## Executive Summary

The *Texas Women's Health Programs Report Fiscal Year 2019* is submitted in accordance with the 2020-21 General Appropriations Act, House Bill (H.B.) 1, 86th Legislature, Regular Session, 2019 (Article II, Health and Human Services Commission [HHSC], Rider 74). The report provides a summary of program enrollment, service utilization, and cost savings for the Healthy Texas Women (HTW) program, the Family Planning Program (FPP), and the Breast and Cervical Cancer Services (BCCS) program.

HTW and FPP offer women's health and family planning services at no, or low, cost to eligible individuals in Texas. Specifically, HTW and FPP seek to increase access to women's health and family planning services to avert unintended pregnancies, positively affect the outcome of future pregnancies, and positively impact the health and well-being of women and their families. BCCS provides no-cost breast and cervical cancer screenings, diagnostics, and patient navigation to eligible Texas women.

A summary of program results for fiscal year 2019 includes:

- HTW client enrollment totals;
- number of clients served by program;
- provider categories and enrollment totals;
- most commonly utilized procedure codes by program;
- cost savings;
- outreach efforts;
- HTW and FPP long-acting reversible contraceptive (LARC) utilization;
- expenditures by method of finance and program; and
- Medicaid for Pregnant Women to HTW auto-enrollment numbers.

Key findings for fiscal year 2019 include:

- a 16.2 percent increase from fiscal year 2018 in HTW client enrollment;
- an 11 percent increase from fiscal year 2018 in clients served in HTW;
- a 6 percent decrease from fiscal year 2018 in clients served in FPP;
- a 4 percent decrease from fiscal year 2018 in clients served in BCCS;
- \$13 million net savings to the state due to births averted by HTW; and
- \$6.6 million net savings to the state due to births averted by FPP.

HHSC is committed to serving Texas women through HTW, FPP, and BCCS. These programs offer a variety of family planning, cancer screening, and women's health services to women and men throughout the state. HHSC continues to seek feedback to improve or enhance program operations and outcomes and better ensure access to care for eligible Texans.

# 1. Introduction

Rider 74 requires HHSC to submit a report on the savings and performance of the Texas women's health programs annually, by May 1, to the Legislative Budget Board and the Governor's office. The report provides a summary of Healthy Texas Women (HTW), the Family Planning Program (FPP), and the Breast and Cervical Cancer Services (BCCS) program.

Per the rider, HHSC must submit a report that includes the following information:

- (a) Enrollment levels of targeted low-income women and service utilization by geographic region, including total number of unduplicated patients served, delivery system, and age from the prior two fiscal years;
- (b) Savings or expenditures in the Medicaid program that are attributable to enrollment levels as reported in section (a);
- (c) Descriptions of all outreach activities undertaken for the reporting period;
- (d) The total number of providers, by geographic region, enrolled in HTW and FPP networks, and providers from legacy Women's Health Programs (including Texas Women's Health Program), not to include duplications of providers or ancillary providers;
- (e) The average and median numbers of program clients, and the total number of unduplicated patients served, detailed by provider;
- (f) The count of women in HTW and FPP receiving a LARC;
- (g) The service utilization by procedure code. The annual report submitted as required above must satisfy federal reporting requirements that mandate the most specific, accurate, and complete coding and reporting for the highest level of specificity;
- (h) Total expenditures, by method of finance and program; and
- (i) Number of unduplicated women auto-enrolled into HTW from Medicaid for Pregnant Women.

It is the intent of the Legislature that if the findings of the report show a reduction in women enrolled or of service utilization of greater than 10 percent relative to the prior two fiscal years, the agency shall, within existing resources, undertake corrective measures to expand capacity and/or client outreach and enrollment efforts.

For HTW, this report includes information on fiscal year 2019 medical and pharmacy services combined, where applicable, including updates to fiscal year 2018 data. FPP does not have separate pharmacy benefits, so data for that program represent medical services only. BCCS does not have separate pharmacy benefits either; however, patient navigation is a specific service that is reimbursed by the program. BCCS data represent medical services and patient navigation.

## 2. Background

In 2016, HTW was created by consolidating certain services from the former Expanded Primary Health Care Program (EPHC) into the Texas Women's Health Program (TWHP), and FPP was redesigned, both because of the Texas Sunset Advisory Commission's (Sunset) 2014 recommendation and the 84th Legislature's direction to HHSC to consolidate the state's women's health programs to improve efficiency and effectiveness for clients and providers. The 84th Legislature appropriated an additional \$50 million to provide women's health services via the new programs.

With the guidance of the legislatively created Women's Health Advisory Committee (WHAC), a non-partisan committee comprised of women's health providers and stakeholders, HHSC developed comprehensive women's health service packages in both programs that allow for continuity of care for women throughout their reproductive life course, including healthy birth outcomes for women and children.<sup>1</sup>

The HTW service package includes core family planning services like the services offered under TWHP, but also includes related preventive health services beneficial to reproductive health and closely linked to family planning services. Additional benefits covered in HTW include initial treatment for hypertension, diabetes, high cholesterol, and postpartum depression.

HTW aims to increase access for women by expanding eligibility to minors with parental consent (15-44 is the overall eligible age range), sterilized women, and women up to 200 percent of the federal poverty level (FPL). With the launch of HTW, existing TWHP clients were automatically enrolled into the new HTW program as to avoid a gap in coverage.

---

<sup>1</sup> Pursuant to Government Code, Section 531.02221, as added by Senate Bill 200, 84th Legislature, Regular Session, 2015, the WHAC was abolished on September 1, 2017.

HHSC also automatically enrolls eligible women receiving Medicaid for Pregnant Women services into HTW upon conclusion of their Medicaid coverage. Increased coordination among women's health services, including Medicaid, has promoted continuity of care. Automatic enrollment reduces the burden of re-enrollment for services and facilitates women's access to postpartum care, with the goal of better health outcomes for both the mother and child.

FPP provides family planning services to women and men. Covered services are like HTW services, with the addition of limited prenatal benefits. The redesigned FPP increased access for individuals by expanding the age eligibility up to age 64 and allowing sterilized individuals to receive services. Other eligibility criteria for the redesigned FPP include being a Texas resident and having a household income at or below 250 percent FPL. Those criteria remained unchanged as part of the program redesign.

Rider 74 directed HHSC to include BCCS in this report. Since 1992, BCCS has provided high-quality breast and cervical cancer screening and diagnostic services, such as mammography and pap smears, to under- and uninsured women, between 18 and 64 years of age, who are Texas residents at or below 200 percent FPL. BCCS provides these services via a network of contracted clinical service providers and collaborates with multiple partners to facilitate support for increasing cancer screening among the program's priority populations. BCCS contractors also act as the gateway for eligible women to receive Medicaid for Breast and Cervical Cancer (MBCC) services by submitting MBCC applications to HHSC on the women's behalf.<sup>2</sup>

As of January 22, 2020, HHSC and the Centers for Medicare and Medicaid Services (CMS) reached an agreement to provide comprehensive women's health services through a Medicaid Section 1115(a) demonstration waiver over the next five years.

---

<sup>2</sup> Pursuant to Texas Administrative Code (TAC) Title 1, Part 15, Chapter 366, Subchapter D, Rule §366.409 (Application Requirements and Processing) found at: [https://texreg.sos.state.tx.us/public/readtac\\$ext.TacPage?sl=R&app=9&p\\_dir=&p\\_rloc=&p\\_tloc=&p\\_ploc=&pg=1&p\\_tac=&ti=1&pt=15&ch=366&rl=409](https://texreg.sos.state.tx.us/public/readtac$ext.TacPage?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=1&pt=15&ch=366&rl=409)

The goals and objectives of the demonstration are to:

- Increase access to women's health and family planning services to avert unintended pregnancies, positively affect the outcome of future pregnancies, and positively impact the health and well-being of women and their families;
- Increase access to preventive health care, including screening and treatment for hypertension, diabetes, and high cholesterol, to positively impact maternal health and reduce maternal mortality;
- Increase access to women's breast and cervical cancer services to promote early cancer detection;
- Implement state policy to favor childbirth and family planning services that do not include elective abortions or the promotion of elective abortions within the continuum of care or services and to avoid the direct or indirect use of state funds to promote or support elective abortions; and,
- Reduce the overall cost of publicly funded health care (including federally funded health care) by providing low-income Texans access to safe, effective services that are consistent with these goals.

Currently, client benefits and provider requirements are not changing. The Special Terms and Conditions of the waiver agreement require HHS to comply with federal Medicaid eligibility, application, verification, and demonstration regulations within 18 months of waiver approval. Therefore, this report will discuss the HTW program as a fully state general revenue (GR) funded program for fiscal year 2019, prior to the approval of the HTW Section 1115(a) Demonstration Waiver.

Additionally, S.B. 750, 86th Legislature, Regular Session, 2019, requires HHSC to develop an enhanced, cost-effective, and limited postpartum care services package for women enrolled in the HTW program to be provided for the first 12 months of HTW enrollment following pregnancy-related Medicaid coverage. S.B. 750 directs HHSC to seek an amendment to the HTW Section 1115(a) Demonstration Waiver to provide the enhanced postpartum services under the HTW program.

HHSC plans to submit an amendment to the HTW Section 1115(a) Demonstration Waiver to add this limited postpartum service package as directed by S.B. 750. HHSC will use state GR funds to make these services available to eligible women on September 1, 2020, while it seeks a waiver amendment.

### 3. Healthy Texas Women

The HTW program provides family planning services and other women's health services that contribute to preconception care and better birth outcomes. The program objectives are to:

- increase access to women's health and family planning services to avert unintended pregnancies;
- increase access to preventive health care to positively impact maternal health and reduce maternal mortality;
- increase access to women's breast and cervical cancer services to promote early cancer detection; and
- implement the state policy to favor childbirth and family planning services that do not include elective abortions or the promotion of elective abortions within the continuum of care or services.

#### Eligibility

Women may be eligible for HTW services if they:

- are age 15 through 44 (women age 15 through 17 must have parental or legal guardian consent to apply and receive services);
- are U.S. citizens or qualified immigrants;
- have an income at or below 200 percent FPL;
- reside in Texas;
- do not have private health insurance, Medicaid, or CHIP coverage; and
- are not pregnant.

Women apply for HTW online through [YourTexasBenefits.com](http://YourTexasBenefits.com) or [HealthyTexasWomen.org](http://HealthyTexasWomen.org), by calling 2-1-1, or by mailing or faxing a paper copy of their application. Once they are determined eligible for HTW benefits, women are mailed a benefits card and can seek services. In some cases, women can be deemed presumptively eligible for benefits at an HTW-contracted clinic and may receive services immediately. Once deemed eligible, women are enrolled in HTW for a continuous 12-month period.

HHSC also automatically enrolls eligible women into HTW at the end of their Medicaid for Pregnant Women coverage. Increased coordination among women's health services, including Medicaid, has promoted greater continuity of care for women who receive women's health services funded through HHSC. Automatic enrollment reduces the burden of re-enrollment for services and facilitates women's access to postpartum care, with the goal of better health outcomes for both the mother and child.

## Services

HTW provides a wide variety of women's health and core family planning services, including:

- pregnancy testing
- pelvic examinations
- sexually transmitted infection services
- breast and cervical cancer screenings and diagnostic services
- clinical breast examination
- mammograms
- screening and treatment for cholesterol, diabetes, and high blood pressure
- HIV screening
- LARCs
- oral contraceptive pills
- permanent sterilization
- other contraceptive methods such as condoms, vaginal spermicide, and injections
- screening and treatment for postpartum depression
- immunizations

HTW clients receive services by visiting a provider that offers HTW services. However, some clients may request prescription refills through their provider without an office visit.

## Provider Payments<sup>3</sup>

HTW primarily operates as a fee-for-service program. HTW fee-for-service is patterned after traditional Medicaid fee-for-service, as providers must be enrolled Medicaid providers and bill through the Texas Medicaid & Healthcare Partnership (TMHP).

In addition, HTW offers a limited cost reimbursement contract, optional to providers seeking to enhance HTW fee-for-service individual service delivery. These additional services include, but are not limited to, the following:

- bulk purchasing and stocking LARC supplies and devices onsite;
- assisting individuals with enrollment into the HTW program;
- individual and community-based educational activities related to HTW;
- staff development and training related to HTW service delivery;
- direct clinical care for individuals deemed presumptively eligible for the HTW program; and
- upon approval by HHSC, other activities that will enhance HTW service delivery including the purchase of equipment and supplies to support the project.

While currently any Medicaid provider can provide covered services on a fee-for-service basis, these additional services may only be provided by an HTW contractor.

## Enrollment Levels and Service Utilization

Rider 74 requires HHSC to examine the enrollment levels of targeted low-income women in HTW. Specifically, the rider requires HHSC to provide enrollment levels of targeted low-income women, service utilization by geographic region, utilization by procedure code, and the number of unduplicated women auto-enrolled into HTW from Medicaid for Pregnant Women.

A woman is enrolled in HTW once she has applied and HHSC determines her eligible for program services, or if she is auto-enrolled into HTW from Medicaid for Pregnant Women after her eligibility for that program ends and she is not eligible for any other Medicaid programs. Once enrolled, a woman is eligible to receive covered services for

---

<sup>3</sup> The 2020-21 General Appropriations Act, House Bill 1, 86th Legislature, Regular Session, 2019 (Article II, HHSC, Rider 72) requires that no funds appropriated for HTW or FPP can be distributed to individuals or entities that perform elective abortion procedures or that contract with or provide funds to individuals or entities for the performance of elective abortion procedures.

12 continuous months. HTW enrollment has increased by 219.2 percent since the program's launch in 2016. Monthly client enrollment in July 2016 was 93,020 compared to August 2019 when monthly client enrollment peaked at 296,959. The increase in client enrollment is partly due to automatic enrollment into HTW from Medicaid for Pregnant Women. During fiscal year 2019, a total of 83,805 women auto-enrolled into HTW from Medicaid for Pregnant Women. Total client enrollment grew 16.2 percent in fiscal year 2019, from 255,571 in September 2018 to 296,959 women in August 2019. In fiscal year 2019, the average monthly enrollment in HTW was 279,671 (see Table 1).

**Table 1. Fiscal Years 2018 and 2019 HTW Monthly Enrollment and Annual Average Monthly Enrollment**

Month	FY 18 Enrollment	FY 19 Enrollment
September	228,853	255,571
October	235,197	262,393
November	240,236	267,401
December	243,678	272,330
January	245,105	277,141
February	246,519	281,145
March	245,470	284,377
April	247,304	287,876
May	246,863	287,207
June	246,574	289,465
July	250,214	294,192
August	253,881	296,959
<b>Average Monthly Enrolled</b>	<b>244,158</b>	<b>279,671</b>

In fiscal year 2019, 176,701 HTW clients received a medical service, and 62,911 HTW clients received at least one prescription drug. The total unduplicated number of HTW clients served in fiscal year 2019 was 191,278 (see Table 2).<sup>4</sup> Of these, 89.4 percent were age 21 or over. Providers served the greatest number of women in the Gulf Coast, Metroplex, and Lower South Texas HHSC regions (see Appendix F for a map of HHSC regions).

Totals for each HHSC region are based on the clients' county of residence at the time of service.

**Table 2. Fiscal Year 2019 HTW Program Utilization, Medical and Pharmacy Claims<sup>5</sup>**

HHSC Region	Clients Served by Age Group			Unduplicated Total
	Under 18	18-20	21 or older	
<b>Region 1 - High Plains</b>	1	1,082	6,937	<b>7,903</b>
<b>Region 2 - Northwest Texas</b>	6	522	3,327	<b>3,799</b>
<b>Region 3 - Metroplex</b>	47	4,114	34,914	<b>38,664</b>
<b>Region 4 - Upper East Texas</b>	11	1,103	8,112	<b>9,090</b>
<b>Region 5 - Southeast Texas</b>	9	784	6,173	<b>6,868</b>
<b>Region 6 - Gulf Coast</b>	26	5,137	39,642	<b>44,207</b>

<sup>4</sup> Client counts are not additive because clients may receive both medical services and prescription drugs within the same fiscal year.

<sup>5</sup> Subtotals may not sum to total because a client may be present in multiple categories.

<b>Region 7 - Central Texas</b>	23	2,285	17,119	<b>19,192</b>
<b>Region 8 - Upper South Texas</b>	25	2,212	19,962	<b>21,931</b>
<b>Region 9 - West Texas</b>	2	430	3,639	<b>4,037</b>
<b>Region 10 - Upper Rio Grande</b>	0	730	6,966	<b>7,575</b>
<b>Region 11 - Lower South Texas</b>	37	4,438	25,339	<b>29,330</b>
<b>Unknown Location<sup>6</sup></b>	0	4	24	<b>28</b>
<b>Unduplicated Total</b>	<b>187</b>	<b>22,635</b>	<b>171,023</b>	<b>191,278</b>

Per Rider 74, updated client served information for fiscal year 2018 is provided below. Like fiscal year 2019, 89.5 percent of HTW clients served were over the age of 21. As with fiscal year 2019, providers served the greatest number of clients in the Gulf Coast, Metroplex, and Lower South Texas regions.

---

<sup>6</sup> The number of clients by HHSC region is calculated using county of residence found in claims data and enrollment information from TIERS. Client's county of residence is blank for some clients.

**Table 3. Fiscal Year 2018 HTW Program Utilization, Medical and Pharmacy Claims<sup>7</sup>**

<b>Clients Served by Age Group</b>

<b>Unduplicated Total</b>	<b>229</b>	<b>20,179</b>	<b>153,909</b>	<b>172,023</b>

## HTW Service Utilization by Procedure Code

HTW provided 1,516,838 medical services under 814 procedures codes and 200,995 prescription drugs in 33 Hierarchical Ingredient Code (HIC3) classes.<sup>9</sup> Tables 4 and 5 provide a summary of service utilization of medical and pharmacy services, respectively, by procedure code for HTW. Table 4 includes the 25 most used procedure codes in HTW medical claims, based on number of clients served.

**Table 4. Fiscal Year 2019 HTW Service Utilization, Medical Claims, by Procedure Code<sup>10</sup>**

Procedure Code	Procedure Description	Number of Clients	Number of Services
<b>87591</b>	N. GONORRHOEAE, DNA, AMP PROB	78,710	97,746
<b>87491</b>	CHLYMD TRACH, DNA, AMP PROBE	78,549	97,967
<b>81025</b>	URINE PREGNANCY TEST	65,891	95,070
<b>99213</b>	OFFICE/OUTPATIENT VISIT EST	58,592	89,864
<b>88175</b>	CYTOPATH C/V AUTO FLUID REDO	36,444	37,245
<b>87389</b>	HIV-1 AG W/HIV-1 & HIV-2 AB	32,708	35,533

<sup>8</sup> The number of clients by HHSC region is calculated using county of residence found in claims data and enrollment information from TIERS. Client's county of residence is blank for some clients.

<sup>9</sup> HIC3 codes are high-level codes to identify drugs by class, rather than individual drug names.

<sup>10</sup> Though procedure codes 99212, 99213, and 99214 are all for an office visit for an established patient, the individual codes are distinguished by severity of the presenting problem.

<b>99395</b>	PREV VISIT EST AGE 18-39	31,468	31,661

## Providers and Clients

The HTW program operates through a network of independent healthcare providers across the state who provide family planning and women's health services to HTW clients, as well as refer them to secondary providers for service delivery outside their scope of practice.

Primary providers are those who can provide an annual women's health examination and prescribe family planning drugs or devices. Primary providers include, but are not limited to, clinic/group practice, family practice/general practice, physician extenders, and gynecology providers.

Some specialized services, such as psychiatry or limited surgical procedures, may be available to clients with a referral from a primary provider. Referring providers include, but are not limited to, surgical-related service providers, radiology, laboratory, and psychiatry providers.

Women can locate primary providers through the Online Provider Lookup (OPL) on [HealthyTexasWomen.org](https://HealthyTexasWomen.org). The OPL can be accessed by the public and allows people to search for and locate a provider within 5 to 100 miles of their zip code or address. Access points illustrated through the OPL include providers that offer services in the HTW, FPP, and BCCS programs.

Rider 74 requires HHSC to provide the total number of unduplicated, primary providers for HTW by geographic region and the total number of providers from legacy TWHP.

In fiscal year 2019, 3,057 providers billed for services rendered in the program.<sup>11</sup>

---

<sup>11</sup> This is a count of distinct providers at separate locations or with different types or specialties. Providers are assigned a National Provider Indicator (NPI). In addition, providers are given a distinct seven-digit base Texas Provider Identifier (base TPI); two-digit suffixes are added to create a full TPI that represents different locations, types, or specialties under which the provider is enrolled. Providers are counted once for every unique full TPI-NPI combination under which claims were paid.

Table 6 below compares the number of HTW providers with the legacy Medicaid Women’s Health Program (MWHP) and TWHP. Beginning with fiscal year 2018, HHSC shifted how the agency measures providers in the HTW program to providers actively billing for services rendered. Numbers provided below reflect the current methodology and vary from previously reported provider counts prior to fiscal year 2018.

**Table 6. Fiscal Years 2011 - 2019 Fee-for-Service Billing Providers for Women’s Health Programs<sup>12</sup>**

MWHP FY 2011	MWHP & TWHP FY 2013	TWHP FY 2015	HTW FY 2017	HTW FY 2018	HTW FY 2019
1,336	1,345	1,306	2,894	3,085	3,057

An examination of the HTW providers in fiscal year 2019 reveals that the 3,057 fee-for-service billing providers are distributed across the state with the Gulf Coast and Metroplex regions having the greatest number of providers (see Table 7). These regions include the cities of Houston, Galveston, Dallas, Fort Worth, and Arlington.

---

<sup>12</sup> This is a count of distinct providers at separate locations or with different types or specialties. Providers are assigned an NPI. In addition, providers are given a distinct seven-digit base TPI; two-digit suffixes are added to create a full TPI that represents different locations, types, or specialties under which the provider is enrolled. Providers are counted once for every unique full TPI-NPI combination under which claims were paid.

**Table 7. Fiscal Year 2019 HTW Billing Fee-for-Service Providers by HHSC Region**

<b>HHSC Region</b>	<b>Fee-for-Service Billing Providers</b>
<b>Region 1 - High Plains</b>	172
<b>Region 2 - Northwest Texas</b>	137
<b>Region 3 – Metroplex</b>	593
<b>Region 4 - Upper East Texas</b>	167
<b>Region 5 - Southeast Texas</b>	125
<b>Region 6 - Gulf Coast</b>	535
<b>Region 7 - Central Texas</b>	318
<b>Region 8 - Upper South Texas</b>	295
<b>Region 9 - West Texas</b>	109
<b>Region 10 - Upper Rio Grande</b>	144
<b>Region 11 - Lower South Texas</b>	352
<b>Out-of-State<sup>13</sup></b>	110
<b>Total Fee-for-Service Providers</b>	<b>3,057</b>

---

<sup>13</sup> Out-of-state providers are permitted, in certain circumstances, to enroll in Texas Medicaid and provide services to Medicaid and HTW clients. The administrative rules governing the enrollment of out-of-state providers are found in Texas Administrative Code (TAC) Title 1, Part 15, Chapter §352.17.

Out-of-state billing providers, per TAC rule, could either provide and bill for HTW services from a non-Texas location, or simply have billing services outside of Texas. Border state providers (those rendering services within 50 miles driving distance of the Texas border), however, are considered in-state providers.

In fiscal year 2019, HTW contracted with 33 entities providing services at 164 clinic sites. The Metroplex, Gulf Coast, and Lower South Texas HHSC regions had the greatest number of contracted clinic locations.

## Program Clients Served

This report includes the mean and median number of clients served by provider and the total unduplicated number of clients served across all programs and providers. A breakdown of clients served by each billing provider can be found in Appendix A.

In fiscal year 2019, 3,057 fee-for-service providers billed for HTW services, and a total of 191,278 unduplicated HTW clients received a medical or pharmaceutical service (see Table 8). This report only includes an analysis of HTW billing providers and does not include data on HTW performing or prescribing providers. Some practitioners may see HTW clients but may file the claim under a different provider TPI/NPI number (e.g., a nurse practitioner bills under the physician's identification number or under the clinic's identification number). Thus, a greater number of practitioners may have served clients than what is captured in this analysis.

**Table 8. Fiscal Year 2019 HTW Clients Served by Billing Provider**

	Providers
<b>Total Billing Providers<sup>14</sup></b>	3,057
<b>Total Unduplicated Clients</b>	191,278
<b>Mean Number of Clients per Fee-for-Service Provider</b>	118 <sup>15</sup>

<sup>14</sup> This is a count of distinct providers at separate locations or with different types or specialties. Providers are assigned an NPI. In addition, providers are given a distinct seven-digit base TPI; two-digit suffixes are added to create a full TPI that represents different locations, types, or specialties under which the provider is enrolled. Providers are counted once for every unique full TPI-NPI combination under which claims were paid.

<sup>15</sup> The mean number of clients per provider does not equal the overall unduplicated number of clients divided by the number of providers because some clients receive services from more than one provider. Therefore, a client may be counted in the client count for Provider A and the client count for Provider B but would only be counted once in the unduplicated

<b>Median Number of Clients per Fee-for-Service Provider</b>
--

7
---

HHSC continues efforts to increase access to HTW, and to enroll and serve more eligible women. HHSC expects to see client and provider participation continue to grow over time.

---

count of clients overall. The average was taken of the number of clients per provider, not the unduplicated number of clients overall.

## 4. Family Planning Program

FPP provides family planning services to women and men at little to no cost. The program offers services to help clients determine the number and spacing of their children, reduce unintended pregnancies, and improve general health, along with future pregnancy and birth outcomes.

### Eligibility

Women and men may be eligible for FPP services if they meet the following eligibility requirements.

- Resident of Texas;
- Age 64 or younger;
- At or below 250 percent FPL; and
- Do not have private health insurance, Medicaid, or have health insurance that does not cover family planning services, such as CHIP.

Eligibility is determined at a contracted clinic, and clients may receive services as soon as they are deemed eligible.

### Services

The program offers a wide range of women's health and core family planning services, including:

- pregnancy testing
- pelvic examinations
- sexually transmitted infection services
- breast and cervical cancer screenings
- clinical breast examination
- mammograms
- screening for cholesterol, diabetes, and high blood pressure
- HIV screening
- LARCs
- oral contraceptive pills

- permanent sterilization
- other contraceptive methods such as condoms, vaginal spermicide, and injections
- natural family planning counseling
- limited prenatal benefits
- immunizations

Clients receive services by visiting a participating FPP clinic.

## **Provider Payments<sup>16</sup>**

HHSC allocates FPP funds through a contract mechanism, partnering with a variety of organizations, including local health departments, medical schools, hospitals, private non-profit agencies, community-based clinics, federally qualified health centers, and rural health clinics.

Contracted organizations must enroll as a Medicaid provider through TMHP. To receive reimbursement, contractors submit fee-for-service claims to TMHP for eligible services provided to eligible clients. The cost reimbursement component, if requested, provides administrative funds to contracted organizations that support FPP health care service delivery.

## **Clients Served and Service Utilization**

Per Rider 74, this report includes a summary of service utilization by geographic region, including total unduplicated number of clients served by delivery system, age, and medical claims by procedure code. Unlike HTW, FPP does not provide pharmacy benefits billed separately through the pharmacy claims system. As such, the tables below only include medical claims.

In fiscal year 2019, 99,778 FPP clients received services (see Table 9).

---

<sup>16</sup> Rider 72 requires that no funds appropriated for HTW or FPP can be distributed to individuals or entities that perform elective abortion procedures or that contract with or provide funds to individuals or entities for the performance of elective abortion procedures.

**Table 9. Fiscal Years 2018 and 2019 FPP Monthly Clients Served and Annual Total Clients Served**

Month	FY 18 Clients Served	FY 19 Clients Served
September	17,535	17,694
October	20,721	19,462
November	16,698	16,074
December	13,872	13,284
January	15,737	16,784
February	14,536	14,762
March	14,583	13,264
April	12,459	13,718
May	9,684	8,294
June	8,113	5,583
July	8,430	4,868
August	7,660	4,307
<b>Unduplicated Annual Total<sup>17</sup></b>	<b>106,224</b>	<b>99,778</b>

As shown in Table 10, 90.4 percent of FPP clients were age 21 or over. Contractors served the greatest number of clients in the Gulf Coast, Metroplex, and Lower South Texas regions.

<sup>17</sup> Though annual totals are unduplicated, the monthly numbers are not additive because one client may receive services in multiple months.

**Table 10. Fiscal Year 2019 FPP Program Utilization<sup>18</sup>**

<b>Clients Served by Age Group</b>				
<b>HHSC Region</b>	<b>Under 18</b>	<b>18-20</b>	<b>21 or older</b>	<b>Unduplicated Total</b>
<b>Region 1 - High Plains</b>	11	190	1,669	<b>1,862</b>
<b>Region 2 - Northwest Texas</b>	15	40	219	<b>273</b>
<b>Region 3 - Metroplex</b>	193	1,416	22,925	<b>24,452</b>
<b>Region 4 - Upper East Texas</b>	33	113	2,559	<b>2,702</b>
<b>Region 5 - Southeast Texas</b>	15	71	1,542	<b>1,623</b>
<b>Region 6 - Gulf Coast</b>	1,436	2,439	22,071	<b>25,750</b>
<b>Region 7 - Central Texas</b>	111	746	13,102	<b>13,928</b>
<b>Region 8 - Upper South Texas</b>	145	459	6,219	<b>6,798</b>
<b>Region 9 - West Texas</b>	9	27	615	<b>650</b>
<b>Region 10 - Upper Rio Grande</b>	20	64	1,241	<b>1,318</b>
<b>Region 11 - Lower South Texas</b>	330	2,110	18,230	<b>20,603</b>

<sup>18</sup> Subtotals may not sum to total because a client may be present in multiple categories.

<b>Unknown Location<sup>19</sup></b>	<b>2</b>	<b>2</b>	<b>21</b>	<b>25</b>
<b>Unduplicated Total</b>	<b>2,318</b>	<b>7,669</b>	<b>90,217</b>	<b>99,778</b>

Per Rider 74, updated fiscal year 2018 program utilization is represented below in Table 11. Approximately 90.4 percent of FPP recipients were at least 21 years of age, with the greatest number of clients served in the Gulf Coast, Metroplex, and Lower South Texas regions.

**Table 11. Fiscal Year 2018 FPP Program Utilization<sup>20</sup>**

<b>HHSC Region</b>	<b>Clients Served by Age Group</b>			<b>Unduplicated Total</b>
	<b>Under 18</b>	<b>18-20</b>	<b>21 or older</b>

<b>Unknown Location<sup>21</sup></b>	1	4	251	<b>256</b>
<b>Unduplicated Total</b>	<b>2,603</b>	<b>8,106</b>	<b>95,997</b>	<b>106,244</b>

## FPP Service Utilization by Procedure Code

This report provides a summary of FPP service utilization by procedure code. Table 12 includes the 25 most used procedure codes in FPP claims, based on number of clients served. FPP provided 716,208 medical services under 284 procedure codes in fiscal year 2019.

**Table 12. Fiscal Year 2019 FPP Service Utilization by Procedure Code<sup>22</sup>**

<b>Procedure Code</b>	<b>Procedure Description</b>	<b>Number of Clients</b>	<b>Number of Services</b>
<b>87491</b>	CHYLM D TRACH, DNA, AMP PROBE	40,336	43,585
<b>87591</b>	N. GONORRHOEAE, DNA, AMP PROB	40,138	43,357

<sup>21</sup> The number of clients by HHSC region is calculated using county of residence found in claims data. Client's county of residence is blank for some clients.

<sup>22</sup> Though procedure codes 99212, 99213, and 99214 are all for an office visit for an established patient, the individual codes are distinguished by severity of the presenting problem.

## Providers and Clients

Rider 74 requires HHSC to provide the total number of providers for FPP by geographic region. In fiscal year 2019, HHSC contracted with 50 entities providing services at 234 clinic sites. The Metroplex, Gulf Coast, and Lower South Texas HHSC regions had the greatest number of contracted clinic locations.

The rider also requires HHSC to provide the mean and median number of program clients served by provider and the total unduplicated number of clients served. In fiscal year 2019, FPP served 99,778 FPP clients (see Table 13). A breakdown of clients served by each provider can be found in Appendix B.

**Table 13. Fiscal Year 2019 FPP Clients Served by Contracted Billing Provider**

Contracted Providers	
<b>Total Billing Providers<sup>23,24</sup></b>	198
<b>Total Unduplicated Clients</b>	99,778
<b>Mean Number of Clients per Contracted Provider</b>	530 <sup>25</sup>
<b>Median Number of Clients per Contracted Provider</b>	294

---

<sup>23</sup> FPP policy requires claims to be billed under the clinic's identification number. A greater number of individual providers served clients than what is captured in this analysis.

<sup>24</sup> This count represents distinct providers at separate locations or with different types or specialties. Providers are assigned an NPI. In addition, providers are given a distinct seven-digit base TPI; two-digit suffixes are added to create a full TPI that represents different locations, types, or specialties under which the provider is enrolled. Providers are counted once for every unique full TPI-NPI combination under which claims were paid.

<sup>25</sup> The mean number of clients per provider does not equal the overall unduplicated number of clients divided by the number of providers because some clients receive services from more than one provider. Therefore, a client may be counted in the client count for Provider A and the client count for Provider B but would only be counted once in the unduplicated count of clients overall. The average was taken of the number of clients per provider, not the unduplicated number of clients overall.

## 5. Breast and Cervical Cancer Services

The BCCS program provides breast and cervical cancer screening and diagnostic services, as well as patient navigation services to under- and un-insured women who are at or below 200 percent of the FPL. The goal of BCCS is to improve breast and cervical cancer screening rates among the priority population and to reduce health disparities related to cancer screening, which would lead to a decrease in cancer incidence, morbidity, and mortality.

### Eligibility

Women may be eligible for BCCS services if they meet the following eligibility requirements.

- Resident of Texas;
- Age 18-64;
- At or below 200 percent FPL; and
- Do not have private health insurance or Medicaid (uninsured) or have health insurance that does not cover cancer screenings or has a high deductible (underinsured).

Eligibility is determined at a contracted clinic, and women may receive services as soon as they are deemed eligible.

### Services

BCCS offers breast and cervical cancer screening and diagnostic services, including:

- Pap smears
- pelvic examinations
- clinical breast examination
- mammograms
- biopsies
- cervical dysplasia management and treatment
- patient navigation for Medicaid for Breast and Cervical Cancer

Women receive services by visiting a participating BCCS clinic.

## **Provider Payments<sup>26</sup>**

HHSC allocates BCCS funds through a contract mechanism, partnering with a variety of organizations, including local health departments, medical schools, hospitals, private non-profit agencies, community-based clinics, federally qualified health centers, and rural health clinics.

Contracted organizations must enroll as a BCCS provider. To receive reimbursement, contractors submit fee-for-service claims to the BCCS program for eligible services provided to eligible women.

BCCS is funded primarily through a federal cooperative agreement from the U.S. Department of Health and Human Services, Center for Disease Control and Prevention (CDC) of approximately \$6 million to pay for direct clinical care services and patient navigation via fee-for-service claims. This funding also covers administrative and operational costs of the program. BCCS is also funded by state GR and TANF to Title XX funds. These funds are only used for direct service provision, which includes some services that are not paid for by the federal cooperative agreement, including cervical dysplasia treatment.

In fiscal year 2019, the program expended \$4.5 million of federal CDC funds, \$2.9 million of federal TANF to XX funds, and \$1.9 million of state GR to provide critical breast and cervical cancer screening and diagnostic services to women throughout the state.

## **Clients Served and Service Utilization**

Per Rider 74, this report includes a summary of service utilization by geographic region, including total unduplicated number of patients served by delivery system, age, and medical claims by procedure code. BCCS does not provide pharmacy benefits billed separately through the pharmacy claims system. As such, the tables below only include medical claims and patient navigation.

In fiscal year 2019, 31,886 BCCS clients received services (see Table 14).

---

<sup>26</sup> Rider 72 requires that no funds appropriated for HTW, FPP, or BCCS can be distributed to individuals or entities that perform elective abortion procedures or that contract with or provide funds to individuals or entities for the performance of elective abortion procedures.

**Table 14. Fiscal Years 2018 and 2019 BCCS Monthly Clients Served and Annual Total Clients Served**

<b>Month</b>	<b>FY 18 Clients Served</b>	<b>FY 19 Clients Served</b>
September	4,666	4,382
October	5,162	4,841
November	4,540	4,394
December	3,537	3,685
January	3,478	4,055
February	3,291	3,274
March	2,892	3,224
April	2,437	2,634
May	2,437	2,634
June	1,710	1,400

### **BCCS Service Utilization by Procedure Code**

This report provides a summary of BCCS service utilization by procedure code. Table 17 includes the 25 most used procedure codes in BCCS claims, based on number of clients served. BCCS provided 95,141 medical and patient navigation services under 149 procedure codes in fiscal year 2019.

**Table 17. Fiscal Year 2019 BCCS Service Utilization by Procedure Code<sup>31</sup>**

<b>Procedure Code</b>	<b>Procedure Description</b>	<b>Number of Clients</b>	<b>Number of Services</b>
<b>77067</b>	MAMMOGRAM, SCREENING, APPROPRIATE FOR MALE AND FEMALE	10,995	11,159

<b>19083</b>	BREAST BIOPSY, FIRST LESION, ULTRASOUND IMAGING	560	571

## Providers and Clients

Rider 74 requires HHSC to provide the total number of providers for BCCS by geographic region. In fiscal year 2019, HHSC contracted with 37 entities providing services at 302 clinic sites. The Metroplex, Gulf Coast, and Lower South Texas HHSC regions had the greatest number of contracted clinic locations.

The rider also requires HHSC to provide the mean and median number of program clients served by provider and the total unduplicated number of clients served. In fiscal year 2019, BCCS served 31,886 clients (see Table 18). A breakdown of clients served by each provider can be found in Appendix C.

**Table 18. Fiscal Year 2019 BCCS Clients Served by Contracted Billing Provider**

Contracted Providers	
<b>Total Billing Providers<sup>32,33</sup></b>	37
<b>Total Unduplicated Clients</b>	31,886
<b>Mean Number of Clients per Contracted Provider</b>	862 <sup>34</sup>
<b>Median Number of Clients per Contracted Provider</b>	469

---

<sup>32</sup> BCCS policy requires claims to be billed by the contractor through Med-IT®. A greater number of individual providers served clients than what is captured in this analysis.

<sup>33</sup> This count represents the total number of BCCS contractors.

<sup>34</sup> The mean number of clients per provider was calculated from unduplicated clients per provider, rather than the overall unduplicated number of clients.

## 6. Estimated Program Savings

Rider 74 requires HHSC to examine savings or expenditures in the Medicaid program attributable to enrollment in HTW or FPP. The analysis examined savings attributed to HTW and FPP caseload in fiscal year 2019 and expected savings in fiscal years 2019-2022. The estimated GR savings due to the estimated 22,592 births averted in HTW and FPP is \$19.6 million (\$236.9 million all funds). The resulting savings to state and federal funds due to HTW and FPP program activities underscores the significant impact these two programs make in the lives of Texans and the positive impact to state and federal budgets.

The decrease in Medicaid and CHIP costs due to the use of family planning services is primarily due to the reduction in the expected number of births for HTW and FPP female clients if the programs did not exist, also known as births averted. The cost savings estimates do not include potential savings from births averted by treating men in FPP. Further, the cost savings estimates do not include potential savings from births averted by serving women in BCCS because family planning services are not provided in that program.

For HTW, savings included in the model are based on the elimination of potential costs associated with:

- prenatal and acute care services provided by Medicaid for Pregnant Women
- labor and delivery
- Medicaid for Breast and Cervical Cancer (MBCC) program cervical cancer treatment and screenings due to treatment in HTW
- one year of infant health care

For FPP, savings included in the model are based on the elimination of potential costs associated with:

- labor and delivery
- one year of infant health care
- CHIP Perinatal services

Costs may include medical, dental, pharmacy, and Medical Transportation Program expenses.

## **Estimated Savings due to HTW**

Of the 191,277 women served in fiscal year 2019, HHSC forecasts participation in HTW will result in a reduction of 15,302 births potentially covered by Medicaid and CHIP. At an estimated cost per birth, including the factors described above, of \$16,182, plus costs attributed to MBCC, this represents a total Medicaid savings of \$249.1 million, of which \$96.8 million is state GR savings and \$152.2 million is federal funds savings.

The annual HTW cost in fiscal year 2019, including contract costs, was \$83.8 million. HTW was funded exclusively through GR dollars in fiscal year 2019. Therefore, after accounting for the annual cost of administering HTW, reduction in births potentially covered by Medicaid and CHIP and in MBCC enrollment results in an estimated net savings of \$13.0 million to the state. The net state and federal savings is \$165.3 million. Tables 19 and 20 detail savings analyses for HTW. See Appendix E for detail on assumptions and methodology.

**Table 19. Estimated General Revenue Savings Due to 15,302 Births Averted by HTW**

	Fiscal Year				
	2019	2020	2021	2022	Total
General Revenue Medicaid Savings					
Labor & Delivery	\$1,086,734	\$16,773,407	\$5,356,588	-	\$23,216,729
Medicaid for Preg Women	\$2,216,273	\$13,285,931	\$2,358,288	-	\$17,860,492
Infant Health Care	\$343,308	\$20,600,457	\$32,702,374	\$1,718,760	\$55,364,899
MBCC <sup>35</sup>	-	\$405,978	-	-	\$405,978
Total	\$3,646,314	\$ 51,065,772	\$40,417,250	\$1,718,760	\$96,848,097
HTW Costs					
Fee-for-Service Expenses	\$74,055,865	-	-	-	\$74,055,865
Categorical Expenses	\$9,763,425	-	-	-	\$9,763,425
Total	\$83,819,290	-	-	-	\$83,819,290
Net Savings (Expenses):	(\$80,172,975)	\$51,065,772	\$40,417,250	\$1,718,760	\$13,028,807

<sup>35</sup> MBCC costs are assumed to have been averted one year after clients' FY 2019 HTW participation.

**Table 20. Estimated All Funds Savings Due to 15,302 Births Averted by HTW**

	Fiscal Year				Total
	2019	2020	2021	2022	
All Funds Medicaid Savings					
Labor & Delivery	\$2,592,400	\$42,647,869	\$13,996,833	-	\$59,237,102
Medicaid for Preg Women	\$5,286,910	\$33,780,653	\$6,162,237	-	\$45,229,801
Infant Health Care	\$818,959	\$52,378,482	\$85,451,722	\$4,500,551	\$143,149,713
MBCC	-	\$1,474,138	-	-	\$1,474,138
Total	\$8,698,269	\$130,281,142	\$105,610,792	\$4,500,551	\$249,090,754
HTW Costs

Categorical Expenses	\$9,763,425	-	-	-	\$9,763,425
Total	\$83,819,290	-	-	-	\$83,819,290
Net Savings (Expenses):	(\$75,121,021)	\$130,281,142	\$105,610,792	\$4,500,551	\$165,271,464

## **Estimated Savings due to FPP**

Of the 99,778 women served in fiscal year 2019, HHSC forecasts participation in FPP will result in a reduction of 7,290 births potentially covered by Medicaid and CHIP. At an estimated cost per birth, including the factors described above, of \$15,056, this represents a total Medicaid savings of \$109.8 million, of which \$42.9 million is GR savings and \$66.9 million is federal funds savings.

The annual FPP cost in fiscal year 2019, including contract costs, was \$38.2 million. FPP is funded mostly through state GR. Therefore, after accounting for the annual cost of administering FPP, reduction in births potentially covered by Medicaid and CHIP results in an estimated net savings of \$6.6 million to the state. The net state and federal savings resulting in the reduction in births is \$71.6 million. Tables 21 and 22 detail savings analyses for FPP. See Appendix E for detail on assumptions and methodology.

**Table 21. Estimated General Revenue Savings Due to 7,290 Births Averted by FPP**

	Fiscal Year				
	2019	2020	2021	2022	Total
General Revenue Medicaid Savings					
Labor & Delivery	\$563,011	\$5,585,377	\$726,670	-	\$6,875,058

## 7. Outreach Activities

Outreach remained an important and ongoing effort in fiscal year 2019. Building on the momentum of the program launch and statewide outreach efforts in fiscal year 2018, HHSC used many of the same public awareness strategies. With a goal of increasing awareness and client enrollment, the fiscal year 2019 Healthy Texas Women outreach campaign was designed to reach low-income women that may be eligible for HTW, FPP, and BCCS. The outreach campaign included:

- client outreach
- website maintenance
- provider outreach
- community outreach

A paid media campaign has resulted in increased traffic to the HealthyTexasWomen.org website, ultimately connecting the public to important information about program services, client eligibility, how to apply for the program, and how to locate a healthcare provider. The media campaign included digital, social, billboard, and radio advertisements in both English and Spanish. Campaign ads were crafted as a call to action and redirected the audience to HealthyTexasWomen.org.

**Figure 1. Digital and Social Media Campaign Ad Examples**

**Figure 2. HTW Campaign Billboard Image for Fiscal Year 2019**

The primary audience for the fiscal year 2019 campaign continued to be Texas women between the ages of 18 and 30 who are racially diverse, primarily low-income, often college students, and may already have children. As such, community college campuses were a focus for strategic outreach in fiscal year 2019. At campuses across the state, posters and table tent materials were placed in student common areas. HHSC also participated in several student health and resource fairs aimed at reaching women who may be eligible for HTW, FPP, and/or BCCS. In addition to directly engaging with students, the events allowed for opportunities to connect with student services officials and other vendors who serve women.

**Figure 3. HTW Outreach Campaign Materials Placed in Community Colleges**

Direct outreach has been a useful tool to increase awareness of HTW, FPP, and BCCS. HHSC continued to proactively contact organizations that may interact with low-income women and families such as community nonprofits, local shelters and food banks, public libraries, public health departments, and advocacy groups. This outreach method has allowed the opportunity to directly provide organizations with program materials through mail or electronic methods.

In fiscal year 2019, HHSC staff participated in 61 events by sharing program materials through exhibiting at conferences or conducting formal presentations. These events have allowed staff to interact with potential clients, service providers, and community members that work directly with women. Examples of some of the events HHSC staff attended include the following:

- Annual African American Health Expo-2019, Fort Worth
- American College of Obstetricians and Gynecologists (ACOG) District XI Conference, Houston
- Association of Women's Health, Obstetric, and Neonatal Nurses Conference, Corpus Christi
- Baylor Scott & White Health, Texas Health Resources, and Methodist Health System, Irving
- Central Texas Physician Assistant Fall CME Conference, Austin
- Dallas Community College, Cedar Valley College, Lancaster
- 14th Annual Breast Health Summit, Houston

- Healthier Texas Summit, Austin
- Hispanic Women's Network of Texas, Austin
- McLennan Community College, Waco
- National Association of Social Workers, Texas Chapter
- National Coalition of 100 Black Women, Inc., Dallas Metropolitan Chapter, Dallas
- National Latina Conference on HIV/HCV/SUD, San Antonio
- Nueces County Medical 53rd Annual Health Fair, Corpus Christi
- San Antonio Back 2 School Expo, San Antonio
- Southwest Texas Junior College Fall Kickoff, Uvalde
- Tarrant County Back to School Roundup, Fort Worth
- Texas Academy of Physician Assistants, Houston
- Texas Association of Community Action Agencies, Austin
- Texas Campaign to Prevent Teen Pregnancy Events, Austin
- Texas Collaborative for Healthy Mothers and Babies Summit, Austin
- Texas Conference for Women, Austin
- Texas Council on Family Relations, Austin
- Texas Department of Family and Protective Services, Arlington
- Texas Indigent Health Care Association Conference, San Antonio
- Texas Nurse Practitioners 30th Annual Conference, Dallas
- Texas Women's Healthcare Coalition Stakeholder Meetings, Austin and Houston
- 21st Annual Nurse Practitioners in Women's Health Conference, San Antonio
- 2019 African American Health Expo, Fort Worth
- Tyler Junior College, Tyler
- UTMB Health and March of Dimes 36th Annual Kaleidoscope Perinatal Nursing Conference, Galveston

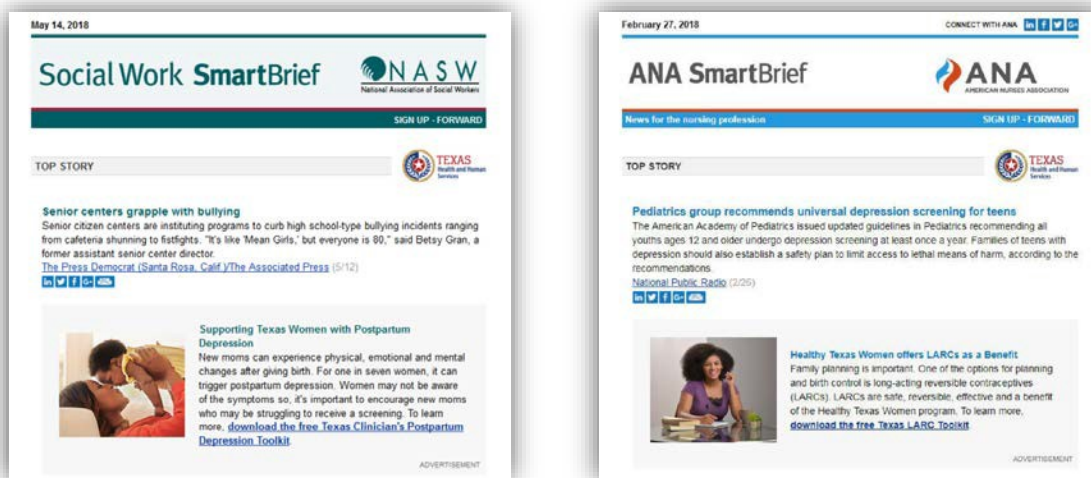

Additional strategies for fiscal year 2019 included advertisement placements in healthcare provider-facing newsletters, targeting various disciplines such as primary care, women's health, and social work professionals. Each placement was a call to action to learn more about the programs or to access additional resources such as the Texas LARC Toolkit<sup>36</sup> or the Texas Clinician's Postpartum Depression Toolkit.<sup>37</sup> Both resources are available on the HTW website and were created by HHSC to educate providers on best clinical practices, billing and reimbursement processes, and connecting clients to additional resources.

**Figure 4. HTW Outreach Campaign Provider Facing Newsletter Examples**

Outreach efforts specifically related to BCCS included social media posts for Breast Reconstruction Awareness Day in March 2019 and Breast Cancer Awareness month in October 2019. Social media posts were published by HHSC Communications in collaboration with BCCS program team members.

HHSC will continue to engage with stakeholders and foster the relationships that have been made during the campaign period. Leveraging the influence of various organizations and community leaders has helped to increase awareness of HTW and FPP. Connecting women with program information and access to services will remain a priority for HHSC.

## 8. Long-Acting Reversible Contraceptives

To avert unintended pregnancies and promote better birth outcomes, Texas continues to work to increase access to LARCs. LARCs are highly effective for preventing pregnancy, easy to use, and can last for up to 10 years. These devices are the most effective method of reversible contraception, with less than 1 pregnancy per 100 women in a year.<sup>38</sup> LARC devices include the intrauterine device (IUD) and subdermal contraceptive device, commonly referred to as the implant.

Long-acting forms of contraception reduce the need for follow-up visits related to contraception. Often, women with a LARC will have no need to see a doctor for contraceptive services for multiple years. In addition, it is expected that with an increase in LARC utilization, Texas will see an increase in state savings due to unintended births averted. This report provides a count of the number of women in HTW and FPP receiving a LARC in fiscal year 2019.

In fiscal year 2019, 15,194 unique HTW clients and 13,341 unique FPP clients received a LARC (see Table 23). For both programs, the highest LARC utilization was found in the Gulf Coast, Metroplex, and Lower South Texas regions. These regions include the cities of Dallas, Fort Worth, Arlington, Houston, Galveston, Corpus Christi, Laredo, McAllen, and Brownsville.

<b>Total Fee-for-Service Clients</b>	<b>13,341</b>	<b>15,194</b>

## 9. Conclusion

This report provides a summary of program enrollment, service utilization, and cost savings for HTW, FPP, and BCCS. Per Rider 74, it is the intent of the Legislature that if the findings of this report show a reduction of greater than 10 percent relative to the prior two fiscal years in either enrolled women or service utilization, HHSC shall, within existing resources, undertake corrective measures to expand provider capacity and client outreach and enrollment efforts. Since fiscal year 2017, HTW has seen an increase in service utilization and women enrolled. FPP had also seen an increase in service utilization and clients served from fiscal year 2017 to fiscal year 2018 but showed a slight decrease in enrolled women and service utilization in fiscal year 2019. BCCS saw a slight increase in service utilization and a slight decrease in clients served from fiscal year 2018 to fiscal year 2019. Because HHSC did not see a reduction of greater than 10 percent relative to the prior two fiscal years in either enrolled women or service utilization in any of the women's health programs, this report does not include any corrective measures taken.

The findings presented in this report, including the number of clients served, client and provider enrollment, services utilized, and the savings to state and federal funds due to HTW and FPP activities, underscore the significant impact women's health programs make in the lives of Texans and the positive impact to state and federal budgets. Because of this success, HHSC forecasts an additional funding need for the 2022-23 biennium for HTW, FPP, and BCCS.

HHSC is committed to serving the women and men of Texas through HTW, FPP, and BCCS. HTW and FPP help to ensure women in Texas can access the family planning and women's health services they need. BCCS continues to provide high quality breast and cervical cancer screenings, diagnostics, and patient navigation. In the future, HHSC will continue to seek feedback to improve or enhance program operations and outcomes to ensure continued access and care for Texas women.

## **List of Acronyms**

<b>Acronym</b>	<b>Full Name</b>
BCCS	Breast and Cervical Cancer Services
FPL	Federal Poverty Level
FPP	Family Planning Program
HHSC	Health and Human Services Commission
HIV	Human Immunodeficiency Virus
HTW	Healthy Texas Women
LARC	Long-Acting Reversible Contraceptive
MBCC	Medicaid for Breast and Cervical Cancer
MWHP	Medicaid Women's Health Program
NPI	National Provider Identification
OPL	Online Provider Lookup
TIERS	Texas Integrated Eligibility Redesign System
TMHP	Texas Medicaid & Healthcare Partnership
TPI	Texas Provider Identification

## Appendix D. Data Sources

Multiple sources were used to provide data for this report. Data sources include Texas Medicaid & Healthcare Partnership (TMHP), Medical Information Tracking System (Med-IT®), Texas Integrated Eligibility Redesign System (TIERS), and program data. Table 1 provides a summary of the data used for addressing each section of the report:

**Table 1. Data Sources**

Report Section	Data Source
Enrollment Levels	TMHP/TIERS Client Enrollment Data; Med-IT® Client Data
Estimated Program Savings	TMHP Client Data
Outreach Activities	Program Data
Providers	TMHP Provider Enrollment Data
Program Clients	TMHP Claims; Med-IT® Claims
LARC Utilization	TMHP Claims
Service Utilization	TMHP Claims; Med-IT® Claims

## Appendix E. Data Analytic Methodologies

### Enrollment Levels and Service Utilization

#### Program Enrollment

The analysis of program enrollment was performed by examining eligibility files for Healthy Texas Women (HTW) clients each month of fiscal year 2019. The number was then averaged across the fiscal year.

For the Family Planning Program (FPP) and the Breast and Cervical Cancer Services (BCCS) program, there is no program enrollment separate from clients served.

#### Claims

Medical and pharmacy claims data are generally considered to be complete for analysis eight months after the end of a service period. This lag after the end of the service period allows time for claims to be submitted and processed, and to process any retroactive changes. Because the data included in this report were calculated six months after the end of the service period, fiscal year 2019 data may be incomplete, and counts may change when finalized. Any changes will likely be minimal and not result in a meaningful change in reporting.

#### Service Utilization

Service utilization analysis was performed for clients who received a medical service or medication in fiscal year 2019 paid for by HTW or FPP. BCCS utilization was analyzed using Medical Information Tracking System (Med-IT®). The lists below describe how HTW and FPP medical claims data are defined in the TMHP claims data warehouse, as well as how BCCS claims data are defined in Med-IT®. Medical claims data include medications directly provided by a clinician, which is the only way that medications are provided in Family Planning Program.

For HTW:

- Client Type Program 68 on at least one line in the claim (indicates that the service is being billed for a client enrolled in the HTW program)
- Claim Program Code 100 (HTW fee-for-service claims)
- Claim types 020, 023, 030, 031, and 058 (includes physician, outpatient hospital claims, and family planning services)

- Header claim status codes E, P, and I (claim is partially paid, paid, or informational)
- Detail status code E, P, and I (individual service/line of claim is partially paid, paid, or informational)
- Dates of service between 9/1/2018 - 8/31/2019

For FPP:

- Claim Program Code 300 (FPP fee-for-service claims)
- Claim type 056 for FPP (claims specifically attributed to Family Planning Program)
- Header claim status codes E, P, and I (claim is partially paid, paid, or informational)
- Detail status code E, P, and I (individual service/line of claim is partially paid, paid, or informational)
- Dates of service between 9/1/2018 - 8/31/2019

In addition to services captured by medical claims data, HTW also covers medications that clients obtain from pharmacies. Therefore, the service utilization also included HTW pharmacy claims. These were defined in the following way.

For HTW:

- Analysis is based on the last adjudicated status of the claim with non-reversed claims only
- Client Type Program 41 defines Healthy Texas Women
- Prescription fill date between 9/1/2018 - 8/31/2019

For BCCS:

- Dates of service between 9/1/18 – 8/31/2019
- Procedure codes that start with B are cloned from original procedure codes but designed to only pay for clients under the age of 50.
- Procedure codes that start with CD are cloned from original procedure codes but are designed to only pay for clients that receive cervical dysplasia management and treatment services.

Client counts represent the unduplicated count of clients in each category and were calculated as the distinct count of clients using the clients' identification number. Healthy Texas Women and Breast and Cervical Cancer Services serves female clients; Family Planning Program serves male and female clients.

Geographic region was based on the client's county of residence using information from Texas Integrated Eligibility Redesign System (TIERS), Texas Medicaid &

Healthcare Partnership (TMHP), and Med-IT® for the period of program enrollment at the time of service or most recently preceding the client's date of service. Health and Human Services Commission (HHSC) region was determined based on client's county of residence. Service utilization results were provided by distinct age groups at the time of service:

- Less than 18 years
- 18-20 years
- 21 years or older

### **Medical Service Utilization by Procedure Code**

For the analysis examining utilization by procedure code, counts were provided for services HTW, FPP, and BCCS clients received in fiscal year 2019 for each service's procedure code. Number of clients, number of services, and service paid amount are provided. Services are defined as the procedure code that was paid on and are counted at each detail line of the claim. Some HTW and FPP procedures were submitted to TMHP using informational claims, in which case the service paid amount may total to \$0.

### **Medication Service Utilization by National Drug Code**

The analysis of service utilization also included pharmacy claims for HTW by National Drug Code (NDC) and expenditures, using the last adjudicated status of the claim.

## **Estimated Program Savings**

### **HTW Estimated Program Savings**

The estimated Medicaid savings due to participation in HTW include the elimination of potential costs associated with:

- Prenatal and acute care provided by Medicaid for Pregnant Women
- Labor and delivery
- Medicaid for Breast and Cervical Cancer (MBCC) program cervical cancer screenings and treatment
- One year of infant health care

The savings attributed to the caseload in fiscal year 2019 will be realized in fiscal years 2019 – 2022. This is due to the potential averted birth timeframe, the lag time of nine months for births and the 12 months of coverage for infants after they are

born. The estimated Medicaid savings due to participation in HTW include the costs of prenatal and acute care for Medicaid for Pregnant Women, delivery, and the first year of infant care. There are also some additional savings (less than \$1.5 million all funds) due to the estimated reduction in MBCC caseload due to cervical cancer screens and treatment of cervical dysplasia if necessary.

### **FPP Estimated Program Savings**

The estimated Medicaid savings due to participation in FPP include the elimination of potential costs associated with:

- Labor and delivery
- One year of infant health care
- CHIP Perinatal services

The savings attributed to the caseload in fiscal year 2019 will be realized in fiscal years 2019 – 2022. This is due to the potential averted birth timeframe, the lag time of nine months for births, and the 12 months of coverage for infants after they are born. The estimated Medicaid savings include only the costs of delivery (emergency services for undocumented) and the first year of infant care. The estimated CHIP savings are from perinatal program costs for prenatal care for pregnant women.

## **Providers**

TMHP provided the data required to determine the number of fee-for-service providers enrolled in HTW. To determine the number of providers who served HTW clients, HHSC counted the number of billing providers (using both national provider identifier and full Texas Provider Identifier to define distinct providers) with paid medical claims.

To determine the number of providers who served FPP and BCCS clients, HHSC counted the number of contracted service providers in each program. Subcontractors for either program, if applicable, were not counted.

## **Program Clients**

The service utilization data was grouped based on the providers who billed for the service. In BCCS and FPP, all providers must be contracted with the state. In HTW, clients can receive services from both contracted and enrolled fee-for-service providers. For BCCS, FPP, and HTW, claims information was aggregated by provider. The overall average and median number of clients served per provider or contractor was also provided.

## Long-Acting Reversible Contraceptives

Medical and pharmacy claims were examined to calculate the total number of women in HTW and FPP receiving a long-acting reversible contraceptive (LARC) in fiscal year 2019. Medical LARC claims were defined as contraceptive implants and intrauterine devices and the insertion of these implants or devices based on the following procedure codes (see Table B1).

**Table B1. Medical Procedure Codes Associated with LARC Insertion**

Procedure Code	Procedure Description
11981	INSERT DRUG IMPLANT DEVICE
11983	REMOVE/INSERT DRUG IMPLANT
58300	INSERT INTRAUTERINE DEVICE
J7296	LEVONORGESTREL IU 19.5MG (Kyleena)
J7297	LEVONORGESTREL IU 52MG 3 YR (Liletta)
J7298	LEVONORGESTREL IU 52MG 5 YR (Mirena)
J7300	INTRAUT COPPER CONTRACEPTIVE
J7301	SKYLA 13.5MG
J7302	LEVONORGESTREL IU 52 MG
J7307	ETONOGESTREL IMPLANT SYSTEM

Pharmacy LARC claims were identified using the NDC (see Table B2). Client and prescription counts were based on paid claims only. Paid amounts included all claim types to account for adjustments. A prescription is defined as the unique combination of recipient number, pharmacy national provider identifier (NPI), prescription number, refill number, prescriber NPI, prescription fill date, and NDC.

**Table B2. Pharmacy NDCs Associated with LARC Insertion**

<b>NDC</b>	<b>Generic Drug Name</b>	<b>BRAND NAME</b>	<b>LABEL NAME</b>
00052433001	ETONOGESTREL	NEXPLANON	NEXPLANON 68 MG IMPLANT
50419042101	LEVONORGESTREL	MIRENA	MIRENA SYSTEM
50419042201	LEVONORGESTREL	SKYLA	SKYLA SYSTEM
50419042301	LEVONORGESTREL	MIRENA	MIRENA SYSTEM
50419042401	LEVONORGESTREL	KYLEENA	KYLEENA 19.5 MG SYSTEM
51285020401	COPPER	PARAGARD T 380-A	PARAGARD T 380-A IUD
59365512801	COPPER	PARAGARD T 380-A	PARAGARD T 380-A IUD

## Appendix F. Map of HHSC Regions
