

2017 Texas WIC Nutrition Education Survey

Public Health Service Region 1 Report

(PHR 1 includes LA 020, LA 100, and parts of LA 027 and LA 076)

June 2017

Summary

Purpose

The Texas WIC Nutrition Education Participant Survey, administered every two years, provides the state and local agencies with information about their clients to help agencies plan their nutrition offerings and assess client satisfaction with the WIC program services. The Participant Survey also provides support for WIC initiatives at the state level and descriptive data that is used to inform subsequent quantitative surveys and qualitative interviews. This report summarizes the data collected from Public Health Service Region (PHR 1) in Texas. PHR 1 includes LAs 020, 100, and portions of LA 027 and 076.

Methods

Data were collected from a convenience sample of current WIC participants across the state of Texas. Surveys were available in English or in Spanish during the month of February 2017. Clients could take the survey online for class credit or in the clinic on paper. PHR 1 data represent viewpoints of 35 clients who completed the online survey and 253 clients who answered the paper Scantron survey while at their WIC clinic. The survey contained five sections: opinions about WIC services, family meals and activities, WIC shopping experience, technology usage, and demographics.

Results

Demographics

Online survey respondents most frequently reported being on WIC less than one year, were more likely to speak English, and had slightly higher education levels than in clinic survey respondents. While in clinic survey respondents were more likely to be on the program three or more years and were more likely to have children over 1 year old.

For both online and in clinic survey respondents the majority of WIC participants were mothers, aged 25-29, and were of Hispanic ethnicity (57 and 62 percent, respectively). The most frequently reported highest level of education completed was high school diploma or GED.

Opinions about WIC

The three most important WIC services as rated by WIC participants were food benefits, followed by nutrition information, and support received from WIC staff. Internet (web lessons), nutrition or health fairs, and self-paced education at the clinic were the most valued forms of nutrition education reported by WIC participants. Among the state agency's newly proposed ideas for nutrition education, fitness class and child-friendly playtime came in at the top of the list. The majority of participants agreed WIC offered classes in their language; however, a larger percentage of online respondents (27 percent) reported the WIC clinic did not offer classes at times when I can attend and 17 percent of in clinic respondents reported they did not provide a choice of class topics.

Respondents gave the WIC clinic and the staff high marks (94% or greater in favor) for being friendly, welcoming, clean, relevant, and able to answer questions. One hundred percent responded they would come back to WIC in the future and would recommend WIC to a friend. The area most in need of improvement was "having things for my child to do while waiting."

The top two challenges in the WIC process as rated by WIC participants were shopping for WIC foods and customer service at the grocery store.

Activities and Family Behaviors

Participants were asked to mark how often the following behaviors were true for them or for their family. The percentage selecting "almost always" is indicated below.

- Mealtime with my family is enjoyable. (91 to 94 percent)
- I prepare meals at home. (71 to 83 percent)
- My family sits down to eat meals together. (63 to 79 percent)
- I serve a fruit or vegetable at each meal. (63 percent)
- My child sees me as being physically active. (46 to 52 percent)
- I participate in physical activities with my child. (49 to 58 percent)
- My child helps prepare meals at home. (14 to 35 percent)

WIC participants ranked online recipes with WIC foods and online menu planning tools as online tools they would use if made available by WIC. They were also in support (“very likely” to use) online recipes and helpful health/nutrition videos from child nutrition experts and credible moms.

WIC Shopping Experience

WIC participants reported that they would prefer to learn about changes in WIC foods (1) in the WIC approved foods guide, (2) to have staff go over the changes with them at the clinic, or (3) to learn about the changes via an online class. Take home DVD and store tour were rated in the bottom six methods of hearing about new foods.

Respondents also rated their main reasons for choosing one store over another to shop for WIC foods and the top challenges faced when shopping for WIC foods. Over 83 percent of WIC participants stated it was “very important” to them that the store they shop at has WIC foods clearly labeled and easy to find, the store has better quality fruits and vegetables, and the store has a good variety of food choices available for WIC. The number one reason participants have decided not to purchase a WIC food was confusion about brands or what foods are allowed (over 57% of WIC participants have experienced this issue). In addition, while shopping for WIC foods, 64 to 80 percent of WIC participants stated that they selected the wrong item and were sent back for a different one at the checkout line at least once in the last 3 months.

Technology Usage

WIC participants are using their cell phones more than any other device (i.e. computers, tablets, etc) to access the Internet; 87-97 percent have smartphones. The majority reported using text messaging and social media every day. While the majority of WIC participants do not use nutrition and health videos or online menu planning tools weekly, over 60 percent stated they use online recipes weekly followed by short cooking videos (34 to 42 percent using weekly).

YourTexasBenefits.com, TexasWIC.org, and BabyCenter.com were among the most popular websites visited by WIC participants.

Text message WIC appointment reminders, a phone app to help them locate WIC-approved foods, and scheduling WIC appointments online were the top three service enhancements of interest to that WIC participants, followed by text or e-mailing nutrition and infant feeding tips or text or e-mail dialogue with a WIC nutritionist or peer counselor.

For more detailed information on the survey responses, please proceed through the summary tables in this report.

(Excludes participants who stated they do not use online tools.)

SECTION 3 asks about the WIC shopping experience.

If WIC made changes to the WIC foods, how would you like to learn about them? (Select top 3 choices)

How would you like to learn about changes to WIC foods	Percent marking "yes" Online Survey	Percent marking "yes" In clinic Survey
WIC approved foods guide	68.6%	67.6%
Have staff go over the changes with me at the clinic	68.6%	63.6%
Online class (computer or mobile device)	60.0%	39.5%
Online video	34.3%	28.5%
Take home DVD	17.1%	28.1%
Go on a store tour	14.3%	20.9%

(The following four tables exclude participants who stated they have not shopped for WIC foods.)

Where do you shop for WIC foods? (Mark all that apply)

Where do you shop for WIC foods	Percent Online Survey	Percent In clinic Survey
Walmart	80.0%	71.5%
United	80.0%	40.7%
Lowe's	20.0%	17.4%
Fiesta Mart	5.7%	3.2%
Albertsons	5.7%	4.7%
None of the above	5.7%	3.2%
Grocery Services	2.9%	6.3%
HEB	0.0%	20.9%
Brookshire	0.0%	13.4%
WIC Only Stores	0.0%	2.4%
Kroger's	0.0%	2.4%

If you have the option to shop at more than one grocery store, how important are the following when deciding where to shop for WIC foods?

Importance when deciding where to shop for WIC foods	Very important		Somewhat important		Not important	
	Online Survey	In clinic Survey	Online Survey	In clinic Survey	Online Survey	In clinic Survey
The store has WIC foods clearly labeled and easy to find.	85.7%	93.9%	11.4%	4.9%	2.9%	1.2%
The store has better quality fruits and vegetables.	85.7%	92.1%	14.3%	7.9%	0.0%	0.0%
The store has a good variety of food choices available for WIC.	82.9%	93.0%	14.3%	6.1%	2.9%	0.8%
The store's distance from home or work.	77.1%	70.0%	14.3%	24.3%	8.6%	5.8%
The store has staff available to help me find WIC foods if I need help.	71.4%	80.8%	22.9%	14.7%	5.7%	4.5%
The store has a good selection of the non-WIC items I need.	71.4%	77.0%	22.9%	20.6%	5.7%	2.5%
The store is easy to get in and out of (parking, aisles, checkout, etc).	80.0%	72.5%	17.1%	20.5%	2.9%	7.0%
The store has a kiosk or place where I can check my WIC shopping list.	62.9%	62.7%	25.7%	25.8%	11.4%	11.5%

Are any of the following reasons you have decided NOT to purchase a WIC food? (Mark all that apply)

Reason you decided NOT to purchase a WIC food	Percent Online Survey	Percent In clinic Survey
Confusion about brands or what foods are allowed	80.0%	57.3%
Confusion about signs and labels	51.4%	39.5%
Store didn't have a WIC food I needed	37.1%	34.0%
None of the above	8.6%	19.0%

Reason you decided NOT to purchase a WIC food	Percent Online Survey	Percent In clinic Survey
Poor customer service at the store	22.9%	18.2%
Item did not scan	20.0%	22.1%
I did not want an item	14.3%	7.5%
Time it took to shop for WIC foods was too long	8.6%	8.3%
I didn't know how to prepare the food	2.9%	2.8%

In the last 3 months, have any of the following things happened to you when shopping for your WIC foods?

Happened when shopping for WIC foods	Percent Online Survey	Percent In clinic Survey
Selected the wrong item and was sent back to get a different item once you reached the checkout lane.	80.0%	63.7%
Needed a WIC item that was not there or not available	62.9%	51.9%
Forgot to bring the WIC shopping guide to the store	54.3%	41.8%
Selected a fruit or vegetable that would not scan	42.9%	40.4%
Felt uncomfortable in the checkout line	37.1%	20.4%
Felt uncomfortable shopping for WIC items	20.0%	10.3%

SECTION 4 is about technology use.

How often do you use these devices to access the Internet?

Frequency of use of these devices to access the Internet	Most days		Occasionally		Never	
	Online survey	In clinic survey	Online survey	In clinic survey	Online survey	In clinic survey
Cell phone (including smartphones)	88.6%	82.4%	11.4%	15.1%	0.0%	2.4%
Desktop or laptop computer	42.9%	25.7%	40.0%	46.9%	17.1%	26.1%
Tablet computer (iPad, Google table, Kindle, Nook)	25.7%	25.6%	40.0%	31.0%	34.3%	43.4%
Other Internet device (iPod, Xbox, smart TV)	11.4%	13.0%	34.3%	31.9%	54.3%	55.0%

Some cell phones are called “smartphones” because of certain features they have, such as Internet access. Is your cell phone a smartphone, such as an Android, iPhone, Blackberry, or Windows phone?

Is your cell phone a smartphone	Percent Online Survey	Percent In clinic Survey
Yes	97.1%	87.4%
No	2.9%	8.5%
Don't know	0.0%	3.7%
No cell phone	0.0%	0.4%

How often do you use the following technology?

How often do you use the following technology	Every day		Occasionally		Never	
	Online survey	In clinic survey	Online survey	In clinic survey	Online survey	In clinic survey
Text messaging or texting	97.1%	84.1%	2.9%	14.3%	0.0%	1.6%
Social media sites	71.4%	54.3%	17.1%	32.5%	11.4%	13.2%
E-mail	62.9%	39.9%	28.6%	41.2%	8.6%	18.9%
Smartphone app	57.1%	42.1%	37.1%	36.0%	5.7%	21.9%
YouTube or other online videos	28.6%	28.6%	65.7%	52.2%	5.7%	19.2%

How often do you use the following technology	Every day		Occasionally		Never
