**Special message for military personnel, spouses, and veterans
from the Texas Health and Human Services Commission**

The State of Texas recognizes the contributions of our active duty military service members, their spouses, and veterans. The Texas Health and Human Services Commission (HHSC) is spreading the word to military personnel, their spouses, and veterans about licenses for which they may be eligible, and which may assist them in their search for work.

The Professional Licensing and Certification Unit provides regulatory oversight, including licensing and certification, for 23 allied health occupations listed on its website at <http://www.hhsc.state.tx.us/plc/default.shtm>.

Military personnel or veterans may have met some licensing requirements because of their military service or other training, knowledge, and experience. Military spouses of current, active duty military service members may also have met some licensing requirements related to this status. While a military service member is deployed minimum requirements for license renewal may be modified.

We extend our heartfelt thanks to military service members, veterans, and their families for their dedicated service to the United States of America and to the State of Texas.
