HCC Success Story

Angela's story is one of many which exemplify HCC's success in supporting the recovery and housing stability of program participants. Angela enrolled in HCC programming shortly before the start of fiscal year 2021. She participated fully, accessing services such as housing, clinical counseling, case management and integrated medical services.

Angela celebrated several huge victories when she graduated from the program at the end of 2021. In addition to being employed and securely housed, she shared that during 2021 she had zero arrests and zero emergency room visits.
