Program Overview
The goal of the Healthy Community Collaboratives program is to build communities and bring together the public and private sectors to support the ongoing recovery and housing stability of people experiencing homelessness, or who are at risk of homelessness, with unmet behavioral health needs.

Texas-Sized Achievements

- Over 282,600 Units of education and employment services filled critical employment needs.
- 1,984 housing placements made and 176 individuals diverted from homelessness.
- Over 162,500 More than 114,000 mental health and 48,500 substance use disorder treatment units supported behavioral health needs.
