Notes: The WIC potentially eligibility calculation is created at a national level and assumes that Texas participates in Medicaid expansion. Medicaid participation provides automatic eligibility for WIC and approximately 32% of women, infants, and children in this report have an income greater than 185% of the Federal Poverty Guidelines. Since Texas does not participate in Medicaid expansion, these individuals are not eligible for WIC in Texas.

* Negative value indicates underestimation for potential eligibles or the Participation for those Counties may include Participants from other Counties/Zip codes.

N/A - Underestimation for potential eligibles without any estimated eligibles reported (division by 0).

Average Monthly Participation = Includes all WIC clients participating in the program during FFY 2018.

Sources: WIC Participation: HHSC, Bureau of Nutrition Services, Texas EBT and TXIN

Estimated Eligibles: Estimated Eligibles/Forecast data for year FFY 2018 is provided by TXWIC.
