Assistant Professor of Psychological Science at Eastern Connecticut State University.

In August 2018, Dr. Dracobly joined the faculty in the Department of Behavior Analysis at the University of North Texas as an Assistant Professor. He is currently a Board Certified Behavior Analyst and a Licensed Behavior Analysis in the state of Texas. Dr. Dracobly is the director of the Behavior Analysis Resource Center (BARC), a clinical and research project at the Denton State Supported Living Center (DSSLC). BARC provides students the opportunity to develop clinical skills within the context of interdisciplinary service delivery and conduct research on severe behavior disorders and trauma. Dr. Dracobly is also the faculty supervisor of the Creativity and Problem Solving (CaPS) lab. The CaPS lab conducts translational and applied research focused on response variability and its relation to more complex behavioral repertoires.

Dr. Dracobly's work has been published in the *Journal of Applied Behavior Analysis*, *Behavior Analysis in Practice*, and *Learning and Motivation*. He is currently an Associate Editor for the *Journal of Mental Health Research in Intellectual Disabilities*, serves on the editorial board of *The Journal of Organizational Behavior Management*, and regularly serves as a guest reviewer for the *Journal of Applied Behavior Analysis*, the *European Journal of Behavior Analysis*, and the *Education and Treatment of Children*.

**Richard Smith** received his masters and doctoral degrees at the University of Florida. After receiving his doctoral degree, Smith joined the faculty at the University of North Texas where he served as chair of the Department of Behavior Analysis for 13 of his 25 years on the job. His primary research interest is in the assessment and treatment of behavior disorders in people with intellectual disabilities with specific areas of focus in motivational variables, advances in functional analysis procedures and the use of complex research designs to investigate basic principles underlying the effects of behavioral interventions. His research has resulted in numerous presentations and publications and he has served on the editorial board and as associate editor for the *Journal of Applied Behavior Analysis* for many years. He is the founding director of BARC, where BARC staff and student provide caseload, clinical, and caregiver training services.

evaluation of a large-scale pyramidal staff training program for behavior management. Her original work on this topic was presented at the 2014 meeting of the Association of Behavior Analysis: International conference, and she and her students continue to present extensions and refinements of this work at regional and national conferences.

**Katy Atcheson** received her bachelor's degree in psychology at the University of Nevada, Reno and her master's degree in behavior analysis at the University of North Texas. She is a Board Certified Behavior Analyst and a Licensed Behavior Analysis in the state of Texas. Her primary interests and expertise are in the area of assessment and treatment of severe challenging behavior. Her 16 years of experience at DSSLC includes treating people who engage in extreme, severe behavior and has led to her passion to help and train future behavior analysts, providers and caregivers to better understand and more effectively manage their day-to-day behavioral challenges.
