

Primary Health Care Services Program Report Fiscal Year 2019

**As Required by Texas Health and
Safety Code, Section 31.015**

TEXAS
Health and Human
Services

1. Introduction

The Primary Health Care Services (PHC) Program report for fiscal year 2019 is submitted in accordance with Texas Health and Safety Code, §31.015(d).

Section 31.015(d) requires the Health and Human Services Commission (HHSC) to submit an annual report to the Governor and Texas Legislature. HHSC must make this report public, and the report must include:

1. the number of individuals receiving care in the Primary Health Care Services program;
2. the total cost of the program, including a delineation of the total administrative costs and the total cost for each service authorized under Health and Safety Code, Section 31.003(e);
3. the average cost per recipient of services;
4. the number of individuals who received services in each public health region; and
5. any other information required by the executive commissioner.

PHC provides adults and children with an income at or below 200 percent of the Federal Poverty Level (FPL), who are unable to access comparable care through insurance or other health care programs, with the following: diagnosis and treatment; preventative and emergency medical services; family planning services; and primary health education.

2. Required Data

In fiscal year 2019, the total cost for administration of the PHC program was \$11,164,974, of which \$10,962,377 was expended for the provision of medical services. PHC served 210,344 clients at an average cost of \$53 per client.

Table 1 outlines the number of individuals who received services in each public health service region.

Table 2 outlines the total cost of all services and categorizes expenditures by the type of medical service provided.
