Objective

All MCOs contracting with the State of Texas to arrange for or to provide healthcare to enrollees in the STAR Program must submit STAR MCO FSRs for each Service Area (SA) in accordance with the Contract between HHSC and MCO and in accordance with the instructions below.

General

MCOs must complete all STAR MCO FSRs using the locked Microsoft Excel template provided by HHSC. Data integrity is critical to the automated compilation of the data. Do not alter the file name, sheet names, existing cell locations, or formatting of the data in the file and sheets. Do not add or delete any columns or rows. **Any deviations from the locked template will render the FSR unreadable by the software application and therefore unacceptable to HHSC.**

All shaded data fields in the FSR represent fields where data input is required. In order to maintain consistency, please ensure that the data input is in black. All data fields not shaded represent referenced data or calculations. All line numbers in these instructions refer to the line numbers in column A on each worksheet.

Cells can be linked within the template, but there can be no outside links to the MCO Accounting Systems or other sources.

The following note is included on all FSR pages **“Note: Except where stated otherwise, reporting is on an incurred basis (that is, reported in the period corresponding to dates of service, rather than to date paid). All prior quarters’ data must be updated to reflect the most recent revised IBNR estimates.”** The MCO must update member months’ data in accordance with information provided by the enrollment broker.

Before completing the STAR FSR, complete the Admin FSR.
