Introduction of Topics

1. Fiscal Year 2021 (October 01, 2020-September 30, 2022) Progress Report and Success Stories
2. Fiscal Year 2022 (October 01, 2021-September 30, 2023) Budget and Proposed Work Plan

Fiscal Year 2021 Progress- Overview and Timeline

- **Project Period:** October 01, 2020-September 30, 2022
- **Funding Amount:** \$6,237,926
- **Work Plan:** Submitted August 2021
- **Annual Progress Report:** Submitted February 2022
 - At time of submittal, 13 of the 14 program objectives had been met.
- **Final Progress Report:** Due December 2022

Fiscal Year 2021 Summary of Each Program Objective Status – Local Health Entities

TEXAS

Health and Human Services

Texas Department of State Health Services

Objective Name	Program SMART Objective	Met/Not Met Interim Target
Assure Competent Workforce	Between 10/2020 and 09/2021, 12 Local Health Entities that select Essential Public Health Service #8: “Build and support a diverse and skilled public health workforce” will perform an annual review of workforce staff requiring specific training and/or licensure as part of the public health role within their respective programs to assure compliance.	Met
Enforce Laws and Regulations	Between 10/2020 and 09/2021, 11 Local Health Entities that select Essential Public Health Service #6: “Utilize legal and regulatory actions designed to improve and protect the public’s health” will conduct an annual review of the LHE strategic plans associated with environmental health and sanitation code enforcement activities in their jurisdiction to ensure plans are in accordance with state and federal health codes.	Met
Inform and Educate	Between 10/2020 and 09/2021, 11 Local Health Entities that select Essential Public Health Service #3: “Communicate effectively to inform and educate people about health, factors that influence it, and how to improve it” will conduct an annual review of public health education planning associated with programs across their agency to evaluate methods used for the dissemination of information to stakeholders, and to ensure the accuracy of this information.	Met
Link People to Services	Between 10/2020 and 09/2021, 11 Local Health Entities that select Essential Public Health Service #7: “Assure an effective system that enables access to the individual services and care needed to be healthy” will conduct an annual review of program referral systems linking clients to providers or services to measure overall referral rates.	Met
Mobilize Partnerships	Between 10/2020 and 09/2021, 11 Local Health Entities that select Essential Public Health Service #4: “Strengthen, support, and mobilize communities and partnerships to improve health” will perform an annual review of their community for potential stakeholders who contribute to or benefit from public health in order to increase the value of local public health.	Met

Fiscal Year 2021 Summary of Each Program Objective Status – Rape Response and Prevention

Objective Name	Program SMART Objective	Met/Not Met Interim Target
Direct Services to Victims	Between 10/2020 and 09/2021, PHHS Block funded organizations will increase the number of individuals served through direct victim services from 0 to 500.	Met
Prevention	Between 10/2020 and 09/2021, PHHS Block funded organization will increase the number of individuals participating in prevention efforts from 0 to 5,010.	Met

Success Stories

1. Success Story #1- Men's Story Project (MSP)
2. Success Story #2- City of San Antonio Metropolitan Health District - ¡Por Vida!

Men's Story Project (MSP) Success Story –

Slide 1 of 2

- The MSP is a storytelling project that provides the space and opportunity for men to have conversations and to tell their own stories about masculinity. The goal is to support health and equality for all people and to teach skills and reinforce norms that reduce their own risk for future perpetration. Using PHHS Block Grant funds, the Texas Association Against Sexual Assault (TAASA) launched an MSP in Texas in 2020. This year, TAASA shared 10 of the stories from the project's live events via YouTube.
- Additionally, TAASA featured each individual video in a Facebook post receiving 477 views between April and June. The videos are up for a national Sharecare Award which recognizes excellence in health-related media programming. Additionally, some of the videos were used in 2 training sessions to provide resources and lay the foundation for sexual assault programs to engage men and boys in prevention efforts, as well as to work with male survivors of sexual violence.

TEXAS

Health and Human Services

Texas Department of State
Health Services

Men's Story Project (MSP) Success Story – Continued- 2 of 2

Slide 2 of 2

- YouTube viewers of the videos from the Texas MSP consistently refer to them as powerful. Attendees at trainings where some of the videos were used talked about learning ways to make their programs more accessible to and comfortable for men, and about the overall impact of the diversity of stories of masculinity on themselves and the way they think about their work. Finally, some of the Texas MSP participants continue to participate in the Texas Men SPEAK (Supporting Prevention, Education, Advocacy, and Knowledge) group. This group is PHHS Block Grant funded and is TAASA's current sexual violence prevention program designed to support men to be allies through their work in efforts to end sexual violence.

TEXAS
Health and Human Services

Texas Department of State
Health Services

Success Story #2- City of San Antonio Metropolitan Health District- ¡Por Vida!

Slide 1 of 3

- We would like to highlight a success story that comes to use from one of our monetary partners, one of the Local Health Entities that receives funding through this grant, the City of San Antonio Metropolitan Health District.
- The Senior Management Analyst of this Local Health Entity is leading the expansion of the ¡Por Vida! Healthy Restaurant Recognition Program, along with the Community Nutrition Team, which includes the Health Program Specialist also on this grant, the Administrator on this grant, and a Registered Dietitian.

TEXAS
Health and Human Services

Texas Department of State
Health Services

Success Story #2- City of San Antonio Metropolitan Health District- ¡Por Vida!- Continued- 2 of 3

Slide 2 of 3

- Through the expansion, ¡Por Vida! will recognize local food establishments not only for offering healthy menu options (as it currently does), but also for being environmentally friendly and giving back to the community, driving the community to overall healthy environments when dining out.
- Restaurants can score bronze, silver, or gold medals for their work in these categories. This broadens Por Vida to more of a Food Systems program, rather than just a nutrition program.

TEXAS
Health and Human Services

Texas Department of State
Health Services

Success Story #2- City of San Antonio Metropolitan Health District- ¡Por Vida! – Continued- 3 of 3

Slide 3 of 3

- In Fiscal Year 2020, the Health Program Specialist conducted surveys and collected feedback to inform this expansion from almost 90 community members, 11 current ¡Por Vida! partners, and 10 Stakeholders. Feedback collected support the expansion from the community, business, & stakeholder perspectives.
- In Fiscal Year 2021, the team worked with Information Technology (IT) staff to explore communication application & social media scheduling platforms to improve marketing & communications for the program. They developed an online application & redesigned the website with IT. They also worked with a graphic designer to develop new logos and other program images. Senior Management Analyst proposed expansion of the Nutrition Team to include Community Health Workers that can take Por Vida deeper into the areas of greatest need in San Antonio. They are looking for additional funding opportunities to continue to expand this program.
