Overview

Texas Health and Human Services Commission (HHSC) has developed Nursing Facility Administrator (NFA) applications, an online system for Long Term Care Regulatory (LTCR) licensing and credentialing applicants within the Texas Unified Licensure Information Portal (TULIP).

The portal will allow users to:

- Create and submit licensing and credentialing applications online.
- Address application deficiencies.
- Attach or upload documents related to applications.
- Submit application payments online (when applicable).
- Perform public searches for NFA license statuses.

This training guide is organized into the following major categories:

- Portal Login - Applicant registration, login, and password reset.
- Public Search - Public search to allow search for NFA license status.
- Applicant Actions - Create, edit and submit NFA applications.

Note: TULIP is optimized for the Google Chrome browser therefore it is recommended.
1. Registration and Logging into the TULIP

It is highly recommended that you bookmark the login page (https://txhhs.force.com/TULIP/s/login/) for easy access to TULIP.

4.1.2 Cloning an Expired Initial Application

A NFA-Initial application will automatically expire if there has not been an outcome for more than 365 days from the date the application was first submitted.

For example, if an NFA initial was first submitted on 7/10/2021, it will expire on 7/11/2022, if it does not get approved, denied, or withdrawn.

For the ease of applicants, TULIP provides the option to clone an expired NFA-Initial application. A cloned application will retain all the information provided on the original application so that applicants will not need to re-enter earlier provided information again. If any new details are to be provided, applicants are highly encouraged to do so as it will make it easier for licensing staff to review the application.

Here are the steps to clone an expired initial application:

Step 1: Access the expired NFA-Initial application from the applications tab
