Example:

If a service provider performs billable activity for registered nursing from 12:00-12:30, performs activity that is not billable from 12:30-12:36, then performs additional billable activity from 12:36-12:48, two service events have occurred, one for 30 minutes (12:00-12:30), and another for 12 minutes (12:36-12:48).

A program provider must use the following formula for calculating the service time for professional therapies, registered nursing, licensed vocational nursing, specialized registered nursing, specialized licensed vocational nursing, supported employment and employment assistance:

Example:

No. of Service Providers	X	Length of Service Event	÷	No. of Persons	=	Service Time Per Individual
1	X	20 min.	÷	3	=	6.66 min.
1	X	30 min.	÷	2	=	15 min.
2	X	30 min.	÷	2	=	30 min.
2	X	30 min.	÷	1	=	60 min.
1	X	45 min.	÷	4	=	11.25 min.
1	X	60 min.	÷	1	=	60 min.
1	X	60 min.	÷	2	=	30 min.
1	X	60 min.	÷	3	=	20 min.
2	X	120 min.	÷	6	=	40 min.

(2) Transportation as a Supported Home Living Activity

A program provider must determine service time for transportation as a supported home living activity in accordance with [Section](#)

[4540\(g\)](#), Determining Unit of Service for Transportation as a Supported Home Living Activity.

Revision 10-0; Effective October 1, 2009

4450 Unit of Service

Revision 19-1; Effective November 15, 2019

(a) 15 Minutes

A unit of service for the registered nursing service component is 15 minutes.

(b) Fraction of a Unit of Service

A service claim for registered nursing may not include a fraction of a unit of service.

(c) Service Time

Service time is calculated in accordance with [Section 3610\(b\)](#), 15-Minute Unit of Service, including when multiple persons are being served.

4460 Accumulation of Service Times

Revision 12-2; Effective October 1, 2012

A program provider may accumulate service times, as described in [Section 3610\(b\)](#), 15-Minute Unit of Service, for registered nursing provided to one individual on a single calendar month. The service times of more than one registered nurse may be accumulated on the last day of the month. The service times of more than one registered nurse may be accumulated on the last day of the month.

Example:

A registered nurse provides registered nursing services to one individual three times during a single calendar month: July 1, 2012, 8:30-8:55 a.m. (25 minutes); July 6, 2012, 4:15-4:20 p.m. (5 minutes); and July 25, 2012, 8:00-8:05 p.m. (5 minutes).

Without accumulating service times, **two units of service for registered nursing are billable** for the service time of 25 minutes. The service times of five minutes are not billable because they are less than eight minutes each.

If all three service times are accumulated into one service time of 35 minutes (25 + 5 + 5), **two units of service for registered nursing are billable**.

If the first service time of 25 minutes is billed as two units of service on the day it was provided, and the second and third service times are accumulated into one service time of 10 minutes (5 + 5), which is billable as one unit of service on the last day of the month, July 31, 2012, **three units of service for registered nursing are billable** (2 + 1).

Example:

Nurse A provides 7 minutes of registered nursing to an individual. During the same month, Nurse B provides 7 minutes of licensed vocational nursing to the same individual. You could not accumulate the time and neither service would meet the minimum requirements for billing a unit of their respective nursing component.

4470 Written Documentation

Revision 11-1; Effective September 1, 2011

A program provider must have written documentation to support a service claim for registered nursing. The written documentation must meet the requirements set forth in [Section 3800](#), Written Documentation.

(b) Activities Not Listed in Section 4420

Any activity not described in [Section 4420](#), Billable Activity, is not billable for the specialized licensed vocational nursing service component.

(c) Examples of Non-billable Activities

The following are examples of activities that are not billable for the specialized licensed vocational nursing service component, regardless of whether they constitute the practice of licensed vocational nursing:

- (1) performing or supervising an activity that does not constitute the practice of licensed vocational nursing, including:
 - (A) performing an activity that constitutes the practice of professional nursing and must be performed by a registered nurse;
 - (B) transporting an individual;
 - (C) waiting to perform a billable activity; and
 - (D) waiting with an individual at a medical appointment;
- (2) making a medical appointment;
- (3) instructing on general topics unrelated to a specific individual, such as cardiopulmonary resuscitation or infection control;

4473.4 Qualified Service Provider

Revision 10-0; Effective October 1, 2009

In addition to meeting the requirements in [Section 3400](#), Qualified Service Provider, a qualified service provider of the specialized licensed vocational nursing service component must be a licensed vocational nurse.

4473.5 Unit of Service

Revision 11-1; Effective September 1, 2011

(a) 15 Minutes

A unit of service for the specialized licensed vocational nursing service component is 15 minutes.

(b) Fraction of a Unit of Service

A service claim for specialized licensed vocational nursing may not include a fraction of a unit of service.

(c) Service Time

Service time is calculated in accordance with [Section 3610\(b\)](#), 15-Minute Unit of Service, including when multiple persons are being served.

4473.6 Accumulation of Service Times

Revision 12-2; Effective October 1, 2012

A program provider may accumulate service times, as described in [Section 3610\(b\)](#), 15-Minute Unit of Service, for specialized licensed vocational nursing provided to

one individual during a single calendar month. The service times of more than one specialized licensed vocational nurse may be accumulated on the last day of the month.

Example:

A nurse provides specialized licensed vocational nursing services to one individual three times during a single calendar month: July 1, 2012, 8:30-8:55 a.m. (25 minutes); July 6, 2012, 4:15-4:20 p.m. (5 minutes); and July 28, 2012, 8:00-8:05 p.m. (5 minutes).

Without accumulating service times, **two units of service for specialized licensed vocational nursing are billable** for the service time of 25 minutes. The service times of five minutes are not billable because they are less than eight minutes each.

If all three service times are accumulated into one service time of 35 minutes (25 + 5 + 5), **two units of service for specialized licensed vocational nursing are billable.**

If the first service time of 25 minutes is billed as two units of service on the day it was provided, and the second and third service times are accumulated into one service time of 10 minutes (5 + 5), which is billable as one unit of service on the last day of the month, July 31, 2012, **three units of service for specialized licensed vocational nursing are billable (2 + 1).**

Example:

Nurse A provides 20 minutes of specialized licensed vocational nursing to an individual. On the same calendar day, Nurse B provides 20 minutes of specialized registered nursing to the same individual. You could not accumulate the time and neither service would meet the minimum requirements for billing a unit of their respective nursing component.

4473.7 Written Documentation

Revision 11-1; Effective September 1, 2011

A program provider must have written documentation to support a service claim for specialized licensed vocational nursing. The written documentation must meet the requirements set forth in [Section 3800](#), Written Documentation.

(d) Restrictions Regarding Submission of Claims for Transportation as a Supported Home Living Activity

A program provider may not submit a service claim for:

- (1) transportation as a supported home living activity provided to an individual whose IPC does not have a residential location of own/family home; or
- (2) transporting an individual from one habilitation, employment assistance or supported employment site to another.

(e) Qualified Service Provider

In addition to meeting the requirements in [Section 3400](#), Qualified Service Provider, a qualified service provider of transportation as a supported home living activity:

- (1) may not have the same residence as the individual; and

(2) Fraction of a Unit of Service

A service claim for transportation as a supported home living activity may not include a fraction of a unit of service.

(3) Service Time

(g) Determining Unit of Service for Transportation as a Supported Home Living Activity

The unit of service for a service claim for transportation as a supported home living activity is determined by:

- (1) calculating transportation time, number of passengers and number of service providers using Method A or Method B, as described in subsection (h) of this section;
- (2) determining service time using the formula set forth in subsection (i) of this section; and

- (3) converting service time to units of service for a service claim using [Appendix III](#), Conversion Table, as described in subsection (i)(3) of this section.

(h) Calculating Transportation Time, Passengers, Service Providers

(1) How to Calculate

Transportation time, number of passengers and number of service providers must be calculated using Method A or Method B as described below.

(2) Use of Only One Method on a Single Calendar Day

A program provider may not use Method A and Method B on the same calendar day.

(3) Definitions Applicable for Method A and Method B

The following definitions apply to Method A and Method B:

- (A) A "passenger" is a person who receives a service funded by HHSC, including a person enrolled in the ICF/IID program or a waiver program other than HCS.
- (B) A "trip" is a discrete period of continuous time during which one or more individuals are being transported in the same vehicle.

(4) Method A

Using Method A, the transportation time, number of passengers and number of service providers are the same for all individuals transported in a single trip:

- (A) Transportation time begins when the first individual gets on the vehicle and ends when the last individual gets off the vehicle.
- (B) The number of passengers is the total number of passengers transported during the trip.
- (C) The number of service providers is the total number of service providers who provide services during the trip, including the driver of the vehicle.

(5) Method B

Using Method B, the transportation time, number of passengers and number of service providers are determined separately for each individual transported in a single trip in segments that begin and end when the number of passengers or the number of service providers changes during the trip.

(i) Determining Service Time

(1) How to Determine

Service time must be determined using the transportation time, number of passengers and number of service providers for an entire trip (if using Method A) or for each segment of a trip (if using Method B).

(2) Formula

The formula for calculating the service time is:

Service Time = [Number of Service Providers times Transportation Time] ÷ Number of Passengers

(3) Converting Service Time to Units of Service

Service time must be converted to units of service for a service claim as set forth on [Appendix III](#), Conversion Table.

(4) Examples of Determining Unit of Service for Transportation as a Supported Home Living Activity

See [Appendix V](#), Determining Units of Service for the Supported Home Living Activity of Transporting an Individual, for examples of determining the units of service for a service claim for transportation as a supported home living activity.

(5) Accumulation of Service Times

(A) For Single Calendar Day

A program provider may accumulate service times, as described in [Section 3610\(b\)](#), 15-Minute Unit of Service, for transporting one individual on a single calendar day. The service times of more than one service provider may be accumulated.

(B) Example of Accumulating Service Time

See [Appendix V](#), Determining Units of Service for the Supported Home Living Activity of Transporting an Individual, for an example of accumulating service time for transportation as a supported home living activity.

(j) Written Documentation

A program provider must have written documentation to support a service claim for the supported home living activity of transporting an individual. The written documentation must include:

- (1) the name of the individual who was being transported;
- (2) the day, month and year the transportation was provided;
- (3) the place of departure and destination for the individual being transported;
- (4) a notation of whether the program provider is using Method A or Method B to calculate transportation time, as required by subsection(g)(1) of this section;
- (5) a begin and end time for each transportation time, as described in subsection (h) of this section;
- (6) the total minutes of each transportation time;
- (7) for each "trip" if using Method A (subsection (h)(3) and (4) of this section) or, for each "segment" if using Method B (subsection (h)(5) of this section).
- (8) the number of passengers;
- (9) the number of service providers;
- (10) the resulting service time; and
- (11) the signature of the service provider transporting the individual;
- (12) the unit of service for a service claim resulting from each service time; and
- (13) any service times accumulated to make a unit of service for a service claim.

Example Form

[Form 2124](#), Supported Home Living (SHL)/Community Support (CS) Transportation Log, may be used to document transportation as a supported home living activity. This log is only an example, however. A program provider may document such activity in any way that meets requirements.

Appendices

Appendix I Billing and Payment Review Protocol

Revision 19-1; Effective November 15, 2019

(a) Introduction

This protocol is used to conduct a billing and payment review of a Home and Community-based Services (HCS) Program provider. A billing and payment

review is a review conducted by HHSC staff of written documentation maintained by a program provider and submitted to HHSC upon request. The purpose of a review is to determine whether the program provider is in compliance with the *HCS Program Billing Guidelines*. HHSC recoups from a program provider for a service claim that HHSC cannot verify is supported by written documentation in accordance with the *Billing Guidelines* and may require corrective action by the program provider.

(b) Types of Reviews

(1) Routine reviews

A routine review is a billing and payment review conducted by HHSC for an HCS program provider at least once every four years per program provider. During a routine review, HHSC reviews documentation required by the *Billing Guidelines* for:

- (A) services provided during a three-month period of time; and
- (B) the following number of individuals:
 - (i) for an HCS provider for which a routine review resulted in a recoupment amount that is 10% or less of the total amount of the claims reviewed, five individuals plus 5% of the total number of individuals provided services during the review period;
 - (ii) for an HCS provider for which a routine review has not been conducted:
 - if the program provider provided HCS Program services to 10 or fewer individuals during the review period, the number of individuals provided services during the review period, but in no case more than five individuals; or
 - if the program provider provided HCS Program services to more than 10 individuals during the review period, five individuals plus 10% of the total number of individuals provided services during the review period; or
 - (iii) for an HCS provider for which a routine review resulted in a recoupment amount that is more than 10% of the total amount of the claims reviewed:
 - if the program provider provided HCS Program services to 10 or fewer individuals during the review period, all of the individuals; or
 - if the program provider provided HCS Program services to more than 10 individuals during the review period, 10 individuals plus 10 % of the total number of individuals provided services during the review period.

(2) Special reviews

A special review is a billing and payment review conducted by HHSC for one or more HCS provider agreements as a result of a billing anomaly identified by HHSC staff or as a result of information related to billing issues received from a source other than HHSC staff. During a special review, HHSC reviews documentation for:

- (A) any length of time as determined by HHSC;
- (B) any number of individuals as determined by HHSC; and
- (C) any type of service as determined by HHSC.

(c) Methods of Review

(1) On-site review

An on-site review is a billing and payment review conducted at a program provider's place of business.

(2) Desk review

A desk review is a billing and payment review conducted at a HHSC office.

(d) Routine Review Process

(1) On-site review

- (A) HHSC notifies a program provider of an on-site review by telephone at least 14 days before and by facsimile at least one day before the date the on-site review is scheduled to begin. The telephonic and written notices include a statement that all written documentation required by the *Billing Guidelines* related to a specified program provider agreement must be made available to the HHSC review team at a specified time and place.
- (B) At least two business days before the on-site review, HHSC faxes to the program provider the list of individuals for whom records will be reviewed.
- (C) Upon arrival at the program provider's place of business, the HHSC review team informs the program provider of the sample of individuals and time period for which written documentation will be reviewed. During the review, the review team may expand the time period under review and may request documentation related to individuals who were not initially included in the review.
- (D) The review team reviews the documentation submitted by the program provider. The review team does not accept any documentation created by the program provider during the review.

- (E) When the review team completes the initial review of the documentation submitted by the program provider, the review team gives the program provider a list of all unverified claims and explains why the claims are unverified. The review team allows the program provider to provide additional documentation and refute the unverified claims.
- (F) The review team conducts an exit conference with the program provider. During the exit conference the review team summarizes the findings of the review, provides technical assistance to improve documentation practices, and answers questions from the program provider. The review team also gives an estimate of the amount of claims to be recouped. HHSC does not allow the program provider to submit additional documentation or refute any unverified claims after the exit conference.
- (G) HHSC sends a letter by certified mail to the program provider. Generally, HHSC sends this letter within 30 days after the exit conference. If HHSC did not identify any unverified claims, the letter notifies the program provider of such. If HHSC identified unverified claims, the letter includes a detailed report of the unverified claims, the reason the claims were not verified, the amount to be recouped by HHSC, any required corrective action and notice of the right to request an administrative hearing. Examples of corrective actions that HHSC may require a program provider to take are submitting a plan to improve the program provider's billing practices and reviewing documentation beyond the scope of the billing and payment review.
- (H) If HHSC requires a program provider to take a corrective action and the program provider does not request an administrative hearing for the recoupment, HHSC includes in the letter described in subparagraph (G) of this paragraph a date by which the program provider must take the corrective action. If the program provider does not take the required corrective action by the date required by HHSC, HHSC may:
 - (i) impose a vendor hold on payments due to the program provider under the HCS provider agreement until the program provider takes the corrective action; and
 - (ii) terminate the provider agreement.

(2) Desk review

- (A) HHSC notifies a program provider of a desk review by telephone and certified mail. The written notice specifies the individuals and time period to be reviewed, as well as the documentation the program provider must submit to HHSC for the desk review. The notice states that the documentation must be received by HHSC within 14 calendar days after the program provider receives the notice. The

date the notice is received by the program provider is the date of the signature appearing on the "green card" – Postal Service form 1138. If the signature is not dated, the received date will be the date the "green card" is postmarked.

- (B) HHSC will accept one of the following as proof of its receipt of the documentation submitted by the program provider:
 - (i) the dated signature of a HHSC employee on a "green card" – Postal Service form 1138;
 - (ii) a dated signature of an agent of HHSC evidencing receipt of the documentation; or
 - (iii) a dated, traceable receipt from a commercial courier service or the U.S. Postal Service.
- (C) HHSC does not accept documentation submitted via facsimile or documentation received by HHSC after the 14-day time period described in the notice.
- (D) The review team reviews the documentation submitted by the program provider. During the review, the review team may expand the time period under review and may request documentation related to individuals who were not initially included in the review.
- (E) HHSC sends a letter by certified mail to the program provider. If HHSC did not identify any unverified claims, the letter notifies the program provider of such. If HHSC identified unverified claims, the letter includes a detailed report of the unverified claims, the reason the claims were not verified and the amount to be recouped by HHSC. The letter also gives the program provider an opportunity to submit additional documentation for certain unverified claims and a written argument to refute any unverified claim. Further, the letter states that the additional documentation and written argument must be received by HHSC within 14 calendar days after the program provider receives the letter. The date the letter is received by the program provider is the date of the signature appearing on the "green card" – Postal Service form 1138. If the signature is not dated, the received date will be the date the "green card" is postmarked.
- (F) Proof of receipt by HHSC of any additional documentation and written argument submitted by the program provider is the same as the proof of receipt of documentation described in subparagraph (B) of this paragraph.
- (G) HHSC does not accept additional documentation or a written argument submitted via facsimile or received by HHSC after the 14-day time period described in the letter.

(H) The review team reviews any additional documentation and argument submitted by the program provider. HHSC sends a letter by certified mail to the program provider that either upholds the unverified claims listed in the previous letter or revises the unverified claims and adjusts the amount to be recouped by HHSC. The letter also gives the program provider notice of the right to request an administrative hearing.

(e) Special Review Process

A special review is generally conducted in accordance with the process for a routine review except:

- (1) HHSC may not always give a program provider prior notice of an on-site review;
- (2) during an on-site review, HHSC may interview an individual or program provider staff and may visit an individual's residence or any other location where an individual receives HCS Program services; and
- (3) in addition to documentation required by the *Billing Guidelines*, HHSC may request the program provider to submit documentation required by state or federal law, rule or regulation for HHSC review.

(f) Payment of Unverified Claims

Payment to HHSC by a program provider of an unverified claim is accomplished by HHSC recouping the program provider's HCS Medicaid payments for the amount of the unverified claim. Such recoupment is done electronically through the automated billing system. A program provider may determine the unverified claim upon which recoupment was based by referring to the applicable electronic billing report. If unverified claims cannot be recouped electronically through the automated billing system, HHSC will create an accounts receivable number for repayment to be processed.

Appendix II Degree of Consanguinity or Affinity

02-2012

For the purposes of these billing guidelines, a person is considered to be a relative if the person is related within the fourth degree of consanguinity or within the second degree of affinity.

Relationships of Consanguinity

Two people are related to each other by consanguinity if one is a descendant of the other or if they share a common ancestor. An adopted child is considered to be a child of the adoptive parent for this purpose.

Example: Person A is related by the third degree of consanguinity to person B if person B is person A's uncle (brother of person A's father) because they share a common ancestor. However, person A is not related by consanguinity to person C if person C is the uncle's spouse, because person A and person C share no common ancestor.

Relationships of Affinity

Two people are related by affinity if they are married to each other, or if one person is related by consanguinity to the other person's spouse.

Example: Person A is related within the second degree of affinity to the brother of person A's spouse because the brother and the spouse are related by consanguinity.

The ending of a marriage between two people by divorce or the death of a spouse ends relationships by affinity created by that marriage, unless a child of that marriage is living, in which case the marriage is considered to continue as long as a child of that marriage lives.

The chart below lists relationships within the fourth degree of consanguinity and within the second degree of affinity.

Relationship of Consanguinity

	1st Degree	2nd Degree	3rd Degree*	4th Degree*

*An aunt, uncle, great aunt or great uncle is related to a person by consanguinity only if he or she is the sibling of the person's parent or grandparent.

Relationship of Affinity

	1st Degree	2nd Degree
Person	spouse, mother-in-law, father-in-law, son-in-law, daughter-in-law, stepson, stepdaughter, stepmother or stepfather	brother-in-law, sister-in-law, spouse's grandparent, spouse's grandchild, grandchild's spouse or spouse of grandparent

Appendix V Determining Units of Service for the Supported Home Living Activity of Transporting an Individual

Revision 10-0; Effective October 1, 2009

Determining Units of Service for a Single Trip (Examples 1 and 2)

Example 1

Example 1: Facts

- A program provider transports Individuals A, B and C, who are individuals receiving HCS supported home living, and Passenger D, a person enrolled in the program provider’s ICF/IID program, in the same vehicle, using one service provider.
- Individual A departs at 8:15 a.m., Individual B departs at 8:25 a.m., and Individual C and Passenger D depart at 9:00 a.m.
- Individuals A and B arrive at 9:15 a.m. Individual C and Passenger D arrive at 10:00 a.m.

Individual	Departure Time	Arrival Time
A	8:15	9:15
B	8:25	9:15
C	9:00	10:00
D	9:00	10:00

Example 1: Method A

Transportation time for Individuals A, B, and C is 105 minutes, with **four passengers** (A, B, C and D) and **one service provider**: The first individual (A) departed at 8:15 a.m. and the last individual (C) arrived at 10:00 a.m. The time between 8:15 and 10:00 is 105 minutes.

Passenger D does not need units of service determined because he is not enrolled in the HCS program. However, he is counted when determining the number of passengers.

The service time for individuals A, B, and C is 26.25 minutes:

Service Time = [# of Service Providers x Transportation Time] ÷ # of Passengers

- Service Time = $(1 \times 105) \div 4$
Service Time = $105 \div 4$
Service Time = 26.25 minutes<

Using [Appendix III](#), Conversion Table, the service time of 26.25 minutes is converted to 2 units of service.

Using Method A, Individuals A, B and C all have 2 units of service.

Example 1: Method B

Individual A's transportation time has three segments:

- transportation time of 10 minutes (8:15-8:25) with one passenger (A only) and one service provider;
- transportation time of 35 minutes (8:25-9:00) with two passengers (A and B) and one service provider; and
- transportation time of 15 minutes (9:00-9:15) with four passengers (A, B, C and D) and one service provider.

Individual B's transportation time has two segments:

- transportation time of 35 minutes (8:25-9:00) with two passengers (A and B) and one service provider; and
- transportation time of 15 minutes (9:00-9:15) with four passengers (A, B, C and D) and one service provider.

Individual C's transportation time has two segments:

- transportation time of 15 minutes (9:00-9:15) with four passengers (A, B, C and D) and one service provider; and
- transportation time of 45 minutes (9:15-10:00) with two passengers (C and D) and one service provider.

Passenger D does not need units of service determined because he is not enrolled in the HCS program. However, he is counted when determining the number of passengers.

Service Time = [# of Service Providers x Transportation Time] ÷ # of Passengers

Individual A's service time for each segment:

- Service Time = $(1 \times 10) \div 1$
Service Time = $10 \div 1$
Service Time = 10 minutes
- Service Time = $(1 \times 35) \div 2$
Service Time = $35 \div 2$
Service Time = 17.5 minutes
- Service Time = $(1 \times 15) \div 4$
Service Time = $15 \div 4$
Service Time = 3.75 minutes

Individual B's service time for each segment:

- Service Time = $(1 \times 35) \div 2$
Service Time = $35 \div 2$
Service Time = 17.5 minutes
- Service Time = $(1 \times 15) \div 4$
Service Time = $15 \div 4$
Service Time = 3.75 minutes

Individual C's service time for each segment:

- Service Time = $(1 \times 15) \div 4$
Service Time = $15 \div 4$
Service Time = 3.75 minutes

- Service Time = $(1 \times 45) \div 2$
 Service Time = $45 \div 2$
 Service Time = 22.5 minutes

Total service time for each individual is determined by adding the service time of each segment:

- **Individual A:** 10 minutes + 17.5 minutes + 3.75 minutes = 31.25 minutes
- **Individual B:** 17.5 minutes + 3.75 minutes = 21.25 minutes
- **Individual C:** 3.75 minutes + 22.5 minutes = 26.25 minutes

Using [Appendix III](#), Conversion Table, service time is converted to units of service:

- **Individual A:** 31.25 minutes = 2 units of service
- **Individual B:** 21.25 minutes = 1 unit of service
- **Individual C:** 26.25 minutes = 2 units of service

Using Method B, Individual B has 1 unit of service, and Individuals A and C each have 2 units of service.

Example 2

Example 2: Facts

- A program provider transports two individuals, Individuals E and F, in the same vehicle using two service providers.
- Individual E departs with a service provider at 2:00 p.m. Individual F departs with another service provider at 2:10 p.m.
- Individuals E and F arrive at 2:40 p.m.

Individual	Departure Time	Arrival Time
E	2:00	2:40
F	2:10	2:40

Example 2: Method A

The transportation time for Individuals E and F is 40 minutes, with two passengers (E and F) and two service providers. The first individual (E) departed at 2:00 and the last individuals (E and F) arrived at 2:40. The time between 2:00 and 2:40 is 40 minutes.

The service time for individuals E and F is 40 minutes:

Service Time = [# of Service Providers x Transportation Time] ÷ # of Passengers

- Service Time = $(2 \times 40) \div 2$
Service Time = $80 \div 2$
Service Time = 40 minutes

Using [Appendix III](#), Conversion Table, the service time of 40 minutes is converted to 3 units of service.

Using Method A, Individuals E and F each have 3 units of service of supported home living for the transportation provided.

Example 2: Method B

Individual E's transportation time has two segments:

- transportation time of 10 minutes (2:00-2:10) with one passengers (E only) and one service provider; and
- transportation time is 30 minutes (2:10-2:40) with two passengers (E and F) and two service providers.

Individual F's transportation time has one segment:

- Transportation time is 30 minutes (2:10-2:40) with two passengers (E and F) and two service providers.

Service Time = [# of Service Providers x Transportation Time] ÷ # of Passengers

Individual E's service time for each segment:

- Service Time = $(1 \times 10) \div 1$
Service Time = $10 \div 1$
Service time = 10 minutes
- Service Time = $(2 \times 30) \div 2$
Service Time = $60 \div 2$
Service Time = 30 minutes

Individual F's service time:

- Service Time = $(2 \times 30) \div 2$
Service Time = $60 \div 2$
Service Time = 30 minutes

Total service time for Individual E is determined by adding the service time of each segment:

- Individual E: 10 minutes + 30 minutes = 40 minutes

Using [Appendix III](#), Conversion Table, service time is converted to units of service:

- **Individual E:** 40 minutes = 3 units of service
- **Individual F:** 30 minutes = 2 units of service

Using Method B, Individual E has 3 units of service and Individual F has 2 units of service.

Determining Units of Service for Multiple Trips (Example 3)

Example 3

Example 3: Facts

- A program provider transports Individuals A, B and C and Passenger D, as described in Example 1 (this will be referred to as the “outgoing trip”).
- The program provider transports Individuals A, B and C and Passenger D back to their original locations later the same day (the “return trip”).
- Service times for the return trip for Individuals A, B and C are the same as the service times for the outgoing trip.

Example 3: Method A - Service Times (see Example 1: Method A)

Individual	Outgoing Trip Service Time	Return Trip Service Time
A	26.25	26.25
B	26.25	26.25
C	26.25	26.25

Example 3: Method A – Without Accumulation of Service Times

Service times for the outgoing and return trips for Individuals A, B and C are **not** accumulated; units of service from the outgoing trip (see Example 1: Method A) are combined with the units of service of the return trip: 2 units of service + 2 units of service = 4 units of service.

Using Method A without accumulating service times for the outgoing and return trips, Individuals A, B and C each have 4 units of service.

Example 3: Method A – With Accumulation of Service Times

Service times of the outgoing and the return trips for Individuals A, B and C are accumulated for a total service time of 52.5 minutes: 26.25 minutes + 26.25 minutes = 52.5 minutes.

Using [Appendix III](#), Conversion Table, the total service time of 52.5 minutes is converted to 3 units of service.

Using Method A and accumulating service times for the outgoing and return trips, Individuals A, B and C each have 3 units of service.

Example 3: Method B - Service Times (see Example 1: Method B)

Individual	Outgoing Trip Service Time	Return Trip Service Time
A	31.25	31.25
B	21.25	21.25
C	26.25	26.25

Example 3: Method B – Without Accumulation of Service Times

Service times for the two trips are not accumulated; units of service from the outgoing trip (see Example 1: Method B) are combined with the units of service of the return trip:

- **Individual A:** 2 units of service + 2 units of service = 4 units of service
- **Individual B:** 1 unit of service + 1 unit of service = 2 units of service
- **Individual C:** 2 units of service + 2 units of service = 4 units of service

Using Method B without accumulating service times for the outgoing and return trips, Individuals A and C each have 4 units of service; Individual B has 2 units of service.

Example 3: Method B – With Accumulation of Service Times

Service times of the outgoing and the return trips for Individuals A, B and C are accumulated for a total service time:

- **Individual A:** 31.25 minutes + 31.25 minutes = 1 hour, 2.5 minutes
- **Individual B:** 21.25 minutes + 21.25 minutes = 42.5 minutes
- **Individual C:** 26.25 minutes + 26.25 minutes = 52.5 minutes

Using [Appendix III](#), Conversion Table, the total service time is converted to units of service:

- **Individual A:** 1 hour, 2.5 minutes = 4 units of service
- **Individual B:** 42.5 minutes = 3 units of service
- **Individual C:** 52.5 minutes = 3 units of service

Using Method B and accumulating service times for the outgoing and return trips, Individual A has 4 units of service, and Individuals B and C each have 3 units of service.
