**Welcome to the
ALF Provider
COVID-19 Webinar
with LTCR**

April 7, 2021

Handout

A pdf version of this presentation is available in the **Handout** section of your control panel. Save the file to your computer to view or print later.

COVID-19 Resources

Available resources and tools for ALFs:

- [COVID-19 Response Plan](#)
- COVID-19 Emergency Rules
 - [§553.2001](#)
 - [§553.2003](#) (**revised 3/24**)
 - [§553.2004](#)
- Frequently Asked Questions
 - [ALF FAQ](#)
- [Provider Letters](#)
- [Texas Division of Emergency Management](#) - interactive map for finding testing resources

TEXAS
Health and Human
Services

Quarantine

For **asymptomatic residents**, quarantine is **no longer** recommended for residents who are being admitted to an ALF if they are:

- fully vaccinated **and**
- have **NOT** had prolonged [close contact](#) with someone with COVID-19 in the prior 14 days.

TEXAS
Health and Human
Services

Quarantine

This updated quarantine guidance applies to:

- new admissions,
- readmissions, and
- residents who have gone overnight as long as the resident **DID NOT** have prolonged [close contact](#) with someone with a COVID-19 infection.

TEXAS
Health and Human
Services

Expansion of Reopening Visitation

HHSC has published revised [ALF Expansion of Reopening Visitation Emergency Rules \(PDF\)](#) for assisted living facilities. The revised rules are effective 03/24/2021.

TEXAS
Health and Human
Services

Revised ALF Visitation Guidance (PL 2021-12)

HHSC LTCR has published [Provider Letter 2021-12 \(replaces PL 20- 42 and PL 20-23\) COVID-19 Response – Expansion of Reopening Visitation \(PDF\)](#).

The letter clarifies COVID-19 visitation flexibilities permitted by newly revised assisted living facility emergency rules.

TEXAS
Health and Human
Services

Visitation FAQ

What is the major difference between an Essential Caregiver and a visitor?

- EC = resident can be COVID-positive, COVID-negative, COVID-unknown
- Visitor = resident **must** be COVID-negative

TEXAS
Health and Human
Services

Visitation FAQ

How many visitors can visit a resident at one time?

- Not defined in rule
- Limited by scheduling and size of visitation area
- No physical distancing necessary among visitors in the same group
- ECs can visit with another group of personal visitors (for COVID-negative residents)

TEXAS
Health and Human
Services

Visitation FAQ

Can vaccinated residents participate in dining and activities without physical distancing?

Dining and activities are acceptable within resident cohorts, but the residents must maintain physical distancing, regardless of vaccination status.

TEXAS
Health and Human
Services

Visitation FAQ

How many Essential Care Givers can visit at one time?

ALFs that have offered (administered, arranged, or given information about the COVID-19 vaccine) a complete series of one- or two-dose vaccine may allow up to **two** essential caregivers to visit a resident at the same time.

ALFs that have not offered (administered, arranged, or given information about the COVID-19 vaccine) may allow only **one** essential caregiver to visit a resident at a time.

TEXAS
Health and Human
Services

Facility Tours

An ALF that meets the requirements in rule for permitting indoor visitation may allow in-person tours. The following would apply to in-person tours:

- has no outbreak
- has effective cohorting
- limits in-person tours to COVID negative areas of the building
- ensures all visitors maintain physical distancing between themselves and all staff, residents, and other visitors
- limits visitors for in-person tours to not more than three persons

TEXAS
Health and Human
Services

Visitation Rules

The rules:

- allow for **less restrictive visitation** once a facility has offered* a complete series of COVID vaccines to residents and staff and documented each resident's choice to vaccinate or not. See §553.2003(f).

*Note – *offer* in this context means to administer, arrange/assist, **OR** educate/give information about the COVID-19 vaccine **AND** documented the resident's choice.

TEXAS
Health and Human
Services

Visitation Rules

The rules:

- allow for **more restrictive visitation** if a facility has **NOT** made this offer* to residents and staff. See §553.2003(g).

*Note – *offer* in this context means to administer, arrange/assist, **OR** educate/give information about the COVID-19 vaccine **AND** documented the resident's choice.

TEXAS
Health and Human
Services

TEXAS
Health and Human
Services

Visitation

Has the facility administered, arranged, **or** given information about the COVID-19 vaccine **and** documented resident's choice?

Yes – less restrictive visitation rules

No – More restrictive visitation rules

TEXAS
Health and Human
Services

Less Restrictive Visitation

- No attestation form for visitation is required.
- A resident may choose to have close or personal contact with their visitor during the visit.
- There may be up to two permanently designated essential caregivers per resident and up to two designated essential caregivers may visit the resident at the same time.

TEXAS
Health and Human
Services

More Restrictive Visitation

- There may be up to two permanently designated essential caregivers per resident and **one** designated EC may visit at a time.
- Submit LTCR Form 2196 to the Regional Director. If approved, the facility must allow for outdoor visits, open window visits, vehicle parades and indoor plexiglass visits involving residents and personal visitors. If previously submitted and **no changes, do not resubmit.**
- A facility must receive an approved visitation designation before it can begin permitting outdoor visits, indoor plexiglass visits, open window visits and vehicle parades.

TEXAS
Health and Human
Services

Applicable to All Visitation

- A facility **must not** require a visitor to provide documentation of COVID-19 negative test or COVID-19 vaccination status as a condition of visitation or to enter a facility.

TEXAS
Health and Human
Services

Applicable to All Visitation (Continued)

Masks:

- Visitors and essential caregivers must wear masks at all times.
- Residents must wear masks at all times (if tolerated). If the resident does not tolerate wearing a mask, the facility documents in the resident record.

TEXAS
Health and Human
Services

Applicable to All Visitation (Continued)

- Scheduling: Schedule visitation appointments to allow time for cleaning and sanitization of the visitation area between visits.
- Screening: Screen all visitors according to requirements.

TEXAS
Health and Human
Services

All ALF EC Visits

- EC visits allowed for **all** residents with **any** COVID-19 status.
- Resident must wear facemask, if tolerated. Resident may remove mask to eat or drink during visit .
- EC must wear mask throughout the visit. EC **may not** eat or drink during visit.
- No EC testing or testing strategy required.
- No staff escorting to/from EC visits.

TEXAS
Health and Human
Services

Visitors and Essential Caregivers

Differences between personal visitors and Essential Caregivers:

- ECs are trained in infection control policies and procedures
- ECs are trained on proper use of PPE
- ECs must sign written agreement to follow applicable policies/procedures
- ECs may visit residents with any COVID status (positive, negative, and unknown)
- Visitors permitted only for COVID-negative status residents

TEXAS
Health and Human
Services

Salon Services

- Permitted for residents with COVID-negative status
- Visit may occur outdoors, in resident's bedroom, or another area that limits visitor movement
- Salon service visitor must wear facemask.
- Resident must wear facemask, if tolerated.
- Testing strategy for salon services visitors.

Services

Revised PL 2020-49

HHSC revises guidance allowing LTC providers to use free COVID-19 POC antigen tests on anyone.

[Provider Letter 2020-49 \(Revised\)
Process to Request Free COVID-19
Point of Care Antigen Test Kits](#)

The revised letter expands the ability of LTC providers to use the requested free BinaxNOW COVID-19 point of care antigen test kits on anyone.

TEXAS
Health and Human
Services

Free BinaxNOW COVID-19 POC Tests Available for LTC Providers

HHSC, along with the TDEM, is expanding the criteria for requesting free BinaxNOW COVID-19 point of care test kits.

You may now use these free BinaxNOW COVID-19 POC test kits to test **anyone** including residents, staff and visitors.

Previously, the tests were allowed only for use on essential caregivers.

TEXAS
Health and Human
Services

Free BinaxNOW COVID-19 POC Tests Available for LTC Providers

Providers must attest to adhere to certain training and reporting requirements and have one of the following.

- Current Clinical Laboratory Improvement Amendment Certificate of Waiver
- Current CLIA laboratory certificate

[Complete and submit an attestation form for free BinaxNOW point-of-care antigen COVID-19 test kits \(PDF\)](#) to request free BinaxNOW COVID-19 point of care test kits. [See revised PL 2020-49 \(PDF\)](#) for more information. Tests are available while supplies last.

TEXAS
Health and Human
Services

Infrastructure Workers

Essential critical infrastructure workers must be admitted to the facility. This includes utility workers, plumbers, electricians, persons conducting maintenance and repairs essential to safety of residents.

For additional information and guidance in identifying essential critical infrastructure workers, please refer to the following document:

https://www.cisa.gov/sites/default/files/publications/ECIW_4.0_Guidance_on_Essential_Critical_Infrastructure_Workers_Final3_508_0.pdf

Services

COVID-19 Vaccination Options

HHSC and DSHS have published [Long-term Care COVID-19 Vaccination Options \(PDF\)](#).

The resource document provides COVID-19 vaccination options to ALFs.

- Enroll as a Texas Vaccine Provider
- Partner with Vaccine Provider
- Contact local/regional health department or pharmacies
- Reach out to Vaccine.LTCF@dshs.texas.gov

TEXAS
Health and Human
Services

COVID-19 Vaccination Data Reporting Emergency Rules

[Provider Letter 2021-01 COVID-19 Vaccination Reporting](#)

[§553.2004\(b\)](#) Within 24 hours of completing a round of vaccinations, an assisted living facility **must** accurately report COVID-19 vaccination data for staff and residents to HHSC in the format established by HHSC.

Reminder: Vaccination reporting is a requirement.

TEXAS
Health and Human
Services

PL 21-01 COVID-19 Vaccination Reporting

Report vaccination data via Survey Monkey tool:

- https://www.surveymonkey.com/r/SRD_M2GY

Complete the survey only when you have information to report.

On days when no vaccines are administered, you do not need to complete the survey.

Texas Vaccine Rollout Timeline

To date, Texas has opened up vaccine eligibility according to the following timeline:

- **March 29, 2021:** [Everyone 16 years and older](#)
- **March 15, 2021:** [Phase 1C](#) (people 50-64)
- **March 3, 2021:** [Schools and licensed child care personnel](#)
- **December 29, 2020:** [Phase 1B](#) (people 65+ or 16+ w/certain health conditions)
- **December 14, 2020:** [Phase 1A](#) (frontline healthcare workers and LTCF residents)

TEXAS
Health and Human
Services

Where to Get Vaccinated

If you're eligible to get vaccinated now, you can check with a large vaccination hub and/or a local vaccine provider, like a nearby pharmacy or your doctor.

Find Vaccine:

1. [LARGE VACCINATION HUBS](#)
2. [VACCINE AVAILABILITY MAP](#)
3. [LIST OF ALL PROVIDERS](#)

When searching for a vaccination site, remember:

- Vaccine supply is limited. Not all local providers have vaccine each week and hubs may have long waiting lists.
- Do not show up at a hub or provider looking for a vaccine.
- Instead, check the provider's website. Call only if the website doesn't answer your questions.

TEXAS
Health and Human
Services

Authorized and Recommended Vaccines

The CDC provides information on who is and is not recommended to receive each vaccine and what to expect after vaccination, as well as ingredients, safety, and effectiveness.

<https://www.cdc.gov/coronavirus/2019-ncov/vaccines/keythingstoknow.html>

Currently, three vaccines are authorized and recommended to prevent COVID-19:

- [Pfizer](#)
- [Moderna](#)
- [Janssen](#)

TEXAS
Health and Human
Services

Vaccine Allergic Reaction

The CDC provides recommendations on what to do if you experience an allergic reaction after getting a COVID-19 vaccination. It also provides recommendations for people who have had allergic reactions to other vaccines and for those with other types of allergies.

<https://www.cdc.gov/coronavirus/2019-ncov/vaccines/safety/allergic-reaction.html>

TEXAS
Health and Human
Services

Management of Anaphylaxis after COVID-19 Vaccination

CDC - [Interim Considerations: Preparing for the Potential Management of Anaphylaxis after COVID-19 Vaccination](#)

These interim considerations provide recommendations on assessment and management of anaphylaxis following COVID-19 vaccination.

TEXAS
Health and Human
Services

Reporting Vaccine Reactions

The Vaccine Adverse Event Reporting System (VAERS) is co-managed by the CDC and the FDA. VAERS accepts and analyzes reports of adverse events (possible side effects) following vaccination.

Use VAERS to report adverse reactions to the COVID vaccine, which are very rare.

[VAERS](#)

CDC Travel Guidance

Fully vaccinated people can travel safely within the United States:

- Do not need to get tested before or after travel unless their destination requires it
- Do not need to self-quarantine

Follow [CDC's recommendations for traveling](#) safely including:

- Wear a mask over your nose and mouth
- Stay 6 feet from others and avoid crowds
- Wash your hands often or use hand sanitizer

TEXAS
Health and Human
Services

CDC Vaccination Toolkit

[Long-Term Care Facility Toolkit: Preparing for COVID-19 Vaccination at Your Facility](#)

This toolkit outlines the importance of COVID-19 vaccination in LTCFs, provides strategies for encouraging COVID-19 vaccination, and includes tools a facility may use to monitor COVID-19 vaccination side effects among staff and residents.

TEXAS
Health and Human
Services

CDC Info on COVID-19 Variant Cases

Emerging variants CDC is closely monitoring have mutations in the virus genome that alter the characteristics and cause the virus to act differently in ways significant to public health:

- causes more severe disease,
- spreads more easily between humans,
- requires different treatments,
- changes the effectiveness of current vaccines.

It's important to understand that genetic mutations are expected, and some variants can spread and become predominant while others subside.
