# Introduction

## Minimum Standards

The minimum standards tell you (the child care operation permit holder) what requirements you, your employees, and your caregivers must follow.

These minimum standards:

- were developed by the Texas Health and Human Services Commission (HHSC) with the assistance of child-care operations, parents, stakeholders, and other experts in a variety of fields;
- reflect what the citizens of Texas consider reasonable and minimum; and
- meet the guidelines set forth in Chapter 42 of the Texas Human Resources Code (law) for what must be included in the minimum standards.

The Administrative Procedure and Texas Register Act requires that proposed minimum standards be published for public comment before they are adopted as rules. All members of the public, including providers, are encouraged to provide input when proposed minimum standards are published for public comment. The commission considers recommendations from interested persons or groups in formulating the final draft, which is filed as rules with the Secretary of State.

## Deficiencies

A deficiency is any failure to comply with a minimum standard, rule in Texas Administrative Code Chapter 745, law, specific term of the permit, or specific condition of probation or suspension.

## Weights

The minimum standards and rules are weighted based on a common understanding of the risk to children presented if the standard or rule is violated. The weights are high, medium-high, medium, medium-low, and low. The assigned weights do not change based on the scope or severity of an actual deficiency. Scope and severity are assessed by Child Care Regulation (CCR) staff, documented, and considered in conjunction with the weight when making CCR decisions. You will see the weight is noted at the end of each standard or subsection in green. Only those minimum standards and rules which can be cited as a deficiency are weighted. For example, the minimum standard prohibiting physical discipline is weighed but standards that are definitions are not weighted.

## Maintaining Compliance

It is essential that you, your employees, and your caregivers recognize four critical aspects of CCR's efforts to protect the children in care and to help operation employees and caregivers comply with the law, rules, and standards. The four aspects are:

- Inspection
- Technical assistance
- Investigations
- Caregiver's rights and entitlements

## The Inspection

Various aspects of regulated operations are evaluated for compliance with the minimum standards, rules, and law during regular inspections. The emphasis on these inspections is to prevent risk to children in care. The frequency of inspections will fluctuate, depending on the type of permit and an operation's ability to comply with the standards, rules, and law.

During any inspection, if we find that your operation does not meet minimum standards, rule, or law, the deficiencies are discussed with the person in charge at the time of the inspection. You will be given an opportunity to correct deficiencies within a specified period of time. If you have questions we encourage you to talk with us before we leave your operation. If your concerns are not resolved, you may request an administrative review.

## Technical Assistance

We are available to offer consultation to potential applicants, applicants, and permit holders regarding how to comply with minimum standards, rules, and laws. While we most often provide technical assistance during inspections and investigations, technical assistance can be requested at any time.

The Child Care Regulation section of the HHSC web site has a Technical Assistance Library that allows you to view or download information about a variety of topics related to child care. You can view it by going to <https://hhs.texas.gov/doing-business-hhs/provider-portals/protective-services-providers/child-care-licensing> and selecting Technical Assistance Library from the Resources section.

A feature of the minimum standards publication is the Helpful Information boxes following certain minimum standards that provide additional guidance, clarification, resources, and/or best practices.

## Investigations

When a report alleges a violation of minimum standards, rule, or law, CCR must investigate the report, notify you of the investigation, and provide a written report to you of the investigation results within prescribed time frames.

When a report alleges abuse, neglect, or exploitation, the Department of Family and Protective Services must investigate the report, notify you of the investigation, and provide a written report to you of the investigation results within prescribed time frames.

# **Your Rights and Entitlements**

## **Waivers and Variances**

You may request a waiver if your operation is unable to comply with a standard for economic reasons. You may request a variance if your operation wishes to meet the intent of a standard in a way that is different from what the standard specifies. Waiver and variance requests are submitted through your online provider account or made in writing to your assigned CCR Inspector.

## **Administrative Review**

If you disagree with a CCR decision or action, you may request an administrative review, where you are given an opportunity to show compliance with applicable minimum standard, rule, law, permit restriction(s) and/or permit condition(s).

## **Appeals**

You may request an appeal hearing on a CCR decision to deny an application, revoke, or suspend a permit or a condition placed on the permit after issuance.

Appeal hearings are conducted by the State Office of Administrative Hearings (SOAH).

## **For Further Information**

It is important that you, your employees, and your caregivers clearly understand the purpose of minimum standards and the reasons for CCR's inspections. Do not hesitate to ask us questions that will help you understand any aspect of our regulation. You may obtain information about minimum standards or procedures by calling your local CCR office or by visiting the HHSC Web site at <https://hhs.texas.gov/doing-business-hhs/provider-portals/protective-services-providers/child-care-licensing>.

- (6) Supplemental caregiver – A person who is not counted in the child/caregiver ratio but provides direct care, supervision, guidance, or protection of a child in your care.

## §743.5. What child care is regulated under this chapter?

*Subchapter A, Definitions and Services  
September 2010*

- (a) Child care is regulated under this chapter if it is provided:
- (1) At a temporary shelter, such as a family violence or homeless shelter;
  - (2) Only for children temporarily residing with a parent at the shelter;
  - (3) While the child's resident parent is away from the shelter;
  - (4) On a recurring and scheduled basis; and
  - (5) For at least four hours per day and three or more days per week.

- (c) If you only offer care for children while the resident parent is on the shelter premises, then the program is exempt from regulation. If you provide care for both children whose parents are on the premises and children whose parents are away from the shelter, all of the child care is regulated under this chapter unless the two groups of children are separated.

### **Helpful Information**

Occasional care, offered on an emergency basis only, is not subject to regulation. Per §745.37 Shelter Care is regulated when seven or more children are in care.

## **§743.9. If residents provide care for other residents' children, is this subject to regulation?**

*Subchapter A, Definitions and Services

Residents providing care for the children of other residents are not regulated by Licensing.

## Best Practice Suggestions

Licensing recommends that:

- A resident providing child care for another resident's child(ren) not care for more than four children under 13 years old, including her own children and the unrelated children.
- A resident, who has four or more of her own children ages 13 years old or younger, not care for another resident's children at any time.
