Executive Summary

The *Coronavirus Disease (COVID-19) Funding to Nursing Facilities and Hospitals* report is submitted pursuant to 2024-25 General Appropriations Act, House Bill 1, 88th Legislature, Regular Session, 2023 (Article II, Health and Human Services Commission, Rider 150).

Rider 150 requires the Texas Health and Human Services Commission (HHSC) to "...develop a report detailing the total value and uses of COVID-19-related Federal Funds, including Provider Relief Funds, provided directly to nursing facilities and hospitals contracting with HHSC since the beginning of the public health emergency. The report should include any temporary rate increases provided to nursing facilities related to the COVID-19 pandemic. Any facilities that do not provide information requested by the commission necessary to complete the report shall be identified in the report."

Rider 150 extends provisions of the 2022-23 General Appropriations Act, Senate Bill (S.B.) 1, 87th Legislature, Regular Session, 2021 (Article II, HHSC, Rider 143).

This report is a continuation of HHSC's previously published reports containing information for which Rider 143 required. This report includes data reported by nursing facilities (NFs) and hospitals from January 31, 2020 to August 31, 2023.

1. Introduction

The COVID-19 federally-declared public health emergency (PHE) began in January 2020 and expired on May 11, 2023. NFs and hospitals received federal funds to assist with additional costs and lost revenue during the COVID-19 PHE. In typical circumstances, federal funds might flow through or be identified during the traditional state budget process. In contrast, these COVID-19 federal funds were distributed directly to providers. Therefore, the state did not act as the facilitator or distributor of most of the federal funds available to Texas healthcare institutions during this PHE. Rider 143 (now Rider 150), enables HHSC to collect and report on the types and amounts of federal funds that have flowed to NFs and hospitals since the beginning of the COVID-19 PHE.

Previous Legislation

Rider 150 extends the provisions of the 2022-23 General Appropriations Act, S.B. 1, 87th Legislature, Regular Session, 2021 (Article II, HHSC, Rider 143), which had previously required that NFs and hospitals report on their sources of COVID-19 federal funding. HHSC collected data from NFs and hospitals in accordance with Rider 143 requirements, which span from the beginning of the PHE until the expiration of Rider 143 on September 1, 2023.

Separately, in accordance with S.B. 809, 87th Legislature, Regular Session, 2021, NFs and hospitals (among other healthcare institutions) were also required to submit COVID-19 federal funds reports on a monthly basis. The provisions of S.B. 809 expired on September 1, 2023 and were not extended; as a result, although NFs and hospitals still need to submit reports after September 1, 2023, pursuant to Rider 150, the reports no longer need to be submitted to HHSC on a monthly basis and are instead to be submitted once every six months. This change in reporting frequency addresses a challenge previously reported by providers.

2. Federal Funds Data

There are over 600 hospitals and over 1,100 NFs that are subject to the reporting requirements of Rider 150. The exact number of facilities required to report changes over time due to the dynamic nature of provider disenrollment and licensure changes.

The information contained in this report is limited, incomplete, and potentially inaccurate because many providers produced estimates because their financial data was not available.

Data Limitations

The key limitation to the data presented is that, due to data collection challenges, HHSC lacks sufficient data to accurately report on the COVID-19 federal funds received by NFs and hospitals. For example, for the three most recent monthly reporting periods between June 2023 through August 2023, an average of approximately 54 percent of NFs and hospitals submitted their reports.

For the prior monthly reporting requirement, many providers indicated that they were unable to report accurate data each month because they did not regularly reconcile costs to identify COVID-19-related allocations. These providers stated that they would report “\$0” for months in which their accounting was not up-to-date, and then resubmit corrected reports once updated. However, the reporting frequency change after August 31, 2023, may alleviate this challenge.

Reporting Periods

Provider submission of data under Rider 150 has not yet occurred. The first series of reports from NFs and hospitals will be due by March 1, 2024, and will cover the period from September 1, 2023, through January 31, 2024. As such, this *Report on Coronavirus Disease (COVID-19) Funding to Nursing Facilities and Hospitals* (Rider 150 Report) contains data collected from NFs and hospitals in accordance with previous legislation (S.B. 809 and Rider 143) and thus contains data from January 31, 2020, through August 31, 2023.

Subsequent semi-annual reports from NFs and hospitals will be due on September 1, 2024 (for the reporting period of February 1, 2024 through July 31, 2024), and March 2025 (for the reporting period of August 1, 2024 through January 31, 2025).

Data Summaries

COVID-19 federal funds data is summarized in Table 1, and the uses of these funds are summarized in Table 2 and Table 3. This summarized information is broken out into monthly data in Appendix B. Lastly, a list of facilities that did not provide information requested by HHSC necessary to complete the report is contained in Appendix C.

3. COVID-19 Rates and Requirements for Nursing Facilities

COVID-19 Rate Increases for NFs

During the COVID-19 PHE, HHSC adopted temporary COVID-19 rate add-ons for NFs to support access and safety. HHSC also adopted Texas Administrative Code (TAC), Title 1, Section 355.205, regarding Rule for Emergency Temporary Reimbursement Rate Increases and Limitations on Use of Emergency Temporary Funds for Medicaid in Response to Novel Coronavirus (COVID-19). A temporary COVID-19 rate add-on of \$19.63 per diem for each NF Resource Utilization Group (RUG) was implemented on April 1, 2020, and ended on May 11, 2023, due to the end of the PHE.

NF providers could use the additional funding for COVID-related expenses, including direct care staff salary and wages, PPE, and dietary needs and supplies. Regarding direct care staff salaries and wages, NF providers could use the additional funding only to increase staff compensation through reimbursement of overtime or lump sum bonuses. Approved uses included bonuses for hazard pay or other methodologies that would not result in future reductions in hourly wages when the temporary rate increases are discontinued.

In addition, the temporary emergency rate increases applied to Medicaid hospice-NF per diem rates. The State of Texas pays the Medicaid hospice provider a hospice-NF rate that is no less than 95 percent of the Medicaid NF rate, \$18.65 per day. This rate is for each individual in an NF and includes room and board furnished by the facility (26 TAC Section 266.305(d) Medicaid hospice-NF per diem rates). Under the Medicaid Hospice Provider Manual, Section 6310 – NF Per Diem Rate, the hospice will then pass that amount on to the NF.

COVID-19 Requirements for NFs

Rider 143 and Rider 150 require HHSC to include a description of any requirements implemented for NFs in response to the COVID-19 pandemic, the cost to NFs to implement the requirements, and recommendations on whether or not the requirements should be continued after the end of the PHE in the initial submission

of the report. HHSC is providing this information in subsequent reports and indicating if the previously published information has been updated.

Certain requirements were implemented during the COVID-19 PHE to protect NF residents and the state's public health, safety, and welfare. The estimated costs imposed on NFs vary depending on each specific requirement, the current NF infrastructure, the NF's current operations, and other factors. Providers' self-reported estimates indicated that costs associated with COVID-19 imposed requirements were approximately \$830 million.

A list of requirements that were implemented for NFs in response to the COVID-19 pandemic is provided in Appendix A. HHSC evaluated the emergency requirements and determined that none of them will be outlined in permanent TAC rules.

4. Conclusion

HHSC initially sought to compare the providers' self-reported data to other publicly available sources to assist in a general validation process. One source considered was the United States Health Resources & Services Administration (HRSA). As of November 16, 2023, the information published by HRSA shows that 32,645 Texas providers (including but not limited to, nursing facilities and hospitals) received a total of \$9,668,321,753 in federal Provider Relief Funds. HHSC cannot compare this publicly available data at a provider level because the data is searchable only by provider name and not by identifiers utilized by HHSC, such as the National Provider Identifier (NPI) or Facility ID.

According to HRSA, with the passage of the Fiscal Responsibility Act of 2023 and the related rescission of program funds, no further payments will be made to providers under the Provider Relief Fund. HHSC will continue to report on COVID-19 federal funds received by nursing facilities and hospitals in accordance with Rider 150.
