

Cross-Agency Coordination on Healthcare Strategies and Measures: Initial Outcomes and Recommendations

The 5 Agencies Project, Second Biennial Report

As Required by

2022-23 General Appropriations Act, Senate Bill 1, 87th Legislature, Regular Session, 2021
(Article IX, Health Related Provisions, Section 10.06)

HEALTH AND HUMAN SERVICES COMMISSION
DEPARTMENT OF STATE HEALTH SERVICES
EMPLOYEES RETIREMENT SYSTEM OF TEXAS
TEXAS DEPARTMENT OF CRIMINAL JUSTICE
TEACHER RETIREMENT SYSTEM
UNIVERSITY OF TEXAS HEALTH SCIENCE CENTER AT HOUSTON

Agenda

- Background
- Significance
- Outcomes
 - Data findings
 - Recommendations
 - Current Activities
- Next Steps

Coming Together

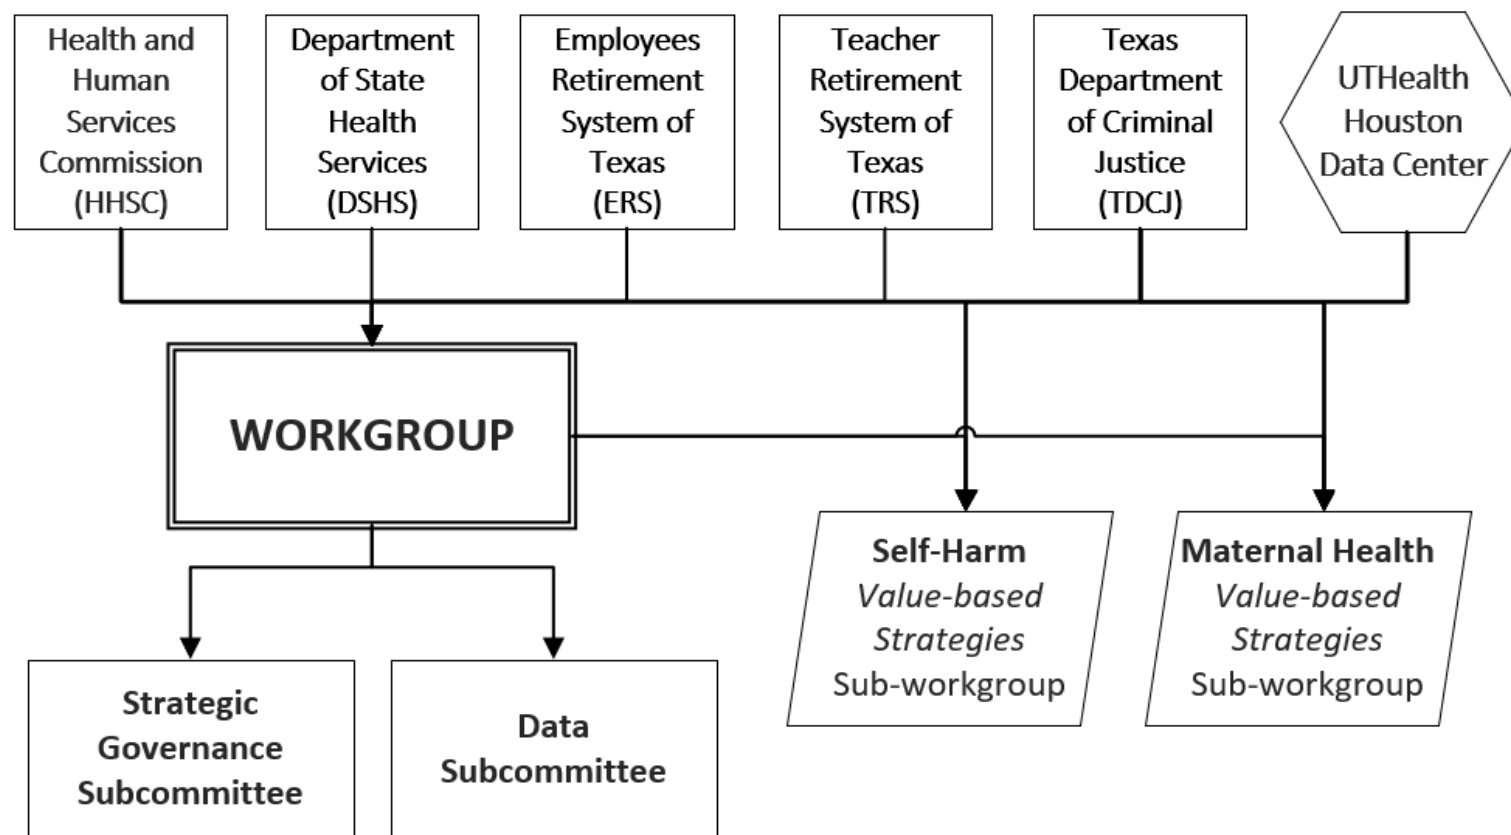

Objectives

**Develop
integrated
databases of
health
information for
cross-agency
comparisons**

**Conduct
analyses to
facilitate
comparisons**

**Support
advanced
multi-payer
collaborations**

Multiagency Collaboration

Opportunities

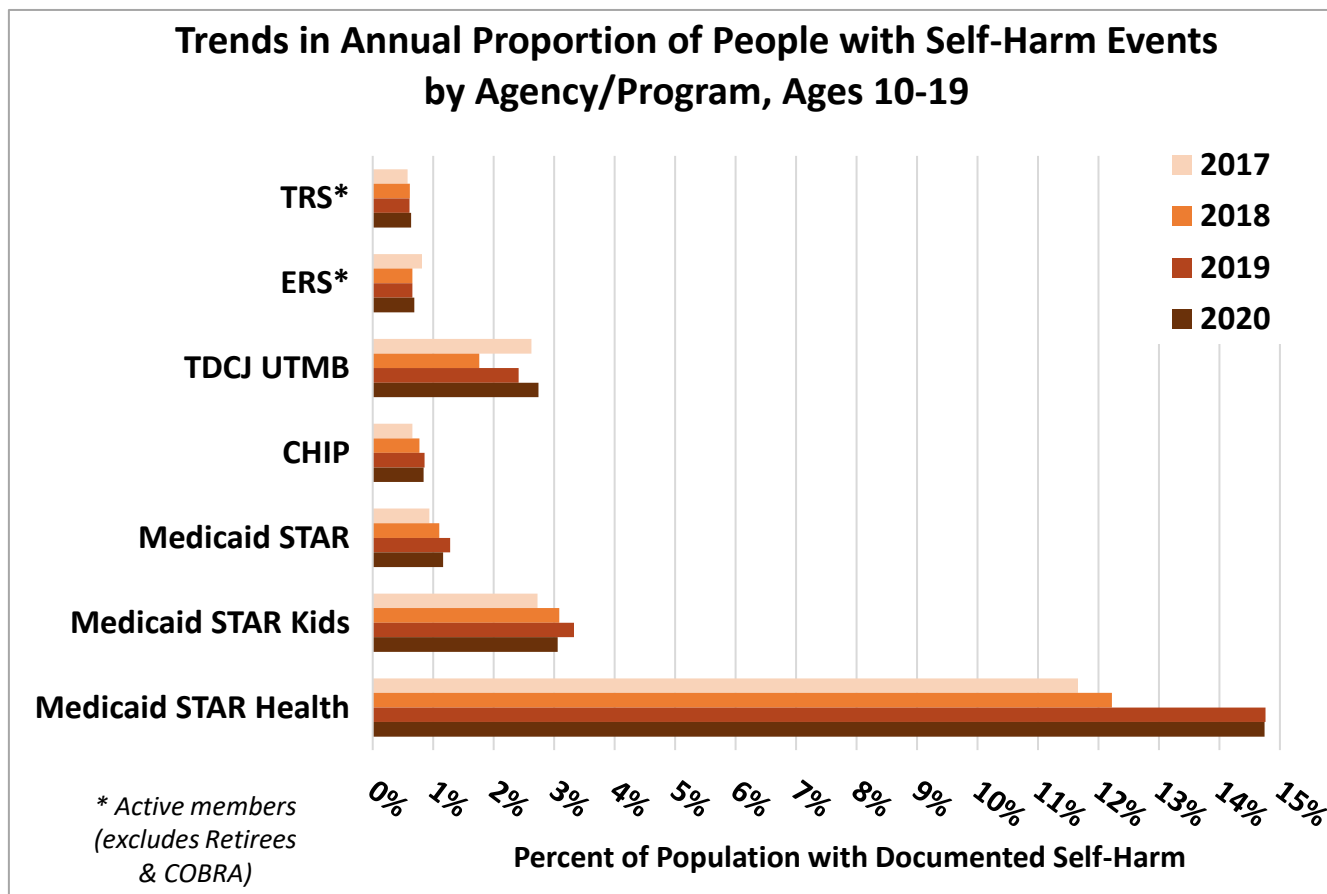

Value-Based Payment Strategies Initiative

- Developed 10-step process for implementing strategies
- Created specialized sub-workgroups

What the Data Reveal

INCIDENCE TRENDS, Self-Harm by Agency, Ages 10-19

Data as of 8/31/2020

Note: The TDCJ population is 16-19 years old compared to other agencies' proportions for ages 10-19 during these time periods

What the Data Reveal

PROVIDER VISIT RATES, Primary Care Visits Around Self-Harm Events, All Ages, Continuous Enrollment

Data as of 8/31/2020

What the Data Reveal

PROVIDER VISIT RATES, Mental Health Visits After a Self-Harm Event, All Ages, Continuous Enrollment

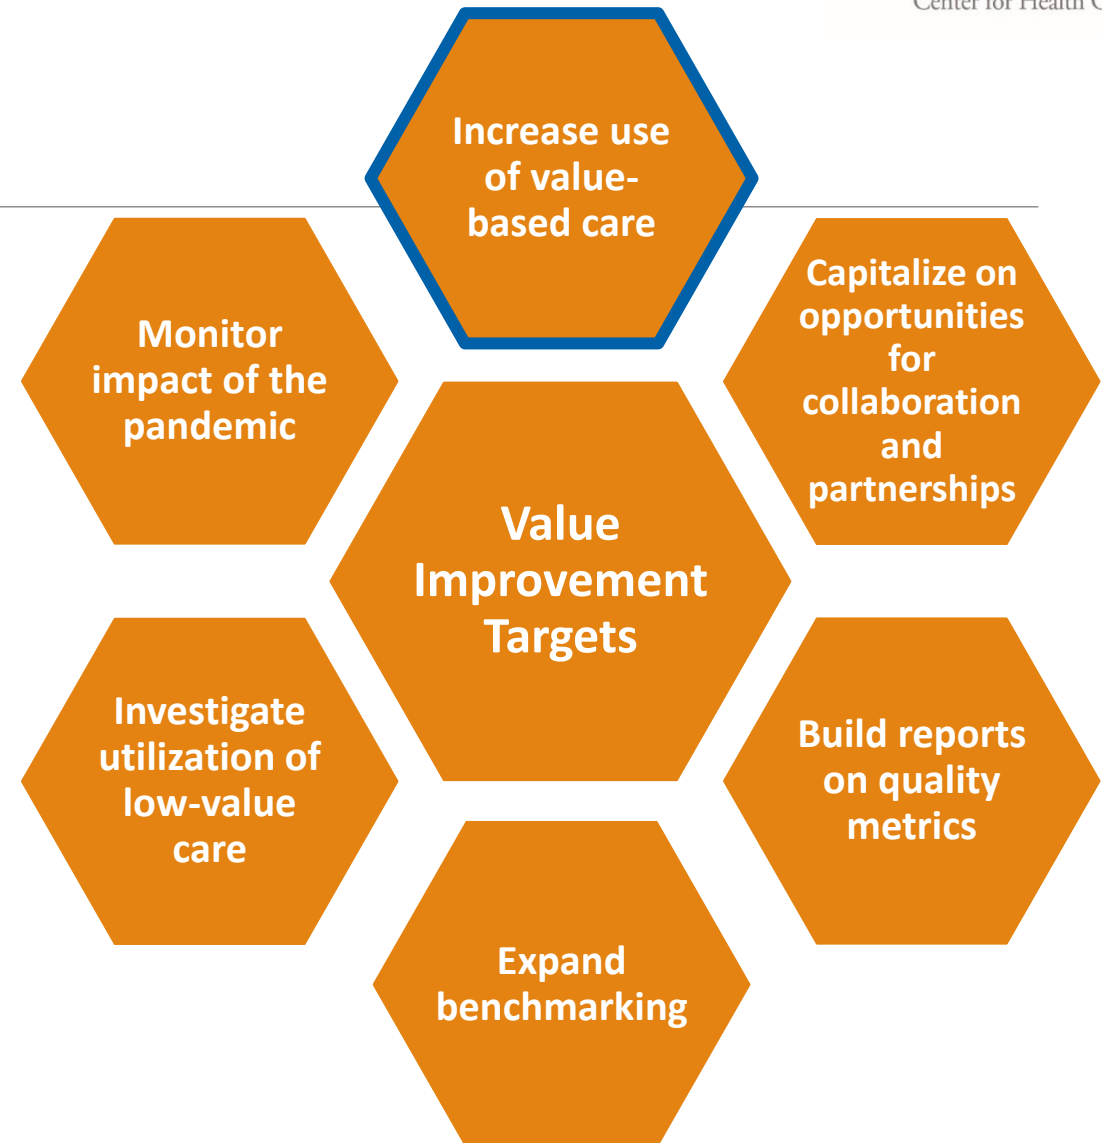

Data as of 8/31/2020; ERS not shown due to data limitations related to capitated behavioral health services until FY2021

Value-based Care Recommendations

Reduce Self-Harm Events

- Increase primary care visits to add opportunities for early identification of mental health issues
- Support development of pathways to integrate behavioral health care with primary care

Value-based Care Initiative: *Reduce Self-Harm Events*

Objective

- Increase the number of providers enrolled and using the Child Psychiatry Access Network (CPAN)

Initiative

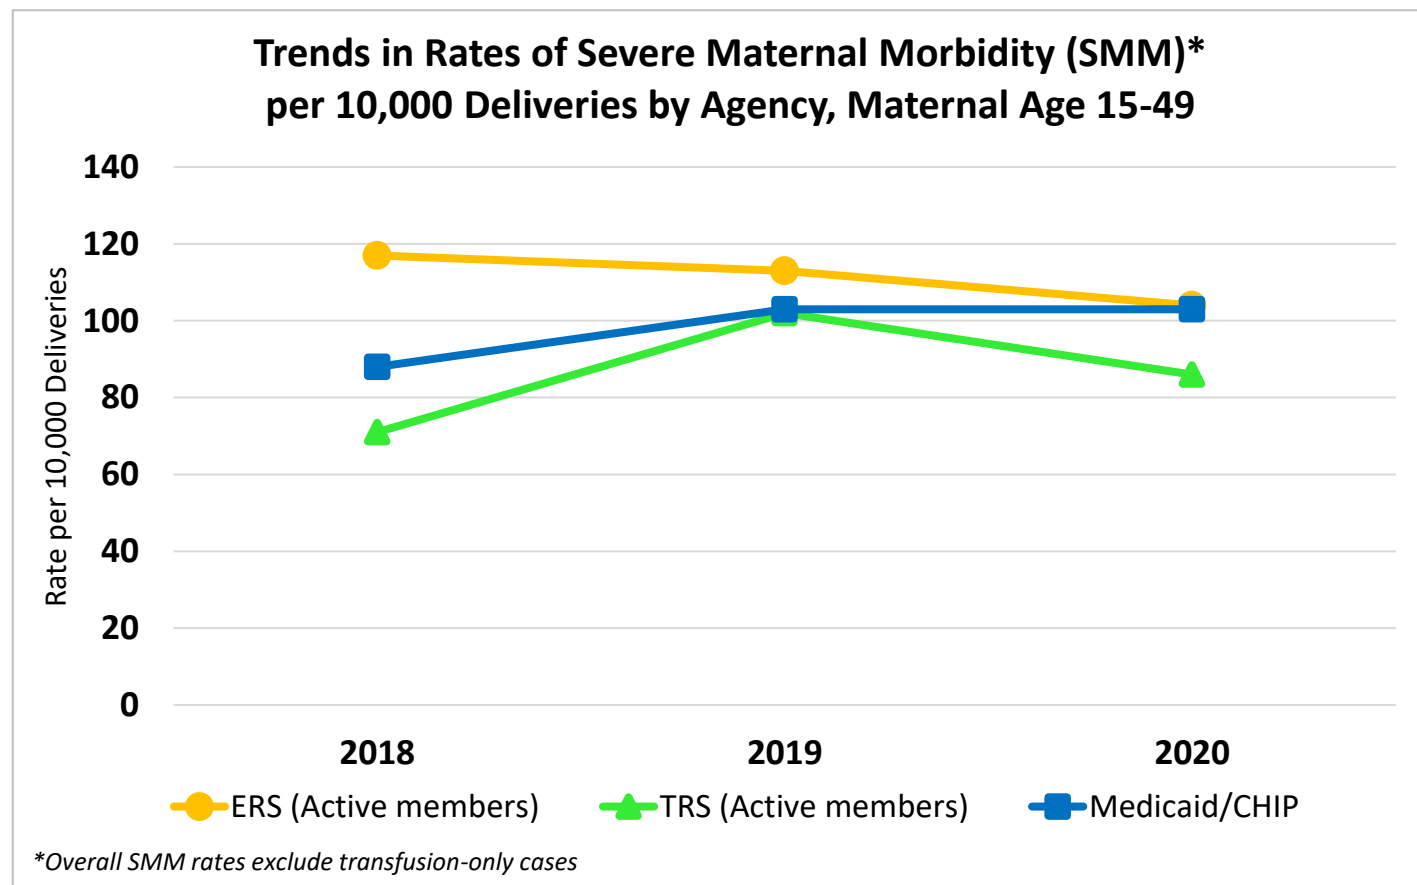

- Resources for providers and patients
- Webinars (hosted by HHSC)
 1. Preventing suicide attempts
 2. Preventing non-suicidal self-injury

Outcome Measures

- Providers enrolled and using CPAN
- Providers enrolled and never accessed
- Providers not enrolled

What the Data Reveal

INCIDENCE TRENDS, Rates of Severe Maternal Morbidity (SMM)

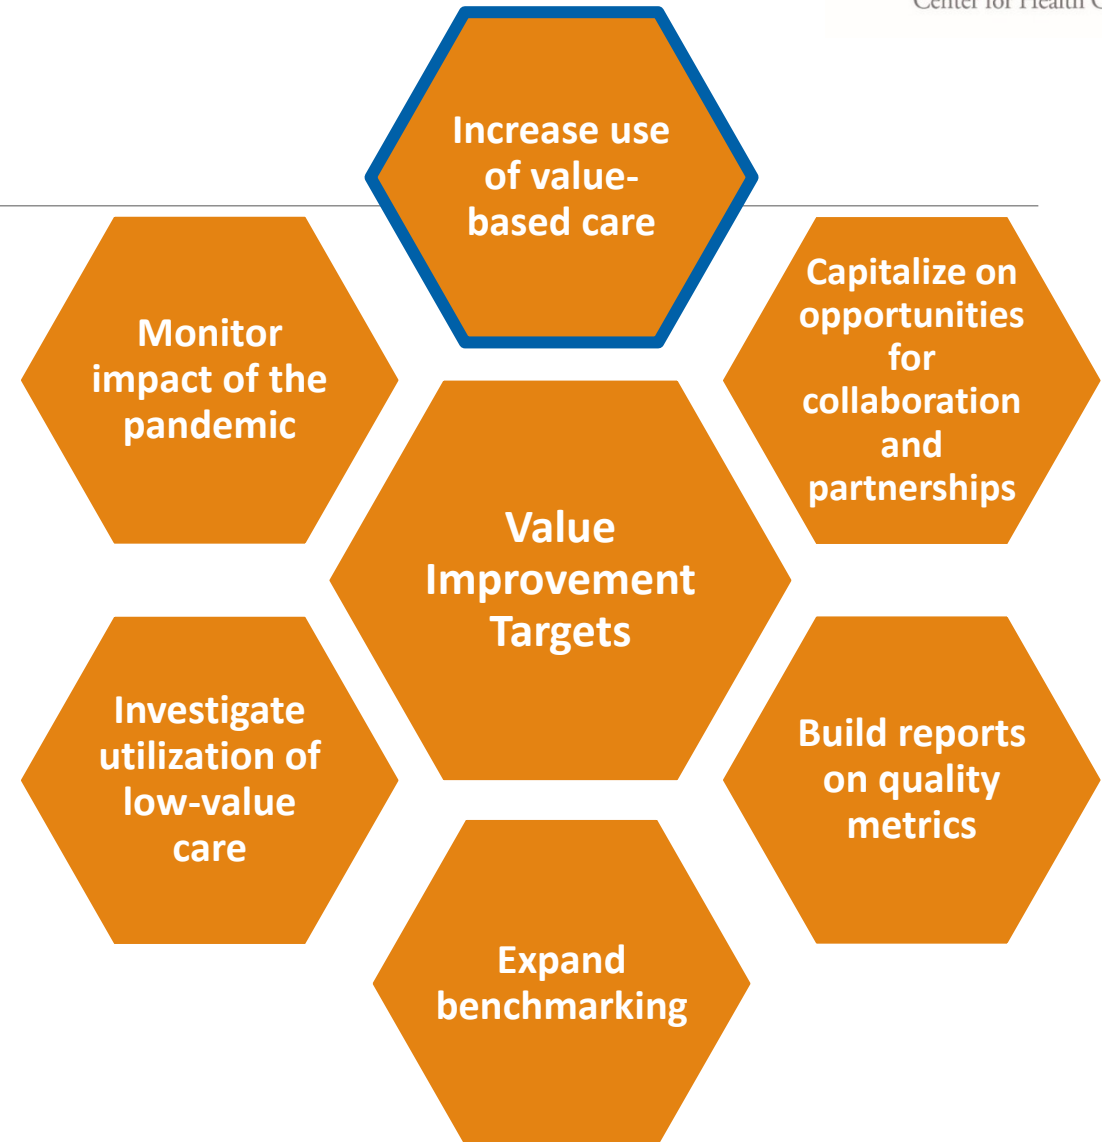

Data as of 8/31/2020

Value-based Care Recommendations

Improve Maternal Health Outcomes

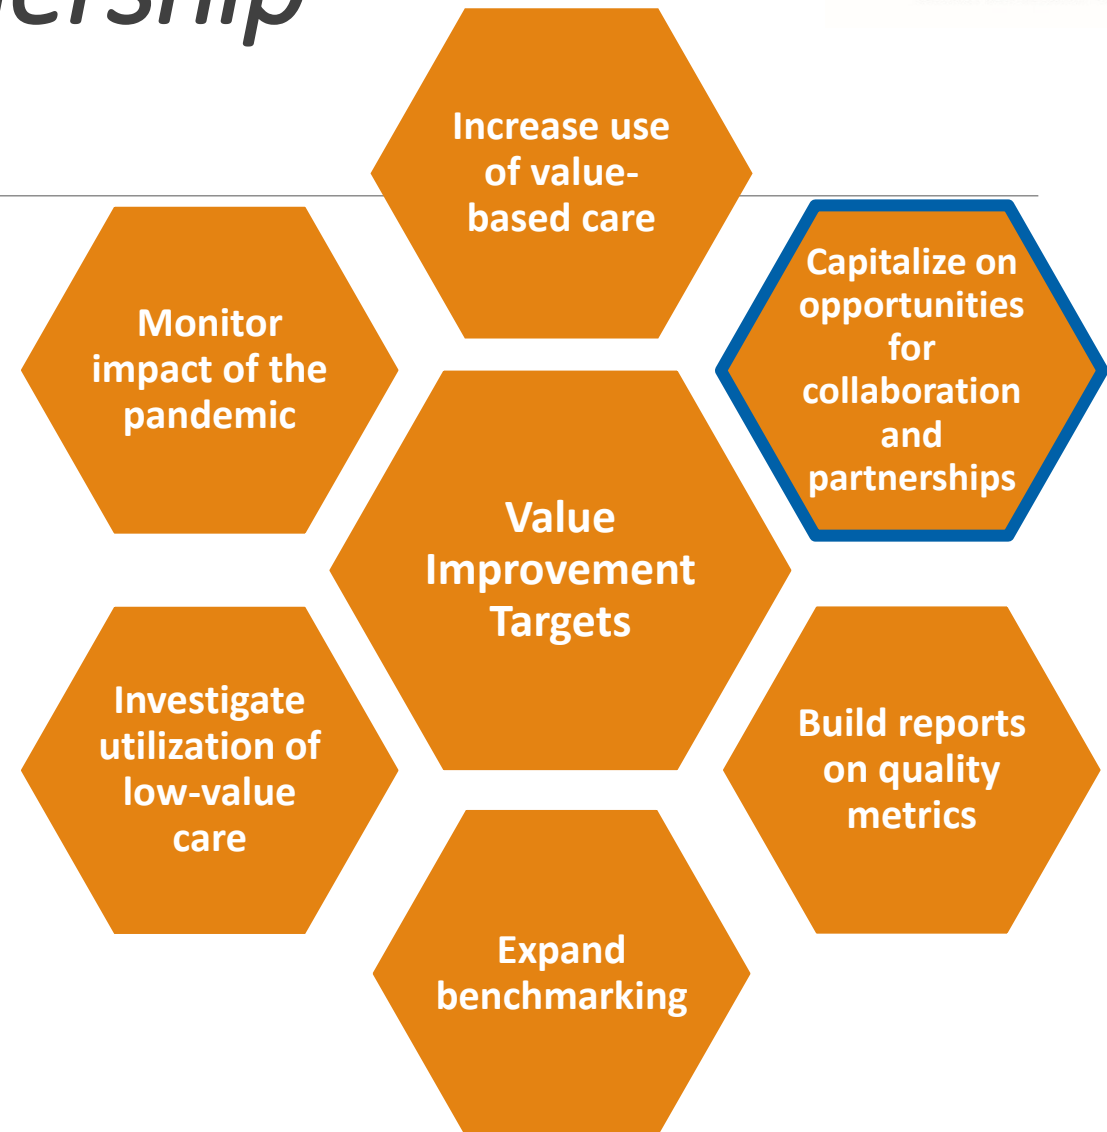

- Promote DSHS's TexasAIM Initiative safety bundles and Hear Her, Texas
- Explore ways to incentivize adoption and continuance of bundles

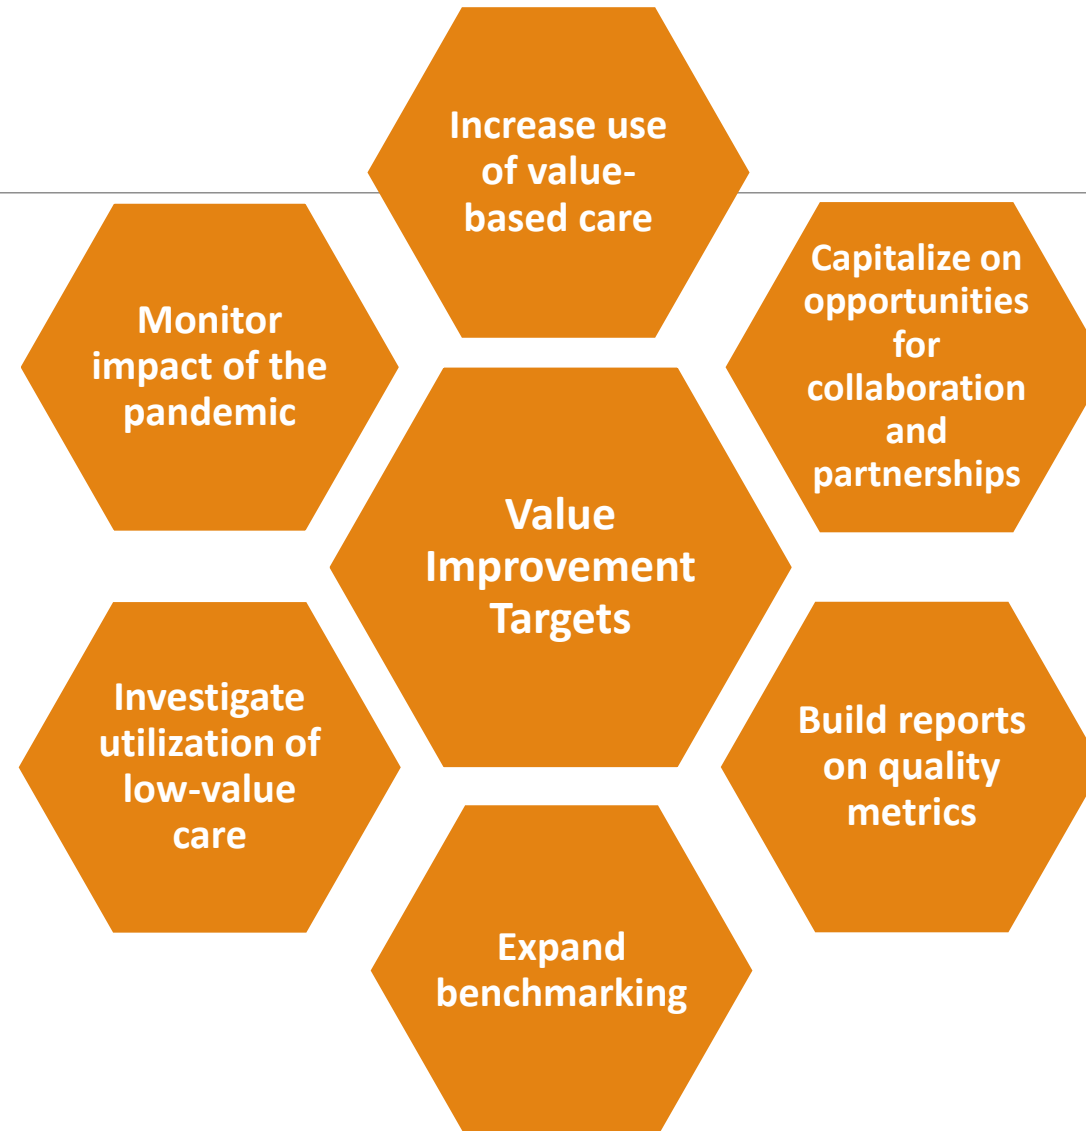

Collaboration & Partnership Recommendations

Partner with, and advance, state initiatives

- Foster collaboration and dialogue
- Leverage state funds by boosting initiatives with similar goals
- Learn from each other and increase efficiency in meeting shared goals

Other Recommendations

What the Data Reveal

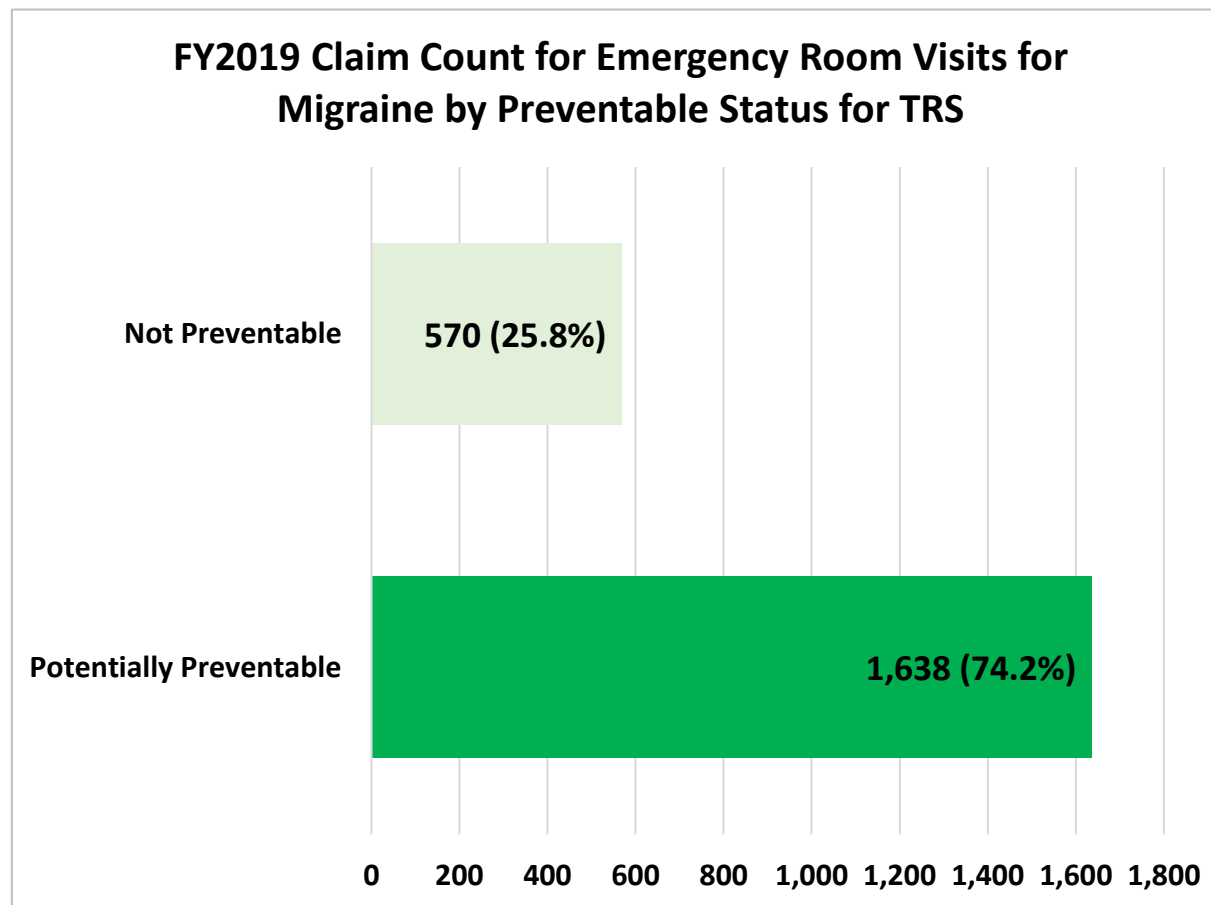

PREVENTABLE SERVICES COSTS, Emergency Room Visits

Data as of 8/31/2019

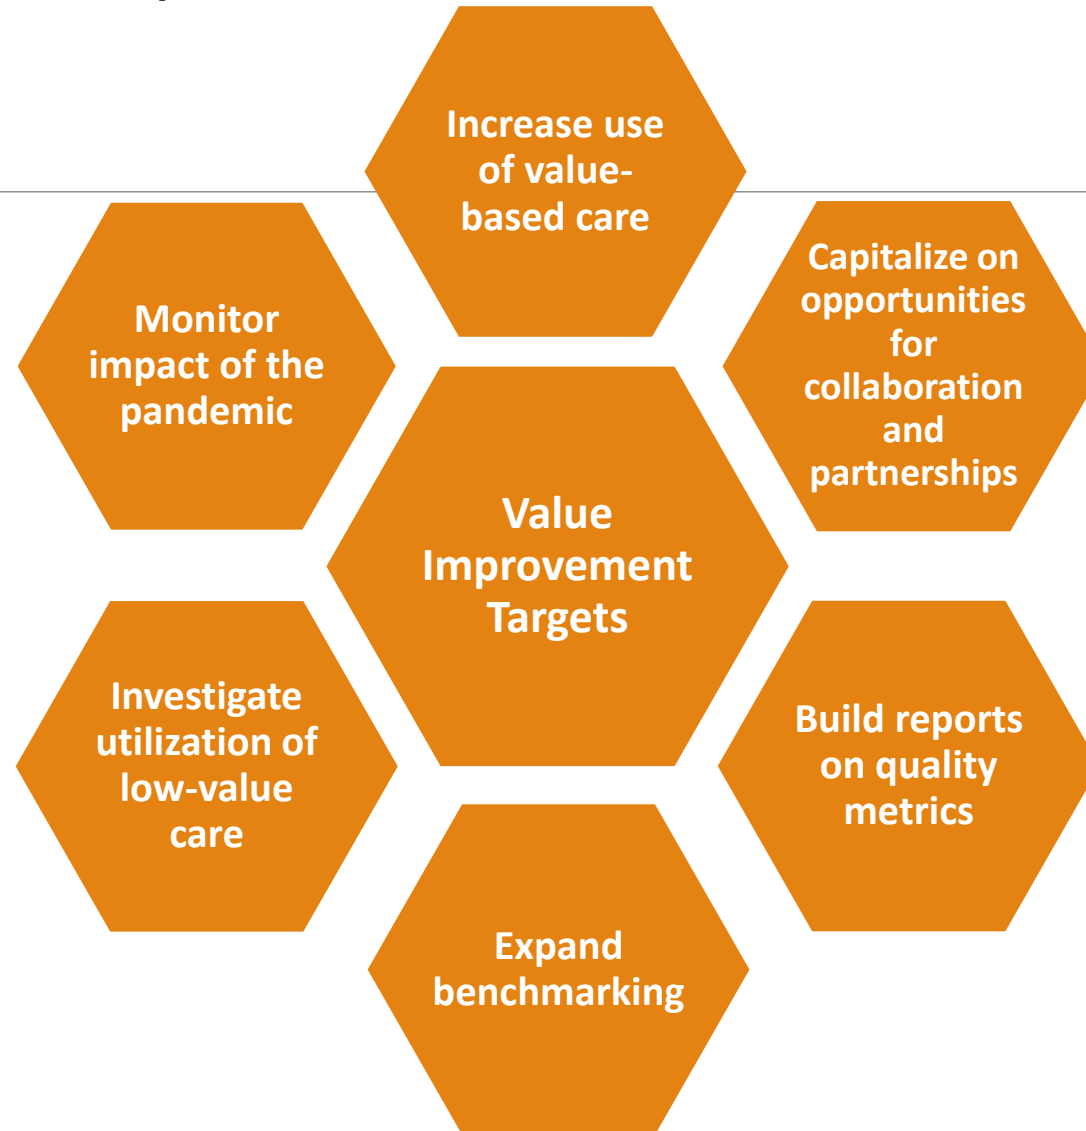

Example of Data Use Case

POTENTIALLY PREVENTABLE SERVICES, Overuse of Neuroimaging for Migraine

Data as of 8/31/2019, Active members (excludes Retirees & COBRA)

Pandemic Impact Recommendations

Next Steps

- Implement value-based initiatives to
 - Reduce self-harm events by increasing the number of providers enrolled and using the Child Psychiatry Access Network (CPAN)
 - Improve maternal health outcomes by promoting DSHS's TexasAIM safety bundles and Hear Her, Texas
- Expand quality metrics on data portals
 - Expand preventive care measures
 - Add HEDIS® measures
- Update benchmarking
- Explore the costliest potentially preventable events (PPEs) by agency

Reference Definitions

- **Expected rates:** Benchmarks developed by UTHealth Data Center analysts for commercial plans (ERS and TRS) based on statewide claims data from other sources. Each agency's expected rates were adjusted to mirror the age distribution of the state agency populations and were compared against the observed rates for that agency
- **Unique count:** Total annual count of unique persons during the measurement year
- **Member years (MY):** An accepted means of reporting the average count of persons for the year; MY is derived by summing counts of unique persons for each month of the measurement year and dividing by 12
- **Not Reportable (NR):** Data with values >0 and <10 are not reported on the data portals
