

HHSC Minimum Performance Standards

Aggregate Number of Providers Failing 1 to 5 Benchmarks

Number of Benchmarks	Number of Providers that Failed
One Benchmark	143
Two Benchmarks	31
Three Benchmarks	6
Four Benchmarks	2
Five Benchmarks	0

The number of providers that failed does not include 22 facilities due to data suppression. CMS may not be able to calculate performance according to technical specifications for the MDS 3.0 quality measures due to data limitations (e.g., delays, insufficient data such as denominators, etc.) In these instances, CMS suppresses the publication of data, and it is not made available.
