

CH-000-24, Vamos a leer: La oruga glotona

Client-centered nutrition education uses methods like group discussions and hands-on activities to engage participants in learning. This outline starts with a **Snapshot of the Session**, and then includes two parts:

Part 1: Planning the Nutrition Education Session - The first section prompts the nutrition educator to think about the learning objectives, materials, and preparation necessary to carry out the session.

Part 2: Session Outline - The second section outlines the key parts of the session. The nutrition educator uses this outline to lead the session.
