Applicability of Chapter 15.3

This chapter applies to Managed Care Organizations (MCOs) participating in the STAR, STAR+PLUS, and STAR Health Programs. References to “Medicaid” or the “Medicaid Managed Care Program(s)” apply to the STAR, STAR+PLUS (including the Medicare-Medicaid Dual Demonstration), STAR Health, and STAR Kids Programs. The term “MCO” may include health maintenance organizations (HMOs), exclusive provider organizations (EPOs), insurers, Medicare-Medicaid Plans (MMPs), and any other entities licensed or approved by the Texas Department of Insurance. The requirements in this chapter apply to all programs, except where noted.

Introduction

All providers (including local mental health authorities and non-local mental health authorities) delivering mental health rehabilitation and mental health targeted case management must undergo the training outlined in this chapter before delivering services, with the exception of training for the wraparound planning process. Providers may begin delivering services before completing wraparound training if they demonstrate evidence of registering for the next available session. MCOs must ensure provider compliance with this training on at least an annual basis. Provider attestation is an acceptable method to demonstrate compliance. Some Substance Abuse and Mental Health Services Administration (SAMHSA) trainings required in this chapter includes an individual or group format training component, which requires provider staff to become versed in the SAMHSA modules and to administer training to other staff. While providers may deliver services to children, adults, or both, managed care organizations must ensure providers have attested to completing all training applicable to the population being served. In the instance that multiple training formats are available, providers may choose one format (i.e. DVD or in-person training) and are not required to complete training in multiple formats.

Any provider personnel that deliver mental health rehabilitative services or mental health targeted case management services must complete the training requirements outlined in this chapter. Additionally, any personnel supervising clinicians delivering these services must complete these training requirements. MCOs must ensure all providers that have executed contracts with MCOs before August 1, 2015 complete these training requirements by August 1, 2016. Any providers that execute contracts with MCOs on or after August 1, 2015 must complete training requirements outlined in UCMC Chapter

15.3 before delivering any mental health rehabilitation and mental health targeted case management services.

Assessment Resources

Providers delivering services to children must be trained in using the Child and Adolescent Needs and Strengths (CANS) assessment, and providers delivering services to adults must be trained in the Adult Needs and Strengths (ANSA) assessment.

All clinical and supervisory staff must receive training and certification on the CANS and ANSA from www.CANSTRaining.com. \$10 coupon codes to take the training may be purchased by contacting John Lyons, PhD (jlyons@chapinhall.org) or Lauren Schmidt (lschmidt@chapinhall.org).

Adult Mental Health Training

All providers delivering services to adults must complete the following SAMHSA training programs:

1. Illness Management and Recovery (IMR)
