

Hospital Quality-Based Program: Potentially Preventable Complications (PPC) Hospital-Level Report

Hospital:

NPI:

TPI:

Reporting Period: State Fiscal Year 2023 (September 1, 2022 through August 31, 2023)

Population: All Medicaid and CHIP

Effective Date: State Fiscal Year 2025 (September 1, 2024 through August 31, 2025)

* This is a low-volume hospital

About this Report

Senate Bill (S.B.) 7, 82nd Texas Legislature, First Called Session, 2011, and S.B. 7, 83rd Texas Legislature, Regular Session, 2013, requires HHS to implement a hospital reporting process and reimbursement reductions to hospitals based on their performance in potentially preventable readmissions (PPRs) and potentially preventable complications (PPCs). For the Medicaid Program, actual rates of these potentially preventable events (PPEs) are compared to their expected rates and a final reimbursement adjustment is determined and applied to all claims paid by HHS to each hospital. Calculation of the PPE rates are made using Medicaid/CHIP fee-for-service claims and managed care encounters.

A hospital with an actual-to-expected PPC ratio equal to or greater than 1.10 and equal to or less than 1.25 is subject to a reimbursement adjustment of -2% of the hospital's inpatient claims. An actual-to-expected PPC ratio greater than 1.25 is subject to a reimbursement adjustment of -2.5% of the hospital's inpatient claims. It is important to note that the actual-to-expected ratio is rounded to two decimal places.

HHS can provide underlying detailed data for this report to each hospital following their request (please include full name, email, phone number, NPI, TPI, and hospital name) emailed to MCD_PPR_PPC@hpsc.state.tx.us

Table 4 - State-Wide Hospital PPC Resource Utilization

SWH PPC Resource Util.	25th Percentile	50th Percentile	90th Percentile
PPC Weights	64.1317	30.3372	8.0092

Table 5 - State-Wide Hospital Distributions

SWH Distributions	25th Percentile	50th Percentile	90th Percentile
Total Number of Admissions	1,065	2,301	6,167
Admissions at Risk for PPC	1,065	2,301	6,167
Number of PPC Admissions	10	19	72
Members with PPCs	10	19	70
Actual PPC Counts	12	23	90

Table 6 - Hospital PPC Results by PPC Group

PPC Group	PPC Weights	Fraction of Total PPC Weights	PPC Counts	Fraction of Total PPCs
1 – Extreme Complications				
2 – Cardiovascular-Respiratory Complications				
3 – Gastrointestinal Complications				
4 – Perioperative Complications				
5 – Infectious Complications				
6 – Malfunctions, Reactions, etc.				
7 – Obstetrical Complications				
8 – Other Medical and Surgical Complications				

Table 7 - Hospital PPC Results by PPC Category (Top 40 PPC Categories by PPC Weights)

PPC Category	PPC Weights	Fraction of Total PPC Weights	PPC Counts	Fraction of Total PPCs

PPC Category	PPC Weights	Fraction of Total PPC Weights	PPC Counts	Fraction of Total PPCs
