these activities:

As indicated in section 1 of this appendix, the waiver is not operated by another division/unit within the State Medicaid agency. Thus this section does not need to be completed.

**b. Medicaid Agency Oversight of Operating Agency Performance.** When the waiver is not operated by the Medicaid agency, specify the functions that are expressly delegated through a memorandum of understanding (MOU) or other written document, and indicate the frequency of review and update for that document. Specify the methods that the Medicaid agency uses to ensure that the operating agency performs its assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify the frequency of Medicaid agency assessment of operating agency performance:

As indicated in section 1 of this appendix, the waiver is not operated by a separate agency of the State. Thus this section does not need to be completed.

### Appendix A: Waiver Administration and Operation

#### 3. Use of Contracted Entities. Specify whether contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable) (select one):

**Yes. Contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or operating agency (if applicable).**

Specify the types of contracted entities and briefly describe the functions that they perform. *Complete Items A-5 and A-6.*
No. Contracted entities do not perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable).

Appendix A: Waiver Administration and Operation

4. Role of Local/Regional Non-State Entities. Indicate whether local or regional non-state entities perform waiver operational and administrative functions and, if so, specify the type of entity (Select One):

- Not applicable
- Applicable - Local/regional non-state agencies perform waiver operational and administrative functions.

Check each that applies:

- Local/Regional non-state public agencies perform waiver operational and administrative functions at the local or regional level. There is an interagency agreement or memorandum of understanding between the State and these agencies that sets forth responsibilities and performance requirements for these agencies that is available through the Medicaid agency.

Specify the nature of these agencies and complete items A-5 and A-6:

- Local/Regional non-governmental non-state entities conduct waiver operational and administrative functions at the local or regional level. There is a contract between the Medicaid agency and/or the operating agency (when authorized by the Medicaid agency) and each local/regional non-state entity that sets forth the responsibilities and performance requirements of the local/regional entity. The contract(s) under which private entities conduct waiver operational functions are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Specify the nature of these entities and complete items A-5 and A-6:

Appendix A: Waiver Administration and Operation

5. Responsibility for Assessment of Performance of Contracted and/or Local/Regional Non-State Entities. Specify the state agency or agencies responsible for assessing the performance of contracted and/or local/regional non-state entities in conducting waiver operational and administrative functions:

Appendix A: Waiver Administration and Operation

6. Assessment Methods and Frequency. Describe the methods that are used to assess the performance of contracted and/or local/regional non-state entities to ensure that they perform assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify how frequently the performance of contracted and/or local/regional non-state entities is assessed:
Appendix A: Waiver Administration and Operation

7. Distribution of Waiver Operational and Administrative Functions. In the following table, specify the entity or entities that have responsibility for conducting each of the waiver operational and administrative functions listed (check each that applies):

In accordance with 42 CFR §431.10, when the Medicaid agency does not directly conduct a function, it supervises the performance of the function and establishes and/or approves policies that affect the function. All functions not performed directly by the Medicaid agency must be delegated in writing and monitored by the Medicaid Agency. Note: More than one box may be checked per item. Ensure that Medicaid is checked when the Single State Medicaid Agency (1) conducts the function directly; (2) supervises the delegated function; and/or (3) establishes and/or approves policies related to the function.

Appendix A: Waiver Administration and Operation

Quality Improvement: Administrative Authority of the Single State Medicaid Agency

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Administrative Authority

The Medicaid Agency retains ultimate administrative authority and responsibility for the operation of the waiver program by exercising oversight of the performance of waiver functions by other state and local/regional non-state agencies (if appropriate) and contracted entities.

i. Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Performance measures for administrative authority should not duplicate measures found in other appendices of the waiver application. As necessary and applicable, performance measures should focus on:

- Uniformity of development/execution of provider agreements throughout all geographic areas covered by the waiver
- Equitable distribution of waiver openings in all geographic areas covered by the waiver
- Compliance with HCB settings requirements and other new regulatory components (for waiver actions submitted on or after March 17, 2014)

Where possible, include numerator/denominator.
For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

b. Methods for Remediation/Fixing Individual Problems
   i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

   N/A

ii. Remediation Data Aggregation
   Remediation-related Data Aggregation and Analysis (including trend identification)

   c. Timelines
   When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Administrative Authority that are currently non-operational.
   ☐ No
   ☑ Yes
   Please provide a detailed strategy for assuring Administrative Authority, the specific timeline for implementing identified strategies, and the parties responsible for its operation.
Appendix B: Participant Access and Eligibility

B-1: Specification of the Waiver Target Group(s)

a. **Target Group(s).** Under the waiver of Section 1902(a)(10)(B) of the Act, the state limits waiver services to one or more groups or subgroups of individuals. Please see the instruction manual for specifics regarding age limits. *In accordance with 42 CFR §441.301(b)(6), select one or more waiver target groups, check each of the subgroups in the selected target group(s) that may receive services under the waiver, and specify the minimum and maximum (if any) age of individuals served in each subgroup.*

b. **Additional Criteria.** The state further specifies its target group(s) as follows:

An eligible individual must meet CLASS waiver eligibility criteria and participation requirements in accordance with the following sections of the Texas Administrative Code:

1. Eligibility Criteria: Title 40 of the Texas Administrative Code, Part 1, Chapter 45, Section 45.201 and
2. Mandatory Participation Requirements for an Individual: Title 40 of the Texas Administrative Code, Chapter 45, Subchapter C, Section 45.302.

c. **Transition of Individuals Affected by Maximum Age Limitation.** When there is a maximum age limit that applies to individuals who may be served in the waiver, describe the transition planning procedures that are undertaken on behalf of participants affected by the age limit *(select one):*

- ☑ Not applicable. There is no maximum age limit
- ☐ The following transition planning procedures are employed for participants who will reach the waiver's maximum age limit.
Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (1 of 2)

a. Individual Cost Limit. The following individual cost limit applies when determining whether to deny home and community-based services or entrance to the waiver to an otherwise eligible individual (select one). Please note that a state may have only ONE individual cost limit for the purposes of determining eligibility for the waiver:

- **No Cost Limit.** The state does not apply an individual cost limit. **Do not complete Item B-2-b or item B-2-c.**

- **Cost Limit in Excess of Institutional Costs.** The state refuses entrance to the waiver to any otherwise eligible individual when the state reasonably expects that the cost of the home and community-based services furnished to that individual would exceed the cost of a level of care specified for the waiver up to an amount specified by the state. **Complete Items B-2-b and B-2-c.**

  **The limit specified by the state is (select one)**

  - A level higher than 100% of the institutional average.
    
    Specify the percentage:  

  - Other
    
    Specify:

    The cost limit is $114,736.07. The cost limit is determined by legislative direction.

- **Institutional Cost Limit.** Pursuant to 42 CFR 441.301(a)(3), the state refuses entrance to the waiver to any otherwise eligible individual when the state reasonably expects that the cost of the home and community-based services furnished to that individual would exceed 100% of the cost of the level of care specified for the waiver. **Complete Items B-2-b and B-2-c.**

- **Cost Limit Lower Than Institutional Costs.** The state refuses entrance to the waiver to any otherwise qualified individual when the state reasonably expects that the cost of home and community-based services furnished to that individual would exceed the following amount specified by the state that is less than the cost of a level of care specified for the waiver.

  Specify the basis of the limit, including evidence that the limit is sufficient to assure the health and welfare of waiver participants. **Complete Items B-2-b and B-2-c.**

  **The cost limit specified by the state is (select one):**

  - The following dollar amount:
    
    Specify dollar amount:  

    **The dollar amount (select one)**

    - Is adjusted each year that the waiver is in effect by applying the following formula:
Specify the formula:

- May be adjusted during the period the waiver is in effect. The state will submit a waiver amendment to CMS to adjust the dollar amount.
- The following percentage that is less than 100% of the institutional average:
  - Specify percent: 
  - Other:
    - Specify:

Appendix B: Participant Access and Eligibility

### B-2: Individual Cost Limit (2 of 2)

**b. Method of Implementation of the Individual Cost Limit.** When an individual cost limit is specified in Item B-2-a, specify the procedures that are followed to determine in advance of waiver entrance that the individual's health and welfare can be assured within the cost limit:

The service planning team, which includes the individual, legally authorized representative, or both, as appropriate, case manager, a representative of the direct services agency, and other persons as chosen by the individual, reviews assessments and other information related to the individual’s needs in order to ascertain the amount of waiver services that the individual may require. Based on this information, the service planning team develops a service plan that includes waiver services and non-waiver services which may include Medicaid State Plan services and other services and supports available to the individual. The service planning team must have a reasonable expectation that the service plan will adequately meet the needs of the individual in a community setting and that the plan ensures that the individual’s health and welfare can be assured within the cost limit. The service planning team members sign the service plan prior to implementation and certify that the waiver services are appropriate to meet the needs of the individual.

The waiver is intended to serve individuals who would require institutionalization in an Intermediate Care Facility for Individuals with an Intellectual Disability or Related Conditions if the waiver services and supports were not available to them. All individuals must have an individual plan of care at a cost within the cost limit. For individuals with needs that exceed the cost limit, the service planning team considers other options to ensure their needs are met. The process includes examining third-party resources, possible transition to STAR+PLUS HCBS, or institutional services. An individual whose request for enrollment into the CLASS waiver is denied or is not acted upon with reasonable promptness is entitled to a fair hearing in accordance with Title 1 of the Texas Administrative Code, Part 15, Chapter 357, Subchapter A. HHSC sends written notice of denial of eligibility to the individual or legally authorized representative notifying the individual, or legally authorized representative, of the denial of the individual's request for enrollment into the CLASS waiver and includes in the notice the individual's right to request a fair hearing and the process to follow to request a fair hearing. HHSC sends a copy of the notice to the individual’s direct services agency, case management agency, and if the consumer directed services option is selected, financial management services agency.

**c. Participant Safeguards.** When the state specifies an individual cost limit in Item B-2-a and there is a change in the participant's condition or circumstances post-entrance to the waiver that requires the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, the state has established the following safeguards to avoid an adverse impact on the participant (check each that applies):

- The participant is referred to another waiver that can accommodate the individual's needs.
Additional services in excess of the individual cost limit may be authorized.

Specify the procedures for authorizing additional services, including the amount that may be authorized:

☐ Other safeguard(s)

Specify:

All waiver individuals must have a service plan at a cost within the cost limit. For individuals with needs that exceed the cost limit at any time during enrollment, HHSC considers other options to ensure their needs are met. The process, which ensures that individuals’ health and welfare needs are met within the cost limit, includes:
- examining the availability of non-waiver resources including recommendations of referrals to other services in the community,
- possible transition to STAR+PLUS HCBS, or institutional services, or
- possible use of state funds to cover costs above the cost limit in accordance with Title 40 of the Texas Administrative Code, Part 1, Chapter 40, Section 40.1.

During the enrollment process and at least annually the case manager informs the individual, legally authorized representative, or both, as appropriate of other options and makes referrals as appropriate. If HHSC proposes to terminate the individual's waiver eligibility or reduce services, HHSC gives the individual, legally authorized representative, or both, as appropriate the opportunity to request a fair hearing in accordance with Title 1 of the Texas Administrative Code, Part 15, Chapter 357, Subchapter A.

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (1 of 4)

a. Unduplicated Number of Participants. The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The state will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Unduplicated Number of Participants</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td>5878</td>
</tr>
<tr>
<td>Year 2</td>
<td>5878</td>
</tr>
<tr>
<td>Year 3</td>
<td>6448</td>
</tr>
<tr>
<td>Year 4</td>
<td>6497</td>
</tr>
<tr>
<td>Year 5</td>
<td>6494</td>
</tr>
</tbody>
</table>

b. Limitation on the Number of Participants Served at Any Point in Time. Consistent with the unduplicated number of participants specified in Item B-3-a, the state may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the state limits the number of participants in this way: (select one) :

- The state does not limit the number of participants that it serves at any point in time during a waiver year.
The state limits the number of participants that it serves at any point in time during a waiver year.

The limit that applies to each year of the waiver period is specified in the following table:

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Maximum Number of Participants Served At Any Point During the Year</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td>5650</td>
</tr>
<tr>
<td>Year 2</td>
<td>5650</td>
</tr>
<tr>
<td>Year 3</td>
<td>6280</td>
</tr>
<tr>
<td>Year 4</td>
<td>6432</td>
</tr>
<tr>
<td>Year 5</td>
<td>6338</td>
</tr>
</tbody>
</table>

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

c. Reserved Waiver Capacity. The state may reserve a portion of the participant capacity of the waiver for specified purposes (e.g., provide for the community transition of institutionalized persons or furnish waiver services to individuals experiencing a crisis) subject to CMS review and approval. The State (select one):

- Not applicable. The state does not reserve capacity.
- ☑ The state reserves capacity for the following purpose(s).

Purpose(s) the state reserves capacity for:

<table>
<thead>
<tr>
<th>Purposes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Promoting Independence/Money Follows the Person</td>
</tr>
</tbody>
</table>

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

Purpose (provide a title or short description to use for lookup):

Promoting Independence/Money Follows the Person

Purpose (describe):
Texas Promoting Independence/Money Follows the Person allows individuals residing in an institutional setting to return to the community and receive long-term services and supports without being placed on an interest list. The target population for the program is individuals who reside in an institution and are enrolled in Medicaid.

If the person is transitioning from a nursing facility, the relocation specialist, under contract with the managed care organization (MCO), provides relocation support. Some other institutions employ specialists who assist in transition from the institution to the community. If an individual chooses to relocate from an institution to the community, the transition specialist coordinates the relocation with the resident, provider case manager, and other applicable parties such as the resident’s family, legally authorized representative, and the institution. In addition, representatives from the following organizations provide information and assistance to individuals residing in an institution interested in returning to a community setting:

- MCO Service Coordinator
- Local Area Agencies on Aging;
- Local Long-Term Care Ombudsmen;
- Institution Social Workers;
- Institution Family Councils;
- Local Long-Term Services and Supports Providers;
- Community Transition Teams; and
- Aging and Disability Resource Centers.

Describe how the amount of reserved capacity was determined:

The State reserves capacity for this target group in accordance with state legislative appropriations.

The capacity that the State reserves in each waiver year is specified in the following table:

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Capacity Reserved</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td>51</td>
</tr>
<tr>
<td>Year 2</td>
<td>51</td>
</tr>
<tr>
<td>Year 3</td>
<td>51</td>
</tr>
<tr>
<td>Year 4</td>
<td>51</td>
</tr>
<tr>
<td>Year 5</td>
<td>51</td>
</tr>
</tbody>
</table>

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (3 of 4)

d. Scheduled Phase-In or Phase-Out. Within a waiver year, the state may make the number of participants who are served subject to a phase-in or phase-out schedule (select one):

- The waiver is not subject to a phase-in or a phase-out schedule.
- The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.

e. Allocation of Waiver Capacity.

Select one:

- Waiver capacity is allocated/managed on a statewide basis.
- Waiver capacity is allocated to local/regional non-state entities.
Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities:

f. Selection of Entrants to the Waiver. Specify the policies that apply to the selection of individuals for entrance to the waiver:

When appropriations do not support demand, HHSC maintains a CLASS interest list and assigns placement on the interest list chronologically based on the date of the request for CLASS services. The individual must reside in the state of Texas with the exception of an individual who is a military family member (the spouse or child of a military member). Military family members will not be removed from the CLASS interest list for temporarily moving outside of the state of Texas due to the military member's assignment. If an applicant, who is a military family member is offered enrollment while temporarily living outside of Texas they shall retain their position on the interest list while the military member remains on active duty or for up to one year after the military member’s active duty ends.

HHSC offers a vacancy to individuals on a first-come, first-served basis as funding is available and according to the chronological date of the individual's date of registration on the CLASS interest list. If an individual seeking entrance into CLASS meets the criteria for a reserved capacity group, they bypass the interest list, as long as there are reserved waiver capacity slots available. If there are no slots remaining in the Promoting Independence/Money Follows the Person reserved capacity group, the State will request an increase in slots included in the reserved capacity group to accommodate the additional individuals.

When the individual requests placement on the interest list, HHSC requests that the individual provide contact information, including a Texas mailing address, with the exception of individuals who are temporarily out of the state due to military assignments. HHSC offers a vacancy to individuals on a first-come, first-served basis as funding is available and according to the chronological date of the individual's date of registration on the CLASS interest list.

Once an offer to apply for CLASS is made to an individual, the applicant must choose a case management agency and a direct services agency from a list of all contracted case management agencies and a direct services agencies in the catchment area in which the individual resides and notify HHSC of the choices. HHSC notifies the chosen providers. The case manager schedules and conducts an initial face-to-face contact to begin the eligibility determination process. The direct services agency meets with the individual, legally authorized representative, or both, as appropriate to conduct the level of care eligibility assessment. The individual must (1) meet Medicaid eligibility requirements; (2) meet level of care eligibility; (3) assist the direct services agency with obtaining a completed level of care from the physician; and (4) have an ongoing need for services. Once the level of care assessment is obtained from the physician, and HHSC determines eligibility, the case manager schedules a meeting for the service planning team to develop the service plan and determine the date for services to begin.

If an individual is denied waiver enrollment based on diagnosis, level of care, or other functional eligibility requirements, a HHSC representative notifies the individual, legally authorized representative, or both, as appropriate that, if he or she chooses, his or her name will be placed on one or more other waiver program’s interest list, using his or her original interest list request date for the CLASS waiver.

If the individual requests his or her name be added to another interest list, the HHSC representative will contact the appropriate interest list authority and direct the interest list authority to place the individual’s name on the program’s interest list, using his or her original interest list request date for the CLASS waiver.

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served - Attachment #1 (4 of 4)

Answers provided in Appendix B-3-d indicate that you do not need to complete this section.

Appendix B: Participant Access and Eligibility
B-4: Eligibility Groups Served in the Waiver

a. 1. State Classification. The state is a (select one):
   - ☐ §1634 State
   - ☐ SSI Criteria State
   - ☐ 209(b) State

2. Miller Trust State.
   Indicate whether the state is a Miller Trust State (select one):
   - ☐ No
   - ☐ Yes

b. Medicaid Eligibility Groups Served in the Waiver. Individuals who receive services under this waiver are eligible under the following eligibility groups contained in the state plan. The state applies all applicable federal financial participation limits under the plan. Check all that apply:

<table>
<thead>
<tr>
<th>Eligibility Groups Served in the Waiver (excluding the special home and community-based waiver group under 42 CFR §435.217)</th>

<tr>
<td>☐ Optional categorically needy aged and/or disabled individuals who have income at:</td>
</tr>
</tbody>
</table>

Select one:

- ☐ 100% of the Federal poverty level (FPL)
- ☐ % of FPL, which is lower than 100% of FPL.

Specify percentage: [______]

- ☒ Working individuals with disabilities who buy into Medicaid (BBA working disabled group as provided in §1902(a)(10)(A)(ii)(XIII) of the Act)
- ☐ Working individuals with disabilities who buy into Medicaid (TWWIIA Basic Coverage Group as provided in §1902(a)(10)(A)(ii)(XV) of the Act)
- ☐ Working individuals with disabilities who buy into Medicaid (TWWIIA Medical Improvement Coverage Group as provided in §1902(a)(10)(A)(ii)(XVI) of the Act)
- ☐ Disabled individuals age 18 or younger who would require an institutional level of care (TEFRA 134 eligibility group as provided in §1902(e)(3) of the Act)
- ☐ Medically needy in 209(b) States (42 CFR §435.330)
- ☐ Medically needy in 1634 States and SSI Criteria States (42 CFR §435.320, §435.322 and §435.324)
- ☒ Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the state plan that may receive services under this waiver)

Specify: [______]
Special home and community-based waiver group under 42 CFR §435.217 Note: When the special home and community-based waiver group under 42 CFR §435.217 is included, Appendix B-5 must be completed

- Yes. The state furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217.

Select one and complete Appendix B-5.

- All individuals in the special home and community-based waiver group under 42 CFR §435.217
- Only the following groups of individuals in the special home and community-based waiver group under 42 CFR §435.217

Check each that applies:

- A special income level equal to:
  - 300% of the SSI Federal Benefit Rate (FBR)
  - A percentage of FBR, which is lower than 300% (42 CFR §435.236)
    - Specify percentage: 
  - A dollar amount which is lower than 300%.
    - Specify dollar amount: 

- Aged, blind and disabled individuals who meet requirements that are more restrictive than the SSI program (42 CFR §435.121)
- Medically needy without spend down in states which also provide Medicaid to recipients of SSI (42 CFR §435.320, §435.322 and §435.324)
- Medically needy without spend down in 209(b) States (42 CFR §435.330)
- Aged and disabled individuals who have income at:
  - 100% of FPL
  - % of FPL, which is lower than 100%.
Specify percentage amount:

☐ Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the state plan that may receive services under this waiver)

Specify:

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (1 of 7)

In accordance with 42 CFR §441.303(e), Appendix B-5 must be completed when the state furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217, as indicated in Appendix B-4. Post-eligibility applies only to the 42 CFR §435.217 group.

a. Use of Spousal Impoverishment Rules. Indicate whether spousal impoverishment rules are used to determine eligibility for the special home and community-based waiver group under 42 CFR §435.217:

Note: For the period beginning January 1, 2014 and extending through September 30, 2019 (or other date as required by law), the following instructions are mandatory. The following box should be checked for all waivers that furnish waiver services to the 42 CFR §435.217 group effective at any point during this time period.

☒ Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group. In the case of a participant with a community spouse, the state uses spousal post-eligibility rules under §1924 of the Act. Complete Items B-5-e (if the selection for B-4-a-i is SSI State or §1634) or B-5-f (if the selection for B-4-a-i is 209b State) and Item B-5-g unless the state indicates that it also uses spousal post-eligibility rules for the time periods before January 1, 2014 or after September 30, 2019 (or other date as required by law).

Note: The following selections apply for the time periods before January 1, 2014 or after September 30, 2019 (or other date as required by law) (select one).

☐ Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group.

In the case of a participant with a community spouse, the state elects to (select one):

☐ Use spousal post-eligibility rules under §1924 of the Act.
  (Complete Item B-5-b (SSI State) and Item B-5-d)

☐ Use regular post-eligibility rules under 42 CFR §435.726 (SSI State) or under §435.735 (209b State)
  (Complete Item B-5-b (SSI State). Do not complete Item B-5-d)

☐ Spousal impoverishment rules under §1924 of the Act are not used to determine eligibility of individuals with a community spouse for the special home and community-based waiver group. The state uses regular post-eligibility rules for individuals with a community spouse.
  (Complete Item B-5-b (SSI State). Do not complete Item B-5-d)

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (2 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

b. Regular Post-Eligibility Treatment of Income: SSI State.

The state uses the post-eligibility rules at 42 CFR 435.726 for individuals who do not have a spouse or have a spouse who is not a community spouse as specified in §1924 of the Act. Payment for home and community-based waiver services is reduced by the amount remaining after deducting the following allowances and expenses from the waiver participant's
income:

i. Allowance for the needs of the waiver participant (select one):

- The following standard included under the state plan

  Select one:

  - SSI standard
  - Optional state supplement standard
  - Medically needy income standard
  - The special income level for institutionalized persons

  (select one):

  - 300% of the SSI Federal Benefit Rate (FBR)
  - A percentage of the FBR, which is less than 300%
    Specify the percentage:
  - A dollar amount which is less than 300%.
    Specify dollar amount:
  - A percentage of the Federal poverty level
    Specify percentage:
  - Other standard included under the state Plan
    Specify:

- The following dollar amount

  Specify dollar amount: If this amount changes, this item will be revised.

- The following formula is used to determine the needs allowance:

  Specify:

- Other

  Specify:

ii. Allowance for the spouse only (select one):

- Not Applicable

- The state provides an allowance for a spouse who does not meet the definition of a community spouse in §1924 of the Act. Describe the circumstances under which this allowance is provided:
Specify:

Specify the amount of the allowance (select one):

- SSI standard
- Optional state supplement standard
- Medically needy income standard
- The following dollar amount:

  Specify dollar amount: [ ] If this amount changes, this item will be revised.

- The amount is determined using the following formula:

  Specify:

iii. Allowance for the family (select one):

- Not Applicable (see instructions)
- AFDC need standard
- Medically needy income standard
- The following dollar amount:

  Specify dollar amount: [ ] The amount specified cannot exceed the higher of the need standard for a family of the same size used to determine eligibility under the state's approved AFDC plan or the medically needy income standard established under 42 CFR §435.811 for a family of the same size. If this amount changes, this item will be revised.

- The amount is determined using the following formula:

  Specify:

- Other

  Specify:

iv. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 §CFR 435.726:

  a. Health insurance premiums, deductibles and co-insurance charges
  b. Necessary medical or remedial care expenses recognized under state law but not covered under the state's Medicaid plan, subject to reasonable limits that the state may establish on the amounts of these expenses.

  Select one:
- **Not Applicable (see instructions)**Note: If the state protects the maximum amount for the waiver participant, not applicable must be selected.
- The state does not establish reasonable limits.
- The state establishes the following reasonable limits

Specify:

Texas uses the following limits:
- Covered services beyond the amount, duration, and scope of the Medicaid State Plan that are medically necessary are limited to the Medicaid State Plan rates;
- Services available from Medicaid providers, but recipient elects a non-Medicaid provider is zero;
- A deduction for incurred medically necessary non-covered medical or remedial care expenses will be allowed when the bill is incurred during a period which is no more than three months prior to the month of current application;
- A deduction for incurred medical expenses for dental services is based on the American Dental Association, West South Central Region, Survey of Fees at the 90th percentile. If an item is not listed on the Survey of Fees, the item is cleared through a Texas Health and Human Services dental consultant;
- A deduction for incurred medical expenses for durable medical equipment is based on the Medicare fee schedule for durable medical equipment. If an item is not listed on the schedule, the item is cleared through a Medicare contact at the CMS Regional Office; and
- Expenses incurred as the result of imposition of a transfer of assets penalty period is limited to zero.

### Appendix B: Participant Access and Eligibility

#### B-5: Post-Eligibility Treatment of Income (3 of 7)

**Note:** The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

**c. Regular Post-Eligibility Treatment of Income: 209(B) State.**

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

### Appendix B: Participant Access and Eligibility

#### B-5: Post-Eligibility Treatment of Income (4 of 7)

**Note:** The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

**d. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules**

The state uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care if it determines the individual's eligibility under §1924 of the Act. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the state Medicaid Plan. The state must also protect amounts for incurred expenses for medical or remedial care (as specified below).

#### i. Allowance for the personal needs of the waiver participant

*(select one):*
- SSI standard
- Optional state supplement standard
- Medically needy income standard
- The special income level for institutionalized persons
- A percentage of the Federal poverty level
Specify percentage: 
- The following dollar amount:
  Specify dollar amount: 
  If this amount changes, this item will be revised
- The following formula is used to determine the needs allowance:
  Specify formula: 
  
- Other
  Specify: 
  
ii. If the allowance for the personal needs of a waiver participant with a community spouse is different from the amount used for the individual's maintenance allowance under 42 CFR §435.726 or 42 CFR §435.735, explain why this amount is reasonable to meet the individual's maintenance needs in the community.

Select one:
- Allowance is the same
- Allowance is different.

Explanation of difference: 

iii. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 CFR §435.726:

a. Health insurance premiums, deductibles and co-insurance charges
b. Necessary medical or remedial care expenses recognized under state law but not covered under the state's Medicaid plan, subject to reasonable limits that the state may establish on the amounts of these expenses.

Select one:
- Not Applicable (see instructions) Note: If the state protects the maximum amount for the waiver participant, not applicable must be selected.
- The state does not establish reasonable limits.
- The state uses the same reasonable limits as are used for regular (non-spousal) post-eligibility.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (5 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

Answers provided in Appendix B-5-a indicate the selections in B-5-b also apply to B-5-e.
Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (6 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (7 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

The state uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the state Medicaid Plan. The state must also protect amounts for incurred expenses for medical or remedial care (as specified below).

Answers provided in Appendix B-5-a indicate the selections in B-5-d also apply to B-5-g.

Appendix B: Participant Access and Eligibility

B-6: Evaluation/Reevaluation of Level of Care

As specified in 42 CFR §441.302(c), the state provides for an evaluation (and periodic reevaluations) of the need for the level(s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

a. Reasonable Indication of Need for Services. In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the state's policies concerning the reasonable indication of the need for services:

i. Minimum number of services.

The minimum number of waiver services (one or more) that an individual must require in order to be determined to need waiver services is:

ii. Frequency of services. The state requires (select one):

- The provision of waiver services at least monthly
- Monthly monitoring of the individual when services are furnished on a less than monthly basis

If the state also requires a minimum frequency for the provision of waiver services other than monthly (e.g., quarterly), specify the frequency:

b. Responsibility for Performing Evaluations and Reevaluations. Level of care evaluations and reevaluations are performed (select one):

- Directly by the Medicaid agency
- By the operating agency specified in Appendix A

08/24/2022
c. Qualifications of Individuals Performing Initial Evaluation: Per 42 CFR §441.303(c)(1), specify the educational/professional qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:

HHSC staff that review and approve all level of care evaluations submitted by the direct services agency must:
- have a bachelor's degree in a health and human services related field plus one year of experience in the delivery of services to individuals with disabilities;
- be a qualified intellectual disability professional who meets the requirements outlined in Title 42 of the Code of Federal Regulations, Section 483.430(a); or
- have an associate's degree in a health and human services related field plus four years of experience in the delivery of services to individuals with disabilities.

The direct services agency collects information for the initial evaluation during the initial visit with the applicant. Direct services agency staff collecting the information must be a registered nurse licensed by the State while the qualifying diagnosis is authorized by a physician.

d. Level of Care Criteria. Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the state’s level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.

The required level of care, level of care VIII, is defined in Title 40 of the Texas Administrative Code, Part 1, Chapter 9, Subchapter E, Section 9.239. To meet level of care VIII criteria, a person must have a primary diagnosis by a licensed physician of a related condition that is included on the list of diagnostic codes for persons with related conditions that are approved by HHSC and posted on its website, and must have an adaptive behavior level of II, III, or IV (i.e., moderate to extreme deficits in adaptive behavior) obtained by administering a standardized assessment of adaptive behavior.

HHSC assigns the level of care based on the Intellectual Disability/Related Condition Assessment submitted by the direct services agency. The Intellectual Disability/Related Condition Assessment includes all factors that are assessed in evaluating a level of care determination: diagnostic information that includes age of onset of the qualifying conditions, names of qualifying conditions, the appropriate International Classification of Diseases, Clinical Modification codes, using the version required by CMS, the name of the adaptive behavior assessment tool, and the adaptive behavior level. The standardized assessment tools authorized by the CLASS waiver to determine adaptive behavior level are the Inventory for Client and Agency Planning, Scales of Independent Behavior-Revised, American Association on Intellectual Disabilities Adaptive Behavior Scales, and Vineland Adaptive Behavior Scales. The direct services agency must use the current version of the adaptive behavior assessment tool.

The CLASS waiver additionally requires an individual to exhibit deficiencies in at least three areas assessed on the Related Conditions Eligibility Screening Instrument.

e. Level of Care Instrument(s). Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (select one):
f. Process for Level of Care Evaluation/Reevaluation: Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:

Before enrollment, an applicant is visited by the registered nurse employed by the direct services agency. The registered nurse completes the following assessments which determine the individual’s level of care:
- Intellectual Disability/Related Condition Assessment; and
- Related Conditions Eligibility Screening Instrument.

An appropriate licensed professional completes an adaptive behavior assessment (with assistance from the applicant or individual).

The direct services agency submits the Intellectual Disability/Related Condition Assessment to the applicant's physician. The direct services agency ensures that the physician attests by signature on the Intellectual Disability/Related Condition Assessment to the individual's primary diagnosis, date of onset, the appropriate International Classification of Diseases, Clinical Modification code, using the version required by CMS for the primary related condition. The direct services agency sends the signed and completed Intellectual Disability/Related Condition Assessment form, along with a copy of the adaptive behavior level assessment tool and the Related Conditions Screening Instrument, to HHSC for level of care determination.

HHSC staff authorize or deny the assignment of level of care and notify the direct services agency in writing of the decision. If the level of care is denied, HHSC sends a copy of the written notice to the individual, legally authorized representative, or both, as appropriate notifying the individual, or legally authorized representative, of the individual’s right to a fair hearing and the process to follow to request a fair hearing. HHSC sends a copy of the notice to the individual, legally authorized representative, or both if appropriate, the individual’s direct services agency, case management agency, and financial management services agency.

With the exception of a physician's signature on the Intellectual Disability/Related Condition Assessment form, the process for reevaluation of the level of care is the same as an initial evaluation.

g. Reevaluation Schedule. Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (select one):
- Every three months
- Every six months
- Every twelve months
- Other schedule
  Specify the other schedule:

h. Qualifications of Individuals Who Perform Reevaluations. Specify the qualifications of individuals who perform reevaluations (select one):
The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.

The qualifications are different.

Specify the qualifications:

A registered nurse licensed by the State and employed by the direct services agency completes the Intellectual Disability/Related Condition Assessment form for reevaluation. The qualifications for the initial evaluation and reevaluation are the same except in the re-evaluation, the qualifying diagnosis is not required to be attested to by a physician for reevaluation.

i. Procedures to Ensure Timely Reevaluations. Per 42 CFR §441.303(c)(4), specify the procedures that the state employs to ensure timely reevaluations of level of care (specify):

The CLASS direct services agency is required to track each level of care expiration date. HHSC requires the CLASS direct services agency to resubmit annually the level of care assessment to HHSC for approval. HHSC reviews each level of care assessment for accuracy. If HHSC discovers errors in submission, the CLASS direct services agency is notified and instructed to correct the errors. If the direct services agency does not submit a level of care reassessment prior to the expiration of the previously approved level of care, HHSC requires the direct services agency to submit the level of care reassessment as soon as possible after the expiration. HHSC does not reimburse a provider for services provided during the time HHSC has not approved the level of care assessment.

HHSC reviews each level of care assessment and makes the level of care determination based on information submitted by the CLASS direct services agency. HHSC may request more information if necessary to make the determination. Upon approval of the level of care, HHSC reviews and approves the individual’s renewal service plan. HHSC rejects the service plan if the level of care has expired and the provider is unable to bill for services. During the period in which an individual has an expired level of care, the case management agency, direct services agency, and financial management services agency must continue to provide services to ensure continuity of care and to prevent jeopardizing the individual’s health and welfare.

HHSC also monitors and reviews the level of care effective periods during on-site contract monitoring visits to ensure timely resubmission to HHSC.

j. Maintenance of Evaluation/Reevaluation Records. Per 42 CFR §441.303(c)(3), the state assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:

Records of evaluations and reevaluations of level of care are maintained by the case management agency and the direct services agency.

Appendix B: Evaluation/Reevaluation of Level of Care

Quality Improvement: Level of Care

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Level of Care Assurance/Sub-assurances

The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant’s/waiver participant’s level of care consistent with level of care provided in a hospital, NF or ICF/IID.

i. Sub-Assurances:
a. **Sub-assurance:** An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.

**Performance Measures**

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

**Performance Measure:**
**B.a.1 Number and percent of applicants who accepted an offer to participate in the enrollment eligibility process and received a level of care evaluation.**

N: Number of applicants who accepted an offer to participate in the enrollment eligibility process and received a level of care evaluation. D: Number of applicants who accepted an offer to participate in the enrollment eligibility process.

**Data Source (Select one):**
- **Other**
  If 'Other' is selected, specify:

**Quality Assurance and Improvement Data Mart**

b. Sub-assurance: The levels of care of enrolled participants are reevaluated at least annually or as specified in the approved waiver.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

c. Sub-assurance: The processes and instruments described in the approved waiver are applied
appropriately and according to the approved description to determine participant level of care.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. #### ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

One hundred percent of level of care submissions are reviewed by HHSC through desk reviews by HHSC staff who review the assessment information used to determine level of care and assure the accuracy of the level of care value for every individual in the CLASS waiver.

One hundred percent of direct services agencies and case management agencies are reviewed by HHSC Contracts staff at least every two years. This monitoring includes a review of a sample of case records to ensure that each individual in the sample has a completed level of care documentation within the required timeframes.

#### b. Methods for Remediation/Fixing Individual Problems

i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.
HHSC staff review the assessment information used to determine level of care and assure the accuracy of the level of care value for every individual in the CLASS waiver.

HHSC returns any level of care forms that are not completed correctly to the direct services agency for revision. HHSC ensures that the returned level of care forms are corrected when errors are identified or that a denial is sent for an invalid level of care.

HHSC reviews 100 percent of the level of care forms for CLASS waiver enrollments through desk reviews. When errors are identified by HHSC, the direct services agency registered nurse must make corrections and re-submit the level of care form to HHSC. Enrollments are not authorized unless the level of care is approved by HHSC. HHSC approves, denies, or requests additional information or corrections to submitted levels of care.

HHSC offers technical assistance to case management agencies and direct services agencies on a day-to-day basis through telephone calls with HHSC CLASS staff and updates to the CLASS Provider Manual as needed. HHSC also hosts quarterly webinars to inform case management agencies and direct services agencies of changes in the waiver, provide information about any changes in policy or operations. In addition, HHSC conducts CLASS Provider Training twice each year. This training includes a review of CLASS waiver eligibility criteria, including level of care criteria, as well as a review of the level of care assessment form.

HHSC Contracts staff conducts monitoring, which includes a review of a sample of case records to ensure each individual in the sample has documentation of level of care. During the review, HHSC Contracts staff verifies the level of care forms were approved by HHSC staff; and that the level of care forms and supporting documentation were submitted to HHSC within the required timeframes.

Technical assistance is shared with providers throughout the monitoring reviews. The monitoring review culminates in an exit conference, during which the provider is informed of all findings and is given the opportunity to ask questions. Further technical guidance related to the findings is provided during the exit conference. If a corrective action plan is requested from the provider, the provider is informed that they may contact HHSC staff with questions or requests for clarification of what constitutes an acceptable corrective action plan. If the findings necessitate further action, HHSC Contracts staff may refer the provider to the Adverse Action Review Committee, which is responsible for determining what further action, if any, is needed. This provides further opportunity for the provider to receive technical assistance relating to the specific area of deficiency. Upon submission, HHSC reviews the corrective action plan and either accepts or, if the submitted plan does not include all of the required elements, requests revisions and resubmission of the plan. Corrective action plans remain in effect for the duration of the contract and are monitored each subsequent review.

c. Timelines
When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Level of Care that are currently non-operational.

- [ ] No
- [x] Yes

Please provide a detailed strategy for assuring Level of Care, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-7: Freedom of Choice

**Freedom of Choice.** As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

i. informed of any feasible alternatives under the waiver; and

ii. given the choice of either institutional or home and community-based services.

**a. Procedures.** Specify the state's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

When an offer to apply for CLASS is made to an individual, the applicant is provided a list of all contracted CLASS case management agencies and direct services agencies in the catchment area in which the individual resides. The individual is informed at enrollment and annually thereafter, that a list of all contracted CLASS case management agencies and direct services agencies serving the catchment area where the individual resides will be provided at any time the applicant/individual requests it.

After the individual selects a case management agency, the case management agency assigns a case manager to the individual. The case manager is required to meet with the individual, legally authorized representative, or both, as appropriate face-to-face within 14 days of the date that the case management agency is notified by HHSC that they have been selected by the individual. During the initial meeting with an individual, legally authorized representative, or both, as appropriate, the case manager informs the individual, legally authorized representative, or both, as appropriate, of services available through CLASS and of any alternatives available, including the choice of institutional care versus home and community-based waiver services. The freedom of choice form is the Waiver Program Verification of Freedom of Choice form. The individual, legally authorized representative, or both, as appropriate signs the form during the initial meeting and annually during the service plan renewal to indicate he or she chooses waiver services over institutional care. During the initial meeting and annually, the case manager addresses living arrangements and choice of providers as well as available third party resources.

**b. Maintenance of Forms.** Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

The forms are maintained by the case management agency.
Appendix B: Participant Access and Eligibility

B-8: Access to Services by Limited English Proficiency Persons

Access to Services by Limited English Proficient Persons. Specify the methods that the state uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services “Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons” (68 FR 47311 - August 8, 2003):

HHSC operational policy A-572 acknowledges the commission’s legal obligation to ensure that programs and services are accessible to the diverse population of Texas and requires HHSC service delivery to comply with state and federal laws and mandates.

Each HHSC program, activity and provider must offer a variety of methods to ensure access to services in a timely manner by providing language assistance services to applicants, recipients, and stakeholders with limited English proficiency.

The HHS Translation Services Unit coordinates translations for HHSC. HHSC routinely provides Spanish translation of forms and letters and is responsive to other translation needs.

CLASS direct services agencies and case management agencies must assure that interpreter services are available to individuals during service planning and service delivery.

Case management means a service that assists an individual in the following:
- assessing the individual's needs;
- enrolling the individual into the CLASS Program;
- developing the individual's service plan;
- coordinating the provision of CLASS services and Community First Choice (CFC) services;
- monitoring the effectiveness of the CLASS services and the individual's progress toward achieving the outcomes identified;
- revising the individual's service plan, as appropriate;
- accessing non-waiver and non-CFC services, including Medicaid State Plan services;
- resolving crisis situations in the individual's life; and
- advocating for the individual.

Case managers initiate and oversee the review of service plans at enrollment, annually, and as needed. They lead the service planning team in development of a service plan using the person-centered planning process that optimizes the opportunities for the individual to use their abilities and to integrate in community settings. They communicate with service planning team members to ensure that the service plan is being carried out appropriately. They monitor the success of the service plan by observing the individual at home and in the community. Case managers are responsible for ongoing monitoring of the provision of services included in the service plan. Case managers advocate for an individual’s needs when necessary and appropriate. Case management is required for enrollment and annual service planning.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Appendix C: Participant Services

C-1/C-3: Provider Specifications for Service

Service Type: Statutory Service
Service Name: Case Management

Provider Category:
Agency

Provider Type:
Case management agency holding a CLASS Medicaid provider agreement

Provider Qualifications
License (specify):
Certificate (specify):

Other Standard (specify):

The case management agency must complete the Medicaid provider agreement application and all necessary documents.

The case management agency must show proof of an office in the catchment area that it serves and hire staff that meets case manager qualifications. Those qualifications include:
- have the formal educational equivalent of a bachelor’s degree in a health and human services field, plus two years’ experience in the delivery of human services to persons with disabilities, or
- hold a high school degree or equivalent, plus four years’ experience in the coordination and delivery of human services to persons with disabilities.

The case manager must complete training before assuming duties and annually, thereafter on:
- acts that constitute abuse, neglect, and exploitation
- methods to prevent abuse, neglect, and exploitation
- how to recognize the signs and symptoms of abuse, neglect, and exploitation;
- requirement to report to Department of Family and Protective Services immediately, but not more than one hour after having knowledge or suspicion, that an individual has been or is being abused, neglected, or exploited; and
- how to report by calling the toll-free telephone number at 800-647-7418 or by using the Department of Family and Protective Services website.

Verification of Provider Qualifications

Entity Responsible for Verification:

HHSC

Frequency of Verification:

HHSC verifies provider qualifications prior to awarding a provider agreement and on an ongoing basis as stated below.

HHSC Contract staff conducts at least biennial monitoring reviews. Each new contract is monitored in the 14th or 15th month of the contract term or within 8 months from the first month of expenditures within the first 12 months of the contract and at least every two years thereafter. Contract staff conduct an intermittent review for providers that do not meet an acceptable compliance level during initial or ongoing formal reviews. HHSC Contract staff responds to complaints received against any CLASS provider for failure to maintain provider qualifications. HHSC levies appropriate Medicaid provider agreement actions and sanctions for failure to follow the Medicaid provider agreement requirements based on the results of the monitoring activity. Complaint investigations involving staff qualifications and services rendered are conducted according to the priority of the allegations.

Prevocational services means services that are not job-task oriented and are provided to an individual who the service planning team does not expect to be employed (without receiving supported employment) within one year after prevocational services are to begin, to prepare the individual for employment. Prevocational services consist of:

- (A) assessment of vocational skills an individual needs to develop or improve upon;
- (B) individual and group instruction regarding barriers to employment;
- (C) training in skills:
  - (i) that are not job-task oriented;
  - (ii) that are related to goals identified in the individual's habilitation plan;
  - (iii) that are essential to obtaining and retaining employment, such as the effective use of community resources, transportation, and mobility training; and
  - (iv) for which an individual is not compensated more than 50 percent of the federal minimum wage or industry standard, whichever is greater;
- (D) training in the use of adaptive equipment necessary to obtain and retain employment; and
- (E) transportation between the individual's place of residence and prevocational services work site when other forms of transportation are unavailable or inaccessible.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**
Prevocational services are provided under this waiver when no other financial resource is available or when other available resources have been used.

This service refers to those prevocational services not already available through a program funded under section 110 of the Rehabilitation Act of 1973 or section 602(16) and (17) of the Individuals with Disabilities Education Act (20 U.S.C. 1401(16 and 17). Documentation is maintained in the file of each individual that this service is not otherwise available under a program funded under the Rehabilitation Act of 1973, or Public Law 94-142. Prevocational services are provided to persons not expected to be able to join the general work force within one year (excluding supported employment programs).

This service may not be provided at the same time that respite, residential habilitation, State Plan Community First Choice Personal Assistance Services/Habilitation, employment assistance or supported employment services are provided.

Appendix C: Participant Services

C-1/C-3: Provider Specifications for Service

Service Type: Statutory Service

Service Name: Prevocational Services

Provider Category:

Agency

Provider Type:

Direct services agency holding a CLASS Medicaid provider agreement

Provider Qualifications

License (specify):

The agency must be licensed as a home and community support service agency under Title 40 of the Texas Administrative Code, Part 1, Chapter 97.

Certificate (specify):

Other Standard (specify):
Provider must be age 18 or older and have:
- a bachelor’s degree in a health and human services field and two years’ work experience in the delivery of services and supports to persons with related conditions or similar disabilities;
- a high school diploma, and four years’ work experience in the delivery of services and supports to persons with related conditions or similar disabilities; or
- a Certificate of High School Equivalency (GED credentials), and four years’ work experience in the delivery of services and supports to persons with related conditions or similar disabilities.

A service provider may be a relative of the individual, except that neither the individual's spouse or parent of an individual who is a minor child may be a provider.

Must:
- pass criminal history and other applicable registry checks; and
- maintain a current driver’s license and insurance if transporting the individual.

The provider must complete training on the following within 60 days of employment, and annually thereafter:
- an individual's rights and responsibilities;
- the complaints process;
- mandatory participation requirements;
- review of CLASS rules concerning the Rights and Responsibilities of an Individual; and
- how to recognize the signs and symptoms of abuse, neglect, and exploitation, the reporting requirements, and how to report.

### Verification of Provider Qualifications

#### Entity Responsible for Verification:

| HHSC |

#### Frequency of Verification:
HHSC verifies provider qualifications prior to awarding a provider agreement and on an ongoing basis as follows.

HHSC Contract staff conducts at least biennial monitoring reviews. Each new contract is monitored in the 14th or 15th month of the contract term or within 8 months from the first month of expenditures within the first 12 months of the contract and at least every two years thereafter. Contract staff conduct an intermittent review for providers that do not meet an acceptable compliance level during initial and ongoing formal reviews. Contract staff responds to complaints received against a CLASS direct services agency for failure to maintain provider qualifications. HHSC levies appropriate Medicaid provider agreement actions and sanctions for failure to follow the Medicaid provider agreement requirements based on the results of the monitoring activity. Complaint investigations involving staff qualifications and services rendered are conducted according to the priority of the allegations.

HHSC Regulatory Services licenses home and community support services agencies and is responsible for ensuring that providers meet licensing requirements. Home and community support services agencies that are not accredited by the Joint Commission on Accreditation of Healthcare Organizations, or the Accreditation Commission for Health Care, or the Community Health Accreditation Program, are surveyed during their first year of operation, approximately 18 months after the initial survey and at least every 36 months thereafter. Upon license renewal, HHSC Regulatory Services verifies that an accredited home and community support services agency has maintained its accreditation prior to issuing a new license. The accrediting body performs surveys to ensure that accreditation standards are met. For the Joint Commission on Accreditation of Healthcare Organizations, Accreditation Commission for Health Care, and the Community Health Accreditation Program, the state of Texas recognizes the accreditation standards to meet or exceed the state licensing standards. Complaint investigations involving allegations of non-compliance with state licensing standards are conducted by HHSC Regulatory Services staff according to the priority of the allegations. Complaint investigations are conducted by HHSC Regulatory Services for all home and community support service agencies, including those that are accredited by the Joint Commission on Accreditation of Healthcare Organizations, or the Accreditation Commission for Health Care, or Community Health Accreditation Program. If an accredited and deemed home and community support service agency is a licensed and certified home health agency, HHSC Regulatory Services coordinates with the Center for Medicare and Medicaid Services prior to initiating a complaint investigation.

HHSC has an internal policy to coordinate communications and operations between all involved HHSC departments when action is taken in regard to licenses. This policy ensures that authorized services are provided by the appropriate licensed and contracted providers.

**Service Type:**
Statutory Service

**Service:**
Residential Habilitation

**Alternate Service Title (if any):**
HCBS Taxonomy:

Category 1: 04 Day Services

Sub-Category 1: 04020 day habilitation

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Service Definition (Scope):

Category 4:

Sub-Category 4:
Habilitation is a service that assists an individual in acquiring, retaining, and improving socialization and adaptive skills related to activities of daily living to enable the individual to live successfully in the community and participate in home and community life. Residential habilitation is provided to individuals living in their own home or family home.

With the availability of State Plan Community First Choice (CFC), the majority of residential habilitation services are now available to all CLASS waiver participants through the CFC State Plan services. However, transportation remains an exclusive CLASS waiver service. State plan services, including those provided under CFC, must be exhausted before using CLASS waiver services.

Residential habilitation services consist of the following:

(A) habilitation training, which is interacting face-to-face with an individual who is awake, to train the individual in the following activities:
   (i) self-care;
   (ii) personal hygiene;
   (iii) household tasks;
   (iv) mobility;
   (v) money management;
   (vi) community integration;
   (vii) use of adaptive equipment;
   (viii) management of caregivers;
   (ix) personal decision making;
   (x) interpersonal communication;
   (xi) reduction of challenging behaviors;
   (xii) socialization and the development of relationships;
   (xiii) participating in leisure and recreational activities;
   (xiv) use of natural supports and typical community services available to the public;
   (xv) self-administration of medication; and
   (xvi) strategies to restore or compensate for reduced cognitive skills;

(B) habilitation activities of daily living, which are:
   (i) interacting face-to-face with an individual who is awake to assist the individual in the following activities:
      (I) self-care;
      (II) personal hygiene;
      (III) ambulation and mobility;
      (IV) money management;
      (V) community integration;
      (VI) use of adaptive equipment;
      (VII) self-administration of medication;
      (VIII) reinforce any therapeutic goal of the individual;
      (IX) provide transportation to the individual; and
      (X) protect the individual's health, safety, and security;
   (ii) interacting face-to-face or by telephone with an individual or an involved person regarding an incident that directly affects the individual's health or safety; and
   (iii) performing one of the following activities that does not involve interacting face-to-face with an individual:
      (I) shopping for the individual;
      (II) planning or preparing meals for the individual;
      (III) housekeeping for the individual;
      (IV) procuring or preparing the individual's medication; or
      (V) arranging transportation for the individual; and

(C) habilitation delegated, which is tasks delegated by a registered nurse to a service provider of habilitation in accordance with Title 22 of the Texas Administrative Code, Part 11, Chapter 224 or Chapter 225.

Personal assistance may be an incidental component to habilitation for some activities of daily living for some individuals in the waiver.

Individuals in the CLASS waiver must have an ongoing demonstrated need for and be able to benefit from CFC PAS/HAB services based on the pre-enrollment needs assessment by the case manager and the service plan developed by the service planning team.

Transportation costs which are not billable, but which are incurred to provide residential habilitation, are included in
Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Payment will not be made for routine care and supervision that would be expected to be provided by a family member or for activities or supervision for which a payment is made by a source other than Medicaid. This service does not include payment for room or board. Residential habilitation may not be provided at the same time that respite, prevocational services, employment assistance, or supported employment is provided.

C-1/C-3: Provider Specifications for Service

Service Type: Statutory Service
Service Name: Residential Habilitation

Provider Category:
Agency

Provider Type:
Direct services agency holding a CLASS Medicaid provider agreement

Provider Qualifications

License (specify):

The agency must be licensed as a home and community support service agency under Title 40 of the Texas Administrative Code, Part 1, Chapter 97.

Certificate (specify):

Other Standard (specify):
All residential habilitation service providers must be age 18 or older. Any residential habilitation service provider hired on or after July 1, 2015, must also have:
- a high school diploma;
- a Certificate of High School Equivalency (GED credentials); or
- documentation of a proficiency evaluation of experience and competence to perform job tasks including an ability to provide the required services needed by the individual as demonstrated through a written competency-based assessment and at least three personal references from persons not related by blood that evidence the person's ability to provide a safe & healthy environment for the individual.

A service provider can be a family member as long as the service provider is not the individual's spouse or parent of an individual who is a minor child.

Must:
- have current training certification in cardiopulmonary resuscitation and choking prevention that includes an in-person evaluation by a qualified instructor verifying the service provider's ability to perform these actions;
- complete an orientation, with the individual present, in the activities necessary to meet the needs and characteristics of the individual they will be providing services to;
- pass criminal history and other applicable registry checks; and
- maintain a current driver’s license and insurance if transporting the individual.

The provider must complete training on the following:
- an individual's rights and responsibilities;
- the complaints process;
- mandatory participation requirements;
- review of CLASS rules concerning the Rights and Responsibilities of an Individual; and
- within 60 days of employment, and annually thereafter, on how to recognize the signs and symptoms of abuse, neglect, and exploitation, the reporting requirements, and how to report.

All residential habilitation service providers must be age 18 or older. Any residential habilitation service provider hired on or after July 1, 2015, must also have:
- a high school diploma;
- a Certificate of High School Equivalency (GED credentials); or
- documentation of a proficiency evaluation of experience and competence to perform job tasks including an ability to provide the required services needed by the individual as demonstrated through a written competency-based assessment and at least three personal references from persons not related by blood that evidence the person's ability to provide a safe & healthy environment for the individual.

Can be a family member if not:
- the individual's spouse;
- parent of an individual who is a minor child;
- the legal guardian;
- the spouse of the legal guardian;
- the designated representative; or
- the spouse of the designated representative.

Must:
- have current training certification in cardiopulmonary resuscitation and choking prevention that includes an in-person evaluation by a qualified instructor verifying the service provider’s ability to perform these actions;
- complete orientation and training as specified by the individual/employer;
- pass criminal history and other applicable registry checks; and
- maintain a current driver’s license and insurance, if transporting the individual.

Verification of Provider Qualifications

Entity Responsible for Verification:
HHSC

Frequency of Verification:

HHSC verifies provider qualifications prior to awarding a Medicaid provider agreement and on an ongoing basis as follows.

HHSC Contract staff conducts at least biennial monitoring reviews. Each new contract is monitored in the 14th or 15th month of the contract term or within 8 months from the first month of expenditures within the first 12 months of the contract and at least every two years thereafter. Contract staff conduct an intermittent review for providers that do not meet an acceptable compliance level during initial and ongoing formal reviews. Contracts staff responds to complaints received against a CLASS direct services agency for failure to maintain provider qualifications. Service Definition (Scope):

08/24/2022
Respite services means the temporary assistance with an individual’s activities of daily living if the individual has the same residence as a person who routinely provides such assistance and support, and the person is temporarily unavailable to provide such assistance and support.

Respite is provided intermittently when the primary caregiver is temporarily unavailable to provide supports. Respite provides an individual with assistance with activities of daily living and instrumental activities of daily living, the performance of tasks delegated by a registered nurse in accordance with state law, and supervision of the individual’s safety and security. Respite includes activities that facilitate the individual’s inclusion in community activities, use of natural supports and typical community services available to all people, social interaction, and participation in leisure activities, and development of socially valued behaviors and daily living and functional living skills.

Respite services consist of the following:

(a) interacting face-to-face with an individual who is awake to assist the individual in the following activities:
   (1) self-care;
   (2) personal hygiene;
   (3) ambulation and mobility;
   (4) money management;
   (5) community integration;
   (6) use of adaptive equipment;
   (7) self-administration of medication;
   (8) reinforce any therapeutic goal of the individual;
   (9) provide transportation to the individual; and
   (10) protect the individual's health, safety, and security;

(b) interacting face-to-face or by telephone with an individual or an involved person regarding an incident that directly affects the individual's health, safety, and security;

(c) performing one of the following activities that does not involve interacting face-to-face with an individual:
   (1) shopping for the individual;
   (2) planning or preparing meals for the individual;
   (3) housekeeping for the individual;
   (4) procuring or preparing the individual's medication;
   (5) arranging transportation for the individual; or
   (6) protecting the individual’s health, safety, and security while the individual is asleep.

Respite care will be provided in the following locations:
- Individual’s home or place of residence;
- Three person Adult Foster Home;
- Four person Adult Foster Home;
- Assisted living facility;
- Nursing facility;
- Intermediate Care Facility for Individuals with Intellectual Disabilities and Related Conditions; and
- Camp accredited by the American Camp Association.

Transportation to and from the respite service site is not a billable service for the respite service but is included in the billable service for residential habilitation.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
Respite is limited to 30 days of combined in-home respite and out-of-home respite for each service plan year.

Respite cannot be provided during the same period that State Plan Community First Choice Personal Assistance Services/Habilitation, continued family service, or support family services are provided.

The provision of respite care precludes the provision of, or payment for, other duplicative services under the waiver.

If the person who routinely provides assistance and support, resides with the individual, and is temporarily unavailable to provide assistance and support, is a service provider of habilitation or an employee in the consumer directed services option of habilitation, HHSC does not authorize respite unless:
- the service provider or employee routinely provides unpaid assistance and support with activities of daily living to the individual;
- the amount of respite does not exceed the amount of unpaid assistance and support routinely provided; and
- the service provider of respite or employee in the CDS option of respite does not have the same residence as the individual.

If the person who routinely provides assistance and support, resides with the individual, and is temporarily unavailable to provide assistance and support, is a service provider of support family services or continued family services, HHSC does not authorize respite unless:
- for an individual receiving support family services, the individual does not receive respite on the same day the individual receives support family services;
- for an individual receiving continued family services, the individual does not receive respite on the same day the individual receives continued family services; and
- the service provider of respite or employee in the CDS option of respite does not have the same residence as the individual.

### Appendix C: Participant Services

#### C-1/C-3: Provider Specifications for Service

**Service Type: Statutory Service**
## Service Name: Respite (In-Home and Out-of-Home)

### Provider Category:
- Individual

### Provider Type:
- Consumer directed services direct service provider

### Provider Qualifications

#### License (specify):

#### Certificate (specify):

#### Other Standard (specify):

All respite service providers must be age 18 or older. Any respite service provider hired on or after July 1, 2015, must also have:
- a high school diploma;
- a Certificate of High School Equivalency (GED credentials); or
- documentation of a proficiency evaluation of experience and competence to perform job tasks including an ability to provide the required services needed by the individual as demonstrated through a written competency-based assessment and at least three personal references from persons not related by blood that evidence the person's ability to provide a safe & healthy environment for the individual.

Can be a family member if:
- not the individual's spouse;
- not the parent of an individual who is a minor child;
- not the legal guardian;
- not the spouse of the legal guardian;
- not the designated representative; or
- not the spouse of the designated representative.

Must:
- have current training certification in cardiopulmonary resuscitation and choking prevention that includes an in-person evaluation by a qualified instructor verifying the service provider's ability to perform these actions;
- complete orientation and training as specified by the individual/employer;
- pass criminal history and other applicable registry checks; and
- maintain a current driver’s license and insurance, if transporting the individual.

### Verification of Provider Qualifications

#### Entity Responsible for Verification:
- Individual/employer and financial management services agency
- HHSC

#### Frequency of Verification:
- 08/24/2022
For individual providers, the financial management services agency legal entity and the individual/employer verify that each potential employee meets the required qualifications prior to being hired by the individual/employer.

Each new financial management services agency legal entity that must be monitored according to HHSC policy, is monitored within the first 15 months of the contract term. Thereafter, HHSC monitors financial management services agency legal entities at least every three years. Financial management services agency legal entities are monitored more frequently if the need is indicated or if there is a complaint filed against the financial management services agency legal entity. As a result of reviews, HHSC will recoup the financial management services agency monthly fees for service providers who were unqualified at the time they provided the service. Findings from monitoring reviews and complaint investigations may result in a corrective action plan and may be referred to the Adverse Action Review Committee to determine whether additional actions or sanctions should be taken against the financial management services agency, including referral hold, vendor hold and involuntary contract termination.

Contract staff must conduct intermittent monitoring for financial management services agency legal entities that do not meet an acceptable compliance level during formal monitoring reviews. Contract staff responds to complaints received against a financial management services agency legal entity for failure to maintain provider qualifications. HHSC levies appropriate provider agreement actions and sanctions for failure to follow the provider agreement requirements based on the results of the monitoring activity.

Appendix C: Participant Services

Service Type: Statutory Service
Service Name: Respite (In-Home and Out-of-Home)

Provider Category:
Agency

Provider Type:
Intermediate Care Facility for Individuals with Intellectual Disabilities and Related Conditions (out-of-home respite)

Provider Qualifications

License (specify):
Licensed by HHSC as an Intermediate Care Facility for Individuals with Intellectual Disabilities and Related Conditions in accordance with Title 40 of the Texas Administrative Code, Part 1, Chapter 90.

Certificate (specify):

Other Standard (specify):
The Intermediate Care Facility for Individuals with Intellectual Disabilities and Related Conditions respite provider must employ staff who are age 18 or older.

A service provider can be a family member as long as the service provider is not the individual’s spouse or parent of an individual who is a minor child.

Must:
- have current hands-on training in cardiopulmonary resuscitation and choking prevention that includes an in-person evaluation by a qualified instructor verifying the service provider’s ability to perform these actions;
- complete an orientation with the individual present, in the activities necessary to meet the needs and characteristics of the individual they will be providing services to;
- pass criminal history and other applicable registry checks; and
- maintain current driver’s license and insurance if transporting the individual.

Verification of Provider Qualifications

Entity Responsible for Verification:

HHSC

Frequency of Verification:

HHSC verifies provider qualifications prior to awarding a provider agreement and on an ongoing basis as follows.

HHSC Contract staff conducts at least biennial monitoring reviews and is also responsible for ensuring that service providers meet staff qualifications. Each new contract is monitored in the 14th or 15th month of the contract term or within 8 months from the first month of expenditures within the first 12 months of the contract and at least every two years thereafter.

Contract staff conduct an intermittent review for providers that do not meet an acceptable compliance level during initial or ongoing routine formal reviews. Contract staff responds to complaints received against a provider for failure to maintain provider qualifications. HHSC levies appropriate provider agreement actions and sanctions for failure to follow the provider agreement requirements based on the results of the monitoring activity. Complaint investigations involving staff qualifications and services rendered are conducted according to the priority of the allegations.

Complaint investigations involving staff qualifications and services rendered are conducted according to the priority of the allegations.

HHSC Regulatory Services licenses home and community support services agencies, and is responsible for ensuring that providers meet licensing requirements. Home and community support services agencies that are not accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program, are surveyed during their first year of operation, approximately 18 months after the initial survey and at least every 36 months thereafter. Upon license renewal, HHSC Regulatory Services verifies that an accredited home and community support services agency has maintained its accreditation prior to issuing a new license. The accrediting body performs surveys to ensure that accreditation standards are met. For the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, and the Community Health Accreditation Program, the state of Texas recognizes the accreditation standards to meet or exceed the state licensing standards. Complaint investigations involving allegations of non-compliance with state licensing standards are conducted by HHSC Regulatory Services staff according to the priority of the allegations. Complaint investigations are conducted by HHSC Regulatory Services for all home and community support service agencies, including those that are accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program. If an accredited and deemed home and community support service agency is a licensed and certified home health agency, HHSC Regulatory Services coordinates with CMS prior to initiating a complaint investigation.

HHSC has an internal policy to coordinate communications and operations between all involved HHSC departments when action is taken in regard to licenses. This policy ensures that authorized services are provided by the appropriate licensed and contracted providers.

</table>
Supported employment means assistance provided, in order to sustain competitive employment, to an individual who, because of a disability, requires intensive, ongoing support to be self-employed, work from home, or perform in a work setting at which individuals without disabilities are employed. Supported employment includes employment adaptations, supervision, and training related to an individual’s assessed needs. Individuals receiving supported employment earn at least minimum wage (if not self-employed).

A provider of supported employment may bill for such services as: (1) transporting the individual to and from the worksite, (2) activities related to supporting the individual to be self-employed, work from home, or perform in a work setting, and (3) participating in the service planning team meetings.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

In the state of Texas, this service is not available to individuals under a program funded under section 110 of the Rehabilitation Act of 1973. Documentation is maintained in the individual’s record that the service is not available to the individual under a program funded under the Individuals with Disabilities Education Act (20 U.S.C. §1401 et seq.).

The service does not include sheltered work or other types of vocational services in specialized facilities, or for incentive payments, subsidies, or unrelated vocational training expenses such as the following:
(A) incentive payments made to an employer to encourage hiring the individual;
(B) payments that are passed through to the individual;
(C) payment for supervision, training, support and adaptations typically available to other workers without disabilities filling similar positions in the business; or
(D) payments used to defray the expenses associated with starting up or operating a business. Supported employment is not provided to an individual with the individual present at the same time that respite, residential habilitation, State Plan Community First Choice Personal Assistance Services/Habilitation, prevocational services, or employment assistance is provided.

This service may not be provided to the individual with the individual present at the same time that respite, residential habilitation, State Plan Community First Choice Personal Assistance Services/Habilitation, prevocational services, or employment assistance is provided.

Provider Qualifications

License *(specify)*:

Must be licensed as a home and community support services agency under Title 40 of the Texas Administrative Code, Part 1, Chapter 97.

Certificate *(specify)*:

Other Standard *(specify)*:

The service provider must be at least 18 years of age; maintain current driver’s license and insurance if transporting the individual; and satisfy one of these options:

Option 1:  
- have a bachelor’s degree in rehabilitation, business, marketing, or a related human services field; and  
- six months of paid or unpaid experience providing services to people with disabilities.

Option 2:  
- have an associate’s degree in rehabilitation, business, marketing, or a related human services field; and  
- one year of paid or unpaid experience providing services to people with disabilities.

Option 3:  
- have a high school diploma or Certificate of High School Equivalency (GED credentials); and  
- two years of paid or unpaid experience providing services to people with disabilities.

The provider must complete orientation and training as specified in Title 40 of the Texas Administrative Code, Part 1, Chapter 45. Tasks delegated by a registered nurse must be performed in accordance with state law.

Verification of Provider Qualifications

Entity Responsible for Verification:  
HHSC

Frequency of Verification:  
08/24/2022
HHSC verifies provider qualifications prior to awarding a provider agreement and on an ongoing basis as follows.

HHSC Contract staff conducts at least biennial monitoring reviews and is also responsible for ensuring that service providers meet staff qualifications. Each new contract is monitored in the 14th or 15th month of the contract term or within 8 months from the first month of expenditures within the first 12 months of the contract and at least every two years thereafter.

Contracts staff conduct an intermittent review for providers that do not meet an acceptable compliance level during initial or ongoing routine formal reviews. Contracts staff responds to complaints received against a provider for failure to maintain provider qualifications. HHSC levies appropriate provider agreement actions and sanctions for failure to follow the provider agreement requirements based on the results of the monitoring activity. Complaint investigations involving staff qualifications and services rendered are conducted according to the priority of the allegations.

HHSC Regulatory Services licenses home and community support services agencies and is responsible for ensuring that providers meet licensing requirements. Home and community support services agencies that are not accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program, are surveyed during their first year of operation, approximately 18 months after the initial survey, and at least every 36 months thereafter. Upon license renewal, HHSC Regulatory Services verifies that an accredited home and community support services agency has maintained its accreditation prior to issuing a new license. The accrediting body performs surveys to ensure that accreditation standards are met. For the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, and the Community Health Accreditation Program, the state of Texas recognizes the accreditation standards to meet or exceed the state licensing standards. Complaint investigations involving allegations of non-compliance with state licensing standards are conducted by HHSC Regulatory Services staff according to the priority of the allegations. Complaint investigations are conducted by HHSC Regulatory Services for all home and community support service agencies, including those that are accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program. If an accredited and deemed home and community support service agency is a licensed and certified home health agency, HHSC Regulatory Services coordinates with CMS prior to initiating a complaint investigation.

HHSC has an internal policy to coordinate communications and operations between all involved HHSC departments when action is taken in regard to licenses. This policy ensures that authorized services are provided by the appropriate licensed and contracted providers. Individual/employer and financial management services agency prior to hiring.

HHSC Contract staff verifies provider qualifications during on-site reviews, completed every three years at a minimum.

Category 3: Sub-Category 3:  

Service Definition (Scope):

Category 4: Sub-Category 4:  

Provides unlimited prescription medications to individuals enrolled in the waiver who are eligible for both Medicaid and Medicare (dually eligible). An individual who is dually eligible must obtain prescribed medications through the Medicare Part D Prescription Drug Plan or, through the Texas Medicaid State Plan (for certain medications excluded from Medicare), before medications are furnished under the waiver.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Individuals in the waiver who are enrolled in managed care for their acute care services receive unlimited prescription medications through managed care and therefore do not qualify for prescriptions under the waiver. Dual eligible individuals are excluded from enrollment into managed care and are still eligible for prescription medications under the waiver if they meet the requirements in the above service definition.

Individuals under the age of 21 who are Medicaid eligible continue to have access to unlimited prescriptions under the current Medicaid State Plan service pursuant to the Early Periodic Screening, Diagnosis, and Treatment benefit.

Service Definition (Scope): 
Category 4: 
Sub-Category 4: 

Financial management services are services provided by a financial management services agency to an employer, under the consumer directed services option to assist to individual/employers with managing funds associated with consumer directed services. The service includes initial orientation and ongoing training. The financial management services provider, referred to as the financial management services agency also provides assistance in the development, monitoring and revision of the individual’s budget for each service delivered through the consumer directed services option and must maintain a separate account for each individual’s budget. The financial management services agency provides assistance in determining staff wages and benefits subject to state limits, assistance in hiring by verifying employee’s citizenship status and qualifications, and conducting required background checks. The financial management services agency verifies and maintains documentation of employee qualifications, including citizenship status, and documentation of services delivered. The financial management services agency also collects timesheets, processes timesheets of employees, processes payroll, withholding, filing and payment of applicable federal, state, and local employment-related taxes and insurance. The financial management services agency makes payments directly to the consumer directed services employee. The financial management services agency tracks disbursement of funds and provides periodic reports to the individual of all expenditures and the status of the individual’s consumer directed services budget.

The financial management services agency must not provide other waiver services to the individual other than support consultation. The financial management services agency must not provide case management to the individual.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Provider Category:
Agency

Provider Type:
Financial management services agency holding a Medicaid provider agreement

Provider Qualifications

License (specify):

Certificate (specify):

Other Standard (specify):

The provider of financial management services must hold a Medicaid provider agreement to be a financial management services agency. The financial management services agency must successfully complete a mandatory orientation and training conducted annually by HHSC to obtain a Medicaid provider agreement to provide financial management services. The rules for the consumer directed services option, located at Title 40 of the Texas Administrative Code, Part 1, Chapter 41, detail the responsibilities of an employer agent, including the revocation of IRS Form 2678 if the individual terminates the consumer directed services option or transfers to another financial management services agency.

The financial management services agency must complete initial and periodic training. During monitoring reviews, financial management services agencies are required to meet 90 percent compliance. The monitoring assesses performance based on standards related to conducting background checks, licensure verification, orientation of the consumer directed services employer, new hire process, employer budgets and expenditure reports, and payroll. Current financial management services agencies are required to attend training at HHSC at least once a year. Texas also holds webinars with the financial management services agencies to discuss operational issues. Training and technical assistance are often provided.

The financial management services agency provider must be at least 18 years of age and must not be the individual’s legal guardian; the spouse of the individual’s legal guardian; the individual’s designated representative; or the spouse of the individual’s designated representative.

Upon request of an individual or an individual’s legally authorized representative, the financial management services agency must have support consultation services available.

Verification of Provider Qualifications

Entity Responsible for Verification:

HHSC

Frequency of Verification:

08/24/2022
HHSC conducts monitoring reviews of financial management services agencies to determine compliance with the Medicaid provider agreement and CLASS rules and requirements. These reviews are conducted via desk review or at the location where the financial management services agency is providing financial management services. Contract staff conducts at least biennial monitoring reviews and is also responsible for ensuring that service providers meet staff qualifications. Each new contract is monitored in the 14th or 15th month of the contract term or within 8 months from the first month of expenditures within the first 12 months of the contract and at least every two years thereafter. HHSC assesses a financial management services agency’s performance by using a standardized monitoring tool to:

1. Measure adherence to rules as described in the Texas Administrative Code chapters 41 and 49;
2. Ensure the required background and registry checks were conducted prior to hire of the consumer directed services option employee;
3. Match payroll, optional benefits, and tax deposits to time sheets;
4. Assess adherence to state and federal tax laws specific to operating as a vendor fiscal/employer agent;
5. Ensure that the hours worked and the rate of pay are consistent with individual budgets;
6. Review administrative payments; and
7. Review the Medicaid provider agreements.

Support consultation is an optional service that may provide to an individual who chooses to participate in consumer directed services. This service is provided by a support advisor and provides a level of assistance beyond that provided by the consumer direct services agency through the financial management service. Support consultation helps the employer to meet the required employer responsibilities of the consumer directed services option and to successfully deliver program services.

Support consultation offers practical skills training and assistance to enable an individual or his/her legally authorized representative to successfully direct those services the individual or the legally authorized representative elect for self-direction. This service includes skills training related to recruiting, screening, and hiring workers, preparing job descriptions, verifying employment eligibility and qualifications, completion of documents required to employ an individual, managing workers, and development of effective backup plans for services considered critical to the individual’s health and welfare in the absence of the regular provider or in an emergency situation. This service provides sufficient information and assistance to assure individuals and their representatives understand the responsibilities involved with self-direction.

Support consultation may be provided by a qualified person associated with a financial management services agency selected by the individual or by an independent person hired by the individual. The support advisor does not provide any other waiver service except for support consultation services to the individual.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The scope and duration of support consultation will vary depending on an individual’s need for support consultation.

Adaptive aids are items or services that enable individuals to retain or increase their abilities to perform activities of daily living or to perceive, control, or communicate with the environment in which they live, and are included in the list of adaptive aids in the CLASS Provider Manual or are repair and maintenance of an adaptive aid on such list that is not covered by warranty.

Adaptive aids include items that assist an individual with mobility and communication and ancillary supplies and equipment necessary to the proper functioning of such items. Also included are medically necessary supplies and items needed for life support. All items must meet applicable standards of manufacture, design, and installation. Items reimbursed with waiver funds must be in addition to any medical equipment and supplies furnished under the Medicaid State Plan.

An adaptive aid is provided for a specific individual and becomes the exclusive property of that individual. Excluded are those items and supplies, which are not of direct medical or remedial benefit to the individual, and items and supplies that are available to the individual through the Medicaid State Plan, through other governmental programs, or through private insurance. This service provides devices, controls, or appliances that are necessary to address specific needs identified by the individual’s service plan.

Adaptive aids are limited to the following categories including repair and maintenance not covered by warranty:

1. Lifts;
2. Mobility Aids (including batteries and chargers)
3. Position Devices
4. Communication aids
5. Computers and Appropriate Accessories for communication needs not met by an augmentative communication device, to operate adaptive software, for assistance with money management or for environmental control purposes
6. Environmental controls
7. Adaptive equipment for activities of daily living
8. Medically necessary supplies
9. Specialized Training and Instructions
10. Modification/Additions to Primary Transportation Vehicles
11. Temporary lease/rental of durable medical equipment to allow for repair, purchase, or replacement of an essential support system or while non-CLASS resources reviews the necessity of an adaptive aid for an individual. Lease/rental shall not exceed 90 days.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Any item or service not listed in the CLASS Provider Manual is not billable as an adaptive aid.

Adaptive aids are provided under this waiver when no other financial resource is available or when other available resources have been exhausted. The case manager must obtain proof of non-coverage by Medicaid and, if applicable, proof of non-coverage by Medicare.

The individual’s service planning team must authorize all adaptive aids. Items costing more than $500 must be authorized by the service planning team based upon written evaluations and recommendations by the individual’s physician, a licensed occupational or physical therapist, a psychologist or behavior analyst, a licensed nurse, a licensed dietitian, or a licensed audiologist or speech/language pathologist qualified to assess the individual’s need for the specific adaptive aid. The written evaluation and recommendation must document the necessity and appropriateness of the adaptive aid to meet the specific needs of the individual.

HHSC Regulatory Services licenses home and community support services agencies, and is responsible for ensuring that providers meet licensing requirements. Home and community support services agencies that are not accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program, are surveyed during their first year of operation, approximately 18 months after the initial survey and at least every 36 months thereafter. Upon license renewal, HHSC Regulatory Services verifies that an accredited home and community support services agency has maintained its accreditation prior to issuing a new license. The accrediting body performs surveys to ensure that accreditation standards are met. For the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, and the Community Health Accreditation Program, the state of Texas recognizes the accreditation standards to meet or exceed the state licensing standards. Complaint investigations involving allegations of non-compliance with state licensing standards are conducted by HHSC Regulatory Services staff according to the priority of the allegations. Complaint investigations are conducted by HHSC Regulatory Services for all home and community support service agencies, including those that are accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program. If an accredited and deemed home and community support service agency is a licensed and certified home health agency, HHSC Regulatory Services coordinates with CMS prior to initiating a complaint investigation.

HHSC has an internal policy to coordinate communications and operations between all involved HHSC departments when action is taken in regard to licenses. This policy ensures that authorized services are provided by the appropriate licensed and contracted providers.

Service Definition (Scope):

Category 4:  
Sub-Category 4: 

Behavioral support services provide specialized interventions that assist an individual in increasing adaptive behaviors and replacing or modifying challenging or socially unacceptable behaviors that prevent or interfere with the individual's inclusion in the community and which consist of the following activities:

1. Conducting a functional behavior assessment;
2. Developing an individualized behavior support plan;
3. Training of and consultation with an individual, family member, or other persons involved in the individual's care regarding the implementation of the behavior support plan;
4. Monitoring and evaluation of the effectiveness of the behavior support plan;
5. Modifying, as necessary, the behavior support plan based on monitoring and evaluation of the plan’s effectiveness; and
6. Counseling with and educating an individual, family members, friends, or other persons involved in the individual's care about the techniques to use in assisting the individual to control maladaptive or socially unacceptable behaviors.

Behavioral support services can include the full range of psychological activities within the scope of state licensure for psychologists and other licensed professionals in addition to specific behavioral support services. The scope of behavioral support services offered in this waiver exceeds the State Plan psychological services benefit and may be provided by a licensed or certified behavior analyst. Under the waiver, behavioral support services will be provided to maintain the individual's optimum condition.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Behavioral Support Services are provided under this waiver when no other financial resource is available or when other available resources have been used.

To the extent that any listed services are covered under the State plan, the services under the waiver would be limited to additional services not otherwise covered under the State plan, but consistent with waiver objectives of avoiding institutionalization.

Service Delivery Method (check each that applies):

Appendix C: Participant Services

C-1/C-3: Provider Specifications for Service

Service Type: Other Service
Service Name: Behavioral Support

Provider Category:
Agency

Provider Type:

Direct services agency holding a CLASS Medicaid provider agreement

Provider Qualifications

License (specify):

Must be licensed as a home and community support services agency under Title 40 of the Texas Administrative Code, Part 1, Chapter 97

The behavioral support service provider must be:
- a psychologist licensed in accordance with the Texas Occupations Code, Chapter 501;
- a provisional license holder licensed in accordance with the Texas Occupations Code, Chapter 501;
- a psychological associate licensed in accordance with the Texas Occupations Code, Chapter 501;
- a licensed clinical social worker licensed in accordance with the Texas Occupations Code, Chapter 505; or
- a licensed professional counselor licensed in accordance with the Texas Occupations Code, Chapter 503.

A licensed behavior analyst in accordance with the Title 22 of the Texas Occupations Code, Chapter 506.

No expected reduction in service providers.

Certificate (specify):

If not licensed, must be a board-certified Behavior Analyst certified by the National Behavior Analyst Certification Board, Inc.

Other Standard (specify):

Verification of Provider Qualifications

Entity Responsible for Verification:

HHSC

Frequency of Verification:
HHSC verifies provider qualifications prior to awarding a provider agreement and on an ongoing basis as follows.

HHSC Contract staff conducts at least biennial monitoring reviews and is also responsible for ensuring that service providers meet staff qualifications. Each new contract is monitored in the 14th or 15th month of the contract term or within 8 months from the first month of expenditures within the first 12 months of the contract and at least every two years thereafter.

Contracts staff conduct an intermittent review for providers that do not meet an acceptable compliance level during initial or ongoing routine formal reviews. Contracts staff responds to complaints received against a provider for failure to maintain provider qualifications. HHSC levies appropriate provider agreement actions and sanctions for failure to follow the provider agreement requirements based on the results of the monitoring activity. Complaint investigations involving staff qualifications and services rendered are conducted according to the priority of the allegations.

HHSC Regulatory Services licenses home and community support services agencies, and is responsible for ensuring that providers meet licensing requirements. Home and community support services agencies that are not accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program, are surveyed during their first year of operation, approximately 18 months after the initial survey and at least every 36 months thereafter. Upon license renewal, HHSC Regulatory Services verifies that an accredited home and community support services agency has maintained its accreditation prior to issuing a new license. The accrediting body performs surveys to ensure that accreditation standards are met. For the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, and the Community Health Accreditation Program, the state of Texas recognizes the accreditation standards to meet or exceed the state licensing standards. Complaint investigations involving allegations of non-compliance with state licensing standards are conducted by HHSC Regulatory Services staff according to the priority of the allegations. Complaint investigations are conducted by HHSC Regulatory Services for all home and community support service agencies, including those that are accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program. If an accredited and deemed home and community support service agency is a licensed and certified home health agency, HHSC Regulatory Services coordinates with CMS prior to initiating a complaint investigation.

HHSC has an internal policy to coordinate communications and operations between all involved HHSC departments when action is taken in regard to licenses. This policy ensures that authorized services are provided by the appropriate licensed and contracted providers.

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Cognitive Rehabilitation Therapy
HCBS Taxonomy:

Category 1: 11 Other Health and Therapeutic Services

Sub-Category 1: 11120 cognitive rehabilitative therapy

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Service Definition (Scope):

Category 4:

Sub-Category 4:

Cognitive rehabilitation therapy is a service that assists an individual in learning or relearning cognitive skills that have been lost or altered as a result of damage to brain cells/chemistry in order to enable the individual to compensate for the lost cognitive functions.

Cognitive rehabilitation therapy is provided when determined to be medically necessary through an assessment conducted by an appropriate professional. Cognitive rehabilitation therapy is provided in accordance with the plan of care developed by the assessor, and includes reinforcing, strengthening, or reestablishing previously learned patterns of behavior, or establishing new patterns of cognitive activity or compensatory mechanisms for impaired neurological systems.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The assessment is provided through the Medicaid State plan and is not included under this waiver.

Cognitive rehabilitation therapy is provided under this waiver when no other financial resource is available or when other available resources have been used. The Cognitive Rehabilitation Therapy service included in appendix C-1 of CLASS is only available to individuals age 21 and over. Individuals under the age of 21 who are Medicaid eligible will continue to have access to appropriate therapy for learning or relearning cognitive skills that have been lost or altered as a result of damage to brain cells/chemistry under the current State Plan services through occupational therapists, speech-language pathologists, and psychologists pursuant to the Early and Periodic Screening, Diagnostic and Treatment (EPSDT) benefit.

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Continued Family Services

HCBS Taxonomy:

Category 1:

11 Other Health and Therapeutic Services

Sub-Category 1:

11130 other therapies

Category 2:

Sub-Category 2:
Category 3: Sub-Category 3:

Service Definition (Scope):
Category 4: Sub-Category 4:
Continued family services are provided to an individual 18 years of age or older who resides with a support family, as described in Title 40 of the Texas Administrative Code, Part 1, Chapter 45, Subchapter E, Division 3, Section 531 (relating to Support Family Requirements), that allow the individual to reside successfully in a community setting by training the individual to acquire, retain, and improve self-help, socialization, and daily living skills or assisting the individual with activities of daily living. The individual must be receiving support family services immediately before receiving continued family services. Continued family services consist of services described in Title 40 of the Texas Administrative Code, Part 1, Chapter 45, Subchapter E, Division 3, Section 533 (relating to Support Family Duties).

Continued family services are available to allow the individual to attend high school, a program leading to a high school diploma, a Certificate of High School Equivalency (GED credentials), or transition to independence, including attending college or vocational or technical training.

Continued family services consist of the same services that a support family must provide, that are applicable to an individual 18 years of age or older, and are as follows:
1. (1) direct personal assistance activities of daily living (such as grooming, eating, bathing, dressing, and personal hygiene);
2. (2) assistance with meal planning and preparation;
3. (3) assistance with housekeeping;
4. (4) assistance with communication and mobility;
5. (5) reinforcement of behavioral, educational, and therapeutic activities;
6. (6) assistance with medications and the performance of tasks delegated by a registered nurse;
7. (7) supervision for the individual’s safety and security;
8. (8) transportation related to routine family activities;
9. (9) assistance with participation in community activities; and
10. (10) habilitation.

The support family must:
1. (1) allow the individual’s family members and friends access to the individual without arbitrary restrictions, unless exceptional conditions are justified by the service planning team, documented in the individual service plan, and approved by HHSC;
2. (2) assist a school-age individual in receiving educational services in a six-hour-per-day program five days a week provided by the local school district;
3. (3) ensure that no individual receives educational services at a state school/state center educational setting, unless contraindications are documented with justification by the service planning team;
4. (4) ensure that a preschool-age individual receives an early childhood education with appropriate activities and services, including small group and individual play with peers without disabilities, unless contraindications are documented with justification;
5. (5) provide individuals with age-appropriate activities that enhance self-esteem and maximize functional level; and
6. (6) ensure the individual receives medical care prescribed by a physician, including:
   (A) doctors’ appointments;
   (B) medications;
   (C) evaluations, therapies, and treatment; and
   (D) lab work and other medical tests.

The support family must not provide services to more than three unrelated children at any one time in their home. The support family must ensure that the child participates in age-appropriate community activities and the support family home environment is healthy and safe for the child.

The support family must provide service in a residence that the support family owns or leases. The residence must be a typical residence in the neighborhood and meet the needs of the child and the child's parents or legally authorized representative.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
The individual must be receiving support family services immediately before receiving continued family services.

Waiver individuals are responsible for their room and board cost and contributing to the cost of their waiver services if they have any income left over after the post eligibility deductions have been made for their home and community-based waiver services. A separate payment will not be made for habilitation, meals, transportation, or Emergency Response Services since these services are integral to and inherent in the provision of continued family services.

Texas assures that the costs for room and board were not included in the reimbursement rate for continued family services. Since the standard payment amount has been determined by Congress to be adequate for meeting the maintenance needs of recipients in the community, the rate for room and board was capped at the SSI standard payment amount minus a personal needs allowance.

Payments for continued family services are not made for items of comfort or convenience, or the costs of facility maintenance, upkeep, and improvement, other than such costs for modifications or adaptations to a facility required to assure the health and safety of residents, or to meet the requirements of the applicable life safety code. Payments will not be made for the routine care and supervision that would be expected to be provided by a family or group home provider, or for activities or supervision for which a payment is made by a source other than Medicaid.

**License** *(specify):*

The agency must be licensed as a home and community support service agency under Title 40 of the Texas Administrative Code, Part 1, Chapter 97.

**Certificate** *(specify):*
The continued family services provider must be an independent foster family verified by the Texas Department of Family and Protective Services and contracted with a direct services agency or verified by a child-placing agency licensed by the Texas Department of Family and Protective Services.

In addition to licensing regulations, the service provider must be age 18 or older.

Can be a family member if not the individual's spouse or the parent of an individual who is a minor child.

Must:
- have current hands-on training certification in cardiopulmonary resuscitation and choking prevention that includes an in-person evaluation by a qualified instructor verifying the service provider’s ability to perform these actions;
- complete an orientation, with the individual present, in the activities necessary to meet the needs and characteristics of the individual they will be providing services to;
- pass criminal history and other applicable registry checks; and,
- maintain a current driver’s license and insurance, if transporting the individual.

The provider must complete training on the following:
- an individual's rights and responsibilities;
- the complaints process;
- mandatory participation requirements;
- review of CLASS rules concerning the Rights and Responsibilities of an Individual; and,
- within 60 days of employment and annually, thereafter, training on how to recognize the signs and symptoms of abuse, neglect, and exploitation, the reporting requirements, and how to report.

**Verification of Provider Qualifications**

**Entity Responsible for Verification:**

HHSC

**Frequency of Verification:**
HHSC verifies provider qualifications prior to awarding a provider agreement and on an ongoing basis as follows.

HHSC Contract staff conducts at least biennial monitoring reviews and is also responsible for ensuring that service providers meet staff qualifications. Each new contract is monitored in the 14th or 15th month of the contract term or within 8 months from the first month of expenditures within the first 12 months of the contract and at least every two years thereafter.

Contracts staff conduct an intermittent review for providers that do not meet an acceptable compliance level during initial or ongoing routine formal reviews. Contracts staff responds to complaints received against a provider for failure to maintain provider qualifications. HHSC levies appropriate provider agreement actions and sanctions for failure to follow the provider agreement requirements based on the results of the monitoring activity. Complaint investigations involving staff qualifications and services rendered are conducted according to the priority of the allegations.

HHSC Regulatory Services licenses home and community support services agencies, and is responsible for ensuring that providers meet licensing requirements. Home and community support services agencies that are not accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program, are surveyed during their first year of operation, approximately 18 months after the initial survey and at least every 36 months thereafter. Upon license renewal, HHSC Regulatory Services verifies that an accredited home and community support services agency has maintained its accreditation prior to issuing a new license. The accrediting body performs surveys to ensure that accreditation standards are met. For the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, and the Community Health Accreditation Program, the state of Texas recognizes the accreditation standards to meet or exceed the state licensing standards. Complaint investigations involving allegations of non-compliance with state licensing standards are conducted by HHSC Regulatory Services staff according to the priority of the allegations. Complaint investigations are conducted by HHSC Regulatory Services for all home and community support service agencies, including those that are accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program. If an accredited and deemed home and community support service agency is a licensed and certified home health agency, HHSC Regulatory Services coordinates with CMS prior to initiating a complaint investigation.

HHSC has an internal policy to coordinate communications and operations between all involved HHSC departments when action is taken in regard to licenses. This policy ensures that authorized services are provided by the appropriate licensed and contracted providers.

Dental Treatment

HCBS Taxonomy:

Category 1: Other Health and Therapeutic Services
Sub-Category 1: 11070 dental services

Category 2: 
Sub-Category 2: 

Category 3: 
Sub-Category 3: 

Service Definition (Scope):

Dental treatment means a service that consists of the following:
- Emergency dental treatment- procedures necessary to control bleeding, relieve pain, and eliminate acute infection; operative procedures that are required to prevent the imminent loss of teeth; and treatment of injuries to the teeth or supporting structures;
- Routine preventive dental treatment- Examinations, X-rays, cleanings, sealants, oral prophylaxes, and topical fluoride applications;
- Therapeutic dental treatment- Treatment that includes fillings, scaling, extractions, crowns, pulp therapy for permanent and primary teeth; restoration of carious permanent and primary teeth; maintenance of space; and limited provision of removable prostheses when masticatory function is impaired, when an existing prosthesis is unserviceable, or when aesthetic considerations interfere with employment or social development;
- Orthodontic dental treatment- Procedures that include treatment of retained deciduous teeth; cross-bite therapy; facial accidents involving severe traumatic deviations; cleft palates with gross malocclusion that will benefit from early treatment; and severe, handicapping malocclusions affecting permanent dentition with a minimum score of 26 as measured on the Handicapping Labio-lingual Deviation Index; and
- Dental sedation- sedation necessary to perform dental treatment including non-routine anesthesia, (for example, intravenous sedation, general anesthesia, or sedative therapy prior to routine procedures) but not including administration of routine local anesthesia only.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Dental treatment does not include cosmetic orthodontia.

Dental treatment is provided under this waiver when no other financial resource for such treatment is available or when other available resources have been exhausted. This waiver service is only provided to individuals age 21 and over. All medically necessary dental treatment services for children under the age of 21 are covered in the State Plan pursuant to the Early and Periodic Screening, Diagnostic and Treatment (EPSDT) benefit.

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

**Service Title:**
Dietary
Dietary services is the provision of nutrition services as defined in Title 3 of the Texas Occupations Code, Chapter 701 and includes:
- assessing the nutritional needs of an individual or group and determining constraints and resources in the practice;
- establishing priorities and goals that meet nutritional needs and are consistent with constraints and available resources;
- providing nutrition counseling in health and disease;
- developing, implementing, and managing nutritional care systems; and
- evaluating, changing, and maintaining appropriate quality standards in food and nutritional care services.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Dietary services are provided through the waiver when no other financial resources are available or when other available resources have been exhausted. This waiver service is only provided to individuals age 21 and over. All medically necessary dietary services for children under the age of 21 are covered in the State plan pursuant to the Early Periodic Screening, Diagnosis, and Treatment benefit.

HHSC verifies provider qualifications prior to awarding a provider agreement and on an ongoing basis as follows.

HHSC Contract staff conducts at least biennial monitoring reviews and is also responsible for ensuring that service providers meet staff qualifications. Each new contract is monitored in the 14th or 15th month of the contract term or within 8 months from the first month of expenditures within the first 12 months of the contract and at least every two years thereafter.

Contracts staff conduct an intermittent review for providers that do not meet an acceptable compliance level during initial or ongoing routine formal reviews. Contracts staff responds to complaints received against a provider for failure to maintain provider qualifications. HHSC levies appropriate provider agreement actions and sanctions for failure to follow the provider agreement requirements based on the results of the monitoring activity. Complaint investigations involving staff qualifications and services rendered are conducted according to the priority of the allegations.

HHSC Regulatory Services licenses home and community support services agencies, and is responsible for ensuring that providers meet licensing requirements. Home and community support services agencies that are not accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program, are surveyed during their first year of operation, approximately 18 months after the initial survey and at least every 36 months thereafter. Upon license renewal, HHSC Regulatory Services verifies that an accredited home and community support services agency has maintained its accreditation prior to issuing a new license. The accrediting body performs surveys to ensure that accreditation standards are met. For the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, and the Community Health Accreditation Program, the state of Texas recognizes the accreditation standards to meet or exceed the state licensing standards. Complaint investigations involving allegations of non-compliance with state licensing standards are conducted by HHSC Regulatory Services staff according to the priority of the allegations. Complaint investigations are conducted by HHSC Regulatory Services for all home and community support service agencies, including those that are accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program. If an accredited and deemed home and community support service agency is a licensed and certified home health agency, HHSC Regulatory Services coordinates with CMS prior to initiating a complaint investigation.

HHSC has an internal policy to coordinate communications and operations between all involved HHSC departments when action is taken in regard to licenses. This policy ensures that authorized services are provided by the appropriate licensed and contracted providers.

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Employment Assistance

08/24/2022
HCBS Taxonomy:

Category 1:  Sub-Category 1:
03 Supported Employment 03030 career planning

Category 2:  Sub-Category 2:
03 Supported Employment 03010 job development

Category 3:  Sub-Category 3:

Service Definition (Scope):

Category 4:  Sub-Category 4:

Employment assistance means assistance provided to an individual to help the individual locate paid employment in the community. Employment assistance includes:
- identifying an individual’s employment preferences, job skills, and requirements for a work setting and work conditions;
- locating prospective employers offering employment compatible with an individual’s identified preferences, skills, and requirements; and
- contacting a prospective employer on behalf of an individual and negotiating the individual’s employment.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Documentation is maintained in the individual’s record that the service is not available to the individual under a program funded under section 110 of the Rehabilitation Act of 1973 or under a program funded under the Individuals with Disabilities Education Act (20 U.S.C. §1401 et seq.).

This service may not be provided to the individual with the individual present at the same time that respite, residential habilitation, State Plan Community First Choice Personal Assistance Services/Habilitation, supported employment, or prevocational services is provided.

The service does not include incentive payments, subsidies, or unrelated vocational training expenses such as the following:
(A) Incentive payments made to an employer to encourage hiring the individual;
(B) Payments that are passed through to the individual;
(C) Payments for supervision, training, support, and adaptations typically available to other workers without disabilities filling similar positions in the business; or
(D) Payments used to defray the expenses associated with starting up or operating a business.

Service Delivery Method (check each that applies):

- Participant-directed as specified in Appendix E
- Provider managed

Specify whether the service may be provided by (check each that applies):

- Legally Responsible Person
- Relative
- Legal Guardian

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Minor Home Modifications
Service Definition (Scope):

A minor home modification is a physical adaptation to an individual's residence that is necessary to address the individual's specific needs and that enables the individual to function with greater independence in the individual's residence or to control his or her environment.

Minor home modifications consist of the following categories and include the installation, maintenance, and repair not covered by warranty:

1. Home Modifications;
2. Specialized Accessibility/Safety Adaptations/Additions (including repair and maintenance); and
3. Repair and maintenance of items on the authorized list in the CLASS Provider Manual as allowable by rule.

Except as provided by Title 40 of the Texas Administrative Code, Part 1, Chapter 45, Subchapter F, Division 2, §45.618(c) of this chapter (relating to Repair or Replacement of Minor Home Modification), minor home modifications include the repair and maintenance of a minor home modification purchased through the CLASS Program that is needed after one year has elapsed from the date the minor home modification is complete and that is not covered by a warranty.

Minor home modifications will be limited to those services identified by the service planning team, and approved by staff from HHSC on the service plan as necessary to prevent institutionalization. The home modifications listed are essential to provide safe access to and within the home while facilitating self-reliance and independence. Home modifications are cost-effective since greater individual access and greater overall independence allow the individual to perform more activities of daily living with less assistance. This decreases reliance on paid staff.

Home modifications will be provided to meet the needs of the individual, which have been identified and approved in the individual's service plan, as necessary to prevent institutionalization.

Direct services agencies are required to obtain specifications and bids from qualified contractors for modifications that are estimated to cost more than $1000. Direct services agency providers are also required to inspect all completed modifications for workmanship and compliance with the written specifications. All services shall be provided in accordance with applicable state and local building codes.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

08/24/2022
Only minor home modifications listed in the CLASS Provider Manual are billable through the CLASS waiver.

The maximum lifetime expenditure for this service is $10,000. Once that maximum is reached, $300 per service plan year per individual will be allowed for repair, replacement, or additional modifications.

If an individual has an identified need for minor home modifications that exceed the lifetime maximum benefit, the case manager will work with the direct services agency, the individual, and the individual’s legally authorized representative, to identify non-waiver resources to assist the individual to address the identified need.

Any modification or combination of modifications must be agreed upon as necessary by the individual, legally authorized representative, and the service planning team based on prior written evaluations and recommendations by the most qualified licensed professionals who can justify the need and appropriateness of a requested minor home modification as identified in the CLASS Provider Manual. The written evaluation must document the necessity and appropriateness of the minor home modification to meet the specific needs of the individual.

The nursing service provides treatment and monitoring of medical conditions prescribed by a physician/medical practitioner and/or required by standards of professional practice or state law to be performed by licensed nursing personnel.

Nursing services include: licensed vocational nursing, registered nursing, specialized licensed vocational nursing, and specialized registered nursing.

Nursing services are those services listed in the plan of care that are within the scope of the Texas Nurse Practice Act and are provided by a registered nurse, or licensed vocational nurse under the supervision of a registered nurse, licensed to practice in the State.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

All medically necessary Nursing Services for children under the age of 21 are covered in the State Plan pursuant to the EPSDT benefit, except for nursing tasks that are required for the provision of waiver services. Nursing is provided under this waiver when no other financial resource is available or when other available resources have been used.

</tbody>
</table>
The practice of occupational therapy means:
- The evaluation or treatment of a person whose ability to perform the tasks of living is threatened or impaired by developmental deficits, the aging process, environmental deprivation, sensory impairment, physical injury or illness, or psychological or social dysfunction;
- The use of therapeutic goal-directed activities to: (1) evaluate, prevent, or correct physical or emotional dysfunction; or (2) maximize function in a person's life; or
- The application of therapeutic goal-directed activities in treating patients on an individual basis, in groups, or through social systems, by means of direct or monitored treatment or consultation.

Occupational therapy services include: screening and assessment; development of therapeutic treatment plans; providing direct therapeutic intervention; recommending adaptive aids; training and assisting with adaptive aids and augmentative communication devices; consulting with other providers and family members; and participating on the service planning team, when appropriate.

The practice of occupational therapy does not include diagnosis or psychological services of the type typically performed by a licensed psychologist.

The scope of occupational therapy services offered in this waiver exceeds the Medicaid State Plan occupational therapy benefit. Through the waiver, occupational therapy services are provided to maintain the individual’s optimum condition.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Occupational therapy is provided under this waiver when no other financial resource is available or when other available resources have been used. This waiver service is provided to individuals age 21 and over only. All medically necessary occupational therapy services for children under the age of 21 are covered in the State Plan pursuant to the Early and Periodic Screening, Diagnostic and Treatment (EPSDT) benefit.

**Verification of Provider Qualifications**

**Entity Responsible for Verification:**

| HHSC |

**Frequency of Verification:**

- HHSC verifies provider qualifications prior to awarding a provider agreement and on an ongoing basis as follows.
- HHSC Contract staff conducts at least biennial monitoring reviews and is also responsible for ensuring that service providers meet staff qualifications. Each new contract is monitored in the 14th or 15th month of the contract term or within 8 months from the first month of expenditures within the first 12 months of the contract and at least every two years thereafter.
- Contracts staff conduct an intermittent review for providers that do not meet an acceptable compliance level during initial or ongoing routine formal reviews. Contracts staff responds to complaints received against a provider for failure to maintain provider qualifications. HHSC levies appropriate provider agreement actions and sanctions for failure to follow the provider agreement requirements based on the results of the monitoring activity. Complaint investigations involving staff qualifications and services rendered are conducted according to the priority of the allegations.
- HHSC Regulatory Services licenses home and community support services agencies, and is responsible for ensuring that providers meet licensing requirements. Home and community support services agencies that are not accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program, are surveyed during their first year of operation, approximately 18 months after the initial survey and at least every 36 months thereafter. Upon license renewal, HHSC Regulatory Services verifies that an accredited home and community support services agency has maintained its accreditation prior to issuing a new license. The accrediting body performs surveys to ensure that accreditation standards are met. For the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, and the Community Health Accreditation Program, the state of Texas recognizes the accreditation standards to meet or exceed the state licensing standards. Complaint investigations involving allegations of non-compliance with state licensing standards are conducted by HHSC Regulatory Services staff according to the priority of the allegations. Complaint investigations are conducted by HHSC Regulatory Services for all home and community support service agencies, including those that are accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program. If an accredited and deemed home and community support service agency is a licensed and certified home health agency, HHSC Regulatory Services coordinates with CMS prior to initiating a complaint investigation.
- HHSC has an internal policy to coordinate communications and operations between all involved HHSC departments when action is taken in regard to licenses. This policy ensures that authorized services are provided by the appropriate licensed and contracted providers.

</thead>
</table>

**Service Definition (Scope):**
Physical therapy means a form of health care that prevents, identifies, corrects, or alleviates acute prolonged movement dysfunction or pain of anatomic or physiologic origin.

Physical therapy includes the evaluation, examination, and utilization of exercises, rehabilitative procedures, massage, manipulations, and physical agents. Physical agents include mechanical devices, heat, cold, air, light, water, electricity, and sound used in the aid of diagnosis or treatment.

Physical therapy services include: screening and assessment; developing therapeutic treatment plans; providing direct therapeutic intervention; recommending adaptive aids; training and assisting with adaptive aids; consulting with other providers and family members; and participating on the service planning team, when appropriate.

The scope of physical therapy services offered in this waiver exceeds the State Plan physical therapy benefit. State Plan physical therapy services are provided only to treat for acute conditions or to treat exacerbation of chronic condition lasting less than 180 days. Services provided through the waiver cover ongoing chronic conditions even after rehabilitation has reached a plateau (e.g. range of motion). Through the waiver, physical therapy services will be provided to maintain the individual’s optimum condition.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**
Physical therapy is provided under this waiver when no other financial resource is available or when other available resources have been used. This waiver service is provided to individuals age 21 and over only. All medically necessary physical therapy services for children under the age of 21 are covered in the State Plan pursuant to the Early and Periodic Screening, Diagnostic and Treatment (EPSDT) benefit.

**Service Delivery Method (check each that applies):**

- [X] Participant-directed as specified in Appendix E
- [X] Provider managed
Specify whether the service may be provided by (check each that applies):

- [ ] Legally Responsible Person
- [ ] Relative
- [ ] Legal Guardian

Appendix C: Participant Services

C-1/C-3: Provider Specifications for Service

Service Type: Other Service
Service Name: Physical Therapy

Provider Category:
Agency

Provider Type: Direct Services Agency holding CLASS Medicaid provider agreement

Provider Qualifications

License (specify):

The agency must be licensed as a home and community support service agency under Title 40 of the Texas Administrative Code, Part 1, Chapter 97.

The service provider must be a physical therapist or physical therapist assistant licensed in accordance with Title 3 of the Texas Occupations Code, Chapter 453.

Certificate (specify):

Other Standard (specify):

Verification of Provider Qualifications

Entity Responsible for Verification:
HHSC

Frequency of Verification:

08/24/2022
HHSC verifies provider qualifications prior to awarding a provider agreement and on an ongoing basis as follows.

HHSC Contract staff conducts at least biennial monitoring reviews and is also responsible for ensuring that service providers meet staff qualifications. Each new contract is monitored in the 14th or 15th month of the contract term or within 8 months from the first month of expenditures within the first 12 months of the contract and at least every two years thereafter.

Contracts staff conduct an intermittent review for providers that do not meet an acceptable compliance level during initial or ongoing routine formal reviews. Contracts staff responds to complaints received against a provider for failure to maintain provider qualifications. HHSC levies appropriate provider agreement actions and sanctions for failure to follow the provider agreement requirements based on the results of the monitoring activity. Complaint investigations involving staff qualifications and services rendered are conducted according to the priority of the allegations.

HHSC Regulatory Services licenses home and community support services agencies, and is responsible for ensuring that providers meet licensing requirements. Home and community support services agencies that are not accredited by the Joint Commission on Accreditation of Healthcare Organizations, the Accreditation Commission for Health Care, or the Community Health Accreditation Program, are surveyed during their first year of operation, approximately 18 months after the initial survey and at least every 36 months thereafter. Upon license renewal, HHSC Regulatory Services verifies that an accredited home and community support services agency has maintained its accreditation prior to issuing a new license. The accrediting body performs surveys to ensure that accreditation standards are met. For the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, and the Community Health Accreditation Program, the state of Texas recognizes the accreditation standards to meet or exceed the state licensing standards. Complaint investigations involving allegations of non-compliance with state licensing standards are conducted by HHSC Regulatory Services staff according to the priority of the allegations. Complaint investigations are conducted by HHSC Regulatory Services for all home and community support service agencies, including those that are accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program. If an accredited and deemed home and community support service agency is a licensed and certified home health agency, HHSC Regulatory Services coordinates with CMS prior to initiating a complaint investigation.

HHSC has an internal policy to coordinate communications and operations between all involved HHSC departments when action is taken in regard to licenses. This policy ensures that authorized services are provided by the appropriate licensed and contracted providers.

Service Definition (Scope):

Category 4:  
Sub-Category 4:  

Massage Therapy
Massage therapy means the manipulation of soft tissue by hand or through a mechanical or electrical apparatus for the purpose of body massage and includes effleurage (stroking), petrissage (kneading), tapotement (percussion), compression, vibration, friction, nerve strokes, and Swedish gymnastics. The terms "massage," "therapeutic massage," "massage technology," "myotherapy," "body massage," "body rub," or any derivation of those terms are synonyms for "massage therapy."

Recreational Therapy
Recreational therapy means recreational or leisure activities that assist an individual to restore, remediate, or habilitate the individual’s level of functioning and independence in life activities, promote health and wellness, and reduce or eliminate the activity limitations caused by an illness or disabling condition.

Music Therapy
Music therapy is the use of musical or rhythmic interventions to restore, maintain, or improve an individual's social or emotional functioning, mental processing, or physical health.

Aquatic Therapy
Aquatic therapy means a service that involves a low-risk exercise method done in water to improve an individual's range of motion, flexibility, muscular strengthening and toning, cardiovascular endurance, fitness, and mobility.

Aquatic therapy will only be considered a specialized therapy if provided by a licensed therapist other than a physical, occupational or speech therapist (such as, a recreational therapist, massage therapist): otherwise it is to be billed under the appropriate therapy service category.

Hippotherapy
Hippotherapy means the provision of therapy that involves an individual interacting with and riding horses. Hippotherapy is designed to improve the balance, coordination, focus, independence, confidence, and motor and social skills of the individual.

The service is delivered by a riding instructor certified by the Professional Association of Therapeutic Horsemanship International in a structured therapeutic riding program administered in cooperation with a licensed physical therapist, occupational therapist, physical therapist assistant, or occupational therapy assistant that has an expertise in hippotherapy.

Therapeutic Horseback Riding
Therapeutic horseback riding means the provision of therapy that involves an individual interacting with and riding on horses. Therapeutic horseback riding is designed to improve the balance, coordination, focus, independence, confidence, and motor and social skills of the individual.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Specialized therapies are provided under this waiver when no other financial resource is available or when other available resources have been used.

Service Delivery Method (check each that applies):

Contracts staff responds to complaints received against a provider for failure to maintain provider qualifications. HHSC levies appropriate provider agreement actions and sanctions for failure to follow the provider agreement requirements based on the results of the monitoring activity. Complaint investigations involving staff qualifications and services rendered are conducted according to the priority of the allegations.

HHSC Regulatory Services licenses home and community support services agencies, and is responsible for ensuring that providers meet licensing requirements. Home and community support services agencies that are not accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program, are surveyed during their first year of operation, approximately 18 months after the initial survey and at least every 36 months thereafter. Upon license renewal, HHSC Regulatory Services verifies that an accredited home and community support services agency has maintained its accreditation prior to issuing a new license. The accrediting body performs surveys to ensure that accreditation standards are met. For the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, and the Community Health Accreditation Program, the state of Texas recognizes the accreditation standards to meet or exceed the state licensing standards. Complaint investigations involving allegations of non-compliance with state licensing standards are conducted by HHSC Regulatory Services staff according to the priority of the allegations. Complaint investigations are conducted by HHSC Regulatory Services for all home and community support service agencies, including those that are accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program. If an accredited and deemed home and community support service agency is a licensed and certified home health agency, HHSC Regulatory Services coordinates with CMS prior to initiating a complaint investigation.

HHSC has an internal policy to coordinate communications and operations between all involved HHSC departments when action is taken in regard to licenses. This policy ensures that authorized services are provided by the appropriate licensed and contracted providers.

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Speech and Language Pathology

08/24/2022
Speech and language pathology means the application of nonmedical principles, methods, and procedures for measurement, testing, evaluation, prediction, counseling, habilitation, rehabilitation, or instruction related to the development and disorders of communication, including speech, voice, language, oral pharyngeal function, or cognitive processes, for the purpose of evaluating, preventing, or modifying or offering to evaluate, prevent, or modify those disorders and conditions in an individual or a group.

Speech and language pathology includes: screening and assessment; developing therapeutic treatment plans; providing direct therapeutic intervention; recommending augmentative communication devices; training and assisting with augmentative communication devices; consulting with other providers and family members; and participating on the service planning team as appropriate.

The scope of speech and language pathology offered in this waiver exceeds the Medicaid State Plan benefit. Through the waiver, speech and language pathology will be provided to maintain the individual’s optimum condition.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Speech and language pathology is provided under this waiver when no other financial resource is available or when other available resources have been used. This waiver service is provided to individuals age 21 and over only. All medically necessary speech and language pathology services for children under the age of 21 are covered in the State Plan pursuant to the Early and Periodic Screening, Diagnostic and Treatment (EPSDT) benefit.

Support family services are services provided to an individual under 18 years of age who resides with a "support family," as described in Title 40 of the Texas Administrative Code, Part 1, Chapter 45, Subchapter E, Division 3, Section 531 (relating to Support Family Requirements), that allow the individual to reside successfully in a community setting by supporting the individual to acquire, maintain, and improve self-help, socialization, and daily living skills or assisting the individual with activities of daily living.

The support family must provide services to the CLASS individual as authorized on the individual service plan and defined in the individual program plan, including:

1. direct personal assistance activities of daily living (such as grooming, eating, bathing, dressing, and personal hygiene);
2. assistance with meal planning and preparation;
3. assistance with housekeeping;
4. assistance with communication and mobility;
5. reinforcement of behavioral, educational, and therapeutic activities;
6. assistance with medications and the performance of tasks delegated by a registered nurse;
7. supervision for the individual’s safety and security;
8. transportation related to routine family activities;
9. assistance with participation in community activities; and
10. habilitation.

The support family must:

1. allow the individual's family members and friends access to the individual without arbitrary restrictions, unless exceptional conditions are justified by the service planning team, documented in the individual service plan, and approved by HHSC;
2. assist a school-age individual in receiving educational services in a six-hour-per-day program five days a week provided by the local school district;
3. ensure that no individual receives educational services at a state school/state center educational setting, unless contraindications are documented with justification by the service planning team;
4. ensure that a preschool-age individual receives an early childhood education with appropriate activities and services, including small group and individual play with peers without disabilities, unless contraindications are documented with justification;
5. provide individuals with age-appropriate activities that enhance self-esteem and maximize functional level; and
6. ensure the individual receives medical care prescribed by a physician, including:
   A. doctors' appointments;
   B. medications;
   C. evaluations, therapies, and treatment; and
   D. lab work and other medical tests.

Support family services are available to allow the individual to attend school, or participate in a program leading to a high school diploma or a Certificate of High School Equivalency (GED credentials).

The support family must not provide services to more than three unrelated children at any one time in their home. The support family must ensure that the child participates in age-appropriate community activities and the support family home environment is healthy and safe for the child.

The support family must provide service in a residence that the support family owns or leases. The residence must be a typical residence in the neighborhood and meet the needs of the child and the child's parents or legally authorized representative.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
The parents and support family services provider continue to access non-waiver services, to include the independent school district and other community resources for the individual.

Payments for support family services are not made for room and board, the cost of facility maintenance, upkeep and improvement, other than such costs for modifications or adaptations to a facility required to assure the health and safety of residents, or to meet the requirements of the applicable life safety code. Payment for support family services does not include payments made, directly or indirectly, to members of the individual’s immediate family. Payments will not be made for the routine care and supervision that would be expected to be provided by a family or group home provider, or for activities or supervision for which a payment is made by a source other than Medicaid.

Service Type: Other Service

Service Name: Support Family Services

Provider Category:
- Agency

Provider Type:

Support Family Agency

Provider Qualifications

**License (specify):**

Licensed by the Texas Department of Family and Protective Services as a Child Placing Agency in accordance with Title 26 of the Texas Administration Code, Part 1, Chapter 749, Minimum Standards for Child-Placing Agencies, and Chapter 745, Licensing.

**Certificate (specify):**

**Other Standard (specify):**
The support family service provider must be an independent foster family verified by the Texas Department of Family and Protective Services and contracted with a direct service agency or verified by a child-placing agency licensed by the Texas Department of Family and Protective Services.

In addition to licensing regulations, the service provider must be age 18 or older.

Can be a family member if not the individual's spouse or the parent of an individual who is a minor child.

Must:
- have current hands-on training certification in cardiopulmonary resuscitation and choking prevention that includes an in-person evaluation by a qualified instructor verifying the service provider’s ability to perform these actions;
- complete an orientation, with the individual present, in the activities necessary to meet the needs and characteristics of the individual they will be providing services to;
- pass criminal history and other applicable registry checks; and,
- maintain a current driver’s license and insurance, if transporting the individual.

Verification of Provider Qualifications

Entity Responsible for Verification:

Texas Department of Family and Protective Services

HHSC

Frequency of Verification:

The Department of Family and Protective Services reviews Support Family Agencies in accordance with Title 26 of the Texas Administrative Code, Part 1, Chapter 749, Minimum Standards for Child-Placing Agencies, and Chapter 745, Licensing.

HHSC Contract staff conducts at least biennial monitoring reviews and is also responsible for ensuring that service providers meet staff qualifications. Each new contract is monitored in the 14th or 15th month of the contract term or within 8 months from the first month of expenditures within the first 12 months of the contract and at least every two years thereafter.

Contracts staff conduct an intermittent review for providers that do not meet an acceptable compliance level during initial or ongoing routine formal reviews. Contracts staff responds to complaints received against a provider for failure to maintain provider qualifications. HHSC levies appropriate provider agreement actions and sanctions for failure to follow the provider agreement requirements based on the results of the monitoring activity. Complaint investigations involving staff qualifications and services rendered are conducted according to the priority of the allegations.

- pass criminal history and other applicable registry checks; and,
- maintain a current driver’s license and insurance, if transporting the individual.

The provider must complete training on the following:
- an individual’s rights and responsibilities;
- the complaints process;
- mandatory participation requirements;
- review of CLASS rules concerning the Rights and Responsibilities of an Individual; and,
- within 60 days of employment and annually, thereafter, training on how to recognize the signs and symptoms of abuse, neglect, and exploitation, the reporting requirements, and how to report.

**Verification of Provider Qualifications**

**Entity Responsible for Verification:**

HHSC

**Frequency of Verification:**
HHSC verifies provider qualifications prior to awarding a provider agreement and on an ongoing basis as follows.

HHSC Contract staff conducts at least biennial monitoring reviews and is also responsible for ensuring that service providers meet staff qualifications. Each new contract is monitored in the 14th or 15th month of the contract term or within 8 months from the first month of expenditures within the first 12 months of the contract and at least every two years thereafter.

Contracts staff conduct an intermittent review for providers that do not meet an acceptable compliance level during initial or ongoing routine formal reviews. Contracts staff responds to complaints received against a provider for failure to maintain provider qualifications. HHSC levies appropriate provider agreement actions and sanctions for failure to follow the provider agreement requirements based on the results of the monitoring activity. Complaint investigations involving staff qualifications and services rendered are conducted according to the priority of the allegations.

HHSC Regulatory Services licenses home and community support services agencies, and is responsible for ensuring that providers meet licensing requirements. Home and community support services agencies that are not accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program, are surveyed during their first year of operation, approximately 18 months after the initial survey and at least every 36 months thereafter. Upon license renewal, HHSC Regulatory Services verifies that an accredited home and community support services agency has maintained its accreditation prior to issuing a new license. The accrediting body performs surveys to ensure that accreditation standards are met. For the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, and the Community Health Accreditation Program, the state of Texas recognizes the accreditation standards to meet or exceed the state licensing standards. Complaint investigations involving allegations of non-compliance with state licensing standards are conducted by HHSC Regulatory Services staff according to the priority of the allegations. Complaint investigations are conducted by HHSC Regulatory Services for all home and community support service agencies, including those that are accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program. If an accredited and deemed home and community support service agency is a licensed and certified home health agency, HHSC Regulatory Services coordinates with CMS prior to initiating a complaint investigation.

HHSC has an internal policy to coordinate communications and operations between all involved HHSC departments when action is taken in regard to licenses. This policy ensures that authorized services are provided by the appropriate licensed and contracted providers.

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Transition Assistance Services
HCBS Taxonomy:

Category 1: Sub-Category 1:

16 Community Transition Services
16010 community transition services

Category 2: Sub-Category 2:

Category 3: Sub-Category 3:

Service Definition (Scope):
Category 4: Sub-Category 4:

Transition assistance services means services provided to a person who is receiving institutional services and is eligible for and enrolling into the CLASS Program.

Transition assistance services assist an individual in setting up a household in the community before being discharged from an intermediate care facility for individuals with intellectual disabilities and related conditions or a nursing facility and enrolling into the CLASS Program. Allowable expenses are those necessary to enable individuals to establish basic households and include:
- security deposits required to lease a home, including an apartment, or to establish utility services for the home;
- purchase essential furnishings for the home, including table, chairs, window blinds, eating utensils, and food preparation items;
- moving expenses required to move into or occupy the home and
- services necessary to ensure the health and safety of the individual in the home, such as pest eradication, allergen control, or a one-time cleaning before occupancy.

Room and board are not allowable expenses.

Transition assistance services do not include: monthly rental or mortgage expenses; food; regular utility charges; or household appliances or items that are intended for purely entertainment or recreational purposes.

Transition assistance services’ funding is authorized for expenses that are reasonable and necessary as determined through the service plan development process; and that are clearly identified in the individual service plan, and for which individuals are unable to pay for or obtain from other sources.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

An individual does not qualify for transition assistance services if the individual’s enrollment service plan includes support family services or continued family services.

Transition assistance services are one-time initial expenses for setting up a household that cannot exceed $2,500.

Transition assistance services are not available for individuals transitioning into any provider leased/owned living arrangements.

Expenses are limited to up to 180 consecutive days prior to discharge from the intermediate care facility for individuals with intellectual disabilities and related conditions or nursing facility.

Service Delivery Method (check each that applies):

-Participant-directed as specified in Appendix E
☑ Provider managed

Specify whether the service may be provided by (check each that applies):

☐ Legally Responsible Person
☐ Relative
☐ Legal Guardian

Appendix C: Participant Services

C-1/C-3: Provider Specifications for Service

Service Type: Other Service
Service Name: Transition Assistance Services

Provider Category:
Agency

Provider Type:
Agency holding a Transition Assistance Services Medicaid provider agreement with HHSC

Provider Qualifications

License (specify):

Certificate (specify):

Other Standard (specify):

The Transition assistance services provider employee must:
1) Be 18 years old;
2) Have a high school diploma or Certificate of High School Equivalency (GED credentials);
3) Not be the individual’s spouse, the parent of a minor child, have legal conservatorship of the individual and not live in the individual’s household;
4) Be capable of providing the required services.

The transition assistance services provider must comply with the requirements for delivery of transition assistance services, which include requirements such as allowable purchases, costs limits, and time frames for delivery. Transition assistance services providers must demonstrate knowledge of, and history in, successfully serving individuals who require home and community based services.

Verification of Provider Qualifications

Entity Responsible for Verification:

HHSC

Frequency of Verification:

08/24/2022
HHSC verifies provider qualifications prior to awarding a provider agreement and on an ongoing basis as follows.

HHSC Contract staff conducts at least biennial monitoring reviews and is also responsible for ensuring that service providers meet staff qualifications. Each new contract is monitored in the 14th or 15th month of the contract term or within 8 months from the first month of expenditures within the first 12 months of the contract and at least every two years thereafter.

Contracts staff conduct an intermittent review for providers that do not meet an acceptable compliance level during initial or ongoing routine formal reviews. Contracts staff responds to complaints received against a provider for failure to maintain provider qualifications. HHSC levies appropriate provider agreement actions and sanctions for failure to follow the provider agreement requirements based on the results of the monitoring activity. Complaint investigations involving staff qualifications and services rendered are conducted according to the priority of the allegations.

Appendix C: Participant Services

C-1: Summary of Services Covered (2 of 2)

b. Provision of Case Management Services to Waiver Participants. Indicate how case management is furnished to waiver participants (select one):

- Not applicable - Case management is not furnished as a distinct activity to waiver participants.
- Applicable - Case management is furnished as a distinct activity to waiver participants.

Check each that applies:

- [x] As a waiver service defined in Appendix C-3. Do not complete item C-1-c.
- [ ] As a Medicaid state plan service under §1915(i) of the Act (HCBS as a State Plan Option). Complete item C-1-c.
- [ ] As a Medicaid state plan service under §1915(g)(1) of the Act (Targeted Case Management). Complete item C-1-c.
- [ ] As an administrative activity. Complete item C-1-c.
- [ ] As a primary care case management system service under a concurrent managed care authority. Complete item C-1-c.

c. Delivery of Case Management Services. Specify the entity or entities that conduct case management functions on behalf of waiver participants:

Appendix C: Participant Services

C-2: General Service Specifications (1 of 3)

a. Criminal History and/or Background Investigations. Specify the state's policies concerning the conduct of criminal history and/or background investigations of individuals who provide waiver services (select one):

- [ ] No. Criminal history and/or background investigations are not required.
- [x] Yes. Criminal history and/or background investigations are required.
Specify: (a) the types of positions (e.g., personal assistants, attendants) for which such investigations must be conducted; (b) the scope of such investigations (e.g., state, national); and, (c) the process for ensuring that mandatory investigations have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid or the operating agency (if applicable):
CLASS program providers, individuals/employers, and financial management services agencies must comply with the Title 4 of the Texas Health and Safety Code, Chapter 250, including taking the following actions regarding applicants, contractors, and employees:

- Obtain Texas criminal history record information from the Texas Department of Public Safety that relates to an unlicensed applicant, volunteer, contractor, or employee whose duties would or do involve direct contact with an individual; and
- Refrain from employing or contracting with, or immediately discharge, a person who has been convicted of an offense that bars employment under Title 4 of the Texas Health and Safety Code, Chapter 250, Section 250.006, or an offense that the provider or participant employer determines is a contraindication to the person's employment to contract to provide services to the individual.

Individuals choosing to self-direct services must choose a financial management services agency that provides guidance and assistance to the individual with employer-related tasks.

Financial management services agencies, direct services agencies, and case management agencies must complete a criminal history check before a person can become an employee, volunteer, or a contractor, in compliance with Title 40 of the Texas Administrative Code, Part 1, Chapter 41, and Title 40 of the Texas Administrative Code, Part 1, Chapter 49. Financial management services agencies and individual/employers or their designated representative must comply with rules in Title 40 of the Texas Administrative Code, Part 1, Chapter 41. These rules require a criminal history check before a person can become an employee or a contractor of the individual/employer in compliance with Title 40 of the Texas Administrative Code, Part 1, Chapter 41. When contracting with a service provider, the employer or designated representative must complete an agreement with the entity that certifies that the entity has checked and verified that each person delivering a service to the individual on behalf of the entity has not been convicted of an offense listed in Title 4 of the Texas Health and Safety Code, Chapter 250, Section 250.006 within the previous five years. The financial management services agency is required to have verification of criminal history checks prior to the individual-employer hiring a contractor or employee.

All CLASS providers, financial management services agencies, and individual/employers are required to maintain documentation of the criminal history checks performed.

Financial management services agencies, case management agencies, and direct services agencies must screen all employees and contractors for exclusion prior to hiring or contracting, and on an ongoing monthly basis, by searching both the State and federal Office of Inspector General lists of excluded individuals and entities. All CLASS providers must develop and implement written policies and procedures that require the provider to review the list of excluded individuals and entities at the Texas HHSC Office of Inspector General website and the federal HHS Office of Inspector General website before hiring or contracting with a person or entity and at least once a month while the provider employs or contracts with the person or entity. If any exclusion is discovered the provider must immediately report the findings to HHSC.

Financial management services agencies are required to document and maintain the time and the result of the registry check on the HHSC Criminal Conviction History and Registry Checks form which is reviewed by HHSC during a monitoring review and may be reviewed during a complaint investigation.

During the biennial contract monitoring reviews, HHSC verifies that case management agencies and direct services agencies have conducted screening for exclusion and performed other applicable registry checks. At least every three years, HHSC verifies that the financial management services agencies have conducted screening for exclusion and performed other applicable registry checks during the monitoring reviews.

In addition, regulatory boards (e.g., Texas Board of Nursing) conduct criminal background checks on licensed professionals and HHSC Regulatory Services ensures during surveys that licenses are appropriate as part of the licensing process.

As part of on-site reviews of providers and financial management services agencies, HHSC monitors if criminal history checks are conducted as required.

b. Abuse Registry Screening. Specify whether the state requires the screening of individuals who provide waiver services through a state-maintained abuse registry (select one):
No. The state does not conduct abuse registry screening.

Yes. The state maintains an abuse registry and requires the screening of individuals through this registry.

Specify: (a) the entity (entities) responsible for maintaining the abuse registry; (b) the types of positions for which abuse registry screenings must be conducted; and, (c) the process for ensuring that mandatory screenings have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

CLASS program providers, individual employers, and financial management services agencies must comply with the Texas Health and Safety Code, Chapters 250 and 253, including taking the following action regarding applicants, contractors, and employees:
- annually search the Nurse Aide Registry maintained by HHSC in accordance with Texas Health and Safety Code, Chapter 250, and refrain from employing or contracting with, or immediately discharge, a person who is designated in the registry as having abused, neglected, or mistreated an individual of a facility or has misappropriated an individual’s property; and
- annually search the Employee Misconduct Registry maintained by HHSC, in accordance with Texas Health and Safety Code, Chapter 253, and refrain from employing or contracting with or immediately discharge, a person whose duties would or do involve direct contact with an individual, and who is designated in the registry as having abused, neglected, or exploited an individual or has misappropriated an individual’s property.

CLASS program providers, individual/employers, and financial management services agencies are also required to perform Nurse Aide Registry and Employee Misconduct Registry checks on contractors.

HHSC Regulatory Services staff that are involved in licensure, survey, and enforcement activities select a sample of individual records for monitoring as part of their reviews of providers, to verify if Nurse Aide Registry and Employee Misconduct Registry checks are being conducted as required.

Providers, financial management services agencies, and individual/employers are required to maintain documentation of the Nurse Aide Registry and Employee Misconduct Registry checks that they performed. Financial management services agencies and individual/employers document results on the Criminal Conviction History and Registry Checks form for all service providers who are not licensed. The appropriate licensure boards are responsible for monitoring licensed professionals.

Each individual who chooses self-direction must choose a financial management services agency that provides guidance and assistance to the individual with employer-related tasks. The financial management services agency is required to have verification of registry checks prior to hiring on behalf of the individual.

During on-site reviews of providers and financial management services agencies, HHSC monitors for completion of required registry checks.

For volunteers, the home and community support services agencies must comply with Title 40 of the Texas Administrative Code, Part 1, Chapter 97, Subchapter C.

Required information is contained in response to C-5.

Appendix C: Participant Services

C-2: General Service Specifications (3 of 3)

d. Provision of Personal Care or Similar Services by Legally Responsible Individuals. A legally responsible individual is any person who has a duty under state law to care for another person and typically includes: (a) the parent (biological or adoptive) of a minor child or the guardian of a minor child who must provide care to the child or (b) a spouse of a waiver participant. Except at the option of the State and under extraordinary circumstances specified by the state, payment may not be made to a legally responsible individual for the provision of personal care or similar services that the legally responsible individual would ordinarily perform or be responsible to perform on behalf of a waiver participant. Select one:

- ☐ No. The state does not make payment to legally responsible individuals for furnishing personal care or similar services.
- ☐ Yes. The state makes payment to legally responsible individuals for furnishing personal care or similar services when they are qualified to provide the services.

Specify: (a) the legally responsible individuals who may be paid to furnish such services and the services they may provide; (b) state policies that specify the circumstances when payment may be authorized for the provision of extraordinary care by a legally responsible individual and how the state ensures that the provision of services by a legally responsible individual is in the best interest of the participant; and, (c) the controls that are employed to ensure that payments are made only for services rendered. Also, specify in Appendix C-1/C-3 the personal care or similar services for which payment may be made to legally responsible individuals under the state policies specified here.

☐ Self-directed
e. Other State Policies Concerning Payment for Waiver Services Furnished by Relatives/Legal Guardians. Specify state policies concerning making payment to relatives/legal guardians for the provision of waiver services over and above the policies addressed in Item C-2-d. Select one:

- The state does not make payment to relatives/legal guardians for furnishing waiver services.
- The state makes payment to relatives/legal guardians under specific circumstances and only when the relative/guardian is qualified to furnish services.

Specify the specific circumstances under which payment is made, the types of relatives/legal guardians to whom payment may be made, and the services for which payment may be made. Specify the controls that are employed to ensure that payments are made only for services rendered. Also, specify in Appendix C-1/C-3 each waiver service for which payment may be made to relatives/legal guardians.

Reimbursement for waiver services provided to an individual by an individual’s family member or guardian is subject to the following restrictions/conditions:

1. Payment will not be made for waiver services provided to an individual by the spouse of the individual, except for supported employment and employment assistance.
2. Payment will not be made for respite provided to a primary caregiver by a relative or legal guardian who is paid to also provide residential habilitation to the individual unless the service provider of respite does not have the same residence as the individual.
3. Payment for residential habilitation and respite can be made to the parent/legal guardian of an individual who is over the age of 17.
4. Payments will not be made for the routine care and supervision, which would be expected to be provided by a family member.
5. Following are the services which, if not self-directed, may be provided by a legal guardian or family member: residential habilitation, respite, minor home modifications, and nursing.
6. If services are self-directed the legal guardian or the parent of an individual who is under the age of 18 or the court appointed guardian of an adult cannot provide residential habilitation, respite, physical therapy, nursing, occupational therapy, speech and language pathology, and support consultation services.

Documentation requirements are the same for relatives and guardians who are service providers as for all other service providers. Providers must assure completion of required documentation and financial management services agencies require submission of required documentation before paying the provider of services and submitting a billing claim.

During biennial contract monitoring reviews of CLASS program providers and reviews of financial management services agencies, conducted at least every three years, HHSC determines compliance with policies concerning eligibility of individual providers and completion of required documentation.

- Relatives/legal guardians may be paid for providing waiver services whenever the relative/legal guardian is qualified to provide services as specified in Appendix C-1/C-3.

Specify the controls that are employed to ensure that payments are made only for services rendered.

- Other policy.

Specify:
f. Open Enrollment of Providers. Specify the processes that are employed to assure that all willing and qualified providers have the opportunity to enroll as waiver service providers as provided in 42 CFR §431.51:

The following processes are employed to assure that all willing and qualified providers have the opportunity to enroll as waiver service providers as provided in Title 42 of the Code of Federal Regulations, Section 431.51:

In order to obtain a Medicaid provider agreement for the CLASS waiver, a provider applicant must apply for such in accordance with Title 40 of the Texas Administrative Code, Part 1, Chapter 49 relating to Contracting for Community Care Services. HHSC accepts new provider applications on a continuous and ongoing basis. As part of the provider enrollment process, new providers are required to complete pre-application orientation.

Entities interested in becoming financial management services agencies must also participate in training and pass a knowledge test in order to obtain a Medicaid provider agreement.

Qualified CLASS direct services agencies agree to provide all CLASS waiver services except transition assistance services, support family services, continued family services, financial management services, case management, and support consultation. This model of service delivery accomplishes the following for CLASS individuals:

1. ensures the availability of each service across the state, even in rural areas where, without the use of our current definition of qualified provider, not all services of the waiver would be readily accessible;
2. recognizes that a vast majority of individuals are not single service users, but require supports across service disciplines that must be closely integrated and coordinated to achieve beneficial outcomes;
3. promotes effective response to temporary or permanent changes in individuals’ service needs as direct services agencies are required to make all services available when and as they are needed by individuals;
4. establishes a single point of accountability for provision of needed services; and
5. decreases administrative costs.

The CLASS waiver service delivery model promotes efficient service delivery, while providing the individual a choice of qualified CLASS agency providers or waiver service providers. In all 254 counties, no matter how sparsely populated, HHSC endeavors to enroll a sufficient number of direct services agencies to ensure that individuals have a choice between at least two CLASS direct services agencies. In most cases, individuals have a choice among numerous CLASS direct services agencies. CLASS case managers are employees of independently contracted private agencies whose primary function is to monitor the individual’s satisfaction with services provided by the direct services agency. The case manager also functions as an advocate for the individual, when requested, and has the responsibility to provide individuals with the most current list of direct services agencies, case management agencies, and financial management service agencies, in the event that an individual desires to receive services through the consumer directed services option. The CLASS website contains lists of all qualified direct services agencies, case management agencies, and financial management service agencies.

Information for obtaining a CLASS Medicaid provider agreement is provided by contacting the HHSC Contract unit. This information is also on the HHSC website.

Appendix C: Participant Services

Quality Improvement: Qualified Providers

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Qualified Providers

The state demonstrates that it has designed and implemented an adequate system for assuring that all waiver services are provided by qualified providers.

i. Sub-Assurances:
a. **Sub-Assurance:** The State verifies that providers initially and continually meet required licensure and/or certification standards and adhere to other standards prior to their furnishing waiver services.

**Performance Measures**

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

**Performance Measure:**

C.a.1 Number and percent of newly enrolled, licensed providers that initially met contract requirements before providing services. N: Number of newly enrolled, licensed providers that initially met contract requirements before providing services. D: Number of newly enrolled, licensed providers.

**Data Source** (Select one):

- Other

If ‘Other’ is selected, specify:

Data Aggregation and Analysis:

08/24/2022
b. Sub-Assurance: The State monitors non-licensed/non-certified providers to assure adherence to waiver requirements.

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
C.b.1 Number and percent of newly enrolled financial management services agencies that initially met contract requirements prior to delivering services. N: Number of newly enrolled financial management services agencies that initially met contract requirements prior to delivering services. D: Number of newly enrolled financial management services agencies.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.
HHSC Contract staff verifies that all potential providers meet the application requirements specified in the waiver prior to HHSC awarding a Medicaid provider agreement/contract.

HHSC Regulatory Services surveyors monitor the performance of licensed home and community support services agencies through surveys and inspections. Surveyors conduct follow-up surveys and inspections to ensure the provider has effectively implemented any corrective action plans required due to cited state violations. Home and community support services agencies that are not accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program, are surveyed during their first year of operation, approximately 18 months after the initial survey, and at least every 36 months thereafter. HHSC Regulatory Services verifies upon license renewal that an accredited home and community support services agency has maintained its accreditation prior to issuing a new license. The accrediting body performs surveys to ensure that accreditation standards are met. For the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, and the Community Health Accreditation Program, the state of Texas recognizes the accreditation standards to meet or exceed the state licensing standards. Home and community support services agencies licenses are valid for two years. The Regulatory Services survey includes observation of the care of individuals.

Complaint investigations involving allegations of non-compliance with state licensing standards are conducted by HHSC Regulatory Services staff according to the priority of the allegations. Complaint investigations are conducted by HHSC Regulatory Services for all home and community support service agencies, including those that are accredited by the Joint Commission on Accreditation of Healthcare Organizations the Accreditation Commission for Health Care, or the Community Health Accreditation Program. If an accredited and deemed home and community support service agency is a licensed and certified home health agency, HHSC Regulatory Services coordinates with CMS prior to initiating a complaint investigation.

HHSC Contract staff is responsible for conducting monitoring reviews of all CLASS direct services agencies and case management agencies. Monitoring reviews are conducted at least biennially. Each new contract is monitored in the 14th or 15th month of the contract term or within 8 months from the first month of expenditures within the first 12 months of the contract and at least every two years thereafter. HHSC Contract staff also responds to complaints received against a contractor for failure to maintain provider qualifications.

In preparation for on-site provider reviews, HHSC Contract staff:
Selects a valid random sample of individuals receiving services;
Retrieves information pertinent to the provider's operation from a database of complaints reported to HHSC staff; and
Reviews results of the provider's past performance during on-site reviews.

While on-site, HHSC Contract staff gathers evidence of a provider's compliance with the waiver requirements as prescribed in program rules and with Medicaid provider agreement/contract requirements through:
- Interviews with providers; and
- Reviews of individual and provider records.

A representative sample of service provider records are reviewed to ensure criminal background checks are performed as required. This data is reported for the quarter in which the provider is monitored resulting in no overlaps in reporting/monitoring.

HHSC Contract staff monitors 100 percent of financial management services agency legal entity every three years. HHSC Contract staff monitors each financial management services agency legal entity within the 14th or 15th month of the contract term or within 8 months from the first month of expenditures, and at least every three years thereafter. This data is reported for the year in which the provider is monitored, resulting in no overlaps in reporting/monitoring. The reviews are conducted via desk review or at the location where the financial management services agency legal entity is providing financial management services. HHSC Contract staff monitors financial management service agencies to determine compliance with the Medicaid provider agreement and with program rules and requirements. HHSC Contract staff also responds to complaints received against a financial management services agency legal entity.

08/24/2022
b. Methods for Remediation/Fixing Individual Problems
   i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

HHSC Regulatory Services requires a corrective action plan from home and community support services agencies for violations and deficiencies cited during a survey or investigation. In addition, staff may also impose enforcement actions for violations, including administrative penalties, denying approval for an initial license, suspending an existing license on an emergency basis and revoking a license. The severity of an administrative penalty is based on the severity of the violation, the history of previous violations, and the hazard of the violation to the health or welfare of individuals. Surveyors conduct follow-up surveys and investigations to ensure the agency has effectively implemented any corrective action plan required due to cited state violations and federal deficiencies.

Technical assistance is shared with providers throughout the HHSC Contract staff review. If, during a contract monitoring review, a provider is discovered to be out of substantial compliance with contractual or programmatic requirements, the provider is required to submit a corrective action plan to HHSC. The corrective action plan must contain the following elements:

- a description of the non-compliance that HHSC identified from the monitoring or investigation resulting in the corrective action plan;
- a description of the activities the provider will perform to correct or prevent the non-compliance from reoccurring;
- the title of the person responsible for completion of the activities; and
- a schedule for performing the activities.

If a corrective action plan is requested from the provider, the provider is informed that they may contact HHSC staff with any questions or requests for clarification of what constitutes an acceptable corrective action plan. Upon submittal, HHSC reviews the corrective action plan and either accepts or, if the submitted plan does not include all of the required elements, requests revisions and resubmission of the plan. HHSC monitors the corrective action plan until the provider is in compliance. Providers are informed that their failure to submit an acceptable corrective action plan, or comply with a corrective action plan, by the date specified by HHSC may result in HHSC taking additional actions or sanctions against the provider, up to and including termination of the Medicaid provider agreement/contract.

HHSC conducts quarterly and annual monitoring, which includes reviewing comprehensive quarterly data reports from the quarterly quality measures and annual CMS-372 reports to determine compliance. These reports include data on all of the waiver’s quality improvement strategy performance measures. These reports also include remediation activities and outcomes. The Quality Review Team process is the key formal mechanism for monitoring performance. The Quality Review Team meets quarterly and reviews the comprehensive quality reports from each waiver at least annually. Quality improvement projects are developed as issues are identified, and the Quality Review Team reviews, modifying if needed, and approves all quality improvement projects. All active quality improvement projects for all waivers are monitored at each quality review team meeting.

ii. Remediation Data Aggregation
   Remediation-related Data Aggregation and Analysis (including trend identification)

### Appendix C: Participant Services

#### C-4: Additional Limits on Amount of Waiver Services

**a. Additional Limits on Amount of Waiver Services.** Indicate whether the waiver employs any of the following additional limits on the amount of waiver services (select one).

- ☑ Not applicable - The state does not impose a limit on the amount of waiver services except as provided in Appendix C-3.
- ☑ Applicable - The state imposes additional limits on the amount of waiver services.

When a limit is employed, specify: (a) the waiver services to which the limit applies; (b) the basis of the limit, including its basis in historical expenditure/utilization patterns and, as applicable, the processes and methodologies that are used to determine the amount of the limit to which a participant's services are subject; (c) how the limit will be adjusted over the course of the waiver period; (d) provisions for adjusting or making exceptions to the limit based on participant health and welfare needs or other factors specified by the state; (e) the safeguards that are in effect when the amount of the limit is insufficient to meet a participant's needs; (f) how participants are notified of the
amount of the limit. (check each that applies)

**Limit(s) on Set(s) of Services.** There is a limit on the maximum dollar amount of waiver services that is authorized for one or more sets of services offered under the waiver.

*Furnish the information specified above.*

All individuals have access to services up to the cost ceiling if they have an identified need that is supported and justified in accordance with the person-centered service plan.

The following set of services are limited to a maximum of $10,000 per service plan year: Dental Services and Adaptive Aids. The individual or legally authorized representative can choose those services that will most support the individual's needs for that plan year. This limit is based on the adaptive aids and dental cap of $10,000 specified in the prior renewal application. The state continued the current $10,000 cap for dental services and adaptive aids. The individual can prioritize their adaptive aid and dental needs for each plan year. The service planning team informs waiver participants and legally authorized representatives of the limit and refers participants to other community and state resources as needed.

**Prospective Individual Budget Amount.** There is a limit on the maximum dollar amount of waiver services authorized for each specific participant.

*Furnish the information specified above.*

**Budget Limits by Level of Support.** Based on an assessment process and/or other factors, participants are assigned to funding levels that are limits on the maximum dollar amount of waiver services.

*Furnish the information specified above.*

**Other Type of Limit.** The state employs another type of limit.

*Describe the limit and furnish the information specified above.*

---

**Appendix C: Participant Services**

**C-5: Home and Community-Based Settings**

Explain how residential and non-residential settings in this waiver comply with federal HCB Settings requirements at 42 CFR 441.301(c)(4)-(5) and associated CMS guidance. Include:

1. Description of the settings and how they meet federal HCB Settings requirements, at the time of submission and in the future.

2. Description of the means by which the state Medicaid agency ascertains that all waiver settings meet federal HCB Setting requirements, at the time of this submission and ongoing.

*Note instructions at Module 1, Attachment #2, HCB Settings Waiver Transition Plan for description of settings that do not meet requirements at the time of submission. Do not duplicate that information here.*
The State assures that this waiver renewal will be subject to any provisions or requirements included in the State's most recent home and community-based settings Statewide Transition Plan. The State will implement any CMCS required changes by the end of the transition period as outlined in the home and community-based settings Statewide Transition Plan.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (1 of 8)

State Participant-Centered Service Plan Title:

Individual Plan of Care

a. Responsibility for Service Plan Development. Per 42 CFR §441.301(b)(2), specify who is responsible for the development of the service plan and the qualifications of these individuals (select each that applies):

- [ ] Registered nurse, licensed to practice in the state
- [ ] Licensed practical or vocational nurse, acting within the scope of practice under state law
- [ ] Licensed physician (M.D. or D.O)
- [x] Case Manager (qualifications specified in Appendix C-1/C-3)
- [ ] Case Manager (qualifications not specified in Appendix C-1/C-3).

Specify qualifications:

- [ ] Social Worker
  Specify qualifications:

- [ ] Other
  Specify the individuals and their qualifications:

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (2 of 8)

b. Service Plan Development Safeguards. Select one:

- [x] Entities and/or individuals that have responsibility for service plan development may not provide other direct waiver services to the participant.

- [ ] Entities and/or individuals that have responsibility for service plan development may provide other direct waiver services to the participant.

The state has established the following safeguards to ensure that service plan development is conducted in the best interests of the participant. Specify:
c. Supporting the Participant in Service Plan Development. Specify: (a) the supports and information that are made available to the participant (and/or family or legal representative, as appropriate) to direct and be actively engaged in the service plan development process and (b) the participant's authority to determine who is included in the process.

The service planning team selected by the individual, legally authorized representative, or both as appropriate consists of the individual, legally authorized representative, case manager, direct services agency representative, and staff providing direct services. The individual, legally authorized representative, or both as appropriate may designate direct service staff to be involved in the service planning as well as invite other persons such as family members, friends, or advocates.

The case manager assures that the individual, legally authorized representative, or both as appropriate, participate in developing a person-centered service plan that meets the individual's identified needs, desired service goals, and outcomes. The case manager supports the individual, legally authorized representative, or both as appropriate, to set action steps and short-term goals that support the outcomes chosen by the individual. The case manager also educates the individual, legally authorized representative, or both as appropriate, about service delivery options and the full service array available through the CLASS program. The case manager informs the individual, legally authorized representative, or both as appropriate, of the following orally and in writing:

- eligibility criteria for participation in the CLASS waiver;
- the application and enrollment process;
- the individual's rights and responsibilities;
- the mandatory participation requirements;
- the right to request a fair hearing;
- the process by which the individual, legally authorized representative, or both as appropriate, may file a complaint regarding case management;
- that the individual, legally authorized representative, or both as appropriate, may report an allegation of abuse, neglect, or exploitation or make a complaint by calling HHSC toll-free telephone number;
- the services and supports provided by the CLASS waiver and the limits on those services and supports; and
- the reasons an individual's CLASS services may be terminated.

The case manager assures that the individual, legally authorized representative, or both as appropriate, can contact the case manager to secure information regarding services, supports, and service delivery options; and can request to change the service plan due to changes in needs, goals, or preferences. Approximately every 90 days, the case manager meets with the individual, legally authorized representative, or both and reviews the service plan and progress towards goals and service needs, including any changes which may have occurred since the last review. At least annually, the case manager presents information to the individual, legally authorized representative, or both about available waiver services and supports, the available service delivery options, which includes the consumer directed services option, and the available direct services agencies and case management agencies that serve the catchment area where the individual resides.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (4 of 8)

d. Service Plan Development Process. In four pages or less, describe the process that is used to develop the participant-centered service plan, including: (a) who develops the plan, who participates in the process, and the timing of the plan; (b) the types of assessments that are conducted to support the service plan development process, including securing information about participant needs, preferences and goals, and health status; (c) how the participant is informed of the services that are available under the waiver; (d) how the plan development process ensures that the service plan addresses participant goals, needs (including health care needs), and preferences; (e) how waiver and other services are coordinated; (f) how the plan development process provides for the assignment of responsibilities to implement and monitor the plan; and, (g) how and when the plan is updated, including when the participant's needs change. State laws, regulations, and policies cited that affect the service plan development process are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):
The case manager initiates, coordinates, and facilitates the service planning process to assure that an individual's service plan addresses the individual’s needs, goals, and preferences as identified by the members of the service planning team, including the individual, legally authorized representative, or both as appropriate. The case manager assures that the service plan process identifies and focuses on the desired outcomes and needs as identified by the individual, legally authorized representative, or both, as appropriate. The case manager supports the individual’s, legally authorized representative’s, or both, as appropriate, active participation in the process by encouraging selection of the team, setting of the agenda, discovery of the individual’s preferences, and desired outcomes. The service planning team consists of the individual, legally authorized representative, case manager, direct services agency representative, and staff providing direct services. In addition, the individual, legally authorized representative, or both may designate direct service staff to be involved in the service planning and invite other persons such as family members, friends, or advocates.

When HHSC releases an applicant from the interest list, HHSC sends the applicant a list of case management agencies and direct services agencies serving their catchment area. The applicant chooses a case management agency and direct services agency. HHSC notifies the case management agency and direct services agency selected by the applicant. Within 14 calendar days of the date the case management agency is notified by HHSC that it has been selected by the applicant as the case management agency, the case manager must meet with the individual face-to-face, unless there is documentation of a reason for a delay that is outside the case management agency's control. During this face-to-face visit with the individual, legally authorized representative, or both as appropriate, the case manager must verify that the individual resides in the catchment area for which the individual’s selected case management agency and direct services agency have a CLASS Medicaid provider agreement and provide an oral and written explanation of:

(A) CLASS waiver program services and State Plan Community First Choice services;
(B) the mandatory participation requirements of an individual;
(C) the consumer directed services option for managing services;
(D) the right to request a fair hearing;
(E) that the Individual, legally authorized representative, or both as appropriate, may report an allegation of abuse, neglect, or exploitation or make a complaint by calling HHSC toll-free telephone number;
(F) the process by which the individual, legally authorized representative, or both as appropriate may file a complaint regarding the case management agency;
(G) voter registration, if the individual is 18 years of age or older;
(H) transition assistance services, if the individual is receiving institutional services; and
(I) provide information regarding required use of the Electronic Visit Verification.

If the individual selects the consumer directed services option, the case management agency must provide the individual a list of available financial management services agencies.

The case manager must also obtain the signature of the individual, legally authorized representative, or both as appropriate, on a form designating the individual's choice of CLASS waiver services over services in an institution.

The case management agency must, within two business days of the case manager’s face-to-face visit, collect, and maintain a pre-enrollment assessment and provide the individual’s direct services agency with the assessment.

Within 14 days after receiving the pre-enrollment assessment from the applicant’s case manager, the direct services agency completes the initial face-to-face visit with the individual. As part of the initial face-to-face visit by the direct services agency, formal assessments regarding health, level of functioning, level of care evaluation, and therapeutic interventions are completed. Level of functioning is determined using the Related Conditions Eligibility Screening Instrument and the adaptive behavior level is determined by administering one of the standardized assessment tools, which are the current version of the Inventory for Client and Agency Planning, Scales of Independent Behavior-Revised, American Association on Intellectual and Developmental Disabilities Diagnostic Adaptive Behavior Scales, and Vineland Adaptive Behavior Scales.

Within 30 calendar days of notification by the direct services agency of HHSC approval of diagnostic/functional eligibility for an individual, the service planning team convenes to develop the initial service plan. The case manager must document any reason for delays past 30 calendar days. The case manager facilitates service planning team meetings that occur at a time and place that meets the needs of the individual, legally authorized representative, or both as appropriate. The case manager ensures that: the time and location for the person-centered service planning meeting is scheduled at the convenience of the individual and that it reflects cultural considerations, is offered in plain language, and in a manner that is accessible to the person served. The service planning team is selected by the individual, legally authorized representative, or both as appropriate, and must consist of the individual, legally authorized representative, the case manager, and a direct services agency representative.
At least annually, the service planning team must review the service plan and initiate changes to the service plan based on the changes in the individual's needs, identified outcomes, and preferences that have been documented in the service plan. As applicable, the service planning team also reviews the nursing, dental, and other medical assessments; therapy evaluations; and social, psychological, and behavioral assessments. The individual, legally authorized representative, or both as appropriate must sign the service plan to indicate understanding of, and agreement with, the service plan. Thereafter, when a need is identified, the service planning team meets to amend the service plan.

At enrollment, and at least annually, the case manager must present to the individual, legally authorized representative, or both as appropriate information regarding available services and supports and the available service delivery options. The case manager must also inform the individual, legally authorized representative, or both as appropriate that the case manager will assist in transferring the individual's CLASS services from one direct services agency to another direct services agency or from one case management agency to another case management agency upon request from the individual. The case manager must assure that the individual, legally authorized representative, or both as appropriate are instructed about how to contact the case manager.

The individual, legally authorized representative, or both as appropriate identify the desired outcomes and needs of the individual, and the case manager assures that the service planning process focuses on the identified desired outcomes and needs. The case manager supports the individual and legally authorized representative’s participation in the process by encouraging the expression of preferences, goals, and ambitions, and providing education about the services available through the waiver, as well as through other non-waiver resources for which the individual may be qualified. In addition, formal assessments regarding health, level of functioning, and therapeutic interventions are completed as the need is identified by the service planning team.

As part of the service planning process, the service planning team develops an individual program plan for each waiver and Community First Choice Personal Assistance Services/Habilitation service listed on the proposed service plan. The individual program plan describes the following:
- waiver and Community First Choice Personal Assistance Services/Habilitation services to be provided;
- frequency of service provisions;
- observable and measurable goals and outcomes;
- title of person responsible for providing each service;
- justification for waiver and Community First Choice Personal Assistance Services/Habilitation services based on needs identified by the service planning team;
- duration of services; and
- support services provided through non-waiver resources.

The individual and legally authorized representative, case manager, and other service planning team members work together to develop a service plan that integrates waiver services and supports, Community First Choice Personal Assistance Services/Habilitation services and other non-waiver services, such that the individual’s goals may be achieved and services are complementary without being duplicative.

The service plan must include a description of actions and methods to be used to reach identified service outcomes, projected completion dates, and entity or person(s) responsible for implementing the methodology. The service plan must specify the type and amount of each service to be provided to the individual, as well as services and supports to be provided by non-waiver resources during the service plan year. The service planning team must document that the waiver and Community First Choice Personal Assistance Services/Habilitation services in the individual’s service plan are necessary for the individual to live in the community; are the most appropriate type and amount of services to meet the individual's needs; prevent admission to an institution; and are sufficient when combined with non-waiver resources to assure the individual's health and welfare in the community.

At a minimum, the service planning process and resulting plan must address the following:
- the type of waiver and State Plan Community First Choice services to be provided to the individual;
- the number of units of each waiver service;
- the estimated annual cost of all waiver services; and
- other services or supports to be provided to the individual through non-waiver sources, including Medicaid State Plan services, which must be accessed prior to waiver services.

At least quarterly, and more often if the individual’s needs change, the case manager must review the individual’s service plan.
plan, progress toward goals, and any changes in needs that require changes to the service plan.

The individual's case manager is responsible for monitoring the implementation of the plan. The direct services agency is responsible for ensuring implementation of the CLASS services listed in the service plan. The individual, legally authorized representative, or both as appropriate, electing to utilize the consumer directed services option is responsible for ensuring implementation of self-directed services. Oversight of case management is performed by HHSC.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (5 of 8)

e. Risk Assessment and Mitigation. Specify how potential risks to the participant are assessed during the service plan development process and how strategies to mitigate risk are incorporated into the service plan, subject to participant needs and preferences. In addition, describe how the service plan development process addresses backup plans and the arrangements that are used for backup.
During the service planning process, the case manager ensures consideration of information from the individual, legally authorized representative, or both as appropriate, other service planning team members, and from assessments, including the annual comprehensive nursing assessment, to determine if any risk to the individual’s health and welfare might exist as a result of individual life choices and community living. Personal life choices and personal outcomes could include risks that may need to be mitigated. Strategies including program services and supports and non-waiver services and supports, formal and informal, are to be discussed in order to mitigate these risks, and if agreed upon by the individual, legally authorized representative, or both as appropriate, become incorporated into the plan.

Strategies to mitigate risks are incorporated into the plan, including waiver services and supports and non-waiver services and supports, formal and informal. When an individual requests a transfer to another case management agency, direct services agency, or service delivery option, the case manager assists the individual to transfer from one agency or service delivery option to another. If the individual service plan includes nursing or Community First Choice personal assistance services/habilitation services, all CLASS direct services agencies are required to have service backup plans for these services. The use of a back-up plan is the primary means employed by the service planning team to mitigate risks to the individual. The use of informal supports and other resources is identified as a part of the back-up plan.

In the consumer directed services option, the service planning team identifies services critical to the health and welfare of the individual and for which a backup plan must be developed, documented in the service plan, and approved by the service planning team. Backup plans may include paid or unpaid service providers, third party resources, and other community resources.

The direct services agency has a responsibility under its licensure rules to ensure effective coordination of care with all service providers involved in the care of the individual. It is the direct services agency's responsibility to assess the status of an individual.

The direct services agency licensed as a Home and Community Support Services Agency has a responsibility under its licensure rules (Title 40 Texas Administrative Code Part 1 Chapter 97) to adopt and enforce a written policy that specifies the agency’s client care practices, which among other things, includes initial and reassessment and care planning. The Home and Community Support Services Agency administrator is responsible for ensuring that the care plan is executed as written. The care plan (for non-skilled care) must be reviewed and updated by all appropriate staff members involved in client care at least annually, or more often as necessary to meet the needs of the client. The plan of care (for skilled care) must be revised as necessary, but it must be reviewed and updated at least every six months.

Direct services agencies must ensure services are delivered according to the person centered service plan. The service plan must be updated annually and upon request or a significant change in condition.

If a service has been identified as needed to ensure health and safety of the individual but the individual, legally authorized representative, or both as appropriate, refuse the offered service, the case manager will monitor the individual’s health and safety through the case management function. Linkage to non-waiver services and supports maybe provided to the individual, legally authorized representative, or both as appropriate. The Department of Family and Protective services may be contacted if the individual's health and safety is jeopardized.

If there is a need identified that the direct services agency cannot meet, then at the individual’s request the individual may acknowledge and accept the responsibility for that need using an individual responsibility agreement. All person-centered service plans are reviewed by HHSC Qualified Intellectual and Developmental Disability professionals to further ensure the plan meets the individual’s needs.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (6 of 8)

f. Informed Choice of Providers. Describe how participants are assisted in obtaining information about and selecting from among qualified providers of the waiver services in the service plan.
When HHSC notifies an individual, legally authorized representative, or both as appropriate, that individual is released from the interest list, and can begin the process of eligibility determination in order to enroll in CLASS services, the individual, legally authorized representative, or both as appropriate, are sent a complete list of CLASS case management agencies and direct services agencies with Medicaid provider agreements that serve the catchment area in which the individual resides. HHSC staff may be contacted for support during this process if desired. Individuals are encouraged to contact case management agencies and direct services agencies to determine which case management agency and direct services agency best meet the individual's needs. The individual, legally authorized representative, or both as appropriate, are also provided with a list of qualified case management agencies and direct services agencies annually and upon request.

An individual, legally authorized representative, or both as appropriate, have the option of choosing from the available qualified providers employed by the direct services agency, or having a qualified direct service provider of his or her choice become employed by the chosen direct services agency, either directly or by contract, if the direct service provider meets the service provider criteria and agrees to the rate of compensation available through the waiver as payment in full.

During the initial contact with the individual prior to enrollment, the case management agency provides a description of the option to self-direct specific services by the individual, called the consumer directed services option. Each individual, legally authorized representative, or both as appropriate, electing the consumer directed services option must receive support from a financial management services provider, referred to as a financial management services agency, chosen by the individual, legally authorized representative, or both as appropriate. If the individual requests the consumer directed services option the case manager provides a list of all financial services management services agencies.

HHSC monitors case management agencies biennially and monitors whether the individuals within the sample were offered choice among providers upon initial enrollment and annually thereafter.

Appendix D: Participant-Centered Planning and Service Delivery

**D-1: Service Plan Development (7 of 8)**

**g. Process for Making Service Plan Subject to the Approval of the Medicaid Agency.** Describe the process by which the service plan is made subject to the approval of the Medicaid agency in accordance with 42 CFR §441.301(b)(1)(i):

- HHSC approves all service plans. HHSC also performs at least biennial reviews of each CLASS direct services agency and case management agency which includes reviews of a provider's compliance with the approved service planning requirements.

- HHSC, the State Medicaid Agency, has the responsibility for the day-to-day approval of service plans. HHSC reviews and approves all criteria, processes and documentation to assure requirements related to the development and approval of individual service plans. In addition to approving the above systems and processes, HHSC verifies compliance through at least biennial reviews of each direct services agency, which include a provider's compliance with the approved service planning requirements. Quarterly and annually, HHSC aggregates contract monitoring data and discusses any significant findings. If necessary HHSC develops system improvements and remediation strategies to improve provider performance.

Appendix D: Participant-Centered Planning and Service Delivery

**D-1: Service Plan Development (8 of 8)**

**h. Service Plan Review and Update.** The service plan is subject to at least annual periodic review and update to assess the appropriateness and adequacy of the services as participant needs change. Specify the minimum schedule for the review and update of the service plan:

- Every three months or more frequently when necessary
- Every six months or more frequently when necessary
- Every twelve months or more frequently when necessary
i. Maintenance of Service Plan Forms. Written copies or electronic facsimiles of service plans are maintained for a minimum period of 3 years as required by 45 CFR §92.42. Service plans are maintained by the following (check each that applies):

☐ Medicaid agency
☐ Operating agency
☒ Case manager
☒ Other

Specify:

CLASS direct services agencies holding Medicaid provider agreement and, if appropriate, the financial management services agency.

Appendix D: Participant-Centered Planning and Service Delivery

D-2: Service Plan Implementation and Monitoring

a. Service Plan Implementation and Monitoring. Specify: (a) the entity (entities) responsible for monitoring the implementation of the service plan and participant health and welfare; (b) the monitoring and follow-up method(s) that are used; and, (c) the frequency with which monitoring is performed.
When HHSC sends notification to an individual that the individual is released from the interest list and can begin the process of eligibility determination in order to enroll in CLASS services, the individual, legally authorized representative, or both as appropriate, are sent a complete list of CLASS case management agencies and direct services agencies with a Medicaid provider agreement that serve the catchment area in which the individual resides and is asked to choose a case management agency and direct services agency serving their catchment area and return their choice sheet to HHSC. HHSC notifies the chosen case management agency and direct services agency, and then HHSC contacts the individual to begin the enrollment process.

The direct services agency is responsible for implementing the person-centered service plan and backup plans to protect the individual's health and welfare. The direct services agency provides agency specific emergency contact numbers and information for after-hours services to the individual, legally authorized representative, or both as appropriate. The direct services agency is responsible for ensuring necessary services are available to reflect risk factors and measures in place to minimize them with individuals backup plans and strategies when needed. The direct services agency is required to adopt and enforce a written policy to ensure that backup services are available when an agency employee or contractor is not available to deliver the services.

The case manager is responsible for monitoring the implementation of the person-centered service plan to meet the individual's outcomes, balance what is important to and for the individual, including protecting the individual's health and welfare. If the case management agency or direct services agency observes a change in the individual's needs, health, or welfare at any time during the person-centered service plan year, the agency is responsible for contacting the case manager who then convenes a service planning team meeting to determine how to address the needs through both CLASS waiver program services, Community First Choice Personal Assistance Services/Habilitation, and non-waiver resources. At a minimum, the case manager meets face-to-face with the individual approximately every 90 days to review the person-centered service plan, the individual's progress towards goals, and any changes in the individual's service needs. If there is an indication of a change in needs, a revision to the person-centered service plan is made with the assistance of the individual, legally authorized representative, or both as appropriate, and the service planning team. At least annually, the case manager convenes the service planning team to plan waiver and non-waiver services for the upcoming year.

Case managers are required to monitor an individual's outcomes identified in the person-centered service plan at least every quarter or more frequently as necessary. Case managers are required to have face-to-face contact with individuals on a quarterly basis or more frequently as necessary. HHSC verifies during contract monitoring reviews that an individual, legally authorized representative, or both as appropriate, are provided with the name and contact information for the assigned case manager to include information for an alternate contact in case of absence of the case manager.

The case manager is responsible for asking the individual, legally authorized representative, or both as appropriate, if the backup plan, developed by the consumer directed services employer or direct services agency, is effective. If the plan is not working, the case manager notifies the direct services agency or if under the consumer directed services option, assists the individual with revising the plan as necessary to ensure the individual's health and safety. If the service planning process reveals that an individual has a need for health services, the case manager is responsible for ensuring appropriate waiver and non-waiver services are included in the service plan to address the need, and that the individual's health needs are being addressed by the direct services agency.

At least biennially, during monitoring reviews, HHSC confirms that the person-centered service plan developed and approved by the service planning team was completed according to instructions, signed by the service planning team, approved by HHSC, and that services are being implemented according to the person-centered service plan. HHSC confirms the case manager is monitoring service provision in accordance with program rules. HHSC also confirms that quarterly reviews are documented by the case management agencies and direct services agencies, indicating that the services meet the individual's needs.

Additionally, HHSC monitors case management agencies and direct services agencies to ensure compliance with requirements that the provider must safeguard the rights of the individual, legally authorized representative, or both as appropriate, to exercise free choice of providers and to transfer to a new case management agency or direct services agency at any time. If HHSC contract monitoring staff determines that an individual requested to transfer to another provider, HHSC determines if the transfer occurred, and if it did not, why it did not occur.

The case management agency and direct services agency are responsible for ensuring that the individual's rights are
protected, service plan monitoring occurs as stated in the individual’s person-centered service plan, required
documentation is completed, and follow-up action on contract monitoring findings is taken. As required, case
management agencies and direct services agencies are responsible for submitting corrective action plans based on any
problems identified during monitoring reviews. HHSC reviews the submitted corrective action plans to determine if the
plans are sufficient.

Quarterly and annually, HHSC aggregates contract monitoring data and discusses any significant findings. If necessary,
HHSC develops system improvements and remediation strategies to improve provider performance.

b. Monitoring Safeguards. Select one:

- Entities and/or individuals that have responsibility to monitor service plan implementation and
  participant health and welfare may not provide other direct waiver services to the participant.
- Entities and/or individuals that have responsibility to monitor service plan implementation and
  participant health and welfare may provide other direct waiver services to the participant.

The state has established the following safeguards to ensure that monitoring is conducted in the best interests of the
participant. Specify:

Appendix D: Participant-Centered Planning and Service Delivery

Quality Improvement: Service Plan

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States
methods for discovery and remediation.

a. Methods for Discovery: Service Plan Assurance/Sub-assurances

The state demonstrates it has designed and implemented an effective system for reviewing the adequacy of service plans
for waiver participants.

i. Sub-Assurances:

a. Sub-assurance: Service plans address all participants assessed needs (including health and safety risk
factors) and personal goals, either by the provision of waiver services or through other means.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or
sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to
analyze and assess progress toward the performance measure. In this section provide information on the
method by which each source of data is analyzed statistically/deductively or inductively, how themes are
identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
D.a.1 Number and percent of individuals with service plans that address their
assessed needs, including health and safety risk factors, and personal goals. N:
Number of individuals with service plans that address their assessed needs and
personal goals. D: Number of individuals with reviewed service plans.

b. Sub-assurance: The State monitors service plan development in accordance with its policies and procedures.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

c. Sub-assurance: Service plans are updated/revised at least annually or when warranted by changes in the waiver participants needs.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
D.c.1 Number and percent of service plans that are reassessed and renewed annually
prior to service plan expiration date. N: Number of service plans that were reassessed and renewed annually prior to service plan expiration date. D: Number of service plans that required annual reassessment and renewal.

**ii.** If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.
HHSC has implemented an online portal system that allows secure submission and return of electronic documentation, rather than submission of paper documentation. This will allow for improved secure document transmission, reduced need for follow-up calls, emails and faxes, and the ability to check submission status at any time. Providers will receive status updates on submissions, including if a submission needs additional information or documentation and when a submission reaches a final status.

One hundred percent of authorized service plans are reviewed by HHSC. If an incomplete or incorrectly completed service plan is submitted to HHSC, the plan is returned through the online portal to the case management agency for correction. When these plans are returned to the case management agency, a description of the error and required correction is included. The case manager must then resubmit the corrected plan, which is reviewed again by HHSC staff. The feedback sent to the case manager with the remanded service plan is captured in the CLASS database.

HHSC staff use the Service Authorization System Online to authorize waiver services and to collect, process, and report individual service authorization data. The Service Authorization System maintains the following information:
- Information about individuals who are enrolled and their service authorizations. The system records contain information such as contact information, enrollment data, authorized service period, allotted amounts of each service, and service plan changes and reassessments.
- Provider Information about service providers is maintained in the system. The records contain information such as types of services and number of units each provider is authorized to deliver for each individual.
- Billing and Payment Information related to specific rate information for each type of service. CLASS case managers, with the service planning teams, recommend specific services for participants. The provider may bill for services only after HHSC has authorized those services in the system.
- Medicaid Eligibility Service Authorization Verification provides information about individuals for whom they are authorized to deliver services. This information includes Medicaid eligibility, level of care, and service authorization.

One hundred percent of CLASS providers are reviewed by HHSC Contracts staff at least every two years. This monitoring includes a review of the service plans for individuals in the sample.

HHSC has a process which requires quarterly and annual reports. The reports include data relating to all performance measures in the waiver which include service plan development and monitoring. All quarterly and annual reports are reviewed by HHSC. Quarterly and annual reporting allows the State to identify additional areas of remediation that require training or technical assistance based on performance measure reports that are representative of the waiver population. If issues are identified, HHSC employs a variety of mechanisms to resolve issues including informal conversations, elevated conversations, issuing an action memo, or issuing a corrective action plan.

HHSC meets regularly to discuss the CLASS waiver. These meetings provide opportunities for staff to report on performance and to receive feedback and guidance related to that performance, including service planning.

**b. Methods for Remediation/Fixing Individual Problems**

i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.
Technical assistance is shared with case management agencies and direct services agencies throughout the HHSC Contracts staff review. If, during a contract monitoring review, a case management agency is discovered to have not submitted a service plan within the required timeframe or if a service plan is missing signatures, the case management agency is required to submit a corrective action plan to HHSC. The corrective action plan must contain the following elements:

- a description of the non-compliance that HHSC identified from the monitoring or investigation resulting in the corrective action plan;
- a description of the activities the provider will perform to correct or prevent the non-compliance from reoccurring;
- the title of the person responsible for completion of the activities; and
- include a schedule for performing the activities.

If a corrective action plan is requested from the provider, the provider is informed that they may contact HHSC staff with any questions or requests for clarification of what constitutes an acceptable corrective action plan. Upon submittal, HHSC reviews the corrective action plan and either accepts or, if the submitted plan does not include all of the required elements, requests revisions and resubmission of the plan. Providers are informed that their failure to submit an acceptable corrective action plan, or comply with a corrective action plan, by the date specified by HHSC may result in HHSC taking additional actions or sanctions against the provider, up to and including termination of the Medicaid provider agreement. HHSC monitors the corrective action plan until the provider is in compliance.

Findings from monitoring reviews and complaint investigations may result in a corrective action plan and may be referred to the Adverse Action Review Committee to determine whether additional actions or sanctions should be taken against the provider, including referral hold, vendor hold and involuntary contract termination. Results of each contract monitoring review are documented and recorded in the HHSC System of Contract Operation and Reporting.

HHSC conducts annual monitoring, which includes reviewing data from the quarterly quality measures and annual CMS-372 reports and implementing the Quality Review Team processes, the key formal mechanism for monitoring HHSC’s performance. The Quality Review Team meets quarterly and reviews comprehensive quality reports from each waiver at least annually. These reports include data on all of the waiver’s quality improvement strategy measures. These reports also include remediation activities and outcomes. Improvement plans are developed as issues are identified by HHSC and the Quality Review Team reviews, making modifications if needed, and approves all improvement plans. All active improvement plans for all waivers are monitored at each quality review team meeting.

c. Timelines
When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Service Plans that are currently non-operational.

- No
- Yes

Please provide a detailed strategy for assuring Service Plans, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix E: Participant Direction of Services

Applicability (from Application Section 3, Components of the Waiver Request):

- Yes. This waiver provides participant direction opportunities. Complete the remainder of the Appendix.
- No. This waiver does not provide participant direction opportunities. Do not complete the remainder of the Appendix.

CMS urges states to afford all waiver participants the opportunity to direct their services. Participant direction of services includes the participant exercising decision-making authority over workers who provide services, a participant-managed budget or both. CMS will confer the Independence Plus designation when the waiver evidences a strong commitment to participant direction.

Indicate whether Independence Plus designation is requested (select one):

- Yes. The state requests that this waiver be considered for Independence Plus designation.
- No. Independence Plus designation is not requested.

Appendix E: Participant Direction of Services

E-1: Overview (1 of 13)

a. Description of Participant Direction. In no more than two pages, provide an overview of the opportunities for participant direction in the waiver, including: (a) the nature of the opportunities afforded to participants; (b) how participants may take advantage of these opportunities; (c) the entities that support individuals who direct their services and the supports that they provide; and, (d) other relevant information about the waiver's approach to participant direction.
Participation in the consumer directed services option provides the individual or the legally authorized representative the opportunity to be the employer of persons providing those waiver services chosen for self-direction. An individual, through the consumer directed services option, may direct residential habilitation, respite, supported employment, employment assistance, nursing, physical therapy, occupational therapy, speech, and language therapy, and cognitive rehabilitation therapy. Any or all of these services may be self-directed. This option is available statewide to individuals receiving CLASS waiver services who are living in their own homes or family homes.

Under the traditional agency option (provider-managed service delivery method) individuals choose a direct services agency to provide any services that are not authorized for the consumer directed services option and any services available through the consumer directed services option that the individual or legally authorized representative chooses not to self-direct.

Each individual or legally authorized representative electing the consumer directed services option must receive support from a financial management services provider referred to as a financial management services agency, chosen by the individual or legally authorized representative. An individual or legally authorized representative may also use support consultation, which is available only to individuals who choose the consumer directed services option.

The individual or the legally authorized representative may appoint a designated representative to assist with or perform employer responsibilities to the extent approved by the employer. HHSC will not pay the individual/employer’s designated representative for serving as the designated representative or for providing any services to the individual.

When choosing to self-direct authorized waiver services, the individual receiving those services or the legally authorized representative is the common-law employer of service providers and has decision-making authority over providers of those services. The employer assumes and retains responsibility to recruit, determine the competence of, hire, train, manage, and fire their employees.

In addition, the individual/employer has budget authority over the services he or she is directing. The individual/employer, with the assistance of the financial management services agency, budgets authorized funds for those services to be delivered through the consumer directed services option. HHSC authorizes the funds for the services allocated for the consumer directed services option on the service plan.

The case manager informs the individual, legally authorized representative, or both of the option to self-direct the services indicated above at the time of enrollment in the waiver, at least annually thereafter, and upon request of the individual or legally authorized representative. The individual or legally authorized representative may elect at any time to choose the consumer directed services option, terminate participation in the consumer directed services option, or to change financial management services agencies.

Entities or individuals involved in supporting the individual receiving services, or the individual’s legally authorized representative who is directing services and supports, include:

1. The individual’s case manager, who provides information about the consumer directed services option and monitors service delivery through the option. The case management functions are global and apply to self-directed as well as provider-managed waiver services and non-waiver services; and
2. A financial management services agency, chosen by the individual or legally authorized representative, to provide financial management services such as conduct payroll, file, and report taxes on behalf of the individual/employer, and provide training related to employer activities. The financial management services agency must hold a Medicaid provider agreement with HHSC.
3. If the individual or legally authorized representative has chosen to receive support consultation, a qualified support advisor chosen by the individual or legally authorized representative, who assists the individual/employer in learning about and performing employer responsibilities; and
4. If appointed by the individual/employer, a designated representative who assists in meeting employer responsibilities to the extent directed by the individual/employer.

To participate in the consumer directed services option, an individual or legally authorized representative must:

1. Select a financial management services agency;
2. Participate in orientation and ongoing training conducted by the financial management services agency;
3. Perform all employer tasks that are required for self-direction or appoint a designated representative capable of performing some or all of these tasks on the individual’s behalf; and
(4) Maintain a service backup plan for provision of services determined by the service planning team to be critical to the individual’s health and welfare.

Appendix E: Participant Direction of Services

E-1: Overview (2 of 13)

b. Participant Direction Opportunities. Specify the participant direction opportunities that are available in the waiver. Select one:

- **Participant: Employer Authority.** As specified in Appendix E-2, Item a, the participant (or the participant's representative) has decision-making authority over workers who provide waiver services. The participant may function as the common law employer or the co-employer of workers. Supports and protections are available for participants who exercise this authority.

- **Participant: Budget Authority.** As specified in Appendix E-2, Item b, the participant (or the participant's representative) has decision-making authority over a budget for waiver services. Supports and protections are available for participants who have authority over a budget.

- **Both Authorities.** The waiver provides for both participant direction opportunities as specified in Appendix E-2. Supports and protections are available for participants who exercise these authorities.

c. Availability of Participant Direction by Type of Living Arrangement. Check each that applies:

- ✓ Participant direction opportunities are available to participants who live in their own private residence or the home of a family member.
- □ Participant direction opportunities are available to individuals who reside in other living arrangements where services (regardless of funding source) are furnished to fewer than four persons unrelated to the proprietor.
- □ The participant direction opportunities are available to persons in the following other living arrangements

  Specify these living arrangements:

Appendix E: Participant Direction of Services

E-1: Overview (3 of 13)

d. Election of Participant Direction. Election of participant direction is subject to the following policy (select one):

- ○ Waiver is designed to support only individuals who want to direct their services.
- ○ The waiver is designed to afford every participant (or the participant's representative) the opportunity to elect to direct waiver services. Alternate service delivery methods are available for participants who decide not to direct their services.
- ○ The waiver is designed to offer participants (or their representatives) the opportunity to direct some or all of their services, subject to the following criteria specified by the state. Alternate service delivery methods are available for participants who decide not to direct their services or do not meet the criteria.

Specify the criteria
An individual is offered the opportunity to self-direct services when:
1. The individual lives in his or her own home, or the home of a family member; and
2. The service plan includes any service that is eligible for delivery using the consumer directed services option. These services include residential habilitation, respite, nursing, physical therapy, occupational therapy, supported employment, employment assistance, speech and language pathology/therapy, and cognitive rehabilitation therapy.

Appendix E: Participant Direction of Services

E-1: Overview (4 of 13)

e. Information Furnished to Participant. Specify: (a) the information about participant direction opportunities (e.g., the benefits of participant direction, participant responsibilities, and potential liabilities) that is provided to the participant (or the participant's representative) to inform decision-making concerning the election of participant direction; (b) the entity or entities responsible for furnishing this information; and, (c) how and when this information is provided on a timely basis.

The case manager provides each individual and legally authorized representative a written and oral explanation of the consumer directed services option at the time of enrollment, at each annual review of the service plan, and at any time requested by the individual or legally authorized representative.

Each individual or legally authorized representative is provided information sufficient to assure informed decision-making and understanding of the consumer directed services option and of the traditional agency option (provider-managed service delivery option). The information includes the responsibilities and choices individuals can make with the election of the consumer directed services option. Consumer directed service materials are available in English and Spanish and can be provided upon request in other languages.

The information provided orally and in writing to the individual and the legally authorized representative by the case manager includes the following:
1. An overview of the consumer directed services option;
2. An explanation of responsibilities in the consumer directed services option for the individual or legally authorized representative, case manager, and the financial management services agency;
3. An explanation of benefits and risks of participating in the consumer directed services option;
4. A self-assessment for participation in the consumer directed services option;
5. An explanation of required minimum qualifications of service providers through the consumer directed services option; and
6. An explanation of employee/employer relationships that prohibit employment under the consumer directed services option.

The individual/employer may request an adjustment to the service plan at any time. In response to the individual’s request to adjust the service plan, the case manager convenes the service planning team to discuss the change in the service plan and the justification for the change in the service plan. In response to the individual’s request to adjust the budget, the employer contacts the financial management services agency to discuss the change in the budget and the justification for change in the budget.

Appendix E: Participant Direction of Services

E-1: Overview (5 of 13)

f. Participant Direction by a Representative. Specify the state's policy concerning the direction of waiver services by a representative (select one):

- The state does not provide for the direction of waiver services by a representative.
- The state provides for the direction of waiver services by representatives.

Specify the representatives who may direct waiver services: (check each that applies):

- Waiver services may be directed by a legal representative of the participant.
Waiver services may be directed by a non-legal representative freely chosen by an adult participant.

Specify the policies that apply regarding the direction of waiver services by participant-appointed representatives, including safeguards to ensure that the representative functions in the best interest of the participant:

The individual or the legally authorized representative serving as the consumer directed services employer may appoint an adult who is not the legally authorized representative as a designated representative to assist in performance of employer responsibilities to the extent desired by the individual or legally authorized representative. The consumer directed services employer documents the employer responsibilities that the designated representative may perform and those that the designated representative may not perform on the consumer directed services employer's behalf. The consumer directed services employer provides this documentation to the financial management services agency. The financial management services agency monitors performance of employer responsibilities performed by the consumer directed services employer and, when applicable, the designated representative in accordance with the consumer directed services employer’s documented directions. Neither the designated representative nor the spouse of the designated representative may be employed by, receive compensation from, or be a provider of waiver services for the individual. The consumer directed services employer may terminate the responsibilities of the designated representative at any time.

To ensure that designated representative functions in the best interests of the individual, safeguards are in place that include restrictions preventing the designated representative from:
- signing or representing himself as the employer,
- providing a waiver service, or
- being paid to perform employer responsibilities.

Applicants for employment are required to certify the status of relationship with the employer. If the person indicates that he or she is either designated representative or designated representative’s spouse, the financial management services agency would not approve the applicant for hire. The financial management services agency maintains documentation of the designated representative. HHSC monitors compliance through its financial management services agency contract monitoring.

Appendix E: Participant Direction of Services

E-1: Overview (6 of 13)

g. Participant-Directed Services. Specify the participant direction opportunity (or opportunities) available for each waiver service that is specified as participant-directed in Appendix C-1/C-3.

Appendix E: Participant Direction of Services

E-1: Overview (7 of 13)

h. Financial Management Services. Except in certain circumstances, financial management services are mandatory and integral to participant direction. A governmental entity and/or another third-party entity must perform necessary financial transactions on behalf of the waiver participant. Select one:

- Yes. Financial Management Services are furnished through a third party entity. (Complete item E-1-i).

Specify whether governmental and/or private entities furnish these services. Check each that applies:

- [ ] Governmental entities
- [x] Private entities

- No. Financial Management Services are not furnished. Standard Medicaid payment mechanisms are used. Do not complete Item E-1-i.

Appendix E: Participant Direction of Services

E-1: Overview (8 of 13)

i. Provision of Financial Management Services. Financial management services (FMS) may be furnished as a waiver service or as an administrative activity. Select one:

- Yes. FMS are covered as the waiver service specified in Appendix C-1/C-3

The waiver service entitled:

Financial Management Services

- No. FMS are provided as an administrative activity.

Provide the following information

i. Types of Entities: Specify the types of entities that furnish FMS and the method of procuring these services:

Private entities furnish financial management services. These entities, called financial management services agencies, are procured through an open enrollment process and the State has Medicaid provider agreements with multiple entities to provide financial management services to individuals across the state.

HHSC executes a Texas Medicaid provider agreement with each financial management services agency. These agreements include additional State contract requirements.

ii. Payment for FMS. Specify how FMS entities are compensated for the administrative activities that they perform:

Entities are compensated with a flat monthly fee per individual served.

iii. Scope of FMS. Specify the scope of the supports that FMS entities provide (check each that applies):

- [x] Assist participant in verifying support worker citizenship status
- [x] Collect and process timesheets of support workers
- [x] Process payroll, withholding, filing and payment of applicable federal, state and local employment-related taxes and insurance
- [x] Other
Specify:

Obtain criminal history check on behalf of the individual/employer and share information with the individual/employer so the employer can make a hiring decision.

Supports furnished when the participant exercises budget authority:

- Maintain a separate account for each participant’s participant-directed budget
- Track and report participant funds, disbursements and the balance of participant funds
- Process and pay invoices for goods and services approved in the service plan
- Provide participant with periodic reports of expenditures and the status of the participant-directed budget

☐ Other services and supports

Specify:

Additional functions/activities:

- Execute and hold Medicaid provider agreements as authorized under a written agreement with the Medicaid agency
- Receive and disburse funds for the payment of participant-directed services under an agreement with the Medicaid agency or operating agency
- Provide other entities specified by the state with periodic reports of expenditures and the status of the participant-directed budget
- Other

Specify:

Provides ongoing training, assistance, and support for employer-related responsibilities.

iv. Oversight of FMS Entities. Specify the methods that are employed to: (a) monitor and assess the performance of FMS entities, including ensuring the integrity of the financial transactions that they perform; (b) the entity (or entities) responsible for this monitoring; and, (c) how frequently performance is assessed.

HHSC conducts monitoring reviews of each financial management services agency legal entity to determine if the agency is in compliance with the Medicaid provider agreement and with waiver rules and requirements. These reviews are conducted via desk reviews or at the location where the financial management services agencies are providing financial management services.

Texas monitors 100 percent of financial management services agency legal entities at a minimum of every three years. HHSC assesses a financial management services agency’s performance by:
1. Measuring adherence to rules in Title 40 of the Texas Administrative Code, Part 1, Chapters 41 and 49;
2. Matching payroll, optional benefits, and tax deposits to time sheets;
3. Ensuring that the hours worked and the rate of pay are consistent with individual budgets;
4. Reviewing administrative payments; and
5. Reviewing the provider agreements.

Appendix E: Participant Direction of Services
j. Information and Assistance in Support of Participant Direction. In addition to financial management services, participant direction is facilitated when information and assistance are available to support participants in managing their services. These supports may be furnished by one or more entities, provided that there is no duplication. Specify the payment authority (or authorities) under which these supports are furnished and, where required, provide the additional information requested (check each that applies):

☐ Case Management Activity. Information and assistance in support of participant direction are furnished as an element of Medicaid case management services.

Specify in detail the information and assistance that are furnished through case management for each participant direction opportunity under the waiver:

☒ Waiver Service Coverage. Information and assistance in support of participant direction are provided through the following waiver service coverage(s) specified in Appendix C-1/C-3 (check each that applies):

Information and assistance in support of participant direction are furnished as an administrative activity.

Specify (a) the types of entities that furnish these supports; (b) how the supports are procured and compensated; (c) describe in detail the supports that are furnished for each participant direction opportunity under the waiver; (d) the methods and frequency of assessing the performance of the entities that furnish these supports; and, (e) the entity or entities responsible for assessing performance:

---

**Appendix E: Participant Direction of Services**

**E-1: Overview (10 of 13)**

**k. Independent Advocacy (select one).**

- ☐ No. Arrangements have not been made for independent advocacy.
- ☑ Yes. Independent advocacy is available to participants who direct their services.

*Describe the nature of this independent advocacy and how participants may access this advocacy:*

---

**Appendix E: Participant Direction of Services**

**E-1: Overview (11 of 13)**

**l. Voluntary Termination of Participant Direction.** Describe how the state accommodates a participant who voluntarily terminates participant direction in order to receive services through an alternate service delivery method, including how the state assures continuity of services and participant health and welfare during the transition from participant direction:
An individual/employer may voluntarily terminate participation in the consumer directed services option at any time. The case manager convenes the service planning team to revise the service plan for the transition of services previously delivered through the consumer directed services option to be delivered by the direct services agency chosen by the individual or legally authorized representative. The service planning team assists the individual as necessary to ensure continuity of all waiver services through the traditional agency option (provider-managed service delivery method) and maintenance of the individual's health and welfare during the transition from the consumer directed services option. The financial management services agency closes the employer’s payroll and payable accounts and completes all deposits and filings of required reports with governmental agencies on behalf of the individual. When an individual voluntarily terminates self-direction of services, the case manager will assist the individual to begin services through the traditional agency option (provider-managed service delivery method) with no gap in coverage. The individual must wait 90 days before returning to the consumer directed services option.

Appendix E: Participant Direction of Services

E-1: Overview (12 of 13)

m. Involuntary Termination of Participant Direction. Specify the circumstances when the state will involuntarily terminate the use of participant direction and require the participant to receive provider-managed services instead, including how continuity of services and participant health and welfare is assured during the transition.

An individual’s service planning team, financial management services agency, or HHSC may recommend termination of participation in the consumer directed services option if the individual, legally authorized representative, or designated representative does not implement and successfully complete the following steps and interventions:

1. Address risks to the individual's health or welfare;
2. Successfully direct the delivery of appropriate waiver services through the consumer directed services option;
3. Meet employer responsibilities as listed in E-2-a(ii), Participant Employer Authority, and E-2-b(i), Participant Budget Authority, of this Appendix;
4. Successfully implement corrective action plans; or
5. Appoint a designated representative or access other available supports to assist the employer in meeting employer responsibilities.

HHSC may require immediate termination from consumer direction in circumstances that jeopardize health and safety of the individual, when the designated representative is convicted of a crime, or if another regulatory agency recommends termination.

The individual's case manager and service planning team assist the individual to ensure continuity of all waiver services through the traditional agency option (provider-managed service delivery option) and maintenance of the individual's health and welfare during the transition from the consumer directed services option. The case manager must assist with revising the service plan for the transition of services previously delivered through the consumer directed services option that will be delivered by the direct services agency chosen by the individual or legally authorized representative. The financial management services agency closes the employer's payroll and payable accounts and completes all deposits and filing of required reports with governmental agencies on behalf of the individual.

Appendix E: Participant Direction of Services

E-1: Overview (13 of 13)

n. Goals for Participant Direction. In the following table, provide the state's goals for each year that the waiver is in effect for the unduplicated number of waiver participants who are expected to elect each applicable participant direction opportunity. Annually, the state will report to CMS the number of participants who elect to direct their waiver services.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant Direction (1 of 6)

a. Participant - Employer Authority Complete when the waiver offers the employer authority opportunity as indicated in Item E-1-b:

i. Participant Employer Status. Specify the participant's employer status under the waiver. Select one or both:

- **Participant/Co-Employer.** The participant (or the participant's representative) functions as the co-employer (managing employer) of workers who provide waiver services. An agency is the common law employer of participant-selected/recruited staff and performs necessary payroll and human resources functions. Supports are available to assist the participant in conducting employer-related functions.

Specify the types of agencies (a.k.a., agencies with choice) that serve as co-employers of participant-selected staff:

- **Participant/Common Law Employer.** The participant (or the participant's representative) is the common law employer of workers who provide waiver services. An IRS-approved Fiscal/Employer Agent functions as the participant's agent in performing payroll and other employer responsibilities that are required by federal and state law. Supports are available to assist the participant in conducting employer-related functions.

ii. Participant Decision Making Authority. The participant (or the participant's representative) has decision making authority over workers who provide waiver services. Select one or more decision making authorities that participants exercise:

- **Recruit staff**
- **Refer staff to agency for hiring (co-employer)**
- **Select staff from worker registry**
- **Hire staff common law employer**
- **Verify staff qualifications**
- **Obtain criminal history and/or background investigation of staff**

Specify how the costs of such investigations are compensated:

- Funds available in the individual's consumer directed services budget are used for this purpose.

- **Specify additional staff qualifications based on participant needs and preferences so long as such qualifications are consistent with the qualifications specified in Appendix C-1/C-3.**
Specify the state's method to conduct background checks if it varies from Appendix C-2-a:

- The state's method to conduct background checks does not vary from Appendix C-2-a

- Determine staff duties consistent with the service specifications in Appendix C-1/C-3.
- Determine staff wages and benefits subject to state limits
- Schedule staff
- Orient and instruct staff in duties
- Supervise staff
- Evaluate staff performance
- Verify time worked by staff and approve time sheets
- Discharge staff (common law employer)
- Discharge staff from providing services (co-employer)
- Other

Specify:

---

### Appendix E: Participant Direction of Services

**E-2: Opportunities for Participant-Direction (2 of 6)**

**b. Participant - Budget Authority** Complete when the waiver offers the budget authority opportunity as indicated in Item E-1-b:

- Participant Decision Making Authority. When the participant has budget authority, indicate the decision-making authority that the participant may exercise over the budget. *Select one or more:*

  - Reallocate funds among services included in the budget
  - Determine the amount paid for services within the state's established limits
  - Substitute service providers
  - Schedule the provision of services
  - Specify additional service provider qualifications consistent with the qualifications specified in Appendix C-1/C-3
  - Specify how services are provided, consistent with the service specifications contained in Appendix C-1/C-3
  - Identify service providers and refer for provider enrollment
  - Authorize payment for waiver goods and services
  - Review and approve provider invoices for services rendered
  - Other

Specify:

Reallocate funds among services included in the budget by requesting a service planning team meeting and revision to the individual plan of care.

---

08/24/2022
Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (3 of 6)

b. Participant - Budget Authority

ii. Participant-Directed Budget Describe in detail the method(s) that are used to establish the amount of the participant-directed budget for waiver goods and services over which the participant has authority, including how the method makes use of reliable cost estimating information and is applied consistently to each participant. Information about these method(s) must be made publicly available.

The service plan is developed in the same manner for the individual who elects the consumer directed services option as it is for the individual who elects to have services delivered through the traditional agency option (provider-managed service delivery option). The service plan must be approved by HHSC.

The consumer directed services budget is based on the estimated cost of the self-directed services in the approved service plan and the adopted consumer directed services reimbursement rates. The consumer directed services budget is developed by the individual or legally authorized representative with assistance from the financial management services agency.

Funds from the consumer directed services budget are allocated to each self-directed service that has been included in the approved service plan.

The budget for each service, and any revisions, must be approved by the financial management services agency prior to implementation. The financial management services agency must ensure that projected expenditures are within the authorized budget for each service, are allowable and reasonable, and are projected over the effective period of the plan to ensure that sufficient funds will be available to the end date of the service plan. With approval of the financial management services agency, the individual or legally authorized representative may make revisions to a specific service on the budget when the revision will not change the amount of funds available for the service based on the approved service plan.

Employer-related costs are paid for using the consumer directed services budget and include costs for equipment, supplies, or activities that will provide direct benefit to the individuals who self-direct services to support specific outcomes related to being an employer. These costs include: recruiting expenses, fax machine for sending employee time sheets to the financial management services agency, criminal conviction history checks from the Texas Department of Public Safety, acquiring other background checks of a potential service provider, purchased employee job-specific training, cardio-pulmonary resuscitation training, first-aid training, and Hepatitis B vaccination if elected by an employee.

Support consultation has a specific reimbursement rate and is a component of the individual's service budget. In conjunction with the service planning team, the individual or legally authorized representative determines the level of support consultation necessary to be included in the individual's service plan.

A revision to the budget for a particular service or a request to shift funds from one service to another is a service plan change and must be justified by the service planning team and authorized by HHSC. With assistance of the financial management services agency, the individual or legally authorized representative revises the consumer directed services budget to reflect the revision in the service plan.

Information concerning budget methodology for the consumer directed services budget is available to the public in Title 40 of the Texas Administrative Code, Part 1, Chapter 41, Subchapter E.
iii. Informing Participant of Budget Amount. Describe how the state informs each participant of the amount of the participant-directed budget and the procedures by which the participant may request an adjustment in the budget amount.

The individual or the legally authorized representative participates as a member of the service planning team that develops the individual's service plan. The individual or legally authorized representative is apprised of the budget as it is developed. The individual develops the consumer directed services budget based on the finalized service plan and authorized budget. The financial management services agency and the case manager inform the individual/employer of the amount authorized for the particular service before the budget is developed.

During the service planning process, the case manager informs the individual or legally authorized representative of procedures to request a revision to the service plan. The individual/employer may request an adjustment to the service plan at any time. In response to the individual’s request to adjust the budget amount, the case manager convenes the service planning team to discuss the change in the budget amount and the justification for change the service plan. An individual whose services are reduced, denied, suspended, or terminated is entitled to a fair hearing in accordance with Title 1 of the Texas Administrative Code, Part 15, Chapter 357, Subchapter A. The specific procedures for a fair hearing are provided in Appendix F, Individual Rights.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (5 of 6)

b. Participant - Budget Authority

iv. Participant Exercise of Budget Flexibility. Select one:

- Modifications to the participant directed budget must be preceded by a change in the service plan.
- The participant has the authority to modify the services included in the participant directed budget without prior approval.

Specify how changes in the participant-directed budget are documented, including updating the service plan. When prior review of changes is required in certain circumstances, describe the circumstances and specify the entity that reviews the proposed change:

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (6 of 6)

b. Participant - Budget Authority

v. Expenditure Safeguards. Describe the safeguards that have been established for the timely prevention of the premature depletion of the participant-directed budget or to address potential service delivery problems that may be associated with budget underutilization and the entity (or entities) responsible for implementing these safeguards:
An individual’s consumer directed services budget is calculated and monitored based on projected utilization and frequency of the services as determined by the service planning team. The financial management services agency is required to monitor payroll every pay period and expenditures, as processed for payment. The financial management services agency is required to report over- and under-utilization to the individual/employer and the case manager. When an over- or under-utilization is not corrected by the individual/employer or legally authorized representative, the financial management services agency notifies the case manager and the individual/employer. The case manager and the individual/employer identify the cause of the continuing deviation from projected utilization and develop a plan to correct the deviation or revise the service plan.

Appendix F: Participant Rights

Appendix F-1: Opportunity to Request a Fair Hearing

The state provides an opportunity to request a Fair Hearing under 42 CFR Part 431, Subpart E to individuals: (a) who are not given the choice of home and community-based services as an alternative to the institutional care specified in Item 1-F of the request; (b) are denied the service(s) of their choice or the provider(s) of their choice; or, (c) whose services are denied, suspended, reduced or terminated. The state provides notice of action as required in 42 CFR §431.210.

Procedures for Offering Opportunity to Request a Fair Hearing. Describe how the individual (or his/her legal representative) is informed of the opportunity to request a fair hearing under 42 CFR Part 431, Subpart E. Specify the notice(s) that are used to offer individuals the opportunity to request a Fair Hearing. State laws, regulations, policies and notices referenced in the description are available to CMS upon request through the operating or Medicaid agency.
During the initial face-to-face visit by the case manager with the individual, legally authorized representative, or both as appropriate, the case manager explains the individual has the right to request a fair hearing and explains the fair hearing process. Additionally, based on the case manager’s responsibility to protect the individual’s rights and intervene to assist individuals in crisis, the case manager must also explain which services will not continue during the fair hearing process.

At the time of enrollment and at least annually, the case manager provides an oral and written explanation of an individual’s right to request a fair hearing, to the individual or legally authorized representative (in accordance with Title 1 of the Texas Administrative Code, Part 1, Chapter 45, Subchapter B, Section 45.212, Title 40 of the Texas Administrative Code, Part 1, Chapter 45, Subchapter G, Section 45.702, and Title 1 of the Texas Administrative Code, Part 15.) The case management agency documents the explanation of the right to request a fair hearing is provided to the individual or legally authorized representative. This explanation includes a description of the individual’s right to request a fair hearing if the individual’s request for enrollment into the CLASS program is denied or is not acted upon with reasonable promptness, or if the individual’s CLASS Program services are denied, suspended, reduced, or terminated (in accordance with Title 40 of the Texas Administrative Code, Part 1, Chapter 45, Subchapter C, Section 45.301, and Title 1 of the Texas Administrative Code, Part 15, Chapter 357, Subchapter A, Section 357.3). At the time of enrollment and annually, all individuals are given the choice of home and community-based services as an alternative to institutional care.

HHSC or the case management agency sends HHSC Form 3624 to the individual or legally authorized representative at least 10 days prior to the effective date of action in accordance with Title 1 of the Texas Administrative Code, Part 15, Chapter 357, Subchapter A, § 357.11, except as permitted by 42 CFR §431.213 and §431.214. HHSC Form 3624 describes the action HHSC will take and explains the right to request a fair hearing (in accordance with Title 1 of the Texas Administrative Code, Part 15, Chapter 357, Subchapter A, Section 357.11 and Title 1 of the Texas Administrative Code, Part 15, Chapter 357, Subchapter A, Section 357.3). HHSC and the case manager retain a copy of the HHSC Form 3624 in the individual’s record. If an individual or legally authorized representative elects to request a fair hearing, HHSC and the case manager retain a copy of the written request for a hearing in the individual’s record.

An individual may not be eligible to receive or continue to receive services while the fair hearing process is pending, in the following circumstances:

1. Situations described in Title 1 of the Texas Administrative Code, Part 15, Chapter 357, Subchapter A, Section 357.11;

2. When an individual has not requested a hearing before the effective date of action (in accordance with Title 1 of the Texas Administrative Code, Part 15, Chapter 357, Subchapter A, Section 357.11) and, one of the following situations applies:
   - Denial of waiver enrollment;
   - The individual or a person in the individual’s residence exhibits behavior that places the health and safety of the case management agency case manager or a direct services agency service provider in immediate jeopardy;
   - Denial of service not previously authorized on the individual’s service plan; or
   - Suspension or termination of services because the individual leaves the State.

If an individual requests a fair hearing, the case manager completes the HHSC Fair Hearing Request Summary, and sends it to HHSC. The case manager must send the HHSC Fair Hearing Request Summary to HHSC within one business day after the date the case manager receives the request for appeal. HHSC staff enters the information into the Texas Integrated Eligibility Redesign System for notification to the HHSC Fair Hearings Section that conducts Fair Hearings. HHSC maintains an electronic copy of all appeals the State conducts. Fair hearing requests are tracked on an electronic database designated by HHSC.

The HHSC hearing officer sends the Acknowledgement and Notice of Fair Hearing to the individual and to HHSC to acknowledge the request for a hearing and to set a time, date, and place for the hearing. HHSC sends the information required by Title 1 of the Texas Administrative Code, Part 15, Chapter 357, Subchapter A, Section 357.15 to the individual or legally authorized representative at least 14 calendar days prior to the scheduled hearing. HHSC enters the information contained in the Fair Hearing Request Summary regarding evidence for the hearing into the Texas Integrated Eligibility Redesign System.

HHSC Notice of Hearing Form is used by the Fair Hearings Office to announce the date, time, and location of a fair hearing and includes information advising an individual of free legal assistance that is available in the area of the individual’s residence within the State. Additionally, the CLASS case manager is required to protect the individual’s rights and intervene to assist individuals in crisis, which requires the case manager to provide information regarding CLASS rules and policies that might have an impact on the fair hearing.

After the hearing is completed, the HHSC hearing office files the decision on the Update after Fair Hearing (Data Entry Form), in the appeal file (in accordance with Title 1 of the Texas Administrative Code, Part 15, Chapter 357, Subchapter A, Section 357.23). HHSC implements the decision of the HHSC hearing officer within 10 calendar days of the date of the decision and
sends a HHSC Action Taken on Hearing Decision to the Texas Integrated Eligibility Redesign System documenting that the decision has been implemented.

Individuals will be afforded the opportunity to request a fair hearing in all instances where they are not allowed to select a CLASS provider from a list of all available CLASS providers within the geographic area in which they receive waiver services.

Individuals will be afforded the opportunity to request a fair hearing in all instances where they are denied the service(s) of their choice.

Individuals will be afforded the opportunity to request a fair hearing in all instances where they are not notified that they have the choice of receiving HCBS instead of institutional services.

Appendix F: Participant-Rights

Appendix F-2: Additional Dispute Resolution Process

a. Availability of Additional Dispute Resolution Process. Indicate whether the state operates another dispute resolution process that offers participants the opportunity to appeal decisions that adversely affect their services while preserving their right to a Fair Hearing. Select one:

- ☑ No. This Appendix does not apply
- ☑ Yes. The state operates an additional dispute resolution process

b. Description of Additional Dispute Resolution Process. Describe the additional dispute resolution process, including: (a) the state agency that operates the process; (b) the nature of the process (i.e., procedures and timeframes), including the types of disputes addressed through the process; and, (c) how the right to a Medicaid Fair Hearing is preserved when a participant elects to make use of the process: State laws, regulations, and policies referenced in the description are available to CMS upon request through the operating or Medicaid agency.

Appendix F-3: State Grievance/Complaint System

a. Operation of Grievance/Complaint System. Select one:

- ☑ No. This Appendix does not apply
- ☑ Yes. The state operates a grievance/complaint system that affords participants the opportunity to register grievances or complaints concerning the provision of services under this waiver

b. Operational Responsibility. Specify the state agency that is responsible for the operation of the grievance/complaint system:

HHSC operates the grievance/complaint system.

c. Description of System. Describe the grievance/complaint system, including: (a) the types of grievances/complaints that participants may register; (b) the process and timelines for addressing grievances/complaints; and, (c) the mechanisms that are used to resolve grievances/complaints. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
HHSC has identified the Office of Complaint and Incident Intake as its centralized source for the receipt of complaints and grievances by individuals, legally authorized representatives, family members, and the general public, as well as concerns and questions regarding the facilities/agencies regulated by HHSC. The individual's case manager informs the individual or legally authorized representative verbally and in writing of the complaint or grievance process upon enrollment and annually thereafter.

The HHSC Office of Complaint and Incident Intake responds to all contacts and refers callers to the proper authorities. HHSC Office of Complaint and Incident Intake responds via telephone call, a letter, or email, to the complainant.

Complaints and grievances can be submitted by telephone by calling a toll-free line, by e-mail, or by written correspondence. HHSC Complaint and Incident Intake staff answer the toll-free line from 7 a.m. to 7 p.m. Monday through Friday. Voicemail is available 24 hours a day and is monitored from 8 a.m. to 5 p.m., central time, including weekends and holidays.

Complaints and grievances left on voicemail are monitored by Complaint Intake program specialists and returned on or before the next workday. Complaints and grievances may be anonymous. The identity of complainants and individuals is protected as allowed by law. An individual has the right to make a complaint, voice a grievance, or recommend changes in policy or service, without restraint, interference, coercion, discrimination, or reprisal.

CLASS providers are responsible for addressing complaints and grievances that they receive and ensuring appropriate action is taken. HHSC Regulatory Services reviews complaints and grievances involving state and/or federal licensure/certification regulations and the actions taken by the home and community support services agencies during routine surveys. HHSC Contracts staff reviews any complaints, grievances, and the actions taken by the case management agency and the financial management services agency during routine contract monitoring visits.

HHSC Complaint and Incident staff triage and refer allegations that they receive regarding a HHSC licensed agency or facility that is contracted to provide waiver services to HHSC Regulatory Services and HHSC Contracts staff. HHSC must acknowledge the complaint within 14 days after the date HHSC receives it and conduct an inspection within a timeframe varying from two days to the next onsite visit, based on the allegations in the complaint, and respond within two to 120 days after that date, based on the type of complaint.

If HHSC Regulatory Services conducted the initial investigation, HHSC Contracts staff must initiate the complaint investigation within 45 workdays of the date the staff receives either the Report of Investigation or Statement of Licensing Violations and Plan of Correction form from HHSC Regulatory Services. If HHSC Regulatory Services does not initiate an investigation, HHSC Contracts staff must initiate the complaint investigation within 45 workdays from the date HHSC Complaint and Incident Intake posted the intake to the designated Outlook mailbox.

The initiation of the complaint investigation begins when HHSC Contracts staff makes the first contact with the complainant or the provider. Contact may be made face-to-face, by telephone or fax. HHSC Contracts staff must complete the on-site or desk review investigation within 15 workdays from the date the investigation was initiated.

HHSC Contracts staff maintains a complaint log for the purpose of collecting, reviewing, and reporting complaint information. HHSC Contracts staff is responsible for entering complaint investigation findings into the System of Contract Operation and Reporting.

When HHSC Complaint and Incident Intake staff determines HHSC has no jurisdiction to investigate, complaints are referred to other agencies, boards, or entities as required.

The HHS Office of the Ombudsman assists the public when the program’s normal complaint process cannot, or does not, satisfactorily resolve an issue. Ombudsman services include:
• Conducting independent reviews of complaints concerning agency policies or practices;
• Ensuring policies and practices are consistent with the goals of HHSC;
• Ensuring individuals are treated fairly, respectfully, and with dignity; and,
• Making referrals to other agencies as appropriate.
Often it is necessary for the Office of the Ombudsman to refer an issue to program staff within the HHS agencies. If so, the Office of the Ombudsman will follow-up with the complainant to confirm resolution has been achieved, or to refer the complainant to other available known resources.

An individual may file a complaint with the Office of the Ombudsman by calling the toll-free-number, submitting the complaint online, or by faxing or mailing the complaint. When Ombudsman staff determines HHSC has no jurisdiction to investigate, complaints are referred to other agencies, boards, or entities, as required.

The Texas Medicaid Fair Hearing rules do not require an individual to file a grievance or complaint as a condition for a fair hearing. The opportunity to request a fair hearing and an explanation of the fair hearing process is given to an individual by the case manager if HHSC denies a request for enrollment, denies or suspends a service, or proposes to reduce a service or terminate program services.

The case management agency is required to present an explanation of the fair hearing process at enrollment, renewal, or any time the individual requests the information. The case management agency is the entity responsible to assist the individual in exercising his or her fair hearing rights.

If HHSC Regulatory Services conducted the initial investigation, HHSC contract staff must initiate the complaint investigation within 45 workdays of the date the staff receives either the Report of Investigation or Statement of Licensing Violations and Plan of Correction form from HHSC Regulatory Services. If HHSC Regulatory Services does not initiate an investigation, HHSC Contracts staff must initiate the complaint investigation within 45 workdays from the date HHSC Consumer Rights and Services posted the intake to the designated Outlook mailbox.

The initiation of the complaint investigation begins when HHSC contract staff makes the first contact with the complainant or the provider. Contact may be made face-to-face, by telephone or fax. HHSC contract staff must complete the on-site or desk review investigation within 15 workdays from the date the investigation was initiated.

HHSC contract staff maintains a complaint log for the purpose of collecting, reviewing, and reporting complaint information. HHSC contracts staff is responsible for reporting contract management activities, including complaint investigation findings, into the System of Contract Operation and Reporting.

With regard to specific allegations of abuse, neglect, or exploitation, HHSC Regulatory Services investigates all allegations of this nature in licensed Assisted Living Facilities. Home and Community Support Services Agencies are required to report allegations of abuse, neglect, or exploitation of an individual receiving waiver services to the Texas Department of Family and Protective Services. HHSC Provider Investigations investigates the allegations and makes the final determination as to whether abuse, neglect, or exploitation occurred. HHSC investigates to determine compliance with licensure and certification requirements. The direct service provider must ensure that the individual and legally authorized representative are informed of how to report allegations of abuse, neglect, or exploitation to HHSC Provider Investigations.

Often it is necessary for the Office of the Ombudsman to refer an issue to program staff within the HHS agencies. If so, the Office of the Ombudsman will follow-up with the complainant to confirm resolution has been achieved, or to refer the complainant to other available known resources.

An individual may file a complaint with the Office of the Ombudsman by calling the toll-free-number, submitting the complaint online, or by faxing or mailing the complaint. When Ombudsman staff determines HHSC has no jurisdiction to investigate, complaints are referred to other agencies, boards, or entities, as required.

Appendix G: Participant Safeguards

Appendix G-1: Response to Critical Events or Incidents

a. Critical Event or Incident Reporting and Management Process. Indicate whether the state operates Critical Event or Incident Reporting and Management Process that enables the state to collect information on sentinel events occurring in the waiver program. Select one:

- ☐ Yes. The state operates a Critical Event or Incident Reporting and Management Process (complete Items b through e)
No. This Appendix does not apply (do not complete Items b through e)
If the state does not operate a Critical Event or Incident Reporting and Management Process, describe the process that the state uses to elicit information on the health and welfare of individuals served through the program.

b. State Critical Event or Incident Reporting Requirements. Specify the types of critical events or incidents (including alleged abuse, neglect and exploitation) that the state requires to be reported for review and follow-up action by an appropriate authority, the individuals and/or entities that are required to report such events and incidents and the timelines for reporting. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
Every direct services agency is licensed as a home and community support services agency and is required to self-report allegations of abuse, neglect, and exploitation by its employees, the definition of which includes volunteers and contractors to both the Department of Family and Protective Services and HHSC under Title 2 of the Texas Health and Safety Code, Chapter 142, Section 142.018 and Title 40 of the Texas Administrative Code, Part 1, Chapter 97, Section 97.249. The HHSC Provider Investigations unit investigates the allegations and makes the final determination as to whether abuse, neglect, or exploitation occurred. HHSC investigates to determine compliance with licensure requirements. When allegations are made relating to abuse, neglect and exploitation, the Community Living Assistance and Support Services direct services agency must assist the individual in obtaining medical and psychological services and take actions to secure the safety of the individual. The state defines abuse, neglect, and exploitation in Title 2 of the Texas Human Resource Code, Chapter 48 and Title 40 of the Texas Administrative Code, Part 19, Chapter 705, Subchapter A. Under Title 2 of the Texas Human Resource Code, Chapter 48, Section 48.401, reportable conduct includes:

(A) Abuse or neglect that causes or may cause death or harm to an individual receiving agency services;
(B) Sexual abuse of an individual receiving agency services;
(C) Financial exploitation of an individual receiving agency services in the amount of $25 or more; and
(D) Emotional, verbal, or psychological abuse that causes harm to an individual receiving agency services.

All individuals, legally authorized representatives, direct services agency personnel, case management agency personnel, and financial management services agencies are provided the Department of Family and Protective Services toll-free number verbally and in writing and are instructed to report to the Department of Family and Protective Services immediately, but not later than twenty four hours after having knowledge or suspicion that an individual has been or is being abused, neglected, or exploited. All CLASS providers must report any instances of abuse, neglect, and exploitation immediately upon suspicion of such activities to the Department of Family and Protective Services and HHSC. Individuals may report suspected instances of abuse, neglect, and exploitation to the Department of Family and Protective Services or to HHSC via telephone or electronically through the Department of Family and Protective Services website.

Critical incidents which are not related to abuse, neglect or exploitation must be reported to HHSC using a secure web based application. Providers go to the website, fill out the form and submit the information. Providers also have the option to print the form and submit by fax or mail if they do not have consistent computer access.

Incidents meeting the criteria below, must be reported by the last calendar day of the month following the incident. Multiple incidents may be reported for one individual in one submission, but separate submissions will be required for multiple individuals. The provider reporting the incident must print the submission report and maintain it in their records.

Critical incident categories include:
- Elopement/Missing Individual
- Choking
- Emergency Room visit due to Illness or Injury
- Medication Error
- Theft or Property Damage over $25
- Emergency Situations
- Criminal Conduct
- Physical Altercation

In the course of reporting abuse, neglect and exploitation, a CLASS provider may need to complete a Provider Investigation Report and the HHSC CLASS/DBMD Notification of Critical Incidents form in order to ensure all elements of an incident are recorded.

The Department of Family and Protective Services investigates reports and makes a determination as to whether allegations of abuse, neglect, and exploitation are substantiated. HHSC Regulatory Services conducts surveys for compliance with state licensing standards regarding reported incidents and complaints related to abuse, neglect, and exploitation for licensed home and community service support agencies. When a complaint investigation is finalized, individuals are notified of the findings within 3 business days.

Intermediate Care Facilities for Individuals with Intellectual Disabilities providing out-of-home respite are also required to immediately report allegations of abuse, neglect, and exploitation to Department of Family and Protective Services. Those reports are investigated by HHSC Provider Investigations staff. Out-of-home respite facilities are also required to
immediately report abuse, neglect, and exploitation to HHSC Complaint and Incident Intake under HHSC licensure rules. Direct services agencies which are licensed as home and community support services agencies are required to report abuse, neglect, and exploitation immediately, but no later than 24 hours after learning of the incident (in accordance with Title 40 of the Texas Administrative Code, Part 1, Chapter 97, Section 97.249). Those reports are investigated by HHSC Regulatory Services staff.

c. Participant Training and Education. Describe how training and/or information is provided to participants (and/or families or legal representatives, as appropriate) concerning protections from abuse, neglect, and exploitation, including how participants (and/or families or legal representatives, as appropriate) can notify appropriate authorities or entities when the participant may have experienced abuse, neglect or exploitation.

At the time an individual is enrolled in CLASS and annually thereafter, all case management agencies and direct services agencies must ensure that the individual is informed orally and in writing of the processes for reporting allegations of abuse, neglect, or exploitation and provided the HHSC toll-free telephone number. Facilities where out-of-home respite is provided must post the information in a conspicuous place. Evidence supporting compliance with these requirements is reviewed during HHSC on-site licensure surveys and contract monitoring reviews of the provider.

The case management agency informs all waiver individuals of their rights, including their right to be free of abuse, neglect, and exploitation and provide individuals with information on how to report an allegation of abuse, neglect, or exploitation.

Financial management services agencies are required to provide an orientation to individuals who initiate the consumer directed services option. In accordance with Title 40 of the Texas Administrative Code, Chapter 41, Section 41.307, financial management services agencies are required to review and leave with the employer and designated representative, if applicable, printed information on how to report allegations of abuse, neglect, and exploitation. The financial management services agency must provide to the employer or designated representative a printed or an electronic copy of the HHSC Consumer Directed Services Employer Manual which includes a section of signs of abuse, neglect, and exploitation and how to report.

d. Responsibility for Review of and Response to Critical Events or Incidents. Specify the entity (or entities) that receives reports of critical events or incidents specified in item G-1-a, the methods that are employed to evaluate such reports, and the processes and time-frames for responding to critical events or incidents, including conducting investigations.
HHSC is responsible for receiving and reviewing critical event/incident reports. CLASS providers are required by policy to report all critical incidents and provide follow-up information regarding all instances of confirmed abuse, neglect, or exploitation by submitting the HHSC form within the timeframes specified in Title 40, §45.702 and 45.802 of the Texas Administrative Code. All complaints of abuse, neglect, or exploitation filed against Home and Community Support Services Agency licensed providers are referred to the HHSC Provider Investigations. HHSC may take a range of enforcement actions including administrative penalties and licensure revocation.

HHSC Regulatory division has jurisdiction to conduct surveys for compliance with state licensing standards and investigates reported incidents of abuse, neglect and exploitation occurring in licensed facilities. In addition, HHSC Regulatory investigates incidents/complaints that are not abuse, neglect or exploitation allegations for licensed home and community support services agencies and licensed facilities.

Home and Community Support Services Agencies are required to investigate an allegation of abuse, neglect, or exploitation and submit a Provider Investigation Report to HHSC within 10 calendar days. HHSC regulatory surveyors review the reports, assessing the provider's description of the incident, the provider's summary and analysis of the investigation procedures, the provider's conclusion as to whether the allegation is supported by the provider's professional judgment, and recommendation(s) or corrective action(s) taken by the provider as a result of the investigation findings. Based on review of the provider investigation report, if further investigation is warranted to assess whether the provider complied with regulatory requirements, the survey staff will conduct an on-site investigation.

HHSC Provider Investigations is responsible for investigating allegations of abuse, neglect, and exploitation of individuals with disabilities, including cases in which a contracted provider is alleged to have abused, neglected, or exploited an individual. HHSC Provider Investigations records and tracks reports of abuse, neglect, or exploitation. The Department of Family and Protective Services assigns one of three priority levels of allegations at intake. HHSC Provider Investigations investigators may change the priority level as a result of the phone contact. HHSC Provider Investigations must make the initial face-to-face contact with the alleged victim based on the priority level. The investigator assesses the intake to determine if the correct priority is assigned. Changes in priority have the potential to affect investigation timelines, including face-to-face interviews with victims and when investigation is due.

Priority one cases are those which include incitement to harm self or others, death, sexual abuse, or serious physical, verbal or emotional abuse, or have serious risk for the collection of evidence if investigation is delayed. Require response within 24 hours.

Priority two cases are those which include non-serious physical injury or verbal/emotional abuse or have some risk for the collection of evidence if investigation is delayed. Require response within three calendar days.

Priority three cases, are those where exploitation is the only allegation or if the incident occurred more than 30 days prior to the day of the report. Require response within seven calendar days.

HHSC Provider Investigations provides the initial and final investigation reports to the Home and Community Support Services Agency so that appropriate action can be taken to ensure the individual’s health and safety. CLASS direct services agencies must submit a follow up report to HHSC describing their response to HHSC Provider Investigations final report and recommendations.

HHSC Investigations:
HHSC Complaint and Incident Intake unit receives, records, triages and tracks alleged abuse, neglect, and exploitation related to assisted living providers in the Texas Unified Licensure Information Portal database. Abuse, neglect, and exploitation allegations for Home and Community Support Service Agencies are referred to the HHSC Provider Investigations for abuse, neglect, or exploitation investigation.

HHSC provides due process to the perpetrator of confirmed abuse, neglect, or exploitation allegations when the act rises to the level of reportable conduct. Contracted providers are required to protect individuals from abuse, neglect, and exploitation under consumer rights rules, and they must report potential incidents of abuse, neglect, or exploitation. The methods of investigation and the time frames for completing investigations vary by the type of event or incident, the
setting, and investigating party. Other specific information regarding processes and time frames is available in the licensing requirements, the HHSC Provider Investigations procedures, or contract rules.

All complaints regarding incidents or concerns alleging non-compliance with federal and/or state licensure requirements are under the jurisdiction of HHSC and reported directly to HHSC Complaint and Incident Intake. HHSC Complaint and Incident Intake receives such complaints from individuals, members of the public, case managers and direct services agency staff.

HHSC evaluates all complaints (ANE and those that do not rise to the level of ANE) based on its own unique circumstances and assigns priorities accordingly. Priority one complaints require immediate response (i.e., on or before two working days). Immediate response by Regulatory Services is warranted when a provider allegedly creates or allows a present and ongoing situation in which the provider's noncompliance with one or more requirements of licensure or certification has failed to protect individuals from abuse, neglect or mistreatment, or has caused, or is likely to cause, serious injury, harm, impairment, or death to an individual.

HHSC Complaint Incident and Intake department refers all complaints to the appropriate unit (e.g. HHSC Contract Staff, Regulatory Services, etc.) or as appropriate to other agencies (i.e. HHS Ombudsman, Office of Inspector General, etc) for follow-up and resolution.

e. Responsibility for Oversight of Critical Incidents and Events. Identify the state agency (or agencies) responsible for overseeing the reporting of and response to critical incidents or events that affect waiver participants, how this oversight is conducted, and how frequently.
HHSC is responsible for reviewing all reports of critical incidents related to individuals enrolled in the Community Living Assistance and Support Services program. Reportable critical incidents are those which meet the definitions listed in the CLASS Provider Manual and either involved paid waiver staff, occurred during the provision of services or have an impact on the provision of services.

HHSC Provider Investigations is responsible for investigating all reports of abuse, neglect, and exploitation of individuals receiving services in the community. Upon completion of an investigation in which abuse, neglect, or exploitation is alleged against an employee of a Home and Community Support Services Agency, the HHSC Provider Investigations investigator releases the investigation findings to the CLASS direct services agency. If the alleged perpetrator is the Consumer Directed Services employer and is not the guardian or designated representative, the final report is sent to the Consumer Directed Services employer and the Financial Management Services Agency. If the alleged perpetrator is the designated representative or the guardian the investigation is handled by the Department of Family and Protective Services Adult Protective Services In-Home unit because the relationship extends beyond a provider relationship. Home and Community Support Services Agencies are required to investigate an allegation of abuse, neglect, or exploitation and must submit a Provider Investigation Report to HHSC within 10 calendar days. HHSC staff review the reports, assessing the provider's description of the incident, the provider's summary and analysis of the investigation procedures, the provider's conclusion as to whether the allegation is supported by the provider's professional judgment, and recommendation(s) or corrective action(s) taken by the provider as a result of the investigation findings. Based on review of the provider investigation report, if further investigation is warranted to assess whether the provider complied with regulatory requirements, the survey staff conduct an on-site investigation.

Critical incidents are also reported to HHSC by providers, as required by licensure regulations, and are investigated. Investigations of self-reported critical incidents occurring in Home and Community Support Services Agencies may be completed without an on-site investigation. If further investigation is warranted to ensure compliance with federal, state, or local laws, an on-site investigation is conducted.

If CLASS providers become aware of a critical incident, including death, they must report that incident to HHSC using the HHSC CLASS/DBMD Notification of Critical Incidents form, available on the HHSC website no later than the last calendar day of the month that follows the month being reported. HHSC staff compile data related to all reported critical incidents and follow up when it is determined the agency did not take sufficient or appropriate action to prevent the occurrence of the critical incident.

HHSC records the reports and outcomes of critical incidents including abuse, neglect, and exploitation investigations in several databases. The information contained in these databases is pulled for reporting purposes and shared as needed. Oversight activities occur on an ongoing basis. Information regarding confirmed instances of abuse, neglect, and exploitation are monitored, tracked and trended for purposes of training HHSC staff and to prevent recurrence. Oversight activities occur on an ongoing basis. Information regarding validated instances of abuse, neglect or exploitation are monitored, tracked, and trended for purposes of training HHSC staff and to prevent recurrence.

Providers are responsible for training their staff about reporting critical incidents and events.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (1 of 3)

a. Use of Restraints. (Select one): (For waiver actions submitted before March 2014, responses in Appendix G-2-a will display information for both restraints and seclusion. For most waiver actions submitted after March 2014, responses regarding seclusion appear in Appendix G-2-c.)

확 The state does not permit or prohibits the use of restraints

Specify the state agency (or agencies) responsible for detecting the unauthorized use of restraints and how this oversight is conducted and its frequency:
Complaints concerning use of restraint can be made to the HHSC or the Department of Family and Protective Services. The case manager and the direct service agency must ensure that an individual or legally authorized representative is informed orally and in writing of the processes for filing complaints about the provision of services including: the toll-free telephone number of HHSC to file a complaint; and the toll-free telephone number of Department of Family and Protective Services to file a complaint of abuse, neglect, or exploitation.

All direct service agencies are licensed as a home and community support services agency and are required to report allegations of abuse, neglect, and exploitation to both the Department of Family and Protective Services and HHSC under Texas Health and Safety Code §142.018 and 40 Texas Administrative Code §97.249.

HHSC provider investigations investigates allegations against providers. The Department of Family and Protective Services investigates allegations against anyone else concerning abuse, neglect, and exploitation of individuals receiving services from providers under Texas Human Resources Code Chapter 48. Texas defines Abuse, Neglect, and Exploitation in §48.401. “Reportable conduct includes:

- (A) Abuse or neglect that causes or may cause death or harm to an individual receiving agency services;
- (B) Sexual abuse of an individual receiving agency services;
- (C) Financial exploitation of an individual receiving agency services in an amount of $25 or more; and
- (D) Emotional, verbal, or psychological abuse that causes harm to an individual receiving agency services.”

The Department of Family and Protective Services investigates reports and makes a determination as to whether abuse, neglect, and exploitation occurred. HHSC Regulatory Division monitors reported incidents and complaints related to abuse, neglect, and exploitation for licensed home and community support services agencies.

Out-of-Home Respite facilities are also required to immediately report abuse, neglect, and exploitation to HHSC Complaint and Incident Intake under HHSC licensure rules. Those reports are investigated by HHSC regulatory staff.

The use of restraints is permitted during the course of the delivery of waiver services. Complete Items G-2-a-i and G-2-a-ii.

i. Safeguards Concerning the Use of Restraints. Specify the safeguards that the state has established concerning the use of each type of restraint (i.e., personal restraints, drugs used as restraints, mechanical restraints). State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

ii. State Oversight Responsibility. Specify the state agency (or agencies) responsible for overseeing the use of restraints and ensuring that state safeguards concerning their use are followed and how such oversight is conducted and its frequency:

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (2 of 3)

b. Use of Restrictive Interventions. (Select one):

- The state does not permit or prohibits the use of restrictive interventions

Specify the state agency (or agencies) responsible for detecting the unauthorized use of restrictive interventions and how this oversight is conducted and its frequency:
The use of restrictive interventions is permitted during the course of the delivery of waiver services. Complete Items G-2-b-i and G-2-b-ii.

i. Safeguards Concerning the Use of Restrictive Interventions. Specify the safeguards that the state has in effect concerning the use of interventions that restrict participant movement, participant access to other individuals, locations or activities, restrict participant rights or employ aversive methods (not including restraints or seclusion) to modify behavior. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency.

In the CLASS program, the primary function for the use of restrictive interventions is for safety and positioning in specific circumstances once the use of less restrictive methods have failed and have been clearly documented. HHSC does not have an exclusive list of approved restrictive interventions. Restrictive interventions include protective devices. Examples of the types of protective devices that are permitted include a safety vest, lap belt, bed rail, safety padding, adaptation to furniture or a safety helmet. A program provider must not use a protective device to modify or control an individual's behavior; for disciplinary purposes; for convenience; or as a substitute for an effective, less restrictive method. Prior to authorizing the use of restrictive interventions, the following must occur:

- The individual's needs must be assessed by a registered nurse.
- Less restrictive methods that, if effective, would accomplish the purpose of the protective device must be considered; and if less restrictive methods are found to be not effective, it must be documented in the individual's case record.
- The Home and Community Support Services Agency registered nurse, with input from the individual, the individual's legally authorized representative, the individual's service planning team, and other professional personnel, must develop a written service plan, signed by a physician.
- The protective device must be clearly documented on the service plan, including under what circumstances and what type of protective device is to be used, how to use the protective device and any contraindications specific to the individual, how and when to document the use of the protective device, and when and whom the program staff must notify of the use of a protective device.
- The service planning team must approve the service plan.
- Verbal and written notification to the individual, the individual's legally authorized representative, or both, as appropriate, must be provided describing the right to discontinue use of the restrictive intervention at any time, and written consent of the individual, the individual's legally authorized representative, or both, as appropriate, must be documented in the case record.
- Allowance for a revised plan must be made when the restrictive intervention is not working.
- The effects of the techniques in relation to the individual's health and welfare must be considered.
- Each person who is to apply the protective device must be trained in the proper use at least annually and as the needs of the individual change. The training must be documented in the case record.

At least annually, and when the individual's needs change, the service planning team must review the need for use of the protective device to determine the effectiveness of the program and the need to continue the restrictive intervention.

A registered nurse must revise the service plan when the individual's service planning team and physician determine that a protective device is not effective or needed.

ii. State Oversight Responsibility. Specify the state agency (or agencies) responsible for monitoring and overseeing the use of restrictive interventions and how this oversight is conducted and its frequency:
HHSC surveys licensed providers for compliance with licensure requirements related to restraint and seclusion. HHSC investigates reports of abuse, neglect and exploitation related to restraint or seclusion.

The State considers unauthorized use of restrictive interventions as abuse and requires providers to report any suspected abuse immediately, within 24 hours of awareness to DFPS and HHSC. The provision of services in this program occurs primarily in the individual’s own home or family home. If the State becomes aware that an unauthorized restrictive intervention occurred (through any means i.e. witnessing it during a monitoring review or face to face utilization review, seeing it in a complaint report, etc.) that was not reported, the State would require that provider to follow the proper reporting requirements for reporting abuse, neglect and exploitation and would ensure appropriate follow up occurred.

Complaints concerning the use of restraint are made to HHSC, or if use of the restrictive intervention resulted in abuse, it must be reported to the Department of Family and Protective Services. The CLASS provider must ensure that an individual, the individual’s legally authorized representative, or both, as appropriate, are informed orally and in writing of the processes for filing complaints about the provision of CLASS services.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (3 of 3)

c. Use of Seclusion. (Select one): (This section will be blank for waivers submitted before Appendix G-2-c was added to WMS in March 2014, and responses for seclusion will display in Appendix G-2-a combined with information on restraints.)

☒ The state does not permit or prohibits the use of seclusion

Specify the state agency (or agencies) responsible for detecting the unauthorized use of seclusion and how this oversight is conducted and its frequency:

Employees of each type of facility providing out-of-home respite are required to report unauthorized use of seclusion as these actions may constitute abuse or neglect of the individual being restrained or secluded. Facilities are required to post notices in public areas regarding reporting of abuse, neglect, or exploitation, including instructions on how to report and the telephone number of the appropriate agency to contact.

HHSC monitors potential improper and unauthorized use of seclusion through on-site surveys and complaint investigations. Complaints concerning the use of seclusion can be made to HHSC or the Department of Family and Protective Services. The case manager and the direct services agency must assure that an individual or legally authorized representative is informed orally and in writing of the processes for filing complaints about the provision of waiver services including:
- the toll-free telephone number of HHSC to file a complaint; and
- the toll-free telephone number of the Department of Family and Protective Services to file a complaint of abuse, neglect, or exploitation.

☒ The use of seclusion is permitted during the course of the delivery of waiver services. Complete Items G-2-c-i and G-2-c-ii.

i. Safeguards Concerning the Use of Seclusion. Specify the safeguards that the state has established concerning the use of each type of seclusion. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

ii. State Oversight Responsibility. Specify the state agency (or agencies) responsible for overseeing the use of
seclusion and ensuring that state safeguards concerning their use are followed and how such oversight is conducted and its frequency:

Appendix G: Participant Safeguards

Appendix G-3: Medication Management and Administration (1 of 2)

This Appendix must be completed when waiver services are furnished to participants who are served in licensed or unlicensed living arrangements where a provider has round-the-clock responsibility for the health and welfare of residents. The Appendix does not need to be completed when waiver participants are served exclusively in their own personal residences or in the home of a family member.

a. Applicability. Select one:

- ☐ No. This Appendix is not applicable (do not complete the remaining items)
- ☑ Yes. This Appendix applies (complete the remaining items)

b. Medication Management and Follow-Up

i. Responsibility. Specify the entity (or entities) that have ongoing responsibility for monitoring participant medication regimens, the methods for conducting monitoring, and the frequency of monitoring.

Direct services agencies licensed as home and community support services agencies, assisted living facilities providing out-of-home respite, adult foster care providers providing out-of-home respite, an intermediate care facility for individuals with intellectual disabilities and related conditions providing out-of-home respite, and nursing facilities providing out-of-home respite, must provide medication management as required by their license.

In accordance with Title 40 of the Texas Administrative Code, Part 1, Title 97, a direct services agency is required to monitor all aspects of an individual’s medication that the agency administers. Medication management is monitored at annual and semiannual reevaluations of the individual receiving services.

When an assisted living facility or a nursing facility, while providing out-of-home respite, administer or supervise an individual’s medication, they are required to monitor all aspects of an individual’s medication. Registered nurses review the individual’s medications upon admission and upon significant change in the individual’s condition.

For individuals receiving out-of-home respite in an adult foster care setting, the adult foster care provider may administer medications only as allowed by state law or regulation as specified in Title 40 of the Texas Administrative Code, Part 1, Chapter 48, Subchapter K, Section 48.8907.

For individuals receiving out-of-home respite in an intermediate care facility for individuals with intellectual disabilities and related conditions, they may self administer medications if they meet the standards specified in Title 40 of the Texas Administrative Code Part 1, Chapter 90, Subchapter C, Section 90.42. Individuals to whom the facility administers medications are governed by Title 40 of the Texas Administrative Code, Part 1, Chapter 90, Subchapter C, Section 90.43.

The Department of Family and Protective Services monitors medication management and administration by child-placing agencies who provide support family services and continued family services, in accordance with Title 26 of the Texas Administration Code, Part 1, Chapter 749. Support family services and continued family services providers are monitored through on-site quarterly visits by the licensed child-placing agencies. The licensed child-placing agencies are monitored through on-site inspections by the Department of Family and Protective Services.

08/24/2022
ii. Methods of State Oversight and Follow-Up. Describe: (a) the method(s) that the state uses to ensure that participant medications are managed appropriately, including: (a) the identification of potentially harmful practices (e.g., the concurrent use of contraindicated medications); (b) the method(s) for following up on potentially harmful practices; and, (c) the state agency (or agencies) that is responsible for follow-up and oversight.
HHSC Regulatory Services licenses and surveys home and community support services agencies, assisted living providers, and nursing facilities. Medication management is part of the license requirements for these providers. HHSC oversees medication management provided by its contractors through licensure surveys and complaint investigations. Assisted living facilities are surveyed biennially and nursing facilities every 9 to 15 months. Home and community support services agencies that are not accredited by the Joint Commission on Accreditation of Healthcare Organizations or the Community Health Accreditation Program, are surveyed during their first year of operation, approximately 18 months after the initial survey and at least every 36 months thereafter. The State imposes penalties such as requiring corrective action plans, administrative penalties and license revocation when harmful medication management practices are detected. HHSC staff conduct follow-up surveys and inspections to ensure the provider has effectively implemented any corrective action plan required due to cited State violations. If a home and community support services agency administers medications, it must maintain a list of medication errors, which must be reviewed during the self-quality review.

Intermediate Care Facilities for Individuals with Intellectual Disabilities and Related Conditions Providing Out-of-Home Respite
HHSC Regulatory Services inspection and survey personnel perform inspections, surveys, follow-up visits, complaint investigations, investigations of abuse or neglect, and other contact visits from time to time, as they deem appropriate or as required for carrying out the responsibilities of licensing. Licensed intermediate care facilities for individuals with intellectual disabilities and related conditions have an annual recertification of health and life safety code survey every 12 months and at least every 15 months. Licensed intermediate care facilities for individuals with intellectual disabilities and related conditions also have a licensure inspection to assess compliance with the State Standards of Participation. Generally, all inspections, surveys, complaint investigations and other visits, whether routine or non-routine, made for determining the appropriateness of resident care and day-to-day operations of a facility will be unannounced.

Support Family Services and Continued Family Services
Caregivers must maintain a cumulative record of all prescription medication dispensed to a child and all nonprescription medication, excluding vitamins, dispensed to a child under five years old. Caregivers must maintain the medication record during the time that they provide services to the child. This record must include the:
(1) Child's full name;
(2) Prescribing health-care professional's name, if applicable;
(3) Medication name, strength, and dosage;
(4) Date (day, month, and year) and the time the medication was administered;
(5) Name and signature of the person who administered the medication;
(6) Child's refusal to accept medication, if applicable; and
(7) Reasons for administering the medication, including the specific symptoms, condition, and injuries of the child that the caregiver is treating, for PRN prescriptions and nonprescription medications (excluding vitamins) for children under five years old.
(a) Identification of any prohibited prescription medication, nonprescription medication, and vitamins for each child must be maintained in the medication record, which must be incorporated into the child's record.
(b) The medication records of prescription and nonprescription medication dispensed to the child must be incorporated into the child's record.
If a caregiver finds a medication error regarding a prescribed medication, the caregiver must contact a healthcare professional immediately, and follow the healthcare professional's recommendations.
If a caregiver finds a medication error regarding a nonprescription medication, the caregiver must take the appropriate and necessary actions as required by the circumstances.
For all medication errors, a caregiver must document the following within 24 hours:
(1) The time and date of the error;
(2) The medication error;
(3) The time and date of the call(s) to the licensed health-care professional, if applicable;
(4) The name and title of the health-care professional contacted, if applicable; and
The child-placing agency is responsible for the home's ongoing compliance with rules and must evaluate the home.
as follows:

1. When there is an allegation of a deficiency, you must evaluate the rule and any rules related to the deficiency;
2. When a change in the conditions of the verification or a major life change occurs, you must evaluate the rules related to the conditions or change;
3. You must document the rules that were evaluated and the determination of the evaluation;
4. During any contact with the foster family, including routine supervisory contacts and investigations, you must cite and address any deficiencies noted;
5. Your documentation of deficiencies must include plans for achieving compliance; and
6. You must also document a plan for follow-up to ensure compliance was achieved.

The Department of Family and Protective Services is the agency responsible for follow-up and oversight, in accordance with Title 26 of the Texas Administrative Code, Part 1, Chapter 749. The Department of Family and Protective Services monitors child-placing agencies annually, identifying harmful practices, and using that information to improve quality. The Department of Family and Protective Services uses methods specific to the agency such as technical assistance or corrective action plans. Annually, HHSC will obtain data from the Department of Family and Protective Services on child-placing agencies serving individuals in CLASS. HHSC shares this information with HHSC and reviews the Department of Family and Protective Services actions regarding violations.

---

**Appendix G: Participant Safeguards**

**Appendix G-3: Medication Management and Administration (2 of 2)**

c. **Medication Administration by Waiver Providers**

i. **Provider Administration of Medications.** Select one:

- [ ] **Not applicable.** *(do not complete the remaining items)*
- ☑ **Waiver providers are responsible for the administration of medications to waiver participants who cannot self-administer and/or have responsibility to oversee participant self-administration of medications.** *(complete the remaining items)*

ii. **State Policy.** Summarize the state policies that apply to the administration of medications by waiver providers or waiver provider responsibilities when participants self-administer medications, including (if applicable) policies concerning medication administration by non-medical waiver provider personnel. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
Direct services agencies must administer medications as required by licensure. Licensure only allows licensed nurses, certified medication aides (under the direct supervision of a licensed nurse), or persons who administer medication as delegated by a registered nurse.

A registered nurse who supervises a medication aide or delegates medication administration must provide ongoing supervision and any necessary training to the unlicensed person. Registered nurses must follow procedures for delegation in accordance with the Nurse Practice Act (Title 3 of the Texas Occupations Code, Subtitle E, Chapter 301 contains the Nurse Practice Act).

Direct services agencies are required to monitor all aspects of an individual's medication, regardless of whether the provider administers the medication or the individual self-medicates. Home and community support services agencies registered nurses review the individual's medications annually and upon significant change in the individual's condition.

Support Family Services and Continued Family Services
Department of Family and Protective Services Residential Child Care Licensing staff conduct inspections of licensed operations to determine if they meet minimum standards and licensing laws. Every licensed operation, including Child-Placing Agencies, must be inspected at least once every 12 months, and at a minimum one inspection per year must be unannounced. Other inspections may be announced or unannounced. At least one inspection every two years must be unannounced.

An inspection form or letter is completed when an inspection results in deficiencies along with the applicable standards, rules, and law. A follow-up inspection is conducted to ensure deficiencies are corrected. Action may be taken against an operation if deficiencies are not corrected in a timely manner, if deficiencies are repeated or if the operation has a pattern of deficiencies, or the violations threaten the health and safety of children. These actions can include putting the operation on a corrective action such as evaluation or probation, or an adverse action, such as suspending or revoking a permit to operate.

In addition to routine inspections, Licensing staff investigates reports that allege violations of the law or minimum standards. The type and scope of each investigation may vary based on the information received in the report. The goal of all investigations is to reduce risk to children and prevent further harm. The Department of Family and Protective Services reviews both the child-placing agencies' records and the records kept by the support family. Additionally, child-placing agencies meet with the support family at least quarterly to oversee all aspects of the child's care.

iii. Medication Error Reporting. Select one of the following:

 Providers that are responsible for medication administration are required to both record and report medication errors to a state agency (or agencies).

Complete the following three items:

(a) Specify state agency (or agencies) to which errors are reported:

HHSC

(b) Specify the types of medication errors that providers are required to record:

Providers are required to record any type of medication error, regardless of the severity. A medication error is any preventable event that may cause or lead to inappropriate medication use or patient harm while the medication is in the control of the health care professional, CLASS provider or individual regardless if the medication is self-administered under the supervision of the CLASS provider or administered by the provider.
(c) Specify the types of medication errors that providers must report to the state:

- All medication errors must be reported to HHSC by providers.
- Providers responsible for medication administration are required to record medication errors but make information about medication errors available only when requested by the state.

Specify the types of medication errors that providers are required to record:

iv. State Oversight Responsibility. Specify the state agency (or agencies) responsible for monitoring the performance of waiver providers in the administration of medications to waiver participants and how monitoring is performed and its frequency.

HHSC Regulatory Services licenses and surveys home and community support services agencies, assisted living providers, and nursing facilities. Medication management is part of the license requirements for these providers. HHSC oversees medication management provided by its contractors through licensure surveys and complaint investigations. Assisted living facilities are surveyed biennially and nursing facilities every 9 to 15 months. Home and community support services agencies that are not accredited by the Joint Commission on Accreditation of Healthcare Organizations or the Community Health Accreditation Program, are surveyed during their first year of operation, approximately 18 months after the initial survey and at least every 36 months thereafter. The State imposes penalties such as requiring corrective action plans, administrative penalties and license revocation when harmful medication management practices are detected. HHSC staff conduct follow-up surveys and inspections to ensure the provider has effectively implemented any corrective action plan required due to cited State violations. If home and community support services agency administers medications, it must maintain a list of medication errors, which must be reviewed during the self-quality review.

Intermediate Care Facilities for Individuals with Intellectual Disabilities and Related Conditions Providing Out-of-Home Respite

HHSC Regulatory Services inspection and survey personnel perform inspections, surveys, follow-up visits, complaint investigations, investigations of abuse or neglect, and other contact visits from time to time, as they deem appropriate or as required for carrying out the responsibilities of licensing. Licensed intermediate care facilities for individuals with intellectual disabilities and related conditions have an annual recertification of health and life safety code survey every 12 months and at least every 15 months. Licensed intermediate care facilities for individuals with intellectual disabilities and related conditions also have a licensure inspection to assess compliance with the State Standards of Participation. Generally, all inspections, surveys, complaint investigations and other visits, whether routine or non-routine, made for determining the appropriateness of resident care and day-to-day operations of a facility will be unannounced.

Support Family Services and Continued Family Services

The Department of Family and Protective Services monitors the performance of Licensed Child-Placing Agencies which may provide support family services and continued family services.

1. Department of Family and Protective Services conducts at least one annual, unannounced monitoring inspection of every main and branch office of a child-placing agency.

2. Department of Family and Protective Services conducts announced and unannounced inspections every year of one fourth of all agency foster homes. Department of Family and Protective Services documents any deficiencies with minimum standards and cites the child-placing agency if the Department of Family and Protective Services feels they have violated the minimum standards that govern their verification and oversight of foster homes.

3. The Department of Family and Protective Services investigates allegations of abuse, neglect, or exploitation. The Department of Family and Protective Services investigates all child deaths in Child-Placing Agencies or General Residential Operations.

4. The Department of Family and Protective Services investigates complaints of violations of the minimum standards for child-placing agencies.

Child-placing agencies with a CLASS Medicaid provider agreement to deliver support family services and continued family services must report all serious incidents to HHSC.

Appendix G: Participant Safeguards

Quality Improvement: Health and Welfare

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

The state demonstrates it has designed and implemented an effective system for assuring waiver participant health and welfare. (For waiver actions submitted before June 1, 2014, this assurance read "The State, on an ongoing basis, identifies, addresses, and seeks to prevent the occurrence of abuse, neglect and exploitation.")

i. Sub-Assurances:
a. **Sub-assurance:** The state demonstrates on an ongoing basis that it identifies, addresses and seeks to prevent instances of abuse, neglect, exploitation and unexplained death. (Performance measures in this sub-assurance include all Appendix G performance measures for waiver actions submitted before June 1, 2014.)

**Performance Measures**

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

**Performance Measure:**

G.a.1 Number and percent of individuals who were free from confirmed allegations of abuse. N: Number of individuals who were free from confirmed allegations of abuse. D: Number of enrolled individuals.

**ii.** If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.
The Texas Administrative Code, Title 40, § 45.802 requires providers to protect individuals from abuse, neglect, and exploitation and to report potential incidents of abuse, neglect, and exploitation. Providers are also required to explain, during the initial face-to-face enrollment meeting and annually thereafter, the procedures for an individual or legally authorized representative to file a complaint regarding a CLASS provider and to review the individual's rights, which include the right to be free from abuse and neglect.

In accordance with state law, HHSC maintains a State Employee Misconduct Registry that includes the names of unlicensed direct care staff HHSC or the Department of Family and Protective Services has confirmed to have abused, neglected, or exploited an individual receiving services administered by HHSC. In addition, in accordance with federal law, HHSC maintains a Nurse Aide Registry that lists certified nurse aides. The Nurse Aide Registry indicates if an aide has been confirmed to have abused, neglected, or exploited a resident of a licensed nursing facility. Providers must consult these registries prior to offering employment to a non-licensed employee and must refrain from employing that person if either registry indicated the person was confirmed to have abused, neglected, or exploited an individual receiving program services.

Direct services agencies licensed as home and community support services agencies are required to report allegations of abuse, neglect, and exploitation directly to HHSC and the Department of Family and Protective Services immediately upon suspicion of such activities. Case management agencies and financial management services agencies are governed by Texas Human Resources code Chapter 48 (48.051). This law requires a person having cause to believe that an elderly or disabled person is in the state of abuse, neglect, or exploitation to report the information required immediately.

During the quarterly monitoring contact, the case manager is responsible for determining if any existing situations jeopardize the individual's health and welfare. Additional contacts may be scheduled to ensure the individual's health and welfare.

HHSC requires providers to maintain a complaint log and investigate/resolve complaints according to Texas Administrative Code, Title 40, § 49.309 and 49.310. Additionally, the Contracts unit maintains a complaint log for the purpose of collecting, reviewing, and reporting complaint or incident information. On a monthly basis, Contracts staff compiles a Complaint Activity Report and a Complaint Resolution Activity Report and posts the reports internally.

b. Methods for Remediation/Fixing Individual Problems
   i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.
HHSC Complaint and Incident Intake is the central point of intake for complaints and incidents alleging non-compliance of federal and/or state licensure requirements for long-term care providers. Complaints and incidents are entered into HHSC’s intake tracking database and assigned a priority. After Complaint and Incident Intake completes the intake, it is forwarded electronically via the intake tracking system to HHSC Regulatory Services. Complaint and incident intakes involving service provider non-compliance with contract requirements are also referred by Complaint and Incident Intake via e-mail to HHSC Community Services Contracts staff.

All case management agency staff and direct services agency staff must complete the training described below within 60 calendar days of employment and at least every 12 months thereafter:

- Abuse, Neglect and Exploitation
  - review of the statute on abuse neglect and exploitation at Human Resources Code, Chapter 48;
  - explanation of the signs and symptoms of abuse, neglect and exploitation;
  - overview of the reporting requirements of abuse, neglect and exploitation; and
  - learning how to report abuse and neglect to the Department of Family and Protective Services.

- Rights and Responsibilities of Individuals
  - review information about the rights of the individual who receives CLASS services as outlined in the HHSC Complaint and Incident Intake booklet; and
  - review CLASS rules in Chapter 45, Subchapter C, §45.301 and §45.302 concerning the individual's right to a fair hearing and the individual's mandatory participation requirements.

HHSC Contracts staff conducts complaint investigations involving the individual, direct services agency staff, or case management agency staff. Depending upon the nature of the complaint, HHSC Contracts staff may also refer the complaint to HHSC Regulatory Services, the Department of Family and Protective Services, the Texas Board of Nursing, or local law enforcement agencies. HHSC Contracts staff informs providers of complaint findings at the conclusion of the investigation, including whether the allegations were substantiated. If the investigation findings substantiate an immediate risk to the health or welfare of a waiver individual, the provider is required to take immediate action to resolve the situation. The provider is also required to develop and implement an immediate corrective action plan addressing the prevention of future occurrences of the situation or similar events. The purpose of the immediate corrective action plan is for the provider to communicate in writing the specific action taken to resolve the identified situation and the steps that will be taken to ensure the continued health and safety of the individuals served. The immediate corrective action plan must include the following elements:

- A description of the health and safety issue;
- Action taken to resolve the issue; and
- A plan to prevent the occurrence of the issue.

HHSC Contracts staff does not investigate abuse, neglect, or exploitation. Allegations of this nature are handled in accordance with Title 2 of the Texas Human Resource Code, Subtitle D, Chapter 48 and the Memorandum of Understanding between HHSC and the Department of Family and Protective Services. If at any time during the course of the investigation of the complaint, Contracts staff becomes aware of an immediate threat to an individual's health and safety or abuse, neglect, or exploitation, staff must report the situation within one hour to:

- HHSC Complaint and Incident Intake;
- Department of Family and Protective Services;
- HHSC Regulatory Services; and
- HHSC Contracts manager or manager's designee

The Department of Family and Protective Services and HHSC share statutory authority and responsibility to investigate reported incidents and complaints involving abuse, neglect or exploitation of an individual receiving CLASS services by a facility employee, an employee of any agency serving the individual (case management agency, direct services agency, financial management services agency, child placing agency), or a volunteer or contractor of any agency serving the individual (case management agency, direct services agency, financial management services agency, and child placing agency) under memorandums of understanding between the two departments. In addition, facilities are required, by rule, to conduct an investigation of allegations of abuse, neglect, and exploitation. The Department of Family and Protective Services records and tracks abuse, neglect, and exploitation reports in its Information Management Protecting Adults and Children in Texas system. HHSC staff coordinates with Department of Family and Protective Services staff to determine the resolution of abuse, neglect, and exploitation allegations.
During contract monitoring reviews, HHSC Contracts staff confirms that the individual and legally authorized representative have been informed of the complaint procedures and the process for reporting abuse, neglect, and exploitation. Providers that are unable to show evidence to support compliance with this requirement are cited and required to develop a corrective action plan and may receive other sanctions. HHSC Adverse Action Review Committee reviews substantiated allegations of contract noncompliance. The Sanction Action Review Committee review may result in a corrective action plan or sanction, such as suspension of individual referrals, holding vendor payments, or termination of the provider contract.

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Health and Welfare that are currently non-operational.

☐ No

☐ Yes

Please provide a detailed strategy for assuring Health and Welfare, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix H: Quality Improvement Strategy (1 of 3)

Under §1915(c) of the Social Security Act and 42 CFR §441.302, the approval of an HCBS waiver requires that CMS determine that the state has made satisfactory assurances concerning the protection of participant health and welfare, financial accountability and other elements of waiver operations. Renewal of an existing waiver is contingent upon review by CMS and a finding by CMS that the assurances have been met. By completing the HCBS waiver application, the state specifies how it has designed the waiver’s critical processes, structures and operational features in order to meet these assurances.

- Quality Improvement is a critical operational feature that an organization employs to continually determine whether it operates in accordance with the approved design of its program, meets statutory and regulatory assurances and
CMS recognizes that a state’s waiver Quality Improvement Strategy may vary depending on the nature of the waiver target population, the services offered, and the waiver’s relationship to other public programs, and will extend beyond regulatory requirements. However, for the purpose of this application, the state is expected to have, at the minimum, systems in place to measure and improve its own performance in meeting six specific waiver assurances and requirements.

It may be more efficient and effective for a Quality Improvement Strategy to span multiple waivers and other long-term care services. CMS recognizes the value of this approach and will ask the state to identify other waiver programs and long-term care services that are addressed in the Quality Improvement Strategy.

**Quality Improvement Strategy: Minimum Components**

The Quality Improvement Strategy that will be in effect during the period of the approved waiver is described throughout the waiver in the appendices corresponding to the statutory assurances and sub-assurances. Other documents cited must be available to CMS upon request through the Medicaid agency or the operating agency (if appropriate).

In the QIS discovery and remediation sections throughout the application (located in Appendices A, B, C, D, G, and I), a state spells out:

- The evidence based discovery activities that will be conducted for each of the six major waiver assurances; and
- The remediation activities followed to correct individual problems identified in the implementation of each of the assurances.

In Appendix H of the application, a state describes (1) the system improvement activities followed in response to aggregated, analyzed discovery and remediation information collected on each of the assurances; (2) the correspondent roles/responsibilities of those conducting assessing and prioritizing improving system corrections and improvements; and (3) the processes the state will follow to continuously assess the effectiveness of the OIS and revise it as necessary and appropriate.

If the state’s Quality Improvement Strategy is not fully developed at the time the waiver application is submitted, the state may provide a work plan to fully develop its Quality Improvement Strategy, including the specific tasks the state plans to undertake during the period the waiver is in effect, the major milestones associated with these tasks, and the entity (or entities) responsible for the completion of these tasks.

When the Quality Improvement Strategy spans more than one waiver and/or other types of long-term care services under the Medicaid state plan, specify the control numbers for the other waiver programs and/or identify the other long-term services that are addressed in the Quality Improvement Strategy. In instances when the QIS spans more than one waiver, the state must be able to stratify information that is related to each approved waiver program. Unless the state has requested and received approval from CMS for the consolidation of multiple waivers for the purpose of reporting, then the state must stratify information that is related to each approved waiver program, i.e., employ a representative sample for each waiver.

**Appendix H: Quality Improvement Strategy (2 of 3)**

**H-1: Systems Improvement**

- **System Improvements**
  
  i. Describe the process(es) for trending, prioritizing, and implementing system improvements (i.e., design changes) prompted as a result of an analysis of discovery and remediation information.
HHSC has articulated the vision and infrastructure for the quality improvement strategy for the waivers in the Quality Oversight Plan, which was approved by both agencies' commissioners in 2010. The Quality Oversight Plan includes all waivers operated by HHSC.

Central to the Quality Oversight Plan is the Quality Review Team, which consists of representatives from several agencies within the Texas Health and Human Services enterprise. The Quality Review Team meets quarterly and reviews the comprehensive quarterly data reports from each waiver at least annually. These reports include data on all of the waiver's quality improvement strategy measures. These reports also include remediation activities and outcomes. Improvement plans are developed as issues or trends are identified, and the Quality Review Team reviews, modifying if needed, and approves all improvement plans. All active improvement plans for all waivers are monitored at each quality review team meeting. HHSC formally communicates the results from its monitoring to CMS and the public via the evidentiary review and annual report processes. In addition to directing the improvement activities for each waiver, the Quality Review Team will oversee implementation of the Quality Oversight Plan and related processes. This includes making recommendations for new or revised quality measures, identifying and facilitating access to new data sources, identifying new intra and inter-agency processes impacting any and all phases of the quality program, and other actions needed to assure continued improvement of Texas' Home and Community-Based Services waiver programs.

The Quality Review Team will review and revise, if necessary, the Quality Oversight Plan at least every three years. Revisions to the plan will be approved by HHSC leadership.

**b. System Design Changes**

i. Describe the process for monitoring and analyzing the effectiveness of system design changes. Include a description of the various roles and responsibilities involved in the processes for monitoring & assessing system design changes. If applicable, include the state's targeted standards for systems improvement.
The Quality Review Team process is the key formal mechanism for performance. The Quality Review Team meets quarterly and reviews comprehensive quality reports from each waiver program at least annually. These reports are generated from the Quality Assurance and Improvement Data Mart and include data on the waivers’ quality improvement strategy measures. These reports also include remediation activities and outcomes. HHSC staff present the reports and recommendations to the Quality Review Team. Priorities for system improvement are established by the Quality Review Team. The Quality Review Team develops strategies for implementation of system improvements through the use of improvement plans. Improvement plans are developed as issues are identified, and the Quality Review Team reviews; modifying, if needed; and, approves all improvement plans. All active improvement plans for all waivers are monitored at each quality review team meeting, to include updates on data to determine whether or not improvement activities had the intended effect.

The Quality Assurance and Improvement Data Mart compiles data currently collected in multiple automated systems. The Data Mart produces standardized reports and provides capability for ad-hoc reporting. The areas covered by the reports include: individual demographics; service utilization; enrollments; levels of care; service plans; consumer-direction; critical incidents; provider compliance and oversight; transfers; and discharges. This system has the capability to provide management reports at the individual level or any level of aggregation needed.

To facilitate communication with the public which includes external stakeholders, waiver participants, families, service providers, and other interested parties, the agency has implemented Texas Quality Matters, which is a web-based medium that provides external stakeholders with an increased ability to access quality reporting information. Texas Quality Matters provides the State with the ability to conduct online surveys related to quality improvement.

Stakeholders have the opportunity to provide testimony on policies and rules governing the delivery of services in the CLASS program in writing and at meetings of the Medical Care Advisory Committee and the HHSC Executive Council. HHSC posts announcements for all stakeholder meetings on the HHSC website prior to the meeting.

HHSC uses multiple advisory committees to inform and make recommendations regarding appropriate care settings for persons with disabilities. Advisory committee membership is outlined in administrative rule and represents a broad array of stakeholders including providers, advocates, family members and individuals receiving services. Staff from the State Medicaid Agency administratively support the advisory committees.

ii. Describe the process to periodically evaluate, as appropriate, the Quality Improvement Strategy.

At least every three years, HHSC staff will evaluate and update, if necessary, the Quality Oversight Plan. State staff will examine issues such as whether or not the indicators of the Quality Oversight Plan are providing substantive information about each sub-assurance and whether the Quality Review Team composition is inclusive of key agency stakeholders. If areas for improvement exist, staff will make recommendations to the Quality Review Team, and the Quality Review Team will approve or revise staff's recommended changes. As the Quality Oversight Plan is revised, the State will update the Quality Improvement Strategy as necessary.

Appendix H: Quality Improvement Strategy (3 of 3)  
H-2: Use of a Patient Experience of Care/Quality of Life Survey

a. Specify whether the state has deployed a patient experience of care or quality of life survey for its HCBS population in the last 12 months (Select one):
   - No
   - Yes (Complete item H.2b)

b. Specify the type of survey tool the state uses:
   - HCBS CAHPS Survey :
Appendix I: Financial Accountability

I-1: Financial Integrity and Accountability

**Financial Integrity.** Describe the methods that are employed to ensure the integrity of payments that have been made for waiver services, including: (a) requirements concerning the independent audit of provider agencies; (b) the financial audit program that the state conducts to ensure the integrity of provider billings for Medicaid payment of waiver services, including the methods, scope and frequency of audits; and, (c) the agency (or agencies) responsible for conducting the financial audit program. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
HHSC conducts fiscal monitoring of CLASS direct services agencies and case management agencies on-site at least every two years. HHSC contract monitoring staff select a six month period within the monitoring period, which can be up to 24 months, to review service delivery. HHSC contract monitoring staff then select two of the six months to assess fiscal compliance.

Financial management services agency legal entities are monitored at a minimum of every three years and, typically a six-month sample of financial management services agency legal entities’ records are reviewed. The methods used in the monitoring process for the direct services, case management, and financial management services agency legal entities include:
- Review of the provider's existing billing system and internal controls;
- Comparison of the agency's service delivery records with its billing records to verify that the payments HHSC made to the agency were appropriate;
- Review of service plans and records; and
- Comparison of service delivery and other supporting documentation with service plans.

HHSC may perform desk and on-site compliance reviews associated with claims the provider submits. HHSC recovers improper payments, without extrapolation, when HHSC verifies that the agency has been overpaid because of improper billing or accounting practices or for failure to comply with the provider agreement terms.

The direct services agency, case management agency, or financial management services agency legal entity must provide the documentation that HHSC requests to support the agency's submitted claims information. If the agency fails to provide the requested information, HHSC may take adverse action against the agency based on the terms of the Medicaid provider agreement. HHSC may withhold payments and apply them to the exceptions that HHSC identifies and may require corrective action for any finding based upon the monitoring results.

Direct services agencies, case management agencies, and financial management services agency legal entities are not required to conduct independent financial audits. The Texas State Auditor's Office is responsible for an annual statewide financial and compliance audit. In addition, the HHSC Office of the Inspector General is responsible for performing audits of Medicaid provider agreements between HHSC and case management agencies, direct services agencies, and financial management services agency legal entities.

In accordance with Federal and State law, EVV is utilized in the CLASS waiver.

The State selects non-FMSA CLASS entities and Financial Management Services Agency entities for review in accordance with the following protocol:

- For providers with a provisional contract, the first formal monitoring is conducted no later than the 15th month of the contract term or within 8 months from the first month of expenditures.
  - If the first formal monitoring results in an overall compliance score below 90%, an intermittent monitoring is conducted within 13 months from the month during which the first formal monitoring was conducted.
  - The next formal monitoring for all providers with a provisional contract is conducted within 24 months for CLASS entities, and 36 months for Financial Management Services Agencies (FMSA) from the month during which the previous formal monitoring was conducted.

- For providers with a standard contract, ongoing monitoring is conducted within 24 months for CLASS entities, and 36 months for FMSA from the month during which the previous formal monitoring was conducted.
  - If the formal monitoring results in an overall compliance score below 90%, an intermittent monitoring is conducted within 13 months from the month previous formal monitoring was conducted.
  - The next formal monitoring for all providers with a standard contract is conducted within 24 months for CLASS entities, and 36 months for FMSA from the month during which the previous formal monitoring was conducted.

- For providers with a provisional or standard contract, if there is no service delivery during the 12 months prior to when the monitoring is scheduled to occur, no monitoring is required and contract staff may proceed to terminate the contract.

The State’s sampling methodology was designed to produce a random, aggregated sample that is statistically representative and adequate in size to make generalizations about the total population. In 2014, the state’s Contract Oversight and
Support unit utilized the Raosoft® sample size calculator to identify a representative and statistically valid sample size, which was determined to be attainable using the following approach:

- For non-FMSA CLASS providers, contract staff obtain a sample that includes 5% of the contractor’s population that received services, rounded up, with a minimum of four individuals unless the provider serves less than four individuals, in which case the sample is equivalent to the number of individuals served. This sample size is not to exceed 30.

- For CLASS FMSA legal entities, the state has determined that an acceptable sample size for making generalizations is 30, except when the total population being served by the legal entity is less than 30. In that case, the sample size is the total number of individuals served.

The state currently requires CLASS Direct Service Agency (DSA) providers to comply with EVV service delivery documentation requirements for CLASS waiver In-Home Respite. The state assesses CLASS – DSA provider compliance with EVV service delivery documentation requirements via contract and fiscal compliance monitoring. CLASS – DSA providers who fail to comply with EVV service delivery documentation requirements are subject to recoupment by HHSC.

CLASS FMSAs are not currently required to comply with EVV service delivery requirements and have the option to use EVV or paper service delivery documentation requirements. As such, the state does not currently assess CLASS FMSA compliance with EVV service delivery documentation requirements. By January 2020, the state will require CLASS FMSAs to comply with EVV service delivery documentation requirements for CLASS waiver In-Home Respite. Once those requirements go into effect, the state will assess CLASS FMSA compliance with EVV service delivery requirements.

Appendix I: Financial Accountability

Quality Improvement: Financial Accountability

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Financial Accountability Assurance:

The State must demonstrate that it has designed and implemented an adequate system for ensuring financial accountability of the waiver program. (For waiver actions submitted before June 1, 2014, this assurance read "State financial oversight exists to assure that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver.")

i. Sub-Assurances:

a. Sub-assurance: The State provides evidence that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver and only for services rendered.

(Performance measures in this sub-assurance include all Appendix I performance measures for waiver actions submitted before June 1, 2014.)

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

I.a.1 Total dollar amount and percent of total dollar amount of paid claims, including those from FMSAs, that were paid for according to the reimbursement methodology specified in the approved waiver. N: Total dollar amount of paid claims that were paid for according to the reimbursement methodology specified in the approved waiver. D: Total dollar amount of paid claims.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

For waiver services delivered through the agency directed option and the consumer directed services option, direct services agencies, case management agencies, and financial management services agency legal entities send claims for reimbursement for waiver services provided to individuals to the State’s contracted Medicaid Management Information System. Providers may submit claims electronically via the Medicaid Management Information System.

The State’s Claims Management System is a comprehensive, computer-based, automated claims processing system for providers. This system has numerous edits to assure that providers submit accurate billings. Providers are unable to submit billing claims through the automated Claims Management System for any waiver services until the system confirms that HHSC has authorized the service plan and the authorized service plan has been entered into the Service Authorization System.

The Claims Management System also edits claims for the validity of the information and compliance with business rules for the service and program and calculates the payment amount and applicable reductions for claims approved for payments. Prior to issuing payment, the automated Claims Management System verifies that an individual's current authorized service plan has sufficient units to cover amounts claimed and prevents duplicate claims for services already paid.

The Claims Management System verifies that an individual was Medicaid eligible on the date of service delivery specified in a request for reimbursement and allows payment only for claims for services provided within the eligibility period. The Claims Management System will reject provider claims if the Service Authorization System does not reflect that the waiver individual meets eligibility criteria. The Claims Management System automatically rejects any claim entered for a service not authorized on an individual's service plan as authorized in the Service Authorization System. The Claims Management System also automatically rejects any claim that is entered with an unauthorized billing code.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.
Texas monitors 100 percent of case management agencies and direct services agencies biennially. During biennial on-site monitoring reviews, HHSC Contracts staff determines a case management agency's and a direct services agency's compliance with standards pertaining to fiscal accountability and verifies that the services billed were actually rendered. As part of the fiscal component of biennial on-site monitoring reviews, HHSC Community Services Contracts staff verifies that billings submitted to and paid by HHSC are for billable time and activities by verifying that billing forms are completed according to HHSC instructions.

Case management agencies and direct services agencies must maintain documentation supporting the claims. If the case management agency or the direct services agency fails to maintain the required documentation, HHSC recovers improper payments. HHSC also recovers payments when HHSC Community Services Contracts staff verifies the case management agency or the direct services agency was overpaid because of improper billing. The State has mechanisms in place for the return to the Centers for Medicare & Medicaid Services of any federal matching funds received for improper billing.

HHSC Community Services Contracts staff prepares a written report itemizing claims found in error during each review. A summary of each review, including the name of the case management agency or the direct services agency, the dollar amount to be subtracted from pending or future payments to the case management agency or the direct services agency, if applicable, and any follow-up action to be taken, is scanned and is sent electronically on a monthly basis to the HHSC Contract Oversight and Support area. HHSC Contract Oversight and Support staff enters the case management agency or the direct services agency monitoring information into the Health and Human Services Contracts Administration and Tracking System. HHSC Contract Oversight and Support staff uses the data entered into this system to track monitoring. HHSC Community Services Contracts staff conducts intermittent reviews to ensure that the case management agency or the direct services agency has taken the necessary steps to attain and maintain compliance at the required performance level.

HHSC has the responsibility of executing Medicaid provider agreements, including day-to-day operations of financial management services and monitoring of financial management services agency legal entities. Texas monitors 100 percent of financial management services agency legal entities at a minimum of every three years. These reviews are conducted via desk reviews or at the location where the financial management services agency legal entities are providing financial management services. HHSC assesses a financial management services agency legal entity's performance by:

1. Measuring adherence to rules in Title 40 of the Texas Administrative Code, Part 1, Chapters 41 and 49;
2. Matching payroll, optional benefits, and tax deposits to time sheets;
3. Ensuring that the hours worked and the rate of pay are consistent with individual budgets;
4. Reviewing administrative payments; and
5. Reviewing the provider agreements.

HHSC recovers improper payments, without extrapolation, when HHSC verifies that the agency has been overpaid because of improper billing or accounting practices or for failure to comply with the provider agreement terms. HHSC staff prepares a written report itemizing claims found in error during each review. A summary of each review, including the name of the financial management services agency legal entity, the dollar amount to be subtracted from pending or future payments to the financial management services agency legal entity, if applicable, and any follow-up action to be taken, is scanned and is sent electronically on a monthly basis to the HHSC Contract Oversight and Support area. HHSC Contract Oversight and Support staff enters the monitoring information into the Health and Human Services Contracts Administration and Tracking System. HHSC Contract Oversight and Support staff uses the data entered into this system to track monitoring. HHSC staff conducts intermittent reviews to ensure that the financial management services agency legal entity has taken the necessary steps to attain and maintain compliance at the required performance level. HHSC staff recommends further action or possible sanctions if the financial management services agency legal entity remains out of compliance.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Financial Accountability that are currently non-operational.

☐ No
☑ Yes

Please provide a detailed strategy for assuring Financial Accountability, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (1 of 3)

a. Rate Determination Methods. In two pages or less, describe the methods that are employed to establish provider payment rates for waiver services and the entity or entities that are responsible for rate determination. Indicate any opportunity for public comment in the process. If different methods are employed for various types of services, the description may group services for which the same method is employed. State laws, regulations, and policies referenced in the description are available upon request to CMS through the Medicaid agency or the operating agency (if applicable).
HHSC, the single State Medicaid agency, determines payment rates every two years, coincident with the State’s legislative biennium. Payment rates are determined for each service. The rates for services are prospective and uniform statewide. HHSC reimburses providers for contracted client services through reimbursement amounts determined as described in Title 1 of the Texas Administrative Code, Part 15, Chapter 355, and in reimbursement methodologies for each program. HHSC determines payment rates after analysis of financial and statistical information, and the effect of the payment rates on achievement of program objectives, including economic conditions and budgetary considerations. Statewide, uniform reimbursements and reimbursement ceilings are approved by HHSC. Methodology rules are developed and recommended for approval to HHSC. HHSC has oversight authority with respect to the state’s reimbursement methodology and cost determination rules. The rates for the CLASS waiver are available on the HHSC Rate Analysis Department webpage.

In order to ensure adequate financial and statistical information upon which to base reimbursement, HHSC requires each contracted provider to submit a periodic cost report or supplemental report. HHSC uses cost reports to determine rates for the following services: residential habilitation services; prevocational services; employment assistance; supported employment; cognitive rehabilitation therapy; respite care; nursing; physical therapy; occupational therapy; speech and language pathology; case management; behavioral support; auditory integration training/auditory enhancement training; and dietary services. Providers of these services are required to submit biennial cost reports to the HHSC Rate Analysis Department. Providers are responsible for eliminating all unallowable expenses from the cost report prior to submission of the cost report. The HHSC Cost Report Review Unit reviews all cost reports and a sample of cost reports are reviewed on-site. The HHSC Cost Report Review Unit removes any unallowable costs and corrects any errors detected on the cost report in the course of the review or on-site audit. Audited cost reports are used in the determination of statewide prospective rates.

Unit of service reimbursements are determined as described in Title 1 of the Texas Administrative Code, Part 15, Chapter 355, Section 355.505. In general, recommended unit of service rates for each service are determined as follows and are used as a historical cost basis: 1) total allowable costs for each provider are determined from the audited cost report; 2) each provider’s total allowable costs are projected from the historical cost reporting period to the prospective reimbursement period; 4) payroll taxes and benefits are allocated to each salary item; 5) total projected allowable costs are divided by the number of units of service to determine the projected cost per unit of service; 6) the allowable costs per unit of service for each contracted provider are arrayed and weighted by the number of units of service and the median cost per unit of service is calculated; and 7) the median cost per unit of service for each waiver service is multiplied by 1.044.

When historical costs are unavailable, such as in the case of changes in program requirements, payment rates may be based on a pro forma approach. This approach involves using historical costs of delivering similar services, where appropriate data are available, and estimating the basic types and costs of products and services necessary to deliver services meeting federal and state requirements. The rates for transition assistance services, continued family services, support family services, and support consultation are modeled using a pro forma approach.

Minor home modifications, adaptive aids, dental treatment, and prescriptions are paid at cost.

Specialized therapies are paid at cost up to maximum dollar amount.

The CLASS providers are given additional payments for their efforts in acquiring specialized therapies for individuals; these payments are called requisition fees. The rates for the requisition fees are modeled using a pro forma approach that uses the historical data of provider’s costs to deliver services.

In setting the rates for financial management services provided under the consumer directed services option, the reimbursement rate to the financial management services provider, the financial management services agency legal entity, is a flat monthly fee, determined by modeling the estimated cost to carry out the financial management responsibilities of the financial management services agency legal entity. The payment rate available for the individual’s budget for the self-directed service is modeled based on the payment rate to the traditional agency less an adjustment for the traditional agency’s indirect costs.

The Financial Management Services Agency (FMSA) is responsible for providing this information to the CDS employer. For individuals not in the CDS option, the document created during the service planning team meeting, the individual plan of care (IPC), contains the rates for each service. This form is reviewed and signed by the individual and/or LAR.
HHSC publishes notice of proposed adjustments at the earliest feasible date but not later than 10 state working days before the effective date of the adjustment, in the Texas Register. HHSC holds a public hearing before it approves rates, to allow interested persons to present comments relating to the proposed rates, and HHSC provides notice of the hearing to the public. The notice of the public hearing includes the location, date, and time for the hearing; information about the proposed rate changes and identifies the name, address, and telephone number of the staff member to contact for the materials pertinent to the proposed rates. At least ten working days before the public hearing takes place, material pertinent to the proposed statewide uniform rates is made available to the public. The public may present comments at the hearing or submit written comments regarding the proposed rates. Information about payment rates is made available to waiver participants through the HHSC website as well as through the Texas Register via a public notice.

Providers of residential habilitation services have the option of participating in the Attendant Compensation Rate Enhancement. The 76th Texas Legislature directed the Texas Department of Human Services (a legacy agency for DADS) to provide incentives for increased wages and benefits for community care attendants. In response, HHSC adopted rules at Title 1 of the Texas Administrative Code, Part 15, Chapter 355, Section 112 to establish procedures for community care providers to obtain additional funds for increased attendant wages, benefits, insurance, and mileage reimbursement. Community care providers who choose to participate in Attendant Compensation Rate Enhancement and receive additional funds must demonstrate compliance with enhanced spending requirements. For providers who choose not to participate in Attendant Compensation Rate Enhancement, the attendant compensation rate will remain constant over time, except for adjustments necessitated by increases in the federal minimum wage.

Participation in the Attendant Compensation Rate Enhancement is voluntary. Enrollment in Attendant Compensation Enhancement Rate is held in July prior to the rate year. Providers may choose to participate in Attendant Compensation Rate Enhancement by submitting to HHSC a signed Enrollment Contract Amendment choosing to enroll and indicating the level of enhanced add-on rate they desire to receive. Requested add-on rate levels will be granted beginning with the lowest level and granting successive levels until requested enhancements are granted within available funds. Funding for the enhancement add-on rate levels is limited by biennial legislative appropriations.

Providers participating in the Attendant Compensation Rate Enhancement agree to spend approximately 90 percent of their total attendant revenues, including their enhanced add-on rate revenues, on attendant compensation. Attendant compensation includes salaries, payroll taxes, benefits, and mileage reimbursement. Participating providers must submit reports to HHSC documenting their spending on attendant compensation.

Determination of each provider’s compliance with the attendant compensation spending requirement will be made on an annual basis from reports submitted to HHSC. Participants failing to meet their spending requirement for the reporting period will have their enhanced add-on revenues associated with the unmet spending requirements recouped. At no time will a participating provider’s attendant care rate after their spending recoupment be less than the rate paid to providers not participating in receiving the enhanced add-on rates.

The CLASS rates were first established when the waiver was originally approved by CMS on September 1, 1991. Rates are updated and rebased when legislative appropriations are available. For services that use cost reports to determine rates, the state used the most recent audited cost report available to develop the estimates for this waiver renewal.

Among the specialized therapies, the staff person with the highest qualifications is a physical therapist so the PT rate determines the ceiling. Waiver providers can bill up to the ceiling but are only permitted to bill what they actually pay the service provider. The consumer directed services rates are modeled and are based on the payment rates paid to contracted agencies for providing services to consumers who do not participate in CDS, and then removing from those rates amounts needed to fund the FMSA’s responsibilities.

b. Flow of Billings. Describe the flow of billings for waiver services, specifying whether provider billings flow directly from providers to the state’s claims payment system or whether billings are routed through other intermediary entities. If billings flow through other intermediary entities, specify the entities:

For services delivered through the agency option and consumer directed services option, providers electronically submit claims for reimbursement for waiver services that were provided to individuals to the CMS-approved State Medicaid Management Information System.
Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (2 of 3)

c. Certifying Public Expenditures (select one):

☐ No. state or local government agencies do not certify expenditures for waiver services.

☐ Yes. state or local government agencies directly expend funds for part or all of the cost of waiver services and certify their state government expenditures (CPE) in lieu of billing that amount to Medicaid.

Select at least one:

☐ Certified Public Expenditures (CPE) of State Public Agencies.

Specify: (a) the state government agency or agencies that certify public expenditures for waiver services; (b) how it is assured that the CPE is based on the total computable costs for waiver services; and, (c) how the state verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). (Indicate source of revenue for CPEs in Item I-4-a.)

☐ Certified Public Expenditures (CPE) of Local Government Agencies.

Specify: (a) the local government agencies that incur certified public expenditures for waiver services; (b) how it is assured that the CPE is based on total computable costs for waiver services; and, (c) how the state verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). (Indicate source of revenue for CPEs in Item I-4-b.)

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (3 of 3)

d. Billing Validation Process. Describe the process for validating provider billings to produce the claim for federal financial participation, including the mechanism(s) to assure that all claims for payment are made only: (a) when the individual was eligible for Medicaid waiver payment on the date of service; (b) when the service was included in the participant’s approved service plan; and, (c) the services were provided:

The State's contracted Medicaid Management Information System is the claims processing system that verifies that an individual was Medicaid-eligible on the date of service delivery specified in a request for reimbursement and allows payment only on claims for services provided within the eligibility period.

Prior to processing claims, the automated claims management system edits claims for the validity of the information and compliance with business rules for the service and program, and calculates the payment amount and applicable reductions for claims approved for payment. For example, unless the system verifies that an individual’s current authorized service plan has sufficient units to cover amounts claimed or that an authorized level of care is registered in the claims management system, the claim will be denied.

As noted in the Financial Integrity and Accountability section above, HHSC staff conducts on-site reviews to determine a provider’s compliance with standards pertaining to fiscal accountability and to verify the services billed were actually rendered.
e. Billing and Claims Record Maintenance Requirement. Records documenting the audit trail of adjudicated claims (including supporting documentation) are maintained by the Medicaid agency, the operating agency (if applicable), and providers of waiver services for a minimum period of 3 years as required in 45 CFR §92.42.

Appendix I: Financial Accountability

I-3: Payment (1 of 7)

a. Method of payments -- MMIS (select one):

- Payments for all waiver services are made through an approved Medicaid Management Information System (MMIS).
- Payments for some, but not all, waiver services are made through an approved MMIS.
  Specify: (a) the waiver services that are not paid through an approved MMIS; (b) the process for making such payments and the entity that processes payments; (c) how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

- Payments for waiver services are not made through an approved MMIS.
  Specify: (a) the process by which payments are made and the entity that processes payments; (b) how and through which system(s) the payments are processed; (c) how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

- Payments for waiver services are made by a managed care entity or entities. The managed care entity is paid a monthly capitated payment per eligible enrollee through an approved MMIS.
  Describe how payments are made to the managed care entity or entities:

Appendix I: Financial Accountability

I-3: Payment (2 of 7)

b. Direct payment. In addition to providing that the Medicaid agency makes payments directly to providers of waiver services, payments for waiver services are made utilizing one or more of the following arrangements (select at least one):

- The Medicaid agency makes payments directly and does not use a fiscal agent (comprehensive or limited) or a managed care entity or entities.
- The Medicaid agency pays providers through the same fiscal agent used for the rest of the Medicaid program.
- The Medicaid agency pays providers of some or all waiver services through the use of a limited fiscal agent.
  Specify the limited fiscal agent, the waiver services for which the limited fiscal agent makes payment, the functions that the limited fiscal agent performs in paying waiver claims, and the methods by which the Medicaid agency oversees the operations of the limited fiscal agent:
Providers are paid by a managed care entity or entities for services that are included in the state's contract with the entity.

Specify how providers are paid for the services (if any) not included in the state's contract with managed care entities.

Appendix I: Financial Accountability

I-3: Payment (3 of 7)

c. Supplemental or Enhanced Payments. Section 1902(a)(30) requires that payments for services be consistent with efficiency, economy, and quality of care. Section 1903(a)(1) provides for Federal financial participation to states for expenditures for services under an approved state plan/waiver. Specify whether supplemental or enhanced payments are made. Select one:

- No. The state does not make supplemental or enhanced payments for waiver services.
- Yes. The state makes supplemental or enhanced payments for waiver services.

Describe: (a) the nature of the supplemental or enhanced payments that are made and the waiver services for which these payments are made; (b) the types of providers to which such payments are made; (c) the source of the non-Federal share of the supplemental or enhanced payment; and, (d) whether providers eligible to receive the supplemental or enhanced payment retain 100% of the total computable expenditure claimed by the state to CMS. Upon request, the state will furnish CMS with detailed information about the total amount of supplemental or enhanced payments to each provider type in the waiver.
Providers of habilitation, supported employment, and employment assistance have the option of participating in the Attendant Compensation Rate Enhancement. The 76th Texas Legislature directed the Texas Department of Human Services (a legacy agency for HHSC) to provide incentives for increased wages and benefits for community care attendants. In response, HHSC adopted rules in Title 1 of the Texas Administrative Code, Part 15, Chapter 355, Section 355.112 to establish procedures for community care providers to obtain additional funds for increased attendant wages, benefits, insurance, and mileage reimbursement. Community care providers who choose to participate in Attendant Compensation Rate Enhancement and receive additional funds must demonstrate compliance with enhanced spending requirements. For providers who choose not to participate in Attendant Compensation Rate Enhancement, the attendant compensation rate will remain constant over time, except for adjustments necessitated by increases in the federal minimum wage.

Participation in the Attendant Compensation Rate Enhancement is voluntary. Enrollment in Attendant Compensation Enhancement Rate is held in July prior to the rate year. Providers may choose to participate in Attendant Compensation Rate Enhancement by submitting to HHSC an electronic Enrollment Contract Amendment choosing to enroll and indicating the level of enhanced add-on rate they desire to receive. Requested add-on rate levels will be granted beginning with the lowest level and granting successive levels until requested enhancements are granted within available funds. Funding for the enhancement add-on rate levels is limited by biennial legislative appropriations.

Providers participating in the Attendant Compensation Rate Enhancement agree to spend at least 90 percent of their total attendant revenues, including their enhanced add-on rate revenues, on attendant compensation. Attendant compensation includes salaries, payroll taxes, benefits, and mileage reimbursement.

Determination of each provider’s compliance with the attendant compensation spending requirement will be made on an annual basis using cost reports submitted to HHSC. Providers who enter or exit the program outside of their normal cost reporting period submit supplemental reports as required by HHSC. These reports contain attendant cost information on attendant wages, benefits, insurance, and mileage reimbursement for the services included in the rate enhancement program. All reports are subject to audit by the HHSC Cost Report Review Unit (CCRU). The HHSC CCRU removes any unallowable costs and corrects any errors detected on the cost report in the course of the review or on-site audit. Some cost reports are returned for correction and the revised cost reports are reviewed to determine if appropriate changes are made.

Participants failing to meet their spending requirement for the reporting period will have their enhanced add-on revenues associated with the unmet spending requirements recouped. At no time will a participating provider’s attendant care rate after their spending recoupment be less than the rate paid to providers not participating in receiving the enhanced add-on rates.

Appendix I: Financial Accountability
I-3: Payment (4 of 7)

d. Payments to state or Local Government Providers. Specify whether state or local government providers receive payment for the provision of waiver services.

- **No.** State or local government providers do not receive payment for waiver services. Do not complete Item I-3-e.
- **Yes.** State or local government providers receive payment for waiver services. Complete Item I-3-e.

Specify the types of state or local government providers that receive payment for waiver services and the services that the state or local government providers furnish:

Appendix I: Financial Accountability
I-3: Payment (5 of 7)
e. Amount of Payment to State or Local Government Providers.

Specify whether any state or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed its reasonable costs of providing waiver services and, if so, whether and how the state recoups the excess and returns the Federal share of the excess to CMS on the quarterly expenditure report. Select one:

Answers provided in Appendix I-3-d indicate that you do not need to complete this section.

- The amount paid to state or local government providers is the same as the amount paid to private providers of the same service.
- The amount paid to state or local government providers differs from the amount paid to private providers of the same service. No public provider receives payments that in the aggregate exceed its reasonable costs of providing waiver services.
- The amount paid to state or local government providers differs from the amount paid to private providers of the same service. When a state or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed the cost of waiver services, the state recoups the excess and returns the federal share of the excess to CMS on the quarterly expenditure report.

Describe the recoupment process:

---

Appendix I: Financial Accountability

I-3: Payment (6 of 7)

f. Provider Retention of Payments. Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by states for services under the approved waiver. Select one:

- Providers receive and retain 100 percent of the amount claimed to CMS for waiver services.
- Providers are paid by a managed care entity (or entities) that is paid a monthly capitated payment.

Specify whether the monthly capitated payment to managed care entities is reduced or returned in part to the state.

---

Appendix I: Financial Accountability

I-3: Payment (7 of 7)

g. Additional Payment Arrangements

i. Voluntary Reassignment of Payments to a Governmental Agency. Select one:

- No. The state does not provide that providers may voluntarily reassign their right to direct payments to a governmental agency.
- Yes. Providers may voluntarily reassign their right to direct payments to a governmental agency as provided in 42 CFR §447.10(e).

Specify the governmental agency (or agencies) to which reassignment may be made.
ii. Organized Health Care Delivery System. Select one:

- ☐ No. The state does not employ Organized Health Care Delivery System (OHCDS) arrangements under the provisions of 42 CFR §447.10.
- ☐ Yes. The waiver provides for the use of Organized Health Care Delivery System arrangements under the provisions of 42 CFR §447.10.

Specify the following: (a) the entities that are designated as an OHCDS and how these entities qualify for designation as an OHCDS; (b) the procedures for direct provider enrollment when a provider does not voluntarily agree to contract with a designated OHCDS; (c) the method(s) for assuring that participants have free choice of qualified providers when an OHCDS arrangement is employed, including the selection of providers not affiliated with the OHCDS; (d) the method(s) for assuring that providers that furnish services under contract with an OHCDS arrangement meet applicable provider qualifications under the waiver; (e) how it is assured that OHCDS contracts with providers meet applicable requirements; and, (f) how financial accountability is assured when an OHCDS arrangement is used:

iii. Contracts with MCOs, PIHPs or PAHPs.

- ☐ The state does not contract with MCOs, PIHPs or PAHPs for the provision of waiver services.
- ☐ The state contracts with a Managed Care Organization(s) (MCOs) and/or prepaid inpatient health plan(s) (PIHP) or prepaid ambulatory health plan(s) (PAHP) under the provisions of §1915(a)(1) of the Act for the delivery of waiver and other services. Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the state Medicaid agency.

Describe: (a) the MCOs and/or health plans that furnish services under the provisions of §1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.

- This waiver is a part of a concurrent §1915(b)/§1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The §1915(b) waiver specifies the types of health plans that are used and how payments to these plans are made.
- This waiver is a part of a concurrent §1115/§1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The §1115 waiver specifies the types of health plans that are used and how payments to these plans are made.
- If the state uses more than one of the above contract authorities for the delivery of waiver services, please select this option.

In the textbox below, indicate the contract authorities. In addition, if the state contracts with MCOs, PIHPs, or PAHPs under the provisions of §1915(a)(1) of the Act to furnish waiver services: Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the state Medicaid agency. Describe: (a) the MCOs and/or health plans
that furnish services under the provisions of §1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (1 of 3)

a. State Level Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the state source or sources of the non-federal share of computable waiver costs. Select at least one:

☐ Appropriation of State Tax Revenues to the State Medicaid agency
☒ Appropriation of State Tax Revenues to a State Agency other than the Medicaid Agency.

If the source of the non-federal share is appropriations to another state agency (or agencies), specify: (a) the state entity or agency receiving appropriated funds and (b) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if the funds are directly expended by state agencies as CPEs, as indicated in Item I-2-c:

The non-federal share used to draw down the federal funds is appropriated directly to HHSC for the CLASS waiver by the Texas State Legislature. There are no inter-governmental transfers or certified public expenditures.

The non-federal share is exclusively from State general revenue appropriations. There are no local sources of funds or certified public expenditures. CLASS waiver non-federal share funds are appropriated to HHSC as a specific line item in the biennial legislative appropriations for the provision of CLASS waiver services. If another agency were designated to operate the CLASS waiver, those funds would be removed from HHSC and appropriated to that agency specifically for the provision of CLASS waiver services. HHSC CLASS waiver appropriations remain in the state comptroller’s account designated for the CLASS waiver. Once the single State Medicaid Agency has approved a claim via the Health and Human Services Accounting System, federal funds are drawn and combined with the state appropriation from the state comptroller’s account designated for the CLASS waiver to make payments to the provider.

☐ Other State Level Source(s) of Funds.

Specify: (a) the source and nature of funds; (b) the entity or agency that receives the funds; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by state agencies as CPEs, as indicated in Item I-2-c:

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (2 of 3)

b. Local Government or Other Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the source or sources of the non-federal share of computable waiver costs that are not from state sources. Select One:

☐ Not Applicable. There are no local government level sources of funds utilized as the non-federal share.
☒ Applicable

Check each that applies:

08/24/2022
☐ Appropriation of Local Government Revenues.

Specify: (a) the local government entity or entities that have the authority to levy taxes or other revenues; (b) the source(s) of revenue; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement (indicate any intervening entities in the transfer process), and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

☐ Other Local Government Level Source(s) of Funds.

Specify: (a) the source of funds; (b) the local government entity or agency receiving funds; and, (c) the mechanism that is used to transfer the funds to the state Medicaid agency or fiscal agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (3 of 3)

c. Information Concerning Certain Sources of Funds. Indicate whether any of the funds listed in Items I-4-a or I-4-b that make up the non-federal share of computable waiver costs come from the following sources: (a) health care-related taxes or fees; (b) provider-related donations; and/or, (c) federal funds. Select one:

- None of the specified sources of funds contribute to the non-federal share of computable waiver costs
- The following source(s) are used
  
  Check each that applies:
  
  - Health care-related taxes or fees
  - Provider-related donations
  - Federal funds

For each source of funds indicated above, describe the source of the funds in detail:

Appendix I: Financial Accountability

I-5: Exclusion of Medicaid Payment for Room and Board

a. Services Furnished in Residential Settings. Select one:

- No services under this waiver are furnished in residential settings other than the private residence of the individual.
- As specified in Appendix C, the state furnishes waiver services in residential settings other than the personal home of the individual.

b. Method for Excluding the Cost of Room and Board Furnished in Residential Settings. The following describes the methodology that the state uses to exclude Medicaid payment for room and board in residential settings:
Appendix I: Financial Accountability

I-6: Payment for Rent and Food Expenses of an Unrelated Live-In Caregiver

Reimbursement for the Rent and Food Expenses of an Unrelated Live-In Personal Caregiver. Select one:

○ No. The state does not reimburse for the rent and food expenses of an unrelated live-in personal caregiver who resides in the same household as the participant.

○ Yes. Per 42 CFR §441.310(a)(2)(ii), the state will claim FFP for the additional costs of rent and food that can be reasonably attributed to an unrelated live-in personal caregiver who resides in the same household as the waiver participant. The state describes its coverage of live-in caregiver in Appendix C-3 and the costs attributable to rent and food for the live-in caregiver are reflected separately in the computation of factor D (cost of waiver services) in Appendix J. FFP for rent and food for a live-in caregiver will not be claimed when the participant lives in the caregiver’s home or in a residence that is owned or leased by the provider of Medicaid services.

The following is an explanation of: (a) the method used to apportion the additional costs of rent and food attributable to the unrelated live-in personal caregiver that are incurred by the individual served on the waiver and (b) the method used to reimburse these costs:

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (1 of 5)

a. Co-Payment Requirements. Specify whether the state imposes a co-payment or similar charge upon waiver participants for waiver services. These charges are calculated per service and have the effect of reducing the total computable claim for federal financial participation. Select one:

○ No. The state does not impose a co-payment or similar charge upon participants for waiver services.

○ Yes. The state imposes a co-payment or similar charge upon participants for one or more waiver services.

i. Co-Pay Arrangement.

Specify the types of co-pay arrangements that are imposed on waiver participants (check each that applies):

Charges Associated with the Provision of Waiver Services (if any are checked, complete Items I-7-a-ii through I-7-a-iv):

- Nominal deductible
- Coinsurance
- Co-Payment
- Other charge

Specify:
Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (2 of 5)

a. Co-Payment Requirements.

ii. Participants Subject to Co-pay Charges for Waiver Services.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (3 of 5)

a. Co-Payment Requirements.

iii. Amount of Co-Pay Charges for Waiver Services.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (4 of 5)

a. Co-Payment Requirements.

iv. Cumulative Maximum Charges.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (5 of 5)

b. Other State Requirement for Cost Sharing. Specify whether the state imposes a premium, enrollment fee or similar cost sharing on waiver participants. Select one:

- No. The state does not impose a premium, enrollment fee, or similar cost-sharing arrangement on waiver participants.
- Yes. The state imposes a premium, enrollment fee or similar cost-sharing arrangement.

Describe in detail the cost sharing arrangement, including: (a) the type of cost sharing (e.g., premium, enrollment fee); (b) the amount of charge and how the amount of the charge is related to total gross family income; (c) the groups of participants subject to cost-sharing and the groups who are excluded; and, (d) the mechanisms for the collection of cost-sharing and reporting the amount collected on the CMS 64:

Appendix J: Cost Neutrality Demonstration

J-1: Composite Overview and Demonstration of Cost-Neutrality Formula

Composite Overview. Complete the fields in Cols. 3, 5 and 6 in the following table for each waiver year. The fields in Cols. 4, 7 and 8 are auto-calculated based on entries in Cols 3, 5, and 6. The fields in Col. 2 are auto-calculated using the Factor

08/24/2022

**Appendix J: Cost Neutrality Demonstration**

**J-2: Derivation of Estimates (2 of 9)**

**b. Average Length of Stay.** Describe the basis of the estimate of the average length of stay on the waiver by participants in item J-2-a.
This amendment is to amend Appendix J for WY 2022 (9/1/21 - 8/31/22), WY 2023 (9/1/22 - 8/31/23), and WY 2024 (9/1/23 - 8/31/24).

For WY 2022, the state assumes 0.21% for normal monthly attrition based on SFY 2020 enrollment data, as well as affordable new slots from funding to calculate the baseline estimates of unduplicated participants. The state estimates a carryover of 5,812 individuals from August 2021 (based on claims data paid through October 2021). For WY 2022, the State estimates a yearly attrition replacement of 436 individuals. For WY 2022 through WY 2024, the state assumes a normal attrition of 0.21% monthly attrition.

The Average Length of Stay (ALOS) estimated in this amendment (SFY2022 – SFY2024) assumed a Point-In-Time (PIT) service level of 6,280 (WY 2022), 6,432 (WY 2023), and 6,338 (WY 2024) (based on SFY 2020 data). ALOS in month was obtained by dividing the sum of the estimated monthly number served by the unduplicated participant count (Factor C). A factor of 30.416 was applied to the ALOS in months for the ALOS in days. Average length of stay was estimated to be 346 for WY 2022, 359 for WY 2023, and 357 for WY 2024.

The State used the phase-in/phase-out schedule to calculate the Factor C as well as the PIT. In this instance, the term "phase-in/phase-out" are a budgetary management tool only and not the same as the terms described in the CMS Technical Guide.

The state updated appendix J ALOS narrative with the following information:

Estimated monthly clients served data from SFY 2020, SFY 2021, and limited SFY 2022 data through October 2021 was used to forecast number of clients for part of WY 3, WY 4, and 5. Projections are based on latest served levels as of October 2021 with consideration for monthly attrition and the take up rate among those released from the interest list. For WY 3, 4, and 5, monthly attrition is 0.21% and take-up rate is 25.0%. WY 2022 and 2023 assume a release plan due to funding for the SFY 22-23 biennium; however, WY 2024 holds end of biennium served level flat as additional slots are not assumed for future biennia.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (3 of 9)

c. Derivation of Estimates for Each Factor. Provide a narrative description for the derivation of the estimates of the following factors.

i. Factor D Derivation. The estimates of Factor D for each waiver year are located in Item J-2-d. The basis and methodology for these estimates is as follows:
The state utilized FY 2017 claims data as well as CMS-372(S) to develop the basis of waiver costs and utilization. HHSC did not anticipate any services changes over the waiver renewal period and did not receive additional funding to increase waiver slots in the SFY18-SFY19 biennium. The number of unduplicated participants and utilizers of waiver services assumed no growth because waiver slots were determined by the legislature and the SFY20-SFY21 appropriation was not final at the time the state developed the projections for the renewal. The state will continue to monitor utilization and participant growth and amend the waiver as necessary to update the waiver estimate basis or address any potential waiver cost estimate discrepancies as more information becomes available.

The Factor D estimates were based on FY 2017 CMS-372(S) and supplemental claims utilization data. The FY 2017 data utilized current payment rates which were effective September 1, 2014. The baseline figures were then trended forward for cost growth/utilization changes. Historically the state has used services-specific cost growth methodology to develop cost estimates:

1. For services where a unit rate is established, the State assumed a 2% annual growth over the current payment rates starting in SFY 2020 (WY 1) and continuing through the rest of renewal period. The assumed trends are 2% for SFY 2020 (WY 1), 2% for SFY 2021 (WY 2), 2% for SFY 2022 (WY 3), 2% for SFY 2023 (WY 4), and 2% for SFY 2024 (WY 5). The rate increase is based on future projected appropriations.

2. For services not involving unit rates (Adaptive Aids, Dental, and Minor Home Modifications), the State assumed a 2% annual growth rate over the cost per unit derived from the SFY 2017 supplemental report starting SFY 2018 and continuing through the entire renewal period. The assumed trends are 6% (annual 2% growth in FY18 - SFY20) for SFY 2020 (WY 1), 2% for SFY 2021 (WY 2), 2% for SFY 2022 (WY 3), 2% for SFY 2023 (WY 4), and 2% for SFY 2024 (WY 5).

3. For prescribed drugs, the base FY2017 cost per unit ($99.85) was calculated using expenditures ($27,459.88 from the 372(S)) and the number of prescriptions (275 from supplemental claims data for utilization). The State assumed a 5% annual growth rate over the cost per unit from the base starting in FY 2018 and continuing through the entire renewal period. The assumed trends are 16% (annual 5% growth in FY18 - FY20) for SFY 2020 (WY 1), 5% for SFY 2021 (WY 2), 5% for SFY 2022 (WY 3), 5% for SFY 2023 (WY 4), and 5% for SFY 2024 (WY 5).

Financial management services involve an established unit rate and follow the methodology described in (1). The base FY2017 cost per unit ($202) was calculated using expenditures ($5,856,788 from 372) and units (28,947 from supplemental claims data for utilization).

The state updated appendix J Factor D narrative with the following information for WY 3 - 5:

The state utilized FY 2020 claims data as well as CMS-372(S) to develop the basis of waiver costs and utilization. The Factor D estimates were based on FY 2020 CMS-372(S) and supplemental claims utilization data. Where FY 2020 data were not available, FY 2019 and 2017 data were used. The baseline figures were then trended forward for cost growth/utilization changes. Historically the state has used services-specific cost growth methodology to develop cost estimates:

1. For services where a unit rate is established, the State assumed a 2% annual growth over the current payment rates for FY 2021 forward.

2. For services not involving unit rates (Adaptive Aids, Dental, and Minor Home Modifications), the State assumed a 2% annual growth rate over the cost per unit for each waiver year.

3. For prescribed drugs, the base FY 2020 cost per unit ($19.08) was calculated using expenditures ($2,862.66 from the 372(S)) and the number of prescriptions (150 from supplemental claims data for utilization). The State assumed a 5% annual growth rate over the cost per unit from the base for each subsequent waiver year.

Financial management services involve an established unit rate and follow the methodology described in (1). The base FY 2020 cost per unit ($202) was calculated using expenditures ($5,785,078 from 372) and units (28,639 from supplemental claims data for utilization).

ii. Factor D’ Derivation. The estimates of Factor D’ for each waiver year are included in Item J-1. The basis of these
estimates is as follows:

The Factor D' estimates were based on FY 2017 CMS-372(S). The state estimated the baseline D' cost per day using Factor D' and ALOS from FY 2017 CMS-372(S). The baseline D' cost per day was then trended using “Health Care” price deflators (IHS Global Insight Short Term Forecast for the U.S. Economy, December 2018) of 1.8% for SFY 2018, 1.5% for SFY 2019, 2.4% for SFY 2020 (WY 1), 2.6% for SFY 2021 (WY 2), 2.7% for SFY 2022 (WY 3), 2.8% for SFY 2023 (WY 4), and 2.7% for SFY 2024 (WY5). Factor D' was derived from the multiplication of D' cost per day and ALOS for the waiver population of the specified WY.

iii. Factor G Derivation. The estimates of Factor G for each waiver year are included in Item J-1. The basis of these estimates is as follows:

The Factor G estimates were based on SFY 2017 Medicaid fee-for-service claims data from ICF/IID for individuals with IDD or a related condition. The claims data originated in the Texas Medicaid Healthcare Partnership (TMHP) Long Term Services and Supports (LTSS) Claims Management System (CMS). The state estimated the baseline G cost per patient day and trended the figure by “Health Consumption” price deflators (IHS Global Insight Short Term Forecast for the U.S. Economy, December 2018) of 1.7% for SFY 2018, 1.3% for SFY 2019, 2.6% for SFY 2020 (WY 1), 2.8% for SFY 2021 (WY 2), 2.9% for SFY 2022 (WY 3), 2.9% for SFY 2023 (WY 4), and 2.9% for SFY 2024 (WY5). Factor G was derived from the multiplication of G cost per patient day and ALOS for the waiver population of the specified WY.

iv. Factor G’ Derivation. The estimates of Factor G’ for each waiver year are included in Item J-1. The basis of these estimates is as follows:

The Factor G’ estimates were based on FY 2017 actual experience data. The state estimated the baseline G’ cost per patient day and trended the figure using “Health Care” price deflators (IHS Global Insight Short Term Forecast for the U.S. Economy, December 2018) of 1.8% for SFY 2018, 1.5% for SFY 2019, 2.4% for SFY 2020 (WY 1), 2.6% for SFY 2021 (WY 2), 2.7% for SFY 2022 (WY 3), 2.8% for SFY 2023 (WY 4), and 2.7% for SFY 2024 (WY5). Factor G’ was derived from the multiplication of G’ cost per patient day and ALOS for the waiver population of the specified WY.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (4 of 9)

Component management for waiver services. If the service(s) below includes two or more discrete services that are reimbursed separately, or is a bundled service, each component of the service must be listed. Select “manage components” to add these components.
Appendix J: Cost Neutrality Demonstration

### Appendix J: Cost Neutrality Demonstration

#### J-2: Derivation of Estimates (9 of 9)

**d. Estimate of Factor D.**

**i. Non-Concurrent Waiver.** Complete the following table for each waiver year. Enter data into the Unit, # Users, Avg. Units Per User, and Avg. Cost/Unit fields for all the Waiver Service/Component items. Select Save and Calculate to automatically calculate and populate the Component Costs and Total Costs fields. All fields in this table must be completed in order to populate the Factor D fields in the J-1 Composite Overview table.

**Waiver Year: Year 5**
