# **IDD-BHS DATA BOOK**

**A Reference to Community Mental Health  
and Substance Use Services  
Fiscal Year 2021**

---

**Office of Decision Support  
Health and Human Services Commission**

# Purpose

TEXAS  
Health and Human  
Services

The purpose of the *IDD-BHS Data Book* is to present, statewide data trends for community mental health and substance use services for policy and practice decision making.

This is not intended as a comprehensive guide, but as a quick reference for Health and Human Service Commission staff in response to frequently-asked, general questions from behavioral health stakeholders. In response, data presented here should not be taken out of this context.

For further information, contact the Office of Decision Support

Email: [IDD-BHSDecisionSupport@hhs.Texas.gov](mailto:IDD-BHSDecisionSupport@hhs.Texas.gov)

## ■ Section 1 ■ Adults (1 of 8)

Figure 1.1. Average Monthly Number of Adults Receiving Community Mental Health Services

Source: LBB Measure 4.2.1.OP.1. The numerator is the sum of the number of adults receiving community Mental Health services through a full level of care service package as part of Texas Resilience and Recovery each month of the reporting period \* state funded percentage. The state funded percentage is the expenditures financed through the HHSC appropriation authority for any adult's community Mental Health services / Total expenditures for any adult's community Mental Health services \*100. The denominator is the number of months in the period.

# COMMUNITY MENTAL HEALTH SERVICES

## ■ Section 1 ■ Adults (2 of 8)

Figure 1.2. Average Monthly Cost per Adult Receiving Community Mental Health Services

Source: LBB Measure 4.2.1.EF.1. The numerator is the total HHSC appropriation authority funds utilized to fund adult mental health community services/the number of months in the reporting period. The denominator is the average monthly number of adults receiving mental health community services that are served with HHSC appropriation authority funds.

## ■ Section 1 ■ Adults (3 of 8)

Figure 1.3. Percentage of Adults in Community Mental Health Services with Frequent Admissions in 180 Days to a State or Community Psychiatric Hospital

Source: HHSC, Mental Retardation and Behavioral Health Outpatient Warehouse (MBOW). PM Frequent Admissions. The Numerator is the number admitted to a System Agency Inpatient Bed three or more times in 180 days. The Denominator is the total number of clients authorized in a FLOC.

# COMMUNITY MENTAL HEALTH SERVICES

## ■ Section 1 ■ Adults (4 of 8)

Figure 1.4. Percentage of Adults in Community Mental Health Services with Reliable Improvement in at Least One Domain

Source: HHSC, Mental Retardation and Behavioral Health Outpatient Warehouse (MBOW), PM AMH Improvement. The numerator is the number with scores on the last UA meeting or exceeding the RCI in the direction of improvement in at least one of the identified ANSA domains/modules. The denominator is the number adults authorized in a FLOC whose first and last UAs, including ANSA domains/modules, are at least 90 days apart.

\* This is an annual measure.

# COMMUNITY MENTAL HEALTH SERVICES

## ■ Section 1 ■ Adults (5 of 8)

**Figure 1.5. Percentage of Adults in Community Mental Health Services with Reliable Improvement in Educational or Volunteering Strengths**

Source: HHSC, Mental Retardation and Behavioral Health Outpatient Warehouse (MBOW). PM AMH Educational and Volunteering Strengths Improvement 6 Month. The numerator is the number who meet or exceed the RCI benchmark in the direction of improvement for either the ANSA Educational or the Volunteering Strengths item, OR who have ANSA item scores of 0,1 for either the Educational or the Volunteering Strengths item at both first and last UAs. The denominator is the number of adults authorized in a FLOC with first and last UAs occurring at least 90 days apart.

## ■ Section 1 ■ Adults (8 of 8)

Figure 1.8. Equity-Adjusted Percentage of Adults with Valid Texas Law Enforcement Telecommunications System (TLETS) Bookings

Source: HHSC, Mental Retardation and Behavioral Health Outpatient Warehouse (MBOW), PM AMH Jail Diversion. The numerator is the number of valid TLETS bookings in the local service area with a CARE match multiplied by the LMHA's equity factor. The match criterion is 5 of the 6 elements must match. Elements include: first name; last name; date of birth; race; gender; and social security number. If the unmatched element is the social security number at least 7 of the 9 digits in the social security number must match. Additionally, matched consumers must have an associated Continuity of CARE Match. The denominator is the number of valid TLETS bookings in the local service area. A valid booking is one that includes all 6 of the elements.

# COMMUNITY MENTAL HEALTH SERVICES

## ■ Section 2 ■ Children (1 of 6)

Figure 2.1. Average Monthly Number of Children Receiving Community Mental Health Services

TEXAS  
Health and Human  
Services

Source: LBB Measure 4.2.2.OP.1. The numerator is the sum of the number of children receiving community Mental Health services through a full level of care service package as part of Texas Resilience and Recovery each month of the reporting period \* state funded percentage. The state funded percentage is the expenditures financed through the HHSC appropriation authority for any child's community Mental Health services / Total expenditures for any child's community Mental Health services \*100. The denominator is the number of months in the period.

# COMMUNITY MENTAL HEALTH SERVICES

## ■ Section 2 ■ Children (2 of 6)

Figure 2.2. Average Monthly Cost per Child Receiving Community Mental Health Services

Source: LBB Measure 4.2.2.EF.1. The numerator is the total HHSC appropriation authority funds utilized to fund child mental health community services/ the number of months in the reporting period. The denominator is the total monthly number of children receiving mental health services in the community that are served with HHSC appropriation authority funds.

Health and Human  
Services

**Figure 2.5. Percentage of Children in Community Mental Health Services with Reliable Improvement in Living or Family Situation**

Source: HHSC, Mental Retardation and Behavioral Health Outpatient Warehouse (MBOW), PM CMH Living and Family Situation Improvement 6 Month. The numerator is the number who meet or exceed the RCI benchmark in the direction of improvement for the CANS Family and Living Situation items OR who have CANS Family and Living Situation item scores of 0,1 at both first and last UAs. The denominator is the number of children and youth authorized in a FLOC with first and last UAs at least 75 days apart.

# COMMUNITY MENTAL HEALTH SERVICES

## ■ Section 2 ■ Children (6 of 6)

Figure 2.6. Percentage of Children in Community Mental Health Services with Reliable Improvement in the School

Source: HHSC, Mental Retardation and Behavioral Health Outpatient Warehouse (MBOW), PM CMH School Improvement 6 Month. The numerator is the number who meet or exceed the RCI benchmark in the direction of improvement for the CANS School module OR who have CANS item scores of 0,1 for all School module items at both first and last UAs. If the child or youth does not experience any difficulties in school (or has completed school) and therefore does not trigger the school module via a score >0 on the CANS School item, then the default mean score for the module is 0. The denominator is the number of children and youth authorized in a FLOC with first and last UAs at least 75 days apart.

# COMMUNITY MENTAL HEALTH SERVICES

## ■ Section 3 ■ Community Tenure

Figure 3.1. Percentage of Clients in Community Mental Health Services Avoiding Hospitalization

Source: Mental Retardation and Behavioral Health Outpatient Warehouse (MBOW), PM Community Tenure 2020. The numerator is the number who avoid hospitalization in a System Agency Inpatient Bed after authorization into a FLOC. The denominator is the number of persons authorized in a FLOC during the measurement period.
