

How to Download the HHS: Consumer Directed Services Option Video

Download File on a Computer (using Internet Explorer)

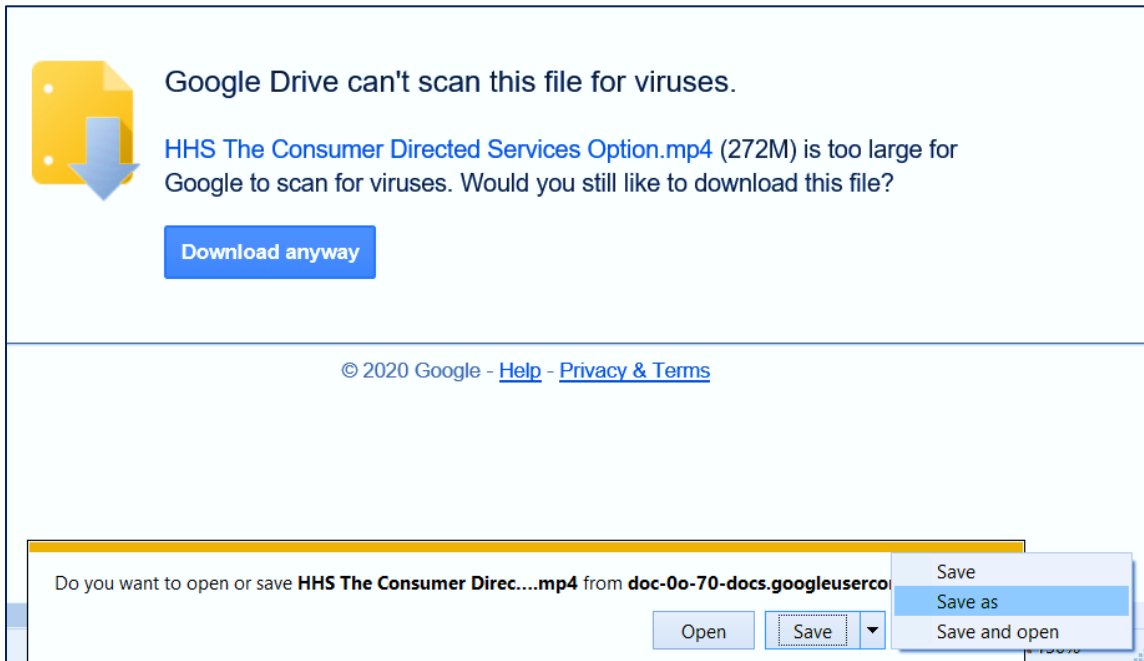

1. Open the Google Drive link.
2. Tap the download icon  in the top right corner.

3. Google Drive can't scan this file for viruses because the file is too large. Tap **Download anyway**.

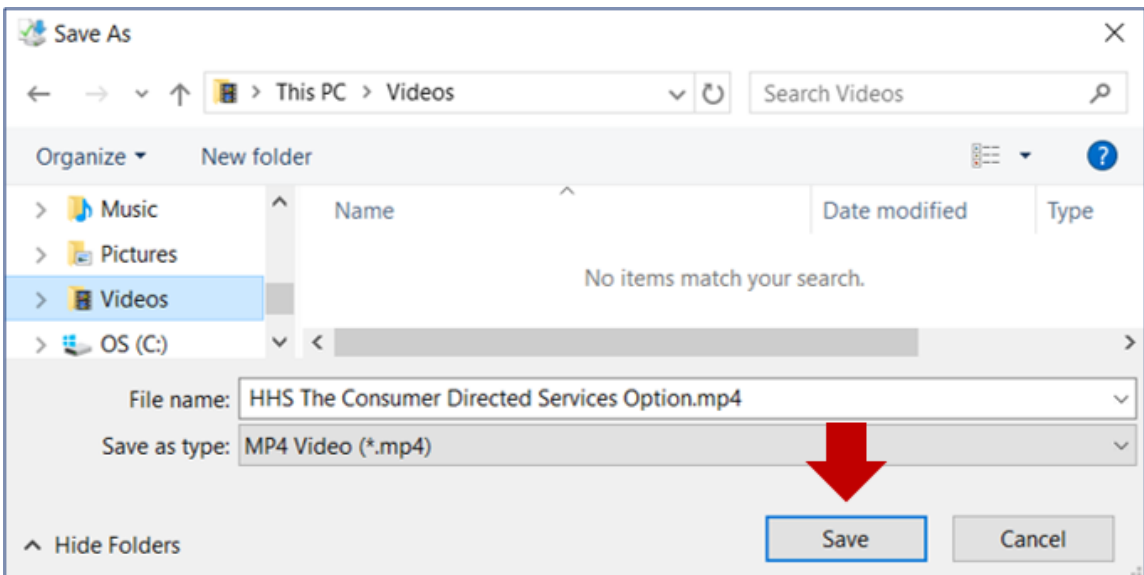

4. Select the downward pointing arrow ▼ beside **Save** in the pop-up bar at the bottom of the screen and select **Save As**.

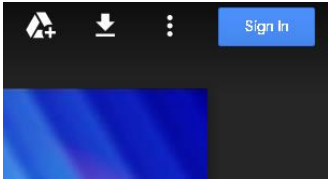

5. Save the file in the desired location, such as on a flash drive.

Note: Depending on the computer's settings, the file may automatically save in the **Downloads** folder. Open the folder to locate the file and then move the file to the desired location.

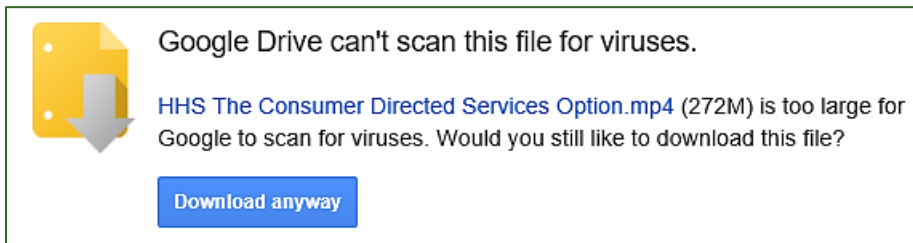

Download File on a Computer (using Chrome)

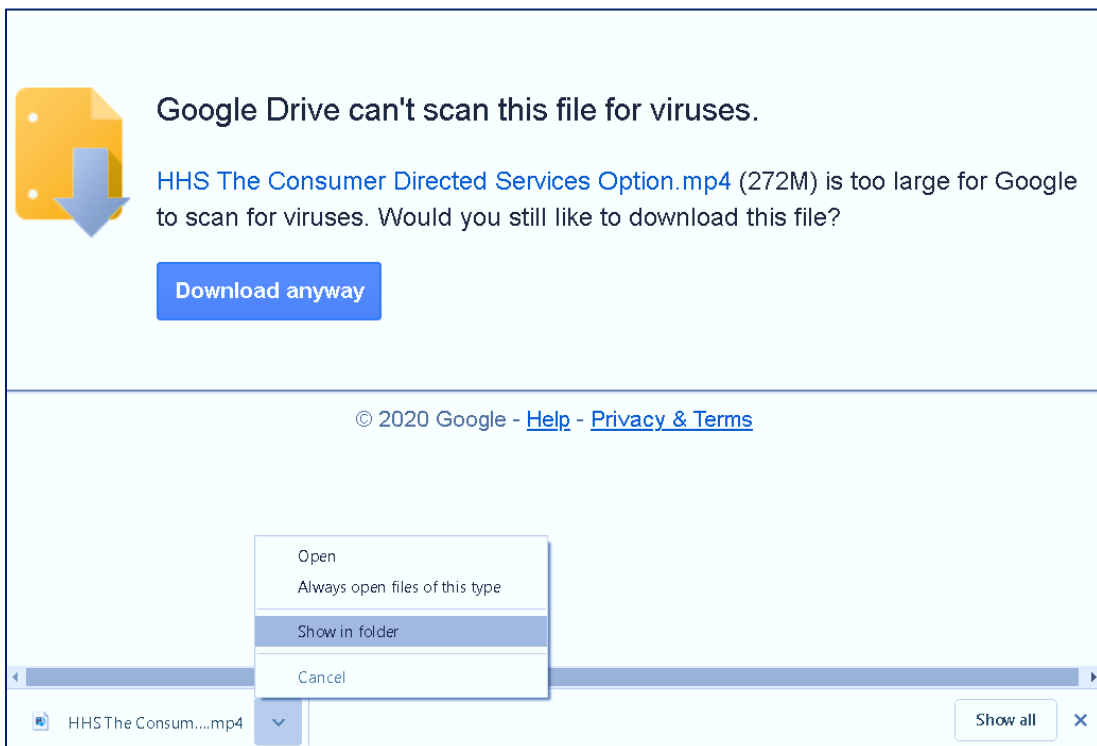

1. Open the Google Drive link.
2. Tap the download icon  in the top right corner.

3. Google Drive can't scan this file for viruses because the file is too large. Tap **Download anyway**.

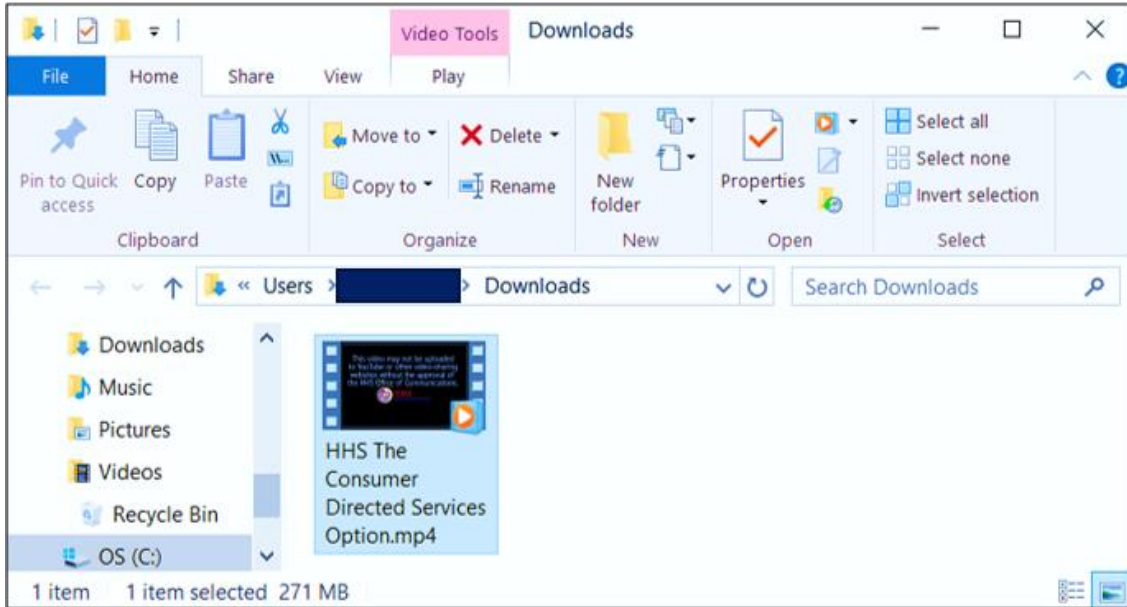

4. Select the downward facing arrow  beside the video name in the pop-up bar at the bottom of the screen and select **Show in folder**.

5. Save the file in the desired location, such as on a flash drive.

Note: Depending on the computer's settings, the file may automatically save in the **Downloads** folder.

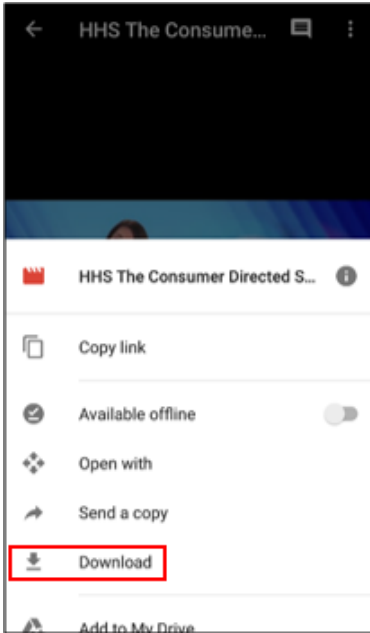

Download File on an Android Phone

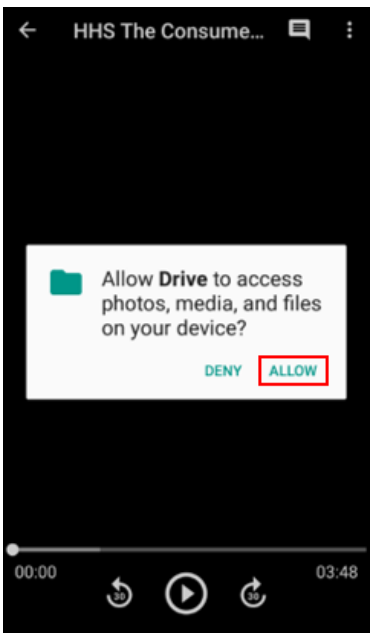

1. Open the Google Drive link on the device.
2. Tap the more options icon  in the top right corner.

3. Tap  Download.

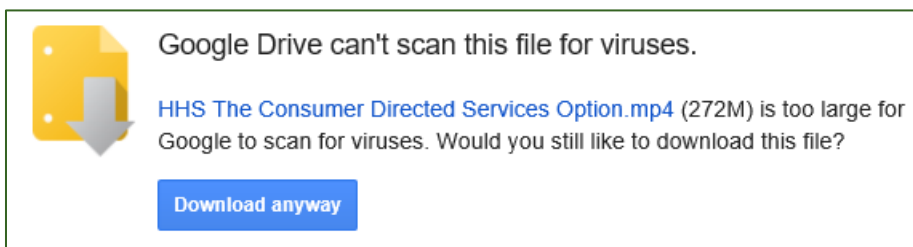

4. Google Drive needs access to the device's photos, media and files. Tap **Allow**.

5. Depending on the device's settings, the video file may save in the **Downloads** folder and/or **Gallery** app.

Download File on an iPhone and iPad
