

Consumer Directed Services (CDS) Service Provision Requirements Addendum Medically Dependent Children Program (MDCP)

Services Available Under the CDS Option

Respite Services (provided by either a nurse or an attendant): Respite is a service that provides temporary relief from caregiving to the primary caregiver of a waiver individual during times when the individual's primary caregiver would normally provide care.

Flexible Family Support Services (Adjunct Support Services): Flexible family support services are a diverse array of approved, individualized, disability-related services that support independent living, participation in community-based child care and participation in post-secondary education.

Employment Assistance: Helps the individual locate competitive employment in the community. Employment assistance includes:

- identifying an individual's employment preferences, job skills, and requirements for a work setting and work conditions;
locating prospective employers that offer employment compatible with an individual's identified preferences, skills and requirements; and
contacting a prospective employer on behalf of an individual and negotiating the individual's employment.

An individual cannot receive employment assistance at the same time as respite, flexible family support services or supported employment.

Supported Employment: Provided to sustain competitive employment for an individual who, because of a disability, requires intensive ongoing support to be self-employed, work from home or perform in a work setting at which individuals without disabilities are employed.

Adaptive Aids: Adaptive aids are needed to treat, rehabilitate, prevent or compensate for a condition that results in a disability or a loss of function. Adaptive aids help a member perform activities of daily living or control the environment in which they live.

Minor Home Modifications: Minor home modifications are physical changes to a member's residence that are needed to prevent institutionalization or to support the most integrated setting for a member to remain in the community.
