

Hello all:

This announcement concerns the hospital quality-based Potentially Preventable Readmissions (PPRs) and Potentially Preventable Complications (PPC) program. Specifically, the mid-year hospital-level reports. Hospitals have requested interim PPR and PPC data in addition to the annual hospital-level reports. It will include six months of data for state fiscal year 2023. It is important to note that this mid-year report is NOT associated with reimbursement adjustments and only for quality improvement information purposes.

The annual report that includes the full fiscal year 2023 data that is associated with reimbursement reductions will be available in summer 2024.

Mid-year hospital-level reports

Reporting Period: First Half of State Fiscal Year 2023 (September 1, 2022 through February 28, 2023) Date available: August 18, 2023

How to retrieve the mid-year hospital-level PDF report: Hospitals must send an email request to MCD_PPR_PPC@hhsc.state.tx.us with hospital name, NPI, TPI and contact information. In addition, the underlying data (Excel file) is also available upon request.

If you have any questions, please contact us at this email.

Sincerely,

PPR PPC Coordination Team

MCD_PPR_PPC@hhsc.state.tx.us
