Texas monitors and measures performance to ensure that the requirements of the Individuals with Disabilities Education Act (IDEA) are met. Texas develops a six year State Performance Plan (SPP) that includes targets and improvement strategies. Each year Texas reports on the state's progress in meeting the targets in its Annual Performance Report (APR). The SPP and APR can be found at <https://hhs.texas.gov/doing-business-hhs/provider-portals/assistive-services-providers/early-childhood-intervention-eci-programs/eci-data-reports>. The performance of each local ECI program is also reported annually for some of the same indicators. The performance for the local ECI program is reported below, followed by the statewide performance and the statewide target.
