KEEPING CHILDREN SAFE

Report Abuse and Neglect
Texas law requires a person having reasonable cause to believe that a child’s physical or mental health or welfare has been adversely affected by abuse or neglect by any person to immediately make a report to the Texas Department of Family and Protective Services or law enforcement.

Call 800-252-5400 to make confidential reports.

Failure to report suspected abuse or neglect is a crime. Employers are prohibited from retaliating against caregivers who make reports in good faith.

Protect Children
- Never shake a baby.
- Shaken baby syndrome is the result of violently shaking a young child. Injuries can include brain swelling and damage, subdural hemorrhaging, reduced cognitive function and death.

Sudden Infant Death Syndrome
SIDS is the unexplained death of a sleeping baby. Always place infants to sleep on their backs in a crib with a firm surface away from soft items like blankets, pillows or toys.

Keep Children Healthy
- Wash your hands and children’s hands often.
- Immunize children.
- Keep ill children at home.
- Learn pediatric CPR and first aid.
- Make sure children drink plenty of water.
- Discuss special needs with caregivers.
- Learn more about childhood diabetes, which impairs a body’s ability to regulate blood sugar levels, and other medical conditions, from your child’s health-care provider.

Water Safety
- Always maintain active supervision and stay within reach of children in the water.
- Secure water areas with fences, alarms or other means to ensure children don’t access the areas unsupervised.
- Have an emergency plan and ensure caregivers are trained in pediatric CPR.
- Don’t assume children will use good judgment around the water and make safe choices.

Transportation Safety
- Use car seats and booster seats according to Texas law. All children under 8-years-old who are 4’9” or shorter must be in an appropriate child safety seat system installed according to manufacturer’s instructions.
- Before closing car doors, make sure that arms, fingers, legs and toes are all inside to avoid accidental injury.
- Children should not be left in a car unattended for any period. Have a system in place to ensure all children have safely exited the car.
- Keep car doors locked and the keys out of children’s reach.
- Educate adults and children about car and transportation safety, especially about getting in and out of a vehicle, loading and unloading curbside.
- Maintain active supervision when children are around cars.
