

## **PPECC COVID-19 Regional Reporting Requirements**

**Center Instructions:** Prescribed Pediatric Extended Care Centers (PPECCs) are being directed to submit this COVID-19 tracking document to HHSC in addition to meeting all other COVID-19 reporting requirements. Upon the first report of a positive COVID-19 case, PPECCs must complete this document and return it to their regional contact daily (Monday through Friday only if a center is not open on the weekends). Daily reporting will continue until the minor or staff member has recovered from COVID-19 or is deceased. The recovery can be verified by using the CDC symptom-based strategy or by the confirmation of a negative COVID-19 test result.

**Note:** If no changes in case counts have occurred from the previous submission, the center would still need to notify the region that no such changes had occurred.

Center Name:

Center ID Number or License Number:

City Where Center is Located:

Number of Staff Currently Positive:

Number of Staff Pending a Test Result:

Number of Staff Deaths:

Number of Staff Recovered:

Number of Minors Currently Positive:
