

## **Programs, Services and Service Delivery Options Required to Use Electronic Visit Verification by January 1, 2023**

The federal [21st Century Cures Act \(Section 12006\)](#) requires states to implement Electronic Visit Verification for Medicaid home health care services by January 1, 2023. States may request a one-year extension, if they encounter unavoidable delays. The table below lists the programs, services and service delivery options that will be required to use EVV. Texas Health and Human Services Commission refers to these services as “Cures Act Home Health Care Services” or “Cures Act HHCS.”

**HHSC will continue analyzing the impacted services and may update this document accordingly. Always visit [HHSC’s 21st Century Cures Act webpage](#) for the current version of this document.**
