

# FY20

## PROGRAM REPORT CARD

### Community Mental Health Grant

#### Program Overview

The Community Mental Health Grant (CMHG) program supports comprehensive, data-driven mental health systems that promote both wellness and recovery. The program design fosters community collaboration, reduces duplicating services and strengthens continuity of care. CMHG's mental and behavioral health programming consists of five distinct service types: Access to Care, Co-occurring Disorders/Substance Use Disorder Services, Crisis and Forensic Services, Peer Support Services and School-Based and Early Intervention Services.
