

**Texas Health & Human Services Commission**  
**Dental Services Scope of Work**

## **DENTAL SERVICES SCOPE OF WORK**

### **1.1 DENTAL PROGRAM SCOPE**

The specifics of the Scope of Work (SOW) for the Dental Program are set forth below, and as appropriately referenced, in any Exhibits to **ATTACHMENT E, HHSC SOLICITATION NO. HHS0002879**, which are incorporated by reference into this Contract.

### **1.2 TRANSITION PHASE SCOPE**

This Section presents the SOW for the Transition Phase of the Contract, which includes those activities that must take place between the time of the Contract's Effective Date and the Operational Start Date.

#### **1.2.1 INTRODUCTION**

The Transition Phase will include a Readiness Review of each Dental Contractor, which must be completed to HHSC's satisfaction prior to a Dental Contractor's Operational Start Date. If for any reason a Dental Contractor does not fully and timely meet the Readiness Review deadline prior to the Operational Start Date, and HHSC has not approved a delay in the Operational Start Date or approved a delay in the Dental Contractor's compliance with the applicable Readiness Review requirement, then HHSC reserves the right to impose any available contractual remedies. Refer to **ATTACHMENT B, HHSC DENTAL CONTRACT TERMS AND CONDITIONS**, and **ATTACHMENT F, DELIVERABLES/LIQUIDATED DAMAGES MATRIX** for the available contractual remedies.

#### **1.2.2 TRANSITION PHASE READINESS REVIEW DURATION**

Dental Contractor must meet the Readiness Review requirements established by HHSC no later than 90 calendar days prior to the Operational Start Date.

#### **1.2.3 TRANSITION PHASE SCHEDULE AND TASKS**

The Transition Phase will begin upon the Effective Date. The Dental Contractor must timely and successfully complete each of the Transition Phase tasks no later than the Operational Start Date. The Dental Contractor is responsible for clearly specifying and requesting information needed from HHSC, HHSC contractors, and providers in a manner that does not delay the schedule or work to be performed. The Dental Contractor agrees to provide all materials and access required to complete the Readiness Review by the dates established by HHSC and if applicable, HHSC's Readiness Review contractor.

#### **1.2.4 TRANSITION START-UP AND PLANNING**

HHSC and the Dental Contractor will work together during the initial Transition Phase to:

1. Define project management and reporting standards;

2. Establish communication protocols between HHSC and the Dental Contractor;
3. Establish contacts with other HHSC contractors;
4. Establish a schedule for key activities and milestones; and
5. Clarify expectations for the content and format of the Contract Deliverables.

The Dental Contractor will be responsible for developing a written work plan, referred to as the Transition Plan, which will be used to monitor progress throughout the Transition Phase. The Dental Contractor must submit a draft Transition Plan with its Proposal and follow up with a detailed final Transition Plan to HHSC no later than 90 calendar days after the Effective Date.

The Dental Contractor's Transition Plan must include a detailed description of the process it will use to ensure continued authorization of dental services. HHSC will provide a file identifying the Dental Members to the Dental Contractor for this purpose. The Dental Contractor's Transition Plan must identify a designated Dental Contractor staff member responsible for the facilitation and oversight of this process. These requirements are further described in **Section 1.3.32**.

## **1.2.5 ADMINISTRATION AND KEY DENTAL CONTRACTOR PERSONNEL**

No later than five calendar days after the Contract's Effective Date, the Dental Contractor must:

1. Designate and identify Key Personnel that meet the requirements of **ATTACHMENT B, HHSC DENTAL CONTRACT TERMS AND CONDITIONS**;
2. Provide résumés of each Key Personnel and the percent of allocated time for each Key Personnel that is dedicated to the Contract;
3. Report on any organizational information that has changed relative to the Dental Contractor's Proposal, such as updated job descriptions and updated organizational charts, if applicable; and
4. Provide the organizational chart and oversight criteria for each Material Subcontractors, including the percentage of time each Material Subcontractor dedicate to the Dental Contractor.

During the Transition Phase, the Dental Contractor must notify HHSC no later than five calendar days following a change in the Key Personnel or Material Subcontractors.

## **1.2.6 ORGANIZATIONAL AND FINANCIAL READINESS REVIEW**

During the Readiness Review, the Dental Contractor must update the organizational and financial information submitted in its Proposal. **Section 7 of ATTACHMENT E, HHSC SOLICITATION NO. HHS0002879**, contains a list of financial statements, corporate background and experience information, and Material Subcontractor information that the Dental Contractor must update for Readiness Review.

During the Readiness Review, HHSC may request from the Dental Contractor certain operating procedures and updates to documentation to support the provision of Services.

The Dental Contractor must provide assurance of the Dental Contractor's understanding of its responsibilities and the Dental Contractor's capability to assume the functions required under the Contract, based in part on the Dental Contractor's assurances of operational readiness, information contained in its Proposal, and in Transition Phase documentation submitted by the Dental Contractor.

At HHSC's election, the Dental Contractor is required to provide a Corrective Action Plan (CAP) in response to any Readiness Review deficiency no later than ten calendar days after the discovery of any such deficiency by HHSC or the Dental Contractor. If the Dental Contractor documents to HHSC's satisfaction that the deficiency has been corrected within ten calendar days of such deficiency notification, a CAP may not be required.

#### **1.2.6.1 SYSTEM TESTING AND TRANSFER OF DATA**

The Dental Contractor must have hardware, software, network, and communications systems with the capability and capacity to handle and operate a Management Information System (MIS) and all subsystems identified in **Section 1.3.29** within the continental United States.

During this Readiness Review task, the Dental Contractor must accept into its system all necessary data files and information available from HHSC or its contractors. The Dental Contractor must install and test all hardware, software, and telecommunications required to support the Contract. The Dental Contractor must define and test modifications to the Dental Contractor's systems required to support the business functions of the Contract.

The Dental Contractor must produce data extracts and receive all electronic data transfers and transmissions. The Dental Contractor must demonstrate the ability to produce a dental services 837D encounter file during the Readiness Review.

If any errors or deficiencies are evident, the Dental Contractor must implement HHSC-approved resolution procedures to address problems identified. The Dental Contractor must provide HHSC, or a designated vendor, with test data files for systems and interface testing for all external interfaces, this includes testing of the required telephone lines for Providers and Dental Members and any necessary connections to the HHSC Enrollment Broker (EB). The EB will provide test Enrollment Files to new Dental Contractor that do not have previous HHSC Enrollment Files. The Dental Contractor must demonstrate its system capabilities and adherence to the resulting Contract specifications during Readiness Review.

#### **1.2.6.1.2 SYSTEM READINESS REVIEW**

During the system Readiness Review, the Dental Contractor must assure HHSC that systems services will not be disrupted or interrupted during the Operations Phase of the Contract. The Dental Contractor must coordinate with HHSC and its contractors to ensure the business and systems continuity for the processing of all dental claims and data as required under the Contract.

The Dental Contractor must submit to HHSC descriptions of interface and data and process flow for each key business process described in **Section 1.3.29** for system-wide functions. The extent to which the claim processing is automated, as required in **Section 1.3.29.4**, will be assessed.

If the Dental Contractor is a current State of Texas vendor, all existing and unresolved projects and systems issues related to hardware, software, claims processing, network, and communications systems must be cured no later than 90 calendar days prior to the Effective Date of the Contract. Uncured issues present after the Effective Date of the Contract will cause the Dental Contractor to fail Readiness Review.

The Dental Contractor must clearly define and document the policies and procedures that will be followed to support day-to-day systems activities. The Dental Contractor must develop and submit for HHSC review and approval the following information no later than 120 calendar days prior to the Operational Start Date:

1. Joint Interface Plan;
2. Security Plan;
3. Disaster Recovery Plan;
4. Business Continuity Plan;
5. Risk Management Plan; and
6. Systems Quality Assurance Plan.

#### **1.2.6.1.2.1 DEMONSTRATION AND ASSESSMENT OF SYSTEM READINESS**

The Dental Contractor must provide documentation on systems and facility security, and provide evidence or demonstrate that it is compliant with HIPAA. The Dental Contractor must provide HHSC with a summary of all recent external audit reports, including findings and corrective actions, relating to the Dental Contractor's proposed systems, including any Statement on Standards for Attestation Engagements No. 16 audits that have been conducted in the past three years. The Dental Contractor must promptly make additional information on the detail of such system audits available to HHSC upon request.

In addition, HHSC will provide to the Dental Contractor a test plan that will outline the activities that need to be performed by the Dental Contractor during Readiness Review, and the Dental Contractor must demonstrate system readiness. The Dental Contractor must execute system readiness test cycles to include all external data interfaces, including those with the Dental Contractor's Material Subcontractors.

HHSC may independently test whether the Dental Contractor's MIS has the capacity to administer the requirements of this Contract. This Readiness Review of a Dental Contractor's MIS may include, but is not limited to, a desk review or an onsite review. HHSC may request from the Dental Contractor additional documentation to support the provision of Medically Necessary Covered Dental Services. Based in part on the Dental Contractor's demonstration of systems readiness, information contained in its Proposal, additional documentation submitted by the Dental Contractor, and any review conducted by HHSC or its contractors, HHSC will assess the Dental Contractor's understanding of its responsibilities and the Dental Contractor's capability to assume the MIS functions required under the Contract.

### **1.2.6.2 OPERATIONS READINESS**

The Dental Contractor must clearly define and document the policies and procedures that will be followed to support day-to-day business activities related to the provision of Medically Necessary Covered Dental Services, including coordination with Subcontractors. The Dental Contractor must clearly document all policies and procedures to produce the Contract Deliverables. The Dental Contractor will be responsible for developing and documenting its approach to quality assurance. HHSC will conduct operation Readiness Reviews during the time period between the Contract Effective Date and the Operational Date, as well as biannually to ensure the Dental Contractors are in compliance with the Contract.

The Dental Contractor must reimburse HHSC for all travel costs incurred by HHSC for onsite Readiness Reviews. For purposes of this section, "travel costs" include HHSC approved airfare, lodging, meals, car rental and fuel, taxi, mileage, parking and other incidental travel expenses incurred by HHSC in connection with the onsite reviews. Reimbursement by the Dental Contractor will be due to HHSC within 30 calendar days of the date that the invoice is issued by HHSC to the Dental Contractor. The Dental Contractor may not require a Social Security number or any W-2/W-9 tax information from state employees as a condition for travel cost reimbursement.

During operations Readiness Review, the Dental Contractor must perform the following activities and submit Deliverables on a schedule specified by HHSC:

1. Develop, or revise existing operations procedures and associated documentation to support the Dental Contractor's proposed approach to conducting operations activities in compliance with the SOW. If the Dental Contractor is an incumbent HHSC Dental Contractor, a Dental Contractor currently providing Texas Medicaid and CHIP dental services, such revisions must reflect the guidance and direction given to the Dental Contractor by HHSC to date, provided such is applicable to the SOW;
2. Submit a comprehensive plan for Network adequacy that includes a list of all contracted and credentialed Providers in a format approved by HHSC. The list must include the Provider types identified in Tex. Gov't Code § 533.005(a)(21)(B)(i), (ii), and (iv). The plan must include a description of additional contracting and credentialing activities scheduled to be completed before the Operational Start Date;
3. Implement a Dental Member services staff training curriculum and a Provider training curriculum, and provide documentation demonstrating compliance with training requirements, such as enrollment or attendance rosters dated and signed by each attendee or other written evidence of the training. Training must meet the requirements of 1 Tex. Admin. Code § 353.105, and include privacy, Member advocacy, Internal Dental Contractor Member Appeal process, HHSC State Fair Hearing process, Medically Necessary Covered Dental Services, Value-added Services (VAS), medical necessity, Dental Member harm identification, issue escalation, prohibitions related to restraint, and community resource navigation;

4. Prepare a coordination plan documenting how the Dental Contractor will coordinate its business activities with those activities performed by HHSC or its contractors, and if any, Material Subcontractors. The coordination plan must include identification of coordinated activities and protocols for the Transition Phase;
5. Submit to HHSC the draft Dental Member handbook, draft Provider manual, draft Provider directory, and draft Dental Member identification card for HHSC's review and approval. The materials must meet the requirements specified in **Section 1.3.20** and include the Critical Elements defined in the **UNIFORM MANAGED CARE MANUAL**. The Dental Contractor must submit a final Dental Member handbook and Provider directory incorporating changes required by HHSC prior to the Operational Start Date;
6. Submit to HHSC the Dental Contractor's proposed Dental Member Complaint and Internal Dental Contractor Appeal processes;
7. Provide sufficient copies of the final Provider directory to HHSC in sufficient time to meet the enrollment schedule;
8. Demonstrate toll-free telephone systems and reporting capabilities for the Dental Member services hotline and the Provider hotline;
9. Submit a written Fraud, Waste, and Abuse (FWA) compliance plan to HHSC for approval no later than 30 calendar days after the Contract's Effective Date. **Section 1.3.1.3.31.1** provides the requirements of the plan.
10. Ensure that, if this function is subcontracted to another entity, the Subcontractor also meets all the requirements in this section and the FWA requirements stated in **Section 1.3.31.1. 1.3.30** Submit model Provider Contracts to HHSC for review during Readiness Review. HHSC may reject or require changes to any model Provider Contract that does not comply with HHSC requirements for these Provider Contracts;
11. Fully inform all Providers about the claim submission process and claim data requirements at least 30 calendar days prior to the Operational Start Date and as a provision within the Dental Contractor's Provider Contract and the Provider manual described in subsection 5 above;
12. Develop and implement a network access assurance program to continually improve Network access and quality. Under this program, the Dental Contractor must provide enhanced payments to qualified Providers. During Readiness Review, the Dental Contractor must submit a written description of its proposed network access assurance program to HHSC, and must receive HHSC's written approval before implementing the program;
13. Develop a privacy notice, commonly referred to as Notice of Privacy Practice (NOPP), as required by HIPAA, including 45 C.F.R. § 164.520. The Dental Contractor must provide HHSC with a copy of its privacy notice during Readiness Review for HHSC approval;
14. Submit a Cultural Competency plan to HHSC for approval. The plan must align with the federal and state standards as described in **Chapter 11.10 of the UNIFORM MANAGED CARE MANUAL**. The Cultural Competency plan must detail how the Dental Contractor implements each component of the related federal and state

standards for such plans. The Dental Contractor must describe how its implementation of these standards impact implementation of the principal standard, which is to “Provide effective, equitable, understandable, and respectful quality care and services that are responsive to diverse cultural health beliefs and practices, preferred languages, health literacy, and other communication needs.”

*Note to Dental Contractors. The above services and Chapter reference in Number 14 may not have been incorporated into the UNIFORM MANAGED CARE MANUAL at the time this Contract was awarded. In the event they have not been, such services will be as part of the current HHSC Uniform Managed Care Manual change process. The Contract will be amended appropriately at that time.*

HHSC may require the Dental Contractor to resubmit one or more of the above items if the Dental Contractor begins providing a new service or benefit, or implements a Major Systems change after the Effective Date.

#### **1.2.6.3 ASSURANCE OF SYSTEM AND OPERATIONAL READINESS**

In addition to successfully providing the Deliverables described in **Section 1.2.4**, the Dental Contractor must assure HHSC that all processes, MIS, and staffed functions are ready and able to successfully assume responsibilities for operations prior to the Operational Start Date, including hiring and training of the Key Personnel, Member services staff, Provider services staff, and MIS staff. The Dental Contractor must also assure HHSC that the MIS system and interfaces are in place and functioning properly; communications procedures are in place; Provider manuals have been distributed; and Provider training sessions have occurred according to the HHSC approved schedule.

HHSC may terminate the Contract, postpone the Operational Start Date, or assess other contractual remedies if the Dental Contractor fails to timely correct all Transition Phase deficiencies within a reasonable cure period, as determined by HHSC.

#### **1.2.6.4 MEMBER ENROLLMENT DURING TRANSITION**

During the Transition period, HHSC will notify potential and current Dental Members of their option to choose a Dental Contractor for the Operations Phase. HHSC will notify current Dental Members about Dental Contractor options starting six months prior to the Operational Start Date. Beginning three months prior to Operational Start Date, HHSC will provide a prospective member file to each Dental Contractor.

The Dental Contractor must:

1. Load the prospective eligibility file, receive daily updates of the prospective eligibility file, and process eligibility changes sent by HHSC;
2. Create a file that will include all pertinent dental and clinical data associated with Dental Members who transition away from their Dental Contractor; and
3. Coordinate with HHSC to determine the appropriate file layouts and timelines for transfers between the Dental Contractor and HHSC.

The Dental Contractor is required to mitigate risk associated with not being prepared for the Operations Phase in coordination with HHSC, with consideration of the following high-level processes:

1. HHSC will identify key events (Readiness Review milestones) based on a project work plan that each Dental Contractor must achieve by a specified time;
2. To ensure that each Dental Contractor is on track to meet these Readiness Review milestones, HHSC will conduct weekly Readiness Review webinars;
3. If a Dental Contractor consistently fails to meet the established Readiness Review milestones, it will be identified as high risk and targeted for increased technical assistance;
4. HHSC will conduct an abbreviated systems and operations Readiness Review six months prior to the Operational Start Date and will tentatively assess a Dental Contractor as “Go” or “No-Go” based on established and published criterion;
5. The “No-Go” determination will be made only in those instances where a Dental Contractor cannot become fully operational by the Operational Start Date, as determined by HHSC. In that case, the Dental Contractor will not be listed as an option for Dental Members selecting a Dental Contractor during initial Dental Member notification;
6. Upon a Dental Contractor's remediation of the issues identified by HHSC to HHSC's satisfaction, the Dental Contractor status will change to “Go” and become an option;
7. Final Readiness Review will occur 90 calendar days prior to go live, and if at this point a Dental Contractor is identified as a “No-Go” then Dental Members will be notified that the Dental Contractor is no longer available as an option and another Dental Contractor must be selected. If a Dental Member does not select a Dental Contractor then HHSC will default a Dental Member into a plan.
8. When the Dental Contractor is able to demonstrate readiness to HHSC, then it will be restored as an option and HHSC will apply the default enrollment criteria specified by HHSC.

#### **1.2.7 TEXAS DEPARTMENT OF INSURANCE AND CENTERS FOR MEDICARE AND MEDICAID SERVICES LICENSURE, CERTIFICATION, OR APPROVAL**

The Dental Contractor must receive Texas Department of Insurance (TDI) licensure, certification, or approval as a dental maintenance organization or an indemnity insurer in all counties in the State no later than 60 calendar days after the Contract's Effective Date. HHSC may terminate the Contract at no additional cost to HHSC and with no penalty for the Dental Contractor's failure to provide HHSC with the required TDI certification or approval.

#### **1.2.8 CONTINUITY OF CARE AND OUT-OF-NETWORK PROVIDERS**

During the Transition Phase, HHSC will require current Dental Contractor to provide any new Dental Contractor with files identifying Dental Members with prior authorizations for

dental services as instructed by HHSC. The Dental Contractor must describe the process it will use to ensure continuation of these services in its Transition Plan, as noted in **Section 1.2.4**. The Dental Contractor must ensure that Providers are educated about and trained regarding the process for continuing these services prior to the Operational Start Date.

### **1.2.9 CONTINUING TRANSITION OBLIGATIONS**

The Dental Contractor must work with HHSC, Providers, and Dental Members to promptly identify and resolve problems identified after the Operational Start Date and to communicate to HHSC, Providers, and Dental Members, as applicable, the steps the Dental Contractor is taking to resolve the problems.

## **1.3 OPERATIONS PHASE SCOPE**

This section describes SOW requirements for the Operations Phase of the Contract which begins on the Operational Start Date. HHSC has additional requirements in **ATTACHMENT B, HHSC DENTAL CONTRACT TERMS AND CONDITIONS** and the **UNIFORM MANAGED CARE MANUAL**. The Respondent is responsible for all requirements set forth in **ATTACHMENT B, HHSC DENTAL CONTRACT TERMS AND CONDITIONS** and the **UNIFORM MANAGED CARE MANUAL**, which is incorporated by reference into the Contract. HHSC may modify these documents as it deems necessary.

### **1.3.1 GENERAL SCOPE OF WORK**

The Dental Contractor must provide Medically Necessary Covered Dental Services to Dental Members enrolled with the Dental Contractor on or after the Operational Start Date.

The Dental Contractor must comply, to the satisfaction of HHSC, with all Contract requirements and all applicable provisions of state and federal laws, rules, regulations, and all state plan or waiver agreements with CMS.

### **1.3.2 ADDITIONAL OPERATIONAL READINESS REVIEWS AND MONITORING EFFORTS**

During the Operations Phase, HHSC may conduct desk or onsite reviews as part of its normal Contract monitoring efforts. Additionally, if the Dental Contractor makes a change to any operational system or undergoes any major transition, it may be subject to additional Readiness Reviews. HHSC will determine whether the proposed changes will require a desk review or an onsite review.

The Dental Contractor must provide HHSC secure access rights, as an authorized or guest user, to all Provider access points, including but not limited to, its Provider portal and call monitoring system for remote monitoring capability. The Dental Contractor must provide HHSC secure access rights, as an authorized or guest user, to its Member portal as described in **Section 1.3.21**.

The Dental Contractor or its designee must be able to demonstrate, upon HHSC's request, sufficient oversight of each Material Subcontractor based on Dental Contractor's assessed risk of Material Subcontractor's performance.

Major Systems Changes are subject to HHSC desk review and onsite review of the Dental Contractor's facilities, as necessary, to test readiness and functionality prior to implementation. Prior to HHSC approval of the Major Systems Change, the Dental Contractor may not implement any changes to its operating systems.

The Dental Contractor must provide HHSC updates to the Dental Contractor's organizational chart relating to MIS and the description of MIS responsibilities at least 30 calendar days prior to the effective date of the change. The Dental Contractor must provide HHSC official points of contact, on an on-going basis, for MIS issues.

During the Operational Phase, HHSC may conduct any Systems Readiness Reviews described in **Section 1.2.6.1.2** or elsewhere in the Contract to validate the Dental Contractor's ability to meet the MIS requirements. The System Readiness Review may include a desk review or onsite review and must be conducted for the following events:

1. A new Dental Contractor is brought into the Dental Program;
2. An existing Dental Contractor changes location; or
3. An existing Dental Contractor changes its processing system, including changes in Material Subcontractors performing MIS or claims processing functions.

Refer to **Section 1.2** for additional information regarding Readiness Reviews and **Section 4.08(c) of ATTACHMENT B, HHSC DENTAL CONTRACT TERMS AND CONDITIONS** for information regarding Readiness Reviews of the Dental Contractor's Material Subcontractors.

### **1.3.3 HHSC PERFORMANCE REVIEW AND EVALUATION**

In accordance with **Section 12.01 of ATTACHMENT B, HHSC DENTAL CONTRACT TERMS AND CONDITIONS**, HHSC, at its discretion, will review, evaluate and assess the development and implementation of the Dental Contractor's policies and procedures related to the timely and appropriate delivery of Services and Deliverables as required under the Contract. Reviews, evaluations, and assessments may include the following:

1. Dental Contractor's reviews of its own policies and procedures, and ensuing corrective actions taken;
2. Dental Contractor internal policies;
3. Dental Contractor internal procedures;
4. Dental Contractor workflows;
5. Dental Contractor use of prior authorizations;
6. Dental Contractor utilization review process;
7. Assessment of the Dental Contractor service planning package;
8. The potential for underutilization of services; assessments; delivery of services; and
9. Case notes.

Upon notice and at no charge to HHSC, the Dental Contractor and its Subcontractors must cooperate with HHSC and provide any assistance required to complete the review, evaluation, or assessment including prompt and adequate access to related documents, internal systems containing Dental Member information and records, and appropriate staff, as well as, utilization management documentation, case notes, and service locations or facilities that are related to the scope of services provided under the Contract.

HHSC may monitor the Dental Contractor to confirm the Dental Contractor is using prior authorization and Utilization Review processes that ensure appropriate utilization and prevent overutilization or underutilization of services. A Dental Contractor providing dental services must also comply with the terms of **Section 1.3.25**.

### **1.3.4 MEDICALLY NECESSARY COVERED DENTAL SERVICES**

The Dental Contractor is responsible for authorizing, arranging, coordinating, and providing Medically Necessary Covered Dental Services in accordance with the requirements of this Contract. The Dental Contractor must provide Medically Necessary Covered Dental Services to all Dental Members beginning on the Member's date of enrollment regardless of pre-existing conditions, prior diagnosis, receipt of any prior dental health care services, or for any other reason, subject to the HHSC-prescribed benefit limitations. The Dental Contractor must not impose any pre-existing condition limitations or exclusions, or require evidence of insurability to provide coverage to any Dental Member.

The Dental Contractor must not practice discriminatory selection, or encourage segregation among the total group of eligible Dental Members by excluding, seeking to exclude, or otherwise discriminating against any group or class of individuals.

- 1) Dental Contractor is responsible for providing all Medically Necessary Covered Dental Services available to clients of the Fee-for-Service (FFS) program to the Dental Contractor's eligible Medicaid members, in no less than the amount, duration, and scope as is available through FFS, as reflected in the state plan under Title XIX of the Social Security Act Medical Assistance Program and detailed in the Texas Medicaid Provider Procedures Manual (TMPPM) as **ATTACHMENT H, TEXAS MEDICAID PROVIDER PROCEDURES MANUAL**, and as required by 42 C.F.R. subpart B of Part 441 for Members under the age of 21, and in accordance with 42 C.F.R. § 438.210, with the exception of Non-capitated Services explained in **Section 1.5.1.5**. Dental Contractor must provide the services described in the most recent TMPPM and any updates thereto. The Dental Contractor is responsible for educating Dental members about the availability of Non-capitated Services, and referring Dental members to and helping coordinate care for Non-capitated Services.

**ATTACHMENT G, CHIP MEDICALLY NECESSARY COVERED DENTAL SERVICES**, includes a comprehensive list of Medically Necessary Covered Dental Services for CHIP members, including preventive, diagnostic, restorative, endodontic, periodontal, prosthodontic, and oral and maxillofacial surgery.

The Dental Contractor is responsible for paying for or reimbursing for all Medically Necessary Covered Dental Services provided to CHIP members, up to maximum benefit amounts.

Dental Members who receive Medically Necessary Covered Dental Services are not responsible for paying the costs of such services, other than any authorized cost-sharing under CHIP, unless the Dental Member has exhausted his or her applicable maximum benefit limits.

Certain dental services are benefits of CHIP, but are excluded from the Covered Dental Services provided by the Dental Contractor. The Dental Contractor is not responsible for coverage of or payment for these "Non-capitated Services," which are described more fully in **Section 1.5.1.5**. The Dental Contractor is responsible for educating CHIP Dental members about the availability of these Non-capitated Services, and referring CHIP Dental members to and helping coordinate care for these Non-capitated Services.

Medically Necessary Covered Dental Services for Medicaid and CHIP Dental Members are subject to change due to changes in federal and state law; changes in the Medicaid or CHIP state plan; changes in Medicaid or CHIP policy; and changes in dental practice, protocols, or technology.

In the development of medical necessity determinations, the Dental Contractor must adopt practice guidelines that:

1. Are based on valid and reliable clinical evidence or a consensus of oral health care professionals in the particular field;
2. Consider the needs of the Dental Contractor's Members;
3. Do not conflict in part or in whole with state or federal policy;
4. Are adopted in consultation with contracting oral health care professionals;
5. Are reviewed and updated periodically as appropriate or as requested by HHSC; and
6. Are shared with Providers in the Dental Contractor Network as a means of transparency.

### **1.3.5 VALUE-ADDED SERVICES**

The Dental Contractor may propose additional services for coverage which are Value-added Services (VAS). VAS may be actual dental services, benefits, or positive incentives that HHSC determines will promote oral health, healthy lifestyles, health literacy, service access, and improved oral health outcomes among Dental Members. If approved by HHSC, VAS may also include transportation. A VAS must not be Medicaid or CHIP benefits covered under the Contract. Best practice approaches to delivering Medically Necessary Covered Dental Services are not considered VAS.

The Dental Contractor must offer VAS to all Dental Members, but may distinguish among an identified group or category of Dental Members. VAS do not need to be consistent between Medicaid and CHIP.

Any VAS that the Dental Contractor elects to provide must be provided at no additional cost to HHSC. The costs of VAS are not reportable as Allowable Costs on the Financial Statistical Report (FSR) for either dental or administrative expenses, and are not factored into the rate-setting process. In addition, the Dental Contractor must not pass on the cost of the VAS to Dental Members or Providers. HHSC may collect data on VAS costs in the FSR or elsewhere, for informational purposes.

The Dental Contractor may offer discounts on non-covered benefits to Dental Members as VAS, provided that the Dental Contractor complies with Tex. Ins. Code § 1451.2065. The Dental Contractor must ensure that Providers do not charge Members for any other cost-sharing for a VAS, including copayments or deductibles.

The Dental Contractor must specify the conditions and parameters regarding the delivery of each VAS and must clearly describe any limitations or conditions specific to each VAS in the Dental Member handbook. The Dental Contractor must also include a disclaimer in its Marketing Materials and Provider directory indicating that restrictions and limitations may apply to VAS.

The Dental Contractor's proposed VAS must be approved by HHSC prior to implementation. The Dental Contractor must use HHSC's template for submitting proposed VAS. See **Chapter 4.4 of the UNIFORM MANAGED CARE MANUAL**. Once approved by HHSC, this document will be incorporated by reference into the Contract.

Dental Contractor will be given the opportunity to add, enhance, delete, or reduce VAS once per State Fiscal Year (SFY), with changes to be effective September 1. HHSC may allow additional modifications to VAS if Medically Necessary Covered Dental Services are amended by HHSC during a SFY. The Dental Contractor must submit requests to add, enhance, delete, or reduce a VAS to HHSC by April 1 of each SFY to be effective the following September 1.

Once requests are approved, the Dental Contractor must not reduce or delete any VAS until September 1. When the Dental Contractor requests deletion or reduction of a VAS, the Dental Contractor must include information regarding the processes by which the Dental Contractor will notify Dental Members and revise Member Materials and Marketing Materials. See **Chapter 4.4 of the UNIFORM MANAGED CARE MANUAL**.

A Dental Contractor's request to add a VAS must at least:

1. Define and describe the proposed VAS;
2. Identify the category or group of Dental Members eligible to receive the VAS, if it is a type of service that is not appropriate for all Dental Members;
3. Describe any limitations or restrictions that apply to the VAS;
4. Identify the Providers or entities responsible for providing the VAS;
5. Describe how the Dental Contractor will identify the VAS in its financial statistical report (FSR), as applicable;
6. Propose how and when the Dental Contractor will notify Providers and Dental Members about the availability of such VAS;
7. Describe the process by which a Dental Member may obtain or access the VAS, including any action required by the Dental Member, as appropriate;

8. Include a statement that the Dental Contractor will provide such VAS for at least 12 months following HHSC approval; and
9. Describe how the Dental Contractor will identify the VAS in administrative data (e.g., Encounter Data), and in Encounters, FSRs, and in any other reports to HHSC.

A Dental Contractor must not include a VAS in any material distributed to Dental Members or prospective members until the Dental Contractor obtains HHSC's approval. If a VAS is deleted, the Dental Contractor must notify each Dental Member that the service is no longer available through the Dental Contractor. The Dental Contractor must also revise all materials distributed to prospective members to reflect the change in VAS. These materials are subject to review and approval by HHSC as outlined in **Section 1.3.20.1**.

### **1.3.6 CASE-BY-CASE SERVICES**

The Dental Contractor may offer additional benefits that are outside the capitation rate and scope of Medically Necessary Covered Dental Services to individual Dental Members on a case-by-case basis, based on medical necessity, cost-effectiveness, the wishes of the Dental Member or Dental Member's Legally Authorized Representative (LAR), and the potential for improved dental health status of the Dental Member. In compliance with **Section 9.01 of ATTACHMENT B, HHSC DENTAL CONTRACT TERMS AND CONDITIONS**, the Dental Contractor must maintain documentation of authorized case-by-case services that includes the reasons for the approval. Case-by-case services authorized by the Dental Contractor are not considered in the rate-setting process, are provided by the Dental Contractor at no cost to HHSC, the Dental Member, or Provider, and must be appropriately reported in the Dental Contractor's FSR.

### **1.3.7 COORDINATION OF NON-CAPITATED SERVICES**

The Dental Contractor is not responsible for coverage or payment of Non-capitated Services, including Emergency Dental Services provided to CHIP members in a Hospital or ambulatory surgical center setting. These Non-capitated Services are part of the medical benefit provided by CHIP. The CHIP medical benefit provides limited emergency dental coverage for dislocated jaw, traumatic damage to teeth, and removal of cysts; treatment of oral abscess of tooth or gum origin; treatment and devices for craniofacial anomalies; and drugs. The CHIP medical benefit also provides coverage for hospital, physician, and related medical services (e.g. anesthesia) associated with dental care in these settings.

Under Medicaid, Emergency Dental Services in a Hospital or ambulatory surgical setting are also Non-capitated Services provided as part of the medical benefit paid by traditional Medicaid FFS or Medicaid medical MCOs. Medicaid medical benefits provide for coverage of some dental related services, including but not limited to, dislocated jaw, traumatic damage to teeth and supporting structures, removal of cysts, treatment of oral abscess of tooth or gum origin, treatment and devices for correction of craniofacial anomalies, and drugs. The Medicaid medical benefit also provides for hospital, physician, and related medical services (e.g. anesthesia and facility fees) associated with dental care in these settings.

The Dental Contractor must educate Dental Members regarding the availability of Non-capitated Services and appropriate referrals for Dental Members to obtain or access these services. The Dental Contractor must inform Providers that bills for all Non-capitated Services must be submitted to the appropriate CHIP or Medicaid MCOs or HHSC's Claims Administrator.

### **1.3.8 ACCESS TO CARE**

All Medically Necessary Covered Dental Services must be available to Dental Members on a timely basis, in accordance with appropriate dental guidelines, and consistent with generally accepted practice parameters, and the requirements in the Contract. The Dental Contractor must ensure that all Dental Members have access to a choice of Providers for all Medically Necessary Covered Dental Services. If the Dental Contractor is unable to meet this standard, the Dental Contractor must request an exception from HHSC.

The Dental Contractor must comply with the applicable access requirements established by TDI under 28 Tex. Admin. Code § 3.9208 and § 11.1607 for all Dental Contractor operating in Texas, except as otherwise required by the Contract. Where conflicts exist between TDI access requirements and the Contract, the shortest mileage and timeframe requirements will apply.

Providers must retain the authority to control the number of Dental Members they accept into their practice. The Dental Contractor cannot require a Provider to maintain an Open or closed panel.

The Dental Contractor must ensure that Providers offer office hours to Dental Members that are at least equal to those offered to members of the Dental Contractor's commercial lines of business, or to Fee-for-Service participants. The Dental Contractor must ensure all Providers' locations are accessible to Dental Members.

Upon the request of a Provider or Dental Member, the Dental Contractor must provide a referral to an Out-of-Network (OON) provider if Medically Necessary Covered Dental Services are not available through the Provider, within the timeframes noted in **Section 1.3.8.1**. The Dental Contractor must fully reimburse the OON provider in accordance with the OON methodology for Medicaid as defined by HHSC, and for CHIP, at the usual and customary rate defined by TDI in 28 Tex. Admin. Code § 11.506.

The Dental Contractor must not require the Dental Member to pay for any Medically Necessary Covered Dental Services by Providers except HHSC-specified copayments for CHIP Dental Members, where applicable.

#### **1.3.8.1 APPOINTMENT ACCESSIBILITY**

Through its Network composition and management, the Dental Contractor must ensure that the following standards for appointment accessibility are met. The standards are measured from the date of presentation or request, whichever occurs first:

1. Urgent care, including urgent specialty care, must be provided within 24 hours.

2. Therapeutic and diagnostic care must be provided within 14 calendar days.
3. Main Dentists must make referrals for specialty care on a timely basis, based on the urgency of the Dental Member's oral health condition, but no later than 30 calendar days.
4. Preventive dental must be provided within 14 calendar days. Services should be offered to CHIP members in accordance with the American Academy of Pediatric Dentistry (AAPD) periodicity schedule, and to Medicaid members who are 6 months through 20 years of age, with dental checkups occurring at 6-month (180-day) intervals, and thereafter, in accordance with the AAPD periodicity schedule.
5. Non-urgent specialty care must be provided within 60 calendar days of authorization.

### **1.3.8.2 ACCESS TO NETWORK PROVIDERS**

The Dental Contractor's Network must have dental Providers in sufficient numbers, and with sufficient capacity, to provide timely access in accordance with the appointment accessibility standards in **Section 1.3.8.1**.

For each provider type, the Dental Contractor must provide access to Providers that are not closed to new Dental Members for at least 90 percent of Dental Members in each Dental Reporting Region within the prescribed distance or time standard for each SFY Quarter. For the purposes of this section, counties will be designated as Metro, Micro, or Rural and as defined in **Exhibit "E" to ATTACHMENT E, HHSC SOLICITATION NO. HHS0002879, Access Standards Map**. The county designation is based on population and density parameters. Dental Members' residences in eligibility files with HHSC will be used to assess distance and travel times.

HHSC will track Dental Contractor's performance. HHSC will run geo-mapping reports which will measure distance and travel time from the Dental Member to the Provider. HHSC will compile the reports related to distance and travel time based on each Dental Contractor's Network. HHSC will share identified deficiencies with the Dental Contractor. Geo-mapping reports will be based on the provider data on file at HHSC for the first month of the SFY quarter in which the analysis is conducted. For the purposes of HHSC geo-mapping analysis, Dental Contractor meeting either the distance or travel time standards specified in the Contract will be considered in compliance.

### **1.3.8.3 DENTIST ACCESS**

#### **1.3.8.3.1 MAIN DENTISTS**

The Dental Contractor must ensure at least 90 percent of Dental Members have access to two or more Main Dentists accepting new patients in its Network within the following number of miles or travel time of the Dental Member's residence:

1. Dental Members residing in a Metro County: 30 miles or 45 minutes;
2. Dental Members residing in a Micro County: 30 miles or 45 minutes; and
3. Dental Members residing in a Rural County: 75 miles or 90 minutes.

### **1.3.8.3.2 SPECIALISTS**

The Dental Contractor must ensure that 90 percent of all Dental Members have access to at least one:

1. Pediatric dentist within 30 miles or 45 minutes of the Dental Member's residence for Metro and Micro counties, and 75 miles and 90 minutes of the Dental Member's residence for Rural Counties;
2. Orthodontist within 75 miles or 90 minutes of the Dental Member's residence: and an endodontist, periodontist, prosthodontist, and oral surgeon within 75 miles or 90 minutes of the Dental Member's residence. Dental Contractors must make best efforts to include orthodontists who provide cleft/craniofacial services in their Networks.

### **1.3.8.4 EXCEPTION PROCESS**

HHSC will consider requests for exceptions to the choice, distance, and travel time standards for all provider types under limited circumstances (e.g. if no appropriate provider types are located within the distance standard). Each exception request must be supported by information and documentation as specified in HHSC's exception request template located in the **UNIFORM MANAGED CARE MANUAL**. Exceptions may be granted when a Dental Contractor has established, through utilization data, that a normal pattern for securing dental care services within a Dental Reporting Region does not meet these standards, or when a Dental Contractor is providing care of a higher skill level or specialty than the level which is available within a Dental Reporting Region. Exceptions may be granted only for a specific amount of time at HHSC's discretion.

### **1.3.8.5 MONITORING ACCESS**

The Dental Contractor is required to design, develop, and implement a Provider directory verification survey to verify that Provider enrollment and other practice information is up to date in its Provider directories according to the Contract and specifications in **Chapters 3.17 and 3.25 of the UNIFORM MANAGED CARE MANUAL**. The survey must be conducted each SFY.

The survey must include verification of current Provider directory information, including the following elements and evidence that known changes were monitored to ensure updates to new information occurred within two weeks of receipt of updated Provider information:

1. Provider name;
2. Practice physical address;
3. Phone number;
4. Office hours;
5. Days of operation;
6. Practice limitations;
7. Languages spoken;
8. Provider type or specialty;

9. Length of time a Dental Member must wait between scheduling an appointment and receiving treatment;
10. Accepting new patients (Main Dentists only);
11. Texas Health Steps Provider (Main Dentists only);
12. Accessibility of the Provider offices, per Americans with Disability Act requirements; and

Dental Contractor must conduct the survey through its online Provider portal, telephone calls, onsite visits, email, or other methods approved by HHSC to collect and verify information. The Dental Contractor must survey at least 25 percent of each of the following provider groups:

1. Main Dentists, and
2. Specialists.

The Dental Contractor must collect, analyze, and submit survey results as specified in **Chapter 5.4.1.10 of the UNIFORM MANAGED CARE MANUAL**. If a Provider has different information than what the Dental Contractor has listed in Provider directories, within two weeks of receipt of the information, the Dental Contractor must update the information in its records and direct Providers to update information with HHSC's Claims Administrator. The Dental Contractor must enforce access and other Network standards required by the Contract and take appropriate action with Providers whose performance is determined by the Dental Contractor to be out of compliance.

### **1.3.9 MAIN DENTISTS**

The Dental Contractor must develop a Network of Main Dentists consisting of general dentists, pediatric dentists, Federally Qualified Health Centers (FQHCs), and Rural Health Clinics (RHCs), that will provide preventive care and refer Dental Members to specialty care as needed.

The Dental Contractor must require Main Dentists to provide Dental Members with diagnostic and preventive services in accordance with the AAPD recommendations - see [http://www.aapd.org/media/Policies\\_Guidelines/G\\_Periodicity.pdf](http://www.aapd.org/media/Policies_Guidelines/G_Periodicity.pdf). The Dental Contractor must make best efforts to ensure that Main Dentists follow these dental periodicity requirements. These best efforts include, but are not limited to, Provider education, Provider profiling, monitoring, and feedback activities.

The Dental Contractor must require Main Dentists to assess the dental needs of Dental Members for referral to specialty care providers and provide referrals as needed. The Dental Contractor must ensure that Main Dentists assess Members' needs for referrals and make such referrals. The Dental Contractor must have provisions in place that ensure referrals to specialists are processed within 72 hours after receiving the referral from the Provider. The Dental Contractor must require Main Dentists to coordinate the Dental Members' care with specialty care providers after each referral. The Dental Contractor must address specialty care in its Provider education activities, and review Provider referral patterns.

The Dental Contractor must assist the Dental Member in selecting a Main Dentist within 30 calendar days of enrollment with the Dental Contractor. If the Member has not selected a Main Dentist within 30 calendar days of enrollment, the Dental Contractor must assign the Member to a Main Dentist. This automated assignment is done using an automated algorithm approved by HHSC that considers:

1. The Dental Member's established history with a Main Dentist, as demonstrated by Encounter history with the Provider in the preceding year, if available;
2. The geographic proximity of the Dental Member's home address to the Main Dentist;
3. Whether the Provider serves as the Main Dentist to other children in the Dental Member's household who are enrolled in Medicaid or CHIP;
4. Limitations on default assignment, such as restrictions on age and capacity by the Main Dentist; and
5. Other criteria as approved by HHSC.

The Dental Contractor must allow Main Dentists to request a Dental Member to be reassigned to another Main Dentists for any of the following reasons:

1. The Dental Member is not included in the Main Dentist's scope of practice;
2. The Dental Member is noncompliant with dental advice;
3. The Dental Member consistently displays unacceptable office decorum; or
4. The Dental Member's and Main Dentist's relationship is not mutually agreeable.

Through its Provider Contracts, the Dental Contractor must require that Dental Members have 24 hours a day, 7 days a week access to Main Dentists. Through its Provider Contracts, the Dental Contractor must require such access with the following acceptable and unacceptable telephone coverage for Dental Members to contact Main Dentists after normal business hours. Normal business hours are at the discretion of each individual Main Dentist.

Acceptable coverage after normal business hours includes all of the following:

1. The office telephone is answered after normal business hours by an answering service, which meets the language requirements of each of the Prevalent Languages and can contact the Main Dentist or another designated dental Provider in emergency situations. The answering service, Main Dentist, or his or her designee must be able to provide the Dental Member instructions on accessing Emergency Dental Services. For calls regarding non-emergent conditions received by an answering service, the Main Dentist or his or her designee must respond within four hours after normal business operations resume;
2. The office telephone is answered after normal business hours by a recording in the language of each of the Prevalent Languages, directing the Member to call another number to reach the Main Dentist or another dental Provider designated by the Main Dentist. Someone must be available to answer the designated Provider's telephone. Another recording is not acceptable; and,

3. The office telephone is transferred after normal business hours to another location where someone will answer the telephone and be able to contact the Main Dentist or another dental Provider, who can return the call within four hours.

Unacceptable after normal business hours coverage:

1. The office telephone is only answered during office hours;
2. The office telephone is answered after normal business hours by a recording that tells Members to leave a message;
3. The office telephone is answered after normal business hours by a recording that directs Members to go to an Emergency room for any services needed; and
4. Returning calls received after normal business hours more than four hours after normal business hours resume.

The Dental Contractor is encouraged to include in its Network Providers who offer dental care services during evening and weekend hours.

### **1.3.9.1 MAIN DENTIST NOTIFICATIONS**

The Dental Contractor must furnish each Main Dentist with a current list of enrolled Dental Members assigned to that Provider no later than five Business Days after the Dental Contractor receives the Enrollment File from the EB each month. The Dental Contractor may offer and provide such enrollment information in alternative formats when such format is acceptable to the Main Dentist.

### **1.3.9.2 PROVIDER NETWORK**

The Dental Contractor must maintain a Network with Open Panels sufficient to provide all Dental Members with access to the full range of Medically Necessary Covered Dental Services required under the Contract. The Dental Contractor must ensure its Providers and Subcontractors meet all state and federal eligibility criteria, reporting requirements, and any other applicable rules or regulations, as amended, which relate to the Contract.

The Network must be responsive to the linguistic, cultural, and other unique needs of any minority, or physically, intellectually, or cognitively disabled individuals, or other special population served by the Dental Contractor, including the capacity to communicate with Dental Members in languages other than English, when necessary, as well as, with those who are blind, deaf-blind, deaf, or hearing impaired.

The Dental Contractor's initial base of Providers may consist primarily of Providers currently participating in Medicaid or CHIP. The Dental Contractor must also recruit other Providers, particularly in Medically Underserved Areas. The Dental Contractor must seek qualified Providers currently serving Dental Members to participate in its Network. Dental Contractor utilizing OON providers to render services to their Dental Members must not exceed the utilization standards established in 1 Tex. Admin. Code § 353.4.

In addition, if applicable, the Dental Contractor's Network must include a sufficient number of Indian Health Care Providers to ensure that eligible Dental Members enrolled with the Dental Contractor have timely access to services.

### **1.3.10 PROVIDER CONTRACT REQUIREMENTS**

The Dental Contractor must enter into written Provider Contracts with properly credentialed Providers. The Dental Contractor's contract with Providers must be in writing, must be in compliance with applicable federal and state laws and regulations, and must include the minimum requirements specified in **Chapter 8.1 of the UNIFORM MANAGED CARE MANUAL**. The Dental Contractor must give each Provider a copy of its executed contract within 45 calendar days of execution.

If licensure or certification is required to provide a Covered Dental Service, the Provider Contract must ensure that a Provider is licensed or certified in the State of Texas, except as provided in **Section 1.3.17**. The Provider Contract must ensure that all Providers comply with all state and federal laws governing the provision of Medically Necessary Covered Dental Services. The Dental Contractor must not contract with Providers who are under sanction or exclusion from Medicaid or CHIP.

The Dental Contractor is prohibited from requiring a Provider or Provider group to enter into an exclusive contracting arrangement with the Dental Contractor as a condition for participation in its Network. The Dental Contractor may not enter into a capitated, per-member-per-month, payment arrangement with a provider.

### **1.3.11 FIRST DENTAL HOME SERVICES FOR MEDICAID MEMBERS**

The First Dental Home is a package of dental services aimed at improving the oral health of children 6-35 months of age. Its purpose is to provide simple, consistent messages that promote the importance of oral health to parents and caregivers of very young children and to keep children free from oral disease. The First Dental Home visit can be initiated as early as 6 months of age and must include, but is not limited to, the following:

1. Comprehensive oral examination;
2. Oral hygiene instruction with primary caregiver;
3. Dental prophylaxis, if appropriate;
4. Topical fluoride varnish application when teeth are present;
5. Caries risk assessment; and
6. Dental anticipatory guidance.

To provide First Dental Home services, Providers must have the appropriate certification from HHSC Texas Health Steps. Training for certification to provide First Dental Home services is available as a free continuing education course on the Texas Health Steps website at [www.txhealthsteps.com](http://www.txhealthsteps.com). Dental Contractor is responsible for verifying that Providers who submit claims for First Dental Home services have the appropriate certification from HHSC Texas Health Steps.

### **1.3.12 PROVIDER CREDENTIALING AND RE-CREDENTIALING**

Dental Contractor must utilize the Texas Association of Health Plans' (TAHP) contracted Credentialing Verification Organization (CVO) as part of its credentialing and recredentialing process regardless of membership in the TAHP. The CVO is responsible for receiving completed applications, attestations, and primary source verification documents. The Dental Contractor retains the sole responsibility for credentialing the Provider.

At least once every three years, the Dental Contractor must review and approve the credentials of all participating Providers. The Dental Contractor may subcontract with another entity to which it delegates credentialing activities, if the delegated credentialing is maintained in accordance with the National Committee for Quality Assurance delegated credentialing requirements and HHSC defined requirements.

At a minimum, the scope and structure of a Dental Contractor's credentialing and re-credentialing processes must be consistent with recognized Dental Contractor industry standards and relevant state and federal regulations including 28 Tex. Admin. Code §§ 11.1402(c) and 11.1902, relating to provider credentialing and notice. For the Medicaid Program, Dental Contractor must also comply with 42 C.F.R. §§ 438.12 and 438.214. The re-credentialing process must take into consideration Provider performance data including Member Complaints and Appeals, quality of care, and Utilization Management.

The Dental Contractor must complete the credentialing process for a new provider, and its claims system must be able to recognize the provider as a Provider no later than 90 calendar days after receipt of a complete application.

If an application does not include required information, the Dental Contractor must notify the Provider in writing of all missing information no later than 5 Business Days after receipt. If the provider responds with the missing information within 10 calendar days of receipt of the written notice, the Dental Contractor must complete the process within 90 calendar days from receipt of the original application. If the provider responds with the missing information after more than 10 calendar days of receipt of the written notice, the Dental Contractor has 90 calendar days to complete the credentialing process from the date of receipt of the completed application.

The Dental Contractor must not discriminate for the participation, reimbursement, or indemnification of any provider who is acting within the scope of his or her license or certification under applicable state law, solely on the basis of that license or certification. If the Dental Contractor declines to include individual or groups of providers in its Network, it must give the affected providers written notice of the reasons for its decision. The Dental Contractor may not require providers to participate in the Dental Contractor's other lines of business in order to participate in the Dental Program. Credentialing documentation must be submitted to HHSC upon request.

### **1.3.12.1 EXPEDITED CREDENTIALING PROCESS**

The Dental Contractor must establish and implement an expedited credentialing process, as required by Tex. Gov't Code § 533.0064, that allows applicant providers to provide services to Members on a provisional basis for the following provider types:

1. Dentists; and
2. Dental specialists, including dentists and physicians providing dental specialty care.

The Dental Contractor must allow providers to qualify for expedited credentialing if the provider:

1. Is a member of an established dental care provider group that has a current contract in place with a Dental Contractor;
2. Is a Medicaid enrolled provider;
3. Agrees to comply with the terms of the contract between the Dental Contractor and the dental care provider group, and
4. Timely submits all documentation and information required by the Dental Contractor, as necessary, for the Dental Contractor to begin the credentialing process.

Additionally, if a provider qualifies for expedited credentialing, the Dental Contractor's claims system must be able to process claims from the provider as if the provider was a Network Provider no later than 30 calendar days after receipt of a complete application, even if the Dental Contractor has not yet completed the credentialing process.

### **1.3.12.2 BOARD CERTIFICATION STATUS**

The Dental Contractor must maintain a policy with respect to pediatric dentists and specialty providers that encourages participation of board-eligible and board-certified Providers in the Network. The Dental Contractor must make information on the percentage of board-eligible and board-certified pediatric dentists, and specialty Providers by specialty in the Network available to HHSC upon request.

### **1.3.13 PROVIDER RELATIONS INCLUDING MANUAL, MATERIALS, AND TRAINING**

The Dental Contractor must maintain a provider relations presence in Texas. If the provider relations presence is a named provider relations specialist, upon a change of that specialist, the Dental Contractor must notify impacted Providers within ten calendar days of the change. Notification must be in writing, either through email, or in the Provider portal. The notification must include the new provider relations specialist's name, phone number, and email address.

The Dental Contractor must designate a dedicated provider relations email address or telephone number for Provider relations issues requiring additional follow up or escalation. The Dental Contractor must provide an email response or returned phone call to the Provider within three Business Days to all inquiries received; an auto-generated or pre-

recorded response acknowledging the inquiry does not meet this requirement.

### **1.3.13.1 PROVIDER MANUAL**

The Dental Contractor must prepare and issue a Provider manual to all existing Providers. For newly contracted Providers, the Dental Contractor must issue copies of the Provider manual within five Business Days from inclusion of the Provider into the Network. The Provider manual must contain the critical elements defined in **Chapter 3 of the UNIFORM MANAGED CARE MANUAL**. The Dental Contractor must update the Provider manual in accordance with any changes made to the critical elements in **Chapter 3 of the UNIFORM MANAGED CARE MANUAL** and provide the updated manual to Providers within 30 calendar days of such changes.

HHSC must review and approve any substantive revisions to the Provider Manual before the Dental Contractor publishes or distributes it to Providers.

### **1.3.13.2 PROVIDER MATERIALS**

Provider Materials must comply with state and federal laws, rules and regulations, governing the Dental Program. **Chapters 4 and 8 of the UNIFORM MANAGED CARE MANUAL** set forth material and submission requirements. HHSC may require discontinuation or correction of any Provider Materials, including those previously approved by HHSC.

### **1.3.13.3 PROVIDER TRAINING**

The Dental Contractor must provide training to all Providers and their staff regarding the requirements of the Contract and any requirements related to meeting the special needs of the population of the Dental Program. The Dental Contractor's training must be completed within 30 calendar days of the date the Provider completes contracting and credentialing. The Dental Contractor must maintain and make available upon request the attendance rosters, dated and signed by each attendee, or other written evidence of training of each Provider and his or her staff.

The Dental Contractor must establish ongoing Provider training that includes the following issues:

1. Medically Necessary Covered Dental Services and the Provider's responsibilities for providing and coordinating these services;
  - a. Special emphasis must be placed on areas that vary from commercial coverage rules, prior authorization (PA) processes, and claims processing expectations, and
  - b. The processes for making referrals and coordination with Non-capitated Services.
2. Relevant requirements of the Contract;
3. The Dental Contractor's quality assurance and performance improvement (QAPI) program and the Provider's role in such a program;

4. The Dental Contractor's policies and procedures regarding referrals by Main Dentists, especially regarding Network and OON referrals;
5. Member cost-sharing obligations, for CHIP members only, limitations on Medically Necessary Covered Dental Services, VAS, and prohibitions on balance-billing Dental Members for Medically Necessary Covered Dental Services;
6. Cultural Competency training based on federal and state requirements;
7. Texas Health Steps (THSteps) dental benefits and the necessity of documentation of services qualifying for reimbursement;
8. HHSC's Medical Transportation Program services available to Dental Members;
9. The importance of updating contact information to ensure accurate Provider directories and the online Provider lookup;
10. Information about the Dental Contractor's process for acceleration of THSteps dental services for Farmworker Child(ren) enrolled in Medicaid;
11. Missed appointment referrals and assistance provided by the THSteps Outreach and Informing Unit for Medicaid members;
12. HHSC policies related to Dental Contractor retaliation against providers;
13. Dental Contractor and HHSC Complaint and Appeal processes;
14. Claims processing and policies specific to the Dental Contractor including:
  - a. Claims procedures as described in the **UNIFORM MANAGED CARE MANUAL, Chapter 2.0**;
  - b. Recoupments; and
  - c. Dental Member rights and responsibilities, primary coverage requirements and under what circumstances a Dental Member may be responsible for some fees; and
15. Education about responsibility to report FWA, including how and where to make reports.

When developing Provider training materials, the Dental Contractor must consult with major stakeholders, such as trade associations and provider groups.

### **1.3.14 PROVIDER HOTLINE**

The Dental Contractor must operate a toll-free telephone line for Provider inquiries during normal business hours which are, for the purposes of this section, from 8 a.m. to 5 p.m. local time throughout the state, Monday through Friday, excluding State-approved holidays. The State-approved holiday schedule is updated annually and can be found on the Texas State Auditor's Office website under Holiday Schedule. The Provider hotline must be staffed with personnel who are knowledgeable about the Dental Program, Medically Necessary Covered Dental Services, and Non-capitated Services.

The Dental Contractor must ensure that, during non-business hours, the Provider hotline is answered by an automated system with the capability to provide callers with operating hours information and instructions on how to verify enrollment for a Dental Member with an urgent condition.

The Dental Contractor must ensure the Provider hotline has an automated response option in which the dental Providers may enter a child's unique Dental Member ID number and receive the following information:

1. Verification of a child's membership in Medicaid or CHIP;
2. The child's eligibility for the current month; and
3. The status of a child's dental benefit, and if the child is in CHIP, any amounts drawn against HHSC's specified annual CHIP benefit cap.

This information must also be available through a fax-back capability.

The Dental Contractor must ensure the Provider hotline staff has the ability to:

1. Search for enrollment information by a variety of fields;
2. Confirm the year-to-date status of a child's CHIP dental benefit, including any amounts that have been drawn against the dental benefit cap;
3. Accurately answer questions about the dental claims process and confirm the status of a pending claim; and
4. Accurately answer questions about enrollment as a dental Provider and facilitate the enrollment process.

The Dental Contractor must ensure that the Provider hotline meets each of the following minimum performance requirements:

1. Speed call answered: At least 99 percent of all calls are answered by the fourth ring;
2. Busy signal rate: No more than one percent of incoming calls receive a busy signal;
3. Queue hold rate: At least 80 percent of toll-free line calls must be answered within 30 seconds. Queue hold rate is defined by the duration of time it takes the toll-free line staff to answer a call after the caller's last automated menu selection;
4. Call abandonment rate: No more than 7 percent of the calls are abandoned; and
5. Average hold time: No more than 2 minutes.

The Dental Contractor must conduct ongoing call quality assurance to ensure these standards are met. The Provider hotline may serve multiple Programs if the hotline staff is knowledgeable about each Program. The Dental Contractor may include the Dental Program in its existing Member Services hotline, if the hotline staff is knowledgeable about the Dental Program, as well as, the Dental Contractor's other contracted dental services.

The Dental Contractor must monitor its performance regarding Provider hotline standards and submit performance reports summarizing call center performance for the hotline as indicated in **Chapter 5.4.3.13 of the UNIFORM MANAGED CARE MANUAL**. If the Dental Contractor's hotline serves multiple managed care programs, the Dental Contractor must have the capability to report call center performance for each program, including reporting the Medicaid and CHIP call center performance separately.

If HHSC determines that it is necessary to conduct onsite monitoring of the Dental Contractor's hotline functions, the Dental Contractor must reimburse HHSC for all travel costs incurred by HHSC relating to such monitoring. For purposes of this section, "travel

costs” may include airfare, lodging, meals, car rental and fuel, taxi, mileage, parking and other incidental travel expenses incurred by HHSC in connection with the onsite monitoring. Reimbursement by the Dental Contractor will be due to HHSC within 30 calendar days of the date that the invoice is issued by HHSC to the Dental Contractor. The Dental Contractor must not require a social security number or any W-2/W-9 tax information from state employees as a condition for travel cost reimbursement.

### **1.3.15 PROVIDER REIMBURSEMENT**

The Dental Contractor must pay for all Medically Necessary Covered Dental Services provided to Dental Members. The Provider Contract must include a complete description of the payment methodology or amount, as described in **Chapter 8.1 of the UNIFORM MANAGED CARE MANUAL**. The Dental Contractor must define in its Provider Contract if it is using the Texas Medicaid Fee Schedule or another source for reimbursement purposes.

The Provider Contracts must require Providers to comply with the requirements of Tex. Gov't Code § 531.024161, regarding reimbursement of claims based on orders or referrals by supervising providers.

The Dental Contractor must ensure claims payment is timely and accurate as described in **Section 1.3.29.4 and Chapter 2 of the UNIFORM MANAGED CARE MANUAL**. The Dental Contractor must require tax identification numbers from all participating providers. The Dental Contractor is required to do back-up withholding from all payments to Providers who fail to give tax identification numbers or who give incorrect numbers.

Provider payments must comply with all applicable state and federal laws, rules, and regulations, including the following sections of the Patient Protection and Affordable Care Act:

1. 42 U.S.C. § 1396a(a)(80), “Prohibition on Payments to Institutions or Entities Located Outside of the United States”; and
2. 42 U.S.C. § 1396b-1, “Payment Adjustment for Health Care-Acquired Conditions.”

The Dental Contractor must comply with registration requirements in Tex. Ins. Code § 1458.051 and with reimbursement and fee schedule requirements in Tex. Ins. Code §§ 1451.451 and 1458.101–102.

As required by Tex. Gov't Code § 533.005(a)(25), the Dental Contractor must not implement significant, non-negotiated, across-the-board Provider reimbursement rate reductions unless:

1. It receives HHSC's prior approval; or
2. The reductions are based on changes to the Medicaid fee schedule or cost containment initiatives implemented by HHSC.

For purposes of this requirement, an across-the-board rate reduction is a reduction that applies to all similarly-situated providers or types of providers. The Dental Contractor must submit a written request for an across-the-board rate reduction to the State Medicaid Director and provide a copy to HHSC Managed Care Compliance & Operations division,

if the reduction is not based on a change in the Medicaid fee schedule or cost containment initiative implemented by HHSC.

The Dental Contractor must submit the request at least 90 calendar days prior to the planned effective date of the reduction. If HHSC does not issue a written statement of disapproval within 45 calendar days of receipt, then the Dental Contractor may move forward with the reduction on the planned effective date. Further, the Dental Contractor must give Providers at least 30 calendar days' written notice of changes to the Dental Contractor's fee schedule, excluding changes derived from changes to the Medicaid fee schedule, before implementing the change. If the Dental Contractor fee schedule is derived from the Medicaid fee schedule, the Dental Contractor must implement fee schedule changes no later than 30 calendar days after the Medicaid fee schedule change, and any retroactive claim adjustments must be completed within 60 calendar days after HHSC retroactively adjusts the Medicaid fee schedule.

### **1.3.15.1 PROVIDER OVERPAYMENTS**

The Dental Contractor must have a mechanism in place through which Providers report overpayments. The Dental Contractor must inform Providers of this mechanism. The mechanism must allow Providers to include a reason for the overpayment. The Dental Contractor must ensure that the Provider submit overpayments within 60 calendar days from identification. For purposes of this section, "identification" refers to when the person has or should have, through the exercise of reasonable diligence, determined that the person has received an overpayment and quantified the amount of the overpayment.

### **1.3.16 TERMINATION OF DENTAL CONTRACTOR PROVIDER CONTRACTS**

The Dental Contractor must notify HHSC five calendar days prior to Dental Contractor termination of the following Dental Contractor Provider Contracts:

1. A Main Dentist contract that impacts more than one percent of its Members; or
2. Any Provider contract that impacts more than five percent of its Network for a provider type by Dental Reporting Region and Dental Contractor program. The Dental Contractor must also notify HHSC of all Provider terminations in accordance with the Provider termination report under **Chapter 5.4.1.11 of the UNIFORM MANAGED CARE MANUAL**.

Additionally, the Dental Contractor must give written notice of termination of a Provider to each Dental Member who receives his or her primary dental care, or who is seen on a regular basis by, the Provider as follows:

1. For a Provider disenrolled from Medicaid by HHSC, the Dental Contractor must provide notice to affected Dental Members within five calendar days following disenrollment;
2. For involuntary terminations of a Provider (terminations initiated by the Dental Contractor), the Dental Contractor must provide notice to the Dental Member of the termination of the Provider once the Dental Contractor has made a final decision

to terminate the Provider, but in no event later than 15 calendar days after the Dental Contractor issues notice of termination to the Provider;

3. For voluntary terminations of a Provider (terminations initiated by the Provider), the Dental Contractor, to the extent practicable, must provide notice to the Dental Member of the termination of the Provider, but in no event less than at least 30 calendar days before the effective date of the termination.

In the event that the Provider sends untimely notice of termination to the Dental Contractor making it impossible for the Dental Contractor to send Dental Members notice within the required timeframe, the Dental Contractor must provide notice as soon as practical, but no more than 15 calendar days after the Dental Contractor receives notification to terminate from the Provider.

The Dental Contractor must send notice of termination of a Provider to:

1. All Dental Members in a Main Dentist's panel; and
2. All Dental Members who have had one visit within the past three months, or two or more visits with the Provider in the past 12 months.

### **1.3.17 OUT-OF-STATE PROVIDERS**

The Dental Contractor may enroll out-of-state providers in its Network, in accordance with 1 Tex. Admin. Code § 352.17. To participate in Medicaid, the provider must be enrolled with HHSC as a Medicaid provider.

### **1.3.18 PROVIDER ADVISORY GROUPS**

The Dental Contractor must establish and conduct quarterly meetings with Providers. The Dental Contractor must maintain a record of provider advisory group meetings, including agendas and minutes, for the time period established in **Section 9.01 of ATTACHMENT B, HHSC DENTAL CONTRACT TERMS AND CONDITIONS.**

### **1.3.19 PROVIDER PROTECTION PLAN**

In accordance with the requirements of Tex. Gov't Code § 533.0055, the requirements of HHSC's provider protection plan are listed below, and the Dental Contractor must comply with the following:

1. Provide responses to authorization requests within three Business Days of routine requests;
2. Provide for timely and accurate claims adjudication and proper claims payment in accordance with **Chapter 2 of the UNIFORM MANAGED CARE MANUAL**;
3. Include Provider training and education on the requirements for claims submission and appeals, including the Dental Contractor's policies and procedures. See also **Section 1.3.13**;
4. Ensure Member access to care, in accordance with **Section 1.3.8**;
5. Ensure prompt credentialing, as required by **Section 1.3.12**;

6. Ensure compliance with state and federal standards regarding PAs, as described in **Sections 1.3.24** and **Section 1.3.25**;
7. Provide 30 calendar days notice to Providers before implementing changes to policies and procedures affecting the PA process. However, in the case of suspected FWA by a single Provider, the Dental Contractor may implement changes to policies and procedures affecting the PA process without the required notice period;
8. Include other measures developed by HHSC or a provider protection plan workgroup, or measures developed by the Dental Contractor and approved by HHSC; and
9. The Dental Contractor must participate in HHSC's provider protection plan work group, which will develop recommendations and proposed timelines for other components of the provider protection plan.

### **1.3.20 MEMBER SERVICES**

The Dental Contractor must maintain a Member services department with a sufficient number of staff to assist Dental Members and Dental Members' family members, guardians, or LAR in obtaining Medically Necessary Covered Dental Services for Dental Members including meeting Member services hotline requirements and Linguistic Access capabilities. The Dental Contractor must maintain employment standards and requirements for Member services department staff.

#### **1.3.20.1 MEMBER MATERIALS**

The Dental Contractor must design, print, and distribute Dental Member identification (ID) cards and a Dental Member handbook to Dental Members. Within five Business Days following the receipt of an Enrollment File from the EB, the Dental Contractor must mail a Dental Member ID card and a Dental Member handbook to the Case Head or Account Name for each new Dental Member. When the Case Head or Account Name is associated with two or more new Dental Members, the Dental Contractor is only required to send one Dental Member handbook. The Dental Contractor is responsible for mailing materials only to those Dental Members for whom valid address data are contained in the Enrollment File.

All Member Materials must be at or below a 6<sup>th</sup> grade reading level as measured by the appropriate score on the Flesch-Kincaid Readability Test. Member Materials must be written and distributed in English, Spanish, and Prevalent Languages identified by HHSC. HHSC will provide the Dental Contractor with reasonable notice when a non-English language is spoken by ten percent of the managed care eligible population. All Member Materials must be available in a format accessible to the visually impaired, which may include large print, Braille, compact disc, or other electronic format. Member Materials must comply with the requirements set forth in the **UNIFORM MANAGED CARE MANUAL**, including required critical elements and marketing policies and procedures.

Written materials must also be made available in alternative formats upon request of the Dental Member at no cost. Written materials must include taglines in the Prevalent Languages in the Dental Reporting Region, as well as large print, explaining the

availability of written translation or oral interpretation to understand the information provided and the toll-free and TTY/TDY telephone numbers of the Dental Contractor's Member service unit. Large print means printed in a font size no smaller than 18 point. All written materials for Dental Members and potential members must use a font size no smaller than 12 point. All written materials for potential members and Dental Members must also include a large print tagline and information on how to request Auxiliary Aids and Services, including the provision of materials in alternative formats. Auxiliary Aids and Services must be made available upon request of the Dental Member at no cost.

The Dental Contractor's Member Materials and other communications cannot contain discretionary clauses, as described in Section 1271.057(b) of the Texas Insurance Code.

The Dental Contractor must submit Member Materials to HHSC for approval prior to publication or distribution, including revisions to previously approved Member Materials. If HHSC has not responded to the Dental Contractor's request for review within 15 Business Days, the Dental Contractor may use the submitted materials provided the Dental Contractor first notifies HHSC of its intended use. HHSC may, at any time, require discontinuation, revision, or correction of any Member Materials, including those previously approved by HHSC.

### **1.3.20.2 MEMBER IDENTIFICATION CARDS**

All Dental Member ID cards must include all the critical elements identified in **Chapters 3.20 and 3.27 of the UNIFORM MANAGED CARE MANUAL**. The Dental Contractor must reissue the Dental Member ID card within seven calendar days at no charge for any reason that results in a change to the information disclosed on the Dental Member ID card.

### **1.3.20.3 MEMBER HANDBOOK**

The Member handbook must meet the Member Materials requirements specified by **Section 1.3.20.1** above and must include critical elements in **Chapters 3.19 and 3.26 of the UNIFORM MANAGED CARE MANUAL**.

The Dental Contractor must produce and distribute a revised Dental Member handbook, or an insert informing Dental Members of changes to Medically Necessary Covered Dental Services upon HHSC notification and at least 30 calendar days prior to the effective date of such change in Medically Necessary Covered Dental Services. In addition to modifying the Member Materials for new Dental Members, the Dental Contractor must notify all existing Dental Members of the Medically Necessary Covered Dental Services change within the same timeframe.

### **1.3.20.4 PROVIDER DIRECTORY**

The Dental Contractor's Provider directory, including substantive revisions, must be approved by HHSC before publication and distribution. Substantive revisions are revisions to the information required by **Chapter 3 of the UNIFORM MANAGED CARE MANUAL** with

the exception of information contained in actual the Provider listings and indices and any additional information that the Dental Contractor adds to the directory at its discretion.

The Provider directory must meet the Member Materials requirements specified by **Section 1.3.20.1** and must include critical elements in **Chapters 3.17 and 3.25 of the UNIFORM MANAGED CARE MANUAL**. The Provider directory must include only Providers credentialed by the Dental Contractor in accordance with **Section 1.3.12**. If the Dental Contractor contracts with limited Networks, the Provider directory must comply with the requirements of 28 Tex. Admin. Code § 11.1600(b)(11), relating to the disclosure and notice of limited Networks.

The Provider directory must comply with HHSC's marketing policies and procedures, as set forth in the **Chapter 4 of the UNIFORM MANAGED CARE MANUAL**.

#### **1.3.20.4.1 HARD COPY PROVIDER DIRECTORY**

The hard copy Provider directory must contain the required information included in **Chapters 3.17 and 3.25 of the UNIFORM MANAGED CARE MANUAL**.

The Dental Contractor must develop separate Provider Directories for Medicaid and CHIP. The Dental Contractor must send the most recent Provider directory, including any updates, to Dental Members upon request in accordance with Texas Gov't Code § 533.0063. The Dental Contractor must, at least annually, offer the Provider Directory to Dental Members in writing or by verbal offer through its Dental Member outreach efforts and education materials.

#### **1.3.20.4.2 ONLINE PROVIDER DIRECTORY**

The Dental Contractor must have an online Provider directory to provide an electronic Provider look-up search of its Provider Network. The Dental Contractor must have procedures for systematically updating the Provider Network database that must include predictable scheduled algorithms. The online Provider directory must be updated on a weekly basis to reflect its most current Network.

The online Provider directory must contain the required information included in **Chapters 3.17 and 3.25 of the UNIFORM MANAGED CARE MANUAL**.

The Dental Contractor must maintain a mobile optimized site for the online Provider directory that meets the requirements pertaining to the Dental Contractor's website as described in **Section 1.3.21**. The site must minimize download and wait time, and must not use tools or techniques that require significant memory, disk resources, or special intervention. HHSC, where cost effective to HHSC and less burdensome to the Dental Members, requires the development of mobile device applications in addition to the use of tools that take advantage of efficient data access methods, reduce server load, and consume less bandwidth.

Upon request, the Dental Contractor must send Dental Members, via email, an electronic version of the Provider directory for the mailing region in which they reside. The Dental

Contractor must inform Dental Members that the Provider directory is available in paper form, without charge, upon the Dental Member's request, and provide it within five Business Days of the request. **Exhibit "M" to ATTACHMENT E, HHSC SOLICITATION NO. HHS0002879, Dental Reporting Regions Map**, contains the map detailing the mailing regions referenced above.

### **1.3.20.5 MEMBER SERVICES HOTLINE**

The Dental Contractor must operate a toll-free hotline that Dental Members can call 24 hours a day, seven days a week (Member services hotline). The Member services hotline must be staffed with personnel designated solely to the Texas Dental Program. This staff must be properly trained, competent, and knowledgeable about the Dental Program and Medically Necessary Covered Dental Services including Non-capitated Services.

The Member services hotline must have staff available during normal business hours, which for the purposes of this section are Business Days between the hours of 8:00 a.m. to 5:00 p.m. local time excluding State-approved holidays.

The Dental Contractor must ensure that during non-business hours, the Member services hotline is answered by an automated system with the capability to provide callers with operating hours and instructions on what to do in case of emergency. All recordings must be in English, Spanish, and other Prevalent Languages. A voice mailbox must be available during non-business hours for callers to leave messages. The Dental Contractor's Member services hotline staff must return Dental Members' calls received by the automated system on the next working day during normal business hours. If the Member services hotline does not have a voice-activated menu system, the Dental Contractor must have a menu system that will accommodate Dental Members who cannot access the system through other physical means.

The Dental Contractor must ensure that its Member services hotline staff treat all callers with dignity and respect the callers' need for privacy. All of the Dental Contractor's Member services hotline staff must be:

1. Able to answer non-clinical questions pertaining to the role of the Main Dental Home, such as referrals or the process for receiving authorization for procedures or services;
2. Able to give information about Providers in a particular area;
3. Knowledgeable about FWA and the requirements to report any conduct that if substantiated may constitute FWA in the Dental Program;
4. Trained regarding the federal and state Cultural Competency standards;
5. Trained to assist a Dental Member or a Dental Member's authorized representative, guardian, or LAR with scheduling an appointment with a Provider during the Provider's hours of operation and within the Dental Member's availability, in accordance with **Section 1.3.8.2**. Member services hotline staff must offer Dental Members the opportunity to participate in a facilitated three-way call between the Member or the Member's authorized representative, guardian, or LAR and a Provider's office to schedule an appointment. If a Dental Member does not want to

- participate in a three-way call, the Dental Contractor must document refusal and offer a list of Providers;
6. Knowledgeable about the Dental Program and Medically Necessary Covered Dental Services limitations, including limitations on procedures and annual CHIP benefit cap, and any VAS and oral health education initiatives as described in **Section 1.3.20.6** offered by the Dental Contractor;
  7. For CHIP Members, be able to confirm the year-to-date status of the member's dental benefit, including any amounts that have been drawn against the annual benefit cap for a specific member, and be able to give correct cost-sharing information relating to premiums, co-pays, or deductibles, as applicable; See **Chapter 6.3 of the UNIFORM MANAGED CARE MANUAL**.
  8. Able to answer non-clinical questions pertaining to referrals or the process for receiving authorization for procedures or services; and
  9. Able to answer non-clinical questions pertaining to accessing Non-capitated Services.

Hotline services must meet Cultural Competency requirements and must appropriately handle calls from callers who speak Prevalent Languages, including Spanish, as well as calls from individuals who are deaf or hard-of-hearing. To meet these requirements, the Dental Contractor must employ bilingual Spanish-speaking Member services representatives and must secure the services of other contractors as necessary. The Dental Contractor must provide such oral interpretation services to all hotline callers free of charge.

The Dental Contractor must process all incoming Dental Member telephone inquiries in a timely and responsive manner. The Dental Contractor must not impose maximum call duration limits and must allow calls to be of sufficient length to ensure adequate information is provided to the Dental Member. The Dental Contractor must ensure that the hotline meets the following minimum performance requirements:

1. Speed Call Answered: at least 99 percent of all calls are answered by the fourth ring;
2. Busy Signal Rate: no more than one percent of incoming calls receive a busy signal;
3. Queue Hold Rate: at least 80 percent of toll-free line calls must be answered within 30 seconds. Queue Hold Rate is defined by the duration of time it takes the toll-free line staff to answer a call after the caller's last automated menu selection;
4. Call Abandonment Rate: no more than 7 percent of the calls are abandoned; and
5. Average Hold Time: no more than 2 minutes.

The Dental Contractor must conduct ongoing quality assurance monitoring to ensure these standards are met. The Dental Contractor may include the Dental Program in its existing Member services hotline, if the hotline staff is knowledgeable about the Dental Program, as well as the Dental Contractor's other contracted dental services.

The Dental Contractor must submit performance reports summarizing its call center performance for its Member services hotline as indicated in **Chapter 5.4.3.12 of the**

**UNIFORM MANAGED CARE MANUAL.** If the Dental Contractor's Hotline serves multiple managed care programs, the Dental Contractor must have the capability to report call center performance by program, as well as reporting Medicaid and CHIP call center performance separately.

If HHSC determines that it is necessary to conduct onsite monitoring of the Dental Contractor's hotline functions, the Dental Contractor must reimburse HHSC for all travel costs incurred by HHSC relating to such monitoring. For purposes of this section, "travel costs" may include airfare, lodging, meals, car rental and fuel, taxi, mileage, parking and other incidental travel expenses incurred by HHSC in connection with the onsite monitoring. Reimbursement by the Dental Contractor will be due to HHSC within 30 calendar days of the date that the invoice is issued by HHSC to the Dental Contractor. The Dental Contractor may not require a social security number or any W-2/W-9 tax information from state employees as a condition for travel cost reimbursement.

### **1.3.20.6 MEMBER EDUCATION**

The Dental Contractor must develop and implement health education initiatives that educate Dental Members, their authorized representative, LAR, or guardian, as appropriate, about:

1. How the Dental Program operates, including the role of the Main Dental Home;
2. Medically Necessary Covered Dental Services, CHIP member cost-sharing obligations and limitations, and any VAS offered by the Dental Contractor;
3. The value of dental exams and preventive care; and
4. How to obtain Medically Necessary Covered Dental Services.

The Dental Contractor must provide a range of oral health promotion and wellness information and activities for Dental Members in formats that meet the needs of all Dental Members. The Dental Contractor must propose, implement, and assess innovative Dental Member education strategies for wellness care, as well as general health promotion and prevention. The Dental Contractor must conduct wellness promotion programs to improve the oral health status of its Dental Members. The Dental Contractor may cooperatively conduct oral health education classes for all enrolled Dental Members with one or more Dental Contractors also contracting with HHSC. The Dental Contractor must work with its Providers to integrate health education, wellness, and prevention training into the care of each Dental Member.

In accordance with Tex. Health & Safety Code § 48.052(c), Dental Contractor may employ or contract with certified Community Health Workers or "promotoras" to conduct outreach and Dental Member education activities.

### **1.3.20.7 CULTURAL COMPETENCY PLAN**

The Dental Contractor must have a comprehensive written Cultural Competency plan ("CC plan") describing how the Dental Contractor will ensure culturally competent services and provide Linguistic Access and Disability-related Access. The CC plan must be developed

in adherence to the federal and state Cultural Competency standards. The CC plan must adhere to the following:

1. Title VI of the Civil Rights Act guidelines and the provision of Auxiliary Aids and Services, in compliance with the Americans with Disabilities Act;
2. Title III, Department of Justice Regulation 28 C.F.R. § 36.303, 42 C.F.R. § 438.10(h); and
3. 1 Tex. Admin. Code § 353.411.

The CC plan must describe how the individuals and systems within the Dental Contractor's organization will effectively provide services to Dental Members, caregivers, and Providers of all cultures, races, ethnic backgrounds, languages, communications needs, disabilities, and religions, as well as those with disabilities, in a manner that recognizes, values, affirms, and respects the worth of the individuals and protects and preserves the dignity of each. Additionally, it must describe how the Dental Contractor will implement each component of the federal and state standards.

During the Operations Phase, the Dental Contractor must submit modifications and amendments to its CC plan to HHSC no later than 30 calendar days prior to implementation. Its CC plan must also be made available to the Dental Contractor's Providers. HHSC may require the Dental Contractor to update its CC plan to incorporate new or amended requirements based on HHSC guidance. In that event, the Dental Contractor has 60 calendar days to submit its updated CC plan to HHSC.

### **1.3.20.8 COMPETENT INTERPRETER SERVICES**

The Dental Contractor must arrange and pay for Competent Interpreter services, including written, spoken, and sign language interpretation, for Dental Members to ensure effective communication regarding treatment, medical and dental history, or health condition. The Dental Contractor must maintain policies and procedures outlining the manner in which Dental Members and their Providers can access Competent Interpreter services including written, spoken, and sign language interpretation, when the Dental Member is in his or her Provider's office.

### **1.3.20.9 MEMBER SERVICE EMAIL ADDRESS**

The Dental Contractor must have a secure email address through which a Dental Member may contact the Dental Contractor to receive assistance with identifying Providers and scheduling an appointment for the Dental Member or accessing services. The Dental Contractor must, within one Business Day, acknowledge the Dental Member's request with an email response informing the Dental Member that by communicating via email the Dental Member consents to receive information through the same means. Member services staff must provide the Dental Member the requested information within three Business Days following the receipt of the email.

### 1.3.21 DENTAL CONTRACTOR WEBSITE

The Dental Contractor must develop and maintain, consistent with HHSC standards, Tex. Ins. Code § 843.2015, and all other applicable state laws, a website to provide general information about:

1. The Dental Contractor's Dental Program;
2. The Dental Contractor's Network, including an online Provider directory as outlined in **Chapters 3.17 and 3.25 of the UNIFORM MANAGED CARE MANUAL**;
3. The Dental Contractor's Member and Provider services hotline numbers; and
4. The Dental Contractor's Complaints and Appeals process.

The Dental Contractor's website must meet the requirements of **Chapter 3.32 of the UNIFORM MANAGED CARE MANUAL** and comply with state and federal accessibility standards, guidelines, policies, and procedures for all work products, including, but not limited to, 29 U.S.C. § 794; 1 Tex. Admin. Code. Chapter 206, Subchapter B; 1 Tex. Admin. Code. Chapter 213, Subchapter B; and Texas Health and Human Services Electronic and Information Resources Accessibility Standards.

The website must contain a link to financial literacy information on the Office of Consumer Credit Commissioner's webpage. The Dental Contractor must also maintain a mobile optimized site for mobile device use. The Dental Contractor may develop a page within its existing website to meet the requirements of this section.

The Dental Contractor must minimize download and wait time and not use tools or techniques that require significant memory, disk resources, or special user interventions. HHSC may require discontinuation, revision, or correction of any Member Materials posted on the Dental Contractor's website, including those previously approved by HHSC.

#### 1.3.21.1 MEMBER PORTAL

The Dental Contractor must provide a Dental Member portal ("DM portal") that supports functionality to provide administrative functions and available health information to Dental Members. For the purposes of the Contract, a DM portal must bring information, which a Dental Member is entitled to access, together from diverse sources in a uniform way. The Dental Contractor may require Dental Members to affirmatively opt-in to participate in its DM portal. The Dental Contractor must provide Dental Members who opt-in with unique log-in credentials. The Dental Contractor must ensure that its DM portal is mobile compatible and has download and printing capabilities. The DM portal's functionality must include the following requirements:

1. **Administrative Functions** - Dental Members must be able to:
  - a. Verify eligibility;
  - b. View Dental Member demographic information;
  - c. Change his or her Main Dentist; and
  - d. Request and print Dental Member ID cards.
2. **Health Information** - Dental Members must be able to view:
  - a. His or her history and assessment;

- b. Referral history;
- c. PA requests, approvals, and denials
- d. Copies of any Notices of Action sent to the Dental Member in the last 12 months; and
- e. A dental health summary including dentist visits.

In addition, the Dental Contractor must provide HHSC secure access rights as an authorized or guest user to all Dental Member access points, including but not limited to, its DM portal and call monitoring system, for remote monitoring capability.

### **1.3.21.2 PROVIDER PORTAL**

The Dental Contractor must provide a Provider portal that supports functionality to reduce administrative burden on Providers at no cost to the Providers as described in **Chapter 3.32 of the UNIFORM MANAGED CARE MANUAL**.

The Provider portal should support both online and Batch Processing as applicable to the information being exchanged. To facilitate the exchange of clinical data and other relevant documentation, the Provider portal must provide a secure exchange of information between the Provider and Dental Contractor, including, as applicable, a Subcontractor of the Dental Contractor.

### **1.3.22 MARKETING AND PROHIBITED PRACTICES**

The Dental Contractor and its Subcontractors must comply with all applicable federal and state laws and regulations regarding marketing, gifts, and other inducements, including but not limited to:

1. 15 U.S.C §§ 6101-6108;
2. 15 U.S.C §§ 7701-7713;
3. 42 U.S.C. § 1396u-2;
4. 16 C.F.R. Part 310;
5. 16 C.F.R. Part 316;
6. 42 C.F.R. § 422.2264;
7. 42 C.F.R. § 423.2264;
8. 42 C.F.R. § 438.104;
9. 42 C.F.R. § 457.1224;
10. Tex. Gov't Code §§ 531.02115 and 533.008;
11. 1 Tex. Admin. Code § 353.405;
12. 1 Tex. Admin. Code § 354.1871;
13. 1 Tex. Admin. Code § 354.1452;
14. 1 Tex. Admin. Code § 371.1669;
15. 1 Tex. Admin. Code § 370.601;
16. HHS OIG Special Advisory Bulletin: Offering Gifts and Other Inducements to Beneficiaries, August 2002;
17. Texas HHSC-OIG Special Advisory Bulletin: Offering Gifts and Other Inducements to Beneficiaries, March 6, 2013; and

18. Marketing policies and procedures as set forth by HHSC in **Chapter 4 of the UNIFORM MANAGED CARE MANUAL**.

The Dental Contractor and its Subcontractors must adhere to the Marketing policies and procedures as set forth in the Contract, including **Chapter 4 of the UNIFORM MANAGED CARE MANUAL**. HHSC must approve all Marketing Materials before use or distribution. All Marketing Materials must comply with all state and federal marketing requirements, including State insurance laws and TDI regulations regarding marketing.

### **1.3.23 QUALITY IMPROVEMENT AND PERFORMANCE EVALUATION**

The Dental Contractor must provide for the delivery of quality care with the primary goal of improving the dental health status of Dental Members. The Dental Contractor must work in collaboration with Providers to actively improve the quality of care provided to Dental Members, consistent with the Quality Improvement goals, and all other requirements of the Contract. The Dental Contractor must provide mechanisms for Dental Members and Providers to offer input into the Dental Contractor's Quality Improvement activities.

#### **1.3.23.1 PERFORMANCE MEASURES**

The Dental Contractor must provide to HHSC all information necessary to analyze the Dental Contractor's provision of quality care to Dental Members using measures to be determined by HHSC.

#### **1.3.23.2 QUALITY ASSURANCE AND PERFORMANCE MANAGEMENT**

This section provides quality assurance and performance requirements of the Dental Contractor.

##### **1.3.23.2.1 QUALITY ASSESSMENT AND PERFORMANCE IMPROVEMENT PROGRAM OVERVIEW**

The Dental Contractor must develop, maintain, and operate a quality assurance and performance improvement (QAPI) program consistent with the Contract and TDI requirements, including 28 Tex. Admin. Code §§ 11.1901 and 11.1902. The Dental Contractor must also meet the requirements of 42 C.F.R. § 438.330.

The Dental Contractor must have on file with HHSC an approved plan describing its QAPI program, including how the Dental Contractor will accomplish the activities required by this section. The Dental Contractor must annually submit a QAPI program Annual Summary in a format and timeframe specified by HHSC. The Dental Contractor must keep participating Providers and other providers informed about the QAPI program and related activities. The Dental Contractor must include a requirement securing cooperation with the QAPI in its Provider Contracts.

As part of the QAPI process, the Dental Contractor must inform HHSC whether it has been accredited by a private independent accrediting entity and authorize the private

independent accrediting entity to provide HHSC or its External Quality Review Organization (EQRO) a copy of its most recent accreditation review in accordance with 42 C.F.R. § 438.332.

The Dental Contractor must approach all clinical and non-clinical aspects of quality assessment and performance improvement based on principles of Continuous Quality Improvement /Total Quality Management and must:

1. Evaluate Provider's performance using objective quality indicators;
2. Foster data-driven decision-making;
3. Solicit Dental Member and Provider input on performance and QAPI activities;
4. Support continuous ongoing measurement of clinical and non-clinical effectiveness and Dental Member satisfaction;
5. Support programmatic improvements of clinical and non-clinical processes based on findings from ongoing measurements; and
6. Support re-measurement of effectiveness and Dental Member satisfaction, and continued development and implementation of improvement interventions as appropriate.

#### **1.3.23.2.2 QUALITY ASSESSMENT AND PERFORMANCE IMPROVEMENT PROGRAM STRUCTURE**

The Dental Contractor must maintain a well-defined QAPI structure that includes a planned systematic approach to improving clinical and non-clinical processes and outcomes. The Dental Contractor must designate a senior executive responsible for the QAPI program, and the Dental Director must have substantial involvement in QAPI program activities. The Dental Contractor must ensure that the QAPI program structure:

1. Is organization-wide, with clear lines of accountability within the organization;
2. Includes a set of functions, roles, and responsibilities for the oversight of QAPI activities that are clearly defined and assigned to appropriate individuals, including dentists, other clinicians, and non-clinicians;
3. Includes annual objectives or goals for planned projects or activities including clinical and non-clinical programs or initiatives and measurement activities; and
4. Evaluates the effectiveness of clinical and non-clinical initiatives.

#### **1.3.23.2.3 CLINICAL INDICATORS**

The Dental Contractor must collect clinical indicator data. The Dental Contractor must use such clinical indicator data in the development, assessment, and modification of its QAPI program.

#### **1.3.23.2.4 QUALITY ASSESSMENT AND PERFORMANCE IMPROVEMENT PROGRAM SUBCONTRACTING**

If the Dental Contractor subcontracts any of the essential functions or reporting requirements contained within the QAPI program to another entity, the Dental Contractor

must maintain detailed files documenting the work of the Subcontractors. The file must be available for review by HHSC upon request.

### **1.3.23.2.5 PROVIDER CREDENTIALING AND PROFILING**

In accordance with **Section 1.3.12**, the Dental Contractor must review and approve the credentials of all participating licensed Providers in the Dental Contractor's Network. Through the QAPI process, the Dental Contractor must report annually to HHSC the results of any credentialing activities conducted during the reporting year. The Dental Contractor must use the QAPI form found in **Chapter 5.7.1 of the UNIFORM MANAGED CARE MANUAL**.

The Dental Contractor must conduct Provider profiling activities at least annually. As part of its QAPI program, the Dental Contractor must describe the methodology it uses to identify which and how many Providers to profile and to identify measures to use for profiling such Providers. Provider profiling activities must include, but not be limited to:

1. Developing Provider-specific reports that include a multi-dimensional assessment of a Provider's performance using clinical, administrative, and Dental Member satisfaction indicators of care that are accurate, measurable, and relevant to the enrolled population;
2. Establishing Provider, group, statewide, or regional Benchmarks for areas profiled, where applicable; and
3. Providing feedback to individual Providers regarding the results of his or her performance and the overall performance of the Network.

If the Dental Contractor wishes to move to a preferred Provider arrangement, the Dental Contractor must profile all Providers of the service for a period of no less than 12 months. The results of the Provider profiles must be used to determine the Provider or Providers selected for a preferred Provider arrangement. If the Dental Contractor enters into a preferred Provider arrangement for a service or supply, the Dental Contractor must notify Dental Members using that service or supply of the arrangement in writing and offer Dental Members the opportunity to opt out of using the preferred Provider and use another Provider. The MCO must provide clear written instructions on how a Dental Member may opt out of using the preferred Provider. The Dental Contractor's Preferred provider arrangements must be in accordance with requirements in the **UNIFORM MANAGED CARE MANUAL**.

### **1.3.23.3 NETWORK MANAGEMENT**

The Dental Contractor must:

1. Use the results of its Provider profiling activities to identify areas of improvement for individual Providers, or groups of Providers;
2. Establish Provider-specific quality improvement goals for priority areas in which a Provider or Providers do not meet established Dental Contractor standards or improvement goals;

3. Develop and implement incentives, which may include financial and non-financial incentives, to motivate Providers to improve performance on profiled measures; and
4. At least annually, measure and report to HHSC on the Network and individual Providers' progress, or lack of progress, towards such improvement goals.

#### **1.3.23.4 PROVIDER INCENTIVE PLANS**

If the Dental Contractor implements a Provider incentive plan under 42 C.F.R. § 438.6(h), the plan must comply with all applicable law, including 42 C.F.R. §§ 422.208 and 422.210. The Dental Contractor must not make payments under a Provider incentive plan if the payments are designed to induce Providers to reduce or limit Medically Necessary Covered Dental Services to Dental Members.

If the Provider incentive plan places a Provider or Provider group at a substantial financial risk for services not provided by the Provider or Provider group, the Dental Contractor must ensure adequate stop-loss protection and conduct and submit annual Dental Member surveys no later than five Business Days after the Dental Contractor finalizes the survey results. Refer to 42 C.F.R. § 422.208 for information concerning "substantial financial risk" and "stop-loss protection".

The Dental Contractor must make information regarding Provider incentive plans available to Dental Members upon request, in accordance with **UNIFORM MANAGED CARE MANUAL** requirements. The Dental Contractor must provide the following information to the requesting Dental Member:

1. Whether the Dental Member's Provider or other Providers are participating in the Dental Contractor's Provider incentive plan;
2. Whether the Dental Contractor uses a Provider incentive plan that affects the use of referral services;
3. The type of incentive arrangement; and
4. Whether stop-loss protection is provided.

No later than five Business Days prior to implementing or modifying a Provider incentive plan, the Dental Contractor must provide the following information to HHSC:

1. Whether the Provider incentive plan covers services that are not furnished by a Provider or Provider group.

The Dental Contractor is only required to report on items 2-4 below if the Provider incentive plan covers services that are not furnished by a Provider or Provider group;

2. The type of incentive arrangement (e.g., withhold, bonus, capitation);
3. The percent of withhold or bonus, if applicable;
4. The panel size, and if Dental Members are pooled, the HHSC approved method used; and
5. If the Provider or Provider group is at substantial financial risk, the Dental Contractor must report proof that the Provider or group has adequate stop-loss protection, including the amount and type of stop-loss protection.

### **1.3.23.5 DENTAL CONTRACTOR ALTERNATIVE PAYMENT MODELS WITH PROVIDERS**

HHSC requires the Dental Contractor to transition Provider payment methodologies from volume-based payment (VBP) approaches, i.e. Fee-for-Service, to quality-based alternative payment models, increasing year-over-year percentages of provider payments linked, to measures of quality or efficiency. Dental Contractor alternative payment models (APMs) should be designed to improve oral health outcomes for Dental Members, empower Dental Members and improve experience of care, lower healthcare cost trends, and incentivize Providers.

The Dental Contractor must:

1. Achieve a minimum Overall APM Ratio and a Risk-Based APM Ratio as defined in **Chapter 8.10 of the UNIFORM MANAGED CARE MANUAL**, in year one and reach target ratios within four years. The ratios are expressions of APM-based provider payments relative to total provider payments. The calculations and minimum yearly values for the APM Ratios, as well as exceptions to the APM Ratios, are delineated under the methodology tab of **Chapter 8.10 of the UNIFORM MANAGED CARE MANUAL**.
2. Submit to HHSC its inventories of APMs with Providers by July 1<sup>st</sup> of each year, using the data collection tool in **Chapter 8.10 of the UNIFORM MANAGED CARE MANUAL**. The data collection tool will capture APM activity for the previous year, and will be used to calculate the APM ratios. Provider types include, but are not limited to, dentists and specialty dentists. Upon request by HHSC, the Dental Contractor must submit to HHSC underlying data for the information reported on the data collection tool (e.g., names of providers, NPIs, TPIs).
3. To the extent feasible, collaborate with other Dental Contractors on common APM/VBP models for targeted clinical interventions. Common APM/ VBP may be identified by HHSC.
4. To the extent feasible, utilize performance measures recommended by HHSC.
5. Implement processes to share data and performance reports with Providers on a regular basis. Dental Contractor must dedicate sufficient resources for Provider outreach and negotiation, assistance with data or report interpretation, and other activities to support Provider's improvement. HHSC may request evidence of these reports and processes from the Dental Contractor. To the extent possible Dental Contractors should collaborate on development of standardized formats for the Provider performance reports and data requested from Providers.
6. Dedicate resources to evaluate the impact of APMs on utilization, quality and cost, as well as return on investment.

### **1.3.23.6 COLLABORATION WITH THE EXTERNAL QUALITY REVIEW ORGANIZATION**

The Dental Contractor must collaborate with HHSC's External Quality Review Organization (EQRO) to develop studies, surveys, or other analytical approaches that will be carried out by the EQRO. The Dental Contractor must supply claims data to the EQRO,

or another vendor identified by HHSC, in a format identified by HHSC in consultation with Dental Contractor. The Dental Contractor must supply the EQRO, or another vendor identified by HHSC, dental records for focused clinical reviews conducted by the EQRO, or another contractor. The Dental Contractor must work collaboratively with HHSC and the EQRO, or another vendor identified by HHSC to annually measure HHSC-selected Healthcare Effectiveness Data and Information Set (HEDIS) measures that require chart reviews. Dental Contractor must conduct chart reviews for HEDIS hybrid measures and submit results to the EQRO in a format and timeline specified by HHSC. Dental Contractor is responsible for all costs associated with these reviews.

The Dental Contractor must comply with any requests for data from the EQRO, including but not limited to, data required for these activities:

1. Performing dental record review;
2. Performing encounter data validation for data certification purposes; and
3. Calculating measure results using encounter and enrollment data.

### **1.3.23.7 PERFORMANCE IMPROVEMENT PROJECTS**

Performance Improvement Projects (PIPs) must be designed, conducted, and reported in a methodologically sound manner in accordance with **Chapter 10.2 of the UNIFORM MANAGED CARE MANUAL**. The Dental Contractor must complete the PIP templates in accordance with **Chapter 10.2.4 of the UNIFORM MANAGED CARE MANUAL**. Each Dental Contractor must also complete progress reports as outlined in the **Chapter 10.2.8 of the UNIFORM MANAGED CARE MANUAL**.

### **1.3.23.8 DENTAL CONTRACTOR QUALITY RATING SYSTEM**

42 C.F.R. §§ 438.334 and 457.1240 and Tex. Gov't Code § 536.051 require HHSC to adopt an annual quality rating system for Dental Contractors. HHSC may prominently display the results on HHSC's website or a website maintained by HHSC's contractor. Additionally, HHSC may provide the results to Dental Members through other methods at HHSC's election.

If the Dental Contractor requests the recalculation or any other modifications to the quality measure data or member-level results, HHSC may charge the Dental Contractor any costs related to preparing this data for the Dental Contractor.

### **1.3.24 UTILIZATION MANAGEMENT**

The Dental Contractor's Utilization Management (UM) program must be consistent with the Texas Dental Practice Act's requirements, Texas State Board of Dental Examiners rules, and national guidelines from the American Dental Association (ADA) and the AAPD.

The Dental Contractor must have a written UM program description, which includes:

1. Procedures to evaluate the need for Medically Necessary Covered Dental Services;

2. For CHIP members who have exhausted their annual benefit limits, a procedure to evaluate PA requests for additional services necessary to return the member to normal, pain and infection-free oral functioning (see **ATTACHMENT G, CHIP MEDICALLY NECESSARY COVERED DENTAL SERVICES**);
3. The clinical review criteria used, the information sources, and the process used to review and approve the provision of Medically Necessary Covered Dental Services;
4. The method for periodically reviewing and amending the UM clinical review criteria;
5. The staff position functionally responsible for the day-to-day management of the UM function; and
6. Evidence-based policies and procedures.

The Dental Contractor must make best efforts to obtain all necessary information, including pertinent clinical information, and consult with the treating dentist as appropriate in making UM determinations.

The Dental Contractor must issue coverage determinations, including Adverse Determinations, within three Business Days after receipt of the request for authorization of services.

The Dental Contractor's UM program must include written policies and procedures to ensure each of the following:

1. Compliance with Tex. Ins. Code § 4201.456;
2. Consistent application of review criteria that are compatible with Dental Members' needs and situations;
3. Determinations to deny or limit services are made by Texas-licensed dentist under the direction of the Dental Director. Peer-to-peer consultation regarding UM determinations with a dentist of the same specialty must be available upon Provider's request;
4. Appropriate personnel are available to respond to UM inquiries 8:00 a.m. to 5:00 p.m., Monday through Friday, with a telephone system capable of accepting UM inquiries during non-business hours. The Dental Contractor must respond to calls within one Business Day;
5. Confidentiality of clinical information; and
6. Compensation to individuals or entities conducting UM activities is not structured to provide incentives for the individual or entity to deny, limit, or discontinue Medically Necessary Covered Dental Services as required by 42 C.F.R. § 438.210(e), and quality of services provided is not adversely impacted by financial and reimbursement-related processes and decisions

For preauthorization or concurrent review programs, the Dental Contractor must ensure that a qualified Texas-licensed dentist supervise the preauthorization and concurrent review decisions.

The Dental Contractor UM program must include policies and procedures to:

1. Routinely assess the effectiveness and the efficiency of the UM program;

2. Target areas of suspected inappropriate service utilization;
3. Detect over- or under- utilization, including procedures to address underutilization of essential services such as dental checkups, First Dental Home visits, and sealants;
4. Routinely generate Provider profiles regarding utilization patterns and compliance with UM criteria and policies;
5. Compare Dental Member and Provider utilization with norms for comparable individuals; and
6. Refer suspected cases of Provider or Dental Member FWA to the OIG as required by **Section 1.3.31**.

### **1.3.25 COMPLIANCE WITH STATE AND FEDERAL PRIOR AUTHORIZATION REQUIREMENTS**

The Dental Contractor must adopt PA requirements that comply with state and federal laws governing authorization of dental services. In addition, the Dental Contractor must comply with Tex. Ins. Code § 1217.004.

### **1.3.26 SUBMISSION OF SERVICE AUTHORIZATIONS**

The Dental Contractor must provide access to a toll-free fax line and Provider portal where Providers may send requests for authorization of services and any supplemental information related to service authorization. The fax line and Provider portal must be available 24 hours per day, seven days a week.

### **1.3.27 FINANCIAL REQUIREMENTS FOR MEDICALLY NECESSARY COVERED DENTAL SERVICES**

The Dental Contractor must pay for, or reimburse Providers for all Medically Necessary Covered Dental Services provided to a Dental Member, up to the Dental Member's applicable benefit limits. The Dental Contractor is not liable for costs incurred in connection with dental care rendered prior to the date of the Dental Member's Effective Date of Coverage with that Dental Contractor. A Member may receive collateral dental benefits under a different type of insurance, including worker's compensation or personal injury protection under an automobile policy. If a Member is entitled to coverage for specific services payable under another insurance plan and the Dental Contractor paid for such Medically Necessary Covered Dental Services, the Dental Contractor may obtain reimbursement from the responsible insurance entity, not to exceed 100 percent of the value of any Medically Necessary Covered Dental Services paid by the Dental Contractor. See **Sections 1.5.5** and **1.6.5** for more information.

### **1.3.28 REPORTING REQUIREMENTS**

The following sections provide reporting requirements required of the Dental Contractor.

### **1.3.28.1 GENERAL REPORTING REQUIREMENTS**

The Dental Contractor must provide and must require its Material Subcontractors to provide, at no cost to HHSC, the following:

1. All information required under this Contract, including but not limited to, the reporting requirements or other information related to the performance of its responsibilities hereunder as reasonably requested by the HHSC;
2. Any information in its possession sufficient to permit HHSC to comply with the Federal Balanced Budget Act of 1997 or other federal or state laws, rules, and regulations. All information must be provided in accordance with the timelines, definitions, formats, and instructions as specified by HHSC. Where practicable, HHSC may consult with Dental Contractor to establish time frames and formats reasonably acceptable to both parties; and
3. Ad hoc report requests.

The Dental Contractor must provide the reports specified in **Chapter 5 of the UNIFORM MANAGED CARE MANUAL**. This chapter includes a list of required reports, and a description of the format, content, file layout, and submission deadlines for each report.

Any deliverable or report not listed in **Chapter 5 of the UNIFORM MANAGED CARE MANUAL**, but referenced in this Contract without a specified due date, is due quarterly on the last day of the month following the end of the reporting period. Where the due date states 30 calendar days, the Dental Contractor is to provide the deliverable by the last day of the month following the end of the reporting period. Where the due date states 45 calendar days, the Dental Contractor is to provide the deliverable by the 15<sup>th</sup> day of the second month following the end of the reporting period.

The Dental Contractor's chief executive and chief financial officers, or persons in equivalent positions, must certify that the financial data, Encounter Data, and other measurement data has been reviewed and is true and accurate to the best of the certifying person's knowledge. Such certification may not be delegated.

HHSC is constructing a portal for delivery and receipt of Dental Contractor deliverables. The Dental Contractor will be required to participate in the online portal.

#### **1.3.28.1.1 DENTAL CONTRACTOR DELIVERABLES RELATED TO MANAGEMENT INFORMATION SYSTEM REQUIREMENTS**

The Dental Contractor must comply with all applicable Joint Interface Plans (JIPs), as modified or amended, and all required file submissions for EB, EQRO, and HHSC's Medicaid Claims Administrator. The JIP must include the Dental Contractor's interfaces required to conduct business under the Contract. The JIP must address the coordination with each of the Dental Contractor's interface partners to ensure the development and maintenance of the interface; and the timely transfer of required data elements between contractors and partners. The JIPs are posted in TXMedCentral under the MCOLAYUT folder. See **Chapter 7.2 of the UNIFORM MANAGED CARE MANUAL**.

The Dental Contractor must submit plans and checklists related to MIS to HHSC according to the format and schedule identified in **Chapter 5.2 in the UNIFORM MANAGED CARE MANUAL**. Additionally, if a systems readiness review is triggered by one of the events described in **Section 1.3.29**, the Dental Contractor must submit all of the plans identified in this section in accordance with an HHSC approved timeline.

### **1.3.28.2 ACCOUNTING AND REPORTING REQUIREMENTS**

The Dental Contractor's accounting records and supporting information related to all aspects of the Contract must be accumulated in accordance with Federal Acquisition Regulations (FAR), Generally Accepted Accounting Principles (GAAP), and the cost principles contained in the HHSC Cost Principles document in **Chapter 6.1 of the UNIFORM MANAGED CARE MANUAL**. HHSC will not recognize costs that are unallowable, or that cannot be properly substantiated by the Dental Contractor and verified by HHSC. The Dental Contractor must:

1. Maintain accounting records for the Dental Program and the resulting contract separate and apart from other corporate accounting records;
2. Maintain records for all claims payments, refunds, and adjustment payments to Providers, capitation payments, interest income, and payments for administrative services or functions, and must maintain separate records for dental and administrative fees, charges, and payments;
3. Ensure and provide access to HHSC or its auditors to the detailed records and supporting documentation for all costs incurred by the Dental Contractor. The Dental Contractor must ensure access to its Affiliates' records for any costs billed to or passed to the Dental Contractor with respect to the Dental Program; and
4. Maintain an accounting system that provides an audit trail containing sufficient financial documentation to allow for the reconciliation of billings, reports, and financial statements with all general ledger accounts.

The Dental Contractor must reimburse HHSC, if reimbursement is sought from the Dental Contractor, for reasonable costs incurred by HHSC to perform examinations, investigations, audits, or other types of attestations that HHSC determines are necessary to ensure Dental Contractor's compliance with the Contract. The use and selection of any external parties to conduct examinations, investigations, audits, or other types of attestations are at HHSC's sole discretion.

#### **1.3.28.2.1 GENERAL ACCESS TO ACCOUNTING RECORDS**

The Dental Contractor, and any Affiliate Subcontractor, must provide authorized representatives of the State and federal governments full access to all financial and accounting records related to the performance of the Contract. See **ATTACHMENT B, HHSC DENTAL CONTRACT TERMS AND CONDITIONS** for additional requirements.

The Dental Contractor and any subcontracted Affiliates must:

1. Cooperate with the state and federal governments in their evaluation, inspection, audit, or review of accounting records and any necessary supporting information;
2. Permit authorized representatives of the State and federal governments full access, during normal business hours, to the accounting records that the State and federal governments determine are relevant to the Contract. Such access is guaranteed at all times during the performance and retention period of the Contract, and may include both announced and unannounced inspections, on-site audits, and the review, analysis, and reproduction of reports produced by the Dental Contractor;
3. Make copies, at no cost to HHSC, of any accounting records or supporting documentation relevant to the Contract, including Provider Contracts, available to the State and federal governments within seven Business Days, or as otherwise specified, of receiving a written request for the specified records or information. If such documentation is not made available as requested, the Dental Contractor agrees to reimburse the requesting party for all costs, including, but not limited to, transportation, lodging, and subsistence for all state and federal representatives, or their designees, to carry out the inspection, audit, review, analysis, and reproduction functions at the location(s) of such accounting records; and
4. Pay all additional costs incurred by the State and federal governments that are the result of the Dental Contractor's failure to provide the requested accounting records or financial information within ten Business Days of receiving a written request from the State or federal government. Failure to provide such required documentation and information in a timely manner may be deemed to be a material breach of the Contract's terms.

#### **1.3.28.2.2 FINANCIAL REPORTING REQUIREMENTS**

HHSC will require the Dental Contractor to provide separate financial reports for Medicaid and CHIP to support the Contract monitoring as well as state and federal reporting requirements. All financial information and reports submitted by the Dental Contractor become property of HHSC. HHSC may, at its discretion, release such information and reports to the public at any time and without notice to the Dental Contractor. In accordance with state and federal laws regarding Dental Member confidentiality, HHSC will not release any Dental Member-identifying information contained in such reports.

Any data submitted with respect to the required financial reports or filings that is in portable document format (PDF), or similar file format, must be generated in a text-searchable format. Copies of required filings or reports may not be submitted in non-text-searchable formats, such as JPG or GIF. In certain exceptions, where expressly permitted by HHSC, signature pages may be submitted in a non-text-searchable format.

The Dental Contractor must submit all required financial reports as detailed in **Chapter 5 of the UNIFORM MANAGED CARE MANUAL** and the Contract using the templates in **Chapter 5 of the UNIFORM MANAGED CARE MANUAL**.

*Note to Dental Contractors. Not all the above referenced financial reports have been incorporated into the UNIFORM MANAGED CARE MANUAL at the time this Contract was*

*awarded. The development of the report templates are part of the current HHSC Uniform Managed Care Manual change process, and Dental Contractors will be notified when the templates are published, and made part of the Contract.*

### **1.3.29 MANAGEMENT INFORMATION SYSTEM REQUIREMENTS**

The Dental Contractor must maintain a Management Information System (MIS) that supports all functions of the Dental Contractor's processes and procedures for the flow and use of Dental Program data. If the Dental Contractor subcontracts an MIS function, the Subcontractor's MIS must comply with the requirements of this section. The Dental Contractor must have hardware, software, and a network and communications system with the capability and capacity to handle and operate all MIS subsystems, with limited manual intervention for routine processing, for the following operational and administrative areas:

1. Enrollment/eligibility subsystem;
2. Provider subsystem;
3. Encounter/claims processing subsystem;
4. Benefit tracking/limitations subsystem;
5. Financial subsystem;
6. Utilization/Quality Improvement subsystem;
7. Reporting subsystem;
8. Interface subsystem; and
9. Third Party Recovery subsystem.

The MIS must enable the Dental Contractor to meet this Contract's requirements, including all applicable state and federal laws, rules, and regulations. The MIS must have the capacity and capability to capture and utilize various data elements required for Dental Contractor administration.

The Dental Contractor must have a system that can be adapted to changes in business practices or policies within the timeframes negotiated by the Parties. The Dental Contractor is expected to cover the cost of such systems modifications through the Term of the Contract.

The Dental Contractor is required to participate in work groups and regular calls related to MIS convened by HHSC.

The Dental Contractor must provide HHSC prior written notice of a Major Systems Change and implementation no later than 180 calendar days prior to the planned change or implementation, including any changes relating to Material Subcontractors, in accordance with the requirements of the Contract and **ATTACHMENT B, HHSC DENTAL CONTRACT TERMS AND CONDITIONS**. HHSC may modify or waive the notification requirement contingent upon the nature of the request from the Dental Contractor.

The Dental Contractor must notify HHSC of a Major Systems Change in writing, as well as by email, to HHSC's Managed Care Compliance & Operations division's staff. The notification must detail the following:

1. The aspects of the system that will be changed and date of implementation;

2. How these changes will affect the Provider and Dental Member community, if applicable;
3. The communication channels that will be used to notify these communities, if applicable;
4. A detailed implementation plan and schedule of proposed changes; and
5. A contingency plan in the event of downtime of system(s) or substantial non-performance of the system(s).

Major Systems Change is subject to HHSC desk review and onsite review of the Dental Contractor's facilities as necessary to test readiness and functionality prior to implementation. See **Section 1.3.2**.

### **1.3.29.1 ENCOUNTER DATA**

The Dental Contractor must provide complete and accurate Encounter Data that reflects information received on claims for all Medically Necessary Covered Dental Services, including VAS. Encounter Data must follow the format and data elements as described in the most current version of Health Insurance Portability and Accountability Act (HIPAA)-compliant 837D Companion Guides, and Encounters Submission Guidelines. The Dental Contractor will adhere to the method of transmission, the submission schedule, and any other requirements specified in the **UNIFORM MANAGED CARE MANUAL**. HHSC will use Encounter data to set rates, monitor utilization, conduct system reporting, quality monitoring, FWA activities, and for other programmatic purposes.

Encounter Data quality validation must incorporate assessment standards developed jointly by the Dental Contractor and HHSC. The Dental Contractor must ensure that HHSC receives complete and accurate Encounter Data not later than the 30<sup>th</sup> day after the last day of the month in which the claim was adjudicated. The Dental Contractor must make original records and data available for inspection by HHSC for validation purposes upon HHSC request. Encounter Data that do not meet quality standards must be corrected and resubmitted within a time period specified by HHSC.

In addition to providing Encounter Data in the format described above, HHSC may request that the Dental Contractor submit an Encounter Data file to HHSC's EQRO, in the format provided in the **UNIFORM MANAGED CARE MANUAL**.

For reporting Encounters to HHSC, the Dental Contractor must use the procedure codes, diagnosis codes, and other codes as directed by HHSC. Any exceptions will be considered on a code-by-code basis after HHSC receives written notice from the Dental Contractor requesting an exception. The Dental Contractor must also use the Provider numbers as directed by HHSC, in the format provided in the **UNIFORM MANAGED CARE MANUAL** for Encounter submissions.

### **1.3.29.2 SYSTEM-WIDE FUNCTIONS**

The Dental Contractor's MIS system must include key business processing functions or features, which must apply across all subsystems as follows:

1. Process electronic data transmission or media to add, delete, or modify membership records with accurate begin and end dates;
2. Track Medically Necessary Covered Dental Services received by Dental Members through the system, and accurately and fully maintain those Medically Necessary Covered Dental Services as HIPAA compliant Encounter transactions;
3. Transmit or transfer Encounter Data transactions on electronic media in the HIPAA format to the contractor designated by HHSC to receive the Encounter Data;
4. Maintain a history of changes and adjustments and audit trails for current and retroactive data;
5. Maintain procedures and processes for accumulating, archiving, and restoring data in the event of a system or subsystem failure;
6. Employ industry standard dental billing taxonomies (procedure codes, diagnosis codes) to describe services delivered and Encounter transactions produced;
7. Accommodate the coordination of benefits;
8. For CHIP members, produce standard explanation of benefits (EOBs);
9. Pay financial transactions to Providers in compliance with federal and state laws, rules, and regulations;
10. Ensure that all financial transactions are auditable according to GAAP guidelines;
11. Ensure that FSRs conform to the FAR and **Chapter 6.1 of the UNIFORM MANAGED CARE MANUAL**, with respect to segregating costs that are allowable for inclusion in HHSC-designed financial reports;
12. Relate and extract data elements to produce report formats in the **UNIFORM MANAGED CARE MANUAL** or otherwise as required by HHSC;
13. Ensure that written process and procedures manuals document and describe all manual and automated system procedures and processes for the MIS;
14. Maintain and cross-reference all Dental Member-related information with the most current Main Dentist number;
15. Maintain and cross-reference all Dental Member-related information with current and historical Medicaid or CHIP Provider numbers;
16. Track utilization of benefits within the Program's benefit limit(s); and
17. Report benefit utilization information to other Dental Contractor and HHSC.

### **1.3.29.3 ELECTRONIC DATA INTERCHANGE AND HEALTH INSURANCE PORTABILITY AND ACCOUNTABILITY ACT COMPLIANCE**

In addition to other requirements in this Contract, the Dental Contractor must comply with HIPAA Electronic Data Interchange (EDI) requirements including the HIPAA-compliant format version. The Dental Contractor must be able to receive, load, and read eligibility files received from HHSC in the 834 HIPAA-compliant format. Eligibility inquiries must be in the 270/271 HIPAA-compliant format. Claim transactions must be in the 837D/835 HIPAA-compliant format.

The Dental Contractor must develop a privacy notice, commonly referred to as Notice of Privacy Practice (NOPP), as required by HIPAA, including 45 C.F.R. § 164.520. The Dental Contractor must provide HHSC with a copy of its NOPP prior to distribution and

after any changes are made to the NOPP prior to distribution. The Dental Contractor must provide its new Dental Members with a NOPP, and to all existing Dental Members after making revisions to the NOPP.

The Dental Contractor must offer its Providers and Subcontractors the option of submitting and receiving claims information through an EDI that allows for automated processing and adjudication of claims. EDI processing must be offered as an alternative to the filing of paper claims. The Dental Contractor must use HIPAA-compliant electronic formats.

HHSC may require the Dental Contractor to receive initial electronic claims through an HHSC-contracted vendor. The Dental Contractor must allow Providers to send claims to one location, which will then identify where the claim should be submitted. The Dental Contractor's interface must allow receipt of these electronic submissions. The Dental Contractor must maintain a mechanism to receive claims from an HHSC-contracted vendor in addition to the HHSC claims portal. The Dental Contractor must allow Providers to send claims directly to the Dental Contractor or its Subcontractor.

The Dental Contractor must make an electronic funds transfer payment process for direct deposit available to Providers when processing claims for Medically Necessary Covered Dental Services.

The Dental Contractor may deny a claim submitted by a Provider for failure to file in a timely manner as provided for in **Chapter 2 of the UNIFORM MANAGED CARE MANUAL**.

#### **1.3.29.4 CLAIMS PROCESSING REQUIREMENTS**

The Dental Contractor must administer an effective, accurate, and efficient claims payment process in compliance with federal and state laws, rules, and regulations including **Chapter 2 of the UNIFORM MANAGED CARE MANUAL**. The Dental Contractor must process and adjudicate all claims for Medically Necessary Covered Dental Services that are filed within the timeframes specified in **Chapter 2 of the UNIFORM MANAGED CARE MANUAL**. The Dental Contractor and its Subcontractor cannot directly or indirectly charge or hold a Dental Member or Provider responsible for claims adjudication or transaction fees.

The Dental Contractor should employ a fully automated claims processing system to the extent practicable. If not practicable to be fully automated, the Dental Contractor must maintain an automated claims processing system that requires minimal and limited manual intervention for routine claims processing and that registers the date a claim is received by the Dental Contractor, the detail of each claim transaction or action, including date of service, at the time the transaction occurs, and has the capability to report each claim transaction by date and type to include interest payments. The claims system must maintain information at the claim and line detail level. The claims system must maintain adequate audit trails and report accurate claims performance measures to HHSC.

The Dental Contractor's claims system must maintain online and archived files. The Dental Contractor must keep online automated claims payment history for the most current 18 months. The Dental Contractor must retain other financial information and records, including all original claims forms, for the time period established in **Section 9.01 of**

**ATTACHMENT B, HHSC DENTAL CONTRACT TERMS AND CONDITIONS.** All claims data must be easily sorted and produced in formats as requested by HHSC.

The Dental Contractor must withhold all or part of payment for any claim submitted by a Provider:

1. Who has been excluded or suspended from the Medicare, Medicaid, or CHIP programs based on a determination of FWA;
2. For whom his or her license has been terminated or suspended;
3. Who is on payment hold under the authority of HHSC;
4. With debts, settlements, or pending payments due to HHSC, the State or federal government;

With the following exceptions, the Dental Contractor must complete all audits of a provider claim no later than 18 months after receipt of a Clean Claim, regardless of whether the provider participates in the Dental Contractor's Network. This limitation does not apply in cases of provider FWA that the Dental Contractor did not discover within the two-year period following receipt of a claim. In addition, the two-year limitation does not apply when the officials or entities identified in **Section 9.02(c) of ATTACHMENT B, HHSC DENTAL CONTRACT TERMS AND CONDITIONS**, conclude an examination, audit, or inspection of a provider more than two years after the Dental Contractor received the claim, or when HHSC has recovered a capitation from the Dental Contractor based on a Dental Member's ineligibility. If an exception to the two-year limitation applies, then the Dental Contractor may recoup related payments from providers, only if approved by HHSC.

A Clean Claim must meet all requirements for accurate and complete data as defined in the appropriate 837 encounter guides as follows:

- (1) 837 Dental Implementation Guide; and
- (2) 837 Dental Companion Guide;

The Dental Contractor may not require a dentist or dental provider to submit documentation that conflicts with the requirements of 28 Tex. Admin. Code Chapter 21, Subchapters C and T.

If an additional payment is due to a provider as a result of an audit, the Dental Contractor must make the payment no later than 30 calendar days after it completes the audit. If the audit indicates that the Dental Contractor is due a refund from the provider, the Dental Contractor must send the provider written notice of the basis and specific reasons for the recovery no later than 30 calendar days after it completes the audit. If the provider disagrees with the Dental Contractor's request, the Dental Contractor must give the provider an opportunity to appeal, and may not attempt to recover the payment until the provider has exhausted all appeal rights. If the Dental Contractor recouped and did not allow provider time to appeal, Dental Contractor must repay the provider for funds recouped.

The Dental Contractor is subject to the requirements related to coordination of benefits for secondary payors in the Tex. Ins. Code § 843.349 (e) and (f), even if it is licensed as an indemnity insurer.

The Dental Contractor must notify HHSC of a claims processing Major Systems Change in writing no later than 180 calendar days prior to implementation. The Dental Contractor must provide an implementation plan and schedule of proposed changes. HHSC may require a desk or on-site readiness review of the changes.

The Dental Contractor must inform all Providers about the information required to submit a claim at least 30 calendar days prior to the Operational Start Date and as a provision within its Provider Contract. The Dental Contractor must make any policies affecting claims adjudication and claims coding and processing guidelines available to Providers for the applicable Provider type. Providers must receive 90 calendar days written notice prior to the Dental Contractor's implementation of changes to these claims policies and guidelines.

The Provider Contract must specify that program violations arising out of performance of the Provider Contract are subject to administrative enforcement by the HHSC OIG as specified in 1 Tex. Admin. Code Chapter 371, Subchapter G.

### **1.3.29.5 CLAIMS PROJECT**

For purposes of this section, Claims Project means a project initiated by a Dental Contractor, outside of the Provider Appeal process, after payment or denial of claim(s) for the purpose of conducting any necessary research on the claim(s) or to adjust the claim(s), if appropriate.

Dental Contractor may initiate a Claims Project at its own initiative. All claims included in a particular Claims Project must be finalized within 60 calendar days of the Claims Project being opened or within an agreed upon timeframe between the Provider and the Dental Contractor. The Dental Contractor must enter a written agreement with the Provider before the expiration of the initial 60 day period to establish the Claims Project's agreed upon timeframe. Dental Contractor must maintain the agreement for 18 months from the conclusion of the Claims Project and make the agreement available to HHSC upon request. Dental Contractor will report monthly to HHSC the start and end date for all Claims Projects using HHSC's report template.

Claims Projects must be included in the quarterly claims report including interest paid. All claims projects must be reported to the HHSC MCCO team on the required standardized report. Any Claims Project that exceeds 60 calendar days must receive prior approval for an extension from MCCO.

### **1.3.29.6 NATIONAL CORRECT CODING INITIATIVE**

For all claims filed, the Dental Contractor must comply with the requirements of 42 U.S.C. § 1396b(r)(1)(B)(iv), regarding the National Correct Coding Initiative, including all applicable rules, regulations, and methodologies implemented as a result of this initiative.

### **1.3.30 ELECTRONIC FUND TRANSFER**

Dental Contractor must offer Providers electronic fund transfers (EFT) for claims payment, or other direct deposit operations such as paycheck deposits, as a safe alternative to paper checks for payment of claims. Dental Contractor must make EFT available to Providers whether claims are filed electronically or in hardcopy. Dental Contractor must utilize a financial subsystem that provides the technological capability to process EFT using HIPAA national standards for electronic payment and remittance advice. Dental Contractor must ensure that no less than 85 percent of the dollars processed as claims payments are issued via EFT.

The Dental Contractor not meeting the stated EFT processing standard must develop a plan and corresponding timeline for HHSC approval that improves the payment processing system to a level of maturity to support and achieve the stated performance standard.

### **1.3.31 FRAUD, WASTE, AND ABUSE**

The Dental Contractor is subject to all state and federal laws and regulations relating to Fraud, Waste, and Abuse (FWA) in the Dental Program including Gov't. Code §§ 531.102, 531.113, 531.1131, and 533.012; 1 Tex. Admin. Code §§ 353.501-353.505; 1 Tex. Admin. Code §§ 370.501-370.505; and 1 Tex. Admin. Code Chapter 371 Subchapter G.

The Dental Contractor must cooperate and assist the HHSC Office of Inspector General (OIG) and any state or federal agency charged with the duty of identifying, investigating, sanctioning, or prosecuting suspected FWA.

The Dental Contractor must require all employees who process Medicaid and CHIP claims, including Subcontractors, to attend annual training as provided by HHSC per Tex. Gov't Code § 531.105.

The Dental Contractor must perform pre-payment review for identified providers as directed by OIG.

When requested by the HHSC OIG, the Dental Contractor will be required to provide employees to participate in administrative proceedings pursued by the HHSC OIG. Such employees must be knowledgeable about the subject matter on which they are called to testify and must be available for preparatory activities and for formal testimony. The Dental Contractor must provide the employees at no cost to HHSC.

#### **1.3.31.1 FRAUD, WASTE, AND ABUSE COMPLIANCE PLAN**

The Dental Contractor must submit a written FWA compliance plan to HHSC OIG for approval each year. The plan must be submitted 90 calendar days prior to the start of the SFY. The compliance plan must address how the Dental Contractor will meet each of the requirements outlined in 42 C.F.R. § 438.608 (a) and 1 Tex. Admin. Code § 353.502.

As part of the FWA compliance plan, the Dental Contractor must:

- a. Designate executive and essential personnel to attend mandatory HHSC conducted training in FWA detection, prevention, and reporting. Executive and essential FWA personnel means Dental Contractor staff persons who supervise staff in the following areas:
  - i Data collection;
  - ii Provider credentialing and Network oversight;
  - iii Encounter Data;
  - iv Claims processing;
  - v Utilization Management;
  - vi Complaint or Appeal;
  - vii Quality assurance and marketing;
  - viii Special investigation unit; and
  - ix Those who are directly involved in the decision making and administration of the FWA detection program within the Dental Contractor's organization.

Training will be conducted free of charge by the HHSC Office of Inspector General (OIG). The Dental Contractor must schedule, and all designated executive and essential personnel must complete training no later than 90 calendar days after the Effective Date;

- b. Designate an officer or director, who must have additional resources in addition to him or herself, within the Dental Contractor's organization, responsible for carrying out the provisions of the FWA compliance plan;

If a Dental Contractor has not made any changes to its plan from the previous year, it may submit a notice to HHSC OIG in lieu of the compliance plan that:

1. No changes have been made to the previously-approved plan and;
2. The plan will remain in place for the upcoming SFY.

HHSC OIG may request an updated plan, regardless of such notice. In addition to the compliance plan, the Dental Contractor must submit supplemental documentation describing how it has met the requirement of the compliance plan for the previous year. The notification must be signed and certified by an officer or director of the Dental Contractor that is responsible for carrying out the FWA compliance plan.

### **1.3.31.2 SPECIAL INVESTIGATIVE UNITS**

In order to facilitate cooperation with OIG, the Dental Contractor must establish and maintain a special investigative unit (SIU), either-in house or by contract with another entity, to investigate possible acts of FWA for all services provided under the Contract, including those that the Dental Contractor subcontracts to outside entities.

The Dental Contractor's SIU does not have to be physically located in Texas but must be adequately staffed and with resources apportioned at the levels and experience sufficient to effectively work Dental Program cases based on objective criteria considering, but not necessarily limited to, the Dental Contractor's total Dental Member population, claims processes, risk exposure, current caseload, and other duties.

### **1.3.31.3 GENERAL REQUESTS FOR AND ACCESS TO DATA, RECORDS, AND OTHER INFORMATION**

The Dental Contractor and its Subcontractors must allow access to all premises and provide originals or copies of all records and information requested free of charge to HHSC OIG, HHSC, CMS, the U.S. Department of Health and Human Services (DHHS), the Federal Bureau of Investigation (FBI), the Office of the Attorney General (OAG), TDI, or other units of the State that have requested the information. The Dental Contractor must provide all copies of records free of charge. See **ATTACHMENT B, HHSC DENTAL CONTRACT TERMS AND CONDITIONS**, for additional requirements. The Dental Contractor must:

1. Designate one primary and one secondary contact person for all records requests. HHSC OIG records requests will be sent to the designated Dental Contractor contact person(s) in writing by email, fax, mail, or established file exchange process and will provide the specifics of the information being requested;
2. Respond to the appropriate requestor within the timeframe designated in the request. If the Dental Contractor is unable to provide all of the requested information within the designated timeframe to HHSC OIG, the Dental Contractor may request an extension in writing to the requestor no less than two Business Days prior to the due date; and
3. The Dental Contractor's response must include data for all data fields, as available. The data must be provided in the order and format requested. If any data field is left blank, an explanation must accompany the response. The Dental Contractor must not add or delete any additional data fields in its response. All requested information must be accompanied by a notarized business records affidavit unless indicated otherwise in the record request.
4. The Dental Contractor must provide complete and accurate data as specified by the OIG within the time frames below:
  - a. 3 Business Days - 1099 and other financial information; urgent claims data requests;
  - b. 5 Business Days - Claims data
  - c. 10 Business Days - provider education information
  - d. 15 Business Days - files associated with an investigation conducted by a Dental Contractor
  - e. The OIG may request other information as needed, these requests must be submitted within the timeframes specified by the OIG.

### **1.3.31.4 CLAIMS DATA SUBMISSION REQUIREMENTS**

The Dental Contractor and its Subcontractors must submit Adjudicated claims data per the frequency and scope prescribed by HHSC OIG. This data must include submission of complete and accurate data for all fields required on standard billing forms or electronic claim formats to support proper adjudication of all paid and denied claims. In the event that the Dental Contractor or its Subcontractors denies provider claims for reimbursement due to lack of sufficient or accurate data required for proper adjudication, the Dental Contractor

and its Subcontractors are required to submit all available claims data for such denied claims to HHSC OIG without alteration or omission.

The Dental Contractor and its Subcontractors must conduct a comparative analysis of the prior month's Encounter Data submitted to HHSC OIG with the corresponding Adjudicated claims data from the Dental Contractor's and its Subcontractor's claims systems to identify any variances. The analysis will be conducted at the Encounters and Claims detail (line item) data element level. The Dental Contractor and its Subcontractors will submit a monthly report to HHSC OIG identifying all variances between the Encounter Data and the Adjudicated claims data, and provide a detailed written explanation for each identified variance. The report must be submitted to HHSC OIG in the manner and format, on the due date, and in compliance with all parameters designated by HHSC OIG.

The Dental Contractor and its Subcontractors must submit all data relevant to the adjudication and payment of claims in sufficient detail, as defined by HHSC OIG, in order to support comprehensive financial reporting, utilization analysis, and investigative efforts.

The Dental Contractor and its Subcontractors must supply EFT account numbers in the frequency and scope required by HHSC OIG for all Medicaid or CHIP providers who have elected to receive payments via EFT.

### **1.3.31.5 PAYMENT HOLDS AND SETTLEMENTS**

42 C.F.R. § 455.23 and 1 Tex. Admin. Code § 371.1709, require the HHSC OIG to suspend all Medicaid payments to a provider in certain circumstances after HHSC OIG determines there is a credible allegation of fraud for which an investigation is pending under the Medicaid program. HHSC OIG may include the Dental Contractor's capitation payments in a suspension when an individual Provider is under investigation based upon credible allegations of fraud.

The Dental Contractor must cooperate with HHSC OIG timely and efficiently when HHSC OIG imposes payment suspensions or lifts a payment hold. When HHSC OIG sends notice to the Dental Contractor that payments to a provider have been suspended or the suspension lifted by HHSC OIG, the Dental Contractor must also suspend or lift suspension of payments to the provider within one Business Day of receiving the notice and notify HHSC OIG within three Business Days of the action taken. If the Dental Contractor fails to implement the payment hold or improperly releases funds, HHSC may assess actual damages in the amount not held or released improperly.

The Dental Contractor must report information on payment holds initiated by HHSC OIG or the Dental Contractor, as specified in **Chapter 5.5 of the UNIFORM MANAGED CARE MANUAL**. The Dental Contractor must respond to the HHSC OIG request for payment hold amounts accurately and in the manner and format requested. HHSC may assess actual damages for the difference between the accurate adjudicated amount required to be reported by the Dental Contractor under **Chapter 5.5 of the UNIFORM MANAGED CARE MANUAL** and the amount received by HHSC OIG. The Dental Contractor must follow the requirements set forth in a settlement agreement involving a Dental Contractor's Provider

and HHSC OIG. The Dental Contractor must withhold the designated percentage of funds to be paid toward an identified overpayment. Upon HHSC OIG request, the Dental Contractor must forward the held funds to **HHSC OIG, Attn: Litigation Division**, along with an itemized spreadsheet detailing the Provider's claims paid.

Dental Contractor must maintain all documents and claim data on Providers who are under HHSC OIG investigation or any internal investigations that are referred to HHSC OIG for recoupment. The Dental Contractor's failure to comply with this section and all state and federal laws and regulations relating to FWA are subject to administrative enforcement by HHSC OIG.

The Dental Contractor will have no claim to any funds that are recovered by the State of Texas or the United States Government from a Provider through an action under the Federal False Claims Act, Texas Medicaid Fraud Prevention Act, or similar laws. The recovery of an overpayment by a Dental Contractor from a Provider does not preclude the prosecution of, nor recovery from a Provider under the Federal False Claims Act, Texas Medicaid Fraud Prevention Act, or similar laws.

The Dental Contractor must apply payment holds to providers participating in cost reporting with HHSC, at the request of HHSC.

### **1.3.31.6 FALSE CLAIMS ACT AND WHISTLEBLOWING**

In accordance with Section 1902(a)(68) of the Social Security Act (False Claims Act), Dental Contractor and its Subcontractors that receive or make annual Medicaid payments of at least \$5 million must:

1. Establish written policies for all employees, managers, officers, contractors, Subcontractors, and agents of the Dental Contractor or Subcontractor, that provide detailed information about the False Claims Act, administrative remedies for false claims and statements, any state laws pertaining to civil or criminal penalties for false claims, and whistleblower protections under such laws, as described in Section 1902(a)(68)(A) of the Social Security Act;
2. Include detailed provisions regarding the Dental Contractor's or Subcontractor's policies and procedures must include for detecting and preventing FWA; and
3. Include in any employee handbook a specific discussion of the laws described in Section 1902(a)(68)(A) of the Social Security Act, the rights of employees to be protected as whistleblowers, and the Dental Contractor's or Subcontractor's policies and procedures for detecting and preventing FWA.

### **1.3.32 CONTINUITY OF CARE AND OUT-OF-NETWORK PROVIDERS**

The Dental Contractor must ensure that the care of newly enrolled Dental Members is not disrupted or interrupted.

Upon notification from a Dental Member or Provider of the existence of a PA, the new Dental Contractor must ensure Dental Members receiving services through a PA from either another Dental Contractor or Fee-for-Service (FFS) receive continued authorization

of those services for the same amount, duration, and scope for the shortest period of one of the following:

1. 90 calendar days after the transition to a new Dental Contractor;
2. Until the end of the current authorization period, or
3. Until the Dental Contractor has evaluated and assessed the Dental Member and issued or denied a new authorization. For instances in which a newly enrolled Dental Member transitioning from FFS to managed care was receiving a service that did not require a PA in FFS, but does require one by the new Dental Contractor, the Dental Contractor must ensure Dental Members receive services for the same amount, duration, and scope for the shortest period of one of the following:
  - a. 90 calendar days; or
  - b. Until the Dental Contractor has evaluated and assessed the Dental Member and issued or denied a new authorization.

Additionally, if a Dental Member is new to a Dental Contractor, and is completing one or more dental procedures initiated prior to joining, the Dental Contractor is only responsible for payment for the continued course of treatment, if such treatment is a Medically Necessary Covered Dental Service and has not already been paid in full by the Dental Member's previous Dental Contractor.

The Dental Contractor must pay a Dental Member's existing Out-of-Network (OON) providers for Medically Necessary Covered Dental Services until the Dental Member's records, clinical information, and care can be transferred to a Network Provider, or until such time as the Member is no longer enrolled with that Dental Contractor, whichever is shorter. The Dental Contractor must comply with OON rules as described in 1 Tex. Admin. Code § 353.4.

The Dental Contractor must provide Dental Members with timely and adequate access to OON services for as long as those services are necessary and covered benefits are not available within the Network, in accordance with 42 C.F.R. § 438.206(b)(4). The Dental Contractor will not be obligated to provide a Dental Member with access to OON services if such services become available from a Network Provider.

The Dental Contractor must ensure that each Dental Member has access to a second opinion regarding any Medically Necessary Covered Dental Service. A Dental Member must be allowed access to a second opinion from a Network Provider or OON provider if a Network Provider is not available, at no cost to the Dental Member, in accordance with 42 C.F.R. § 438.206(b)(3). The requirements in this section regarding access to and payment of OON providers apply only to OON providers who are enrolled Texas Medicaid providers.

If a Medicaid Dental Member enrolled with a Dental Contractor for at least one month is receiving orthodontic treatment and either ages out of the Dental Program or loses eligibility, the Dental Contractor is responsible for completion of the course of treatment. The only exception is if the Medicaid Dental Member is disenrolled with cause, but is still Medicaid eligible. For example, if a Medicaid Dental Member goes into a state supported living center, the Dental Contractor will no longer be responsible for services rendered.

### **1.3.33 PAYMENTS TO FEDERALLY QUALIFIED HEALTH CENTERS, RURAL HEALTH CLINICS, AND CERTAIN PHYSICIANS**

The Dental Contractor must pay full encounter rates to Rural Health Clinics (RHCs) for Medically Necessary Covered Dental Services using the prospective payment methodology described in Social Security Act §§ 1902(bb) and 2107(e)(1). Because the Dental Contractor is responsible for the full payment amount in effect on the date of service for RHCs, HHSC cost settlements, or “wrap payments”, will not apply.

When the Dental Contractor negotiates payment amounts with Federally Qualified Health Clinics (FQHCs), the amounts must be greater than or equal to the average of the Dental Contractor's payment terms for other Providers providing the same or similar services. Because the Dental Contractor may negotiate payment amounts with FQHCs, wrap payments apply. Dental Contractor may elect to pay the FQHC wrap payment at the time of claim adjudication but no later than the 15th calendar day of the following month for claims paid in the prior month. After the Dental Contractor pays a wrap payment, HHSC will make a supplemental payment to the Dental Contractor in the amount of the wrap payment.

If a Dental Member visits an FQHC, RHC, or a Municipal Health Department's public clinic for Health Care Services (public clinic) at a time that is outside of normal business hours, as defined by HHSC in rules, including weekend days or holidays, the Dental Contractor must reimburse the FQHC, RHC, or public clinic for Medically Necessary Covered Dental Services. The Dental Contractor must do so at a rate that is equal to the allowable rate for those services as determined under Tex. Hum. Res. Code § 32.028. The Member does not need a referral from his or her Main Dentist. If a Member visits an Out-of-Network (OON) FQHC, the Dental Contractor is obligated to reimburse the FQHC a full encounter rate for Medically Necessary Covered Dental Services provided as if the OON FQHC were a Network Provider. This encounter rate is paid entirely as a wrap payment no later than the 15th calendar day of the following month for services provided in the prior month. After the Dental Contractor pays a wrap payment, HHSC will make a supplemental payment to the MCO in the amount of the wrap payment by the last day of the following month. An FQHC's OON claim is subject to the same claim standards requirements as the Dental Contractor's in-network providers. This section applies to services provided to Medicaid and CHIP Dental Members.

If a Dental Member who is an Indian enrollee visits an OON Indian Health Care Provider (IHCP) for Covered Services, the Dental Contractor is obligated to timely reimburse the IHCP in compliance with 42 C.F.R. § 438.14 or as follows:

1. At a rate negotiated between the Dental Contractor and the IHCP, or
2. If the Dental Contractor and IHCP have not negotiated a rate, at a rate not less than the level and amount the MCO would pay a participating provider that is not an IHCP for the services.

An IHCP's OON claim is subject to the same claims standards requirements as the Dental Contractor's Providers.

### **1.3.34 OBJECTION TO PROVIDE CERTAIN SERVICES**

In accordance with 42 C.F.R. § 438.102, the Dental Contractor may file an objection to providing, reimbursing for, or providing coverage of, a counseling or referral service for a Covered Dental Service based on moral or religious grounds. The Dental Contractor must work with HHSC to develop a work plan to complete the necessary tasks and determine an appropriate date for implementation of the requested changes to the requirements related to Medically Necessary Covered Dental Services. The work plan will include timeframes for completing the necessary Contract and waiver amendments, adjustments to Capitation Rates, identification of the Dental Contractor and enrollment materials needing revision, and notifications to Dental Members.

In order to meet the requirements of this section, the Dental Contractor must notify HHSC of grounds for and provide detail concerning its moral or religious objections and the specific services covered under the objection, no less than 120 calendar days prior to the proposed effective date of the policy change.

The Dental Contractor must notify their Dental Members of any policy change 30 calendar days before the policy effective date and must inform Dental Members when these services are not covered and how to obtain information on receiving these services from HHSC.

### **1.3.35 PAYMENT BY ELIGIBLE MEDICAID MEMBERS**

Except as provided in **Section 1.3.35.1**, Dental Contractor, Network Providers, and OON providers are prohibited from billing or collecting any amount from a Dental Member, their authorized representatives, LAR, or guardian, for Medically Necessary Covered Dental Services. See 1 Tex. Admin. Code § 354.1005.

As provided in **Section 10.10 of ATTACHMENT B, HHSC DENTAL CONTRACT TERMS AND CONDITIONS**, the Dental Contractor must inform Dental Members of their responsibility to pay the costs for non-covered services, and must require its Providers to:

1. Inform Dental Members of costs for non-covered services prior to rendering such services; and
2. Obtain a signed private pay form from such Dental Members.

#### **1.3.35.1 CHIP DENTAL CONTRACTOR**

CHIP Network Providers and OON Providers may collect copayments from CHIP Dental Members as authorized in the CHIP State Plan. For purposes of this section, CHIP Dental Members will be referred to as member(s).

The EB will notify the Dental Contractor when a member's family's cost share limit has been reached. Upon such notification, the Dental Contractor must generate and mail to the member a new Dental Member ID card within five calendar days, showing that the member's cost-sharing obligation for that term of coverage has been met. No cost-sharing may be collected from these members for the balance of their term of coverage.

The Dental Contractor must ensure that Providers do not collect copayments at any income level for Medically Necessary Covered Dental Services that qualify as routine preventive and diagnostic dental services, as defined by Section 2103(e)(2) of the Social Security Act and 42 C.F.R. § 457.520.

Except for costs associated with unauthorized non-emergency services provided to a member by OON providers and for non-covered dental services, the copayments outlined in the CHIP Cost Sharing Table in **Chapter 6.3 of the UNIFORM MANAGED CARE MANUAL** are the only amounts that a provider may collect from a CHIP-eligible family. Although the Emergency Dental Services described in **Section 1.3.7** are Non-capitated Services, the Dental Contractor must educate members and Providers that cost sharing for such Emergency Dental Services is limited to the copayment amounts set forth in **Chapter 6.3 of the UNIFORM MANAGED CARE MANUAL**. If the cost of a Covered Dental Service is less than the member's copayment for that Covered Dental Service, the copayment amount the member pays will be capped at the cost of the Covered Dental Service.

The Dental Contractor's Provider Contracts must limit the amount CHIP Providers may charge members for services in excess of the member's benefit limits. The Dental Contractor must ensure that a Provider agrees to limit charges to the Providers' contracted rates for services that would have been Covered Dental Services, if the services were within the benefit limit.

Federal law prohibits charging premiums, deductibles, coinsurance, copayments, or any other cost-sharing to members that are Native Americans or Alaskan Natives. The HHSC Administrative Dental Services Contractor will notify the Dental Contractor of members who are not subject to cost-sharing requirements. The Dental Contractor must train Providers regarding the cost-sharing waiver for this population.

The Dental Contractor's monthly Premium Payment will not be adjusted for a member's family's failure to make its CHIP premium payment. There is no relationship between the Premium Payment owed to the Dental Contractor for coverage provided during a month, and the family's payment of its CHIP premium obligations for that month.

### **1.3.36 COORDINATION WITH OTHER STATE HEALTH AND HUMAN SERVICES PROGRAMS**

The Dental Contractor must coordinate with other state Health and Human Services Programs regarding the provision of essential public health care services. The Dental Contractor must meet the following requirements:

1. Cooperate and coordinate with the Medical Transportation Program to ensure Dental Members have access to Medical Transportation Program services.
2. Cooperate and coordinate with the THSteps outreach unit to ensure prompt delivery of services to Dental Members who miss dental checkups.
3. Cooperate and coordinate with HHSC, outreach programs, and THSteps regional program staff and agents to ensure prompt delivery of services to Farmworker Child(ren) and other migrant populations who may transition into and out of the

Dental Contractor's Program more rapidly or unpredictably than the general population.

4. Coordinate care protocols for working with MCOs, as well as protocols for reciprocal referral and communication of data and clinical information regarding the Member's Medically Necessary Covered Dental Services.

### **1.3.37 ATTORNEY GENERAL COOPERATION**

To the extent HHSC, the State of Texas, or any other State agency is named in any lawsuit, the defense must be coordinated by Dental Contractor with the Office of the Attorney General, and Dental Contractor may not agree to any settlement without first obtaining the concurrence from the Office of The Attorney General.

## **1.4 PERFORMANCE INCENTIVES AND DISINCENTIVES**

This section documents performance incentives and disincentives related to HHSC's value-based purchasing approach. For further information, refer to **ATTACHMENT B, HHSC DENTAL CONTRACT TERMS AND CONDITIONS**.

The Dental Contractor must provide the Services and Deliverables, including Medically Necessary Covered Dental Services to enrolled Dental Members, in order for monthly Capitation Payments to be paid by HHSC.

Refer to **Article 9 of ATTACHMENT B, HHSC DENTAL CONTRACT TERMS AND CONDITIONS** for information concerning Capitation Rate development and for information and requirements on the:

1. Time and manner of payment (**Section 9.02**),
2. Adjustments to capitation payments (**Section 9.07**), and
3. Experience Rebate (**Section 9.08**).

Incentives and disincentives are subject to change by HHSC over the course of the Contract. The methodologies required to implement these strategies will be refined by HHSC after collaboration with contracting Dental Contractor. The Dental Contractor is prohibited from passing down financial disincentives or sanctions imposed on the Dental Contractor to Dental Providers, except on an individual basis and related to the individual Provider's inadequate performance.

### **1.4.1 NON-FINANCIAL INCENTIVES AND DISINCENTIVES**

HHSC will distribute information on key performance indicators to Dental Contractor on a regular basis, identifying a Dental Contractor's performance, and comparing that performance to other Dental Contractors, and HHSC standards or external Benchmarks. HHSC may recognize the Dental Contractor that attains superior performance or improvement. HHSC may post its final determination regarding poor or exceptional Dental Contractor peer group performance comparisons on its website.

#### **1.4.1.1 PERFORMANCE INDICATOR DASHBOARD FOR QUALITY MEASURES**

HHSC will track key indicators of Dental Contractor performance through the use of a performance indicator dashboard for quality measures, described in **Chapters 10.1.9 and 10.1.10 of the UNIFORM MANAGED CARE MANUAL**. HHSC will compile the performance indicator dashboard based on Dental Contractor submissions, data from the EQRO, and other data available to HHSC. The performance indicator dashboard is not an all-inclusive set of performance measures; HHSC will measure other aspects of the Dental Contractor's performance as well. The performance indicator dashboard assembles performance indicators that assess many of the most important dimensions of the Dental Contractor's performance, and includes measures that when publicly shared, will also serve to incentivize excellence.

#### **1.4.1.2 AUTO-ASSIGNMENT METHODOLOGY FOR MEDICAID DENTAL CONTRACTOR**

HHSC may revise its auto-assignment methodology for enrollees who do not select a Dental Contractor based on Dental Contractor performance.

### **1.4.2 FINANCIAL INCENTIVES AND DISINCENTIVES**

Financial Incentives and Disincentives of the Contract are set forth below.

#### **1.4.2.1 DENTAL PAY-FOR-QUALITY**

Under the dental pay-for-quality (P4Q) program, HHSC will place each Dental Contractor at risk for a percentage of the capitation payment(s) for performance in a calendar year. HHSC may modify the percentage of the capitation payment placed at risk.

HHSC will pay the Dental Contractor the full monthly capitation payments as described in **Article 9 of ATTACHMENT B, HHSC DENTAL CONTRACT TERMS AND CONDITIONS**. At the end of the dental P4Q data collection period, HHSC will evaluate the Dental Contractor's performance and assign points and dollar amounts using the measures and methodology set out in **Chapter 6 of the UNIFORM MANAGED CARE MANUAL**.

Failure to timely provide HHSC with necessary data related to the calculation of the dental P4Q performance indicators will result in HHSC's assignment of a zero percent performance rate for each related performance indicator.

Dental Contractor must report actual capitation payments received on the FSRs during the FSR Reporting Periods that are at risk (i.e., the Dental Contractor will not report Revenues at a level equivalent to, for example, 96% of the payments received, leaving some percentage as contingent). Any subsequent loss of the at-risk amount that may be realized will be reported below the income line as an informational item, and not as an offset to Revenues or as an allowable cost as described in the **Chapter 5.3.1 of the UNIFORM MANAGED CARE MANUAL**.

HHSC may modify the methodology and measures of the dental P4Q program as it deems necessary and appropriate, in order to motivate, recognize, and reward Dental Contractor for superior performance.

### **1.4.3 ADDITIONAL INCENTIVES AND DISINCENTIVES**

HHSC will evaluate all performance-based incentive and disincentive methodologies annually and in consultation with the Dental Contractor. HHSC may modify the methodologies as needed, or develop additional methodologies, as funds become available, or as mandated by court decree, statute, or rule in order to promote and recognize Dental Contractor's performance under the Contract. The Dental Contractor must participate in any incentive or disincentive programs or methodologies as determined by HHSC.

## **1.5 ADDITIONAL CHILDREN'S MEDICAID DENTAL SERVICES SCOPE OF WORK**

The following provisions apply only to the Children's Medicaid Dental Members. The Children's Medicaid Dental Members will be referred to as "members" throughout **Section 1.5**.

### **1.5.1 PROVISIONS RELATED TO MEDICALLY NECESSARY COVERED DENTAL SERVICES FOR CHILDREN'S MEDICAID DENTAL MEMBERS**

#### **1.5.1.1 TEXAS HEALTH STEPS (EPSDT) DENTAL CHECKUPS**

The Dental Contractor must develop effective methods to ensure that children birth through age 20 receive Texas Health Steps (THSteps) dental services and must arrange for these services for all eligible members, except when a member knowingly and voluntarily declines or refuses services after receiving sufficient information to make an informed decision.

The Dental Contractor must provide dental checkups to its members every 6 months, starting at 6 months of age. Children from 6 through 35 months of age who are participating in the First Dental Home services may be eligible for visits every 3 months, if determined Medically Necessary. Newly enrolled members must receive a dental checkup no later than 90 calendar days after enrollment. The Dental Contractor must ensure dental checkups are provided in a timely manner to its members.

The Dental Contractor must cooperate and coordinate with the THSteps outreach unit and THSteps regional program staff and agents to ensure prompt delivery of services to all members, but particularly for Farmworker Child(ren) who may transition into and out of the Dental Contractor's Dental Program more rapidly or unpredictably than the general population.

### **1.5.1.2 TEXAS HEALTH STEPS EDUCATION/OUTREACH**

The Dental Contractor must ensure that members are provided information and educational materials about the dental services available through the THSteps Program, and how and when members may obtain the services. The information must inform the members how they can obtain dental benefits, services through the Medical Transportation Program for members, and advocacy and assistance from the Dental Contractor. The Dental Contractor must use the standard language describing THSteps services as provided in **Chapter 3.24 of the UNIFORM MANAGED CARE MANUAL**. Any additions to or deviations from the standard language must be reviewed and approved by HHSC prior to publication and distribution to members.

Each month, the Dental Contractor must retrieve from the HHSC EB bulletin board system a list of members who are due for THSteps dental checkups. Using these lists and its own internally generated list, the Dental Contractor must contact such members to encourage scheduling the service as soon as possible.

The Dental Contractor must coordinate and cooperate with existing community and school-based health and education programs that offer services to school-aged children in a location that is convenient to the members. Upon request from a Head Start program, the Dental Contractor must coordinate with the Head Start program to assist members with scheduling THSteps dental checkups. This coordination should include informing Head Start programs how to request scheduling assistance from the Dental Contractor when a member needs a THSteps dental checkup.

### **1.5.1.3 TEXAS HEALTH STEPS DATA VALIDATION**

The Dental Contractor must require all Providers delivering THSteps services to submit claims for services paid, either on a capitated or fee-for service basis, on the ADA claim form, and use the HIPAA compliant code set required by HHSC.

### **1.5.1.4 FARMWORKER CHILD(REN)**

The Dental Contractor must identify community and statewide groups that work with Farmworker Child(ren) (FWC) in Texas. The Dental Contractor must cooperate and coordinate with as many of these groups as possible and encourage the groups to assist with identification of FWC.

The Dental Contractor must make efforts to reach identified FWC to provide timely THSteps dental checkups and needed follow-up care. Checkups and follow-up care must be in accordance with the timeframes in the Contract for appointment availability.

For purposes of this section, "Accelerated Services" are services that are needed by FWC prior to leaving their home area for work in other states. Accelerated Services include the provision of preventive services that will be due during the time the FWC is out of Texas, as well as treatment services that should not be delayed until after the return to Texas. When necessary, the Dental Contractor must provide Accelerated Services to FWC

members. The need for Accelerated Services must be determined on a case-by-case basis and according to the needs of the FWC.

The Dental Contractor must maintain accurate lists of all identified FWC. Additionally, the Dental Contractor must maintain confidentiality of information about the identity of the FWC.

In accordance with **Chapter 12 of the UNIFORM MANAGED CARE MANUAL**, the Dental Contractor must submit an annual report that describes:

1. Methods used to identify FWC enrolled with the Dental Contractor and encourage timely checkups;
2. Efforts to coordinate with community and statewide groups working with FWC;
3. Methods used to assess FWC oral health needs and provide Accelerated Services when necessary;
4. How the Dental Contractor maintains accurate lists of FWC enrolled in the Dental Program; and
5. How the Dental Contractor maintains confidentiality about the identity of FWC.

#### **1.5.1.5 MEDICAID NON-CAPITATED SERVICES**

The following Texas Medicaid programs, services, or benefits have been excluded from Medically Necessary Covered Dental Services. Members are eligible to receive these Non-capitated Services on another basis, such as a Fee-for-Service basis, or through a Medical MCO for most medical services. Dental Contractor should refer to relevant chapters in **ATTACHMENT H, TEXAS MEDICAID PROVIDER PROCEDURES MANUAL** for more information:

1. THSteps environmental lead investigation
2. Early Childhood Intervention case management/service coordination;
3. Case Management for Children and Pregnant Women;
4. Texas School Health and Related Services
5. HHSC's Medical Transportation Program;
6. Emergency Dental Services as described in **Section 1.3.7**.

Members are eligible to receive these Non-capitated Services on a Fee-for-Service basis. Dental Contractor should refer to relevant chapters in the Texas Medicaid Provider Procedures Manual for more information.

#### **1.5.1.6 REFERRALS FOR NON-CAPITATED SERVICES**

The Dental Contractor must educate members regarding the availability of Non-capitated Services, and provide appropriate referrals for members to obtain or access these services. The Dental Contractor is responsible for informing Providers that bills for Non-capitated Services must be submitted to HHSC's Claims Administrator or MCO for reimbursement. The Dental Contractor is not responsible for paying for or reimbursing for these services described in 1 Tex. Admin. Code §§ 380.101, *et seq.*, and 25 Tex. Admin. Code, §§ 27.1 *et seq.*

## **1.5.2 PROVIDER COMPLAINTS AND INTERNAL DENTAL CONTRACTOR APPEALS**

The following sections outline minimum requirements for the Dental Contractor's Provider Complaints and Internal Appeals process.

### **1.5.2.1 PROVIDER COMPLAINTS**

The Dental Contractor must develop, implement, and maintain a system for tracking and resolving all Provider Complaints. The Dental Contractor must resolve Provider Complaints within 30 calendar days from the date the Complaint is received by the Dental Contractor. The Dental Contractor's tracking system must include the status and final disposition of each Provider complaint. Dental Contractor must also resolve Provider Complaints received by HHSC in accordance with **Chapter 3.28 of the UNIFORM MANAGED CARE MANUAL**. The Dental Contractor must provide information specified in 42 C.F.R. § 438.10(g)(2)(xi) about the Complaints and internal Dental Contractor Appeals system to all Providers and Subcontractors at the time they enter into a contract.

### **1.5.2.2 PROVIDER APPEAL OF DENTAL CONTRACTOR CLAIMS DETERMINATIONS**

The Dental Contractor must develop, implement, and maintain a system for tracking and resolving all Provider Internal Appeals related to claims payment, as required by Tex. Gov't Code § 533.005(a)(15). Within this process, the Dental Contractor must respond fully and completely to each Provider's claims payment appeal and establish a tracking mechanism to document the status and final disposition of each Provider's claims payment appeal. In addition, the Dental Contractor's process must comply with the requirements of Tex. Gov't Code § 533.005(a)(19).

The Dental Contractor must contract with dentists who are OON providers to resolve claims disputes related to denial on the basis of medical necessity that remain unresolved subsequent to a Provider appeal. The dentist resolving the dispute must not be an employee of the Dental Contractor's Medicaid or CHIP business, but may be an employee in the Dental Contractor's commercial lines of business. The determination of the dentist resolving the dispute must be binding on the Dental Contractor and the Provider. The dentists resolving the dispute must be licensed in the State of Texas and hold the same specialty or a related specialty as the appealing Provider. HHSC may amend this process to include an independent review process established by HHSC for final determination on these disputes.

## **1.5.3 MEMBER RIGHTS AND RESPONSIBILITIES**

In accordance with 42 C.F.R. § 438.100, all Dental Contractor must maintain written policies and procedures for informing members of their rights and responsibilities, and must notify their members of their right to request a copy of these rights and responsibilities. The Member Handbook must include notification of member rights and responsibilities, as set forth in **the UNIFORM MANAGED CARE MANUAL**.

## **1.5.4 MEMBER COMPLAINTS AND INTERNAL APPEALS SYSTEM**

The Dental Contractor must develop, implement, and maintain a Member Complaints and Internal Appeals system for tracking, resolving, and reporting member's Complaints regarding its services, processes, procedures, and staff and for tracking, resolving, and reporting Member Internal Appeals regarding the denial or limited authorization of a requested service, including the type or level of service and the denial, in whole or in part, of payment for service that complies with the requirements in applicable federal and state laws and regulations, including 42 C.F.R. § 431.200, 42 C.F.R. Part 438, Subpart F and the provisions of 1 Tex. Admin. Code Chapter 357 relating to Medicaid managed care organizations. The Dental Contractor must not identify a member Complaint as any form of inquiry or request.

The Dental Contractor must ensure that member Complaints are resolved within 30 calendar days after receipt. The State will refer member Complaints that it receives regarding the Dental Contractor to the Dental Contractor for resolution.

Dental Contractor also must resolve Member Complaints received by HHSC no later than the due date indicated on HHSC's notification form. HHSC will provide Dental Contractor up to ten Business Days to resolve such Complaints, depending on the severity or urgency of the Complaint and no more than the maximum calendar days allowed as stated in **Chapter 3.28 of the UNIFORM MANAGED CARE MANUAL** unless an extension has been granted. Dental Contractor must provide a valid reason for the extension request prior to the due date and the request must include requirements in **Chapter 3.28 of the UNIFORM MANAGED CARE MANUAL**. HHSC may, in its discretion, grant a written extension if the Dental Contractor demonstrates good cause.

The Complaints and Appeals system must include a Complaints process, an Appeals process, and access to HHSC's State Fair Hearing System. The procedures must be the same for all members and must be reviewed and approved in writing by HHSC. Modifications and amendments to the Member Complaint and Internal Dental Contractor Appeal system must be submitted for HHSC's approval at least 30 calendar days prior to their implementation.

The Dental Contractor must ensure that standard and expedited Member Internal Appeals are resolved within the specified timeframes, unless the Dental Contractor can document that the member requested an extension or the Dental Contractor shows there is a need for additional information and the delay is in the member's interest. The Dental Contractor must respond fully and completely to each Internal Appeal and establish a tracking mechanism to document the status and final disposition of each Internal Appeal.

### **1.5.4.1 MEMBER ADVOCATES**

The Dental Contractor must provide Member Advocates to assist members. Member Advocates must be physically located within the state unless an exception is approved by HHSC. Member Advocates must inform members of the following:

1. Their rights and responsibilities;

2. The Complaints process;
3. The Appeals process;
4. Available Medically Necessary Covered Dental Services, including preventive services; and
5. Available Non-capitated Services.

Member Advocates must assist members in writing Complaints and are responsible for monitoring the Complaint through the Dental Contractor's Complaints process.

Member Advocates are responsible for making recommendations to the Dental Contractor's management on any changes needed to improve either the dental services provided or the way dental services are delivered. Member Advocates are also responsible for helping or referring members to community resources available to meet member needs that are not available from the Dental Contractor as Medically Necessary Covered Dental Services.

#### **1.5.4.2 DENTAL CONTRACTOR MEMBER COMPLAINTS PROCESS**

For purposes of this section, an "authorized representative" is any person or entity acting on behalf of the member and with the member's written consent. A Provider may be an authorized representative.

The member or member's authorized representative may file a Complaint either orally or in writing. The Dental Contractor must also inform members how to file a Complaint directly with HHSC, once the member has exhausted the Dental Contractor's Complaints process.

The Dental Contractor must designate an officer of the Dental Contractor who has primary responsibility for ensuring that Complaints are resolved in compliance with written policy and within the required timeframe. For purposes of this section, an "officer" of the Dental Contractor means a president, vice president, secretary, treasurer, or chairperson of the board for a corporation, the sole proprietor, the managing general partner of a partnership, or a person having similar executive authority in the organization.

The Dental Contractor must have a routine process to detect patterns of Complaints. Dental Contractor's management, supervisory, and quality improvement staff must be involved in developing policy and procedure improvements to address the Complaints.

The Dental Contractor's Complaints process must be provided to members in writing and through oral interpretive services. A written description of the Dental Contractor's Complaints process must be available in Prevalent Languages identified by HHSC, at no more than a 6th grade reading level. The Dental Contractor must provide such oral interpretive service to callers free of charge.

The Dental Contractor must include a written description of the Complaints process in the Member Handbook. The Dental Contractor must maintain and publish in the Member Handbook, at least one toll-free telephone number with Teletypewriter/Telecommunications Device for the Deaf (TTY/TDD) and interpreter capabilities for making Complaints.

The Dental Contractor's process must require that every Complaint received in person, by telephone, or in writing must be acknowledged and recorded in a written record and logged with the following details:

1. A description of the reason for the member's Complaint;
2. The date received;
3. The date of each review or, if applicable, review meeting;
4. Resolution at each level of the member's Complaint if applicable;
5. Date of resolution at each level, if applicable; and
6. Name of the member for whom the Complaint was filed.

The records must be accurately maintained in a manner accessible to HHSC and available upon request to CMS.

For Complaints that are received in person or by telephone, the Dental Contractor must provide members or their representatives with written notice of resolution, if the Complaint cannot be resolved within one working day of receipt.

The Dental Contractor is prohibited from discriminating or taking punitive action against a member or his or her representative for making a Complaint.

If a member makes a request for disenrollment from a Dental Contractor and wants to select a different Dental Contractor, or if a member is voluntarily enrolled in the Dental Program and would like to disenroll, the Dental Contractor must give the member information on the disenrollment process and direct the member to the EB. If the member is enrolled in the Dental Program on a mandatory basis and requests disenrollment, the Dental Contractor must direct the member to the HHSC Ombudsman. If the request for disenrollment includes a Complaint by the member, the Complaint will be processed separately from the disenrollment request, through the Complaint process.

The Dental Contractor will cooperate with HHSC to resolve all member Complaints. Such cooperation may include, but is not limited to, providing information or assistance to HHSC.

The Dental Contractor must provide designated Member Advocates, as described in **Section 1.5.4.1**, to assist members in understanding and using the Dental Contractor's Complaints process. The Dental Contractor's Member Advocates must assist members in writing or filing a Complaint and monitoring the Complaint through the Dental Contractor's Complaints process until the issue is resolved.

#### **1.5.4.3 MEDICAID DENTAL CONTRACTOR'S INTERNAL APPEALS PROCESS**

The Dental Contractor must develop, implement, and maintain an Internal Appeals process that complies with state and federal laws and regulations, including 42 C.F.R. § 431.200 and 42 C.F.R. Part 438, Subpart F. An Appeal is a disagreement with a Dental Contractor Action as further defined in **ATTACHMENT B, HHSC DENTAL CONTRACT TERMS AND CONDITIONS**. The Internal Appeals process must be the same for all members. When a member or his or her authorized representative, LAR, or guardian expresses orally or in

writing any dissatisfaction or disagreement with an Action, the Dental Contractor must regard the expression of dissatisfaction as a request to Appeal an Action.

The Dental Contractor must have policies and procedures in place outlining the Dental Director's role in an Appeal of an Action. The Dental Director must have a significant role in monitoring, investigating, and hearing Appeals. In accordance with 42 C.F.R. § 438.406, the Dental Contractor's policies and procedures must require that individuals who make decisions on Appeals are not involved in any previous level of review or decision-making, and are dental care professionals who have the appropriate dental expertise in treating the member's dental condition or disease.

The Dental Contractor must provide designated Member Advocates, as described in **Section 1.5.4.1**, to assist members in understanding and using the Internal Appeals process. The Dental Contractor's Member Advocates must assist members in writing or filing an Appeal and monitoring the Appeal through the process until the issue is resolved.

The Dental Contractor must have a routine process to detect patterns of Internal Appeals. Management, supervisory, and quality improvement staff must be involved in developing policy and procedure improvements to address the Internal Appeals.

The Dental Contractor's Internal Appeals process must be provided to members in writing and through oral interpretive services. A written description of the Internal Appeals process must be available in Prevalent Languages identified by HHSC, at no more than a 6<sup>th</sup> grade reading level. The Dental Contractor must include a written description of the Appeals process in the Member Handbook. The Dental Contractor must maintain and publish in the Member Handbook at least one toll-free telephone number with TTY/TDD and interpreter capabilities for requesting an Internal Appeal. The Dental Contractor must provide such oral interpretive service to callers free of charge.

The Dental Contractor's process must require that every oral Internal Appeal received must be confirmed by a written, signed Appeal by the member or his or her representative, unless the member or his or her representative requests an expedited resolution. The date of the oral request should be treated as the filing date of the request. All Dental Contractor's Internal Appeals must be recorded in a written record and logged with the following details:

1. A general description of the reason for the member's Internal Appeal.
2. The date received.
3. The date of each review or, if applicable, review meeting.
4. Resolution at each level of the member's Internal appeal, if applicable.
5. Date of resolution at each level, if applicable.
6. Name of the covered person from whom the Internal Appeal was filed.

The record must be accurately maintained in a manner accessible to the HHSC and available upon request to CMS.

A member must file a request for a Dental Contractor Internal Appeal within 60 calendar days from receipt of the notice of the Action. To ensure continuation of currently authorized services, the member must file the Internal Appeal on or before the later of:

1. Ten calendar days following the Dental Contractor's mailing of the notice of the Action, or
2. The intended effective date of the proposed Action.

The Dental Contractor must send a letter to the member within five Business Days acknowledging receipt of the Internal Appeal request. Except for the resolution of an Expedited Internal Appeal as provided in **Section 1.5.4.4**, the Dental Contractor must complete the entire Internal Appeal process within 30 calendar days after receipt of the initial written or oral request for Appeal. The timeframe for an Internal Appeal may be extended up to 14 calendar days if the member or his or her representative requests an extension; or the Dental Contractor shows that there is a need for additional information and how the delay is in the member's interest. If the timeframe is extended, the Dental Contractor must give the member written notice of the reason for delay, if the member had not requested the delay. The Dental Contractor must designate an officer who has primary responsibility for ensuring that Internal Appeals are resolved within these timeframes and in accordance with the Dental Contractor's written policies.

During the Internal Appeals process, the Dental Contractor must provide the member a reasonable opportunity to present evidence and any allegations of fact or law, in person, as well as, in writing. The Dental Contractor must inform the member of the time available for providing this information and in the case of an expedited resolution, that a limited time will be available.

The Dental Contractor must provide the member and his or her representative opportunity, before and during the Internal Appeals process, to examine the member's case file, including dental records and any other documents considered during the Appeal process. The Dental Contractor must include, as parties to the Appeal, the member and his or her representative or the legal representative of a deceased member's estate.

In accordance with 42 C.F.R. § 438.420, the Dental Contractor must continue the benefits currently being received by the member, including the benefit that is the subject of the Appeal, if all of the following criteria are met:

1. The member or his or her representative files the Appeal timely as defined in the Contract;
2. The Appeal involves the termination, suspension, or reduction of a previously authorized course of treatment;
3. The services were ordered by an authorized Provider;
4. The original period covered by the original authorization has not expired; and
5. The member requests an extension of the benefits.

If, at the member's request, the Dental Contractor continues or reinstates the member's benefits while the Appeal is pending, the benefits must be continued until one of the following occurs:

1. The member withdraws the Appeal or request for a State Fair Hearing;
2. Ten calendar days pass after the Dental Contractor mails the notice resolving the Appeal against the member, unless the member, within the ten-day timeframe, has

requested a State Fair Hearing with continuation of benefits until a State Fair Hearing decision can be reached; or

3. A State Fair Hearing officer issues a hearing decision adverse to the member, or the time period or service limits of a previously authorized service have been met.

In accordance with state and federal regulations, if the final resolution of the Internal Appeal is adverse to the member and upholds the Dental Contractor's Action, then, to the extent that the services were furnished to comply with the Contract, the Dental Contractor must not recover such costs from the member without written permission from HHSC.

If the Dental Contractor or State Fair Hearing Officer reverses a decision to deny, limit, or delay services that were not furnished while the Internal Appeal was pending, the Dental Contractor must authorize or provide the disputed services promptly and as expeditiously as the member's health condition requires; but no later than 72 hours from the date it receives notice reversing the determination.

If the Dental Contractor or State Fair Hearing Officer reverses a decision to deny authorization of services and the member received the disputed services while the Internal Appeal was pending, the Dental Contractor is responsible for the payment of services.

The Dental Contractor is prohibited from discriminating or taking punitive action against a member or his or her representative for making an Internal Appeal and is subject to corrective action or remedies for any action against a member or their LAR, guardian, or authorized representative for making an Internal Appeal.

#### **1.5.4.4 EXPEDITED MEDICAID DENTAL CONTRACTOR'S INTERNAL APPEALS PROCESS**

In accordance with 42 C.F.R. § 438.410, the Dental Contractor must establish and maintain an expedited review process for Internal Appeals, when the Dental Contractor determines (for a request from a member) or the Provider indicates (in making the request on the member's behalf or supporting the member's request) that taking the time for a standard resolution could seriously jeopardize the member's life or health. The Dental Contractor must follow all Internal Appeals requirements as set forth in **Section 1.5.4.3**, except where differences are specifically noted in this section.

The Dental Contractor must accept oral or written requests for Expedited Internal Appeals. A Dental Contractor must provide access to the member's case file free of charge and sufficiently in advance of the timeframe for the Expedited Internal Appeal.

Members must exhaust the Expedited Internal Appeal process before making a request for an expedited State Fair Hearing. After the Dental Contractor receives the request for an Expedited Internal Appeal, it must hear an approved request for a member to have such an appeal and notify the member of the outcome within 72 hours.

The timeframe for notifying the member of the outcome may be extended up to 14 calendar days, if the member requests an extension or the Dental Contractor shows, to the satisfaction of HHSC, upon HHSC's request, that there is a need for additional information and how the delay is in the member's interest. If the timeframe is extended, the Dental

Contractor must give the member written notice of the reason for delay, if the member had not requested the delay.

If the decision is adverse to the member, the Dental Contractor must follow the procedures relating to the notice in **Section 1.5.4.6**. The Dental Contractor is responsible for notifying the member of his or her right to access an expedited State Fair Hearing from HHSC. The Dental Contractor will be responsible for providing documentation to HHSC and the member, indicating how the decision was made, prior to HHSC's expedited State Fair Hearing.

The Dental Contractor is prohibited from discriminating or taking punitive action against a member or his or her representative for requesting an Expedited Internal Appeal. The Dental Contractor must ensure that punitive action is not taken against a Provider who requests an Expedited Internal Appeal or supports a member's request. The Dental Contractor is subject to corrective action or remedies for any action against a member, their authorized representative, LAR, guardian or a Provider for making an Expedited Internal Appeal.

If the Dental Contractor denies a request for expedited resolution of an Appeal, it must:

1. Transfer the Appeal to the timeframe for standard resolution, and
2. Make a reasonable effort to give the member prompt oral notice of the denial, and follow up within two calendar days with a written notice.

#### **1.5.4.5 ACCESS TO STATE FAIR HEARING FOR MEDICAID MEMBERS**

The Dental Contractor must inform members that they have the right to access the State Fair Hearing process only after exhausting its Internal Appeal process. The Dental Contractor must notify members that they may be represented by an authorized representative, LAR, or guardian in the State Fair Hearing process.

If a member requests a State Fair Hearing, the Dental Contractor will complete the request for State Fair Hearing, and submit the form via facsimile to the appropriate State Fair Hearings office, within five calendar days of the member's request for the hearing.

Within five calendar days of notification that the State Fair Hearing is set, the Dental Contractor will prepare an evidence packet for submission to the HHSC Fair Hearings staff and send a copy of the packet to the member. The evidence packet must comply with HHSC's State Fair Hearings requirements.

The Dental Contractor must ensure that the appropriate staff members who have firsthand knowledge of the member's Appeal, in order to be able to speak and provide relevant information on the case, attend all scheduled State Fair Hearings.

#### **1.5.4.6 NOTICES OF ACTION AND DISPOSITION OF INTERNAL DENTAL CONTRACTOR APPEALS FOR MEDICAID MEMBERS**

The Dental Contractor must notify the member, in accordance with 1 Tex. Admin. Code Chapter 357, whenever the Dental Contractor takes an Action. The notice must, at a minimum, include:

1. The dates, types, and amount of service requested;
2. The Action the Dental Contractor has taken or intends to take;
3. The reasons for the Action. If the Action taken is based upon a determination that the requested service is not Medically Necessary, the Dental Contractor must provide an explanation of the medical basis for the decision, application of policy or accepted standards of dental practice to the individual's oral health condition, in its notice to the member;
4. The member's right to access the Dental Contractor's Internal Appeal process;
5. The procedures by which the member may Appeal the Dental Contractor's Action;
6. The circumstances under which expedited resolution is available and how to request it;
7. The circumstances under which a member may continue to receive benefits pending resolution of the Internal Appeal, how to request that benefits be continued, and the circumstances under which the member may be required to pay the costs of these services;
8. The date the Action will be taken;
9. A reference to the Dental Contractor policies and procedures supporting the Dental Contractor's Action;
10. An address where written requests may be sent and a toll-free number that the member can call to request the assistance of a member representative, file an Internal Appeal, or request a State Fair Hearing;
11. An explanation that members may represent themselves, or be represented by a Provider, a friend, a relative, legal counsel, or another spokesperson;
12. A statement that if the member wants a State Fair Hearing on the Action, the member must make the request for a State Fair Hearing within 120 calendar days of the date on the notice or the right to request a hearing is waived;
13. A statement explaining that the Dental Contractor must make its decision within 30 calendar days from the date the Internal Appeal is received by the Dental Contractor, or 72 hours in the case of an Expedited Internal Appeal; and
14. A statement explaining that the hearing officer must make a final decision within 90 calendar days from the date a State Fair Hearing is requested.

*Note to Respondents. The above services may not have been incorporated into the UNIFORM MANAGED CARE MANUAL at the time this Contract was awarded. In the event they have not been, such services will be as part of the current HHSC Uniform Managed Care Manual change process. The Contract will be amended appropriately at that time.*

#### **1.5.4.7 TIMEFRAME FOR NOTICE OF ACTION**

In accordance with 42 C.F.R. § 438.404(c), the Dental Contractor must mail a notice of Action within the following timeframes:

1. For termination, suspension, or reduction of previously authorized Medicaid-Covered Dental Services, within the timeframes specified in 42 C.F.R. §§ 431.211, 431.213, and 431.214;
2. For denial of payment, at the time of Action affecting the claim;
3. For standard service authorization decisions that deny or limit services, within the timeframe specified in 42 C.F.R. § 438.210(d)(1);
4. If the Dental Contractor extends the timeframe in accordance with 42 C.F.R. § 438.210(d)(1), it must:
  - a. Give the member written notice of the reason for the decision to extend the timeframe and inform the member of the right to file an Internal Appeal if he or she disagrees with that decision; and
  - b. Issue and carry out its determination as expeditiously as the member's health condition requires and no later than the date the extension expires;
5. For service authorization decisions not reached within the timeframes specified in 42 C.F.R. § 438.210(d), which constitutes a denial and is thus an adverse Action, on the date that the timeframes expire; and
6. For expedited service authorization decisions, within the timeframes specified in 42 C.F.R. § 438.210(d).

#### **1.5.4.8 NOTICE OF DISPOSITION OF INTERNAL APPEAL**

In accordance with 42 C.F.R. § 438.408(e), the Dental Contractor must provide written notice of disposition of all Internal Appeals, including Expedited Internal Appeals. The written resolution notice must be sent to the member and legal representative acting on behalf of the member and must include the results and date of resolution. For decisions not wholly in the member's favor, the notice must contain:

1. The right to request a State Fair Hearing;
2. How to request a State Fair Hearing;
3. The circumstances under which the member may continue to receive benefits pending a State Fair Hearing;
4. How to request the continuation of benefits;
5. If the Dental Contractor's Action is upheld in a State Fair Hearing, the member may be liable for the cost of any services furnished to the member while the Internal Appeal is pending; and
6. Any other information required by 1 Tex. Admin. Code Chapter 357 that relates to a managed care organization's notice of disposition of an Internal Appeal.

### **1.5.5 THIRD PARTY LIABILITY, RECOVERY, AND COORDINATION OF BENEFITS**

Medicaid coverage is secondary when coordinating benefits with all other insurance coverage, unless an exception applies under federal or state law. Coverage provided under Medicaid will pay benefits for Medically Necessary Covered Dental Services that remain unpaid after all other insurance coverage has been paid. For Network Providers and OON providers with written reimbursement arrangements with the Dental Contractor, the Dental Contractor must pay the unpaid balance for Medically Necessary Covered Dental Services up to the agreed rates. For OON providers with no written reimbursement arrangement, the Dental Contractor must pay the unpaid balance for Medically Necessary Covered Dental Services in accordance with HHSC's administrative rules regarding OON payment. 1 Tex. Admin. Code § 353.4

The Dental Contractor must establish a plan and process for avoiding and recovering costs for services that should have been paid through a third party, including health insurers, self-insured plans, group health plans, as defined in section 607(1) of the Employee Retirement Income Security Act of 1974, 29 U.S.C. 1166(1), service benefit plans, managed care organizations, or other parties that are, by statute, contract, or agreement, legally responsible for payment of a claim for a dental care item or service in accordance with state and federal law and regulations, including Sections 1902(a)(25)(E) and (F) of the Social Security Act, which require Dental Contractor to first pay and later seek recovery from liable third parties:

1. For prenatal and preventive pediatric care, and
2. In the context of a state child support enforcement action.

The projected amount of the third party recovery that the Dental Contractor is expected to recover may be factored into the rate setting process. HHSC will provide the Dental Contractor, by plan code, a weekly member file, also known as a third-party resources client file, which is an extract of those members who are known to have other insurance. The file will be considered the system of record and it will be provided to the Dental Contractor on a weekly basis. HHSC expects the Dental Contractor to continue to share other insurance information with HHSC, as is done currently.

After 120 calendar days from the date of adjudication on any claim, Encounter, or other Medicaid-related payment by the Dental Contractor subject to TPR, HHSC may attempt recovery of the costs for services that should have been paid through a third party. HHSC will retain, in full, all funds received as a result of the HHSC-initiated TPR. The Dental Contractor must provide HHSC, on a monthly basis, a report indicating the claims where the Dental Contractor has billed or made a recovery up to the 120<sup>th</sup> day from adjudication of a claim that is subject to TPR. The Dental Contractor will be precluded from attempting to bill for any recovery after 120 calendar days from the claim adjudication date. Any collections by Dental Contractor billed after 120 calendar days from claim adjudication date must be sent to HHSC Subrogation and Recovery Office. The Dental Contractor is to continue to cost avoid and cost recover where applicable.

HHSC retains the responsibility to pursue, collect, and retain all non-health insurance resources such as casualty, liability, estates, child support, and personal injury claims, wherein payments have been made on behalf of a member. Funds so collected must be retained solely by the State. The Dental Contractor is not permitted to seek recovery of any non-health insurance resources. Members with these other resources must remain enrolled with the Dental Contractor.

### **2.7.7 SSI MEMBERS**

A member's SSI status is effective the date the State's eligibility system identifies the member as Type Program 13 (TP13). HHSC is responsible for updating the State's eligibility system within 45 calendar days of official notice of the member's SSI eligibility by the Social Security Administration. For CHIP Dental Program Members identified as TP13, when HHSC has updated the State's eligibility system, following standard eligibility cut-off rules, HHSC will allow the CHIP Member to prospectively move to the Medicaid Dental Program. HHSC will not retroactively disenroll a Dental Member from the CHIP Dental Program.

## **1.6 ADDITIONAL CHIP SCOPE OF WORK**

The following provisions only apply to CHIP.

### **1.6.1 CHIP PROVIDER COMPLAINT AND INTERNAL DENTAL CONTRACTOR APPEALS**

CHIP Provider Complaints and claims payment appeals are subject to disposition consistent with the Texas Insurance Code and any applicable TDI regulations. The Dental Contractor must resolve Provider complaints and claims payment appeals within 30 calendar days from the date of receipt.

### **1.6.2 COMPLAINTS FROM PROVIDERS**

The Dental Contractor must develop, implement, and maintain a system for tracking and resolving all Provider Complaints. The Dental Contractor must respond fully and completely to each Complaint and establish a tracking mechanism to document the status and final disposition of each Provider Complaint that is received.

Dental Contractor must resolve Provider Complaints received by HHSC by the due date indicated on HHSC's notification form, but no later than ten Business Days from receipt of Complaint from HHSC. If a Dental Contractor cannot resolve a complaint by the due date indicated on the notification form, it must submit a written request to HHSC to extend the deadline. HHSC may grant a written extension if the Dental Contractor demonstrates good cause for an extension in its written request.

### **1.6.3 APPEAL OF PROVIDER CLAIMS**

The Dental Contractor must develop, implement, and maintain a system for tracking and resolving all Appeals from Providers and OON providers related to claims payment. Within this process, the Dental Contractor must respond fully and completely to each provider's claims payment appeal. The Dental Contractor must establish a tracking mechanism to document the status and final disposition of each Provider's claims payment appeal. The Dental Contractor must finalize all claims, including appealed claims, within 24 months of the date of service.

### **1.6.4 CHIP MEMBER COMPLAINTS AND APPEALS PROCESSES**

CHIP Member Complaints and Appeals are subject to disposition consistent with the Texas Insurance Code and any applicable TDI regulations. HHSC will require the Dental Contractor to resolve Complaints and Appeals that are not elevated to TDI within 30 calendar days from the date the Complaint or Appeal is received unless the Dental Contractor can document that the CHIP Dental Member requested an extension, or the Dental Contractor demonstrates to HHSC there is a need for additional information and the delay is in the CHIP Dental Member's interest. If the Dental Contractor extends the timeframes not at the request of the CHIP Dental Member, it must make reasonable efforts to give the Member prompt oral notice of the delay; within two calendar days give the Member written notice of the reason for the decision to extend the timeframe and inform the Member of the right to file an appeal if the Dental Member disagrees with that decision; and resolve the appeal as expeditiously as the Dental Member's health condition requires and no later than the date the extension expires. Any person, including those dissatisfied with a Dental Contractor's resolution of a CHIP Dental Member's Complaint or Appeal, may report an alleged violation to TDI.

### **1.6.5 THIRD PARTY LIABILITY AND RECOVERY AND COORDINATION OF BENEFITS**

CHIP coverage is secondary when coordinating benefits with all other insurance coverage. Coverage provided under CHIP will pay benefits for Medically Necessary Covered Dental Services that remain unpaid after all other insurance coverage has been paid.

Dental Contractor is authorized to engage in Third Party Recovery (TPR) actions for claims resulting from the care or treatment of CHIP Members. The Dental Contractor is responsible for establishing a plan and process for avoiding and recovering costs for services that should have been paid through a third party in accordance with applicable state and federal laws, rules, and regulations. The projected amount of TPR that the Dental Contractor is expected to recover may be factored into the rate setting process.

After 120 calendar days from the date of adjudication on any claim, encounter, or other related payment by the Dental Contractor that is subject to TPR, HHSC may attempt recovery independent of any action by the Dental Contractor. HHSC will retain, in full, all funds received as a result of the HHSC-initiated TPR or subrogation action.

The Dental Contractor will provide to HHSC, in a secure and HIPAA-compliant format, a Member quarterly file, which contains the following information, if available to the Dental Contractor: the Member's name, address, claim submission address, group number, employer's mailing address, social security number, and date of birth for each subscriber or policyholder and each dependent of the subscriber or policyholder covered by the insurer. The file must be used for the purpose of matching the Texas eligibility file against the Dental Contractor Member file to identify Members enrolled in the Dental Contractor's plan who may have TPR information not known to the Program.

## **1.7 TURNOVER REQUIREMENTS**

This section presents the Turnover requirements. "Turnover" is defined as the activities that the Dental Contractor must perform prior to, or upon termination of, this Contract, in situations wherein the Dental Contractor will transition data, documentation, and services to HHSC or a subsequent contractor.

### **1.7.1 TURNOVER PLAN**

Twelve months after the Effective Date, the Dental Contractor must provide a Turnover Plan covering the turnover of the records, information, and services maintained or performed by the Dental Contractor to either HHSC or a subsequent contractor. The Turnover Plan will be updated annually and submitted to HHSC.

If the Dental Contractor intends to terminate the Contract, or intends to allow the Contract to expire, Dental Contractor shall remain obligated to continue performing under this Contract, subject to the same terms, conditions, and rates, for the period of time necessary to complete Turnover to the satisfaction of HHSC.

The Turnover Plan must detail the proposed schedule, activities, and resource requirements associated with the Turnover.

The Turnover Plan describes the Dental Contractor's policies and procedures that will assure:

1. The least disruption in the delivery of Dental Care Services to Dental Members who are enrolled with the Dental Contractor during the transition to a subsequent vendor;
2. The least disruption in authorization and payment to Providers contracted with the Dental Contractor during transition to a subsequent contractor;
3. Cooperation with HHSC and the subsequent contractor in notifying Dental Members and Providers of the transition, as requested and in the form required or approved by HHSC;
4. Cooperation with HHSC and the subsequent contractor in transferring information to the subsequent contractor, as requested and in the form required or approved by HHSC; and
5. The Turnover Plan must also include information about third-party software used by the Dental Contractor in the performance of duties under this Contract, including

the manner in which the software is used and terms of the software license agreement, so that HHSC can determine if this software is needed to transition operations.

The Turnover Plan must be approved by HHSC, and include:

1. The Dental Contractor's approach and schedule for the transfer of data and information, as described above;
2. The quality assurance process that the Dental Contractor must use to monitor Turnover; and
3. The Dental Contractor's approach to training HHSC or a subsequent contractor's staff in the operation of its business processes;

HHSC may require additional information, as needed, from the Dental Contractor or require the modification of the Turnover Plan as necessary.

## **1.7.2 TRANSFER OF DATA AND INFORMATION**

The Dental Contractor must transfer to HHSC or a subsequent contractor all data and information necessary to transition operations, including: data and reference tables; data entry software; license agreements for third-party software and modifications, if required by HHSC; documentation relating to software and interfaces; functional business process flows; and operational information, including correspondence, documentation of ongoing or outstanding issues, operations support documentation, and operational information regarding Subcontractors. For purposes of this section, "documentation" means all operations, technical and user manuals used in conjunction with the software, Medically Necessary Covered Dental Services, Services and Deliverables, in whole or in part, that HHSC determines are necessary to view and extract application data in a proper format. The Dental Contractor must provide the documentation in the formats in which such documentation exists at the expiration or termination of the Contract. See **Article 15 of ATTACHMENT B, HHSC DENTAL CONTRACT TERMS AND CONDITIONS** for additional information concerning intellectual property rights.

In addition, the Dental Contractor must provide to HHSC the following:

1. Data, information and services necessary and sufficient to enable HHSC to map all Dental Contractor program data from the Dental Contractor's system(s) to the replacement system(s) of HHSC or a successor contractor, including a comprehensive data dictionary as defined by HHSC;
2. All necessary data, information and services will be provided in the format defined by HHSC, and must be HIPAA compliant; and
3. All of the data, information and services mentioned in this section must be provided and performed in a manner by the Dental Contractor using its best efforts to ensure the efficient administration of the Contract.

The data and information must be supplied in media and format specified by HHSC and according to the schedule approved by HHSC in the Turnover Plan. The data, information

and services provided pursuant to this section must be provided at no additional cost to HHSC.

All relevant data and information must be received and verified by HHSC or the subsequent contractor. If HHSC determines that data or information are not accurate, complete, or HIPAA compliant, HHSC may hire an independent contractor to assist HHSC in obtaining and transferring all the required data and information and to ensure that all the data are HIPAA compliant. The reasonable cost of providing these services will be borne by the Dental Contractor.

### **1.7.3 POST TURNOVER SERVICES**

Within 30 calendar days of the Turnover, the Dental Contractor must provide HHSC with a Turnover results report documenting the completion and results of each step of the Turnover Plan. Turnover will not be considered complete until this report is approved by HHSC.

If the Dental Contractor does not provide the required data or information necessary for HHSC or the subsequent contractor to assume the operational activities successfully, the Dental Contractor must reimburse HHSC for all travel costs incurred by HHSC to carry out inspection, audit, review, analysis, reproduction and transfer functions at the location(s) of such records. Reimbursement by the Dental Contractor will be due to HHSC within 30 calendar days of the date that the invoice is issued by HHSC to the Dental Contractor. The Dental Contractor may not require a social security number or any W-2/W-9 tax information from state employees as a condition for travel cost reimbursement.

## **Article 1: Introduction**

### **Section 1.01 Purpose.**

The purpose of this Contract is to set forth the terms and conditions for the Dental Contractor's participation as a dental indemnity insurer or single-service health maintenance organization, also referred to as a "dental maintenance organization" or "DMO," for the statewide Dental Program. Under the terms of this Contract, the Dental Contractor will provide comprehensive Medically Necessary Covered Dental Services to eligible Medicaid and CHIP Members through a Network of licensed dentists contracted with the Dental Contractor.

### **Section 1.02 Risk-based Contract.**

This is a risk-based contract.

### **Section 1.03 Inducements.**

In making the award of this Contract, HHSC relied on Dental Contractor's assurances of the following:

- (a) Dental Contractor is an established dental indemnity insurance provider or DMO that arranges for the delivery of Medically Necessary Covered Dental Services, and:
  - (1) Is currently licensed as such in the State of Texas and is fully authorized to conduct business in the Service Area; or
  - (2) Will be fully authorized by TDI to conduct business in the Service Area no later than 120 days after the Contract's Effective Date;
- (b) Dental Contractor and its Material Subcontractors have the skills, qualifications, expertise, financial resources, and experience necessary to provide the Services and Deliverables described in this Contract in an efficient, cost-effective manner, with a high degree of quality and responsiveness, and has performed similar services for other public or private entities;
- (c) Dental Contractor has thoroughly reviewed, analyzed, and understood the RFP, has timely raised all questions or objections to the RFP, and has had the opportunity to review and fully understand HHSC's current Dental Program and operating environment for the activities that are the subject of this Contract and the needs and requirements of HHSC during the Contract term;
- (d) Dental Contractor has had the opportunity to review and understand HHSC's stated objectives in entering into this Contract and, based on such review and understanding, Dental Contractor currently has the capability to perform in accordance with the terms and conditions of this Contract;
- (e) Dental Contractor also has reviewed and understands the risks associated with the Dental Program as described in the RFP, including the risk of non-appropriation of funds.

Accordingly, on the basis of the terms and conditions of this Contract, HHSC desires to engage Dental Contractor to perform the Services and provide the Deliverables described in this Contract under the terms and conditions set forth in this Contract.

## **Section 1.04 Construction of the Contract.**

### **(a) Scope of Introductory Article.**

The provisions of any introductory article to the Contract are intended to be a general introduction and are not intended to expand the scope of the Parties' obligations under the Contract or to alter the plain meaning of the terms and conditions of the Contract.

### **(b) References to the "State."**

References in the Contract to the "State" mean the State of Texas unless otherwise specifically indicated and must be interpreted, as appropriate, to mean or include HHSC and other agencies of the State of Texas that may participate in the administration of the Dental Program, provided, however, that no provision will be interpreted to include any entity other than HHSC as the contracting agency.

### **(c) Severability.**

If any provision of this Contract is construed to be illegal or invalid, such interpretation will not affect the legality or validity of any of its other provisions. The illegal or invalid provision will be deemed stricken and deleted to the same extent and effect as if never incorporated in this Contract, but all other provisions will remain in full force and effect.

### **(d) Survival of terms.**

Termination or expiration of this Contract for any reason will not release either Party from any liabilities or obligations set forth in this Contract that:

- (1) The Parties have expressly agreed will survive any such termination or expiration; or
- (2) Arose prior to the effective date of termination and remain to be performed, or by their nature would be intended to be applicable following any such termination or expiration.

### **(e) Headings.**

The article, section, and paragraph headings in this Contract are for reference and convenience only and may not be considered in the interpretation of this Contract.

### **(f) Global drafting conventions.**

- (1) The terms "include," "includes," and "including" are terms of inclusion, and where used in this Contract, are deemed to be followed by the words "without limitation."
- (2) Any references to "sections," "appendices," "exhibits" or "attachments" are deemed to be references to sections, appendices, exhibits, or attachments to this Contract.
- (3) Any references to laws, rules, regulations, and manuals in this Contract are deemed references to these documents as amended, modified, or supplemented from time to time during the term of this Contract.

## **Section 1.05 No Implied Authority.**

The authority delegated to Dental Contractor by HHSC is limited to the terms of this Contract. HHSC is the state agency designated by the Texas Legislature to administer Medicaid and CHIP, and no other agency of the State grants Dental Contractor any authority related to these programs unless directed through HHSC. Dental Contractor may not rely upon implied authority, and specifically is not delegated authority under this Contract to:

- (a) Make public policy;
- (b) Promulgate, amend, or disregard administrative regulations or program policy decisions made by State and federal agencies responsible for administration of HHSC Programs; or
- (c) Unilaterally communicate or negotiate with any federal or State agency or the Texas Legislature on behalf of HHSC regarding the HHSC Programs.

Dental Contractor is required to cooperate to the fullest extent possible to assist HHSC in communications and negotiations with state and federal governments and agencies concerning matters relating to the scope of the Contract and the Dental Program, as directed by HHSC.

### **Section 1.06 Legal Authority.**

- (a) HHSC is authorized to enter into this Contract under Chapters 531 and 533, Texas Government Code; Section 2155.144, Texas Government Code; or Chapter 62, Texas Health & Safety Code. Dental Contractor is authorized to enter into this Contract pursuant to the authorization of its governing board or controlling owner or officer.
- (b) The person or persons signing and executing this Contract on behalf of the Parties, or representing themselves as signing and executing this Contract on behalf of the Parties, warrant and guarantee that he, she, or they have been duly authorized to execute this Contract and to validly and legally bind the Parties to all of its terms, performances, and provisions.

## **Article 2: Definitions**

As used in this Contract, the following terms and conditions have the meanings assigned below:

**Abuse** means provider practices that are inconsistent with sound fiscal, business, medical, or dental practices and result in an unnecessary cost to the Dental Program, or in reimbursement for services that fail to meet professionally recognized standards for dental care. It also includes member practices that result in unnecessary cost to the Dental Program.

**Account Name** means the name of the individual who lives with the child(ren) and who applies for the CHIP coverage on behalf of the child(ren).

**Action** (Medicaid only) means:

- (a) The denial or limited authorization of a requested Medicaid service, including the type or level of service;
- (b) The reduction, suspension, or termination of a previously authorized service;
- (c) The denial in whole or in part of payment for service;
- (d) The failure to provide services in a timely manner; or
- (e) The failure of a Dental Contractor to act within the timeframes set forth in the Contract and 42 C.F.R. § 438.408(b).

An Adverse Determination is a type of Action.

**Adjudicate** means to deny or pay a Clean Claim.

**Adverse Determination** means a determination by the Dental Contractor or its Utilization Review agent that the dental services furnished, or proposed to be furnished to a Dental Member, are not Medically Necessary or not appropriate.

**Affiliate** means any individual or entity that meets any of the following criteria:

- (a) Owns or holds more than a five percent interest in the Dental Contractor, either directly, or through one or more intermediaries;
- (b) In which the Dental Contractor owns or holds more than a five percent interest either directly, or through one or more intermediaries;
- (c) Any parent entity or subsidiary entity of the Dental Contractor, regardless of the organizational structure of the entity;
- (d) Any entity that has a common parent with the Dental Contractor, either directly, or through one or more intermediaries;
- (e) Any entity that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with, the Dental Contractor; or,
- (f) Any entity that would be considered to be an affiliate by any Securities and Exchange Commission or Internal Revenue Service regulation, Federal Acquisition Regulations, or by another applicable regulatory body.

**Allowable Expenses** means all expenses related to the Contract between HHSC and the Dental Contractor that are incurred during the Contract Term, are not reimbursable or recovered from another source, and that conform with the Chapter 6.1 of Exhibit "B".

**Agency Sensitive Information** means Information that is not subject to specific legal, regulatory or other external requirements, but is considered HHS sensitive and is not readily available to the public.

**Appeal (CHIP only)** means the formal process by which the Dental Contractor or its Utilization Review agent addresses Adverse Determinations.

**Auxiliary Aids and Services** means a public accommodation that ensures that no individual with a disability is excluded, denied services, segregated, or otherwise treated differently than other individuals that do not need such accommodations. To include:

- (a) Qualified interpreters or other effective methods of making aurally delivered materials understood by persons with hearing impairments;
- (b) Taped texts, large print, Braille, or other effective methods to ensure visually delivered materials are available to individuals with visual impairments; and
- (c) Other effective methods to ensure that materials, delivered both aurally and visually, are available to those with cognitive or other Disabilities affecting communication.

**Batch Processing** is a technique that allows providers to send billing information all at once in a "batch" rather than in separate individual transactions.

**Benchmark** means a target or standard based on historical data, or an objective, or goal.

**Breach** means the acquisition, access, use, or disclosure of protected health information in a manner as described in 45 C.F.R. § 164.402.

**Business Continuity Plan (BCP)** means a day-to-day plan that provides for a quick and smooth restoration of MIS operations after a disruptive event, and includes business impact analysis, BCP development, testing, awareness, training, and maintenance.

**Business Day** means any day other than a Saturday, Sunday, or a State or federal holiday on which HHSC's offices are closed.

**Case Head** means the head of the household that is applying for Medicaid.

**C.F.R.** means the Code of Federal Regulations.

**Children's Health Insurance Program (CHIP)** means the health insurance program authorized and funded pursuant to Title XXI, Social Security Act (42 U.S.C. §§ 1397aa-1397jj) and administered by HHSC.

**CHIP Program** means the State of Texas program in which HHSC contracts with Dental Contractors to provide, arrange for, and coordinate Medically Necessary Covered Dental Services for enrolled CHIP members.

**Claims Administrator** means a HHSC-contracted entity, often referred to as the Texas Medicaid and Healthcare Partnership (TMHP), performing provider enrollment, and claims, and Encounter processing for the Dental Program.

**Clean Claim** means a claim submitted by a dental provider for dental services rendered to a Dental Member, with documentation reasonably necessary for the Dental Contractor to adjudicate and accurately report the claim.

**CMS** means the Centers for Medicare and Medicaid Services, which is the federal agency responsible for administering Medicare and overseeing state administration of Medicaid and CHIP.

**Competent Interpreter** means a person who is proficient in both English and the other language being used, and has had orientation or training in the ethics of interpreting, including accuracy and impartiality in interpretation.

**Complainant** means a Dental Member or a treating Dental Provider or other individual designated to act on behalf of the Dental Member who filed the Complaint.

**Complaint (CHIP only)** means any dissatisfaction, expressed by a Complainant, orally or in writing to the Dental Contractor, with any aspect of the Dental Contractor's operation, including, but not limited to, dissatisfaction with plan administration, procedures related to review or appeal of an Adverse Determination, as defined in Texas Insurance Code, Chapter 843, Subchapter G; the denial, reduction, or termination of a service for reasons not related to Medical Necessity; and the way a service is provided. The term does not include misinformation that is resolved promptly by supplying the appropriate information or clearing up the misunderstanding to the satisfaction of the CHIP member.

**Complaint (Medicaid only)** means an expression of dissatisfaction expressed by a Complainant, orally or in writing to the Dental Contractor, about any matter related to the Dental Contractor other than an Action. As provided by 42 C.F.R. § 438.400, possible subjects for Complaints include, but are not limited to, the quality of care of services provided, and aspects of interpersonal relationships such as rudeness of a provider or employee, or failure to respect the Medicaid member's rights.

**Complaint and Internal Dental Appeal System** means the process the Dental Contractor implements to handle internal Dental Contractor Appeals of a Complaint or Action, as well as the process to collect and track information about the Complaint and Internal Dental Contractor Appeal.

**Confidential Information** means any communication or record whether oral, written, electronically stored or transmitted, or in any other form provided to or made available to Dental Contractor or that Dental Contractor may create, receive, maintain, use, disclose, or have access to on behalf of HHS that consists of or includes any or all of the following:

- (a) Education records as defined in the Family Educational Rights and Privacy Act, 20 U.S.C. § 1232g; 34 C.F.R. Part 99
- (b) Federal Tax Information as defined in Internal Revenue Code § 6103 and Internal Revenue Service Publication 1075;
- (c) Personal Identifying Information (PII) as defined in Texas Business and Commerce Code, Chapter 521;
- (d) Protected Health Information (PHI) in any form including without limitation, Electronic Protected Health Information or Unsecured Protected Health Information as defined in 45 C.F.R. § 160.103;
- (e) Sensitive Personal Information (SPI) as defined in Texas Business and Commerce Code, Chapter 521;
- (f) Social Security Administration Data, including, without limitation, Medicaid information, means disclosures of information made by the Social Security Administration or the Centers for Medicare and Medicaid Services from a federal system of records for administration of federally funded benefit programs under the Social Security Act, 42 U.S.C. Chapter 7;
- (g) All privileged work product;
- (h) All information designated as confidential under the constitution and laws of the State of Texas and the United States, including the Texas Health & Safety Code and the Texas Public Information Act, Texas Government Code, Chapter 552.
- (i) Confidential Dental Member information;
- (j) All non-public budget, expense, payment, and other financial information;
- (k) The pricing, payments, and terms and conditions of the Contract, unless disclosed publicly by the State; and
- (l) Information utilized, developed, received, or maintained by HHSC, the Dental Contractor, or participating State agencies for the purpose of fulfilling a duty or obligation under the Contract and that has not been disclosed publicly.

**Consolidated FSR Reporting or Consolidated Basis** means FSR reporting results for the Dental Program and any other managed care or capitated contract with HHSC operated by the Dental Contractor or its Affiliates, including those under separate contracts between the Dental Contractor or its Affiliates and HHSC. Consolidated FSR Reporting does not include revenues or expenses from any of the Dental Contractor's or its Affiliates' business activities or operations outside of their contracts with HHSC.

**Consumer Assessment of Healthcare Providers and Systems** means the survey conducted annually by the EQRO.

**Contract** means this formal, written, and legally enforceable contract between the Parties, and all amendments and attachments thereto.

**Contract Term** means the Initial Contract Period plus any Contract extensions.

**Copayment (CHIP only)** means the amount that a member is required to pay when utilizing certain CHIP Medically Necessary Covered Dental Services.

**Corrective Action Plan** means the detailed written plan required by HHSC to correct or resolve a deficiency or event causing the assessment of a remedy or damage against Dental Contractor.

**Covered Dental Services** means dental services the Dental Contractor must arrange to provide to Dental Members, including all services required by the Contract and State and federal law.

**Credentialing** means the process of collecting, assessing, and validating qualifications and other relevant information pertaining to a dental provider to determine eligibility and to deliver Medically Necessary Covered Dental Services.

**Cultural Competency** means the ability of individuals and systems to provide services effectively to people of various cultures, races, ethnic backgrounds, and religions in a manner that recognizes, values, affirms, and respects the worth of those served people and protects and preserves their dignity.

**Date of Disenrollment** means the last day of the last month for which the Dental Contractor receives payment for a Dental Member.

**Default Enrollment** means the processes established by HHSC to assign an enrollee, who has not selected a Dental Contractor or Main Dentist, to a Dental Contractor or Main Dentist. See 1 Tex. Admin. Code § 353.403 for Medicaid default enrollment processes, and 1 Tex. Admin. Code § 370.303 for CHIP default enrollment processes.

**Deliverable** means a written or recorded work product or data prepared, developed, or procured by Dental Contractor as part of the Services under the Contract for the use or benefit of HHSC or the State.

**Dental Administrative Services** means the performance of services or functions other than the direct delivery of Medically Necessary Covered Dental Services necessary for the management of the delivery of and payment for Medically Necessary Covered Dental Services, including Network, quality management, service authorization, claims processing, and MIS operation and reporting. This term also includes the infrastructure development for, preparation of, and delivery of, all required Deliverables under the Contract, outside of the Medically Necessary Covered Dental Services.

**Dental Contractor** means the contractor that is a party to this Contract

**Dental Member** means a person who has met Medicaid or CHIP dental services eligibility criteria, and is enrolled with a Dental Contractor.

**Dental Program** means the State of Texas' managed care program in which HHSC contracts with a Dental Contractor to provide, arrange for, and coordinate Medically Necessary Covered Dental Services and benefit limitations for Texas Children's Medicaid Dental Services and CHIP Dental Services.

**Dental Reporting Regions** means state-wide regions designated by HHSC, which will be used to measure the Network adequacy of each Dental Contractor. These state-wide regions mirror the designated service areas under HHSC's managed care programs, as included in Exhibit M.

**Diagnostic** means an assessment that may include gathering of information through interview, observation, examination, and use of specific tests that allows a provider to determine existing pathology or disease or lack thereof.

**Disability** means a physical or mental impairment that substantially limits one or more of an individual's major life activities, such as caring for oneself, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, or working.

**Disability-related Access** means that facilities are readily accessible to and usable by individuals with disabilities, and that Auxiliary Aids and Services are provided to ensure effective communication, in compliance with Title III of the Americans with Disabilities Act.

**Disaster Recovery Plan** means the document developed by the Dental Contractor that outlines details for the restoration of the MIS in the event of an emergency or disaster.

**Discovery/Discovered** has the meaning assigned by 45 C.F.R. § 164.410.

**DMO** means dental maintenance organization

**EDI** means electronic data interchange.

**Effective Date** means the effective date of this Contract.

**Effective Date of Coverage** means the first day of the month for which the Dental Contractor has received payment for a Dental Member.

**Eligibles** means Medicaid or CHIP-eligible individuals residing in the State of Texas.

**Emergency Dental Services** mean covered inpatient and outpatient services needed to evaluate or stabilize an emergency dental condition furnished by a provider qualified to furnish these services under this title. This is a Non-capitated Service for the Dental Contractor.

**Encounter** means a Medically Necessary Covered Dental Service or group of Medically Necessary Covered Dental Services delivered by a Provider to a Dental Member during a visit between the Dental Member and Provider.

**Encounter Data** is a representation of a claim adjudicated by a Dental Contractor without alteration or omission, unless specifically directed by HHSC.

**Enrollment File** means the daily or monthly list of Eligibles that are enrolled with the Dental Contractor as Members on the day or for the month the report is issued.

**EPSDT** means the federally mandated Early and Periodic Screening, Diagnosis and Treatment program contained at 42 U.S.C. § 1396d(r). HHSC refers to EPSDT as Texas Health Steps.

**Expedited Appeal** means an appeal to the Dental Contractor in which the decision is required quickly based on the Dental Member's health status, and the amount of time necessary to participate in a standard Appeal could jeopardize the Member's life, or health, or ability to attain, maintain, or regain maximum function.

**Experience Rebate** means the portion of the Dental Contractor's net income before taxes that may be returned to the State in accordance with **Section 10.08** "Experience Rebate" below.

**External Quality Review Organization (EQRO)** means the entity that contracts with HHSC to provide external review of access to and quality of dental care provided to Dental Members.

**Farmworker Child(ren) (FWC)** means a child or children birth through age 17 of a Migrant Farmworker.

**Federal Poverty Level (FPL)** means the Federal Poverty Level updated periodically in the Federal Register by the Secretary of Health and Human Services under the authority of 42 U.S.C. § 9902(2) and as in effect for the applicable budget period used to determine an individual's eligibility in accordance with 42 C.F.R. § 435.603(h).

**Fee-for-Service (FFS)** means the traditional Medicaid Health Care Services payment system under which providers receive a payment for each unit of service, after the service is provided, according to rules adopted pursuant to Chapter 32 Texas Human Resources Code.

**First Dental Home** is a group of benefits designed to establish a Dental Home, provide preventive care, identify oral health problems, provide treatment, and parental or guardian oral health anticipatory guidance to eligible Medicaid members 6 months through 35 months of age.

**Force Majeure Event** means any failure or delay in performance of a duty by a Party under this Contract that is caused by fire, flood, hurricane, tornadoes, earthquake, an act of God, an act of war, riot, civil disorder, or any similar event beyond the reasonable control of such Party and without the fault or negligence of such Party.

**FOHC** means a Federally Qualified Health Center, certified by CMS to meet the requirements of Section 1861(aa)(3) of the Social Security Act as a federally qualified health center, that is enrolled as a provider in the Texas Medicaid program.

**Fraud** means an intentional deception or misrepresentation made by a person with the knowledge that the deception could result in some unauthorized benefit to himself or some other person and includes any act that constitutes fraud under applicable federal or state law.

**FSR** means Financial Statistical Report and is a report designed by HHSC, and submitted to HHSC by the Dental Contractor in accordance with Contract requirements. The FSR is a form of modified income statement, subject to audit, and contains revenue, cost, and other data, as defined by the Contract. Not all incurred expenses may be included in the FSR.

**FSR Reporting Period** is the period of months that are measured on a given FSR. Generally, the FSR Reporting Period is a twelve-calendar-month period corresponding to the State Fiscal Year, but it can vary by Contract and by year. If an FSR Reporting Period is not defined in the Contract, then it will be deemed to be the twelve months following the end of the prior FSR Reporting Period.

**Health and Human Services Commission (HHSC)** means the administrative agency within the executive department of Texas state government established under Chapter 531, Texas Government Code or its designee, or authorized agent, including but not limited to, the Texas Health and Human Services agencies.

**Healthcare Effectiveness Data and Information Set (HEDIS)**, is a registered trademark of NCQA and is a set of standardized performance measures.

**HHS Agency** means the Texas Health and Human Service agencies subject to HHSC's oversight under Chapter 531, Texas Government Code, and their successor agencies.

**HHSC Enrollment Broker (EB)** means a State-contracted entity performing administrative services associated with Dental Member enrollment functions for the Dental Program.

**HIPAA** means the Health Insurance Portability and Accountability Act of 1996, P.L. 104-191 (August 21, 1996), as amended or modified.

**Indian Health Care Provider** has the meaning assigned to it in 42 C.F.R. § 438.14. and means a health care program operated by the Indian Health Service (IHS) or by an Indian tribe, tribal organization, or urban Indian organization, otherwise known as an I/T/U as those terms are defined in section 4 of the Indian Health Care Improvement Act, 25 U.S.C. § 1603.

**Information Resources** is defined in § 2054.003(7), Texas Government Code and means the procedures, equipment, and software that are employed, designed, built, operated, and maintained to collect, record, process, store, retrieve, display, and transmit information, and associated personnel including consultants and contractors. And, as defined in 44 U.S.C. § 3502, NIST SP 800-53 rev 4, information and related resources, such as personnel, equipment, funds, and information technology.

**Information Technology Conduit Services Provider** means an entity that transports information but does not access it other than on a random or infrequent basis as necessary for the performance of the transportation service or as required by law.

**Initial Contract Period** means the Effective Date of the Contract through August 31, 2023.

**Inquiry** means a request by a member or Provider for information about HHS programs or services.

**Internal Dental Contractor Appeal (Medicaid only)** means the formal process by which an eligible Medicaid member or his or her representative request a review of a Complaint or the Dental Contractor's Action.

**Joint Interface Plan (JIP)** means a document used to communicate basic system interface information. This information includes: file structure, data elements, frequency, media, type of file, receiver and sender of the file, and file identification.

**Key Personnel** means the critical management and technical positions identified by the Dental Contractor in accordance with **Article 4.02** below.

**Legally Authorized Representative (LAR)** means the Dental Member's representative defined by State or federal law, including Tex. Occ. Code § 151.002(6), Tex. Health & Safety Code § 166.164, and Tex. Estates Code Ch. 752.

**Limited English Proficient (LEP)** has the meaning assigned to it in 42 C.F.R. § 438.10, and means potential members and Dental Members who do not speak English as their primary language and who have a limited ability to read, write, speak, or understand English.

**Linguistic Access** means translation and interpreter services for written and spoken language to ensure effective communication, and includes sign language interpretation, and the provision of other Auxiliary Aids and Services to persons with Disabilities.

**Main Dental Home** means the ongoing relationship between the dentist and the member, inclusive of all aspects of oral health care delivered in a comprehensive continually accessible, coordinated, and family-centered way and includes referrals to dental specialists when appropriate.

**Main Dentist** means a provider who has agreed with a Dental Contractor to provide a Main Dental Home to Dental Members and who is responsible for providing routine preventive, diagnostic, urgent, therapeutic, initial, and primary care to Dental Members, maintaining the continuity of Dental Member care, and initiating referral for care. Provider types that can serve as Main Dental Home Providers are FQHCs, RHCs, and individuals who are general dentists or pediatric dentists.

**Major Systems Change** means a change that affects a mission critical component of the system, or a change which requires more than 4 hours planned outage to implement, or other specified timeframe in the Contract.

**Management Information System (MIS)** means the information systems and subsystems, applications, and automations used to support the delivery of managed care services.

**Marketing** means any communication from the Dental Contractor to a Medicaid or CHIP Eligible who is not enrolled with the Dental Contractor that can reasonably be interpreted as intended to influence the Eligible to:

- (a) Enroll with the Dental Contractor; or
- (b) Not enroll in or to disenroll from another Dental Contractor.

**Marketing Materials** means materials that are produced in any medium by or on behalf of the Dental Contractor and can reasonably be interpreted as intending to market to potential members. Health-related materials are not Marketing Materials.

**Material Subcontract** means any contract, Subcontract, or agreement between the Dental Contractor and another entity that meets any of the following criteria:

- (a) The other entity is an Affiliate of the Dental Contractor;
- (b) The Subcontract is considered by HHSC to be for a key type of service or function, including:
  - (1) Administrative Services, including third party administrator, Network administration, and claims processing;
  - (2) Delegated Networks, including behavioral health, dental, pharmacy, and vision;
  - (3) Management services, including management agreements with parent;
  - (4) Reinsurance; or
  - (5) Call lines, including nurse and medical consultation; or

- (c) Any other Subcontract that exceeds, or is reasonably expected to exceed, the lesser of
- (1) \$500,000 per year, or
  - (2) One percent of the Dental Contractor's annual revenues under this Contract. Any Subcontracts between the Dental Contractor and a single entity that are split into separate agreements by time period, Program, or otherwise, will be consolidated for the purpose of this definition.

For the purposes of this Contract, Material Subcontracts do not include contracts with any non-Affiliates for any of the following, regardless of the value of the contract: utilities (e.g., water, electricity, telephone, Internet, trash), mail or shipping, office space, maintenance, security, or computer hardware.

**Material Subcontractor** means any entity with a Material Subcontract with the Dental Contractor. For the purposes of this Contract, Material Subcontractors do not include Providers in the Dental Contractor's Provider Network. Material Subcontractors may include, Affiliates, subsidiaries, and affiliated and unaffiliated third parties.

**MCO** means managed care organization.

**Medicaid** means the medical assistance entitlement program authorized and funded pursuant to Title XIX, Social Security Act (42 U.S.C. §§ 1396 *et seq.*) and administered by HHSC.

**Medically Necessary** has the meaning defined in 1 Tex. Admin. Code. § 353.2 (Medicaid) and 1 Tex. Admin. Code. § 370.4 (CHIP).

**Medically Underserved Areas (MUA)** means areas or populations designated by the Health Resources and Services Administration as having: too few primary care providers, high infant mortality, high poverty or high elderly population. MUAs may be a whole county or a group of contiguous counties, a group of county or civil divisions, or a group of urban census tracts in which residents have a shortage of personal health services.

**Member Advocate** means the person with the primary responsibility for providing advocacy and assistance to Dental Members.

**Member Materials** means all written materials produced or authorized by the Dental Contractor and distributed to Dental Members or potential members containing information concerning the Dental Program. Member Materials include, but are not limited to, Member ID cards, Member handbooks, Provider directories, and Marketing Materials.

**Member Month** means one Dental Member enrolled with the Dental Contractor during any given month. The total Member Months for each month of a year comprise the annual Member Months.

**Migrant Farmworker** means a migratory agricultural worker, generally defined as an individual:

- (a) Whose principal employment is in agriculture on a seasonal basis;
- (b) Who has been so employed within the last 24 months;
- (c) Who performs an activity directly related to the production or processing of crops, dairy products, poultry, or livestock for initial commercial sale or as a principal means of personal subsistence; and

(d) Who establishes, for the purposes of such employment, a temporary abode.

**National CLAS Standards** means *The National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care* (the *National CLAS Standards*). These standards were developed by the U.S. Department of Health and Human Services - Office of Minority Health and are "intended to advance health equity, improve quality, and help eliminate health care disparities by providing a blueprint for individuals and health and health care organizations to implement culturally and linguistically appropriate services." Originally developed in 2000, the CLAS Standards were updated in 2013. For the list of CLAS Standards, see the Think Cultural Health website: <https://www.thinkculturalhealth.hhs.gov/clas/standards>.

**Net Income Before Taxes or Pre-tax Income** means an aggregate excess of Revenues over Allowable Expenses.

**Network** means all Dental Providers that have a Provider Contract with the Dental Contractor, or any Subcontractor, for the delivery of Medically Necessary Covered Dental Services to the Dental Contractor's members.

**Non-capitated Services** benefits of Texas Medicaid or CHIP that are excluded from Medically Necessary Covered Dental Services.

**Open Panel** means Main Dentists who are accepting new patients for the Dental Program.

**Operational Start Date** means the first day on which the Dental Contractor is responsible for providing Medically Necessary Covered Dental Services to Dental Members in exchange for a Premium Payment under the Contract.

**Operations Phase** means the period of time when the Dental Contractor is responsible for providing the Medically Necessary Covered Dental Services and all related Contract functions, and begins on the Operational Start Date.

**Out-of-Network (OON)** means an appropriately licensed individual, facility, agency, institution, organization, or other entity that has not entered into a contract with the Dental Contractor for the delivery of Medically Necessary Covered Dental Services to the Dental Contractor's Dental Members.

**Parties** mean HHSC and the Dental Contractor, collectively.

**Party** means HHSC or the Dental Contractor, individually.

**Pended Claim** means a claim for payment that requires additional information before the claim can be adjudicated as a Clean Claim.

**Population Risk Group** means a distinct group of Dental Members identified by age, age range, gender, type of program, eligibility category, or other criteria established by HHSC.

**PPACA** means the Patient Protection and Affordable Care Act of 2010 (P.L. 111-148), as amended by the Health Care and Education Reconciliation Act of 2010 (Public Law 111-152), together known as the Affordable Care Act (ACA).

**Premium Payment** means the aggregate amount paid by HHSC to the Dental Contractor on a monthly basis for the provision of Medically Necessary Covered Dental Services to enrolled Dental Members, including associated administrative services, in accordance with the Premium Rates in the Contract.

**Premium Rate** means a fixed predetermined fee paid by HHSC to the Dental Contractor each month in accordance with the Contract, for each enrolled Dental Member in a defined Rate Cell, in exchange for the Dental Contractor arranging for or providing a defined set of Medically Necessary Covered Dental Services to such a Dental Member, regardless of the amount of Medically Necessary Covered Dental Services used by the enrolled Dental Member that are within the defined limits as stated in the Medically Necessary Covered Dental Services described in **Section 2.5.4** of the Statement of Work.

**Prevalent Language** has the meaning assigned to it in 42 C.F.R. § 438.10 and means a non-English language determined to be spoken by a significant number or percentage of potential members and Dental Members that are LEP.

**Preventive** means aspects of oral health concerned with promoting good oral health and function by preventing or reducing the onset or development of oral diseases or deformities, and the occurrences of orofacial injuries.

**Program** means a managed care program operated by HHSC for either Children's Medicaid Dental Services or CHIP Dental Services.

**Proposal** means the submission by the Dental Contractor in response to the RFP.

**Provider** means an appropriately credentialed and licensed dentist facility, agency, institution, organization, or other entity, and its employees and subcontractors, who has a Provider Contract with the Dental Contractor for the delivery of Medically Necessary Covered Dental Services to Dental Members.

**Provider Contract** means a contract entered into by a direct provider of Medically Necessary Dental Covered Services and the Dental Contractor or an intermediary entity.

**Provider Materials** means all written materials produced or authorized by the Dental Contractor or its administrative services Subcontractors concerning the Dental Program that are distributed to Providers and include the Dental Contractor's Provider Manual, training materials regarding the Dental Contractor's Dental Program requirements, and mass communications directed to all or a large group of Providers, e-mail or fax "blasts". Provider Materials do not include written correspondence between the Dental Contractor or its administrative services Subcontractors and a Provider regarding individual business matters.

**Public Information** means information that:

- (a) Is collected, assembled, or maintained under a law or ordinance or in connection with the transaction of official business by a governmental body or for a governmental body; and
- (b) The governmental body owns or has a right of access to.

**Quality Improvement** means a system to continuously examine, monitor, and revise processes and systems that support and improve administrative and clinical functions.

**Rate Cell** means a Population Risk Group for which a Premium Rate has been determined.

**Real-Time Captioning** also known as Communication Access Real-Time Translation (CART) means a process by which a trained individual uses a shorthand machine, a computer, and real-time translation software to type and simultaneously translate spoken language into text on a computer screen. Real Time Captioning is provided for individuals who are deaf, have

hearing impairments, or have unintelligible speech. It is usually used to interpret spoken English into text English; but may be used to translate other spoken languages into text.

**Readily Accessible** has the meaning assigned to it in 42 C.F.R. § 438.10.

**Readiness Review** means the assurances made by a selected Dental Contractor and the examination conducted by HHSC of Dental Contractor's ability, preparedness, and availability to fulfill its obligations under the Contract.

**Request for Proposals (RFP)** means the procurement solicitation instrument issued by HHSC under which the Contract is awarded, and all RFP addenda, corrections or modifications.

**Revenue** means all revenue received by the Dental Contractor pursuant to the Contract during the Contract Period, including retroactive adjustments made by HHSC and includes any funds earned on Medicaid or CHIP managed care funds such as investment income and earned interest. Revenue excludes any reinsurance recoveries, which shall be shown in the FSR as a contra-cost, or reported offset to reinsurance expense. Revenues are reported at gross, and are not netted for any reinsurance premiums paid. See also the UMCM Chapter 6.1

**Risk** means the potential for loss as a result of expenses and costs of the Dental Contractor exceeding payments made by HHSC under the Contract.

**Rural Health Clinic (RHC)** means an entity that meets all of the requirements for designation as a rural health clinic under Section 1861(aa)(1) of the Social Security Act and approved for participation in the Texas Medicaid Program.

**Scope of Work** means the description of Services and Deliverables specified in the Contract, and any agreed modifications thereto.

**SDX** means State Data Exchange.

**Security Plan** means a document that contains detailed management, operational, and technical information about a system, its security requirements, and the controls implemented to provide protection against risks and vulnerabilities.

**Service Area** means geographic area wherein the Dental Program's Medically Necessary Covered Dental Services are available to Dental Members, which is statewide and includes all counties in the State of Texas.

**Services** mean the tasks, functions, and responsibilities assigned and delegated to the Dental Contractor under the Contract.

**Significant Traditional Provider (STP)** means dental providers identified by HHSC as having provided a significant level of care to Medicaid or CHIP clients.

**Software** means all operating system and applications software used by the Dental Contractor to provide the Services under the Contract.

**Specialty Provider** means a pediatric dentist, endodontist, oral surgeon, orthodontist, periodontist, or prosthodontist.

**SSA** means the Social Security Administration.

**State Fair Hearing** means the process adopted and implemented by HHSC in 1 Tex. Admin. Code Chapter 357, in compliance with federal regulations and state rules relating to Medicaid Fair Hearings.

**State Fiscal Year (SFY)** means a 12-month period beginning on September 1<sup>st</sup> and ending on August 31.

**Subcontract** means any written Contract between the Dental Contractor and another party to fulfill the requirements of the Contract.

**Subcontractor** means any individual or entity, including an Affiliate who has entered into a Subcontract with Dental Contractor.

**Subsidiary** means an Affiliate controlled by such person or entity directly, or indirectly through one or more intermediaries.

**Supplemental Security Income (SSI)** means a Federal income supplement program funded by general tax revenues, not Social Security taxes, designed to help aged, blind, and disabled people with little or no income by providing cash to meet basic needs for food, clothing, and shelter.

**TDD** means telecommunication device for the deaf. It is interchangeable with the term Teletype machine or TTY.

**TDI** means the Texas Department of Insurance.

**Texas Health Steps** is the name adopted by the State of Texas for the federally mandated EPSDT program, and includes the State's Comprehensive Care Program extension to EPSDT, which adds benefits to the federal EPSDT requirements contained in 42 U.S.C. § 1396d(r), and defined and codified at 42 C.F.R. §§ 440.40 and 441.56-62. HHSC's administrative rules governing Texas Health Steps and Comprehensive Care Program services are contained in 25 T.A.C. Chapter 33, relating to Early and Periodic Screening, Diagnosis and Treatment.

**Texas Medicaid Provider Procedures Manual** means the policy and procedures manual published by or on behalf of HHSC that contains policies and procedures required of all health and dental care providers who participate in the Texas Medicaid program.

**Texas Public Information Act** refers to the provisions of Chapter 552 of the Texas Government Code.

**Therapeutic** means beneficial therapy or treatment, including the following categories of service: restorative, endodontic, periodontic, prosthodontic, oral and maxillofacial surgery, and orthodontic.

**Third Party Liability (TPL)** means the legal responsibility of another individual or entity to pay for all or part of the services provided to Dental Members under the Contract. See 1 T.A.C. §§ 354.2301 *et seq.*, relating to Third Party Resources.

**Third Party Recovery (TPR)** means the recovery of payments on behalf of a Dental Member by HHSC or the Dental Contractor from an individual or entity with the legal responsibility to pay for the Medically Necessary Covered Dental Services.

**TP 13** means Type Program 13 that is a Medicaid program eligibility type assigned to persons determined eligible for federal SSI assistance by the Social Security Administration (SSA). If a subsequent eligibility system uses a different identifier for this eligibility type, references to TP 13 include the subsequent identifier.

**Transition Phase** includes all activities the Dental Contractor is required to perform between the Contract award and the Operational Start Date.

**Turnover Phase** includes all activities the Dental Contractor is required to perform in order to close-out the Contract or transition Contract activities and operations to HHSC or a subsequent contractor.

**Turnover Plan** means the written plan developed by the Dental Contractor, approved by HHSC, to be employed during the Turnover Phase. The Turnover Plan describes Dental Contractor's policies and procedures that will ensure:

- (a) The least disruption in the delivery of dental services to those Dental Members who are enrolled with the Dental Contractor during the transition to a HHSC or subsequent contractor; and
- (b) Cooperation with HHSC and the subsequent contractor in transferring information, as well as notifying Dental Members of the transition, as requested and in the form required and approved by HHSC.

**Uniform Managed Care Manual (UMCM)** means the manual published by or on behalf of HHSC that contains policies and procedures required of the Dental Contractor. The UMCM, as amended or modified, is incorporated by reference into the Contract.

**Utilization Review** means the system for retroactive, prospective, or concurrent review of the appropriateness of dental services being provided or proposed to be provided to a Dental Member. The term does not include elective requests for clarification of coverage.

**Value-added Services (VAS)** may be actual dental services, benefits, or positive incentives that HHSC determines will promote healthy lifestyles and improve oral health outcomes among Dental Members. VAS must promote oral health, healthy lifestyles, or other initiatives approved by HHSC. If approved by HHSC, VAS may also include transportation. Best practice approaches to delivering Medically Necessary Covered Dental Services are not considered VAS.

**Waste** means practices that are not cost-efficient.

## **Article 3. General Contract Terms and Conditions**

### **Section 3.01 Contract Elements.**

- (a) Contract documentation.

The Contract between the Parties will consist of the Dental Program Contract documents and all attachments and amendments to these documents.

- (b) Order of documents.

In the event of any conflict or contradiction between or among these Contract documents, the documents must control in the following order of precedence:

- (1) The final executed HHSC Dental Contract signature document, and all amendments thereto;
- (2) Contract **Exhibit A** – “HHSC’s Dental Contract Terms and Conditions,” and all amendments thereto;

- (3) Contract **Exhibit B** – “Scope of Work,” and all attachments and amendments thereto;
- (4) Contract **Exhibit C** - HHSC's UCM, and amendments thereto; and
- (5) Contract **Exhibit D** – “Dental Contractor's Proposal.”

### **Section 3.02 Term of the Contract.**

The term of the Contract will begin on the Effective Date and will conclude on the expiration date. The Parties may renew the Contract for a period or periods, but the Contract Term may not exceed a total of eight operational years. Subject to the provisions of **Section 12.04(e)**, all reserved contract extensions beyond the expiration date will be subject to good faith negotiations between the Parties and mutual agreement to the extensions.

### **Section 3.03 Funding.**

This Contract is expressly conditioned on the availability of state and federal appropriated funds. The Dental Contractor will have no right of action against HHSC in the event that HHSC is unable to perform its contractual obligations as a result of the suspension, termination, withdrawal, or failure of funding to HHSC, or lack of sufficient funding of HHSC for any Services or Deliverables contained within the scope of the Contract. If funds become unavailable, the provisions of **Article 12** (“Remedies and Disputes”) will apply. HHSC will use all reasonable efforts to ensure that such funds are available, and will negotiate in good faith with Dental Contractor to resolve any claims for payment by the Dental Contractor that represent accepted Services or Deliverables that are pending at the time funds become unavailable. HHSC will use best efforts to provide reasonable advance written notice to Dental Contractor upon learning that funding for the Contract may be unavailable.

### **Section 3.04 Delegation of Authority.**

Whenever, by any provision of the Contract, any right, power, or duty is imposed or conferred on HHSC, the right, power, or duty so imposed or conferred is possessed and exercised by HHSC's Executive Commissioner unless any such right, power, or duty is specifically delegated to the duly appointed agents or employees of HHSC. The Executive Commissioner will reduce any such delegation of authority to writing and HHSC will provide a copy to Dental Contractor on request.

### **Section 3.05 No Waiver of Sovereign Immunity.**

The Parties expressly agree that no provision of the Contract is in any way intended to constitute a waiver by HHSC or the State of any immunities from suit, or from liability that HHSC or the State may have by operation of law.

### **Section 3.06 Force Majeure.**

Neither Party will be liable for any failure or delay in performing its obligations under the Contract if such failure or delay is due to a Force Majeure Event. The existence of such causes of delay or failure will extend the period of performance in the exercise of reasonable diligence until after the causes of delay or failure have been removed. Each Party must inform the other in writing with proof of receipt within five Business Days of the existence of a Force Majeure Event.

### **Section 3.07 Publicity.**

- (a) Dental Contractor may use the name of HHSC, the State of Texas, any HHS agency, and the name of the HHSC Dental Program in any media release, public announcement, or public disclosure relating to the Contract or its subject matter only if, at least seven calendar days prior to distributing the material, the Dental Contractor submits the information to HHSC for review and comment. The Dental Contractor may not use the submitted information without prior approval from HHSC. HHSC reserves the right to object to and require changes to the publication if, at HHSC's sole discretion, it determines that the publication does not accurately reflect the terms of the Contract or the Dental Contractor's performance under the Contract.
- (b) Dental Contractor will provide HHSC at least three copies of any information described in subsection 3.07(a) prior to public release. Dental Contractor will provide additional copies at HHSC's request.
- (c) The requirements of subsection 3.07(a) do not apply to:
  - (1) Proposals or reports submitted to HHSC, an administrative agency of the State, or a governmental agency, or unit of another state, or the federal government;
  - (2) Information concerning the Contract's terms, subject matter, and estimated value:
    - (i) In any report to a governmental body to which the Dental Contractor is required by law to report such information, or
    - (ii) That the Dental Contractor is otherwise required by law to disclose.
  - (3) Member Materials: the Dental Contractor must comply with the UMCM's provisions regarding the review and approval of Member Materials.

### **Section 3.08 Assignment.**

- (a) Assignment by Dental Contractor.

Dental Contractor must not assign all or any portion of its rights under or interests in the Contract without prior written consent of HHSC. Any written request for assignment must be accompanied by written acceptance by the party to whom the assignment is made. Except where otherwise agreed in writing by HHSC, assignment will not release Dental Contractor from its obligations pursuant to the Contract.
- (b) Assignment by HHSC.

Dental Contractor understands and agrees HHSC may, in one or more transactions, assign, pledge, transfer, or hypothecate the Contract. This assignment will only be made to another State agency or a non-State agency that is contracted to perform agency support.
- (c) Assumption.

Each party to whom an assignment is made (an "Assignee") must assume all of the assigned interests in and responsibilities under the Contract and any documents executed with respect to the Contract, including without limitation, its obligation for all or any portion of the purchase payments, in whole or in part.

### **Section 3.09 Cooperation with Other Vendors and Prospective Vendors.**

HHSC may award supplemental contracts for work related to the Contract, or any portion thereof. Dental Contractor will reasonably cooperate with such other vendors, and will not commit or permit any act that may interfere with the performance of work by any other vendor.

### **Section 3.10 Renegotiation and Reprocurement Rights.**

#### **(a) Renegotiation of Contract terms.**

Notwithstanding anything in the Contract to the contrary, HHSC may at any time during the term of the Contract exercise the option to notify Dental Contractor that HHSC has elected to renegotiate certain terms of the Contract. Upon Dental Contractor's receipt of any notice pursuant to this section, Dental Contractor and HHSC will undertake good faith negotiations of the subject terms of the Contract, and may execute an amendment to the Contract in accordance with Article 8 "Amendments and Modifications".

#### **(b) Reprocurement of the services or procurement of additional services.**

Notwithstanding anything in the Contract to the contrary, whether or not HHSC has accepted or rejected Dental Contractor's Services or Deliverables provided at any time during the Contract Term, HHSC may at any time issue requests for proposals or offers to other potential contractors for performance of any portion of the Services covered by the Contract or services similar or comparable to the Services performed by Dental Contractor under the Contract.

#### **(c) Termination rights upon reprocurement.**

If HHSC elects to procure the Services or Deliverables or any portion of the Services or Deliverables from another vendor in accordance with this Section, HHSC will have the termination rights set forth in Article 12 "Remedies and Disputes".

### **Section 3.11 RFP Errors and Omissions.**

Dental Contractor will not take advantage of any errors or omissions in the RFP or the resulting Contract. Dental Contractor must promptly notify HHSC of any such errors or omissions that are discovered.

### **Section 3.12 Attorneys' Fees.**

In the event of any litigation, appeal, or other legal action to enforce any provision of the Contract, Dental Contractor agrees to pay all reasonable expenses of such action, if HHSC is the prevailing Party.

### **Section 3.13 Preferences Under Service Contracts.**

Dental Contractor is required in performing the Contract to purchase products and materials produced in the State when they are available at a price and time comparable to products and materials produced outside the State.

### **Section 3.14 Time of the Essence.**

In consideration of the need to ensure uninterrupted and continuous Services to Dental Program Members, time is of the essence in the performance of the Services under the Contract.

### **Section 3.15 Notice.**

- (a) Any notice or other legal communication required or permitted to be made or given by either Party pursuant to the Contract will be in writing, and will be deemed to have been given:
  - (1) Three Business Days after the date of mailing if sent by registered or certified U.S. mail, postage prepaid, with return receipt requested;
  - (2) When transmitted if sent by facsimile, provided a confirmation of transmission is produced by the sending machine; or
- (b) When delivered if delivered personally or sent by express courier service.
- (c) The notices described in this section may not be sent by electronic mail.
- (d) All notices must be sent to the program contact identified in the Contract. In addition, legal notices must be sent to the legal contact identified in the Contract.
- (e) Routine communications that are administrative in nature will be provided in a manner agreed to by the Parties.

## **Article 4. Contract Administration and Management**

### **Section 4.01 Qualifications, Retention and Replacement of Dental Contractor Employees.**

Dental Contractor agrees to maintain the organizational and administrative capacity and capabilities to carry out all duties and responsibilities under the Contract. The personnel Dental Contractor assigns to perform the duties and responsibilities under the Contract will be properly trained and qualified for the functions they are to perform. Notwithstanding transfer or turnover of personnel, Dental Contractor remains obligated to perform all duties and responsibilities under this Contract without degradation and in accordance with the terms of this Contract.

### **Section 4.02 Dental Contractor's Key Personnel.**

- (a) Designation of Key Personnel.

Dental Contractor must designate key management and technical personnel who will be assigned to the Contract. For the purposes of this requirement, Key Personnel are those with management responsibility or principal technical responsibility for the following functional areas:

- (1) Member services;
- (2) Management Information Systems;
- (3) Claims processing,
- (4) Network development and management;
- (5) Benefit administration and utilization and care management;
- (6) Quality Improvement;
- (7) Financial functions;
- (8) Reporting;

- (9) Executive Directors, as defined in Section 4.03;
- (10) Security Official as required in 45 C.F.R. § 164.308(a)(2);
- (11) Privacy Official as required in 45 C.F.R. § 164.530(a)(2); and
- (12) Dental Director, as defined in **Section 4.04 below**.

(b) Support and Replacement of Key Personnel.

Dental Contractor must maintain, throughout the Contract Term, the ability to supply its Key Personnel with the required resources necessary to meet Contract requirements and comply with applicable law. Dental Contractor must ensure project continuity by timely replacement of Key Personnel, if necessary, with a sufficient number of persons having the requisite skills, experience and other qualifications. Regardless of specific personnel changes, Dental Contractor must maintain the overall level of expertise, experience, and skill reflected in Dental Contractor's Proposal.

(c) Notification of replacement of Key Personnel.

Dental Contractor must notify HHSC in writing within 15 Business Days of any change in Key Personnel. Hiring or replacement of Key Personnel must conform to all Contract requirements. If HHSC determines that a satisfactory working relationship cannot be established between certain Key Personnel and HHSC, it will notify the Dental Contractor in writing. Upon receipt of HHSC's notice, HHSC and Dental Contractor will attempt to resolve HHSC's concerns on a mutually agreeable basis.

### **Section 4.03 Executive Director.**

- (a) Dental Contractor must employ a qualified individual to serve as the Executive Director for the Dental Program. The Executive Director must be employed full-time by Dental Contractor, be primarily dedicated to the Dental Program, and must hold a Senior Executive or Management position in Dental Contractor's organization, except that Dental Contractor may propose an alternate structure for the Executive Director position, subject to HHSC's prior review and written approval.
- (b) The Executive Director must be authorized and empowered to represent Dental Contractor regarding all matters pertaining to the Contract prior to such representation. The Executive Director must act as liaison between Dental Contractor and HHSC and must have responsibilities that include, but are not limited to:
  - (1) Ensuring Dental Contractor's compliance with the terms of the Contract, including securing and coordinating resources necessary for such compliance;
  - (2) Receiving and responding to all inquiries and requests made by HHSC related to the Contract, in the timeframes and formats specified by HHSC. Where practicable, HHSC will consult with Dental Contractor to establish timeframes and formats reasonably acceptable to the Parties;
  - (3) Attending and participating in regular meetings or conference calls with HHSC;

- (4) Attending and participating in regular HHSC Regional Advisory Committees (RACs) for managed care. The Executive Director may designate key personnel to attend a RAC if the Executive Director is unable to attend;
- (5) Making best efforts to promptly resolve any issues identified either by Dental Contractor or HHSC that may arise and are related to the Contract;
- (6) Meeting with HHSC representative(s) on a periodic or as needed basis to review Dental Contractor's performance and resolve issues, and
- (7) Meeting with HHSC at the time and place requested by HHSC, if HHSC determines that Dental Contractor is not in compliance with the requirements of the Contract.

#### **Section 4.04 Dental Director.**

- (a) Dental Contractor must have a qualified full-time individual to serve as the Dental Director for the Dental Program. The Dental Director must be currently licensed in Texas as a Doctor of Dentistry with no restrictions or other licensure limitations. The Dental Director must comply with applicable federal and state statutes and regulations.
- (b) The Dental Director, or his or her designee meeting the qualifications described in Section 4.04(a), must be available during normal business hours for Utilization Review decisions, and must be authorized and empowered to represent Dental Contractor regarding clinical issues, Utilization Review and quality of care inquiries.

#### **Section 4.05 Responsibility for Dental Contractor Personnel and Subcontractors.**

- (a) Dental Contractor's employees and Subcontractors will not be considered employees of HHSC or the State, but will be considered for all purposes as Dental Contractor's employees or its Subcontractor's employees, as applicable.
- (b) Except as expressly provided in the Contract, neither Dental Contractor nor any of Dental Contractor's employees or Subcontractors may act in as agents or representatives of HHSC or the State.
- (c) Dental Contractor agrees that anyone employed by Dental Contractor to fulfill the terms of the Contract is an employee of Dental Contractor and remains under Dental Contractor's sole direction and control. Dental Contractor assumes sole and full responsibility for its acts and the acts of its employees and Subcontractors.
- (d) Dental Contractor agrees that any claim on behalf of any person arising out of employment or alleged employment by Dental Contractor, including, but not limited to, claims of discrimination against Dental Contractor, its officers, or its agents, is the sole responsibility of Dental Contractor and not the responsibility of HHSC. Dental Contractor will indemnify and hold harmless the State from any and all claims asserted against the State arising out of such employment or alleged employment by Dental Contractor. Dental Contractor understands that any person who alleges a claim arising out of employment or alleged employment by Dental Contractor will not be entitled to any compensation, rights, or

benefits from HHSC including, but not limited to, tenure rights, medical and hospital care, sick and annual or vacation leave, severance pay, or retirement benefits.

- (e) Dental Contractor agrees to be responsible for the following in respect to its employees:
  - (1) Damages incurred by Dental Contractor's employees within the scope of their duties under the Contract; and
  - (2) Determination of the hours to be worked and the duties to be performed by Dental Contractor's employees.
- (f) Dental Contractor agrees and will inform its employees and Subcontractor(s) that there is no right of subrogation, contribution, or indemnification against HHSC for any duty owed to them by Dental Contractor pursuant to the Contract or any judgment rendered against the Dental Contractor. HHSC's liability to the Dental Contractor's employees, agents, and Subcontractors, if any, will be governed by the Texas Tort Claims Act, as amended or modified (Tex. Civ. Prac. & Rem. Code §§ 101.001 et seq.).
- (g) Dental Contractor understands that HHSC does not assume liability for the actions of, or judgments rendered against, Dental Contractor, its employees, agents, or Subcontractors. Dental Contractor agrees that it has no right to indemnification, or contribution from HHSC for any such judgments rendered against Dental Contractor or its Subcontractors.

#### **Section 4.06 Cooperation with HHSC and State Administrative Agencies.**

- (a) Cooperation with other HHSC Dental Contractors.

Dental Contractor agrees to reasonably cooperate and work with the State's contractors, including other Dental Contractors, Subcontractors and third-party representatives as requested by HHSC. To the extent permitted by HHSC's financial and personnel resources, HHSC agrees to reasonably cooperate with Dental Contractor and to use its best efforts to ensure that other HHSC contractors reasonably cooperate with the Dental Contractor.

- (b) Cooperation with state and federal administrative agencies.

Dental Contractor must ensure that Dental Contractor personnel cooperate with HHSC or other state or federal administrative agency personnel at no charge to HHSC for purposes relating to the administration of the Dental Program including, but not limited to the following purposes:

- (1) The investigation and prosecution of fraud, abuse, and waste in the HHSC programs;
- (2) Audit, inspection, or other investigative purposes; and
- (3) Testimony in judicial or quasi-judicial proceedings relating to the Services or Deliverables under this Contract or other delivery of information to HHSC or other agencies' investigators or legal staff.
- (4) Conduct of Dental Contractor personnel and Subcontractors.

#### **Section 4.07 Conduct of Dental Contractor Personnel and Subcontractors.**

- (a) While performing the Services, Dental Contractor's personnel and Subcontractors must:

- (1) Comply with applicable State laws, rules, and regulations and HHSC's requests regarding personal and professional conduct generally applicable to the service locations; and
  - (2) Otherwise conduct themselves in a businesslike and professional manner.
- (b) If HHSC determines in good faith that a particular employee or Subcontractor is not conducting himself or herself in accordance with the Contract, HHSC may provide Dental Contractor with notice and documentation concerning such conduct. Upon receipt of such notice, Dental Contractor must promptly investigate the matter and take appropriate action that may include:
- (1) Removing the employee or Subcontractor from the project;
  - (2) Providing HHSC with written notice of such removal; and
  - (3) Replacing the employee or Subcontractor with a similarly qualified individual or Subcontractor acceptable to HHSC.
- (c) Nothing in the Contract will prevent Dental Contractor, at the request of HHSC, from replacing any personnel who are not adequately performing their assigned responsibilities or who, in the reasonable opinion of HHSC's project manager, after consultation with Dental Contractor, are unable to work effectively with the members of HHSC's staff. In such event, Dental Contractor will provide replacement personnel with equal or greater skills and qualifications as soon as reasonably practicable. Replacement of Key Personnel will be subject to HHSC review. The Parties will work together in the event of any such replacement so as not to disrupt the overall project schedule.
- (d) Dental Contractor agrees that anyone employed or retained by Dental Contractor to fulfill the terms of the Contract remains under Dental Contractor's sole direction and control.
- (e) Dental Contractor must have policies regarding disciplinary action for all employees who have failed to comply with federal or state laws and the Dental Contractor's standards of conduct, policies and procedures, and contract requirements. Dental Contractor must have policies regarding disciplinary action for all employees who have engaged in illegal or unethical conduct.

#### **Section 4.08 Subcontractors and Agreements with Third Parties.**

- (a) Dental Contractor remains fully responsible for the obligations, services, and functions performed by its Subcontractors to the same extent as if such obligations, services, and functions were performed by Dental Contractor's employees, and for purposes of the Contract such work will be deemed work performed by Dental Contractor. HHSC reserves the right to require the replacement of any Subcontractor found by HHSC to be unacceptable and unable to meet the requirements of the Contract, and to object to the selection of a Subcontractor.
- (b) Dental Contractor must:
- (1) Actively monitor the quality of care and Services, as well as the quality of reporting data, provided under a Subcontract;
  - (2) Provide HHSC with a copy of TDI filings of delegation agreements;

- (3) Unless otherwise provided in this Contract, provide HHSC with written notice no later than:
- (i) 3 Business Days after receiving notice from a Material Subcontractor of its intent to terminate a Subcontract;
  - (ii) 180 calendar days prior to the termination date of a Material Subcontract for MIS systems operation or reporting;
  - (iii) 90 calendar days prior to the termination date of a Material Subcontract for non-MIS Dental Administrative Services; and
  - (iv) 30 calendar days prior to the termination date of any other Material Subcontract.

HHSC may grant a written exception to these notice requirements if, in HHSC's reasonable determination, Dental Contractor has shown good cause for a shorter notice period.

- (c) During the Contract Period, Readiness Reviews by HHSC or its designated agent may occur if:

- (1) A new Material Subcontractor is employed by Dental Contractor;
- (2) An existing Material Subcontractor provides services in a new area;
- (3) An existing Material Subcontractor changes locations or changes its MIS and or operational functions;
- (4) An existing Material Subcontractor changes one or more of its MIS subsystems, claims processing or operational functions; or
- (5) A Readiness Review is requested by HHSC.

Dental Contractor must submit information required by HHSC for each proposed Material Subcontractor as indicated in **RFP Section 2.4**, "Transition Phase Scope." Refer to **RFP Sections 2.5.2**, "Additional Operational Readiness Reviews and Monitoring Efforts," and **2.5.29**, "Management Information System (MIS) Requirements" for additional information regarding Dental Contractor Readiness Reviews during the Contract Period.

- (d) Dental Contractor must not disclose HHSC's or the State's Confidential Information to a Subcontractor unless Subcontractor has agreed in writing to protect the confidentiality of such Confidential Information in the manner required of Dental Contractor under the Contract.
- (e) Dental Contractor must identify any Subcontractor that is a subsidiary or entity formed after the Effective Date of the Contract, whether or not an Affiliate of the Dental Contractor. Dental Contractor must substantiate the proposed Subcontractor's ability to perform the subcontracted Services, and certify to HHSC that no loss of service will occur as a result of the performance of such Subcontractor. Dental Contractor will be the sole point of contact with regard to contractual matters.
- (f) Except as provided herein, all Subcontracts must be in writing and must provide HHSC the right to examine the Subcontract and all Subcontractor records relating to the Contract and

the Subcontract. This requirement does not apply to agreements with non-affiliate utility or mail service providers.

If Dental Contractor intends to report compensation or any other payments paid to any third party, including an Affiliate as an Allowable Expense under the Contract, and the amounts paid to the third party exceed \$200,000, or are reasonably anticipated to exceed \$200,000, in a SFY, or in any contiguous twelve-month period,, then Dental Contractor's agreement with the third party must be in writing. The agreement must provide HHSC the right to examine the agreement and all records relating to the agreement.

For any third party agreements not in writing valued under \$200,000 per SFY that are reported as Allowable Expenses, the Dental Contractor must maintain standard financial records and data sufficient to verify the accuracy of those expenses in accordance with the requirements of Article 9, "Audit & Financial Compliance." Any agreements that are, or could be interpreted to be, with a single party, must be in writing if the combined total is more than \$200,000. This would include payments to individuals or entities that are related to each other.

- (g) A Subcontract or any other agreement in which Dental Contractor receives rebates, recoupments, discounts, payments, incentives, fees, free goods, bundling arrangements, retrocession payments, as described in UMCM Chapter 6.1, or any other consideration from a Subcontractor or any other third party, including Affiliates as related to the Contract must be in writing. Dental Contractor must allow HHSC and the Office of the Attorney General to examine the Subcontract or agreement and all related records.
- (h) All Subcontracts or agreements described in subsections (f) and (g) must show the dollar amount or the value of any consideration that Dental Contractor pays to or receives from the Subcontractor or any other third party.
- (i) Dental Contractor must submit a copy of each Material Subcontract and any agreement covered under subsection (g) executed prior to the Effective Date of the Contract to HHSC no later than 30 days after the Effective Date of the Contract. For Material Subcontracts or Section 4.08(g) agreements executed or amended after the Effective Date of the Contract, the Dental Contractor must submit a copy to HHSC no later than 5 Business Days after execution or amendment.
- (j) HHSC reserves the right to reject any Subcontract or require changes to any provisions that do not comply with the requirements or duties and responsibilities of the Contract or create significant barriers for HHSC in monitoring compliance with the Contract.
- (k) Dental Contractor and its Subcontractors must provide all information required under Section 4.08 to HHSC, or to the Office of the Attorney General, if requested, at no cost.

#### **Section 4.09 HHSC's Ability to Contract with Subcontractors.**

Dental Contractor may not limit or restrict, through a covenant not to compete, employment contract or other contractual arrangement, HHSC's ability to contract with Subcontractors or former employees of the Dental Contractor.

**Section 4.10 This Section Intentionally Left Blank.**

**Section 4.11 Prohibition Against Performance Outside the United States.**

- (a) All work performed under this Agreement must be performed exclusively within the United States.
  - (1) All information obtained by the Dental Contractor or a Subcontractor under the Contract must be stored and maintained within the United States.
  - (2) The performance of any work or the maintenance of any information relating or obtained pursuant to this Contract is forbidden to occur outside of the United States, except as specifically authorized or approved by HHSC.
- (b) For the purpose of this Contract “within the United States” and “outside the United States” means the following:
  - (1) As used in this **Section 4.11**, the term “within the United States” means any location inside the territorial boundaries comprising the republic of the United States of America, including any of the 48 coterminous states in North America, the states of Alaska and Hawaii, and the District of Columbia.
  - (2) Conversely, the phrase “outside the United States” means any location that is not within the territorial boundaries comprising the republic of the United States of America, including any of the 48 coterminous states in North America, the states of Alaska and Hawaii, and the District of Columbia.
- (c) Maintenance of Confidential Information.
  - (1) The Dental Contractor and all Subcontractors, vendors, agents, and service providers of or for the Dental Contractor must not allow any Confidential Information that the Dental Contractor receives from or on behalf of HHSC to be moved outside the United States by any means, physical or electronic, at any time, for any period of time, for any reason.
  - (2) The Dental Contractor and all Subcontractors, vendors, agents, and service providers of or for the Dental Contractor must not permit any person to have remote access to HHSC information, systems, or Deliverables from a location outside the United States.
- (d) Performance of Work.
  - (1) Unless otherwise approved in advance by HHSC in writing, and subject to the exceptions specified in this subparagraph, the Dental Contractor and all Subcontractors, vendors, agents, and service providers of or for the Dental Contractor must perform all services under this Contract, including all tasks, functions, and responsibilities assigned and delegated to the Dental Contractor under this Contract, within the United States.
    - (i) This obligation includes, but is not limited to, all Services, including information technology services, processing, transmission, storage, archiving, data center services, disaster recovery sites and services, customer support, medical, dental, laboratory and clinical services.

- (ii) All custom software prepared for performance of the Contract, and all modifications of custom, third party, or vendor proprietary software, must be performed within the United States.
- (2) Unless otherwise approved in advance by HHSC in writing, and subject to the exceptions specified in this subparagraph, the Dental Contractor and all Subcontractors, vendors, agents, and service providers of or for the Dental Contractor must not permit any person to perform work under the Contract from a location outside the United States.
- (e) Exceptions.
  - (1) COTS software. The foregoing requirements will not preclude the acquisition or use of commercial off-the-shelf software that is developed outside the United States or hardware that is generically configured outside the United States.
  - (2) Foreign-made products and supplies. The foregoing requirements will not preclude the Dental Contractor from acquiring, using, or reimbursing products or supplies that are manufactured outside the United States, provided such products or supplies are commercially available within the United States for acquisition or reimbursement by HHSC.
  - (3) HHSC prior approval. The foregoing requirements will not preclude the Dental Contractor from performing work outside the United States that HHSC has approved in writing and that HHSC has confirmed will not involve the sharing of Confidential Information outside the United States.

## **Section 4.12 Employment Verification (E-Verify Program).**

By entering into this Contract, Dental Contractor certifies and ensures that it utilizes and will continue to utilize, for the term of this Contract, the U.S. Department of Homeland Security's e-Verify system to determine the eligibility of all persons, including Subcontractors, assigned by the Dental Contractor to perform work pursuant to the Contract.

## **Article 5. Member Eligibility, Enrollment, and Disenrollment**

### **Section 5.01 Eligibility Determination and Disenrollment**

The HHSC Enrollment Broker determines Medicaid and CHIP eligibility. Should a Member become ineligible for Medicaid, HHSC will disenroll the Member from the managed care plan. If a Dental Contractor becomes aware that a Member has moved outside of the Dental Contractor service area or that a Member is no longer Medicaid-eligible, for example the Member has moved outside of the state or is deceased, the Dental Contractor must inform HHSC as soon as practicable.

## **Section 5.02 General Information Concerning Member Enrollment and Disenrollment.**

- (a) HHSC or the HHSC Enrollment Broker will enroll and disenroll eligible individuals in the Dental Program. The HHSC Enrollment Broker will use HHSC's default assignment methodologies, as described in 1 Tex. Admin. Code § 353.403 and § 370.303, to enroll individuals who do not select a Dental Plan or Main Dentist. Once an eligible individual is enrolled, a file is sent to the Dental Contractor to notify the Dental Contractor that the individual is enrolled as a Medicaid or CHIP Member. The Dental Contractor is not allowed to induce or accept disenrollment from a Member. The Dental Contractor must refer the Member to the HHSC Enrollment Broker for information regarding enrollment or disenrollment.
- (b) HHSC makes no guarantees or representations to the Dental Contractor regarding the number of eligible Members who will ultimately be enrolled into the Dental Contractor's plan, or the length of time Members will remain enrolled in the Dental Contractor's plan. The Dental Contractor has no ownership interest in its Member base, and therefore cannot sell or transfer this base to another entity.
- (c) The HHSC Enrollment Broker will electronically transmit to the Dental Contractor new Member information and change information applicable to active Members.

## **Section 5.03 Medicaid Member Enrollment and Disenrollment.**

- (a) Medicaid Members are given the opportunity to request a termination or change enrollment from one dental plan to another. A Medicaid Member can request to change dental plans for any reason during the first 90 days of enrollment in a dental plan, and once thereafter. A Medicaid Member can also request to change dental plans for "good cause" at any time. HHSC or its designee will determine "good cause" events that qualify a Member to change dental plans. If a Member requests a change, the change will be prospective and the effective date will be the first day of the month in which the Member appears on the Member eligibility file for the receiving dental plan.
- (b) In cases where a Member loses Medicaid eligibility, if Medicaid eligibility is re-instated or re-established within 6 months from the date of loss, HHSC will retroactively restore a Member's managed care enrollment to avoid a gap in coverage. In these cases, the HHSC Enrollment Broker will retroactively enroll the Member into the same dental plan the Member was in before losing coverage.
- (c) A Medicaid Dental Contractor has a limited right to request a Member be disenrolled from Dental Contractor without the Member's consent. HHSC must approve any Dental Contractor request for disenrollment of a Member for cause. HHSC may permit disenrollment of a Member under the following circumstances:
  - (1) Member misuses or loans Member's membership card to another person to obtain services.

- (2) Member's behavior is disruptive or uncooperative to the extent that Member's continued enrollment in the Dental Contractor seriously impairs Dental Contractor's or Provider's ability to provide services to either the Member or other Members, and Member's behavior is not related to a developmental, intellectual, or physical disability or behavioral health condition.
- (3) Member steadfastly refuses to comply with managed care restrictions.
- (4) Dental Contractor must take reasonable, documented measures to correct Member behavior prior to requesting disenrollment. Reasonable measures may include providing education and counseling regarding the offensive acts or behaviors.
- (d) HHSC must notify the Member of HHSC's decision to disenroll the Member if all reasonable measures have failed to remedy the problem.
- (e) If the Member disagrees with the decision to disenroll the Member from Dental Contractor, HHSC must notify the Member of the availability of the Complaint procedure and, for Medicaid Members, HHSC's Fair Hearing process.
- (f) Dental Contractor cannot request a disenrollment based on adverse change in the Member's health status or utilization of services that are Medically Necessary for treatment of a member's condition.
- (g) Members taken into conservatorship by the Department of Family and Protective Services (DFPS) will be disenrolled from the Dental Contractor effective the date of conservatorship, and enrolled in the STAR Health Program unless otherwise determined by DFPS.

#### **Section 5.04 CHIP Eligibility and Enrollment.**

- (a) Children enrolled in the CHIP Program with incomes at or below the Medicaid eligibility threshold receive Dental Program coverage for 12 months. Children enrolled in CHIP with incomes above the Medicaid eligibility threshold receive Dental Program coverage for up to 12 months and are required to verify income eligibility at month 6 of their 12 month coverage period.
- (b) CHIP Members are given the opportunity to request a termination or change enrollment from one dental plan to another within the first 90 days after Dental Program coverage begins. If a Member requests a change from one dental plan to another, the change will be prospective and the effective date will be the first day of the month in which the Member appears on the Member eligibility file for the receiving dental plan.
- (c) HHSC Enrollment Broker enrolls and disenrolls Members from dental plans. HHSC Enrollment Broker will not allow Members to change dental plans after their first 90 days of coverage unless granted an exception for a "good cause" event. HHSC and the HHSC Enrollment Broker determine "good cause" events that qualify a CHIP Member to change dental plans. Additionally, HHSC Enrollment Broker will not allow CHIP Members who have exhausted their annual benefit limits to change dental plans.

## **Section 5.05 Default Enrollment.**

The following special Default Enrollment process will apply to and be calculated separately for Medicaid and CHIP program recipients.

(a) Special Default Enrollment Process.

- (i) Prior to the Operational Start Date, HHSC's Administrative Service Contractor will notify all Dental Members and new enrollees of their choice in dental plans. The notice will provide that if the individual does not select a dental plan, HHSC will assign one.
- (b) HHSC will use the following special Default Enrollment process for the period of time described below.
- (1) If on the Operational Start Date one or more CHIP dental plans have not reached a threshold of 80,000 Members or one or more Medicaid dental plans have not reached a threshold of 300,000 Members, then HHSC will enroll all individuals who have not made a dental plan selection into these dental plans on a "Round Robin" basis until they reach the threshold. Under the "Round Robin" approach, HHSC will enroll individuals who have not made a dental plan selection into these dental plans on a one-to-one ratio. Once the dental plan reaches the threshold, a six month maintenance period will begin. During this maintenance period, if one or more dental plans' enrollment falls below the threshold, HHSC will enroll individuals who have not made a dental plan selection into these dental plans on a Round Robin basis until they reach the threshold again.
  - (2) If all dental plans reach the threshold on the Operational Start Date, then the six month maintenance period will begin on the Operational Start Date. During this maintenance period, if one or more dental plans' enrollment falls below the threshold, HHSC will enroll all individuals who have not made a dental plan selection into these dental plans on a Round Robin basis until they reach the required Member threshold again.
  - (3) At any point in time during the six month maintenance period when all dental plans' enrollment exceeds the required thresholds, HHSC will use the Round Robin default enrollment approach.

(c) Standard Default Enrollment Process.

Following the expiration of the six month maintenance period described in **Section 5.05(b)(2)** above, HHSC will use a Round Robin default enrollment approach.

(d) Changing Assigned Dental Plan.

Defaulted Dental Members may change their assigned dental plan under the conditions described in **Section 5.03** for Medicaid members and **Section 5.04** for CHIP members.

## **Article 6. Service Levels and Performance Measurement**

### **Section 6.01 Performance Measurement.**

- (a) Satisfactory performance of this Contract will be measured by:

- (b) Adherence to this Contract, including all representations and warranties;
- (c) Compliance with project work plans, schedules, and milestones as proposed by Dental Contractor in its Proposal and as revised by Dental Contractor and finally approved by HHSC;
- (d) Delivery of the Services and Deliverables in accordance with the Contract's requirements;
- (e) Results of audits performed by HHSC or its representatives in accordance with **Article 9** ("Audit and Financial Compliance");
- (f) Timeliness, completeness, and accuracy of required Deliverables; and
- (g) Achievement of contractual performance measures.

## **Article 7. Governing Law and Regulations**

### **Section 7.01 Governing Law and Venue.**

This Contract is governed by the laws of the State of Texas and interpreted in accordance with Texas law. Provided Dental Contractor first complies with the procedures set forth in **Section 12.13** ("Dispute Resolution,") proper venue for claims arising from this Contract will be in the State District Court of Travis County, Texas.

### **Section 7.02 Dental Contractor Responsibility for Compliance with Laws and Regulations.**

- (a) Dental Contractor must comply, to the satisfaction of HHSC, with all provisions set forth in this Contract, and all provisions of state and federal laws, rules, regulations, federal waivers, policies and guidelines that govern the performance of the Services including, but not limited to, all applicable provisions of the following:

Titles XIX and XXI of the Social Security Act;

The Immigration and Nationality Act (8 U.S.C. §§ 1101 *et seq.*) and all subsequent immigration laws and amendments.

The Patient Protection and Affordable Care Act ("PPACA"; Public Law 111-148);

- (1) The Health Care and Education Reconciliation Act of 2010 ("HCERA"; Public Law 111-152) 42 C.F.R. Part 455;
- (2) Health Insurance Portability and Accountability Act (Public Law 104-191) 45 C.F.R. Parts 160-164;

Clinical Laboratory Improvement Amendments (CLIA, 42 C.F.R. Part 493) (for purposes of the Contract, the Dental Contractor must require its Providers to agree that the Dental Contractor and HHSC are "authorized persons");

42 C.F.R. Parts 417, 438, 455, and 457, as applicable;

45 C.F.R. Parts 74 and 92;

48 C.F.R. Part 31;

2 C.F.R. Part 200;

(3) Chapters 62, 63, 109, and 181 Texas Health and Safety Code;

Chapter 531 and 533, Texas Government Code;

(4) Chapter 35A Texas Penal Code;

Chapters 32 and 36 Texas Human Resources Code, except as provided in Section 2.5.17, the Texas Dental Practice Act requiring all dental services to be provided by licensed Texas dentists and auxiliary personnel working under the supervision of licensed Texas dentists;

(5) 1 Tex. Admin. Code Chapter 353;

(6) 1 Tex. Admin. Code Chapter 354, Subchapters B and J;

(7) 1 Tex. Admin. Code. Chapters 361, 370, 371, 391, and 392;

(8) Consent Decree and Corrective Action Orders, Frew, et al. v. Smith, et al., (applies to Medicaid only);

- (b) The Parties acknowledge that the federal or state laws, rules, regulations, policies, or guidelines that affect the performance of the Services may change from time to time or be added, judicially interpreted, or amended by competent authority. Dental Contractor acknowledges that the Dental Program will be subject to continuous change during the term of the Contract and, except as provided in **Section 8.02**. Dental Contractor has provided for or will provide for adequate resources, at no additional charge to HHSC, to reasonably accommodate such changes. The Parties further acknowledge that Dental Contractor was selected, in part, because of its expertise, experience, and knowledge concerning applicable federal or state laws, rules, regulations, policies, or guidelines that affect the performance of the Services. In keeping with HHSC's reliance on this knowledge and expertise, Dental Contractor is responsible for identifying the impact of changes in applicable federal or state legislative enactments and regulations that affect the performance of the Services or the State's use of the Services. Dental Contractor must timely notify HHSC of such changes and must work with HHSC to identify the impact of such changes on how the State uses the Services.
- (c) HHSC will notify Dental Contractor of any changes in applicable law, rule, regulation, policy, or guidelines that HHSC becomes aware of in the ordinary course of its business.
- (d) The Dental Contractor is responsible for compliance with changes in federal and state law that occur during the course of the contract term. If there are any conflicts between rules promulgated by CMS, including the C.F.R., and this Contract, then the federal rule takes precedence over the Contract and the Dental Contractor must comply with the C.F.R. unless CMS has waived applicability of the C.F.R. provision to Texas Medicaid via a waiver.
- (e) Dental Contractor is responsible for any fines, penalties, or disallowances imposed on the State or Dental Contractor arising from any noncompliance with the laws and regulations relating to the delivery of the Services or Deliverables by the Dental Contractor, its Subcontractors or agents.

- (f) Dental Contractor is responsible for ensuring each of its employees, agents, or Subcontractors who provide Services or Deliverables under the Contract is properly licensed, certified, and/or has proper permits to perform any activity related to the Services or Deliverables.
- (g) Dental Contractor warrants that the Services and Deliverables will comply with all applicable federal, state, and county laws, regulations, codes, ordinances, guidelines, and policies. Dental Contractor will indemnify HHSC from and against any losses, liability, claims, damages, penalties, costs, fees, or expenses arising from or in connection with Dental Contractor's failure to comply with or violation of any such law, rule, regulation, code, ordinance, or policy.

**Section 7.03 This Section Intentionally Left Blank.**

**Section 7.04 This Section Intentionally Left Blank.**

**Section 7.05 Compliance with State and Federal Anti-discrimination Laws.**

- (a) Dental Contractor agrees to comply with state and federal anti-discrimination laws, including without limitation:
  - (1) Title VI of the Civil Rights Act of 1964 (42 U.S.C. §§ 2000d *et seq.*);
  - (2) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. § 794);
  - (3) Americans with Disabilities Act of 1990 (42 U.S.C. §§ 12101 *et seq.*);
  - (4) Age Discrimination Act of 1975 (42 U.S.C. §§ 6101-6107);
  - (5) Title IX of the Education Amendments of 1972 (20 U.S.C. §§ 1681-1688 regarding education programs and activities);
  - (6) Food and Nutrition Act of 2008 (7 U.S.C. §§ 2011 *et. seq.*); and
  - (7) The HHS agency's administrative rules, as set forth in the Texas Administrative Code, to the extent applicable to this Agreement.

Dental Contractor agrees to comply with all amendments to the above-referenced laws, and all requirements imposed by the regulations issued pursuant to these laws. These laws provide in part that no persons in the United States may, on the grounds of race, color, national origin, sex, age, disability, political beliefs, or religion, be excluded from participation in or denied any aid, care, service or other benefits provided by Federal or State funding, or otherwise be subjected to discrimination.

- (b) Dental Contractor agrees to comply with Title VI of the Civil Rights Act of 1964, and its implementing regulations at 45 C.F.R. Part 80 or 7 C.F.R. Part 15, prohibiting a contractor from adopting and implementing policies and procedures that exclude or have the effect of excluding or limiting the participation of clients in its programs, benefits, or activities on the basis of national origin. Applicable state and federal civil rights laws require contractors to provide alternative methods for ensuring access to services for applicants and recipients who cannot express themselves fluently in English. Dental Contractor agrees to ensure that its policies do not have the effect of excluding or limiting the participation of persons in its programs, benefits, and activities on the basis of national origin. Dental Contractor also

agrees to take reasonable steps to provide services and information, both orally and in writing, in appropriate languages other than English, in order to ensure that persons with limited English proficiency are effectively informed and can have meaningful access to programs, benefits, and activities.

- (c) Dental Contractor agrees to comply with Section 1557 of the Patient Protection and Affordable Care Act;
- (d) Dental Contractor agrees to comply with Executive Order 13279, and its implementing regulations at 45 C.F.R. Part 87 or 7 C.F.R. Part 16. These provide in part that any organization that participates in programs funded by direct financial assistance from the United States Department of Agriculture or the United States Department of Health and Human Services must not, in providing services, discriminate against a program beneficiary or prospective program beneficiary on the basis of religion or religious belief.
- (e) Upon request, Dental Contractor will provide HHSC Civil Rights Office with copies of all of the Dental Contractor's civil rights policies and procedures.
- (f) Dental Contractor must notify HHSC's Civil Rights Office of any civil rights complaints received relating to its performance under this Agreement. This notice must be delivered no more than ten calendar days after receipt of a complaint. Notice provided pursuant to this section must be directed to:

HHSC Civil Rights Office  
701 W. 51st Street, Mail Code W206  
Austin, Texas 78751  
Phone Toll Free: (888) 388-6332  
Phone: (512) 438-4313  
TTY Toll Free: (877) 432-7232  
Fax: (512) 438-5885.

## **Section 7.06 Environmental Protection Laws.**

Dental Contractor must comply with the applicable provisions of federal environmental protection laws as described in this Section:

- (a) Pro-Children Act of 1994.

Dental Contractor must comply with the Pro-Children Act of 1994 (20 U.S.C. §§ 6081 *et seq.*), as applicable, regarding the provision of a smoke-free workplace and promoting the non-use of all tobacco products.

- (b) National Environmental Policy Act of 1969.

Dental Contractor must comply with any applicable provisions relating to the institution of environmental quality control measures contained in the National Environmental Policy Act of 1969 (42 U.S.C. §§ 4321 *et seq.*) and Executive Order 11514 ("Protection and Enhancement of Environmental Quality").

(c) Clean Air Act and Water Pollution Control Act regulations.

Dental Contractor must comply with any applicable provisions relating to required notification of facilities violating the requirements of Executive Order 11738 ("Providing for Administration of the Clean Air Act and the Federal Water Pollution Control Act with Respect to Federal Contracts, Grants, or Loans").

(d) State Clean Air Implementation Plan.

Dental Contractor must comply with any applicable provisions requiring conformity of federal actions to State (Clean Air) Implementation Plans under § 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§ 740 *et seq.*).

(e) Safe Drinking Water Act of 1974.

Dental Contractor must comply with applicable provisions relating to the protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (21 U.S.C. § 349; 42 U.S.C. §§ 300f to 300j-9).

## **Section 7.07 HIPAA.**

- (a) Dental Contractor must comply with applicable provisions of HIPAA. This includes the requirement that the Dental Contractor's MIS system comply with applicable certificate of coverage and data specification and reporting requirements promulgated pursuant to HIPAA. Dental Contractor must comply with HIPAA EDI requirements.
- (b) Additionally, Dental Contractor must comply with HIPAA notification requirements, including those set forth in the Health Information Technology for Economic and Clinical Health Act (HITECH Act) at 42 U.S.C. §§ 17931 *et seq.* If, in HHSC's determination, Dental Contractor has not provided notice in the manner or format prescribed by the HITECH Act, then HHSC may require the Dental Contractor to provide this notice.
- (c) Dental Contractor must notify HHSC of all breaches or potential breaches of unsecured protected health information, as that term is defined by the HITECH Act. As noted in **Article 2, "Definitions,"** Confidential Information includes HIPAA-defined protected health information. Therefore, any breach of that information is also subject to the requirements, including notice requirements, in **Article 11, "Disclosure & Confidentiality of Information."**
- (d) The Dental Contractor must use or disclose protected health information as authorized and in response to another HIPAA-covered entity's inquiry about a Member for authorized purposes of treatment, payment, healthcare operations, or as required by law under HIPAA.
- (e) The Dental Contractor must comply with rights of individual access by a Member or a Member's Legally Authorized Representative to Member's protected health information. The Dental Contractor may permit limited disclosures of protected health information as permissible under HIPAA for a family member, other relative, or close personal friends of the Member or anyone identified in the Member's protected health information directly relevant to the Member's involvement with the Member's healthcare or payment related to the

Member's healthcare. The Dental Contractor should refer to 45 C.F.R. § 164.510(b) and related regulatory guidance for additional information.

## **Section 7.08 Privacy, Security and Breach Notification Laws**

- (a) The Dental Contractor must comply with all applicable privacy, security and breach notification laws and regulations, including the following, if applicable to the type of Confidential Information and the authorized purpose for which it is being used:
- (1) 1 Tex. Admin. Code Chapter 202, Subchapter B;
  - (2) The Privacy Act of 1974;
  - (3) OMB Memorandum 17-12;
  - (4) The Federal Information Security Management Act of 2002 (FISMA);
  - (5) The Health Insurance Portability and Accountability Act of 1996 (HIPAA);
  - (6) Internal Revenue Publication 1075 - Tax Information Security Guidelines for Federal, State, and Local Agencies;
  - (7) National Institute of Standards and Technology (NIST) Special Publication 800-66 Revision 1 - An Introductory Resource Guide for Implementing the Health Insurance Portability and Accountability Act (HIPAA) Security Rule;
  - (8) NIST Special Publications 800-53 and 800-53A - Recommended Security Controls for Federal Information Systems and Organizations, as currently revised;
  - (9) NIST Special Publications 800-47 - Security Guide for Interconnecting Information Technology Systems;
  - (10) NIST Special Publication 800-88, Guidelines for Media Sanitization;
  - (11) NIST Special Publication 800-111, Guide to Storage of Encryption Technologies for End User Devices containing PHI;
  - (12) Family Educational Rights and Privacy Act
- (b) Any other State or Federal law, regulation, or administrative rule relating to the specific HHS program area that the Dental Contractor supports on behalf of HHS.
- (c) The Dental Contractor must notify HHSC of all Breaches or potential Breaches of Confidential Information in compliance with applicable laws and regulations as specified in **Article 11** of this Contract.

## **Section 7.09 Historically Underutilized Business Participation Requirements.**

### **(a) Definitions.**

For purposes of this Section:

- (1) "Historically Underutilized Business" or "HUB" means a minority or women-owned business as defined by Texas Government Code, Chapter 2161.
- (2) "HSP" means a HUB Subcontracting Plan for Dental Administrative Services.

### **(b) HUB Requirements.**

- (1) In accordance with Exhibit G, the Dental Contractor must submit an HSP with its Proposal for HHSC's approval, and maintain the HSP thereafter.
- (2) The Dental Contractor must report to HHSC's contract manager and HUB Office monthly, in the format required by Chapter 5.4.4.5 of the UCM, its use of HUB Subcontractors to fulfill the subcontracting opportunities identified in the HSP.
- (3) The Dental Contractor must obtain prior written approval from the HHSC HUB Office before making any changes to the HSP. The proposed changes must comply with HHSC's good faith effort requirements relating to the development and submission of HSPs.
- (4) The Dental Contractor must submit a revised HSP to the HHSC HUB Office when it: changes the dollar amount of, terminates, or modifies an existing Subcontract for Dental Administrative Services; or enters into a new Subcontract for Dental Administrative Services. All proposed changes to the HSP must comply with the requirements of this Agreement.
- (5) HHSC will determine if the value of Subcontracts to HUBs meet or exceed the HUB subcontracting provisions specified in the Dental Contractor's HSP. If HHSC determines that the Dental Contractor's subcontracting activity does not demonstrate a good faith effort, the Contractor may be subject to provisions in the Vendor Performance and Debarment Program (1 Tex. Admin. Code § 20.585), and subject to remedies for breach.

### **Section 7.10 Compliance with Fraud, Waste, and Abuse Requirements.**

Dental Contractor, Dental Contractor's personnel, and all Subcontractors must comply with all fraud, waste, and abuse requirements found in HHS Circular C-027. The Dental Contractor must comply with Circular C-027 requirements in addition to other fraud, waste, and abuse provisions in the contract and in state and federal law.

## **Article 8. Amendments and Modifications**

### **Section 8.01 Mutual Contract.**

This Contract may be amended at any time by mutual agreement of the Parties. The amendment must be in writing and signed by individuals with authority to bind the Parties.

### **Section 8.02 Changes in Law or Contract.**

If federal or state laws, rules, regulations, policies or guidelines are adopted, promulgated, judicially interpreted or changed, or if contracts are entered or changed, the effect of which is to alter the ability of either Party to fulfill its obligations under this Contract, the Parties will promptly negotiate in good faith appropriate modifications or alterations to the Contract and any schedules or attachments made a part of this Contract. Such modifications or alterations must be in writing and signed by individuals with authority to bind the Parties, equitably adjust the terms and conditions of this Contract, and must be limited to those provisions of this Contract affected by the change.

### **Section 8.03 Modifications as a Remedy.**

This Contract may be modified under the terms of **Article 12** ("Remedies and Disputes").

## **Section 8.04 Modification Process.**

- (a) If HHSC seeks modifications to the Contract as a condition of any Contract extension, HHSC's notice to Dental Contractor will specify those modifications to the Scope of Work, the Contract pricing terms, or other Contract terms and conditions.
- (b) Dental Contractor must respond to HHSC's proposed modification within the timeframe specified by HHSC, generally within ten Business Days of receipt. Upon receipt of Dental Contractor's response to the proposed modifications, HHSC may enter into negotiations with Dental Contractor to arrive at mutually agreeable Contract amendments. In the event that HHSC determines that the Parties will be unable to reach agreement on mutually satisfactory contract modifications, then HHSC may provide written notice to Dental Contractor of its intent to terminate the Contract or not to extend the Contract beyond the Contract Term then in effect.

## **Section 8.05 Modification of HHSC Uniform Managed Care Manual.**

- (a) HHSC will provide Dental Contractor with at least ten Business Days advance written notice before implementing a substantive and material change in the HHSC Uniform Managed Care Manual (UMCM). For purposes herein, this would refer to a change that materially and substantively alters the Dental Contractor's ability to fulfill its obligations under the Contract. The UMCM, and all modifications thereto, are incorporated by reference into this Contract. HHSC will provide Dental Contractor with a reasonable amount of time to comment on such changes, generally at least five Business Days. HHSC is not required to provide advance written notice of changes that are not material and substantive in nature, such as corrections of clerical errors or policy clarifications.
- (b) The Parties agree to work in good faith to resolve disagreements concerning material and substantive changes to the UMCM. If the Parties are unable to resolve issues relating to material and substantive changes, then either Party may terminate the agreement in accordance with **Article 12** ("Remedies and Disputes").
- (c) Changes will be effective on the date specified in HHSC's written notice, which will not be earlier than the Dental Contractor's response deadline, and such changes will be incorporated into the HHSC UMCM. If the Dental Contractor has raised an objection to a material and substantive change to the UMCM and submitted a notice of termination in accordance with **Section 12.04(e)**, HHSC will not enforce the change during the period of time between the receipt of the notice and the date of Contract termination.

## **Section 8.06 Required Compliance with Amendment and Modification Procedures.**

No different or additional services, work, or products will be authorized or performed except as authorized by this Article. No waiver of any term, covenant, or condition of this Contract will be valid unless executed in compliance with this Article. Dental Contractor will not be entitled to payment for any services, work or products that are not authorized by a properly executed Contract amendment or modification.

## **Article 9. Audit and Financial Compliance and Litigation Hold**

### **Section 9.01 Record Retention and Audit.**

- (a) The State, CMS, the OIG, the Comptroller, the Attorney General and their designees have the right to audit records or documents, related to this Contract of the Dental Contractor or Dental Contractors Subcontractor for ten years from the final date of the contract period or from the date of any audit, whichever is later.
- (b) Dental Contractor agrees to maintain, and require its Subcontractors to maintain, records, books, documents, and information (collectively “records”) that are adequate to ensure that the services provided and are made payments in accordance with the requirements of this Contract, including applicable Federal and State requirements (e.g., 45 C.F.R. § 74.53). Such records must be retained by Dental Contractor or its Subcontractors for a period of ten years after the Contract Expiration Date or until the resolution of all litigation, claim, financial management review or audit pertaining to this Contract, whichever is longer.
- (c) The Dental Contractor and the Dental Contractors’ subcontractor must retain, as applicable, enrollee grievance and appeal records under 42 C.F.R. § 438.16, base data in 42 C.F.R. § 438.5(c), MLR reports under 42 C.F.R. § 438.8(k), and the data, information, and documentation specified under 42 C.F.R. § 438.604, § 438.606, § 438.608, and § 438.610 for a period no less than ten years from the expiration date of this Contract or from the date of the completion of any audit, whichever is later.
- (d) Additionally, Dental Contractor agrees to, and to require its Subcontractors to, retain all records in accordance with any litigation hold that is provided to them by HHSC and actively participate in the discovery process if required to do so, at no additional charge to HHSC. Litigation holds may require the Dental Contractor or its Subcontractors to keep the records longer than other records retention schedules. The Dental Contractor will be required to retain all records subject to the litigation hold until notified by HHSC when the litigation hold ends and then other approved records retention schedule(s) may resume. If Dental Contractor or its Subcontractors fail to retain the pertinent records after receiving a litigation hold from HHSC, the Dental Contractor agrees to pay to HHSC all damages, costs, and expenses incurred by HHSC arising from such failure to retain.

### **Section 9.02 Access to Records, Books, and Documents.**

- (a) Upon reasonable notice, Dental Contractor must provide, and cause its Subcontractors to provide, at no cost to the officials and entities identified in this Section prompt, reasonable, and adequate access to any records that are related to the scope of this Contract.
- (b) Dental Contractor and its Subcontractors must provide the access described in this Section upon HHSC’s request. This request may be for, but is not limited to, the following purposes:
  - (1) examination;
  - (2) audit;
  - (3) investigation;
  - (4) inspection;

- (5) contract administration; or
  - (6) the making of copies, excerpts, or transcripts.
- (c) The access required must be provided to the following officials and/or entities:
- (1) The United States Department of Health and Human Services or its designee;
  - (2) The Comptroller General of the United States or its designee;
  - (3) Dental Program personnel from HHSC or its designee, including HHSC's independent auditor;
  - (4) The Office of Inspector General;
  - (5) The Medicaid Fraud Control Unit of the Texas Attorney General's Office or its designee;
  - (6) Any independent verification and validation contractor or quality assurance contractor acting on behalf of HHSC;
  - (7) The Office of the State Auditor of Texas or its designee;
  - (8) A State or Federal law enforcement agency;
  - (9) A special or general investigating committee of the Texas Legislature or its designee; and
  - (10) Any other State or Federal entity identified by HHSC, or any other entity engaged by HHSC.
- (d) Dental Contractor agrees to provide the access described wherever Dental Contractor maintains such books, records, and supporting documentation. Dental Contractor further agrees to provide such access in reasonable comfort and to provide any furnishings, equipment, and other conveniences deemed reasonably necessary to fulfill the purposes described in this Section. Dental Contractor will require its Subcontractors to provide comparable access and accommodations.
- (e) Upon request, the Dental Contractor must provide copies of the information described in this Section free of charge to HHSC and the entities described in subsection (c).
- (f) In accordance with Texas Government Code § 533.012(e), any information submitted to HHSC or the Texas Attorney General's Office pursuant to Texas Government Code § 533.012(a)(1) is confidential and is not subject to disclosure under the Texas Public Information Act.

### **Section 9.03 Audits of Services, Deliverables and Inspections.**

- (a) Upon reasonable notice from HHSC, Dental Contractor will provide, and will cause its Subcontractors to provide, such auditors and inspectors as HHSC may from time to time designate, with access to:
- (1) service locations, facilities, or installations;
  - (2) records; and
  - (3) software.

Reasonable notice may include time-limited or immediate requests for information.

- (b) The access described in this Section will be for the purpose of examining, auditing, or investigating:
  - (1) Dental Contractor's capacity to bear the risk of potential financial losses;
  - (2) The Services and Deliverables provided;
  - (3) A determination of the amounts payable under this Contract;
  - (4) A determination of the allowability of costs reported under this Contract;
  - (5) An examination of Subcontract terms and/or transactions;
  - (6) An assessment of financial results under this Contract;
  - (7) Detection of fraud, waste, or abuse;
  - (8) Other purposes HHSC deems necessary to perform its regulatory function and/or enforce the provisions of this Contract.
- (c) Dental Contractor must provide, as part of the Services, any assistance that such auditors and inspectors reasonably may require to complete such audits or inspections.
- (d) If, as a result of an audit or review of payments made to the Dental Contractor, HHSC discovers a payment error or overcharge, HHSC will notify the Dental Contractor of such error or overcharge. HHSC will be entitled to recover such funds as an offset to future payments to the Dental Contractor, or to collect such funds directly from the Dental Contractor. Dental Contractor must return funds owed to HHSC within 30 days after receiving notice of the error or overcharge, or interest will accrue on the amount due. HHSC will assess any such interest at 12 per cent per annum, compounded daily. In the event that an audit reveals that errors in reporting by the Dental Contractor have resulted in errors in payments to the Dental Contractor or errors in the calculation of the Experience Rebate, the Dental Contractor will indemnify HHSC for any losses resulting from such errors, including the cost of audit. If the interest rate stipulated hereunder is found by a court of competent jurisdiction to be outside the range deemed legal and enforceable, then the rate hereunder will be adjusted as little as possible so as to be deemed legal and enforceable.

#### **Section 9.04 SAO Audit.**

The Dental Contractor understands that acceptance of funds under this Contract acts as acceptance of the authority of the State Auditor's Office ("SAO"), or any successor agency, to conduct an investigation in connection with those funds. The Dental Contractor further agrees to cooperate fully with the SAO or its successor in the conduct of the audit or investigation, including providing all records requested at no cost. The Dental Contractor will ensure that this clause concerning the authority to audit funds and the requirement to cooperate is included in any Subcontract, and in any third party agreements described in **Section 4.08**.

#### **Section 9.05 Response and Compliance with Audit or Inspection Findings.**

- (a) Dental Contractor must take action to ensure its or a Subcontractor's compliance with or correction of any finding of noncompliance with any law, regulation, audit requirement, or

generally accepted accounting principle relating to the Services and Deliverables or any other deficiency contained in any audit, review, or inspection conducted under this Article. This action will include Dental Contractor's delivery to HHSC, for HHSC'S approval, a Corrective Action Plan that addresses deficiencies identified in any audit, review, or inspection within 30 calendar days of the close of the audit, review, or inspection.

- (b) Dental Contractor must bear the expense of compliance with any finding of noncompliance under this Section that is:
  - (1) Required by Texas or Federal law, regulation, rule, court order, or other audit requirement relating to Dental Contractor's business;
  - (2) Performed by Dental Contractor as part of the Scope of Work; or
  - (3) Necessary due to Dental Contractor's noncompliance with any law, regulation, rule, court order, or audit requirement imposed on Dental Contractor.
- (c) As part of the Scope of Work, Dental Contractor must provide to HHSC upon request a copy of those portions of Dental Contractor's and its Subcontractors' internal audit reports relating to the Services and Deliverables provided to HHSC under this Contract.

## **Section 9.06 Notification of Legal and Other Proceedings, and Related Events.**

The Dental Contractor must notify HHSC of all proceedings, actions, and events as specified in UCMCM, Chapter 5.8, "Report of Legal and Other Proceedings and Related Events."

## **Article 10. Terms and Conditions of Payment**

### **Section 10.01 Calculation of Monthly Premium Payment.**

- (a) This is a risk-based contract. For each Program, HHSC will pay the Dental Contractor monthly Premium Payments set forth in the Dental Program Contract, based on the number of eligible enrolled Members. HHSC will calculate the monthly Premium Payments by multiplying the number of Members in each Rate Cell category by the Premium Rate for each Rate Cell. In consideration of the Monthly Premium Payments, the Dental Contractor agrees to provide the Services and Deliverables described in this Contract.
- (b) The Dental Contractor must provide timely financial and statistical information necessary in the Premium Rate determination process. Encounter Data provided by Dental Contractor must conform to all HHSC requirements. Encounter Data containing non-compliant information, including, but not limited to, inaccurate Member identification numbers, inaccurate provider identification numbers, or diagnosis or procedures codes insufficient to adequately describe the diagnosis or procedure performed, will not be considered in the Dental Contractor's experience for rate-setting purposes.
- (c) Information or data, including complete and accurate Encounter Data, as requested by HHSC for rate-setting purposes, must be provided to HHSC: (1) within 30 days of receipt of the letter from HHSC requesting the information or data; and (2) no later than March 31st of each year.
- (d) The fixed monthly Premium Rate consists of the following components:

- (1) An amount for the dental services performed during the month;
- (2) An amount for administering the program, and
- (3) An amount for the Dental Contractor's risk margin.

Premium Rates for each Program may vary by Dental Contractor. HHSC will employ or retain qualified actuaries to perform data analysis and calculate the Premium Rates for each rate period.

- (e) Dental Contractor understands and expressly assumes the risks associated with the performance of the duties and responsibilities under this Contract, including the failure, termination or suspension of funding to HHSC, delays or denials of required approvals, and cost overruns not reasonably attributable to HHSC.

### **Section 10.02 Time and Manner of Payment.**

- (a) During the Contract Term and beginning after the Operational Start Date, HHSC will pay the monthly Premium Payments by the 10th Business Day of each month.
- (b) The Dental Contractor must accept Premium Payments by direct deposit into the Dental Contractor's account.
- (c) HHSC may adjust the monthly Premium Payment to the Dental Contractor in the case of an overpayment to the Dental Contractor, for Experience Rebate amounts due and unpaid (including any interest thereon), or if money damages (including any associated interest) are assessed in accordance with **Article 12**, "Remedies and Disputes."
- (d) HHSC's payment of monthly Premium Payments is subject to availability of appropriations. If appropriations are not available to pay the full monthly Premium Payment, HHSC may:
  - (1) Equitably adjust the Premium Payments for all participating Dental Contractors, and reduce scope of service requirements as appropriate in accordance with **Article 8** "Amendments and Modifications," or
  - (2) Terminate the Contract in accordance with **Article 12** "Remedies and Disputes."

### **Section 10.03 Certification of Premium Rates.**

HHSC will employ or retain a qualified actuary to certify the actuarial soundness of the Premium Rates, and all revisions or modifications thereto.

### **Section 10.04 Modification of Premium Rates.**

The Parties expressly understand and agree that the agreed Premium Rates are subject to modification in accordance with **Article 8** "Amendments and Modifications," if changes in state or federal laws, rules, regulations, guidelines, policies, or court orders affect the rates or the actuarial soundness of the rates. HHSC will provide the Dental Contractor notice of a modification to the Premium Rates at least 60 days prior to the effective date of the change, unless HHSC determines that circumstances warrant a shorter notice period. If the Dental Contractor does not accept the rate change, either Party may terminate the Contract in accordance with **Article 12** "Remedies and Disputes."

## **Section 10.05 CHIP Premium Rates Structure.**

### **(a) CHIP Rate Cells.**

CHIP Premium Rates are defined on a per Member per month basis by the Rate Cells. CHIP Rate Cells are based on the Member's age group as follows:

- (1) Under age one;
- (2) Ages one through 5;
- (3) Ages 6 through 14; and
- (4) Ages 15 through 18.

### **(b) CHIP Premium Rate development.**

HHSC will establish base Premium Rates by analyzing Encounter Data and financial data. This analysis will include a review of historical enrollment and claims experience information; any changes to Medically Necessary Covered Dental Services and covered populations; rate changes specified by the Texas Legislature; and any other relevant information.

### **(c) Value-Added Services.**

Value-added Services will not be included in the rate-setting process.

## **Section 10.06 Medicaid Premium Rates Structure.**

### **(a) Medicaid Rate Cells.**

Medicaid Premium Rates are defined on a per Member per month basis by the Rate Cells. Medicaid Rate Cells are:

- (1) Under age one;
- (2) Ages one through 5;
- (3) Ages 6 through 14; and
- (4) Ages 15 through 20.

### **(b) Medicaid Premium Rate development.**

HHSC will establish base Premium Rates by analyzing historical Medicaid Encounter Data and financial data. This analysis will include a review of historical enrollment and claims experience information; any changes to Covered Services and covered populations; rate changes specified by the Texas Legislature; and any other relevant information.

### **(c) Value-Added Services.**

Value-added Services will not be included in the rate-setting process.

## **Section 10.07 Adjustments to Premium Payments**

### **(a) Adjustment.**

HHSC may adjust a payment made to the Dental Contractor for a Member if:

- (1) A Member's eligibility status or program type is changed, corrected as a result of error, or is retroactively adjusted;
- (2) The Member is enrolled into the Dental Contractor in error;
- (3) The Member moves outside the United States;
- (4) The Member dies before the first day of the month for which the payment was made; or
- (5) The payment has been denied by the CMS in accordance with the requirements of 42 C.F.R. § 438.730.

(b) Appeal of adjustment.

The Dental Contractor may appeal the adjustment of premiums in the above circumstances using the HHSC dispute resolution process set forth in **Section 12.13**, ("Dispute Resolution").

### **Section 10.08 Experience Rebate.**

(a) Dental Contractor's duty to pay.

At the end of each FSR Reporting Period, the Dental Contractor must pay an Experience Rebate for the Program to HHSC as detailed in **Section 10.08 (b)**, b. The Net Income Before Taxes and total Revenues are as measured by the Financial-Statistical Report (FSR) as reviewed and confirmed by HHSC. The final amount used in the calculation of the percentage may be impacted by the Loss Carry Forward; see **Section 10.08, (d)**.

With the exception of the Dual Demonstration, the percentages are calculated on a Consolidated Basis, and include the consolidated Net Income Before Taxes for all of the Dental Contractor's HHSC capitated managed care contracts, including any separate capitated managed care contracts with the Dental Contractor's parent or other affiliated legal entities.

(b) Graduated Experience Rebate Sharing Method.

| Pre-Tax<br>Income as a<br>% of<br>Revenues | Dental<br>Contractor<br>Share | HHSC<br>Share |
|--|-------------------------------|---------------|
| ≤ 3%                                       | 100%                          | 0%            |
| > 3% and ≤<br>5%                           | 80%                           | 20%           |
| > 5% and ≤<br>7%                           | 60%                           | 40%           |
| > 7% and ≤<br>9%                           | 40%                           | 60%           |

|                   |     |      |
|-------------------|-----|------|
| > 9% and ≤<br>12% | 20% | 80%  |
| > 12%             | 0%  | 100% |

HHSC and the Dental Contractor will share the Net Income Before Taxes for the Program as follows:

- (1) The Dental Contractor will retain all Net Income Before Taxes that is equal to or less than 3% of the total Revenues received by the Dental Contractor.
- (2) HHSC and the Dental Contractor will share that portion of the Net Income Before Taxes that is over 3% but less than or equal to 5% of the total Revenues received, with 80% to the Dental Contractor and 20% to HHSC.
- (3) HHSC and the Dental Contractor will share that portion of the Net Income Before Taxes that is over 5% but less than or equal to 7% of the total Revenues received, with 60% to the Dental Contractor and 40% to HHSC.
- (4) HHSC and the Dental Contractor will share that portion of the Net Income Before Taxes that is over 7% but less than or equal to 9% of the total Revenues received, with 40% to the Dental Contractor and 60% to HHSC.
- (5) HHSC and the Dental Contractor will share that portion of the Net Income Before Taxes that is over 9% but less than or equal to 12% of the total Revenues received, with 20% to the Dental Contractor and 80% to HHSC.

HHSC will be paid the entire portion of the Net Income Before Taxes that exceeds 12% of the total Revenues.

(c) Net Income Before taxes.

- (1) The Dental Contractor must compute the Net Income Before Taxes in accordance with the HHSC UCM's "Cost Principles for Expenses" and "FSR Instructions for Completion" and applicable federal regulations. The Net Income Before Taxes will be confirmed by HHSC or its agent for the FSR Reporting Period relating to all Revenues and Allowable Expenses incurred pursuant to the Contract. HHSC reserves the right to modify the "Cost Principles for Expenses" and "FSR Instructions for Completion" found in HHSC's UCM, in accordance with **Section 8.05**, "Modification of the HHSC Uniform Managed Care Manual."
- (2) For purposes of calculating Net Income Before Taxes, certain items are omitted from the calculation, as they are not Allowable Expenses; these include:

(i) The payment of an Experience Rebate;

(c) Any interest expense associated with late or underpayment of the Experience Rebate;

(d) Any financial incentives;

(e) Any financial disincentives, including without limitation any incentives described in **Section 2.6** of the RFP; and

(f) The liquidated damages, and any interest expense associated, as described in Exhibit “C”.

See UCM Chapter 6.1 “Cost Principles for Expenses.”

(1) Financial incentives will not be reduced by potential increased Experience Rebate payments. Financial disincentives will not be offset in whole or in part by potential decreases in Experience Rebate payments.

(2) For FSR reporting purposes, any financial incentives incurred must not be reported as an increase in Revenues or as an offset to costs, and any award of such will not increase reported income. Any financial disincentives incurred must not be included as reported expenses, and must not reduce reported income. The reporting or recording of any of these incurred items will be done on a memo basis, which is below the income line, and will be listed as separate items.

(d) Carry forward of prior FSR Reporting Period losses.

(1) General.

Losses incurred on a Consolidated Basis by the Dental Contractor for one FSR Reporting Period may be carried forward to the next FSR Reporting Period and applied as an offset against pre-tax net income. Prior losses may be carried forward for up to two contiguous FSR Reporting Periods.

When a loss in a given FSR Reporting Period is carried forward and applied against profits in both of the next two FSR Reporting Periods, the loss must first be applied against the first subsequent FSR Reporting Period. The profit in the first subsequent FSR Reporting Period is reduced to a zero pre-tax income; any additional loss then remaining unapplied may be carried forward to any profit in the next subsequent FSR Reporting Period. In this case, the revised income in the third FSR Reporting Period would be equal to the cumulative income of the three contiguous FSR Reporting Periods. The loss cannot be carried forward to the fourth FSR Reporting Period or beyond.

The Admin Cap may impact losses carried forward. See **Section 10.09 (f)**.

Losses incurred in the last or next-to-last FSR Reporting Period of a prior contiguous contract with HHSC may be carried forward up to two FSR Reporting Periods, into the first or potentially second FSR Reporting Period of this Contract, if the losses meet all other requirements of both the prior and current contracts.

(2) Basis of consolidation.

In order for a loss to be eligible for potential carryforward as an offset against future income, the Dental Contractor must have a negative Net Income Before Taxes for an FSR Reporting Period on a Consolidated Basis.

(e) Settlements for payment.

(1) There may be one or more Dental Contractor payment(s) of the State share of the Experience Rebate on income generated for a given FSR Reporting Period. The first

scheduled payment (the “Primary Settlement”) will equal 100 percent of the State share of the Experience Rebate as derived from the FSR, and will be paid on the same day the 90-day FSR Report is submitted to HHSC.

The “Primary Settlement,” as utilized herein, refers strictly to what should be paid with the 90-day FSR, and does not refer to the first instance in which the Dental Contractor may tender a payment. For example, the Dental Contractor may submit a 90-day FSR indicating no Experience Rebate is due, but then submit a 334-day FSR with a higher income and a corresponding Experience Rebate payment. In such case, this initial payment would be subsequent to the Primary Settlement.

- (2) The next scheduled payment will be an adjustment to the Primary Settlement, if required, and will be paid on the same day that the 334-day FSR Report is submitted to HHSC, if the adjustment is a payment from the Dental Contractor to HHSC. **Section 10.05(f)** describes the interest expenses associated with any such payment after the Primary Settlement.

The Dental Contractor may make non-scheduled payments at any time to reduce the accumulation of interest under **Section 9.05(f)**. For any nonscheduled payments prior to the 334-day FSR, the Dental Contractor is not required to submit a revised FSR, but is required to submit an Experience Rebate calculation form and an adjusted summary page of the FSR. The FSR summary page is labeled “Summary Income Statements (Dollars), All Coverage Groups Combined (FSR, Part I).”

- (3) HHSC or its agent may audit or review the FSRs. If HHSC determines that corrections to the FSRs are required, based on an HHSC audit/review or other documentation acceptable to HHSC, then HHSC will make final adjustments. Any payment resulting from an audit or final adjustment will be due from the Dental Contractor within 30 days of the earlier of:

- (i) The date of the management representation letter resulting from the audit; or
- (ii) The date of any invoice issued by HHSC.

Payment within this 30-day timeframe will not relieve the Dental Contractor of any interest payment obligation that may exist under **Section 10.05(f)**.

- (4) In the event that any Experience Rebates and/or corresponding interest payments owed to the State are not paid by the required due dates, then HHSC may offset such amounts from any future Capitation Payments, or collect such sums directly from the Dental Contractor. HHSC may adjust the Experience Rebate if HHSC determines the Dental Contractor has paid amounts for goods or services that are not reasonable, necessary, and allowable in accordance with the HHSC UMCM’s “Cost Principles for Expenses,” the HHSC “FSR Instructions for Completion,” the Federal Acquisition Regulations (FAR), or other applicable federal or state regulations. HHSC has final authority in auditing and determining the amount of the Experience Rebate.

(f) Interest on Experience Rebate.

- (1) Interest on any Experience Rebate owed to HHSC will be charged beginning 35 days after the due date of the Primary Settlement, as described in **Section 10.05(e)(1)**. Thus,

any Experience Rebate due or paid on or after the Primary Settlement will accrue interest starting at 35 days after the due date for the 90-day FSR Report. For example, any Experience Rebate payment(s) made in conjunction with the 334-day FSR, or as a result of audit findings, will accrue interest back to 35 days after the due-date for submission of the 90-day FSR.

The Dental Contractor has the option of preparing an additional FSR based on 120 days of claims run-out (a "120-day FSR"). If a 120-day FSR, and an Experience Rebate payment based on it, are received by HHSC before the interest commencement date above, then such a payment would be counted as part of the Primary Settlement.

- (2) If an audit or adjustment determines a downward revision of income after an interest payment has previously been required for the same State Fiscal Year, then HHSC will recalculate the interest and, if necessary, issue a full or partial refund or credit to the Dental Contractor.
- (3) Any interest obligations that are incurred pursuant to **Section 10.05** that are not timely paid will be subject to accumulation of interest as well, at the same rate as applicable to the underlying Experience Rebate.
- (4) All interest assessed pursuant to **Section 10.05** will continue to accrue until such point as a payment is received by HHSC, at which point interest on the amount received will stop accruing. If a balance remains at that point that is subject to interest, then the balance will continue to accrue interest. If interim payments are made, then any interest that may be due will only be charged on amounts for the time period during which they remained unpaid.

By way of example only, if \$100,000 is subject to interest commencing on a given day, and a payment is received for \$75,000 45 days after the start of interest, then the \$75,000 will be subject to 45 days of interest, and the \$25,000 balance will continue to accrue interest until paid.

The accrual of interest as defined under **Section 10.05(f)** will not stop during any period of dispute. If a dispute is resolved in the Dental Contractor's favor, then interest will only be assessed on the revised unpaid amount.

- (5) If the Dental Contractor incurs an interest obligation pursuant to **Section 10.05**, HHSC will assess such interest at 12% per annum, compounded daily. If any interest rate stipulated hereunder is found by a court of competent jurisdiction to be outside the range deemed legal and enforceable, then in such specific case the rate hereunder will be adjusted as little as possible so as to be deemed legal and enforceable.
- (6) Any such interest expense incurred pursuant to **Section 10.05** is not an Allowable Expense for reporting purposes on the FSR.

### **Section 10.09 Federal Disallowance.**

If the federal government recoups money from the state for expenses and/or costs that are deemed unallowable by the federal government, the state has the right to, in turn, recoup payments made to the Dental Contractor for these same expenses or costs, even if they had not been previously disallowed by the state and were incurred by the Dental Contractor, and any

such expenses or costs would then be deemed unallowable by the state. If the state retroactively recoups money from the Dental Contractor due to a federal disallowance, the state will recoup the entire amount paid to the Dental Contractor for the federally disallowed expenses or costs, not just the federal portion.

#### **Section 10.10 Payment by Members.**

- (a) The Dental Contractor, Network Providers, and Out-of-Network Providers are prohibited from billing or collecting any amount from a Member for Covered Services, except that CHIP Network Providers and Out-of-Network Providers may collect copayments authorized in the CHIP State Plan from CHIP Members for Covered Services.
- (b) The Dental Contractor must inform Members of costs for non-covered services, and must require its Network Providers to:
  - (1) inform Members of costs for non-covered services prior to rendering such services; and
  - (2) obtain a signed Private Pay form from such Members.

#### **Section 10.11 Restriction on Assignment of Fees.**

During the Contract Term, Dental Contractor may not, directly or indirectly, assign to any third party any beneficial or legal interest of the Dental Contractor in or to any payments to be made by HHSC pursuant to this Contract. This restriction does not apply to fees paid to Subcontractors.

#### **Section 10.12 Liability for Taxes.**

HHSC is not responsible in any way for the payment of any Federal, state or local taxes related to or incurred in connection with the Dental Contractor's performance of this Contract. Dental Contractor must pay and discharge any and all such taxes, including any penalties and interest. In addition, HHSC is exempt from federal excise taxes, and will not pay any personal property taxes or income taxes levied on Dental Contractor or any taxes levied on employee wages.

#### **Section 10.13 Liability for Employment-related Charges and Benefits.**

Dental Contractor will perform work under this Contract as an independent contractor and not as agent or representative of HHSC. Dental Contractor is solely and exclusively liable for payment of all employment-related charges incurred in connection with the performance of this Contract, including but not limited to salaries, benefits, employment taxes, workers compensation benefits, unemployment insurance and benefits, and other insurance or fringe benefits for staff.

#### **Section 10.14 No Additional Consideration.**

- (a) Dental Contractor will not be entitled to nor receive from HHSC any additional consideration, compensation, salary, wages, charges, fees, costs, or any other type of remuneration for Services and Deliverables provided under the Contract, except by properly authorized and executed Contract amendments.
- (b) No other charges for tasks, functions, or activities that are incidental or ancillary to the delivery of the Services and Deliverables will be sought from HHSC or any other State agency, nor will the failure of HHSC or any other party to pay for such incidental or ancillary

services entitle the Dental Contractor to withhold Services and Deliverables due under the Agreement.

- (c) Dental Contractor will not be entitled by virtue of the Contract to consideration in the form of overtime, health insurance benefits, retirement benefits, disability retirement benefits, sick leave, vacation time, paid holidays, or other paid leaves of absence of any type or kind whatsoever.

### **Section 10.15 Adjustment to Capitation in Consideration of the ACA Section 9010.**

The following applies only to Dental Contractors that are covered entities under Section 9010 of the PPACA, and thus required to pay the Health Insurance Providers Fee ("HIP Fee") for United States health risks.

Beginning in calendar year 2014, the PPACA requires the Dental Contractor to pay the HIP Fee no later than September 30th (as applicable to each relevant year, the "HIP Fee Year") with respect to premiums paid to the Dental Contractor in the preceding calendar year (as applicable to each relevant year, the "HIP Data Year"), and continuing similarly in each successive year. In order to satisfy the requirement for actuarial soundness set forth in 42 C.F.R. § 438.4 with respect to amounts paid by HHSC under this Agreement, the parties agree that HHSC will make a retroactive adjustment to capitation to the Dental Contractor for the full amount of the HIP Fee allocable to this Agreement, as follows:

*Amount and method of payment:* For each HIP Fee Year, HHSC will make an adjustment to capitation to the Dental Contractor for that portion of the HIP Fee that is attributable to the Capitation Payments paid by HHSC to the Dental Contractor for risks in the applicable HIP Data Year under the Agreement, less any applicable exclusions and appropriate credit offsets. This capitation adjustment will be determined by HHSC and will include the following:

- (1) The amount of the HIP Fee attributable to this Agreement;
- (2) The federal income tax liability, if any, that the Dental Contractor incurs as a result of receiving HHSC's payment for the amount of the HIP Fee attributable to this Agreement; and
- (3) Any Texas state premium tax attributable to the capitation adjustment.

The amount of the HIP Fee will not be determinable until after HHSC establishes the regular Capitation Rates for a rate period. HHSC therefore will perform an actuarial calculation to account for the HIP Fee within actuarially sound Capitation Rates each year, and apply this Capitation Rate adjustment to the regular Capitation Rates already paid to the Dental Contractor.

The Dental Contractor's federal income tax rate will not be known prior to the end of the tax year. As a result, HHSC will make a tax rate assumption for purposes of developing the capitation adjustment. If the tax rate assumption later proves to be higher than the actual tax rate for one or more Dental Contractors, HHSC may re-determine the capitation adjustment for those Dental Contractors using the lower tax rate and reconcile the capitation amount paid.

*Documentation Requirements:* HHSC will pay the Dental Contractor after it receives sufficient documentation, as determined by HHSC, detailing the Dental Contractor's Texas Medicaid and CHIP-specific liability for the HIP Fee. The Dental Contractor will provide documentation that includes the following:

- (1) The preliminary and final versions of the IRS Form 8963;
- (2) Texas Medicaid/CHIP-specific premiums included in the premiums reported on Form 8963; and
- (3) The preliminary and final versions of the Fee statement provided by the IRS.

Payment by HHSC is intended to put the Dental Contractor in the same position as the Dental Contractor would have been had no HIP Fee been imposed upon the Dental Contractor.

- (g) This provision will survive the termination of the Agreement.

## **Article 11. Disclosure, Confidentiality, Privacy, and Security of Information.**

### **Section 11.01 Confidentiality.**

- (a) The Dental Contractor and all Subcontractors, consultants, or agents must treat all information that is obtained through performance of the Services under the Contract, including information relating to applicants or Dental Members as Confidential Information to the extent that confidential treatment is provided under law and regulations. The Dental Contractor must protect Confidential Information from unauthorized disclosure or public release based on state or federal law or other legal agreement. For purposes of this Contract, the Dental Contractor will treat Agency Sensitive Information as Confidential Information. Although Agency Sensitive Information may not be subject to specific legal, regulatory or other external requirements, it is considered HHS sensitive and is not readily available to the public. Agency Sensitive Information could be subject to disclosure under the Texas Public Information Act, but the Dental Contractor should control disclosure due to sensitivity.
- (b) The Dental Contractor is responsible for understanding the degree to which information obtained through performance of the Contract is confidential under State and Federal law, regulations, or administrative rules.
- (c) The Dental Contractor and all Subcontractors, consultants, or agents under the Contract must not use any information obtained through performance of the Contract in any manner except as is necessary for the proper discharge of obligations and securing of rights under the Contract.
- (d) The Dental Contractor must have a system in effect to protect all records and all other documents deemed confidential under the Contract maintained in connection with the activities under the Contract. Any disclosure or transfer of Confidential Information by the Dental Contractor, including information required by the HHSC, must be in accordance with applicable law. If the Dental Contractor receives a request for information deemed confidential under the Contract, the Dental Contractor must immediately notify HHSC of

such request, and must make reasonable efforts to protect the information from public disclosure.

- (e) In addition to the requirements expressly stated in this section, the Dental Contractor must comply with any policy, rule, or reasonable requirement of HHSC that relates to the safeguarding or disclosure of information relating to Dental Members, the Dental Contractor's operations, or the Dental Contractor's performance of the Contract.
- (f) In the event of the expiration of the Contract or termination of the Contract for any reason, all Confidential Information disclosed to and all copies thereof made by the Dental Contractor must be returned to HHSC or, at HHSC's option, erased or destroyed. The Dental Contractor must provide HHSC certificates evidencing such erasure or destruction.
- (g) The obligations in this section shall not restrict any disclosure by the Dental Contractor pursuant to any applicable law, or by order of any court or government agency, provided that the Dental Contractor must give prompt notice to HHSC of such order.
- (h) With the exception of confidential Dental Member information, information provided under the Contract by one Party (the "Furnishing Party") to another Party (the "Receiving Party") will not be considered Confidential Information if such data was:
  - (1) Already known to the Receiving Party without restrictions at the time of its disclosure by the Furnishing Party;
  - (2) Independently developed by the Receiving Party without reference to the Furnishing Party's Confidential Information;
  - (3) Rightfully obtained by the Receiving Party without restriction from a third party after its disclosure to a third party by the Furnishing Party;
  - (4) Publicly available other than through the fault or negligence of the Receiving Party; or
  - (5) Lawfully released without restriction to anyone.

## **Section 11.02 Disclosure of HHSC's Confidential Information.**

- (a) The Dental Contractor must report to HHSC any and all unauthorized disclosures or uses of HHSC's Confidential Information of which it or its Subcontractor(s), consultant(s), or agent(s) is aware or has knowledge in accordance with **Section 11.08** of the Contract. The Dental Contractor acknowledges that any publication or disclosure of HHSC's Confidential Information to others may cause immediate and irreparable harm to HHSC and may constitute a violation of State or federal laws. If the Dental Contractor, its Subcontractor(s), consultant(s), or agent(s) should publish or disclose such Confidential Information to others without authorization, HHSC will immediately be entitled to injunctive relief or any other remedies to which it is entitled under law or equity. HHSC will have the right to recover from the Dental Contractor all damages and liabilities caused by or arising from the Dental Contractor's, its Subcontractors', consultants', or agents' failure to protect HHSC's Confidential Information. The Dental Contractor must defend, with counsel approved by HHSC, indemnify and hold harmless HHSC from all damages, costs, liabilities, and expenses, including reasonable attorneys' fees and costs, caused by or arising from the Dental Contractor's or its Subcontractors', consultants' or agents' failure to protect HHSC's

Confidential Information. HHSC will not unreasonably withhold approval of counsel selected by the Dental Contractor.

- (b) The Dental Contractor must require its Subcontractors, consultants, and agents to comply with the terms of this provision.

### **Section 11.03 Member Records.**

- (a) HHSC may require the transfer of Dental Member Records, upon written notice to the Dental Contractor, to another entity, as consistent with federal and state laws and applicable releases. The Dental Contractor must comply with the requirements of state and federal laws regarding the transfer of Dental Member Records.
- (b) The term "Dental Member Record" for this section means only those administrative, enrollment, case management, and other such records maintained by the Dental Contractor and is not intended to include patient records maintained by participating Providers.

### **Section 11.04 Requests for Public Information.**

- (a) HHSC will promptly notify the Dental Contractor of a request for disclosure of information filed in accordance with the Texas Public Information Act, Tex. Gov't. Code Chapter 552 of the, that consists of the Dental Contractor's confidential information, including information or data to which the Dental Contractor has a proprietary or commercial interest. HHSC will deliver a copy of the request for Public Information to the Dental Contractor.
- (b) With respect to any information that is the subject of a request for disclosure, the Dental Contractor must demonstrate to the Texas Office of Attorney General the specific reasons why the requested information is confidential or otherwise excepted from required public disclosure under law. The Dental Contractor must provide HHSC with copies of all such communications.
- (c) To the extent authorized under the Texas Public Information Act, HHSC agrees to safeguard from disclosure information received from the Dental Contractor that the Dental Contractor believes to be confidential information. The Dental Contractor must clearly mark such information as confidential information or provide written notice to HHSC that it considers the information confidential.
- (d) The requirements of Subchapter J, Chapter 552, Government Code, may apply to this contract and the Dental Contractor agrees that this Contract can be terminated if the Dental Contractor knowingly or intentionally fails to comply with a requirement of that subchapter.

### **Section 11.05 Privileged Work Product.**

- (a) The Dental Contractor acknowledges that HHSC asserts that privileged work product may be prepared in anticipation of litigation and that the Dental Contractor is performing the Services with respect to privileged work product as an agent of HHSC, and that all matters related thereto are protected from disclosure by the Texas Rules of Civil Procedure, Texas Rules of Evidence, Federal Rules of Civil Procedure, or Federal Rules of Evidence.
- (b) HHSC will notify the Dental Contractor of any privileged work product to which the Dental Contractor has or may have access. After the Dental Contractor is notified or otherwise

becomes aware that such documents, data, database, or communications are privileged work product, only the Dental Contractor personnel, for whom such access is necessary for the purposes of providing the Services, may have access to privileged work product.

- (c) If the Dental Contractor receives notice of any judicial or other proceeding seeking to obtain access to HHSC's privileged work product, the Dental Contractor must:
- (1) Immediately notify HHSC; and
  - (2) Use all reasonable efforts to resist providing such access.
- (d) If the Dental Contractor resists disclosure of HHSC's privileged work product in accordance with this Section, HHSC will, to the extent authorized under Civil Practices and Remedies Code or other applicable State law, have the right and duty to:
- (1) Represent the Dental Contractor in such resistance;
  - (2) To retain counsel to represent the Dental Contractor; or
  - (3) To reimburse the Dental Contractor for reasonable attorneys' fees and expenses incurred in resisting such access.
- (e) If a court of competent jurisdiction orders the Dental Contractor to produce documents, disclose data, or otherwise Breach the confidentiality obligations imposed in the Contract, or otherwise with respect to maintaining the confidentiality, proprietary nature, and secrecy of privileged work product, the Dental Contractor will not be liable for Breach of such obligation.

### **Section 11.06 Unauthorized Acts.**

Each Party agrees to:

- (1) Notify the other Party promptly of any unauthorized possession, use, or knowledge, or attempt thereof, by any person or entity that may become known to it, of any HHSC Confidential Information or any information identified by the Dental Contractor as confidential or proprietary;
- (2) Promptly furnish to the other Party full details of the unauthorized possession, use, or knowledge, or attempt thereof, and use reasonable efforts to assist the other Party in investigating or preventing the reoccurrence of any unauthorized possession, use, or knowledge, or attempt thereof, of Confidential Information;
- (3) Cooperate with the other Party in any litigation and investigation against third Parties deemed necessary by such Party to protect its proprietary rights; and
- (4) Promptly make reasonable efforts to prevent a reoccurrence of any such unauthorized possession, use, or knowledge such information.

### **Section 11.07 Legal Action.**

Neither party may commence any legal action or proceeding in respect to any unauthorized possession, use, or knowledge, or attempt thereof by any person or entity of HHSC's Confidential Information or information identified by the Dental Contractor as confidential or proprietary, which action or proceeding identifies the other Party information without such Party's consent.

## **Section 11.08 Incident and Breach Notice, Reporting and Mitigation.**

The Dental Contractor's obligation begins at Discovery of any unauthorized disclosure of Confidential Information or any privacy or security incident that may compromise Confidential Information (collectively "Incident") and continues until all effects of the Incident are resolved to HHSC's satisfaction, hereafter referred to as the "Incident Response Period".

For each Incident, the Dental Contractor must perform a risk analysis in accordance with HIPAA requirements to determine the probability of compromise of the Confidential Information.

### **Section 11.08.1 Notification to HHSC**

- (a) The Dental Contractor must notify HHSC within the timeframes set forth in subsection (c) below unless HHSC has agreed in writing to an alternate timeframe for notification.
- (b) The Dental Contractor must require that its Subcontractors and Providers take the necessary steps to assure that the Dental Contractor can comply with all of the following Incident notice requirements.
- (c) Incident Notice:
  - (1) Initial Notice.

Within 24 hours of Discovery of an Incident that the Dental Contractor's risk analysis has determined has more than a low probability of compromise, or when the Dental Contractor should have reasonably discovered such Incident, the Dental Contractor must preliminarily report on the occurrence of an Incident to the HHSC Privacy and Security Officers via email at: [privacy@HHSC.state.tx.us](mailto:privacy@HHSC.state.tx.us). This initial notice must, at a minimum, contain all information reasonably available to the Dental Contractor about the Incident, confirmation that the Dental Contractor has met any applicable one-hour Breach notification requirement for any Breach of information obtained from a federal system of records in accordance with OMB Memorandum M-17-12, and provide a single point of contact for the Dental Contractors for HHSC communications both during and outside of business hours during the Incident Response Period.

- (2) Formal Notice.

No later than three Business Days after Discovery of an Incident that the Dental Contractor's risk analysis has determined has more than a low probability of compromise, or when the Dental Contractor should have reasonably Discovered such Incident, the Dental Contractor must provide written formal notification to HHSC using the Potential Privacy/Security Incident Form which is available on the HHSC website. The formal notification must include all available information about the Incident, and the Dental Contractor's investigation of the Incident.

- (3) Annual Notice.

For an Incident that the Dental Contractor's risk analysis has determined has a low probability of compromise or only involves unauthorized disclosure of a single individual's Confidential

Information to a single unauthorized recipient, the Dental Contractor must provide notice to HHSC of such Incident no later than 60 calendar days after the end of the calendar year in which the Incident occurred.

No later than 60 calendar days after the end of each calendar year, the Dental Contractor must provide the HHS Privacy Office with a comprehensive list of all incidents involving HHSC confidential information that were reported to the US Office for Civil Rights in accordance with the obligations under HIPAA.

### **Section 11.08.2 Dental Contractor Investigation, Response and Mitigation.**

The Dental Contractor must fully investigate and mitigate, to the extent practicable, any Incident. At a minimum, the Dental Contractor must:

- (1) Immediately commence a full and complete investigation;
- (2) Cooperate fully with HHSC in its response to the Incident;
- (3) Complete or participate in an initial risk analysis;
- (4) Provide a final risk analysis
- (5) Submit proposed corrective actions to HHSC for review and approval;
- (6) Commit necessary and appropriate staff and resources to expeditiously respond;
- (7) Report to HHSC as required by HHSC and all applicable federal and state laws for Incident response purposes and for purposes of HHSC's compliance with report and notification requirements, to the satisfaction of HHSC;
- (8) Fully cooperate with HHSC to respond to inquiries and/or proceedings by federal and state authorities about the Incident;
- (9) Fully cooperate with HHSC's efforts to seek appropriate injunctive relief or to otherwise prevent or curtail such Incidents;
- (10) Recover, or assure destruction of, any Confidential Information impermissibly disclosed during or as a result of the Incident; and
- (11) Provide HHSC with a final report on the Incident explaining the Incident's resolution.

### **Section 11.08.3 Breach Notification to Individuals and Reporting to Authorities.**

- (a) In addition to the notices required in **Section 11.08.1**, the Dental Contractor must provide Breach notification, in accordance with 45 C.F.R. §§ 164.400-414, or as specified by HHSC following an Incident.
- (b) The Dental Contractor must assure that the time, manner and content of any Breach notification required by this Section meets all federal and state regulatory requirements. Breach notice letters must be in the Dental Contractor's name and on the Dental Contractor's

letterhead and must contain contact information to obtain additional information, including the name and title of the Dental Contractor's representative, an email address and a toll-free telephone number.

- (c) The Dental Contractor must provide HHSC with copies of all distributed communications related to the Breach notification.
- (h) The Dental Contractor must demonstrate to the satisfaction of HHSC that any Breach notification required by applicable law was timely made. If there are delays outside of the Dental Contractor's control, the Dental Contractor must provide written documentation to HHSC of the reasons for the delay.

## **Section 11.09 Information Security and Privacy Requirements.**

### **(a) Data and Information Resource Management**

The Dental Contractor will conform to HHS standards for data management as described by the policies of the Office of Enterprise Information Management within the Center for Analytics and Decision Support. These include, but are not limited to, standards for documentation and communication of data models, metadata, and other data definition methods that are required by the HHS for ongoing data governance, strategic portfolio analysis, interoperability planning, and valuation of HHS System data assets.

### **(b) State Data Center Services.**

The Dental Contractor will utilize the Texas Data Center Services (DCS) for applicable goods or services or through HHS Information Technology management; exceptions must be requested.

### **(c) Website and Electronic Information Resources Requirements.**

The Dental Contractor will comply with the State's website and electronic and information resources requirements in accordance with 1 Tex. Admin. Code Chapters 206 and 213. The technologies must also meet federal accessibility standards for persons with disabilities. Contractors must include the HHS Uniform Electronic and Information Resources (EIR) Accessibility Clause that is published on the HHS public website for technology solutions, products, or services. The Dental Contractor will provide evidence of their conformance with the W3C Web Accessibility Standards at Levels A and AA.

## **Section 11.10 Security and Privacy Compliance and Requirements.**

- (a) The Dental Contractor will comply with all applicable state and federal security and privacy requirements, as well as implement industry best practices, governing the creation, collection, access, use, storage, maintenance, disclosure, safeguarding and destruction of HHS data including Agency Sensitive and Confidential Information.
- (b) Protection.

The Dental Contractor will implement, maintain, document, and use appropriate administrative, technical and physical security measures to protect all HHS Information Resources and data, including Agency Sensitive and Confidential Information.

(c) Reviews.

The Dental Contractor will comply with periodic security and privacy controls compliance assessments, updates, and monitoring by HHS as required by state and federal law or by HHS' discretion. The security and privacy controls will be based on the National Institute of Standards and Technology (NIST) Special Publication 800-53 from the applicable state and federal requirements. The HHS process is described in the Information Security Risk Assessment and Monitoring Process (IS-RAMP) that is published on the HHS Internet website.

(d) Workforce.

The Dental Contractor will ensure that its workforce, including Subcontractors, who are granted specified HHS authorized access to internal HHS Information Resources, comply with the HHS Acceptable Use Policy (AUP) and sign the Acceptable Use Agreement (AUA) prior to access, in accordance with 1 Tex. Admin. Code Chapter 202.22.

(e) Officials.

The Dental Contractor will designate an Information Security Official and a Privacy Official who will be responsible for managing the security and privacy programs and requirements. The Dental Contractor will provide HHS the names, phone numbers and email addresses of these officials. The Security Official and Privacy Official roles may be performed by the same individual.

(f) Program.

The Dental Contractor will establish an information security and privacy program and maintain information security and privacy policies and standards that are updated at least annually with respect to the management or handling of HHS Information Resources or data. The program will:

- (1) Comply with all applicable legal and regulatory requirements for HHS data protection;
- (2) Comply with HHS Information Security (IS) published or provided policies, standards, and controls (IS-Policy, IS-AUP, AUA, IS-Web and Mobile Minimum Security Standard, IS-RAMP, ISSG/IS-Controls);
- (3) Ensure the integrity, availability, and confidentiality by implementing technical, administrative and physical safeguards for HHS Agency Sensitive and Confidential Information;
- (4) Protect against any anticipated threats or hazards to the security or integrity of such information;

- (5) Protect and monitor against unauthorized access to or use of such information that could result in harm or inconvenience to the person that is the subject of such information both logically and physically;
- (6) Routinely review, monitor, and remove unnecessary accounts that have access to HHS Agency Sensitive or Confidential Information;
- (7) Coordinate with HHS to determine the HHS data types accessed, transmitted, stored, or maintained by the system and identify applicable state, federal and regulatory requirements;
- (8) Document system accountability with an associated HHS Information Owner and, if provided by the Contractor, Information Custodians;
- (9) Encrypt the HHS Agency Sensitive and Confidential Information on end-user devices, on portable devices, in transit over public networks, and while stored in the cloud;
- (10) FIPS 140-2 validated encryption will be used for federal protected data and access to HHS Confidential and Agency Sensitive Information will be controlled and monitored;
- (11) Prohibit the use of free Cloud services with HHS Agency Sensitive or Confidential Information;
- (12) Prior to offshoring or using cloud services, the contractor must obtain the express prior written permission from the HHS agency and comply with the HHS agency conditions for safeguarding offshore HHS information;
- (13) Provide the workforce security and privacy training, conduct appropriate background checks, ensure individual accountability, and implement appropriate sanctions for non-compliance;
- (14) Establish a secure method of assigning and selecting passwords, or use of unique identifier technologies, such as biometrics or token devices;
- (15) Keep current on security update/patch releases and maintain up-to-date anti-virus/malware protection;
- (16) Security will be integrated into all phases including planning, development, and implementation and will include security testing and remediation of security vulnerabilities prior to production especially for online websites, applications and mobile applications;
- (17) Provide the workforce security and privacy training, conduct appropriate background checks, ensure individual accountability, and implement appropriate sanctions for non-compliance;
- (18) Establish standards and methods to securely return, destroy or dispose of HHS Agency Sensitive or Confidential Information;
- (19) Provide documentation of information security and privacy policies/standards to HHS Information Security if requested;

- (20) Ensure HHS websites provide the HHS privacy notice;
- (21) Develop and implement methods that ensure security for all components, including:
  - (i) Environmental security;
  - (ii) Physical site security;
  - (iii) Computer hardware security;
  - (iv) Computer software security;
  - (v) Application security;
  - (vi) Data access and storage;
  - (vii) Client/user security;
  - (viii) Secure processes and procedures;
  - (ix) Telecommunications and network security; and
  - (x) General support systems (GSS) security.

## **Article 12. Remedies and Disputes**

### **Section 12.01 Understanding and Expectations.**

The remedies described in this Section are directed to Dental Contractor's timely and responsive performance of the Services and production of Deliverables, and the creation of a flexible and responsive relationship between the Parties. The Dental Contractor is expected to meet or exceed all HHSC objectives and standards, as set forth in the Contract. All areas of responsibility and all Contract requirements will be subject to performance evaluation by HHSC. Performance reviews may be conducted at the discretion of HHSC at any time and may relate to any responsibility or requirement. All responsibilities or requirements not fulfilled may be subject to the remedies set forth in the Contract.

### **Section 12.02 Tailored Remedies.**

#### **(a) Understanding of the Parties.**

Dental Contractor agrees and understands that HHSC may pursue tailored contractual remedies for noncompliance with the Contract. At any time and at its discretion, HHSC may impose or pursue one or more remedies for each item of noncompliance and will determine remedies on a case-by-case basis. HHSC's pursuit or non-pursuit of a tailored remedy does not constitute a waiver of any other remedy that HHSC may have at law or equity.

#### **(b) Notice and opportunity to cure for non-material breach.**

- (1) HHSC will notify Dental Contractor in writing of specific areas of Dental Contractor performance that fail to meet performance expectations, standards, or schedules set forth in the Contract, but that, in the determination of HHSC, do not result in a material deficiency or delay in the implementation or operation of the Services.

- (2) Dental Contractor will, within five Business Days, or another date approved by HHSC of receipt of written notice of a non-material deficiency, provide HHSC a written response that:
  - (i) Explains the reasons for the deficiency, the Dental Contractor's plan to address or cure the deficiency, and the date and time by which the deficiency will be cured; or
  - (ii) If Dental Contractor disagrees with HHSC's findings, its reasons for disagreeing with HHSC's findings.
- (3) Dental Contractor's proposed cure of a non-material deficiency is subject to the approval of HHSC. Dental Contractor's repeated commission of non-material deficiencies or repeated failure to resolve any such deficiencies may be regarded by HHSC as a material deficiency and entitle HHSC to pursue any other remedy provided in the Contract or any other appropriate remedy HHSC may have at law or equity.

(c) Corrective Action Plan.

- (1) At its option, HHSC may require Dental Contractor to submit to HHSC a written Corrective Action Plan to correct or resolve a material breach of this Contract, as determined by HHSC.
- (2) The Corrective Action Plan must provide:
  - (i) A detailed explanation of the reasons for the cited deficiency;
  - (ii) Dental Contractor's assessment or diagnosis of the cause; and
  - (iii) A specific proposal to cure or resolve the deficiency.
- (3) The Corrective Action Plan must be submitted by the deadline set forth in HHSC's request for a Corrective Action Plan. The Corrective Action Plan is subject to approval by HHSC, which will not unreasonably be withheld.
- (4) HHSC will notify Dental Contractor in writing of HHSC's final disposition of HHSC's concerns. If HHSC accepts Dental Contractor's proposed Corrective Action Plan, HHSC may:
  - (i) Condition such approval on completion of tasks in the order or priority that HHSC may reasonably prescribe;
  - (ii) Disapprove portions of Dental Contractor's proposed Corrective Action Plan; or
  - (iii) Require additional or different corrective action(s).

Notwithstanding the submission and acceptance of a Corrective Action Plan, Dental Contractor remains responsible for achieving all written performance criteria.

- (5) HHSC's acceptance of a Corrective Action Plan under this Section will not:
  - (i) Excuse Dental Contractor's prior substandard performance;
  - (ii) Relieve Dental Contractor of its duty to comply with performance standards; or
  - (iii) Prohibit HHSC from assessing additional tailored remedies or pursuing other appropriate remedies for continued substandard performance.

(d) Administrative remedies.

- (1) At its discretion, HHSC may impose one or more of the following remedies for each item of material noncompliance and will determine the scope and severity of the remedy on a case-by-case basis:
    - (i) Assess liquidated damages in accordance with Exhibit "C", "Liquidated Damages Matrix;"
    - (ii) Conduct accelerated monitoring of the Dental Contractor. Accelerated monitoring includes more frequent or more extensive monitoring by HHSC or its agent;
    - (iii) Require additional, more detailed, financial and/or programmatic reports to be submitted by Dental Contractor;
    - (iv) Decline to renew or extend the Contract;
    - (v) Appoint temporary management under the circumstances described in 42 C.F.R. § 438.706;
    - (vi) Initiate disenrollment of a Member or Members;
    - (vii) Suspend enrollment of Members;
    - (viii) Withhold or recoup payment to Dental Contractor;
    - (ix) Require forfeiture of all or part of the Dental Contractor's bond; or
    - (x) Terminate the Contract in accordance with **Section 12.03**, ("Termination by HHSC").
  - (2) For purposes of the Contract, an item of material noncompliance means a specific action of Dental Contractor that:
    - (i) Violates a material provision of the Contract;
    - (ii) Fails to meet an agreed measure of performance; or
    - (iii) Represents a failure of Dental Contractor to be reasonably responsive to a reasonable request of HHSC for information, assistance, or support relating to the Services or Deliverables within the timeframe specified by HHSC.
  - (3) HHSC will provide notice to Dental Contractor of the imposition of an administrative remedy in accordance with this Section, with the exception of accelerated monitoring, which may be unannounced. HHSC may require Dental Contractor to file a written response in accordance with this Section.
  - (4) The Parties agree that a State or Federal statute, rule, regulation, or Federal guideline will prevail over the provisions of this Section unless the statute, rule, regulation, or guidelines can be read together with this Section to give effect to both.
- (e) Damages.
- (1) HHSC will be entitled to actual, consequential, direct, indirect, special, and/or liquidated damages resulting from the Dental Contractor's failure to comply with any of the terms of the Contract. In some cases, the actual damage to HHSC or State of Texas as a result of Dental Contractor's failure to meet any aspect of the responsibilities of the Contract and/or to meet specific performance standards set forth in the Contract are difficult or impossible to determine with precise accuracy. Therefore, liquidated damages will be assessed in writing against and paid by the Dental Contractor in accordance with and for

failure to meet any aspect of the responsibilities of the Contract and/or to meet the specific performance standards identified by the HHSC in Attachment C, "Deliverables/Liquidated Damages Matrix." Liquidated damages will be assessed if HHSC determines such failure is the fault of the Dental Contractor, including the Dental Contractor's Subcontractors and/or consultants, and is not materially caused or contributed to by HHSC or its agents. If at any time, HHSC determines the Dental Contractor has not met any aspect of the responsibilities of the Contract and/or the specific performance standards due to mitigating circumstances, HHSC reserves the right to waive all or part of the liquidated damages. All such waivers must be in writing, contain the reasons for the waiver, and be signed by the appropriate executive of HHSC.

- (2) The liquidated damages prescribed in this Section are not intended to be in the nature of a penalty, but are intended to be reasonable estimates of HHSC's projected financial loss and damage resulting from the Dental Contractor's nonperformance, including financial loss as a result of project delays. Accordingly, in the event Dental Contractor fails to perform in accordance with the Contract, HHSC may assess liquidated damages as provided in this Section.
- (3) If Dental Contractor fails to perform any of the Services described in the Contract, HHSC may assess liquidated damages for each occurrence of a liquidated damages event, to the extent consistent with HHSC's tailored approach to remedies and Texas law.
- (4) HHSC may elect to collect liquidated damages:
  - (i) Through direct assessment and demand for payment delivered to Dental Contractor; or
  - (ii) By deduction of amounts assessed as liquidated damages as set-off against payments then due to Dental Contractor or that become due at any time after assessment of the liquidated damages. HHSC will make deductions until the full amount payable by the Dental Contractor is received by HHSC.

(f) Equitable Remedies.

- (1) Dental Contractor acknowledges that, if Dental Contractor breaches, or attempts or threatens to breach its material obligation under this Contract, HHSC may be irreparably harmed. In such a circumstance, HHSC may proceed directly to court to pursue equitable remedies.
- (2) If a court of competent jurisdiction finds that Dental Contractor breached, or attempted or threatened to breach any such obligations, Dental Contractor agrees that without any additional findings of irreparable injury or other conditions to injunctive relief, it will not oppose the entry of an appropriate order compelling performance by Dental Contractor and restraining it from any further breaches, or attempted or threatened breaches.

(g) Suspension of Contract.

- (1) HHSC may suspend performance of all or any part of the Contract if:
  - (i) HHSC determines that Dental Contractor has committed a material breach of the Contract;

- (ii) HHSC has reason to believe that Dental Contractor has committed, assisted in the commission of Fraud, Abuse, Waste, malfeasance, misfeasance, or nonfeasance by any party concerning the Contract;
  - (iii) HHSC determines that the Dental Contractor knew, or should have known of Fraud, Abuse, Waste, malfeasance, or nonfeasance by any party concerning the Contract, and the Dental Contractor failed to take appropriate action; or
  - (iv) HHSC determines that suspension of the Contract in whole or in part is in the best interests of the State of Texas or the HHSC Programs.
- (2) HHSC will notify Dental Contractor in writing of its intention to suspend the Contract in whole or in part. Such notice will:
- (i) Be delivered in writing to Dental Contractor;
  - (ii) Include a concise description of the facts or matter leading to HHSC's decision; and
  - (iii) Unless HHSC is suspending the contract for convenience, request a Corrective Action Plan from Dental Contractor or describe actions that Dental Contractor may take to avoid the contemplated suspension of the Contract.

### **Section 12.03 Termination by HHSC.**

This Contract will terminate upon the Expiration Date. In addition, prior to completion of the Contract Term, all or a part of this Contract may be terminated for any of the following reasons:

- (a) Termination in the best interest of HHSC.

HHSC may terminate the Contract without cause at any time when, in its sole discretion, HHSC determines that termination is in the best interests of the State of Texas. HHSC will provide reasonable advance written notice of the termination, as it deems appropriate under the circumstances. The termination will be effective on the date specified in HHSC's notice of termination.

- (b) Termination for cause.

Except as otherwise provided by the U.S. Bankruptcy Code, or any successor law, HHSC may terminate this Contract, in whole or in part, upon the following conditions:

- (1) Assignment for the benefit of creditors, appointment of receiver, or inability to pay debts.
- HHSC may terminate this Contract at any time if Dental Contractor:
- (i) Makes an assignment for the benefit of its creditors;
  - (ii) Admits in writing its inability to pay its debts generally as they become due; or
  - (iii) Consents to the appointment of a receiver, trustee, or liquidator of Dental Contractor or of all or any part of its property.
- (2) Failure to adhere to laws, rules, ordinances, or orders.
- HHSC may terminate this Contract if a court of competent jurisdiction finds Dental Contractor failed to adhere to any laws, ordinances, rules, regulations or orders of any public authority having jurisdiction and such violation prevents or substantially impairs

performance of Dental Contractor's duties under this Contract. HHSC will provide at least 30 days advance written notice of such termination.

(3) Breach of confidentiality.

HHSC may terminate this Contract at any time if Dental Contractor breaches confidentiality laws with respect to the Services and Deliverables provided under this Contract.

(4) Failure to maintain adequate personnel or resources.

HHSC may terminate this Contract if, after providing notice and an opportunity to correct, HHSC determines that Dental Contractor has failed to supply personnel or resources and such failure results in Dental Contractor's inability to fulfill its duties under this Contract. HHSC will provide at least 30 days advance written notice of such termination.

(5) Termination for gifts and gratuities.

(i) HHSC may terminate this Contract at any time following the determination by a competent judicial or quasi-judicial authority and Dental Contractor's exhaustion of all legal remedies that Dental Contractor, its employees, agents or representatives have either offered or given anything of value to an officer or employee of HHSC or the State of Texas in violation of state law.

(ii) Dental Contractor must include a similar provision in each of its Subcontracts and must enforce this provision against a Subcontractor who has offered or given anything of value to any of the persons or entities described in this Section, whether or not the offer or gift was in Dental Contractor's behalf.

(iii) Termination of a Subcontract by Dental Contractor pursuant to this provision will not be a cause for termination of the Contract unless:

- a. Dental Contractor fails to replace such terminated Subcontractor within a reasonable time; and
- b. Such failure constitutes cause, as described in this subsection 12.03(b).

(iv) For purposes of this Section, a "thing of value" means any item of tangible or intangible property that has a monetary value of more than \$50.00 and includes, but is not limited to, cash, food, lodging, entertainment, and charitable contributions. The term does not include contributions to holders of public office or candidates for public office that are paid and reported in accordance with State or Federal law.

(6) Termination for non-appropriation of funds.

Notwithstanding any other provision of this Contract, if funds for the continued fulfillment of this Contract by HHSC are at any time not forthcoming or are insufficient, through failure of any entity to appropriate funds or otherwise, then HHSC will have the right to terminate this Contract at no additional cost and with no penalty whatsoever by giving prior written notice documenting the lack of funding. HHSC will provide at least 30 days advance written notice of such termination. HHSC will use reasonable efforts to ensure appropriated funds are available.

(7) Judgment and execution.

- (1) HHSC may terminate the Contract at any time if judgment for the payment of money in excess of \$500,000.00 that is not covered by insurance, is rendered by any court or governmental body against Dental Contractor, and Dental Contractor does not:
  - (i) Discharge the judgment or provide for its discharge in accordance with the terms of the judgment;
  - (ii) Procure a stay of execution of the judgment within 30 days from the date of entry thereof; or
  - (iii) Perfect an appeal of such judgment and cause the execution of such judgment to be stayed during the appeal, providing such financial reserves as may be required under generally accepted accounting principles.
- (2) If a writ or warrant of attachment or any similar process is issued by any court against all or any material portion of the property of Dental Contractor, and such writ or warrant of attachment or any similar process is not released or bonded within 30 days after its entry, HHSC may terminate the Contract in accordance with this Section.

(8) Termination for Criminal Conviction.

HHSC will have the right to terminate the Contract in whole or in part, or require the replacement of a Material Subcontractor, if the Dental Contractor or a Material Subcontractor is convicted of a criminal offense in a state or federal court:

- (i) Related to the delivery of an item or service;
- (ii) Related to the neglect or abuse of patients in connection with the delivery of an item or service;
- (iii) Consisting of a felony related to fraud, theft, embezzlement, breach of fiduciary responsibility, or other financial misconduct, or
- (iv) Resulting in a penalty or fine in the amount of \$500,000 or more in a state or federal administrative proceeding.

(9) Termination for Dental Contractor's material breach of the Contract.

HHSC will have the right to terminate the Contract in whole or in part if HHSC determines, at its sole discretion, that Dental Contractor has materially breached the Contract. HHSC will provide at least 30 days advance written notice of such termination, unless HHSC in its reasonable determination finds that a shorter notice period is warranted.

## **Section 12.04 Termination by Dental Contractor.**

(a) Failure to pay.

Dental Contractor may terminate this Contract if HHSC fails to pay the Dental Contractor undisputed charges when due as required under this Contract. Retaining premium, recoupment, sanctions, or penalties that are allowed under this Contract or that result from the Dental Contractor's failure to perform or the Dental Contractor's default under the terms

of this Contract is not cause for termination. Termination for failure to pay does not release HHSC from the obligation to pay undisputed charges for services provided prior to the termination date.

If HHSC fails to pay undisputed charges when due, then the Dental Contractor may submit a notice of intent to terminate for failure to pay in accordance with the requirements of **Section 12.04(e)**. If HHSC pays all undisputed amounts then due within 30 days after receiving the notice of intent to terminate, the Dental Contractor cannot proceed with termination of the Contract under this Section.

(b) Change to HHSC Uniform Managed Care Manual.

Dental Contractor may terminate this agreement if the Parties are unable to resolve a dispute concerning a material and substantive change to the HHSC UMCM, a change that materially and substantively alters the Dental Contractor's ability to fulfill its obligations under the Contract. Dental Contractor must submit a notice of intent to terminate due to a material and substantive change in the HHSC UMCM no later than 30 days after the effective date of the policy change. HHSC will not enforce the policy change during the period of time between the receipt of the notice of intent to terminate and the effective date of termination.

(c) Change to Premium Rate.

If HHSC proposes a modification to the Premium Rate that is unacceptable to the Dental Contractor, the Dental Contractor may terminate the Contract. Dental Contractor must submit a written notice of intent to terminate due to a change in the Premium Rate no later than 30 days after HHSC's notice of the proposed change. HHSC will not enforce the rate change during the period of time between the receipt of the notice of intent to terminate and the effective date of termination.

(d) Expiration of Contract.

If Dental Contractor rejects, or intends to reject, an amendment extending the term of the Contract, Dental Contractor is subject to the requirements of **Section 12.04(e)**.

(e) Notice of intent to terminate or to allow the Contract to expire.

If the Dental Contractor intends to terminate the Contract pursuant to this Section, or intends to allow the Contract to expire, Dental Contractor must give HHSC at least 90 days written notice of intent to terminate, or intent to allow the Contract to expire. The termination date will be calculated as the last day of the month following 90 days from the date the notice of intent is received by HHSC.

In the event the Dental Contractor fails to comply with this notice requirement, the Contract shall be extended under the same terms, conditions, and rates, for the period of time necessary to satisfy this notice requirement.

## **Section 12.05 Termination by Mutual Agreement.**

This Contract may be terminated by mutual written agreement of the Parties.

### **Section 12.06 Effective Date of Termination**

Except as otherwise provided in this Contract, termination will be effective as of the date specified in the notice of termination. The Turnover obligations of Dental Contractor will continue to apply.

### **Section 12.07 Extension of Termination Effective Date.**

The Parties may extend the effective date of termination one or more times by mutual written agreement.

### **Section 12.08 Payment and Other Provisions at Contract Termination.**

- (a) In the event of termination pursuant to this Article, HHSC will pay the Premium Payment for Services and Deliverables rendered through the effective date of termination. All pertinent provisions of the Contract will form the basis of settlement.
- (b) Dental Contractor must provide HHSC all reasonable access to records, facilities, and documentation as is required to efficiently and expeditiously close out the Services and Deliverables provided under this Contract.
- (c) Dental Contractor must prepare a Turnover Plan, which is acceptable to and approved by HHSC. The Turnover Plan will be implemented during the time period between receipt of notice and the termination date.

### **Section 12.09 Modification of Contract in the Event of Remedies.**

HHSC may propose a modification of this Contract in response to the imposition of a remedy under this Article. Any modifications under this Section must be reasonable, limited to the matters causing the exercise of a remedy, in writing, and executed in accordance with **Article 8** ("Amendments and Modifications"). Dental Contractor must negotiate such proposed modifications in good faith.

### **Section 12.10 Turnover Assistance.**

Upon receipt of notice of termination of the Contract by HHSC, Dental Contractor will provide any Turnover assistance reasonably necessary to enable HHSC to effectively close out the Contract and move the work to another vendor or to perform the work itself.

During the Turnover Phase, Dental Contractor must continue performing under this Contract, including rendering all Contracted services, until such time Dental Contractor completes all activities in accordance with Dental Contractor's HHSC-approved Turnover Plan.

### **Section 12.11 Rights upon Termination or Expiration of Contract.**

In the event that the Contract is terminated for any reason, or upon its expiration, HHSC will, at HHSC's discretion, retain ownership of any and all associated work products, Deliverables or documentation in whatever form that they exist.

### **Section 12.12 Dental Contractor Responsibility for Associated Costs.**

If HHSC terminates the Contract for Cause, the Dental Contractor will be responsible to HHSC for all reasonable costs incurred by HHSC, the State of Texas, or any of its administrative agencies to replace the Dental Contractor. These costs include, but are not

limited to, the costs of procuring a substitute vendor and the cost of any claim or litigation that is reasonably attributable to Dental Contractor's failure to perform any Service in accordance with the terms of the Contract.

### **Section 12.13 Dispute Resolution.**

(a) General Contract of the Parties.

The Parties mutually agree that the interests of fairness, efficiency, and good business practices are best served when the Parties employ all reasonable and informal means to resolve any dispute under this Contract. The Parties express their mutual commitment to using all reasonable and informal means of resolving disputes prior to invoking a remedy provided elsewhere in this Section.

(b) Duty to negotiate in good faith.

Any dispute that in the judgment of any Party to this Contract may materially or substantially affect the performance of any Party will be reduced to writing and delivered to the other Party. The Parties must then negotiate in good faith and use every reasonable effort to resolve such dispute and the Parties must not resort to any formal proceedings unless they have reasonably determined that a negotiated resolution is not possible. The resolution of any dispute disposed of by Contract between the Parties must be reduced to writing and delivered to all Parties within ten Business Days.

(c) Claims for breach of Contract.

- (1) General requirement. Dental Contractor's claim for breach of this Contract will be resolved in accordance with the dispute resolution process established by HHSC in accordance with Chapter 2260, Texas Government Code.
- (2) Negotiation of claims. The Parties expressly agree that the Dental Contractor's claim for breach of this Contract that the Parties cannot resolve in the ordinary course of business or through the use of all reasonable and informal means will be submitted to the negotiation process provided in Chapter 2260, Subchapter B, Texas Government Code.
  - (i) To initiate the process, Dental Contractor must submit written notice to HHSC that specifically states that Dental Contractor invokes the provisions of Chapter 2260, Subchapter B, Texas Government Code. The notice must comply with the requirements of 1 Tex. Admin. Code Chapter 392, Subchapter B.
  - (ii) The Parties expressly agree that the Dental Contractor's compliance with Chapter 2260, Subchapter B, Texas Government Code, will be a condition precedent to the filing of a contested case proceeding under Chapter 2260, Subchapter C, of the Texas Government Code.
- (3) Contested case proceedings. The contested case process provided in Chapter 2260, Subchapter C, Texas Government Code, will be Dental Contractor's sole and exclusive process for seeking a remedy for any and all alleged breaches of contract by HHSC, if the Parties are unable to resolve their disputes under subsection(c)(2) of this section.

- (4) The Parties expressly agree that compliance with the contested case process provided in Chapter 2260, Subchapter C, Texas Government Code, will be a condition precedent to seeking consent to sue from the Texas Legislature under Chapter 107, Civil Practices & Remedies Code. Neither the execution of this Contract by HHSC nor any other conduct of any representative of HHSC relating to this Contract must be considered a waiver of HHSC's sovereign immunity to suit.
- (5) HHSC rules. The submission, processing, and resolution of Dental Contractor's claim is governed by the rules adopted by HHSC pursuant to Chapter 2260, Texas Government Code, found 1 Tex. Admin. Code Chapter 392, Subchapter B.
- (6) Dental Contractor's duty to perform. Neither the occurrence of an event constituting an alleged breach of contract nor the pending status of any claim for breach of contract is grounds for the suspension of performance, in whole or in part, by Dental Contractor of any duty or obligation with respect to the performance of this Contract. Any changes to the Contract as a result of a dispute resolution will be implemented in accordance with **Article 8** ("Amendments and Modifications").

#### **Section 12.14 Liability of Dental Contractor.**

- (a) Dental Contractor bears all risk of loss or damage due to:
  - (1) Defects in products, Services or Deliverables;
  - (2) Unfitness or obsolescence of products, Services or Deliverables; or
  - (3) The negligence or intentional misconduct of Dental Contractor or its employees, agents, Subcontractors, or representatives.
- (b) Dental Contractor must, at the Dental Contractor's own expense, defend with counsel approved by HHSC, indemnify, and hold harmless HHSC and State employees, officers, directors, contractors, and agents from and against any losses, liabilities, damages, penalties, costs, fees, and expenses from any claim or action for property damage, bodily injury or death, to the extent caused by or arising from the negligence or intentional misconduct of the Dental Contractor and its employees, officers, agents, or Subcontractors. HHSC will not unreasonably withhold approval of counsel selected by Dental Contractor.
- (c) Dental Contractor will not be liable to HHSC for any loss, damages, or liabilities attributable to or arising from the failure of HHSC or any state agency to perform a service or activity in connection with this Contract.

#### **Section 12.15 Pre-termination Process.**

The following process will apply when HHSC terminates the Agreement for any reason set forth in Section 12.03(b), "Termination for cause," other than subpart 12.03(6), "Termination for Non-appropriation of Funds." HHSC will provide the Dental Contractor with reasonable advance written notice of the proposed termination, as it deems appropriate under the circumstances. The notice will include the reason for the proposed termination, the proposed effective date of the termination, and the time and place where the parties will meet regarding the proposed termination. During this meeting, the Dental Contractor may present written information explaining why HHSC should not affirm the proposed termination. HHSC's

Associate Commissioner for Medicaid and CHIP will consider the written information, if any, and will provide the Dental Contractor with a written notice of HHSC's final decision affirming or reversing the termination. An affirming decision will include the effective date of termination.

The pre-termination process described herein will not limit or otherwise reduce the parties' rights and responsibilities under **Section 12.13**, "Dispute resolution;" however, HHSC's final decision to terminate is binding and is not subject to review by the State Office of Administrative Hearings under Chapter 2260, Texas Government Code.

## **Article 13. Assurances and Certifications**

### **Section 13.01 Proposal Certifications.**

Dental Contractor acknowledges its continuing obligation to comply with the requirements of the certifications contained in its Proposal, and will immediately notify HHSC of any changes in circumstances affecting the certifications.

### **Section 13.02 Conflicts of Interest.**

#### **(a) Representation.**

Dental Contractor agrees to comply with applicable state and federal laws, including 41 U.S.C. § 423, rules, and regulations regarding conflicts of interest in the performance of its duties under this Contract. Dental Contractor warrants that it has no interest and will not acquire any direct or indirect interest that would conflict in any manner or degree with its performance under this Contract.

#### **(b) General duty regarding conflicts of interest.**

Dental Contractor will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain. Dental Contractor will operate with complete independence and objectivity without actual, potential, or apparent conflict of interest with respect to the activities conducted under this Contract.

### **Section 13.03 Organizational Conflicts of Interest.**

#### **(a) Definition.**

An organizational conflict of interest is a set of facts or circumstances, a relationship, or other situation under which the Dental Contractor or a Subcontractor has past, present, or currently planned personal or financial activities or interests that either directly or indirectly:

- (1) Impairs or diminishes the Dental Contractor's or Subcontractor's ability to render impartial or objective assistance or advice to HHSC; or
- (2) Provides the Dental Contractor or Subcontractor an unfair competitive advantage in future HHSC procurements, excluding the award of this Contract.

#### **(b) Warranty.**

(1) Except as otherwise disclosed and approved by HHSC prior to the Effective Date of the Contract, Dental Contractor warrants that, as of the Effective Date and to the best of its knowledge and belief, there are no relevant facts or circumstances that could give rise to an organizational conflict of interest affecting this Contract. Dental Contractor affirms that it has neither given, nor intends to give, at any time hereafter, any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor, or service to a public servant, or any employee, or representative of same, at any time during the procurement process, or in connection with the procurement process, except as allowed under relevant state and federal law.

(c) Continuing duty to disclose.

(1) Dental Contractor agrees that, if after the Effective Date, Dental Contractor discovers or is made aware of an organizational conflict of interest, Dental Contractor will immediately and fully disclose such interest in writing to the HHSC project manager. In addition, Dental Contractor must promptly disclose any relationship that might be perceived or represented as a conflict after its discovery by Dental Contractor or by HHSC as a potential conflict. HHSC reserves the right to make a final determination regarding the existence of conflicts of interest, and Dental Contractor agrees to abide by HHSC's decision.

(2) The disclosure will include a description of the actions that Dental Contractor has taken or proposes to take to avoid or mitigate such conflicts.

(d) Remedy.

If HHSC determines that an organizational conflict of interest exists, HHSC may, at its discretion, terminate the Contract pursuant to **Subsection 12.03(b)(9)**. If HHSC determines that Dental Contractor was aware of an organizational conflict of interest before the award of this Contract and did not disclose the conflict to the contracting officer, such nondisclosure will be considered a material breach of the Contract. Furthermore, such breach may be submitted to the Office of the Attorney General, Texas Ethics Commission, or appropriate State or Federal law enforcement officials for further action.

(e) Flow down obligation.

Dental Contractor must include the provisions of this Section in all Subcontracts for work to be performed similar to the service provided by Dental Contractor, and the terms "Contract," "Dental Contractor," and "project manager" modified appropriately to preserve the State's rights.

### **Section 13.04 HHSC Personnel Recruitment Prohibition.**

Dental Contractor has not retained or promised to retain any person or company, or utilized or promised to utilize a consultant that participated in HHSC's development of specific criteria of the RFP or who participated in the selection of the Dental Contractor for this Contract.

Unless authorized in writing by HHSC, Dental Contractor will not recruit or employ any HHSC personnel who have worked on projects relating to the subject matter of this Contract, or

who have had any influence on decisions affecting the subject matter of this Contract, for two years following the completion of this Contract.

### **Section 13.05 Anti-kickback Provision.**

Dental Contractor certifies that it will comply with the Anti-Kickback Act of 1986, 41 U.S.C. §§ 51-58 and Federal Acquisition Regulation 52.203-7, to the extent applicable.

### **Section 13.06 Debt or Back Taxes Owed to State of Texas.**

In accordance with Section 403.055 of the Texas Government Code, Dental Contractor agrees that any payments due to Dental Contractor under the Contract will be first applied toward any debt or back taxes Dental Contractor owes the State of Texas. Dental Contractor further agrees that payments will be so applied until such debts and back taxes are paid in full.

### **Section 13.07 Outstanding Debts and Judgments.**

Dental Contractor certifies that it is not presently indebted to the State of Texas, and that Dental Contractor is not subject to an outstanding judgment in a suit by State of Texas against Dental Contractor for collection of the balance. For purposes of this Section, an indebtedness is any sum of money that is past due, and owed to the State of Texas and is not currently under dispute. A false statement regarding Dental Contractor's status will be treated as a material breach of this Contract and may be grounds for termination at the option of HHSC.

## **Article 14. Representations and Warranties**

### **Section 14.01 Authorization.**

- (a) The execution, delivery and performance of this Contract has been duly authorized by Dental Contractor and no additional approval, authorization or consent of any governmental or regulatory agency is required to be obtained in order for Dental Contractor to enter into this Contract and perform its obligations under this Contract.
- (b) Dental Contractor has obtained, or will obtain by the deadlines set forth in this Contract, all licenses, certifications, permits, and authorizations necessary to perform the Services under this Contract and currently is in good standing with all regulatory agencies that regulate any or all aspects of Dental Contractor's performance of this Contract. Dental Contractor will maintain all required certifications, licenses, permits, and authorizations during the term of this Contract.

### **Section 14.02 Ability to Perform.**

Dental Contractor warrants that it has the financial resources to fund the capital expenditures required under the Contract without advances by HHSC or assignment of any payments by HHSC to a financing source.

### **Section 14.03 Minimum Net Worth.**

The Dental Contractor has and will maintain throughout the life of this Contract, minimum net worth that complies with standards adopted by TDI. Minimum net worth means the excess total admitted assets over total liabilities, excluding liability for subordinated debt issued in compliance with Chapter 843 of the Texas Insurance Code.

#### **Section 14.04 Insurer Solvency.**

- (a) The Dental Contractor must be and remain in full compliance with all applicable state and federal solvency requirements, including those set forth in 42 C.F.R. § 438.116, for basic-service indemnity insurance providers or DMOs, including but not limited to, all reserve requirements, net worth standards, debt-to-equity ratios, or other debt limitations. Provision against the risk of insolvency must be made by establishing adequate reserves, insurance or other guarantees in full compliance with all financial requirements of TDI. In the event the Dental Contractor fails to maintain such compliance, HHSC, without limiting any other rights it may have by law or under the Contract, may terminate the Contract.
- (b) If the Dental Contractor becomes aware of any impending changes to its financial or business structure that could adversely impact its compliance with the requirements of the Contract or its ability to pay its debts as they come due, the Dental Contractor must notify HHSC immediately in writing.
- (c) The Dental Contractor must have a plan and take appropriate measures to ensure adequate provision against the risk of insolvency as required by TDI. Such provision must be adequate to provide for the following in the event of insolvency:
  - (1) Payments to unaffiliated dental providers and affiliated dental providers whose Contracts do not contain Member “hold harmless” clauses acceptable to the TDI;
  - (2) Continuation of Medically Necessary Covered Dental Services for the duration of the Contract Period for which a premium has been paid for a Member;
  - (3) Provision against the risk of insolvency must be made by establishing adequate reserves, insurance or other guarantees in full compliance with all financial requirements of TDI and the Contract.

Should TDI determine that there is an immediate risk of insolvency or the Dental Contractor is unable to provide Medically Necessary Covered Dental Services to its Members, HHSC, without limiting any other rights it may have by law, or under the Contract, may terminate the Contract.

#### **Section 14.05 Workmanship and Performance.**

- (a) All Services and Deliverables provided under this Contract will be provided in a manner consistent with the standards of quality and integrity as outlined in the Contract.
- (b) All Services and Deliverables must meet or exceed the required levels of performance specified in or pursuant to this Contract.
- (c) Dental Contractor will perform the Services and provide the Deliverables in a workmanlike manner, in accordance with best practices and high professional standards used in well-managed operations performing services similar to the Services described in this Contract.

#### **Section 14.06 Warranty of Deliverables.**

- (a) Dental Contractor warrants that Deliverables developed and delivered under this Contract will meet in all material respects the specifications as described in the Contract during the

period following its acceptance by HHSC, through the term of the Contract, including any subsequently negotiated by Dental Contractor and HHSC. Dental Contractor will promptly repair or replace any such Deliverables not in compliance with this warranty at no charge to HHSC.

#### **Section 14.07 Compliance with Contract.**

- (a) Dental Contractor will not take any action substantially or materially inconsistent with any of the terms and conditions set forth in this Contract without the express written approval of HHSC.

#### **Section 14.08 Technology Access.**

All technological solutions offered by the Dental Contractor must comply with the requirements of Texas Government Code § 531.0162. This includes providing technological solutions that meet federal accessibility standards for persons with disabilities, as applicable.

#### **Section 14.09 Electronic & Information Resources Accessibility Standards.**

- (a) Applicability.

The following Electronic and Information Resources (EIR) requirements apply to the Contract because the Dental Contractor performs services that include EIR that: (i) HHSC employees are required or permitted to access; or (ii) members of the public are required or permitted to access. This Section does not apply to incidental uses of EIR in the performance of a Contract, unless the Parties agree that the EIR will become property of the State or will be used by the HHSC's clients or recipients after completion of the Contract. Nothing in this section is intended to prescribe the use of particular designs or technologies or to prevent the use of alternative technologies, provided they result in substantially equivalent or greater access to and use of a Product.

- (b) Definitions.

For purposes of this Section:

**Accessibility Standards** means the Electronic and Information Resources Accessibility Standards and the Web Site Accessibility Standards/Specifications.

**Electronic and Information Resources** means information resources, including information resources technologies, and any equipment or interconnected system of equipment that is used in the creation, conversion, duplication, or delivery of data or information. The term includes, but is not limited to, telephones and other telecommunications products, information kiosks, transaction machines, Internet websites, multimedia resources, and office equipment, including copy machines and fax machines.

**Electronic and Information Resources Accessibility Standards** means the accessibility standards for electronic and information resources contained in 1 Tex. Admin. Code Chapter 213.

**Web Site Accessibility Standards/ Specifications** means standards contained in 1 Tex. Admin. Code Chapter 206.

**Product** means information resources technology that is, or is related to, EIR.

(c) Accessibility Requirements.

Under Texas Government Code Chapter 2054, Subchapter M, and implementing rules of the Texas Department of Information Resources, HHSC must procure Products that comply with the Accessibility Standards when such Products are available in the commercial marketplace or when such Products are developed in response to a procurement solicitation. Accordingly, Dental Contractor must provide electronic and information resources and associated Product documentation and technical support that comply with the Accessibility Standards.

(d) Evaluation, Testing, and Monitoring.

- (1) HHSC may review, test, evaluate and monitor Dental Contractor's Products and associated documentation and technical support for compliance with the Accessibility Standards. Review, testing, evaluation and monitoring may be conducted before and after the award of a contract. Testing and monitoring may include user acceptance testing.

Neither the review, testing, including acceptance testing, evaluation or monitoring of any Product, nor the absence of such review, testing, evaluation or monitoring, will result in a waiver of the State's right to contest the Dental Contractor's assertion of compliance with the Accessibility Standards.

- (2) Dental Contractor agrees to cooperate fully and provide HHSC and its representatives' timely access to Products, records, and other items and information needed to conduct such review, evaluation, testing and monitoring.

(e) Representations and Warranties.

- (1) Dental Contractor represents and warrants that: (i) as of the Effective Date of the Contract, the Products and associated documentation and technical support comply with the Accessibility Standards as they exist at the time of entering the Contract, unless and to the extent the Parties otherwise expressly agree in writing; and (ii) if the Products will be in the custody of the state or an HHS Agency's client or recipient after the Contract expiration or termination, the Products will continue to comply with such Accessibility Standards after the expiration or termination of the Contract Term, unless HHSC and/or its clients or recipients, as applicable, use the Products in a manner that renders it noncompliant.
- (2) In the event Dental Contractor should have known, becomes aware, or is notified that the Product and associated documentation and technical support do not comply with the Accessibility Standards, Dental Contractor represents and warrants that it will, in a timely manner and at no cost to HHSC, perform all necessary steps to satisfy the Accessibility Standards, including but not limited to remediation, replacement, and upgrading of the Product, or providing a suitable substitute.
- (3) Dental Contractor acknowledges and agrees that these representations and warranties are essential inducements on which HHSC relies in awarding this Contract.
- (4) Dental Contractor's representations and warranties under this subsection will HHSC the termination or expiration of the Contract and will remain in full force and effect throughout the useful life of the Product.

(c) Remedies.

- (1) Pursuant to Texas Government Code Sec. 2054.465, neither Dental Contractor nor any other person has cause of action against HHSC for a claim of a failure to comply with Texas Government Code Chapter 2054, Subchapter M, and rules of the Department of Information Resources.
- (2) In the event of a breach of Dental Contractor's representations and warranties, Dental Contractor will be liable for direct, consequential, indirect, special, or liquidated damages and any other remedies to which HHSC may be entitled under this Contract and other applicable law. This remedy is cumulative of any and all other remedies to which HHSC may be entitled under this Contract and other applicable law.

## **Article 15. Intellectual Property**

### **Section 15.01 Infringement and Misappropriation.**

- (a) Dental Contractor warrants that all Deliverables provided by Dental Contractor will not infringe or misappropriate any right of, and will be free of any claim of, any third person or entity based on copyright, patent, trade secret, or other intellectual property rights.
- (b) Dental Contractor will, at its expense, defend with counsel approved by HHSC, indemnify, and hold harmless HHSC, its employees, officers, directors, contractors, and agents from and against any losses, liabilities, damages, penalties, costs, and fees from any claim or action against HHSC that is based on a claim of breach of the warranty set forth in the preceding paragraph. HHSC will promptly notify Dental Contractor in writing of the claim, provide Dental Contractor a copy of all information received by HHSC with respect to the claim, and cooperate with Dental Contractor in defending or settling the claim. HHSC will not unreasonably withhold, delay or condition approval of counsel selected by the Dental Contractor.
- (c) In case the Deliverables, or any one or part thereof, is in such action held to constitute an infringement or misappropriation, or the use thereof is enjoined or restricted or if a proceeding appears to Dental Contractor to be likely to be brought, Dental Contractor will, at its own expense, either:
  - (1) Procure for HHSC the right to continue using the Deliverables; or
  - (2) Modify or replace the Deliverables to comply with the Specifications and to not violate any intellectual property rights.

If neither of the alternatives set forth in (1) or (2) above are available to the Dental Contractor on commercially reasonable terms, Dental Contractor may require that HHSC return the allegedly infringing Deliverable(s) in which case Dental Contractor will refund all amounts paid for all such Deliverables.

### **Section 15.02 Exceptions.**

Dental Contractor is not responsible for any claimed breaches of the warranties set forth in **Section 14.06** to the extent caused by:

- (a) Modifications made to the item in question by anyone other than Dental Contractor or its Subcontractors, or modifications made by HHSC or its contractors working at Dental Contractor's direction or in accordance with the specifications; or
- (b) The combination, operation, or use of the item with other items if Dental Contractor did not supply or approve for use with the item; or
- (c) HHSC's failure to use any new or corrected versions of the item made available by Dental Contractor.

### **Section 15.03 Ownership and Licenses**

#### **(a) Definitions.**

For purposes of this **Section 15.03**, the following terms have the meanings set forth below:

**Custom Software** means any software developed by the Dental Contractor: for HHSC; in connection with the Contract; and with funds received from HHSC. The term does not include Dental Contractor Proprietary Software or Third Party Software.

**Dental Contractor Proprietary Software** means software: (i) developed by the Dental Contractor prior to the Effective Date of the Contract, or (ii) software developed by the Dental Contractor after the Effective Date of the Contract that is not developed: for HHSC; in connection with the Contract; and with funds received from HHSC.

**Third Party Software** means software that is: developed for general commercial use; available to the public; or not developed for HHSC. Third Party Software includes without limitation: commercial off-the-shelf software; operating system software; and application software, tools, and utilities.

#### **(b) Deliverables.**

The Parties agree that any Deliverable, including without limitation the Custom Software, will be the exclusive property of HHSC.

- (1) HHSC will own all right, title, and interest in and to its Confidential Information and the Deliverables provided by the Dental Contractor, including without limitation the Custom Software and associated documentation. For purposes of this Section 15.03, the Deliverables will not include Dental Contractor Proprietary Software or Third Party Software. Dental Contractor will take all actions necessary and transfer ownership of the Deliverables to HHSC, including, without limitation, the Custom Software and associated documentation prior to Contract termination.
- (2) Dental Contractor will furnish such Deliverables, upon request of HHSC, in accordance with applicable State law. All Deliverables, in whole and in part, will be deemed works made for hire of HHSC for all purposes of copyright law, and copyright will belong solely to HHSC. To the extent that any such Deliverable does not qualify as a work for hire under applicable law, and to the extent that the Deliverable includes materials subject to copyright, patent, trade secret, or other proprietary right protection, Dental Contractor agrees to assign, and hereby assigns, all right, title, and interest in and to Deliverables, including without limitation all copyrights, inventions, patents, trade secrets, and other proprietary rights therein, including renewals thereof, to HHSC.

(3) Dental Contractor will, at the expense of HHSC, assist HHSC or its nominees to obtain copyrights, trademarks, or patents for all such Deliverables in the United States and any other countries. Dental Contractor agrees to execute all papers and to give all facts known to it necessary to secure United States or foreign country copyrights and patents, and to transfer or cause to transfer to HHSC all the right, title, and interest in and to such Deliverables. Dental Contractor also agrees not to assert any moral rights under applicable copyright law with regard to such Deliverables.

(c) License Rights.

HHSC will have a royalty-free and non-exclusive license to access the Dental Contractor Proprietary Software and associated documentation during the term of the Contract. HHSC will also have ownership and unlimited rights to use, disclose, duplicate, or publish all information and data developed, derived, documented, or furnished by Dental Contractor under or resulting from the Contract. Such data will include all results, technical information, and materials developed for or obtained by HHSC from Dental Contractor in the performance of the Services hereunder, including but not limited to all reports, surveys, plans, charts, recordings, video or sound, pictures, drawings, analyses, graphic representations, computer printouts, notes and memoranda, and documents whether finished or unfinished, which result from or are prepared in connection with the Services performed as a result of the Contract.

(d) Proprietary Notices.

Dental Contractor will reproduce and include HHSC's copyright and other proprietary notices and product identifications provided by Dental Contractor on such copies, in whole or in part, or on any form of the Deliverables.

(e) State and Federal Governments.

In accordance with 45 C.F.R. § 95.617, all appropriate State and Federal agencies will have a royalty-free, nonexclusive, and irrevocable license to reproduce, publish, translate, or otherwise use, and to authorize others to use for Federal Government purposes all materials, the Custom Software and modifications thereof, and associated documentation designed, developed, or installed with federal financial participation under the Contract, including but not limited to those materials covered by copyright, all software source and object code, instructions, files, and documentation.

## **Article 16. Liability**

### **Section 16.01 Property Damage.**

(a) Dental Contractor will protect HHSC's real and personal property from damage arising from Dental Contractor's, its agent's, employees' and Subcontractors' performance of the Contract, and Dental Contractor will be responsible for any loss, destruction, or damage to HHSC's property that results from or is caused by Dental Contractor's, its agents', employees' or Subcontractors' negligent or wrongful acts or omissions. Upon the loss of, destruction of, or damage to any property of HHSC, Dental Contractor will notify the HHSC

Project Manager thereof and subject to direction from the Project Manager or her or his designee, will take all reasonable steps to protect that property from further damage.

- (b) Dental Contractor agrees to observe and encourage its employees and agents to observe safety measures and proper operating procedures at HHSC sites at all times.
- (c) Dental Contractor will distribute a policy statement to all of its employees and agents that directs the employee or agent to promptly report to HHSC or to Dental Contractor any special defect or unsafe condition encountered while on HHSC premises. Dental Contractor will promptly report to HHSC any special defect or an unsafe condition it encounters or otherwise learns about.

### **Section 16.02 Risk of Loss.**

- (a) During the period Deliverables are in transit and in possession of Dental Contractor, its carriers or HHSC prior to being accepted by HHSC, Dental Contractor will bear the risk of loss or damage thereto, unless such loss or damage is caused by the negligence or intentional misconduct of HHSC. After HHSC accepts a Deliverable, the risk of loss or damage to the Deliverable will be borne by HHSC, except loss or damage attributable to the negligence or intentional misconduct of Dental Contractor's agents, employees or Subcontractors.

### **Section 16.03 Limitation of HHSC's Liability**

HHSC WILL NOT BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, OR CONSEQUENTIAL DAMAGES UNDER CONTRACT, TORT INCLUDING NEGLIGENCE, OR OTHER LEGAL THEORY. THIS WILL APPLY REGARDLESS OF THE CAUSE OF ACTION AND EVEN IF HHSC HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

HHSC'S LIABILITY TO THE DENTAL CONTRACTOR UNDER THE CONTRACT WILL NOT EXCEED THE TOTAL CHARGES TO BE PAID BY HHSC TO THE DENTAL CONTRACTOR UNDER THE CONTRACT

## **Article 17. Insurance and Bonding**

### **Section 17.01 Insurance Coverage.**

- (a) Statutory and General Coverage.

Dental Contractor will maintain, at Dental Contractor's own expense, during the Term of the Contract and until final acceptance of all Services and Deliverables, the following insurance coverage. Dental Contractor will provide HHSC with proof of the following insurance coverage on or before the Contract Effective Date:

- (1) Business Automobile Liability Insurance for all owned, non-owned, and hired vehicles, for bodily injury and property damage;
- (2) Comprehensive General Liability insurance of at least \$1,000,000.00 per occurrence and \$5,000,000.00 in the aggregate, including Bodily injury coverage of \$100,000.00 per each occurrence and Property Damage Coverage of \$25,000.00 per occurrence; and
- (3) If Dental Contractor's current Comprehensive General Liability insurance coverage does not meet the above stated requirements, Dental Contractor will obtain Umbrella Liability

insurance to compensate for the difference in the coverage amounts. If Umbrella Liability insurance is provided it must follow the form of the primary coverage.

(b) Professional Liability Coverage.

Dental Contractor must maintain at its own expense, or cause its Network Providers to maintain, during the Term of the Contract and until final acceptance of all Services and Deliverables, the following insurance coverage:

- (1) Professional Liability Insurance for each Network Provider of \$100,000.00 per occurrence and \$300,000.00 in the aggregate. Dental Contractor must provide proof of such coverage upon request to HHSC.
- (2) An Excess Professional Liability (Errors and Omissions) Insurance Policy for the greater of \$3,000,000.00 or an amount, rounded to the nearest \$100,000.00 that represents the number of Dental Members enrolled in the Dental Contractor in the first month of the applicable Contract Year multiplied by \$150.00, not to exceed \$10,000,000.00. Dental Contractor will provide HHSC with proof of this insurance coverage on or before the Contract Effective Date.

(c) General Requirements for All Insurance Coverage.

- (1) Except as provided herein, all exceptions to the Contract's insurance requirements must be approved in writing by HHSC. HHSC's written approval is not required in the following situation:
  - (i) The Dental Contractor or a Network Provider is not required to obtain insurance coverage described in **Section 16.01** if the Dental Provider or Network Provider qualifies as a state governmental unit or municipality under the Texas Tort Claims Act, and is required to comply with, and are subject to, the provision of the Texas Tort Claims Act.
- (2) Dental Contractor or the Network Provider is responsible for any and all deductibles stated in the policies.
- (3) Insurance coverage will be issued by insurance companies authorized by applicable law to conduct business in the State of Texas, and
- (4) Insurance coverage must name HHSC as an additional insured, with the exception of Professional Liability insurance maintained by Providers. Insurance coverage must name HHSC as a loss payee, with the exception of Professional Liability insurance maintained by Providers and Business Automobile Liability insurance.
- (5) Insurance coverage kept by the Dental Contractor must be maintained in full force at all times during the Term of the Contract, and until HHSC's final acceptance of all Services and Deliverables. Failure to maintain such insurance coverage will constitute a material breach of this contract.
- (6) With the exception of Professional Liability Insurance maintained by Providers, the insurance policies described in this Section must have an extended reporting period of two years. When policies are renewed or replaced, the policy retroactive date must coincide with, or precede, the Contract Effective Date.

- (7) With the exception of Professional Liability Insurance maintained by Providers, the insurance policies described in this Section must provide that prior written notice to be given to HHSC at least 30 calendar days before coverage is reduced below minimum HHSC contractual requirements, canceled, or non-renewed. Dental Contractor must submit a new coverage binder to HHSC to ensure no break in coverage. Each policy must include the following provision: "It is a condition of this policy that the company must furnish written notice to HHSC's designated contact at least 30 calendar days in advance of any reduction in cancellation, or non-renewal of this policy."
  - (8) The Parties expressly understand and agree that any insurance coverages and limits furnished by Dental Contractor will in no way expand or limit Dental Contractor's liabilities and responsibilities specified within the Contract documents or by applicable law.
  - (9) Dental Contractor expressly understands and agrees that any insurance maintained by HHSC will apply in excess of and not contribute to insurance provided by Dental Contractor under this contract.
  - (10) If Dental Contractor or its Providers, desire additional coverage, higher limits of liability, or other modifications for its own protection, Dental Contractor or its Providers will be responsible for the acquisition and cost of such additional protection. Such additional protection will not be an Allowable Expense under this Contract.
  - (11) Dental Contractor will require all insurers to waive their rights of subrogation against HHSC.
- (d) Proof of Insurance Coverage.
- (1) Except as provided in **Section 17.01(d)(2)**, Dental Contractor must furnish HHSC original Certificates of Insurance evidencing the required insurance coverage on or before the Effective Date of the Contract. If insurance coverage is renewed during the term of the Contract, the Dental Contractor must furnish HHSC renewal certificates of insurance, or such similar evidence within five Business Days of renewal. Dental Contractor will submit evidence of insurance prior to Contract award. The failure of HHSC to obtain such evidence from Dental Contractor before permitting Dental Contractor to commence work will not be deemed to be a waiver by HHSC and Dental Contractor will remain under continuing obligation to maintain and provide proof of the insurance coverage.
  - (2) The insurance specified above will be carried until all Services and Deliverables required under the terms of the Contract are satisfactorily completed. Failure to carry or keep such insurance in force will constitute a violation of the Contract.

## **Section 17.02 Performance Bond.**

Beginning on the Effective Date of the Contract, and each year thereafter, the Dental Contractor must obtain a performance bond with a one year term. The performance bond must be renewable, and renewal must occur no later than the first day of each subsequent State Fiscal Year. The performance bond must continue to be in effect for one year following the expiration of the final renewal period. Dental Contractor must obtain and maintain the annual performance bonds in the form prescribed by HHSC and approved by TDI, naming HHSC as Obligee, and

securing Dental Contractor's faithful performance of the terms and conditions of this Contract. The annual performance bond(s) must be issued in the amount of \$100,000.00. Performance bonds must be issued by a surety licensed by TDI, and specify cash payment as the sole remedy. Dental Contractor must deliver the initial performance bond to HHSC prior to or on the Effective Date of the Contract, and each renewal prior to the first day of the State Fiscal Year.

**Section 17.03 TDI Fidelity Bond.**

The Dental Contractor will secure and maintain throughout the life of the Contract a fidelity bond as required by the Texas Department of Insurance. The Dental Contractor must promptly provide HHSC with copies of the bond and any amendments or renewals thereto.

| 51. | RFP § 2.9.3                        | 12 months prior to the end of the Term or any extension thereof, the Dental Contractor must propose a Turnover Plan covering the possible turnover of the records and information maintained to either HHSC or a successor Dental Contractor. | Measured at 12 months prior to the end of the Term or any extension thereof and ongoing until satisfactorily completed during Operations Phase and Turnover | Each calendar day of non-compliance    | HHSC may assess up to \$1,000 per calendar day the Turnover Plan is not submitted, is late, inaccurate, or incomplete. |
| 52. | RFP § 2.9.3                        | The Dental Contractor must provide a Turnover Results report timely, and is accurate, and complete with the documented completion and results of each step of the Turnover Plan 30 days after the Turnover of operations.                     | Measured 30 days after Turnover   | Each calendar day of non-compliance    | HHSC may assess up to \$250 per calendar day the report is not submitted, is late, inaccurate, or incomplete.          |

**Texas Health & Human Services Commission**

**CHIP Medically Necessary Covered Dental Services**

## Schedule of CHIP Dental Benefits

Covered Dental Services are subject to a \$564 annual benefit limit unless an exception applies. In addition, some of the benefits identified in the schedule below are subject to annual limits. Limitations are based on a 12-month coverage period.

CHIP Members who have exhausted the \$564 annual benefit limit continue to receive the following Covered Dental Services in excess of the \$564 annual benefit maximum:

- (1) the diagnostic and preventive services due under the most recent American Academy of Pediatric Dentistry periodicity schedule; and
- (2) other Medically Necessary Covered Dental Services approved by the Dental Contractor through a prior authorization process. These services must be necessary to allow a CHIP Member to return to normal, pain and infection-free oral functioning. Typically this includes:
  - Services related to the relief of significant pain or to eliminate acute infection;
  - Services related to treat traumatic clinical conditions;
  - Services that allow the CHIP Member to attain the basic human functions (e.g., eating, speech); and
  - Services that prevent a condition from seriously jeopardizing the CHIP Member's health or functioning or deteriorating in an imminent timeframe to a more serious and costly dental problem.

Refer to the most recent version of the *Code on Dental Procedures and Nomenclature* for coding that applies to Covered Dental Services.

The Maximum Allowable Charge for a CHIP Covered Dental Service is the Medicaid fee-for-service rate. Refer to the Texas Medicaid Fee Schedule in the *Texas Medicaid Provider Procedures Manual* or online at <http://public.tmhp.com/FeeSchedules/Default.aspx> for the Maximum Allowable Charge for each service.

## DIAGNOSTIC SERVICES

### EVALUATION

Periodic Oral Evaluation – established patient

Limited Oral Evaluation – problem focused

Comprehensive Oral Evaluation - Limited to one per Child's lifetime per dentist.

## **X-RAYS**

Intraoral Complete Series, including bitewings –Limited to one per 36 months.

Intraoral-periapical, first film

Intraoral-periapical, each additional film

Bitewings-single film

Bitewings-two films

Bitewings-four films

Panoramic film—Limited to one panoramic film for age 5 through 9 and one panoramic film for age 10 through 18. Limited to one per 5 years.

## **PREVENTIVE SERVICES**

### **CLEANINGS**

Prophylaxis (Cleaning)-adult

Prophylaxis (Cleaning)-child

Topical application of fluoride - child

Topical application of fluoride - adult

Sealant per tooth— permanent molars and Maxillary per-molars only - limited to one per tooth per lifetime

Space maintainer – fixed unilateral

Space maintainer – fixed bilateral

Space maintainer – removable unilateral

Space maintainer – removable bilateral

### **RESTORATIVE SERVICES (Includes Any Required Local and Topical Anesthetics)**

**AMALGAM (SILVER FILLINGS)** All amalgam fillings are limited to one per tooth per 12 months.

Amalgam – one surface, primary

Amalgam – one surface, permanent

Amalgam – two surface, primary

Amalgam – two surface, permanent

Amalgam – three surface, primary

Amalgam – three surface permanent

Amalgam – four or more surface, primary or permanent

**RESIN FILLINGS (WHITE FILLINGS)** All resin fillings are limited to one per tooth per 12 months.

Resin-based composite – one surface, anterior

Resin-based composite – two surface, anterior

Resin-based composite – three surfaces, anterior

Resin-based composite – four or more surfaces or involving incisal angle, anterior

Resin-based composite – one surface, posterior, primary

Resin-based composite – one surface, posterior, permanent

Resin-based composite – two surfaces, posterior, primary

Resin-based composite – two surfaces, posterior, permanent

Resin-based composite - three surfaces, posterior, primary

Resin-based composite - three surfaces, posterior, permanent

Resin-based composite - four or more surfaces, posterior

**CROWNS (CAPS)** All crowns are limited to one per tooth per 5 years.

Crown –resin-based composite - indirect

Crown – resin with high noble metal

Crown – resin with predominantly base metal

Crown – resin with noble metal

Crown – porcelain/ceramic substrate

Crown – porcelain fused to high noble metal

Crown – porcelain fused to predominantly base metal

Crown – porcelain fused to noble metal

Crown – full cast high noble metal

Crown – full cast predominantly base metal

**OTHER RESTORATIVE SERVICES**

Prefabricated stainless steel crown –primary tooth. Limited to one per tooth per lifetime.

Prefabricated stainless steel crown – permanent tooth. Limited to one per tooth per lifetime.

## **ENDODONTIC SERVICES**

### **PULPOTOMY / PULPECTOMY**

Therapeutic pulpotomy, excluding final restoration – removal of pulp coronal to the dentinocemental junction and application of medicament.

Pulpal therapy, resorbable filling - anterior primary incisors and cuspids, excluding final restoration.

Pulpal therapy, resorbable filling – posterior primary first and second molars, excluding final restoration.

**ROOT CANALS** All root canals are limited to one per tooth per lifetime.

Endodontic therapy, anterior tooth, excluding final restoration.

Endodontic therapy, bicuspid tooth, excluding final restoration.

Endodontic therapy, molar, excluding final restoration.

## **PERIODONTIC SERVICES**

Gingivectomy or gingivoplasty – four or more contiguous teeth or tooth bounded spaces per quadrant.

Periodontal scaling and root planning – four or more teeth per quadrant.

Full mouth debridement to enable comprehensive evaluation and diagnosis.

## **PROSTHODONTIC SERVICES**

Complete denture – maxillary (upper)

Complete denture – mandibular (lower)

Maxillary partial denture – resin base, including any conventional clasps, rests, and teeth.

Mandibular partial denture – resin base, including any conventional clasps, rests, and teeth.

Maxillary partial denture – cast metal framework with resin denture bases, including any conventional clasps, rests, and teeth.

Mandibular partial denture – cast metal framework with resin denture bases, including any conventional clasps, rests, and teeth.

## **ORAL and MAXILLOFACIAL SERVICES**

### **EXTRACTIONS (TOOTH REMOVAL)**

Extraction, erupted tooth or exposed root. Elevation or forceps removal.

### **SURGICAL EXTRACTIONS (TOOTH REMOVAL)**

Surgical removal of erupted tooth requiring elevation of mucoperiosteal flap and removal of bone or section of tooth.

Removal of impacted tooth – soft tissue

Removal of impacted tooth – partially bony

Removal of impacted tooth – completely bony

**Note:** If a Member is undergoing a course of treatment, the Covered Services terminate on the Date of Disenrollment.

    Texas Medicaid Administration ..... v

## Welcome: Texas Medicaid Provider Procedures Manual

This manual is a comprehensive guide for Texas Medicaid providers. It contains information about Texas Medicaid fee-for-service benefits, policies, and procedures including medical, dental, and children's services benefits.

**Referto:** The *Medicaid Managed Care Handbook (Vol. 2, Provider Handbooks)* for information about the Medicaid Managed Care, which is administered by Texas Health and Human Services Commission (HHSC)-contracted managed care organizations (MCOs), dental managed care organizations, and behavioral health organizations (BHOs) across the state.

The *Texas Medicaid Provider Procedures Manual* is updated monthly on the TMHP website at [www.tmhp.com](http://www.tmhp.com) to include revisions to policies and procedures that went into effect in the prior month. The manual is available in portable document format (PDF) as a complete book and as individual sections and handbooks. A hypertext markup language (HTML) version is also available.

The current version of the manual always appears prominently on the [Texas Medicaid Provider Procedures Manual](#) web page. All previously published annual editions of the *Texas Medicaid Provider Procedures Manual* have been archived. Users can access the archives through links on the Texas Medicaid Provider Procedures Manual web page.

Providers can determine what has changed each month by following the Release Notes link on the Texas Medicaid Provider Procedures Manual web page. The release notes include the sections and handbooks that have changed for the current month and the nature of the changes. Most changes have been previously announced in news articles on the TMHP website, and, where appropriate, the release notes link to prior website articles.

Publishing the manual monthly has eliminated the need for the *Texas Medicaid Bulletin*, which was discontinued following the publication of the September/October 2012 *Texas Medicaid Bulletin*, No. 243. Special bulletins, such as the annual Healthcare Common Procedure Coding System (HCPCS) bulletin, which is published in January of each year, will continue to be published on an as-needed basis.

The *Texas Medicaid Provider Procedures Manual* is divided into two volumes as follows:

- Volume I: General Information

Volume 1 applies to all health-care providers who are enrolled in Texas Medicaid and provide services to Texas Medicaid fee-for-service clients. The sections in Volume 1 include general information for enrolling in the program, receiving appropriate reimbursement, prior authorizations, claim submissions and appeals for services rendered.

- Volume 2: Provider Handbooks

Each handbook in Volume 2 covers Medicaid policies, procedures, and claims filing requirements for specific products or services. Volume 2 includes the following handbooks:

- *Ambulance Services Handbook*
- *Behavioral Health, Rehabilitation, and Case Management Services Handbook*
- *Certified Respiratory Care Practitioners (CRCP) Services Handbook*
- *Children's Services Handbook*
- *Clinics and Other Outpatient Facility Services Handbook*
- *Durable Medical Equipment, Medical Supplies, and Nutritional Products Handbook*
- *Gynecological, Obstetrics, and Family Planning Title XIX Services*
- *Home Health Nursing and Private Duty Nursing Services Handbook*
- *Inpatient and Outpatient Hospital Services Handbook*

- *Medicaid Managed Care Handbook*
- *Medical and Nursing Specialists, Physicians, and Physician Assistants Handbook*
- *Medical Transportation Program Handbook*
- *Physical Therapy, Occupational Therapy, and Speech Therapy Services Handbook*
- *Radiology and Laboratory Services Handbook*
- *Telecommunications Services Handbook*
- *Vision and Hearing Services Handbook*
- *Women's Health Services Handbook*

## **Introduction**

### **Texas Medicaid Administration**

The Texas Medical Assistance (Medicaid) Program was implemented on September 1, 1967, under the provisions of Title XIX of the federal *Social Security Act* and Chapter 32 of the *Texas Human Resources Code*.

The state of Texas and the federal government share the cost of funding Texas Medicaid. The Health and Human Services Commission (HHSC), the single state Medicaid agency, is responsible for the Title XIX Program. The administration of the program is accomplished through contracts and agreements with the following:

- Medical providers
- Texas Medicaid & Healthcare Partnership (TMHP), the fee-for-service claims administrator
- MAXIMUS, the enrollment broker
- Various managed care organizations (MCOs) and dental managed care organization (dental plans), that administer Medicaid Managed Care benefits.
- The Institute for Child Health Policy (ICHP), the quality monitor
- State agencies

Texas Medicaid providers are reimbursed for services through contracts with health-insuring contractors, fiscal agents, or direct vendor payments.

By signing an HHSC Medicaid Provider Agreement (through the enrollment process) and submitting Medicaid claims, each enrolled provider agrees to abide by the policies and procedures of Medicaid, published regulations, and the information and instructions in manuals, bulletins, and other instructional material furnished to the provider.

**Referto:** “Appendix A: State, Federal, and TMHP Contact Information” (*Vol. 1, General Information*) for addresses and telephone numbers of HHSC and Department of State Health Services (DSHS) regional offices.

## 1.1 Provider Enrollment and Reenrollment

To be eligible for Texas Medicaid reimbursement, a provider of health-care services (including an out-of-state provider) must:

- Meet all applicable eligibility criteria.
- Be approved by the Texas Health and Human Services Commission (HHSC) for enrollment.
- Obtain a National Provider Identifier (NPI) from the National Plan and Provider Enumeration System (NPPES).

**Referto:** Subsection 1.1.1, “NPI and Taxonomy Codes” in this section.

- File with the Texas Medicaid & Healthcare Partnership (TMHP) the required Texas Medicaid enrollment application ensuring that the application is correct, complete, and includes all required attachments and additional information.
- Provide any additional information requested by TMHP, HHSC, or the HHSC Office of Inspector General (OIG) in connection with the processing of the application.
- Be approved by HHSC for enrollment and enter into a written provider agreement with HHSC.

Providers can use the online provider enrollment on the portal (PEP) tool to enroll electronically through the TMHP website at [www.tmhp.com](http://www.tmhp.com) by clicking “Enroll Today!” at the top of most web pages.

**Referto:** Subsection 1.1.2, “Online Enrollment” in this section.

Paper versions of the enrollment applications are also available for download from the Forms section of the TMHP website.

**Referto:** Subsection 1.1.3, “Paper Application Enrollment” in this section.

After receipt of all information necessary to process the application, the entire application process can typically take up to 60 days. This may be extended in special circumstances. Requests for exceptions to the enrollment process, risk category, and provider types that require additional state approval may extend the length of the application process.

All providers must be enrolled in Texas Medicaid before enrollment can be approved for any other service or program, including, but not limited to, Medicaid managed care.

Certain provider types are required to enroll in Medicare as a prerequisite for enrolling in Texas Medicaid. During the Texas Medicaid enrollment process, with HHSC approval, the Claims Administrator may waive the mandatory prerequisite for Medicare enrollment for certain providers whose type of practice will never serve Medicare-eligible individuals (e.g., pediatrics, obstetrician/gynecologist [OB/GYN]).

Providers must maintain a valid, current license or certification to be entitled to Texas Medicaid reimbursement. Providers cannot enroll in Texas Medicaid if their license or certification is due to expire within 30 days of application. A current license or certification must be submitted, if applicable.

**Referto:** Subsection 1.1.9.11, “Copy of License, Temporary License, or Certification” in this section.

A provider identifier is issued when a determination has been made that a provider qualifies for participation.

**Referto:** Subsection 1.9, “Enrollment Criteria for Out-of-State Providers” in this section for additional criteria that out-of-state providers must meet to enroll in Texas Medicaid.

### 1.1.1 NPI and Taxonomy Codes

The NPI final rule, Federal Register 45, Code of Federal Regulations (CFR) Part 162, established the NPI as the standard unique identifier for health-care providers and requires covered health-care providers, clearinghouses, and health plans to use this identifier in Health Insurance Portability and Accountability Act (HIPAA)-covered transactions. An NPI is a 10-digit number assigned randomly by the NPPES. An NPI must be obtained before a provider can enroll as a Texas Medicaid provider.

An NPI is not required for enrollment for certain provider types; however, the provider must submit a signed letter on company letterhead that attests that they are not a health-care provider and are unable to obtain an NPI.

The Health Care Provider Taxonomy Code Set is an external, non-medical collection of alphanumeric codes designed to classify health-care providers by provider type and specialty. Providers may have more than one taxonomy code. (Taxonomy codes can be obtained from the Washington Publishing Company website at [www.wpc-edi.com](http://www.wpc-edi.com)).

During the enrollment process, providers must select a primary and, if applicable, secondary taxonomy code associated with their provider type. Providers will be supplied a list of taxonomy codes to choose from that correspond to the services rendered by the type of provider they wish to enroll as. Only the code will be displayed. Due to copyright laws, TMHP is unable to publish the taxonomy description. Therefore, providers must verify the taxonomy code associated with their provider type and specialty before beginning the online attestation process.

### 1.1.2 Online Enrollment

The following provider types can use PEP to enroll and reenroll:

- Texas Medicaid providers
- Home and Community Based Services – Adult Mental Health (HCBS-AMH) providers
- Ordering/referring-only providers
- Children with Special Health Care Needs (CSHCN) Services Program providers
- Texas Health Steps (THSteps) dental services provider, including fee-for-service dental providers and managed care
- THSteps medical checkup providers

**Important:** *Upon completion of the Texas Medicaid provider application, qualified providers are automatically enrolled as THSteps medical checkup providers and CSHCN Services Program providers unless they choose to opt out of one or both as prompted in the application. Providers who opt out can enroll in the CSHCN Services Program and in THSteps at a future date using the online PEP tool.*

Providers can begin the enrollment process on the [Provider Enrollment](#) page of the TMHP website.

Online enrollment has the following advantages:

- Applications are validated immediately to ensure that all fields have been completed.
- Most of the application can be completed online so that only a few forms need to be printed, completed, and mailed to TMHP.
- Applicants can view both incomplete and complete applications that have been submitted online.
- Some form fields are automatically completed, reducing the amount of information that has to be entered.
- Providers can complete the Provider Information Change (PIC) form online.

- Providers will receive email notifications when messages or deficiency notices about their applications are posted online. The messages can be viewed on the secured access portion of the website. Providers may opt out of email communication and receive messages or deficiency letters by mail.
- Providers can create templates, which make it easier to submit multiple enrollment applications.
- Providers who enroll as a group can assign portions of the application to performing providers to complete. Performing providers can complete their portion of a group application by logging into the online PEP tool with their unique user name and password.
- Providers can navigate to completed sections of the application without having to click through all pages of the application.
- Information that is on file for owners and subcontractors of the applying provider are auto-populated in the application.

Before submitting an application to TMHP for processing, providers are required to review a portable document format (PDF) copy of the application and verify it is complete. Providers are able to edit submitted applications to correct identified deficiencies.

Enrolling online promotes accurate submissions, decreases processing time, and enables immediate feedback on the status of the application.

### 1.1.3 Paper Application Enrollment

As an alternative to applying for enrollment online, a provider may file a paper enrollment application with TMHP. Providers may download the Texas Medicaid Provider Enrollment Application at [www.tmhp.com](http://www.tmhp.com) or request a paper application form by contacting TMHP directly at 1-800-925-9126. Enrollment applications are updated periodically. When an application has been updated, the older version will no longer be accepted and will not be available on the website. It is recommended that the provider check the website regularly for updates and notifications.

A paper enrollment application may also be requested from and must be submitted to the following address:

Texas Medicaid & Healthcare Partnership  
Provider Enrollment  
PO Box 200795  
Austin, TX 78720-0795

**Note:** *The Texas Medicaid Provider Enrollment Application must include the physical address where the provider renders services to Medicaid clients.*

### 1.1.4 Provider Enrollment Identification

Providers are required to identify the type of entity for which they are requesting enrollment. Providers can choose from one of the following on each application they submit (only one per application is allowed):

- *Individual.* This type of enrollment applies to an individual health-care professional who is licensed or certified in Texas, and who is seeking enrollment under the name, and Social Security number or federal tax identification number of the individual. An individual may also enroll as an employee, using the federal tax identification number of the employer. Certain provider types must enroll as individuals, including dietitians, licensed vocational nurses, occupational therapists, registered nurses, and speech therapists.
- *Group.* This type of enrollment applies to health-care items or services provided under the auspices of a legal entity, such as a partnership, corporation, limited liability company, or professional association, and the individuals providing health-care items or services are required to be certified or licensed in Texas. The enrollment is under the name and federal tax identification number of the

legal entity. For any group enrollment application other than as a THSteps medical checkup provider group, there must also be at least one enrolling performing provider. THSteps providers are only enrolled at the group level.

During the PEP process, the available taxonomy code list is populated with either taxonomy code 193200000X or 193400000X for a clinic/group practice, depending on which specialty is chosen. The taxonomy codes for clinic/group practice providers are accurate and have been approved by HHSC. The most appropriate taxonomy codes should be selected for any performing providers that will be enrolled according to their specific performing provider type and specialty.

- *Performing provider.* This type of enrollment applies to an individual health care professional who is licensed or certified in Texas, and who is seeking enrollment under a group. The enrollment is under the federal tax identification number of the group, and payment is made to the group. If a health-care professional is required to enroll as an individual, as explained above, but the person is an employee and payment is to be made to the employer, the health-care professional does not enroll as a performing provider. Instead, the health-care professional enrolls as an individual provider under the federal tax identification number of their employer.
- *Facility.* This type of enrollment applies to situations in which licensure or certification applies to the entity. Although individuals working for or with the entity may be licensed or certified in their individual capacity, the enrollment is based on the licensure or certification of the entity or the supervising licensed practitioner who is assuming responsibility for the facility's operation. For this reason, facility enrollment does not require enrollment of performing providers. However, certain provider types must enroll as facilities, including the following:
  - Ambulance and air ambulance
  - Ambulatory surgical center (ASC) and hospital-based ambulatory surgical center (HASC)
  - Birthing center
  - Catheterization lab
  - Chemical dependency treatment facility (licensed by the Texas Commission on Alcohol and Drug Abuse)
  - Consumer Directed Services Agency
  - County Indigent Health Care Program
  - Community mental health center
  - Comprehensive health center
  - Comprehensive outpatient rehabilitation facility/outpatient rehabilitation facility
  - Department of Assistive and Rehabilitative Services Division for Blind Services
  - Durable medical equipment (DME)
  - Early Childhood Intervention
  - Federally Qualified Health Center (FQHC)
  - Freestanding psychiatric facility
  - Freestanding rehabilitation facility
  - Home and Community Based Services – Adult Mental Health (HCBS-AMH) providers
  - Home Health/Home and community support services agency
  - Hospital/critical access hospital/out-of-state hospital
  - Military hospital

- Hyperalimentation
- Independent diagnostic testing facility/physiological lab
- Indian Health Services
- Independent laboratory
- Intellectual or developmental disability (IDD) case management
- Maternity services clinic
- Mental health targeted case management and mental health rehabilitative services
- Milk bank donor
- Personal care services
- Pharmacy
- Portable X-ray
- Prescribed Pediatric Extended Care Centers (PPECC)
- Radiation treatment center
- Radiological laboratory
- Renal dialysis facility
- Rural health clinic (RHC)
- School health and related services (SHARS)/non-school SHARS
- Service responsibility option
- Skilled nursing facility
- Vision medical supplier
- Women, Infant and Children

Providers must submit a separate Texas Medicaid Provider Enrollment Application for each enrollment type that they request unless otherwise approved as a dual enrollment. For example, enrolled hospital providers will be issued a hospital provider identifier that is specific to hospital services and a separate HASC provider identifier that is specific to ambulatory surgical services unless the provider is subject to restricted reimbursement. However, a health-care professional who is already enrolled with Texas Medicaid as an individual with his or her own practice, and who wishes to bill for services provided in connection with a group, must submit a separate enrollment application and be approved as a performing provider with the group. Similarly, a health-care professional who is enrolled as a performing provider with one group, but who wishes to bill for services provided in connection with another group, must submit a separate enrollment application and be approved as a performing provider with the other group.

**Note:** *A separate provider identifier is issued for each enrollment type that is approved. The provider is authorized to use the provider identifier only to bill for services provided as indicated in the approved enrollment application. It is a program violation for a provider to use a provider identifier for any purpose other than billing for the types of services, and under the type of enrollment, for which that provider identifier was issued. Improper use of a provider identifier constitutes program abuse and/or fraud.*

**Referto:** Subsection 1.10, “Medicaid Waste, Abuse, and Fraud Policy” in this section for additional information.

#### 1.1.4.1 \* Ordering- or Referring-Only Providers

Individual providers who are not currently enrolled in Texas Medicaid and whose only relationship with Texas Medicaid is to order or refer **for** supplies or services for Texas Medicaid-eligible clients must enroll in Texas Medicaid as participating providers. This requirement is in accordance with provisions of the Affordable Care Act of 2010 (ACA), 42 CFR §455.410(b), which requires all **fee-for-service (FFS) and managed care network** ordering or referring physicians or other professionals who order or refer **for** supplies **or** services under the Medicaid State plan, or under a waiver of the plan, to enroll in Medicaid as participating providers.

**Providers who are out of network for Medicaid managed care organizations (MCOs) do not need to enroll as ordering or referring-only providers. The enrollment requirement includes providers who order or refer for supplies or services for dually eligible clients (i.e., clients who are enrolled in both Medicare and Medicaid), as the client's claims would be considered Medicaid claims.**

These providers can enroll online using the PEP tool by clicking the check box for Ordering/Referring Provider, or they can use the streamlined paper Texas Medicaid Provider Enrollment Application Ordering and Referring Providers Only, which is available for download on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

The ordering or referring-only enrollment application is for individual providers who are not currently enrolled as a billing or performing provider in Texas Medicaid or the CSHCN Services Program and who do not currently have an active Texas Medicaid or CSHCN Services Program billing provider Texas Provider Identifier (TPI).

**Important:** *Individual providers who are currently enrolled in Texas Medicaid or the CSHCN Services Program and who currently have an active Texas Medicaid or CSHCN Services Program billing provider TPI can use their current TPI for **ordering or referring** services and do not need to obtain an **ordering and referring-only provider** TPI. A current **billing** provider's active TPI will be deactivated if the provider enrolls as an ordering or referring-only provider.*

Providers who enroll in Texas Medicaid as **ordering or** referring-only providers receive one TPI that can be used for orders and referrals for both Texas Medicaid clients and CSHCN Services Program clients. Although **ordering or** referring-only providers do not submit claims to TMHP for rendered services, the ordering or referring-only provider's NPI is required on claims that are submitted by the **billing** providers that render **the services or provide the** supplies or services.

**Referto:** Subsection 6.4.2.4, "Ordering or Referring Provider NPI" in "Section 6: Claims Filing" (*Vol. 1, General Information*) for information about filing claims that require an ordering- and referring-only provider NPI.

#### 1.1.4.2 \* Ordering or Referring-Only Providers Participating in Other State Health-Care Programs

Providers who order or refer for supplies or services for Children's Health Insurance Program (CHIP) clients must enroll as a participating providers with TMHP. Providers who are out of network for CHIP MCOs do not need to enroll as ordering or referring-only providers. Providers who order or refer for supplies or services for Healthy Texas Women (HTW) and CSHCN clients must also enroll as participating providers with TMHP.

#### 1.1.4.3 \* Interns and Medical Residents Who Order, Prescribe, or Refer

Interns and medical residents with only Physician In Training (PIT) permits issued by the Texas Medical Board cannot enroll in Texas Medicaid. An intern or resident's licensed supervising physician must be reported as the ordering or referring provider on claims that are generated from the order or referral of the intern or resident. The NPI of the supervising physician must be listed on orders or referrals written by the interns or residents they supervise. The licensed supervising physician must be enrolled in Texas Medicaid as a billing provider or as an ordering or referring-only provider.

### 1.1.5 Affordable Care Act of 2010 (ACA) Enrollment Requirements

Providers are required to fulfill certain requirements for enrollment in order to comply with the provisions of ACA. Providers that are enrolled in Texas Medicaid and have fulfilled the ACA requirements through their Texas Medicaid enrollment are considered ACA-compliant for all programs in which they are enrolled.

**Referto:** TMHP website at [www.tmhp.com](http://www.tmhp.com) for additional information about ACA requirements.

In accordance with Section 6401 of ACA, the following requirements apply:

- Upon initial enrollment and upon re-enrollment, all participating providers are screened based on their categorical risk level. (complies with 42 CFR §§455.410 and 455.450)
- All providers are required to re-enroll at least every three to five years based on provider type.
- Institutional providers who are enrolling or re-enrolling are required to pay an application fee if one has not already been paid to Medicare or another state's Medicaid program or Children's Health Insurance Program (CHIP).
- Ordering and referring-only providers are required to enroll in Texas Medicaid as participating providers.

**Referto:** Subsection 1.1.4.1, “\* Ordering- or Referring-Only Providers” in this section.

#### 1.1.5.1 Provider Screening Requirement

In compliance with ACA, all providers must be screened, which includes:

- Providers who submit a provider enrollment application for new enrollment, a new practice location, or other type of enrollment or re-enrollment.
- Providers who are currently enrolled in Texas Medicaid and are required to revalidate their enrollment by re-enrolling in Texas Medicaid.

#### 1.1.5.2 Provider Re-enrollment

In compliance with the 42 CFR §455.414, all providers are required to re-enroll at least every three to five years:

- DME providers are required to revalidate enrollment information at least once every three years.
- All other provider types must revalidate their enrollment information at least once every five years.

During re-enrollment, the provider screening will be repeated.

#### 1.1.5.3 Application Fee

Under ACA, institutional providers are subject to an application fee for applications, including initial applications, applications for new practice locations, and re-enrollment applications. Upon completion of the PEP online application, providers will be notified whether they are required to pay an application fee. The amount of the application fee is subject to change every calendar year.

Providers that complete the paper Texas Medicaid Provider Enrollment Application can refer to the TMHP website for the list of provider types that are required to pay the application fee.

**Note:** *Providers that are required to pay the application fee but have already paid the fee to Medicare or another state's Medicaid program or CHIP have fulfilled the fee requirement and do not have to submit the fee to Texas Medicaid. Proof of payment must be submitted with the application. Providers who are enrolled in Medicare must provide documentation that specifies whether or not they have completed the ACA rescreening process with Medicare.*

#### 1.1.5.4 Ordering- or Referring-Only Providers Search on the Online Provider Lookup (OPL)

Providers can verify that an ordering- or referring-only provider is enrolled in Medicaid by using either the basic or advanced provider search function of the OPL.

#### 1.1.6 Surety Bond Enrollment Requirement

All newly enrolling and re-enrolling DME and non-government-operated ambulance providers must, as a condition of enrollment and continued participation into Texas Medicaid, obtain a surety bond that complies with Title 1, Texas Administrative Code (TAC) §352.15.

DME providers can refer to subsection 2.1.2, “Surety Bond Requirements” in the *Durable Medical Equipment, Medical Supplies, and Nutritional Products Handbook* (Vol. 2, *Provider Handbooks*).

Ambulance providers can refer to subsection 1.1.6.1, “Ambulance Providers” in this handbook.

**Important:** *Surety bonds obtained for the purpose of accreditation in the Medicare program, which lists the Centers for Medicare & Medicaid Services (CMS) as obligee, do not fulfill the surety bond requirement for Texas Medicaid.*

The surety bond submitted to Texas Medicaid must meet the following requirements:

- A bond in an amount of no less than \$50,000 must be provided for each enrolled location.
- The bond must be submitted on the [State of Texas Medicaid Provider Surety Bond Form](#). No other form will be accepted. The use of this form designates HHSC as the sole obligee of the bond. Instructions are included with the form.
- The bond must be issued for a term of 12 months. Bonds for longer or shorter terms are not acceptable.
- The bond must be in effect on the date that the provider enrollment application is submitted to TMHP for consideration. The effective date stated on the bond must be:
  - No later than the date that the provider enrollment application is submitted.
  - No earlier than 12 months before the date that the provider enrollment application is submitted.
- The bond must be a continuous bond. A continuous bond remains in full force and effect from term to term unless the bond is canceled.

**Important:** *An annual bond that specifies effective and expiration dates for the bond is not acceptable.*

At the time of enrollment or re-enrollment, providers must submit the surety bond form with original signatures and a copy of the Power of Attorney document from the surety company that issued the bond.

**Note:** *Surety companies may refer to Texas Department of Insurance (TDI) file #9212562912 or TDI link #132456 when filing the bond.*

DME and non-government-operated ambulance providers must maintain a current surety bond to continue participation in Texas Medicaid. To avoid losing Medicaid enrollment status, providers must submit proof of continuation to TMHP Provider Enrollment before the expiration date of the bond currently on file. The completed proof of continuation document must include the bond number, original signatures of the authorized corporate representative of the DME or ambulance provider (principal), the attorney-in-fact of the surety company, date of the original bond, and new “good through” date. Providers may submit a copy of the proof of continuation (scan, fax, photocopy) pending the submission of the original document.

**Referto:** The [State of Texas Medicaid Provider Surety Bond Form](#) in the Forms section of the TMHP website at [www.tmhp.com](http://www.tmhp.com).

### 1.1.6.1 Ambulance Providers

Ambulance providers that participate in Texas Medicaid fee-for-service, managed care programs, or the CHIP must, as a condition of emergency medical services (EMS) provider license renewal, obtain a surety bond that complies with 1 TAC §352.15 and submit the bond to TMHP according to the requirements listed above. A copy of the bond must be included with their application to the Department of State Health Services (DSHS) to renew their emergency services provider license.

Providers can refer to the DSHS website for additional information.

Ambulance providers that are directly operated by a governmental entity are exempt from the surety bond requirement.

### 1.1.7 Provider Enrollment Application Determinations

An application for provider enrollment may be approved for a 3- to 5-year enrollment depending on provider type, approved with conditions, or denied. The provider applicant is issued a notice of the enrollment determination.

**Referto:** Subsection 1.1.5, “Affordable Care Act of 2010 (ACA) Enrollment Requirements” in this section for additional information about the ACA 3- to 5-year re-enrollment requirement.

When an application for enrollment is approved with conditions, the applicant has no right of appeal or administrative review of the enrollment determination. The types of conditional enrollment include, among other things:

- An application may be approved for time-limited enrollment, meaning the provider is granted a contract to participate in Medicaid for a specific period of time. In this case, the provider is sent a notice that includes the deactivation date of the contract. It is the provider’s responsibility, if the provider chooses to seek continued Medicaid participation, to file a complete and correct reenrollment application before the deactivation date of the provider’s current contract. It is recommended that the provider submit a reenrollment application at least 60 days before the current contract deactivation date, to ensure that the reenrollment application is complete and correct before the deactivation date. This may avoid a lapse between the provider’s current contract and the new contract, if a new contract is granted.
- An application may be approved subject to restricted reimbursement, meaning the provider is eligible to have only certain types of claims paid. This includes, among other things, reimbursement of only Medicare crossover claims (i.e., claims with respect to “dual eligible” recipients who are covered by both Medicare and Medicaid).

An application may be denied, in which case a denial notice that explains the basis for denial is sent. The notice also explains the right to make a written request for an administrative review of the denial decision, and the procedures for filing such a request. Any administrative review request must be received within 20 days of the date on the letter and filed in accordance with the instructions provided in the denial notice. HHSC will conduct the administrative review and render a final enrollment determination. The HHSC determination following administrative review is not subject to further appeal or reconsideration.

The enrollment date is the day on which a new TPI was issued. This date impacts claims filing deadlines.

**Referto:** Subsection 6.1.4.2, “Claims for Newly Enrolled Providers” in “Section 6: Claims Filing” (*Vol. 1, General Information*) for timely-filing guidelines for newly enrolled providers.

HHSC determines effective dates as follows:

- For providers who are required to enroll in Medicare, the Medicaid effective date will be the Medicare effective date or the license, certification, contract, or program implementation effective date, whichever is most current.

- For providers who are not required to enroll in Medicare, the Medicaid effective date will be one year prior to the receipt of the complete application or the license, certification, contract, or program implementation effective date, whichever is most current.

Notification letters that contain the new enrollment information are printed the following business day and mailed to the physical address listed on the application. The enrollment date and effective dates do not change when revalidating or reactivating an existing TPI, so new enrollment notification letters are not generated.

### 1.1.8 Enrollment in Medicaid Managed Care Programs

To be reimbursed for services rendered to Medicaid managed care clients, providers must be enrolled in Texas Medicaid and then must enroll with the client's health plan to be eligible for reimbursement for services rendered.

**Referto:** Subsection 2.2, "Provider Enrollment and Responsibilities" in the *Medicaid Managed Care Handbook* (Vol. 2, *Provider Handbooks*).

### 1.1.9 Required Enrollment Forms

To enroll in Texas Medicaid, providers must complete and submit the appropriate Texas Medicaid enrollment application, including all required forms as indicated in the application.

**Note:** *All paper documents must be signed by the person who is applying for enrollment. If the applicant is an entity, a principal of the entity must sign the application.*

Whether they are completing the online application or a paper application, providers can refer to the checklist in the paper Texas Medicaid Provider Enrollment Application for information about required forms and other documentation. This checklist explains, by provider type, the documents and information that must be provided with the application. Applications must be complete in order to process and issue a provider identifier.

**Note:** *If enrolled in Medicare, the provider must submit a copy of the Medicare enrollment letter to enroll in Texas Medicaid. Otherwise the enrollment application will be considered incomplete.*

When prompted to enter a tax identification number (tax ID) on either a paper or electronic copy of an enrollment application, the applicant should list the entity's nine-digit federal tax identification number.

Providers can call the TMHP Contact Center at 1-800-925-9126 for help with completing the application. Providers should retain a copy of the original application for future reference.

All pages of the application (excluding instructions) must be present even if the forms are left blank because they are not pertinent to the provider's situation. Providers will be notified of incomplete applications and will have 30 business days to provide the requested missing information. If the information is not provided within 30 business days, TMHP will terminate the enrollment process. If the provider wants to enroll at a later date, a new enrollment application must be submitted. Providers are required to review their enrollment application for correctness and completeness before submitting it to TMHP.

By signing the HHSC Medicaid Provider Agreement, a provider is certifying that all information submitted in connection with the application for enrollment is complete and correct. Any false, misleading, or incomplete information submitted in connection with an enrollment application constitutes a Medicaid program violation, and may result in administrative, civil, or criminal liability.

**Referto:** Subsection 1.10, "Medicaid Waste, Abuse, and Fraud Policy" in this section.

#### 1.1.9.1 Application Payment Form

All providers who are required to pay an application fee to participate in the Medicaid program must submit an Application Payment Form. The application cannot be processed if the application fee is required and is not submitted with the application.

**Referto:** Subsection 1.1.5.3, “Application Fee ” in this section.

### **1.1.9.2 HHSC Medicaid Provider Agreement**

The HHSC Medicaid Provider Agreement must be submitted by all providers who enroll in Texas Medicaid and must be signed by the provider who is applying for enrollment. If the applicant is an entity, a principal of the entity who has the authority to bind the entity to the requirements of the HHSC Provider Agreement must sign the agreement. “Principal” is defined in the following section.

**Referto:** Subsection 1.1.9.8, “Corporate Board of Directors Resolution” in this section for information about corporations.)

If the provider is city- or government-owned, the agreement must be signed by a person who is authorized under the city or government charter. This form is an agreement between HHSC and the provider performing services under the State Plan wherein the provider agrees to certain provisions as a condition of participation.

**Note:** *The person who signs the HHSC Medicaid Provider Agreement is certifying that all of the information in the application packet, including every completed Provider Information Form (PIF-1) and Principal Information Form (PIF-2), is complete and correct. This includes a certification that every person who is required to complete a PIF-2 has done so, and all required PIF-2s are included with the application.*

TMHP must receive all of the pages of the HHSC Medicaid Provider Agreement in a single submission for a valid contract. If corrections are required on any page within the agreement, a new agreement with an original signature and date is required.

### **1.1.9.3 Provider Information Form (PIF-1)**

The PIF-1 must be completed by, or on behalf of, the provider that is applying for enrollment. If the provider is an entity, the PIF-1 must be completed on behalf of the entity.

### **1.1.9.4 Principal Information Form (PIF-2)**

A PIF-2 must be completed by each principal/creditor, subcontractor, and creditor of the provider that is applying for enrollment with the following exceptions:

- Performing providers who are applying to join a group that is already enrolled
- THSteps provider applications that are received within one year of the TPI enrollment date
- Individuals who enrolled using their own Social Security number and an entity type of Individual/Sole Proprietorship

Principals of the provider include all of the following:

- An owner with a direct or indirect ownership or control interest of 5 percent or more
- Corporate officers and directors
- Limited or nonlimited partners
- Shareholders of a professional corporation, professional association, limited liability company, or other legally designated entity
- Any employee of the provider who exercises operational or managerial control over the entity or who directly or indirectly conducts the day-to-day operations of the entity
- All individuals, companies, firms, corporations, employees, independent contractors, entities, or associations that have been expressly granted the authority to act for or on behalf of the provider
- All individuals who are able to act on behalf of the provider because their authority is apparent

- An individual or entity with a security interest in a debt that is owed by the provider if the creditor's security interest is protected by at least 5 percent of property listed in Section III(c) of the Disclosure of Ownership

A subcontractor of the provider is defined as follows:

- An individual, agency, or organization to which a disclosing entity has contracted or delegated some of its management functions or responsibilities of providing medical care to its patients; or
- An individual, agency, or organization with which a fiscal agent has entered into a contract, agreement, purchase order, or lease (or leases of real property) to obtain space, supplies

**Note:** *This includes the on-site manager, supervising licensed practitioner, or medical director for each physical location of the provider in Texas.*

#### **1.1.9.5 Disclosure of Ownership and Control Interest Statement**

The Disclosure of Ownership and Control Interest Statement must be submitted as part of the enrollment application for all types of enrollment, except in the case of a performing provider who is applying to join an already enrolled group, THSteps provider applications received within one year of the TPI enrollment date, or SHARS providers. This form provides TMHP Provider Enrollment with the appropriate information to enroll the provider as a sole proprietor, corporation, partnership, or nonprofit organization. This information determines whether other enrollment forms are required.

This form also contains questions that must be answered under federal law. Failure to provide complete and accurate information as instructed on this form will constitute an incomplete application, which may result in denial of enrollment. Incomplete or inaccurate information on this form constitutes a violation of the rules of Medicaid and may also result in administrative, civil, or criminal liability.

**Referto:** Subsection 1.10, "Medicaid Waste, Abuse, and Fraud Policy" in this section.

**Note:** *Providers are required to submit any change in ownership, corporate officers, or directors to TMHP Provider Enrollment within 10 calendar days of the change.*

**Referto:** Subsection 1.6.2, "Maintenance of Provider Information" in this section.

#### **1.1.9.6 Internal Revenue Service (IRS) W-9 Form**

The IRS W-9 Form must be completed and submitted for all types of enrollment, except in the case of performing providers seeking to join an already enrolled group.

#### **1.1.9.7 Medicaid Audit Information Form**

The Medicaid Audit Information Form is required by facilities that file cost reports such as hospitals, home health agencies, FQHCs, RHCs, and dialysis facilities.

#### **1.1.9.8 Corporate Board of Directors Resolution**

All providers who indicate that they are a corporation on the Disclosure of Ownership and Control Interest Statement are required to submit the Corporate Board of Directors Resolution. This form indicates the individual (by name) who is authorized by the corporation to sign the agreement forms. The secretary of the corporation must sign the Corporate Board of Directors Resolution and have it notarized. If a business is city or government-owned, this form is not required.

#### **1.1.9.9 Franchise Tax Account Status Page**

When enrolling as a "Corporation" type of entity, providers must submit a Franchise Tax Account Status Page. This information can be obtained from the Texas State Comptroller's Office website at [www.window.state.tx.us/taxinfo/coasintr.html](http://www.window.state.tx.us/taxinfo/coasintr.html).

Providers who have a 501(c)(3) Internal Revenue Exemption are not required to submit the Franchise Tax Account Status Page, but they must submit the IRS exemption letter.

#### 1.1.9.10 Certificate of Formation or Certificate of Filing/Articles or Certificate of Incorporation/Certificate of Fact

When enrolling as a “Corporation” type of entity, providers must submit the Certificate of Formation or Certificate of Filing form. Obtain the form from the Office of the Secretary of State of Texas. The name on this form must exactly match the legal name shown on the W-9 form.

The following certificates also apply for corporations:

- For corporations formed prior to January 1, 2006, Articles or Certificate of Incorporation/Certificate of Authority/Certificate of Fact
- For corporations formed on or after January 1, 2006, Certificates of Formation or Certificate of Filing
- For corporations registered in a state other than Texas, Certificate of Authority or Certificate of Filing

The Certificate and any required certifications to provide certain services in Texas must be submitted when a corporation is registered in a state other than Texas. The form identifies the legal name of the corporation and is proof that the corporation is registered to do business in Texas.

**Note:** *Out-of-state providers that do not provide services in the state of Texas are exempt from submitting this form.*

#### 1.1.9.11 Copy of License, Temporary License, or Certification

Providers cannot enroll in Texas Medicaid if their license is due to expire within 30 days. During the enrollment process, TMHP verifies licensure using available resources. If TMHP cannot verify a license at the time of enrollment, it is the providers’ responsibility to provide a copy of the active license to TMHP. Psychologists and facilities must submit a copy of their license since these licenses cannot be verified online.

TMHP will notify the provider by letter if a copy has not been submitted and the license cannot be verified.

Once a provider is enrolled in Texas Medicaid the license or certification must be kept current. A reminder letter for renewal will be sent to the provider 60 days before the provider’s license expires.

TMHP directly obtains licensure information from the following licensing boards:

- Texas Medical Board (TMB) (for physicians only)
- Texas Board of Nursing (BON)
- Texas State Board of Dental Examiners (TSBDE)

If a license cannot be verified due to a delay in obtaining the board licensing information, providers must request a letter from the licensing board for their individual provider information and submit it to TMHP by the deadline indicated in the reminder letter. The letter must contain the provider’s specific identification information, license number, and licensure period.

All other licenses and certifications that are not issued by TMB, BON, or TSBDE must be submitted to TMHP upon renewal.

**Important:** *Providers are also required to submit to TMHP, within 10 days of occurrence, notice that the provider’s license or certification has been partially or completely suspended, revoked, or retired. Not abiding by this license and certification update requirement may impact a provider’s qualification to continued participation in Texas Medicaid.*

**Referto:** Subsection 1.1.9.14, “Licensure Renewal” in this section.

### 1.1.9.12 Federally Qualified Health Center Affiliation Affidavit

All FQHC must identify and attest that all contractual affiliation agreements with contracted providers have been submitted to and approved by the Bureau of Primary Health Care (BPHC).

- Texas Medicaid defines an affiliate agreement as a contract between an FQHC and another provider for the provision of FQHC services for which the FQHC will bill Medicaid under the FQHC prospective payment system (PPS).
- Affiliations do not include contracts for the direct employment of providers or staff.

**Referto:** [Federally Qualified Health Center Affiliation Affidavit](http://www.tmhp.com) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

### 1.1.9.13 Physician's Letter of Agreement

Upon initial enrollment and upon revalidation, Certified Nurse Midwife (CNM) or Licensed Midwife (LM) providers must complete and submit to TMHP with the Medicaid provider enrollment application the Physician's Letter of Agreement affirming the CNM's supervising physician arrangement or the LM's referring or consulting physician arrangement.

- According to HHSC rules, 1 TAC §354.1253(c), and 1 TAC §354.1252(3), CNM providers and LM providers are required to inform HHSC in writing of the identity of a licensed physician or group of physicians with whom the CNM or LM has arranged for referral and consultation in the event of medical complications. For purposes of this rule, "consultation" means discussion of patient status, care, and management.
- A separate agreement must be submitted for each physician with whom an arrangement is made. This agreement must be signed by the CNM or LM and the physician.

A new agreement must also be completed and submitted to TMHP when a new arrangement is made and when changes to an arrangement are made.

**Referto:** Subsection 1.4.2, "Provider Status (Individual, Group, Performing Provider, or Facility)" in this section.

### 1.1.9.14 Licensure Renewal

Not abiding by the license and certification update requirement may impact a provider's qualification for continued participation in Texas Medicaid. If a provider's license has expired, a deactivation letter will be sent to the provider, and all claims filed on and after the expiration date will be denied.

To have claims payments resumed, updated information must be sent to the applicable licensing board to renew the license. Payment will be considered for dates of service on or after the date of license renewal. Claims denied due to an inactive license may be appealed, and payment will be considered for dates of service on or after the date of return to active license status. Payment deadline rules for the fiscal agent arrangement must be met.

**Referto:** Subsection 6.1.5, "HHSC Payment Deadline" in "Section 6: Claims Filing" (*Vol. 1, General Information*).

### 1.1.9.15 Medicare Participation

Under federal law, Medicaid is the payor of last resort, so Medicare-covered services must first be billed to and paid by Medicare. Therefore, in order to be eligible to enroll in Texas Medicaid, a provider must be a Medicare participating provider. Certain types of providers, however, are not required to meet the Medicare participation requirement, including:

- Pediatric providers
- Family planning providers
- Case Management for Children and Pregnant Women program providers

- CCP providers
- Early Childhood Intervention (ECI) providers
- Licensed professional counselors (LPCs)
- Licensed marriage and family therapists (LMFTs)
- OB/GYN providers
- THSteps medical and dental services providers

Some provider types may apply for a waiver of the Medicare certification requirement of the application process if they do not serve Medicare-eligible individuals. The following provider types are eligible to apply for this waiver:

- Audiologist
- Dentist (D.D.S. or D.M.D.)
- Nurse practitioner/clinical nurse specialist (NP/CNS)
- Optometrist (OD)
- Orthotists
- Physician (DO)
- Physician (MD)
- Physician assistant (PA)
- Prosthetist

Each provider seeking enrollment must include a valid and current Medicare number in the Texas Medicaid Provider Enrollment Application, and must include with the application a copy of the provider's notice of Medicare participation.

Each group and each performing provider of a Medicare group must have a current Medicare number. The group enrollment application must include the current and valid Medicare number for the group and for each performing provider in the group, as well as a copy of the notice of Medicare enrollment for the group and for each performing provider in the group.

Each group enrolling as a Medicaid-only does not need to submit a current Medicare number for the group. Performing providers added to this Medicaid-only group also do not require a current Medicare number.

### **1.1.9.16 Group Information Changes**

If additions or changes occur in a group's enrollment information (for example, a performing provider leaves or enters the group, changes an address, or a provider is no longer licensed) after the enrollment process is completed, the provider group must notify Texas Medicaid in writing within 10 calendar days of occurrence of the changes. Failure to provide this information may lead to administrative action by HHSC. Filing claims and receiving payment without having followed this requirement constitutes a program violation and may also result in administrative, civil, or criminal liability.

**Referto:** Subsection 1.10, "Medicaid Waste, Abuse, and Fraud Policy" in this section for additional information.

## **1.2 Payment Information**

Texas Medicaid reimbursements are available to all enrolled providers by check or electronic funds transfer (EFT). Providers are strongly encouraged to utilize EFT, which allows for more rapid reimbursement.

### 1.2.1 Using EFT

As a result of the 76th legislature, House Bill (H.B.) 2085 recommends that all Texas Medicaid providers receive payment by EFT. EFT is a method for directly depositing funds into a designated bank account. EFT does not require special software, and providers can enroll immediately.

### 1.2.2 Advantages of EFT

Advantages of EFT include:

- Electronically-deposited funds are available more quickly than with paper checks.
- Providers do not have to worry about lost or stolen checks.
- TMHP includes provider and Remittance and Status (R&S) Report numbers with each transaction submitted. If the bank's processing software captures and displays the information, both numbers would appear on the banking statement.

### 1.2.3 EFT Enrollment Procedures

The [Electronic Funds Transfer \(EFT\) Notification](#) can be found on the TMHP website at [www.tmhp.com](http://www.tmhp.com). Completed EFT forms can be faxed to 1-512-514-4214, or mailed to:

Texas Medicaid & Healthcare Partnership  
Attn: Provider Enrollment  
PO Box 200795  
Austin, TX 78720-0795

To enroll for EFT, providers must submit a completed Electronic Funds Transfer (EFT) Authorization Agreement to TMHP. A voided check or letter on bank letterhead, containing the bank routing and account information, must be attached to the enrollment form. One completed form must be filled out for each billing provider identifier, including an original signature of the provider.

After the Electronic Funds Transfer (EFT) Authorization Agreement has been processed, TMHP issues a prenotification transaction during the next cycle directly to the provider's bank account. This transaction serves as a checkpoint to verify EFT is working correctly.

If the bank returns the prenotification without errors, the provider will begin receiving EFT transactions with the third cycle following the enrollment form processing. Providers will continue to receive paper checks until they begin to receive EFT transactions.

If the provider changes bank accounts, the provider must submit a new Electronic Funds Transfer (EFT) Authorization Agreement to TMHP Provider Enrollment. The prenotification process is repeated and, once completed, the EFT transaction is deposited to the new bank account.

**Referto:** [Electronic Funds Transfer \(EFT\) Notification](#) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

### 1.2.4 Receiving Paper Checks

Providers must have a current physical and mailing address and telephone number on file so that they can promptly receive reimbursement checks and other TMHP correspondence. Providers must send all changes to addresses and telephone numbers to:

Texas Medicaid & Healthcare Partnership  
Provider Enrollment  
PO Box 200795  
Austin, TX 78720-0795  
1-800-925-9126  
Fax: 1-512-514-4214

### 1.2.5 Stale-Dated Checks

Stale-dated checks (i.e., checks that are older than 180 days) that have not been cashed are voided and applied to either IRS levies or outstanding accounts receivable. Once a check has been voided, the associated claims may not be payable, and the transaction will be finalized after 24 months. Providers may submit a voided check appeal to TMHP Cash Financial at the following address:

Texas Medicaid & Healthcare Partnership  
Attn: Cash Financial  
12357B Riata Trace Parkway  
Austin, TX 78727

TMHP encourages providers to receive payment via EFT to eliminate stale-dating issues. EFT ensures that providers receive payments through direct deposit in a bank account of their designation.

*Referto:* Subsection 1.2.3, “EFT Enrollment Procedures” in this section.

## 1.3 Provider Deactivation/Disenrollment

Payment denial codes are applied to a TPI that has had no claim activity for a period of 24 months or more. The TPI will be considered inactive and will not be able to be used to submit claims.

A courtesy letter will be sent to all providers whose TPIs have been identified as not having any claims activity over the previous 18 months. Providers will have six months to submit claims and prevent the TPI from being deactivated. If the provider is enrolled in both Medicaid and the CSHCN Services Program, the provider identifiers for both programs will be examined to determine whether claims activity has occurred.

After 24 months without claim activity, providers will be sent a deactivation letter, and a payment denial code will be applied to their provider identifier. If a provider’s Medicaid TPI is deactivated, any enrollments associated with the inactive TPI with the CSHCN Services Program will also be deactivated. Claims that are submitted for a deactivated TPI after the payment denial code has been applied will be denied.

To have the payment denial code removed from a provider identifier, providers must submit a completed application for the state health-care program in which they wish to enroll, and the application must be approved. The information on this application must match exactly the information currently on the provider’s file for the payment denial code to be removed.

### 1.3.1 Excluded Entities and Providers

The United States Health and Human Services (HHS)-OIG and the HHSC-OIG exclude certain individuals and entities from participation in all federal or state health-care programs. The exclusions restrict individuals from receiving any reimbursement for items or services furnished, ordered, or prescribed.

All current providers and providers who are applying to participate in state health-care programs must screen their employees and contractors every month to determine whether they are excluded individuals or entities. These screenings are a condition of the provider’s enrollment or re-enrollment into state health-care programs.

Providers can determine whether an individual or entity is excluded by searching the List of Excluded Individuals/Entities (LEIE) website at [www.oig.hhs.gov/fraud/exclusions.asp](http://www.oig.hhs.gov/fraud/exclusions.asp). A downloadable version of the database is available but it does not include Social Security Numbers (SSNs) or Employer Identification numbers (EINs). The Texas HHSC-OIG website is found at <https://oig.hhsc.state.tx.us/Exclusions/Search.aspx>. If a name matches a name on the exclusion list, it can be verified online with a SSN or EIN.

Providers must search the LEIE website monthly to capture any exclusions or reinstatements that have occurred since the last search. Providers must immediately report to HHS-OIG any exclusion information they discover when searching the LEIE database.

CFR section 1003.102(a)(2), states that civil monetary penalties may be imposed against Medicaid providers and managed care entities (MCEs) that employ or enter into contracts with excluded individuals or entities to provide items or services to Medicaid clients. In addition, no Medicaid payments can be made for any items or services directed or prescribed by an excluded provider or other authorized person when the individual or entity furnishing the services either knew or should have known of the exclusion. This prohibition applies even when the Medicaid payment itself is made to another provider, practitioner, or supplier that is not excluded.

## **1.4 Provider Reenrollment**

Providers must submit a new application and a new provider identifier must be issued when there are changes in the Medicare number.

The new application may be submitted electronically using PEP or by submitting a completed paper Texas Medicaid Provider Enrollment Application. A new application is required when one of the following changes:

### **1.4.1 Medicare Number**

If Medicare has issued a new Medicare number, the provider must complete and submit a Texas Medicaid Provider Enrollment Application in order to enroll with the new information.

### **1.4.2 Provider Status (Individual, Group, Performing Provider, or Facility)**

Providers leaving group practices must send a signed letter or a Provider Information Change Form to TMHP that states the date of deactivation. The letter should include the provider identifier, effective date of deactivation, and the group's provider identifier. The letter should be signed by an authorized representative of the group or the individual provider leaving the group. If the provider is joining a new group practice has changed from a group practice to an individual enrollment or vice versa, the provider must complete and submit a new Texas Medicaid Provider Enrollment Application to request enrollment with the new status information.

### **1.4.3 Physical Address**

If a provider has changed an address and the address is within the same Medicare locality, the provider must update the address information within 10 days. Updates may be made using the online provider lookup update screen located in the administrator section of TMHP's website at [www.tmhp.com](http://www.tmhp.com). Alternatively, the provider may update the address information by completing and submitting a Provider Information Change Form. A W9 is required if the provider is changing the mailing address using a PIC form. If the address is not within the Medicare locality and Medicare has issued a new Medicare number, the provider must complete and submit a Texas Medicaid Provider Enrollment Application in order to enroll the new location. Dental providers must complete a TMHP Dental Provider Enrollment Application for each practice location.

### **1.4.4 Change in Principal Information**

As defined in subsection 1.1.9.4, "Principal Information Form (PIF-2)" in this section, change in principal information includes a change in corporate officers or directors, professional association membership, and managing employees. The change must be reported to TMHP within 10 calendar days of when it occurs.

**Referto:** Subsection 1.6.2.2, "Online Provider Lookup (OPL)" in this section.

Providers must contact the Electronic Data Interchange (EDI) help desk directly and request an Electronic Remittance & Status (ER&S) Report each time a new provider identifier is issued to the provider. This form must be completed and returned to EDI with unique identifying information related to the new provider identifier to ensure there is no suspension in the provider's ability to access their ER&S statement on the secure provider portal through [www.tmhp.com](http://www.tmhp.com).

Providers must also contact any third party EDI vendors with whom they are contracted to add any new provider identifiers to their ER&S Report. To obtain a PDF copy of the ER&S Report on the TMHP Home Page, the provider must create an administrator account for each provider identifier belonging to them.

Providers that have been issued a new provider identifier through the TMHP enrollment or re-enrollment process must ensure that any prior authorizations affected have been updated to reflect the new provider identifier.

## 1.5 Change of Ownership Requirements

The new owner must do the following:

- Obtain recertification as a Title XVIII (Medicare) facility under the new ownership
- Submit CMS Acknowledgement of Change of Ownership Letter
- Provide TMHP with a copy of the Contract of Sale (specifically, a signed agreement that includes the identification of previous and current owners in language that specifies who is liable for overpayments that were identified subsequent to the change of ownership, that includes dates of service before the change of ownership)
- Provide a separate change of ownership and Texas Medicaid provider enrollment application for all of the provider identifiers affected by the change of ownership
- Submit any new enrollment application relating to a change in ownership to TMHP Provider Enrollment within 10 calendar days of the change

When the change of ownership has been processed, the original TPI used by the provider to bill claims will be deactivated, and the provider will lose the ability to download R&S Reports from the TMHP portal as well as the ability to verify client eligibility online. Claims status inquiries through the TMHP portal will also be unavailable. After a TPI has been deactivated, the provider can call the contact center to check on client eligibility and the status of claims. Paper R&S Reports can be printed by the TMHP Contact Center, and delivered to providers, up to 30 days from the date the TPI is deactivated.

**Important:** *Providers must adhere to claim filing deadlines throughout the enrollment process. Claims should be submitted without a provider identifier until notified by TMHP of final enrollment determination. Note that claims for services that are rendered to Texas Medicaid clients are subject to a filing deadline from the date of service of 95 days for in-state providers and 365 days for out-of-state providers. For clients with retroactive eligibility, the 95-day deadline is based on the date of service or the date the client eligibility information is added to the TMHP eligibility file, whichever is later. For clients with dual Medicare and Medicaid eligibility, when a service is a benefit of both Medicare and Medicaid, the claim must be filed with Medicare first. In this case the 95-day deadline is based on the date of Medicare disposition.*

**Referto:** Subsection 6.1.4, "Claims Filing Deadlines" in "Section 6: Claims Filing" (Vol. 1, *General Information*).

## 1.6 Provider Responsibilities

### 1.6.1 Compliance with Texas Family Code

#### 1.6.1.1 Child Support

The Texas Family Code 231.006 places certain restrictions on child support obligors. Texas Family Code 231.006(d) requires a person who applies for, bids on, or contracts for state funds to submit a statement that the person is not delinquent in paying child support. This law applies to an individual whose business is a sole proprietorship, partnership, or corporation in which the individual has an ownership interest of at least 25 percent of the business entity. This law does not apply to contracts/agreements with governmental entities or nonprofit corporations.

The required statement has been incorporated into the Texas Medicaid Provider Agreement.

The law also requires that payments be stopped when notified that the contractor/provider is more than 30 days delinquent in paying child support. Medicaid payments are placed on hold when it is discovered that a currently enrolled provider is delinquent in paying child support. A provider application may be denied or terminated if the provider is delinquent in paying child support.

#### 1.6.1.2 Reporting Child Abuse or Neglect

The Texas Family Code Sec. 261.101 states: (a) A person having cause to believe that a child's physical or mental health or welfare has been adversely affected by abuse or neglect by any person shall immediately make a report as provided by this subchapter; (b) If a professional has cause to believe that a child has been abused or neglected, or may be abused or neglected, or that a child is a victim of an offense under section 21.11, Penal Code, and the professional has cause to believe that the child has been abused as defined by section 261.001 or 261.401, the professional shall make a report no later than the 48th hour after the hour the professional first suspects that the child has been, or may be abused or neglected, or is a victim of an offense under section 21.11, Penal Code. A professional may not delegate to or rely on another person to make the report. In this subsection, *professional* means an individual who is licensed or certified by the state or who is an employee of a facility licensed, certified, or operated by the state and who, in the normal course of official duties or duties for which a license or certification is required, has direct contact with children. The term includes teachers, nurses, doctors, day-care employees, employees of a clinic or health-care facility that provides reproductive services, juvenile probation officers, and juvenile detention or correctional officers.

According to Rider 19 of the General Appropriations Act, 78th Legislative Regular Session, 1999, H.B. 1, all Medicaid providers shall comply with the provisions of state law as set forth in Chapter 261 of the Texas Family Code relating to investigations of reports of child abuse and neglect and the provisions of HHSC policy. Reimbursement shall only be made to providers who have demonstrated a good faith effort to comply with child abuse reporting guidelines and requirements in Chapter 261 and HHSC policy. Provider staff shall respond to disclosures or suspicions of abuse or neglect of minors, by reporting to the appropriate agencies as required by law.

All providers shall adopt this policy as their own, report suspected sexual abuse of a child as described in this policy and as required by law, and develop internal policies and procedures that describe how to determine, document, and report instances of sexual or nonsexual abuse.

This information is also available on the HHSC and TMHP websites at [www.hhsc.state.tx.us](http://www.hhsc.state.tx.us) and [www.tmhp.com](http://www.tmhp.com).

#### 1.6.1.3 Procedures for Reporting Abuse or Neglect

Professionals as defined in the law are required to report no later than the 48th hour after the hour the professional first has cause to believe the child has been or may be abused or is the victim of the offense of indecency with a child.

Nonprofessionals shall immediately make a report after the nonprofessional has cause to believe that the child's physical or mental health or welfare has been adversely affected by abuse.

A report shall be made regardless of whether the provider staff suspect that a report may have previously been made.

Reports of abuse or indecency with a child must be made to one of the following:

- Department of Family and Protective Services (DFPS) if the alleged or suspected abuse involves a person responsible for the care, custody, or welfare of the child (the DFPS Texas Abuse/Neglect Hotline, at 1-800-252-5400, operated 24 hours a day, 7 days a week)
- Any local or state law enforcement agency
- The state agency that operates, licenses, certifies, or registers the facility in which the alleged abuse or neglect occurred
- The agency designated by the court to be responsible for the protection of children

The law requires the report to include the following information if known:

- The name and address of the minor
- The name and address of the minor's parent or the person responsible for the care, custody, or welfare of the child if not the parent
- Any other pertinent information concerning the alleged or suspected abuse

Reports can be made anonymously.

A provider may not reveal whether the child has been tested or diagnosed with human immunodeficiency virus (HIV) or acquired immunodeficiency syndrome (AIDS).

If the minor's identity is unknown (e.g., the minor is at the provider's office anonymously to receive testing for HIV or a sexually transmitted disease [STD]), no report is required.

#### **1.6.1.4 Procedures for Reporting Suspected Sexual Abuse**

All providers shall ensure that their employees, volunteers, or other staff report a victim of abuse who is a minor 14 years of age or younger who has engaged in sexual activity with any individual to whom the minor is not married. Sexual activity would be indicated if the minor is pregnant or has a confirmed STD acquired in a manner other than through perinatal transmission.

Sexual activity may include, but is not limited to, the actions described in Penal Code §21.11(a) relating to indecency with a child; §21.01(2) defining *sexual contact*; §43.01(1) or (3)-(5) defining various sexual activities; §22.011(a)(2) relating to sexual assault of a child; or §22.021(a)(2) relating to aggravated sexual assault of a child.

Providers may voluntarily use the HHSC checklist for monitoring all clients who are 14 years of age or younger, unmarried, and sexually active. The checklist, if used, as well as any report of child abuse, shall be retained as part of the client's record by each provider and made available during any monitoring conducted by HHSC.

**Referto:** [Texas Medicaid - Title XIX Acknowledgment of Hysterectomy Information](#) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

#### **1.6.1.5 Training**

All providers must develop training for all staff on the policies and procedures in regard to reporting child abuse. New staff must receive this training as part of their initial training/orientation. Training must be documented. As part of the training, staff must be informed that the staff person who conducts the screening and has cause to suspect abuse has occurred is legally responsible for reporting. A joint report may be made with the supervisor.

### **1.6.1.6 Reporting Abuse and Neglect of the Elderly or Disabled**

ARTICLE 2. ADULT PROTECTIVE SERVICES SECTION 2.01. Subchapter B, Chapter 40, Human Resources Code, Section. 48.051. REPORT state: (a) Except as prescribed by Subsection (b), a person having cause to believe that an elderly or disabled person is in the state of abuse, neglect, or exploitation, including a disabled person receiving services as described by Section 48.252, shall report the information required by Subsection (d) immediately to the Department of Health and Human Services and Department of Protective and Regulatory Services.(b) If a person has cause to believe that an elderly or disabled person, other than a disabled person receiving services as described by Section 48.252, has been abused, neglected, or exploited in a facility operated, licensed, certified, or registered by a state agency, the person shall report the information to the state agency that operates, licenses, certifies, or registers the facility for investigation by that agency.(c) The duty imposed by Subsections (a) and (b) applies without exception to a person whose knowledge concerning possible abuse, neglect, or exploitation is obtained during the scope of the person's employment or whose professional communications are generally confidential, including an attorney, clergy member, medical practitioner, social worker, and mental health professional.

(d) The report may be made orally or in writing. It shall include:

- The name, age, and address of the elderly or disabled person;
- The name and address of any person responsible for the elderly or disabled person's care;
- The nature and extent of the elderly or disabled person's condition;
- The basis of the reporter's knowledge; and
- Any other relevant information.

(e) If a person who makes a report under this section chooses to give self-identifying information, the caseworker who investigates the report shall contact the person if necessary to obtain any additional information required to assist the person who is the subject of the report.

### **1.6.1.7 Procedures for Reporting Abuse or Neglect of the Elderly or Disabled**

Sec. 48.151. ACTION ON REPORT states: (a) Not later than 24 hours after the department receives a report of an allegation of abuse, neglect, or exploitation under Section 48.051, the Department of Health and Human Services and Department of Protective and Regulatory Services shall initiate a prompt and thorough investigation as needed to evaluate the accuracy of the report and to assess the need for protective services, unless the department determines that the report:

- Is frivolous or patently without a factual basis; or
- Does not concern abuse, neglect, or exploitation, as those terms are defined by rules adopted by the executive commissioner under Section 48.002(c), except that if the executive commissioner has not adopted applicable rules under that section, the statutory definitions of those terms under Section 48.002(a) shall be used.

(b) The Department of Health and Human Services and Department of Protective and Regulatory Services have adopted rules for conducting investigations under this chapter.

(c) The Department of Human Services and Department of Protective and Regulatory Services by rule may assign priorities and prescribe investigative procedures for conducting investigations according to the degree of severity and immediacy of the alleged harm to the individual. Notwithstanding Subsection (a), the department's priorities and procedures may provide that an investigation is not required to be initiated within 24 hours in all cases.

(d) The Department of Human Services and Department of Protective and Regulatory Services shall prepare and keep on file a report of each investigation conducted by the department.

(e) This section does not apply to investigations conducted under Subchapter F or H.

## 1.6.2 Maintenance of Provider Information

Within 10 calendar days of occurrence, providers must report changes in address (physical location or accounting), telephone number, name, federal tax ID, and any other information that pertains to the structure of the provider's organization (for example, performing providers). Changes in address, office telephone or fax number, and email address should be updated online using the OPL update page. Alternatively, providers may update their address information using the PIC Form, which is available on the TMHP website. A W9 is required if the provider is changing the mailing address. A copy of the Medicare approval letter listing the additional location or site must be submitted when adding alternate physical addresses.

**Referto:** Subsection 1.6.2.2, "Online Provider Lookup (OPL)" in this section.

[Provider Information Change Form](#) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

If the physical address is not within the same Medicare locality and Medicare has issued a new Medicare number, the provider must complete and submit a Texas Medicaid Provider Enrollment Application in order to enroll the new location.

**Referto:** Subsection 1.4.1, "Medicare Number" in this section.

Providers are notified when they have an invalid address on file with TMHP. Account administrators who log onto their accounts through the TMHP website at [www.tmhp.com](http://www.tmhp.com) are notified when they have an invalid address on file for any of the TPIs associated with their NPI.

The Check Status Amount Search screen on the provider's secure homepage of the TMHP website will alert providers when payments are pending because of inaccurate or incomplete provider information. R&S Reports that are viewed on the TMHP website also notify the provider of pending payments.

Pending payments are released in the financial cycle of the following week after the address information has been updated. Payments that are pending for more than 180 days will be voided.

Other changes (in name, ownership status, federal tax ID, etc.) must be reported in writing to TMHP Provider Enrollment. Failure to notify TMHP of changes affects accurate processing and timely claims payment. In addition, failure to timely report such changes is a violation of the rules of Medicaid, and may result in administrative, civil, or criminal liability.

**Referto:** Subsection 1.10, "Medicaid Waste, Abuse, and Fraud Policy" in this section.

Providers will be prompted to verify their address(es) and make necessary changes at least once a year.

After the PIC form has been completed, it can be faxed to 1-512-514-4214, Attn: Provider Enrollment, or mailed to:

Texas Medicaid & Healthcare Partnership  
Provider Enrollment  
PO Box 200795  
Austin, TX 78720-0795

Providers should keep a copy of the completed form for their records.

### 1.6.2.1 NPI Verification

TMHP verifies NPIs with NPPES to ensure that the NPI is active. If the NPI is shown by NPPES to be inactive, TMHP will notify the provider by letter.

The provider will be allowed a 60-day grace period to contact NPPES and resolve their NPI status. If the inactive NPI has not been reinstated within the 60-day grace period, TMHP will disenroll all TPIs associated with the inactive NPI.

### 1.6.2.2 Online Provider Lookup (OPL)

The [OPL](#) is available on the public access portion of the TMHP website at [www.tmhp.com](http://www.tmhp.com). Provider information can be viewed by providers, clients, and anyone who accesses the TMHP website.

Providers with certain provider types must verify and update key demographic information every six months in the Provider Information Management System (PIMS) to ensure their information is correct in the OPL. Affected provider types include, but are not limited to, physicians, nurses, dentists, and durable medical equipment providers.

If more than six months have elapsed since the required demographic information in the OPL was verified, access to the secure provider portal is blocked until the verification takes place. Upon logging into their accounts, users with administrative rights see a list of NPIs that require verification and update. After addressing each NPI listed on the page, administrative providers are able to proceed to their accounts.

If access to the secure portal has been blocked because of needed verification, nonadministrative users are not able to perform work functions on NPIs listed on the Review Required page. Nonadministrative users are advised to notify users with administrative rights so that they can verify demographic information and remove the block.

The *My Account* page has a link to the Provider Demographic Update web page. Current information will be displayed with a button to allow editable fields to be changed. Demographic information may be updated only by authorized administrators. This authorization is controlled through the Permissions Management link, also located on the *My Account* page. Fields that can be updated online include the following:

- Primary physical address:
  - Street address lines 1 and 2
  - City, state, ZIP Code
  - County
- Telephone numbers
- Email address
- Office hours
- Accepting new clients, current clients only, or not accepting new clients
- Additional sites where services are provided
- Languages spoken
- Additional services offered
- Medicaid waiver programs
- Client age or gender limitations
- Counties served

The following enhancements have also been made to the OPL to increase overall functionality:

- Clients are able to search for providers in up to 5 counties in a single search.
- Doing business as (DBA) names appear for providers or provider groups.
- The State of Texas Access Reform (STAR) Health program has been added as a searchable health plan.
- The default ZIP Code radius for provider search has been increased to 10 miles from 5 miles.

- Providers who make address updates may receive a confirmation email from TMHP after the address has been verified and if their email address has been provided.
- Users will be able to search for providers within a ZIP Code that crosses multiple counties.

Each provider specialty and subspecialty listed in the OPL now has a corresponding definition. Users can view the definitions by clicking “more information” on either the basic or advanced search page or by hovering over the specialty on the results page. The definitions have been added to help clients locate the correct type of provider.

Providers are able to self-declare as many as three subspecialties to identify the services they offer. Providers may declare only subspecialties that are within the scope of their practice. Users are able to search for a provider on the OPL using these subspecialties.

Clients using the OPL will use drop-down boxes to select search criteria. An initial list will display all providers that meet the specified search criteria. Clicking on any name in that list will display the provider’s specific information, including a map of the office location.

Links to health maintenance organization (HMO) websites are also provided, enabling clients to search each HMO’s network of participating providers. The OPL supports both English and Spanish language users, and search results can be printed.

### 1.6.2.3 Updating NPI and Taxonomy Codes

Providers are required to provide their NPI in the enrollment application. During the enrollment process, providers must also select a primary and, if applicable, secondary taxonomy codes associated with their provider type. Due to copyright restrictions, TMHP is unable to publish the taxonomy descriptions. Providers must verify the taxonomy codes associated with their provider type and specialty before beginning the enrollment process.

**Referto:** Subsection 1.1.1, “NPI and Taxonomy Codes” in this section.

Providers must maintain and update their NPI and/or taxonomy code information with Texas Medicaid. Provider attestation can be completed under the “I would like to...” web page, which is accessed from most provider web pages on the TMHP website at [www.tmhp.com](http://www.tmhp.com). The available taxonomy code selections are auto populated according to the provider type and specialty associated with the TPI entered. The taxonomy code options may not match the taxonomy code listed in the confirmation letter received from NPPES. Providers must contact the TMHP Contact Center at 1-800-925-9126 to validate their provider type and specialty associated with their TPIs.

**Referto:** Subsection 1.6.2.4, “Updating Provider Specialty” in this section if a taxonomy code that you want to use is not available for the enrolled provider type or specialty.

**Important:** *The taxonomy code that is included in electronic transactions must match a taxonomy code that is included in the attestation record. Secondary taxonomy codes included during the attestation process are used as additional matching criteria for claims and authorization processing.*

#### 1.6.2.4 Updating Provider Specialty

Providers that have made a change in their specialty must submit their updated specialty information to Texas Medicaid. The forms that must be submitted to Texas Medicaid depend on the provider's enrollment, as follows:

- Medicare-enrolled providers whose Medicare number has not changed must submit a copy of the Medicare letter listing the updated specialty along with a PIC Form to Texas Medicaid. Providers may submit the form by fax to TMHP (Attention Provider Enrollment) at 1-512-514-4214 or by mail to:

Texas Medicaid & Healthcare Partnership  
Provider Enrollment  
PO Box 200795  
Austin, TX 78720-0795

- Providers that are not enrolled in Medicare or whose Medicare number has changed must submit a new application

**Referto:** [Provider Information Change Form](#) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

Subsection 1.4, "Provider Reenrollment" in this section for more information about provider reenrollment in Texas Medicaid.

#### 1.6.3 Retention of Records and Access to Records and Premises

The provider must maintain and retain all necessary documentation, records, R&S Reports, and claims to fully document the services and supplies provided and delivered to a client with Texas Medicaid coverage, the medical necessity of those services and supplies, costs included in cost reports or other documents used to determine a payment rate or fee, and records or documents necessary to determine whether payment for those items or services was due and was properly made for full disclosure to HHSC and its designee. A copy of the claim or R&S Reports without additional documentation will not meet this requirement.

The documentation includes the following, without limitation:

- Patient clinical health records
- Other records pertaining to the patient
- Any other records of services, items, equipment, or supplies provided to the patient and payments made for those services
- Diagnostic tests
- Documents related to diagnosis
- Charting
- Billing records
- Invoices
- Treatments
- Services
- Laboratory results
- X-rays
- Documentation of delivery of items, equipment, and supplies

Accessible information must include information that is necessary for the agencies specified in this section to perform statutory functions.

**Note:** *The required information may also include, without limitation, business and accounting records with backup support documentation, statistical documentation, computer records and data, and patient sign-in sheets and schedules. Additionally, it includes all requirements and elements described in 1 TAC §§371.1607 and 371.1667 (definition of “failure to grant immediate access”).*

The provider is required to submit original documents, records, and accompanying business records affidavits to representatives of the organizations listed in this section. These records should also be provided to any agents and contractors related to the organizations. At the discretion of the requestor, the provider may be permitted to instead provide copies notarized with the required business records affidavit. Requested records must be provided promptly and at no cost to the state or federal agency. If the provider was originally requested to provide original documents and subsequent requests for copies of these records are made by the provider, any and all costs associated with copying or reproducing any portion of the original records will be at the expense of the provider. This applies to any request for copies made by the provider at any point in the investigative process until such time as the agency deems the investigation to be finalized. A method of payment for the copying charge, approved by the agency, would be used to pay for the copying of the records. If copies of records are requested from the provider initially, the provider must submit copies of such records at no cost to the requestor's organization.

The provider must provide immediate access to the provider's premises and records for purposes of reviewing, examining, and securing custody of records, documents, electronic data, equipment, or other requested items, as determined necessary by the requestor to perform statutory functions. Nothing in this section will in any way limit access otherwise authorized under state or federal law. If, in the opinion of the Inspector General or other requestor, the documents may be provided at the time of the request or in less than 24 hours or the Inspector General or other requestor suspects the requested documents or other requested items may be altered or destroyed, the response to the request must be completed by the provider at the time of the request or in less than 24 hours as allowed by the requestor. If, in the opinion of the Inspector General or other requestor, the requested documents and other items requested cannot be completely provided on the day of the request, the Inspector General or requestor may set the deadline for production at 24 hours from the time of the original request.

Failure to supply the requested documents and other items, within the time frame specified, may result in payment hold to the provider's Medicaid payments, recoupment of payments for all claims related to the missing records, contract cancellation, and/or exclusion from Texas Medicaid.

As directed by the requestor, the provider or person will relinquish custody of the requested documents and other items and the requestor will take custody of the records, removing them from the premises. If the requestor should allow longer than “at the time of the request” to produce the records, the provider will be required to produce all records completed, at the time of the completion or at the end of each day of production, as directed by the requestor who will take custody of the requested items.

If the provider places the required information in another legal entity's records, such as a hospital, the provider is responsible for obtaining a copy of these requested records for use by the requesting state and federal agencies.

These documents and claims must be retained for a minimum period of five years from the date of service or until all audit questions, appeal hearings, investigations, or court cases are resolved. Freestanding RHCs must retain their records for a minimum of six years, and hospital-based RHCs must retain their records for a minimum of ten years. These records must be made available immediately at the time of the request to employees, agents, or contractors of HHSC OIG, the Office of the Attorney General (OAG) Medicaid Fraud Control Unit (MFCU) or Antitrust and Civil Medicaid Fraud Section, TMHP, DFPS, the Department of Aging and Disability Services (DADS), DSHS, Department of Assistive and Rehabilitative Services (DARS), U.S. Department of Health and Human Services (HHS) representative, any state or federal agency authorized to conduct compliance, regulatory, or program

integrity functions on the provider, person, or the services rendered by the provider or person, or any agent, contractor, or consultant of any agency or division delineated above. In addition, the provider must meet all requirements of 1 TAC §371.1667.

The records must be available as requested by each of these entities, during any investigation or study of the appropriateness of the Medicaid claims submitted by the provider.

#### **1.6.3.1 Payment Error Rate Measurement (PERM) Process**

CMS assesses Texas Medicaid using the PERM process to measure improper payments in Texas Medicaid. Providers will be required to provide medical record documentation to support the medical reviews that the federal review contractor will conduct for Texas Medicaid fee-for-service and Primary Care Case Management Medicaid and State Children's Health Insurance Program (SCHIP) claims.

Under the PERM process, if a claim is selected in a sample for a service that a provider rendered to a Medicaid client, the provider will be contacted to submit a copy of the medical records that support the medical review of the claim. All providers should check the TMHP system to ensure their current telephone number and addresses are correct in the system. If the information is incorrect or incomplete, providers must request a change immediately to ensure the PERM medical record request can be delivered. Client authorization for release of this information is not required.

Once a provider receives the request for medical records, the provider must submit the information electronically or in hard copy within 60-calendar days. It is important that providers cooperate by submitting all requested documentation in a timely manner because no response or insufficient documentation will count against the state as an error. This can ultimately negatively impact the amount of federal funding received by Texas for Medicaid.

#### **1.6.4 Release of Confidential Information**

Information regarding the diagnosis, evaluation, or treatment of a client with Texas Medicaid coverage by a person licensed or certified to diagnose, evaluate, or treat any medical, dental, mental/emotional disorder, or drug abuse, is confidential information that the provider may disclose only to authorized persons. Family planning information is sensitive, and confidentiality must be ensured for all clients, especially minors.

Only the client may give written permission for release of any pertinent information before client information can be released, and confidentiality must be maintained in all other respects. If a client's medical records are requested by a licensed Texas health-care provider or a provider licensed by any state, territory, or insular possession of the United States or any State or province of Canada, for purposes of emergency or acute medical care, a provider must furnish such records at no cost to the requesting provider. This includes records received from another physician or health-care provider involved in the care or treatment of the patient. If the records are requested for purposes other than for emergency or acute medical care, the provider may charge the requesting provider a reasonable fee and retain the requested information until payment is received.

The client's signature is not required on the claim form for payment of a claim, but HHSC recommends the provider obtain written authorization from the client before releasing confidential medical information. A release may be obtained by having the client sign the indicated block on the claim form after the client has read the statement of release of information that is printed on the back of the form. The client's authorization for release of such information is not required when the release is requested by and made to DADS, HHSC, DSHS, TMHP, DFPS, DARS, HHSC OIG, the MFCU or Antitrust and Civil Fraud Division, or HHS.

### 1.6.5 Compliance with Federal Legislation

HHSC complies with HHS regulations that protect against discrimination. All contractors must agree to comply with the following:

- Title VI of the Civil Rights Act of 1964 (Public Law 88-352), section 504 of the Rehabilitation Act of 1973 (Public Law 93-112), The Americans with Disabilities Act of 1990 (Public Law 101-336), Title 40, Chapter 73, of the TAC, all amendments to each, and all requirements imposed by the regulations issued pursuant to these acts. The laws provide in part that no persons in the United States (U.S.) shall, on the grounds of race, color, national origin, age, sex, disability, political beliefs, or religion, be excluded from participation in or denied any aid, care, service, or other benefits provided by federal and/or state funding, or otherwise be subjected to any discrimination
- Health and Safety Code 85.113 as described in “Model Workplace Guidelines for Businesses, State Agencies, and State Contractors” on page G-2 (relating to workplace and confidentiality guidelines on AIDS and HIV)

**Exception:** *In the case of minors receiving family planning services, only the client may consent to release of health-care information. Providers must comply with the laws and regulations concerning discrimination. Payments for services and supplies are not authorized unless the services and supplies are provided without discrimination on the basis of race, color, sex, national origin, age, or disability. Send written complaints of noncompliance to the following address:*

Executive Commissioner  
1100 West 49th Street  
Austin, TX 78756-3172

**Reminder:** *Each provider must furnish covered Medicaid services to eligible clients in the same manner, to the same extent, and of the same quality as services provided to other patients. Services made available to other patients must be made available to Texas Medicaid clients if the services are benefits of Texas Medicaid.*

### 1.6.6 Tamper-Resistant Prescription Pads

Providers are required by federal law (Public Law 110-28) to use a tamper-resistant prescription pad when writing a prescription for any drug for Medicaid clients.

Providers must take necessary steps to ensure that tamper-resistant pads are used for all written prescriptions provided to Medicaid clients. Providers may also use compliant, non-written alternatives for transmitting prescriptions such as by telephone, fax, or electronic submittal. Pharmacies are required to ensure that all written Medicaid prescriptions submitted for payment to the Vendor Drug Program are written on a compliant tamper-resistant pad.

If a prescription is not submitted on a tamper-resistant prescription form, a pharmacy may fill the prescription and obtain a compliant prescription by fax, electronic prescription, or re-written on tamper-resistant paper within 72 hours after the date the prescription was filled.

Providers may purchase tamper-resistant prescription pads from the vendor of their choice.

Special copy-resistant paper is not a requirement for prescriptions printed from electronic health records (EHRs) or ePrescribing generated prescriptions. These prescriptions may be printed on plain paper and will be fully compliant with all three categories of the tamper-resistant regulations, provided they contain at least one feature from each of the three following categories:

- Prevents unauthorized copying of completed or blank prescription forms.
- Prevents erasure or modification of information written on the prescription form.
- Prevents the use of counterfeit prescription forms.

### 1.6.7 Utilization Control — General Provisions

Title XIX of the Social Security Act, sections 1902 and 1903, mandates utilization control of all Texas Medicaid services under regulations found at Title 42 CFR, Part 456. Utilization review activities required by Texas Medicaid are completed through a series of monitoring systems developed to ensure the quality of services provided, and that all services are both medically necessary and billed appropriately. Both clients and providers are subject to utilization review monitoring. Utilization control procedures safeguard against the delivery of unnecessary services, monitor quality, and ensure payments are appropriate and according to Texas Medicaid policies, rules, and regulations. All providers identified as a result of utilization control activities are presented to HHSC-OIG to determine any and all subsequent actions.

The primary goal of utilization control activity is to identify providers with practice patterns inconsistent with the federal requirements and Texas Medicaid scope of benefits, policies, and procedures. The use of utilization control monitoring systems allows for identification of providers whose patterns of practice and use of services fall outside of the norm for their peer groups. Providers identified as exceptional are subject to an in-depth review of all Texas Medicaid billings. These review findings are presented to the HHSC-OIG to determine any necessary action. Medical records may be requested from the provider to substantiate the medical necessity and appropriateness of services billed to Texas Medicaid. Inappropriate service utilization may result in recoupment of overpayments and/or sanctions, or other administrative actions deemed appropriate by the HHSC-OIG. There are instances when a training specialist may be directed to communicate with the provider to offer assistance with the technical or administrative aspects of Texas Medicaid.

At the direction of the HHSC-OIG, a provider's claims may be manually reviewed before payment. Parameters are developed for prepayment review based on the specific areas of concern identified in each case. As part of the prepayment review process, providers are required to submit paper claims, rather than electronic claims, along with supporting medical record documentation (e.g., clinical notes, progress notes, diagnostic testing results, other reports, superbills, X-rays, and any related medical record documentation) attached to each claim for all services billed. This documentation is used to ascertain that the services billed were medically necessary, billed appropriately, and according to Texas Medicaid requirements and policies. Services inconsistent with Texas Medicaid requirements and policies are adjudicated accordingly. Claims submitted initially without the supporting medical record documentation will be denied. Additional medical record documentation submitted by the provider for claims denied as a result of the prepayment review process is not considered at a later time. A provider is removed from prepayment review only when determined appropriate by the HHSC-OIG. Once removed from prepayment review, a follow-up assessment of the provider's subsequent practice patterns is performed to monitor and ensure continued appropriate use of resources. Noncompliant providers are subject to administrative sanctions up to and including exclusion and contract cancellation, as deemed appropriate by the HHSC-OIG as defined in the rules in 1 TAC §§371.1701, 371.1703, 371.1705, 371.1707, 371.1709, 371.1711, 371.1713, and 371.1715. Providers placed on prepayment review must submit all paper claims and supporting medical record documentation to the following address:

Texas Medicaid & Healthcare Partnership  
Attention: Prepayment Review MC-A11 SURS  
PO Box 203638  
Austin, Texas 78720-3638

### 1.6.8 Provider Certification/Assignment

Texas Medicaid service providers are required to certify compliance with or agree to various provisions of state and federal laws and regulations. After submitting a signed claim to TMHP, the provider certifies the following:

- Services were personally rendered by the *billing provider* or under supervision of the billing provider, if allowed for that provider type, or under a substitute arrangement.

- The information on the claim form is true, accurate, and complete.
- All services, supplies, or items billed were medically necessary for the client's diagnosis or treatment. Exception is allowed for special preventive and screening programs (for example, family planning and THSteps).
- Health records document all services billed and the medical necessity of those services.
- All billed charges are usual and customary for the services provided. The charges must not be higher than the fees charged to private-pay patients.
- The provider will not bill Texas Medicaid for services that are provided or offered to non-Medicaid patients, without charge, discounted or reduced in any fashion including, but not limited to, sliding scales or advertised specials. Any reduced, discounted, free, or special fee advertised to the public must also be offered to Texas Medicaid clients.
- Services were provided without regard to race, color, sex, national origin, age, or handicap.
- The provider of health care and services files a claim with Texas Medicaid agreeing to accept the Medicaid reimbursement as payment in full for those services covered under Texas Medicaid. In accordance with 1 TAC §354.1005, the reimbursement for services covers the costs for a covered service, and any function incidental to the provision of a covered service (refer to subsection 1.6.9, "Billing Clients" for more information). The client with Medicaid coverage, or others on their behalf, must not be billed for the amount above that which is paid on allowed services or for services denied or reduced as a result of errors made in claims filing, claims preparation, missed filing deadlines, or failure to follow the appropriate appeal process. However, the client may be billed for noncovered services for which Texas Medicaid does not make any payment. Before providing services, providers should *always* inform clients of their liability for services that are not a benefit of Texas Medicaid, including use of the Client Acknowledgment Statement.
- The provider understands that endorsing or depositing a Texas Medicaid check is accepting money from federal and state funds and that any falsification or concealment of material fact related to payment may be grounds for prosecution under federal and state laws.

Providers must not bill for, and agree not to bill for, any service provided for which the client bears no liability to pay (i.e. free services). The only exceptions to this ban on billing for services that are free to the user are:

- Services offered by or through the Title V agency when the service is a benefit of Texas Medicaid and rendered to an eligible client
- Services included in the Texas Medicaid client's individualized education plan (IEP) or individualized family service plan (IFSP) if the services are covered under the Title XIX state plan, even though they are free to the users of the services

**Referto:** Subsection 7.2, "Services, Benefits, Limitations, and Prior Authorization" in the *Medical and Nursing Specialists, Physicians, and Physician Assistants Handbook (Vol. 2, Provider Handbooks)*.

Subsection 1.6.8.1, "Delegation of Signature Authority" in this section.

### **1.6.8.1 Delegation of Signature Authority**

A provider delegating signatory authority to a member of the office staff or to a billing service *remains responsible* for the accuracy of all information on a claim submitted for payment. A provider's employees or a billing service and its employees are equally responsible for any false billings in which they participated or directed.

If the claim is prepared by a billing service or printed by data processing equipment, it is permissible to print "Signature on File" in place of the provider's signature. When claims are prepared by a billing service, the billing service must obtain and keep a letter on file that is signed by the provider authorizing claim submission.

### **1.6.9 Billing Clients**

A provider cannot require a down payment before providing Medicaid-allowable services to eligible clients, bill, nor take recourse against eligible clients for denied or reduced claims for services that are within the amount, duration, and scope of benefits of Texas Medicaid if the action is the result of any of the following provider-attributable errors:

- Failure to submit a claim, including claims not received by TMHP
- Failure to submit a claim to TMHP for initial processing within the 95-day filing deadline (or the initial 365-day deadline, if applicable)
- Submission of an unsigned or otherwise incomplete claim such as omission of the Hysterectomy Acknowledgment Statement or Sterilization Consent Form with claims for these procedures
- Filing an incorrect claim
- Failure to resubmit a corrected claim or rejected electronic media claim within the 120-day resubmittal period
- Failure to appeal a claim within the 120-day appeal period. Errors made in claims preparation, claims submission, or appeal process
- Failure to submit a claim to TMHP within 95 days of a denial by the DSHS Family Planning Program for family planning services
- Failure to submit a claim within 95 days from the disposition date from Medicare or a primary third party insurance resource
- Failure to obtain prior authorization for services that require prior authorization under Texas Medicaid

Providers must certify that no charges beyond reimbursement paid under Texas Medicaid for covered services have been, or will be, billed to an eligible client. Federal regulations prohibit providers from charging clients a fee for completing or filing Medicaid claim forms. Providers are not allowed to charge TMHP for filing claims. The cost of claims filing is part of the usual and customary rate for doing business.

Medicaid reimbursement is considered as payment in full for those services covered under Texas Medicaid. In accordance with 1 TAC §354.1005, the reimbursement for services is intended to cover the costs for a covered service, or any function incidental to the provision of a covered service, including, but not limited to:

- Signing, completing, or providing a copy of a health assessment form, such as a physical examination form required for the eligible client's enrollment in school or participation in school or other activities;
- Providing a copy of a medical record requested:
  - By or on behalf of any health care practitioner for purposes of medical care or treatment of the eligible client;
  - As a supplement to a health assessment form or other form provided incidental to a covered service; or
  - By an eligible client, for any reason, for the first time in a one-year period; and

- Providing a copy of any subsequent amendment, supplement, or correction to a medical record requested by or on behalf of the eligible client.
- If the provider has already provided the eligible client a free copy of the medical record within a one-year period, the provider is required to provide only the amended, supplemented, or corrected portion of the record, if requested, without having to copy the entire record.

**Note:** *A provider may bill or otherwise charge a client a reasonable fee for providing a paper copy of a medical record outside of the above scenarios. A reasonable fee for providing a paper copy of the requested records shall be a charge of no more than \$25.00 for the first twenty pages and \$.50 per page for every copy thereafter per 22 TAC §165.2.*

Completion of required forms submitted by a nursing facility to the physician for signature is also considered incidental to a covered service. It is not acceptable for the physician to charge Texas Medicaid clients, their family, or the nursing facility for telephone calls, telephone consultations, or signing forms.

In accordance with current federal policy, Texas Medicaid and Texas Medicaid clients cannot be charged for the client's failure to keep an appointment. Only billings for services provided are considered for payment. Clients may not be billed for the completion of a claim form, even if it is a provider's office policy.

Letters of inquiry about client billing are sometimes sent to providers in lieu of telephone calls from TMHP representatives. In either case, it is mandatory that the questions be answered with the requested pertinent information. Upon receipt, TMHP forwards these letters to HHSC. HHSC uses the information to resolve client billing/liability issues. It is mandatory that these letters be signed, dated, and returned within ten business days.

**Referto:** *The Inpatient and Outpatient Hospital Services Handbook (Vol. 2, Provider Handbooks) for more information about spell-of-illness.*

Subsection 4.6, "Medically Needy Program (MNP)" in "Section 4: Client Eligibility" (Vol. 1, *General Information*).

[Private Pay Agreement](http://www.tmhp.com) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

### 1.6.9.1 Client Acknowledgment Statement

Texas Medicaid only reimburses services that are medically necessary or benefits of special preventive and screening programs such as family planning and THSteps. Hospital admissions denied by the Texas Medical Review Program (TMRP) also apply under this policy.

The provider may bill the client only if:

- A specific service or item is provided at the client's request.
- The provider has obtained and kept a written Client Acknowledgment Statement signed by the client that states:
  - "I understand that, in the opinion of (*provider's name*), the services or items that I have requested to be provided to me on (*dates of service*) may not be covered under the Texas Medical Assistance Program as being reasonable and medically necessary for my care. I understand that the HHSC or its health insuring agent determines the medical necessity of the services or items that I request and receive. I also understand that I am responsible for payment of the services or items I request and receive if these services or items are determined not to be reasonable and medically necessary for my care."
  - "Comprendo que, según la opinión del (*nombre del proveedor*), es posible que Medicaid no cubra los servicios o las provisiones que solicité (*fecha del servicio*) por no considerarlos razonables ni médicamente necesarios para mi salud. Comprendo que el Departamento de Salud de Texas o su agente de seguros de salud determina la necesidad médica de los servicios o de las provisiones

que el cliente solicite o reciba. También comprendo que tengo la responsabilidad de pagar los servicios o provisiones que solicité y que reciba si después se determina que esos servicios y provisiones no son razonables ni médicamente necesarios para mi salud.”

A provider is allowed to bill the following to a client without obtaining a signed Client Acknowledgment Statement:

- Any service that is not a benefit of Texas Medicaid (for example, cellular therapy).
- All services incurred on noncovered days because of eligibility or spell of illness limitation. Total client liability is determined by reviewing the itemized statement and identifying specific charges incurred on the noncovered days. Spell of illness limitations do not apply to medically necessary stays for Medicaid clients who are 20 years of age and younger.
- The reduction in payment that is due to the Medically Needy Program (MNP) is limited to children who are 18 years of age and younger and pregnant women. The client’s potential liability would be equal to the amount of total charges applied to the spend down. Charges to clients for services provided on ineligible days must not exceed the charges applied to spend down.
- All services provided as a private pay patient. If the provider accepts the client as a private pay patient, the provider must advise clients that they are accepted as private pay patients at the time the service is provided and responsible for paying for all services received. In this situation, HHSC strongly encourages the provider to ensure that the client signs written notification so there is no question how the client was accepted. Without written, signed documentation that the Texas Medicaid client has been properly notified of the private pay status, the provider cannot seek payment from an eligible Texas Medicaid client.
- The client is accepted as a private pay patient pending Texas Medicaid eligibility determination and does *not* become eligible for Medicaid retroactively. The provider is allowed to bill the client as a private pay patient if retroactive eligibility is not granted. If the client becomes eligible retroactively, the client notifies the provider of the change in status. Ultimately, the provider is responsible for filing timely Texas Medicaid claims. If the client becomes eligible, the provider *must* refund any money paid by the client and file Medicaid claims for all services rendered.

A provider attempting to bill or recover money from a client in violation of the above conditions may be subject to exclusion from Texas Medicaid.

**Important:** *Ancillary services must be coordinated and pertinent eligibility information must be shared. The primary care provider is responsible for sharing eligibility information with others (e.g., emergency room staff, laboratory staff, and pediatricians).*

### 1.6.10 General Medical Record Documentation Requirements

The Administrative Simplification Act of HIPAA mandates the use of national coding and transaction standards. HIPAA requires that the American Medical Association’s (AMA) Current Procedural Terminology (CPT) system or the American Dental Association’s (ADA) Current Dental Terminology (CDT) system be used to report professional services, including physician and dental services. Correct use of CPT and CDT coding requires using the most specific procedure code that matches the services provided based on the procedure code’s description. Providers must pay special attention to the standard CPT descriptions for the evaluation and management services. The medical record must document the specific elements necessary to satisfy the criteria for the level of service as described in CPT. Reimbursement may be recouped when the medical record does not document that the level of service provided accurately matches the level of service claimed. Furthermore, the level of service provided and documented must be medically necessary based on the clinical situation and needs of the patient.

HHSC and TMHP routinely perform retrospective reviews of all providers. HHSC ultimately is responsible for Texas Medicaid utilization review activities. This review includes comparing services billed to the client's clinical record. The following requirements are general requirements for all providers. Any mandatory requirement not present in the client's medical record subjects the associated services to recoupment.

**Note:** *This list is not all-inclusive. Additional and more specific requirements may apply to special services areas.*

**Note:** *Health-care documentation that is maintained by a provider in a client's record can be maintained in a language other than English; however, when TMHP, HHSC, or any other state/federal agency requests a written record or conducts a documentation review, this health-care documentation must be provided in English and in a timely manner.*

- (Mandatory) All entries are legible to individuals other than the author, dated (month, day, and year), and signed by the performing provider.
- (Mandatory) Medicaid-enrolled providers must submit claims with their own TPI except when under the agreement of a substitute provider or *locum tenens*.
- (Mandatory) Each page of the medical record documents the patient's name and Texas Medicaid number.
- (Mandatory) A copy of the actual authorization from HHSC or its designee (e.g., TMHP) is maintained in the medical record for any item or service that requires prior authorization.
- (Mandatory) Allergies and adverse reactions (including immunization reactions) are prominently noted in the record.
- (Mandatory) The selection of evaluation and management codes (levels of service) is supported by the client's clinical record documentation. Providers must follow either the 1995 or 1997 Documentation Guidelines for Evaluation and Management Services published by CMS, when selecting the level of service provided.
- (Mandatory) The history and physical documents the presenting complaint with appropriate subjective and objective information.
- (Mandatory) The services provided are clearly documented in the medical record with all pertinent information regarding the patient's condition to substantiate the need and medical necessity for the services.
- (Mandatory) Medically necessary diagnostic lab and X-ray results are included in the medical record and abnormal findings have an explicit notation of follow-up plans.
- (Mandatory) Necessary follow-up visits specify time of return by at least the week or month.
- (Mandatory) Unresolved problems are noted in the record.
- (Desirable) Immunizations are noted in the record as *complete* or *up-to-date*.
- (Desirable) Personal data includes address, employer, home/work telephone numbers, sex, marital status, and emergency contacts.

**Note:** *An unenrolled provider that renders services and attempts to use the TPI of a provider who is enrolled in Medicaid will not be reimbursed for the services. During retrospective review, any services that were rendered by a provider that was not enrolled in Texas Medicaid and were billed using the provider identifier of a Medicaid-enrolled provider are subject to recoupment.*

### 1.6.11 Informing Pregnant Clients About CHIP Benefits

Section 24, S.B. 1188, 79th Legislature, Regular Session, 2005, requires that Medicaid providers rendering services to a pregnant Medicaid client must inform the client of the health benefits for which the client or the client's child may be eligible under the CHIP.

CHIP is available to children whose families have low to moderate income, who earn too much money to qualify for Texas Medicaid, and who do not have private insurance. Some clients may have to pay an enrollment fee.

To qualify for CHIP, a child must be:

- A Texas resident
- 18 years of age or younger
- A citizen or legal permanent resident of the United States
- Must meet all income and resource guidelines

CHIP benefits include:

- Physician, hospital, X-ray, and lab services
- Well-baby and well-child visits
- Immunizations
- Prescription drugs
- Dental services
- DME
- Prosthetic devices (with a \$20,000 limit per 12-month period)
- Case coordination and enhanced services for children with special health-care needs and children with disabilities
- Physical, speech, and occupational therapy
- Home health services
- Transplants
- Mental health services
- Vision services
- Chiropractic services

Individuals may apply for CHIP by downloading and completing the application found on the [CHIP Apply Now](#) page of the HHSC website or by calling the toll-free CHIP number at 1-800-647-6558.

### 1.6.12 Home Health Providers

To enroll in Texas Medicaid as a provider of home health services, Home Health Services and Home and Community Support Services Agency (HCSSA) providers must complete the Texas Medicaid Provider Enrollment Application. Medicare certification is required for providers that are licensed as a Licensed and Certified Home Health Agency. Providers that are licensed as a Licensed Home Health Agency are not required to enroll in Medicare as a prerequisite to enrollment with Texas Medicaid.

Licensed and Certified Home Health agencies that are enrolled as Medicaid providers can provide personal care services (PCS) using their existing provider identifier. PCS for clients who are 20 years of age and younger will be provided by the Texas Health and Human Services Commission (HHSC) under the PCS benefit.

**Referto:** Subsection 2.11, “Personal Care Services (PCS) (CCP)” in the *Children’s Services Handbook (Vol. 2, Provider Handbooks)*.

To provide CCP services, HCSSA providers must follow the enrollment procedures in subsection 5.2, “Enrollment” in the *Children’s Services Handbook (Vol. 2, Provider Handbooks)*.

Providers may download the Texas Medicaid Provider Enrollment Application at [www.tmhp.com](http://www.tmhp.com) or request a paper application form by contacting TMHP directly at 1-800-925-9126.

Providers may also obtain the application by writing to the following address:

Texas Medicaid & Healthcare Partnership  
Provider Enrollment  
PO Box 200795  
Austin, TX 78720-0795  
1-800-925-9126  
Fax: 1-512-514-4214

Providers may request prior authorization for home health services by contacting:

Texas Medicaid & Healthcare Partnership  
Home Health Services  
PO Box 202977  
Austin, TX 78720-2977  
1-800-925-8957  
Fax: 1-512-514-4209

#### **1.6.12.1 Home Health Skilled Nursing and Home Health Aide (HHA) Services Provider Responsibilities**

Providers must be a licensed and certified home health agency, enrolled in Texas Medicaid, and must comply with all applicable federal, state, and local laws and regulations and Texas Medicaid policies and procedures. All providers must maintain written policies and procedures:

- That meet the standards of the Texas Family Code, Chapter 32 for obtaining consent for the medical treatment of clients in the absence of the primary caregiver.
- For obtaining physician signatures for all telephone orders within 14 calendar days of receipt of the order.

Providers must only accept clients on the basis of a reasonable expectation that the client's needs can be adequately met in the place of service (POS). The essential elements of safe and effective home health SN or HHA services include a trained parent, guardian, or caregiver, a primary physician, competent providers, and an environment that supports the client's health and safety needs.

Necessary primary and back-up utility, communication, and fire safety systems must be available.

**Note:** *A parent or guardian, primary caregiver, or alternate caregiver may not provide SN or HHA services to their family member even if he or she is an enrolled provider or employed by an enrolled provider.*

#### **1.6.13 Private Duty Nursing (PDN) Providers**

Home health agencies may enroll to provide PDN under the Comprehensive Care Program (CCP). RNs and licensed vocational nurses (LVNs) may enroll independently to provide PDN under CCP.

Home health agencies must do all of the following:

- Comply with provider participation requirements for home health agencies that participate in Texas Medicaid
- Comply with mandatory reporting of suspected abuse and neglect of children or adults
- Maintain written policies and procedures for obtaining consent for medical treatment for clients in the absence of the parent or guardian
- Comply with all requirements in this manual

Independently-enrolled RNs and LVNs must be enrolled as providers in CCP and comply with all of the following:

- The terms of the Texas Medicaid Provider Agreement
- All state and federal regulations and rules relating to Texas Medicaid
- The requirements of this manual, all handbooks, standards, and guidelines published by HHSC

Independently enrolled RNs and LVNs must also:

- Provide at least 30 days' written notice to clients of their intent voluntarily to terminate services except in situations of potential threat to the nurse's personal safety.
- Comply with mandatory reporting of suspected abuse and neglect of children.
- Maintain written policies and procedures for obtaining consent for medical treatment for clients in the absence of the parent or guardian.

Independently enrolled RNs must:

- Hold a current license from the Texas Board of Nursing (BON) or another compact state to practice as an RN.
- Agree to provide services in compliance with all applicable federal, state, and local laws and regulations, including the Texas Nursing Practice Act.
- Comply with accepted professional standards and principles of nursing practice.

Independently enrolled LVNs must:

- Hold a current license from the Texas BON to practice as an LVN.
- Agree to provide services in compliance with all applicable federal, state, and local laws and regulations, including the Texas Nursing Practice Act.
- Comply with accepted standards and principles of vocational nursing practice.
- Be supervised by an RN once per month. The supervision must occur when the LVN is present and be documented in the client's medical record.

#### **1.6.14 Certified Respiratory Care Practitioner (CRCP) Services**

To enroll in Texas Medicaid, a CRCP must be certified by the Department of State Health Services (DSHS) to practice under the Texas Occupations Code, Chapter 604. For CRCPs, Medicare certification is not a prerequisite for Medicaid enrollment. A provider cannot be enrolled if his license is due to expire within 30 days; a current license must be submitted. CRCPs must enroll as individual providers and comply with all applicable federal, state, and local laws and regulations.

#### **1.6.15 Physical, Occupational, and Speech Therapy Providers**

Physical therapists, occupational therapists, and speech-language pathologists must be enrolled in Texas Medicaid according to their specific licensure in order to be reimbursed for services rendered to Texas Medicaid clients.

Occupational therapists, physical therapist, physical therapy assistants, or occupational therapy assistants must be registered and licensed by the Executive Council of Physical Therapy and Occupational Therapy Examiners.

**Note:** *Auxiliary (aide, orderly, student, or technician), a licensed therapy assistant, and a licensed speech-language pathology intern (Clinical Fellow) are not eligible to enroll as therapy providers in Texas Medicaid.*

**Referto:** Subsection 1.1, “Provider Enrollment and Reenrollment” in this section for information about enrollment procedures.

Subsection 2.1.1, “Clinical Laboratory Improvement Amendments (CLIA)” in the *Radiology and Laboratory Services Handbook (Vol. 2, Provider Handbooks)*.

### **1.6.15.1 CCP Enrollment for Children’s Services—20 Years of Age and Younger**

Children’s therapy services are provided under the Comprehensive Care Program (CCP). Physical, occupational, and speech therapy providers must meet Medicaid and Health and Human Services Commission (HHSC) participation standards to enroll in CCP. All CCP providers must be enrolled in Texas Medicaid to be reimbursed for services.

The following facilities or organizations may also enroll in Texas Medicaid to provide CCP therapy services:

- Comprehensive Outpatient Rehabilitation Facilities (CORFs) and Outpatient Rehabilitation Facilities (ORFs)
- Home Health Services and Home and Community Support Services Agency (HCSSA) providers
- Early Childhood Intervention (ECI) providers
- School Health and Related Services (SHARS) providers

**Referto:** Subsection 2.1.2, “Enrollment” in the *Children’s Services Handbook (Vol. 2, Provider Handbooks)* for more information about ECI enrollment.

Subsection 3.2, “Enrollment” in the *Children’s Services Handbook (Vol. 2, Provider Handbooks)* for more information about SHARS enrollment.

### **1.6.16 Children’s Services Comprehensive Care Program (CCP)**

CCP providers must meet Medicaid and Health and Human Services Commission (HHSC) participation standards to enroll in the program. All CCP providers must be enrolled in Texas Medicaid to be reimbursed for services. Provider enrollment inquiries and application requests must be sent to the TMHP Provider Enrollment department at:

Provider Enrollment  
Texas Medicaid & Healthcare Partnership  
PO Box 200555  
Austin, TX 78720-0555

Home and community support services agencies (HCSSAs) that want to provide CCP private-duty nursing (PDN), home telemonitoring, occupational therapy, physical therapy, or speech therapy services under the licensed-only home health (LHH) category must first enroll with TMHP. To enroll with TMHP in the LHH category, an HCSSA must:

- Complete a provider enrollment form, which can be found on the TMHP website at [www.tmhp.com](http://www.tmhp.com), provide its license information, and check the “Only CCP services” box on the form.
- Obtain a Texas Provider Identifier (TPI) for CCP services.

## **1.7 Electronic Health Records (EHR) Incentive Program**

The Texas Medicaid EHR Incentive Program provides incentive payments to health-care providers and hospitals when they adopt and meaningfully use certified electronic health record technology.

The program is designed to encourage Texas health-care professionals and hospitals to make the transition to electronic health records and help build what eventually will be a statewide health information network where patient records can be shared among offices electronically.

Individual professionals and hospitals can qualify for incentive payments by adopting certified electronic health record technology that meets federal standards, then using that technology in ways that improve quality, safety, and effectiveness of patient care.

There will be three stages of meaningful use over the six-year life of the program. Providers must meet the criteria for each stage to continue receiving incentive payments.

To learn more about the program and how to participate, providers can visit [www.texasehrincentives.com](http://www.texasehrincentives.com) for a user-friendly e-learning tool, and [www.tmhp.com/Pages/HealthIT/HIT\\_Home.aspx](http://www.tmhp.com/Pages/HealthIT/HIT_Home.aspx) for the latest program news and resource documents.

For additional assistance on this and other aspects of the Texas Medicaid EHR Incentive Program, providers can email [HealthIT@tmhp.com](mailto:HealthIT@tmhp.com), call the Medicaid Electronic Health Records (EHR) Incentive Program at 1-855-831-6112, or call the TMHP Contact Center at 1-800-925-9126. Providers can find a complete list of HealthIT forms on the [HealthIT forms page](#) of the TMHP website at [www.tmhp.com](http://www.tmhp.com).

### **1.7.1 Attesting to Meaningful Use—Required Documentation for Texas Medicaid EHR Incentive Program**

Providers must maintain auditable records to support attestations made by eligible professionals (EPs) moving forward in the Texas Medicaid EHR Incentive Program from Adopt/Implement/Upgrade (AIU) to Meaningful Use (MU) Stage 1 and beyond.

To receive MU incentives, EPs must show that they are meaningfully using the certified EHR technology by reporting on MU and clinical quality measures.

The following are the required documents that must be uploaded into the Texas Medicaid EHR Incentive Program portal at the time of MU attestation:

- Numerator / Denominator Measures (Core and Menu): For the numerator/denominator measures, providers must upload into the portal an EHR-generated summary MU report, if available, that shows the numerator and denominator for each measure reported. If some measures are not included in the summary report, providers must generate separate reports or other auditable documentation for those measures. For example, screenshots showing an MU dashboard with reported measures/values would also be acceptable. Providers must ensure that the report date matches the EHR reporting period and that the report data values are for the attesting provider only.

Measures that are reported with the numerator and denominator include:

- Computerized Physician Order Entry (CPOE)
- Maintain problem list
- E-prescribing
- Active medication list
- Medication allergy list
- Record demographics
- Record vital signs
- Record smoking status
- Provide electronic copy of health information
- Provide clinical summaries
- Incorporate clinical lab test results
- Patient reminders
- Patient electronic access

- Patient-specific education resources
- Medication reconciliation
- Transition of care summary
- Yes/No Measures (Core and Menu): For the yes/no measures, Texas Medicaid requires documentation for the following measures:
  - Drug/drug and drug/allergy interaction checks enabled - Providers must include documentation, such as a screenshot or configuration page, that shows this functionality has been turned on at the time of attestation.
  - Clinical Decision Support (CDS) rule implemented - Providers must include documentation, such as a screenshot, that shows a CDS rule has been configured. For example, an upload of a screenshot from an EP's EHR configuration panel showing a CDS rule has been implemented.
  - Conduct security risk analysis: Provide a copy or documentation of a security risk analysis.
  - Generate patient lists: Provide a screenshot of the list or upload the actual list.

**Note:** *Personal health information (PHI) must first be removed in all cases.*

- Public health registry tests - For immunization, electronic lab reporting (ELR) and syndromic surveillance, providers must include documentation, such as an email or letter, from the public health agency that acknowledges the test or ongoing submission. For immunization, the IMMTRAC ID number must also be provided.
- Drug formulary checks: - Documentation is not required at the time of attestation; however, EPs should maintain an auditable record that demonstrates this measure was achieved.
- Clinical Quality Measures (CQMs): EPs may upload documentation for reported CQMs; however, it is not required during attestation.

### 1.7.2 How to Return an Electronic Health Records (EHR) Payment

Providers that have received an EHR incentive payment that they do not want or that must be returned to satisfy an EHR accounts receivable must use the following steps to ensure that the returned payment is credited properly:

- 1) Download and print the [Texas Medicaid Refund Information Form](#).
- 2) Fill out the top portion designated for provider information. This information should correspond to the Payee (recipient) of the EHR incentive payment, even if the recipient is different than the attesting provider. The Payee will supply information on the attesting provider in the section below.
- 3) Skip the claims information section.
- 4) Fill out the "Reason for the Refund" portion by placing an "X" next to "Other" and providing the following information:
  - "EHR incentive payment refund"
  - Amount
  - Check number on the check you will be sending
  - Name, NPI, and TPI of the attesting provider

- 5) Mail the completed form with the check and a copy of the Medicaid Remittance and Status (R&S) Report that shows the EHR payment to the following address:

Texas Medicaid & Healthcare Partnership  
Financial Department  
12357-B Riata Trace Parkway  
Suite 150  
Austin, TX 78727

### 1.7.3 EHR Notification and Appeal Process

HHSC follows policies and procedures defined in 1 TAC Part 15, §354.1450 (Audits of Medicaid Providers) for notification and appeal of audit findings related to overpayments of Texas Medicaid EHR Incentive payments. Providers should refer to the TAC rule for official guidance, definitions, and rules.

**Note:** Providers may submit an informal appeal of the findings in the draft audit report by email to HHSC at the following address: [EHR\\_audit\\_appeals@hhsc.state.tx.us](mailto:EHR_audit_appeals@hhsc.state.tx.us).

## 1.8 Computer-Based Training Courses for Providers

TMHP has created a web page to simplify the process of accessing the computer-based training courses that are available on the TMHP Learning Management System (LMS).

The new Computer-Based Training (CBT) web page lists all of the CBT courses that TMHP makes available free of charge to all providers. The web page arranges the CBT titles by the programs they support. Each CBT title has a link to a description of the curriculum and a link to the CBT itself, which resides on the TMHP LMS. Clicking one of the View CBT Now links takes the provider to the LMS where, after the provider logs in, the CBT starts immediately.

The procedure that providers follow to access a CBT has changed to the following:

- 1) Click **Provider Education** in the left navigation panel of any provider web page. The Provider Education home page appears.
- 2) Click **Computer-Based Training** in the left navigation panel. The CBT web page appears.
- 3) Click **View CBT Now** in the same row as the name of the CBT that you want to view. The LMS appears in a new window.
- 4) Log in to an existing account or create a new account. New visitors to the LMS can take courses immediately after they register. The selected CBT begins as soon as the login is complete.

### Additional Improvement to Training Experience

TMHP is taking additional steps to make it easier for providers to get answers to their questions more quickly, including the following:

- TMHP has started to create single-topic “training snapshots” to provide quick training to answer specific needs. Currently, there is only one training snapshot, but more are planned.
- As CBT courses are revised, TMHP is converting many of them to a series of single-topic modules, which are selected from the Main Menu slide for the CBT course. The modular structure makes it easier for providers to get the specific training that they need.

**Note:** Even if a CBT course has not yet been converted to modules, providers can jump to a specific section after the course begins by clicking on the Outline tab and selecting a slide from the list that appears.

## 1.9 Enrollment Criteria for Out-of-State Providers

Texas Medicaid covers medical assistance services provided to eligible Texas Medicaid clients while in a state other than Texas, as long as the client does not leave Texas to receive out-of-state healthcare that can be received in Texas. Services provided outside the state are covered to the same extent medical assistance is furnished and covered in Texas.

**Note:** *Border state providers (providers rendering services within 50 miles driving distance of the Texas border) are considered in-state providers.*

The administrative rules governing the enrollment of out-of-state providers are found in Title 1, Texas Administrative Code (TAC) §352.17. The rule provides that a Medicaid applicant or re-enrolling provider is considered out-of-state if any of the following criteria are met:

- The physical address where services are or will be rendered is located outside the Texas state border and within the United States.
- The physical address where the services or products originate or will originate is located outside the Texas state border and within the United States when providing services, products, equipment, or supplies to a Medicaid recipient in the state of Texas.
- The physical address where services are or will be rendered is located within the Texas state border, but:
  - The applicant or re-enrolling provider maintains all patient records, billing records, or both, outside the Texas state border and
  - The applicant or re-enrolling provider is unable to produce the originals or exact copies of the patient records or billing records, or both, from the location within the Texas state border where services are rendered.

An applicant or re-enrolling provider that is considered out-of-state is ineligible to participate in Medicaid unless HHSC or its designee approves the enrollment on the basis that the applicant has provided, is providing, or will provide services under one or more of the following criteria:

- The services are medically necessary emergency services to a recipient who is located outside of the state.

**Note:** *An out-of-state provider seeking enrollment under this criterion must include with the enrollment application a copy of the claim that contains the diagnosis that indicates emergency care or medical record documentation. The documentation must demonstrate that emergency care was provided to a Texas Medicaid client. Providers enrolled under this criterion will be given a time limited enrollment not to exceed one year.*

- The services are medically necessary to a recipient who is located outside of the state, and in the expert opinion of the recipient's attending or other provider, the recipient's health would be or would have been endangered if the recipient were required to travel to Texas.

**Note:** *An out-of-state provider seeking enrollment under this criterion must include supporting clinical records, signed by the attending provider, explaining why the client's health would be or would have been endangered if the client had been required to travel to Texas. Providers enrolled under this criterion will be given a time limited enrollment not to exceed one year.*

- The services are medically necessary and more readily available to a recipient in the state where the recipient is located.

**Note:** *An out-of-state provider that seeks enrollment under this criterion must include supporting clinical records, signed by the attending provider, explaining why the services are more readily available in the state where the client is located. Providers that are enrolled under this criterion may be enrolled for a limited period of time.*

- The services are medically necessary to a recipient who is eligible on the basis of participation in an adoption assistance or foster care program administered by the Texas Department of Family and Protective Services under Title IV-E of the Social Security Act.

**Note:** *An out-of-state provider that seeks enrollment under this criterion must include documentation showing that the client is an adopted child or is in a foster care program and/or is receiving adoption subsidies through the programs listed in this criterion. Providers that are enrolled under this criterion may be enrolled for a limited period of time.*

- The services are medically necessary and have been prior authorized by HHSC or its designee, and documented medical justification indicating the reasons the recipient must obtain medical care outside Texas is furnished to HHSC or its designee before providing the services and before payment.

**Note:** *An out-of-state provider that seeks enrollment under this criterion must include documentation showing that the service has been prior authorized by HHSC or its designee (TMHP, or MCO), or supporting clinical documentation (signed by the attending provider) indicating the reasons why the recipient must obtain medical care outside of Texas. Providers that are enrolled under this criterion may be enrolled for a limited period of time.*

- The services are medically necessary and it is the customary or general practice of Medicaid recipients in a particular locality within Texas to obtain services from the out-of-state provider, if the provider is located in the United States and within 50 miles driving distance from the Texas state border, or as otherwise demonstrated on a case-by-case basis.

**Note:** *An out-of-state provider does not meet the criterion in this paragraph merely on the basis of having established business relationships with one or more providers that participate in Medicaid. Attach signed letter from the provider stating why it is customary or general practice of clients in a particular locality within Texas to obtain services from the out-of-state provider. Providers that are enrolled under this criterion may be enrolled for a limited period of time.*

- The services are medically necessary and the nature of the service is such that providers for this service are limited or not readily available within the state of Texas.

**Note:** *An out-of-state provider that seeks enrollment under the criterion must include documentation showing that the services provided by the applicant are medically necessary and are limited or not readily available within the state of Texas.*

- The services are medically necessary services to one or more dually eligible recipients (i.e., recipients who are enrolled in both Medicare and Medicaid) and the out-of-state provider may be considered for reimbursement of co-payments, deductibles, and co-insurance, in which case the enrollment will be restricted to receiving reimbursement only for the Medicaid-covered portion of Medicare crossover claims.

**Note:** *An out-of-state provider that seeks enrollment under this criterion must include documentation for why this criterion applies, Medicare EOB or MRAN, with documented medical justification as well as any additional information requested by HHSC or its designee. Providers that are enrolled under this criterion may be enrolled for a limited period of time.*

- The services are provided by a pharmacy that is a distributor of a drug that is classified by the U.S. Food and Drug Administration (FDA) as a limited distribution drug.

**Note:** *An out-of-state provider that seeks enrollment under this criterion must include with the enrollment application documentation for why this criterion applies with documented medical justification as well as any additional information requested by HHSC or its designee. Attach signed letter from the provider stating that the enrolling pharmacy is a distributor of a drug that is classified by FDA as a limited distribution drug, include a letter from the FDA stating that the aforementioned drug is considered a limited distribution drug. Providers that are enrolled under this criterion may be enrolled for a limited period of time.*

- The services are medically necessary and one or more of the following exceptions for good cause exist and can be documented:
  - Texas Medicaid enrolled providers rely on the services provided by the applicant.
  - Applicant maintains existing agreements as a participating provider through one or more Medicaid managed care organizations (MCO) and enrollment of the applicant leads to more cost-effective delivery of Medicaid services.
- A laboratory may participate as an in-state provider under any program administered by a health and human services agency, including HHSC, that involves laboratory services, regardless of the location where any specific service is performed or where the laboratory's facilities are located if:
  - The laboratory or an entity that is a parent, subsidiary, or other affiliate of the laboratory maintains laboratory operations in Texas;
  - The laboratory and each entity that is a parent, subsidiary, or other affiliate of the laboratory, individually or collectively, employ at least 1,000 persons at places of employment located in this state; and
  - The laboratory is otherwise qualified to provide the services under the program and is not prohibited from participating as a provider under any benefits programs administered by a health and human services agency, including HHSC, based on conduct that constitutes fraud, waste, or abuse.

Out-of-state providers that seek enrollment under one or more of the above criteria must submit an enrollment application and be approved for enrollment.

TMHP must receive claims from out-of-state providers within 365 days from the date of service.

**Referto:** Subsection 10.2.1, "Prior Authorization" in the *Medical and Nursing Specialists, Physicians, and Physician Assistants Handbook* (Vol. 2, *Provider Handbooks*).

## 1.10 Medicaid Waste, Abuse, and Fraud Policy

The OIG has the responsibility to identify and investigate cases of suspected waste, abuse, and fraud in Medicaid and other health and human services programs. This responsibility, granted through state and federal law, gives the OIG the authority to pursue administrative sanctions and to refer cases to prosecutors, licensure and certification boards, and other agencies. Additionally, Texas Medicaid is required to disenroll or exclude any provider who has been disenrolled or excluded from Medicare or any other state health-care program.

Anyone participating in Texas Medicaid must understand the requirements for participation. Available methods both to learn and stay up to date on program requirements include the following:

- *Provider education.* Attendance at educational workshops and training sessions. Regular training opportunities are offered by TMHP.
- *Texas Medicaid publications.* These include the *Texas Medicaid Provider Procedures Manual* and banner messages, which are included in R&S Reports.
- *All adopted agency rules.* These include those related to fraud, waste, and abuse contained in 1 TAC Chapter 371.
- *State and federal law.* Statutes and other law pertinent to Texas Medicaid and fraud, waste, and abuse within Texas Medicaid.

In addition, providers are responsible for the delivery of health-care items and services to Medicaid clients in accordance with all applicable licensure and certification requirements and accepted health care professionals' community standards. Such standards include those related to medical record and claims filing practices, documentation requirements, and records maintenance. The TAC requires providers to follow these standards. For more information, consult 1 TAC §371.1659.

Texas Medicaid providers must follow the coding and billing requirements of the *Texas Medicaid Provider Procedures Manual* (TMPPM). However, if coding and billing requirements for a particular service are not addressed in the TMPPM, and if coding and billing requirements are not otherwise specified in program policy (such as in provider bulletins or banners), then providers must follow the most current coding guidelines. These include:

- CPT as set forth in the American Medical Association's most recently published "CPT books", "CPT Assistant" monthly newsletters, and other publications resulting from the collaborative efforts of American Medical Association with the medical societies.
- Healthcare Common Procedure Coding System (HCPCS) as developed and maintained by the federal government.
- National Correct Coding Initiative (NCCI), as set forth by the CMS and as explained in the NCCI Policy and Medicare Claims Processing Manuals. NCCI consists of procedure code combinations that a provider must not bill together. One of the codes in the pair is considered a part of the primary procedure and not reimbursable to the same provider on the same date of service.

**Exception:** *NCCI outlines use of modifiers some of which are not currently recognized by Texas Medicaid. See the list of modifiers utilized by Texas Medicaid in subsection 6.3.5, "Modifiers" in "Section 6: Claims Filing" (Vol. 1, General Information).*

- *Current Dental Terminology* (CDT) as published by the American Dental Association (ADA).
- Other publications resulting from the collaborative efforts of the ADA with dental societies.
- *International Classification of Diseases*, 10th Revision, Clinical Modification (ICD-10-CM).
- *Diagnostic and Statistical Manual of Mental Disorders* (DSM).

Failure to comply with the guidelines provided in these publications may result in a provider being found to have engaged in one or more program violations listed in 1 TAC §371.1659.

All providers are held responsible for any claims preparation or other activities that may be performed under the provider's authority. For example, providers are held responsible for any omissions and the accuracy of submitted information, even if those actions are performed by office staff, contractors, or billing services. This, however, does not absolve these other individuals for their participation in any documents provided to the state or designee with false, inaccurate, or misleading information; or pertinent omissions.

HHSC-OIG may impose one or any combination of administrative actions or administrative sanctions on Texas Medicaid providers or other persons when fraud, waste, or abuse is determined. Those who may be sanctioned include:

- Those furnishing services or items directly or indirectly.
- Those billing for services.
- Those violating any of the provisions delineated in this section.
- Affiliates of a provider or person violating any of the provisions delineated in this section.

Administrative sanctions include, without limitation:

- Exclusion from program participation for a specified period of time, permanently, or indefinitely. Anyone excluded from Texas Medicaid is also automatically excluded from all programs under Titles V and XX of the Social Security Act.
- Suspension of Medicaid payments (payment hold) to a provider.
- Recoupment of Medicaid overpayments, including any overpayments determined through statistical sampling and extrapolation.
- Restricted Medicaid reimbursement (specific services will not be reimbursed to an individual provider during the time the provider is on restricted reimbursement; however, reimbursement for other services may continue).
- Cancellation of the Medicaid provider agreement (however, a deactivation in accordance with the agreement itself is not considered a sanction).
- Exclusion or suspension under the authority of the CFR.

Administrative actions include:

- Amending a provider agreement so that it will deactivate on a specific date.
- Granting an agreement or transferring a provider to an agreement with special terms or conditions, including a probationary agreement.
- Required attendance at provider education sessions.
- Prior authorization of selected services.
- Pre-payment review.
- Post-payment review.
- Required attendance at informal or formal provider corrective action meetings.
- Submission of additional documentation or justification that is not normally required to accompany submitted claims. (Failure to submit legible documentation or justification requested will result in denial of the claim.)
- Oral, written, or personal educational contact with the provider.
- Posting of a surety bond or providing a letter of credit.
- Having a subpoena served to compel an appearance for testimony or the production of relevant evidence, as determined by the HHSC-OIG.

Anyone facing an administrative sanction has a right to formal due process. This formal due process may include a hearing before an administrative law judge. Conversely, anyone facing an administrative action is not entitled to formal due process. People who induce, solicit, receive, offer, or pay any remuneration (including, but not limited to, bribes, kickbacks, or rebates) directly or indirectly in relation to referrals, purchases, leases, or arrangements of services covered by Medicare or Texas Medicaid may be in violation of state statutes and guilty of a federal felony offense. State law also allows for the suspension of providers convicted of a criminal offense related to Medicare or Texas Medicaid. The commission of a felony in Medicaid or Medicare programs may include fines or imprisonment ranging from five years to life in prison. Examples of inducements include a service, cash in any amount, entertainment, or any item of value.

As stated in 1 TAC §§371.1651-371.1669, following is a nonexclusive list of grounds or criteria for the Inspector General's administrative enforcement and/or referral for criminal, civil, or licensure or certification investigation and judicial action regarding program violations by any provider or person.

Violations result from a provider or person who knew or should have known the following were violations. The headings of each of the following groups are provided solely for organization and convenience and are not elements of any program violation.

1) Claims and Billing.

- a) Submitting or causing to be submitted a false statement or misrepresentation, or omitting pertinent facts when claiming payment under the Texas Medicaid or other HHS program or when supplying information used to determine the right to payment under the Texas Medicaid or other HHS program;
- b) Submitting or causing to be submitted a false statement, information or misrepresentation, or omitting pertinent facts to obtain greater compensation than the provider is legally entitled to;
- c) Submitting or causing to be submitted a false statement, information or misrepresentation, or omitting pertinent facts to meet prior authorization requirements;
- d) Submitting or causing to be submitted under Title XVIII (Medicare) or a state health-care program claims or requests for payment containing unjustified charges or costs for items or services that substantially exceed the person's usual and customary charges or costs for those items or services to the public or the private pay patients unless otherwise authorized by law;
- e) Submitting or causing to be submitted claims with a pattern of inappropriate coding or billing that results in excessive costs to the Texas Medicaid or other HHS program;
- f) Billing or causing claims to be filed for services or merchandise that were not provided to the recipient;
- g) Submitting or causing to be submitted a false statement or misrepresentation that, if used, has the potential of increasing any individual or state provider payment rate or fee;
- h) Submitting or causing to be submitted to the Texas Medicaid or other HHS program a cost report containing costs not associated with Texas Medicaid or other HHS program or not permitted by Texas Medicaid or other HHS program policies;
- i) Presenting or causing to be presented to an operating agency or its agent a claim that contains a statement or representation that the person knows or should have known to be false;
- j) Billing or causing claims to be submitted to the Texas Medicaid or other HHS program for services or items furnished personally by, at the medical direction of, or on the prescription or order of a person who is excluded from Texas Medicaid, other HHS program, or Medicare or has been excluded from and not reinstated within Texas Medicaid, other HHS program, or Medicare;
- k) Billing or causing claims to be submitted to the Texas Medicaid or other HHS program for services or items that are not reimbursable by the Texas Medicaid or other HHS program;
- l) Billing or causing claims to be submitted to the Texas Medicaid or other HHS program for a service or item which requires a prior order or prescription by a licensed health-care practitioner when such order or prescription has not been obtained;
- m) Billing or causing claims to be submitted to the Texas Medicaid or other HHS program for an item or service substituted without authorization for the item or service ordered, prescribed or otherwise designated by the Texas Medicaid or other HHS program;
- n) Billing or causing claims to be submitted to the Texas Medicaid or other HHS program by a provider or person who is owned or controlled, directly or indirectly, by an excluded person;  
*and*

- o) Billing or causing claims to be submitted to the Texas Medicaid or other HHS program by a provider or person for charges in which the provider discounted the same services for any other type of patient.
- 2) Records and Documentation.
- a) Failing to maintain for the period of time required by the rules relevant to the provider in question records and other documentation that the provider is required by federal or state law or regulation or by contract to maintain in order to participate in the Texas Medicaid or other HHS program or to provide records or documents upon request for any records or documents determined necessary by the Inspector General to complete their statutory functions related to a fraud and abuse investigation. Such records and documentation include, without limitation, those necessary:
    - i) To verify specific deliveries, medical necessity, medical appropriateness, and adequate written documentation of items or services furnished under Title XIX or Title XX;
    - ii) To determine in accordance with established rates appropriate payment for those items or services delivered;
    - iii) To confirm the eligibility of the provider to participate in the Texas Medicaid or other HHS program; e.g., medical records (including, without limitation, X-rays, laboratory and test results, and other documents related to diagnosis), billing and claims records, cost reports, managed care encounter data, financial data necessary to demonstrate solvency of risk-bearing providers, and documentation (including, without limitation, ownership disclosure statements, articles of incorporation, by-laws, and corporate minutes) necessary to demonstrate ownership of corporate entities; *and*
    - iv) To verify the purchase and actual cost of products;
  - b) Failing to disclose fully and accurately or completely information required by the Social Security Act and by 42 CFR Part 455, Subpart B; 42 CFR Part 420, Subpart C; 42 CFR §1001.1101; and 42 CFR Part 431;
  - c) Failing to provide immediate access, upon request by a requesting agency, to the premises or to any records, documents, and other items or equipment the provider is required by federal or state law or regulation or by contract to maintain in order to participate in the Texas Medicaid or other HHS program (see subparagraphs (a) and (b) of this paragraph), or failing to provide records, documents, and other items or equipment upon request that are determined necessary by the Inspector General to complete their statutory functions related to a fraud and abuse investigation, including without limitation all requirements specified in 1 TAC §§371.1701, 371.1703, 371.1705, 371.1707, 371.1709, 371.1711, 371.1713, and 371.1715 of this subchapter. “Immediate access” is deemed to be within 24 hours of receiving a request, unless the requesting agency has reason to suspect fraud or abuse or to believe that requested records, documents, or other items or equipment are about to be altered or destroyed, thereby necessitating access at the actual time the request is presented or, in the opinion of the Inspector General, the request may be completed at the time of the request and/or in less than 24 hours;
  - d) Developing false source documents or failing to sign source documents or to retain supporting documentation or to comply with the provisions or requirements of the operating agency or its agents pertaining to electronic claims submittal; *and*
  - e) Failing as a provider, whether individual, group, facility, managed care or other entity, to include within any subcontracts for services or items to be delivered within Texas Medicaid all information that is required by 42 CFR §434.10(b).
- 3) Program-Related Convictions.
- a) Pleading guilty or nolo contendere, agreeing to an order of probation without adjudication of guilt under deferred adjudication, or being a defendant in a court judgment or finding of guilt

- for a violation relating to performance of a provider agreement or program violation of Medicare, Texas Medicaid, other HHS program, or any other state's Medicaid program;
- b) Pleading guilty or being convicted of a violation of state or federal statutes relating to dangerous drugs, controlled substances, or any other drug-related offense;
  - c) Pleading guilty of, being convicted of, or engaging in conduct involving moral turpitude;
  - d) Pleading guilty or being convicted of a violation of state or federal statutes relating to fraud, theft, embezzlement, breach of fiduciary responsibility, or other financial misconduct relating to the delivery of a health-care item or service or relating to any act or omission in a program operated or financed by any federal, state, or local government agency;
  - e) Being convicted in connection with the interference with or obstruction of any investigation into any criminal offense that would support mandatory exclusion under 1 TAC §371.1705 of this subchapter or any offense listed within paragraph (3) of this subsection regarding program-related convictions; *and*
  - f) Being convicted of any offense that would support mandatory exclusion under 1 TAC §371.1705 of this subchapter.
- 4) Provider Eligibility.
- a) Failing to meet standards required for licensure, when such licensure is required by state or federal law, administrative rule, provider agreement, or provider manual for participation in the Texas Medicaid or other HHS program;
  - b) Being excluded, suspended or otherwise sanctioned within any federal program involving the provision of health care;
  - c) Being excluded, suspended or otherwise sanctioned under any state health-care program for reasons bearing on the person's professional competence, professional performance or financial integrity;
  - d) Failing to fully and/or correctly complete a Provider Enrollment Agreement, Provider Re-enrollment Agreement or other enrollment form prescribed by the relevant operating agency or its agent for enrollment; *and*
  - e) Loss or forfeiture of corporate charter.
- 5) Program Compliance.
- a) Failing to comply with the terms of the Texas Medicaid or other HHS program contract or provider agreement, assignment agreement, the provider certification on the Texas Medicaid or other HHS program claim form, or rules or regulations published by the Commission or a Medicaid or other HHS operating agency;
  - b) Violating any provision of the Human Resources Code, Chapter 32 or 36, or any rule or regulation issued under the Code;
  - c) Submitting a false statement or misrepresentation or omitting pertinent facts on any application or any documents requested as a prerequisite for the Texas Medicaid or other HHS program participation;
  - d) Refusing to execute or comply with a provider agreement or amendments when requested;
  - e) Failing to correct deficiencies in provider operations after receiving written notice of them from an operating agency, the commission or their authorized agents;
  - f) Failing to abide by applicable federal and state law regarding handicapped individuals or civil rights;

- g) Failing to comply with the Texas Medicaid or other HHS program policies, published Texas Medicaid or other HHS program bulletins, policy notification letters, provider policy or procedure manuals, contracts, statutes, rules, regulations, or interpretation previously sent to the provider by an operating agency or the commission regarding any of the authorities listed above, including statutes or standards governing occupations;
- h) Failing to fully and accurately make any disclosure required by the Social Security Act, §1124 or §1126;
- i) Failing to disclose information about the ownership of a subcontractor with whom the person has had business transactions in an amount exceeding \$25,000 during the previous 12 months or about any significant business transactions (as defined by HHS) with any wholly-owned supplier or subcontractor during the previous five years;
- j) Failing, as a hospital, to comply substantially with a corrective action required under the Social Security Act, §1886(f)(2)(B);
- k) Failing to repay or make arrangements that are satisfactory to the commission to repay identified overpayments or other erroneous payments or assessments identified by the commission or any Texas Medicaid or other HHS program operating agency;
- l) Committing an act described as grounds for exclusion in the Social Security Act, §1128A (civil monetary penalties for false claims) or §1128B (criminal liability for health care violations);
- m) Defaulting on repayments of scholarship obligations or items relating to health profession education made or secured, in whole or in part, by HHS or the state when they have taken all reasonable steps available to them to secure repayment;
- n) Soliciting or causing to be solicited, through offers of transportation or otherwise, Texas Medicaid or other HHS program recipients for the purpose of delivering to those recipients health-care items or services;
- o) Marketing, supplying or selling confidential information (e.g., recipient names and other recipient information) for a use that is not expressly authorized by the Texas Medicaid or other HHS program; *and*
- p) Failing to abide by applicable statutes and standards governing providers.

**Important:** *Providers must comply with their applicable licensing agency's laws and regulations, including any related to marketing and advertising, and any applicable state and federal laws and regulations, contractual requirements, and other guidance documents. Providers are encouraged to review the "Provider Marketing Guidelines," which are available on the TMHP website at [www.tmhp.com](http://www.tmhp.com).*

6) Delivery of Health-Care Services.

- a) Failing to provide health-care services or items to Texas Medicaid or other HHS program recipients in accordance with accepted medical community standards or standards required by statute, regulation, or contract, including statutes and standards that govern occupations;
- b) Furnishing or ordering health-care services or items for a recipient-patient under Title XVIII or a state health-care program that substantially exceed the recipient's needs, are not medically necessary, are not provided economically or are of a quality that fails to meet professionally recognized standards of health care; *and*
- c) Engaging in any negligent practice that results in death, injury, or substantial probability of death or injury to the provider's patients.

## 7) Improper Collection and Misuse of Funds.

- a) Charging recipients for services when payment for the services was recouped by the Texas Medicaid or another HHS program for any reason;
- b) Misapplying, misusing, embezzling, failing to promptly release upon a valid request, or failing to keep detailed receipts of expenditures relating to any funds or other property in trust for a Texas Medicaid or other HHS program recipient;
- c) Failing to notify and reimburse the relevant operating agency or the commission or their agents for services paid by the Texas Medicaid or other HHS programs if the provider also receives reimbursement from a liable third party;
- d) Rebating or accepting a fee or a part of a fee or charge for a Texas Medicaid or other HHS program patient referral;
- e) Requesting from a recipient in payment for services or items delivered within the Texas Medicaid or other HHS program any amount that exceeds the amount the Texas Medicaid or other HHS program paid for such services or items, with the exception of any cost-sharing authorized by the program; *and*
- f) Requesting from a third party liable for payment of the services or items provided to a recipient under the Texas Medicaid or other HHS program, any payment other than as authorized at 42 CFR §447.20.

## 8) Licensure Actions.

- a) Having a voluntary or involuntary action taken by a licensing or certification agency or board that requires the provider or employee to comply with professional practice requirements of the board after the board receives evidence of noncompliance with licensing or certification requirements; *and*
- b) Having its license to provide health care revoked, suspended, or probated by any state licensing or certification authority, or losing a license or certification, because of action based on assessment of the person's professional competence, professional performance, or financial integrity, non-compliance with Health and Safety Code, statutes governing occupations, or surrendering a license or certification while a formal disciplinary proceeding is pending before licensing or certification authorities when the proceeding concerns the person's professional competence, professional performance, or financial integrity.

## 9) MCOs and Persons Providing Services or Items Through Managed Care.

**Note:** *This paragraph includes those program violations that are unique to managed care; paragraphs (1) through (8) and (11) of this section also apply to managed care.*

- a) Failing, as an MCO, or an association, group or individual health-care provider furnishing services through an MCO, to provide to recipient enrollee a health-care benefit, service or item that the organization is required to provide under its contract with an operating agency;
- b) Failing, as an MCO or an association, group or individual health-care provider furnishing services through an MCO, to provide to an individual a health-care benefit, service or item that the organization is required to provide by state or federal law, regulation or program rule;
- c) Engaging, as an MCO, in actions that indicate a pattern of wrongful denial or payment for a health-care benefit, service or item that the organization is required to provide under its contract with an operating agency;
- d) Engaging, as an MCO, in actions that indicate a pattern of wrongful delay of at least 45 days or a longer period specified in the contract with an operating agency, not to exceed 60 days, in making payment for a health-care benefit, service or item that the organization is required to provide under its contract with an operating agency;

- e) Engaging, as an MCO or an association, group or individual health-care provider furnishing services through managed care, in a fraudulent activity in connection with the enrollment in the organization's managed care plan of an individual eligible for medical assistance or in connection with marketing the organization's services to an individual eligible for medical assistance;
- f) Discriminating against enrollees or prospective enrollees on any basis, including, without limitation, age, gender, ethnic origin or health status;
- g) Failing, as an MCO, to comply with any term within a contract with a Texas Medicaid or other HHS program operating agency to provide healthcare services to Texas Medicaid or HHS program recipients; and
- h) Failing, as an MCO, reasonably to provide to the relevant operating agency, upon its written request, encounter data and/or other data contractually required to document the services and items delivered by or through the MCO to Texas Medicaid or other HHS program recipients.

10) Cost-Report Violations.

- a) Reporting noncovered or nonchargeable services as covered items; e.g., incorrectly apportioning or allocating costs on cost reports; including costs of noncovered services, supplies or equipment in allowable costs; arrangements between providers and employees, related parties, independent contractors, suppliers, and others that appear to be designed primarily to overstate the costs to the program through various devices (such as commissions or fee splitting) to siphon-off or conceal illegal profits;
- b) Reporting costs not incurred or which were attributable to nonprogram activities, other enterprises or personal expenses;
- c) Including unallowable cost items on a cost report;
- d) Manipulating or falsifying statistics that result in overstatement of costs or avoidance of recoupment, such as incorrectly reporting square footage, hours worked, revenues received, or units of service delivered;
- e) Claiming bad debts without first genuinely attempting to collect payment;
- f) Depreciating assets that have been fully depreciated or sold or using an incorrect basis for depreciation; *and*
- g) Reporting costs above the cost to the related party.

11) Kickbacks and Referrals.

- a) Violating any of the provisions specified in 1 TAC §371.1655 (30) of this subchapter relating to kickbacks, bribes, rebates, referrals, inducements, or solicitation;
- b) As a physician, referring a Texas Medicaid or other HHS program patient to an entity with which the physician has a financial relationship for the furnishing of designated health services, payment for which would be denied under Title XVIII (Medicare) pursuant to §1877 and §1903(s) of the Social Security Act (Stark I and II). Neither federal financial participation nor this state's expenditures for medical assistance under the state Medicaid plan may be used to pay for services or items delivered within the program and within a relationship that violates Stark I or II. The Commission hereby references and incorporates within these rules the federal regulations promulgated pursuant to Stark I and II, and expressly recognizes all exceptions to the prohibitions on referrals established within those rules;
- c) Failing to disclose documentation of financial relationships necessary to establish compliance with Stark I and II, as set forth in subparagraph (b) of this paragraph; *and*

- d) Offering to pay or agreeing to accept, directly or indirectly, overtly or covertly any remuneration in cash or in kind to or from another for securing or soliciting a patient or patronage for or from a person licensed, certified, or registered or enrolled as a provider or otherwise by a state health-care regulatory or health and human service agency.

Involvement in any of these practices may result in provider exclusion or suspension from Texas Medicaid. Providers are notified in writing of any actions taken as well as procedures for appeal and reinstatement. The written notification will specify the date on which Medicaid program participation may resume. The reinstated person may then apply for a contract or provider agreement.

Providers and individuals who have been excluded from Texas Medicaid may be reinstated only by HHSC-OIG. If HHSC-OIG approves an individual's request for reinstatement, a written notice will be sent to that individual. The provider must first be reinstated into Medicaid and receive written notification specifying the date on which Medicaid program participation may resume. Once the provider has been reinstated into Medicaid, the provider may then apply for a contract or provider agreement.

Full investigation of criminal Medicaid fraud is the MFCU's responsibility and may result in a felony or misdemeanor criminal conviction.

### **1.10.1 Reporting Waste, Abuse, and Fraud**

Anyone with knowledge about suspected Medicaid waste, abuse, or fraud of provider services must report the information to the HHSC-OIG. To report waste, abuse, or fraud, visit [www.hhs.state.tx.us](http://www.hhs.state.tx.us) and select **Reporting Waste, Abuse, and Fraud**. Waste, abuse, and fraud may also be reported by calling the OIG hotline at 1-800-436-6184. All reports of waste, abuse, or fraud received through either channel remain confidential.

HHSC-OIG encourages providers to voluntarily investigate and report fraud, waste, abuse, or inappropriate payments of Medicaid funds in their own office. Providers are required to report these activities to HHSC-OIG when identified. HHSC-OIG will work collaboratively with self-reporting providers. More information about provider self-reporting is available on the OIG website at <https://oig.hhsc.texas.gov/providers>.

### **1.10.2 Suspected Cases of Provider Waste, Abuse, and Fraud**

HHSC-OIG is responsible for minimizing waste, abuse, and fraud by Medicaid providers. HHSC-OIG has established and continues to refine criteria for identifying cases of possible waste, abuse, or fraud and recouping provider overpayments. When HHSC-OIG identifies fraud, waste, and abuse, a case may be referred to the MFCU or Antitrust and Civil Medicaid Fraud Section, or result in administrative enforcement.

### **1.10.3 Employee Education on False Claims Recovery**

United States Code (U.S.C.), Title 42, §1396a(a)(68) requires any entity that receives or makes annual Medicaid payments of at least \$5,000,000 to establish written policies that provide detailed information about each employee's role in preventing and detecting waste, fraud, and abuse in federal health-care programs. These written policies, which must apply to all employees of the entity (including management) as well as the employees of any contractor or agent of the entity, must address:

- The federal False Claims Act (31 U.S.C. §§ 3729-3733).
- Administrative remedies for false claims and statements as provided in 31 U.S.C. §3802.
- Texas law relating to civil and criminal penalties for false claims (including Chapter 36 of the Human Resources Code; section 35A.02 of the Penal Code; Title 1, Chapter 371, Subchapter G of the TAC; and other applicable law).
- Whistleblower protections under the above laws (including section 36.115 of the Human Resources Code).

In addition, these written policies must include detailed provisions regarding the entity's policies and procedures for detecting and preventing fraud, waste, and abuse. The entity must also include a specific discussion of the following in all employee handbooks:

- The above laws
- The entity's policies and procedures for detecting and preventing fraud, waste, and abuse
- The rights of employees to be protected as whistleblowers

TMHP sends a yearly letter to each provider that receives over \$5,000,000 in Medicaid payments. This letter requires providers to verify that they have educated their staff on the False Claims Act. Failure to return this letter, signed by the provider, may result in an administrative hold on the provider's Texas Medicaid payments.

#### **1.10.4 Managed Care Organization (MCO) Special Investigative Unit (SIU)**

All MCOs that contract with HHSC to administer managed care benefits to Texas Medicaid clients are required to establish and maintain an SIU that works in cooperation with HHSC-OIG and the OAG.

**Referto:** 1 TAC §533.012, §531.113, §531.1131, §353.501-353.505, and 370.501-370.505 for additional information.

The MCO and SIU will do the following:

- The MCO must maintain the SIU within the MCO or contract with another entity for any investigation.
- The established SIU will identify and investigate cases of suspected waste, abuse, and fraud in Texas Medicaid in accordance with Title 1, Chapter 353, Subchapter F of the TAC.
- The MCO and SIU (as applicable) must submit the following:
  - An annual plan that has been adopted by the MCO and approved by HHSC-OIG describing how it will prevent and reduce fraud and abuse in accordance with 1 TAC, §§353.501 and 353.502.
  - A monthly open case list to OIG Medicaid Program Integrity and the MFCU.

The MCO will refer a case to both HHSC-OIG and MFCU in the following situations:

- When waste, abuse or fraud is discovered in the Medicaid or CHIP programs. (The MCO SIU must immediately notify the HHSC-OIG and MFCU and begin payment recovery efforts, unless HHSC-OIG or MFCU notifies the MCO to stop the recovery effort, as provided in Texas Government Code §531.1131.)
- When possible waste, abuse, or fraud is discovered in the Medicaid or CHIP programs. (The MCO SIU must refer the alleged fraud or abuse to HHSC-OIG within 30 working days of completing a review. The SIU report and referral must completely and accurately detail its findings in accordance with 1 TAC §353.502.)
- When there is reason to believe that a delay in the referral may result in:
  - Harm or death to patients
  - Loss, destruction, or alteration of valuable evidence
  - Significant monetary loss that may not be recoverable
  - Hindrance of an investigation or criminal prosecution of the offense

### **1.11 Texas Medicaid Limitations and Exclusions**

Medicaid pays for services on behalf of clients to the provider of service according to Texas Medicaid's limitations and procedures. TMHP does not make Medicaid payments directly to clients.

The following services, supplies, procedures, and expenses are not benefits of Texas Medicaid. This list is *not* all inclusive.

- Autopsies
- Care and treatment related to any condition for which benefits are provided or available under Workers' Compensation laws
- Cellular therapy
- Chemolase injection (chymodiactin, chymopapain)
- Dentures or endosteal implants for adults
- Ergonovine provocation test
- Excise tax
- Fabric wrapping of abdominal aneurysms
- Hair analysis
- Heart–lung monitoring during surgery
- Histamine therapy–intravenous
- Hyperthermia
- Hysteroscopy for infertility
- Immunizations or vaccines unless they are otherwise covered by Texas Medicaid (These limitations do not apply to services provided through the THSteps Program.)
- Immunotherapy for malignant diseases
- Infertility
- Inpatient hospital services to a client in an institution for tuberculosis, mental disease, or a nursing section of public institutions for persons with intellectual disabilities
- Inpatient hospital tests that are not specifically ordered by a provider who is responsible for the diagnosis or treatment of the client's condition
- Intragastric balloon for obesity
- Joint sclerotherapy
- Keratoprosthesis/refractive keratoplasty
- Laetrile
- Mammoplasty for gynecomastia
- More than \$200,000 per client per benefit year (November 1 through October 31) for any health-care and remedial care services provided to a hospital inpatient by the hospital (If the \$200,000 amount is exceeded because of an admission for an approved organ transplant, the allowed amount for that claim is excluded from the computation. This limitation does not apply to clients eligible for CCP or clients with an organ transplant.)

- More than 30 days of inpatient hospital stay per spell of illness (Each spell of illness must be separated by 60 consecutive days during which the client has not been an inpatient in a hospital.)

**Important:** CCP provides medically necessary, federally allowable treatment for Medicaid/THSteps clients who are 20 years of age and younger. Some health-care services that usually would not be covered under Medicaid may be available to CCP-eligible clients. An additional 30-day spell of illness begins with the date of specified covered organ transplant. No spell-of-illness limitation exists for Medicaid THSteps clients who are 20 years of age and younger.

- Obsolete diagnostic tests
- Oral medications, except when claims are submitted by a hospital for services that are provided given in the emergency room or the inpatient setting (Hospital take-home drugs or medications given to the client are not a benefit.)

**Important:** Outpatient prescription medications are covered through the Medicaid Vendor Drug Program. See “Appendix B: Vendor Drug Program” (Vol. 1, General Information) for more information.

- Orthoptics (except CCP)
- Outpatient and nonemergency inpatient services provided by military hospitals
- Outpatient behavioral health services performed by a licensed chemical dependency counselor (LCDC), psychiatric nurse, mental health worker, non-licensed clinical social worker (LCSW), or psychological associate (excluding a Masters-level licensed psychological associate [LPA]) regardless of physician or licensed psychologist supervision
- Oxygen (except CCP and home health)
- Parenting skills
- Payment for eyeglass materials or supplies regardless of cost if they do not meet Texas Medicaid specifications
- Payment to physicians for supplies (All supplies, including anesthetizing agents such as *Xylocaine*, inhalants, surgical trays, or dressings, are included in the surgical payment.)
- Podiatry, optometric, and hearing aid services in long term care facilities, unless ordered by the attending physician
- Private room facilities except when:
  - A critical or contagious illness exists that results in disturbance to other patients and is documented as such.
  - It is documented that no other rooms are available for an emergency admission.
  - The hospital only has private rooms.
- Procedures and services considered experimental or investigational
- Prosthetic and orthotic devices (except CCP)
- Prosthetic eye or facial quarter
- Psychiatric services:
  - Outpatient behavioral health services for which no prior authorization has been given

**Referto:** Section 4, “Outpatient Mental Health Services” in the *Behavioral Health and Case Management Services Handbook* (Vol. 2, Provider Handbooks).

- Quest test (infertility)

- Recreational therapy
- Review of old X-ray films
- Routine cardiovascular and pulmonary function monitoring during the course of a surgical procedure under anesthesia
- Separate fees for completing or filing a Medicaid claim form (The cost of claims filing is to be incorporated in the provider's usual and customary charges to all clients.)
- Services and supplies to any resident or inmate in a public institution
- Services or supplies for which benefits are available under any other contract, policy, or insurance, or which would have been available in the absence of Texas Medicaid
- Services or supplies for which claims were not received within the filing deadline
- Services or supplies that are not reasonable and necessary for diagnosis or treatment
- Services or supplies that are not specifically provided by Texas Medicaid
- Services or supplies provided in connection with cosmetic surgery except:
  - As required for the prompt repair of accidental injury
  - For improvement of the functioning of a malformed body member
  - When prior authorized for specific purposes by TMHP (including removal of keloid scars)
- Services or supplies provided outside of the U.S., except for deductible or coinsurance portions of Medicare benefits as provided for in this manual
- Services or supplies provided to a client after a finding has been made under utilization review procedures that these services or supplies are not medically necessary
- Services or supplies provided to a Texas Medicaid client before the effective date of his or her designation as a client, or after the effective date of his or her denial of eligibility
- Services that are payable by any health, accident, other insurance coverage, or any private or other governmental benefit system, or any legally liable third party
- Services that are provided by an interpreter (except sign language interpreting services requested by a physician)
- Services that are provided by ineligible, suspended, or excluded providers
- Services that are provided by the client's immediate relative or household member
- Services that are provided by Veterans Administration facilities or U.S. Public Health Service Hospitals
- Sex change operations
- Silicone injections
- Social and educational counseling except for certain health and disability related and counseling services
- Sterilization reversal
- Sterilizations (including vasectomies) unless the client has given informed consent 30 days before surgery, is mentally competent, and is 21 years of age or older at the time of consent (This policy complies with 42 CFR §441.250, Subpart F.)
- Take-home and self-administered drugs except as provided under the Vendor Drug or family planning pharmacy services or for clients being treated for a substance use disorder

- Tattooing (commercial or decorative only)
- Telephone calls with clients or pharmacies (except as allowed for case management)
- Thermogram
- Treatment of flatfoot conditions for solely cosmetic purposes, the prescription of supportive devices (including special shoes), and the treatment of subluxations of the foot

Refer to the applicable handbooks in Volume 2 of this manual for additional information.

## 2.1 Payment Information

Texas Medicaid reimbursements are available to all enrolled providers by check or electronic funds transfer (EFT).

**Referto:** Subsection 1.2, “Payment Information” in “Section 1: Provider Enrollment and Responsibilities” (*Vol. 1, General Information*).

## 2.2 Fee-for-Service Reimbursement Methodology

Texas Medicaid reimburses providers using several different reimbursement methodologies, including fee schedules, reasonable cost with interim rates, hospital reimbursement methodology, provider-specific encounter rates, reasonable charge payment methodology, and manual pricing. Each Texas Medicaid service describes the appropriate reimbursement for each service area.

**Note:** *If a client is covered by a Medicaid managed care organizations (MCO) or dental plan, providers must contact the client’s MCO or dental plan for reimbursement information. The MCOs and dental plans are not required to follow the Texas Medicaid fee schedules, so there may be some differences in reimbursement based on decisions made by the individual health and dental plans.*

### 2.2.1 Online Fee Lookup (OFL) and Static Fee Schedules

Texas Medicaid reimburses certain providers based on rates published in the OFL and static fee schedules. These rates are uniform statewide and by provider type. According to this type of reimbursement methodology, the provider is paid the lower of the billed charges or the Medicaid rate published in the applicable static fee schedule or OFL.

Providers can obtain fee information using the OFL functionality on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

The online OFL can be used to:

- Retrieve real-time fee information.
- Search for procedure code reimbursement rates individually, in a list, or in a range.
- Search and review contracted rates for a specific provider (provider must login).
- Retrieve up to 24 months of history for a procedure code by searching for specific dates of service within that 2-year period.
- Search for benefit limitations for dental and durable medical equipment (DME) procedure codes.

Providers can obtain the static fee schedules as *Microsoft Excel®* spreadsheets or portable document format (PDF) files from the TMHP website at [www.tmhp.com](http://www.tmhp.com).

Type of service (TOS) codes payable for each procedure code are available on the OFL and the static fee schedules.

The following provider types and services are reimbursed based on rates published with the rates calculated in accordance with the referenced reimbursement methodology as published in the Texas Administrative Code (TAC), Part 1 Administration, Part 15 Texas Health and Human Services Commission (HHSC), and Chapter 355 Reimbursement Rates.

- *Ambulance.* The Medicaid rates for ambulance services are calculated in accordance with 1 TAC §355.8600.
- *Ambulatory Surgical Center (ASC).* The Medicaid rates for ASCs are calculated in accordance with 1 TAC §355.8121.
- *Case Management for Children and Pregnant Women.* The Medicaid rates for this service are calculated in accordance with 1 TAC §355.8401.

- *Targeted Case Management for Early Childhood Intervention (ECI)*. The Medicaid rate for this service is reimbursed in accordance with 1 TAC §§355.8421.
- *Specialized Skills Training for ECI*. The Medicaid rate for this service is reimbursed in accordance with 1 TAC § 355.8422
- *Certified Nurse-Midwife (CNM)*. The Medicaid rates for CNMs are calculated in accordance with 1 TAC §355.8161.
- *Certified Registered Nurse Anesthetist (CRNA)*. According to 1 TAC §355.8221, the Medicaid rate for CRNAs is 92 percent of the rate reimbursed to a physician anesthesiologist for the same service.
- *Certified Respiratory Care Practitioner (CRCP) Services*. The Medicaid rate per daily visit for 99503 is calculated in accordance with 1 TAC §355.8089.
- *Chemical Dependency Treatment Facility (CDTF)*. The Medicaid rates for CDTF services are calculated in accordance with 1 TAC §355.8241.
- *Chiropractic Services*. The Medicaid rates for chiropractic services are calculated in accordance with 1 TAC §355.8085.
- *Dental*. The Medicaid rates for dentists are calculated as access-based fees in accordance with 1 TAC §355.8085, 1 TAC §355.8441(11), and 1 TAC §355.455(b).
- *Durable Medical Equipment, Prostheses, Orthoses and Supplies (DMEPOS)*. DMEPOS items provided by home health agencies and providers/suppliers of DMEPOS are reimbursed in accordance with 1 TAC §355.8023. DMEPOS items provided by the Comprehensive Care Program (CCP) are reimbursed in the same manner, in accordance with 1 TAC §355.8441.
- *Family Planning Services*. The Medicaid rates for family planning services are calculated in accordance with 1 TAC §355.8581.
- *Genetic Services*. The procedure codes and Medicaid rates for genetic services are listed in the OFL or the Physician - Genetics fee schedule on the TMHP website at [www.tmhp.com](http://www.tmhp.com).
- *Hearing Aid and Audiometric Evaluations*. Newborn hearing screenings are provided at the birthing facility before hospital discharge and, as such, are reimbursed in accordance with the reimbursement methodology for the specific type of birthing facility. Outpatient hearing screening and diagnostic testing services for children are provided by physicians and are reimbursed in accordance with the reimbursement methodology for physician services at 1 TAC §355.8085, 1 TAC §355.8141, and 1 TAC §355.8441.
- *Texas Medicaid (Title XIX) Home Health Services*. The reimbursement methodology for home health nursing and aide services delivered by home health agencies are statewide visit rates calculated in accordance with 1 TAC §355.8021.
- *Independent Laboratory*. The Medicaid rates for independent laboratories are calculated in accordance with 1 TAC §355.8610, and the Deficit Reduction Act (DEFRA) of 1984. By federal law, Medicaid payments for a clinical laboratory service cannot exceed the Medicare payment for that service. Early Periodic Screening, Diagnosis, and Treatment (EPSDT)/Texas Health Steps medical and newborn screening laboratory services provided by the Department of State Health Services (DSHS) Laboratory are reimbursed based on the Medicare payment for that service.
- *Indian Health Services*. The reimbursement methodology for services provided in Indian Health Services Facilities operating under the authority of Public Law 93-638 is located at 1 TAC §355.8620.
- *In-Home Total Parenteral Nutrition (TPN) Supplier*. The Medicaid rates for these providers are calculated in accordance with 1 TAC §355.8087.

- *Licensed Clinical Social Worker (LCSW)*. According to 1 TAC §355.8091, the Medicaid rate for LCSWs is 70 percent of the rate paid to a psychiatrist or psychologist for a similar service per 1 TAC §355.8085.
- *Licensed Marriage and Family Therapist (LMFT)*. According to 1 TAC §355.8091, the Medicaid rate for LMFTs is 70 percent of the rate paid to a psychiatrist or psychologist for a similar service per 1 TAC §355.8085.
- *Licensed Midwife (LM)*. According to 1 TAC §355.8161, covered professional services provided by an LM and billed under the LM's own provider number are reimbursed the lesser of the LM's billed charges or 70 percent of the reimbursement for the same professional service paid to a physician (M.D. or D.O.).
- *Licensed Professional Counselor (LPC)*. According to 1 TAC §355.8091, the Medicaid rate for LPCs is 70 percent of the rate paid to a psychiatrist or psychologist for a similar service per 1 TAC §355.8085.
- *Maternity Service Clinic (MSC)*. The Medicaid rates for these providers are calculated in accordance with 1 TAC §355.8085.
- *Nurse Practitioner (NP) and Clinical Nurse Specialist (CNS)*. According to Title 1 TAC §355.8281, the Medicaid rate for NPs and CNSs is 92 percent of the rate paid to a physician (doctor of medicine [MD] or doctor of osteopathy [DO]) for the same service and 100 percent of the rate paid to physicians for laboratory services, X-ray services, and injections.
- *Physical (PT), Occupational (OT), and Speech (ST) Therapy Services*. Covered therapy services provided by home health agencies, comprehensive outpatient rehabilitation facilities or outpatient rehabilitation facilities, independent therapists (including Early Childhood Intervention) and physicians and other practitioners are reimbursed according to 1 TAC §355.8097.
- *Physical Therapists/Independent Practitioners*. The Medicaid rates for these providers are calculated in accordance with 1 TAC §355.8085.
- *Physician*. The Medicaid rates for physicians and other practitioners are calculated in accordance with 1 TAC §355.8085.
- *Physician Assistant (PA)*. According to 1 TAC §355.8093, the Medicaid rate for PAs is 92 percent of the rate paid to a physician (MD or DO) for the same service and 100 percent of the rate paid to physicians for laboratory services, X-ray services, and injections.
- *Psychologist*. The Medicaid rates for psychologists are calculated in accordance with 1 TAC §355.8085.
- *Radiological and Physiological Laboratory and Portable X-Ray Supplier*. The Medicaid rates for these providers are calculated in accordance with 1 TAC §355.8085.
- *Renal Dialysis Facility*. The Medicaid rates for these providers are composite rates based on calculations specified by the Centers for Medicare & Medicaid Services (CMS).
- *School Health and Related Services (SHARS)*. The Medicaid rates for these providers are calculated in accordance with 1 TAC §355.8443.
- *Texas Health Steps* reimburses by provider type in accordance with 1 TAC §355.8441. Approved providers enrolled in Texas Medicaid are reimbursed for THSteps services in the same manner as they are reimbursed for other Medicaid services. THSteps CCP reimburses for DME and expendable supplies in accordance with 1 TAC §355.8441(2).
- *Telemedicine, telehealth, and home telemonitoring services* are reimbursed in accordance with 1 TAC §355.7001.

- *Tuberculosis (TB) Clinics*. The Medicaid rates for these providers are calculated in accordance with 1 TAC §355.8085.
- *Vision Care (Optometrists, Opticians)*. The Medicaid rates for these providers are calculated in accordance with 1 TAC §355.8001 and §355.8085.

### **2.2.1.1 Non-emergent and Non-urgent Evaluation and Management (E/M) Emergency Department Visits**

Section 104 of the Tax Equity and Fiscal Responsibility Act (TEFRA) of 1982 requires that Medicare and Medicaid limit reimbursement for those physician services furnished in outpatient hospital settings (e.g., clinics and emergency situations) that are ordinarily furnished in physician offices. The limit is 60 percent of the Medicaid rate for the non-emergency service furnished in physician offices.

Reimbursement for non-emergent and non-urgent services that are rendered by the facility during the emergency room visit will be limited to 125 percent of the adult, physician office visit fee for procedure code 99202. Reimbursement will not be reduced for those services that were rendered to address conditions that meet any of the following criteria:

- Problems of high-severity
- Problems that require urgent evaluation by a physician
- Problems that pose immediate and significant threats to physical or mental function
- Critically ill or critically injured

Non-emergent and non-urgent services that are rendered by rural hospitals will be reimbursed at 65 percent of the allowed rates.

Non-rural hospitals will receive a flat rate which is limited to 125 percent of the adult, physician office visit fee for procedure code 99202.

Diagnostic services, such as laboratory and radiology, will not be reduced by 40 percent.

**Referto:** Subsection 9.2.56.3, “Physician Services Provided in the Emergency Department” in the *Medical and Nursing Specialists, Physicians, and Physician Assistants Handbook (Vol. 2, Provider Handbooks)* for more information about non-emergent and non-urgent services rendered in the emergency department.

Subsection 4.2.2.1, “Emergency Department Payment Reductions” in the *Inpatient and Outpatient Hospital Services Handbook (Vol. 2, Provider Handbooks)* for more information about non-emergent and non-urgent services rendered in the emergency department.

These procedures are designated with note code “1” in the current fee schedule or OFL on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

The following services are excluded from the 60-percent limitation:

- Services furnished in rural health clinics (RHCs)
- Surgical services that are covered ASC/hospital-based ambulatory surgical center (HASC) services
- Anesthesiology and radiology services
- Emergency services provided in a hospital emergency room after the sudden onset of a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain), such that the absence of immediate medical attention could reasonably be expected to result in one of the following:
  - Serious jeopardy to the client’s health
  - Serious impairment to bodily functions

- Serious dysfunction of any bodily organ or part

### **2.2.1.2 Payment Window Reimbursement Guidelines for Services Preceding an Inpatient Admission**

According to the three-day and one-day payment window reimbursement guidelines, most professional and outpatient diagnostic and nondiagnostic services that are rendered within the designated timeframe of an inpatient hospital stay and are related to the inpatient hospital admission will not be reimbursed separately from the inpatient hospital stay if the services are rendered by the hospital or an entity that is wholly owned or operated by the hospital.

These reimbursement guidelines do not apply in the following circumstances:

- The professional services are rendered in the inpatient hospital setting.
- The hospital and the physician office or other entity are both owned by a third party, such as a health system.
- The hospital is not the sole or 100-percent owner of the entity.

**Referto:** Subsection 3.7.3.8, “Payment Window Reimbursement Guidelines” in the *Inpatient and Outpatient Hospital Services Handbook (Vol. 2, Provider Handbooks)* for additional information about the payment window reimbursement guidelines.

### **2.2.1.3 Drugs and Biologicals**

Physician-administered drugs and biologicals are reimbursed under Texas Medicaid as access-based fees under the physician fee schedule in accordance with 1 TAC §355.8085. Physicians and other practitioners are reimbursed for physician-administered drugs and biologicals at the lesser of their usual and customary or billed charges and the Medicaid fee established by the HHSC. The Medicaid fee is an estimate of the provider’s acquisition cost for the specific drug and biological. An invoice must be submitted when it is in the provider’s possession. Submission of an invoice will document that the provider is billing the lesser of the usual and customary charge or the access-based fee.

HHSC reserves the option to use other data sources to determine Medicaid fees for drugs and biologicals when AWP or ASP calculations are determined to be unreasonable or insufficient.

Prescriptions are covered under the Texas Medicaid Vendor Drug Program (VDP). The reimbursement methodology for pharmacy services is located at 1 TAC §§355.8541–355.8551.

## **2.2.2 Cost Reimbursement**

Medicaid providers who are cost reimbursed are subject to cost reporting, cost reconciliation, and cost settlement processes, including time study requirements.

The following providers are cost reimbursed in accordance with the noted TAC rules:

- 1 TAC §355.743—Mental health (MH) case management
- 1 TAC §355.746—Mental retardation (MR) service coordination
- 1 TAC §355.781—MH rehabilitative services
- 1 TAC §355.8443—School Health and Related Services (SHARS)
- 1 TAC §355.8061—Outpatient Hospital Reimbursement
- 1 TAC §355.8052—Inpatient Hospital Reimbursement
- 1 TAC §355.8056—State-Owned Teaching Hospital Reimbursement Methodology

### 2.2.3 Reasonable Cost and Interim Rates

Outpatient hospital services are reimbursed in accordance with 1 TAC §355.8061. The reimbursement methodology is based on reasonable costs, and providers are reimbursed at an interim rate based on the provider's most recent Medicaid cost report settlement. To determine the provider's payable amount, the interim rate is applied to the claim details allowed amount.

### 2.2.4 Hospitals

Inpatient hospital services are reimbursed as follows:

- 1 TAC §355.8052—Inpatient Hospital Reimbursement
- 1 TAC §355.8052—Inpatient Hospital Reimbursement
- 1 TAC §355.8056—State-Owned Teaching Hospital Reimbursement Methodology
- 1 TAC §355.8058—Inpatient Direct Graduate Medical Education (GME) Reimbursement
- 1 TAC §355.8060—Reimbursement Methodology for Freestanding Psychiatric Facilities
- 1 TAC §355.8061—Outpatient Hospital Reimbursement
- 1 TAC §355.8064—Reimbursement Adjustment for Hospitals Providing Inpatient Services to SSI and SSI-Related Clients
- 1 TAC §355.8065—Disproportionate Share Hospital (DSH) Reimbursement Methodology
- 1 TAC §355.8068—Supplemental Payments to Certain Urban Hospitals
- 1 TAC §355.8069—Supplemental Payments to Certain Rural Public Hospitals
- 1 TAC §355.8070—Supplemental Payments to Private Hospitals
- 1 TAC §355.8071—Supplemental Payments to Children's Hospitals
- 1 TAC §355.8072—Supplemental Payments to State-Owned Hospitals

### 2.2.5 Provider-Specific Visit Rates

Medicaid provider-specific prospective payment system (PPS) visit rates for RHCs are calculated in accordance with 1 TAC §355.8101, and those for federally qualified health centers (FQHCs) are calculated in accordance with 1 TAC §355.8261.

**Referto:** Section 4, "Federally Qualified Health Center (FQHC)" in the *Clinics and Other Outpatient Facility Services Handbook (Vol. 2, Provider Handbooks)*

Section 7, "Rural Health Clinic" in the *Clinics and Other Outpatient Facility Services Handbook (Vol. 2, Provider Handbooks)*.

### 2.2.6 Manual Pricing

When services or products do not have an established reimbursement amount, the detail or claim is manually reviewed to determine an appropriate reimbursement. The manual pricing methodology for DME and expendable supplies is included with the reimbursement methodology for these products. DME and medical supplies, other than nutritional products, that have no established fee are subject to manual pricing at the documented MSRP less 18 percent or the provider's documented invoice cost.

## 2.3 Reimbursement Reductions

Texas Medicaid implemented mandated rate reductions for certain services. The Online Fee Lookup (OFL) and static fee schedules include a column titled "Adjusted Fee" to display the individual fees with all mandated percentage reductions applied. Additional information about rate changes is available on the TMHP website at [www.tmhp.com/pages/topics/rates.aspx](http://www.tmhp.com/pages/topics/rates.aspx).

## 2.4 Using Payouts to Satisfy Accounts Receivables Across Programs and Alternate Provider Identifiers

The TMHP accounts receivable process identifies funds that a provider owes to TMHP and subtracts these funds from payments to the provider. TMHP satisfies outstanding accounts receivables using all available funds from the providers' Medicaid payouts, as well as managed care payouts, until the accounts receivables have been recovered. Outstanding balances are recovered as follows:

- For outstanding fee-for-service accounts receivables, TMHP first recovers funds from any available *fee-for-service* payments. If there is still an accounts receivable balance for that week's financial cycle, TMHP recovers funds from any available *managed care* payments.
- For outstanding managed care accounts receivables, TMHP first recovers funds from any available *managed care* payments. If there is still an accounts receivable balance for that week's financial cycle, TMHP will recover funds from any available *fee-for-service* payments.

### 1099 Reports

Providers receive one 1099 report for each provider identifier. The 1099 report has combined information for both fee-for-service and managed care programs.

### Paper Remittance and Status (R&S) Report

The summary page of the R&S report has combined information from the fee-for-service and managed care programs.

The Financial Transactions Sub-Owner Recoupment page has accounts receivable for both programs. A column on the page identifies the program (Medicaid [fee-for-service] or Managed Care) from which the funds were recouped.

The Financial Transactions Accounts Receivable page has the accounts receivable for both programs. A column identifies the program (Medicaid [fee-for-service] or Managed Care) from which the funds were recouped.

The Original Date in the Accounts Receivable section of the R&S Report reflects the date on which the accounts receivable first appeared on the R&S Report.

### ER&S Report

The Pending and Non-Pending ER&S Reports have combined information for both programs.

### 2.4.1 HHSC Recoupment of Accounts Receivables from Alternate Provider Identifiers

HHSC recoups the outstanding accounts receivable balances of all existing Medicaid and managed care Texas Provider Identifiers (TPIs) from alternate TPIs that use the same Tax ID or National Provider Identifier (NPI).

If a Medicaid or managed care provider has a TPI that is no longer active or has been terminated and that TPI has an outstanding accounts receivable balance, the balance is recouped from future payments made to any and all TPIs that have the same Tax ID or NPI. Recoupments are reflected on future R&S Reports.

**Note:** *This process affects only managed care claims that are submitted to TMHP.*

**Referto:** Subsection 2.2.5, "Accounts Receivable" in the *Medicaid Managed Care Handbook (Vol. 2, Provider Handbooks)* for additional information about managed care claims and outstanding accounts receivables.

Subsection 2.6.4, "Providers With Unsatisfied Medicaid Accounts Receivables" in the *Medicaid Managed Care Handbook (Vol. 2, Provider Handbooks)* for additional information about managed care claims and outstanding accounts receivables.

### 2.4.2 Medicaid Funds May Be Used to Satisfy Children with Special Health Care Needs (CSHCN) Services Program Accounts Receivables

A service that is rendered to a CSHCN Services Program client who receives retroactive Medicaid eligibility may be reimbursed by the CSHCN Services Program or by Medicaid, but not by both.

The CSHCN Services Program is the payer of last resort. The CSHCN Services Program does not supplement a client's Medicaid benefits. However, services that are not a benefit of Medicaid may be covered by the CSHCN Services Program. If dual Medicaid and CSHCN Services Program eligibility is determined, claims that have already been paid by the CSHCN Services Program will be reprocessed under the appropriate program.

An accounts receivable is created for each CSHCN Services Program claim that is reprocessed and subsequently reimbursed under Medicaid so that the amount the CSHCN Services Program originally reimbursed can be returned to the CSHCN Services Program.

If the CSHCN Services Program payout during the week's financial cycle in which the claim was reprocessed is not sufficient to satisfy the accounts receivable, the provider's Medicaid claim payouts are used to satisfy the CSHCN Services Program accounts receivable.

**Note:** *The deduction from Medicaid claim payouts does not exceed the amount Medicaid reimbursed the provider when the CSHCN Services Program claim was reprocessed.*

## 2.5 Additional Payments to High-Volume Providers

High volume provider payments are made to outpatient hospitals per 1 TAC §355.8061 and ASCs/HASCs per 1 TAC §355.8121.

Outpatient hospital services are those services provided by outpatient hospitals and ASCs/HASCs. The definition of a high-volume outpatient hospital provider is one that was paid a minimum of \$200,000 during the qualifying period.

The reimbursement rate for non-high-volume hospitals is as follows with the application of the hospital specific interim rate:

| Non-high-volume Provider       | Current Allowable Rate                 |
|--------------------------------|--|
| Children's hospitals           | 72.27 percent of the allowable charges |
| Rural hospitals                | 100 percent of the allowable charges   |
| State-owned teaching hospitals | 72.27 percent of the allowable charges |
| Other hospitals                | 68.44 percent of the allowable charges |

The reimbursement rate for high-volume hospitals is as follows with the application of the hospital specific interim rate:

| High-volume Provider                             | Current Allowable Rate                           |
|--|--|
| Children's hospitals                             | 76.03 percent of the allowable charges           |
| Rural hospitals                                  | 100 percent of the allowable charges             |
| State-owned teaching hospitals                   | 76.03 percent of the allowable charges           |
| Other hospitals                                  | 72 percent of the allowable charges              |
| ASCs/HASCs that qualify as high-volume providers | Additional 5.2 percent increase in payment rates |

## 2.6 Out-of-State Medicaid Providers

Texas Medicaid covers medical assistance services provided to eligible Texas Medicaid clients while in a state other than Texas, as long as the client does not leave Texas to receive out-of-state medical care that can be received in Texas. Services provided outside the state are covered to the same extent medical assistance is furnished and covered in Texas when the service meets one or more requirements of 1 TAC §354.1440 (a). TMHP must receive claims from out-of-state providers within 365 days from the date of service.

**Note:** *Border state providers (providers rendering services within 50 miles of the Texas border) are considered in-state providers for Texas Medicaid.*

**Referto:** Subsection 1.9, “Enrollment Criteria for Out-of-State Providers” in “Section 1: Provider Enrollment and Responsibilities” (Vol. 1, *General Information*).

## 2.7 Medicare Crossover Claim Reimbursement

### 2.7.1 Part A

Providers must accept Medicare assignment to receive Medicaid payment for any portion of the coinsurance and deductible amounts for services rendered to Qualified Medicare Beneficiary (QMB) and Medicaid Qualified Medicare Beneficiary (MQMB) clients. If a provider has accepted a Medicare assignment, the provider may receive, on behalf of the QMB or MQMB client, payment for deductible or coinsurance according to current payment guidelines.

Any payments made by Medicare and Medicaid must be considered payment in full. Providers that accept Medicare or Medicaid assignment cannot legally require the client to pay the Medicare coinsurance or deductible amounts or any remaining amount after Medicaid payment has been made.

The payment of the Medicare Part A coinsurance and deductibles for Medicaid clients who are Medicare beneficiaries is based on the following:

- If the Medicare payment amount equals or exceeds the Medicaid payment rate, Medicaid does not pay the Medicare Part A coinsurance/deductible on a Medicare crossover claim.
- If the Medicare payment amount is less than the Medicaid payment rate, Medicaid pays the Medicare Part A coinsurance/deductible, but the amount of the payment is limited to the lesser of the coinsurance/deductible or the amount remaining after the Medicare payment amount is subtracted from the Medicaid payment rate.

### 2.7.2 Part B

Texas Medicaid reimburses coinsurance liability for MQMB clients on valid, assigned Medicare claims that are within the amount, duration, and scope of the Medicaid program and, if Medicare did not exist, would be covered by Medicaid.

For Medicare crossover claims, Texas Medicaid reimburses the lesser of the following:

- The coinsurance and deductible payment
- The amount remaining after the Medicare payment amount is subtracted from the allowed Medicaid fee or encounter rate for the service (If this amount is less than the deductible, then the full deductible is reimbursed instead.)

If the Medicare payment is equal to or exceeds the Medicaid allowed amount or encounter payment for the service, Texas Medicaid does not make a payment for coinsurance.

**Important:** *Medicaid payment of a client’s coinsurance/deductible liabilities satisfies the Medicaid obligation to provide coverage for services that Medicaid would have paid in the absence of Medicare coverage. The client has no liability for any balance or Medicare coinsurance and deductible related to Medicaid-covered services.*

## 2.7.3 Part C: Medicare Advantage Plans (MAPs)

### 2.7.3.1 Contracted MAPs

HHSC makes a per-client-per-month payment to MAPs that contract with HHSC. The payment to the MAP includes all costs associated with the Medicare coinsurance and deductible for a client who is dually eligible for Medicare and Medicaid. TMHP does not reimburse the coinsurance or deductible amounts for these claims. These costs must be billed to the MAP and must not be billed to TMHP or the Medicaid client.

**Referto:** A list of MAPs that are contracted with HHSC is available on the TMHP website at [www.tmhp.com/Pages/EDI/EDI\\_MAP.aspx](http://www.tmhp.com/Pages/EDI/EDI_MAP.aspx). The list is updated as additional plans receive approved contracts.

### 2.7.3.2 Noncontracted MAPs

Texas Medicaid reimburses professional and outpatient facility crossover claims the lesser of the following:

- The coinsurance and deductible amounts
- The amount remaining after the Medicare payment amount is subtracted from the allowed Medicaid fee or encounter rate for the service

For Medicare Part B cost sharing obligations, all deductible obligations will be reimbursed at 100 percent of the deductible amount owed, even if the cost sharing comparison results in a lower payment. For all other cost sharing obligations (including Medicare Part A and Part B coinsurance, and C), the cost sharing comparison is performed according to current guidelines.

**Exception:** *Texas Medicaid will reimburse coinsurance liability for MQMB clients on valid, assigned Medicare claims that are within the amount, duration, and scope of the Medicaid program, and would be covered by Medicaid when the services are provided, if Medicare did not exist.*

If the Medicare payment is equal to or exceeds the allowed Medicaid fee or encounter rate for the service, Texas Medicaid will not make a payment for coinsurance and deductible.

**Important:** *Medicaid payment of a client's coinsurance/deductible liabilities satisfies the Medicaid obligation to provide coverage for services that Medicaid would have paid in the absence of Medicare coverage. The client has no liability for any balance or Medicare coinsurance and deductible related to Medicaid-covered services.*

## 2.7.4 Exceptions

### 2.7.4.1 Full Amount of Part B and Part C Coinsurance and Deductible Reimbursed

Texas Medicaid reimburses the full amount of the Medicare Part B and Part C (noncontracted MAPs only) coinsurance and deductible for the following services:

- All ambulance services
- Services rendered by psychiatrists, psychologists, and licensed clinical social workers
- Procedure codes R0070 and R0075 for services rendered by physicians

### 2.7.4.2 Nephrology (Hemodialysis, Renal Dialysis) and Renal Dialysis Facility Providers

Texas Medicaid pays the Medicare coinsurance less 5 percent and full Medicare deductible for Medicare crossover claims that are submitted by nephrology (hemodialysis, renal dialysis) and renal dialysis facility providers.

## 2.8 Home Health Agency Reimbursement

Home health service claims should not be submitted for payment until Medicaid certification is received and a prior authorization number is assigned.

Home Health Agency providers should note the following:

- The client's primary physician must request professional, SN, and HHA services through a home health agency, and sign and date the POC.
- Claims are approved or denied according to eligibility, prior authorization status, and medical appropriateness.
- Claims must represent a numerical quantity of one-month for medical supplies according to the billing requirements.
- SN, HHA, OT, and PT services must be provided through a Medicaid-enrolled home health agency. These services must be billed using the home health agency's provider identifier. File these services on a UB-04 CMS-1450 claim form.
- OT and PT are always billed as POS 2 (home) and may be prior authorized to be provided in the home of the client or the home of the caregiver/guardian.

**Note:** *Medical social services and speech-language pathology services are available to clients who are 20 years of age and younger and are not a home health services benefit. These services may be considered a benefit for clients who qualify for CCP.*

Texas Medicaid does not reimburse separately for associated DME charges, including but not limited to battery disposal fees or state taxes. Reimbursement for any associated charges is included in the reimbursement for a specific piece of equipment.

**Referto:** Subsection 2.2, "Fee-for-Service Reimbursement Methodology" in this section.

### 2.8.1 Pending Agency Certification

Home health agencies submitting claims before the enrollment process is complete or without prior authorization for services issued by the TMHP Home Health Services Prior Authorization Department will not be reimbursed. The effective date of enrollment is when all Texas Medicaid provider enrollment forms are received and approved by TMHP.

Upon the receipt of notice of Texas Medicaid enrollment, the agency must contact the TMHP Home Health Services Prior Authorization Department before serving a Texas Medicaid client for services that require a prior authorization number. Prior authorization cannot be issued before Texas Medicaid enrollment is complete. Regular prior authorization procedures are followed at that time.

Home health agencies that provide laboratory services must comply with the rules and regulations of the Clinical Laboratory Improvement Amendments (CLIA). Providers who do not comply with CLIA will not be reimbursed for laboratory services.

**Referto:** Subsection 2.1.1, "Clinical Laboratory Improvement Amendments (CLIA)" in the *Radiology and Laboratory Services Handbook (Vol. 2, Provider Handbooks)*.

### 2.8.2 Prohibition of Medicaid Payment to Home Health Agencies Based on Ownership

Medicaid denies Home Health Services claims when TMHP records indicate that the physician ordering treatment has a significant ownership interest in, or a significant financial or contractual relationship with, the nongovernmental home health agency billing for the services. Federal regulation Title 42 CFR §424.22 (d) states that "a physician who has a significant financial or contractual relationship with, or a significant ownership in a nongovernmental home health agency may not certify or recertify the need for Home Health Services care services and may not establish or review a plan of treatment."

A physician is considered to have a significant ownership interest in a home health agency if either of the following conditions apply:

- The physician has a direct or indirect ownership of five percent or more in the capital, stock, or profits of the home health agency.
- The physician has an ownership of five percent or more of any mortgage, deed of trust, or other obligation that is secured by the agency, if that interest equals five percent or more of the agency's assets.

A physician is considered to have a significant financial or contractual relationship with a home health agency if any of the following conditions apply:

- The physician receives any compensation as an officer or director of the home health agency.
- The physician has indirect business transactions, such as contracts, agreements, purchase orders, or leases to obtain services, medical supplies, DME, space, and salaried employment with the home health agency.
- The physician has direct or indirect business transactions with the home health agency that, in any fiscal year, amount to more than \$25,000 or five percent of the agency's total operating expenses, whichever is less.

Providers must submit claims for CCP services and general home health services on two separate UB-04 CMS-1450 paper claim forms with the appropriate prior authorization number. Claims that are denied because of an ownership conflict will continue to be denied until the home health agency submits documentation that indicates that the ordering physician no longer has a significant ownership interest in, or a significant financial or contractual relationship with, the home health agency that is providing the services. Providers should send documentation to TMHP Provider Enrollment at the address indicated in the "Appendix A: State, Federal, and TMHP Contact Information" (*Vol. 1, General Information*).

## **2.9 Federal Medical Assistance Percentage (FMAP)**

The Federal Medical Assistance Percentages (FMAPs) are used in determining the amount of Federal matching funds for State expenditures for assistance payments for certain social services and State medical and medical insurance expenditures. The Social Security Act requires the Secretary of Health and Human Services to calculate and publish the FMAPs each year.

The "Federal Medical Assistance Percentages" are for Medicaid. Section 1905(b) of the Act specifies the formula for calculating Federal Medical Assistance Percentages.

"Enhanced Federal Medical Assistance Percentages" are for the State Children's Health Insurance Program (SCHIP) under Title XXI of the Social Security Act. Section 2105(b) of the Act specifies the formula for calculating Enhanced Federal Medical Assistance Percentages. The FMAPs are subject to change.

## 3.1 TMHP EDI Overview

The Texas Health and Human Services Commission (HHSC) and the Texas Medicaid & Healthcare Partnership (TMHP) encourage providers to submit claims using electronic methods. Providers can participate in the most efficient and effective method of submitting requests to TMHP by submitting through the TMHP EDI Gateway. TMHP uses the Health Insurance Portability and Accountability Act (HIPAA)-compliant American National Standards Institute (ANSI) ASC X12 5010 file format through secure socket layer (SSL) and virtual private networking (VPN) connections for maximum security. Providers can access TMHP's electronic services through the TMHP website at [www.tmhp.com](http://www.tmhp.com), TexMedConnect, vendor software, and third party billing agents. Providers may also submit claims using paper forms.

### 3.1.1 Advantages of Electronic Services

- *It's fast.* No more waiting by the mailbox or telephone inquiries; know what's happening to claims in less than 24 hours and receive reimbursement for approved claims within a week. TexMedConnect users can submit individual requests interactively and receive a response immediately.
- *It's free.* All electronic services offered by TMHP are free, including TexMedConnect and its technical support and training.
- *It's easy.* TMHP offers computer-based training (CBT) for TexMedConnect, Medicaid billing, and many other topics, including those for the Children with Special Health Care Needs (CSHCN) Services Program, and Long Term Care, as well as a large library of reference materials and manuals on [www.tmhp.com](http://www.tmhp.com).
- *It's safe.* TMHP EDI services use VPN and SSL connections, just like the United States government, banks, and other financial institutions, for maximum security.
- *It's accurate.* TexMedConnect and most vendor software programs have features that let providers know when they've made a mistake, which means fewer rejected and denied claims. Rejected claims are returned with messages that explain what's wrong, so the claim can be corrected and resubmitted right away. Denied claims appear on the provider's Remittance and Status (R&S) Report along with paid and pending claims.
- *It's there when it's needed.* Electronic services are available day and night; from home, the office, or anywhere in the world.
- *It makes record keeping and research easy.* Not only can TexMedConnect be used to send and receive claims, it can check client eligibility, retrieve Electronic Remittance and Status (ER&S) Reports, perform claim status inquiries, and archive claims. TexMedConnect can generate and print reports on everything it sends, receives, and archives.

### 3.1.2 Electronic Services Available

- Eligibility verification
- Claims submission
- Claim status inquiry (CSI)
- ER&S Reports
- Appeals (also known as correction and resubmission)

### 3.1.3 Paper Remittance and Status (R&S) Reports No Longer Available

TMHP no longer produces or distributes paper R&S Reports. This initiative saves the state of Texas the cost of printing and mailing Paper R&S Reports.

All R&S Reports are now available online through the secure portion of the TMHP website at [www.tmhp.com](http://www.tmhp.com). Providers who receive an ER&S Report with third party software are not affected by this change.

Online R&S Reports are available as a portable document format (PDF) file every Monday morning—four days earlier than paper R&S Reports were available. Providers must have a provider administrator account on the TMHP website to receive R&S Reports. Providers who do not have a provider administrator account should create one to avoid delays or interruptions to business processes.

Providers can follow the instructions in the [TMHP Portal Security Training Guide](#) to setup a provider administrator account.

## **3.2 Electronic Billing**

Providers who want to transition from paper billing to electronic billing must decide how they will submit their claims to TMHP. Providers can use TexMedConnect on the TMHP website at [www.tmhp.com](http://www.tmhp.com), vendor software that submits files directly to TMHP, or they may use a third party billing agent (e.g., billing companies and clearinghouses) who submit files on the provider's behalf.

### **3.2.1 TexMedConnect**

TexMedConnect is a free, web-based, claims submission application provided by TMHP. Technical support and training for TexMedConnect are also available free from TMHP. Providers can submit claims, eligibility requests, claim status inquiries, appeals, and download ER&S Reports (in either PDF or ANSI 835 formats) using TexMedConnect. TexMedConnect can interactively submit individual claims that are processed in seconds. To use TexMedConnect, providers must have:

- An internet service provider (ISP)
- Microsoft® Internet Explorer®
- Google Chrome®
- Mozilla Firefox®

A broadband connection is recommended but not required. Providers that use TexMedConnect can find the online TexMedConnect manuals for Acute Care and Long Term Care on the TexMedConnect Info web page in the EDI section of the TMHP website at [www.tmhp.com/Pages/EDI/EDI\\_TexMedConnect.aspx](http://www.tmhp.com/Pages/EDI/EDI_TexMedConnect.aspx).

### **3.2.2 Vendor Software**

Providers that do not use TexMedConnect must use vendor software to create, submit, and retrieve data files. Providers can use software from any vendor listed on the EDI Vendor Testing List, which is located in the EDI section of the TMHP website at [www.tmhp.com](http://www.tmhp.com). There are hundreds of software vendors that have a wide assortment of services and that have been approved to submit electronic files to TMHP. Providers that plan to access TMHP's electronic services with vendor software should contact the vendor for details on software requirements. TMHP does not make vendor recommendations or provide any assistance for vendor software. Not all vendor software offers the same features or levels of support. Providers are encouraged to research their software thoroughly to make certain that it meets their needs and that it has completed testing and has been certified with TMHP.

### **3.2.3 Third Party Billing Agents**

Billing agents are companies or individuals who submit electronic files to TMHP on behalf of the provider. Generally, this means that the provider uses a product that sends billing or other information to the billing agent who processes it and transmits it to TMHP and other institutions. A complete list of billing agents who have completed the testing process and been certified by TMHP can be found on the EDI Vendor Testing List, which is located in the EDI section of the TMHP website at [www.tmhp.com](http://www.tmhp.com).

TMHP does not make billing agent recommendations or provide any assistance for billing agents' software or services. TMHP has no information on the software or other requirements of billing agents. Providers should contact the billing agent to obtain information about their products and processes.

### 3.3 Gaining Access

Providers must setup their software or billing agent services to access the TMHP EDI Gateway. Providers who use billing agents or software vendors should contact those organizations for information about installation, settings, maintenance, and their processes and procedures for exchanging electronic data.

Providers that download the ANSI 835 file through TexMedConnect and providers that use vendor software must request a submitter ID. A submitter ID is necessary for vendor software to access TMHP's electronic services. It serves as an electronic mailbox for the provider and TMHP to exchange data files. To order a submitter ID, providers must call the EDI Help Desk at 1-888-863-3638, Option 3. Providers that use a billing agent do not need a submitter ID.

Providers may receive an ER&S Report by completing the Electronic Remittance and Status (ER&S) Agreement and submitting it to the EDI Help Desk after setting up access to the TMHP EDI Gateway.

**Referto:** [Electronic Remittance Advice \(ERA\) Agreement](#) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

### 3.4 Training

Providers should contact the TMHP Contact Center at 1-800-925-9126 for billing and training questions. Information about training opportunities is available in the [Provider Education section](#) of the TMHP website at [www.tmhp.com](http://www.tmhp.com). Providers may also use the many reference materials and workbooks available on the website. The TMHP EDI Help Desk provides technical assistance and does not provide training.

### 3.5 Electronic Transmission Reports

Providers are required to retain all claim and electronic file transmission records. Providers must verify that all claims submitted to TMHP are received and accepted. Providers must also track claims submissions against their claims payments to detect and correct all claim errors.

**Referto:** Subsection 1.6.3, "Retention of Records and Access to Records and Premises" in "Section 1: Provider Enrollment and Responsibilities" (*Vol. 1, General Information*) for more information about provider responsibility and electronic submissions.

If an electronic file transmission record is missing, providers can request that the transmission report file be reset by contacting the TMHP EDI Help Desk at 1-888-863-3638, Option 3. The TMHP EDI Help Desk will then reset the files for the production submitter ID provided. Requests for transmission reports produced in the previous 30 days will be provided at no cost to providers. Requests for transmission reports produced more than 30 days before the request will result in a charge of \$500 plus 8.25 percent sales tax of \$41.25 for a total charge of \$541.25. Providers that hold a tax-exempt certificate will not be assessed the sales tax. This cost is per transmission report.

### 3.6 Provider Check Amounts Available Online

Acute care providers can search, view, and print on the TMHP website at [www.tmhp.com](http://www.tmhp.com) all payment amounts issued during the previous year.

The features of the online check amount include:

- The ability to search information up to one year before the date of the search.
- All results are displayed on a single screen.

- All results can be printed on a single report.
- The 52 weeks of reimbursement payment information includes the:
  - Payment date
  - Payee name
  - Payment amount
  - Program for which payment was issued
  - Hold amount
  - Payment status

Providers must have or must create an administrative account to view their payment amounts online. Providers can then grant “View Payment Amounts” security permission to the office staff of their choice. Providers can access their check amounts by logging into their accounts from the TMHP website and then pressing **View Payment Amounts**.

Provider check amounts are also available through the automated inquiry system (AIS) telephone line and ER&S Reports.

### 3.7 Third Party Vendor Implementation

TMHP requires all software vendors and billing agents to complete EDI testing before access to the production server is allowed. Vendors that wish to begin testing may either call the EDI Help Desk at 1-888-863-3638, Option 3, or visit the Edifecs testing site at [editesting.tmhp.com](http://editesting.tmhp.com) and use the *TMHP Support* link. An Edifecs account will be created for the vendor to begin testing EDI formats once they have enrolled for testing. After the successful completion of Edifecs testing and the submission of a Trading Partner Agreement, vendors must then complete end-to-end testing on the TMHP test server. Software vendors and billing agents must be partnered with at least one Texas provider before a test submitter ID can be issued. When end-to-end testing has been completed, the software vendor or billing agent will be added to the EDI Submitter List. Providers and billing agents may then order production submitter IDs for use with the vendor’s software. Companion guides and vendor specifications are available on the EDI page of the TMHP website at [www.tmhp.com](http://www.tmhp.com).

#### 3.7.1 Automated Maintenance Process for All Electronic Submitters

All submitter folders have a maximum limit of 7500 files, and no files can be more than 30 days old. Files that exceed these limits will be purged by TMHP on a daily basis. Providers should review, retrieve, and backup their electronic response files within 30 days. Files not retrieved within the 30-day time period or files that exceed a maximum file count of 7500 will be purged by TMHP. All electronic submitters are responsible for the maintenance of their submitter folders. Files that are submitted using EDI version 5010 are limited to a maximum of 5,000 transactions per file. Files that have more than 5,000 transactions will be rejected.

Requests for transmission reports produced after the 30-day period, or resulting from a purge of over 7500 files will require fees, as outlined in Subsection 3.5, “Electronic Transmission Reports” in this section.

### 3.7.2 Supported File Types

TMHP EDI supports the following electronic HIPAA-compliant ANSI ASC X12 5010 transaction types:

| Electronic Transaction Types |                               |
|------------------------------|-------------------------------|
| 270                          | Eligibility request           |
| 271                          | Eligibility response          |
| 276                          | Claim status inquiry          |
| 277                          | Claim status inquiry response |
| 835                          | ER&S Report                   |
| 837D                         | Dental claims                 |
| 837I                         | Institutional claims          |
| 837P                         | Professional claims           |

**Note:** Dental providers who submit American National Standards Institute, Accredited Standards Committee X12 (ANSI ASC X12N) 837D transactions through the TMHP Electronic Data Interchange (EDI) are required to include the header date of service (HDOS) to comply with International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) claims processing guidelines.

## 4.1 General Medicaid Eligibility

A person may be eligible for medical assistance through Medicaid if the following conditions are met:

- The applicant must be eligible for medical assistance at the time the service is provided. It is not mandatory that the process of determining eligibility be completed at the time service is provided; the client can receive retroactive eligibility. Services or supplies *cannot* be paid under Texas Medicaid if they are provided to a client before the effective date of eligibility for Medicaid or after the effective date of denial of eligibility. Having an application in process for Medicaid eligibility does *not* guarantee the applicant will be eligible.
- The service must be a benefit and determined medically necessary (except for preventive family planning, annual physical exams, and Texas Health Steps [THSteps] medical or dental checkup services) by Texas Medicaid and must be performed by an approved provider of the service.
- Applicants for medical assistance potentially are eligible for Medicaid coverage up to three calendar months before their application for assistance, if they have unpaid or reimbursable Medicaid-covered medical bills and have met all other eligibility criteria during the time the service was provided. The provision also includes deceased individuals when a bona fide agent requests application for services. An application for retroactive eligibility must be filed with the Health and Human Services Commission (HHSC); it is not granted automatically. The applicant must request the prior coverage from an HHSC representative and complete the section of the application about medical bills.

Clients who are not eligible for Medicaid but meet certain income guidelines may receive family planning services through other family planning funding sources. Clients not eligible for Medicaid are referred to a family planning provider. Clients seeking other services may be eligible for state health-care programs, some of which are described in this section.

**Referto:** HHSC website at [www.healthytexaswomen.org](http://www.healthytexaswomen.org) for information about family planning and the locations of family planning clinics that receive HHSC Family Planning Program funding.

### 4.1.1 Your Texas Benefits Medicaid Card

Clients receive a Your Texas Benefits Medicaid card that can be used to verify the client eligibility for various state-funded programs, including Medicaid.

The front of the card includes the client's name, member ID, the ID of the agency that issued the card, and the date on which the card was sent.

The back of the card provides:

- An eligibility verification contact number. The number can be used to determine:
  - Program eligibility dates.
  - Retroactive eligibility (when applicable).
  - Eligible services (when applicable).
  - Medicaid managed care eligibility.
- An eligibility website address for clients and non-pharmacy providers.
- A non-managed care pharmacy claims assistance contact number.
- The Medicaid Client Hotline contact number.

Client TPR and other insurance information can also be verified using the benefit card.

**Referto:** Subsection 4.2, “Eligibility Verification” in this section for additional ways to verify client eligibility.

[Your Texas Benefits Medicaid card \(English and Spanish\)](#) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

#### **4.1.2 Retroactive Eligibility**

Medicaid coverage may be assigned retroactively for a client. For claims for an individual who has been approved for Medicaid coverage but has not been assigned a Medicaid client number, the 95-day filing deadline does not begin until the date the notification of eligibility is received from HHSC and added to the TMHP eligibility file.

The date on which the client’s eligibility is added to the TMHP eligibility file is the add date. To ensure the 95-day filing deadline is met, providers must verify eligibility and add date information by calling the Automated Inquiry System (AIS) or using the TMHP Electronic Data Interchange (EDI) electronic eligibility verification.

If a person is not eligible for medical services under Texas Medicaid on the date of service, reimbursement for all care and services provided must be resolved between the provider and the client receiving the services. Providers are not required to accept Medicaid for services provided during the client’s retroactive eligibility period and may continue to bill the client for those services. This guideline does not apply to nursing facilities certified by the Department of Aging and Disability Services (DADS).

If it is the provider’s practice not to accept Medicaid for services provided during the client’s retroactive eligibility period, the provider must apply the policy consistently for all clients who receive retroactive eligibility. Providers must inform the client about their policy before rendering services. If providers accept Medicaid assignment for the services provided during the client’s retroactive eligibility period and want to submit a claim for Medicaid-covered services, providers must refund payments received from the client before billing Medicaid for the services.

The provider should also check the eligibility dates electronically through TexMedConnect or the Your Texas Benefits Medicaid website at [www.yourtexasbenefitscard.com](http://www.yourtexasbenefitscard.com) to see whether the client has retroactive eligibility for previous bills. Retroactive eligibility and the retroactive eligibility period may be verified by visiting [www.yourtexasbenefitscard.com](http://www.yourtexasbenefitscard.com). Texas Medicaid considers all services between the Eligibility Date and the Good Through date for reimbursement. Providers can determine whether a client has retroactive eligibility for previous bills by verifying eligibility on [www.tmhp.com](http://www.tmhp.com), transmitting an electronic eligibility request, or calling AIS or the TMHP Contact Center.

Examples of Medicaid identification forms are found at the end of this section. Actual Medicaid forms can be identified by a watermark.

**Referto:** [Your Texas Benefits Medicaid card \(English and Spanish\)](#) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

#### **4.1.3 Expedited Eligibility (Applies to Medicaid-eligible Pregnant Women Throughout the State)**

HHSC processes Medicaid applications for pregnant women within 15 business days of receipt. Once eligibility has been certified, a Your Texas Benefits Medicaid card will be issued to verify eligibility and to facilitate provider reimbursement.

#### **4.1.4 Medicaid Buy-In Program for Employed Individuals with Disabilities**

The Medicaid Buy-In (MBI) Program allows employed individuals with disabilities to receive Medicaid services by paying a monthly premium. Some MBI participants, based on income requirements, may be determined to have a \$0 premium amount and therefore are not required to make a premium payment. Individuals with earnings of less than 250 percent of the federal poverty income limits (FPIL) may be eligible to participate in the program. Applications for the program are accepted through HHSC’s regular Medicaid application process.

Participants will receive the Your Texas Benefits Medicaid card. MBI participants in urban service areas will be served through Texas Medicaid fee-for-service.

#### **4.1.5 Newborn Eligibility**

A newborn child may be eligible for Medicaid for up to 1 year if:

- The child's mother received Medicaid at the time of the child's birth.
- The child's mother is eligible for Medicaid or would be eligible if pregnant.
- The child resides in Texas.

If the newborn is eligible for Medicaid coverage, providers must not require a deposit for newborn care from the guardian. The hospital or birthing center must report the birth to HHSC Eligibility Services at the time of the child's birth.

If the hospital or birthing center notifies HHSC Eligibility Services that a newborn child was born to a Medicaid-eligible mother, then the hospital caseworker, mother, and attending physician (if identified) should receive a Medicaid Eligibility Verification (Form H1027) from HHSC a few weeks after the child's birth. Form H1027 includes the child's Medicaid identification number and effective date of coverage. After the child has been added to the HHSC eligibility file, a Your Texas Benefits Medicaid card is issued. Newborn clients will receive the Your Texas Benefits Medicaid card approximately two weeks after birth.

Providers can verify eligibility through the Medicaid eligibility verification website at [www.yourtexasbenefitscard.com](http://www.yourtexasbenefitscard.com). After the newborn becomes a Medicaid client, the card website shows that client as eligible, even if the card has not been produced yet.

**Note:** *Claims submitted for services provided to a newborn eligible for Medicaid must be filed using the newborn client's Medicaid number. Claims filed with the mother's Medicaid number cause a delay in reimbursement.*

The Medicaid number on the Medicaid Eligibility Verification (Form H1027) may be used to identify newborns eligible for Medicaid.

**Referto:** [Your Texas Benefits Medicaid card \(English and Spanish\)](#) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

#### **4.1.6 Potential Supplemental Security Income (SSI)/Medicaid Eligibility for Premature Infants**

The Supplemental Security Income (SSI) program includes financial and Medicaid benefits for people who are disabled. When determining eligibility for SSI, the Social Security Administration (SSA) must establish that the person meets financial and disability criteria. When determining financial eligibility for a newborn child, SSA does not consider the income and resources of the child's parents until the month following the month the child leaves the hospital and begins living with the parents. Determinations of disability are made by the state's Disability Determination Services and may take several months. Federal regulations state that infants with birth weights less than 1,200 grams are considered to meet the SSI disability criteria.

The SSA issued a policy to local SSA offices to make presumptive SSI disability decisions and payments for these children, making it possible for a child to receive SSI and Medicaid benefits while waiting for a final disability determination to be made by Disability Determination Services. The child's parent or legal guardian must file an SSI application with the SSA. It is in the child's best interest that the application with the SSA be filed as soon as possible after birth. The SSA accepts a birth certificate with the child's birth weight or a hospital medical summary as evidence for the presumptive disability decision.

Providers should not change their current newborn referral procedures to HHSC for children who are born to mothers who are eligible for Medicaid as described in this section. However, providers are encouraged to refer parents and guardians of low birth weight newborns to the local SSA office for an SSI application.

#### **4.1.7 Foster Care**

Most children in the state of Texas foster care program are automatically eligible for Medicaid.

Extended health-care coverage is also available for some former foster care youth clients enrolled in an institution of higher education through the Former Foster Children in Higher Education (FFCHE) program.

To ensure that these children have access to the necessary health-care services for which they are eligible, providers can accept the Medicaid Eligibility Verification (Form H1027) as evidence of Medicaid eligibility. Although this form may not list the client's Medicaid identification number, it is an official state document that establishes Medicaid eligibility.

Providers should honor the Medicaid Eligibility Verification (Form H1027) as proof of Medicaid eligibility and must bill Texas Medicaid as soon as a Medicaid ID number is assigned. Medicaid ID numbers will be assigned approximately one month from the issue date of the Medicaid Eligibility Verification (Form H1027). The form includes a Department of Family and Protective Services (DFPS) client number that provides an additional means of identification and tracking for children in foster care.

**Note:** *The DFPS client number is accepted by Medicaid Vendor Drug Program (VDP)-enrolled pharmacies to obtain outpatient prescribed drug benefits. VDP pharmacies must submit subsequent pharmacy claims with the Medicaid ID number after it has been assigned.*

**Reminder:** *Adoption agencies/foster parents are not considered third party resources (TPRs). Medicaid is primary in these circumstances.*

#### **4.1.8 Former Foster Care**

Texas Health and Human Services Commission (HHSC) provides Medicaid health-care coverage to former foster care youth who:

- Are 18 through 25 years of age.
- Were in Texas foster care on their 18th birthday or older and were receiving Medicaid when they aged out of Texas foster care.
- Are U.S. citizens or have a qualified alien status (i.e., green card).

#### **4.1.9 Medicaid Managed Care Eligibility**

All clients who are determined to be eligible for Texas Medicaid are first enrolled as fee-for-service clients. Specific client groups within the Texas Medicaid population are eligible for managed care based on criteria such as age, location, and need. A client who is determined to be eligible for Medicaid managed care is enrolled in the appropriate managed care organization (MCO) or dental plan with a separate eligibility date. In most cases, Medicaid managed care enrollment is not retroactive.

**Referto:** *The Medicaid Managed Care Handbook (Vol. 2, Provider Handbooks) for more information about managed care eligibility and enrollment.*

### **4.2 Eligibility Verification**

To verify a client's Texas Medicaid eligibility, use the following options:

- Verify electronically through TMHP EDI. Providers may inquire about a client's eligibility by electronically submitting one of the following for each client:

- Medicaid or Children with Special Health Care Needs (CSHCN) Services Program identification number.
- One of the following combinations: Social Security number and last name; Social Security number and date of birth; or last name, first name, and date of birth. Providers can narrow the search by entering the client's county code or sex.
- Submit electronic verifications in batches limited to 5,000 inquiries per transmission.
- Verify the client's Medicaid eligibility using the Medicaid Eligibility Verification (Form H1027) or by accessing the Your Texas Benefits Medicaid website at [www.yourtexasbenefitscard.com](http://www.yourtexasbenefitscard.com).
- Contact the TMHP Contact Center or AIS at 1-800-925-9126 or 1-512-335-5986.
- Submit a hard-copy list of clients to TMHP. This service is only used for clients with eligibility that is *difficult* to verify. A charge of \$15 per hour plus \$0.20 per page, payable to TMHP, applies to this eligibility verification. The list includes names, gender, and dates of birth if the Social Security and Medicaid ID numbers are unavailable. TMHP can check the client's eligibility manually, verify eligibility, and provide the Medicaid ID numbers. Mail the lists to the following address:

Texas Medicaid & Healthcare Partnership Contact Center  
12357-A Riata Trace Parkway  
Suite 100  
Austin, TX 78727

**Note:** Providers can obtain client eligibility information for a client who is enrolled in a Medicaid managed care organization (MCO) from the MCO's web page. Providers can also check the MCO's web page for submission of electronic claims, prior authorization requests, claim appeals and reconsiderations, exchange of clinical data, and other documentation necessary for prior authorization and claim processing.

#### 4.2.1 Advantages of Electronic Eligibility Transactions

Eligibility transactions through TexMedConnect or EDI have the following advantages:

- Submissions are available 24-hours a day 7 days a week.
- Submission of EDI batches of 5000 per transmission.
- Submission of client group lists through TexMedConnect. Providers can create lists of clients to verify eligibility. Each client group can contain up to 250 clients, providers can create up to 100 groups for each National Provider Identifier (NPI).

Electronic eligibility responses contain:

- Restrictions applicable to the client's eligibility such as lock-in, emergency, or womens health.
- Medicare eligibility and effective dates, including Part A, B, and C.
- Complete other insurance information, including name and address, and effective dates. EDI transactions also indicate the patient relationship to policy holder.

#### 4.2.2 Contract with Outside Parties

The *State Medicaid Manual*, Chapter 2, "State Organization," (Section 2080.18) allows states to contract with outside agents to confirm for providers the eligibility of a Medicaid client. Medicaid providers may contract with these agents for eligibility verification with a cost to the provider. The provider remains responsible for adhering to the claims filing instructions in this manual. The provider, not the agent, is responsible for meeting the 95-day filing deadline and other claims submission criteria.

### 4.3 Medicaid Identification and Verification

Providers are responsible for requesting and verifying current eligibility information from clients by using the methods listed in subsection 4.2, “Eligibility Verification” in this section or by asking clients to produce their Your Texas Benefits Medicaid card or Medicaid Identification form (H1027).

Providers may verify client eligibility electronically through TexMedConnect or through the Medicaid eligibility verification website at [www.yourtexasbenefitscard.com](http://www.yourtexasbenefitscard.com) from which website providers can print a copy of a client’s proof of eligibility.

Providers must accept either of these forms as valid proof of eligibility. Providers should retain a copy for their records to ensure the client is eligible for Medicaid when the services are provided. Clients should share eligibility information with their providers.

Providers should request additional identification if they are unsure whether the person presenting the form is the person identified on the form.

Providers should check the Eligibility Date to see whether the client has possible retroactive eligibility for previous bills.

Only those clients listed on the Medicaid Eligibility form or the Your Texas Benefits Medicaid card are eligible for Medicaid. If a person insists he or she is eligible for Medicaid but cannot produce a current Your Texas Benefits Medicaid card or Medicaid Eligibility Verification (Form H1027), has lost it, or has forgotten to bring it to the appointment, providers can verify eligibility through the methods listed in subsection 4.2, “Eligibility Verification” in this section. Providers must document this verification in their records and treat these clients as if they had presented a Your Texas Benefits Medicaid card or Medicaid Eligibility Verification (Form H1027).

When a client’s Your Texas Benefits Medicaid card has been lost or stolen, HHSC issues a temporary Medicaid verification Form H1027. The following is a sample of forms:

- *Form H1027-A.* Medicaid eligibility verification is used to indicate eligibility for clients who receive regular Medicaid coverage.
- *Form H1027-B.* Medicaid Qualified Medicare Beneficiary (MQMB) is issued to clients eligible for MQMB coverage.
- *Form H1027-C.* Qualified Medicare Beneficiary (QMB) is issued to clients who are eligible for QMB coverage only.
- *Form H1027-F.* Temporary Medicaid identification for clients receiving Former Foster Care in Higher Education (FFCHE) health care.

**Referto:** Subsection 4.11.1, “QMB/MQMB Identification” in this section.

The Medicaid Eligibility Verification (Form H1027) is acceptable as evidence of eligibility during the eligibility period specified unless the form contains limitations that affect the eligibility for the intended service. Providers must accept any of the documents listed above as valid proof of eligibility. If the client is not eligible for medical assistance or certain benefits, the client is treated as a private-pay patient.

**Referto:** Subsection 4.2, “Eligibility Verification” in this section.

Providers must review limitations identified on the Medicaid electronic eligibility file, AIS, the Your Texas Benefits Medicaid website at [www.yourtexasbenefitscard.com](http://www.yourtexasbenefitscard.com), or the Medicaid Eligibility Verification (Form H1027). Clients may be required to use a designated primary provider or pharmacy. QMB clients will be limited to Medicaid coverage of the Medicare Part A premiums, if any, Medicare Part B premiums, and Medicare coinsurance or deductible according to current payment guidelines.

If the client is identified as eligible and no other limitations of eligibility affect the intended service, proceed with the service. Eligibility during a previous month does not guarantee eligibility for the current month. The Medicaid Eligibility Verification (Form H1027) and the Your Texas Benefits Medicaid card are the only documents that are honored as verification of Medicaid eligibility.

**Referto:** “Section 8: Third Party Liability (TPL)” (*Vol. 1, General Information*) for TPL information.

In accordance with current federal policy, Texas Medicaid and Texas Medicaid clients cannot be charged for the client’s failure to keep an appointment. Only claims for services provided are considered for payment. Clients may not be billed for the completion of a claim form, even if it is a provider’s office policy.

## **4.4 Restricted Medicaid Coverage**

The following sections are about limitations that may appear on the Your Texas Benefits Medicaid card, indicating that the client’s eligibility is restricted to specific services. Unless “LIMITED” appears on the form, the client is not locked into a single provider.

### **4.4.1 Emergency Only**

The word “EMERGENCY” on the form indicates the client is restricted to coverage for an emergency medical condition. “Emergency medical condition” is defined in subsection 4.4.2.2, “Exceptions to Lock-in Status” in this section.

Certification for emergency Medicaid occurs after the services have been provided. The coverage is retroactive and limited to the specific dates that the client was treated for the emergency medical condition.

Clients limited to emergency medical care are not eligible for family planning, THSteps, or Comprehensive Care Program (CCP) benefits. Only services directly related to the emergency or life-threatening situations are covered.

Undocumented aliens and aliens with a nonqualifying entry status are identified for emergency Medicaid eligibility by the classification of type programs (TPs) 30, 31, 32, 33, 34, 35, and 36. Under Texas Medicaid, undocumented aliens are only eligible for emergency medical services, including emergency labor and delivery.

Any service provided after the emergency medical condition is stabilized is not a benefit.

If a client is not eligible for Medicaid and is seeking family planning services, providers may refer the client to one of the clinics listed on the HHSC website at [www.healthytexaswomen.org](http://www.healthytexaswomen.org).

### **4.4.2 Client Lock-in Program**

Texas Medicaid fee-for-service clients can be required to use a designated primary care provider and/or a primary care pharmacy.

The client is assigned to a designated provider for access to medical benefits and services when one of the following conditions exists:

- The client received duplicative, excessive, contraindicated, or conflicting health-care services, including drugs.
- A review indicates abuse, misuse, or fraudulent actions related to Medicaid benefits and services.

After analysis through the neural network component of the Medicaid Fraud and Abuse Detection System (MFADS), qualified medical personnel validate the initial identification and determine candidates for lock-in status. The validation process includes consideration of medical necessity. For the lock-in status designation, medical necessity is defined as the need for medical services to the amount and frequency established by accepted standards of medical practice for the preservation of health, life, and the prevention of more impairments.

Except for specialist consultations, services rendered to a client by more than one provider for the same or similar condition during the same time frame may not be considered medically necessary.

#### **4.4.2.1 Lock-in Medicaid Identification**

Clients with lock-in status receive the Your Texas Benefits Medicaid card with “Lock-in” printed on the card. The designated provider and pharmacy names are printed on the card under the word “Lock-in.”

When a Texas Medicaid fee-for-service client in the Lock-in Program attempts to obtain nonemergency services from someone other than their designated lock-in primary care provider, the provider must do one of the following:

- Verify the lock-in status online on the TMHP website or by calling AIS or the TMHP Contact Center at 1-800-925-9126.
- Attempt to contact the client’s designated lock-in primary care provider for a referral. If the provider is unable to obtain a referral, the provider must inform clients that they are financially responsible for the services.

#### **4.4.2.2 Exceptions to Lock-in Status**

Lock-in clients may go to any provider for the following services or items:

- Ambulance services
- Anesthesia
- Annual well-woman checkup
- Assistant surgery
- Case management services
- Chiropractic services
- Counseling services provided by a chemical dependency treatment facility
- Eye exams for refractive errors
- Eyeglasses
- Family planning services (regardless of place of service [POS])
- Genetic services
- Hearing aids
- Home health services
- Laboratory services (including interpretations)
- Licensed clinical social worker (LCSW) services
- Licensed professional counselor (LPC) services
- Mental health rehabilitation services
- Intellectual disability/related condition assessment performed by an intellectual or developmental disability (IDD) provider
- Nursing facility services
- Primary home care
- Psychiatric services
- Radiology services (including interpretations)
- School Health and Related Services (SHARS)

- Comprehensive Care Program (CCP)
- THSteps medical and dental services

For referrals or questions, contact:

HHSC  
Office of Inspector General  
Lock-in Program - MC 1323  
PO Box 85200  
Austin, TX 78708  
1-800-436-6184

If an emergency medical condition occurs, the lock-in restriction does not apply. The term emergency medical condition is defined as a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain), such that the absence of immediate medical attention could reasonably be expected to result in:

- Placing the client's health (or, with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy.
- Serious impairment to bodily functions.
- Serious dysfunction of any bodily organ or part.

**Important:** *A provider who sends in an appeal because a claim was denied with explanation of benefits (EOB) 00066 must include the performing provider identifier, not just a name or group provider identifier. Appeals without a performing provider identifier are denied. The NPI of the designated provider must be entered in the appropriate paper or equivalent electronic field for nonemergency inpatient and outpatient claims to be considered for reimbursement.*

**Note:** *Only when the designated provider or designated provider representative has given permission for the client to receive nonemergency inpatient and/or outpatient services, including those provided in an emergency room, can the facility use the designated provider's NPI for billing.*

#### **4.4.2.3 Selection of Designated Provider and Pharmacy**

Texas Medicaid fee-for-service clients identified for lock-in status can participate in the selection of one primary care provider, primary care pharmacy, or both from a list of participating Medicaid providers. Eligible providers cannot be under administrative action, sanction, or investigation. In general, the designated primary care provider's specialty is general practice, family practice, or internal medicine. Other specialty providers may be selected on a case-by-case basis. Primary care providers can include, but are not limited to the following:

- A physician
- Physician assistant
- Physician group
- Advanced practice nurse
- Outpatient clinic
- Rural health clinic (RHC)
- Federally qualified health center (FQHC)

If the client does not select a primary care provider or primary care pharmacy, HHSC selects one for the client.

When a candidate for the designated provider is determined, HHSC contacts the provider by letter. The designated provider receives a confirmation letter from HHSC that verifies the name of the client confirming the name of the client, primary care provider or primary care pharmacy, and the effective date of the lock-in arrangement.

#### **4.4.2.4 Pharmacy services**

The primary care pharmacy helps the Lock-in Program ensure that prescriptions that are filled for clients with lock-in status are written either by the primary care provider or other health-care providers to whom the primary care provider has referred the client. HHSC has identified by therapeutic class those medications that require additional monitoring. When a medication that requires additional monitoring is prescribed by an emergency room provider, the primary care pharmacy may be reimbursed for dispensing up to 72 hours or three business days of the prescribed dosage, which allows for holidays and weekends. The primary care pharmacy may dispense the remainder of the medication after receiving approval by the primary care provider or the other providers that HHSC deems to be appropriate.

Some circumstances allow a client to be approved to receive medications from a pharmacy other than the primary care pharmacy. A pharmacy override occurs when the Lock-in Program approves an individual client's request to obtain medication at an alternate pharmacy other than the lock-in pharmacy. The Lock-in Program is notified when the client or pharmacist calls the HHSC-OIG Hotline telephone number at 1-800-436-6184 to request a pharmacy override.

The Lock-in Program staff refers the client to the notification letter titled "What You Need to Know About the Lock-in Program," which was sent at initial lock-in. This letter explains the pharmacy override process. The client is instructed to have the alternate pharmacy call the Lock-in Program to request the override.

The following are allowable circumstances for pharmacy override approval:

- The recipient moved out of the geographical area (more than 15 miles from the lock-in pharmacy).
- The lock-in pharmacy does not have the prescribed medication, and the medication will remain unavailable for more than two to three days.
- The lock-in pharmacy is closed for the day, and the recipient needs the medication urgently.
- The lock-in pharmacy does not carry the medication and is either unable to order it or unwilling to stock it.
- The lock-in pharmacy no longer wants to be the designated pharmacy for a particular lock-in client.
- The client has valid complaints against the lock-in pharmacy or its staff.

For questions about pharmacy services for clients that are locked into a primary care pharmacy, contact the Lock-in Program by calling the HHSC OIG Hotline at 1-800-436-6184.

#### **4.4.2.5 Duration of Lock-in Status**

The Lock-in Program duration of lock-in status is the following:

- Initial lock-in status period—minimum of 36 months.
- Second lock-in status period—additional 60 months.
- Third lock-in status period—will be for the duration of eligibility and all subsequent periods of eligibility.
- Clients who have been arrested for, indicted for, convicted of, or admitted to a crime that is related to Medicaid fraud will be assigned lock-in status for the duration of eligibility and subsequent periods of eligibility.

HHSC uses the same time frames for clients with a lock-in status as noted by the word “LIMITED” on the Your Texas Benefits Medicaid card.

Clients are removed from lock-in status at the end of the specified limitation period if their use of medical services no longer meets the criteria for lock-in status. A medical review also may be initiated at the client’s or provider’s request. Clients or providers can reach the Lock-in Program by calling the HHSC OIG Hotline at 1-800-436-6184 to request this review.

Providers may request to no longer serve as a client’s designated provider at any time during the lock-in period by contacting the Lock-in Program by calling the HHSC OIG Hotline at 1-800-436-6184. Providers are asked to serve or refer the client until another arrangement is made. New arrangements are made as quickly as possible.

#### **4.4.2.6 Referral to Other Providers**

Texas Medicaid fee-for-service clients with a lock-in status may be referred by their designated provider to other providers. For the referred provider to be paid, the provider identifier of the referring designated provider must be in the referring provider field of the claim form. Claims submitted electronically must have the NPI of the referring designated provider in the Referring Provider Field. Providers must consult with their vendor for the location of this field in the electronic claims format.

*Referto:* Subsection 6.2, “TMHP Electronic Claims Submission” in “Section 6: Claims Filing” (*Vol. 1, General Information*)

#### **4.4.2.7 Hospital Services**

An inpatient hospital claim for a lock-in Medicaid fee-for-service client is considered for reimbursement if the client meets Medicaid eligibility and admission criteria. Hospital admitting personnel are asked to check the name of the designated provider for the client that is noted on the Your Texas Benefits Medicaid website at [www.yourtexasbenefitscard.com](http://www.yourtexasbenefitscard.com) and inform the admitting physician of the designated provider’s name if the two are different.

Provider claims for nonemergency inpatient services for lock-in Texas Medicaid fee-for-service clients are considered for payment *only* when the designated provider identifier appears on the claim form as the billing, performing, or referring physician.

Providers can get information about claim reimbursement for lock-in clients by calling the TMHP Contact Center at 1-800-925-9126.

#### **4.4.2.8 Lock-in Status Claims Payment**

Payment for services to a lock-in Medicaid client is made to the designated provider only, unless the services result from a designated provider referral or emergency. An automated review process determines if the claim includes the lock-in primary care provider’s provider identifier as the billing, performing, or referring provider. If the lock-in primary care provider’s provider identifier is not indicated on the claim, the claim is not paid. Exceptions to this rule include emergency care and services that are included in subsection 4.4.2.2, “Exceptions to Lock-in Status” in this section. Appeals for denied claims are submitted to TMHP and must include the designated Medicaid provider identifier for reimbursement consideration.

Claims for provider services for Texas Medicaid fee-for-service clients must include the provider identifier for the designated primary care provider as the billing or performing provider or a referral number in the prior authorization number (PAN) field.

### 4.4.3 Hospice Program

DADS manages the Hospice Program through provider enrollment contracts with hospice agencies. These agencies must be licensed by the state and Medicare-certified as hospice agencies. Coverage of services follows the amount, duration, and scope of services specified in the Medicare Hospice Program. Hospice pays for services related to the treatment of the client's terminal illness and for certain physician services (not the treatments).

Medicaid Hospice provides palliative care to all Medicaid-eligible clients (no age restriction) who sign statements electing hospice services and are certified by physicians to have six months or less to live if their terminal illnesses run their normal courses. Hospice care includes medical and support services designed to keep clients comfortable and without pain during the last weeks and months before death.

Texas Medicaid clients who are 21 years of age and older and who elect hospice coverage waive their rights to all other Medicaid services related to their terminal illness. They do not waive their rights to Medicaid services that are unrelated to their terminal illness.

Texas Medicaid clients who are 20 years of age and younger and who elect hospice care are not required to waive their rights to concurrent hospice care and treatment of the terminal illness. They do not waive their rights to Medicaid services that are unrelated to their terminal illness.

Medicare and Medicaid clients must elect both the Medicare and Medicaid Hospice programs.

Concurrent hospice care and treatment services include:

- Services related or unrelated to the client's terminal illness
- Hospice care (palliative care and medical and support services related to the terminal illness).

Direct policy questions about the hospice program to DADS at 1-512-438-3519. Direct all other general questions related to the hospice program, such as billing, claims, rate key issues, and authorizations to DADS at 1-512-438-2200.

DADS pays the provider for a variety of services under a per diem rate for any particular hospice day in one of the following categories:

- Routine home care
- Continuous home care
- Respite care
- Inpatient care

#### 4.4.3.1 Hospice Medicaid Identification

Individuals who elect hospice care are issued a Your Texas Benefits Medicaid card. Hospice status may be verified by visiting the Your Texas Benefits Medicaid website at [www.yourtexasbenefitscard.com](http://www.yourtexasbenefitscard.com). Clients may cancel their election at any time.

#### 4.4.3.2 Physician Oversight Services

*Physician oversight* is defined as "physician supervision of clients under the care of home health agencies or hospices that require complex or multidisciplinary care modalities." These modalities involve regular physician client status review of related laboratory and other studies, communication with other health professionals involved in patient care, integration of new information into medical treatment plans, and adjustment of medical therapy. Medicaid hospice does not reimburse for physician oversight services.

#### 4.4.3.3 Medicaid Services Unrelated to the Terminal Illness

When services are unrelated to the Medicaid Hospice client's terminal illness, Medicaid (TMHP) pays its providers directly. Providers of services that are unrelated to the terminal illness are required to follow Medicaid prior authorization and claims filing deadlines.

**Referto:** “Section 5: Fee-for-Service Prior Authorizations” (*Vol. 1, General Information*) for more information about prior authorizations for Medicaid hospice clients.

“Section 6: Claims Filing” (*Vol. 1, General Information*) for more information about filing claims for Medicaid Hospice Clients.

#### **4.4.4 Presumptive Eligibility**

Presumptive eligibility allows qualified hospitals and entities to determine whether an individual can get short-term Medicaid. Clients who have PE receive immediate, short-term Medicaid eligibility while their regular Medicaid application is processed. PE eligibility categories receive full coverage with the exception of pregnant women who receive ambulatory care services only.

##### **4.4.4.1 PE Medicaid Identification**

“PE” on a Your Texas Benefits Medicaid card indicates that a client has presumptive eligibility. PE clients may be identified by visiting the Your Texas Benefits Medicaid website at [www.yourtexasbenefitscard.com](http://www.yourtexasbenefitscard.com). An individual who is certified for Presumptive Eligibility receives the regular Your Texas Benefits Medicaid card.

##### **4.4.4.2 Services**

Presumptive eligibility provides full coverage for all PE types of assistance with the exception of pregnant women. Pregnant women only receive ambulatory care services. Labor, delivery, inpatient services, and THSteps medical are not covered during the PE period for pregnant women. If the woman is determined to be eligible for regular Medicaid for the same period of time, regular Medicaid coverage overlays the PE period and provides a full range of services. Client eligibility for PE coverage must be determined by a qualified hospital or qualified entity. Once eligibility has been determined, services may be obtained from any enrolled Medicaid provider. The claims filing procedures for clients who have PE are the same as those for all other Medicaid clients.

There are five client type programs that provide full Medicaid coverage through presumptive eligibility. Services reimbursed under the presumptive eligibility process are fee-for-service only.

The following client type programs are eligible for presumptive eligibility:

- 74—Children under 1 year of age presumptive
- 75—Children 1–5 years of age presumptive
- 76—Children 6–18 years of age presumptive
- 83—Former Foster Care Children presumptive
- 86—Parents and caretaker relatives presumptive
- 42—Pregnant women presumptive

The length of coverage depends on several factors:

- If the individual submits an application for regular Medicaid, the PE Medicaid coverage ends the date the state makes a determination for regular Medicaid.
- If the individual does not submit an application for regular Medicaid, the PE coverage ends the last day of the month following the PE determination.

##### **4.4.4.3 Qualified Provider Enrollment**

To make PE determinations, the provider must be a qualified hospital or qualified entity. A qualified hospital:

- Is a Medicaid provider.
- Notifies HHSC of its intent to make presumptive eligibility determinations.

- Agrees to make presumptive eligibility determinations according to HHSC policies and procedures.
- Can make presumptive eligibility determinations for pregnant women, children, former foster care children, and parents and other caretakers.
- Helps individuals complete and submit online applications for regular Medicaid.
- Helps individuals understand which documents to send to the state to determine whether they qualify for regular Medicaid.
- Has not been disqualified.

A qualified entity meets the same criteria as a qualified hospital, except that a qualified entity:

- Can be a hospital, clinic, school, or other entity.
- May only make presumptive eligibility determinations for pregnant women.

For more information on how to become a qualified hospital or entity, visit [www.TexasPresumptiveEligibility.com](http://www.TexasPresumptiveEligibility.com).

#### **4.4.4.4 Process**

A qualified provider designated by HHSC requests that the pregnant woman complete a Medicaid application form. The qualified provider determines eligibility for PE coverage based on verification of pregnancy and a determination that the family's income is at or below the current Medicaid limit for pregnant women.

The same application used to determine the woman's PE is forwarded to the local HHSC office for determination of regular Medicaid coverage for the pregnant woman and any other household members. The pregnant woman must follow through with the regular Medicaid application process and be eligible under those requirements to continue receiving Medicaid.

The period of PE begins on the date the qualified provider makes the determination and ends when HHSC makes the final Medicaid determination.

## **4.5 CHIP Perinatal Program**

The Children's Health Insurance Program (CHIP) Perinatal Program provides CHIP perinatal benefits for 12 months to the unborn children of non-Medicaid-eligible women. This program allows pregnant women who are ineligible for Medicaid because of income or immigration status to receive prenatal care and provides CHIP benefits to the child upon delivery for the duration of the coverage period. Continuous Medicaid coverage for 12 months is provided from birth to CHIP Perinatal newborns whose mothers received Emergency Medicaid for the labor and delivery. The 12 months of continuous Medicaid coverage for the newborn is available only if the mother received Medicaid for labor and delivery.

### **4.5.1 Program Benefits**

CHIP Perinatal benefits are provided by select CHIP health plans throughout the state. Benefits for the unborn child include:

- Up to 20 prenatal visits:
  - First 28 weeks of pregnancy—one visit every four weeks.
  - From 28 to 36 weeks of pregnancy—one visit every two to three weeks.
  - From 36 weeks to delivery—one visit per week.
  - Additional prenatal visits are allowed if they are medically necessary.
- Pharmacy services, limited laboratory testing, assessments, planning services, education, and counseling.

- Prescription drug coverage based on the current CHIP formulary.
- Hospital facility charges and professional services charges related to the delivery. Preterm labor that does not result in a birth and false labor are not covered benefits.

Program benefits after the child is born include:

- Two postpartum visits for the mother.
- Medicaid benefits for the newborn.

#### **4.5.2 Claims**

Providers who serve CHIP Perinatal clients must follow the claims filing guidelines in subsection 6.19.1, “CHIP Perinatal Newborn Transfer Hospital Claims” in “Section 6: Claims Filing” (*Vol. 1, General Information*).

#### **4.5.3 Client Eligibility Verification**

The *State Medicaid Manual*, Chapter 2, “State Organization,” (Section 2080.18) allows states to contract with outside agents to confirm for providers the eligibility of a Medicaid client. Medicaid providers may contract with these agents for eligibility verification with a cost to the provider. The provider remains responsible for adhering to the claims filing instructions in this manual. The provider, not the agent, is responsible for meeting the 95-day filing deadline and other claims submission criteria.

A number is issued for the baby based on the submission of the Emergency Medical Services Certification Form H3038 or CHIP Perinatal - Emergency Medical Services Certification, Form H3038P for the mother’s labor with delivery.

Establishing Medicaid for the newborn requires the submission of the Emergency Medical Services Certification Form H3038 or CHIP Perinatal - Emergency Medical Services Certification, Form H3038P for the mother’s labor with delivery. If Form H3038 or H3038P is not submitted, Medicaid cannot be established for the newborn from the date of birth for 12 continuous months of Medicaid coverage. Once enrolled, clients are identified as type program (TP) 36 for the mother and TP 45 for the newborn.

Establishing Medicaid (and issuance of a Medicaid number) can take up to 45 days after Form H3038 or H3038P is submitted. Medicaid eligibility for the mother and infant can be verified using the online lookup on the TMHP website at [www.tmhp.com](http://www.tmhp.com) or by calling AIS at 1-800-925-9126.

For clients enrolled in the CHIP Program, the CHIP health plan assigns a client ID to be used for billing. Providers should contact the CHIP health plan for billing information.

Newborns whose mother received Medicaid including emergency Medicaid are eligible to receive Medicaid benefits beginning at the date of birth and will not be assigned a client ID from the CHIP health plan.

HHSC requires the expectant mother’s provider to fill out the Emergency Medical Services Certification (Form H3038 or H3038P).

The expectant mother will receive this form from HHSC before her due date, along with a letter reminding her to send information about the birth of her child after delivery. The letter will instruct the expectant mother to take the form to her provider, have the provider fill out the form, then mail the form back to HHSC in a preaddressed, postage-paid envelope. In many cases this activity will occur after delivery when the mother is being discharged from the hospital.

Once HHSC receives the completed Emergency Medical Services Certification (Form H3038 or H3038P), Emergency Medicaid coverage will be added for the mother for the period of time identified by the health care provider. The Emergency Medical Services Certification (Form H3038 or H3038P) is the same form currently required to complete Emergency Medicaid certification.

The CHIP perinatal mother whose income is at or below pregnant women's Medicaid FPIL will not be required to fill out a new application or provide new supporting documentation to apply for Emergency Medicaid. HHSC will determine the woman's eligibility for Emergency Medicaid by using income and other information the mother-to-be provided when she was determined to be eligible for CHIP perinatal coverage, as well as information included on the Emergency Medical Services Certification (Form H3038 or H3038P).

If a woman fails to return the completed Emergency Medical Services Certification (Form H3038 or H3038P) within a month after her due date, HHSC will send her another Emergency Medical Services Certification Form H3038 or H3038P with a postage-paid envelope. If the woman fails to submit Emergency Medical Services Certification (Form H3038 or H3038P), and the hospital cannot locate a Type Program 36 for her in the TMHP online provider lookup tool, then the hospital can bill her for facility fees incurred during her stay.

#### **4.5.3.1 Confirming Receipt of Form H3038 or H3038P**

Providers who would like to confirm receipt of form H3038 or H3038P can contact MAXIMUS at 1-877-KIDS-NOW (1-877-543-7669), prompt #6 (for reporting changes) after 48 hours from fax submission. If the submission is by regular mail, providers should allow five business days before contacting MAXIMUS. When calling this number, providers should be prepared to provide the following information:

- National Provider Identifier (NPI)
- Provider name
- Name of person calling
- CHIP perinatal case number (Without the case number, MAXIMUS cannot provide confirmation of receipt. Confirmation of receipt cannot be provided based on client name or address.)

Each form H3038 or H3038P should be faxed one at a time, rather than in a batch. It is important that the form be filled out completely and accurately. If the form is not filled out accurately, it will delay processing and MAXIMUS may not be able to confirm receipt after 48 hours from fax submission.

#### **4.5.3.2 Eligibility Verification for Clients Without a Medicaid ID**

Providers should first attempt to verify if a Medicaid number has been issued by calling TMHP at 1-800-925-9126 and using the prompt for AIS or speaking to a representative. Providers can also use TexMedConnect to check client eligibility. If a provider is unable to locate a Medicaid number for the mother or infant 45 days after form H3038 or H3038P was faxed, the provider can contact the HHSC Central Processing Center (CPC) in one of the following ways:

- By email at [CPC@hhsc.state.tx.us](mailto:CPC@hhsc.state.tx.us)
- By telephone at 1-866-291-1258

CPC needs the following information to respond to requests or inquiries. Providers should submit the information only once. All submissions must be sent in a secure manner. If there are multiple inquiries that are over 45 days, providers can submit them together.

Required information includes the following:

- CHIP perinatal case number
- Mother's name as it appears on her CHIP Perinatal card
- Dates of service
- Date Form H3038 or H3038P was faxed to MAXIMUS
- Baby's first and last name

- Baby's date of birth
- Name and telephone number of the person completing the request

CPC will research inquiries and respond to the provider within 10 business days. This time frame is an approximation and may only apply if all information, including complete contact information, is provided and fewer than 25 names were submitted.

#### **4.5.3.3 Mother's eligibility**

For mothers who currently receive CHIP perinatal and have an income at or below the pregnant women's Medicaid FPIL, and who receive Emergency Medicaid coverage, providers can check eligibility by performing an eligibility verification on the TMHP website at [www.tmhp.com](http://www.tmhp.com) or by calling the TMHP AIS at 1-800-925-9126.

#### **4.5.3.4 Newborn's eligibility**

For CHIP Perinatal newborns with a family income at or below pregnant women's Medicaid limits FPIL, providers can obtain eligibility information and the newborn's PCN by performing an eligibility verification on the TMHP website or by calling the TMHP Contact Center at 1-800-925-9126.

TMHP cannot provide CHIP Perinatal Program eligibility information for the newborn or mother, regardless of the client's income level. For CHIP Perinatal Program eligibility information, contact the CHIP health plan.

A report of birth remains an important step to ensure timely Medicaid eligibility for the newborn. A birth must be reported to the state through the typical birth registry process (e.g., use of Texas Electronic Registration system [TER]). In TER, the screen containing the Medicaid/CHIP number should continue to be populated with the mother's alpha-numeric CHIP Perinatal Program number (e.g., J12345678). In addition, a mother can report the birth by calling 1-877-KIDS-NOW (1-877-543-7669).

#### **4.5.4 Submission of Birth Information to Texas Vital Statistics Unit**

Hospital providers must submit birth registry information to the DSHS Vital Statistics Unit in a timely manner. Once received by the Vital Statistics Unit, birth information is transmitted to the state's eligibility systems, so a PCN (Medicaid number) can be issued for newborns whose mothers were at or below the pregnant women's FPIL. Hospitals should use the CHIP Perinatal health plan ID to enter the mother's CHIP perinatal coverage ID number in the Medicaid/CHIP number field on the Texas Electronic Registration (TER) screen. This number will appear as an alpha-numeric combination, starting with a letter followed by eight digits. For example, G12345678.

For more information, go to the HHSC website at [www.hhsc.state.tx.us/chip/perinatal/VitalStatisticsInstructions\\_062807.pdf](http://www.hhsc.state.tx.us/chip/perinatal/VitalStatisticsInstructions_062807.pdf), or call Texas Vital Statistics at 1-800-452-9115.

### **4.6 Medically Needy Program (MNP)**

The MNP with spend down is limited to children 18 years of age and younger and pregnant women.

The MNP provides Medicaid benefits to children (18 years of age and younger) and pregnant women whose income exceeds the eligibility limits under Temporary Assistance for Needy Families (TANF) or one of the Medical Assistance Only (MAO) programs for children but is not enough to meet their medical expenses. Coverage is available for services within the amount, duration, and scope of Texas Medicaid. Individuals are considered adults beginning the month following their 19th birthday.

Medicaid benefits, including family planning and THSteps preventive services through the MNP, are available to:

- Pregnant women.
- Children 18 years of age and younger.

MNP provides access to Medicaid benefits. Applications are made through HHSC. HHSC determines eligibility for the appropriate Medicaid program.

If spend down is applicable, HHSC issues a Medical Bills Transmittal (Form H1120) to the MNP applicant that indicates the spend down amount, months of potential coverage (limited to the month of application and any of the three months before the application month that the applicant has unpaid medical bills), and HHSC contact information.

The applicant is responsible for paying the spend down portion of the medical bills. The TMHP Medically Needy Clearinghouse (MNC) determines which bills may be applied to the applicant's spend down according to state and federal guidelines. No Medicaid coverage may be granted until the spend down is met.

Newborns of mothers who must meet a spend down before becoming eligible for Medicaid are *not* automatically eligible for the full year of newborn coverage. The newborn and mother are eligible for the birth month and the two following months. Hospitals and other providers that complete newborn reporting forms should continue to follow the procedures in subsection 3.2.4, "Newborn Care" in the *Inpatient and Outpatient Hospital Services Handbook (Vol. 2, Provider Handbooks)* for these newborns.

#### 4.6.1 Spend Down Processing

Applicants are instructed to submit their medical bills or completed claim forms for application toward their spend down to TMHP MNC along with the Medical Bills Transmittal/Insurance Information Form H1120. Charges from the bills or completed claim forms are applied in date of service order to the spend down amount, which is met when the accumulated charges equal the spend down amount.

Providers can assist medically needy clients with their applications by giving them current, itemized statements or completed claim forms to submit to MNC. MNC holds manually completed claim forms used to meet spend down for ten calendar days preceding the completion of the spend down case, then forwards them to claims processing. The prohibition against billing clients does not apply until Medicaid coverage is provided.

Current itemized statements or completed claim forms must include the following:

- Statement date
- Provider name
- Client name
- Date of service
- All services provided and charges
- Current amount due
- Any insurance or client payments with date of payment (the date and amount of any insurance or payments)

**Important:** *Amounts used for spend down are deducted from the total billed amount by the provider. Using older bills may provide earlier eligibility for the client.*

Bills for past accounts must be current, itemized statements (dated within the last 60 days) that are from the provider and that verify the outstanding status of the account and the current balance due. Accounts that have had payments made by an insurance carrier, including Medicare, must be accompanied by the carrier's EOB or Remittance Advice and show the specific services covered and amounts paid.

Unpaid bills incurred before the month of potential eligibility (the month with spend down) may be used to meet spend down. Itemized statements must be dated within 60 days of the date they are received at TMHP MNC.

The unpaid balance on currently due accounts may be applied toward the spend down regardless of the date of service. All bills or completed claim forms must be itemized showing the provider's name, client's name, dates of service, statement date, services provided, charge for each service, total charges, amounts and dates of payments, and total due.

Clients have 30 days to submit their bills or completed claim forms. Thirty-day extensions are available to the client as necessary to gather all needed information. The provider can assist by furnishing the additional information to the applicant.

All communication about submission of billing information is carried out between MNC and the applicant; however, providers can assist clients by:

- Providing clients with current itemized statements or completed claim forms.
- Encouraging clients to submit *all* of their medical bills or completed claim forms incurred from *all* providers at the same time.
- Submitting manual claim forms directly to MNC or to applicants for the MNP, that can be used to meet spend down.

Bills or claim forms submitted to MNC are for application toward the spend down only. Submitting a bill or claim forms for spend down is *not* a claim for reimbursement. *No* claims reimbursement is made from such submittals unless the claim form is complete. The provider must file a Medicaid claim after eligibility has been established to have reimbursement considered by Texas Medicaid. If the provider assisted the client with submission of a claim form, the MNC retains all claim forms for ten calendar days preceding the completion of the spend down case. The MNC then forwards all claim forms directly to claims processing to have reimbursement considered by Texas Medicaid.

MNC informs the applicant and HHSC when the spend down is met. HHSC certifies the applicant for Medicaid and sends the Medicaid Identification form to the applicant when Medicaid eligibility is established. The TMHP MNC mails notification letters to providers when clients have met spend down and TMHP has not yet received any claim for the client's bills. The notification letter states that an invoice was submitted for the spend down and that the provider should submit claims for any bills that fall within the indicated spend down month. Clients are encouraged to inform medical providers of their Medicaid eligibility and make arrangements to pay the charges used to meet the spend down amount. When notified of Medicaid eligibility, the provider asks if the client has retroactive eligibility for previous periods. All bills submitted to MNC are returned to the client, except for claim forms. An automated letter specific to the client's spend down case is attached, indicating which:

- Bills and charges were used to meet the spend down.
- Bills and charges the client is responsible for paying in part or totally.
- Bills the provider may submit to Medicaid for reimbursement consideration.
- Claims have been received and forwarded to TMHP claims processing.

Providers may inquire about status, months of potential eligibility, Medicaid or case number, and general case information by calling the TMHP Contact Center at 1-800-925-9126.

Medically needy applicants who have a case pending or have not met their spend down are considered private-pay clients and may receive bills and billing information from providers. No claims are filed to Medicaid. A claim that is inadvertently filed is denied because of client ineligibility.

#### **4.6.2 Closing an MNP Case**

Medically needy cases are closed by MNC for the following reasons:

- Bills were not received within the designated time frame (usually 30 days from the date on which the case is established by the HHSC worker).

- The client failed to provide requested additional case/billing information within 30 days of the MNC request date.
- Insufficient charges were submitted to meet spend down, and the client did not respond to a request for additional charges to be submitted within 30 days of the notification letter.

Charges submitted after the spend down has been met will not reopen the case automatically. The client must call the Client Hotline at 1-800-335-8957.

**Note:** *For information regarding the Medically Needy Program for CSHCN Services Program clients refer to the CSHCN Services Program Provider Manual.*

## 4.7 Medicaid Buy-in for Children (MBIC) Program

The MBIC program is mandated by S.B. 187, 81st Legislature, Regular Session, 2009, to provide acute care Medicaid coverage for children who are 18 years of age and younger and have disabilities. This program creates a state option for children who are ineligible for Supplemental Security Income (SSI) for reasons other than disability.

Children with disabilities must meet the following requirements to be eligible for MBIC:

- Be 18 years of age or younger.
- Have a family income that is no more than 300 percent of FPL before allowable deductions.
- Meet citizenship, immigration, and residency requirements.
- Be unmarried.
- Not reside in a public institution.

**Exception:** *Clients who are enrolled in the MBIC program before they enter a nursing facility or Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF-IID) will continue to receive MBIC benefits until eligibility for the appropriate institutional Medicaid program is determined.*

MBIC clients will be enrolled as Medicaid fee-for-service. MBIC clients have access to the same benefits as Medicaid clients who have disabilities. Claims and prior authorization requests for MBIC clients may be submitted according to current guidelines for Medicaid fee-for-service as indicated in this manual.

MBIC benefits are available to enrolled clients through the end of the month that contains their nineteenth birthday. Clients whose birthday falls on the last day of February of a leap year (e.g., February 29, 2004) will be eligible for benefits through the end of March following their nineteenth year.

## 4.8 Texas Medicaid Wellness Program

High-cost/high-risk fee-for-service (FFS) clients who are 20 years of age and younger may be eligible to receive targeted care management services through the Texas Medicaid Wellness Program. The Wellness Program replaces the Disease Management program that was mandated by Human Resources Code §32.057 and §32.059. The Wellness Program administrator is McKesson Health Solutions.

The goal of the Wellness Program is to promote improved health outcomes by supporting and sustaining the client-provider relationship. The Wellness Program will contact Medicaid high-cost/high-risk clients to provide comprehensive care management services regardless of disease condition. The Wellness Program also has a diabetes self-management training (DSMT) component and will offer 10 hours of DSMT plus 3 hours nutritional counseling to all clients who have diabetes. Additionally, clients who have a body mass index (BMI) above 25 will receive vouchers for a weight loss program.

The Wellness Program offers the following:

- Provider portal
- Practice support facilitators
- Collaborative learning
- Support for practice transformation initiatives

Providers must submit claims and prior authorization requests for Wellness Program clients following the guidelines for Medicaid FFS services as defined in this manual or modified by website articles.

Providers may refer potential clients to the Wellness Program at 1-877-530-7756.

## 4.9 Healthy Texas Women (HTW) Program

The goal of the HTW program is to expand access to women's health and family planning services to reduce unintended pregnancies, positively affect the outcome of future pregnancies, and positively impact the health and wellbeing of women and their families in the eligible population.

HTW provides family planning services, related preventive health services that are beneficial to reproductive health and other preventive health services that positively affect maternal health and future pregnancies for women who meet the following qualifications:

- Must be 15 through 44 years of age
  - Note:** *Women who are 15 through 17 years of age must have a parent or legal guardian apply on their behalf.*
- Must be a United States citizen or eligible immigrant
- Must be a resident of Texas
- Does not currently receive benefits through a Medicaid program (including Medicaid for Pregnant Women), Children's Health Insurance Program (CHIP), or Medicare Part A or B.
- Has a household income at or below 200 percent of the federal poverty level
- Is not pregnant
- Does not have other insurance that covers the services HTW provides

**Exception:** *A client with other private health insurance may be eligible to receive HTW services if she believes that a third party may retaliate against her or cause physical or emotional harm if she assists HHSC or its designee with pursuing claims against that third party.*

**Referto:** Subsection 2.1, "Guidelines for HTW Providers" in the *Women's Health Services Handbook (Vol. 2, Provider Handbooks)*.

## 4.10 Medicaid for Breast and Cervical Cancer (MBCC)

The MBCC program provides full Medicaid benefits to women who meet the program's eligibility requirements. The goal of the program is to improve timely access to breast and cervical cancer treatment for uninsured women who are screened and identified by the National Breast and Cervical Cancer Early Detection Program (NBCCEDP) of the Centers for Disease Control and Prevention (CDC). Additionally, the Texas State Legislature provided funding in 2007 to expand the pool of providers who provide screening and diagnostic services to women so that any provider can diagnose a woman for breast or cervical cancer and she may become eligible for Medicaid through MBCC.

DSHS receives funds from the CDC and awards the funds to providers across the state to perform breast and cervical cancer screenings and diagnostic services under the Breast and Cervical Cancer Services (BCCS) program.

### 4.10.1 Initial MBCC Program Enrollment

The woman must be diagnosed and in need of treatment for one of the following biopsy-confirmed breast or cervical cancer diagnoses:

- Grade 3 cervical intraepithelial neoplasia (CIN III)
- Severe cervical dysplasia
- Cervical carcinoma in situ
- Primary cervical cancer
- Ductal carcinoma in situ
- Primary breast cancer

A woman may also be eligible for MBCC if she has a diagnosis of metastatic or recurrent breast or cervical cancer and a need for treatment.

Eligibility is determined by a BCCS contractor, DSHS, and HHSC as follows:

- The BCCS contractor screens the client for eligibility if she has a qualifying diagnosis and, if applicable, helps the woman to complete Form H1034, Medicaid for Breast and Cervical Cancer application. The BCCS contractor reviews and collects all of the required eligibility documentation. The woman cannot apply for MBCC at a local HHSC eligibility office.
- DSHS verifies the client's qualifying diagnosis and submits Form 1034 to HHSC.
- HHSC Centralized Benefits Services staff makes the final Medicaid eligibility determination.

**Referto:** The [Breast and Cervical Cancer Treatment Information](#) page of the DSHS website for more information about the enrollment process.

### 4.10.2 MBCC Program Eligibility

To be eligible for MBCC, a woman must be:

- 64 years of age or younger and have been screened for breast or cervical cancer and found to need treatment for either breast or cervical cancer.
- A U.S. citizen or eligible immigrant.
- Uninsured or otherwise not eligible for Medicaid.
- A resident of Texas.

A woman who is eligible to receive Texas Medicaid under MBCC receives full Medicaid benefits beginning the day after she received a qualifying diagnosis and for the duration of her cancer treatment. Services are not limited to the treatment of breast and cervical cancer.

### 4.10.3 Continued MBCC Program Eligibility

After a woman is enrolled in the MBCC program, eligibility may continue if she meets one of the following criteria:

- She is being treated for active disease as defined above,
- She has completed active treatment while in MBCC and is currently receiving hormonal treatment,
- She has completed active treatment while in MBCC and is currently receiving active disease surveillance for TNRBC.

A woman may continue to receive Medicaid benefits as long as she meets the eligibility criteria and provides proof that she is receiving active treatment for breast or cervical cancer. Women who are no longer in MBCC may reapply if they are diagnosed with a new breast or cervical cancer or a metastatic or recurrent breast or cervical cancer.

**Note:** *Active disease surveillance (for the purposes of determining eligibility for MBCC) is periodically monitoring disease progression in order to quickly treat cancerous and precancerous conditions that arise from the presence of a previously diagnosed TNRBC.*

If the client's cancer is in remission and the physician determines that the client requires only routine health screening for a breast or cervical condition (e.g. annual breast examinations, mammograms, and Pap tests as recommended by the American Cancer Society and the U.S. Preventative Services Task Force), the client is not considered to be receiving treatment; and MBCC coverage will not be renewed. A client who is subsequently diagnosed with a new, metastatic, or recurrent breast or cervical cancer may reapply for MBCC benefits.

## 4.11 Medicare and Medicaid Dual Eligibility

Medicaid clients who are also eligible for Medicare Part A (inpatient coverage), Part B (medical coverage), or Part C (noncontracted Medicare Advantage Plans [MAPs]), may be covered by Texas Medicaid as follows:

- QMB clients are eligible for coinsurance and deductible payments according to the current payment guidelines.
- MQMB clients are eligible for coinsurance and deductible payments according to the current payment guidelines, and receive Medicaid benefits for services that are not a benefit of Medicare or exceed Medicare benefit limitations.

### Medicare Part A and Part C (Noncontracted MAPs Only)

For QMB and MQMB clients who are eligible for Medicare Part A, including clients enrolled in MAPs, claims may be reimbursed to providers for the client's Medicare coinsurance and deductible up to the Medicaid allowed amount for the service less the amount paid by Medicare.

For Medicare Part C, the coinsurance and deductible payment guidelines apply for noncontracted MAPs only.

### Medicare Part B

For QMB and MQMB clients who are eligible for Medicare Part B, Texas Medicaid reimburses the lesser of the following to providers:

- The coinsurance and deductible payment.
- The amount remaining after the Medicare payment amount is subtracted from the allowed Medicaid fee or encounter rate for the service (If this amount is less than the deductible, then the full deductible is reimbursed instead.)

If the Medicare payment is equal to, or exceeds the Medicaid allowed amount or encounter payment for the service, Texas Medicaid does not make a payment for coinsurance.

**Note:** *If the Medicare payment is equal to or exceeds the Medicaid allowed amount or encounter payment for the service, no additional payment is made for coinsurance and deductible.*

QMB clients are not eligible for Medicaid coverage for benefits that are not covered by Medicare, and QMB clients are not eligible for THSteps or CCP Medicaid benefits.

QMB and MQMB coverage guidelines do not impact clients who are living in nursing facilities and who receive a vendor rate for client care through DADS.

Claims for Medicare copayments can also be submitted to TMHP.

**Referto:** Subsection 2.7.4, “Exceptions” in “Section 2: Texas Medicaid Fee-for-Service Reimbursement” (*Vol. 1, General Information*) for information about exceptions for Medicare Part B and Part C (noncontracted MAPs).

Subsection 6.12.2.2, “Health Maintenance Organization (HMO) Copayments” in Section 6, “Claims Filing” (*Vol. 1, General Information*) for information about HMO copayments.

for more information about filing claims for MQMBs and QMBs.

#### **4.11.1 QMB/MQMB Identification**

The term “QMB” or “MQMB” on the Your Texas Benefits Medicaid website indicates the client is a Qualified Medicare Beneficiary or a Medicaid Qualified Medicare Beneficiary. The Medicare Catastrophic Coverage Act of 1988 requires Medicare premiums, deductibles, and coinsurance payments to be paid for individuals determined to be QMBs or MQMBs who are enrolled in Medicare Part A and meet certain eligibility criteria (see 1 TAC §§358.201 and 358.202).

**Referto:** [Your Texas Benefits Medicaid card \(English and Spanish\)](http://www.tmhp.com) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

#### **4.11.2 Medicare Part B Crossovers**

The following qualify as Medicare Part B crossover claims: QMB, MQMB, and client TPs 13 or 14, with base plan 10, and category R.

If the provider has not accepted Medicare assignment, the provider may receive payment of the Medicare deductible or coinsurance according to current guidelines on behalf of the QMB, MQMB, client TPs 13 or 14, base plan 10, and category R client. If the provider has collected money from the client and also received reimbursement from TMHP, the provider is required to refund the client’s money.

The Social Security Act requires that Medicaid payment for physician services under Medicare Part B be made on an assignment-related basis.

If Medicaid does not reimburse all or a part of the deductible or coinsurance, the provider is not allowed to bill the client.

**Referto:** Subsection 2.7, “Medicare Crossover Claim Reimbursement” in “Section 2: Texas Medicaid Fee-for-Service Reimbursement” (*Vol. 1, General Information*).

#### **4.11.3 Clients Without QMB or MQMB Status**

Medicare is primary to Medicaid, and providers must bill Medicare first for their claims. Medicaid’s responsibility for coinsurance and deductibles is determined in accordance with the Medicaid benefits and limitations including the 30-day spell of illness. TMHP denies claims if the client’s coverage reflects Medicare Part A coverage and Medicare has not been billed first.

Providers must check the client’s Medicare card for Part A coverage before billing Texas Medicaid.

**Referto:** Subsection 2.7, “Medicare Crossover Claim Reimbursement” in “Section 2: Texas Medicaid Fee-for-Service Reimbursement” (*Vol. 1, General Information*).

#### **4.11.4 Medicare Part C**

Providers can receive information about a client’s Medicare Part C eligibility through TexMedConnect or EDI. In response to an eligibility inquiry, providers receive the client’s Medicare Part C eligibility effective date, end date, and add date.

HHSC contracts with some Medicare Advantage Plans (MAPs) and offers a per-client-per-month payment. The payment to the MAP includes all costs associated with the Medicaid cost sharing for dual-eligible clients. MAPs that contract with HHSC will reimburse providers directly for the cost sharing obligations that are attributable to dual-eligible clients enrolled in the MAP. These payments are included in the capitated rate paid to the HMO and must not be billed to TMHP or a Medicaid client.

TMHP now processes certain claims for clients enrolled in a Medicare Advantage Plan (Part C).

**Referto:** Subsection 6.12, “Filing Medicare Primary Claims” in “Section 6: Claims Filing” (*Vol. 1, General Information*).

A list of MAPs that have contracted with HHSC is available in the “EDI” section of the TMHP website at [www.tmhp.com](http://www.tmhp.com). The list will be updated as additional plans initiate contracts.

## 4.12 Health Insurance Premium Payment (HIPP) Program

The HIPP Program reimburses for the cost of medical insurance premiums. A Medicaid client is eligible for the HIPP Program when Medicaid finds it more cost effective to reimburse a Medicaid client’s group health insurance premiums than to reimburse his or her medical bills directly through Medicaid.

By ensuring access to employer sponsored health insurance, individuals who are eligible for the HIPP Program may receive services that are not normally covered through Medicaid. Also, members of the family who are not eligible for Medicaid may be eligible for the HIPP Program.

Providers can benefit from this program by helping the uninsured population, saving money for the state of Texas, and receiving a higher payment from the group health insurance carrier. Providers can increase HIPP Program enrollment by displaying brochures to educate their Medicaid clients about the program.

For more information, call the TMHP-HIPP Program at 1-800-440-0493 or visit [www.gethipptexas.org](http://www.gethipptexas.org).

## 4.13 Long-Term Care Providers

A nursing facility, home health services provider, or any other similar long-term care services provider that is Medicare-certified must:

- Seek reimbursement from Medicare before billing Texas Medicaid for services provided to an individual who is eligible to receive similar services under the Medicare program.
- Appeal Medicare claim denials for payment, as directed by the department.

A nursing facility, home health services provider, or any other similar long-term care services provider that is Medicare-certified is not required to seek reimbursement from Medicare before billing Texas Medicaid for a person who is Medicare-eligible and has been determined to not be homebound.

## 4.14 State Supported Living Centers

Inpatient hospital care for individuals who are eligible for Supplemental Security Income (SSI) Medicaid and reside in a State Supported Living Center (SSLC) must be billed to TMHP. Medicaid providers who render off-campus acute care services to Medicaid-eligible SSLC residents are also required to submit claims directly to Medicaid. This is applicable only to residents of the SSLCs operated by DADS.

Claims and prior authorization requests for acute care services that are rendered to these clients must be submitted directly to Medicaid.

Providers may contact DADS for assistance or information about billing procedures for state school services.

## 4.15 Forms

## 5.1 General Information About Prior Authorization

Some fee-for-service Medicaid services require prior authorization as a condition for reimbursement. Information about whether a service requires prior authorization, as well as prior authorization criteria, guidelines, and timelines for the service, is contained in the handbook within Volume 2 that contains the service.

Prior authorization is not a guarantee of payment. Even if a procedure has been prior authorized, reimbursement can be affected for a variety of reasons, e.g., the client is ineligible on the date of service (DOS) or the claim is incomplete. Providers must verify client eligibility status before providing services.

In most instances prior authorization must be approved before the service is provided. Prior Authorization for urgent and emergency services that are provided after business hours, on a weekend, or on a holiday may be requested on the next business day. TMHP considers providers' business hours as Monday through Friday, from 8 a.m. to 5 p.m., Central Time. Prior authorization requests that do not meet these deadlines may be denied.

To avoid unnecessary denials, the request for prior authorization must contain correct and complete information, including documentation of medical necessity. The documentation of medical necessity must be maintained in the client's medical record. The requesting provider may be asked for additional information to clarify or complete a request for prior authorization.

Prior authorization requests may be submitted to the TMHP Prior Authorization Department by mail, fax, or the electronic portal. Prescribing or ordering providers, dispensing providers, clients' responsible adults, and clients may sign prior authorization forms and supporting documentation using electronic or wet signatures.

**Referto:** Subsection 6.1.4, "Claims Filing Deadlines" in "Section 6: Claims Filing" (*Vol. 1, General Information*) for the TMHP-approved holidays.

**Note:** *Authorization requests for services administered by a client's managed care organization (MCO) or dental plan must be submitted to the client's MCO or dental plan according to the guidelines that are specific to the plan under which the client is covered.*

**Referto:** The *Medicaid Managed Care Handbook (Vol. 2, Provider Handbooks)* for additional information about managed care prior authorizations.

### 5.1.1 Prior Authorization Requests for Clients with Retroactive Eligibility

Retroactive eligibility occurs when the effective date of a client's Medicaid coverage is before the date the client's Medicaid eligibility is added to TMHP's eligibility file, which is called the "add date."

For clients with retroactive eligibility, prior authorization requests must be submitted after the client's add date and before a claim is submitted to TMHP.

When an authorization request is submitted for a client who has received retroactive Texas Medicaid eligibility, providers should notify TMHP to avoid potential delays. Providers can notify TMHP of the retroactive client eligibility in one of the following ways:

- Add a comment in the additional comments field for authorization requests that are submitted online on the TMHP website at [www.tmhp.com](http://www.tmhp.com) or on the eviCore website at [www.medsolutionsonline.com](http://www.medsolutionsonline.com) (for radiological imaging authorizations only).
- Add a comment on the cover sheet or the authorization request form for authorizations that are faxed to TMHP or eviCore (for radiological imaging authorizations only).

If the authorization request is made by telephone, the caller can indicate to the representative at TMHP or eviCore (for radiological imaging authorizations only) that the client has retroactive Texas Medicaid eligibility.

For services provided to fee-for-service Medicaid clients during the client's retroactive eligibility period, i.e., the period from the effective date to the add date, prior authorization must be obtained within 95 days from the client's add date and before a claim for those services is submitted to TMHP. For services provided on or after the client's add date, the provider must obtain prior authorization within 3 business days of the date of service.

The provider is responsible for verifying eligibility. The provider is strongly encouraged to access the Automated Inquiry System (AIS) or TexMedConnect to verify eligibility frequently while providing services to the client. Client eligibility can also be verified through the Your Texas Benefits Medicaid website at [www.yourtexasbenefitscard.com](http://www.yourtexasbenefitscard.com). If services are discontinued before the client's add date, the provider must still obtain prior authorization within 95 days of the add date to be able to submit claims.

**Referto:** "Section 4: Client Eligibility" (Vol. 1, General Information).

### 5.1.2 Prior Authorization Requests for Newly Enrolled Providers

TMHP cannot issue a prior authorization before Medicaid enrollment is complete. Upon notice of Medicaid enrollment, by way of issuance of a provider identifier, the provider must contact the appropriate TMHP Authorization Department to request prior approval before providing services that require prior authorization. Regular prior authorization procedures are followed after the TMHP Prior Authorization Department has been contacted.

Retroactive authorizations are not issued unless the regular authorization procedures for the requested services allow for authorizations to be obtained after services are provided. Providers should refer to specific handbook sections for details about authorization requirements, claims filing, and timeframe guidelines for authorization request submissions. Retroactive authorizations may be granted according to the timeframe guidelines for the specific service requested, and do not exceed those timeframes.

**Note:** *All claims must adhere to the claims filing deadlines as outlined in this manual. Retroactive authorizations cannot exceed the claims filing deadline, and are not issued if the date of services is more than 95 days from the date the new provider identifier is issued as identified by the add date.*

**Referto:** "Section 1: Provider Enrollment and Responsibilities" (Vol. 1, General Information).

### 5.1.3 Prior Authorization for Services Rendered Out-of-State

Texas Medicaid covers medical assistance services that are provided to eligible Texas Medicaid clients while they are in a state other than Texas; however, clients are not covered if they leave Texas to receive out-of-state medical care that can be received in Texas. Services that are provided outside of the state are covered by Texas Medicaid to the same extent that medical assistance is furnished and covered in Texas when the service meets one or more requirements of Texas Administrative Code (TAC) Title 1 §352.17.

**Note:** *Border state providers (providers that render services within 50 miles of the Texas border) are considered in-state providers for Texas Medicaid.*

Services that are rendered outside of the state must be prior authorized by Texas Medicaid, and TMHP must receive claims from out-of-state providers within 365 days of the date of service. Out-of-state providers that seek reimbursement for services that are rendered outside of the state must submit a Texas Medicaid Provider Enrollment application and be approved for enrollment in Texas Medicaid.

Transplant services that are provided out-of-state but available in Texas will not be reimbursed by Texas Medicaid. When requesting an out-of-state prior authorization for a pre-transplant evaluation, the provider must submit a copy of the transplant evaluation performed by a Texas facility to support the need for an out-of-state pre-transplant evaluation.

Medical assistance and transplant services that are provided to eligible Texas Medicaid clients must meet the criteria included in subsection 1.9, “Enrollment Criteria for Out-of-State Providers” in “Section 1: Provider Enrollment and Responsibilities” (*Vol. 1, General Information*). If services are rendered to eligible Texas Medicaid clients that do not meet the criteria, the services are not a benefit of Texas Medicaid and will not be considered for reimbursement.

**Referto:** Subsection 1.9, “Enrollment Criteria for Out-of-State Providers” in “Section 1: Provider Enrollment and Responsibilities” (*Vol. 1, General Information*).

Subsection 2.6, “Out-of-State Medicaid Providers” in “Section 2: Texas Medicaid Fee-for-Service Reimbursement” (*Vol. 1, General Information*).

#### **5.1.4 Prior Authorization Requests for Clients with Private Insurance**

If a client’s primary coverage is private insurance and Medicaid is secondary but prior authorization is required for Medicaid reimbursement, providers must follow the guidelines and requirements listed in the handbook for that service.

#### **5.1.5 Prior Authorization Requests for Clients with Medicare/Medicaid**

If a client’s primary coverage is Medicare, providers must always confirm with Medicare whether a service is a Medicare benefit for the client.

If a service that requires prior authorization from Medicaid is a Medicare benefit and Medicare approves the service, prior authorization from TMHP is not required for reimbursement of the coinsurance or deductible. If Medicare denies the service, then prior authorization is required. TMHP must receive a prior authorization request within 30 days of the date of Medicare’s final disposition. The Medicare Remittance Advice and Notification (MRAN) that contains Medicare’s final disposition must accompany the prior authorization request.

If a service requires prior authorization through Medicaid and the service is not a benefit of Medicare, providers may request prior authorization from TMHP before receiving the denial from Medicare.

**Note:** Refer to the appropriate handbooks in this manual for additional prior authorization guidelines for clients with dual eligibility.

#### **5.1.6 Prior Authorizations for Personal Care Services (PCS)**

Before sending a prior authorization request for personal care services to TMHP, the Texas Department of State Health Services (DSHS) will fax the communication tool to the provider. The provider must verify that the information listed on the tool is accurate. If any information on the communication tool is inaccurate, the provider must call the DSHS case manager listed on the tool within three business days of receipt to explain the inaccuracy. The DSHS case manager will correct the communication tool and will fax the updated tool to the provider. The provider must review the updated communication tool and call the DSHS case manager if any inaccuracies remain.

If the provider does not contact the DSHS case manager within three business days of receipt of the communication tool, the case manager will send a prior authorization request to TMHP to have the authorization issued with the information provided on the communication tool.

**Important:** If a provider fails to notify the DSHS case manager of inaccurate information within three business days of receipt of the communication tool, HHSC will not consider making changes to authorizations for past dates of service.

It is the PCS provider's responsibility to know the prior authorization period for each client who has an open authorization and to ensure that, before the authorization expires, a DSHS case manager has conducted a reassessment and extended the authorization through TMHP. If a provider has not received an updated provider notification letter from TMHP within 30 days of the authorization's expiration date, the provider should do one of the following:

- Call the TMHP PCS Prior Authorization Inquiry Line at 1-888-648-1517 and ask whether an authorization is in process.
- Call the TMHP PCS Client Line at 1-888-276-0702, Option 2, and ask for a referral to have DSHS conduct a reassessment.
- Call the DSHS regional office, and notify the DSHS case manager that a new authorization has not been received.

Clients can experience a gap in service if an authorization is not updated before it expires. Providers will not be reimbursed for services provided after an authorization has expired and before a new authorization has been issued.

Providers must retain current client information on file.

#### **5.1.6.1 Authorizations for Multiple PCS Clients Within the Same Household**

DSHS case managers synchronize PCS authorizations within households that have multiple clients who are receiving PCS.

Synchronization of authorizations within households are made as PCS reassessments come due. When clients are due for reassessment, the DSHS case manager assess all eligible clients in the home and submit authorizations for all eligible clients in the household for the same 52-week authorization period. Some authorizations within a household may be shortened or closed and then reinstated to be in alignment with other clients in the same household. DSHS case managers communicate with the provider about the actions that are being taken using the existing Communication Tool.

***Note:** There should be no lapse in services to the client.*

#### **5.1.6.2 Verifying the Texas Provider Identifier (TPI) on PCS Authorizations**

When an authorization notification letter is received by a PCS provider, the provider should verify that the correct TPI was used on the prior authorization for the PCS client. Providers must verify that the TPI on the prior authorization is correct for the location at which the client is receiving services.

Providers who provide services through the Agency option or the Consumer Directed Services (CDS) option must ensure that the TPI on the prior authorization is accurate for the option the client is using. If a provider discovers that the TPI used on the prior authorization is incorrect, the provider should contact the DSHS case manager and ask for the correct TPI to be submitted to TMHP.

#### **5.1.7 Prior Authorization for Outpatient Self-Administered Prescription Drugs**

***Referto:*** Subsection B.5.3, "Obtaining Prior Authorization" in "Appendix B: Vendor Drug Program" (*Vol. 1, General Information*).

#### **5.1.8 Prior Authorization for Nonemergency Ambulance Transport**

According to 1 TAC §354.1111, nonemergency transport is defined as ambulance transport provided for a Medicaid client to or from a scheduled medical appointment, to or from a licensed facility for treatment, or to the client's home after discharge from a hospital when the client has a medical condition such that the use of an ambulance is the only appropriate means of transportation (i.e., alternate means of transportation are medically contraindicated).

***Referto:*** The *Ambulance Services Handbook* (*Vol. 2, Provider Handbooks*) for more information about ambulance services.

According to Human Resource Code (HRC) §32.024 (t), a Medicaid-enrolled physician, nursing facility, health-care provider, or other responsible party is required to obtain authorization before an ambulance is used to transport a client in circumstances not involving an emergency.

HRC states that a provider of nonemergency ambulance transport is entitled to payment from the nursing facility, health-care provider, or other responsible party that requested the service if payment under the Medical Assistance Program is denied because of lack of prior authorization and the ambulance provider submits a copy of the claim for which payment was denied.

**Referto:** Subsection 5.1.8.1, “Appealing Non-Emergent Ambulance Claims Denied for Missing Prior Authorization Number” in this section for more information about appeals.

The *Medical Transportation Program Handbook (Vol. 2, Provider Handbooks)* for more information about the Medical Transportation Program.

TMHP responds to nonemergency transport prior authorization requests within 2 business days of receipt of requests for 60 days or less. Providers should submit all requests for a prior authorization number (PAN) in sufficient time to allow TMHP to issue the PAN before the date of the intended transport.

If the client’s medical condition is not appropriate for transport by ambulance, nonemergency ambulance services are not a benefit. Prior authorization is a condition for reimbursement but is not a guarantee of payment. The client and provider must meet all of the Medicaid requirements, such as client eligibility and claim filing deadlines.

Medicaid providers who participate in one of the Medicaid Managed Care health maintenance organization (HMO) plans must follow the HMO’s prior authorization requirements.

The TMHP Ambulance Unit reviews the prior authorization request to determine whether the client’s medical condition is appropriate for transport by ambulance. Incomplete information may cause the request to be suspended for additional medical information or be denied.

The following information helps TMHP determine the appropriateness of the transport:

- An explanation of the client’s physical condition that establishes the medical necessity for transport. The explanation must clearly state the client’s condition requiring transport by ambulance.
- The necessary equipment, treatment, or personnel to be used during the transport.
- The origination and destination points of the client’s transport.

Prior authorization is required when an extra attendant is needed for any nonemergency transport.

When a client’s condition changes, such as a need for oxygen or additional monitoring during transport, the prior authorization request must be updated.

**Referto:** Subsection 2.4.8, “Extra Attendant” in the *Ambulance Services Handbook (Vol. 2, Provider Handbooks)*.

#### **5.1.8.1      Appealing Non-Emergent Ambulance Claims Denied for Missing Prior Authorization Number**

Medicaid fee-for-service ambulance providers can appeal claims that have been denied for a missing prior authorization number that was not provided by the requesting physician, facility, or hospital for nonemergent transport. The ambulance provider must include proper documentation with the appeal.

An ambulance provider is required to maintain documentation that represents the client’s medical condition and other clinical information to substantiate medical necessity, the level of service, and the mode of transportation requested. This supporting documentation is limited to documents developed or maintained by the ambulance provider.

## The Appeals Process

The ambulance provider must submit the appeal as soon as it is realized that the requesting provider did not obtain the prior authorization. The appeal must be submitted according to all filing deadlines.

**Referto:** “Section 7: Appeals” (*Vol. 1, General Information*) for information about filing deadlines.

The following documentation must be included with the appeal to support the need for transport:

- Documentation representing the client’s medical condition.
- Other clinical information to support medical necessity.
- Level of service given.
- Mode of transportation requested.
- A copy of the run sheet, which must be signed by the emergency medical technician (EMT) in attendance, and which must also include the name and telephone number of the employee requesting the service for the physician, facility, or hospital.

### 5.1.8.2 Prior Authorization Types, Definitions

#### One-Time, Nonrepeating

One-time, nonrepeating requests are reserved for those clients who require a one-time transport. The request must be signed and dated by a physician, physician assistant (PA), nurse practitioner (NP), clinical nurse specialist (CNS), registered nurse (RN), or discharge planner with knowledge of the client’s condition. Without a signature and date, the form is considered incomplete.

#### Recurring

Recurring requests, up to 60 days, are reserved for those clients whose transportation needs are not anticipated to last longer than 60 days. The request must be signed and dated by a physician, PA, NP, or CNS. Without a signature and date, the form is considered incomplete. The request must include the approximate number of visits needed for the repetitive transport (e.g., dialysis, radiation therapy).

**Referto:** [Non-emergency Ambulance Prior Authorization Request](http://www.tmhp.com) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

### 5.1.8.3 \* Nonemergency Prior Authorization Process

To obtain prior authorization, providers must submit a completed Nonemergency Ambulance Prior Authorization Request Texas Medicaid and CSHCN Services Program form by fax to the TMHP Ambulance Unit at 512-514-4205. Prior authorization can also be requested through the TMHP website at [www.tmhp.com](http://www.tmhp.com).

The Nonemergency Ambulance Prior Authorization Form must not be modified. If the form is altered in any way, the request may be denied. The form must be filled out by the facility or the physician’s staff that is most familiar with the client’s condition. **For nonemergency ambulance transportation services rendered to a client, ambulance providers may coordinate the nonemergency ambulance prior authorization request between the requesting provider, which may include a physician, nursing facility, healthcare provider, or other responsible party. Ambulance providers may assist in providing necessary information such as their National Provider Identifier (NPI) number, fax number, and business address to the requesting provider. However, the Non-emergency Ambulance Prior Authorization Request form must be signed, dated, and submitted by the Medicaid-enrolled requesting provider, not the ambulance provider.**

**Referto:** [Non-emergency Ambulance Prior Authorization Request](http://www.tmhp.com) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

Medicaid providers may request prior authorization using one of the following methods:

- The client's physician, nursing facility, Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF-IID), health-care provider, or other responsible party completes the online prior authorization request on the TMHP website at [www. tmhp.com](http://www.tmhp.com).
- Hospitals may call TMHP at 1-800-540-0694 to request prior authorization Monday through Friday, 7 a.m. to 7 p.m., Central Time. A request may be submitted up to 60 days before the date on which the nonemergency transport will occur.

A request for a one-day transport may be submitted on the next business day following the transport in some circumstances; however, every attempt should be made to obtain prior authorization before the transport takes place. Authorization requests for one day transports submitted beyond the next business day will be denied.

A request for a recurring transport must be submitted before the client is transported by ambulance.

After a prior authorization request has been approved, if the client's condition deteriorates or the need for equipment changes so that additional procedure codes must be submitted for the transport, the requesting provider must submit a new Nonemergency Ambulance Prior Authorization Request form.

Clients who require a hospital-to-hospital or hospital-to-outpatient medical facility transport are issued a PAN for that transport only.

**Referto:** Subsection 4.2.1, "Prior Authorization Requirements" in the *Inpatient and Outpatient Hospital Services Handbook (Vol. 2, Provider Handbooks)* for more information on nonemergency prior authorization for hospitals.

TMHP reviews all of the documentation it receives. An online prior authorization request submitted through the TMHP website is responded to with an online approval or denial. Alternately, a letter of approval or denial is faxed to the requesting provider. The client is notified by mail if the authorization request is denied or downgraded. Reasons for denial include documentation that does not meet the criteria of a medical condition that is appropriate for transport by ambulance, or the client is not Medicaid-eligible for the dates of services requested. Clients may appeal prior authorization request denials by contacting TMHP Client Notification at 1-800-414-3406. Providers may not appeal prior authorization request denials.

The requesting provider must contact the transporting ambulance provider with the PAN and the dates of service that were approved.

**Referto:** Subsection 5.5.1, "Prior Authorization Requests Through the TMHP Website" in this section for additional information, including mandatory documentation requirements and retention.

Providers are not required to fax medical documentation to TMHP; however, in certain circumstances, TMHP may request that the hospital fax the supporting documentation. Incomplete online or faxed request forms are not considered a valid authorization request and are denied.

A nonemergency transport will be denied when a claim is submitted with a Nonemergency Ambulance Prior Authorization Request Texas Medicaid and CSHCN Services Program form that is completed and signed after the service is rendered. In addition, a Nonemergency Ambulance Prior Authorization Request Texas Medicaid and CSHCN Services Program form that is completed and signed after the service is rendered will not be accepted on appeal of the denial.

The hospital must maintain documentation of medical necessity, including a copy of the authorization from TMHP in the client's medical record for any item or service that requires prior authorization. The services provided must be clearly documented in the medical record with all pertinent information regarding the client's condition to substantiate the need and medical necessity for the services.

**Referto:** Subsection 4.2.1, “Prior Authorization Requirements” in the *Inpatient and Outpatient Hospital Services Handbook* (Vol. 2, *Provider Handbooks*).

#### **5.1.8.4 Nonemergency Ambulance Exception Request**

Clients whose physician has documented a debilitating condition and who require recurring trips that will extend longer than 60 days may qualify for an exception to the 60-day prior authorization request.

To request an exception, providers must submit all of the following documentation:

- A completed Nonemergency Ambulance Exception form that is signed and dated by a physician. Without a physician’s signature and date, the form is considered incomplete.
- Medical records that support the client’s debilitating condition, which may include, but is not limited to:
  - Discharge information.
  - Diagnostic images (e.g., MRI, CT, X-rays)
  - Care plan.

**Note:** *Documentation submitted with statements similar to “client has a debilitating condition” are insufficient.*

#### **5.1.8.5 Documentation of Medical Necessity and Run Sheets**

##### **5.1.8.5.1 Documentation of Medical Necessity**

Retrospective review may be performed to ensure documentation supports the medical necessity of the transport.

Documentation to support medical necessity must include one of the following:

- The client is bed-confined before, during and after the trip and alternate means of transport is medically contraindicated and would endanger the client’s health (i.e., injury, surgery, or the use of respiratory equipment). The functional, physical, and mental limitations that have rendered the client bed-confined must be documented.
 

**Note:** *Bed-confined is defined as a client who is unable to stand, ambulate, and sit in a chair or wheelchair.*
- The client’s medical or mental health condition is such that alternate means of the transport is medically contraindicated and would endanger the client’s health (e.g., injury, surgery, or the use of respiratory equipment).
- The client is a direct threat to himself or herself or others, which requires the use of restraints (chemical or physical) or trained medical personnel during transport for client and staff safety (e.g., suicidal).

When physical restraints are needed, documentation must include, but is not limited to, the following:

- Type of restraint
- Time frame of the use of the restraint
- Client’s condition

**Note:** *The standard straps used in an ambulance transport are not considered a restraint.*

##### **5.1.8.5.2 Run Sheets**

The run sheet is used as a medical record for ambulance services and may serve as a legal document to verify the care that was provided, if necessary. The ambulance provider does not have to submit the run sheet with the claim.

The ambulance provider must have documentation to support the claim. Without documentation that would establish the medical necessity of a nonemergency ambulance transport, the transport may not be covered by Texas Medicaid.

The ambulance provider may decline the transport if the client's medical or mental health condition does not meet the medical necessity requirements.

It is the responsibility of the ambulance provider to maintain (and furnish to Texas Medicaid upon request) concise and accurate documentation. The run sheet must include the client's physical assessment that explains why the client requires ambulance transportation and cannot be safely transported by an alternate means of transport.

Coverage will not be allowed if the trip record does not contain a sufficient description of the client's condition at the time of the transfer for Texas Medicaid to reasonably determine that other means of transportation are contraindicated. Coverage will not be allowed if the description of the client's condition is limited to statements or opinions such as the following:

- "Patient is nonambulatory."
- "Patient moved by drawsheet."
- "Patient could only be moved by stretcher."
- "Patient is bed-confined."
- "Patient is unable to sit, stand or walk."

The run sheet should "paint a picture" of the client's condition and must be consistent with documentation found in other supporting medical record documentation (including the nonemergency prior authorization request.)

#### **5.1.8.6 Nonemergency Prior Authorization and Retroactive Eligibility**

Retroactive eligibility occurs when the effective date of a client's Medicaid coverage is before the eligibility "add date," which is the date the client's Medicaid eligibility is added to TMHP's eligibility file.

For clients with retroactive eligibility, prior authorization requests must be submitted after the client's add date and before a claim is submitted to TMHP.

For services that are provided to fee-for-service Medicaid clients during a client's retroactive eligibility period (i.e., the period from the effective date to the add date), providers must obtain prior authorization within 95 days of the client's add date and before submitting a claim for those services to TMHP.

For services provided on or after the client's add date, the provider must obtain prior authorization within three business days of the date of service.

The provider is responsible for verifying eligibility. The provider is strongly encouraged to verify client eligibility through the Automated Inquiry System (AIS) or TMHP electronic data interchange (EDI) frequently while providing services to the client. If services are discontinued before the client's add date, the provider must still obtain prior authorization within 95 days of the add date to be able to submit claims.

If a client's Medicaid eligibility is pending, a PAN must be requested before a nonemergency transport. Initially this request will be denied for Medicaid eligibility. When Medicaid eligibility is established, the requestor has 95 days from the date on which the eligibility was added to TMHP's files to contact the TMHP Ambulance Unit and request that authorization be considered.

To inquire about Medicaid eligibility, providers can contact AIS at 1-800-925-9126.

### 5.1.9 Nonemergency Transport Authorization for Medicare and Medicaid Clients

Providers should simultaneously request prior authorization for the nonemergency transport from TMHP for an Medicaid Qualified Medicare Beneficiary (MQMB) client in the event the service requested is denied by Medicare as a non-covered service.

**Note:** *Qualified Medicare Beneficiary (QMB) clients are not eligible for Medicaid benefits. Providers can contact Medicare for the Medicare prior authorization guidelines.*

## 5.2 Authorization Requirements for Unlisted Procedure Codes

Providers have the option to obtain prior authorization before rendering the service if all of the required information is available. When requesting a fee-for-service prior authorization for an unlisted procedure code, providers must submit the following information with the prior authorization request:

- Client's diagnosis.
- Medical records that show the prior treatment for this diagnosis and the medical necessity of the requested procedure.
- A clear, concise description of the procedure to be performed.
- Reason for recommending this particular procedure
- A procedure code that is comparable to the procedure being requested.
- Documentation that this procedure is not investigational or experimental.
- Place of service in which the procedure is to be performed.
- The physician's intended fee for this procedure including the manufacturer's suggested retail price (MSRP) or other payment documentation.

If any of this information is unavailable at the time the prior authorization is requested, the request will be returned as incomplete; however, this is not a denial of reimbursement. If the required information becomes available before the service is performed, the prior authorization request can be resubmitted, or the required medical necessity and payment documentation can be submitted with the claim after the service is provided to be considered for reimbursement.

The prior authorization number must appear on the claim when it is submitted to TMHP. Claims submitted without the appropriate prior authorization will be denied.

## 5.3 Benefit Code

A benefit code is an additional data element that identifies a state program.

Providers that participate in the following programs must use the associated benefit code when they submit prior authorizations:

| Program   | Benefit Code |
|---|--------------|
| Comprehensive Care Program (CCP)  | CCP          |
| Texas Health Steps (THSteps) Medical  | EP1          |
| THSteps Dental  | DE1          |
| Family Planning Agencies*   | FP3          |
| Hearing Aid Dispensers  | HA1          |
| Maternity   | MA1          |
| County Indigent Health Care Program   | CA1          |
| *Agencies only—Benefit codes should not be used for individual family planning providers. |              |

| Program  | Benefit Code |
|--|--------------|
| Early Childhood Intervention (ECI) providers   | EC1          |
| Tuberculosis (TB) Clinics  | TB1          |
| Intellectual or Developmental Disability (IDD) case management providers                         | MH2          |
| <b>*Agencies only—Benefit codes should not be used for individual family planning providers.</b> |              |

## 5.4 Submitting Prior Authorization Forms

Providers must complete all essential fields on prior authorization forms submitted to TMHP to initiate the prior authorization process.

If any essential field on a prior authorization request has missing, incorrect, or illegible information, TMHP returns the original request to the provider with the following message:

TMHP Prior Authorization could not process this request because the request form submitted has missing, incorrect, or illegible information in one or more essential fields. Please resubmit the request with all essential fields completed with accurate information for processing by TMHP within 14 business days of the request receipt date.

TMHP uses the date that the complete and accurate request form is received to determine the start date for services. Previous submission dates of incomplete forms returned are not considered when determining the start date of service.

Providers must respond to an incomplete prior authorization request within 14 business days of the request receipt date. Incomplete prior authorization requests are requests that are received by TMHP with missing, incomplete, or illegible information.

Prior to denying an incomplete request, TMHP's Prior Authorization department will attempt to get the correct information from the requesting provider. The Prior Authorization department will make a minimum of three attempts to contact the requesting provider before sending a letter to the client about the status of the request and the need for additional information.

If the information that is necessary to make a prior authorization determination is not received within 14 business days of the request receipt date, the request will be denied as "incomplete." To ensure timely processing, providers should respond to requests for missing or incomplete information as quickly as possible.

For fee-for-service (FFS) Medicaid requests that require a physician review before a final determination can be made, TMHP's Physician Reviewer will complete the review within three business days of receipt of the completed prior authorization request. An additional three business days will be allowed for requests that require a peer-to-peer review with the client's prescribing physician.

For Children with Special Health Care Needs (CSHCN) Services Program requests that do not appear to meet CSHCN medical policy, the TMHP prior authorization nurse will refer those requests to the CSHCN Services Program for review and determination. The CSHCN Services Program will complete the review within three business days of receipt of the completed prior authorization request.

**Note:** Providers may resubmit a new, complete request after receiving a denial for an incomplete request; however, the timeliness submission requirements will apply.

Essential fields contain information needed to process a prior authorization request and include the following:

- Client name
- Client Medicaid number (patient control number [PCN])

- Client date of birth
- Provider name
- TPI
- National Provider Identifier (NPI)
- *Current Procedural Terminology* (CPT) or Healthcare Common Procedure Coding System (HCPCS) procedure code
- Quantity of service units requested based on the CPT or HCPCS code requested

#### 5.4.1 Recreating TMHP Prior Authorization and Authorization Forms to Fill Out Electronically

Providers are allowed to recreate a Texas Medicaid or CSHCN Services Program prior authorization or authorization form in order to transfer it to an electronic format only if there are no alterations in the form's content or placement of information (field location).

To ensure that the most current version of the form is utilized, all forms submitted to the prior authorization department for processing must include the form number, effective date and revision date, if applicable, as it appears on the original TMHP form that is published on the TMHP Forms web page.

**Important:** *Prior authorization and authorization forms recreated and filled out electronically on the provider's computer must continue to be printed and faxed or submitted by mail. To submit prior authorization and authorization requests electronically, providers must use the prior authorization tool available on the TMHP website by clicking "I would like to..." and "Submit a prior authorization request."*

### 5.5 Prior Authorization Submission Methods

Prior authorization requests can be submitted by fax, mail, telephone, and online through the TMHP website at [www.tmhp.com](http://www.tmhp.com). The methods to use to request the prior authorization depends on the service being requested.

#### 5.5.1 Prior Authorization Requests Through the TMHP Website

Online prior authorization requests for some services in the following areas can be submitted through the TMHP website at [www.tmhp.com](http://www.tmhp.com):

- Home Health
- Home Telemonitoring
- Comprehensive Care Inpatient Psychiatric (CCIP)
- CCP
- Ambulance
- Substance Use Disorder (SUD) (Abuse and Dependence) services

The benefits of submitting prior authorization requests through the TMHP website include:

- Online editing to ensure that the required information is being submitted correctly.
- The prior authorization number is issued within seconds of submission and confirms that the prior authorization request was accepted. Before providing services, providers must confirm that the prior authorization was approved.
- Notification of approvals and denials are available more quickly.

- Extension requests and status checks can be performed online for prior authorization requests that were submitted online.

Providers can access online prior authorization requests from the “I would like to...” links located on the right-hand side of homepage of the TMHP website at [www.tmhp.com](http://www.tmhp.com). Select **Submit a prior authorization request** to submit a new request or **Search for/extend an existing prior authorization** to check the status of or extend a prior authorization request that was previously submitted through the TMHP website.

Instructions for submitting prior authorization requests on the TMHP website are located in the Help section at the bottom of the Prior Authorization page.

Prior authorizations that are submitted online will be processed using the same guidelines as prior authorizations submitted by other methods.

Before providers can submit online prior authorization requests, providers must register on the TMHP website and assign an administrator for each Texas Provider Identifier (TPI) and National Provider Identifier (NPI), if one is not already assigned. Users who are configured with administrator rights automatically have permission to submit prior authorization requests.

The TPI administrator can assign submission privileges for nonadministrator accounts. Billing services and clearinghouses must obtain access to protected health-care information through the appropriate administrator of each TPI/NPI provider number for which they are contracted to provide services.

#### **5.5.1.1 Duplicate Validation Check**

Prior authorizations submitted to TMHP electronically on the TMHP website are subject to a duplicate validation check. Prior authorizations that are duplicates of a previously submitted authorization return an immediate response with an associated duplicate submission error message.

The error message instructs providers to either update or remove details of the prior authorization submission.

If there is a modifier needed for authorization or claims processing, providers should indicate the primary modifier in the field labeled “Modifier 1.”

The appropriate modifier that identifies the type of therapy being requested needs to be used when providers submit requests for physical, occupational, and speech therapy.

#### **5.5.1.2 Document Requirements and Retention**

If information provided in the online request is insufficient to support medical necessity, TMHP Prior Authorization staff may ask the provider to submit additional paper documentation to support the medical necessity for the service being requested.

Submission of prior authorization requests on the secure pages of the TMHP website does not replace adherence to and completion of the paper forms/documentation requirements outlined in this manual and other publications.

Documentation requirements include, but are not limited to, the following:

- Documentation that supports the medical necessity for the service requested.
- Completion and retention in the client’s medical record of all required prior authorization forms
- Adherence to signature and date requirements for prior authorization forms and other required forms that are kept in the client record, including the following:
  - All prior authorization forms completed and signed before the online prior authorization request is made
  - Original handwritten or electronic signatures (Stamped signatures and images of wet signatures are not accepted by Texas Medicaid.)

- A printed copy of the Online Request Form, which must be retained in the client's medical record

Any provider, client, or client's responsible adult who is required to sign a prior authorization form or any supporting documentation may do so using a wet or electronic signature. Any electronic signature technologies that are used must comply with all federal and state statutes and administrative rules.

Any required documentation that is missing from the client's medical record subjects the associated payments for services to be recouped.

#### 5.5.1.2.1 Acknowledgement Statement

Before submitting each prior authorization request, providers (and submitters on behalf of providers) must affirm that they have read, understood, and agree to the certification and terms and conditions of the prior authorization request.

Providers and submitters are separately held accountable for their declarations after they have acknowledged their agreement and consent by checking the "We Agree" checkbox after reviewing the certification statement and terms and conditions.

#### 5.5.1.2.2 Certification Statement

"The Provider and Authorization Request Submitter certify that the information supplied on the prior authorization form and any attachments or accompanying information constitute true, correct, and complete information. The Provider and Authorization Request Submitter understand that payment of claims related to this prior authorization will be from federal and state funds, and that falsifying entries, concealment of a material fact, or pertinent omissions may constitute fraud and may be prosecuted under applicable federal and/or state law. Fraud is a felony, which can result in fines or imprisonment.

"By checking 'We Agree' you agree and consent to the Certification above and to the TMHP 'Terms and Conditions.'"

#### 5.5.1.2.3 Terms and Conditions

"I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the state's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or U.S. Dept. of Health and Human Services may request. I further agree to accept, as payment in full, the amount paid by Medicaid for those claims submitted for payment under that program, with the exception of authorized deductible, coinsurance, copayment or similar cost-sharing charge. I certify that the services listed above are/were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

"Notice: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim, based on information provided on the Prior Authorization form, will be from federal and state funds, and that any false claims, statements or documents, or concealment of a material fact, may be prosecuted under applicable federal or state law."

Omission of information or failure to provide true and accurate information or notice of changes to the information previously provided may result in termination of the provider's Medicaid enrollment and/or personal exclusion from Texas Medicaid.

### 5.5.2 Prior Authorization Requests to TMHP by Fax, Telephone, or Mail

When submitting prior authorization requests through fax or mail, providers must submit the requests on the approved form. If necessary, providers may submit attachments with the form. Providers must follow the guidelines and requirements listed in the handbook for the service. Providers can refer to the provider handbooks for the guidelines and requirements listed for a specific service.

Prior authorization requests must be signed and dated by a physician or dentist who is familiar with the client's medical condition before the request is submitted to TMHP. When allowed, prior authorizations must be signed and dated by an advanced practice registered nurse (APRN) or PA who is familiar with

the client's medical condition before the request is submitted to TMHP. Prior authorization requests for services that may be signed by a licensed health-care provider other than a physician, dentist, or when allowed by an APRN and PA, do not require handwritten signatures and dates. Electronic signatures from an RN or therapist are acceptable when submitting therapy requests for CCP.

All signatures must be electronic, digital or handwritten. An electronic or digital signature must be derived using software that creates a digital signature logo with a system-generated date and time stamp or includes the logo of the digital software used. Photocopy or ink stamp of a handwritten signature or a typed signature without a digital stamp are not permitted. TMHP will not authorize any dates of services on the request earlier than the date of the provider's signature. The prior authorization request that contains the original signature must be kept in the client's medical record for future access and possible retrospective review. These documentation requirements also apply to telephone authorizations. To avoid delays, providers are encouraged to have all clinical documentation at the time of the initial telephone authorization request.

**Note:** *Obstetric (OB) services providers are no longer allowed to initiate prior authorization requests or ultrasound extension requests over the telephone.*

To initiate a new prior authorization request or to request an extension of an existing prior authorization, OB services providers are required to submit the request online using the TMHP secure provider portal or on paper by faxing or mailing the applicable prior authorization form to TMHP.

Providers can continue to use the Prior Authorization telephone line to inquire about the status of the prior authorization requests that have been submitted to TMHP online, by fax, or mail.

#### **5.5.2.1 Prior Authorization Calls**

Initial prior authorization calls are handled by the TMHP Contact Center. If the contact center representative determines that a prior authorization inquiry can be better handled by the TMHP Prior Authorization department, the TMHP Contact Center representative will transfer the call to a Prior Authorization Clinician.

**Note:** *This does not impact the timeframes for the resolution of more complex issues.*

#### **5.5.2.2 TMHP Prior Authorization Requests by Fax**

Providers who fax new prior authorization requests, resubmitted requests, or additional information to complete a request must include:

- A working fax number on the prior authorization form, so that they can receive faxed responses and correspondence from TMHP.
- The last four digits of the client's Medicaid identification number on the fax coversheet.

| Contact   | Fax Number     |
|---|----------------|
| Ambulance Authorization (includes out-of-state transfers)                   | 1-800-540-0694 |

**5.5.3 Home Health Services Prior Authorizations**

Home health services providers cannot initiate new prior authorization requests or request extensions over the telephone. The following home health services are affected:

- Skilled nursing and home health aide visits
- Physical and occupational therapy
- Durable medical equipment (DME)
- Expendable medical supplies

Home health services providers must initiate new prior authorization requests or request extension of existing prior authorizations online using the TMHP secure provider portal or on paper by faxing or mailing TMHP the appropriate paper prior authorization form.

Home health services providers can use telephone number 1-800-925-8957 for follow-up and status inquiry of prior authorizations.

**5.5.4 Radiology Prior Authorizations Through eviCore**

eviCore, Inc., performs radiology prior authorization services on behalf of TMHP.

**Referto:** Subsection 3.2.6, “Authorization Requirements for CT, CTA, MRI, fMRI, MRA, PET, and Cardiac Nuclear Imaging Services” in the *Radiology and Laboratory Services Handbook* (Vol. 2, *Provider Handbooks*) to determine which radiology services require a prior authorization through eviCore.

#### 5.5.4.1 Online Prior Authorizations Through eviCore

Radiology prior authorization requests may be submitted through the eviCore website at [www.medsolutionsonline.com](http://www.medsolutionsonline.com). The TMHP website at [www.tmhp.com](http://www.tmhp.com) also has links to the eviCore website.

#### 5.5.4.2 Prior Authorizations to eviCore by Fax, Telephone, or Mail

When submitting radiology prior authorization requests to eviCore by fax or mail, providers must use the approved [Radiology Prior Authorization Request Form](#) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

**Telephone:** 1-800-572-2116

**Fax:** 1-800-572-2119

**Mail:** Texas Medicaid & Healthcare Partnership  
730 Cool Springs Blvd., Suite 800  
Franklin, TN 37067

#### 5.5.4.3 Retroactive Authorization Requests

Retroactive authorization requests for outpatient diagnostic computed tomography (CT), magnetic resonance (MR), positron emission tomography (PET) and cardiac nuclear imaging services for Texas Medicaid fee-for-service clients must be submitted online to eviCore. The retroactive authorizations requests must be submitted to eviCore no later than 14 calendar days after the day on which the study was completed, regardless of the method of submission. If the retroactive authorization request is submitted after the allotted time, the authorization request will not be processed. Providers can refer to the TMHP website for eviCore’s contact information and methods of submission.

### 5.6 Verifying Prior Authorization Status

Prior authorizations are processed based on the date the request is received. Requests with all required information can take up to three business days after the date of receipt for TMHP to complete the authorization process.

Providers can check the status of prior authorizations requested online through the TMHP website at [www.tmhp.com](http://www.tmhp.com).

Providers may also check status of prior authorizations that are issued by TMHP by using the following numbers.

| Contact   | Telephone Number |
|---|------------------|
| Personal Care Services (PCS) Prior Authorization Inquiry Line | 1-888-648-1517   |
| CCP and Home Health Status Line                               | 1-800-846-7470   |
| All other authorization requests                              | 1-800-925-9126   |

To check the status of radiology prior authorization requests that are submitted to eviCore, providers should contact eviCore directly at [www.medsolutionsonline.com](http://www.medsolutionsonline.com) or 1-800-572-2116.

### 5.7 Prior Authorization Notifications

TMHP sends a notification to the provider when the prior authorization is approved, denied, or modified. If TMHP receives prior authorization requests with incomplete or insufficient information, TMHP will ask the requesting provider to furnish the additional documentation needed before TMHP can make a decision on the request. If the requesting provider does not respond to the request for

additional information, the prior authorization request will be denied. It is the requesting provider's responsibility to contact the appropriate provider, when necessary, to obtain the additional documentation.

## 5.8 Prior Authorization Denials Appeals Process

Prior authorizations that are denied by TMHP can be resubmitted to the TMHP Prior Authorization Department with new or additional information for reconsideration.

If the request is denied a second time, or if the provider has no new or additional information, the provider may file an Administrative Appeal to HHSC. Providers must include a copy of the denial letter.

It is strongly recommended that providers maintain a list that details the prior authorizations, including:

- Client's name
- Client's Medicaid number
- Date of service
- Provider Identifier
- Items submitted

This information will be required if a provider needs to file an administrative review.

## 5.9 Closing a Prior Authorization

When a client decides to change providers or elects to discontinue prior-authorized services before the authorization ends, that prior authorization is updated to reflect the early closure date and the reason for closure.

If a client with an active prior authorization changes providers, TMHP must receive a change of provider letter with the request for a new prior authorization in accordance with submission guidelines for the service. The client must sign and date the letter, which must include the name of the previous provider, the current provider, and the effective date for the change.

The client is responsible for notifying the previous provider that the client is discontinuing services and the effective date of the change. TMHP also notifies the previous provider by mail when a prior authorization has been closed early. The letter includes the beginning date of service, the revised ending date of the authorization, and the reason for the early closure.

## 5.10 Submitting Claims for Services That Require Prior Authorization

Claims submitted for services that require prior authorization must indicate the authorization number, provider identifier, procedure codes, dates of service, required modifiers, number of units, and the amount for manually priced procedure codes as detailed on the authorization letter. If the prior authorization letter shows itemized details and the provider rendered all services listed, the details on the claim must match the details on the prior authorization letter.

**Important:** *Claims processing and payment may be delayed if the detailed information on the authorization letter and the claim details do not match exactly.*

Claims for prior authorized services must contain only one prior authorization number per claim. Prior authorization numbers must be indicated on the applicable electronic fields or in the following blocks for paper claim forms:

| Paper Claim Form                             | Block for Prior Authorization Number |
|--|--------------------------------------|
| CMS-1500 (professional) claim form           | Block 23                             |
| UB-04 CMS-1450 (institutional) claim form    | Block 63                             |
| American Dental Association (ADA) claim form | Block 2                              |
| 2017 claim form                              | Block 30                             |

**Referto:** Subsection 6.1.3, “TMHP Paper Claims Submission” in “Section 6: Claims Filing” (*Vol. 1, General Information*).

### 5.10.1 Authorization and Manually Priced Claims

If prior authorization has been obtained for services that use manually priced procedure codes, providers must submit claims for them using the MSRP that was submitted with the authorization request and the following information that is listed on the authorization letter:

- Authorization number
- Provider identifier
- Procedure codes
- Dates of service
- Types of service
- Required modifiers

If the authorization letter shows itemized details, the claim must include all rendered services as they are itemized on the authorization letter and the MSRP rate for each of those services. The procedure codes and MSRP rates that are detailed on the claim must match the procedure codes that are detailed in the authorization letter and the MSRP rates that were submitted with the authorization request. Claims processing and payment may be delayed if there is not an exact match between the detailed information on the authorization letter, the approved authorization, and the information that was submitted on the claim.

**Important:** *For appropriate processing and payment, the Pay Price that is indicated on the authorization letter should not be billed on the claim.*

Prior authorization is a condition of reimbursement; it is not a guarantee of payment.

### 5.11 Guidelines for Procedures Awaiting Rate Hearing

For procedure codes that require prior authorization but are awaiting a rate hearing, providers must follow the established prior authorization process as defined in the applicable provider handbook. Providers must obtain a timely prior authorization for services provided. Providers must not wait until the rate hearing process for the procedure codes is completed to request prior authorization. In this situation, retroactive prior authorization requests are not granted; the requests are denied as late submissions. Providers are also responsible for meeting the initial 95-day filing deadline and for ensuring that the prior authorization number is on the claim the first time it is submitted to TMHP for consideration of reimbursement.

Claims for procedure codes awaiting a rate hearing are denied. TMHP automatically reprocesses affected claims; providers are not required to appeal the claims unless they are denied for additional reasons after the claims reprocessing is complete. If the required prior authorization number is not on the claim at the time of reprocessing, the claim is denied for lack of prior authorization.

## 6.1 Claims Information

Providers that render services to Texas Medicaid fee-for-service and managed care clients must file the assigned claims. Texas Medicaid does not make payments to clients. Federal regulations prohibit providers from charging clients a fee for completing or filing Medicaid claim forms. Providers are not allowed to charge TMHP for filing claims. The cost of claims filing is part of the usual and customary rate for doing business. Providers cannot bill Texas Medicaid or Medicaid clients for missed appointments or failure to keep an appointment. Only claims for services rendered are considered for payment.

Medicaid providers are also required to complete and sign authorized medical transportation forms (e.g., Form 3103, Individual Driver Registrant (IDR) Service Record, or Form 3111, Verification of Travel to Healthcare Services by Mass Transit) or provide an equivalent (e.g., provider statement on official letterhead) to attest that services were provided to a client on a specific date. The client presents these forms to the provider.

Providers are not allowed to bill clients or Texas Medicaid for completing these forms.

### 6.1.1 TMHP Processing Procedures

TMHP processes claims for services rendered to Texas Medicaid fee-for-service clients and carve-out services rendered to Medicaid managed care clients.

**Note:** *Claims for services rendered to a Medicaid managed care client must be submitted to the managed care organization (MCO) or dental plan that administers the client's managed care benefits. Only claims for those services that are carved-out of managed care can be submitted to TMHP.*

**Referto:** The *Medicaid Managed Care Handbook* (Vol. 2, *Provider Handbooks*) for more information about carve-out services.

Medicaid claims are subject to the following procedures:

- TMHP verifies all required information is present.
- Claims filed under the same provider identifier and program and ready for disposition at the end of each week are paid to the provider with an explanation of each payment or denial. The explanation is called the Remittance and Status (R&S) Report, which may be received as a downloadable portable document format (PDF) version or on paper. A Health Insurance Portability and Accountability Act (HIPAA)-compliant 835 transaction file is also available for those providers who wish to import claim dispositions into a financial system.

An R&S Report is generated for providers that have weekly claim or financial activity with or without payment. The report identifies pending, paid, denied, and adjusted claims. If no claim activity or outstanding account receivables exist during the time period, an R&S Report is not generated for the week.

- For services that are billed on a claim and have any benefit limitations for providers, the date of service determines which provider's claims are paid, denied, or recouped. Claims that have been submitted and paid may be recouped if a new claim with an earlier date of service is submitted, depending on the benefit limitations for the services rendered.

Services that have been authorized for an extension of the benefit limitation will not be recouped. Providers can submit an appeal with medical documentation if the claim has been denied.

### 6.1.1.1 Fiscal Agent

TMHP acts as the state's Medicaid fiscal agent. A fiscal agent arrangement is one of two methods allowed under federal law and is used by all other states that contract with outside entities for Medicaid claims payment. Under the fiscal agent arrangement, TMHP is responsible for paying claims, and the state is responsible for covering the cost of claims.

**Note:** *The fiscal agent arrangement does not affect Long Term Care (LTC) and Health and Human Services Commission (HHSC) Family Planning providers.*

### Provider Designations

The fiscal agent arrangement requires that providers be designated as either public or nonpublic. By definition, public providers are those that are owned or operated by a city, state, county, or other government agency or instrumentality, according to the Code of Federal Regulations. In addition, any provider or agency that performs intergovernmental transfers to the state would be considered a public provider. This includes those agencies that can certify and provide state matching funds, (i.e., other state agencies). New providers self-designate (public or private) on the provider enrollment application.

The fiscal agent:

- Rejects all claims not payable under Texas Medicaid rules and regulations.
- Suspends payments to providers according to procedures approved by HHSC.
- Notifies providers of reduction in claim amount or rejection of claim and the reason for doing so.
- Collects payments made in error, affects a current record credit to the department, and provides the department with required data relating to such error corrections.
- Prepares checks or drafts to providers, except for cases in which the department agrees that a basis exists for further review, suspension, or other irregularity within a period not to exceed 30 days of receipt and determination of proper evidence establishing the validity of claims, invoices, and statements.
- Makes provisions for payments to providers who have furnished eligible client benefits.
- Withholds payment of claim when the eligible client has another source of payment.
- Employs and assigns a physician, or physicians, and other professionals as necessary, to establish suitable standards for the audit of claims for services delivered and payment to eligible providers.
- Requires eligible providers to submit information on claim forms.

### 6.1.1.2 Payment Error Rate Measurement (PERM)

The Improper Payments Information Act (IPIA) of 2002 directs federal agency heads, in accordance with the Office of Management and Budget (OMB) guidance, to annually review agency programs that are susceptible to significant erroneous payments and to report the improper payment estimates to the U.S. Congress.

Every three years the CMS will assess Texas Medicaid using the PERM process to measure improper payments in Texas Medicaid and the Children's Health Insurance Program (CHIP).

CMS uses PERM to measure the accuracy of Medicaid and CHIP payments made by states for services rendered to clients. Under the PERM program, CMS will use three national contractors to measure improper payments in Medicaid and CHIP:

- The statistical contractor will provide support to the program by identifying the claims to be reviewed and by calculating each state's error rate.
- The data documentation contractor will collect medical policies from the State and medical records from providers.

- The review contractor will perform medical and data processing reviews of the selected claims in order to identify any improper payments.

Providers are required to provide medical record documentation to support the medical reviews that the federal review contractor will conduct for Texas Medicaid fee-for-service and CHIP claims.

**Note:** *The federal review contractor will also conduct reviews for Primary Care Case Management (PCCM) claims that were submitted to TMHP with dates of service on or before February 29, 2012.*

Past studies have shown that the largest cause of error in medical reviews is lack of documentation or insufficient documentation. It is important that information be sent in a timely and complete manner, since a provider's failure to timely submit complete records in support of the claims filed can result in a higher payment error rate for Texas, which in turn can negatively impact the amount of federal funding received by Texas for Medicaid and CHIP.

Providers must submit the requested medical records to the data documentation contractor and HHSC within 60 calendar days of the receipt of the written notice of request. If providers have not responded within 15 days, the data documentation contractor and possibly state officials will initiate reminder calls and letters to providers. The data documentation contractor and possibly state officials will also initiate reminder calls and letters to providers after 35 days. If providers have not responded in 60 days, the data documentation contractor will submit a letter to the provider and the state PERM director indicating a "no documentation error." After the provider's submittal of requested information, the data documentation contractor may request additional information to determine proper payment. In this instance, the provider is given 15 days to provide additional documentation.

If medical records are not received within 60 calendar days, the data documentation contractor will identify the claim as a PERM error and classify all dollars associated with the claim as an overpayment. Providers will be required to reimburse the overpayment in accordance with state and federal requirements.

A provider's failure to maintain complete and correct documentation in support of claims filed or failure to provide such documentation upon request can result in the provider being sanctioned under Title 1, Texas Administrative Code (TAC) Part 15, Chapter 371. Sanction actions may include, but are not limited to, a finding of overpayment for the claims that are not sufficiently supported by the required documentation. Sanctions may include, but are not limited to, a finding of overpayment for the claims that are not sufficiently supported by the required documentation.

### 6.1.2 Claims Filing Instructions

This manual references paper claims when explaining filing instructions. HHSC and TMHP encourage providers to submit claims electronically. TMHP offers specifications for electronic claim formats. These specifications are available from the TMHP website and include a cross-reference of the paper claim filing requirements to the electronic format.

Providers can participate in the most efficient and effective method of submitting claims to TMHP by submitting claims through the TMHP Electronic Data Interchange (EDI) claims processing system using TexMedConnect or a third party vendor. The proceeding claim filing instructions in this manual apply to paper and electronic submitters. Although the examples of claims filing instructions refer to their inclusion on the paper claim form, claim data requirements apply to all claim submissions, regardless of the media. Claims must contain the provider's complete name, address, and provider identifier to avoid unnecessary delays in processing and payment.

**Referto:** "Section 3: TMHP Electronic Data Interchange (EDI)" (*Vol. 1, General Information*) for information on accessing the TMHP website.

### 6.1.2.1 Wrong Surgery Notification

Providers are required to notify TMHP when a wrong surgery or other invasive procedure is performed on a Texas Medicaid client. Notification is mandated by Senate Bill (SB) 203, Section 3, Regular Session, 81st Texas Legislature, which covers preventable adverse events (PAE) and reimbursement for services associated with PAE.

Professional, inpatient, and outpatient hospital claims that are submitted for the wrong surgery or invasive procedure will be denied. Any corresponding procedures that are rendered to the same client, on the same dates of service (for professional and outpatient hospital claims), or the same date of surgery (for inpatient hospital claims) will be denied. Claims that have already been reimbursed will be recouped.

The law requires providers that are submitting claims for services rendered to Texas Medicaid clients to indicate whether any of the following situations apply to the claim:

- The incorrect operation or invasive procedure was performed on the correct client.
- The operation or invasive procedure was performed on the incorrect client.
- The incorrect operation or invasive procedure was performed on the incorrect body part.

Providers must notify Texas Medicaid of a wrong surgery or invasive procedure by submitting one of the following nonspecific injury, poisoning and other consequences of external causes diagnosis codes or modifiers with the procedure code for the rendered service:

| Code  | Description   | Type of Claim                       |
|---|---|-------------------------------------|
| Injury, Poisoning and Other Consequences of External causes Diagnosis Codes |   |                                     |
| Y6551   | Performance of wrong procedure (operation) on correct patient             | Inpatient hospital                  |
| Y6552   | Performance of procedure (operation) on patient not scheduled for surgery |                                     |
| Y6553   | Performance of correct procedure (operation) on wrong side or body part   |                                     |
| Modifiers   |   |                                     |
| PA  | Surgical or other invasive procedure on wrong body part                   | Professional or outpatient hospital |
| PB  | Surgical or other invasive procedure on wrong patient                     |                                     |
| PC  | Wrong surgery or other invasive procedure on patient                      |                                     |

Professional or outpatient hospital claims must include a valid diagnosis with up to seven-digit specificity, the procedure code that identifies the service rendered, and the PA, PB, or PC modifier that describes the type of “wrong surgery” performed.

Inpatient hospital claims must be submitted with type of bill (TOB) 110 as an inpatient hospital-nonpayment claim when a “wrong surgery” is reported. If other services or procedures that are unrelated to the “wrong surgery” are provided during the same stay as the “wrong surgery,” the inpatient hospital must submit a claim for the “wrong surgery” and a separate claim or claims for the unrelated services rendered during the same stay as the “wrong surgery.”

The “wrong surgery” claim must include TOB 110, the appropriate diagnosis code, the surgical procedure code for the surgical service rendered, and the date of surgery. The “wrong surgery” claim will be denied.

The unrelated services rendered during the same stay as the “wrong surgery” must include TOB 111, 112, 113, 114, or 115 on a claim separate from the “wrong surgery” claim. The unrelated services that are benefits of Texas Medicaid may be reimbursed by Texas Medicaid.

A claim that is denied for wrong surgery will have one of the following EOB codes:

| EOB Code  | Message  |
|---|--|
| 01167   | Claim detail denied due to wrong surgery performed on client                             |
| 01168   | Claim denied due to wrong surgery performed on client                                    |
| 01185   | Claim denied due to wrong surgery claim found in history for the same PCN and DOS        |
| 01186   | Claim detail denied due to wrong surgery claim found in history for the same PCN and DOS |
| PCN = Patient Control Number (also known as the client's Medicaid number) DOS = Date of service |  |

### 6.1.2.2 Maximum Number of Units allowed per Claim Detail

The total number of units per claim detail can not exceed 9,999. Providers who submit a claim with more than 9,999 units must bill 9,999 units on the first detail of the claim and any additional units on separate details.

### 6.1.2.3 Tips on Expediting Paper Claims

Use the following guidelines to enhance the accuracy and timeliness of paper claims processing.

#### General requirements

- Use original claim forms. Do not use copies of claim forms.
- Detach claims at perforated lines before mailing.
- Use 10 x 13 inch envelopes to mail claims. Do not fold claim forms, appeals, or correspondence.
- Do not use labels, stickers, or stamps on the claim form.
- Do not send duplicate copies of information.
- Use 8 ½ x 11 inch paper. Do not use paper smaller or larger than 8 ½ x 11 inches.
- Do not mail claims with correspondence for other departments.

#### Data Fields

- Print claim data within defined boxes on the claim form.
- Use black ink, but not a black marker. Do not use red ink or highlighters.
- Use all capital letters.
- Print using 10-pitch (12-point) Courier font. Do not use fonts smaller or larger than 12 points. Do not use proportional fonts, such as Arial or Times Roman.
- Use a laser printer for best results. Do not use a dot matrix printer, if possible.
- Do not use dashes or slashes in date fields.

#### Attachments

- Use paper clips on claims or appeals if they include attachments. Do not use glue, tape, or staples.
- Place the claim form on top when sending new claims, followed by any medical records or other attachments.
- Number the pages when sending attachments or multiple claims for the same client (e.g., 1 of 2, 2 of 2).
- Do not total the billed amount on each claim form when submitting multi-page claims for the same client.

- Use the CMS-approved Medicare Remittance Advice Notice (MRAN) printed from Medicare Remit Easy Print (MREP) (professional services) or PC-Print (institutional services) when sending a Remittance Advice from Medicare or the paper MRAN received from Medicare or a Medicare intermediary. You may also download the TMHP Standardized Medicare Advantage Plan (MAP) Remittance Advice Notice Template from the TMHP website at [www.tmhp.com](http://www.tmhp.com).
- Submit claim forms with MRANs and R&S Reports.

### 6.1.3 TMHP Paper Claims Submission

All paper claims must be submitted with a Texas Provider Identifier (TPI) and National Provider Identifier (NPI) for the billing and performing providers. All other provider fields on the claim forms require an NPI only. If an NPI and TPI are not included in the billing and performing provider fields, or if an NPI is not included on all other provider identifier fields, the claim will be denied.

### 6.1.4 Claims Filing Deadlines

For claims payment to be considered, providers must adhere to the time limits described in this section. Claims received after the following claims filing deadlines are not payable because Texas Medicaid does not provide coverage for late claims.

**Exception:** *Unless otherwise stated, claims must be received by TMHP within 95 days of each DOS. Appeals must be received by TMHP within 120 days of the disposition date on the R&S Report on which the claim appears. A 95-day or 120-day appeal filing deadline that falls on a weekend or a holiday is extended to the next business day following the weekend or holiday.*

Only the following holidays extend the deadlines in 2016 and 2017:

| Date  | Holiday                     |
|---|-----------------------------|
| January 1, 2018*  | New Year's Day              |
| January 15, 2018  | Martin Luther King, Jr. Day |
| February 19, 2018   | Presidents Day              |
| May 28, 2018  | Memorial Day                |
| July 4, 2018  | Independence Day            |
| September 3, 2018   | Labor Day                   |
| October 8, 2018*  | Columbus Day                |
| November 12, 2018   | Veterans Day                |
| November 22, 2018   | Thanksgiving Day            |
| November 23, 2018   | Day after Thanksgiving      |
| December 24, 2018   | Christmas Eve Day           |
| December 25, 2018   | Christmas Day               |
| *Federal holiday, but not a state holiday. The claims filing deadline will be extended for providers because the Post Office will not be operating on this day. |                             |

The following are time limits for submitting claims:

- Inpatient claims that are filed by the hospital must be received by TMHP within 95 days of the discharge date or last DOS on the claim.
- Hospitals that are reimbursed according to diagnosis-related group (DRG) payment methodology may submit an interim claim because the client has been in the facility 30 consecutive days or longer. A total stay claim is needed after discharge to ensure accurate calculation for potential outlier payments for clients who are 20 years of age and younger.

- Hospitals that are reimbursed according to Tax Equity and Fiscal Responsibility Act (TEFRA) of 1982 methodology may submit interim claims before discharge and must submit an interim claim if the client remains in the hospital past the hospital's fiscal year end.
- When medical services are rendered to a Medicaid client in Texas, TMHP must receive claims within 95 days of the DOS on the claim.
- Re-enrolling providers who are assigned their previous TPI must submit claims so that they are received by TMHP within 95 days of the date of service.
- Providers that are enrolling in Texas Medicaid for the first time or are making a change that requires the issuance of a new TPI, such as a change of ownership, can submit claims within 95 days from the date their TPI is issued as long as claims are submitted within 365 days of the date of service.
- TMHP must receive claims from out-of-state providers within 365 days from the DOS. The DOS is the date the service is provided or performed.
- TMHP must receive claims on behalf of an individual who has applied for Medicaid coverage but has not been assigned a Medicaid number on the DOS within 95 days from the date the eligibility was added to the TMHP eligibility file (add date) and within 365 days of the date of service or from the discharge date for inpatient claims.
- Providers should verify eligibility and add date by contacting TMHP (Automated Inquiry System [AIS], TMHP EDI's electronic eligibility verification, or TMHP Contact Center) when the number is received. Not all applicants become eligible clients. Providers that submit claims electronically within the 365-day federal filing deadline for services rendered to individuals who do not currently have a Texas Medicaid identification number will receive an electronic rejection. Providers can use the TMHP rejection report as proof of meeting the 365-day federal filing deadline and submit an administrative appeal.

**Important:** *Providers should request and keep hard copies of any Medicaid Eligibility Verification (Form H1027) submitted by clients or proof of client eligibility from the Your Texas Benefits Medicaid website at [www.yourtexasbenefitscard.com](http://www.yourtexasbenefitscard.com). A copy is required during the appeal process if the client's eligibility becomes an issue.*

- If a client becomes retroactively eligible or loses Medicaid eligibility and is later determined to be eligible, the 95-day filing deadline begins on the date that the eligibility start date was added to TMHP files (the add date). However, the 365-day federal filing deadline must still be met.
- When a service is a benefit of Medicare and Medicaid, and the client is covered by both programs, the claim must be filed with Medicare first. TMHP *must* receive Medicaid claims within 95 days of the date of Medicare disposition.

Providers must submit a paper MRAN received from Medicare or a Medicare intermediary, the computer-generated MRANs from the CMS-approved software application MREP for professional services or PC-Print for institutional services, or the TMHP Standardized Medicare Advantage Plan (MAP) Remittance Advice Notice Template with a completed claim form to TMHP.

- When a client is eligible for Medicare Part B only, the inpatient hospital claim for services covered as Medicaid only is sent directly to TMHP and is subject to the 95-day filing deadline (from date of discharge).

**Note:** *It is strongly recommended that providers who submit paper claims keep a copy of the documentation they send. It is also recommended that paper claims be sent by certified mail with a return receipt requested. This documentation, along with a detailed listing of the claims enclosed, provides proof that the claims were received by TMHP, which is particularly important if it is necessary to prove that the 95-day claims filing deadline has been met. TMHP will accept certification receipts as proof of the 95-day or 120-filing deadline. If a certified receipt is provided as proof, the certified receipt number must be indicated on the*

*detailed listing along with the Medicaid number, billed amount, DOS, and a signed claim copy. The provider needs to keep such proof of multiple claims submissions if the provider identifier is pending.*

- If the provider is attempting to obtain prior authorization for services performed or will be performed, TMHP must receive the claim according to the usual 95-day filing deadline.
- The provider bills TMHP directly within 95 days from the DOS. However, if a non-third party resource (TPR) is billed first, TMHP must receive the claim within 95 days of the claim disposition by the other entity.

**Note:** *The provider submits a copy of the disposition with the claim. A non-TPR is secondary to Texas Medicaid and may only pay benefits after Texas Medicaid.*

**Referto:** Subsection 4.12, “Third Party Liability (TPL)” in Section 4, “Client Eligibility” (Vol. 1, General Information) for examples of non-TPRs.

- When a service is billed to another insurance resource, the filing deadline is 95 days from the date of disposition by the other resource.
- When a service is billed to a third party and no response has been received, Medicaid providers must allow 110 days to elapse before submitting a claim to TMHP. However, the 365-day federal filing deadline requirement must still be met.
- A Compass21 (C21) process allows an HHSC Family Planning claim to be paid by Title XIX (Medicaid) if the client is eligible for Title XIX when those services are provided and billed under the HHSC Family Planning Program. In this instance, the Medicaid 95-day filing deadline is in effect and must be met or the claim will be denied.
- For claims re-submitted to TMHP with additional detail charges (i.e., quantity billed), the additional details are subject to the 95-day filing deadline.

**Note:** *In accordance with federal regulations, all claims must be initially filed with TMHP within 365 days of the DOS, regardless of provider enrollment status or retroactive eligibility.*

**Referto:** Subsection 6.1.2, “Claims Filing Instructions” in this section.

Subsection 1.1, “Provider Enrollment and Reenrollment” in “Section 1: Provider Enrollment and Responsibilities” (Vol. 1, General Information) for information on the provider enrollment process.

Subsection 7.1, “Appeal Methods” in “Section 7: Appeals” (Vol. 1, General Information) for information on the process for submitting appeals.

Subsection 6.1.4.3, “Exceptions to the 95-Day Filing Deadline” in this section.

Subsection A.12.3, “Automated Inquiry System (AIS)” in “Appendix A: State, Federal, and TMHP Contact Information” (Vol. 1, General Information) to learn how to retrieve client eligibility information by telephone.

**Referto:** “Section 8: Third Party Liability (TPL)” (Vol. 1, General Information).

Subsection 4.2, “Eligibility Verification” in “Section 4: Client Eligibility” (Vol. 1, General Information).

Subsection 6.11.6, “Provider Inquiries—Status of Claims” in this section.

#### **6.1.4.1 Claims for Clients with Retroactive Eligibility**

Claims for clients who receive retroactive eligibility must be submitted within 95 days of the date that the client’s eligibility was added to the TMHP eligibility file (add date) and within 365 days of the DOS.

Title 42 of the Code of Federal Regulations (42 CFR), at 447.45 (d) (1), states “The Medicaid agency must require providers to submit all claims no later than 12 months from the date of service.” The 12-month filing deadline applies to all claims. Claims not submitted within 365 days (12 months) from the date of service cannot be considered for payment.

Retroactive eligibility does not constitute an exception to the federal filing deadline. Even if the patient’s Medicaid eligibility determination is delayed, the provider must still submit the claim within 365 days of the date of service. A claim that is not submitted within 365 days of the date of service will not be considered for payment.

If a client is not yet eligible for Medicaid, providers must submit the claim using either 999999999 or 000000000 as the recipient identification number. Although TMHP will deny the claim, providers should retain the denial or electronic rejection report for proof of timely filing, especially if the eligibility determination occurs more than 365 days after the date of service. Claims denied for recipient ineligibility may be resubmitted when the patient becomes eligible for the retroactive date(s) of service. Texas Medicaid may then consider the claim for payment because the initial claim was submitted within the 365-day federal filing deadline and the denial was not the result of an error by the provider.

If the 365-day federal filing deadline requirement has passed, providers must submit the following to TMHP within 95 days from the add date:

- A completed claim form.
- One of the following dated within 365 days from the date of service:
  - A page from an R&S Report documenting a denial of the claim.
  - An electronic rejection report of the claim that includes the Medicaid recipient’s name and date of service.

Providers that have submitted their claims electronically can provide proof of timely filing by submitting a copy of an electronic claims report that includes the following information:

- Client name or Medicaid identification number (PCN)
- DOS
- Total charges
- Batch identification number (Batch ID) (in correct format)

**Note:** *Only reports that were accepted or rejected by TMHP will be honored. The claim filed (client name or PCN, DOS and total charges) should match the information on the batch report.*

#### **6.1.4.2 Claims for Newly Enrolled Providers**

Claims submitted by newly enrolled providers must be received within 95 days of the date that the new provider identifier is issued, and within 365 days of the date of service. Providers with a pending application should submit any claims that are nearing the 365-day deadline from the date of service. Claims will be rejected by TMHP until a provider identifier is issued. Providers can use the TMHP rejection report as proof of meeting the 365-day deadline and submit an appeal.

**Referto:** Subsection 1.1.9.11, “Copy of License, Temporary License, or Certification” in “Section 1: Provider Enrollment and Responsibilities” (*Vol. 1, General Information*).

All claims for services rendered to Texas Medicaid clients who do not have Medicare benefits are subject to a filing deadline from the date of service of:

- 95 days for in-state providers.
- 365 days for out-of-state providers.

TMHP cannot issue a prior authorization before Medicaid enrollment is complete. Upon notice of Medicaid enrollment, by way of issuance of a provider identifier, the provider must contact the appropriate TMHP Authorization Department before providing services that require a prior authorization number to Medicaid clients. Regular prior authorization procedures are followed after the TMHP Prior Authorization Department has been contacted.

Retroactive authorizations will not be issued unless the regular authorization procedures for the requested services allow for authorizations to be obtained after services are provided. For these services, providers have 95 days from the add date of the client's retroactive eligibility in TMHP's system to obtain authorization for services that have already been performed. Providers should refer to the specific manual section for details on authorization requirements, claims filing, and timeframe guidelines for authorization request submissions.

Providers who have not been assigned a provider identifier and have general claim submission questions may refer to this section for assistance with claim submission. If additional general information is needed, providers may call the TMHP Contact Center at 1-800-925-9126 to obtain information. Due to HIPAA privacy guidelines, specific client and claim information cannot be provided.

Providers who have already been assigned a provider identifier and have questions about submitting claims may call the same number and select the option to speak with a TMHP Contact Center representative.

#### **6.1.4.3 Exceptions to the 95-Day Filing Deadline**

TMHP is not responsible for appeals about exceptions to the 95-day filing deadline. These appeals must be submitted to the HHSC Claims Administrator Operations Management. TAC allows HHSC to consider exceptions to the 95-day filing deadline under special circumstances.

#### **6.1.4.4 Appeal Time Limits**

All appeals of denied claims and requests for adjustments on paid claims must be received by TMHP within 120 days from the date of disposition, the date of the R&S Report on which that claim appears. If the 120-day appeal deadline falls on a weekend or holiday, the deadline will be extended to the next business day.

**Referto:** Subsection 6.1.2, "Claims Filing Instructions" in this section.

Hospitals appealing final technical denials, admission denials, DRG changes, continued-stay denials, or cost/day outlier denials refer to "Section 7: Appeals" (*Vol. 1, General Information*) for complete appeal information.

#### **6.1.4.5 Claims with Incomplete Information and Zero Paid Claims**

Claims listed on the R&S Report with \$0 allowed and \$0 paid may be resubmitted as electronic appeals. Previously, these claims were only accepted as paper claims and were not accepted as electronic appeals. Appeals may be submitted through a third party biller or through TexMedConnect.

Zero-paid claims that are still within the 95-day filing deadline should be submitted as new day claims, which are processed faster than appeals. Electronic appeal for these claims must be submitted within the 120-day appeal deadline. Electronic claims can be resubmitted past the 95-day deadline as new day claims if the following fields have not changed:

- Provider identifiers
- Client Medicaid number
- Dates of service
- Total billed amount

Claims that are past the 95-day filing deadline and require changes to the fields listed above must be appealed on paper, with a copy of the R&S report. All other appeal guidelines remain unchanged.

**Important:** *Initial zero-paid claims and appeal submissions must meet the 95-day deadline and 120-day appeal deadline outlined in subsection 6.1.4, “Claims Filing Deadlines” in this section.*

#### **6.1.4.6 Claims Filing Reminders**

After filing a claim to TMHP, providers should review the weekly R&S Report. If within 30 days the claim does not appear in the Claims In Process section, or if it does not appear as a paid, denied, or incomplete claim, the provider should resubmit it to TMHP within 95 days of the DOS.

The provider should allow TMHP 45 days to receive a Medicare-paid claim automatically transmitted for payment of deductible or coinsurance.

Electronic billers should notify TMHP about missing claims when:

- An accepted claim does not appear on the R&S Report within ten workdays of the file submittal.
- A claim or file does not appear on a TMHP Electronic Claims Submission Report within ten days of the file submission.

Certain claims, including those that were submitted for newborn services or that might be covered under Medicare, are suspended for review so that other state agencies can verify information. This review may take longer than 60 days.

These suspended claims will appear on the provider’s R&S Report under “The following claims are being processed” with a message indicating that the client’s eligibility is being investigated. Providers must wait until the claim is finalized and appears under “Paid or Denied” or “Adjustment to Claims” on the R&S Report before appealing the claim. If the claim does not appear on the R&S Report, providers must resubmit the claim to TMHP to ensure compliance with filing and appeal deadlines.

#### **6.1.5 HHSC Payment Deadline**

Payment deadline rules, as defined by HHSC, affect all providers with the exception of LTC and the HHSC Family Planning Program. The HHSC payment deadline rules for the fiscal agent arrangement ensure that state and federal financial requirements are met.

TMHP is required to finalize and pay claims within 24 months of:

- Each date of service on a claim.
- Discharge date for inpatient claims.

Texas Medicaid and Children with Special Health Care Needs (CSHCN) Service Program payments, excluding crossovers, cannot be made after 24 months. Claims and appeals that are submitted after the designated payment deadlines are denied.

**Note:** *Providers may appeal HHSC Office of Inspector General (OIG) initiated claims adjustments (recoupments) after the 24-month deadline but must do so within 120 days from the date of the recoupment. Refer to subsection 7.1.4, “Paper Appeals” in “Section 7: Appeals” (Vol. 1, General Information) for instructions. All appeals of OIG recoupments must be submitted by paper, no electronic or telephone appeals will be accepted.*

#### **6.1.6 Filing Deadline Calendars**

The most current filing deadline calendars are available on the TMHP website at [www.tmhp.com](http://www.tmhp.com):

- [Filing Deadline Calendar for 2018](#)
- [Filing Deadline Calendar for 2017](#)

## 6.2 TMHP Electronic Claims Submission

TMHP uses the HIPAA-compliant American National Standards Institute (ANSI) ASC X12 5010 file format through secure socket layer (SSL) and virtual private networking (VPN) connections for maximum security.

Claims may be submitted electronically to TMHP through TexMedConnect on the TMHP website at [www.tmhp.com](http://www.tmhp.com) or through billing agents who interface directly with the TMHP EDI Gateway.

Providers must retain all claim and file transmission records. They may be required to submit them for pending research on missing claims or appeals.

**Referto:** “Section 3: TMHP Electronic Data Interchange (EDI)” (*Vol. 1, General Information*).

### 6.2.1 Benefit and Taxonomy Codes

Providers must submit the Benefit Code field (when applicable), Address field, and Taxonomy Code Field and all other required fields. These fields must be completed before submitting electronic claims.

Taxonomy codes do not affect pricing or the level of pricing, but rather are used to crosswalk the NPI to a TPI. It is critical that the taxonomy code selected as the primary or secondary taxonomy code during a providers enrollment with TMHP is included on all electronic transactions.

Billing providers that are not associated with a group are required to submit a taxonomy code on all electronic claims. Claims submitted without a taxonomy code may be rejected.

Medicare does not require a taxonomy code for Part B claims. Therefore, some claims submitted to TMHP from Medicare for payment of deductible or coinsurance may not include the taxonomy code needed for accurate processing by TMHP.

### 6.2.2 Electronic Claim Acceptance

Providers should verify that their electronic claims were accepted by Texas Medicaid for payment consideration by referring to their Claim Response report, which is in the 27S batch response file (e.g., file name E085LDS1.27S). Providers should also check their Accepted and Rejected reports in the rej and acc batch response files (e.g., E085LDS1.REJ and E085LDS1.ACC) for additional information. Only claims that have been accepted on the Claim Response report (27S file) will be considered for payment and made available for claim status inquiry. Claims that are rejected must be corrected and resubmitted for payment consideration.

**Referto:** Subsection 3.2, “Electronic Billing” in “Section 3: TMHP Electronic Data Interchange (EDI)” (*Vol. 1, General Information*), visit [www.tmhp.com](http://www.tmhp.com), or call the EDI Help Desk at 1-888-863-3638 for more information about electronic claims submissions.

### 6.2.3 Electronic Rejections

The most common reasons for electronic professional claim rejections are:

- *Client information does not match.* Client information does not match the PCN on the TMHP eligibility file. The name, date of birth, sex, and nine-digit Medicaid identification number must be an exact match with the client’s identification number on TMHP’s eligibility record. If using TexMedConnect, send an interactive eligibility request to obtain an exact match with TMHP’s record. If not using TexMedConnect, verify through the TMHP website or call AIS at 1-800-925-9126 to verify client information. A lack of complete client eligibility information causes a rejection and possibly delayed payment. To prevent delays when submitting claims electronically:
  - Always include the first and last name of the client on the claim in the appropriate fields.
  - Always enter the client’s complete, valid nine-digit Medicaid number. Valid Medicaid numbers begin with 1, 2, 3, 4, 5, 6 or 7. CSHCN Services Program client numbers begin with a 9.
  - When submitting claims for newborns, use the guidelines in the following section.

- *Referring/Ordering Physician field blank or invalid.* The referring physician's NPI must be present when billing for consultations, laboratory, or radiology. Consult the software vendor for this field's location on the electronic claims entry form.
- *Performing Physician ID field blank or invalid.* When the billing provider identifier is a *group* practice, the performing provider identifier for the physician who performed the service must be entered. Consult the software vendor for this field's location on the electronic claim form.
- *Facility Provider field blank or invalid.* When place of service (POS) is anywhere other than home or office, the facility's provider identifier must be present. If the provider identifier is not known, enter the name and address of the facility. Consult the software vendor for this field's location on the electronic claims entry form.
- *Invalid Type of Service or Invalid Type of Service/Procedure code combination.* In certain cases some procedure codes will require a modifier to denote the procedure's type of service (TOS).

**Note:** *The C21 claims processing system can accept only 40 characters (including spaces) in the Comments section of electronic submissions for ambulance and dental claims. If providers include more than 40 characters in that field, C21 will accept only the first 40 characters; the other characters will not be imported into C21. Providers must ensure that all of the information that is required for the claim to process appropriately is included in the first 40 characters.*

**Referto:** Subsection 6.2.5, "Modifier Requirements for TOS Assignment" in this section for TMHP EDI modifier information.

### 6.2.3.1 Newborn Claim Hints

The following are to be used for newborns:

- If the mother's name is "Jane Jones," use "Boy Jane Jones" for a male child and "Girl Jane Jones" for a female child.
- Enter "Boy Jane" or "Girl Jane" in first name field and "Jones" in last name field. *Always* use "boy" or "girl" first and then the mother's full name. An exact match must be submitted for the claim to process.
- Do not use "NBM" for newborn male or "NBF" for newborn female.

The following are the most common reasons for electronic hospital UB-04 CMS-1450 claim rejections:

- *Admit hour outside allowable range* (such as 24 hours).
- *Billed amount blank.*
- *Health coverage ID blank or invalid.* This number *must* be the valid nine-digit Medicaid client number. *Incorrect data* includes: a number less than nine digits; PENDING; 999999999; and Unknown.
- *Referring physician information on outpatient claim is blank* when laboratory/radiology services are ordered or a surgical procedure is performed. The referring physician's NPI is required in Fields 78–79. Consult the software vendor for the location of this field on the electronic claims entry form.

### 6.2.4 TMHP EDI Batch Numbers, Julian Dates

All electronic transactions are assigned an eight-character Batch ID immediately upon receipt by the TMHP EDI Gateway. The batch ID format allows electronic submitters to determine the exact day and year that a batch was received. The batch ID format is JJJYSSSS, where each character is defined as follows:

- *JJJ – Julian date.* The three J characters represent the Julian date that the file was received by the TMHP EDI Gateway. The first character (J) is displayed as a letter, where I = 0, J = 1, K = 2, and L = 3. The last two characters (JJ) are displayed as numbers. All three characters (JJJ) together represent the Julian date. For example, a Julian date of 143 would be J43.
- *Y – Year.* The Y character represents the last digit of the calendar year when the TMHP EDI Gateway receives the file. For example, a “2” in this position indicates the year 2012.
- *SSSS =* The unique 4-character sequence number assigned by EDI to the batch filed.

### 6.2.5 Modifier Requirements for TOS Assignment

Modifiers for TOS assignment are not required for Texas Health Steps (THSteps) Dental claims (claim type 021) and Inpatient Hospital claims (claim type 040). Additionally, procedures submitted by specific provider types such as genetics, eyeglass, and THSteps medical checkup are assigned the appropriate TOS based on the provider type or specific procedure code, and will not require modifiers.

Most procedure codes do not require a modifier for TOS assignment, but modifiers are required for some services submitted on professional claims (claim type 020) and outpatient hospital claims (claim type 023). Services that require a modifier for TOS assignment are listed in the following sections.

#### 6.2.5.1 Assistant Surgery

For assistant surgical procedures, use one of the following modifiers: 80, 81, 82, and AS. Using these modifiers results in TOS 8 being assigned to the procedure.

#### 6.2.5.2 Anesthesia

For anesthesia procedures, use one of the following modifiers: AA, AD, QK, QS, QX, QY, and QZ. Using these modifiers results in TOS 7 being assigned to the procedure.

#### 6.2.5.3 Interpretations

For interpretations or professional components of laboratory, radiology, or radiation therapy procedures, use modifier 26. Using modifier 26 results in TOS I being assigned to the procedure.

#### 6.2.5.4 Technical Components

For technical components of laboratory, radiology, or radiation therapy procedures, use modifier TC. Using this modifier results in TOS T being assigned to the procedure.

**Exception:** *Outpatient hospitals do not include the TC modifier when they provide technical components of lab and radiology services. These services automatically have TOS 4 or 5 assigned and are subject to the facility’s interim reimbursement rate or the clinical lab rate.*

## 6.3 Coding

Electronic billers must code all claims. TMHP encourages all providers to code their paper claims. Claims are processed fast and accurately if providers furnish appropriate information. By coding claims, providers ensure precise and concise representation of the services provided and are assured reimbursement based on the correct code. If providers code claims, a narrative description is not required and does not need to be included unless the code is a not an otherwise classified code.

**Important:** *Claims for anesthesia must have the CPT anesthesia procedure code narrative descriptions or CPT surgical codes; if these codes are not included, the claim will be denied.*

The carrier for the Texas Medicare Program has coding manuals available for physicians and suppliers with codes not available in CPT. To order a CPT Coding Manual, write to the following address:

American Medical Association  
Book and Pamphlet Fulfillment  
PO Box 2964  
Milwaukee, WI 53201

### 6.3.1 Diagnosis Coding

Texas Medicaid requires providers to provide *International Classification of Diseases, Tenth Revision, Clinical Modification* (ICD-10-CM) diagnosis codes on their claims. The *only* diagnosis coding structure accepted by Texas Medicaid is the ICD-10-CM. Diagnosis codes must be to the highest level of specificity available. In most cases a written description of the diagnosis is not required.

All diagnosis codes that are submitted on a claim must be appropriate for the age of the client as identified in the ICD-10-CM description of the diagnosis code. Claims that are denied because one or more of the diagnosis codes submitted on the claim are not appropriate for the age of the client may be appealed with the correct diagnosis code or documentation of medical necessity to justify the use of the diagnosis code.

Diagnosis codes in the following categories are not valid as primary or referenced diagnosis:

- Nonspecific injury, poisoning and other consequences of external causes
- Diagnosis in the International Classification of Diseases for Oncology, 3rd Edition (ICD-O-3)
- Factors influencing health status and contact with health services, unless otherwise directed in this manual.
- External causes of morbidity

#### 6.3.1.1 Place of Service (POS) Coding

The POS identifies where services are performed. Indicate the POS by using the appropriate code for each service identified on the claim.

**Important:** *Attention ambulance providers: POS 41 and 42 are accepted by Texas Medicaid for ambulance claims processing. The two-digit origin and destination codes are still required for claims processing.*

Use the following codes for POS identification where services are performed:

| POS  | 2-Digit Numeric Codes (Electronic Billers)                     | 1-Digit Numeric Codes (Paper Billers) |
|--|--|---------------------------------------|
| Office   | 02, 11, 15, 17, 20, 49, 50, 60, 65, 71, 72                     | 1                                     |
| Home   | 12   | 2                                     |
| Inpatient hospital   | 21, 51, 52, 55, 56, 61   | 3                                     |
| Outpatient hospital  | 19, 22, 23, 24, 62   | 5                                     |
| Birthing center  | 25   | 7                                     |
| Other location   | 01, 03, 04, 05, 06, 07, 08, 16, 18, 26, 34, 41, 42, 53, 57, 99 | 9                                     |
| Skilled nursing facility or intermediate care facility for individuals with an intellectual disability or related conditions | 13, 31, 32, 54   | 4                                     |

| POS   | 2-Digit Numeric Codes (Electronic Billers) | 1-Digit Numeric Codes (Paper Billers)  |
|---|--|--|
| Extended care facility (rest home, domiciliary or custodial care, nursing facility boarding home) | 14, 33                                     | 8                                      |
| Independent lab   | 81   | 6                                      |
| Destination of ambulance  | Indicate destination using above codes     | Indicate destination using above codes |

**Note:** Family planning and THSteps medical services performed in a rural health clinic (RHC) are billed using national POS code 72.

### 6.3.2 Type of Service (TOS)

The TOS identifies the specific field or specialty of services provided.

To determine the TOS payable for each procedure code, providers may refer to the [online fee lookup \(OFL\)](#) or the static fee schedules, both are available on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

**Referto:** Subsection 6.2.5, “Modifier Requirements for TOS Assignment” in this section for TMHP EDI modifier information.

#### 6.3.2.1 TOS Table

**Important:** TOS codes are not used for claim submissions, but they do appear on R&S Reports.

| TOS | Description   |
|-----|---|
| 0   | Blood   |
| 1   | Medical Services  |
| 2   | Surgery   |
| 3   | Consultations   |
| 4   | Radiology (total component)   |
| 5   | Laboratory (total component)  |
| 6   | Radiation Therapy (total component)   |
| 7   | Anesthesia  |
| 8   | Assistant surgery   |
| 9   | Other medical items or services   |
| C   | Home health services  |
| D   | TB clinic   |
| E   | Eyeglasses  |
| F   | Ambulatory surgical center (ASC)/hospital-based ambulatory surgical center (HASC) |
| G   | Genetics  |
| I   | Professional component for radiology, laboratory, or radiation therapy            |
| J   | DME purchase new  |
| L   | DME rental  |
| R   | Hearing aid   |
| S   | THSteps medical   |

| TOS | Description   |
|-----|---|
| T   | Technical component for radiology, laboratory, or radiation therapy |
| W   | THSteps dental  |

### 6.3.3 Procedure Coding

Texas Medicaid uses the Healthcare Common Procedure Coding System (HCPCS). HCPCS provides health-care providers and third-party payers a common coding structure that uses codes designed around a five-character numeric or alphanumeric base. The procedure codes are updated annually and quarterly.

HCPCS consists of two levels of codes:

- Level I—Current Procedural Terminology (CPT®) Professional Edition
  - Numeric, five digits
  - Makes up 80 percent of HCPCS
  - Maintained by AMA, which updates it annually
  - Updates by the AMA are coordinated with CMS before modifications are distributed to third-party payers
  - Anesthesia codes from CPT
- Level II—HCPCS
  - Approved and released by CMS
  - Codes for both physician and non-physician services not contained in CPT (for example, ambulance, DME, prosthetics, and some medical codes)
  - Maintained and updated by the CMS Maintenance Task Force
  - Alphanumeric, a single alpha character (A through V) followed by four digits
  - The single alpha character represents one of the following:

| Alpha | Description   |
|-------|---|
| A     | Supplies, ambulance, administrative, miscellaneous  |
| B     | Enteral and parenteral therapy                      |
| E     | DME and oxygen                                      |
| G     | Procedures/professional (temporary)                 |
| H     | Rehab and behavioral health services                |
| J     | Drugs (administered other than orally)              |
| K     | Durable Medical Equipment Regional Carriers (DMERC) |
| L     | Orthotic and prosthetic procedures                  |
| M     | Medical   |
| P     | Laboratory  |
| Q     | Temporary procedures                                |
| R     | Radiology   |
| S     | Private payer                                       |
| T     | State Medicaid agency                               |
| V     | Vision and hearing services                         |

### 6.3.3.1 HCPCS Updates

TMHP updates HCPCS codes on both an annual and quarterly basis. Major updates are made annually and minor updates are made quarterly.

Most of the procedure codes that do not replace a discontinued procedure code must go through the rate hearing process. HHSC conducts public rate hearings to provide an opportunity for the provider community to comment on the Medicaid proposed payment rate, as required by Chapter 32 of the Human Resources Code, §32.0282, and Title 1 of the Texas Administrative Code, §355.201.

#### 6.3.3.1.1 Annual HCPCS

Annual HCPCS updates apply additions, changes, and deletions that include the program and coding changes related to the annual HCPCS, Current Dental Terminology (CDT), and CPT updates. These updates ensure that the coding structure is up-to-date by using the latest edition of the CPT and the nationally established HCPCS codes that are released by CMS.

#### 6.3.3.1.2 Quarterly HCPCS

Quarterly HCPCS updates apply HCPCS additions, changes, and deletions that are released by CMS.

#### 6.3.3.1.3 Rate Hearings for New HCPCS Codes

HHSC holds rate hearings for new HCPCS codes on a regular basis. Rate hearings are announced on the HHSC website at [www.hhsc.state.tx.us](http://www.hhsc.state.tx.us).

Claims for services that are provided before the rates are adopted through the rate hearing process are denied as pending a rate hearing (EOB 02008) until the applicable reimbursement rate is adopted. The client cannot be billed for these services.

Providers are responsible for meeting the initial 95-day filing deadline. Providers must submit the procedure codes that are most appropriate for the services provided, even if the procedure codes have not yet completed the rate hearing process and are denied by Texas Medicaid as pending a rate hearing.

Once the reimbursement rates are established in the rate hearing and applied, TMHP automatically reprocesses affected claims. Providers are not required to appeal the claims unless they are denied for other reasons after the claims reprocessing is complete.

**Referto:** Subsection 5.11, “Guidelines for Procedures Awaiting Rate Hearing” in “Section 5: Fee-for-Service Prior Authorizations” (*Vol. 1, General Information*) for more information about the authorization guidelines for procedure codes that are awaiting a rate hearing.

### 6.3.4 National Drug Code (NDC)

The NDC is an 11-digit number on the package or container from which the medication is administered. All Texas Medicaid fee-for-service and Family Planning providers must submit an NDC for professional or outpatient claims submitted with physician-administered prescription drug procedure.

N4 must be entered before the NDC on claims.

National Drug Unit of Measure: The submitted unit of measure should reflect the volume measurement administered. Refer to the NDC Package Measure column on the Texas NDC-to-HCPCS Crosswalk.

The valid units of measurement codes are:

- F2—International unit
- GR—Gram
- ME—Milligram
- ML—Milliliter

- UN—Unit

**Note:** Unit quantities are required.

### 6.3.4.1 Paper Claim Submissions

#### UB-04 CMS 1450

| Block No. | Description                   | Guidelines   |
|-----------|-------------------------------|--|
| 43        | Revenue codes and description | <p>This block should include the following elements in the following order:</p> <ul style="list-style-type: none"> <li>• NDC qualifier of N4 (e.g., N4)</li> <li>• The 11-digit NDC number on the package or vial from which the medication was administered. Do not enter hyphens or spaces within this number (e.g., 00409231231).</li> <li>• The unit of measurement code. There are 5 allowed values: F2, GR, ML, UN, or ME (e.g., GR).</li> <li>• The unit quantity with a floating decimal for fractional units (limited to 3 digits, e.g., 0.025).</li> </ul> <p><b>Example:</b> N400409231231GR0.025</p> |

#### CMS-1500

| Block No. | Description                       | Guidelines   |
|-----------|-----------------------------------|--|
| 24A       | Dates of service                  | <p>In the shaded area, enter the:</p> <ul style="list-style-type: none"> <li>• NDC qualifier of N4 (e.g., N4)</li> <li>• The 11-digit NDC number on the package or vial from which the medication was administered. Do not enter hyphens or spaces within this number (e.g., 00409231231).</li> </ul> <p><b>Example:</b> N400409231231</p> |
| 24D       | Procedures, services, or supplies | In the shaded area, enter the NDC quantity of units administered (up to 12 digits, including the decimal point.). A decimal point must be used for fractions of a unit (e.g., 0.025).  |
| 24G       | Days or units                     | In the shaded area, enter the NDC unit of measurement code. There are 5 allowed values: F2, GR, ML, UN or ME.  |

#### 2017 Claim Form

| Block No. | Description      | Guidelines   |
|-----------|------------------|--|
| 32A       | Dates of service | <p>In the shaded area, enter the:</p> <ul style="list-style-type: none"> <li>• NDC qualifier of N4 (e.g., N4)</li> <li>• The 11-digit NDC number on the package or vial from which the medication was administered. Do not enter hyphens or spaces within this number (e.g., 00409231231).</li> </ul> <p><b>Example:</b> N400409231231</p> |

| Block No. | Description  | Guidelines  |
|-----------|--|---|
| 32D       | Procedures, services, or supplies Current Procedural Terminology (CPT)/ Healthcare Common Procedure Coding System (HCPCS) Modifier | In the shaded area, enter the NDC quantity of units administered (up to 12 digits, including the decimal point.). A decimal point must be used for fractions of a unit (e.g., 0.025). |
| 32F       | Days or units  | In the shaded area, enter the NDC unit of measurement code. There are 5 allowed values: F2, GR, ML, UN or ME.   |

### National Drug Unit

Claims will be edited for the value submitted in the NDC quantity field. In order to convert the HCPCS units submitted into the NDC quantity; use the Texas NDC-to-HCPCS Crosswalk to review the “HCPCS Description” and the “NDC Label” description to identify the quantity.

The Texas NDC-to-HCPCS Crosswalk identifies relationships between HCPCS codes and National Drug Codes (NDC). The Texas file is published at least quarterly. The Texas NDC-to-HCPCS Crosswalk can be found at [www.txvendordrug.com/formulary/clinician-administered-drugs.shtml](http://www.txvendordrug.com/formulary/clinician-administered-drugs.shtml). Clinician-administered drugs that do not have an appropriate NDC to HCPCS combination for the procedure code that is submitted are not payable.

#### 6.3.4.2 NDC Requirements for Dual Eligible Clients

The 11-digit NDC, NDC quantity, and NDC Unit of measure information is required on all professional and outpatient clinician-administered drug claims for dual-eligible clients. These drug claims are submitted to Medicare, which will cross over to Medicaid for consideration of coinsurance and deductible liabilities.

**Important:** *Claims which cross over without this required information may be denied due to missing, incomplete, or invalid NDC information. This information applies to all Medicaid providers who serve Medicare-Medicaid dual-eligible clients.*

Providers may refer to subsection 6.3.4, “National Drug Code (NDC)” in this section for more information on NDC requirements. The [Texas NDC-to-HCPCS Crosswalk](#) identifies relationships between HCPCS codes.

#### 6.3.4.3 Drug Rebate Program

Texas Medicaid will reimburse providers only for clinician-administered drugs and biologicals whose manufacturers participate in the Centers for Medicare & Medicaid Services (CMS) Drug Rebate Program and that show as active on the CMS list for the date of service the drug is administered.

CMS maintains a list of participating manufacturers and their rebate-eligible drug products, which is updated quarterly on the [CMS website](#). TMHP will republish this list quarterly in a more accessible format.

**Referto:** [Rebatable National Drug Codes](#) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

When providers submit claims for clinician-administered drug procedure codes, they must include the National Drug Code (NDC) of the administered drug as indicated on the drug packaging.

TMHP will deny claims for drug procedure codes under the following circumstances:

- The NDC submitted with the drug procedure code is not on the CMS drug rebate list that was current on the date of service.
- The NDC submitted with the drug procedure code has been terminated.

- The drug procedure code is submitted with a missing or invalid NDC.

To avoid claim denials, providers must speak with the pharmacy or wholesaler with whom they work to ensure the product purchased is on the current CMS list of participating manufacturers and their drugs.

**Note:** *Texas Medicaid managed care organizations (MCOs) have their own policies and procedures regarding clinician-administered drugs. Providers must contact the client's MCO for benefit and limitation information.*

Providers can find a complete, downloadable list of procedure codes and the corresponding descriptions on the Vendor Drug Program website at [www.txvendordrug.com/downloads/CADR/HCPSCS-Requiring-Rebateable-NDCs.xls](http://www.txvendordrug.com/downloads/CADR/HCPSCS-Requiring-Rebateable-NDCs.xls).

Vitamins and minerals procedure codes will be listed on a separate tab of the supplemental file.

TMHP has created a Rebateable National Drug Codes web page to display the quarterly lists published by CMS. Every quarter, after CMS publishes an updated list of rebateable NDCs, TMHP will produce a formatted list with the unnecessary details removed and will add the new list to the web page.

**Note:** *Texas Medicaid does not pay for drug wastage.*

### 6.3.5 Modifiers

Modifiers describe and qualify the services provided by Texas Medicaid. A modifier is placed after the five-digit procedure code. Up to two modifiers may apply per service. Examples of frequently used modifiers are listed in the following table. Refer to the service-specific sections for additional modifier requirements.

| Modifier   | Special Instructions/Notes (if applicable)   |
|--|--|
| <b>340B Drug Rebate Program</b>                        |  |
| U8   | All eligible organizations and covered entities that are enrolled in the federal 340B Drug Pricing Program to purchase 340B discounted drugs must use modifier U8 when submitting claims for 340B clinician-administered drugs.<br><br>Non-compliance with this new requirement to use modifier U8 on all claims submitted for 340B clinician-administered drugs may jeopardize a covered entity's 340B status with the U.S. Department of Health and Human Services Health Resources and Services Administration (HRSA).<br><br>Providers can refer to the HRSA website at <a href="http://www.hrsa.gov/opa/index.html">www.hrsa.gov/opa/index.html</a> for more information about the 340B Drug Pricing Program. |
| <b>Ambulance</b>                                       |  |
| ET   | Use for all emergency transport services.  |
| GY   | Use to indicate that no medical necessity existed for a transport.   |
| <b>Surgeons</b>  |  |
| 53   | Use for physician reporting of a discontinued procedure. For outpatient/ASC reporting of a discontinued procedure, see modifier 73 and 74.   |
| 54+  | Surgeon who performs the surgical procedure only must bill the surgical code with modifier 54 and is reimbursed 70% of the global fee.   |
| 55+  | Provider who performs the postoperative care only must bill the surgical code with modifier 55 and is reimbursed 20% of the global fee.  |
| 56+  | Providers who perform the preoperative care only must bill the surgical code with modifier 56 and is reimbursed 10 percent of the global fee.  |
| 58+  | Staged or related procedure or services by the same physician during the postoperative period.   |
| + Modifier is required for accurate claims processing. |  |
| * Description is defined by the state.                 |  |

| Modifier   | Special Instructions/Notes (if applicable)  |
|--|---|
| 62+  | Cosurgery. Two surgeons perform the specific procedure(s).  |
| 76+  | Use modifier 76 or 77 for transplant procedures if it is a second transplant of the same organ.   |
| 77+  | Use modifier 76 or 77 for transplant procedures if it is a second transplant of the same organ.   |
| 78+  | Return to the operating room for a related procedure during the postoperative period.   |
| 79+  | Unrelated procedure or service by the same physician during the postoperative period.   |
| <b>Assistant Surgeons</b>                              |   |
| 80 and KX+   | Use modifier 80 and KX together to indicate an assistant surgeon in a teaching facility: <ul style="list-style-type: none"> <li>• In a case involving exceptional medical circumstances such as emergency or life-threatening situations requiring immediate attention.</li> <li>• When the primary surgeon has a policy of never, without exception, involving a resident in the preoperative, operative, or postoperative care of one of his or her patients.</li> <li>• In a case involving a complex surgical procedure that qualifies for more than one physician.</li> </ul>  |
| AS   | Use when the physician assistant is not enrolled as an individual provider and provides assistance at surgery.  |
| <b>Sterilizations</b>                                  |   |
| PM   | Use to indicate post-menopausal.  |
| PS   | Use to indicate previously sterilized.  |
| <b>Excision of Lesions/Masses</b>                      |   |
| KX+  | Use modifier KX if the excision/destruction is due to one of the following signs or symptoms: inflamed, infected, bleeding, irritated, growing, limiting motion or function. Use of this modifier is subject to retrospective review.   |
| <b>Injections</b>                                      |   |
| AT   | Use to indicate acute conditions.   |
| JA   | Administered intravenously.   |
| JB   | Administered subcutaneously.  |
| KX+  | Use modifier KX to indicate the injection was due to: <ul style="list-style-type: none"> <li>• Oral route contraindicated or an acceptable oral equivalent is not available.</li> <li>• Injectable medication is the accepted treatment of choice. Oral medication regimens have proven ineffective or are not available.</li> <li>• Patient has a temperature over 102 degrees (documented on the claim) and a high level of antibiotic is needed quickly.</li> <li>• Injection is medically necessary into joints, bursae, tendon sheaths, or trigger points to treat an acute condition or the acute flare up of a chronic condition.</li> </ul> |
| <b>Visits</b>  |   |
| 76+  | Use to indicate the repeated non-clinical procedure.  |
| + Modifier is required for accurate claims processing. |   |
| * Description is defined by the state.                 |   |

| Modifier   | Special Instructions/Notes (if applicable)  |
|--|---|
| FP+  | Use to indicate that the service was part of an annual family planning examination.   |
| TH+  | Use with external causes of injury and poisoning (E Codes) procedures and morphology of neoplasms (M Codes) procedures to specify antepartum or postpartum care.  |
| 25   | Use to describe circumstances in which an office visit was provided at the same time as other separately identifiable services. Refer to the <a href="#">CMS NCCI website</a> for additional information.   |
| <b>Anesthesia</b>  |   |
| One of the following modifier combinations must be used by anesthesiologists directing non-CRNA qualified professionals. |   |
| AA and U1  | Use to indicate that the anesthesia services were performed personally by the anesthesiologist.   |
| AD and U1<br>(Emergency circumstances only)  | Use when directing five or more concurrent procedures provided by non-CRNA qualified professionals. Used in emergency circumstances only and limited to 6 units (90 minutes) per case for each occurrence requiring five or more concurrent procedures. |
| QK and U1  | Use when directing two, three, or four concurrent procedures provided by non-CRNA qualified professionals.  |
| QY and U1  | Use when directing one procedure provided by a non-CRNA qualified professional.   |
| One of the following modifier combinations must be used by anesthesiologists directing CRNAs.                            |   |
| AD and U2<br>(Emergency circumstances only)  | Use when directing five or more concurrent procedures involving CRNA (s). Used in emergency circumstances only and limited to 6 units (90 minutes) per case for each occurrence requiring five or more concurrent procedures.                           |
| QK and U2  | Use when directing two, three, or four concurrent procedures involving CRNAs.   |
| QY and U2  | Use when directing one procedure by a CRNA.   |
| One of the following modifier combinations must be used by CRNAs.  |   |
| QX and U2  | Use to indicate the anesthesia was medically directed by the anesthesiologist.  |
| QZ and U1  | Use to indicate the anesthesia was directed by the surgeon.   |
| <b>DME</b>   |   |
| For DME, use one of the following modifiers:   |   |
| NU   | For DME purchase new  |
| RR   | For DME rental- monthly   |
| UE   | For DME other-purchase-used   |
| <b>FQHC and RHC</b>  |   |
| Services provided by a health-care professional require one of the following modifiers:                                  |   |
| AH   | Use to indicate that the services were performed by a clinical psychologist.  |
| AJ   | Use to indicate that the services were performed by a clinical social worker.   |
| AM   | Use to indicate that the services were performed by a physician or team member service (includes clinical psychiatrist).  |
| SA   | Use to indicate that the services were performed by an advanced practice registered nurse (APRN) or CNM rendering services in collaboration with a physician.   |
| TD   | For home services performed by a RN and provided in areas with a shortage of home health agencies.  |
| + Modifier is required for accurate claims processing.   |   |
| * Description is defined by the state.   |   |

| Modifier  | Special Instructions/Notes (if applicable)   |
|---|--|
| TE  | For home services performed by an LVN and provided in areas with a shortage of home health agencies.   |
| TS  | Use to indicate a case management follow-up service.   |
| U1  | Licensed professional counselor  |
| U2  | Licensed marriage and family therapist   |
| U7*   | Physician assistant services for other than assistant at surgery   |
| The following modifiers may be used in addition to the modifier identifying the health-care professional that rendered the service: |  |
| EP  | Use to indicate THSteps services (FQHC only).  |
| FP  | Use to indicate that the service was part of an annual family planning examination.  |
| TH  | Use to indicate the encounter is for antepartum care or postpartum care.   |
| U5*   | State-defined modifier for use with case management services.  |
| <b>Abortion</b>   |  |
| G7  | Use by performing physicians, facilities, anesthesiologists, and CRNAs (with appropriate procedure code) when requesting reimbursement for abortion procedures that are within the scope of the rules and regulations of Texas Medicaid. |
| <b>Vision</b>   |  |
| RB  | Use modifier RB to indicate replacement of prosthetic or nonprosthetic eyeglasses or contact lenses.   |
| VP+   | Use when billing prosthetic eyeglasses or contact lenses with a diagnosis of aphakia.  |
| <b>Laboratory/Radiology</b>   |  |
| 26+   | Use for laboratory interpretations and radiological procedures.  |
| 59-   | Code to indicate the procedure or service was independent from other services performed on the same day. Refer to the <a href="#">CMS NCCI website</a> for additional information.   |
| 91+   | Use for repeat laboratory clinical test.   |
| 76  | Use for repeat laboratory nonclinical test.  |
| SU+   | Indicates necessary equipment is in physician's office for RAST/MAST testing or Pap smears.  |
| TC+   | The modifier TC is used for technical radiological procedures.   |
| Q4+   | Use for lab/radiology/ultrasound interps by other than the attending physician.  |
| <b>Therapy</b>  |  |
| AT+   | Must be used to indicate the necessity of an acute condition for occupational therapy (OT), physical therapy (PT), osteopathic manipulation treatment (OMT), or chiropractic services.   |
| GN  | Use to indicate outpatient speech language pathology.  |
| GO  | Use to indicate outpatient occupational therapy.   |
| GP  | Use to indicate outpatient PT.   |
| U4*   | Reassessment   |
| <b>THSteps Medical</b>  |  |
| AM  | Physician, team member service   |
| EP  | FQHCs must use modifier EP for services provided under THSteps.  |
| + Modifier is required for accurate claims processing.  |  |
| * Description is defined by the state.  |  |

| Modifier   | Special Instructions/Notes (if applicable)  |
|--|---|
| SA   | Nurse practitioner rendering service in collaboration with a physician  |
| U5*  | Intermediate oral examination with dental varnish   |
| U7*  | Physician assistant services for other than assistant at surgery  |
| TD   | Registered nurse  |
| <b>THSteps Exceptions to Periodicity</b>               |   |
| SC   | Medically necessary service or supply   |
| 23   | Unusual Anesthesia: Occasionally, a procedure, which usually requires either no anesthesia or local anesthesia, because of unusual circumstances must be done under general anesthesia. This circumstance may be reported by adding the modifier 23 to the procedure code of the basic service or by use of the separate five-digit modifier code 09923 |
| 32   | Mandated Services: Services related to mandated consultation or related services (e.g., peer review organization [PRO], third party payer, governmental, legislative or regulatory requirement) may be identified by adding the modifier 32 to the basic procedure or the service may be reported by use of the five digit modifier 09932               |
| <b>Physicians</b>                                      |   |
| Q5   | Informal reciprocal arrangement (period not to exceed 14 continuous days)   |
| Q6   | Locum tenens or temporary arrangement (up to 90 days)   |
| <b>Radiology Services</b>                              |   |
| U6   | CT, CTA, MRI, MRA, Cardiac Nuclear Imaging, and PET Scan studies provided in the emergency department.<br><br>Obstetric ultrasounds provided in the emergency department or during a hospital observation stay.   |
| <b>Durable Medical Equipment</b>                       |   |
| NU   | Use to indicate purchased equipment.  |
| RR   | Use to indicate leased equipment.   |
| <b>Telemedicine/Telehealth</b>                         |   |
| 95   | Use with appropriate evaluation and management codes.   |
| + Modifier is required for accurate claims processing. |   |
| * Description is defined by the state.                 |   |

| <b>Other Common Modifiers</b> |    |    |    |    |    |    |    |    |    |
|-------------------------------|----|----|----|----|----|----|----|----|----|
| AE                            | AF | AG | AK | AR | CB | CD | CE | CF | CG |
| KC                            | KD | KF | LT | M2 | RD | RT | SW | SY | TL |
| U1                            | U2 | U3 | UN | UP | UQ | UR | US |    |    |

The following modifiers may appear on R&S Reports (they are not entered by the provider):

- *PT*. The DRG payment was calculated on a per diem basis for an inpatient stay because of patient transfer.
- *PS*. The DRG payment was calculated on a per diem basis because the patient exhausted the 30-day inpatient benefit limitation during the stay.
- *PE*. The DRG payment was calculated on a per diem basis because the patient was ineligible for Medicaid during part of the stay. Also used to adjudicate claims with adjustments to outlier payments.

### 6.3.6 Benefit Code

A benefit code is an additional data element used to identify state programs.

Providers that participate in the following programs must use the associated benefit code when submitting claims and authorizations:

| Program   | Benefit Code |
|---|--------------|
| Comprehensive Care Program (CCP)  | CCP          |
| THSteps Medical   | EP1          |
| THSteps Dental  | DE1          |
| Family Planning Agencies*   | FP3          |
| Hearing Aid Dispensers  | HA1          |
| Maternity   | MA1          |
| County Indigent Health Care Program   | CA1          |
| Early Childhood Intervention (ECI) Providers  | EC1          |
| Tuberculosis (TB) Clinics   | TB1          |
| IDD case management providers   | MH2          |
| *Agencies only—Benefit codes should not be used for individual family planning providers. |              |

## 6.4 Claims Filing Instructions

This section contains instructions for completion of Medicaid-required claim forms. When filing a claim, providers should review the instructions *carefully* and complete *all* requested information. A correctly completed claim form is processed faster.

This section provides a sample claim form and its corresponding instruction table for each acceptable Texas Medicaid claim form.

All providers, except those on prepayment review, should submit paper claims to TMHP to the following address:

Texas Medicaid & Healthcare Partnership  
Claims  
PO Box 200555  
Austin, TX 78720-0555

Providers on prepayment review must submit all paper claims and supporting medical record documentation to the following address:

Texas Medicaid & Healthcare Partnership  
Attention: Prepayment Review MC-A11 SURS  
PO Box 203638  
Austin, TX 78720-3638

### 6.4.1 National Correct Coding Initiative (NCCI) Guidelines

The Patient Protection and Affordable Care Act (PPACA) mandates that all claims that are submitted to TMHP be filed in accordance with the NCCI guidelines, including claims for services that have been prior authorized or authorized with medical necessity documentation.

The CMS NCCI and MUE guidelines can be found on the CMS website at [www.cms.gov](http://www.cms.gov).

The NCCI guidelines consist of HCPCS or CPT procedure code pairs that must not be reported together and MUEs that determine whether procedure codes are submitted in quantities that are unlikely to be correct.

The NCCI and MUE spreadsheets are published and updated by CMS and are available on the CMS Medicaid NCCI Coding web page under “NCCI and MUE Edits” as follows:

- NCCI edit spreadsheets. The website contains the Medicaid NCCI edit spreadsheet for hospital services and the Medicaid NCCI edit spreadsheet for practitioner services. The spreadsheets list the procedure code pairs that will not be reimbursed separately if they are billed by the same provider with the same date of service. Column 1 procedure codes may be reimbursed and Column 2 procedure codes will be denied. The spreadsheets also contain a column that indicates whether or not a modifier is allowed for services that may be reimbursed separately.
- MUE edit spreadsheets. The website contains the Medicaid MUE edit spreadsheets for hospital services, practitioner services, and supplier services. The spreadsheets list procedure codes and the number of units that may be reimbursed for each procedure code. Units that are submitted beyond these limitations will be denied.

**Note:** Providers are required to comply with NCCI and MUE guidelines as well as the guidelines that are published in the Texas Medicaid Provider Procedures Manual, all currently published website articles, fee schedules, and all other application information published on the TMHP website at [www.tmhp.com](http://www.tmhp.com). In instances when Texas Medicaid medical policy is more restrictive than NCCI or MUE guidance, Texas Medicaid medical policy prevails.

HHSC continue to implement and enforce correct coding initiatives. Providers may see additional claim denials related to NCCI and MUE edits including those services that were prior authorized or authorized with medical necessity documentation.

If a rendered service does not comply with a guideline as defined by NCCI, medical necessity documentation may be submitted with the claim for the service to be considered for reimbursement; however, medical necessity documentation does not guarantee payment for the service.

**Important:** Prior authorization and authorization based on documentation of medical necessity is a condition for reimbursement; it is not a guarantee of payment.

Claims that were submitted with dates of service from October 1, 2010, through June 30, 2013, will not be reprocessed in accordance with the NCCI guidelines; however, any claims with dates of service on or after October 1, 2010, that are appealed or reprocessed for reasons other than NCCI auditing will be subject to NCCI auditing guidelines.

#### 6.4.1.1 NCCI Processing Categories

The following coding rule categories are applied to claims that are submitted with dates of service on or after October 1, 2010:

| Coding Rule Category | Description  |
|----------------------|--|
| Maximum units        | <p>CMS has assigned to all procedure codes a maximum number of units that may be submitted for a client per day, regardless of the provider. The maximum number of units for each procedure code is based on the following criteria:</p> <ul style="list-style-type: none"> <li>• Procedure code description</li> <li>• Anatomical site</li> <li>• CMS sources</li> <li>• Clinical guidelines</li> </ul> |

| Coding Rule Category | Description   |
|----------------------|---|
|                      | <b>Important:</b> <i>If the maximum number of units has been exceeded on a particular line item, the line item will be denied. The line item will not be cut back to the allowable quantity. The line item may be appealed with the appropriate quantity for consideration</i>  |
| NCCI                 | <p>NCCI is a collection of bundling edits created and sponsored by CMS that are separated into two major categories: Column I and Column II procedure code edits (previously referred to as “Comprehensive” and “Component”) and Mutually Exclusive procedure code edits.</p> <p>NCCI edits are applied to services that are performed by the same provider on the same date of service only and do not apply to services that are performed within the global surgical period. Each NCCI code pair edit is associated with a policy as defined in the <i>National Correct Coding Initiative Policy Manual</i>. Effective dates apply to code pairs in NCCI and represent the date when CMS added the code pair combination to the NCCI edits. Code combinations are processed based on this effective date. Termination dates also apply to code pairs in NCCI. This date represents the date when CMS removed the code pair combination from the NCCI edits. Code combinations are refreshed quarterly.</p> |

#### 6.4.1.2 CPT and HCPCS Claims Auditing Guidelines

Claims with dates of service on or after October 1, 2010, must be filed in accordance with *Current Procedural Terminology* (CPT) and Healthcare Common Procedure Coding System (HCPCS) guidelines as defined in the American Medical Association (AMA) and Centers for Medicare & Medicaid Services (CMS) coding manuals. Claims that are not filed in accordance with CPT and HCPCS guidelines may be denied, including claims for services that were prior authorized or authorized based on documentation of medical necessity.

If a rendered service does not comply with CPT or HCPCS guidelines, medical necessity documentation may be submitted with the claim for the service to be considered for reimbursement; however, medical necessity documentation does not guarantee payment for the service.

**Important:** *Prior authorization and authorization based on documentation of medical necessity is a condition for reimbursement; it is not a guarantee of payment.*

The following coding rule categories apply to claims submissions:

| Coding Rule Category | Description  |
|----------------------|--|
| Add-on codes         | <p>Certain services are commonly carried out in addition to the rendering of the primary procedure and are associated with the primary procedures. These additional or supplemental procedures are referred to as “add-on” procedures. Add-on codes are identified in the CPT Manual with a plus mark (“+”) symbol and are also listed in Appendix D of the CPT Manual. Add-on codes are always performed in addition to a primary procedure, and should never be reported as a stand-alone service. When an add-on code is submitted and the primary procedure has not been identified on either the same or different claim, then the add-on code will be denied as an inappropriately-coded procedure. If the primary procedure is denied for any reason, then the add-on code will be denied also.</p> |

| Coding Rule Category                     | Description   |
|--|---|
| Deleted HCPCS codes                      | Procedure codes undergo revision by the AMA and CMS on a regular basis. Revisions typically include adding new procedure codes, deleting procedure codes, and redefining the description of existing procedure codes. These revisions are normally made on an annual basis by the governing entities with occasional quarterly updates. Claims that are received with deleted procedure codes will be validated against the date of service. If the procedure code is valid for the date of service, the claim will continue processing. If the procedure code is invalid for the date of service, the invalid procedure code will be denied.   |
| Diagnosis validity                       | <p>ICD-10-CM diagnosis codes undergo revision by the Centers for Disease Control and Prevention (CDC) and CMS on a regular basis. Revisions typically include adding new diagnosis codes, deleting diagnosis codes, and redefining the description of existing diagnosis codes. These revisions are normally made on an annual basis.</p> <p>Claims that are received with invalid diagnosis codes will be validated against the date of service. If the diagnosis code is valid for the date of service, the claim will continue processing. If the diagnosis code is invalid for the date of service, the procedure that is referenced to the invalid diagnosis code will be denied.</p>  |
| Diagnosis-age                            | Certain diagnosis codes are age-specific. If a diagnosis code that is billed does not match the age of the client on that date of service, all services associated with that diagnosis code will be denied.   |
| Diagnosis-gender                         | Certain diagnosis codes are gender-specific. If the diagnosis code that is billed does not match the gender of the client, all services associated with that diagnosis code will be denied.   |
| Duplicate claim                          | <p>A duplicate claim is defined as a claim or procedure code detail that exactly matches a claim or procedure code detail that has been reimbursed to the same provider for the same client. Duplicate claims or details include the same date of service, procedure code, modifier, and number of units. Duplicate claims or procedure code details will be denied.</p> <p><b>Note:</b> <i>Modifiers may be used to identify separate services.</i></p>  |
| Evaluation and Management (E/M) services | <p>The AMA defines new and established patients as follows:</p> <ul style="list-style-type: none"> <li>• A new patient is “one who has not received any professional services from the physician or another physician of the same specialty who belongs to the same group practice within the past three years.”</li> <li>• An established patient is “one who has received a professional service from the physician or another physician of the same specialty who belongs to the same group practice within the past three years.”</li> </ul> <p>Only one E/M procedure code may be reimbursed for a single date of service by the same provider group and specialty, regardless of place of service.</p> <p>Providers may refer to subsection 9.2.56, “Physician Evaluation and Management (E/M) Services” in the <i>Medical and Nursing Specialists, Physicians, and Physician Assistants Handbook (Vol. 2, Provider Handbooks)</i> for additional information about physician E/M services.</p> |
| Procedure code definition                | The CPT manual assigns each procedure code a specific description or definition to describe the service that is rendered. In order to support correct coding, the procedure code definition rules will deny procedure codes based on the appropriateness of the code selection as directed by the definition and nature of the procedure code.  |

| Coding Rule Category                                       | Description  |
|--|--|
| Procedure code guideline                                   | The CPT manual includes specific reporting guidelines that are located throughout the manual and at the beginning of each section. In order to ensure correct coding, these guidelines provide reporting guidance and must be followed when submitting specific procedure codes.   |
| Procedure-age  | Certain procedure codes, by definition or nature of the procedure, are limited to the treatment of a specific age or age group. For example, procedure code 99382 is limited to clients who are 1 through 4 years of age.  |
| Procedure-gender   | Certain procedure codes, by definition or nature of the procedure, are limited to the treatment of one gender. For example, hysterectomy procedure code 58150 is limited to female clients.  |
| Total, professional interpretation, and technical services | <p>Diagnostic tests and radiology services are procedure codes that include two components: professional interpretation and technical. The professional interpretation component describes the physician's interpretation and report services and is billed with modifier 26. The technical component describes the technical portion of a procedure, such as the use of equipment and staff needed to perform the service, and is billed with modifier TC.</p> <p>If the professional interpretation and technical components are rendered by the same provider, the total component may be billed using the appropriate procedure code without modifiers 26 and TC. Reimbursement of diagnostic tests and radiology services is limited to no more than the amount for the total component.</p> <p>Providers must refer to the appropriate Texas Medicaid fee schedules to determine payable components for diagnostic and radiology services. Procedure codes that are submitted with an inappropriate modifier will be denied.</p> |

## 6.4.2 Claim Form Requirements

### 6.4.2.1 Provider Signature on Claims

Every paper CMS-1500, 2012 American Dental Association (ADA) Dental Claim Form, and 2017 Claim Form must be submitted with the provider's or an authorized representative's handwritten signature (or signature stamp) in the appropriate block of the claim form. Signatory supervision of the authorized representative is required. Providers delegating signature authority to a member of the office staff or to a billing service remain responsible for the accuracy of all information on a claim submitted for payment. Initials are only acceptable for first and middle names. The last name must be spelled out. An acceptable example is J.A. Smith for John Adam Smith. An unacceptable example is J.A.S. for John Adam Smith. Typewritten names must be accompanied by a handwritten signature; in other words, a typewritten name with signed initials is not acceptable. The signature must be contained within the appropriate block of the claim form. Claims prepared by computer billing services or office-based computers may have "Signature on File" printed in the signature block, but it must be in the same font that is used in the rest of the form. For claims prepared by a billing service, the billing service must retain a letter on file from the provider authorizing the service.

*Printing the provider's name instead of "Signature on File" is unacceptable.* Because space is limited in the signature block, providers should not type their names in the block. Claims not meeting these specifications appear in the "Paid or Denied Claims" sections of the R&S Reports.

**Referto:** [Sample Letter XUB Computer Billing Service Inc](#) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

### 6.4.2.2 Group Providers

Providers billing as a group must give the performing provider identifier on their claims as well as the group provider identifier. This requirement excludes THSteps medical providers.

### 6.4.2.3 Supervising Physician Provider Number Required on Some Claims

The supervising physician provider number is required on claims for services that are ordered or referred by one provider at the direction of or under the supervision of another provider, and the referral or order is based on the supervised provider's evaluation of the client.

If a referral or order for services to a Texas Medicaid client is based on a client evaluation that was performed by the supervised provider, the billing provider's claim must include the names and NPIs of both the ordering provider and the supervising provider. The billing provider must obtain all of the required information from the ordering or referring provider before submitting the claim to TMHP.

Providers who submit TexMedConnect electronic claims for professional, ambulance, or vision services can provide the claim information in the designated field for the supervising provider of the referring or ordering provider.

Providers can refer to TexMedConnect instructions on the TMHP website at [www.tmhp.com](http://www.tmhp.com) for details about the "Referring/Other Supervising Provider" field for professional, ambulance, and vision electronic claims.

**Note:** *Pharmacy claims are currently excluded from this requirement.*

### 6.4.2.4 Ordering or Referring Provider NPI

All Texas Medicaid claims for services that require a physician order or referral must include the ordering or referring provider's NPI:

- If the ordering or referring provider is enrolled in Texas Medicaid as a billing or performing provider, the billing or performing provider NPI must be used on the claim as the ordering or referring provider.
- If the ordering or referring provider is not currently enrolled in Texas Medicaid as a billing or performing provider, the provider must enroll to receive an ordering or referring-only TPI. After the ordering or referring provider is enrolled, the ordering or referring provider's NPI must be used on the claim as the ordering or referring provider.

**Important:** *The billing provider is responsible for confirming that the ordering or referring provider is enrolled as an ordering or referring-only provider.*

Claims that are submitted without the ordering or referring provider's NPI and claims submitted with an NPI for a provider who is not enrolled in Texas Medicaid may be subject to retrospective review and denial for a missing or invalid NPI.

**Note:** *Providers who enroll in Texas Medicaid as ordering- and referring-only providers receive a TPI that can be used for orders and referrals for Texas Medicaid clients and CSHCN Services Program clients.*

### 6.4.2.5 Prior Authorization Numbers on Claims

Claims filed to TMHP must contain only one prior authorization number per claim. Prior authorization numbers must be indicated on the appropriate electronic field or on the paper claim forms in the indicated block:

- CMS-1500—Block 23
- UB-04 CMS-1450—Block 63
- ADA—Block 2
- Family Planning—Block 30

#### 6.4.2.6 Newborn Clients Without Medicaid Numbers

If a Medicaid eligible newborn has not been assigned a Medicaid number on the DOS, the provider must wait until a Medicaid client number is assigned to file the claim. The provider writes the number instead of “Pending.” The 95-day filing period begins on the “add date,” which is the date the eligibility is received and added to the TMHP eligibility file. Providers verify eligibility and add date through TexMedConnect or by calling AIS or the TMHP Contact Center at 1-800-925-9126 after the number is received.

Providers must check Medicaid eligibility regularly to file claims within the required 95-day filing deadline.

**Referto:** “Section 4: Client Eligibility” (*Vol. 1, General Information*).

#### 6.4.2.7 Multipage Claim Forms

##### 6.4.2.7.1 Professional Claims

The approved electronic claims format is designed to list 50 line items. The total number of details allowed for a professional claim by the TMHP claims processing system (C21) is 28. If the services provided exceed 28 line items on an approved electronic claims format or 28 line items on paper claims, the provider must submit another claim for the additional line items.

The CMS-1500 paper claim form is designed to list six line items in Block 24. If more than six line items are billed on a paper claim, a provider may attach additional forms (pages) totaling no more than 28 line items. The first page of a multipage claim must contain all the required billing information. On subsequent pages of the multipage claim, the provider should identify the client’s name, diagnosis, information required for services in Block 24, and the page number of the attachment (for example, page 2 of 3) in the top right-hand corner of the form and indicate “continued” in Block 28. The combined total charges for all pages should be listed on the last page in Block 28.

**Note:** *Providers who submit professional claims for inpatient services are required to include only the facility’s NPI on the CMS-1500 paper claim form or electronic equivalent. The CMS-1500 paper claim form and electronic equivalents do not have a field for the facility’s TPI.*

##### 6.4.2.7.2 Institutional Claims

The total number of details allowed for an institutional claim by the TMHP claims processing system (C21) is 28. C21 merges like revenue codes together for inpatient claims to reduce the lines to 28 or less. If the C21 merge function is unable to reduce the lines to 28 or less, the claim will be denied, and the provider will need to reduce the number of details and resubmit the claim.

An EDI approved electronic format of the UB-04 CMS-1450 is designed to list 71 lines. C21 merges like revenue codes together to reduce the lines to 28 or less.

Providers submitting electronic claims using TexMedConnect may not submit more than 28 lines. If the services exceed the 28 lines, the provider may submit another claim for the additional lines or merge codes.

The paper UB-04 CMS-1450 is designed to list 23 lines in Block 43. If services exceed the 23-line limitation, the provider may attach additional pages. The first page of a multipage claim must contain all required billing information. On subsequent pages, the provider identifies the client’s name, diagnosis, all information required in Block 43, and the page number of the attachment (e.g., page 2 of 3) in the top right-hand corner of the form and indicate “continued” on Line 23 of Block 47. The combined total charges for all pages should be listed on the last page on Line 23 of Block 47.

When splitting a claim, all pages must contain the required information. Usually, there are logical breaks to a claim. For example, the provider may submit the surgery charges in one claim and the subsequent recovery days in the next claim.

TEFRA hospitals are required to submit all charges.

### 6.4.2.7.3 Inpatient Hospital Claims

Medicaid present-on-admission (POA) reporting is required for all inpatient hospital claims that are paid under prospective payment basis methodology. No hospitals are exempt from this POA requirement.

Medicare crossover hospital claims must also comply with the Medicaid requirement to include the POA values. Claims submitted without the POA indicators are denied. POA values are:

| POA Value | Description   | Payment   |
|-----------|---|---|
| Y         | Diagnosis was present at the time of admission.     | Payment will be made by Texas Medicaid when a hospital acquired condition (HAC) is present. |
| N         | Diagnosis was not present at the time of admission. | No payment will be made by Texas Medicaid when an HAC is present.                           |
| U         | Documentation was insufficient.                     | No payment will be made by Texas Medicaid when an HAC is present.                           |
| W         | Clinically undetermined.                            | Payment will be made by Texas Medicaid when an HAC is present.                              |
| Blank     | Exempt from POA Reporting                           | Exempt from POA Reporting   |

**Note:** Texas Medicaid follows Medicare guidelines for payments referenced in the above table.

Depending on the POA indicator value, the DRG may be recalculated, which could result in a lower payment to the hospital facility provider. If the number of days on an authorization is higher than the number of days allowed as a result of a POA DRG recalculation, the lesser of the number of days is reimbursed.

**Referto:** [Federal Register, Vol. 76, No. 108](#) (for CMS).

### 6.4.2.8 Attachments to Claims

To expedite claims processing, providers must supply all information on the claim form itself and limit attachments to those required by TMHP or necessary to supply information to properly adjudicate the claim. The following claim form attachments are required when appropriate:

- All claims for services associated with an elective sterilization must have a valid Sterilization Consent Form attached or on file at TMHP.
- Nonemergency ambulance transfers must have documentation of medical necessity including out-of-locality transfers.
- For fee-for-service clients, providers filing to TMHP for Medicaid payment of Medicare coinsurance and deductible according to current payment guidelines must attach the paper MRAN received from Medicare or a Medicare intermediary or the computer generated MRANs from the CMS-approved software applications MREP for professional services or PC-Print for institutional services. Providers that submit paper crossover claims must submit only one of the approved MRAN formats.
- For MAP clients, providers filing to TMHP for Medicaid payment of Medicare coinsurance and deductible according to current payment guidelines must submit with the paper claim the TMHP Standardized Medicare Advantage Plan (MAP) Remittance Advice Notice Template with the MAP EOB. If the template and MAP EOB contain conflicting information, the claim will not be processed and will be returned to the provider.

- Medically necessary abortions performed (on the basis of a physician's professional judgement, the life of the mother is endangered if the fetus were carried to term), or abortions provided for pregnancy related to rape or incest must have a signed and dated physician certification statement. Elective abortions are *not* benefits of Texas Medicaid.
- Hysterectomies must have a Hysterectomy Acknowledgment Statement attached or on file at TMHP.

**Referto:** [Texas Medicaid - Title XIX Acknowledgment of Hysterectomy Information](#) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

#### 6.4.2.9 Clients with a Designated or Primary Care Provider

Claims for clients with a primary care provider or designated provider (i.e., Texas Medicaid fee-for-service clients enrolled as Limited Program clients) must indicate the primary care provider or designated provider identifiers in the billing or performing provider fields.

When clients receive services from a different provider, such as a specialist, the primary care provider or designated provider's information must be included in the referring provider fields on the claim.

### 6.5 CMS-1500 Paper Claim Filing Instructions

The following providers bill for services using the ANSI ASC X12 837P 5010 electronic specifications or the CMS-1500 paper claim form:

| Providers  |
|--|
| Ambulance  |
| ASC (freestanding)   |
| Case Management for Blind and Visually Impaired Children (BVIC), Case Management for Early Childhood Intervention (ECI), and Case Management for Children and Pregnant Women |
| Certified nurse-midwife (CNM)  |
| Certified registered nurse anesthetist (CRNA)  |
| Certified respiratory care practitioner (CRCP)   |
| Chemical dependency treatment facilities   |
| Chiropractor   |
| Clinical nurse specialist (CNS)  |
| Dentist (doctor of dentistry practicing as a limited physician)  |
| DME  |
| Family planning agency that does not also receive funds from the HHSC Family Planning Program  |
| FQHC   |
| Genetic service agency   |
| Hearing aid  |
| IDD case management  |
| In-home total parenteral nutrition (TPN) supplier  |
| Laboratory   |
| Licensed dietitian (CCP only)  |
| Licensed clinical social worker (LCSW)   |
| Licensed professional counselor (LPC)  |
| Maternity service clinic (MSC)   |
| Mental health (MH) targeted case management  |

| Providers  |
|--|
| Mental health (MH) rehabilitative services                 |
| Nurse practitioner (NP)                                    |
| Occupational therapist (CCP only)                          |
| Optician/optometrist/ophthalmologist                       |
| Orthotic and prosthetic supplier (CCP only)                |
| Pharmacy   |
| Physical therapist   |
| Physician (group and individual)                           |
| Physician assistant (PA)                                   |
| Podiatrist   |
| Private duty nurse (PDN) (CCP only)                        |
| Psychologist   |
| Radiology  |
| Rural Health Clinics rendering services to THSteps clients |
| School Health and Related Services (SHARS)                 |
| Speech language pathologist (CCP only)                     |
| THSteps medical  |
| Tuberculosis clinic  |

Providers obtain copies of the CMS-1500 paper claim form from a vendor of their choice; TMHP does not supply them.

### 6.5.1 CMS-1500 Electronic Billing

Electronic billers must submit CMS-1500 paper claim forms with TexMedConnect or approved vendor software that uses the ANSI ASC X12 837P 5010 format. Specifications are available to providers developing in-house systems, software developers, and vendors on the TMHP website at [www.tmhp.com/Pages/EDI/EDI\\_Technical\\_Info.aspx](http://www.tmhp.com/Pages/EDI/EDI_Technical_Info.aspx). Because each software developer is different, location of fields may vary. Contact the software developer or vendor for this information. Direct questions and development requirements to the TMHP EDI Help Desk at 1-888-863-3638.

**Referto:** Subsection 3.2, “Electronic Billing” in “Section 3: TMHP Electronic Data Interchange (EDI)” (*Vol. 1, General Information*) for information about electronic billing.

### 6.5.2 CMS-1500 Claim Form (Paper) Billing

Claims must contain the billing provider’s complete name, address, and a provider identifier. Claims without a provider name, address, and provider identifier cannot be processed. Each claim form must have the appropriate signatory evidence in the signature certification block.

**Referto:** The [www.cms.gov](http://www.cms.gov) Professional Paper Claim Form (CMS-1500) page of the CMS website at [www.cms.gov](http://www.cms.gov) for more information about the CMS-1500 paper claim form. Providers can purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms. Providers can find examples of completed claim forms on the [Claim Form Examples](http://www.tmhp.com) page of the TMHP website at [www.tmhp.com](http://www.tmhp.com).

**Important:** When completing a CMS-1500 paper claim form, all required information must be included on the claim in the appropriate block. Information is not keyed from attachments. Superbills or itemized statements are not accepted as claim supplements.

### 6.5.3 CMS- 1500 Provider Definitions

The following definitions apply to the provider terms used on the CMS-1500 paper claim form:

#### Referring Provider

The referring provider is the individual who directed the patient for care to the provider that rendered the services being submitted on the claim form.

Examples include, but are not limited to the following:

- A primary care provider referring to a specialist
- An orthodontist referring to an oral and maxillofacial surgeon
- A physician referring to a physical therapist
- A provider referring to a home health agency

#### Ordering Provider

The ordering provider is the individual who requested the services or items listed in Block D of the CMS-1500 paper claim form.

Examples include, but are not limited to, a provider ordering diagnostic tests, medical equipment, or supplies.

#### Rendering Provider

The rendering provider is the individual who provided the care to the client. In the case where a substitute provider was used, that individual is considered the rendering provider.

An individual such as a lab technician or radiology technician who performs services in a support role is not considered a rendering provider.

#### Supervising Provider

The supervising provider is the individual who provided oversight of the rendering provider and the services listed on the CMS-1500 paper claim form.

An example would be the supervision of a resident physician.

#### Purchased Service Provider

A purchased service provider is an individual or entity that performs a service on a contractual or reassignment basis.

Examples of services include the following:

- Processing a laboratory specimen
- Grinding eyeglass lenses to the specifications of the referring provider
- Performing diagnostic testing services (excluding clinical laboratory testing) subject to Medicare's antimarkup rule

In the case where a substitute provider is used, that individual is not considered a purchased service provider.

### 6.5.4 CMS-1500 Instruction Table

The instructions describe what information must be entered in each of the block numbers of the CMS-1500 paper claim form. Block numbers *not* referenced in the table may be left blank. They are *not* required for claim processing by TMHP.

| Block No.         | Description   | Guidelines   |
|-------------------|---|--|
| 1a                | Insured's ID No. (for program checked above, include all letters)   | Enter the client's nine-digit patient number from the Medicaid identification form.<br>For other property & casualty claims: Enter the Federal Tax ID or SSN of the insured person or entity.  |
| 2                 | Patient's name  | Enter the client's last name, first name, and middle initial as printed on the Medicaid identification form.<br>If the insured uses a last name suffix (e.g., Jr, Sr) enter it after the last name and before the first name.  |
| 3                 | Patient's date of birth<br>Patient's sex  | Enter numerically the month, day, and year (MM/DD/YYYY) the client was born. Indicate the client's gender by checking the appropriate box.<br>Only one box can be marked.  |
| 5                 | Patient's address   | Enter the client's complete address as described (street, city, state, and ZIP code).  |
| 9                 | Other insured's name  | For special situations, use this space to provide additional information such as:<br>If the client is deceased, enter "DOD" in block 9 and the time of death in 9a if the services were rendered on the date of death. Enter the date of death in block 9b.  |
| 10a<br>10b<br>10c | Is patient's condition related to:<br>a. Employment (current or previous)?<br>b. Auto accident?<br>c. Other accident? | Check the appropriate box. If other insurance is available, enter appropriate information in blocks 11, 11a, and 11b.  |
| 11<br>11a<br>11b  | Other health insurance coverage   | <ul style="list-style-type: none"> <li>If another insurance resource has made payment or denied a claim, enter the name of the insurance company. The other insurance EOB or denial letter must be attached to the claim form.</li> <li>If the client is enrolled in Medicare attach a copy of the MRAN to the claim form.</li> <li>For Workers Compensation and other property and casualty claims: (Required if known) Enter Workers' Compensation or property and casualty claim number assigned by the payer.</li> </ul> |
| 11c               | Insurance plan or program name  | Enter the benefit code, if applicable, for the billing or performing provider.   |
| 12                | Patient's or authorized person's signature  | Enter "Signature on File," "SOF," or legal signature. When legal signature is entered, enter the date signed in eight digit format (MMDDYYYY).<br>TMHP will process the claim without the signature of the patient.  |
| 14                | Date of current   | Enter the first date (MM/DD/YYYY) of the present illness or injury. For pregnancy enter the date of the last menstrual period.<br>If the client has chronic renal disease, enter the date of onset of dialysis treatments.<br>Indicate the date of treatments for PT and OT.   |

| Block No. | Description                                 | Guidelines   |
|-----------|---|--|
| 17        | Name of referring physician or other source | <p>Enter the name (First Name, Middle Initial, Last Name) and credentials of the professional who referred, ordered, or supervised the service(s) or supplies on the claim. If multiple providers are involved, enter one provider using the following priority order:</p> <ol style="list-style-type: none"> <li>1. Referring Provider</li> <li>2. Ordering Provider</li> <li>3. Supervising Provider</li> </ol> <p>Do not use periods or commas within the name. A hyphen can be used for hyphenated names. Enter the applicable qualifier to identify which provider is being reported.</p> <p>DN = Referring Provider<br/> DK = Ordering Provider<br/> DQ = Supervising Provider</p> <p><b>Supervising Physician for Referring Physicians:</b><br/> If there is a Supervising Physician for the referring or ordering provider that is listed in Block 17, the name and NPI of the supervising provider must go in Block 19.</p> |
| 17b       | NPI   | Enter the NPI number of the referring, ordering, or supervising provider.  |
| 19        | Additional claim information                | <p><b>Ambulance transfers of multiple clients</b><br/> If the claim is part of a multiple transfer, indicate the other client's complete name and Medicaid number.</p> <p><b>Ambulance Hospital-to-Hospital Transfers</b><br/> Indicate the services required from the second facility and unavailable at the first facility</p> <p><b>Supervising Physician for Referring Physicians:</b><br/> If there is a Supervising Physician for the referring or ordering provider that is listed in Block 17, the name and NPI of the supervising provider must go in Block 19.</p>   |
| 20        | Outside lab                                 | <p>Check the appropriate box. The information may be requested for retrospective review.</p> <p>If "yes," enter the provider identifier of the facility that performed the service in block 32.</p>  |
| 21        | Diagnosis or nature of illness or injury    | <p>Enter the applicable ICD indicator to identify which version of ICD codes is being reported.</p> <p>9 = ICD-9-CM<br/> 0 = ICD-10-CM</p> <p>Enter the patient's diagnosis and/or condition codes. List no more than 12 diagnosis codes.</p> <p>Relate lines A-L to the lines of service in 24E by the letter of the line. Use the highest level of specificity.</p> <p>Do not provide narrative description in this field.</p>   |

| Block No. | Description  | Guidelines   |
|-----------|--|--|
| 23        | Prior authorization number   | Enter the PAN issued by TMHP.<br><br>For Workers Compensation and other property and casualty claims, this is required when prior authorization, referral, concurrent review, or voluntary certification was received.   |
| 24        | (Various)  | General notes for blocks 24a through 24j: <ul style="list-style-type: none"> <li>• Unless otherwise specified, all required information should be entered in the unshaded portion.</li> <li>• If more than six line items are billed for the entire claim, a provider must attach additional claim forms with no more than 28-line items for the entire claim.</li> <li>• For multi-page claim forms, indicate the page number of the attachment (for example, page 2 of 3) in the top right-hand corner of the claim form.</li> </ul>   |
| 24a       | Date(s) of service   | Enter the date of service for each procedure provided in a MM/DD/YYYY format. If more than one date of service is for a single procedure, each date must be given on a separate line.<br><b>NDC</b><br>In the shaded area, enter the: <ul style="list-style-type: none"> <li>• NDC qualifier of N4 (e.g., N4).</li> <li>• The 11-digit NDC number on the package or vial from which the medication was administered. Do not enter hyphens or spaces within this number (e.g., 00409231231).</li> </ul> <p><b>Example:</b> N400409231231</p> <p><b>Referto:</b> Subsection 6.3.4, “National Drug Code (NDC)” in this section.</p> |
| 24b       | Place of service   | Select the appropriate POS code for each service from the table under subsection 6.3.1.1, “Place of Service (POS) Coding” in this section.   |
| 24c       | EMG (THSteps medical checkup condition indicator)                                      | Enter the appropriate condition indicator for THSteps medical checkups.<br><br><b>Referto:</b> Subsection 5.3.6, “THSteps Medical Checkups” in the <i>Children’s Services Handbook (Vol. 2, Provider Handbooks)</i> .  |
| 24d       | Fully describe procedures, medical services, or supplies furnished for each date given | Enter the appropriate procedure codes and modifier for all services billed. If a procedure code is not available, enter a concise description.<br><b>NDC</b><br>In the shaded area, enter a 1- through 12-digit NDC quantity of unit. A decimal point must be used for fractions of a unit (e.g., 0.025).<br><br><b>Referto:</b> Subsection 6.3.4, “National Drug Code (NDC)” in this section.   |

| Block No. | Description                          | Guidelines   |
|-----------|--------------------------------------|--|
| 24e       | Diagnosis pointer                    | <p>In 24 E, enter the diagnosis code reference letter (pointer) as shown in Form Field 21 to relate the date of service and the procedures performed to the primary diagnosis. When multiple services are performed, the primary reference number for each service should be listed first, other applicable services should follow.</p> <p>The reference letter(s) should be A-L or multiple letters as applicable.</p> <p>Diagnosis codes must be entered in Form Field 21 only.</p> <p>Do not enter diagnosis codes in Form Field 24E.</p> |
| 24f       | Charges                              | <p>Indicate the usual and customary charges for each service listed. Charges must not be higher than fees charged to private-pay clients.</p>  |
| 24g       | Days or units                        | <p>If multiple services are performed on the same day, enter the number of services performed (such as the quantity billed).</p> <p><b>Note:</b> <i>The maximum number of units per detail is 9,999.</i></p> <p><b>NDC</b></p> <p>In the shaded area, enter the NDC unit of measurement code. There are 5 allowed values: F2, GR, ML, UN or ME.</p> <p><b>Refer to:</b> Subsection 6.3.4, “National Drug Code (NDC)” in this section.</p>  |
| 24j       | Rendering provider ID # (performing) | <p>Enter the provider identifier of the individual rendering services unless otherwise indicated in the provider specific section of this manual.</p> <p>Enter the TPI in the shaded area of the field.</p> <p>Entered the NPI in the unshaded area of the field.</p>  |
| 26        | Patient’s account number             | <p><b>Optional:</b> Enter the client identification number if it is different than the subscriber/insured’s identification number.</p> <p>Used by provider’s office to identify internal client account number.</p>  |
| 27        | Accept assignment                    | <p><b>Required</b></p> <p>All providers of Texas Medicaid must accept assignment to receive payment by checking <b>Yes</b>.</p>  |
| 28        | Total charge                         | <p>Enter the total charges.</p> <p>For multi-page claims enter “continue” on initial and subsequent claim forms. Indicate the total of all charges on the last claim.</p> <p><b>Note:</b> <i>Indicate the page number of the attachment (for example, page 2 of 3) in the top right-hand corner of the form.</i></p>   |
| 29        | Amount paid                          | <p>Enter any amount paid by an insurance company or other sources known at the time of submission of the claim. Identify the source of each payment and date in block 11. If the client makes a payment, the reason for the payment must be indicated in block 11.</p>   |
| 30        | Balance due                          | <p>If appropriate, subtract block 29 from block 28 and enter the balance.</p>  |

| Block No. | Description                           | Guidelines  |
|-----------|---------------------------------------|---|
| 31        | Signature of physician or supplier    | The physician, supplier, or an authorized representative must sign and date the claim.<br><br>Billing services may print “Signature on File” in place of the provider’s signature if the billing service obtains and retains on file a letter signed by the provider authorizing this practice.<br><br><b>Refer to:</b> Subsection 6.4.2.1, “Provider Signature on Claims” in this section. |
| 32        | Service facility location information | If services were provided in a place other than the client’s home or the provider’s facility, enter name, address, and ZIP code of the facility where the service was provided. This is a required field for services provided in a facility. The facility provider number, name, and address are not optional.   |
| 32A       | NPI                                   | Enter the NPI of the service facility location.   |
| 33        | Billing provider info & PH #          | Enter the billing provider’s name, street, city, state, ZIP+4 code, and telephone number.   |
| 33A       | NPI                                   | Enter the NPI of the billing provider.  |
| 33B       | Other ID #                            | Enter the TPI number of the billing provider.   |

## 6.6 UB-04 CMS-1450 Paper Claim Filing Instructions

The following provider types may bill electronically or use the UB-04 CMS-1450 paper claim form when requesting payment:

| Provider Types  |
|---|
| ASCs (hospital-based)   |
| Comprehensive outpatient rehabilitation facilities (CORFs) (CCP only)   |
| FQHCs<br><b>Note:</b> Must use CMS-1500 when billing THSteps.   |
| Home health agencies  |
| Hospitals <ul style="list-style-type: none"> <li>Inpatient (acute care, rehabilitation, military, and psychiatric hospitals)</li> <li>Outpatient</li> </ul> |
| Indian Health   |
| Renal dialysis center   |
| Personal Care Services (PCS)  |
| RHCs (freestanding and hospital-based)<br><b>Note:</b> Must use CMS-1500 when billing THSteps.  |

If a service is rendered in the facility setting but the facility’s medical record does not clearly support the information submitted on the facility claim, the facility may request additional information from the physician before submitting the claim to ensure the facility medical record supports the filed claim.

**Note:** In the case of an audit, facility providers will not be allowed to submit an addendum to the original medical records for finalized claims.

### 6.6.1 UB-04 CMS-1450 Electronic Billing

Electronic billers must submit UB-04 CMS-1450 claims with TexMedConnect or approved vendor software that uses the ANSI ASC X12 837I 5010 format. Specifications are available to providers developing in-house systems and software developers and vendors. Because each software package is different, field locations may vary. Contact the software developer or vendor for this information. Direct questions and development requirements to the TMHP EDI Help Desk at 1-888-863-3638.

**Referto:** Subsection 3.2, “Electronic Billing” in “Section 3: TMHP Electronic Data Interchange (EDI)” (*Vol. 1, General Information*) for more information about electronic billing.

**Note:** *The maximum number of electronic claim details that will be accepted electronically is 71. Only 28 details will be processed.*

### 6.6.2 \* UB-04 CMS-1450 Claim Form (Paper) Billing

Providers obtain the UB-04 CMS-1450 paper claim forms from a vendor of their choice.

**Note:** *To avoid claim denial, only the provider’s NPI should be placed in form locators 76-79 of the UB-04 CMS-1450 paper claim form or in the referring provider field on the electronic claim unless the client is a limited client.*

Completed UB-04 CMS-1450 claims must contain the billing provider’s full name, address, and provider identifier (TPI/NPI in the appropriate fields). Claims *without* a provider name, address, and provider identifier in the appropriate fields *cannot* be processed.

**Referto:** The [Institutional paper claim form \(CMS-1450\)](#) CMS website at [www.cms.gov](http://www.cms.gov) for more information about the CMS-1450 paper claim form. Providers can purchase CMS-1450 paper claim forms from the vendor of their choice. TMHP does not supply the forms. Providers can find examples of completed claim forms on the [Claim Form Examples](#) page of the TMHP website at [www.tmhp.com](http://www.tmhp.com).

subsection 6.6.3, “UB-04 CMS-1450 Instruction Table” in this section.

### 6.6.3 UB-04 CMS-1450 Instruction Table

The instructions describe what information must be entered in each of the block numbers of the UB-04 CMS-1450 paper claim form. Block numbers not referenced in the table may be left blank. They are not required for claim processing by TMHP.

| Block No. | Description            | Guidelines   |
|-----------|------------------------|--|
| 1         | Unlabeled              | Enter the hospital name, street, city, state, ZIP+4 Code, and telephone number.  |
| 3a        | Patient control number | <b>Optional:</b> Any alphanumeric character (limit 16) entered in this block is referenced on the R&S Report.  |
| 3b        | Medical record number  | Enter the patient’s medical record number (limited to ten digits) assigned by the hospital.  |
| 4         | Type of bill (TOB)     | Enter a TOB code.<br>First Digit—Type of Facility:<br>1 Hospital<br>2 Skilled nursing<br>3 Home health agency<br>7 Clinic (rural health clinic [RHC], federally qualified health center [FQHC], and renal dialysis center [RDC])<br>8 Special facility |

| Block No. | Description                            | Guidelines   |
|-----------|--|--|
|           |  | <p>Second Digit—Bill Classification (except clinics and special facilities):</p> <ul style="list-style-type: none"> <li>1 Inpatient (including Medicare Part A)</li> <li>2 Inpatient (Medicare Part B only)</li> <li>3 Outpatient</li> <li>4 Other (for hospital-referenced diagnostic services, for example, laboratories and X-rays)</li> <li>7 Intermediate care</li> </ul> <p>Second Digit—Bill Classification (clinics only):</p> <ul style="list-style-type: none"> <li>1 Rural health</li> <li>2 Hospital-based or independent renal dialysis center</li> <li>3 Free standing</li> <li>5 CORFs</li> </ul> <p>Third Digit—Frequency:</p> <ul style="list-style-type: none"> <li>0 Nonpayment/zero claim</li> <li>1 Admit through discharge</li> <li>2 Interim-first claim</li> <li>3 Interim-continuing claim</li> <li>4 Interim-last claim</li> <li>5 Late charges-only claim</li> <li>6 Adjustment of prior claim</li> <li>7 Replacement of prior claim</li> </ul> |
| 6         | Statement covers period                | Enter the beginning and ending dates of service billed.  |
| 8a        | Patient identifier                     | <p><b>Optional:</b> Enter the patient identification number if it is different than the subscriber/insured's identification number.</p> <p>Used by providers office to identify internal patient account number.</p>   |
| 8b        | Patient name                           | Enter the patient's last name, first name, and middle initial as printed on the Medicaid identification form.  |
| 9a–9b     | Patient address                        | Starting in 9a, enter the patient's complete address as described (street, city, state, and ZIP+4 Code).   |
| 10        | Birthdate                              | Enter the patient's date of birth (MM/DD/YYYY).  |
| 11        | Sex                                    | Indicate the patient's gender by entering an "M" or "F."   |
| 12        | Admission date                         | <p>Enter the numerical date (MM/DD/YYYY) of admission for inpatient claims; date of service (DOS) for outpatient claims; or start of care (SOC) for home health claims.</p> <p>Providers that receive a transfer patient from another hospital must enter the actual dates the patient was admitted into each facility.</p>  |
| 13        | Admission hour                         | Use military time (00 to 23) for the time of admission for inpatient claims or time of treatment for outpatient claims.  |
| 14        | Priority (Type) of Admission or Visit  | Providers can refer to the National Uniform Billing Code website at <a href="http://www.nubc.org">www.nubc.org</a> for the current list of Priority (Type) of Admission or Visit codes.  |
| 15        | Point of Origin for Admission or Visit | Providers can refer to the National Uniform Billing Code website at <a href="http://www.nubc.org">www.nubc.org</a> for the current list of Point of Origin for Admission or Visit codes.   |
| 16        | Discharge hour                         | For inpatient claims, enter the hour of discharge or death. Use military time (00 to 23) to express the hour of discharge. If this is an interim bill (patient status of "30"), leave the block blank.   |

| Block No. | Description                     | Guidelines  |
|-----------|---------------------------------|---|
| 17        | Patient Discharge Status        | Providers can refer to the National Uniform Billing Code website at <a href="http://www.nubc.org">www.nubc.org</a> for the current list of Patient Discharge Status Codes.  |
| 18–28     | Condition codes                 | Enter the two-digit condition code “05” to indicate that a legal claim was filed for recovery of funds potentially due to a patient.  |
| 29        | ACDT state                      | <b>Optional:</b> Accident state.  |
| 31–34     | Occurrence codes and dates      | Providers can refer to the National Uniform Billing Code website at <a href="http://www.nubc.org">www.nubc.org</a> for the current list of Occurrence Codes.  |
| 35–36     | Occurrence span codes and dates | For inpatient claims, enter code “71” if this hospital admission is a readmission within seven days of a previous stay. Enter the dates of the previous stay.   |
| 39–41     | Value codes                     | <p>Accident hour—For inpatient claims, if the patient was admitted as the result of an accident, enter value code 45 with the time of the accident using military time (00 to 23). Use code 99 if the time is unknown.</p> <p>For inpatient claims, enter value code 80 and the total days represented on this claim that are to be covered. Usually, this is the difference between the admission and discharge dates. In all circumstances, the number in this block is equal to the number of covered accommodation days listed in Block 46.</p> <p>For inpatient claims, enter value code 81 and the total days represented on this claim that are not covered.</p> <p>The sum of Blocks 39–41 must equal the total days billed as reflected in Block 6.</p>  |
| 42–43     | Revenue codes and description   | <p>For inpatient hospital services, enter the description and revenue code for the total charges and each accommodation and ancillary provided. List accommodations in the order of occurrence.</p> <p>List ancillaries in ascending order. The space to the right of the dotted line is used for the accommodation rate.</p> <p><b>NDC</b></p> <p>This block should include the following elements in the following order:</p> <ul style="list-style-type: none"> <li>• NDC qualifier of N4 (e.g., N4)</li> <li>• The 11-digit NDC number on the package or vial from which the medication was administered. Do not enter hyphens or spaces within this number (e.g., 00409231231).</li> <li>• The unit of measurement code. There are 5 allowed values: F2, GR, ML, UN, or ME (e.g., GR).</li> <li>• The unit quantity with a floating decimal for fractional units (limited to 3 digits, e.g., 0.025).</li> </ul> <p><b>Example:</b> N400409231231GR0.025</p> <p><b>Referto:</b> Subsection 6.3.4, “National Drug Code (NDC)” in this section.</p> |

| Block No.    | Description   | Guidelines  |
|--------------|---------------|---|
| 44           | HCPSCS/rates  | <p><b>Inpatient:</b></p> <p>Enter the accommodation rate per day.</p> <p>Match the appropriate diagnoses listed in Blocks 67A through 67Q corresponding to each procedure. If a procedure corresponds to more than one diagnosis, enter the primary diagnosis.</p> <p>Each service and supply must be itemized on the claim form.</p> <p><b>Home Health Services</b></p> <p>Outpatient claims must have the appropriate revenue code and, if appropriate, the corresponding HCPSCS code or narrative description.</p> <p><b>Referto:</b> Subsection 4.5.5, “Outpatient Hospital Revenue Codes” in the <i>Inpatient and Outpatient Hospital Services Handbook (Vol. 2, Provider Handbooks)</i> for additional information on which revenue codes require HCPSCS codes.</p> <p><b>Outpatient:</b></p> <p>Outpatient claims must have the appropriate Healthcare Common Procedure Coding System (HCPSCS) code.</p> <p><b>Referto:</b> Subsection 4.5.5, “Outpatient Hospital Revenue Codes” in the <i>Inpatient and Outpatient Hospital Services Handbook (Vol. 2, Provider Handbooks)</i> for additional information on which revenue codes require HCPSCS codes.</p> <p>Each service, except for medical/surgical and intravenous (IV) supplies and medication, must be itemized on the claim form or an attached statement.</p> <p><b>Note:</b> <i>The UB-04 CMS-1450 paper claim form is limited to 28 items per inpatient and outpatient claim.</i></p> <p><i>If necessary, combine IV supplies and central supplies on the charge detail and consider them to be single items with the appropriate quantities and total charges by dates of service. Multiple dates of service may not be combined on outpatient claims.</i></p> |
| 45           | Service date  | Enter the numerical date of service that corresponds to each procedure for outpatient claims. Multiple dates of service may not be combined on outpatient claims.   |
| 45 (line 23) | Creation date | Enter the date the bill was submitted.  |
| 46           | Serv. units   | <p>Provide units of service, if applicable.</p> <p>For inpatient services, enter the number of days for each accommodation listed. If applicable, enter the number of pints of blood.</p> <p>When billing for observation room services, the units indicated in this block should always represent hours spent in observation.</p>  |
| 47           | Total charges | Enter the total charges for each service provided.  |
| 47 (line 23) | Totals        | <p>Enter the total charges for the entire claim.</p> <p><b>Note:</b> <i>For multi-page claims enter “continue” on initial and subsequent claim forms. Indicate the total of all charges on the last claim and the page number of the attachment (for example, page 2 of 3) in the top right-hand corner of the form.</i></p>  |

| Block No. | Description  | Guidelines   |
|-----------|--|--|
| 48        | Noncovered charges   | If any of the total charges are noncovered, enter this amount.   |
| 50        | Payer Name   | Enter the health plan name.  |
| 51        | Health Plan ID   | Enter the health plan identification number.   |
| 54        | Prior payments   | Enter amounts paid by any TPR, and complete Blocks 32, 61, 62, and 80 as required: <ul style="list-style-type: none"> <li>• Block 32 - Occurrence code and date.</li> <li>• Block 61 - Insured group name</li> <li>• Block 62 - Insurance group number</li> <li>• Block 80 - Remarks. This section is used for requesting the 110-day rule for a third party insurance.</li> </ul> |
| 56        | NPI  | Enter the NPI of the billing provider.   |
| 57        | Other identification (ID) number                                       | Enter the TPI number (non-NPI number) of the billing provider.   |
| 58        | Insured's name   | If other health insurance is involved, enter the insured's name.   |
| 60        | Medicaid identification number   | Enter the patient's nine-digit Medicaid identification number.   |
| 61        | Insured group name   | Enter the name and address of the other health insurance.  |
| 62        | Insurance group number   | Enter the policy number or group number of the other health insurance.   |
| 63        | Treatment authorization code   | Enter the prior authorization number if one was issued.  |
| 65        | Employer name  | Enter the name of the patient's employer if health care might be provided.   |
| 66        | Diagnosis/ Procedure Code Qualifier                                    | Enter the applicable ICD indicator to identify which version of ICD codes is being reported.<br>9 = ICD-9-CM<br>0 = ICD-10-CM  |
| 67        | Principal diagnosis (DX) code and present on admission (POA) indicator | Enter the ICD-10-CM diagnosis code in the unshaded area for the principal diagnosis to the highest level of specificity available.<br><b>Required:</b> POA Indicator—Enter the applicable POA indicator in the shaded area for inpatient claims.<br><b>Referto:</b> Subsection 6.4.2.7.3, "Inpatient Hospital Claims" in this section for POA values.                              |

| Block No. | Description                                       | Guidelines  |
|-----------|---|---|
| 67A-67Q   | Secondary DX codes and POA indicator              | <p>Enter the ICD-10-CM diagnosis code in the unshaded area to the highest level of specificity available for each additional diagnosis. Enter one diagnosis per block, using Blocks A through J only.</p> <p>A diagnosis is not required for clinical laboratory services provided to nonpatients (TOB “141”).</p> <p><b>Exception:</b> A diagnosis is required when billing for estrogen receptor assays, plasmapheresis, and cancer antigen CA 125, immunofluorescent studies, surgical pathology, and alphafetoprotein.</p> <p><b>Note:</b> ICD-10-CM diagnosis codes entered in 67K–67Q are not required for systematic claims processing.</p> <p><b>Required:</b> POA indicator—Enter the applicable POA indicator in the shaded area for inpatient claims.</p> <p><b>Referto:</b> Subsection 6.4.2.7.3, “Inpatient Hospital Claims” in this section for POA values.</p> |
| 69        | Admit DX code                                     | <p>Enter the ICD-10-CM diagnosis code indicating the cause of admission or include a narrative</p> <p><b>Note:</b> The admitting diagnosis is only for inpatient claims.</p>  |
| 70a-70c   | Patient’s reason DX                               | <b>Optional:</b> New block indicating the patient’s reason for visit on unscheduled outpatient claims.  |
| 71        | Prospective Payment System (PPS) code             | <b>Optional:</b> The PPS code is assigned to the claim to identify the DRG based on the grouper software called for under contract with the primary payer.  |
| 72a-72c   | External cause of injury (ECI) and POA indication | <p><b>Optional:</b> Enter the ICD-10-CM diagnosis code in the unshaded area to the highest level of specificity available for each additional diagnosis.</p> <p><b>Required:</b> POA indicator—Enter the applicable POA indicator in the shaded area for inpatient claims.</p> <p><b>Referto:</b> Subsection 6.4.2.7.3, “Inpatient Hospital Claims” in this section for POA values.</p>   |
| 74        | Principal procedure code and date                 | Enter the ICD-10-CM procedure code for each surgical procedure and the date (MM/DD/YYYY) each was performed.  |
| 74a-74e   | Other procedure codes and dates                   | Enter the ICD-10-CM procedure code for each surgical procedure and the date (MM/DD/YYYY) each was performed.  |
| 76        | Attending provider                                | <p>Enter the attending provider name and identifiers.</p> <p>NPI number of the attending provider.</p> <p>Services that required an attending provider are defined as those listed in the ICD-10-CM coding manual volume 3, which includes surgical, diagnostic, or medical procedures.</p>   |
| 77        | Operating   | Enter operating provider’s name (last name and first name) and NPI number of the operating provider.  |

| Block No. | Description    | Guidelines  |
|-----------|----------------|---|
| 78-79     | Other          | <p>Other provider's name (last name and first name) and NPI.</p> <p>Other operating physician—An individual performing a secondary surgical procedure or assisting the operating physician. Required when another operating physician is involved.</p> <p>Rendering provider—The health-care professional who performed, delivered, or completed a particular medical service or nonsurgical procedure.</p> <p><b>Important:</b> Qualifier 82 is required to identify the rendering provider for acute care inpatient and outpatient institutional services.</p> <p><b>Note:</b> If the referring physician is a resident, Blocks 76 through 79 must identify the physician who is supervising the resident.</p>  |
| 80        | Remarks        | <p>This block is used to explain special situations such as the following:</p> <ul style="list-style-type: none"> <li>• The home health agency must document in writing the number of Medicare visits used in the nursing plan of care and also in this block.</li> <li>• If a patient stays beyond dismissal time, indicate the medical reason if additional charge is made.</li> <li>• If billing for a private room, the medical necessity must be indicated, signed, and dated by the physician.</li> <li>• If services are the result of an accident, the cause and location of the accident must be entered in this block. The time must be entered in Block 39.</li> <li>• If laboratory work is sent out, the name and address or the provider identifier of the facility where the work was forwarded must be entered in this block.</li> <li>• If the services resulted from a family planning provider's referral, write "family planning referral."</li> <li>• If services were provided at another facility, indicate the name and address of the facility where the services were rendered.</li> <li>• Request for 110-day rule for a third party insurance.</li> </ul> |
| 81A-81D   | Code code (CC) | <p><b>Optional:</b> Area to capture additional information necessary to adjudicate the claims. required when, in the judgment of the provider, the information is needed to substantiate the medical treatment and is not support elsewhere on the claim data set.</p>  |

### 6.6.4 Filing Tips for Outpatient Claims

The following are outpatient claim filing tips:

- Use HCPCS codes in Block 44 when available and give a narrative description in Block 43 for all services and supplies provided.

**Important:** Services and supplies that exceed the 28 items per claim limitation must be submitted on an additional UB-04 CMS-1450 paper claim form and will be assigned a different claim number by TMHP.

- Combine central supplies and bill as one item. IV supplies may be combined and billed as one item. Include appropriate quantities and total charges for each combined procedure code used. Using combination procedure codes conserves space on the claim form.
- The 28-item limitation per claim: a UB-04 CMS-1450 paper claim form submitted with 28 or fewer items is given an internal control number (ICN) by TMHP. Multipage claim forms are processed as one claim for that client *if all* pages contain 28 or fewer items.
- Itemized Statements: Itemized statements are not used for assignment of procedure codes. HCPCS codes or narrative descriptions of procedures *must* be reflected on the face of the UB-04 CMS-1450 paper claim form. Attachments will only be used for clarification purposes.

**Referto:** Subsection 6.3.3, “Procedure Coding” in this section.

## 6.7 2012 American Dental Association (ADA) Dental Claim Filing Instructions

Providers billing for dental services and Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF-IID) dental services may bill electronically or use the 2012 ADA claim form.

**Note:** TMHP is responsible for reimbursing all THSteps dental services provided by dentists.

### 6.7.1 2012 ADA Dental Claim Electronic Billing

Electronic billers must submit THSteps dental claims using TexMedConnect or an approved vendor software that uses the ANSI ASC X12 837D 5010 format. Specifications are available to providers developing in-house systems and software developers and vendors. Because each software package is different, block locations may vary. Contact the software developer or vendor for this information. Direct questions and development requirements to the TMHP EDI Help Desk at 1-888-863-3638.

**Note:** Dental providers who submit American National Standards Institute, Accredited Standards Committee X12 (ANSI ASC X12N) 837D transactions through the TMHP Electronic Data Interchange (EDI) are required to include the header date of service (HDOS) to comply with International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) claims processing guidelines.

**Referto:** “Section 3: TMHP Electronic Data Interchange (EDI)” (Vol. 1, General Information) for more information about electronic filing.

### 6.7.2 ADA Dental Claim Form (Paper) Billing

All participating THSteps dental providers are required to submit a 2012 ADA Dental claim form for paper claim submissions to Texas Medicaid. These forms may be obtained by contacting the ADA at 1-800-947-4746.

Claims must contain the billing provider’s complete name, address and a provider identifier. Claims without a provider name, address, and provider identifier cannot be processed.

### 6.7.3 2012 ADA Dental Claim Form

Samples of the ADA Dental Claim form can be found on the ADA website at [www.ada.org](http://www.ada.org).

### 6.7.4 2012 ADA Dental Claim Form Instruction Table

The following table is an itemized description of the questions appearing on the form. Thoroughly complete the 2012 ADA Dental claim form according to the instructions in the table to facilitate prompt and accurate reimbursement and reduce follow-up inquiries.

| ADA Block No. | ADA Description  | Instructions   |
|---------------|--|--|
| 1             | Type of Transaction  | For Texas Medicaid, check the Statement of Actual Services Box. The other two boxes are not applicable. Do not use the 2012 ADA Dental Claim Form as a Texas Medicaid Prior Authorization form.<br><br><b>Referto:</b> <a href="#">THSteps Dental Mandatory Prior Authorization Request Form</a> on the TMHP website at <a href="http://www.tmhp.com">www.tmhp.com</a> . |
| 2             | Predetermination/Preauthorization Number   | Enter prior authorization number if assigned by Medicaid.  |
| 3             | Company/Plan Name, Address, City, State, ZIP Code  | Enter TMHP and the address.<br><br><b>Referto:</b> Subsection A.11, "Written Communication With TMHP" in "Appendix A: State, Federal, and TMHP Contact Information" ( <i>Vol. 1, General Information</i> ).  |
| 4             | Other Dental or Medical Coverage   | Check No if no other dental or medical coverage (skip Blocks 5-11). Check Yes if dental or medical coverage is available other than Texas Medicaid coverage, and complete Blocks 5-11.   |
| 5-11          | Other Coverage Information   | General notes: <ul style="list-style-type: none"> <li>• Enter the information for non-Medicaid insurance coverage.</li> <li>• Enter the information for the policyholder or subscriber, not necessarily the patient. May be a parent or legal guardian of the patient receiving treatment.</li> </ul>  |
| 5             | Name of Policyholder/Subscriber in # 4   | Enter the policyholder/subscriber name.  |
| 6             | Date of Birth (MM/DD/CCYY)   | Enter policyholder/subscriber eight-digit date of birth (MM/DD/YYYY).  |
| 7             | Gender   | Check the appropriate box for the policyholder/subscriber gender   |
| 8             | Policyholder/Subscriber ID   | Enter policyholder/subscriber identifier.  |
| 9             | Plan/Group Number  | Enter policyholder/subscriber plan/group number.   |
| 10            | Patient's Relationship to Person Named in # 5  | Enter the patient's relationship to policyholder/subscriber.   |
| 11            | Other Insurance Company/Dental Benefit Plan Name, Address, City, State, ZIP Code                   | Enter the contact information for the insurance company providing the non-Medicaid coverage.   |
| 12            | Policyholder/Subscriber Name (Last, First, Middle Initial, Suffix), Address, City, State, ZIP Code | Enter the Medicaid patient's last name, first name, and middle initial as printed on the Medicaid identification form.   |
| 13            | Date of Birth (MM/DD/CCYY)   | Enter the Medicaid patient's date of birth (MM/DD/YYYY).   |

| ADA Block No. | ADA Description  | Instructions   |
|---------------|--|--|
| 14            | Gender   | Check the appropriate box for the Medicaid patient's gender.   |
| 15            | Policyholder/Subscriber ID   | Enter nine-digit patient number from the Medicaid identification form.   |
| 16            | Plan/Group/Number  | Enter the billing or performing provider's benefit code, if applicable.  |
| 17            | Employer Name  | Not applicable to Texas Medicaid.  |
| 18            | Relationship to Policyholder/ Subscriber in # 12 Above                     | Not applicable to Texas Medicaid.  |
| 19            | Reserved for Local Use   | Leave blank and skip to Item 20. (Field was previously used to report "Student Status")  |
| 20            | Name (Last, First, Middle Initial, Suffix), Address, City, State, ZIP Code | Not applicable to Texas Medicaid.  |
| 21            | Date of Birth (MM/DD/CCYY)   | Not applicable to Texas Medicaid.  |
| 22            | Gender   | Not applicable to Texas Medicaid.  |
| 23            | Patient ID/Account # (Assigned by Dentist)                                 | <b>Optional:</b> Enter the patient identification number if it is different than the subscriber/insured's identification number. Used by dental office to identify internal patient account number.                                      |
| 24            | Procedure Date (MM/DD/CCYY)  | Enter the eight-digit date of service (MM/DD/YYYY).  |
| 25            | Area of Oral Cavity  | Not applicable to Texas Medicaid.  |
| 26            | Tooth System   | Not applicable to Texas Medicaid.  |
| 27            | Tooth Number(s) or Letter(s)   | Enter the Tooth ID as required for procedure code.<br><b>Referto:</b> Subsection 4.2.12, "Tooth Identification (TID) and Surface Identification (SID) Systems" in the <i>Children's Services Handbook (Vol. 2, Provider Handbooks)</i> . |
| 28            | Tooth Surface  | Enter Surface ID as required for procedure code.<br><b>Referto:</b> Subsection 4.2.12, "Tooth Identification (TID) and Surface Identification (SID) Systems" in the <i>Children's Services Handbook (Vol. 2, Provider Handbooks)</i> .   |
| 29a           | Diagnosis Code Pointer   | Enter the letter(s) from Box 34 that identified the diagnosis code(s) applicable to the dental procedure. List the primary diagnosis pointer first.  |
| 29b           | Procedure Quantity   | Enter the number of times (01-99) the procedure identified in Item 29 is delivered to the patient on the date of service shown in item 24. The default value is "01".  |
| 30            | Description  | Provide a brief description of the service provided (e.g., abbreviation of the procedure code's nomenclature). Field length reduced by 8 characters to provide space for added items 29a and 29b.  |

| ADA Block No. | ADA Description               | Instructions   |
|---------------|-------------------------------|--|
| 31            | Fee                           | Enter usual and customary charges for each service listed. Charges must not be higher than the fees charged to private pay clients.  |
| 31a           | Other Fee(s)                  | When other charges applicable to dental services provided must be reported, enter the amount here. Charges may include state tax and other charges imposed by regulatory bodies. Identify the source of each payment date in Block 11. If the client makes a payment, the reason for the payment must be identified in Block 11.   |
| 32            | Total Fee                     | Enter the sum of all fees in Block 31. For multi-page claims, enter “continue” on initial and subsequent claim forms. Indicate the total of all charges on the last claim.<br><b>Note:</b> Indicate the page number of the attachment (for example, page 2 of 3) in the top right-hand corner of the form.   |
| 33            | Missing Teeth Information     | Mark an “X” on each missing tooth. For identifying missing permanent dentition only.<br>Report missing teeth when pertinent to periodontal, prosthodontic (fixed and removable), or implant services procedures on a particular claim.   |
| 34            | Diagnosis Code List Qualifier | Enter the appropriate code to identify the diagnosis code source:<br>B= ICD-9-CM (for dates of service on or before September 30, 2015)<br>AB= ICD-10 (for dates of service on or after October 1, 2015)   |
| 34a           | Diagnosis Codes(s)            | Enter up to four applicable diagnosis codes after each letter (A-D). The primary diagnosis code is entered adjacent to the letter “A”.   |
| 35            | Remarks                       | Use this space for: <ul style="list-style-type: none"> <li>• Explanation of exception to periodicity.</li> <li>• The facility name and address and NPI if the place of treatment indicated in Block 38 is not the provider’s office.</li> <li>• Explanation of emergency if indicated in Block 45.</li> <li>• To provide more information such as reports for local orthodontia codes, 999 codes, multiple supernumerary teeth, or remarks.</li> </ul> |
| 36            | Patient/Guardian signature    | Not applicable to Texas Medicaid.  |
| 37            | Subscriber signature          | Not applicable to Texas Medicaid.  |

| ADA Block No. | ADA Description   | Instructions  |
|---------------|---|---|
| 38            | Place of Treatment  | Enter the 2-digit place of service (POS) code for professional claims, which is a Health Insurance Portability and Accountability Act (HIPAA) standard.<br>Frequently used POS codes include the following: <ul style="list-style-type: none"> <li>• 11=Office</li> <li>• 12=Home</li> <li>• 21=Inpatient hospital</li> <li>• 22= Outpatient hospital</li> <li>• 31=Skilled nursing facility</li> <li>• 32= Nursing facility</li> </ul> |
| 39            | Enclosures  | Enter a “Y” or “N” to indicate whether or not there are enclosures of any type included with the claim submission (e.g., radiographs, oral images, models).   |
| 40            | Is Treatment for Orthodontics?                                  | Check Yes or No as appropriate.   |
| 41            | Date Appliance Placed   | Not applicable to Texas Medicaid.   |
| 42            | Months of Treatment Remaining                                   | Not applicable to Texas Medicaid.   |
| 43            | Replacement of Prosthesis?                                      | Not applicable to Texas Medicaid.   |
| 44            | Date Prior Placement  | Not applicable to Texas Medicaid.   |
| 45            | Treatment Resulting from (Check applicable box)                 | Providers are required to check the Other Accident box for emergency claim reimbursement. If the Other Accident box is checked, information about the emergency must be provided in Block 35.   |
| 46            | Date of Accident (MM/DD/CCYY)                                   | Not applicable to Texas Medicaid.   |
| 47            | Auto Accident State   | Not applicable to Texas Medicaid.   |
| 48            | Name, Address, City, State, ZIP Code                            | Enter the name and address of the billing group or individual provider. Do not enter the name and address of a provider employed within a group.  |
| 49            | NPI   | Enter the billing provider’s NPI for a group or an individual. Do not enter the NPI for a provider employed within a group.   |
| 50            | License Number  | Not applicable to Texas Medicaid.   |
| 51            | Social Security Number (SSN) or Tax Identification Number (TIN) | Not applicable to Texas Medicaid.   |
| 52            | Telephone Number  | Enter the area code and number for the billing group or individual. Do not enter the telephone number of a provider employed within a group.  |
| 52A           | Additional Provider ID  | Enter the nine-digit TPI assigned to the billing dentist or dental entity. Do not enter the TPI for a provider employed within a group.   |

| ADA Block No. | ADA Description                | Instructions  |
|---------------|--------------------------------|---|
| 53            | Signed (Treating Dentist)      | Required-Signature of treating dentist or authorized personnel.<br><br>Billing services may print “Signature on File” in place of the provider’s signature if the billing service obtains and retains on file a letter signed by the provider authorizing this practice.<br><br><b>Referto:</b> Subsection 6.4.2.1, “Provider Signature on Claims” in this section. |
| 54            | NPI                            | Enter the NPI for the dentist enrolled as part of a group who treated the patient.<br><br>Does not apply to individual providers.   |
| 55            | License Number                 | Not applicable to Texas Medicaid.   |

| 56A           | Provider Specialty Code        | This block is optional.   |
| 57            | Telephone Number               | Not applicable to Texas Medicaid.   |
| 58            | Additional Provider ID         | <b>Required:</b> Enter the TPI for the dentist’s enrolled as part of a group who treated the patient.<br><br>Does not apply to individual providers.  |

## 6.8 Family Planning Claim Filing Instructions

The following providers bill for services using the ANSI ASC X12 837P 5010 electronic specifications or the CMS-1500 paper claim form:

| Providers   |
|---|
| Clinical nurse specialist (CNS)                     |
| Family Planning title agencies contracted with HHSC |
| Federally Qualified Health Center (FQHC)            |
| Nurse practitioner (NP)                             |
| Physician   |
| Physician assistant (PA)                            |

### 6.8.1 Family Planning Electronic Billing

Electronic billers must submit family planning claims with TexMedConnect or approved vendor software that uses the ANSI ASC X12 837P 5010 format. Specifications are available to providers developing in-house systems, software developers, and vendors on the TMHP website at [www.tmhp.com/Pages/EDI/EDI\\_Technical\\_Info.aspx](http://www.tmhp.com/Pages/EDI/EDI_Technical_Info.aspx). Because each software developer is different, location of fields may vary. Contact the software developer or vendor for this information. Direct questions and development requirements to the TMHP EDI Help Desk at 1-888-863-3638.

**Referto:** Subsection 3.2, “Electronic Billing” in “Section 3: TMHP Electronic Data Interchange (EDI)” (*Vol. 1, General Information*) for information about electronic billing.

## 6.9 Family Planning Claim Form (Paper Billing)

Claims must contain the billing providers complete name, address, and a provider identifier. Claims without a provider name, address, and provider identifier cannot be processed.

### 6.9.1 2017 Claim Form

A copy of a blank 2017 Claim Form and copies of example completed claim forms are available on the [Claim Form Examples](http://www.tmhp.com) page of the TMHP website at [www.tmhp.com](http://www.tmhp.com).

### 6.9.2 \*2017 Claim Form Instruction Table

The instructions describe what information must be entered in each of the block numbers of the 2017 Claim Form.

| Block No. | Description  | Guidelines  | Required (Paper) |
|-----------|--|---|------------------|
| 1         | Program  | Check the box for the specific program to which these services are billed: <ul style="list-style-type: none"> <li>Family Planning Program: XIX (Check this box for Title XIX family planning services and for Healthy Texas Women (HTW) program services)</li> <li>DSHS Family Planning Program (DFPP)</li> </ul>   | XIX, DFPP (All)  |
| 2a        | Billing provider TPI                                   | Enter the billing provider's nine-digit TPI.  | All              |
| 2b        | Billing provider NPI                                   | Enter the billing provider's NPI.   | All              |
| 3         | Provider name  | Enter the provider's name as enrolled with TMHP.  | All              |
| 4         | Eligibility date (DFPP)                                | Enter the date (MM/DD/CCYY) this client was designated eligible for DFPP services.<br>For DFPP, the eligibility date can be found on the following forms: <ul style="list-style-type: none"> <li>INDIVIDUAL Eligibility Form (EF05-14215)</li> <li>HOUSEHOLD Eligibility Form (EF05-14214)</li> <li>HOUSEHOLD Eligibility Worksheet (EF05-13227)</li> <li>An approved DSHS substitute</li> </ul>        | DFPP             |
| 5         | DSHS Client no. (Medicaid PCN if XIX)                  | If previous DFPP, claims or encounters have been submitted to TMHP, enter the client's nine-digit DSHS client number, which begins with "F."<br>If the client has Title XIX Medicaid, enter the client's nine-digit client number from the Medicaid Identification form.<br>If this is a new client, without Medicaid, leave this block blank and TMHP will assign a DSHS client number for the client. | XIX              |
| 6         | Patient's name (last name, first name, middle initial) | Enter the client's last name, first name, and middle initial as printed on the Medicaid Identification Form, if Title XIX, or as printed in the provider's records, if DFPP.  | All              |
| 7         | Address (street, city, state)                          | Enter the client's complete home address as described by the client (street, city, and state). This reflects the location where the client lives.   | All              |
| 7a        | ZIP Code   | Enter the client's ZIP Code.  | All              |
| 8         | County of residence                                    | Enter the county code that corresponds to the client's address. Please use the HHSC county codes.   | All              |

| Block No. | Description                      | Guidelines   | Required (Paper) |
|-----------|----------------------------------|--|------------------|
| 9         | Date of birth                    | Enter numerically the month, day, and year (MM/DD/CCYY) the client was born.   | All              |
| 10        | Sex                              | Indicate the client's sex by checking the appropriate box.   | All              |
| 11        | Patient status                   | Indicate if this is the client's first visit to this provider (new patient) or if this client has been to this provider previously (established patient). If the provider's records have been purged and the client appears to be new to the provider, check "New Patient."  | All              |
| 12        | Patient's Social Security number | Enter the client's nine-digit Social Security number (SSN). If the client does not have a SSN, or refuses to provide the number, enter 000-00-0001.  | All              |
| 13        | Race (code #)                    | Indicate the client's race by entering the appropriate race code number in the box.<br><br>Aggregate categories used here are consistent with reporting requirements of the Office of Management and Budget Statistical Direction.<br><br>Race is independent of ethnicity and all clients should be self-categorized as White, Black or African American, American Indian or Native Alaskan, Asian, Native Hawaiian or other Pacific Islander, or Unknown or Not Reported. An "Hispanic" client must also have a race category selected.  | All              |
| 13a       | Ethnicity                        | Indicate whether the client is of Hispanic descent by entering the appropriate code number in the box.<br><br>Ethnicity is independent of race and all clients should be counted as either Hispanic or non-Hispanic. The Office of Management and Budget defines Hispanic as "a person of Mexican, Puerto Rican, Cuban, Central, or South American culture or origin, regardless of race."   | All              |
| 14        | Marital status                   | Indicate the client's marital status by entering the appropriate marital code number in the box.   | All              |
| 15        | Family income (all)              | DFPP: Use the gross monthly income calculated and reported on the INDIVIDUAL Eligibility Form (EF05-14215), the HOUSEHOLD Eligibility Form (EF05-14214), or the HOUSEHOLD Eligibility Worksheet (EF05-13227).<br><br>Title XIX: Enter the gross monthly income reported by the client. Be sure to include all sources of income<br><br>If income is received in a lump sum, or if it is for a period of time greater than a month (e.g., for seasonal employment), divide the total income by the number of months included in the payment period.<br><br>If income is paid weekly, multiply weekly income by 4.33. If paid every two weeks, multiply amount by 2.165. If paid twice a month, multiply by 2.<br><br>Enter \$1.00 for clients not wishing to reveal income information. | All              |

| Block No. | Description  | Guidelines  | Required (Paper)       |
|-----------|--|---|------------------------|
| 15a       | Family size  | DFPP: Use the family size reported on the eligibility assessment tool.<br>Title XIX providers: Enter the number of family members supported by the income listed in Box 15. Must be at least “one.” | All                    |
| 16        | Number times pregnant  | Enter the number of times this client has been pregnant. If male, enter zero.   | XIX                    |
| 17        | Number live births   | Enter the number of live births for this client. If male, enter zero.   | XIX                    |
| 18        | Number living children   | Enter the number of living children this client has. This also must be completed for male clients.  | XIX                    |
| 19        | Primary birth control method before initial visit                            | Enter the appropriate code letter (a through r) in the box.   | XIX                    |
| 20        | Primary birth control method at end of this visit                            | Enter the appropriate code letter (a through r) in the box.   | XIX                    |
| 21        | If no method used at end of this visit, give reason (required only if #20=r) | If the primary birth control method at the end of the visit was “no method” (r), you must complete this box with an appropriate code letter from this block (a through g).                          | XIX<br>(only if #20=r) |
| 22        | Is there other insurance available?  | Check the appropriate box.  | Optional               |
| 23        | Other insurance name and address   | Enter the name and address of the health insurance carrier.   | Optional               |
| 24a       | Insured’s policy/group no.   | Enter the insurance policy number or group number.  | Optional               |
| 24b       | Benefit code   | Benefit code, if applicable for the billing or performing provider.   | Optional               |
| 25        | Other insurance paid amount  | Enter the amount paid by the other insurance company. If payment was denied, enter “Denied” in this block.  | Optional               |
| 25a       | Date of notification   | Enter the date of the other insurance payment or denial in this block. This must be in the format of MM/DD/CCYY.  | Optional               |
| 26        | Name of referring provider   | If a non-family planning service is being billed, and the service requires a referring provider, enter the provider’s name.   | XIX (if available)     |
| 27b       | Referring NPI  | If a non-family planning service is being billed and the service requires a referring provider identifier, enter the referring provider’s NPI.  | XIX                    |

| Block No. | Description   | Guidelines  | Required (Paper)              |
|-----------|---|---|-------------------------------|
| 28        | Level of practitioner                                 | <p>Enter the level of practitioner that performed the service. Primary care or generalist physicians and specialists are correctly classified as “Physicians.” Certified nurse-midwives, nurse practitioners, clinical nurse specialists, and physician assistants providing encounters are correctly categorized as “Midlevel.”</p> <p>Encounters provided by a registered nurse or a licensed vocational nurse would be categorized as “Nurse.”</p> <p>Encounters provided by staff not included in the preceding classifications would be correctly categorized as “Other.” If a client has encounters with staff members of different categories during one visit, select the highest category of staff with whom the client interacted.</p> <p>Optional for agencies not receiving any DFPP funding.</p> | DFPP                          |
| 29        | Diagnosis code (Relate Items A-L to service line 32E) | <p>Enter the applicable ICD indicator to identify which version of ICD codes is being reported.</p> <p>9 = ICD-9-CM</p> <p>0 = ICD-10-CM</p> <p>Enter the patient’s diagnosis and/or condition codes. List no more than 12 diagnosis codes.</p> <p>Relate lines A-L to the lines of service in 24E by the letter of the line. Use the highest level of specificity.</p> <p>Do not provide narrative description in this field.</p>  | All                           |
| 30        | Authorization number                                  | Enter the authorization number for the client, if appropriate.  | Optional                      |
| 31        | Date of occurrence                                    | Use this section when billing for complications related to sterilizations, contraceptive implants, or intrauterine devices (IUDs). This block should contain the date (MM/DD/CCYY) of the original sterilization, implant, or IUD procedure associated with the complications currently being billed.   | All, if billing complications |
| 32A       | Dates of service                                      | <p>Enter the dates of service (DOS) for each procedure provided in a MM/DD/CCYY format. If more than one DOS is for a single procedure, each date must be given (such as 3/16, 17, 18/2010).</p> <p>Electronic Billers</p> <p>Medicaid does not accept multiple (to-from) dates on a single-line detail. Bill only one date per line.</p> <p><b>NDC</b></p> <p>In the shaded area, enter the:</p> <ul style="list-style-type: none"> <li>NDC qualifier of N4 (e.g., N4)</li> <li>The 11-digit NDC number on the package or vial from which the medication was administered. Do not enter hyphens or spaces within this number (e.g., 00409231231).</li> </ul> <p><b>Example:</b> N400409231231</p>  | All                           |

| Block No. | Description   | Guidelines  | Required (Paper) |
|-----------|---|---|------------------|
| 32B       | Place of service  | Enter the appropriate POS code for each service from the POS table in the Texas Medicaid Provider Procedures Manual. If the client is registered at a hospital, the POS must indicate inpatient or outpatient status at the time of service.  | All              |
| 32C       | Reserved for local use                                  | Leave this block blank.<br><b>Note:</b> TOS codes are no longer required for claims submission.   | Optional         |
| 32D       | Procedures, services, or supplies<br>CPT/HCPCS modifier | Enter the appropriate CPT or HCPCS procedure codes for all procedures/services billed.<br><b>NDC</b><br>In the shaded area, enter the NDC quantity of units administered (up to 12 digits, including the decimal point.). A decimal point must be used for fractions of a unit.   | All              |
| 32E       | Dx. ref. (29)   | Enter the diagnosis line item reference (A-L) for each service or procedure as it relates to each ICD diagnosis code identified in Block 29.<br>When multiple services are performed, the primary reference number for each service should be listed first, other applicable services should follow.<br>The reference letter(s) should be A-L or multiple letters as applicable.<br>Diagnosis codes must be entered in Form Field 29 only. Do not enter diagnosis codes in Form Field 32E.  | All              |
| 32F       | Units or days (quantity)                                | If multiple services are performed on the same day, enter the number of services performed (such as the quantity billed).<br><b>NDC</b><br>In the shaded area, enter the NDC unit of measurement code. There are 5 allowed values: F2, GR, ML, UN or ME.  | All              |
| 32G       | \$ Charges  | Indicate the charges for each service listed (quantity multiplied by reimbursement rate). Charges must not be higher than fees charged to private-pay clients.  | All              |
| 32H (a)   | Performing provider number (XIX only)-TPI               | Members of a group practice (except pathology and renal dialysis groups) must identify the nine-digit TPI of the provider within the group who performed the service.<br><b>Note:</b> To avoid unnecessary denials, DFPP providers should include the performing provider's TPI on the claim. Although not required for DFPP claims, if a claim or encounter that was submitted through DFPP is later determined eligible to be paid under Title XIX, the claim will be denied if the performing provider information is missing. | XIX              |

| Block No. | Description                               | Guidelines   | Required (Paper) |
|-----------|---|--|------------------|
| 32H (b)   | Performing provider number (XIX only)-NPI | <p><b>Optional:</b> Members of a group practice (except pathology and renal dialysis groups) must identify NPI of the provider within the group who performed the service.</p> <p><b>Note:</b> To avoid unnecessary denials, DFPP providers should include the performing provider's TPI on the claim. Although not required for DFPP claims, if a claim or encounter that was submitted through DFPP is later determined eligible to be paid under Title XIX, the claim will be denied if the performing provider information is missing.</p> | XIX              |
| 33        | Federal tax ID number/EIN (optional)      | <p>Enter the federal TIN (Employer Identification Number [EIN]) that is associated with the provider identifier enrolled with TMHP.</p> <p><b>Note:</b> To avoid unnecessary denials, PHC and EPHC providers should include the federal tax ID on the claim. Although not required for PHC and EPHC claims, if a claim or encounter that was submitted through PHC or EPHC is later determined eligible to be paid under Title XIX, the claim will be denied if the tax ID information is missing.</p>   | XIX, DFPP        |
| 34        | Patient's account number (optional)       | Enter the client's account number that is used in the provider's office for its payment records.   | Optional         |
| 35        | Patient copay assessed (DFPP)             | <p>If the client was assessed a copayment (DFPP), enter the dollar amount assessed.</p> <p>If no copay was assessed, enter \$0.00. Copay cannot be assessed for Title XIX clients.</p> <p>Copayment must not exceed \$30.00 for DFPP patients.</p>   | DFPP             |
| 36        | Total charges                             | Enter the total of separate charges for each page of the claim. Enter the total of all pages on last claim if filing a multipage claim.  | All              |
| 37        | Signature of physician or supplier        | <p>The physician/supplier or an authorized representative must sign and date the claim. Billing services may print "Signature on file" in place of the provider's signature if the billing service obtains and retains on file a letter signed and dated by the provider authorizing this practice.</p> <p>When providers enroll to be an electronic biller, the "Signature on file" requirement is satisfied during the enrollment process.</p>   | All              |

| Block No. | Description  | Guidelines   | Required (Paper) |
|-----------|--|--|------------------|
| 38        | Name and address of facility where services were rendered (if other than home or office) | If the services were provided in a place other than the client's home or the provider's facility, enter name, address, and ZIP Code, of the facility (such as the hospital or birthing center) where the service was provided.<br><br>Independently practicing health-care professionals must enter the name and number of the school district/cooperative where the child is enrolled (SHARS).<br><br>For laboratory specimens sent to an outside laboratory for additional testing, the complete name and address of the outside laboratory should be entered. The laboratory should bill Texas Medicaid for the services performed. | XIX              |
| 38a       | NPI  | Enter the NPI of the provider where services were rendered (if other than home or office).   | XIX              |
| 39        | Physician's, supplier's billing name, address, ZIP Code, and telephone number            | Enter the billing provider name, street, city, state, ZIP Code, and telephone number.  | Optional         |

## 6.10 Vision Claim Form

All vision services must be billed on a CMS-1500 paper claim form or the appropriate electronic formats. Vision claims submitted on other forms are denied with EOB 01145, "Claim form not allowed for this program."

For eyewear claims beyond program benefits, (e.g., replacing lost or destroyed eye wear), providers must have the patient sign the "Patient Certification Form" and retain in their records. Do not submit form to TMHP.

**Referto:** [Vision Care Eyeglass Patient \(Medicaid Client\) Certification Form](#) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

The following table shows the blocks required for vision claims on a CMS-1500 paper claim form.

| Block No.   | Description  |
|-------------|--|
| 1a          | Enter the patient's nine-digit client number from the Your Texas Benefits Medicaid card.   |
| 2           | Enter the patient's last name, first name, and middle initial as printed on the Your Texas Benefits Medicaid card.                       |
| 3           | Enter numerically the month, day, and year (MM/DD/YYYY) the client was born. Indicate the patient's sex by checking the appropriate box. |
| 5           | Enter the patient's complete address as described (street, city, state, and ZIP Code).   |
| 9 and 9a-9d | Other insurance or government benefits   |

| Block No.  | Description   |
|--|---|
| 10   | Was condition related to:<br>a. Patient's employment<br>b. Auto accident<br>c. Other accident     |
| 11   | Medicare number   |
| 12   | Patient's or authorized person's signature  |
| 13*  | Insured or authorized person's signature  |
| 17 Name of referring physician or other source<br>17b NPI                | Name, provider identifiers, and address of prescribing medical doctor or doctor of optometry      |
| 21   | Diagnosis or nature of illness or injury  |
| 24A  | DOS   |
| 24B  | POS   |
| 24D  | Describe procedures, medical services, or supplies furnished for each date given                  |
| 24D, Line "5" for new prescription<br>24D, Line "6" for old prescription | Prescription/description of lenses and frames   |
| 24E  | Diagnosis pointer   |
| 24F  | Charges   |
| 26*  | The account number for the patient that is used in the provider's office for its billing records. |
| 27<br>Check "YES" or "NO"  | Accept assignment   |
| 28   | Total charges   |
| 29   | Amount paid by other insurance  |
| 31   | Signature of physician or supplier  |
| 32   | Name and address of facility where services were rendered if other than home or office            |
| 33   | Telephone number  |
| 33   | Physician's or supplier's name, address, city, state, and ZIP code                                |
| No longer used   | Referral from screening program (THSteps)   |

## 6.11 Remittance and Status (R&S) Report

The R&S Report provides information on pending, paid, denied, and adjusted claims. TMHP provides weekly R&S Reports to give providers detailed information about the status of claims submitted to TMHP. The R&S Report also identifies accounts receivables established as a result of inappropriate payment. These receivables are recouped from claim submissions. All claims for the same provider identifier and program processed for payment are paid at the end of the week, either by a single check

or with Electronic Funds Transfer (EFT). If no claim activity or outstanding account receivables exist during the cycle week, the provider does not receive an R&S Report. Providers are responsible for reconciling their records to the R&S to determine payments and denials received.

**Note:** *Providers receive a single R&S Report that details Texas Medicaid activities and provides individual program summaries. Combined provider payments are made based on the provider's settings for Texas Medicaid fee-for-service.*

Providers must retain copies of all R&S Reports for a minimum of five years. Providers must not use R&S Report originals for appeal purposes, but must submit copies of the R&S Reports with appeal documentation.

**Referto:** “Section 3: TMHP Electronic Data Interchange (EDI)” (*Vol. 1, General Information*) for information on electronic claims submissions.

### 6.11.1 R&S Report Delivery Options

TMHP offers two options for the delivery of the R&S Report:

- A PDF version that is available on the TMHP website through the secure provider portal.
- An Electronic Remittance and Status (ER&S) Report that is available through EDI.

The PDF version of the R&S Report is available through TexMedConnect, and can be downloaded by registered users of the TMHP website at [www.tmhp.com](http://www.tmhp.com). The report is available each Monday morning, immediately following the weekly claims cycle. Payments associated with the R&S Report are released the next Friday following the weekly claims cycle. Newly-enrolled providers are initially set up to receive the PDF version of the R&S Report.

The EDI delivery method is also available. Using HIPAA-compliant EDI standards, the (ER&S 835 file) can be downloaded through the TMHP EDI Gateway using third party software. The ER&S Report is available on Thursday the week the provider payments are released

**Note:** *In rare instances, payments and R&S delivery may be delayed due to a system outage or holiday.*

In addition to the PDF R&S Report, an optional R&S Report delivery method is also available. Using HIPAA-compliant EDI standards, the ER&S Report can be downloaded through the TMHP EDI Gateway using TexMedConnect or third party software. The ER&S Report is also available each Monday after the completion of the claims processing cycle.

**Referto:** “Section 3: TMHP Electronic Data Interchange (EDI)” (*Vol. 1, General Information*) for more information about EDI formats and enrollment for the ER&S Report.

### 6.11.2 Banner Pages

Banner pages serve two purposes:

- They identify the provider's name and address.
- They are used to inform providers of new policies and procedures.

The title pages include the following information:

- TMHP address for submitting paper appeals
- Provider's name, address, and telephone number
- Unique R&S Report number specific to each report
- Provider identifier (TPI, NPI, and atypical provider identifier [API])
- Report sequence number (indicates the week number of the year)
- Date of the week being reported on the R&S Report

- Tax Identification Number
- Page number (R&S Report begins with page 1)
- AIS telephone number
- Taxonomy code

### 6.11.3 R&S Report Field Explanation

- *Patient name.* Lists the client's last name and first name, as indicated on the eligibility file.
- *Claim number.* The 24-digit Medicaid ICN for a specific claim. The format for the TMHP claim number is expanded to PPP/CCC/MMM/CCYY/JJJ/BBBBB/SSS.

| Acronym | Description                                   |
|---------|---|
| PPP     | Program                                       |
| CCC     | Claim type                                    |
| MMM     | Media source (region)                         |
| CCYY    | Year in which the claim was received          |
| JJJ     | Julian date on which the claim was received   |
| BBBBB   | TMHP internal batch number                    |
| SSS     | TMHP internal claim sequence within the batch |

#### Program Type

| PPP | Program   |
|-----|---|
| 001 | Long Term Care  |
| 100 | Medicaid  |
| 200 | Managed Care (for carve-out services administered by TMHP and PCCM claims with dates of service before March 1, 2012) |
| 300 | Family Planning (DSHS Family Planning Program)  |
| 400 | CSHCN Services Program  |
| 999 | Default/summary for all media regions   |

#### Claim Type

| Claim Type | Description   |
|------------|---|
| 020        | Physician/supplier (Medicaid only) (genetics agencies, THSteps [medical only], FQHC, optometrist, optician) |
| 021        | THSteps (dental)  |
| 023        | Outpatient hospital, home health, RHC, FQHC   |
| 030        | Physician crossovers  |
| 031        | Hospital outpatient crossovers, home health crossovers, RHC crossovers                                      |
| 040        | Inpatient hospital  |
| 050        | Inpatient crossover   |
| 056        | DSHS Family Planning Program  |
| 058        | Family Planning Title XIX   |

**Media Source (MMM)**

| Region | Description                                     |
|--------|---|
| 010    | Paper   |
| 011    | Paper adjustment                                |
| 030    | Electronic (including TexMedConnect)            |
| 031    | Electronic adjustment (including TexMedConnect) |
| 041    | AIS adjustment                                  |
| 051    | Mass adjustment                                 |
| 061    | Crossover adjustment                            |
| 071    | Retroactive eligibility adjustment              |
| 080    | State Action Request                            |
| 081    | State Action Request adjustment                 |
| 090    | Telephone                                       |
| 100    | Fax   |
| 110    | Mail  |
| 120    | Encounter                                       |
| 121    | Encounter Adjustment                            |

- *Medicaid #.* The client's Medicaid number.
- *Patient Account #.* If a patient account number is used on the provider's claim, it appears here.
- *Medical Record #.* If a medical record number is used on the provider's claim, it appears here.
- *Medicare #.* If the claim is a result of an automatic crossover from Medicare, the last ten digits of the Medicare claim number appears directly under the TMHP claim number.
- *Diagnosis.* Primary diagnosis listed on the provider's claim.
- *Service Dates.* Format MMDDYYYY (month, day, year) in "From" and "To" dates of service.
- *TOS/Proc.* Indicates by code the specific service provided to the client. The one-digit TOS appears first followed by a HCPCS procedure code. A three-digit code represents a hospital accommodation or ancillary revenue code. For claims paid under prospective payment methodology, it is the code of the DRG.
- *Billed Quantity.* Indicates the quantity billed per claim detail.
- *Billed Charge.* Indicates the charge billed per claim detail.
- *Allowed Quantity.* Indicates the quantity TMHP has allowed per claim detail.
- *Allowed Charge.* Indicates the charges TMHP has allowed per claim detail. For inpatient hospital claims, the allowed amount for the DRG appears.
- *POS Column.* The R&S Report includes the POS to the left of the Paid Amount. A one-digit numeric code identifying the POS is indicated in this column. Refer to subsection 6.3.1.1, "Place of Service (POS) Coding" in this section for the appropriate cross-reference among the two-digit numeric POS codes (Medicare), and one-digit numeric code on the R&S Report. Providers using electronic claims submission should continue using the same POS codes.
- *Paid Amt.* The final amount allowed for payment per claim detail. The total paid amount for the claim appears on the claim total line.

- *EOB Codes and Explanation of Pending Status (EOPS) Codes.* These codes explain the payment or denial of the provider's claim. The EOB codes are printed next to or directly below the claim. The EOPS codes appear only in "The Following Claims Are Being Processed" section of the R&S Report. The codes explain the status of pending claims and are not an actual denial or final disposition. An explanation of all EOB and EOPS codes appearing on the R&S Report are printed in the Appendix at the end of the R&S Report. Up to five EOB codes are displayed.
- *Total TEFRA Billed and Allowed Charges.* Indicates claim details that have been denied or reduced.
- *Benefit.* Indicates the three digit benefit code associated with the claim.
- *Modifier.* Modifiers have been developed to describe and qualify services provided. For THSteps dental services two modifiers are printed. The first modifier is the TID and the second is the SID.

## 6.11.4 R&S Report Section Explanation

### 6.11.4.1 Claims – Paid or Denied

The heading "Claims – Paid or Denied Claims" is centered on the top of each page in this section. Claims in this section finalized the week before the preparation of the R&S Report. The claims are sorted by claim status, claim type, and by order of client names. The reported status of each claim will not change unless further action is initiated by the provider, HHSC, or TMHP.

The following information is provided on a separate line for all inpatient hospital claims processed according to prospective payment methodology:

- *Age.* Client's age according to TMHP records
- *Sex.* Client's sex according to TMHP records: M = Male, F = Female, U = Unknown
- *Pat-Stat.* Indicates the client's status at the time of discharge or the last DOS on the claim (refer to instructions for UB-04 CMS-1450 paper claim form, Block 17)
- *Proc.* ICD-10-PCS code indicates the primary surgical procedure used in determining the DRG

**Important:** *Only paper claims appear in this section of the R&S Report. Claims filed electronically without required information are rejected. Users are required to retrieve the response file to determine reasons for rejections.*

TMHP cannot process incomplete claims. Incomplete claims may be submitted as original claims only if the resubmission is received by TMHP within the original filing deadline.

**Referto:** Subsection 6.1, "Claims Information" in this section for a description of different claim types.

### 6.11.4.2 Adjustments to Claims

*Adjustments – Paid or Denied* is centered at the top of each page in this section. Adjustments are sorted by claim type and then patient name and Medicaid number. Media types 011, 021, 031, 041, 051, 061, 071, and 081 appear in this section. An adjustment prints in the same format as a paid or denied claim.

The adjusted claim is listed first on the R&S Report. EOB 00123, "This is an adjustment to previous claim XXXXXXXXXXXXXXXXXXXXXXXXXX which appears on R&S Report dated XX/XX/XX" follows this claim. Immediately below is the claim as originally processed. An accounts receivable is created for the original claim total as noted by EOB 00601, "A receivable has been established in the amount of the original payment: \$XXX,XXX,XXX.XX. Future payments will be reduced or withheld until such amount is paid in full." prints below the claim indicating the amount to be recouped. This amount appears under the heading, "Financial Transactions Accounts Receivable." EOB 06065, "Account Receivable is due to the adjusted claim listed. For details, refer to your R&S Report for the date listed within the original date field."

Claims adjusted as a result of a rate change will be listed on the R&S Report with EOB 01154 “This adjustment is a result of a rate change.”

**Referto:** Subsection 6.2.5, “Modifier Requirements for TOS Assignment” in this section for a list of the most commonly used modifiers.

### 6.11.4.3 Financial Transactions

All claim refunds, reissues, voids/stops, recoupments, backup withholdings, levies, and payouts appear in this section of the R&S Report. The Financial Transactions section does not use the R&S Report form headings. Additional subheadings are printed to identify the financial transactions. The following descriptions are types of financial items.

#### 6.11.4.3.1 Accounts Receivable

This label identifies money subtracted from the provider’s current payment owed to TMHP. Specific claim data are not given on the R&S Report unless the accounts receivable control number is provided which should be referenced when corresponding with TMHP. Accounts receivable appear on the R&S Report in the following format:

- *Control Number.* A number to reference when corresponding with TMHP.
- *Recoupment Rate.* The percentage of the provider’s payment that is withheld each week unless the provider elects to have a specific amount withheld each week.
- *Maximum Periodic Recoupment Amount.* The amount to be withheld each week. This area is blank if the provider elects to have a percentage withheld each week.
- *Original Date.* The date the financial transaction was processed originally.
- *Original Amount.* The total amount owed TMHP.
- *Prior Date.* The date the last transaction on the accounts receivable occurred.
- *Prior Balance.* The amount owed from a previous R&S Report.
- *Applied Amount.* The amount subtracted from the current R&S Report.
- *Balance.* Indicates the total outstanding accounts receivable (AR) balance that remains due to TMHP.
- *FYE.* The fiscal year end (FYE) for cost reports.
- *EOB.* The EOB code that corresponds to the reason code for the accounts receivable.
- *Patient Name.* The name of the patient on the claim, if the accounts receivable are claim-specific.
- *Claim Number.* The ICN of the original claim, if the accounts receivable are claim-specific.
- *Backup Withholding Penalty Information.* A penalty assessed by the Internal Revenue Service (IRS) for noncompliance due to a B-Notice. Although the current payment amount is lowered by the amount of the backup withholding, the provider’s 1099 earnings are not lowered.
- *Control Number.* TMHP control number to reference when corresponding with TMHP.
- *Original Date.* The date the backup withholding was set up originally.
- *Withheld Amount.* Amount withheld (31 percent) of the provider’s checkwrite.

#### 6.11.4.3.2 IRS Levies

The payments withheld from a provider's checkwrite as a result of a notice from the IRS of a levy against the provider appear in the "IRS Levy Information" section of the R&S Report. Payments are withheld until the levy is satisfied or released. Although the current payment amount is lowered by the amount of the levy payment, the provider's 1099 earnings are not lowered. IRS levies are reported in the following format:

- *Control Number.* TMHP control number to reference when corresponding with TMHP.
- *Maximum Recoupment Rate.* The percentage of the provider's payment that is withheld each week, unless the provider elects to have a specific amount withheld each week.
- *Maximum Recoupment Amount.* The amount to be withheld periodically.
- *Original Date.* The date the levy was set up originally.
- *Original Amount.* The total amount owed to the IRS.
- *Prior Balance.* The amount owed from a previous R&S Report.
- *Prior Date.* The date the last transaction on the levy occurred.
- *Current Amount.* The amount subtracted from the current R&S Report and paid to the IRS.
- *Remaining Balance.* The amount still owed on the levy. (This amount becomes the "previous balance" on the next R&S Report.)

#### 6.11.4.3.3 Refunds

Refunds are identified by EOB 00124, "Thank you for your refund; your 1099 liability has been credited." This statement is verification that dollars refunded to TMHP for incorrect payments have been received and posted. The provider's check number and the date of the check are printed on the R&S Report. Claim refunds appear on the R&S Report in the following format:

- Claim Specific:
  - *ICN.* The claim number of the claim to which the refund was applied this cycle.
  - *Patient Name.* The first name, middle initial, and last name of the patient on the applicable claim.
  - *Medicaid Number.* The patient's Medicaid or CSHCN Services Program number.
  - *Date of Service.* The format MMDDCCYY (month, day, and year) in "From" DOS.
  - *Total Billed.* The total amount billed for the claim being refunded.
  - *Amount Applied This Cycle.* The refund amount applied to the claim.
  - *EOB.* Corresponds to the reason code assigned.
- Nonclaim Specific:
  - *Control Number.* A control number to reference when corresponding with TMHP.
  - *FYE.* The fiscal year for which this refund is applicable.
  - *EOB.* Corresponds to the reason code assigned.

#### 6.11.4.3.4 Payouts

Payouts are dollars TMHP owes to the provider. TMHP processes two types of payouts: system payouts that increase the weekly check amount and manual payouts that result in a separate check being sent to the provider. Specific claim data are not given on the R&S Report for payouts. A control number is given, which should be referenced when corresponding with TMHP. System and manual payouts appear on the R&S Report in the following format:

- *Payout Control Number.* A control number to reference when corresponding with TMHP.
- *Payout Amount.* The amount of the payout.
- *FYE.* The fiscal year for which the payout is applicable.
- *EOB.* Corresponds to the reason code assigned.
- *Patient Name.* Name of the patient (if available).
- *PCN.* Medicaid number of the patient (if available).
- *DOS.* Date of service (if available).

#### 6.11.4.3.5 Reissues

The provider's 1099 earnings are not affected by reissues. A messages states, "Your payment has been increased by the amount indicated below":

- *Check Number.* The number of the original check.
- *Check Amount.* The amount of the original check.
- *R&S Number.* The number of the original R&S Report.
- *R&S Date.* The date of the original R&S Report.

#### 6.11.4.3.6 Voids and Stops

The provider's 1099 earnings are credited by the amount of the voided/stopped payment.

- *Check Number.* The number of the voided/stopped payment.
- *Check Amount.* The amount of the voided/stopped payment.
- *R&S Number.* The number of the voided/stopped payment.
- *R&S Date.* The date of the voided/stopped payment.

### 6.11.4.4 Claims Payment Summary

This section summarizes all payments, adjustments, and financial transactions listed on the R&S Report. The section has two categories: one for amounts "Affecting Payment This Cycle" and one for "Amount Affecting 1099 Earnings."

If the provider is receiving a check on this particular R&S Report, the following information is given: "Payment summary for check XXXXXXXXXX in the amount of XXX,XXX,XXX.XX." If the payment is EFT: "Payment summary for direct deposit by EFT XXXXXXXXXX in the amount of XXX,XXX,XXX.XX." The check number also is printed on the check that accompanies the R&S Report.

#### Headings for the Payment Summary for "Affecting Payment This Cycle" and "Amount Affecting 1099 Earnings"

- *Claims Paid.* Indicates the number of claims processed for the week and the year-to-date total.
- *System Payouts.* The total amount of system payouts made to the provider by TMHP.
- *Manual Payouts (Remitted by separate check or EFT).* The total amount of manual payouts made to the provider by TMHP.

- *Amount Paid to IRS for Levies.* The amount remitted to IRS and withheld from the provider's payment due to an IRS levy.
- *Amount Paid to IRS for Backup Withholding.* The amount paid to the IRS for backup withholding.
- *Accounts Receivable Recoupments.* The total amount withheld from the provider's payment due to accounts receivable.
- *Amounts Stopped/Voided.* The total amount of the payment that was voided or stopped with no reissuance of payment.
- *System Reissues.* The amount of the reissued payment.
- *Claim Related Refunds.* The total amount of claim-related refunds applied during the weekly cycle.
- *Nonclaim Related Refunds.* The total amount of nonclaim-related refunds applied during the weekly cycle.
- *Approved to Pay/Deny Amount.* The total amount of claim payments that were approved to pay/deny within the week. (This column will not be used at this time.)
- *Pending Claims.* The total amount billed for claims in process as of the cutoff date for the report.

#### 6.11.4.5 The Following Claims are Being Processed

In the "Following Claims are Being Processed" section, the R&S Report may list up to five EOPS codes per claim. The claims listed in this section are in process and *cannot be appealed for any reason* until they appear in either the "Claims Paid or Denied," or "Adjustments Paid and Denied" sections of the R&S Report. TMHP is listing the pending status of these claims for informational purposes only. *The pending messages should not be interpreted as a final claim disposition.* Weekly, all claims and appeals on claims TMHP has "in process" from the provider are listed on the R&S Report. The Following Claims are Being Processed claim prints in the same format as a paid or denied claim.

#### 6.11.4.6 Explanation of Benefit Codes Messages

This section lists the descriptions of all EOBs that appeared on the R&S Report. EOBs appear in numerical order.

EDI ANSI X12 5010 835 files display the appropriate Claims Adjustment Reason Code (CARC), Claims Adjustment Group Code (CAGC), and Remittance Advice Remarks Code (RARC) explanation codes that are associated with EOB denials.

The 835 file includes the CARC, CAGC, and RARC explanation codes that are associated with the highest priority detail EOB to provide a clearer explanation for the denial.

#### 6.11.4.7 Explanation of Pending Status Codes Appendix

This section lists the description of all EOPS codes that appeared on the R&S Report. EOPS appear in numerical order.

EOB and EOPS codes may appear on the same pending claim because some details may have already finalized while others may have questions and are pending.

#### 6.11.5 R&S Report Examples

Examples of R&S Reports are available on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

| R&S Report Examples   |
|---|
| <a href="#">Accounts Receivables R&amp;S Report</a><br>(For purposes of example, accounts receivables, void, and stop pay appear together.) |
| <a href="#">Adjustments R&amp;S Report</a>  |
| <a href="#">Appendix R&amp;S Report</a>   |

| <b>R&amp;S Report Examples</b>  |
|---|
| <a href="#">Backup Withholding Penalty Information R&amp;S Report</a> |
| <a href="#">Banner Page R&amp;S Report</a>                            |
| <a href="#">Claims in Process R&amp;S Report</a>                      |
| <a href="#">IRS Levy R&amp;S Report</a>                               |
| <a href="#">Manual Payouts R&amp;S Report</a>                         |

| <a href="#">Summary R&amp;S Report</a>                                |
| <a href="#">System Payouts R&amp;S Report</a>                         |
| <a href="#">Void and Stop Pay R&amp;S Report</a>                      |

### 6.11.6 Provider Inquiries—Status of Claims

TMHP provides several effective mechanisms for researching the status of a claim. Weekly, TMHP provides the R&S Report reflecting all claims with a paid, denied, or pending status. Providers verify claim status using the provider's log of pending claims.

Electronic billers allow ten business days for a claim to appear on their R&S Reports. If the claim does not appear on an R&S Report as paid, pending, or denied, a transmission failure, file rejection, or claims rejection may exist. Providers check records for transmission reports correspondence from the TMHP EDI Help Desk.

The provider allows at least 30 days for a Medicaid paper claim to appear on an R&S Report after the claim has been submitted to TMHP. If a claim has not been received by TMHP and must be submitted a second time, the second claim must also meet the 95-day filing deadline.

The provider allows TMHP 45 days to receive a Medicare-paid claim automatically transmitted for payment of coinsurance or deductible according to current payment guidelines. Claims that fail to cross over from Medicare may be filed to TMHP by submitting a paper MRAN received from Medicare or a Medicare intermediary, the computer generated MRANs from the CMS-approved software applications MREP for professional services or PC-Print for institutional services or, for MAP clients, TMHP Standardized Medicare Advantage Plan (MAP) Remittance Advice Notice Template with the completed claim form.

If the claim does not appear on an R&S Report as paid, pending, or denied, providers can use any of the following procedures to inquire about the status of the claim:

- The provider can use the claim status inquiry function of TexMedConnect on the TMHP website at [www.tmhp.com](http://www.tmhp.com).
- The provider can call AIS at 1-800-925-9126 to determine if the claim is pending, paid, denied, or if TMHP has no record of the claim.
- If any of the three options above indicates that TMHP has no record of the claim, the provider can call the TMHP Contact Center at 1-800-925-9126 and speak to a TMHP contact center representative.

- If the TMHP Contact Center has no record of a claim that was submitted within the original filing deadline, the provider can submit a copy of the original claim to TMHP for processing. Electronic billers may refile the claim electronically. For claims submitted by a hospital for inpatient services, the filing deadline is 95 days from the discharge date or the last DOS on the claim. For all other types of providers, the filing deadline is 95 days from each DOS on the claim.
- If the 95-day filing deadline has passed and the claim is still within 120 days of the date of the rejection report or the R&S Report, the provider can submit a signed copy of the claim and all of the documentation that supports the original claim submission, including any electronic rejection reports, to:

Texas Medicaid & Healthcare Partnership  
Inquiry Control Unit  
12357-A Riata Trace Parkway, Suite 100  
Austin, TX 78727

Providers must retain copies of all R&S Reports for a minimum of five years. Providers must not send original R&S Reports back with appeals. Providers must submit one copy of the R&S Report to TMHP per appeal.

**Referto:** Subsection A.12.3, “Automated Inquiry System (AIS)” in “Appendix A: State, Federal, and TMHP Contact Information” (*Vol. 1, General Information*).

## 6.12 Filing Medicare Primary Claims

When a service is a benefit of both Medicare and Medicaid, the claim must be filed to Medicare first.

Providers should not file a claim with Medicaid until Medicare has dispositioned the claim unless the service is a Medicaid-only service.

Medicaid claims for Qualified Medicare Beneficiary (QMB) and Medicaid Qualified Medicare Beneficiary (MQMB) clients can be filed to Medicaid for consideration of coinsurance and deductible payment as follows:

- Medicare primary claims filed to Medicare Administrative Contractors (MACs) may be transferred electronically to TMHP through a Coordination of Benefits Contractor (COBC).
- Providers can submit crossover claims directly to TMHP using a paper claim form only for the specific circumstances indicated in the following section.

**Note:** *These guidelines do not apply to services that are rendered to clients who are living in a nursing facility.*

**Referto:** Subsection 2.7, “Medicare Crossover Claim Reimbursement” in “Section 2: Texas Medicaid Fee-for-Service Reimbursement” (*Vol. 1, General Information*) for information about reimbursement for QMBs and MQMBs.

Subsection 4.11, “Medicare and Medicaid Dual Eligibility” in “Section 4: Client Eligibility” (*Vol. 1, General Information*) for information about MQMBs and QMBs eligibility.

### 6.12.1 Electronic Crossover Claims

Medicare primary claims filed to MACs may be transferred electronically to TMHP through a COBC for claims that are processed as assigned. Providers should contact their MAC for more information.

This electronic crossover process allows providers to receive disposition from both carriers while only filing the claim once. Providers must allow 60 days from the date of Medicare’s disposition for a claim to appear on the Medicaid R&S Report.

If all services on the claim are denied by Medicare, the claim is not automatically transferred to TMHP by the MAC through the COBC. Providers must submit the denied crossover claims to TMHP on paper.

Claims that are submitted to Medicare must include the facility's NPI. Medicare crossover claims must comply with the Medicaid requirement to include a facility NPI. If a Medicare crossover claim includes a service for which Medicaid requires a facility NPI but the claim does not include the facility's NPI number, the claim will be denied by Texas Medicaid.

**Important:** *TMHP accepts only electronic crossover claims that are automatically transferred to TMHP by the MAC through the COBC. TMHP accepts only paper crossover claims from providers and other entities. TMHP does not accept electronic crossover new day claims or appeals from providers and other entities. TMHP accepts only paper appeals.*

#### 6.12.1.1 Type of Bills Values for Medicare Crossover Claims

Type of bills (TOB) values in the 12x series may be billed to Medicare for Medicare Inpatient Part B services as appropriate, but TOB values in the 12x series are not valid for Medicaid claims.

**Reminder:** *Texas Medicaid only allows interim billing and late changes to be submitted on inpatient claims.*

#### 6.12.1.2 Medicare Copayments

Claims for Medicare copayments can also be submitted to TMHP. TMHP processes and pays Medicare HMO and Medicare PPO copayments for dual-eligible clients according to Medicaid guidelines.

The following procedure codes may be reimbursed for Medicare copayments:

The following Medicaid codes have been created for copayments, which are considered an atypical service:

| Procedure Code | Description                         |
|----------------|-------------------------------------|
| CP003          | Medicare HMO copayment-professional |
| CP004          | Medicare PPO copayment-professional |
| CP007          | Medicare HMO copayment-outpatient   |
| CP008          | Medicare PPO copayment-outpatient   |

TMHP may reimburse the copayment in addition to a service the HMO or PPO has denied if the client is eligible for Texas Medicaid and the procedure is reimbursed under Medicaid guidelines. Providers are not allowed to hold the client liable for the copayment.

An office or emergency room (ER) visit (the ER physician is paid only when the ER is not staffed by the hospital) is reimbursed a maximum copayment of \$10 per visit. The hospital ER visit is reimbursed at a maximum of \$50 to the facility. TMHP pays up to four copayments per day, per client. ER visits are limited to one per day, per client, and are considered one of the four copayments allowed per day.

**Referto:** Subsection 2.7.4.2, "Nephrology (Hemodialysis, Renal Dialysis) and Renal Dialysis Facility Providers" in "Section 2: Texas Medicaid Fee-for-Service Reimbursement" (*Vol. 1, General Information*) for information about claims for nephrology (hemodialysis, renal dialysis) and renal dialysis facility providers for Medicare crossover Claims.

Subsection 2.7.4, "Exceptions" in "Section 2: Texas Medicaid Fee-for-Service Reimbursement" (*Vol. 1, General Information*) for information about exceptions for Medicare Part A, Part B, and Part C (noncontracted MAPs) reimbursement.

### 6.12.1.3 Requirement for Group Billing Providers – Professional Claims

The performing provider NPI must be included on the professional electronic claim if the billing provider is a group. Claims are processed using the performing provider NPI that is submitted on the Medicare claim.

**Important:** *The performing provider who is identified on the claim must be a member of the billing provider's group. If the performing provider is not a member of the billing provider group, the detail line item will be denied.*

A claim is denied if the performing provider NPI is missing, invalid, or is not a member of the billing provider's group. Denied claims may be appealed on paper with the appropriate performing provider information.

### 6.12.2 \* Paper Crossovers Claims

TMHP accepts only paper crossover claims or appeals from providers and other entities.

The following paper crossover claims may be submitted to TMHP:

- For QMB and MQMB clients, if a crossover claim is not transferred to TMHP electronically through the COBC, the provider can submit a paper claim to TMHP for coinsurance and deductible reimbursement consideration.
- For MQMB clients, if a claim is denied by Medicare because the services are not a benefit of Medicare or because Medicare benefits have been exhausted, the provider can submit a paper claim to TMHP for coinsurance and deductible reimbursement consideration, and reimbursement consideration for the Medicaid-only services that were denied by Medicare. The Medicare EOB that contains the relevant claim denial must be submitted to TMHP with the completed claim from within 95 days from the Medicare disposition date and 365 days from the date of service. The denied services are processed as Medicaid-only services.

Claims that are submitted to Medicare must include the facility's NPI. Medicare crossover claims must comply with the Medicaid requirement to include a facility NPI. If a Medicare crossover claim includes a service for which Medicaid requires a facility NPI but the claim does not include the facility's NPI number, the claim will be denied by Texas Medicaid.

**Important:** *Claims that are denied by Medicare for administrative reasons must be appealed to Medicare before they are submitted to Texas Medicaid.*

The paper submission must include all of the following:

- The Medicare Remittance Advice (RA) or Remittance Notice (RN), using the CMS-approved software MREP, for professional services, or PC-Print or a paper MRAN from Medicare.
- The appropriate, completed paper CMS-1500 or UB-04 CMS-1450 paper claim form.
 

**Note:** *Although it is not required, it is strongly recommended that providers send claim forms with their Medicare appeals in case one is needed for further processing.*
- The appropriate TMHP Standardized Medicare Advantage Plan (MAP) Remittance Advice Notice Template for Medicare Advantage Plan only. The template must be submitted with the claims form and the MAP EOB.

Providers that receive Remittance Advice Notices from a Medicare intermediary may submit these in place of the MRAN to TMHP which must contain the following required information:

- Client name
- Medicare number
- NPI

- Dates of service
- Procedure code (Professional and Outpatient claims)
- Billed amount
- Medicare allowed amount or non-covered amount
- Deductible amount
- Co-insurance amount
- Medicare paid amount
- Medicare ICN
- Quantity billed

#### **6.12.2.1 Deductible or Coinsurance Amount Balancing**

The Texas Medicaid claims processing system validates that the total Medicare deductible and coinsurance amounts on the claim header match the sum of the detail Medicare deductible and coinsurance amounts.

For paper crossover claims, providers must submit the same information to Texas Medicaid that was received from Medicare.

Texas Medicaid will reimburse Medicare crossover claims up to the Texas Medicaid allowed amount for Medicaid-covered services. System enhancements have been identified to ensure appropriate age restrictions are enforced applicable to the services rendered.

**Example:** *For a Medicare service provided to an adult client, if that service is only payable to Medicaid for clients who are 20 years of age and younger, the age restriction will be applied and the Medicaid allowed amount will be zero. Since the Medicare payment exceeds the Medicaid allowed amount or encounter payment for the service, Texas Medicaid will not make a payment for coinsurance liabilities.*

Because Medicare reimbursed more than Medicaid allowed, the client has no liability for any balance or Medicare coinsurance related to the rendered services.

#### **6.12.2.2 TMHP Standardized Medicare Advantage Plan (MAP) Remittance Advice Notice Template**

The TMHP Standardized Medicare Advantage Plan (MAP) Remittance Advice Notice Template must be submitted for paper MAP claims only. The template must be submitted with the claim form and the MAP EOB.

**Note:** *Providers must not submit the template for traditional Medicare crossover claims.*

The following guidelines apply for the submission of the TMHP Standardized Medicare Advantage Plan (MAP) Remittance Advice Notice Templates:

- The Medicare ICN must be included on the form. Claims are denied if the Medicare ICN is omitted.
- For the TMHP Crossover Professional Claim Type 30 form, the performing provider NPI and TPI must be submitted on each detail line item. A detail line item is denied if the performing provider NPI or TPI is omitted, if the performing provider NPI is not associated with the TPI according to the performing provider's enrollment information, or if the performing provider is not a member of the group billing provider.
- For the TMHP Crossover Outpatient Facility Claim Type 31 form, the detail line items are required. Claims are denied if the details are omitted.

- The TMHP Standardized Medicare Advantage Plan (MAP) Remittance Advice Notice Template must be submitted with a completed claim form and MAP EOB, must be legible, and must identify only one client per page. Providers must not submit handwritten MAP templates.

Claims that do not meet these standards are not processed and are returned to the provider.

By submitting the TMHP Standardized Medicare Advantage Plan (MAP) Remittance Advice Notice Templates to TMHP, the provider attests that the information included in the template matches the EOB that was received from the MAP. If the information on the template does not exactly match the information on the RA or RN, the claim may be denied.

**Referto:** subsection 6.20, “Forms” in this section for the TMHP Standardized Medicare Advantage Plan (MAP) Remittance Advice Notice Templates and instructions.

Subsection 2.7, “Medicare Crossover Claim Reimbursement” in “Section 2: Texas Medicaid Fee-for-Service Reimbursement” (*Vol. 1, General Information*).

### 6.12.2.3 Crossover Paper Claims Filing Deadlines

The paper crossover claim with all required, EOBs, templates, and forms must be received by TMHP within 95 days of the Medicare date of disposition and 365 days from the date of service in order to be considered for processing.

### 6.12.3 Filing Medicare-Adjusted Claims

TMHP accepts crossover appeals only on paper.

Providers may submit Medicare-adjusted claims by submitting the adjusted Medicare RA/RNs (paper or electronic) and the appropriate TMHP Standardized Medicare Advantage Plan (MAP) Remittance Advice Notice Template. The information on the Medicare RA/RN must exactly match the information submitted on the TMHP Standardized Medicare Advantage Plan (MAP) Remittance Advice Notice Template.

**Referto:** Subsection 3.7.1, “Medicaid Relationship to Medicare” in the *Inpatient and Outpatient Hospital Services Handbook (Vol. 2, Provider Handbooks)* for additional information on hospital Medicare claims filing requirements.

**Important:** *TMHP does not accept electronic crossover appeals.*

## 6.13 Medically Needy Claims Filing

TMHP must receive claims for unpaid bills not applied toward spend down within 95 days from the date eligibility was added to the TMHP client eligibility file (add date). These bills must be on the appropriate claim form (for example, CMS-1500 or UB-04 CMS-1450). Providers are allowed to submit completed CMS claim forms directly to the Medically Needy Clearinghouse (MNC) or to applicants for the Medically Needy Program (MNP) to be used to meet spend down. The completed CMS claim forms used to meet spend down are held for ten calendar days by the MNC, then forwarded to TMHP claims processing. Claims for services provided after the spend down is met must be received within 95 days from the date eligibility is added. Inpatient hospital facility claims must be received within 95 days from the date of discharge or last DOS on the claim. This applies when eligibility is not retroactive.

The client’s payment responsibilities are as follows:

- If the entire bill was used to meet spend down, the client is responsible for payment of the entire bill.
- If a portion of one of the bills was used to meet the spend down, the client is responsible for paying the portion applied toward the spend down, unless it exceeds the Medicaid allowable amount.
- The claim must show the *total* billed amount for the services provided. Charges for ineligible days or spend down amounts should *not* be deducted or noncovered on the claim.

- A client's payment toward spend down is *not* reflected on the claim submitted to TMHP.
- A client is not required to pay the spend down amount before a claim is filed to Medicaid.
- Payments made by the client for services not used in the spend down but were incurred during an eligible period must be reimbursed to the client before the provider files a claim to TMHP.
- Services that require prior authorization and are provided before the client becomes eligible for Medicaid by meeting spend down are not reimbursable by Texas Medicaid.
- If a bill or a completed CMS claim form was not used to meet spend down and the dates of service are within the client's eligible period, submit the total bill to TMHP.

When eligibility has been established, a TP 55 with spend down client can receive the same care and services available to all other Medicaid clients. If eligibility is established through TP 30 with spend down, the client's Medicaid eligibility is restricted to coverage for an emergency medical condition only. Emergency medical condition is defined under Emergency medical condition is defined under subsection 4.4.2.2, "Exceptions to Lock-in Status" in "Section 4: Client Eligibility" (*Vol. 1, General Information*).

## 6.14 Claims Filing for Consumer-Directed Services (CDS)

Clients who participate in the CDS option for both PCS and a waiver program, through DADS are required to choose one Financial Management Services Agency (FMSA) to provide services through both programs. FMSAs are permitted to file only the financial management services (FMS) fee, also known as the monthly administrative fee, through one program. The FMSA should file the FMS claim through the program with the highest reimbursement rate. Currently, the waiver programs have a higher reimbursement rate for the FMS fee than the Texas Medicaid PCS benefit, so a FMSA should file claims for the monthly FMS fee through the waiver programs.

The U8 modifier, which is used when submitting claims for the monthly PCS administrative fee, must be prior authorized. The DSHS case managers have two options when sending a prior authorization request for PCS to TMHP:

- If a client is only using the CDS option for Texas Medicaid PCS, a case manager will submit a prior authorization request to TMHP that approves the U8 modifier and either the U7 or UB modifier. In this case, the provider authorization notification letter will include the U8 modifier and the U7 or UB modifier.
- If a client is using the CDS option for both Texas Medicaid PCS and a waiver program, a case manager will submit a prior authorization request to TMHP that approves either the U7 or UB modifier. The U8 modifier will not be prior authorized in this situation.

When a provider authorization notification letter is received by a FMSA, the provider should verify that the correct modifiers have been prior authorized for each PCS client. Providers who think that the approved modifiers are incorrect should contact the DSHS case manager and ask for the correct modifiers to be submitted to TMHP for prior authorization.

## 6.15 Claims Filing for Home Health Agency Services

Providers must use only type of bill (TOB) 321 in Form Locator (FL) 4 of the UB-04 CMS-1450. Other TOBs are invalid and will result in a claim denial. Home Health Services must be submitted to TMHP in an approved electronic format or on a CMS-1500 or a UB-04 CMS-1450 paper claim form. Submit home health DME and medical supplies to TMHP in an approved electronic format, or on a CMS-1500 or on a UB-04 CMS-1450 paper claim form. Providers may purchase CMS-1500 or UB-04 CMS-1450 paper claim forms from the vendor of their choice. TMHP does not supply them.

When completing a CMS-1500 or a UB-04 CMS-1450 paper claim form, all required information must be included on the claim, as TMHP does not key information from attachments.

**Referto:** “Section 3: TMHP Electronic Data Interchange (EDI)” (*Vol. 1, General Information*) for information about electronic claims submissions.

Subsection 6.5, “CMS-1500 Paper Claim Filing Instructions” in this section for instructions on how to complete paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

Subsection 6.6, “UB-04 CMS-1450 Paper Claim Filing Instructions” in this section.

Outpatient claims must have the appropriate revenue code and, if appropriate, the corresponding Healthcare Common Procedure Coding System (HCPCS) code or narrative description. The prior authorization number must appear on the CMS-1500 paper claim form in Block 23 and in Block 63 of the UB-04 CMS-1450 paper claim form. The certification dates or the revised request date on the POC must coincide with the DOS on the claim. Prior authorization does not waive the 95-day filing deadline requirement.

## **6.16 Claims for Medicaid Hospice Clients Not Related to the Terminal Illness**

When the services are unrelated to the terminal illness, providers must submit a claim for Medicaid services to TMHP. The claim must include a statement and documentation from the hospice that the services billed are not related to the client’s terminal illness.

If TMHP denies the claim, the following information must be submitted with the providers appeal.

- A copy of the R&S Report, with the client or claim number in question circled
- Clinical records, which may be obtained from the hospice provider
- Supporting documentation giving reasons the services billed are not related to the terminal illness

**Referto:** Subsection 4.4.3, “Hospice Program” in “Section 4: Client Eligibility” (*Vol. 1, General Information*) for more information related to Medicaid hospice client benefits and eligibility.

### **6.16.1 Medical Services When Client is Discharged From Hospice**

Submit claims to TMHP for Medicaid services with a statement that the services billed were provided after the client was discharged from the Hospice Program. The provider must obtain a copy of Form 3071, Medicaid Hospice Cancellation, from the Hospice Program to support the discharge.

If TMHP denies the claim, the provider may appeal the decision with the following information:

- A copy of the R&S Report, with the client or claim number in question circled
- Supporting documentation stating that the client was not in hospice at the time

### **6.16.2 Claims Address for Medicaid Hospice Clients Not Related to the Terminal Illness**

Mail paper claims to the following address:

Texas Medicaid & Healthcare Partnership  
PO Box 200105  
Austin, TX 78720-0105

Appeal claims by writing to the following address:

Texas Medicaid & Healthcare Partnership  
PO Box 200645  
Austin, TX 78720-0645

### **6.16.3 Lab and X-Ray**

Submit claims for services unrelated to the terminal illness to TMHP. Submit claims for services related to the terminal illness to the hospice provider.

## **6.17 Claims for Texas Medicaid and CSHCN Services Program Eligible Clients**

The CSHCN Services Program is the payer of last resort when clients have other insurance, including Texas Medicaid and private carriers. The CSHCN Services Program does not supplement a client's Texas Medicaid benefits; however, services that are not a benefit of Texas Medicaid, such as hospice and medical foods, may be covered by the CSHCN Services Program.

### **6.17.1 New Claim Submissions**

New claims that are submitted for clients who are eligible for both Texas Medicaid and CSHCN Services Program benefits during the same eligibility period will be processed through the appropriate program and may result in a separate claim for each program. The Medicaid claim number and disposition will be listed under the "Claims – Paid or Denied" section of the Medicaid/Managed Care R&S Report. If the claim includes services that are not benefits of Texas Medicaid but are benefits of the CSHCN Services Program, a claim will be created with a unique claim number that will be listed under the "Claims – Paid or Denied" section of the CSHCN Services Program R&S Report.

**Note:** *If all of the services that are submitted on the claim are Texas Medicaid benefits, a CSHCN Services Program claim will not be created. Only a Texas Medicaid claim will be created, and the claim number will appear on the provider's Medicaid/Managed Care R&S Report.*

### **6.17.2 CSHCN Services Program Claims Reprocessing for Retroactive Texas Medicaid Eligibility**

Claims that have already been paid by the CSHCN Services Program for clients who received retroactive Texas Medicaid eligibility for dates of service covered on the paid claims will be reprocessed to pay under the appropriate program. The reprocessed CSHCN Services Program claim number will appear under the "Adjustments – Paid or Denied" section of the CSHCN Services Program R&S Report. An accounts receivable will be created for services covered by Texas Medicaid that will be reflected on the "Financial Transactions" page under the "Accounts Receivable" section of the CSHCN Services Program R&S Report. The claim will be reprocessed to Texas Medicaid and given a new claim number. The new Texas Medicaid claim number and disposition will appear under the "Claims – Paid or Denied" section of the Medicaid/Managed Care R&S Report.

TMHP will contact providers when it reprocesses claims for services that require a Texas Medicaid prior authorization. Providers will be informed that a Texas Medicaid prior authorization must be submitted within a specified time frame for the claim to be considered for processing through Texas Medicaid.

## **6.18 Claims for State Supported Living Center Residents (SSLC)**

Medicaid providers who render off-campus acute care services to Medicaid-eligible State Supported Living Center (SSLC) residents must submit claims directly to Medicaid. This is applicable only to residents of the SSLCs operated by the Department of Aging and Disability Services (DADS).

Claims and prior authorization requests for acute care services rendered to these individuals must be submitted to Medicaid. These requests must be submitted according to guidelines for acute care services as indicated in this manual.

**Referto:** "Section 5: Fee-for-Service Prior Authorizations" (*Vol. 1, General Information*) for more information on prior authorizations.

## 6.19 Children's Health Insurance Program (CHIP) Perinatal Claims

Claims for services provided to CHIP Perinatal Program clients are submitted to and considered for reimbursement as follows:

- For women with income at or below 185 percent FPL:
  - Hospital facility charges are paid through Emergency Medicaid and processed by TMHP.
  - Professional service charges are paid through the CHIP Perinatal Program and processed through CHIP.

**Note:** *Delivery-related professional services claims denied by the CHIP Perinatal health plan will be considered for reimbursement through Emergency Medicaid and will require the CHIP Perinatal health plan denial notice. These claims should be submitted through the existing Medicaid appeals process within 95 days from the date of the CHIP Perinatal Health plan denial notice. The provider must provide a copy of the complete explanation of benefits that includes the complete description of the reason for denial.*

- For newborns with a family income at or below 185 percent FPL:
  - Hospital facility charges are paid through Medicaid and processed by TMHP.
  - Professional service charges are paid through Medicaid and processed by TMHP.

Inpatient services (limited to labor with delivery) for unborn children and women with income between 186 and 200 percent of FPL will be covered under CHIP Perinatal, and these claims will be paid by the CHIP Perinatal health plan.

### 6.19.1 CHIP Perinatal Newborn Transfer Hospital Claims

TMHP processes CHIP Perinatal newborn transfer hospital claims even if the claim from the initial hospital stay has not been received.

The hospital transfer must have occurred within 24 hours of the discharge date from the initial delivery hospital stay. This change applies only to CHIP Perinatal newborns with a family income at or below 185 percent of the FPL.

Transfer claims must be filed with TMHP on an electronic institutional claim or the UB-04 CMS-1450 paper claim form using admission type 1, 2, 3, or 5 in block 14, source of admission code 4 or 6 in block 15, and the actual date and time the client was admitted in block 12 of the UB-04 CMS-1450 paper claim form.

## 7.1 Appeal Methods

An appeal is a request for reconsideration of a previously dispositioned claim.

Providers may use three methods to appeal Medicaid fee-for-service and carve-out service claims to Texas Medicaid & Healthcare Partnership (TMHP): electronic, Automated Inquiry System (AIS), or paper.

TMHP must receive all appeals of denied claims and requests for adjustments on paid claims within 120 days from the date of disposition of the Remittance and Status (R&S) Report on which that claim appears. If the 120-day appeal deadline falls on a weekend or holiday, the deadline is extended to the next business day.

Standard administrative requests and medical appeals must be sent first to TMHP or the claims processing entity as a first-level appeal. After the provider has exhausted all aspects of the appeals process for the entire claim, the provider may submit a second-level appeal to HHSC.

- 1) A first-level appeal is a provider's initial standard administrative or medical appeal of a claim that has been denied or adjusted by TMHP. This appeal is submitted by the provider directly to TMHP for adjudication and must contain all required information to be considered.
- 2) A second-level appeal is a provider's final medical or standard administrative appeal to HHSC of a claim that meets all of the following requirements:
  - It has been denied or adjusted by TMHP.
  - It has been appealed as a first-level appeal to TMHP.
  - It has been denied again for the same reason(s) by TMHP.

This appeal is submitted by the provider to HHSC, which may subsequently require TMHP to gather information related to the original claim and the first-level appeal. HHSC is the sole adjudicator of this final appeal.

All providers must submit second-level administrative appeals and exceptions to the 95-day filing deadline appeals to the following address:

Texas Health and Human Services Commission  
 HHSC Claims Administrator Operations Management  
 Mail Code 91X  
 PO BOX 204077  
 Austin, Texas 78720-4077

TMHP is not responsible for managing appeals resulting from utilization review (UR) decisions by the HHSC Office of Inspector General (OIG) UR Unit. These must be submitted to HHSC Medical and UR Appeals.

**Note:** *Appeals for managed care claims must be submitted to the managed care organization (MCO) or dental plan that administers the client's managed care benefits. The only managed care appeals administered by TMHP are those for carve-out services.*

**Referto:** Subsection 7.3.3, "Utilization Review Appeals" in this section.

The *Medicaid Managed Care Handbook* (Vol. 2, *Provider Handbooks*) for additional information about managed care appeals.

### 7.1.1 Electronic Appeal Submission

Electronic appeal submission is a method of submitting appeals using a personal computer. The electronic appeals feature can be accessed by a business organization (e.g., billing agents) interfacing directly with the TMHP Electronic Data Interchange (EDI) Gateway or through TexMedConnect, the free web-based application available from TMHP.

The Health Insurance Portability and Accountability Act (HIPAA) standard American National Standards Institute (ANSI) ASC X12 837 format is accepted by TMHP EDI.

For other information, contact the TMHP EDI Help Desk at 1-888-863-3638.

#### **7.1.1.1 Advantages of Electronic Appeal Submission**

Using electronic appeal submission provides the following advantages to the users:

- Increased accuracy of appeals filed to potentially improve cash flow.
- Maintained audit trails through print and download capabilities.
- Appeal submission windows can be automatically filled in with electronic R&S (ER&S) Report information, thereby reducing data entry time.

#### **7.1.1.2 Disallowed Electronic Appeals**

The following claims may not be appealed electronically:

- Claims that require supporting documentation (e.g., operative report, medical records, home health, hearing aid, and dental X-rays).
- Diagnosis-related group (DRG) assignment.
- Medicare crossovers.
- Claims listed as *pending* or *in process* with explanation of pending status (EOPS) messages.
- Claims denied as *past filing deadline* except when retroactive eligibility deadlines apply.
- Claims denied as *past the payment deadline*.
- Claims with quantity billed changes in the claims details.
- Claims that are the result of a mass adjustment.

**Exception:** *Inpatient hospital claims denied for lack of a Hysterectomy Acknowledgment Statement or a Sterilization Consent Form may be appealed electronically if the requested form has been faxed according to the instructions in the [Texas Medicaid - Title XIX Acknowledgment of Hysterectomy Information](#) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).*

#### **Resubmission of TMHP Electronic Data Interchange (EDI) Rejections**

TMHP EDI transactions that fail HIPAA edits will be rejected, and the submitter will receive a 277CA claim response file. The 277CA claims response file lists activity by submitter, provider, and payer.

The 277CA claims response file includes member identifier, patient last name and first initial, patient control number (PCN), type of bill or place of service, charge, transaction from and to dates, receipt date, rejection code, and rejection description.

Providers must send the batch ID, PCN, date of service, transaction from and to dates, receipt date, and rejection codes from the 277CA claims response file to TMHP when appealing denied claims.

The batch ID is located in the file name of the returned 277CA claims response, and not within the file. Providers must include the batch ID in all electronic response files submitted to TMHP for appeals to denied claims. Handwritten batch IDs are not acceptable for submission to TMHP. Providers who cannot identify or retrieve the batch ID from the 277CA claims response file name should contact the clearinghouse or vendor to have the filename included in the response document. If not, the provider must request a copy of the response file that contains the filename from the clearinghouse.

Providers who receive a rejection on the 277CA claims response file may resubmit an electronic claim within 95 days of the date of service.

A paper appeal may also be submitted with a copy of the response document within 120 days of the 277CA claims response file rejection to meet the filing deadline. A copy of the electronic response file rejection to include the batch ID must accompany each corrected claim that is submitted on paper.

### 7.1.2 Automated Inquiry System (AIS) Appeals

The following appeals may be submitted using AIS:

- *Client eligibility.* The client's correct Medicaid number, name, and date of birth are required.
- *Provider information (excluding Medicare crossovers).* The correct provider identifier is required for the billing provider, performing provider, referring provider, and limited provider. The name and address of the provider are required for the facility and outside laboratory.
- *Claim corrections.* Providers may correct the:
  - Patient control number (PCN).
  - Date of birth.
  - Date of onset.
  - X-ray date.
  - Place of service (POS).
  - Quantity billed.
  - Prior authorization number (PAN).
  - Beginning date of service (DOS), as long as the new date is within the filing deadline for the claim.
  - Ending date of service, as long as the new date is within the filing deadline for the claim.

The following appeals may not be appealed through AIS:

- Claims listed on the R&S Report as Incomplete Claims
- Claims listed on the R&S Report with \$0 allowed and \$0 paid
- Claims requiring supporting documentation (for example, operative report, medical records, home health, hearing aid, and dental X-rays)
- DRG assignment
- Procedure code, modifier, or diagnosis code
- Medicare crossovers
- Claims listed as *pending* or *in process* with EOPS messages
- Claims denied as *past filing deadline* except when retroactive eligibility deadlines apply
- Claims denied as *past the payment deadline*
- Inpatient hospital claims that require supporting documentation
- Third party liability (TPL)/other insurance

Providers may appeal these denials either electronically or on paper.

**Referto:** Subsection 7.1.1.2, “Disallowed Electronic Appeals” in this section to determine whether these appeals can be billed electronically. If these appeals cannot be billed electronically, a paper claim must be submitted.

**Exception:** *Inpatient hospital claims denied for lack of a Hysterectomy Acknowledgment Statement or a Sterilization Consent Form may be appealed if the requested form has been faxed according to the instructions under subsection 6.14, “Hysterectomy Services” in the Gynecological, Obstetrics, and Family Planning Title XIX Services Handbook (Vol. 2, Provider Handbooks).*

### 7.1.3 Automated Inquiry System Automated Appeals Guide

To access the AIS automated appeals guide, providers can call 1-800-925-9126. Providers may submit up to three fields per claim and 15 appeals per call. If during any step invalid information is entered three times, the call transfers to the TMHP Contact Center for assistance.

### 7.1.4 Paper Appeals

Claim appeal requests that cannot be appealed electronically or by using AIS may be appealed on paper. Completed claim forms are not required to be submitted with paper appeals. Providers who submit paper appeals must clearly document on the attached R&S Report the information that is being appealed and identify the claim being appealed.

If a provider determines that a claim cannot be appealed electronically or through AIS, the claim may be appealed on paper by completing the following:

- 1) Submit a copy of the R&S Report page on which the claim is paid or denied. A copy of other official notification from TMHP may also be submitted.
- 2) Submit one copy of the R&S Report for each claim appealed.
- 3) Circle only one claim per R&S Report page.
- 4) Identify the reason for the appeal.
- 5) If applicable, indicate the incorrect information and provide the corrected information that should be used to appeal the claim.
- 6) Attach a copy of any supporting medical documentation that is required or has been requested by TMHP. Supporting documentation must be on a separate page and not copied on the opposite side of the R&S Report.

**Note:** *It is strongly recommended that providers submitting paper appeals retain a copy of the documentation being sent. It also is recommended that paper documentation be sent by certified mail with a return receipt requested. This documentation, along with a detailed listing of the claims enclosed, provides proof that the claims were received by TMHP, which is particularly important if it is necessary to prove that the 120-day appeals deadline has been met. If a certified receipt is provided as proof, the certified receipt number must be indicated on the detailed listing along with the Medicaid number, billed amount, date of service (DOS), and a signed claim copy. The provider may need to keep such proof regarding multiple claims submissions if the provider identifier is pending.*

Medicare crossovers and inpatient hospital appeals related to medical necessity denials or DRG assignment/adjustment must be submitted on paper with the appropriate documentation.

Submit correspondence, adjustments, and appeals (including routine inpatient hospital claims) to the following address:

Texas Medicaid & Healthcare Partnership  
Appeals/Adjustments  
PO Box 200645  
Austin, TX 78720-0645

**Exception:** *Hospitals appealing HHSC OIG UR Unit final technical denials, admission denials, DRG revisions, continued-stay denials for Tax Equity and Fiscal Responsibility Act (of 1982) (TEFRA) Hospitals, or cost/day outliers must appeal to HHSC at the following address:*

Texas Health and Human Services Commission  
Medical and UR Appeals, H-230  
PO Box 85200  
Austin, TX 78708-5200

All other provider fields on the claim forms (referring, facility, admitting, operating, and other) require only an NPI.

Providers that choose to appeal the claim with NPI information must continue submitting both a TPI and an NPI until the claim is finalized.

#### **7.1.4.1 Texas Medicaid Fee-for-Service DRG Adjustment Appeal**

Texas Medicaid fee-for-service hospital providers who are appealing a DRG adjustment (higher weight DRG) must provide the original and revised UB-04 CMS-1450 paper claim form, the complete medical record, and a statement defining the reason for the requested change. Hospitals have 120 days from the date of the R&S Report to request an addition of a diagnosis or procedure resulting in a DRG adjustment. Providers appealing a DRG that has not been revised by the OIG Utilization Review Unit should appeal to TMHP.

**Referto:** Subsection 7.3.3, “Utilization Review Appeals” in this section.

#### **7.1.4.2 Medical Necessity Denial Appeals**

Appeals of denials relating to medical necessity decisions made for all medical services with the exception of HHSC Inpatient UR cases may be submitted for further review if providers find denials are inappropriate. All necessary documentation must accompany the request for review. Incomplete appeals and adjustment requests are denied by TMHP with an explanation of benefits (EOB) code requesting additional information.

TMHP reviews each appeal (DRG adjustment and medical necessity) and forwards written notice of final action in the form of a letter or an adjustment transaction on the R&S Report.

#### **7.1.4.3 Other Insurance Appeals**

To appeal a claim denial due to other insurance coverage, the provider must submit complete other insurance information including the disposition date. The disposition date indicates when the other insurance company processed the payment or denial. An appeal submitted without this information will be denied.

If submitting a paper appeal the provider must submit EOBs containing disposition dates. If the disposition date appears only on the first page of an EOB that has multiple pages and the claim that is being appealed is on a subsequent page, the provider must also include the first page of the EOB that shows the disposition date.

#### **7.1.5 Appeals Submitted Incorrectly**

If an incomplete appeal is received, it is returned to the sender with further appeal instructions and a request for more information. Documentation (either by letter or facsimile) that does not clearly indicate the reason for submission is returned to the sender for clarification.

If an appeal is received that may be more appropriately addressed in another department, the appeal is forwarded to the appropriate department for research and response.

If the TMHP Medical Director or designee identifies a pattern of ineffective use of the appeals process, the provider may be referred to a provider relations representative for assistance.

## 7.2 Refunds to TMHP

The TMHP Cash Reimbursement Unit is responsible for processing financial adjustments when any of the following occur: overpayment, duplicate payment, payment to incorrect providers, and overlapping payments by Medicaid and a third party resource (TPR).

Providers have the option of refunding payments by issuing a check to TMHP or requesting a recoupment through the paper appeal process. The paper appeal process does not require a provider to issue a check because the refund amount is reduced on the R&S Report. To accurately process claim refunds, the TMHP Cash Reimbursement Unit requests that the refund check be accompanied by [Texas Medicaid Refund Information Form](#), with the following information:

- Refunding provider's name and provider identifier.
- Client's name and Medicaid ID number.
- Date of service.
- A copy of the R&S Report showing the claim to which the refund is being applied.
- The specific reason for the refund.
- Name and address of the attorney or casualty insurance company (including the policy and claim number).
- TPR subscriber information.
- Amount of insurance payment.

**Referto:** "Section 8: Third Party Liability (TPL)" (*Vol. 1, General Information*) for additional TPL information.

## 7.3 Appeals to HHSC Texas Medicaid Fee-for-Service

### 7.3.1 Administrative Claim Appeals

An administrative appeal is a request for review of (not a hearing on) claims that are denied by TMHP or claims processing entity for technical and nonmedical reasons. There are two types of administrative appeals:

- *Exception requests to the 95-day filing deadline or 120-day appeal deadline.* A provider's formal written request for review of (not a hearing on) a claim that is denied or adjusted by TMHP for failure to meet the 95-day filing deadline or 120-day appeal deadline. Exception requests to the 95-day filing deadline should meet one of the five exceptions in subsection 7.3.1.2, "Exceptions to the 95-Day Filing Deadline" in this section. Exceptions to the 120-day appeal deadline should meet one of the situations in subsection 7.3.1.3, "Exceptions to the 120-day Appeal Deadline" in this section.
- *Standard Administrative Appeal.* A provider's formal written request for review of (not a hearing on) a claim or prior-authorization that is denied by TMHP for technical or non-medical reasons.

An administrative claims appeal is a request for a review as defined in Title 1 TAC §354.2201(2).

An administrative appeal must be:

- Submitted in writing to HHSC Claims Administrator Operations Management by the provider delivering the service or claiming reimbursement for the service.

- Received by HHSC Claims Administrator Operations Management after the appeals process with TMHP or the claims processing entity has been exhausted, and must contain evidence of appeal dispositions from TMHP or the claims processing entity:
  - All correspondence and documentation from the provider to TMHP or the claims processing entity including copies of supporting documentation submitted during the appeal process.
  - All correspondence from TMHP or the claims processing entity to the provider including TMHP's final decision letter or such from the claims processing entity.
- Complete and contain all of the information necessary for consideration and determination by HHSC Claims Administrator Operations Management to include the following:
  - A written explanation specifying the reason/request for appealing the claim.
  - Supporting documentation for the request.
  - All R&S Reports identifying the claims/services in question.
  - Identification of the incorrect information and the corrected information that is to be used to appeal the claim.
  - A copy of the original claim, if available. Claim copies are helpful when the appeal involves medical policy or procedure coding issues. Also provide a corrected signed claim.
  - A copy of supporting medical documentation that is necessary or requested by TMHP.
  - Provider's internal notes and logs or ticket numbers from the TMHP Contact Center when pertinent (cannot be used as proof of timely filing).
  - Memos from HHSC, TMHP, or claims processing entity indicating any problems, policy changes, or claims processing discrepancies that may be relevant to the appeal.
  - Other documents, such as receipts (i.e., certified mail along with a detailed listing of the claims enclosed), in-service notes, minutes from meetings, if relevant to the appeals. Receipts can be helpful when the issue is late filing.
- Received by HHSC Claims Administrator Operations Management within 120 days from the date of disposition by TMHP or the claims processing entity as evidenced by the weekly R&S Report.

Providers who have submitted their claims electronically must identify the batch submission ID with the date on the electronic claims report. This report must indicate the TMHP assigned batch ID. In addition, this report must include the individual claim that is being appealed. The claim information on the batch report, including date of service and billed amount, must match the information on the claim that is being appealed. This required information constitutes proof of timely filing.

**Note:** *Only reports accepted or rejected from TMHP or the claims processing entity to the vendor will be honored unless the provider is a direct submitter (TexMedConnect). Office notes indicating claims were submitted on time or personal screen prints of claim submissions are not considered proof of timely filing.*

HHSC Claims Administrator Operations Management only reviews appeals that are received within 18 months from the DOS. All claims must be paid within 24 months from the DOS as outlined in 1 TAC §354.1003.

Providers must adhere to all filing and appeal deadlines for an appeal to be reviewed by HHSC Claims Administrator Operations Management. The filing and appeal deadlines are described in 1 TAC §354.1003.

Additional information requested by HHSC Claims Administrator Operations Management must be returned to HHSC Claims Administrator Operations Management within 21 calendar days from the date of the letter from HHSC Claims Administrator Operations Management. If the information is not received within 21 calendar days, the case is closed.

A determination made by HHSC Claims Administrator Operations Management is the final decision for claim appeals. No additional consideration is available. Therefore, ensure that all documents pertinent to the appeal are submitted. New evidence is required for an additional appeal to HHSC Claims Administrator Operations Management.

Mail appeal requests to the following address:

Texas Health and Human Services Commission  
HHSC Claims Administrator Operations Management  
Mail Code-91X  
PO Box 204077  
Austin, Texas 78720-4077

Providers may request the status of an administrative appeal by sending an email to HHSC at [MCD\\_Administrative\\_Appeals@hhsc.state.tx.us](mailto:MCD_Administrative_Appeals@hhsc.state.tx.us). The email must include the TPI number, client name, Medicaid number, date of service, and, if available, the case review number.

### **7.3.1.1 Requirements for Exception Requests**

HHSC Claims Administrator Operations Management makes the final decision on whether claims fall within one of the exceptions to the 95-day or 120-day filing deadlines.

Providers must submit the following documentation for all exception requests:

- Exception requests must be in writing and mailed directly to HHSC.
- Adequate back-up documentation must accompany the exception request. Failure to provide adequate documentation results in the case being closed. Providers are notified of the reason for denial.
- All claims that are to be considered for an exception must accompany the request. HHSC will consider only the claims that are attached to the request.
- Additional claims cannot be added to an exception request after the exception request has been completed by HHSC. Additional claims must be submitted as a separate request and must include all required documentation. Information from a previous request will not be linked by HHSC to process additional claims.
- All exception requests must include an affidavit or statement from the provider stating the details of the cause for the delay, the exception being requested, and verification that the delay was not caused by neglect, indifference, or lack of diligence of the provider or the provider's employee or agent. This affidavit or statement must be made by the person with personal knowledge of the facts.
- Multiple requests submitted simultaneously must be sorted by provider identifier first, and then alphabetically by client name. The orderly submission of exception requests facilitates the review process. Exception requests are returned to the provider if not submitted in the required format.

HHSC may request additional information which must be received within 21 calendar days from the date of the letter from HHSC. If the information is not received within 21 calendar days, the case will remain closed.

HHSC notifies providers about the outcome of the case upon completion of an exception request review.

### 7.3.1.2 Exceptions to the 95-Day Filing Deadline

HHSC Claims Administrator Operations Management is responsible for reviewing requests for exceptions to the 95-day filing deadline for Texas Medicaid fee-for-service. Only providers can submit exception requests. Requests from billing companies, vendors, or clearinghouses are not accepted unless accompanied by a signed authorization from the provider (with each appeal). Without provider authorization, these requests are returned without further action.

HHSC will only consider exceptions to the 95-day filing deadline for claims that are submitted within the 365-day federal filing deadline from the date of service as outlined in 1 TAC §354.1003.

Exceptions to the filing deadline are considered when one of the following situations exists:

- Catastrophic event that substantially interferes with normal business operations of the provider, or damage or destruction of the provider's business office or records by a natural disaster, including, but not limited to, fire, flood, or earthquake; or damage or destruction of the provider's business office or records by circumstances that are clearly beyond the control of the provider, including, but not limited to, criminal activity. The damage or destruction of business records or criminal activity exception does not apply to any negligent or intentional act of an employee or agent of the provider because these persons are presumed to be within the control of the provider. The presumption can only be rebutted when the intentional acts of the employee or agent lead to termination of employment and filing of criminal charges against the employee or agent.

Providers requesting an exception for catastrophic events must include independent evidence of insurable loss; medical, accident, or death records; or police or fire report substantiating the exception of damage, destruction, or criminal activity.

- Delay or error in the eligibility determination of a client, or delay due to erroneous written information from HHSC, its designee, or another state agency.

Providers requesting an exception for the delay or error in the eligibility determination of a client or delay due to erroneous written information from HHSC, its designee, or another state agency must include the written document from HHSC or its designee that contains the erroneous information or explanation of the delayed information.

- Delay due to electronic claim or system implementation problems experienced by HHSC, its designee, or Texas Medicaid providers.

Providers requesting an exception for the delay due to electronic claim or system implementation problems experienced by HHSC, its designee, or Texas Medicaid providers must include the written repair statement, invoice, computer or modem generated error report (indicating attempts to transmit the data failed for reasons outside the control of the provider), or the explanation for the system implementation problems.

The documentation must include a detailed explanation made by the person making the repairs or installing the system, specifically indicating the relationship and impact of the computer problem or system implementation to claims submission, and a detailed statement explaining why alternative billing procedures were not initiated after the delay in repairs or system implementation was known.

If the provider is requesting an exception based upon an electronic claim or system implementation problem experienced by HHSC or its designee, the provider must submit a written statement outlining the details of the electronic claim or system implementation problems experienced by HHSC or its designee that caused the delay in the submission of claims by the provider, any steps taken to notify the state or its designee of the problem, and a verification that the delay was not caused by the neglect, indifference, or lack of diligence on the part of the provider or its employees or agents.

- Submission of claims occurred within the 365-day federal filing deadline, but the claim was not filed within 95 days from the date of service because the service was determined to be a benefit of the Medicaid program, and an effective date for the new benefit was applied retroactively.

Providers requesting an exception for claims that were submitted within the 365-day federal filing deadline, but were not filed within the 95-days of the date of service because the service was determined to be a benefit of Texas Medicaid and an effective date for the new benefit was applied retroactively, must include a written, detailed explanation of the facts and documentation to demonstrate the 365-day federal filing deadline for the benefit was met.

- Client eligibility is determined retroactively and the provider is not notified of retroactive coverage.

Providers requesting an exception for client eligibility determined retroactively and the provider is not notified of retroactive coverage must include a written, detailed explanation of the facts and activities illustrating the provider's efforts in requesting eligibility information for the client. The explanation must contain dates, contact information, and any responses from the client.

### **7.3.1.3 Exceptions to the 120-day Appeal Deadline**

HHSC must receive a written exception request within 120 days of TMHP's final action. HHSC shall consider exceptions to the 120-day appeal deadline for the following listed situations. This is a one-time exception request; therefore, all claims that are to be considered within the request for an exception must accompany the request. Claims submitted after HHSC's determination has been made for the exception will be denied consideration because they were not included in the original request.

- An exception request must be received by HHSC within 18 months from the date of service to be considered. This requirement will be waived for the exceptions listed in the following bullets (b) and (c), as well as the situation listed under "Exceptions to the 24-month deadline."
- The following exceptions to the 120-day appeal deadline are considered if the criteria in the previous bullet is met and there is evidence to support one of the following bullets:
  - (a) Errors made by a third party payor that were outside the control of the provider. The provider must submit a statement outlining the details of the cause for the error, the exception being requested, and verification that the error was not caused by neglect, indifference, or lack of diligence of the provider, the provider's employee, or agent. This affidavit or statement should be made by the person with personal knowledge of the facts. In lieu of the above affidavit or statement from the provider, the provider may obtain an affidavit or statement from the third party payor including the same information, and provide this to HHSC as part of the request for appeal.
  - (b) Errors made by the reimbursement entity that were outside the control of the provider. The provider must submit a statement from the original payor outlining the details of the cause of the error, the exception being requested, and verification that the error was not caused by neglect, indifference, or lack of diligence on the part of the provider, the provider's employee, or agent. In lieu of the above reimbursement entity's statement, the provider may submit a statement including the same information and provide this to HHSC as part of the request for appeal.
  - (c) Claims were adjudicated, but an error in the claim's processing was identified after the 120-day appeal deadline. The error is not the fault of the provider. An error occurred in the claims processing system that is identified after the 120-day appeal deadline has passed.

### **7.3.1.4 Exceptions to the 24-Month Payment Deadline**

HHSC shall consider exceptions to the 24-month claims payment deadline for the following listed situations. The final decision about whether a claim falls within one of the following exceptions will be made by HHSC.

- Claims for providers with retroactive adjustments who are reimbursed under a retrospective payment system.
- Claims paid within six months from the Medicare paid date.
- Claims from providers under investigation for fraud or abuse.
- Claims paid at any time in accordance with a court order, to carry out hearing decisions or agency corrective actions taken to resolve a dispute, or to extend the benefits of a hearing decision, corrective action, or court order to others in the same situation as those directly affected by it.

Mail exception requests to HHSC at the following address:

Texas Health and Human Services Commission  
HHSC Claims Administrator Operations Management  
Mail Code 91X  
PO Box 204077  
Austin, TX 78720-4077

### 7.3.2 Medical Necessity Appeals

Medical necessity appeals are defined as disputes regarding medical necessity of services. Providers must appeal to TMHP and exhaust the appeal/grievance process before submitting an appeal to HHSC.

Medical necessity appeals related to UR decisions made by the HHSC OIG UR Unit must be appealed to HHSC not TMHP.

When filing appeals to HHSC, providers must submit copies of all supporting documentation, including information sent to TMHP.

**Referto:** Subsection 7.1.4.1, “Texas Medicaid Fee-for-Service DRG Adjustment Appeal” in this section.

### 7.3.3 Utilization Review Appeals

Hospitals may appeal adverse UR decisions made by the HHSC OIG UR Unit to the HHSC Medical and UR Appeals Unit. The written appeal request, with complete medical record and approved [Business Records Affidavit Form](#) must be received by the Medical and UR Appeals Unit within 120 days of the date of the original HHSC OIG UR decision letter. If the appeal request with all required documentation is not received within 120 days, the appeal is not conducted, and the HHSC OIG UR decision is considered final. Any claim the facility may have to the Medicaid funds at issue are barred. Extensions of time are not granted for filing the written appeal request and submitting all of the required documentation. The procedures and specific requirements for appealing these decisions can be found in the sections that follow.

Hospitals may appeal adverse HHSC OIG UR Unit determinations to the following address:

HHSC Medical and UR Appeals  
Mail Code H-230  
PO Box 85200  
Austin, TX 78708  
or  
4900 North Lamar (Express Mail Only)  
Austin, TX 78751

#### 7.3.3.1 Admission Denials, Continued Stay Denials for TEFRA Hospitals, DRG Revisions, and Cost/Day Outlier Denials

If a hospital is dissatisfied with the original retrospective review conducted by the HHSC OIG UR Unit, it may submit a written request for an appeal to the HHSC Medical and Utilization Review Appeals Unit.

The request for an appeal must include a copy of the complete medical record, a letter explaining the reasons why the HHSC OIG UR decision is incorrect, a copy of the HHSC OIG UR decision letter, and an original, properly completed, and notarized affidavit in the format approved by HHSC. The affidavit allows the hospital to certify the record as a business and legal document.

**Referto:** [Business Records Affidavit Form](#) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

Complete medical records must be provided to HHSC at no charge. A complete medical record must include, but is not limited to, a discharge summary, history and physical, emergency room record, operative report, pathology report, anesthesia record, consultation reports, physician progress notes, physician orders, laboratory reports, X-ray reports, special diagnostic reports, nurses' notes, and medication records.

Any additional information requested by the HHSC Medical and UR Appeals Unit must be returned to the HHSC Medical and UR Appeals Unit within 21 calendar days of the request. If the requested documentation is not received within this time frame, the case is closed without an opportunity for further review and the original HHSC OIG UR decision is considered the final decision.

If a hospital is notified that it failed to submit any required documentation with the initial appeal request, the required information must be returned to the HHSC Medical and UR Appeals Unit within 21 calendar days of the date of notification, or within 120 days of the date of the original HHSC OIG UR decision letter, whichever is sooner. If the required documentation is not received within the time frames, the case is closed without an opportunity for further review and the original HHSC OIG UR decision is considered the final decision. Extensions of time are not granted for filing the written appeal request and submitting all required documentation.

The HHSC Medical and UR Appeals Unit is responsible for conducting an independent review in response to a provider's appeal. The professional staff uses only the documentation submitted in the medical record to determine whether an inpatient admission was appropriate and whether the diagnoses and procedures were correct. The HHSC UR and Medical Appeals physician or designee performs a complete review for the medical necessity of inpatient admission, DRG validation, quality of care, continued stay medical necessity, and ancillary charges (TEFRA cases) using the medical record documentation submitted on appeal. After completion of the review, the physician or designee renders a final decision on the case. The final decision may include determinations regarding multiple aspects of the admission. The hospital is notified in writing of the final decision. Inpatient admission denials cannot be rebilled as outpatient claims except as noted in subsection 4.2.4, "Outpatient Observation Room Services" in the *Inpatient and Outpatient Hospital Services Handbook (Vol. 2, Provider Handbooks)*.

The HHSC Medical and Utilization Review Unit recognizes that hospital staff may use guidelines, such as the American Hospital Association's Coding Clinic, to assist them in identifying diagnoses or procedures for statistical and billing purposes. However, the HHSC Medical and Utilization Review Appeals Unit determines the appropriate diagnoses or procedures for reimbursement purposes using the documentation in the medical record (submitted on appeal) and the following guidelines:

- *Principal diagnosis assignment.* The diagnosis (condition) established after study to be chiefly responsible for causing the admission of the client to the hospital for care. The principal diagnosis must be treated or evaluated during the admission to the hospital.
- *Secondary diagnosis assignment.* Conditions that affect patient care in terms of requiring clinical evaluation, therapeutic treatment, diagnostic procedures, extended length of hospital stay, or increased nursing care or monitoring, or, in the case of a newborn (birth through 28 days of age), which the physician deems to have clinically significant implications for future health care needs. Normal newborn conditions or routine procedures should not be considered as complications or comorbidities for DRG assignment.

If the principal diagnosis, secondary diagnoses, or procedures are not substantiated in the medical record, not sequenced correctly, or have been omitted, the codes may be changed, added, or deleted by the HHSC Medical and UR Appeals physician or designee. When it is determined the diagnoses or procedures are substantiated and sequenced correctly, a final DRG assignment is made.

If the hospital is displeased with the appeals decision, the attending physician or medical director of the hospital may request an educational conference with the HHSC Medical and UR Appeals physician or designee. The educational conference is held by telephone between the physician or designee and the hospital medical director or attending physician. This is an opportunity for the physicians to discuss the deciding factors in the case and any hospital billing processes that may have affected the adjudication of the case. The educational conference will not alter the previous appeal decision.

### **7.3.3.2 Final Technical Denials**

Hospitals may submit a request for a written appeal to HHSC Medical and UR Appeals only if the hospital has evidence that the HHSC OIG UR Unit issued a final technical denial in error, or did not provide proper notification of the preliminary technical denial. The request must include a letter explaining the reasons why the HHSC OIG UR decision is incorrect and a copy of the HHSC OIG UR decision letter.

The written appeal request must be received by HHSC Medical and UR Appeals within 120 days of the date of the original HHSC OIG UR decision letter. If the request is not received within the 120 days, the appeal is not conducted and the HHSC OIG UR decision is considered final. Any claim the facility may have to the Medicaid funds at issue are barred. Extensions of time are not granted for filing the written appeal request.

If the appeal time frame is met, the HHSC Medical and UR Appeals Unit reviews all the documentation and renders a final decision on the case. If it is determined the technical denial was issued correctly by the HHSC OIG UR Unit, HHSC's decision is upheld. The hospital is notified in writing of the decision. This decision is the final decision.

If it is determined that the final technical denial decision should be overturned, the HHSC Medical and UR Appeals Unit will request a copy of the complete medical record and an original, properly completed, notarized affidavit in the format approved by HHSC. The affidavit allows the hospital to certify the record as a business and legal document. The HHSC Medical and UR Appeals physician or designee performs a complete review for the medical necessity of the admission, DRG validation, quality of care or continued stay, and ancillary charges (for TEFRA Hospitals) using only the medical record documentation. After completion of the review, the physician or designee renders a final decision on the case. The hospital is notified in writing of the final decision.

If the requested documentation is not received within the required 21-day time frame, the case is closed without further opportunity for review and the original HHSC OIG UR decision is considered final.

### **7.3.4 Provider Complaints**

TMHP provides for due process for resolving all provider complaints. A *complaint* is defined as any dissatisfaction expressed by telephone or in writing by the provider, or on behalf of that provider, concerning Texas Medicaid. The definition of *complaint* does not include a misunderstanding or a problem of misinformation that is resolved promptly by clearing up the misunderstanding or supplying the appropriate information to the provider's satisfaction. The definition also does not include a provider's oral or written dissatisfaction with an adverse determination or appeals regarding claim payments and denials.

Procedures governing the provider complaints process are designed to identify and resolve provider complaints in a timely and satisfactory manner. Most complaints are resolved within 30 calendar days. Complaints to TMHP may be submitted using the following methods:

- By telephone at 1-800-925-9126

- In writing to:

TMHP  
Complaints Resolution Department  
PO Box 204270  
Austin, TX 78720-4270

Questions regarding the complaint process or the status of a complaint should be directed to the TMHP Contact Center at 1-800-925-9126.

#### **7.3.4.1 Provider Complaint Policy**

TMHP takes seriously and acts on each provider complaint. Depending on the level and nature of the complaint, TMHP works with the provider to resolve the issue or directs the complaint to the appropriate department.

The Medical Affairs Division handles complaints that relate to utilization of services (including ER use), denial of continued stay, and all clinical and access issues. This includes provider's appeal of an adverse authorization decision.

If the complaint relates to a medical issue, the Medical Affairs Division staff may assist in resolving the complaint. The provider complaints process applies only to the resolution of disputes within the control of Texas Medicaid, such as administrative or medical issues. The provider complaint process does not apply to allegations of negligence against third parties, including other Texas Medicaid providers. These complaints are referred to HHSC for review and evaluation and are resolved by HHSC.

#### **7.3.4.2 Provider Complaint Process**

The TMHP Complaints Resolution Department Unit handles all provider complaints. The processing of a provider's complaint is described as follows:

- Providers must submit their complaint by telephone or in writing (mail or fax).
- Providers will receive a written acknowledgement letter from TMHP within five business days of receipt of the complaint.
- Referrals to other departments, such as Provider Relations or Medical Affairs, are made when appropriate.
- If the complaint cannot be resolved within 30 calendar days, the provider is notified in writing of the status of the complaint.

Providers who believe they did not receive due process regarding their complaint from TMHP may file a complaint with HHSC. Providers are encouraged to utilize the appeals and grievance process with TMHP before filing a complaint with HHSC.

#### **7.3.4.3 Complaints to HHSC—Texas Medicaid Fee-for-Service**

Texas Medicaid fee-for-service providers may file complaints to the HHSC Claims Administrator Operations Management if they find they did not receive full due process from TMHP in the management of their appeal. Texas Medicaid fee-for-service providers must exhaust the appeals and grievance process with TMHP before filing a complaint with the HHSC Claims Administrator Operations Management.

**Referto:** Subsection 7.3, "Appeals to HHSC Texas Medicaid Fee-for-Service" in this section for information about submission of an appeal to HHSC.

A *complaint* is defined as any dissatisfaction expressed in writing by the provider, or on behalf of that provider, concerning Texas Medicaid. The term *complaint* does not include the following:

- A misunderstanding or a problem of misinformation that is resolved promptly by clearing up the misunderstanding or supplying the appropriate information to the provider's satisfaction.

- A provider's oral or written dissatisfaction with an adverse determination.

Under the complaint process, the HHSC Claims Administrator Operations Management works with TMHP and providers to verify the validity of the complaint, determine if the established due process was followed in resolving appeals and grievances, and addresses other program and contract issues, as applicable.

Complaints must be in writing and received by the HHSC Claims Administrator Operations Management within 60 calendar days from TMHP's written notification of the final appeal decision.

When filing a complaint, providers must submit a letter explaining the specific reasons they believe the final appeal decision by TMHP is incorrect and copies of the following documentation:

- All correspondence and documentation from the provider to TMHP, including copies of supporting documentation submitted during the appeal process.
- All correspondence from TMHP to the provider, including TMHP's final decision letter.
- All R&S Reports of the claims and services in question, if applicable.
- Provider's original claim or billing record, electronic or manual, if applicable.
- Provider's internal notes and logs when pertinent.
- Memos from HHSC or TMHP indicating any problems, policy changes, or claims' processing discrepancies that may be relevant to the complaint.
- Other documents, such as certified mail receipts, original date-stamped envelopes, in-service notes, or minutes from meetings if relevant to the complaint. Receipts can be helpful when the issue is late filing.

Complaint requests may be mailed to the following address:

Texas Health and Human Services Commission  
HHSC Claims Administrator Operations Management  
Mail Code 91X  
PO Box 204077  
Austin, TX 78720-4077

## **7.4 Cost Report Settlement Appeal Process**

A provider who is dissatisfied with the determination contained in the Notice of Program Reimbursement (NPR) from TMHP Medicaid Audit may request an appeal as follows:

- The request for appeal must be in writing.
- The request for appeal must be filed within 180 calendar days from the date of receipt of the NPR.
- If the amount in controversy is at least \$1,000, the request for the appeal must be filed with TMHP Medicaid Audit.
- If the NPR shows that the provider is indebted to Texas Medicaid, TMHP must take the necessary action to recover the overpayment, including a suspension of interim payments. This process will take place even if an appeal has been requested.

### **7.4.1 Appeals to TMHP Medicaid Audit**

A provider's request to appeal his or her NPR must include the following:

- Identify specific individual items in TMHP Medicaid Audit's determination with which the provider disagrees.
- Give the reasons the provider believes these are incorrect.

- Identify the amount in controversy for each item and provide a calculation of that amount.

The appeal may include any materials the provider believes will support its position.

TMHP Medicaid Audit completes a desk review of the appeal within six months of the date of receipt of complete documentation supporting the appeal. TMHP does the following:

- Reviews the materials submitted by the provider.
- Informs the provider if it appears that the request for an appeal was not timely or the amount of controversy is not at least \$1,000.
- Reviews the record that formed the basis for the determination of the total payment due to the provider.
- Attempts to resolve as many points in controversy as possible with the provider and inform him or her in writing the issues that have been resolved and those that the provider may appeal to HHSC.
- Ensures all available documentation in support of the provider or TMHP Medicaid Audit is part of the record.

To appeal to TMHP Medicaid Audit, send the written notice within 120 days of receipt of the NPR letter to the following address:

Texas Medicaid & Healthcare Partnership  
Medicaid Audit Operations Director  
PO Box 200345  
Austin, TX 78720-0345

## 8.1 Third Party Liability (TPL)

Texas Medicaid Third Party Liability program recovers payments from third parties that are responsible for paying towards a medical claim for services rendered to a Texas Medicaid client. A third party resource (TPR) is the entity, individual, or other source (other than Medicaid, Medicaid managed care organizations (MCOs), Medicaid managed care dental plans, the client, non-TPR sources, or Medicare) that is legally responsible for paying the medical claims of Texas Medicaid clients. The Third Party Liability program helps reduce Medicaid costs by shifting claims expenses to third party payers.

As a condition of eligibility, Medicaid clients assign their rights (and the rights of any other eligible individuals on whose behalf he or she has legal authority under state law to assign such rights) to medical support and payment for medical care from any third party to Medicaid.

Federal and state laws require the use of Medicaid funds for the payment of most medical services only after all reasonable measures have been made to use a client's TPR or other insurance. To the extent allowed by federal law, a health-care service provider must seek reimbursement from available third party insurance that the provider knows about or should know about before billing Texas Medicaid. Medicaid pays only after the third party has met its legal obligation to pay (i.e., Medicaid is the payer of last resort). All claims submitted for Texas Medicaid payment for clients with other insurance coverage must reference the information, regardless of whether a copy of the explanation of benefits (EOB) from the insurance company is submitted with the claim.

**Referto:** Subsection 7.2, "Refunds to TMHP" in "Section 7: Appeals" (*Vol. 1, General Information*) for information regarding refunds to TMHP resulting from other insurance payments and conditions surrounding provider billing of third party insurers.

Eligible clients enrolled in private health maintenance organizations (HMOs) must not be charged the co-payment amount because the provider has accepted Medicaid assignment.

## 8.2 Verifying a Client's TPR

Client TPR and other insurance information may be verified using the Your Texas Benefits Medicaid website at [www.yourtexasbenefitscard.com](http://www.yourtexasbenefitscard.com).

To ensure receipt of TPR disposition of payment or denial, providers must obtain an assignment of insurance benefits from the client at the time of service. Providers are asked not to provide claim copies or statements to the client.

Providers that are aware that a client has other health insurance that is not indicated on the Your Texas Benefits Medicaid website must notify TMHP of the details concerning the type of policy and scope of benefits.

Providers can notify TMHP by calling TPR at 1-800-846-7307, sending a fax to 1-512-514-4225, or mailing the Other Insurance Form to the following address:

Texas Medicaid & Healthcare Partnership  
Third Party Resources Unit  
PO Box 202948  
Austin, TX 78720-2948

Any indemnity insurance policy that pays cash to the insured for wages lost or for days of hospitalization rather than for specific medical services is considered a TPR if the policy is assignable to someone else. The Health and Human Services Commission (HHSC) has assignment to any Medicaid applicant's or client's right of recovery from a third party health insurer, to the extent of the cost of medical care services paid by Medicaid. Texas Medicaid requires a provider take all reasonable measures to use a client's TPR before billing Medicaid.

Medicaid-eligible clients may not be held responsible for billed charges that are in excess of the TPR payment for services covered by Texas Medicaid. If the TPR pays less than the Medicaid-allowable amount for covered services, the provider should submit a claim to TMHP for any additional allowable amount.

### 8.3 TPR Sources

A provider who furnishes services and participates in Texas Medicaid may not refuse to furnish services to an eligible client because of a third party's potential liability for payment of the services.

TPR includes payments from any of the following sources:

- Other health insurance including assignable indemnity contract
- Health maintenance organization (HMO)
- Public health programs available to clients with Medicaid such as Medicare and Tricare
- Profit and nonprofit health plan
- Employment-related health insurance
- Self-insured plans
- Casualty coverage resulting from an accidental injury such as automobile or property insurance (including no-fault insurance); No-fault automobile insurance such as personal injury protection (PIP) and automobile medical insurance
- Liability insurance
- Life insurance policies, trust funds, cancer policies, or other supplemental policies
- Workers' Compensation
- Medical support from absent parents
- Court judgments or settlements from a liability insurer
- First party probate-estate recoveries
- Other federal programs unless excluded by statute
- Other liable third parties

Claims for family planning services (including Title XIX and the Department of State Health Services [DSHS] Family Planning Program) must be submitted to TMHP before billing a client's TPR. Federal regulations protect the client's confidential choice of birth control and family planning services. Confidentiality is jeopardized when seeking information from TPRs.

School Health and Related Services (SHARS) providers are not required to file claims with private insurance before billing Medicaid.

Early Childhood Intervention (ECI) providers are not required to file claims with private insurance before billing Medicaid for Targeted Case Management services.

Case Management for Children and Pregnant Women providers are not required to file claims with other health insurance before filing with Medicaid.

THSteps medical and dental providers are not required to bill other insurance before billing Medicaid. If the provider is aware of other insurance, however, the provider must choose whether or not to bill the other insurance. The provider has the following options:

- If the provider chooses to bill the other insurance, the provider must submit the claim to the client's other insurance before submitting the claim to Medicaid.

- If the provider chooses to bill Medicaid and not the client's other insurance, the provider is indicating acceptance of the Medicaid payment as payment in full. Medicaid then has the right to recovery from the other insurance. The provider does not have the right to recovery and cannot seek reimbursement from the other insurance after Medicaid has made payment.
- If the provider learns of other insurance coverage after Medicaid has paid, the provider must refund Medicaid before billing the other insurance.

### 8.3.1 Exceptions

Certain funding sources are an exception to TPR. Adoption agencies or foster parents are not considered a TPR. Medicaid is primary in the STAR Health program (except when court-ordered to provide health insurance). This is an exception to the rule that Medicaid is payer of last resort. Providers must not bill other health insurance unless there is a court order that places this responsibility elsewhere. For Texas Health Steps (THSteps), providers must refer to the MCO, or dental plan that administers the client's managed care benefits for additional information.

**Referto:** Subsection B.4.2, "Cost Avoidance Coordination of Benefits" in "Appendix B: Vendor Drug Program" (*Vol. 1, General Information*) for more information about pharmacy exceptions to TPR.

Non-TPR sources are secondary to Texas Medicaid and may only pay benefits after Texas Medicaid. The following are the most common non-TPR sources:

- Department of Assistive and Rehabilitative Services (DARS), Blind Services
- Texas Kidney Health Care Program
- Crime Victims' Compensation Program
- Muscular Dystrophy Association
- Children with Special Health Care Needs (CSHCN) Services Program
- Texas Band of Kickapoo Equity Health Program
- Maternal and Child Health
- DSHS Family Planning Program
- State Legalization Impact Assistance Grant (SLIAG)
- Adoption Agencies
- Home and Community-based Waivers Programs through the Department of Aging and Disability Services (DADS)

If providers have questions about others not listed, they may contact a provider relations representative.

**Note:** *Claims for clients who are seeking disability determination must be submitted to DARS for consideration of reimbursement. Refer to the DARS website at [www.dars.state.tx.us](http://www.dars.state.tx.us) for additional information about disability determinations and claims filing.*

Denied claims or services that are not a benefit of Medicaid may be submitted to non-TPR sources.

If a claim is submitted inadvertently to a non-TPR source listed above before submission to TMHP, the claim may be submitted to TMHP within the filing deadlines.

**Referto:** Subsection 6.1.4, "Claims Filing Deadlines" in "Section 6: Claims Filing" (*Vol. 1, General Information*).

If a non-TPR source erroneously makes a payment for a dual-eligible client for services also covered by Medicaid, the payment is refunded to the non-TPR source.

### 8.3.1.1 Adoption Cases

Texas Medicaid, not the adoption agency, should be billed for all medical services that are a benefit of Texas Medicaid. If a claim is inadvertently sent to the adoption agency before it is sent to TMHP, TMHP must receive the claim within 95 days of the date of disposition from the adoption agency denial, payment, requests for refund or recoupment, to be considered for payment.

If the adoption agency inadvertently makes a payment for services that are covered by Medicaid, the provider must refund the payment to the agency.

**Referto:** Subsection 6.1.4, “Claims Filing Deadlines” in “Section 6: Claims Filing” (*Vol. 1, General Information*).

A copy of the non-TPR disposition must be submitted with the claim and received at TMHP within 95 days of the date of the disposition (denial, payment, request for refund, or recoupment of payment by the non-TPR source).

## 8.4 Non-TPR Sources

A non-TPR is secondary to Texas Medicaid and may only pay benefits after Texas Medicaid. Non-TPR sources include, but are not limited to, accident-only policies, Medicare Part A and Part B, Medicare Part D - Medicare Prescription Drug Plan (PDP), managed care plans, Indigent Health Care, and Medicaid/Children’s Health Insurance Program (CHIP).

The provider bills TMHP directly within 95 days from the date of service. However, if a non-TPR is billed first, TMHP must receive the claim within 95 days of the claim disposition by the other entity.

**Note:** *The provider must submit a copy of the disposition with the claim.*

## 8.5 TPL for Hospitals

Inpatient and outpatient hospitals and providers enrolled in Texas Medicaid are required to inform TMHP about circumstances that may result in third party liability for health-care claims. After receiving this information, TMHP pursues reimbursement from responsible third parties.

Hospitals and providers must fax the Other Insurance Form for Health Insurance or the Tort Response Form for accidents to 1-512-514-4225 or mail it to the following address:

Texas Medicaid & Healthcare Partnership  
TPL Correspondence  
Third Party Liability Unit  
PO Box 202948  
Austin, TX 78720-2948

## 8.6 TPL for Managed Care

Medicaid MCO and dental plan claims payments for services rendered to Texas Medicaid managed care clients are subject to the federal and state requirement for other insurance payments. As directed by HHSC, Texas Medicaid will recover payments based on claims data processed by the Medicaid MCO or dental plan.

TPR includes payments from any of the following sources:

- Other health insurance, including assignable indemnity contracts
- Commercial MCOs (other insurance available through a source other than Texas Medicaid or Medicare)

A provider who furnishes services and participates in Texas Medicaid may not refuse to furnish services to an eligible client because of a third party’s potential liability for the payment of the services.

## 8.7 Tort

HHSC contracts with TMHP to administer third party liability cases. To ensure that Texas Medicaid is the payer of last resort, TMHP performs postpayment investigations of potential casualty and liability cases. TMHP also identifies and recovers Medicaid expenditures in casualty cases involving Medicaid clients.

The Human Resources Code, chapter 32, section 32.033 establishes automatic assignment of a Medicaid client's right of recovery from personal insurance as a condition of Medicaid eligibility.

Investigations are a result of referrals from many sources, including attorneys, insurance companies, health-care providers, Medicaid clients, and state agencies. Referrals should be faxed to 1-512-514-4225 or mailed to:

TMHP TPL/Tort Department  
PO Box 202948  
Austin, TX, 78720-2948

Referrals must be submitted on the English or Spanish version of the Authorization for Use and Release of Health Information on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

TMHP releases Medicaid claims information when an HHSC Authorization for Use and Release of Health Information Form is submitted. The form must be signed by the Medicaid client. Referrals are processed within ten business days.

**Referto:** Authorization for Use and Release of Health Information on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

An attorney or other person who represents a Medicaid client in a third party claim or action for damages for personal injuries must send written notice of representation. The written notice must be submitted within 45 days of the date on which the attorney or representative undertakes representation of the Medicaid client, or from the date on which a potential third party is identified. The following information must be included:

- The Medicaid client's name, address, and identifying information.
- The name and address of any third party or third party health insurer against whom a third party claim is or may be asserted for injuries to the Medicaid client.
- The name and address of any health-care provider that has asserted a claim for payment for medical services provided to the Medicaid client for which a third party may be liable for payment, whether or not the claim was submitted to or paid by TMHP.

If any of the information described above is unknown at the time the initial notice is filed, it should be indicated on the notice and revised if and when the information becomes known.

An authorization to release information about the Medicaid client directly to the attorney or representative may be included as a part of the notice and must be signed by the Medicaid client. The HHSC Authorization for Use and Release of Health Information Form must be used.

HHSC must approve all trusts before any proceeds from a third party are placed into a trust.

Providers may direct third party liability questions to the TMHP TPL/Tort Contact Center at 1-800-846-7307.

### 8.7.1 Accident-Related Claims

TMHP monitors all accident claims to determine whether another resource may be liable for the medical expenses of clients with Medicaid coverage. Providers are requested to ask clients whether medical services are necessary because of accident-related injuries. If the claim is the result of an accident, providers enter the appropriate code and date in Block 10 of the CMS-1500 paper claim form, and Blocks 31-34 on the UB-04 CMS-1450 paper claim form.

If payment is immediately available from a known third party such as Workers' Compensation or Personal Injury Protection (PIP) automobile insurance, that responsible party must be billed before Medicaid, and the insurance disposition information must be filed with the Medicaid claim. If the third party payment is substantially delayed because of contested liability or unresolved legal action, a claim may be submitted to TMHP for consideration of payment.

TMHP processes the liability-related claim and pursues reimbursement directly from the potentially liable party on a postpayment basis. Include the following information on these claims:

- Name and address of the liable third party
- Policy and claim number
- Description of the accident including location, date, time, and alleged cause
- Reason for delayed payment by the liable third party

#### **8.7.1.1 Accident Resources, Refunds**

Acting on behalf of HHSC, TMHP has specific rights of recovery from any settlement, court judgment, or other resources awarded to a client with Medicaid coverage (Texas Human Resources Code, Chapter 32.033). In most cases, TMHP works directly with the attorneys, courts, and insurance companies to seek reimbursement for Medicaid payments. If a provider receives a portion of a settlement for services also paid by Medicaid, the provider must make a refund to TMHP. Any provider filing a lien for the entire billed amount must contact the TPL/Tort Department at TMHP for Medicaid postpayment activities to be coordinated. A provider may not file a lien for the difference between the billed charges and the Medicaid payment. A lien may be filed for services not covered by Medicaid. A lien is the liability of the client with Medicaid coverage.

Providers should contact the TPL/Tort Department at TMHP after submitting an itemized statement and/or claim copies for any accident-related services billed to Medicaid if they received a request from an attorney, a casualty insurance company, or a client.

The provider must submit the following information to TMHP:

- Client's name
- Medicaid ID number
- Dates of service involved
- Name and address of the attorney or casualty insurance company (including the policy and claim number)

This information enables TMHP to pursue reimbursement from any settlement. Providers must use the Tort Response Form to report accident information to TMHP. When the form is completed, providers must remit it to the TMHP TPL/Tort Department (the address and fax number are on the form).

Providers may contact the TMHP TPL/Tort Department by calling 1-800-846-7307, Option 3, sending a fax to 1-512-514-4225, or mailing to the following address:

Texas Medicaid & Healthcare Partnership  
TPL/Tort Department  
PO Box 202948  
Austin, TX 78720-2948

#### **8.7.1.2 Workers' Compensation**

Payment of covered services under Workers' Compensation is considered reimbursement in full. The client must not be billed. Services not covered by Workers' Compensation must be billed to TMHP.

### 8.7.2 Providers Filing Liens for Third Party Reimbursement

Any provider filing a lien for the entire billed amount must contact the TMHP TPL/Tort Department for Medicaid postpayment activities to be coordinated.

A provider may file a lien for the entire billed amount only after meeting the criteria in Title 1 Texas Administrative Code (TAC) §354.2322. Providers who identify a third party, within 12 months of the date of service, and wish to submit a bill or other written demand for payment or collection of debt to a third party after a claim for payment has been submitted and paid by Medicaid must refund any amounts paid before submitting a bill or other written demand for payment or collection of debt to the third party for payment, and they must comply with the provisions set forth in 1 TAC §354.2322, which states:

Providers may retain a payment from a third party in excess of the amount Medicaid would otherwise have paid only if the following requirements are met:

- The provider submits an informational claim to TMHP within the claims filing deadline. (Refer to subsection 8.7.3, “Informational Claims” in this section.)
- The provider gives notice to the client or the attorney or representative of the client that the provider may not or will not submit a claim for payment to Medicaid and the provider may or will pursue a third party, if one is identified, for payment of the claim. The notice must contain a prominent disclosure that the provider is prohibited from billing the client or a representative of the client for any Medicaid-covered services, regardless of whether there is an eventual recovery or lack of recovery from the third party or Medicaid.
- The provider establishes the right to payment separate of any amounts claimed and established by the client.
- The provider obtains a settlement or award in its own name separate from a settlement obtained by or on behalf of the client or award obtained by or on behalf of the client, or there is an agreement between the client or attorney or representative of the client and the provider, that specifies the amount that will be paid to the provider after a settlement or award is obtained by the client.

### 8.7.3 Informational Claims

If providers determine that a third party may be liable for a Medicaid client’s accident-related claim, they can submit an informational claim to the TMHP Tort Department to indicate that a third party is being pursued for payment. This allows providers to secure the 95-day claims filing deadline in the event that the payment is not received from the third party.

TMHP processes informational claims for all claims administered by TMHP, including fee-for-service claims and carve-out services. TMHP does not process informational claims for managed care claims that are administered by the client’s MCO or dental plan.

### 8.7.4 Submission of Informational Claims

Providers must submit informational claims to TMHP:

- On a CMS-1450 UB-04 or CMS-1500 paper claim form. Informational claims cannot be submitted to TMHP electronically or by fax.
- On an Informational Claims Submission Form. Providers should complete only one form per client, regardless of how many separate informational claims are being submitted with the form.
- By certified mail.
- Within the 95-day claims filing deadline. Informational claims will not be accepted after the 95-day claims filing deadline.

**Referto:** Informational Claims Submission Form on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

Providers must complete either the Insurance Information field (liable third party) or the Attorney Information field on the Informational Claims Submission Form.

Providers must send the informational claims and the Informational Claims Submission Form by certified mail to TMHP at:

TMHP TPL/Tort Department  
PO Box 202948  
Austin, TX 78720-2948

TMHP will send providers a letter to confirm that the informational claim was received. The letter will provide the date on which TMHP must receive a request from the provider to convert the informational claim to a claim for payment. If TMHP receives an informational claim that cannot be processed, TMHP will notify the provider of the reason.

Providers can inquire about the status of an informational claim by calling the TMHP TPL/Tort Department at 1-800-846-7307. If a provider has not received confirmation that TMHP has received the informational claim within 30 days, the provider should contact the TMHP TPL/Tort Department at 1-800-846-7307 to validate the status of the request.

### **8.7.5 Informational Claim Converting to Claims for Payment**

If providers have submitted an informational claim to TMHP but have not received payment from the liable third party, they must make one of the following determinations and notify TMHP within 18 months of the date of service:

- Providers can continue to pursue a claim for payment against the third party and forego the right to convert an informational claim to a claim for payment by Texas Medicaid.
- Providers can submit a request to convert the informational claim to a claim for payment consideration from Texas Medicaid.

Providers that decide to convert an informational claim to a claim for payment consideration must submit a request to TMHP. The request must be submitted:

- On provider letterhead.
- With the client's name and Medicaid ID, the date of service, and total billed amount that was originally submitted on the UB-04 CMS-1450 or CMS-1500 paper claim form.
- By fax 1-512-514-4225 or by mail to:

TMHP/Tort Department  
PO Box 202948  
Austin, TX 78720-2948

TMHP will not accept any conversion request that is submitted more than 18 months after the date of service, regardless of whether an informational claim was submitted timely to TMHP. All payment deadlines are enforced regardless of whether the provider decides to pursue a third party claim. The conversion of informational claims to actual claims is not a guarantee of payment by TMHP.

## **8.8 Other Insurance Claims Filing**

The following information must be provided in the "Other Insurance" field on the paper claim and in the appropriate field of electronic claims. On the CMS-1500 paper claim form, Blocks 9 or 11, and 29 must contain the appropriate information:

- Name of the other insurance resource
- Address of the other insurance resource
- Policy number and group number

- Policyholder
- Effective date if available
- Date of disposition by other insurance resource (used to calculate filing deadline)
- Payment or specific denial information

**Important:** *By accepting assignment on a claim for which the client has Medicaid coverage, providers agree to accept payment made by insurance carriers and Texas Medicaid when appropriate as payment in full. The client cannot be held liable for any balance or copays related to Medicaid-covered services.*

### **8.8.1 Unbundled Services That Are Prior Authorized and Manually Priced Procedure Codes**

Providers that submit prior authorization requests and claims to TMHP must:

- Unbundle any bundled procedure codes that have been submitted to the client's other insurance company.
- Itemize the rates.

If prior authorization has been obtained for services that use manually priced procedure codes, providers must submit claims for the services using the manufacturer's suggested retail price (MSRP) that was submitted with the authorization request and the following information that is listed on the authorization letter:

- The authorization number
- The provider identifier
- The procedure codes
- The dates of service
- The types of service
- The required modifiers

If the authorization letter shows itemized details, the claim must include all rendered services as they are itemized on the authorization letter and the MSRP rate for each of those services. The procedure codes and MSRP rates that are detailed on the claim must match the procedure codes that are detailed in the authorization letter and the MSRP rates that were submitted with the authorization request. Claims processing and payment may be delayed if there is not an exact match between the detailed information on the authorization letter, the approved authorization, and the information that was submitted on the claim.

**Important:** *For appropriate processing and payment, the Pay Price that is indicated on the authorization letter should not be submitted on the claim.*

Prior authorization is a condition of reimbursement; it is not a guarantee of payment.

### **8.8.2 Other Insurance Credits**

Providing other insurance payment information, even when no additional payment is expected from TMHP, provides benefit to all parties involved in Texas Medicaid. When a TPR issues a payment or partial payment to a provider, the other insurance credit must be indicated on the claim form submitted to TMHP.

This procedure benefits both providers and TMHP even if the TPR payment exceeds the Medicaid allowed amount. Although additional payment may not be issued by TMHP, informing TMHP of the other insurance credit allows TMHP to track the appropriate use of TPRs. Informing TMHP of a TPR

credit provides hospitals with a more accurate standard dollar amount (SDA) rate setting and assists the program in tracking recoveries and reducing Medicaid medical expenditures by informing TMHP of liable third parties.

Providers must report TPR payments correctly in the appropriate electronic field or the paper claim form block as follows:

| Claim Form     | Reference                                 |
|----------------|---|
| CMS-1500       | Block 29, CMS-1500 Blank Claim Form       |
| UB-04 CMS-1450 | Block 54, UB-04 CMS-1450 Blank Claim Form |
| THSteps Dental | Block 31, 2012 ADA Dental Claim Form      |

**Referto:** “Section 6: Claims Filing” (*Vol. 1, General Information*) for claim filing instructions.

### 8.8.2.1 Deductibles

TMHP will consider deductibles for reimbursement when the original third party payor applied the payment amount directly to the client’s deductible. The explanation of benefit reflecting the application of the payment by the other insurance (third party payor) and a completed signed claim copy must be submitted to TMHP for consideration.

### 8.8.2.2 HMO Copayments

TMHP processes and pays HMO copayments for private and Medicare HMOs as well as private and Medicare preferred provider organization (PPO) copayments for clients who are eligible for reimbursement under Medicaid guidelines.

TMHP pays the copayment in addition to the service the HMO or PPO has denied, if the client is eligible for Texas Medicaid and the procedure is reimbursed under Medicaid guidelines. Providers are not allowed to hold the client liable for the copayment.

An office or emergency room (ER) visit (the ER physician is paid only when the ER is not staffed by the hospital) is reimbursed a maximum copayment of \$10 per visit. The hospital ER visit is reimbursed at a maximum of \$50 to the facility. TMHP pays up to four copayments per day, per client. ER visits are limited to one per day, per client, and are considered one of the four copayments allowed per day.

**Important:** *By accepting assignment on a claim for which the client has Medicaid coverage, providers agree to accept payment made by insurance carriers and Texas Medicaid when appropriate as payment in full. The client cannot be held liable for any balance related to Medicaid-covered services.*

The following Medicaid codes have been created for copayments, which are considered an atypical service:

| POS 1 - Office | Description                        |
|----------------|------------------------------------|
| CP001          | Private HMO copayment-professional |
| CP002          | Private PPO copayment-professional |

| POS 5 - Outpatient | Description                      |
|--------------------|----------------------------------|
| CP005              | Private HMO copayment-outpatient |
| CP006              | Private PPO copayment-outpatient |

**Important:** *Providers must submit a new claim when filing for procedure codes CP001 and CP002. No explanation of benefits (EOB) or any other accompanying documentation is required to be attached to the claim form when filing for these services.*

### **8.8.2.3 PPO Discounts**

PPO discounts are not considered a part of other insurance payments. Electronic submitters must supply the PPO discount amount when submitting other insurance information; however, this information is not included in the total other insurance payment during claims processing. Paper submitters are not required to add the PPO discount to the other insurance payment.

### **8.8.2.4 Verbal Denial**

Providers may call the other insurance resource and receive a verbal denial. The other insurance record can either be updated when the provider files the claim or calls the TPL/Tort Customer Service line at 1-800-846-7307. When calling the TPL/Tort Customer Service line and when filing claims to TMHP, the provider must have the following information before any updates are made.

Verbal denial requirements:

- Date of the telephone call to the other insurance resource
- Insurance company's name and telephone number
- Name of the individual contacted at the insurance company
- Policyholder and group information for the client
- Specific reason for the denial, including the client's type of coverage to enhance the accuracy of future claims processing (for example, a policy that covers inpatient services or physician services only)

Providers that update a client's insurance records through the TMHP TPL/Tort Customer Service line must follow the current appeal process once the other insurance information has been updated on the client's file.

### **8.8.2.5 110-Day Rule**

When a service is billed to a third party and no response has been received, Medicaid providers must allow 110 days to elapse before submitting a claim to TMHP. If a TPR has not responded or delays payment or denial of a provider's claim for more than 110 days after the date the claim was billed, Medicaid considers the claim for reimbursement. However, the 365-day federal filing deadline requirement must still be met. The following information is required:

- Name and address of the TPR
- Date the TPR was billed
- Statement signed and dated by the provider that no disposition has been received from the TPR within 110 days of the date the claim was billed

When TMHP denies a claim because of the client's other coverage, information that identifies the other insurance appears on the provider's Remittance and Status (R&S) Report. The claim is not to be refiled with TMHP until disposition from the TPR has been received or until 110 days have lapsed since the billing of the claim with no disposition from the TPR. A statement from the client or family member which indicates that they no longer have this resource is not sufficient documentation to reprocess the claim.

When a provider is advised by a TPR that benefits have been paid to the client, the information must be included on the claim with the date and amount of payment made to the client if available. If a denial was sent to the client, refer to the verbal denial guidelines above for required information. This enables TMHP to consider the claim for reimbursement.

### **8.8.2.6 Filing Deadlines**

In accordance with federal regulations, all claims must initially be filed with TMHP within 365 days of the date of service (DOS). Claims that involve filing to a TPR have the following deadlines:

- Claims with a valid disposition (payment or denial) must be received by TMHP within 95 days of the date of disposition by the TPR and within 365 days of the DOS. Appealed claims that were originally denied with EOB 00260, which indicates that the provider files with a TPR, must be received within 95 days of the date of disposition by the TPR or within 120 days of the date on which TMHP denied the claim.
- The provider must appeal the claim to TMHP with complete other insurance information, which includes all EOBs and disposition dates. The disposition date is the date on which the other insurance company processed the payment or denial.
- If a provider submits other insurance EOBs without disposition dates, the appeal will be denied. If the other insurance disposition date appears only on the first page of an EOB that has multiple pages and the claim that is being submitted to TMHP is on a subsequent page or pages, the provider must submit the first page that shows the disposition date and all of the pages that show the claim that is being submitted to TMHP.
- If more than 110 days have passed from the date a claim was filed to the TPR without a response, the claim is submitted to TMHP for consideration of payment.

### **8.8.3 Claims Forwarded to Other Insurance Carriers**

Federal and state laws require the use of Medicaid funds for the payment of most medical services only after all reasonable measures have been made to use a client's TPR or other insurance. Providers are required to submit clients' known other insurance to TMHP.

TMHP forwards electronic institutional claims for clients suspected of having other insurance to a contractor. The contractor researches the claims to determine the client's possible other insurance information. If it is determined that the client has valid other insurance for the claim's date of service and the insurance carrier is listed below, the contractor will forward the claim to the selected insurance carrier.

Provider will receive a denial EOB from TMHP on the R&S Report that will indicate that the claim was forwarded to the client's other insurance carrier.

If the other insurance carrier denies the claim, the provider should first exhaust all avenues to appeal the claim with the other insurance carrier. If the final disposition is a denial, the provider may appeal the claim to TMHP using the carrier's EOB showing the denial. Providers must review their R&S Reports to ensure that any follow-up action is taken within the appeal deadlines.

TMHP will not forward the following claim types to the contractor:

- Electronic institutional claims that are rejected by TMHP
- Electronic institutional Texas Medicaid fee-for-service adjustments
- Suspended or finalized claims
- Claims that are part of mass adjustments originating from TMHP
- All other electronic claim types (professional and dental)
- All Medicare crossover claims
- All National Provider Identifier (NPI) contingent claims
- All paper claims
- School Health and Related Services (SHARS) claims
- Early Childhood Intervention (ECI) claims

- CSHCN Services Program claims
- County Indigent Health Care Program (CIHCP) claims
- PCS claims
- Case Management for Children and Pregnant Women claims
- Claims that are rejected by the Contractor for Health Insurance Portability and Accountability Act (HIPAA) validation failures
- THSteps medical and dental claims

**Referto:** Subsection 8.8, “Other Insurance Claims Filing” in this section.

Subsection 6.12.2.5, “Filing Deadlines” in “Section 6: Claims Filing” (*Vol. 1, General Information*) for information about filing deadlines for clients with other insurance.

## 8.9 Other Insurance Appeals

To appeal a claim denial due to other insurance coverage, the provider must submit complete other insurance information including the disposition date. The disposition date indicates when the other insurance company processed the payment or denial. An appeal submitted without this information will be denied.

If submitting a paper appeal the provider must submit EOBs containing disposition dates. If the disposition date appears only on the first page of an EOB that has multiple pages and the claim that is being appealed is on a subsequent page, the provider must also include the first page of the EOB that shows the disposition date.

**Note:** *Claims denied for TPL/other insurance cannot be appealed through the TMHP Automated Inquiry System (AIS).*

## 8.10 Refunds Resulting from Other Insurance Payments

The TMHP Cash Reimbursement Unit is responsible for processing financial adjustments when overlapping payments by Medicaid and a TPR occur.

Providers can use the Texas Medicaid Refund Information Form to:

- Refund the overpayment by issuing a check to TMHP. Providers must submit the refund check to TMHP along with the Texas Medicaid Refund Information Form and all required information requested on the form.
- Request that the claim be reprocessed and the money recouped. The overpayment will be reduced from next weekly payment made after claims are processed.

**Referto:** The [Texas Medicaid Refund Information Form](#), which is available in the Forms section of the TMHP website at [www.tmhp.com](http://www.tmhp.com).

If the amount paid by the other insurance carrier is less than Medicaid’s allowed amount, providers may bill TMHP for the difference. All claims must meet all timely filing deadlines.

Providers are prohibited from receiving payment from Medicaid and billing a TPR without refunding the Medicaid payment.

If within 12 months of the date of service a provider identifies that the client has other insurance and wants to submit a claim for payment to the other insurance company, the provider must refund any amounts previously paid by TMHP before submitting the claim to the other insurance.

If other insurance paid for the services submitted on the claim, the provider must submit the following to TMHP:

- The exact amount paid.
- The insurance company's name and address.
- The client's policy number and group number.

Providers are limited to the Medicaid allowed amount for the services. Providers are required to accept the TMHP paid amount as payment in full. If the provider fails to refund a payment to TMHP before submitting a claim to the other insurance, TMHP will recoup the entire other insurance payment.

In accordance with 1 TAC §§354.2321 [g] and 354.2322 [i], providers that do not follow TPR rules "may be referred for investigation and prosecution for violations of state or federal Medicaid or false claims laws." Providers should refer to the full text of these rules for a full description of payment requirements.

## 8.11 Contact Information

### TPL/Tort Telephone and Fax Communication

### A.11 Written Communication With TMHP

All CMS-1500 forms (excluding ambulance, radiology/laboratory, immunization services, rural health, and mental health rehabilitation) sent to TMHP for the first time, as well as claims being resubmitted because they were initially denied as incomplete claims, must be sent to the following address:

Texas Medicaid & Healthcare Partnership  
Claims  
PO Box 200555  
Austin, TX 78720-0555

The post office box addresses must be used for the specific items listed in the following table:

| Correspondence  | Address   |
|---|---|
| Appeals/adjustments of claims (except zero paid/zero allowed on Remittance & Status [R&S] Reports)                | Texas Medicaid & Healthcare Partnership<br>Appeals/Adjustments<br>PO Box 200645<br>Austin, TX 78720-0645              |

## A.12 Other TMHP Information

### A.12.1 TMHP Website

The TMHP website at [www.tmhp.com](http://www.tmhp.com) is a valuable resource that provides:

- Provider education information and registration for upcoming education/training sessions (i.e., live workshops, webinars, computer-based training, and audio content).
- Publications, such as bulletins, banner messages, and provider manuals.
- A TMHP News section with announcements of program changes and other important information.
- Real-time and static fee schedules.
- Forums, polls, and questionnaires.
- Online provider enrollment.
- Complete instructions for setting up a Provider Administrator account and the use of online claims status inquiries (CSI), eligibility verification, and Electronic Remittance and Status (ER&S) Reports.

Additional advanced features are available for those providers who create an account. All enrolled providers are eligible for this free account. Once an account is activated, providers will have access to:

- Texas Medicaid enrollment information.
- CSIs.
- Eligibility verification.

- ER&S Report download option.
- Claims submission.
- Claims appeals.
- Online provider lookup.
- Online fee lookup (OFL) to obtain real-time fee information for an individual or a range of procedure codes. Benefits and limitations for certain services and history up to 2-years is also available.
- Payment amounts search, view, and print capabilities.
- Notification of an invalid address on file for any Texas Provider Identifier (TPI) associated with a provider's National Provider Identifier (NPI).
- Notification of pending payments because of inaccurate or incomplete provider information.
- Manage hospital admission and discharge information on clients residing in an institution for mental diseases (IMD)

**Important:** *Natural disasters, such as floods or hurricanes, can impact the delivery of health care to Texas Medicaid clients. When disaster strikes, providers should monitor the TMHP website for special instructions.*

New services are always being added to the website. Please visit [www.tmhp.com](http://www.tmhp.com) for the latest information on TMHP online services.

### **A.12.2 TMHP Contact Center**

The TMHP Contact Center is available from 7 a.m. to 7 p.m., Central Time, Monday through Friday.

The TMHP Contact Center assists with questions such as:

- Provider enrollment procedures
- Claims filing procedures
- Policy information

The TMHP Contact Center is available to assist providers and clients. Please review the telephone and fax communication guides in this section for a list of contact telephone and fax numbers.

Provider calls, including those that were previously made to the Provider Relations territory representatives, are now handled first by the Contact Center. The Contact Center is well equipped to handle most inquiries about benefits and claims.

If the Contact Center representative determines that an inquiry can best be handled by the TMHP Provider Relations department, the inquiry will be forwarded to Provider Relations. For example, providers who want to talk to their Provider Relations representative about a visit, in-service, or training, can call the Contact Center, and the Contact Center will forward the request to Provider Relations.

Resolution of more complex issues that are referred to Provider Relations for further analysis can take up to 30 days from the date of the referral. For these issues, Provider Relations will contact the provider by telephone or e-mail when the issue has been resolved.

For questions or information about Medicaid eligibility, clients are referred to their caseworker or the local HHSC office.

### **A.12.3 Automated Inquiry System (AIS)**

AIS provides the following information and services through the use of a touch-tone telephone:

- Claim status

- Patient eligibility
- Benefit limitations
- Medically Needy case status
- Family Planning
- Current weekly payment amount
- Claim appeals.

Eligibility and claim status information is available on AIS 23 hours a day, 7 days a week, with scheduled down time between 3 a.m. and 4 a.m., Central Time. All other AIS information is available from 7 a.m. until 7 p.m., Central Time, Monday through Friday. AIS offers 15 transactions per call.

For full instructions on the use and benefits of AIS, refer to the “[Automated Inquiry System \(AIS\) User’s Guide](#)” available on [www.tmhp.com](http://www.tmhp.com) or call the TMHP Contact Center at 1-800-925-9126 for faxed instructions.

#### **A.12.4 TMHP Provider Relations**

The TMHP Provider Relations Department comprises a staff of Austin- and field-based provider relations representatives whose goal is to serve the health-care community by furnishing a variety of services and activities designed to inform and educate health-care providers about Texas Medicaid activities and claim submission procedures.

Provider Relations activities include the following:

- *Provider education through planned events.* Provider Relations representatives conduct a planned program of educational workshops, in-services, webinars, computer-based training (CBT), and other training sessions designed to keep all actively-enrolled providers informed of the latest policies, claim processing procedures, and federal and state regulations affecting Texas Medicaid. Details of all available provider training can be found in the [Provider Education section](#) of the TMHP website at [www.tmhp.com](http://www.tmhp.com).
- *Problem identification and resolution.* A staff of research coordinators is available to assist providers with clarification of Medicaid policies and assist with in-depth problem claim submission issues after initial inquiries are made with the TMHP Contact Center. Coordinators work closely with field-based regional representatives to coordinate the educational needs of the community.
- *Relationship with professional health-care organizations.* To ensure that Texas associations that represent health-care professions have up-to-date information about the requirements for participation in Texas Medicaid, the Provider Relations Department maintains a work relationship with these organizations. Also, the Provider Relations Department participates in several events sponsored by Texas health-care associations, such as conventions and conferences.

Call the TMHP Contact Center at 1-800-925-9126 for assistance.

#### **A.12.5 Reporting a Complaint to TMHP**

Providers can report complaints by calling the TMHP Contact Center at 1-800-925-9126 or by submitting a written complaint to:

TMHP  
Complaints Resolution Department  
PO Box 2014270  
Austin, TX 778720-4270

A complaint is defined as any dissatisfaction concerning any aspect of Texas Medicaid. The term “complaint” does not include a misunderstanding or a problem with misinformation that is resolved promptly by clearing up the misunderstanding or supplying the appropriate information to the provider’s satisfaction.

Providers should submit the following information when reporting the complaint:

- Point of contact name and phone number or email address
- Provider name
- Provider TPI, if available
- Description of the complaint situation
- Client name
- Client PCN
- Date of service

### **A.12.6 TMHP Electronic Data Interchange (EDI) Help Desk**

The TMHP EDI Help Desk assists Medicaid providers with EDI transactions. The TMHP EDI Help Desk is available at 1-888-863-3638 from 7 a.m. to 7 p.m., Central Time, Monday through Friday.

TMHP EDI Help Desk activities and responsibilities include, but are not limited to, the following:

- Enrolling providers for electronic billing
- Qualifying vendors for TMHP EDI production through testing
- Diagnosing claim transmission problems through research
- Consulting with provider billing personnel, billing services, and software vendors regarding TMHP EDI

TMHP EDI Help Desk staff assists with questions about TMHP EDI, TexMedConnect, and electronic transmissions at 1-888-863-3638.

Providers who employ hardware or software vendors should contact those vendors for the resolution of technical problems.

## B.1 Vendor Drug Program Information

### B.1.1 Pharmacy Benefit

The Texas Vendor Drug Program (VDP) provides statewide access to prescription drugs as prescribed by treating physician or other healthcare provider for clients eligible for:

- Medicaid (fee-for-service and managed care).
- Children's Health Insurance Program (CHIP).
- Children with Special Health Care Needs (CSHCN) Services Program.
- Healthy Texas Women (HTW) Program.
- Kidney Health Care (KHC) Program.

VDP manages the Medicaid and CHIP drug formularies and Medicaid preferred drug list.

**Note:** *Pharmacy services rendered to Medicaid managed care clients are administered by a person's managed care organization (MCO).*

**Referto:** The *Medicaid Managed Care Handbook (Vol. 2, Provider Handbooks)* for additional information about managed care prescription drug and pharmacy benefits.

### B.1.2 Pharmacy Enrollment

VDP enrolls any eligible, in-state pharmacy licensed as Class A or C by the Texas State Board of Pharmacy.

Any out-of-state pharmacy or pharmacy holding any other class of pharmacy license are considered for inclusion in the program on a case-by-case basis, relative to the benefits made available to the person eligible for pharmacy benefits. Enrollment is not granted unless additional benefits to the recipient are established.

Pharmacy providers must be enrolled with VDP prior to providing outpatient prescription services and prior to participating in any Medicaid managed care network as a pharmacy provider. To participate in the Medicaid or CHIP managed care networks the pharmacy must contact the individual managed care organization.

Pharmacy providers that have enrolled with VDP should refer to the Texas Pharmacy Provider Procedure Manual for policies and procedures pertaining to fee-for-service outpatient pharmacy claims, including drug benefit guidance, pharmacy prior authorization, coordination of benefits, and drug pricing and reimbursement.

**Referto:** The [Texas Pharmacy Provider Procedure Manual](#) on the VDP website.

### B.1.3 Program Contact Information

| Vendor Drug Program   | Telephone Number |
|---|------------------|
| Pharmacy Benefits Access: for questions about outpatient drug and billing (the 800 number is for pharmacy use only and can be used to reach any area within VDP). | 1-800-435-4165   |
| Pharmacy enrollment   | 1-512-462-6317   |
| Program management  | 1-512-707-6108   |
| Program Policy  | 1-512-707-6108   |
| Drug formulary (Texas listing of national drug codes)   | 1-512-462-6390   |

| Vendor Drug Program                               | Telephone Number |
|---|------------------|
| Texas Pharmacy Prior Authorization Center Hotline | 1-877-728-3927   |
| Texas Pharmacy Third Party Call Center            | 1-866-389-5594   |

## B.2 Drug Information

The VDP formulary includes legend and over-the-counter drugs. In addition certain supplies and select vitamin and mineral products are also available as a pharmacy benefit. Some drugs are subject to one or both types of prior authorization, clinical and non-preferred. VDP does not reimburse claims for nutritional products (enteral or parenteral), medical supplies, or equipment other than a limited set of home health supplies.

The Preferred Drug List (PDL) is arranged by drug therapeutic class, and contains a subset of many, but not all, drugs that are on the Medicaid formulary. Most drugs are identified as preferred or non-preferred. Drugs listed on the PDL as preferred or not listed at all are available to individuals without prior authorization unless there is a clinical prior authorization associated with that drug. For more information about prior authorization, refer to section B.4, below.

### B.2.1 Formulary Search

The VDP Formulary Search is an online tool available to health-care providers to help people get access to medications.

Users search by either brand or generic name of the drug or product, the 11-digit national drug code (NDC), the PDL drug class, or type of home health supply. Detailed filters allow searches for drugs that require either clinical and/or non-preferred prior authorization, drugs used for family planning or are diabetic supplies, or have 90 percent refill utilization. Users can also search program-specific formularies for CHIP, the CSHCN Services Program, HTW Program, or KHC Program.

**Referto:** The [Formulary Search](#) on the VDP website for more information.

Providers are also eligible to register for Epocrates (epocrates.com), which is a free drug information service that can be downloaded to a mobile device. In addition to listing a drug's preferred status, Epocrates includes drug monographs, dosing information, and warnings.

### B.2.2 Vitamin and Mineral Products

Pharmacies enrolled with VDP can dispense vitamin and mineral products to clients who are enrolled in Medicaid fee-for-service and are 20 years of age and younger. These products are also available to clients who are enrolled in Medicaid managed care, but the dispensing pharmacy is required to be contracted by the patient's MCO.

To expedite pharmacy claim processing for vitamin and mineral products, prescribing providers are encouraged to include the diagnosis on the prescription.

The list of products that can be dispensed at a pharmacy and information about the provision of these products people enrolled in fee-for-service can be found in the VDP [Pharmacy Provider Procedure Manual](#) on the VDP page of the HHS website.

### B.2.3 Home Health Supplies

Pharmacies enrolled with VDP can dispense a limited set of home health supplies that are commonly found in a pharmacy to fee-for-service Medicaid clients. These supplies are also available to clients who are enrolled in Medicaid managed care, but the dispensing pharmacy is required to be contracted by the patient's MCO.

The list of supplies that can be dispensed at a pharmacy and information about the provisions of these supplies for people enrolled in fee-for-service can be found in the VDP [Pharmacy Provider Procedure Manual](#) on the VDP page of the HHS website.

Providers should contact the appropriate MCO or pharmacy benefit manager for more information about providing these supplies to Medicaid clients who are enrolled in a Medicaid managed care plan.

## **B.2.4 Long-Acting Reversible Contraception Products**

Long-acting reversible contraception (LARC) products are available for patients either through the Medicaid pharmacy or medical benefit.

*Referto:* The [list of long-acting reversible contraception products](#) on the VDP website.

### **B.2.4.1 Pharmacy Benefit**

Providers can prescribe and obtain long-acting reversible contraception (LARC) products that are on the Medicaid and Healthy Texas Women (HTW) Program drug formularies from certain specialty pharmacies and for women participating in either Medicaid or the HTW Program. The pharmacy method for obtaining LARCs does not require upfront purchase of the LARC, and providers only bill for the administration of the device upon its administration.

Providers can submit a completed and signed prescription request form, and the specialty pharmacy will dispense the LARC product (shipped to the practice address, care of the client) and bill either Medicaid or the HTW Program. Providers who prescribe and obtain LARC products through certain specialty pharmacies will be able to return unused and unopened LARC products.

### **B.2.4.2 Medical Benefit**

Providers may obtain LARC products through the existing buy and bill process, which requires providers to purchase LARCs from wholesalers or other sources before obtaining reimbursement upon insertion of the device, and opting to receive reimbursement for LARC products as a clinician-administered drug.

### **B.2.4.3 Product Returns and Abandoned Units**

Manufacturers offer abandoned unit return programs that allow a provider to return an abandoned LARC product. An “abandoned unit” is an unused and unopened product that was shipped by a participating specialty pharmacy with a prescription label that includes the name of the patient. In order to be returnable, the LARC product should be in its original packaging.

## **B.2.5 Makena**

### **B.2.5.1 Pharmacy Benefit**

Makena (hydroxyprogesterone caproate injection) requires clinical prior authorization for clients who are enrolled in Medicaid fee-for-service. Providers should complete the Makena Prior Authorization Request Form and submit to the Texas Prior Authorization Call Center.

MCOs may elect to require the same clinical prior authorization for Makena. Providers should refer to the appropriate health plan for specific requirements and forms.

### **B.2.5.2 Medical Benefit**

Makena and the compounded version of 17P are available as a Medicaid medical benefit. For additional information about the medical benefit, providers can visit the TMHP website at [www.tmhp.com](http://www.tmhp.com) or call the TMHP Contact Center at 1-800-925-9126.

## B.3 Prescribing Information

### B.3.1 Tamper-Resistant Prescription Pads

Providers are required by federal law (Public Law 110-28) to use a tamper-resistant prescription pad when writing a prescription for any drug for Medicaid clients. Pharmacies are required to ensure that all written Medicaid prescriptions submitted for payment to the VDP were written on a compliant tamper resistant pad.

The Centers for Medicare & Medicaid Services (CMS) has stated that special copy-resistant paper is not a requirement for electronic medical records (EMRs) or e-prescribing-generated prescriptions and prescriptions that are faxed directly to the pharmacy. These prescriptions may be printed on plain paper and will be fully compliant if they contain at least one feature from each of the following three categories:

- Prevents unauthorized copying of completed or blank prescription forms
- Prevents erasure or modification of information written on the prescription form
- Prevents the use of counterfeit prescription forms

Two features that can be incorporated into computer-generated prescriptions printed on plain paper to prevent passing a copied prescription as an original prescription are as follows:

- Use a very small font that is readable when viewed at 5x magnification or greater and illegible when copied.
- Use a “void” pantograph accompanied by a reverse “Rx,” which causes a word such as “Void” to appear when the prescription is photocopied.

**Referto:** The [Texas Pharmacy Provider Procedure Manual](#) on the VDP website.

### B.3.2 Dispensing Life

Medicaid prescriptions for non-controlled substances are valid for one year from the date written and up to 11 refills if authorized by prescriber.

Medicaid prescriptions for controlled substances in drug classes C3-C5 are valid for six months from the date written and up to five refills if authorized by prescriber provider. Controlled substance prescriptions written by advanced practice registered nurses and physicians assistants are valid for 90 days.

Medicaid prescriptions controlled substances in C2 drug class have no refills and must be dispensed within 21 days of the date on which the prescription was written.

C2 prescriptions may be written as multiples of three for a total of a 90 day supply subject to federal and state law.

**Referto:** The [Texas Pharmacy Provider Procedure Manual](#) on the VDP website.

[Pharmacy Laws & Rules](#) page of the Texas State Board of Pharmacy (TSBP) website for rules about issuance of identical sets of C2 prescriptions.

### B.3.3 Prescription Monitoring of Schedule II Through Controlled Substances (CII) through Schedule V Drugs

The Texas Prescription Monitoring Program (PMP) collects and monitors prescription data for all Schedule II, III, IV and V controlled substances dispensed by a pharmacy in Texas or to a Texas resident from a pharmacy located in another state. The PMP also provides a venue for monitoring patient prescription history for practitioners and the ordering of Schedule II Texas Official Prescription Forms.

Pharmacies that dispense Schedule II, III, IV, and V are required to report the information directly to the Texas State Board of Pharmacy's contracted vendor. Prescription data is reported by the prescriber's Federal (DEA) number. Prescribers and pharmacies are required by statute to have a current Federal (DEA) registration in order to possess, administer, prescribe or dispense controlled substances.

**Referto:** The [Texas Prescription Monitoring Program](#) page of TSBP website.

### **B.3.4 Requirements for Early Refills**

A refill is considered too soon, or early, if the person has not used at least 75 percent of the previous fill of the medication.

For people enrolled in Medicaid fee-for-service or the CSHCN Services Program, a refill for certain controlled substances is considered too soon if the person has not used at least 90 percent of the previous fill of the medication.

**Note:** *Some drugs, such as attention deficit hyperactivity disorder drugs and certain seizure medications, are excluded from this change.*

To identify drugs that require 90 percent utilization, refer to the VDP Formulary Search and select the “90% Utilization” filter. The returned results will include only those drugs that meet this requirement.

**Referto:** The [Formulary Search](#) on the VDP website for more information.

Justifications for early refills include, but are not limited to, the following:

- A verifiable dosage increase
- An anticipated prolonged absence from the state

If a person requests an early refill of a drug, the pharmacy must contact VDP to request an override of the early refill restriction. Prescribing providers may be asked to verify the reason for the early refill by the dispensing pharmacy or VDP staff.

**Note:** *Note: Providers who are members of Medicaid managed care plans should contact the appropriate MCO or Pharmacy Benefit Manager for specific requirements and processes related to dispensing early refills.*

### **B.3.5 Clinician-Administered Drugs**

All Texas Medicaid providers must submit a rebate-eligible NDC for professional or outpatient claims submitted to TMHP with a clinician-administered drug procedure code.

The NDC is an 11-digit number on the package or container from which the medication is administered. Providers must enter identifier N4 before the NDC code. The NDC unit and the NDC unit of measure must be entered on all professional or outpatient claims that are submitted to TMHP and Medicaid managed care plans.

A list of drugs that require an NDC for Texas Medicaid reimbursement is available on the TMHP website at [www.tmhp.com](http://www.tmhp.com) under the Topics section. Clinician-administered drugs that do not have a rebate-eligible NDC will not be reimbursed by Texas Medicaid.

**Referto:** Subsection 6.3.4, “National Drug Code (NDC)” in “Section 6: Claims Filing” (*Vol. 1, General Information*) for additional information on claim filing using NDC.

#### **B.3.5.1 Pharmacy Delivery Method for Clinician-Administered Drugs**

Providers administering clinician-administered drugs in an outpatient setting for Medicaid fee-for-service and Medicaid MCO clients can send a prescription to a pharmacy and wait for the drug to be shipped or mailed to their office. This delivery method is called “white-bagging.”

Providers should use the following steps for this delivery method:

- 1) The treating provider identifies a Medicaid-enrolled client.
- 2) The treating provider or treating provider’s agent sends a prescription to a Texas Medicaid-enrolled pharmacy and obtains any necessary prior authorizations.

- 3) If any prior authorization is approved, the dispensing pharmacy fills the prescription and overnight ships an individual dose of the medication, in the name of the Medicaid client, directly to the treating provider.
- 4) The treating provider administers the medication to the Medicaid client in the office setting. The provider bills for an administration fee and any medically necessary service provided at time of administration. The provider should not bill Medicaid for the drug.

The pharmacy contacts the provider each month, prior to dispensing any refills, to ensure that the patient was administered all previously dispensed medication. Auto-refills are not allowed.

These medications cannot be used on any other patient and cannot be returned to the pharmacy for credit.

**Exception:** *Unused long-acting reversible contraceptives may be returned in certain circumstances.*

**Note:** *Physicians who use this delivery method will not have to buy the clinician-administered drug, therefore, the physician is allowed to administer the drug and should only bill for the administration of the drug.*

## B.4 Patient Information

### B.4.1 Medicaid Drug Benefits

The Medicaid drug benefit for people enrolled in Medicaid fee-for-service is limited to three prescriptions per month with the following exceptions that have unlimited prescriptions:

- Clients enrolled in waiver programs such as Community Living Assistance (CLASS) and Community-Based Alternatives (CBA)
- Texas Health Steps (THSteps)-eligible clients (clients who are 20 years of age and younger)
- Clients in skilled nursing facilities

The following categories of drugs do not count against the three prescription per month limit:

- Family planning drugs and supplies
- Smoking cessation drugs
- Insulin syringes

**Note:** *Prescriptions for family planning drugs and limited home health supplies are not subject to the three-prescription limit.*

Though TMHP reimburses family planning agencies and physicians for family planning drugs and supplies, the following family planning drugs and supplies are also available through the VDP and are not subject to the three-prescription limit:

- Oral contraceptives
- Long-acting injectable contraceptives
- Vaginal ring
- Hormone patch
- Certain drugs used to treat sexually transmitted diseases (STDs)

### B.4.2 Cost Avoidance Coordination of Benefits

Cost avoidance coordination of benefits for pharmacy claims ensures compliance with the CMS regulations. Under federal rules, Medicaid agencies must be the payer of last resort. The cost avoidance model checks for other known insurance at the point of sale, preventing Medicaid from paying a claim until the pharmacy attempts to obtain payment from the client's third party insurance.

**Referto:** The [Texas Pharmacy Provider Procedure Manual](#) on the VDP website.

### **B.4.3 Medicaid Children's Services Comprehensive Care Program**

Medically-necessary drugs and supplies that are not covered by the VDP may be available to children and adolescents (birth through 20 years of age) through the Medicaid Comprehensive Care Program (CCP). Drugs and supplies not covered could include, as examples, some over the counter drugs, nutritional products, diapers, and disposable or expendable medical supplies.

The Prior Authorization fax number is 1-512-514-4212.

**Referto:** Subsection 2.7.1.1, "Pharmacies (CCP)" in the *Children's Services Handbook (Vol. 2, Provider Handbooks)* for more information about pharmacy enrollment in CCP.

### **B.4.4 Pharmacy Lock-In**

People enrolled in Medicaid fee-for-service can be "locked-in" to a specific pharmacy. Those people who are "locked-in" to a primary care pharmacy have "Lock-in" identified on the face of their Your Texas Benefits Medicaid card. Clients who are not "locked-in" to a specific pharmacy may obtain their drugs or supplies from any enrolled Medicaid provider of pharmaceutical services.

**Referto:** Subsection 4.4.2, "Client Lock-in Program" in "Section 4: Client Eligibility" (*Vol. 1, General Information*) for more information about lock-in limitations.

Family planning services are excluded from lock-in limitation.

### **B.4.5 Free Delivery of Medicaid Prescriptions**

Many Medicaid pharmacies offer free delivery of prescriptions to clients who are enrolled in Medicaid.

To find out which pharmacies offer delivery services:

- Refer clients who are enrolled in Medicaid FFS to the VDP pharmacy Search. Click the "Delivers" indicator on the search. The returned results will include only those pharmacies that provide a delivery service to Medicaid clients. Contracted Medicaid pharmacy providers are reimbursed a delivery fee that is included in the medication dispensing fee formula. The delivery fee is paid to VDP-enrolled pharmacy providers that have certified its delivery services meet minimum conditions for payment of the delivery fee.
- Refer clients enrolled in Medicaid managed care to the person's MCO. Each MCO develops its own participating pharmacy network for the delivery service.

Deliveries are made to client's home and not institutions, such as nursing homes. Delivery service is not applicable for mail-order prescriptions and not available for over-the-counter drugs.

## **B.5 Pharmacy Prior Authorization**

Some Medicaid drugs are subject to one or both types of prior authorization, clinical and non-preferred.

### **B.5.1 Clinical Prior Authorization**

Clinical prior authorizations are based on evidence-based clinical criteria and nationally recognized peer-reviewed information. They may apply to an individual drug or a drug class on the formulary, including some preferred and non-preferred drugs. There are certain clinical prior authorizations that all Medicaid MCOs are required to perform. Usage of all other clinical prior authorizations will vary between MCO at the discretion of each MCO.

**Referto:** The [Clinical PA Assistance Chart](#) on the VDP website, which shows the clinical prior authorizations that each MCO uses and those used for Medicaid fee-for-service.

Subsection B.5.5, "Palivizumab (Synagis)" in this section for information about Synagis prior authorizations.

### B.5.2 Non-preferred Prior Authorization

The PDL is arranged by drug therapeutic class and contains a subset of many, but not all, drugs that are on the Medicaid formulary. Drugs are identified as preferred or non-preferred on the PDL. Drugs listed on the PDL as preferred, or those not listed at all, are available to individuals without PDL prior authorization. Drugs identified as non-preferred on the PDL require a PDL prior authorization.

**Note:** MCOs are required to adhere to the Texas Medicaid Preferred Drug List.

**Note:** CHIP does not have a PDL.

**Referto:** The [PDL PA Criteria Guide](#) on the PAXpress website, which explains the criteria that are used to evaluate the PDL prior authorization requests.

### B.5.3 Obtaining Prior Authorization

Prior authorization for people enrolled in Medicaid fee-for-service is requested through the Texas Prior Authorization Call Center.

The Texas Prior Authorization Call Center accepts PA requests by phone at 1-877-PA-TEXAS (1-877-728-3927) (Monday through Friday, between 7:30 a.m. and 6:30 p.m., central) or online through PAXpress. Online submissions are only available for non-preferred prior authorization requests.

**Referto:** The [Account Registration Instructions](#) on the PAXpress website.

The [Texas Fee-For-Service Prior Authorization Program Quick Reference Guide for Prescribers](#) on the PAXpress website.

**Note:** Pharmacists cannot obtain prior authorization for medications. If the client arrives at the pharmacy without prior authorization for a non-preferred drug and/or a drug requiring clinical prior authorization, the pharmacist will alert the provider's office and ask the provider to get prior authorization.

### B.5.4 72-Hour Emergency Supply

Federal and Texas law allows for a 72-hour emergency supply of a prescribed drug to be provided when a medication is needed without delay and prior authorization is not available. This rule applies to non-preferred drugs on the PDL and any drug that is affected by a clinical prior authorization.

Drugs not on the PDL may also be subject to clinical prior authorization.

**Referto:** The [Texas Pharmacy Provider Procedure Manual](#) on the VDP website.

### B.5.5 Palivizumab (Synagis)

Palivizumab is available to physicians for administering to people in Medicaid and the CSHCN Services Program through VDP. The enables physicians to have palivizumab shipped directly to their office from a network pharmacy, and not purchase the drug.

Physicians who obtain palivizumab through VDP may not submit claims to TMHP for the drug. The administering provider may submit a claim to TMHP for an injection administration fee and any medically necessary office-based evaluation and management service provided at time of injection.

#### B.5.5.1 Participating Palivizumab Distribution Pharmacies

**Referto:** The [Synagis](#) page in the VDP section of the HHS website for more information about the current season's schedule and a list of participating pharmacies.

Prior authorization request forms are updated every year. Providers must use the most current version of the forms to submit prior authorization requests. The year will be noted at the top of each form.

**Note:** Palivizumab is also be available to Children with Special Health Care Needs (CSHCN) Services Program clients. Providers can refer to the [CSHCN Services Program Provider Manual](#) for details.

## C.1 CDC Revised Recommendations for HIV Testing of Adults, Adolescents, and Pregnant Women in Health-Care Settings

The revised Centers for Disease Control and Prevention (CDC) recommendations advocate routine voluntary human immunodeficiency virus (HIV) screening as a normal part of medical practice, similar to screening for other treatable conditions. Screening is a basic public health tool used to identify unrecognized health conditions so treatment can be offered before symptoms develop and, for communicable diseases, so interventions can be implemented to reduce the likelihood of continued transmission. HIV screening should be offered as an opt-out test in accordance with CDC testing guidelines, which may be viewed at [www.cdc.gov/mmwr/preview/mmwrhtml/rr5514a1.htm](http://www.cdc.gov/mmwr/preview/mmwrhtml/rr5514a1.htm).

### C.1.1 Routine HIV Testing Procedure Codes

The following table lists the procedure codes for routine HIV testing and the corresponding modifiers that must be submitted for rapid testing. Routine HIV testing is covered as a preventative or screening benefit. Medical necessity is not required.

| Procedure Code | Rapid Test Modifier |
|----------------|---------------------|
| 86689          |                     |
| 86701          | 92                  |
| 86702          | 92                  |
| 86703          | 92                  |
| 87389          | 92                  |
| 87390          |                     |
| 87534          |                     |
| 87535          |                     |
| 87536          |                     |

## C.2 Model Workplace Guidelines for Businesses, State Agencies, and State Contractors

### C.2.1 Purpose

The purpose of this policy is to protect the employment rights and privileges of individuals infected with HIV and acquired immunodeficiency syndrome (AIDS) through compliance with federal, state, and local laws. This policy will provide Texas employers, especially state agencies, with a uniform approach to developing policies and education programs that address HIV/AIDS in the workplace. The Department of State Health Services (DSHS) encourages all employers to establish workplace policies

concerning persons with HIV/AIDS. Employers can adapt this model to fit the particular needs of their organization, work force, and clients; however, the content and intent must remain consistent with this document and the Health and Safety Code (HSC).

### **C.2.2 Authority**

Governance for this policy is found in Vernon's Texas Codes Annotated, HSC §85.010, "Educational Course for Employees and Clients of Health Care Facilities"; §85.111, "Education of State Employees"; §85.112, "Workplace Guidelines"; and §85.113, "Workplace Guidelines for State Contractors."

The model workplace guidelines, developed by the DSHS HIV/Sexually Transmitted Disease (STD) Comprehensive Services Branch, as required by HSC §85.012, "Model Workplace Guidelines," and adopted as HIV/STD Policy No. 090.021, are considered the minimum standards for the development of guidelines for state agencies. This policy also serves as the minimum standard for contractors of certain designated state agencies and organizations funded by those state agencies (HSC §85.113).

**Referto:** subsection C.2.7, "State Agencies Listed Under Health and Safety Code (HSC) §85.113" in this section.

These guidelines are also the standard for health-care facilities licensed by DSHS and the Department of Aging and Disability Services (DADS) as stated in HSC §85.010, "Educational Course for Employees and Clients of Health Care Facilities."

### **C.2.3 Who Must Use Workplace Guidelines**

#### **C.2.3.1 State Agencies**

State law requires that each state agency adopt and carry out workplace guidelines. The agency's workplace guidelines should incorporate, at a minimum, the DSHS model workplace guidelines in this policy.

#### **C.2.3.2 State Contractors**

A program that involves direct client contact and that contracts with or is funded by any of the state agencies listed in subsection C.2.7, "State Agencies Listed Under Health and Safety Code (HSC) §85.113" in this section will adopt and carry out workplace guidelines as stated in HSC §85.113.

### **C.2.4 Why Have Guidelines**

Employers should develop and carry out policies and education programs concerning potentially limiting medical conditions before a crisis arises. Such policies and education programs help reduce employees' fears and misconceptions about HIV/AIDS and help to:

- Provide current and accurate scientific evidence that people with HIV infection do not pose a risk of transmitting the virus to coworkers through ordinary workplace contact.
- Provide workers with current information about HIV risk reduction for employees and their families.
- Avoid conflict between the infected employee and the employer regarding discrimination or other employment issues.
- Prevent work disruption and rejection of the infected employee by coworkers.
- Inform employees that they have rights regarding work continuation, confidentiality of medical and insurance records, and general health and safety.
- Provide specific and ongoing education and equipment to employees in health-care settings who are at risk of exposure to HIV, and to assure that appropriate infection-control procedures are used.
- Reduce the financial impact, legal implications, and other possible effects of HIV/AIDS in the workplace.

### C.2.5 Development of Workplace Policy Content

Individuals infected with HIV have the same rights and opportunities as other individuals. While some employers prefer a policy specific to HIV/AIDS and its unique issues, others prefer a general policy concerning illnesses and disabilities. A general policy should address HIV/AIDS in the same way as other major illnesses. Use of the following statements in agency policy is encouraged:

- Use of a person's HIV status to decide employment status, service delivery, or to deny services to HIV-infected individuals is not acceptable. Employees who believe that they have been discriminated against because of HIV or AIDS should contact the personnel office to discuss the matter, or initiate action through the agency's grievance procedure. Other legal options may also be available.
- This policy is consistent with current information from public health authorities, such as the CDC of the U.S. Public Health Service, and with state and federal laws and regulations.

While the approach and resolution of each employee's situation may vary, similar issues may arise. A workplace policy should address the following issues about HIV/AIDS and other life-threatening illnesses or disabilities:

- *Discrimination.* The Americans with Disabilities Act of 1990 prohibits discrimination against people with disabilities, which includes HIV and AIDS, in employment, public accommodations, public transportation, and other situations.  
A specific policy statement that no one will be denied employment or employment opportunities because of a disability, satisfies the employer and employee's need to address discrimination. Such a statement might be, "This agency complies with the Americans with Disabilities Act protections of all people with disabilities against discrimination in job application procedures, hiring, promotions, discharge, compensation, job training, and other terms or conditions of employment." Managers may want to define ways in which they will deal with discriminatory actions.
- *Desire and Ability to Work.* A workplace policy should address the infected employee's desire and need to work and the infected employee's value to the workplace. Such a statement reassures employees that the employer supports them.  
The health status of someone with HIV may vary from healthy to critically ill. In the work setting, the ultimate concern is whether or not the employee can satisfy job expectations. A policy statement may say, for example, "Procedures may be adapted to provide reasonable accommodation so that people with disabilities may remain employed and productive for as long as possible. All employees, however, are expected to perform the essential functions of their job with or without reasonable accommodation."
- *Performance Standards.* The Americans with Disabilities Act provides protections for disabled persons *qualified* to perform their jobs. And although an employer may be expected to provide reasonable accommodation to a disabled employee or applicant; employers may terminate employees and refuse to hire individuals who cannot perform the essential functions of the job, with or without the reasonable accommodation.  
One suggested statement is, "While the Americans with Disabilities Act does protect disabled employees from employment discrimination, all employees, those with and without disabilities, have the same performance and conduct standards regarding hiring, promotion, transfer, and dismissal."
- *Reasonable Accommodation.* The Americans with Disabilities Act requires employers to provide reasonable accommodations for employees with disabilities. Employers do not have an obligation to provide any accommodation that imposes an undue hardship on the employer. Specific questions about the issue of reasonable accommodation and undue hardship should be directed to staff responsible for coordinating the requirements of the Americans with Disabilities Act.  
Such a policy statement might read, "The following options may be considered for people with HIV/AIDS: possible assignment or reassignment of job duties, working at home, leaves of absence, and flexible work schedules."

- *Confidentiality and Privacy.* Organizations that receive funds from a state agency for residential or direct client services or programs shall develop and use confidentiality guidelines to protect their clients' HIV/AIDS-related medical information (HSC §85.115, "Confidentiality Guidelines"). Organizations that fail to adopt and use confidentiality guidelines are ineligible to receive state funds.

Employees are not required to reveal their HIV status to employers. All medical information that an HIV-infected employee provides to medical or management personnel is confidential and private. Employers may not reveal this information without the employee's knowledge and written consent, except as provided by law (HSC §81.103, "Confidentiality; Criminal Penalty").

A suggested policy statement might be, "This agency will protect the confidentiality of employee medical records and information. Written consent of the employee must be obtained to share any confidential information with other staff. Those with access to confidential information must maintain strict confidentiality and privacy, separating this information from employees' personnel records. Individuals who fail to protect these employee rights commit a serious offense, which may be cause for litigation resulting in both civil and criminal penalties, and may result in dismissal."

- *Coworker Concerns.* Employers need to be aware of the concerns that coworkers may have about an HIV-infected coworker. A policy statement that acknowledges employee concerns and offers HIV/AIDS education helps to increase awareness and decrease fear. Equally important is a policy statement that clarifies the limits of an employer's response to coworker concerns, e.g., "Employees do not have the right to refuse to work with someone who has any disability."
- *Employee Education.* Any health-care facility licensed by DSHS or DADS must require its employees to complete an educational course about HIV infection (HSC §85.010). A suggested policy statement may be: "All employees will receive education about methods of transmission and prevention of HIV infection and related conditions." In response to HSC, §85.004, "Educational Programs," DSHS developed model education program guidelines. These are available from DSHS, HIV/STD Comprehensive Services Branch, 1100 W. 49th St., Austin, TX. 78756-3199, 1-512-533-3000. Employers may also find the CDC's educational kit, *Business Responds to AIDS*, useful in developing educational courses. HIV/AIDS education should address employee concerns about HIV communicability to themselves, their families, and coworkers. Experience shows that educated coworkers usually respond to persons with HIV/AIDS with support, rather than with fear and ostracism due to misconceptions.

Education programs must stress that agency employees who provide direct client services may face occupational exposure to a client's blood, semen, vaginal secretions, or other body fluids that are considered to be high-risk for transmission of blood born pathogens, including HIV/AIDS. All individuals receiving direct services are clients and include individuals who are physically or mentally impaired and individuals confined to correctional or residential facilities. All state agencies should have, as part of their employee education program, comprehensive policies and protocols based on universal precautions, body substance isolation, and barrier methods. These precautions prevent the spread of infection in clinical settings. The employer's careful planning will reflect a commitment to the health and well-being of the work force and the community being served.

- *Assistance.* Some employers have designated benefits programs available to employees and family members with HIV infection. Such programs may:
  - Make referrals for testing, counseling, medical, and psychosocial services.
  - Provide HIV/AIDS workplace training for managerial staff.
  - Serve as a liaison between management and the employer's clinical and occupational health programs.
  - Provide counseling for employees who irrationally fear coworkers or clients.

Employers who have no employee assistance program may consider working with other organizations that provide assistance. Some of these groups include local health departments, AIDS services organizations, American Red Cross chapters, community support groups, clinical treatment and counseling services, and the religious community.

A suggested policy statement might be: “An employee who wants assistance concerning a disability or a life-threatening illness should contact the Personnel Office. This agency offers the following resources to help employees and managers deal with these issues: education and information concerning HIV/AIDS; confidential referral to supportive services for employees and dependents affected by life-threatening illnesses; and benefits consultation to help employees effectively manage health, leave, and other benefits.”

### **C.2.6 Where to Go for Help**

Employees may call 2-1-1 for HIV/STD testing locations in Texas. For questions related to issues such as transmission, signs and symptoms, or other concerns about HIV or other sexually transmitted infections, employees may call 1-800-CDC-INFO (English/Español) or 1-888-232-6348 (TTY).

### **C.2.7 State Agencies Listed Under Health and Safety Code (HSC) §85.113**

HSC §85.113, “Workplace Guidelines for State Contractors” states “An entity that contracts with or is funded by... to operate a program involving direct client contact shall adopt and implement workplace guidelines similar to the guidelines adopted by the agency that funds or contracts with the entity.”

H.B. 2292, 78th Leg., abolished 10 of the 12 existing health and human services agencies and transferred their powers and duties to three new state agencies and to HHSC, which rendered the state agency list found in HSC §85.113 obsolete. The following list reflects the state agency consolidation brought about by H.B. 2292 and identifies the state agencies to which HSC §85.113 applies.

- DADS
- Department of Assistive and Rehabilitative Services (DARS)
- DSHS
- Health and Human Services Commission (HHSC)
- Texas Department of Criminal Justice
- Texas Juvenile Probation Commission
- Texas Youth Commission

## 1 General Information

The information in this handbook is intended for Texas Medicaid ambulance providers. The handbook provides information about Texas Medicaid's benefits, policies, and procedures applicable to emergency and nonemergency ambulance transports.

**Important:** *All providers are required to read and comply with “Section 1: Provider Enrollment and Responsibilities” (Vol. 1, General Information). In addition to required compliance with all requirements specific to Texas Medicaid, it is a violation of Texas Medicaid rules when a provider fails to provide health-care services or items to Medicaid clients in accordance with accepted medical community standards and standards that govern occupations, as explained in Title 1 Texas Administrative Code (TAC) §371.1659. Accordingly, in addition to being subject to sanctions for failure to comply with the requirements that are specific to Texas Medicaid, providers can also be subject to Texas Medicaid sanctions for failure, at all times, to deliver health-care items and services to Medicaid clients in full accordance with all applicable licensure and certification requirements including, without limitation, those related to documentation and record maintenance.*

**Referto:** “Section 1: Provider Enrollment and Responsibilities” (Vol. 1, General Information) for more information about enrollment procedures.

*The Medicaid Managed Care Handbook (Vol. 2, Provider Handbooks).*

Subsection 5.1.8, “Prior Authorization for Nonemergency Ambulance Transport” in “Section 5: Fee-for-Service Prior Authorizations” (Vol. 1, General Information) for more information about nonemergency ambulance transport.

## 2 Ambulance Services

### 2.1 Enrollment

To enroll in Texas Medicaid, ambulance providers must operate according to the laws, regulations, and guidelines governing ambulance services under Medicare Part B; equip and operate under the appropriate rules, licensing, and regulations of the state in which they operate; acquire a license from the Texas Department of State Health Services (DSHS) approving equipment and training levels of the crew; and enroll in Medicare.

A hospital-operated ambulance provider must be enrolled as an ambulance provider and submit claims using the ambulance provider identifier, not the hospital provider identifier.

**Referto:** Subsection 2.4.3, “Medicare and Medicaid Coverage” in this handbook.

**Note:** *Air ambulance providers are not required to enroll with Medicare.*

**Reminder:** *When ambulance providers enroll in Texas Medicaid, they accept Medicaid payment as payment in full. They cannot bill clients for Texas Medicaid-covered benefits.*

#### 2.1.1 Subscription Plans

The Texas Insurance Code does not apply to ambulance providers who finance, in part or in whole, an ambulance service by subscription plan. DSHS's license requirements do not permit providers of membership or subscription programs to enroll Medicaid clients. Emergency Medical Services (EMS) Subscription Programs are regulated by the DSHS-EMS Compliance Group. An EMS provider must have specific approval to operate a subscription program.

For more information, providers should contact the DSHS Office of EMS/Trauma Systems Coordination at 1-512-834-6700. A list of EMS office and contact information is available at <http://dshs.texas.gov/emstraumasystems/contact.shtm>.

## **2.2 Services, Benefits, Limitations, and Prior Authorization**

Emergency and nonemergency ambulance transport services are a benefit of Texas Medicaid when the client meets the definition of emergency medical condition or meets the requirements for nonemergency transport.

Cardiopulmonary resuscitation (CPR) is included in ambulance transport when needed and is not a separately billable service. Claims for CPR during transport will be denied. If CPR is performed during a nonemergency transport, the advanced life support (ALS) procedure code must be billed.

Reimbursement for disposable supplies is separate from the established global fee for ambulance transports and is limited to one billable code per trip.

Providers must calculate the number of miles traveled by using the ambulance vehicle odometer reading or an Internet mapping tool. Mileage reported on the claim must be the actual number of miles traveled.

Claims for ground ambulance transports (procedure codes A0426, A0427, A0428, A0429, A0433, A0434, and A0999) must be submitted with mileage procedure code A0425.

Medical necessity and coverage of ambulance services are not based solely on the presence of a specific diagnosis. Medicaid payment for ambulance transportation may be made only for those clients whose condition at the time of transport is such that ambulance transportation is medically necessary. For example, it is insufficient that a client merely has a diagnosis such as pneumonia, stroke, or fracture to justify ambulance transportation. In each of those instances, the condition of the client must be such that transportation by any other means is medically contraindicated. In the case of ambulance transportation, the condition necessitating transportation is often an accident or injury that has occurred giving rise to a clinical suspicion that a specific condition exists (for instance, fractures may be strongly suspected based on clinical examination and history of a specific injury).

It is the requesting provider's responsibility to supply the contractor with information describing the condition of the client that necessitated ambulance transportation. Medicaid recognizes the limitations of ambulance personnel in establishing a diagnosis, and recognizes therefore, that diagnosis coding of a client's condition using *International Classification of Diseases*, Tenth Revision, Clinical Modification (ICD-10-CM) codes when reporting ambulance services may be less specific than those reported by other professional providers. Providers who submit diagnosis codes must choose the code that best describes the client's condition at the time of transport. As a reminder to providers of ambulance services, "rule out" or "suspected" diagnoses must not be reported using specific ICD-10-CM codes. In such instances where a diagnosis is not confirmed, it is correct to use a symptom, finding, or injury code.

The ambulance provider may be sanctioned, including nonparticipation in the Medicaid Title XIX programs, for completing or signing a claim form that includes false or misleading representations of the client's condition or the medical necessity of the transport.

The inpatient hospital stay benefit includes medically necessary emergency and nonemergency ambulance transportation of the client during an inpatient hospital stay.

Ambulance transport during a client's inpatient stay will not be reimbursed to the ambulance provider. One-time ambulance transports that occur immediately after the client's discharge may be considered for reimbursement.

### **2.2.1 Emergency Ambulance Transport Services**

An emergency ambulance transport service is a benefit when the client has an emergency medical condition. An emergency medical condition is defined, according to 1 TAC §354.1111, as a medical condition (including emergency labor and delivery) manifesting itself by acute symptoms of sufficient

severity (including severe pain, psychiatric disturbances, or symptoms of substance abuse) such that a prudent layperson with an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in one of the following:

- Placing the client's health (or, with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy
- Serious impairment to bodily functions
- Serious dysfunction of any bodily organ or part

Facility-to-facility transport may be considered an emergency if emergency treatment is not available at the first facility and the client still requires emergency care. The transport must be to an appropriate facility, meaning the nearest medical facility equipped in terms of equipment, personnel, and the capacity to provide medical care for the illness or injury of the client involved.

Transports to out-of-locality providers (one-way transfers of 50 or more miles from the point of pickup to the point of destination) are covered if a local facility is not adequately equipped to treat the condition. Transports may be cut back to the closest appropriate facility.

When there are two responders to an emergency, the company that transports the client will be reimbursed for their services.

### **2.2.1.1 Prior Authorization for Emergency Out-of-State Transport**

All emergency out-of-state (air, ground, and water) transports require authorization before the transport is considered for payment.

Prior authorization for emergency transport is required for out-of-state providers with the exception of those providers located within 200 miles of the Texas border.

**Referto:** Subsection 2.6, "Out-of-State Medicaid Providers" in "Section 2: Texas Medicaid Fee-for-Service Reimbursement" (*Vol. 1, General Information*) for additional information on providers who are not considered out-of-state providers.

To initiate the prior authorization process, providers must call 1-800-540-0694.

Texas Medicaid & Healthcare Partnership (TMHP) is responsible for processing prior authorization requests for all Medicaid clients.

### **2.2.2 \* Nonemergency Ambulance Transport Services**

According to 1 TAC §354.1111, nonemergency transport is defined as ambulance transport provided for a Medicaid client to or from a scheduled medical appointment, to or from a licensed facility for treatment, or to the client's home after discharge from a hospital when the client has a medical condition such that the use of an ambulance is the only appropriate means of transportation (i.e., alternate means of transportation are medically contraindicated).

**Note:** *In this circumstance, contraindicated means that the client cannot be transported by any other means from the origin to the destination without endangering the individual's health.*

According to Human Resource Code (HRC) §32.024 (t), a Medicaid-enrolled physician, nursing facility, health-care provider, or other responsible party is required to obtain authorization before an ambulance is used to transport a client in circumstances not involving an emergency.

Providers requesting prior authorization must document whether the client is currently an inpatient in a hospital when requesting prior authorization. Prior authorization will not be approved if the provider indicates the client is currently an inpatient in a hospital, except for one-time transports immediately after the client's discharge from the hospital.

Medical necessity must be established through prior authorization for all nonemergency ambulance transports. Retrospective review may be performed to ensure that documentation supports the medical necessity of the transport.

Clients who do not meet medical necessity requirements for nonemergency ambulance transport may be able to receive transport through the Medical Transportation Program (MTP).

Transports must be limited to those situations where the transportation of the client is less costly than bringing the service to the client.

For non-emergency ambulance transportation services rendered to a client, ambulance providers may coordinate the nonemergency ambulance prior authorization request between the requesting provider, which may include a physician, nursing facility, healthcare provider, or other responsible party. Ambulance providers may assist in providing necessary information such as their National Provider Identifier (NPI) number, fax number, and business address to the requesting provider. However, the Non-emergency Ambulance Prior Authorization Request form must be signed and dated and submitted by the Medicaid-enrolled requesting provider, not the ambulance provider.

**Referto:** Subsection 5.1.8, “Prior Authorization for Nonemergency Ambulance Transport” in “Section 5: Fee-for-Service Prior Authorizations” (*Vol. 1, General Information*) for more information about nonemergency ambulance transport prior authorization requests and appeals.

The *Medical Transportation Program Handbook (Vol. 2, Provider Handbooks)* for more information about the Medical Transportation Program.

### 2.2.3 Levels of Service

Levels of services as defined by Texas Medicaid:

- Basic Life Support (BLS) is emergency care that uses noninvasive medical acts and, if allowed by licensing jurisdiction, may include the establishment of a peripheral intravenous (IV) line.
- Advanced Life Support (ALS) is emergency care that uses invasive medical acts. For Medicaid purposes only, ALS services are divided into two categories, Level 1 and Level 2.
  - Level 1 ALS includes an ALS assessment or at least an ALS intervention.
  - Level 2 ALS includes either of the following:
    - At least three separate administration of one or more medications by intravenous push/bolus or by continuous infusion (excluding crystalloid fluids); or
    - At least one of the ALS 2 procedures: manual defibrillation/cardioversion; endotracheal intubation; central venous line; cardiac pacing; chest decompression; surgical airway; or intra-osseous line.

### 2.2.4 Oxygen

Reimbursement for oxygen (procedure code A0422) is limited to one billable code per transport.

### 2.2.5 Types of Transport

#### 2.2.5.1 Multiple Client Transports

Multiple client transports occur when more than one client with Medicaid coverage is transported simultaneously in the same vehicle. A claim for each client must be billed with the transport procedure code and the mileage procedure code with the GM modifier that indicates multiple client transport. Claims must include the names and Medicaid numbers of other Texas Medicaid clients who shared the transfer, or indicate “Not a Medicaid client” in Block 19 of the CMS 1500 paper form. Providers must

enter charges on a separate claim for each client. TMHP adjusts the payment to 80 percent of the allowable base rate for each claim and divides mileage equally among the clients who share the ambulance.

**Referto:** Subsection 6.4, “Claims Filing Instructions” in “Section 6: Claims Filing” (*Vol. 1, General Information*).

### **2.2.5.2 Air or Specialized Vehicle Transports**

Air ambulance transport services, by means of either fixed or rotary wing aircraft, and other specialized emergency medical services vehicles may be covered only if one of the following conditions exists:

- The client’s medical condition requires immediate and rapid ambulance transportation that could not have been provided by standard automotive ground ambulance.
- The point of client pick up is inaccessible by standard automotive ground vehicle.
- Great distances or other obstacles are involved in transporting the client to the nearest appropriate facility.

Claims for air ambulance transports procedure codes A0430 and A0431 must be submitted with the corresponding air mileage procedure code A0435 or A0436.

### **2.2.5.3 Specialty Care Transport (SCT)**

SCT (procedure code A0434) is the interfacility transport of a critically injured or ill client by a ground ambulance vehicle, including the provision of medically necessary supplies and services, at a level of service beyond the scope of the emergency medical technician (EMT) or paramedic. SCT is necessary when a client’s condition requires ongoing care that must be furnished by one or more health professionals in an appropriate specialty area, for example, emergency or critical-care nursing, emergency medicine, respiratory care, cardiovascular care, or a paramedic with additional training.

### **2.2.5.4 Transports for Pregnancies**

Transporting a pregnant woman may be covered as an emergency transfer if the client’s condition is documented as an emergency situation at the time of transfer.

Claims documenting an emergency home delivery or delivery en route are considered emergency transfers. Premature labor and early onset of delivery (less than 37 weeks gestation) may also be considered an emergency. Active labor without more documentation of an emergency situation is not payable as an emergency transport.

If the pregnant client is transported in an ambulance for a nonemergency situation, all criteria for nonemergency prior authorization must be met.

### **2.2.5.5 Transports to or from Prescribed Pediatric Extended Care Centers (PPECC)**

Non-emergency ambulance transports between a client’s home and a PPECC are not covered.

### **2.2.5.6 Transports to or from State Institutions**

Ambulance transports to or from a state-funded hospital for admission or following discharge are covered when nonemergency transfer criteria are met. Ambulance transfers of clients while they are inpatients of the institution are not covered. The institution is responsible for routine nonemergency transportation.

### **2.2.5.7 Not Medically Necessary Transports**

Providers must use the GY modifier to submit claims for instances when the provider is aware no medical necessity existed. When billing for this type of transportation, ambulance providers must maintain a signed Client Acknowledgment Statement indicating that the client was aware, prior to service rendered, that the transport was not medically necessary. The Client Acknowledgment Statement is subject to retrospective review.

**Referto:** Subsection 1.6.9.1, “Client Acknowledgment Statement” in “Section 1: Provider Enrollment and Responsibilities” (*Vol. 1, General Information*).

### **2.2.5.8 Transports for Nursing Facility Residents**

Nursing facilities are responsible for providing or arranging transportation for their residents. Arranging transportation for Medicaid clients includes obtaining prior authorizations for nonemergency ambulance transports. The Nonemergency Ambulance Prior Authorization Request form must be filled out and submitted to TMHP by the facility or the physician’s staff that is most familiar with the client’s condition. The ambulance provider must not assist in completing or submitting any portion of this form.

Transports from a nursing facility to a hospital are covered if the client’s condition meets emergency criteria.

A return trip to a nursing facility following an emergency transport is not considered routine; therefore, transport back to the facility must be requested by the discharging hospital. Nonemergency transport for the purpose of required diagnostic or treatment procedures that are not available in the nursing facility (such as dialysis treatments at a freestanding facility) are also allowable only for clients whose medical condition is such that the use of an ambulance is the only appropriate means of transport (e.g., alternate means of transport are medically contraindicated).

The cost of routine nonemergency transportation is included in the nursing facility vendor rate. This nonemergency transport requires the nursing facility to request and obtain a Prior Authorization Number (PAN) from the TMHP Ambulance Unit before contacting the ambulance company for the transport.

Transports of nursing facility residents for rehabilitative treatment (e.g., physical therapy) to outpatient departments or physicians’ offices for recertification examinations for nursing facility care are not reimbursable ambulance services.

Claims for services to nursing facility residents must indicate the medical diagnosis or problem requiring treatment, the medical necessity for use of an ambulance for the transport, and the type of treatment rendered at the destination (e.g., admission or X-ray).

If a client is returned by ambulance to a nursing facility following inpatient hospitalization, the acute condition requiring hospitalization must be noted on the ambulance claim form. This transport is considered for payment only if the client’s medical condition is appropriate for transport by ambulance. This nonemergency transport requires the nursing facility to request and obtain a PAN from the TMHP Ambulance Unit before contacting the ambulance company for the transport.

Ambulance providers may bill a nursing facility or client for a nonemergency ambulance transport only under the following circumstances:

- *Providers may bill the nursing facility* when the nursing facility requests the nonemergency ambulance transport without a PAN.
- *Providers may bill the client* only when the client requests transport that is not an emergency and the client does not have a medical condition such that the use of an ambulance is the only appropriate means of transport (i.e., alternate means of transport are medically contraindicated). The provider must advise the client of acceptance as a private pay patient at the time the service is provided, and the client is responsible for payment of all services. Providers are encouraged to have the client sign the Private Pay Agreement.

Providers may refer questions about a nursing facility’s responsibility for payment of a transport to the TMHP Contact Center at 1-800-925-9126 or TMHP provider relations representatives.

### 2.2.5.9 Emergency Transports Involving a Hospital

Hospital-to-hospital transports that meet the definition of an emergency transport do not require prior authorization.

Providers must use modifier ET and one of the facility-to-facility transfer modifiers (HH, HI, or IH) on each procedure code listed on the claim.

| Modifier | Transport Type                    |
|----------|-----------------------------------|
| HH       | From hospital to hospital         |
| HI       | From hospital to site of transfer |
| IH       | From site of transfer to hospital |

### 2.2.5.10 No Transport

Texas Medicaid does not reimburse ambulance providers for services that do not result in a transport to a facility, regardless of whether any medical care was rendered. If a client contacts an ambulance provider, but the call does not result in a transport, the provider should have the client sign an acknowledgement statement and may bill the client for services rendered.

Texas Medicaid will not reimburse for the return trip of an empty ambulance. Texas Medicaid will not reimburse air or ground mileage when the client is not on board the ambulance.

## 2.3 \* Documentation Requirements

The requesting provider, which may include a physician, nursing facility, health-care provider, or other responsible party, is required to maintain the supporting documentation, physician's orders, the Non-emergency Ambulance Prior Authorization Request form and if applicable, the Nonemergency Ambulance Exception form.

**The requesting provider (i.e., physician, nursing facility, healthcare provider, or other responsible party) must contact the transporting ambulance provider with the PAN and the dates of service that were approved. The transporting ambulance provider will submit claims for the nonemergency ambulance transportation services, using the approved PAN provided by the requesting provider.**

An ambulance provider is required to maintain documentation that represents the client's medical condition and other clinical information to substantiate medical necessity, the level of service, and the mode of transportation requested. This supporting documentation is limited to documents developed or maintained by the ambulance provider.

Physicians, nursing facilities, health-care providers, or other responsible parties are required to maintain physician orders related to requests for prior authorization of nonemergency and out-of-state ambulance services. These providers must also maintain documentation of medical necessity for the ambulance transport.

In hospital-to-hospital transports or hospital-to-outpatient medical facility transports, the TMHP Ambulance Unit considers information by telephone from the hospital. Providers are not required to fax medical documentation to TMHP; however, in certain circumstances, TMHP may request that the hospital fax the supporting documentation. Hospitals are allowed to release a client's protected health information (PHI) to a transporting emergency medical services provider for treatment, payment, and health-care operations.

Providers must document whether the client is currently an inpatient in a hospital when requesting prior authorization. Prior authorization will not be approved if the provider indicates the client is currently an inpatient in a hospital, except for one-time transports immediately after the client's discharge from the hospital.

The hospital must maintain documentation of medical necessity, including a copy of the authorization from TMHP in the client's medical record for any item or service that requires prior authorization. The services provided must be clearly documented in the medical record with all pertinent information regarding the client's condition to substantiate the need and medical necessity for the services.

### 2.3.1 Medicaid Surety Bond Requirements

Ambulance providers attempting to renew their Emergency Medical Services (EMS) license must submit a surety bond to TMHP for each license they are attempting to renew. A copy of the surety bond must also be attached to an application for renewal of an EMS license when submitted to DSHS.

**Referto:** Subsection 1.1.6, "Surety Bond Enrollment Requirement" in "Section 1: Provider Enrollment and Responsibilities" (*Vol. 1, General Information*) for more information.

## 2.4 Claims Filing and Reimbursement

### 2.4.1 Claims Information

Emergency and nonemergency claims may be billed electronically. For electronic billers, the hospital's provider identifier must be entered in the Facility ID field. Providers should consult their software vendor for the location of this field on the electronic claim form.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in the Texas Medicaid medical policy are no longer valid.

The CMS NCCI and MUE guidelines can be found in the [NCCI Policy and Medicare Claims Processing manuals](#), which are available on the CMS website. Providers should refer to the CMS NCCI web page for correct coding guidelines and specific applicable code combinations.

In instances when Texas Medicaid medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

### 2.4.2 Reimbursement

Ground and air ambulance providers are reimbursed based on the lesser of a provider's billed charges or the maximum fee established by the Texas Health and Human Services Commission (HHSC) in accordance with 1 TAC §355.8600. Providers can refer to the [Online Fee Lookup \(OFL\)](#) or the applicable fee schedule on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

**Referto:** Subsection 2.2, "Fee-for-Service Reimbursement Methodology" in "Section 2: Texas Medicaid Fee-for-Service Reimbursement" (*Vol. 1, General Information*) for more information about reimbursement methodologies.

Subsection 1.11, "Texas Medicaid Limitations and Exclusions" in "Section 1: Provider Enrollment and Responsibilities" (*Vol. 1, General Information*) for information on Medicaid exclusions.

#### 2.4.2.1 Ambulance Disposable Supplies

Ambulance disposable supplies are included in the global fee for specialty care transport and must not be billed separately.

Reimbursement for BLS or ALS disposable supplies (procedure codes A0382 and A0398 respectively) is separate from the established fee for ALS and BLS ambulance transports and is limited to one billable procedure code per transport.

#### **2.4.2.2 Payment Window Reimbursement Guidelines for Services Preceding an Inpatient Admission**

The three-day and one-day payment window reimbursement guidelines do not apply for ambulance services.

**Referto:** Subsection 3.7.3.8, “Payment Window Reimbursement Guidelines” in the *Inpatient and Outpatient Hospital Services Handbook (Vol. 2, Provider Handbooks)* for additional information about the payment window reimbursement guidelines.

#### **2.4.3 Medicare and Medicaid Coverage**

All ambulance claims are exempt from Medicare equalization, which pays the lesser of the coinsurance and deductible or the remainder of the amount that Medicaid would have paid for the same service minus what Medicare has already paid on Medicare crossover claims.

All claims for ambulance services provided to dual-eligible clients are reimbursed the full amount of the Medicare coinsurance and deductible for Part B claims and Part C claims from non-contracted Medicare Advantage Plans.

Medicaid prior authorization is not required for ambulance services for Qualified Medicare Beneficiary (QMB) clients because QMB clients are not eligible for Medicaid benefits. Providers can contact Medicare for the Medicare prior authorization guidelines.

Medicaid Qualified Medicare Beneficiary (MQMB) clients are eligible for all Medicaid benefits; therefore, the provider should simultaneously request prior authorization for the nonemergency transport from TMHP for the MQMB client in the event the service requested is denied by Medicare as a non-covered service.

**Referto:** Subsection 4.11, “Medicare and Medicaid Dual Eligibility” in “Section 4: Client Eligibility” (*Vol. 1, General Information*).

Subsection 2.7, “Medicare Crossover Claim Reimbursement” in “Section 2: Texas Medicaid Fee-for-Service Reimbursement” (*Vol. 1, General Information*) for additional information about Medicare coinsurance and deductible payments and exceptions.

##### **2.4.3.1 Medicare Services Paid**

Assigned claims filed with and paid by Medicare should automatically transfer to TMHP for payment of the deductible and coinsurance liability. According to current guidelines, providers must submit Medicare-paid claims that do not cross over to TMHP for the coinsurance and deductible. Providers must send the Medicare Remittance Advice Notice (MRAN) with the client information circled in black ink.

##### **2.4.3.2 Medicare Services Denied**

A Medicare ambulance claim that has been denied must go through the appropriate Medicare claim appeals process with a decision by the administrative law judge before TMHP will process the ambulance claim. MQMB ambulance claims that have exhausted the Medicare third level of appeal by the administrative law judge (ALJ) must be submitted to TMHP with the disposition letter from the ALJ along with all other required documents for an appeal.

An assigned claim that was denied by Medicare because the client has no Part B benefits or because the transport destination is not allowed can be submitted to TMHP for consideration. Providers must send claims to TMHP on a CMS-1500 paper claim form with the ambulance provider identifier, unless they

are a hospital-based provider. Hospital-based ambulance providers must send Medicare denied claims to TMHP on a CMS-1500 paper claim form with the ambulance provider identifier and a copy of the MRAN.

**Note:** All claims for STAR+PLUS clients with Medicare and Medicaid must follow the same requirements used for obtaining prior authorization for Medicaid-only services from TMHP. The STAR+PLUS HMO is not responsible for reimbursement of these services.

## 2.4.4 Ambulance Claims Coding

Providers must submit claims for emergency transport with the ET modifier on each procedure code submitted. Any procedure code submitted on the claim for emergency transport without the ET modifier will be subject to prior authorization requirements.

### 2.4.4.1 Place of Service Codes

The place of service (POS) for all ambulance transports is considered the destination.

POS codes 41 and 42 (other) are national POS codes that are accepted by Texas Medicaid only for electronic claims. POS code 9 is accepted by Texas Medicaid for ambulance claims submitted on paper.

### 2.4.4.2 Origin and Destination Codes

All claims submitted on paper or electronically must include the two-character origin and destination codes for every claim line. The origin is the first character, and the destination is the second character.

The following are the origin and destination codes accepted by Texas Medicaid:

| Origin and Destination Code | Description   |
|-----------------------------|---|
| D                           | Diagnostic or therapeutic site/freestanding facility (e.g., radiation therapy center) other than P or H |
| E                           | Residential/domiciliary/custodial facility (e.g., nonskilled facility)                                  |
| G                           | Hospital-based dialysis facility (hospital or hospital-related)   |
| H                           | Hospital (e.g., inpatient or outpatient)  |
| I                           | Site of transfer (e.g., airport or helicopter pad) between modes of ambulance transport                 |
| J                           | Non-hospital-based dialysis facility  |
| N                           | Skilled Nursing Facility (SNF) (swingbed is considered an SNF)  |
| P                           | Physician's office (includes HMO and nonhospital facility)  |
| R                           | Residence (client's home or any residence)  |
| S                           | Scene of accident or acute event  |
| X                           | Intermediate stop at physician's office en route to the hospital (destination code only)                |

Nonemergency claims filed electronically must include the PAN in the appropriate field. For nonemergency hospital-to-hospital transfers, indicate the services required from the second facility and unavailable at the first facility in Block 19 of the CMS-1500 paper claim form. If the destination is a hospital, enter the name and address and the provider identifier of the facility in Block 32.

For nonemergency transports, ambulance providers must enter the ICD-10-CM diagnosis code to the highest level of specificity available for each diagnosis observed in Block 21 of the claim form.

**Reminder:** Providers must submit multiple transports for the same client on the same date of service through one claim submission. Additional claims information can be found within individual topics in this section.

Providers should consult their software vendor for the location of the field on the electronic claim form. Providers must submit ambulance services to TMHP on a CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from a vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key information from claim attachments. Superbills, or itemized statements, are not accepted as claim supplements.

**Referto:** “Section 3: TMHP Electronic Data Interchange (EDI)” (*Vol. 1, General Information*) for information on electronic claims submissions.

“Section 6: Claims Filing” (*Vol. 1, General Information*) for general information about claims filing.

Subsection 6.5, “CMS-1500 Paper Claim Filing Instructions” in “Section 6: Claims Filing” (*Vol. 1, General Information*). Blocks that are not referenced are not required for processing by TMHP and may be left blank.

#### 2.4.4.3 Transports Billed Without Mileage

Ambulance transport claims with a billed mileage amount of \$0.00 will be reimbursed. To qualify for reimbursement, the transport claim must include a mileage quantity that is greater than zero.

Providers may not include a mileage charge as part of the transport charge or as part of any other charges on the claim.

Payments for ambulance transports are only made if the client is actually transported and the mileage quantity billed is greater than zero. Mileage charges greater than zero will be considered for reimbursement when a transport procedure code is included on the claim.

#### 2.4.5 Air or Specialized Vehicle Transports

Procedure codes A0430 and A0435, or A0431 and A0436 are used to bill air transport. Procedure code A0999 is used to bill for specialized vehicle transports. Transport claims may be submitted electronically with a short description of the client’s physical condition in the comment field. If the client’s condition cannot be documented, providers must file a paper claim with supporting documentation.

**Referto:** Subsection 2.2.5.2, “Air or Specialized Vehicle Transports” in this handbook for more information about how to meet the specific criteria for reimbursement consideration for air or specialized transport claims.

#### 2.4.6 Emergency Transport Billing

Emergency transport is a benefit when billed with the ET modifier and the most appropriate emergency medical condition codes. The ET modifier is required for every detail on an emergency transport claim, but is not required to be listed in the first position on the claim line.

The following procedure codes are for emergency transport:

| Procedure Codes  |       |       |       |        |       |       |       |       |       |
|--|-------|-------|-------|--------|-------|-------|-------|-------|-------|
| A0382  | A0398 | A0422 | A0424 | A0425* | A0427 | A0429 | A0430 | A0431 | A0433 |
| A0434  | A0435 | A0436 | A0999 |        |       |       |       |       |       |
| *A0425 is denied if it is billed without procedure code A0427, A0429, A0433, or A0434. |       |       |       |        |       |       |       |       |       |

One of the following emergency medical condition code is required on all emergency ambulance claims and must be listed in Box 21 of the CMS-1500 claim form:

| Emergency Medical Condition Codes |      |      |      |        |        |     |       |
|-----------------------------------|------|------|------|--------|--------|-----|-------|
| B9689                             | B999 | E869 | F068 | F10929 | F19939 | F29 | G4489 |

| Emergency Medical Condition Codes |         |         |         |         |         |         |         |
|-----------------------------------|---------|---------|---------|---------|---------|---------|---------|
| G8929                             | H579    | I469    | I499    | J9600   | J984    | M549    | O2690   |
| R002                              | R0602   | R0603   | R0689   | R079    | R092    | R0989   | R100    |
| R109                              | R238    | R4182   | R4189   | R4589   | R509    | R52     | R55     |
| R569                              | R58     | R6889   | R7309   | S0590XA | T07XXXA | T148XXA | T1490XA |
| T1491XA                           | T17300A | T300    | T50904A | T59891A | T5994XA | T672XXA | T675XXA |

| Z9981                             | Z9989   |         |         |         |         |         |         |

While ICD-10-CM codes are not precluded from use on ambulance claims, they are currently not required (per the Health Insurance Portability and Accountability Act [HIPAA] of 1996) on most ambulance claims and the use of these codes generally does not trigger a payment or a denial of a claim.

Claims for emergency transports that are denied for not meeting the emergency criteria will be considered on appeal with additional documentation to support the emergency nature of the transport. Claims that have denied for not meeting emergency transport criteria cannot be appealed for reimbursement as a nonemergency claim.

**Referto:** Subsection 2.2.1, “Emergency Ambulance Transport Services” in this handbook.

#### 2.4.7 Nonemergency Transport Billing

The following procedure codes are used when billing for nonemergency ambulance services:

| Procedure Codes  |       |       |       |       |        |       |       |       |       |
|--|-------|-------|-------|-------|--------|-------|-------|-------|-------|
| A0382  | A0398 | A0420 | A0422 | A0424 | A0425* | A0426 | A0428 | A0430 | A0431 |
| A0433  | A0434 | A0435 | A0436 |       |        |       |       |       |       |
| *A0425 is denied if it is billed without procedure code A0426, A0428, A0433, or A0434. |       |       |       |       |        |       |       |       |       |

#### 2.4.8 Extra Attendant

The use of additional attendants (procedure code A0424) must be related to extraordinary circumstances when the basic crew is unable to transport the client safely.

An extra attendant on a nonemergency transport must be prior authorized. On an emergency transport, the billing provider’s medical documentation must clearly indicate the services the attendant performs along with a rationale for the services to indicate medical necessity of the attendant.

The information supporting medical necessity must be kept in the billing provider’s medical record and is subject to retrospective review.

Situations when an extra attendant may be required beyond the basic crew include, but are not limited to:

- Necessity of additional special medical equipment or treatment en route to destination (describe what special treatment and equipment is required and why it requires an attendant).
- Client behavior that may be a danger to self or ambulance crew or that requires, or may require, restraints.
- Extreme obesity of client (provide weight and client’s functional limitations).
- The extra attendant must be certified by DSHS to provide emergency medical services.

- The use of an extra attendant for air transport is not a benefit of Texas Medicaid. Claims submitted with procedure code A0424 will be denied if billed with air transports (procedure code A0430 or A0431).

#### **2.4.8.1 Emergency Transports**

Emergency transports that use an extra attendant do not require prior authorization. Modifier ET must be billed with the extra attendant procedure code A0424.

The billing provider's medical documentation must clearly indicate the services the attendant performed along with rationale for the services to indicate the medical necessity of having the attendant. The billing provider must keep the information that supports medical necessity in the client's medical record, which will be subject to retrospective review.

When more than one client is transported at the same time in the same vehicle, the use of an extra attendant may be required when each client who is being transported requires medical attention or close monitoring.

#### **2.4.8.2 Nonemergency Transports**

Prior authorization is required when an extra attendant is needed for any nonemergency transport. When a client's condition changes, such as a need for oxygen or an extra attendant for transport, the prior authorization request must be updated.

To receive prior authorization, the requesting provider must prove medical necessity and identify attendant services that could not be provided by the basic crew. The information supporting medical necessity must be kept in the requesting provider's medical record and is subject to retrospective review.

Texas Medicaid does not reimburse for an extra attendant based only on an ambulance provider's internal policy.

#### **2.4.9 Night Call**

Texas Medicaid does not reimburse an extra charge for a night call.

#### **2.4.10 \* Waiting Time**

Procedure code A0420 **for nonemergency ambulance transportation services requires prior authorization and** may be billed when it is the general billing practice of local ambulance companies to charge for unusual waiting time (longer than 30 minutes). Providers must use the following procedures:

- Separate charges must be billed for all clients, Medicaid and non-Medicaid, for unusual waiting time.
- The circumstances requiring waiting time and the exact time involved must be documented in Block 24 of the CMS-1500 paper claim form.
- The amount charged for waiting time must not exceed the charge for a one-way transfer.

**Important:** *Waiting time is reimbursed up to one hour.*

#### **2.4.11 Appeals**

Only a denial of prior authorization may be appealed. Clients may appeal prior authorization request denials by contacting TMHP Client Notification at 1-800-414-3406. The Non-emergency Ambulance Prior Authorization Request form is not considered to be documentation after the service has been rendered.

Claims denied due to an inappropriate emergency medical condition code may be resubmitted with the appropriate emergency medical condition code.

On appeal, supporting documentation is critical for determining the client's condition at the time of transport. Ambulance providers who file paper claims must include all information that supports the reason for the transport and attach a copy of the run sheet to the claim. The EMT who transported the client must sign the documentation.

**Referto:** Subsection 2.3, “\* Documentation Requirements” in this handbook.

Medicaid clients have the right to request a Fair Hearing within 90 days of the date of the denial action.

## 2.4.12 Relation of Service to Time of Death

Medicaid benefits cease at the time of the client's death. However, if the client dies in the ambulance while en route to the destination, Texas Medicaid covers the transport. If a physician pronounces the client dead after the ambulance is called, Texas Medicaid covers the ambulance service (base rate plus mileage) to the point of pick up. Providers must indicate the date and time the client died in Block 19 of the CMS-1500 paper claim form. If a physician or coroner pronounces the client dead before the ambulance is called, the service is not covered.

Equipment and nondisposable supplies are included in the base rate. These items are not separately reimbursable and are considered part of another procedure. Therefore, equipment and supplies cannot be billed to the client.

## 2.5 Claims Resources

Providers may refer to the following sections or forms when filing claims:

| Resource   | Location   |
|--|--|
| Acronym Dictionary                                 | “Appendix D: Acronym Dictionary” ( <i>Vol. 1, General Information</i> )  |
| Automated Inquiry System (AIS)                     | Subsection A.10, “TMHP Telephone and Fax Communication” in “Appendix A: State, Federal, and TMHP Contact Information” ( <i>Vol. 1, General Information</i> ) |
| CMS-1500 Paper Claim Filing Instructions           | Subsection 6.5, “CMS-1500 Paper Claim Filing Instructions” in “Section 6: Claims Filing” ( <i>Vol. 1, General Information</i> )                              |
| State, federal, and TMHP contact information       | “Appendix A: State, Federal, and TMHP Contact Information” ( <i>Vol. 1, General Information</i> )  |
| TMHP Electronic Data Interchange (EDI) information | “Section 3: TMHP Electronic Data Interchange (EDI)” ( <i>Vol. 1, General Information</i> )   |

## 2.6 Contact TMHP

The TMHP Contact Center at 1-800-925-9126 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time.

# 1 General Information

The information in this handbook is intended for the Case Management for the Blind Children's Vocational Discovery and Development Program (BCVDDP), Case Management for Children and Pregnant Women, and services provided by a licensed clinical social worker (LCSW), licensed marriage and family therapist (LMFT), licensed professional counselor (LPC), psychologist, physician, advanced practice registered nurse (APRN), physician assistant (PA), or providers of intellectual and developmental disability (IDD) case management, mental health targeted case management, and mental health rehabilitative services.

All providers are required to report suspected child abuse or neglect as outlined in subsection 1.6.1.2, "Reporting Child Abuse or Neglect" in "Section 1: Provider Enrollment and Responsibilities" (Vol. 1, General Information) and subsection 1.6.1.5, "Training" in "Section 1: Provider Enrollment and Responsibilities" (Vol. 1, General Information).

**Important:** *All providers are required to read and comply with "Section 1: Provider Enrollment and Responsibilities" (Vol. 1, General Information). In addition to required compliance with all requirements specific to Texas Medicaid, it is a violation of Texas Medicaid rules when a provider fails to provide health-care services or items to Medicaid clients in accordance with accepted medical community standards and standards that govern occupations, as explained in Title 1 Texas Administrative Code (TAC) §371.1659. Accordingly, in addition to being subject to sanctions for failure to comply with the requirements that are specific to Texas Medicaid, providers can also be subject to Texas Medicaid sanctions for failure to deliver, at all times, health-care items and services to Medicaid clients in full accordance with all applicable licensure and certification requirements including, without limitation, those related to documentation and record maintenance.*

**Referto:** "Section 1: Provider Enrollment and Responsibilities" (Vol. 1, General Information).

"Appendix B: Vendor Drug Program" (Vol. 1, General Information) for information about outpatient prescription drugs and the Medicaid Vendor Drug Program.

## 1.1 Payment Window Reimbursement Guidelines for Services Preceding an Inpatient Admission

According to the three-day and one-day payment window reimbursement guidelines, most professional and outpatient diagnostic and nondiagnostic services that are rendered within the designated timeframe of an inpatient hospital stay and are related to the inpatient hospital admission will not be reimbursed separately from the inpatient hospital stay if the services are rendered by the hospital or an entity that is wholly owned or operated by the hospital.

These reimbursement guidelines do not apply in the following circumstances:

- The professional services are rendered in the inpatient hospital setting.
- The hospital and the physician office or other entity are both owned by a third party, such as a health system.
- The hospital is not the sole or 100-percent owner of the entity.

**Referto:** Subsection 3.7.3.8, "Payment Window Reimbursement Guidelines" in the *Inpatient and Outpatient Hospital Services Handbook* (Vol. 2, Provider Handbooks) for additional information about the payment window reimbursement guidelines.

## 2 Blind Children's Vocational Discovery and Development Program (BCVDDP)

### 2.1 Overview

BCVDDP services are provided to help children who are blind and visually impaired to develop their individual potential. This program offers a wide range of services that are tailored to each child and their family's needs and circumstances. By working directly with the entire family, this program can help children develop the concepts and skills needed to realize their full potential.

BCVDDP services include the following:

- Assisting the client in developing the confidence and competence needed to be an active part of their community
- Providing support and training to children in understanding their rights and responsibilities throughout the educational process
- Assisting family and children in the vocational discovery and development process
- Providing training in areas like food preparation, money management, recreational activities, and grooming
- Supplying information to families about additional resources

### 2.2 Enrollment

The Department of Assistive and Rehabilitative Services (DARS) Division for Blind Services (DBS) is the Medicaid provider of case management for clients who are 21 years of age and younger and blind or visually impaired. Providers must meet educational and work experience requirements that are commensurate with their job responsibilities and must be trained in DBS case management activities.

**Referto:** Subsection 1.1, "Provider Enrollment and Reenrollment" in "Section 1: Provider Enrollment and Responsibilities" (*Vol. 1, General Information*) for more information about procedures for enrolling as a Medicaid provider.

### 2.3 Services, Benefits, Limitations, and Prior Authorization

Services eligible for reimbursement are limited to one contact per month, per client, regardless of the number of contacts that are made during the month. DARS DBS providers should bill procedure code G9012.

A contact is defined as "an activity performed by a case manager with the client or with another person or organization on behalf of the client to locate, coordinate, and monitor necessary services."

**Referto:** Subsection A.8, "Department of Assistive and Rehabilitative Services (DARS), Blind Services" in "Appendix A: State, Federal, and TMHP Contact Information" (*Vol. 1, General Information*).

#### 2.3.1 Prior Authorization

Prior authorization is not required for BCVDDP case management services.

### 2.4 Documentation Requirements

All services require documentation to support the medical necessity of the service rendered, including BCVDDP services.

BCVDDP services are subject to retrospective review and recoupment if documentation does not support the service billed.

## 2.5 Claims Filing and Reimbursement

BCVDDP case management services must be submitted to the Texas Medicaid & Healthcare Partnership (TMHP) in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills or itemized statements are not accepted as claim supplements. Providers must not submit a claim when or after the client turns 21 years of age.

Claims may be submitted up to 365 days from the date of service in accordance with 1 TAC §354.1003.

Any child who has a suspected or diagnosed visual impairment may be referred to BCVDDP. DARS DBS assesses the impact the visual impairment has on the child's development and provides blindness-specific services to increase the child's skill level in the areas of independent living, communication, mobility, social, recreational, and vocational discovery and development. For more information, visit the DARS website at [www.dars.state.tx.us](http://www.dars.state.tx.us).

Providers can refer to the [Online Fee Lookup \(OFL\)](#) or the applicable fee schedule on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

Texas Medicaid implemented mandated rate reductions for certain services. The OFL and static fee schedules include a column titled "Adjusted Fee" to display the individual fees with all mandated percentage reductions applied.

Additional information about rate changes is available on the TMHP website at [www.tmhp.com/pages/topics/rates.aspx](http://www.tmhp.com/pages/topics/rates.aspx).

**Referto:** "Section 3: TMHP Electronic Data Interchange (EDI)" (*Vol. 1, General Information*) for information about electronic claims submissions.

Subsection 6.1, "Claims Information" in "Section 6: Claims Filing" (*Vol. 1, General Information*) for general information about claims filing.

Subsection 6.5, "CMS-1500 Paper Claim Filing Instructions" in "Section 6: Claims Filing" (*Vol. 1, General Information*).

Subsection 2.9, "Federal Medical Assistance Percentage (FMAP)" in "Section 2: Texas Medicaid Fee-for-Service Reimbursement" (*Vol. 1, General Information*) for federal matching percentage.

## 3 Case Management for Children and Pregnant Women

### 3.1 Overview

Case management services are provided to help eligible clients gain access to necessary medical, social, educational, and other services. Case managers assess a client's need for these services and then develop a service plan to address those needs.

#### 3.1.1 Eligibility

To be eligible for services, a person must:

- Be eligible for Texas Medicaid.
- Be a pregnant woman who has a high-risk condition or a child (birth through 20 years of age) who has a health condition or health risk.

- Need assistance in gaining access to necessary medical, social, educational and other services related to their health condition, health risk, or high-risk condition.
- Want to receive case management services.

Pregnant women who have a high-risk condition are defined as those who have a medical or psychosocial condition that places them and their fetuses at a greater than average risk for complications, either during pregnancy, delivery, or following birth. Children with a health condition are defined as children who have a health condition or health risk or children who have or are at risk for a medical condition, illness, injury, or disability that results in the limitation of function, activities, or social roles in comparison with healthy same-age peers in the general areas of physical, cognitive, emotional, or social growth and development.

### **3.1.2 Referral Process**

To refer a Medicaid client for Case Management for Children and Pregnant Women services, providers may do one of the following:

- Visit [www.dshs.texas.gov/caseman/Make-a-Referral-to-Case-Management/.shtm](http://www.dshs.texas.gov/caseman/Make-a-Referral-to-Case-Management/.shtm) to obtain a referral form.
- Call THSteps toll free at 1-877-847-8377 from 8 a.m. to 8 p.m., Central Time, Monday through Friday.
- Contact a Case Management for Children and Pregnant Women provider directly at [www.dshs.texas.gov/caseman/providerRegion.shtm](http://www.dshs.texas.gov/caseman/providerRegion.shtm). A case management provider will contact the family to offer a choice of providers and obtain information necessary to request prior authorization for case management services.

A referral for Case Management for Children and Pregnant Women services can be received from any source.

## **3.2 Enrollment**

Enrollment for Case Management for Children and Pregnant Women providers is a two-step process.

### **Step 1**

Potential providers must submit a Health and Human Services Commission (HHSC) Case Management for Children and Pregnant Women provider application to the HHSC Health Screening and Case Management Unit.

Both registered nurses who have an associate's, bachelor's, or advanced degree and social workers who have a bachelor's or advanced degree are eligible to become case managers if they are currently licensed by their respective Texas licensure boards and the license is not temporary in nature. Registered nurses with associate degrees must also have at least two years of cumulative, paid, full-time work experience or two years of supervised full-time, educational, internship/practicum experience in the past ten years. The experience must be with pregnant women or with children who are 20 years of age and younger. The experience must include assessing psychosocial and health needs and making community referrals for these populations. Registered nurses with bachelor or advance degrees and social workers do not have to meet any experience requirements.

For more information about provider qualifications and enrollment, contact HHSC at 1-512-458-7111, ext. 2168, visit the case management website at [www.dshs.texas.gov/caseman/default.shtm](http://www.dshs.texas.gov/caseman/default.shtm), or write to the following address:

Health and Human Services Commission  
Case Management for Children and Pregnant Women  
PO Box 149347, MC 1938  
Austin, TX 78714-9347

**Note:** Before providing services, each case manager must attend HHSC case manager training. Training is conducted by DSHS regional staff.

## Step 2

Upon approval by HHSC, potential providers must enroll as a Medicaid provider for Case Management for Children and Pregnant Women and submit a copy of their HHSC approval letter. Facility providers must enroll as a Case Management for Children and Pregnant Women group, and each eligible case manager must enroll as a performing provider for the group. Federally Qualified Health Center (FQHC) facilities that provide Case Management for Children and Pregnant Women services will use their FQHC number and should not apply for an additional provider number for Case Management for Children and Pregnant Women.

**Referto:** Subsection 1.1, “Provider Enrollment and Reenrollment” in “Section 1: Provider Enrollment and Responsibilities” (*Vol. 1, General Information*) for more information about the procedures for enrolling as a Medicaid provider.

### 3.3 Services, Benefits, Limitations, and Prior Authorization

Case Management for Children and Pregnant Women services are limited to one contact per day per client. Additional provider contacts on the same day are denied as part of another service rendered on the same day.

Procedure code G9012 is to be used for all Case Management for Children and Pregnant Women services. Modifiers are used to identify which service component is provided.

| Service                | Contact Code                           |
|------------------------|--|
| Comprehensive visit    | G9012 with modifier U5 and modifier U2 |
| Follow-up face-to-face | G9012 with modifier U5 and modifier TS |
| Follow-up telephone    | G9012 with modifier TS                 |

Providers must adhere to Case Management for Children and Pregnant Women program rules, policies, and procedures.

**Note:** Case Management for Children and Pregnant Women providers are not required to file claims with other health insurance before filing with Medicaid.

**Reminder:** Billable services are defined in program rule 25 TAC §27.11.

Case Management for Children and Pregnant Women services are not billable when a client is an inpatient at a hospital or other treatment facility.

Reimbursement will be denied for services rendered by providers who have not been approved by HHSC.

### 3.3.1 Prior Authorization

All services must be prior authorized. One comprehensive visit is approved for all eligible clients. Follow-up visits are authorized based on contributing factors. Additional visits can be requested and may be authorized based on a continuing need for services. A prior authorization number is required on all claims for Case Management for Children and Pregnant Women services.

*Note: Prior authorization is a condition of reimbursement, not a guarantee of payment.*

Approved case management providers may submit requests for prior authorization from HHSC on the Department of State Health Services (DSHS) website at [www.dshs.texas.gov/caseman/subpaweb.shtm](http://www.dshs.texas.gov/caseman/subpaweb.shtm).

## 3.4 Technical Assistance

Providers may contact HHSC program staff as needed for assistance with program concerns. Providers should contact TMHP provider relations staff as needed for assistance with claims problems or concerns.

### 3.4.1 Assistance with Program Concerns

Providers who have questions, concerns, or problems with program rule, policy, or procedure may contact HHSC program staff. Contact names and numbers can be obtained from the case management website at [www.dshs.texas.gov/caseman/contact4.shtm](http://www.dshs.texas.gov/caseman/contact4.shtm), or by calling 1-512-458-7111, Ext. 2168.

Regional DSHS staff make routine contact with providers to ensure providers are delivering services as required.

## 3.5 Documentation Requirements

All services require documentation to support the medical necessity of the service rendered, including Case Management for Children and Pregnant Women services.

Case Management for Children and Pregnant Women services are subject to retrospective review and recoupment if documentation does not support the service billed.

## 3.6 Claims Filing and Reimbursement

### 3.6.1 Claims Information

Case Management for Children and Pregnant Women services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills, or itemized statements, are not accepted as claim supplements.

Case Management for Children and Pregnant Women providers are reimbursed in accordance with 1 TAC §355.8401. Providers can refer to the [OFL](http://www.tml.org) or the applicable fee schedule on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

Texas Medicaid implemented mandated rate reductions for certain services. The OFL and static fee schedules include a column titled “Adjusted Fee” to display the individual fees with all mandated percentage reductions applied.

Additional information about rate changes is available on the TMHP website at [www.tmhp.com/pages/topics/rates.aspx](http://www.tmhp.com/pages/topics/rates.aspx).

**Referto:** “Section 3: TMHP Electronic Data Interchange (EDI)” (*Vol. 1, General Information*) for information on electronic claims submissions.

Subsection 6.1, “Claims Information” in “Section 6: Claims Filing” (*Vol. 1, General Information*) for general information about claims filing.

Subsection 6.5, “CMS-1500 Paper Claim Filing Instructions” in “Section 6: Claims Filing” (*Vol. 1, General Information*).

Subsection 2.2, “Fee-for-Service Reimbursement Methodology” in “Section 2: Texas Medicaid Fee-for-Service Reimbursement” (*Vol. 1, General Information*) for more information about reimbursement.

### 3.6.2 Managed Care Clients

Case Management for Children and Pregnant Women services are carved out of Medicaid managed care and must be billed to TMHP for payment consideration. Carved-out services are those that are rendered to Medicaid managed care clients, but are administered by TMHP and not the client’s managed care organization (MCO).

## 4 Outpatient Mental Health Services

Outpatient mental health services are used for the treatment of mental illness and emotional disturbances in which the clinician establishes a professional contract with the client and, utilizing therapeutic interventions, attempts to alleviate the symptoms of mental illness or emotional disturbance, and reverse, change, or ameliorate maladaptive patterns of behavior.

Outpatient mental health services include psychiatric diagnostic evaluation, psychotherapy (including individual, group, or family psychotherapy), psychological, neurobehavioral, or neuropsychological testing, pharmacological management services, and electroconvulsive therapy (ECT).

Outpatient mental health services are benefits of Texas Medicaid when provided to clients who are experiencing a mental health issue that is causing distress, dysfunction, and/or maladaptive functioning as a result of a confirmed or suspected psychiatric condition as defined in the current edition of the American Psychiatric Association’s Diagnostic and Statistical Manual of Mental Disorders (DSM).

**Note:** Claims will require the corresponding diagnosis code(s) from the current edition of the *International Classification of Diseases (ICD)*.

### 4.1 Provider Enrollment

Mental health service providers include physicians, PAs, APRNs, LCSWs, LMFTs, LPCs, psychologists, licensed psychological associates (LPAs), provisionally licensed psychologists (PLPs), post-doctoral fellows, and pre-doctoral psychology interns.

**Referto:** Subsection 1.1, “Provider Enrollment and Reenrollment” in “Section 1: Provider Enrollment and Responsibilities” (*Vol. 1, General Information*) for more information about procedures for enrolling as a Medicaid provider.

#### 4.1.1 Physicians

To enroll in Texas Medicaid to provide medical services, physicians (doctor of medicine [MD] or doctor of osteopathy [DO]) and doctors (doctor of dental medicine [DMD], doctor of dental surgery [DDS], doctor of optometry [OD], and doctor of podiatric medicine) must be authorized by the licensing authority of their profession to practice in the state where the services are performed at the time they are provided.

Providers cannot be enrolled in Texas Medicaid if their licenses are due to expire within 30 days. A current Texas license must be submitted.

All physicians except gynecologists, pediatricians, pediatric subspecialists, pediatric psychiatrists, and providers performing only THSteps medical or dental checkups must be enrolled in Medicare before enrolling in Medicaid. TMHP may waive the Medicare enrollment prerequisite for pediatricians or physicians whose type of practice and service may never be billed to Medicare.

#### **4.1.2 Physician Assistants (PAs)**

To enroll in Texas Medicaid, a PA must be licensed as a PA and be recognized as a PA by the Texas Physician Assistant Board. All PAs are enrolled within the categories of practice as determined by the Texas Medicaid Board. PAs can enroll as an individual, group, or as a performing provider into a clinic/group practice. If enrolling into a Medicare-enrolled clinic/group practice, Medicare enrollment is required.

#### **4.1.3 Advanced Practice Registered Nurses (APRNs)**

To enroll in Texas Medicaid, whether as an individual or as part of a group, a nurse practitioner (NP) or clinical nurse specialist (CNS) recognized as an APRN must be licensed by the Texas Board of Nursing (TBON). NP/CNSs must also be enrolled in Medicare or obtain a pediatric practice exemption from TMHP Provider Enrollment. If a pediatric-based NP/CNS is enrolling as part of a Medicare-enrolled group, then the NP/CNSs must also be enrolled in Medicare.

Providers that hold a temporary license are not eligible to enroll in Medicaid. NP/CNSs cannot be enrolled if their license is due to expire within 30 days. A current license must be submitted.

#### **4.1.4 Licensed Clinical Social Workers (LCSWs)**

To enroll in Texas Medicaid, whether as an individual or as part of a group, an LCSW must be licensed by the Texas State Board of Social Worker Examiners. LCSWs must also be enrolled in Medicare or obtain a pediatric practice exemption from TMHP Provider Enrollment. If a pediatric-based LCSW is enrolling as part of a Medicare-enrolled group, then the LCSW must also be enrolled in Medicare.

Providers that hold a temporary license are not eligible to enroll in Medicaid. LCSWs cannot be enrolled if their license is due to expire within 30 days. A current license must be submitted.

#### **4.1.5 Licensed Marriage and Family Therapists (LMFTs)**

To enroll in Texas Medicaid, whether as an individual or as part of a group, an LMFT must be licensed by the Texas State Board of Examiners of Licensed Marriage and Family Therapists. LMFTs are covered as Medicaid-only providers; therefore, enrollment in Medicare is not a requirement. LMFTs can enroll as part of a clinic/group practice whether or not they are enrolled in Medicare. Providers that hold a temporary license are not eligible to enroll in Medicaid. LMFTs cannot be enrolled if their license is due to expire within 30 days. A current license must be submitted.

#### **4.1.6 Licensed Professional Counselors (LPCs)**

To enroll in Texas Medicaid, whether as an individual or as part of a group, an LPC must be licensed by the Texas Board of Examiners of Professional Counselors. LPCs are covered as Medicaid-only providers; therefore, enrollment in Medicare is not a requirement. LPCs can enroll as part of a clinic/group practice whether or not they are enrolled in Medicare. Providers that hold a temporary license are not eligible to enroll in Medicaid. LPCs cannot be enrolled if their license is due to expire within 30 days. A current license must be submitted.

#### **4.1.7 Psychologists**

To enroll in Texas Medicaid, whether as an individual or as part of a group, a psychologist must be licensed by the Texas State Board of Examiners of Psychologists (TSBEP). Psychologists must also be enrolled in Medicare or obtain a pediatric practice exemption from TMHP Provider Enrollment. If a pediatric-based psychologist is enrolling as part of a Medicare-enrolled group, then the psychologist

must also be enrolled in Medicare. Psychologists cannot be enrolled if they have a license that is due to expire within 30 days. A current license must be submitted. Texas Medicaid accepts temporary licenses for psychologists.

#### **4.1.8 Licensed Psychological Associates (LPAs)**

LPAs must be licensed by TSBEP. LPAs are expected to abide by their scope and standards of practice. Services performed by an LPA are a Medicaid-covered benefit when the following conditions are met:

- The services must be performed under the direct supervision of a licensed, Medicaid-enrolled psychologist.
- The supervising psychologist must be in the same office, building, or facility when the service is provided and must be immediately available to furnish assistance and direction.
- The LPA performing the service must be an employee of either the licensed psychologist or the legal entity that employs the licensed psychologist.

The TSBEP requires an LPA to work under the direct supervision of a licensed psychologist and does not allow an LPA to engage in independent practice. Therefore, an LPA will not be independently enrolled in the Medicaid program and must provide services under the delegating psychologist's provider identifier.

Psychological services provided by an LPA must be billed under the supervising psychologist's Medicaid identifier or the Medicaid identifier of the legal entity employing the supervising psychologist.

#### **4.1.9 Provisionally Licensed Psychologists (PLPs)**

PLPs must be licensed by TSBEP. A PLP may perform all of the services that are benefits of Texas Medicaid when the services are performed by a psychologist.

PLPs are expected to abide by their scope and standards of practice. Services performed by a PLP are a Medicaid-covered benefit when the following conditions are met:

- The services must be performed under the direct supervision of a licensed psychologist in accordance with the TSBEP guidelines.
- The supervising psychologist must be in the same office, building, or facility when the service is provided and must be immediately available to furnish assistance and direction.
- The PLP who is performing the service must be an employee of either the licensed psychologist or the legal entity that employs the licensed psychologist.

The TSBEP requires a PLP to work under the direct supervision of a licensed psychologist and does not allow a PLP to engage in independent practice. Therefore, a PLP will not be independently enrolled in the Medicaid program and must provide services under the delegating psychologist's provider identifier.

Psychological services provided by a PLP must be billed under the supervising psychologist's Medicaid identifier or the Medicaid identifier of the legal entity employing the supervising psychologist.

#### **4.1.10 Post-Doctoral Fellows**

Post-doctoral psychology fellows who satisfy the provisional licensure examination requirements but have not yet been awarded the PLP designation are eligible to perform delegated psychological services within their scope of practice and under the direct supervision of a licensed psychologist.

Psychology interns are not independently enrolled in Texas Medicaid; therefore, they do not have a provider identifier.

Psychological services provided by an intern must be billed under the supervising psychologist's Medicaid identifier or the Medicaid identifier of the legal entity employing the supervising psychologist.

### 4.1.11 Pre-doctoral Psychology Interns

Pre-doctoral psychology interns who are participating in a pre-doctoral psychology internship at a site that is a member of the Association of Psychology Postdoctoral and Internship Centers (APPIC) are eligible to perform delegated psychological services within their scope of practice and under the direct supervision of a licensed psychologist.

Psychology interns are not independently enrolled in Texas Medicaid; therefore, they do not have a provider identifier.

## 4.2 Services, Benefits, Limitations

The following procedure codes may be reimbursed for outpatient mental health services:

| Procedure codes |       |       |       |       |       |       |       |       |       |
|-----------------|-------|-------|-------|-------|-------|-------|-------|-------|-------|
| 90791           | 90792 | 90832 | 90833 | 90834 | 90836 | 90837 | 90838 | 90846 | 90847 |
| 90853           | 90870 | 90899 | 96101 | 96116 | 96118 |       |       |       |       |

The following psychotherapy procedure codes are limited to 30 visits per calendar year. Additional services require prior authorization:

| Procedure codes   |        |       |        |       |        |       |       |       |
|---|--------|-------|--------|-------|--------|-------|-------|-------|
| 90832   | 90833* | 90834 | 90836* | 90837 | 90838* | 90846 | 90847 | 90853 |
| *Add-on procedure code must be billed with the appropriate E/M code |        |       |        |       |        |       |       |       |

The following add-on procedure codes may be used for prolonged psychotherapy services:

| Procedure codes |       |
|-----------------|-------|
| 99354           | 99355 |

Procedure codes 90791, 90792, 90832, 90833, 90834, 90836, 90837, 90838, 90846, 90847, and 90853 are limited to the following diagnosis codes:

| Diagnosis Codes |        |        |        |        |        |        |        |
|-----------------|--------|--------|--------|--------|--------|--------|--------|

| Z9183           |         |         |         |         |         |         |         |

### 4.2.1 Telemedicine and Telehealth

Certain outpatient mental health services may be provided by distant site providers through telemedicine or telehealth when billed with modifier 95.

Mental health services delivered through telemedicine or telehealth do not require a patient site presenter unless the patient is experiencing a mental health emergency.

**Referto:** The *Telecommunication Services Handbook (Vol. 2, Provider Handbooks)* for more information about telemedicine and telehealth.

### 4.2.2 Psychotherapy

Individual psychotherapy is therapy that focuses on a single client.

Group psychotherapy is a type of psychotherapy that involves one or more therapists working with several clients at the same time.

Family psychotherapy is therapy that focuses on the dynamics of the family unit where the goal is to strengthen the family's problem solving and communication skills.

Providers must bill a modifier to identify a separate and distinct service when performing individual psychotherapy (procedure codes 90832, 90834, and 90837) and family psychotherapy (procedure codes 90846 or 90847) on the same day for the same client. When billing for these services, providers must submit the family psychotherapy procedure code with the modifier on the claim to indicate that the procedure or service was distinct or independent from other services performed on the same day for the same client. Documentation that supports the provision of distinct or independent services must be maintained in the client's medical record and made available to Texas Medicaid upon request.

Prolonged psychotherapy services delivered in addition to procedure code 90837 should be billed using the appropriate prolonged services add-on code (procedure code 99354 or 99355)

**Note:** The add-on codes may only be billed by physician, APRN, or PA providers.

**Referto:** Subsection 9.2.56.7, "Prolonged Physician Services" in the *Medical and Nursing Specialists, Physicians, and Physician Assistants Handbook (Vol. 2, Provider Handbooks)* for more information about prolonged physician services.

Psychotherapy (individual, family, or group) is limited to 4 hours per client, per day.

Psychotherapy is limited to 30 individual, group, or family psychotherapy visits per client, per calendar year. Additional psychotherapy services must be prior authorized. Prior authorization requests in increments of up to 10 additional visits may be considered. The request must be submitted on an Outpatient Mental Health Services Request Form and include the following information:

- Identifying client information
- Provider name and identifier
- Current DSM diagnosis(es)
- Current psychotropic medications

- Current symptoms requiring additional psychotherapy
- Treatment plan, including measurable short term goals, specific therapeutic interventions utilized, and measurable expected outcomes of therapy
- Number and type of services requested and anticipated dates that the services will be provided
- Indication of court-ordered or DFPS-directed services

Providers with established clients must request prior authorization when they determine the client is approaching 30 psychotherapy visits for the calendar year. If the client changes providers during the year and the new provider is unable to obtain complete information on the client's previous treatment history, providers are encouraged to obtain prior authorization before rendering services. Requests submitted on the same day as the initial session with a new provider will be considered based on medical necessity criteria.

Providers must bill the preponderance of each half hour of psychotherapy and indicate the number of units on the claim form.

LMFTs must bill with modifier U8 to differentiate from LPCs.

Supporting documentation for individual, family, or group psychotherapy must include:

- Start and end time of session
- Modality or modalities utilized
- Frequency of psychotherapy sessions
- Clinical notes for each encounter must include: diagnosis; symptoms; functional status; focused mental status examination, if indicated; treatment plan, prognosis, and progress; name, signature and credentials of person performing the service

#### **4.2.2.1 Family Psychotherapy**

Family psychotherapy may be provided to Medicaid clients 20 years of age and younger using procedure code 90846 or clients of any age using procedure code 90847.

Family psychotherapy is only reimbursable for one Medicaid eligible client per session regardless of the number of family members present per session.

Family psychotherapy for Medicaid clients 20 years of age and younger may be provided to the child's parent(s), foster parent(s), or legal guardian without the child present, as clinically appropriate, using procedure code 90846. Parent- or guardian-only sessions may be indicated when addressing sensitive topics such as parenting challenges or related stressors that would be inappropriate to discuss with the child present at the session.

Only the following specific relatives are allowed to participate in family psychotherapy services:

- Biological parent, foster parent, or legal guardian
- Child
- Grandfather or grandmother
- Sibling (biological, foster, or kinship)
- Uncle, aunt, nephew, or niece
- First cousin or first cousin once removed
- Stepfather, stepmother, stepbrother, or stepsister

#### 4.2.2.2 Treatment for Alzheimer's Disease and Dementia

Psychotherapy for clients with Alzheimer's disease or dementia may be a benefit of Texas Medicaid for clients with very mild or mild cognitive decline.

Documentation to support the treatment for Alzheimer's disease or dementia must be maintained in the client's medical record and may be subject to retrospective review. Psychotherapy services must not be continued if no longer beneficial to the client due to diminished cognitive functioning.

#### 4.2.3 Delegated Services

Services provided by a psychologist, LPA, PLP, psychology intern, or post-doctoral fellow must be billed with a modifier. Psychological services provided by an LPA, PLP psychology intern, or post-doctoral fellow must be billed under the supervising psychologist's Medicaid provider identifier or the Medicaid identifier of the legal entity employing the supervising psychologist.

Services performed by the LPA or PLP will be reduced to 70 percent of the psychologist reimbursement fee schedule rate. Services performed by the psychology intern or post-doctoral fellow will be reduced to 50 percent of the psychologist reimbursement fee schedule rate.

The following modifiers are to be used with procedure codes for licensed psychologist and delegated services:

| Modifier | Description  |
|----------|--|
| AH       | Identified service provided by a clinical psychologist   |
| UB       | Identifies service provided by a pre-doctoral psychology intern or post-doctoral psychology fellow |
| UC       | Identifies service provided by an LPA  |
| U9       | Identifies service provided by a PLP   |

Claims submitted without a modifier or with two of these modifiers on the same detail will be denied.

Only the LCSW, LMFT, LPC, APRN, or PA actually performing the mental health service may bill Texas Medicaid. The LCSW, LMFT, LPC, APRN, or PA must not bill for services performed by people under his or her supervision.

#### 4.2.4 Pharmacological Management

Pharmacological management is the in-depth management of psychopharmacological agents to treat a client's mental health symptoms.

Pharmacological management is a physician service and cannot be provided by a non-physician or "incident to" a physician service, with the exception of APRNs and PAs whose scope of license in this state permits them to prescribe.

Pharmacological management is limited to one service per day, per client, by any provider in any setting.

The treating provider should use the most appropriate E/M code for the pharmacological management visit depending on the place of service and complexity of the client's condition, along with modifier UD to designate the visit as primarily focused on pharmacological management.

Supporting documentation for pharmacological management must include:

- A complete diagnosis utilizing diagnostic criteria from the current edition of the DSM
- Current list of medications
- Current psychiatric symptoms and problems, to include presenting mental status
- Problems, reactions, and side effects, if any, to medications

- Any medication modifications made during visit and the reasons for medication adjustments, changes, or discontinuation
- Desired therapeutic drug levels, if applicable, for medications requiring blood level monitoring, e.g. Lithium
- Current laboratory values, if applicable, for medications requiring monitoring for potential side effects, e.g. hyperglycemia caused by anti-psychotic medications
- Treatment goals

#### **4.2.5 Electroconvulsive Therapy**

Electroconvulsive therapy (ECT) is the induction of convulsions by the passage of an electric current through the brain used in the treatment of certain psychiatric disorders.

Individual psychotherapy, psychological testing, neurobehavioral testing, or neuropsychological testing billed in addition to ECT on the same day, by any provider will be denied as part of another procedure on the same day.

ECT billed in addition to psychiatric diagnostic evaluation, group psychotherapy, or family psychotherapy on the same day, by the same provider will be denied as part of another procedure.

#### **4.2.6 Psychiatric Diagnostic Evaluation**

Psychiatric diagnostic evaluation is an integrated biopsychosocial assessment, including history, mental status, and recommendations. Psychiatric diagnostic evaluation with medical services also includes a medical assessment, other physical examination elements as indicated, and may also include prescription of medications, and laboratory or other diagnostic studies.

A psychiatric diagnostic evaluation (without medical services) (procedure code 90791) may be reimbursed to psychiatrists, psychologists, APRNs, PAs, LCSWs, LPCs, and LMFTs.

A psychiatric diagnostic evaluation (with medical services) (procedure code 90792) may be reimbursed to psychiatrists, APRNs, and PAs.

Psychiatric diagnostic evaluations (procedure codes 90791 or 90792) are limited to once per client, per rolling year, same provider in the office, home, outpatient hospital, or other settings, regardless of the number of professionals involved in the interview. Additional psychiatric diagnostic evaluations may be considered for prior authorization on a case-by-case basis when submitted on an Outpatient Mental Health Services Request Form with supporting documentation, including but not limited to:

- A court order or a Department of Family and Protective Services (DFPS) directive
- If a major change of status occurs

Supporting documentation for psychiatric diagnostic evaluations must include:

- Reason for referral and/or presenting problem
- Prior diagnoses and any prior treatment
- Other pertinent medical, social, and family history
- Clinical observations and results of mental status examination
- A complete diagnosis utilizing diagnostic criteria from the current edition of the DSM
- Recommendations, including expected long term and short term goals

#### **4.2.7 Psychological, Neurobehavioral, and Neuropsychological Testing**

Psychological, neurobehavioral, and neuropsychological testing involves the use of formal tests and other assessment tools to measure and assess a client's emotional, and cognitive functioning in order to arrive at a diagnosis and guide treatment.

Psychological testing (procedure code 96101), neurobehavioral testing (procedure code 96116), and neuropsychological testing (procedure code 96118) is limited to four hours per client, per day and eight hours per client, per calendar year. Additional hours require prior authorization when medically necessary. The request must be submitted on an Outpatient Mental Health Services Request Form and include the following information:

- Identifying client information
- Provider name and identifier
- Current DSM diagnosis(es)
- Indication of court-ordered or DFPS-directed services
- Type of testing requested (psychological, neurobehavioral, or neuropsychological) including specific procedure code(s)
- Rationale for requested testing, to include current client symptoms
- Previous history and testing results

Psychological, neurobehavioral, and neuropsychological testing will not be reimbursed to an APRN or a PA. The most appropriate office encounter/visit procedure code must be billed. Mental health screening may be performed during an assessment by an APRN or a PA, but will not be reimbursed separately.

Psychological testing (procedure code 96101) or neuropsychological testing (procedure code 96118) may be reimbursed on the same date of service as an initial psychiatric diagnostic evaluation (procedure code 90791 or 90792).

Neurobehavioral testing (procedure code 96116) may not be reimbursed on the same date of service as an initial psychiatric diagnostic evaluation (procedure code 90791 or 90792) to the same provider.

Psychological testing (procedure code 96101), neurobehavioral testing (procedure code 96116), and neuropsychological testing (procedure code 96118) will not be paid for the same date of service to the same provider. All documentation must be maintained by the provider in the client's medical record.

The reimbursement for procedure codes 96101, 96116, and 96118 includes the face-to-face testing and the scoring and interpretation of the results. The number of units in the claim must reflect the time spent face-to-face performing testing with the client plus the time spent scoring and interpreting the results in one hour increments.

Assessment, treatment planning, and documentation time, including time to document test results in the client's medical record, is not reimbursed separately. Reimbursement is included in the covered procedure codes.

#### **4.2.7.1 Testing in Facilities**

Psychological testing, neurobehavioral testing, or neuropsychological testing may be reimbursed when provided in a skilled nursing facility (SNF), intermediate care facility (ICF), or extended care facility (ECF) as clinically indicated. Testing may be indicated, for example, when a resident has experienced a significant change in mental status requiring specialized testing, or to evaluate a patient's competency to return to a community-based setting. Patients with well-established mental or cognitive issues do not require additional testing.

Psychological, neurobehavioral, or neuropsychological testing will not be reimbursed in a SNF, ICF, or ECF when conducted prior to the performance of initial intake assessments such as the Minimum Data Set or Preadmission Screening and Resident Review (PASRR) (a completed Level I Screening and a Level II Evaluation, as applicable).

Supporting documentation for psychological, neurobehavioral, or neuropsychological testing must include:

- Reason for referral and/or presenting problem
- The name of the tests (e.g., WAIS-R, Rorschach, MMPI) performed
- The scoring of the test
- Location the testing is performed
- The name and credentials of each provider involved in administering, interpreting, and preparing the report
- Interpretation of the test to include narrative descriptions of the test findings
- Length of time spent by each provider, as applicable, in face-to-face administration, interpretation, integrating the test interpretation, and documenting the comprehensive report based on the integrated data
- Recommended treatment, including how test results affect the prescribed treatment
- Recommendations for further testing to include an explanation to substantiate the necessity for retesting, if applicable
- Rationale or extenuating circumstances that impact the ability to complete the testing, such as, but not limited to, the client's condition requires testing over two days and client does not return, or the client's condition precludes completion of the testing

The original testing material must be maintained by the provider and must be readily available for retrospective review by HHSC.

When psychological, neurobehavioral, or neuropsychological testing is performed in a SNF, ICF, or ECF, a copy of the test and the resulting report must also be maintained in the patient's medical record at the facility.

## 4.3 Prior Authorization

Prior authorization requests may be submitted to the TMHP Prior Authorization Department via mail, fax, or the electronic portal. Performing providers may sign prior authorization forms and supporting documentation using electronic or wet signatures.

**Referto:** Subsection 5.5.1.2, "Document Requirements and Retention" in "Section 5: Fee-for-Service Prior Authorizations" (*Vol. 1, General Information*) for additional information about electronic signatures.

All providers are required to adhere to prior authorization requirements.

### 4.3.1 Services Requiring Prior Authorization

Prior Authorization is required for the following services:

- Psychiatric diagnostic evaluation (procedure codes 90791 and 90792) after the one evaluation per client, per provider, per rolling year limitation has been met
- Individual, family, or group psychotherapy (procedure codes 90832, 90833, 90834, 90836, 90837, 90838, 90846, 90847, and 90853) after the 30 visit per calendar year limitation has been met
- Psychological testing (procedure code 96101), neurobehavioral testing (procedure code 96116), or neuropsychological testing (procedure code 96118) after the 4 hour per day or 8 hour per calendar year limitations have been met
- Unlisted psychiatric service or procedure (procedure code 90899)

Requests for prior authorization for procedure code 90899 must be submitted by the provider to the Special Medical Prior Authorization (SMPA) department using the Special Medical Prior Authorization (SMPA) Request Form with documentation supporting medical necessity including:

- Client's diagnosis
- Prior treatment for this diagnosis and the medical necessity of the requested procedure
- A clear, concise description of the evidence-based service or procedure to be performed, and the intended fee for the service or procedure
- The reason for recommending this particular service or procedure
- A procedure code that is comparable to the service or procedure being requested
- Documentation that this service or procedure is not investigational or experimental

### **4.3.2 Prior Authorization Not Required**

Prior authorization is not required for the following services:

- One psychiatric diagnostic evaluation (procedure codes 90791 and 90792) per client, per rolling year, per provider (same provider)
- 30 individual, family, or group psychotherapy (procedure codes 90832, 90833, 90834, 90836, 90837, 90838, 90846, 90847, and 90853) visits per client per calendar year
- 4 hours of psychotherapy services per client per day
- 4 hours of psychological, neurobehavioral, or neuropsychological testing (procedure codes 96101, 96116, and 96118) per client per day
- 8 hours of psychological, neurobehavioral, or neuropsychological testing (procedure codes 96101, 96116, and 96118) per client, per calendar year
- Electroconvulsive therapy (procedure code 90870)

## **4.4 Documentation Requirements**

All services require documentation to support the medical necessity of the service rendered, including mental health services. The documentation must support the medical necessity of the treatment for its entire duration.

Mental health services outlined in this handbook are subject to retrospective review to ensure that the documentation in the client's medical record supports the medical necessity of the services provided.

## **4.5 Twelve Hour System Limitation**

The following provider types are limited to a maximum combined total of 12 hours per provider, per day, regardless of the number of patients seen for outpatient mental health services:

- Psychologist
- APRN
- PA
- LCSW
- LMFT
- LPC

The following table lists the procedure codes for mental health services included in the system limitation, along with the time increments the system will apply based on the billed procedure code. The time increments applied will be used to calculate the 12-hour per day system limitation.

| Procedure Code  | Time Applied |
|---|--------------|
| 90791   | 60 minutes   |
| 90792   | 60 minutes   |
| 90832   | 30 minutes   |
| 90833*  | 30 minutes   |
| 90834   | 45 minutes   |
| 90836*  | 45 minutes   |
| 90837   | 60 minutes   |
| 90838*  | 60 minutes   |
| 90846   | 50 minutes   |
| 90847   | 50 minutes   |
| 96101   | 60 minutes   |
| 96116   | 60 minutes   |
| 96118   | 60 minutes   |
| * Add-on procedure codes to be billed with the most appropriate E/M procedure code. |              |

Court-ordered and DFPS directed services are not subject to the 12-hour per provider, per day system limitation when billed with modifier H9.

Physicians are not subject to the 12-hour system limitation since they can delegate and may submit claims in excess of 12 hours per day.

Psychologists can delegate to multiple LPAs, PLPs, interns, or post-doctoral fellows and therefore delegated services are not subject to the 12-hour system limitation since they may submit claims for delegated services in excess of 12 hours per day.

## 4.6 Exclusions

The following services are not benefits of Texas Medicaid:

- Psychoanalysis
- Multiple Family Group Psychotherapy
- Marriage or couples counseling
- Narcosynthesis
- Biofeedback training as part of psychophysiological therapy
- Psychiatric Day Treatment Programs
- Services provided by a psychiatric assistant, psychological assistant (excluding Master's level LPA), or a licensed chemical dependency counselor

## 4.7 Claims Filing and Reimbursement

Providers must bill Medicare before Medicaid when clients are eligible for services under both programs. Medicaid's responsibility for the coinsurance or deductible is determined in accordance with Medicaid benefits and limitations. Providers must check the client's Medicare card for Part B coverage before billing Medicaid. When Medicare is primary, it is inappropriate to bill Medicaid without first billing Medicare.

**Note:** *Texas Medicaid may reimburse the full amount of the Medicare coinsurance and deductible for services rendered by LCSW providers.*

**Referto:** Subsection 2.7.2, "Part B" in "Section 2: Texas Medicaid Fee-for-Service Reimbursement" (*Vol. 1, General Information*).

Subsection 4.11.2, "Medicare Part B Crossovers" in "Section 4: Client Eligibility" (*Vol. 1, General Information*) for information about how coinsurance and deductibles may be reimbursed by Texas Medicaid.

LCSW, LMFT, and LPC services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms. When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills, or itemized statements, are not accepted as claim supplements.

**Referto:** "Section 3: TMHP Electronic Data Interchange (EDI)" (*Vol. 1, General Information*) for information on electronic claims submissions.

Subsection 6.1, "Claims Information" in "Section 6: Claims Filing" (*Vol. 1, General Information*) for general information about claims filing.

Subsection 6.5, "CMS-1500 Paper Claim Filing Instructions" in "Section 6: Claims Filing" (*Vol. 1, General Information*). Blocks that are not referenced are not required for processing by TMHP and may be left blank.

According to 1 TAC §355.8091, the Texas Medicaid rate for LCSWs, LMFTs, and LPCs is 70 percent of the rate paid to a psychiatrist or psychologist for a similar service per 1 TAC §355.8085. Providers can refer to the OFL or the applicable fee schedule on the TMHP website at [www.tmhp.com](http://www.tmhp.com). Under 1 TAC §355.8261, an FQHC is reimbursed according to its specific prospective payment system (PPS) rate per visit for LCSW services.

Texas Medicaid implemented mandated rate reductions for certain services. The OFL and static fee schedules include a column titled "Adjusted Fee" to display the individual fees with all mandated percentage reductions applied.

Additional information about rate changes is available on the [Reimbursement Rate Changes](http://www.tmhp.com) page of the TMHP website at [www.tmhp.com](http://www.tmhp.com).

**Note:** *Texas Medicaid may reimburse the full amount of the Medicare coinsurance and deductible for services rendered by LCSW providers.*

**Referto:** Subsection 2.2, "Fee-for-Service Reimbursement Methodology" in "Section 2: Texas Medicaid Fee-for-Service Reimbursement" (*Vol. 1, General Information*) for more information about reimbursement.

Subsection 4.5, "Twelve Hour System Limitation" in this handbook for details about the 12-hours-per-day behavioral health services limitation.

## 4.8 NCCI and MUE Guidelines

The HCPCS and CPT codes included in the Texas Medicaid Provider Procedures Manual are subject to NCCI relationships, which supersede any exceptions to NCCI code relationships that may be noted in the manual. The CMS NCCI and MUE guidelines can be found in the NCCI Policy and Medicaid Claims Processing manuals, which are available on the CMS website. Providers should refer to the CMS NCCI web page for correct coding guidelines and specific applicable code combinations.

Whenever Texas Medicaid limitations are more restrictive than NCCI MUE guidance, Texas Medicaid limitations prevail.

## 5 Intellectual Disability Service Coordination, Mental Health Targeted Case Management, and Mental Health Rehabilitative Services

### 5.1 Enrollment

#### 5.1.1 Local Intellectual and Developmental Disability Authority (LIDDA) Providers

A LIDDA provider who is authorized by the Department of Aging and Disability Services (DADS) to provide service coordination must be enrolled as a Long Term Care provider, and must submit claims through the Long Term Care system.

LIDDAs are the only entities that provide case management (service coordination) services to clients who have an intellectual disability.

*Referto:* The TMHP website at [www.tmhp.com](http://www.tmhp.com) for additional information about Long Term Care enrollment and billing requirements.

#### 5.1.2 Local Mental Health Authority (LMHA) Providers

LMHA providers are authorized by the DSHS to provide targeted case management services and mental health rehabilitative services. To enroll in Texas Medicaid, LMHA providers must contact DSHS at 1-512-206-5288 to be approved.

#### 5.1.3 Non-Local Mental Health Authority (Non-LMHA) Providers

Non-LMHAs are private providers of both mental health (MH) case management and MH rehabilitative services, but they are not LMHAs. They must comply with all applicable federal and local laws and all of the regulations that are related to the services they provide. After receiving approval for enrollment in Texas Medicaid, the Non-LMHA provider must be credentialed by a Texas Medicaid managed care organization (MCO) to provide services to Texas Medicaid clients.

Non-LMHA providers also must register to use the DSHS Clinical Management for Behavioral Health Services (CMBHS) clinical record-keeping system before providing services to Texas Medicaid clients.

#### 5.1.4 Provider Credentials for Facilities Delivering MHTCM and Mental Health Rehabilitative Services

Community Services Specialist (CSSP), Qualified Mental Health Professional - Community Services (QMHP-CS), family partners, and peer providers are eligible to deliver some or all of the mental health rehabilitative services and mental health targeted case management services. The credentialing requirements and services each provider may deliver are listed in the following sections.

Staff administering the assessment instruments must have documentation of current certification in the CANS or ANSA. Certification must be updated annually through an approved entity.

#### 5.1.4.1 \* Community Services Specialist (CSSP)

CSSP providers are eligible to deliver Mental Health Targeted Case Management (MHTCM) and Mental Health (MH) Rehabilitative services and must meet the following minimum credentialing requirements:

- High school diploma or high school equivalency
- Three continuous years of documented full-time experience in the provision of MH rehabilitative services prior to August 30, 2004
- Demonstrated competency in the provision and documentation of MHTCM and MH rehabilitative services

A CSSP performing MHTCM and MH rehabilitative services must:

- Be an employee of the facility where the case management is delivered.
- Be clinically supervised by at least a QMHP-CS.

#### 5.1.4.2 \* Qualified Mental Health Professional - Community Services (QMHP-CS)

QMHP-CS providers are eligible to deliver MHTCM and MH rehabilitative services and must meet the following minimum credentialing requirements:

- Completed a standardized training curriculum
- Demonstrated competency in the work to be performed
- Obtained one of the following:
  - A bachelor's degree from an accredited college or university with a minimum number of hours that are equivalent to a major in psychology, social work, medicine, nursing, rehabilitation, counseling, sociology, human growth and development, physician assistant, gerontology, special education, educational psychology, early childhood education, or early childhood intervention
  - A license as a registered nurse (RN)

Staff administering the assessment instruments must have documentation of current certification in the Child and Adolescent Needs and Strengths Assessment (CANS) or the Adult Needs and Strengths Assessment (ANSA). Certification must be updated annually through an approved entity.

An individual who possesses any of the following licenses is considered a Licensed Practitioner of the Healing Arts (LPHA) and is automatically certified as a QMHP-CS:

- Physician
- Physician Assistant
- Advanced Practice Registered Nurse
- Psychologist
- Licensed Clinical Social Worker (LCSW)
- Licensed Marriage and Family Therapist (LMFT)
- Licensed Professional Counselor (LPC)

A QMHP-CS must be clinically supervised by another QMHP-CS. If a QMHP-CS is clinically supervised by another QMHP-CS, the supervising QMHP-CS must be clinically supervised by an LPHA.

#### 5.1.4.3 Peer Provider

Peer providers must have a high school diploma or high school equivalency, one cumulative year of receiving mental health services, and be clinically supervised by an LPHA. The supervising LPHA must conduct at least monthly documented meetings with the peer provider and conduct an additional monthly documented observation of the peer providing services.

A peer provider must satisfy all staff credentialing, competency, training, and clinical supervision requirements.

Services provided by a peer provider must be included in the treatment plan.

#### 5.1.4.4 Family Partner

A certified family partner must have a high school diploma or high school equivalency and one cumulative year of participating in mental health services as the parent or legally authorized representative (LAR) of a child receiving mental health services.

A family partner must be supervised by at least a QMHP-CS and must satisfy all staff credentialing, competency, training, and clinical supervision requirements.

Services provided by a family partner must be included in the treatment plan.

Family partners must be credentialed as a certified family partner within one year of their hire date.

The family partner service is provided to parents or LARs for the benefit of the Medicaid eligible child.

#### 5.1.4.5 Certifications for Mental Health Rehabilitative Services

The following provider certifications are required for mental health rehabilitative services:

| Service  | Provider Types |      |               |                            |                |    |
|--|----------------|------|---------------|----------------------------|----------------|----|
|  | QMHP-CS        | CSSP | Peer Provider | Licensed Medical Personnel | Family Partner | RN |
| Medication Training and Support - Child, Youth, LAR, Primary Caregiver   | X              | X    |               | X                          | X              | X  |
| Medication Training and Support - adult or LAR                           | X              | X    | X             | X                          |                | X  |
| Psychosocial Rehabilitation (adults only)                                | X              | X    | X             | X                          |                | X  |
| Skills training and development - adult or LAR                           | X              | X    | X             | X                          |                | X  |
| Skills training and development - child/youth or LAR                     | X              | X    |               | X                          | X              | X  |
| Crisis Intervention  | X              |      | X             | X                          |                | X  |
| Day Program for Acute Needs - Symptoms management and functioning skills | X              | X    | X             | X                          |                | X  |
| Day Program for Acute Needs - Pharmacology issues                        |                |      |               | X                          |                | X  |
| Day Program for Acute Needs - Psychiatric Nursing services               |                |      |               | X                          |                | X  |

## 5.2 Services, Benefits, Limitations, and Prior Authorization

### 5.2.1 Intellectual and Developmental Disabilities Service Coordination

Texas Medicaid provides the following:

- Service coordination for people who have an intellectual disability or a related condition (adult or child). Persons who have a related condition are eligible if they are being enrolled into the home and community based waiver (HCS); the Texas Home Living Waiver; or an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF-IID).
- Service coordination for persons who have an intellectual disability or a related condition who are enrolled in HCS or Texas Home Living waiver programs.

Service coordination funded by Medicaid as TCM is reimbursed by encounter.

There are two types of encounters:

- *Comprehensive encounter (Type A):* A face-to-face contact with an individual to provide service coordination. The comprehensive encounter is limited to one billable encounter per individual per calendar month. DADS will not authorize payment for a comprehensive encounter that exceeds the cap of one encounter per individual per calendar month.
- *Supportive encounter (Type B):* A face-to-face, telephone, or telemedicine contact with an individual or with a collateral on the individual's behalf to provide service coordination.

A LIDDA is allowed up to three Type B encounters per calendar month for each Type A encounter that has occurred within the calendar month.

The Type B encounters are not limited to three per individual. Rather, the allowed Type B encounters may be delivered to any individual who needs a Type B encounter. These Type B encounters are allowable as long as the individual who received the Type B encounter also received a Type A encounter that same month.

For example, Sam and Mary receive a Type A encounter in June. It is allowable for the LIDDA to bill for one Type B encounter for Sam in June and five Type B encounters for Mary in June.

Payment for an individual's Type B encounter is contingent on that individual having a Type A encounter within the same calendar month.

Within the calendar month, the Type A encounter does not have to occur on a date before any of the Type B encounters occur.

Prior authorization is not required for IDD coordination services.

### 5.2.2 Mental Health Targeted Case Management (MHTCM)

Targeted case management services are case management services to clients within targeted groups. The target population that may receive Mental Health Targeted Case Management (MHTCM) as part of the Texas Medicaid Program are clients, regardless of age, with a single diagnosis of chronic mental illness or a combination of chronic mental illnesses as defined in the latest edition of the American Psychiatric Association's (APA) Diagnostic and Statistical Manual of Mental Disorders (DSM), and who have been determined via a uniform assessment process to be in need of MHTCM services. Clients of any age with a single diagnosis of intellectual and developmental disabilities (IDD) and related conditions, or a single diagnosis of substance use disorder (SUD) are not eligible for MHTCM services.

MHTCM services are furnished to assist clients in gaining access to needed medical, social/behavioral, educational, and other services and supports.

MHTCM activities and services include:

- A comprehensive assessment and periodic reassessment, as medically necessary, of individual needs to determine the need for any medical, educational, social/behavioral, or other services.

- The development (and periodic revision, as medically necessary) of a specific care plan that:
  - Is based on the information collected through the assessment;
  - Specifies the goals and actions to address the medical, social/behavioral, educational, and other services and supports needed by the client;
  - Includes activities such as ensuring the active participation of the eligible client and working with the client (or the client's authorized health care decision maker) and others to develop these goals; and
  - Identifies a course of action to respond to the assessed needs of the eligible client.
- Making referrals and performing other related activities, such as scheduling an appointment on behalf of the client, to help an eligible client obtain needed services and supports, including activities that help link a client with:
  - Medical, social/behavioral, and educational providers; and
  - Other programs and services that are capable of providing needed services to address identified needs and achieve goals in the care plan.
- Monitoring and performing the necessary follow-up that is necessary to ensure the care plan is implemented and adequately addresses the client's needs.

MHTCM activities may be with the client, family members, LAR, providers, or other entities or individuals and conducted as frequently as necessary, and at least once annually, to determine whether the following conditions are met:

- Services are being furnished in accordance with the client's care plan;
- Services in the care plan are adequate in amount, scope, and duration to meet the needs of the client; and
- The care plan and service arrangements are modified when the client's needs or status change.

MHTCM is a benefit for clients transitioning to a community setting for up to 180 consecutive days prior to leaving a nursing facility; however, MHTCM services are coordinated with and do not duplicate activities provided as part of nursing facility services and discharge planning activities.

MHTCM consists of intensive case management and routine case management. Intensive case management services are predominantly community-based case management activities provided to the client or to the LAR on behalf of the client (who may or may not be present) to assist a client and caregiver or LAR in obtaining and coordinating access to necessary care and services appropriate to the client's needs. Routine case management services are primarily office-based case management activities that assist a client, caregiver, or LAR in obtaining and coordinating access to necessary care and services appropriate to the client's needs.

Intensive case management and routine case management are benefits for clients who are 20 years of age and younger. Intensive case management and routine case management are not payable on the same day.

Routine case management is a benefit for clients who are 21 years of age and older.

Providers must use procedure code T1017 and the appropriate modifier for MHTCM:

| Modifier | Description                       |
|----------|-----------------------------------|
| TF       | Routine Case Management           |
| TG       | Intensive Case Management         |
| HA       | Child/Adolescent Program          |
| HZ       | Funded by criminal justice agency |

Procedure code T1017 is limited to the following diagnosis codes:

| Diagnosis Codes |         |         |         |         |         |         |         |
|-----------------|---------|---------|---------|---------|---------|---------|---------|
| F060            | F061    | F062    | F0630   | F0631   | F0632   | F0633   | F0634   |
| F064            | F068    | F070    | F0789   | F09     | F200    | F201    | F202    |
| F203            | F205    | F2081   | F2089   | F209    | F21     | F22     | F23     |
| F24             | F250    | F251    | F258    | F259    | F28     | F29     | F3010   |
| F3011           | F3012   | F3013   | F302    | F303    | F304    | F309    | F310    |
| F3110           | F3111   | F3112   | F3113   | F312    | F3130   | F3131   | F3132   |
| F314            | F315    | F3160   | F3161   | F3162   | F3163   | F3164   | F3170   |
| F3171           | F3172   | F3173   | F3174   | F3175   | F3176   | F3177   | F3178   |
| F3181           | F3189   | F319    | F320    | F321    | F322    | F323    | F324    |
| F325            | F3281   | F3289   | F329    | F330    | F331    | F332    | F333    |
| F3340           | F3341   | F3342   | F338    | F339    | F340    | F341    | F3481   |
| F3489           | F349    | F39     | F4000   | F4001   | F4002   | F4010   | F4011   |
| F40210          | F40218  | F40220  | F40228  | F40230  | F40231  | F40232  | F40233  |
| F40240          | F40241  | F40242  | F40243  | F40248  | F40290  | F40291  | F40298  |
| F408            | F409    | F410    | F411    | F413    | F418    | F419    | F422    |
| F423            | F424    | F428    | F429    | F430    | F4310   | F4311   | F4312   |
| F4320           | F4321   | F4322   | F4323   | F4324   | F4325   | F4329   | F438    |
| F439            | F440    | F441    | F442    | F444    | F445    | F446    | F447    |
| F4481           | F4489   | F449    | F450    | F451    | F4520   | F4521   | F4522   |
| F4529           | F4541   | F4542   | F458    | F459    | F481    | F482    | F488    |
| F489            | F5000   | F5001   | F5002   | F502    | F5081   | F5082   | F5089   |
| F509            | F5101   | F5102   | F5103   | F5104   | F5105   | F5109   | F5111   |
| F5112           | F5113   | F5119   | F513    | F514    | F515    | F518    | F519    |
| F53             | F54     | F600    | F601    | F602    | F603    | F604    | F605    |
| F606            | F607    | F6081   | F6089   | F609    | F630    | F631    | F632    |
| F633            | F6381   | F6389   | F639    | F640    | F641    | F642    | F648    |
| F649            | F6810   | F6811   | F6812   | F6813   | F69     | F8082   | F900    |
| F901            | F902    | F908    | F909    | F910    | F911    | F912    | F913    |
| F918            | F919    | F930    | F938    | F939    | F940    | F941    | F942    |
| F948            | F949    | F980    | F981    | F9821   | F9829   | F983    | F984    |
| F985            | F988    | F989    | F99     | O906    | T7402XA | T7402XD | T7402XS |
| T7412XA         | T7412XD | T7412XS | T7422XA | T7422XD | T7422XS | T7602XA | T7602XD |
| T7602XS         | T7612XA | T7612XD | T7612XS | T7622XA | T7622XD | T7622XS |         |

An MHTCM reimbursable session is the provision of a case management activity by an authorized case manager during a face-to-face meeting with an individual who is authorized to receive that specific type of case management. A billable unit of MHTCM is 15 continuous minutes of contact.

MHTCM is not payable when delivered on the same day as psychosocial rehabilitative services.

The following activities are included in the MHTCM rate and will not be reimbursed separately:

- Documenting the provision of MHTCM services.
- On-going administration of the Uniform Assessment to determine amount, duration, and type of MHTCM.
- Travel time required to provide MHTCM services at a location not owned, operated, or under arrangement with the provider.

Texas Medicaid must not be billed for MHTCM services provided before the establishment of a diagnosis of mental illness and the authorization of services.

#### **5.2.2.1 Collateral Contacts**

MHTCM may include contacts with non-eligible individuals who are directly related to identifying the eligible client's needs and care for the purposes of helping the eligible client access services, identifying needs and supports to assist the eligible client in obtaining services, providing case managers with useful feedback, and alerting case managers to changes in the eligible client's needs.

MHTCM services involving collateral contacts are only payable when the client or LAR is also present during the case management session.

#### **5.2.2.2 Intensive Case Management**

Intensive case management incorporates a wraparound approach to care planning and treatment plan implementation. The wraparound process is a strengths-based course of action involving a client and their family, including any additional people identified by the client, LAR, primary caregiver, and family, that results in a unique set of community services and natural supports that are individualized for the client to achieve a positive set of identified outcomes.

Intensive case management is primarily community-based, meaning that services are provided in whatever setting is clinically appropriate and client-centered.

A case manager assigned to a client who is authorized to receive intensive case management services must have completed training in the National Wraparound Implementation Center's Wraparound Practice model and must incorporate wraparound process planning or other approved models in developing a plan that addresses the client's unmet needs across life domains.

The case manager must develop an intensive case management treatment plan based on the client's needs that may include information across life domains from relevant sources.

The case manager must meet face-to-face with the client and the LAR or primary caregiver:

- Within seven days after the case manager is assigned to the client;
- Within seven days after discharge from an inpatient psychiatric setting, whichever is later; or
- Document the reasons the meeting did not occur and meet at the soonest available opportunity.

The case manager must identify the client's strengths, service needs, and assistance that will be required to address the identified needs in the plan.

The case manager must take steps that are necessary to assist the client in gaining access to the needed services and service providers, including:

- Making referrals to potential service providers.
- Initiating contact with potential service providers.
- Arranging, and if necessary to facilitate linkage, accompanying the client to initial meetings and non-routine appointments.
- Arranging transportation to ensure the client's attendance.

- Advocating with service providers.
- Providing relevant information to service providers.
- Monitoring the client's progress toward the goals set forth in the plan.

#### 5.2.2.2.1 Authorization Requirements

LMHAs delivering services to fee-for-service clients must obtain authorization from their internal utilization management department. When providing care to clients enrolled in managed care, LMHAs and other providers contracted with MCOs must submit authorization requests to the MCO with whom the individual is enrolled. The MCO may choose to waive this authorization submission requirement. Additionally, MCOs must follow the requirements set forth in the Uniform Managed Care Manual regarding utilization management for targeted case management and mental health rehabilitative services.

Eligibility determinations occur at the facility providing targeted case management services using the Clinical Management of Behavioral Health Services (CMBHS) software system.

Criteria used to make these service determinations are from the recommended Level of Care (LOC) of the individual as derived from the Uniform Assessment (UA), the needs of the client, and the Texas Resilience and Recovery Utilization Management Guidelines.

In determining service, the Qualified Mental Health Professional-Community Services (QMHP-CS) or Licensed Practitioner of the Healing Arts (LPHA) performs a screening for eligibility utilizing the UA. The LPHA gives a diagnosis and determines if the services are medically necessary.

The LPHA determination of diagnosis shall include an interview with the individual conducted either in-person or via telemedicine or telehealth.

**Referto:** The *Telecommunication Services Handbook (Vol. 2, Provider Handbooks)*.

A facility that provides MHTCM must ensure that at minimum a QMHP-CS administers the uniform assessment to the individual at specified intervals (every 90 calendar days for clients who are 20 years of age and younger and every 180 calendar days for clients who are 21 years of age and older), and obtains a recommended LOC for the client.

The facility must evaluate the clinical needs of the client to determine if the amount of MHTCM services associated with the recommended LOC described in the utilization management guidelines is sufficient to meet those needs and ensure that an LPHA reviews the recommended LOC and verifies whether the services are medically necessary.

If the facility determines that the type of MHTCM services associated with the recommended LOC is sufficient to meet the client's needs, the facility must submit a request for service authorization according to the recommended LOC.

If the facility determines that a LOC other than the recommended LOC is more appropriate for the client, the provider must submit a deviation request that includes:

- A request for an authorization of an LOC that is higher or lower than initially recommended; and
- The clinical justification for the request.

The clinical justification must include the specific reasons why the client requires interventions outside the recommended LOC. Client refusal of recommended LOC may be noted as part of the justification.

All plans of care are subject to retrospective review by the state.

### **5.2.2.3 Eligibility and Service Determinations for Clients Who are 20 Years of Age and Younger**

MHTCM is available to clients who are 20 years of age and younger with a diagnosis of mental illness (excluding a single diagnosis of IDD and related disorders, or a single diagnosis of SUD) or serious emotional disturbance and who:

- Have a serious functional impairment; or
- Are at risk of disruption of a preferred living or child care environment due to psychiatric symptoms; or
- Are enrolled in a school system's special education program because of serious emotional disturbance.

The initial assessment is the clinical process of obtaining and evaluating historical, social/behavioral, functional, psychiatric, developmental, or other information from the individual seeking services to determine specific treatment and support needs.

Functioning is assessed using one of the following standardized assessment tools:

- The Child and Adolescent Needs and Strengths Assessment (CANS) for clients who are 17 years of age and younger
- The Adult Needs and Strengths Assessment (ANSA) and any necessary supplemental assessments for clients who are 18 years of age and older

Services and supports to be provided to the client are determined jointly by the client, family, and the provider.

MHTCM services authorized for care by the provider through a clinical override are eligible for the duration of the authorization.

Continued eligibility for MHTCM services is based on a reassessment every 90 calendar days by the provider and reauthorization of services by the facility. Assignment of diagnosis in the CMBHS is required at any time the DSM diagnosis changes and at least annually from the last diagnosis entered into CMBHS.

### **5.2.2.4 Eligibility and Service Determinations for Clients Who are 21 Years of Age and Older**

MHTCM is available to clients who are 21 years of age and older and who have severe and persistent mental illnesses such as schizophrenia, major depression, bipolar disorder, post-traumatic stress disorder, or other severely disabling mental disorders (excluding a single diagnosis of IDD and related disorders, or a single diagnosis of SUD) which require crisis resolution or ongoing and long-term support and treatment.

Clients with schizophrenia and bipolar disorder are automatically eligible for services. Clients with any other mental health diagnoses require evidence of significant difficulty functioning across one or more domains such as work or school to be eligible for services.

Functioning is assessed using a standardized assessment tool called the Adult Needs and Strengths Assessment (ANSA).

Clients are reassessed every 180 calendar days for continued need for services.

Assignment of diagnosis in the CMBHS is required at any time the DSM diagnosis changes and at least annually from the last diagnosis entered into CMBHS.

Clients with a diagnosis of schizophrenia or bipolar disorder are automatically eligible for continued services.

Clients with major depressive disorder whose level of functioning qualified them initially are also automatically eligible for continued services, regardless of whether their level of functioning has improved or not.

Clients with any other mental health diagnoses are eligible should their level of functioning continue to be significantly impaired, as evidenced by the results of a standardized assessment tool.

### **5.2.2.5 Documentation Requirements**

A comprehensive diagnosis must be included in the client record, including documentation of applicable diagnostic criteria according to the latest edition of the DSM, as well as the specific justification of need for services.

MHTCM services, including attempts to provide MHTCM services, must be documented in the client's medical record.

For routine case management, the case manager must document the client's strengths, service needs, and assistance required to address the service needs as well as the steps that are necessary to accomplish the goals required to meet the client's service needs.

For intensive case management, the assigned case manager must include the intensive case management treatment plan in the client's medical record and document steps taken to meet the client's goals and needs in the client's progress notes.

As a result of the face-to-face meetings, assessments, and reassessments conducted, the case manager must document the client's identified strengths, service needs, and assistance given to address the identified need, and specific goals and actions to be accomplished.

The case manager must document the following for all services provided:

- The event or behavior that occurs while providing the MHTCM service or the reason for the specific case management encounter
- The person, persons, or entity, including other case managers, with whom the encounter or contact occurred
- Collateral contacts such as contacts with non-eligible individuals that are directly related to identifying the needs and supports for helping the client access services and managing the client's care, including coordination with other case managers
- The recovery plan goal(s) that was the focus of the service, including the progress or lack of progress in achieving recovery plan goal(s)
- The time line for obtaining the needed services
- The specific intervention that is being provided
- The date the MHTCM service was provided
- The start and end time of the MHTCM service
- The location where the MHTCM service was provided and whether it was a face-to-face or telephone contact
- The name of the provider agency and the signature of the employee providing the MHTCM service, including their credentials
- The time line for reevaluating the needed service

If the individual refuses MHTCM services, the case manager must document the reason for the refusal in the most appropriate area of the client's medical record and request that the individual sign a waiver of MHTCM services that is filed in the client's medical record.

The provider must retain documentation in compliance with applicable records retention requirements in federal and state laws, rules, and regulations.

#### **5.2.2.6 Exclusions**

The following services are not covered by MHTCM:

- Case management activities that are an integral component of another covered Medicaid service
- The provision of a medical, educational, social/behavioral, or other service to which a client has been referred, including for foster care programs, services such as, but not limited to, the following:
  - Research gathering and completion of documentation required by the foster care program
  - Assessing adoption placements
  - Recruiting or interviewing potential foster care parents
  - Serving legal papers
  - Home investigations
  - Providing transportation, including transporting the client to his/her LAR/primary caregiver
  - Administering foster care subsidies
  - Making placement arrangements
- Performing an activity that does not directly assist a client in gaining or coordinating access to needed services
- Providing medical or nursing services
- Performing preadmission or intake activities
- Monitoring the client's general health status
- Performing outreach activities
- Performing quality oversight of a service provider
- Conducting utilization review or utilization management activities
- Conducting quality assurance activities
- Authorizing services or authorizing the provision of services
- Services to inmates of public institutions

#### **5.2.3 Mental Health Rehabilitative Services**

Mental health rehabilitative services are defined as providing assistance in maintaining or improving functioning and may be considered rehabilitative when necessary to help a client achieve a rehabilitation goal as defined in the treatment plan.

Mental health rehabilitative services may be provided to a client with a serious mental illness as defined in the latest edition of the American Psychiatric Association's Diagnostic and Statistical Manual of Mental Disorders (DSM).

Mental health rehabilitative services are age-appropriate, individualized, and designed to ameliorate functional impairments that negatively affect any of the following:

- Community integration
- Community tenure

- Behaviors resulting from serious mental illness (SMI) or severe emotional disturbance (SED) that interfere with a client's ability to remain in the community as a fully integrated and functioning member of that community

Mental health rehabilitative services may include:

- Medication training and support services
- Psychosocial rehabilitative services
- Skills training and development
- Crisis intervention services
- Day programs for acute needs

Mental health rehabilitative services may only be provided by a member of the client's therapeutic team. The therapeutic team includes a sufficient number of staff to adequately address the rehabilitative needs of clients assigned to the team.

Team members must be appropriately credentialed and have completed required trainings to provide the full array of component services, have regularly scheduled team meetings either in person or by teleconference, and every member of the team must be knowledgeable of the needs and the services available to the specific clients assigned to the team.

Mental health rehabilitative services may be a benefit for clients residing in a nursing facility (NF) when medically necessary as determined via a uniform assessment protocol and determined through preadmission screening and resident review (PASRR) to require specialized services.

The following procedure codes are a benefit for mental health rehabilitation:

| Service Category                     | Procedure Codes | Modifiers  |
|--------------------------------------|-----------------|--|
| Day Program for Acute Needs          | H2012           |  |
| Medication Training and Support      | H0034           | HQ: group services for adults<br>HA/HQ: group services for child/youth   |
| Crisis Intervention                  | H2011           | HA: child/youth  |
| Skills Training and Development      | H2014           | HQ: group services for adults<br>HA: individual services for child/youth<br>HA/HQ: group services for child/youth                      |
| Psychosocial Rehabilitation Services | H2017           | TD: individual services provided by RN<br>HQ: group services<br>HQ/TD: group services provided by RN<br>ET: individual crisis services |

Psychosocial rehabilitation is not reimbursable on the same day as mental health targeted case management or skills training and development.

Reimbursement for procedure codes H0034, H2012, H2014, and H2017 are limited to the following diagnosis codes:

| Diagnosis Codes |      |       |       |       |       |       |       |
|-----------------|------|-------|-------|-------|-------|-------|-------|
| F060            | F061 | F062  | F0630 | F0631 | F0632 | F0633 | F0634 |
| F064            | F068 | F070  | F0789 | F09   | F200  | F201  | F202  |
| F203            | F205 | F2081 | F2089 | F209  | F21   | F22   | F23   |
| F24             | F250 | F251  | F258  | F259  | F28   | F29   | F3010 |

| Diagnosis Codes |         |         |         |         |         |         |         |
|-----------------|---------|---------|---------|---------|---------|---------|---------|
| F3011           | F3012   | F3013   | F302    | F303    | F304    | F309    | F310    |
| F3110           | F3111   | F3112   | F3113   | F312    | F3130   | F3131   | F3132   |
| F314            | F315    | F3160   | F3161   | F3162   | F3163   | F3164   | F3170   |
| F3171           | F3172   | F3173   | F3174   | F3175   | F3176   | F3177   | F3178   |
| F3181           | F3189   | F319    | F320    | F321    | F322    | F323    | F324    |
| F325            | F3281   | F3289   | F329    | F330    | F331    | F332    | F333    |
| F3340           | F3341   | F3342   | F338    | F339    | F340    | F341    | F3481   |
| F3489           | F349    | F39     | F4000   | F4001   | F4002   | F4010   | F4011   |
| F40210          | F40218  | F40220  | F40228  | F40230  | F40231  | F40232  | F40233  |
| F40240          | F40241  | F40242  | F40243  | F40248  | F40290  | F40291  | F40298  |
| F408            | F409    | F410    | F411    | F413    | F418    | F419    | F422    |
| F423            | F424    | F428    | F429    | F430    | F4310   | F4311   | F4312   |
| F4320           | F4321   | F4322   | F4323   | F4324   | F4325   | F4329   | F438    |
| F439            | F440    | F441    | F442    | F444    | F445    | F446    | F447    |
| F4481           | F4489   | F449    | F450    | F451    | F4520   | F4521   | F4522   |
| F4529           | F4541   | F4542   | F458    | F459    | F481    | F482    | F488    |
| F489            | F5000   | F5001   | F5002   | F502    | F5081   | F5082   | F5089   |
| F509            | F5101   | F5102   | F5103   | F5104   | F5105   | F5109   | F5111   |
| F5112           | F5113   | F5119   | F513    | F514    | F515    | F518    | F519    |
| F53             | F54     | F600    | F601    | F602    | F603    | F604    | F605    |
| F606            | F607    | F6081   | F6089   | F609    | F630    | F631    | F632    |
| F633            | F6381   | F6389   | F639    | F640    | F641    | F642    | F648    |
| F649            | F6810   | F6811   | F6812   | F6813   | F69     | F8082   | F900    |
| F901            | F902    | F908    | F909    | F910    | F911    | F912    | F913    |
| F918            | F919    | F930    | F938    | F939    | F940    | F941    | F942    |
| F948            | F949    | F980    | F981    | F9821   | F9829   | F983    | F984    |
| F985            | F988    | F989    | F99     | O906    | T7402XA | T7402XD | T7402XS |
| T7412XA         | T7412XD | T7412XS | T7422XA | T7422XD | T7422XS | T7602XA | T7602XD |
| T7602XS         | T7612XA | T7612XD | T7612XS | T7622XA | T7622XD | T7622XS |         |

No diagnosis is required for crisis intervention services (procedure code H2011); however, all CMS 1500 claim forms require a diagnosis.

A Medicaid provider may only bill for medically necessary mental health rehabilitative services that are provided face-to-face to:

- A Medicaid-eligible client;
- The LAR of a Medicaid-eligible client who is 21 years of age and older (on behalf of the client); or
- The LAR or primary caregiver of a Medicaid-eligible client who is 20 years of age and younger (on behalf of the client).

### **5.2.3.1 Eligibility and Service Determinations for Clients Who are 20 Years of Age and Younger**

Certain mental health rehabilitative services (crisis intervention services, medication training and support, and skills training and development) are available to clients who are 20 years of age and younger with a diagnosis of mental illness or serious emotional disturbance and who:

- Have a serious functional impairment; or
- Are at risk of disruption of a preferred living or child care environment due to psychiatric symptoms; or
- Are enrolled in a school system's special education program because of serious emotional disturbance.

Functioning is assessed using a standardized assessment tool, the Child and Adolescent Needs and Strengths Assessment (CANS) for clients who are 17 years of age and younger and the ANSA for clients who are 18 years of age and older.

Continued eligibility for mental health rehabilitative services for clients who are 17 years of age and younger is based on a reassessment at least every 90 calendar days, or more frequently if clinically indicated by the provider. Clients who are 18 years of age and older are reassessed every 180 calendar days, or more frequently if clinically indicated by the provider.

Assignment of diagnosis in the Clinical Management for Behavioral Health Services (CMBHS) is required at any time the mental illness diagnosis changes and at least annually from the last diagnosis entered into CMBHS.

The LPHA determination of diagnosis shall include an interview with the client conducted either in-person or via telemedicine or telehealth.

In order to complete a comprehensive diagnosis for a client, documentation of the required diagnostic criteria according to the latest version of the DSM, as well as the specific level of functioning, shall be included in the client record. This information shall be included as part of the required assessment information.

### **5.2.3.2 Eligibility and Service Determinations for Clients Who are 21 Years of Age and Older**

Clients who are 21 years of age and older with serious mental illness, determined to be medically necessary via a uniform assessment protocol, are eligible for Mental Health Rehabilitative Services if the client is:

- A resident of the state of Texas.
- Determined by a uniform assessment and clinician observation to require mental health rehabilitative services.
- An LPHA has made a determination that such services are medically necessary.

Mental health rehabilitative services are available to clients who are 21 years of age and older who have serious mental illnesses and significant functional impairments which require crisis resolution or ongoing treatment. Functioning is assessed using a standardized assessment tool, the Adult Needs and Strengths Assessment (ANSA).

Clients who are 18 years of age and older are reassessed for continued need for services at least every 180 calendar days, or more frequently if clinically indicated by the provider.

Assignment of diagnosis in the Clinical Management for Behavioral Health Services (CMBHS) is required at any time the mental illness diagnosis changes and at least annually from the last diagnosis entered into CMBHS.

The LPHA determination of diagnosis shall include an interview with the client conducted either in-person or via telemedicine or telehealth.

In order to complete a comprehensive diagnosis for a client, documentation of the required diagnostic criteria according to the latest version of the American Psychiatric Association's *Diagnostic and Statistical Manual of Mental Disorders* (DSM), as well as the specific level of functioning, shall be included in the client record. This information shall be included as part of the required assessment information.

Clients with a diagnosis of schizophrenia or bipolar disorder are automatically eligible for continued services. A client with major depressive disorder whose level of functioning qualified them initially also is automatically eligible for continued services, regardless of whether their level of functioning has improved or not. Clients with any other mental health diagnoses are eligible should their level of functioning continue to be significantly impaired, as evidenced by the results of a standardized assessment tool called the Adult Needs and Strengths Assessment (ANSA).

### **5.2.3.3 Treatment Planning**

Mental health rehabilitative services are part of a client's treatment plan and are intended to:

- Reduce a client's functional impairments resulting from serious mental illness (SMI) for adults.
- Reduce serious emotional disturbance in children.
- Restore a client to his/her optimal functioning level in the community.

The treatment planning process for mental health rehabilitative services requires the active participation of the Medicaid eligible client or LAR when necessary due to the client's age or legal status. Treatment plans are based on a comprehensive assessment and must address the client's strengths, areas of need, the client's preferences, and descriptions of the client's treatment goals.

### **5.2.3.4 Medication Training and Support**

Medication training and support services consist of education and guidance about medications and their possible side effects. It is curriculum-based training and guidance that serves as an initial orientation for the client in understanding the nature of his/her mental illnesses or emotional disturbances and the role of medications in ensuring symptom reduction and increased tenure in the community.

Medication training and support includes:

- Assisting the client to manage symptomology and maximize functioning.
- Understanding the concepts of recovery and resilience within the context of the serious mental illness.
- Developing an understanding of the relationship between mental illness and the medications prescribed to treat the illness.
- The interaction of medication with other medications, diet, and mood altering substances.
- Understanding the overdose precautions of the client's medication.
- The identification and management of potential side effects.
- Learning self-administration of the client's medication.
- Necessity of taking medications prescribed and following the physician's or other qualified health care professional's orders.

Medication training and support is available to eligible clients. The LAR or primary caregiver may receive medication training and support services on behalf of an eligible client.

### **5.2.3.5 Psychosocial Rehabilitative Services**

Psychosocial rehabilitative services are social, behavioral, and cognitive interventions provided by members of a client's therapeutic team that build on strengths and focus on restoring the client's ability to develop and maintain social relationships, occupational or educational achievement, and other independent living skills that are affected by or the result of a serious mental illness in clients who are 17 years of age and older.

Psychosocial rehabilitative services include independent living services, coordination services, and employment, housing, and medication-related services. Psychosocial rehabilitative services may also address the impact of co-occurring disorders upon the client's ability to reduce symptomology and increase daily functioning.

If psychosocial rehabilitation is in the treatment plan, the treatment plan cannot simultaneously include skills training and development or targeted case management services.

Psychosocial rehabilitative services may not be provided to a client who is currently admitted to a crisis stabilization unit.

#### **5.2.3.5.1 Independent Living Services**

Independent living services assist a client in acquiring the most immediate, fundamental functional skills needed to enable the client to reside in the community and avoid more restrictive levels of treatment or reducing behaviors or symptoms that prevent successful functioning in the client's environment of choice.

Independent living services include skills training and/or supportive interventions that focus on the improvement of communication skills, appropriate interpersonal behaviors, and other skills necessary for independent living or, when age appropriate, functioning effectively with family, peers, and teachers.

Training for independent living includes skills related to:

- Personal hygiene.
- Transportation utilization.
- Money management.
- The development of natural supports.
- Access to needed services in the community (e.g., medical care, substance abuse services, legal services, living accommodations).
- Social skills (e.g., communicating one's needs to strangers and making appropriate choices for the use of leisure time).

#### **5.2.3.5.2 Coordination Services**

Coordination services are training activities that assist a client in improving his or her ability to gain and coordinate access to necessary care and services appropriate to the needs of the client.

Training for coordination skills includes instruction and guidance in such areas as:

- Identifying areas of need across all life domains.
- Prioritizing needs and setting goals.
- Identifying potential service providers and support systems.
- Initiating contact with providers and support systems.
- Participating in the development and subsequent revisions of their plan of care.
- Coordinating their services and supports.

- Advocating for necessary changes and improvements to ensure that they obtain maximum benefit from their services and supports.

#### 5.2.3.5.3 Employment-Related Services

Employment-related services provide supports and skills training that are not job-specific and focus on developing skills to reduce or manage the symptoms of serious mental illness that interfere with a client's ability to make vocational choices or obtain or retain employment.

Included in employment-related services are activities such as:

- Skills training related to task focus, task completion, planning and managing activities to achieve outcomes, personal hygiene, grooming and communication, and skills training related to securing appropriate clothing, developing natural supports, and arranging transportation.
- Establishing supportive contacts related to the school or work-site situation to reduce or manage behaviors or symptoms related to the client's mental illness or emotional disturbance that interfere with job performance or progress towards the development of skills that would enable the client to obtain or retain employment.

#### 5.2.3.5.4 Housing-Related Services

Housing-related services develop a client's strengths and abilities to manage the symptoms of the client's serious mental illness that interfere with the client's capacity to obtain or maintain tenure in independent integrated housing.

Included in housing-related services are activities such as:

- Skills training related to home maintenance and cleanliness.
- Problem solving with landlord and other residents.
- Maintaining appropriate interpersonal boundaries.
- Establishing supportive contacts related to the housing situation to reduce or manage behaviors or symptoms related to the client's mental illness or emotional disturbance that interfere with maintaining independent integrated housing.

#### 5.2.3.5.5 Medication-Related Services

Medication-related services provide individualized training regarding the client's medication adherence and is different from medication-training and support.

Services consist of training and supportive interventions that focus on client-specific needs and goals regarding the administration of medication, monitoring efficacy and side effects of medication, and other nursing services that enable the client to attain or maintain an optimal level of functioning.

Medication-related services do not include services or activities that are incidental to services performed by a physician (or other qualified health care professional) during an evaluation and management services visit.

### 5.2.3.6 Skills Training and Development

Skills training and development is training provided to an eligible client, the LAR, or primary caregiver on behalf of an eligible client.

The training addresses:

- Serious mental illness or SED and symptom-related problems that interfere with the client's functioning and living, working, and learning environment.
- Provides opportunities for the client to acquire and improve skills needed to function as appropriately and independently as possible in the community.

- The client's community integration and increases his or her community tenure.

Skills training and supportive interventions focus on the improvement of communication skills, appropriate interpersonal behaviors and other skills necessary for independent living or, when age appropriate, functioning effectively with family, peers, and teachers.

Skills training and development may include:

- Skills related to personal hygiene.
- Pro-social skills.
- Assertiveness skills.
- Anger management skills.
- Stress reduction techniques.
- Communication skills.
- Transportation utilization.
- Money management.
- The development of natural supports.
- Access to needed services in the community, e.g., medical care, substance abuse services, legal services, living accommodations.
- Social skills (e.g., communicating one's needs to strangers and making appropriate choices for the use of leisure time).

Skills training and development services consist of increasing the LAR's or primary caregiver's understanding of and ability to respond to the client's needs identified in the uniform assessment or documented in the treatment plan.

Clients receiving skills training and development are not eligible to simultaneously receive psychosocial rehabilitative services and both services should not be simultaneously listed in the client's treatment plan.

### **5.2.3.7 Crisis Intervention**

Crisis intervention services are intensive community-based one-to-one services provided to clients who require services to control acute symptoms that place the client at immediate risk of hospitalization, incarceration, or placement in a more restrictive treatment setting.

This service includes assessment, behavioral skills training, problem-solving, and reality orientation to help clients identify and manage their symptoms of mental illness, and cope with stressors.

Crisis intervention services may be provided in extended observation or crisis residential units. Crisis intervention services may not be provided to a client who is currently admitted to a crisis stabilization unit.

Crisis intervention services consist of the following interventions:

- An assessment of dangerousness of the client to self or others
- The provision of emergency care services that include crisis screening and response, telephone access, emergency case services, urgent care services, routine care services, and access to emergency medical/crisis services
- Behavior skills training to assist the client in reducing distress and managing symptoms
- Problem-solving

- Reality orientation to help the client identify and manage his or her symptoms of serious mental illness or SED
- Providing instruction, structure, and emotional support to the client in adapting to and coping with immediate stressors

Crisis intervention services are available to eligible clients.

### **5.2.3.8 Day Programs for Acute Needs**

Day programs for acute needs provide short term, intensive treatment to an eligible client who is 18 years of age and older and who requires multidisciplinary treatment to stabilize acute psychiatric symptoms or prevent admission to a more restrictive setting. Day program services are a site-based treatment provided in a group modality.

Day programs for acute needs are provided in a highly structured and safe environment with constant supervision and ensure an opportunity for frequent interaction between a client and staff members.

Day programs for acute needs must at all times have sufficient staff to ensure safety and program adequacy according to an established staffing ratio and staff response times. This service focuses on intensive, medically-oriented, multidisciplinary interventions such as behavior skills training, crisis management, and nursing services that are designed to stabilize acute psychiatric symptoms.

These services may be provided in a residential facility; however, none of the residential facilities can contain greater than 16 beds.

Day programs for acute needs include:

- Psychiatric nursing services.
- Pharmacological instruction that addresses medication issues related to the crisis precipitating the need for provision of day programs for acute needs.
- Symptom management training.
- Functional skills training.

Day programs for acute needs must, at all times, have a sufficient number of staff members to ensure safety and program adequacy, and, at a minimum, include:

- One RN for every 16 clients at the day program's location,
- One physician to be available by phone, with a response time not to exceed 15 minutes,
- Two staff members who are QMHP-CSs, CSSPs, or peer providers at the day program's location,
- One additional QMHP-CS who is not assigned full-time to another day program to be physically available, with a response time not to exceed 30 minutes,
- Additional QMHP-CSs, CSSPs, or peer providers at the day program's location sufficient to maintain a ratio of one staff member to every four clients.

### **5.2.3.9 Authorization Requirements**

Providers must obtain prior authorization for mental health rehabilitative services, with the exception of crisis intervention services.

LMHAs delivering services to fee-for-service clients must obtain authorization from their internal utilization management department. When providing care to clients enrolled in managed care, LMHAs and other providers contracted with MCOs must submit authorization requests to the MCO with whom the individual is enrolled. The MCO may choose to waive this authorization submission requirement. Additionally, MCOs must follow the requirements set forth in the Uniform Managed Care Manual regarding utilization management for targeted case management and mental health rehabilitative services.

Eligibility determinations occur at the facility providing mental health rehabilitative services using the Clinical Management of Behavioral Health Services (CMBHS) software system.

Criteria used to make these service determinations are from the recommended LOC of the individual as derived from the Uniform Assessment (UA), the needs of the individual, and the Texas Resilience and Recovery Utilization Management Guidelines.

A facility that provides mental health rehabilitative services must ensure that at minimum a QMHP-CS administers the uniform assessment to the individual at specified intervals (every 90 calendar days for clients who are 20 years of age and younger and every 180 calendar days for clients who are 21 years of age and older), and obtains a recommended LOC for the individual.

The provider must evaluate the clinical needs of the individual to determine if the amount of services associated with the recommended LOC described in the utilization management guidelines is sufficient to meet those needs and ensure that an LPHA reviews the recommended LOC and verifies whether the services are medically necessary.

Changes to the treatment plan with regard to type, amount, or duration of services must be approved by an LPHA practicing within the scope of his/her licensure.

If the facility determines that an LOC other than the recommended LOC is more appropriate for the individual, the provider must submit a deviation request that includes:

- A request for an authorization of an LOC that is higher or lower than initially recommended.
- The clinical justification for the request.

The clinical justification must include the specific reason(s) why the individual requires interventions outside the recommended LOC. Client refusal of recommended LOC may be noted as part of the justification.

All treatment plans are subject to retrospective review by the state.

#### 5.2.3.9.1 Reauthorization Requirements

A QMHP-CS must conduct the uniform assessment at specified intervals (every 90 calendar days for children/youth and every 180 calendar days for adults) to determine the type, amount, and duration of mental health rehabilitative services.

Prior to the expiration of the authorization period or depleting the amount of services authorized, the provider must make a determination of whether the client continues to need mental health rehabilitative services. An LPHA must also determine whether the continuing need for mental health rehabilitative services meets the definition of medical necessity.

If the determination is that the client continues to need mental health rehabilitative services and that such services are medically necessary, the provider must:

- Request another authorization for the same type and amount of mental health rehabilitative service previously authorized; or
- Submit a request, with documented clinical reasons for such request, to change the type or amount of mental health rehabilitative services previously authorized if:
  - The provider determines that the type or amount of mental health rehabilitative services previously authorized is inappropriate to address the client's needs.
  - The criteria described in the utilization management guidelines for changing the type or amount of mental health rehabilitative services has been met.

### 5.2.3.10 Documentation Requirements

All services require documentation to support the medical necessity of the service rendered. An LPHA must document in the client's medical record that mental health rehabilitative services are medically necessary when the services are authorized and reauthorized.

Clients determined to need mental health rehabilitative services must have a treatment plan developed by the Medicaid enrolled provider of mental health rehabilitative services that describes in writing the type, amount, and duration of mental health rehabilitative services determined to be medically necessary to meet the needs of the person.

A rehabilitative services provider must document the following for all mental health rehabilitative services:

- The name of the client to whom the service was provided
- The type of service provided
- The specific goal or objective addressed, and the modality and method used to provide the service
- The date the service was provided
- The start and end time of the service
- The location where the service was provided
- The signature of the staff member providing the service and a notation of their credentials
- Any pertinent event or behavior relating to the client's treatment which occurs during the provision of the service
- The outcome or progress in achieving treatment plan goals

In addition to the general requirements described above, when providing crisis services, a provider must document the following information:

- Risk of suicide and/or homicide;
- Substance use or abuse;
- Trauma, abuse, or neglect;
- The outcome of the crisis (e.g., client in hospital, client with friend and scheduled to see doctor at 9:00 a.m. the following day);
- All actions (including rehabilitative interventions and referrals to other agencies) used by the provider to address the problems presented;
- The response of the client, and if appropriate, the response of the LAR and family members;
- Any pertinent event or behavior relating to the client's treatment which occurs during the provision of the service; and
- Follow up activities, which may include referral to another provider.

Documentation for day programs for acute needs must be made daily. Documentation must be made after each face-to-face contact occurs to provide the mental health rehabilitative service for all other services.

An LPHA must, within two business days after crisis intervention services are provided, determine whether the crisis intervention services met the definition of medical necessity. If medical necessity is met then the LPHA must document the medical necessity.

Services are subject to retrospective review and recoupment if documentation does not support the service billed.

A provider must retain documentation in compliance with applicable federal and state laws, rules, and regulations.

#### **5.2.3.11 Exclusions**

Clients receiving psychosocial rehabilitation services are not eligible to simultaneously receive skills training and development or targeted case management services.

Mental health rehabilitative services do not include any of the following services that must be billed to Texas Medicaid:

- Rehabilitative services provided:
  - Before the establishment of a diagnosis of mental illness and authorization of services.
  - To clients who reside in an institution for mental diseases.
  - To general acute care hospital inpatients.
- Services to residents of institutions that furnish food, shelter, and treatment to four or more unrelated persons
- Services to nursing facility residents who have not been identified through the PASSR process as needing specialized mental health services
- Services to inmates of public institutions
- Job task-specific vocational services;
- Educational services;
- Room and board residential costs;
- Services that are an integral and inseparable part of another Medicaid-reimbursable service, including targeted case management services, residential rehabilitative behavioral health services, institutional and waiver services;
- Services that are covered elsewhere in the state Medicaid plan;
- Services to clients with a single diagnosis of intellectual or developmental disability or substance use disorder who do not have a co-occurring diagnosis of mental illness in adults or serious emotional disturbance in children;
- Inpatient hospital services;
- Respite services; or
- Family support services.

#### **5.2.3.12 Non-reimbursable Activities**

A Medicaid provider will not be reimbursed for a mental health rehabilitative service:

- That is not included in the client's treatment plan (except for crisis intervention services and psychosocial rehabilitative services provided in a crisis situation);
- That is not authorized, except for crisis intervention services;
- Provided in excess of the amount authorized;
- Provided outside of the duration authorized;
- Provided to a client receiving MH case management services;
- That is not documented;
- Provided to a client who does not meet the eligibility criteria;

- Provided to a client who does not have a current uniform assessment (except for crisis intervention services);
- Provided to a client who is not present, awake, and participating during such service;
- Provided via electronic media;

A Medicaid provider will not be reimbursed for a crisis service provided to a client who does not have a serious mental illness.

The cost of the following activities is included in the Medicaid mental health rehabilitative services reimbursement rate(s) and may not be directly billed by the Medicaid provider:

- Developing and revising the treatment plan and interventions that are appropriate to a client's needs.
- Staffing and team meetings to discuss the provision of mental health rehabilitative services to a specific client;
- Monitoring and evaluating outcomes of interventions, including contacts with a person other than the client;
- Documenting the provision of mental health rehabilitative services;
- A staff member's travel time to and from a location to provide mental health rehabilitative services;
- All services provided within a day program for acute needs that are delivered by a staff member, including services delivered in response to a crisis or an episode of acute psychiatric symptoms; and
- Administering the uniform assessment to clients who are receiving mental health rehabilitative services.

### 5.3 Documentation Requirements

All services require documentation to support the medical necessity of the service rendered, including MH and IDD services.

MH and IDD services are subject to retrospective review and recoupment if documentation does not support the service billed.

### 5.4 Claims Filing and Reimbursement

IDD service coordination, MHTCM, and mental health rehabilitative services must be submitted to TMHP in an approved electronic claims format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply them.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills, or itemized statements, are not accepted as claim supplements.

Services are cost reimbursed in accordance with 1 TAC §§355.743, 355.746, and 355.781. Providers can refer to the [OFL](#) or the applicable fee schedule on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

#### 5.4.1 Managed Care Clients

Claims for managed care clients must be submitted to the client's MCO. Mental health targeted case management and mental health rehabilitative services that are funded by a criminal justice agency (submitted with modifier HZ) are carved out and must be submitted to TMHP.

### 5.4.2 Reimbursement Reductions

Texas Medicaid implemented mandated rate reductions for certain services. The OFL and static fee schedules include a column titled “Adjusted Fee” to display the individual fees with all mandated percentage reductions applied.

Additional information about rate changes is available on the TMHP website at [www.tmhp.com/pages/topics/rates.aspx](http://www.tmhp.com/pages/topics/rates.aspx).

**Referto:** “Section 3: TMHP Electronic Data Interchange (EDI)” (*Vol. 1, General Information*) for information on electronic claims submissions.

Subsection 6.1, “Claims Information” in “Section 6: Claims Filing” (*Vol. 1, General Information*) for general information about claims filing.

Subsection 6.5, “CMS-1500 Paper Claim Filing Instructions” in “Section 6: Claims Filing” (*Vol. 1, General Information*). Blocks that are not referenced are not required for processing by TMHP and may be left blank.

Subsection 2.2, “Fee-for-Service Reimbursement Methodology” in “Section 2: Texas Medicaid Fee-for-Service Reimbursement” (*Vol. 1, General Information*) for more information about reimbursement and the federal matching percentage.

## 6 Psychiatric Services for Hospitals

Inpatient admissions to acute care hospitals for adults and children for psychiatric conditions are a benefit of Texas Medicaid. Admissions must be medically necessary and are subject to Texas Medicaid’s retrospective utilization review (UR) requirements. The UR requirements are applicable regardless of the hospital’s designation of a unit as a psychiatric unit versus a medical or surgical unit.

Clients who are 20 years of age and younger may be admitted to a freestanding psychiatric facility or a state psychiatric facility. Clients who are 21 years of age and older may be admitted only to an acute care facility. Providers should use the most appropriate revenue code when billing for inpatient psychiatric services in an acute care facility. A certification of need must be completed and placed in the client’s medical record within 14 days of the admission or once the client becomes Medicaid-eligible while in the facility.

Inpatient psychiatric treatment is a benefit of Texas Medicaid if all the following apply:

- The client has a psychiatric condition that requires inpatient treatment.
- The inpatient treatment is directed by a psychiatrist.
- The inpatient treatment is provided in a nationally accredited facility or hospital.
- The provider is enrolled in Texas Medicaid.

Clients of all ages may be admitted to an acute care facility. Inpatient admissions for the single diagnosis of chemical dependency or abuse (such as alcohol, opioids, barbiturates, and amphetamines) without an accompanying medical complication are not benefits of Texas Medicaid. Additionally, admissions for chronic diagnoses such as intellectual disability, organic brain syndrome, or chemical dependency or abuse are not covered benefits for acute care hospitals without an accompanying medical complication or medical condition. The UB-04 CMS-1450 paper claim form must indicate all relevant diagnoses that necessitate the inpatient stay.

Supporting documentation (certification of need) must be documented in the client’s medical record. This documentation must be maintained by each facility for a minimum of five years and be readily available for review when requested by HHSC or its designee.

Additional coverage through the Comprehensive Care Program (CCP) may be allowed for Medicaid-eligible clients who are 20 years of age and younger. Providers should use revenue code 124 when billing for inpatient psychiatric services in freestanding and state psychiatric facilities.

**Referto:** Subsection 2.16, “Inpatient Psychiatric Hospital or Facility (Freestanding) (CCP)” in the *Children’s Services Handbook (Vol. 2, Provider Handbooks)*.

## 6.1 Prior Authorization Requirements

Prior authorization is not required for fee-for-service clients who are admitted to psychiatric units in acute care hospitals. Out-of-network admissions require notification within the next business day and submission of clinical information to determine appropriateness for transfer to a contracted facility.

Prior authorization is not required for initial admission to freestanding psychiatric facilities or state psychiatric hospitals for clients who are 20 years of age and younger for a maximum of five days based on Medicaid eligibility and documentation of medical necessity. Extended stay requests beyond the initial 5 days require prior authorization.

**Referto:** Subsection 2.17.3, “Prior Authorization and Documentation Requirements” in the *Children’s Services Handbook (Vol. 2, Provider Handbooks)* for more information about inpatient psychiatric services.

## 6.2 Documentation Requirements

Documentation of medical necessity for inpatient psychiatric care must specifically address the following issues:

- Why the ambulatory care resources in the community cannot meet the treatment needs of the client.
- Why inpatient psychiatric treatment under the care of a psychiatrist is required to treat the client’s acute episode.
- How the services can reasonably be expected to improve the client’s condition or prevent further regression of the client’s condition in a proximate time period.

## 6.3 Inpatient Hospital Discharge

Procedure codes 99238 and 99239 must be submitted when billing for a hospital discharge.

# 7 Screening, Brief Intervention, and Referral to Treatment (SBIRT)

SBIRT is a comprehensive, public health approach to the delivery of early intervention and treatment services for clients who are 10 years of age and older and who have alcohol or substance use disorders or are at risk of developing such disorders. Substance abuse includes, but is not limited to, the abuse of alcohol and the abuse of, improper use of, or dependency on illegal or legal drugs. SBIRT is used for intervention directed to individual clients and not for group intervention.

SBIRT services can be provided by physicians, registered nurses, advanced practice nurses, physician assistants, psychologists, licensed clinical social workers, licensed professional counselors, certified nurse midwives, outpatient hospitals, federally qualified health centers (FQHCs), and rural health clinics (RHCs). Non-licensed providers may deliver SBIRT under the supervision of a licensed provider if such supervision is within the scope of practice for that licensed provider. The same SBIRT training requirements apply to non-licensed providers.

Clients may have a maximum of two screening only sessions per rolling year, and up to four combined screening and brief intervention sessions per rolling year. Providers must refer the client to treatment if the screening results reveal severe risk of alcohol or substance abuse.

**Referto:** Section 8, “Substance Use Disorder (SUD) Services (Abuse and Dependence)” in this handbook for additional information on SUD treatment.

## 7.1 SBIRT Training

Providers that perform SBIRT must be trained in the correct practice of this method and will be required to complete at least four hours of training. Proof of completion of SBIRT training must be maintained in an accessible manner at the provider’s place of service.

Information regarding available trainings and standardized screening tools can be found through the [Substance Abuse and Mental Health Services Administration](#).

## 7.2 Screening

Screening clients for problems related to alcohol or substance use identifies the individual’s level of risk and determines the appropriate level of intervention indicated for the individual. Providers must explain the screening results to the client, and if the results are positive, be prepared to subsequently deliver, or delegate to another provider, brief intervention services. Screening must be conducted using a standardized screening tool. Standardized tools that may be used include, but are not limited to, the following:

- Alcohol, Smoking, and Substance Involvement Screening Test (ASSIST)
- Drug Abuse Screening Test (DAST)
- Alcohol Use Disorders Identification Test (AUDIT)
- Cut-down, Annoyed, Guilty, Eye-opener (CAGE) questionnaire
- Car, Relax, Alone, Forget, Family or Friends, Trouble (CRAFFT) questionnaire
- Binge drinking questionnaire

Results obtained through blood alcohol content (BAC) or through toxicology screening may also be used to screen for alcohol or substance abuse risk.

## 7.3 Brief Intervention

Brief intervention is performed following a positive screen or a finding of at least a mild to moderate risk for alcohol or substance abuse. During the session, brief intervention involves motivational interviewing techniques (such as the Brief Negotiated Interview) that is focused on raising the client’s awareness of his or her alcohol or substance use and its consequences. The session is also focused on motivating the client toward behavioral change.

Subsequent screening and brief intervention sessions within the allowable annual limitations may be indicated to assess for behavior change and further explore a client’s readiness to make behavioral changes related to their alcohol or substance use.

**Note:** Providers may choose to schedule multiple screening and brief intervention sessions in a rolling year in order to provide ongoing support to a client at risk for substance abuse who is receptive to behavior change.

## 7.4 Referral to Treatment

If the provider determines that the client is in need of more extensive treatment or has a severe risk for alcohol or substance abuse, the client must be referred to an appropriate substance use treatment provider.

Referral to more extensive treatment is a proactive process that facilitates access to care for clients who require a more extensive level of service than SBIRT provides. Referral is an essential component of the SBIRT intervention because it ensures that all clients who are screened have access to the appropriate level of care.

**Note:** *If the client is currently under the care of a behavioral health provider, the client must be referred back to that provider.*

## 7.5 Reimbursement and Limitations

SBIRT is limited to clients who are 10 years of age and older.

SBIRT is limited to up to two screening sessions per rolling year. A screening that results in a negative result does not require a brief intervention. In these instances procedure code H0049 should be used. A provider may re-screen a client within the same rolling year to determine whether a client's substance use behavior has changed.

Procedure code 99408 should be used when a brief intervention follows an SBIRT screening. Procedure code 99408 is limited to once per day. SBIRT is limited to four sessions per rolling year when it constitutes a screening followed by a brief intervention.

If a client requires more than four combined screening and brief intervention sessions per rolling year, the client must be referred for substance abuse treatment.

SBIRT is not reimbursable to providers (whether licensed or non-licensed) who have not completed the required number of training hours in SBIRT methodology.

Procedure codes 99408 and H0049 will be denied if billed for the same date of service as any of the following procedure codes:

| Procedure Codes |       |       |       |       |       |       |       |       |       |
|-----------------|-------|-------|-------|-------|-------|-------|-------|-------|-------|
| 90791           | 90792 | 90832 | 90833 | 90834 | 90836 | 90837 | 90838 | 90847 | 90853 |
| 90865           | 90870 | 96101 | 96116 | 96118 |       |       |       |       |       |

Procedure codes 99408 and H0049 cannot both be billed on the same date.

Physicians and other qualified health care professionals that bill an Evaluation and Management (E/M) code for a visit where SBIRT occurred must use modifier 25 to identify a significant, separately identifiable E/M service rendered by the same provider on the same date of service.

**Note:** *FQHCs and RHCs should submit claims using SBIRT procedure codes for informational purposes only.*

## 7.6 Documentation Requirements

Client record documentation must support medical necessity for the SBIRT services provided and must be maintained by the SBIRT provider and made readily available for review when requested by the Health and Human Services Commission (HHSC) or its designee. SBIRT documentation for screening must include the following:

- The provider who performed the SBIRT screening
- Screening results from a standardized screening tool or laboratory results such as BAC, toxicology screen, or other measures showing risk for alcohol or substance abuse and the specific screening tool used.

Documentation for SBIRT brief intervention sessions must include a client-centered plan for the delivery of medically necessary services that supports the use of procedure code 99408. The plan must include all of the following:

- The provider who performed the SBIRT brief intervention, if different from the provider who screened the client
- Start and stop time of the session, or the total face-to-face time spent providing SBIRT services to the client
- Goals established
- Specific strategies to achieve the goals
- The client's support system such as family members, a legal guardian, or friends.

**Note:** *If subsequent sessions are indicated, the provider who performed the SBIRT session must document that a follow up SBIRT appointment was made and with whom, or document another mechanism established to reassess progress*

- The name, address, and phone number of the provider that the patient has been referred to for substance use disorder treatment

Services are subject to retrospective review to ensure that the documentation in the client's medical record supports the medical necessity of the services provided.

## 7.7 Claims Filing and Reimbursement

SBIRT services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms. When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills, or itemized statements, are not accepted as claim supplements.

**Referto:** "Section 3: TMHP Electronic Data Interchange (EDI)" (*Vol. 1, General Information*) for information on electronic claims submissions.

Subsection 6.1, "Claims Information" in "Section 6: Claims Filing" (*Vol. 1, General Information*) for general information about claims filing.

Subsection 6.5, "CMS-1500 Paper Claim Filing Instructions" in "Section 6: Claims Filing" (*Vol. 1, General Information*).

Texas Medicaid rates for Hospitals are calculated according to 1 TAC §355.8061.

According to 1 TAC §355.8091, the Medicaid rate for LCSWs, LMFTs, and LPCs is 70 percent of the rate paid to a psychiatrist or psychologist for a similar service per 1 TAC §355.8085.

The Medicaid rates for psychologists are calculated in accordance with 1 TAC §355.8085.

Texas Medicaid rates for physicians and certain other practitioners are calculated in accordance with TAC §355.8085.

Texas Medicaid rates for Nurse Practitioners and Clinical Nurse Specialists are calculated in accordance with TAC §355.8281.

According to 1 TAC §355.8093, the Medicaid rate for PAs is 92 percent of the rate paid to a physician (MD or DO) for the same professional service and 100 percent of the rate paid to physicians for laboratory services, X-ray services, and injections. Services performed by a PA and billed under a physician's or RHC's provider identifier are reimbursed according to the Texas Medicaid Reimbursement Methodology (TMRM) for physician services.

**Note:** For more information about Texas Medicaid rates for the provider types above, refer to the [OFL](#) or the applicable fee schedule on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

Texas Medicaid implemented mandated rate reductions for certain services. The OFL and static fee schedules include a column titled "Adjusted Fee" to display the individual fees with all mandated percentage reductions applied.

Additional information about rate changes is available on the TMHP website at [www.tmhp.com/pages/topics/rates.aspx](http://www.tmhp.com/pages/topics/rates.aspx).

**Note:** Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.

## 8 Substance Use Disorder (SUD) Services (Abuse and Dependence)

### 8.1 Overview

Treatment for SUD is a benefit of Texas Medicaid. SUD treatment services are age appropriate medical and psychotherapeutic services designed to treat a client's substance use disorder and restore function. Services and provider requirements associated with this benefit are found in Texas Department of Insurance (TDI) regulations (28 TAC, part 1 subchapter 3 subcategory HH) and TAC §448.902 and must be strictly followed. Medical necessity for substance abuse services will be determined based on the TDI regulations and nationally recognized standards such as those from the American Society of Addiction Medicine (ASAM) or the Center for Substance Abuse Treatment (CSAT).

The following SUD services are a benefit of Texas Medicaid:

- Assessment by a CDTF for admission into a SUD treatment program.
- Detoxification services when provided in a general acute care hospital, residential, or ambulatory CDTF setting.

**Note:** Crisis intervention is not a component of detoxification. Crisis intervention for a mental health condition may be provided as needed when the service is medically necessary and the clinical criteria for psychiatric care are met.

- Residential SUD treatment services.
- Ambulatory SUD treatment services provided by a CDTF.
- Medication-assisted therapy (MAT) in an outpatient setting.

SUD services provided by a CDTF are limited to those provided by facilities that are licensed and regulated by DSHS to provide SUD services within the scope of that facility's DSHS license.

Intensive outpatient (IOP) services are ambulatory outpatient services that are provided by CDTF providers.

IOP services are benefits of Texas Medicaid. IOP services are available to clients of all ages and include a maximum of 135 hours of group counseling and 26 hours of individual counseling per calendar year.

The modifiers listed in the following table must be used in the appropriate combination for SUD services to identify the services performed:

| Modifiers | Description   |
|-----------|---|
| HF        | Use to identify a substance abuse program in a facility |
| HG        | Use to identify an opioid addiction treatment program   |
| UA        | Use to identify supervised administered dosing          |
| U1        | Use to identify unsupervised dosing                     |

## 8.2 Enrollment

### 8.2.1 CDTFs

Only CDTFs licensed by DSHS are eligible to enroll and participate in Texas Medicaid. Each facility must submit a copy of its DSHS license with the enrollment packet. Facilities that are maintained or operated by the federal government or directly operated by the state of Texas are exempt from the licensing requirements.

**Referto:** Subsection 1.1, “Provider Enrollment and Reenrollment” in “Section 1: Provider Enrollment and Responsibilities” (*Vol. 1, General Information*) for information on the provider enrollment process.

## 8.3 Assessment

Clients must be assessed by a Medicaid-enrolled CDTF for treatment services to begin. Clients who are in fee-for-service Medicaid can obtain their assessment from any Medicaid-enrolled CDTF.

CDTF assessment must be performed by a qualified credentialed counselor (QCC) (as defined by the DSHS licensure standard) to determine the severity of a client’s SUD and identify their treatment needs. Assessments are limited to once per episode of care. An assessment must be billed with procedure code H0001 and modifier HF.

Documentation of the QCC assessment must be maintained in the client’s medical record.

## 8.4 Opioid Treatment Program (OTP)

SUD services that are provided in an opioid treatment program (OTP) are a benefit of Texas Medicaid. OTP services are medication-assisted therapy services that treat patients addicted to heroin or other opiates.

OTPs are required to follow guidelines established by the following:

- Code of Federal Regulations Title 42 Part 8.
- Controlled Substances Act section 303(g), United States Code Title 21 section 823(g).
- Substance Abuse and Mental Health Services Administration (SAMHSA).

Detoxification in an OTP is the gradual tapering of methadone or buprenorphine doses, which results in the eventual cessation of these drugs. Claims for OTP-based detoxification are submitted as medication-assisted therapy using one of the following procedure codes:

- Procedure code H0020
- Procedure code H2010 with modifier HF or HG

An OTP must have current procedures to ensure that clients are admitted to detoxification treatment by qualified personnel, such as a program physician, who uses established diagnostic criteria to determine that the treatment is appropriate for each client. A client may not be admitted for more than two detox-

ification episodes in one rolling year. Clients with two or more unsuccessful detoxification episodes with in a 12-month period must be assessed by the OTP physician for other forms of treatment. An assessment for the opioid addiction treatment program must be billed with procedure code H0001 and modifier HG.

**Note:** *There is no billing provider type in Texas Medicaid for an OTP or narcotic treatment clinic. OTPs must either submit claims using the physicians' provider identifier, or as a DSHS-licensed chemical dependency treatment facility (CDTF).*

## 8.5 Detoxification Services

Detoxification services are a set of interventions aimed at managing acute physiological substance dependence. According to TAC §448.902 detoxification services include, but are not limited to, the following components:

- Evaluation
- Monitoring
- Medication
- Daily interactions

All clients who are admitted to a detoxification program must meet the current DSM criteria for physiological substance dependence and must meet the admission requirements based on a nationally-recognized standard.

### 8.5.1 Ambulatory (Outpatient) Detoxification Services

Ambulatory (outpatient) detoxification is appropriate when the client's medical needs do not require close monitoring.

Ambulatory (outpatient) detoxification is not a stand-alone service and must be provided in conjunction with ambulatory (outpatient) substance abuse treatment services.

Ambulatory (outpatient) detoxification services must be billed with procedure codes H0016, H0050, or S9445 and modifier HF.

### 8.5.2 Residential Detoxification Services

Residential detoxification is appropriate when the client's medical needs do not warrant an acute inpatient hospital admission, but the severity of the anticipated withdrawal requires close monitoring.

The assessment by a CDTF is required before services begin; however, if the client's condition is such that a comprehensive assessment cannot be completed, it is appropriate to conduct an abbreviated assessment on admission. The full assessment must be completed within 24 hours of admission.

Residential detoxification services must be billed with procedure codes H0012, H0031, H0047, S9445, or T1007 and modifier HF.

Medically-supervised hospital inpatient detoxification is appropriate when one of the following criteria is met:

- The client has complex medical needs or complicated comorbid conditions that necessitate hospitalization for stabilization.
- The services that are provided to a client are incidental to other medical services that are provided as a component of an acute care hospital stay.

## 8.6 Treatment Services

Treatment services may be provided by a CDTF in a residential facility or as an ambulatory (outpatient) service.

**Note:** *MAT is recognized as a separately identifiable service in the ambulatory (outpatient) setting and may be provided during the treatment period in conjunction with other ambulatory (outpatient) treatment services.*

### 8.6.1 Residential Treatment Services

Residential treatment services include counseling and psycho-education and must be billed with procedure codes H0047 and H2035 and modifier HF.

### 8.6.2 Ambulatory (Outpatient) Treatment Services

Ambulatory (outpatient) treatment services must be billed with procedure codes H0004 or H0005 and modifier HF.

Procedure codes H0004 and H0005 are limited to the following diagnosis codes:

| Diagnosis Codes (Submitted as stand-alone diagnosis codes) |        |        |        |        |        |        |        |
|--|--------|--------|--------|--------|--------|--------|--------|
| F1010  | F1011  | F10120 | F10129 | F10159 | F10188 | F1019  | F1020  |
| F1021  | F10220 | F10229 | F10230 | F10232 | F10239 | F10259 | F10281 |
| F10288   | F1029  | F10920 | F10929 | F10959 | F10988 | F1099  | F1110  |
| F1111  | F11120 | F11159 | F11181 | F11182 | F11188 | F1119  | F1120  |
| F1121  | F11220 | F11222 | F11229 | F1123  | F11259 | F11281 | F11282 |
| F11288   | F1129  | F11920 | F11922 | F11929 | F1193  | F11959 | F11981 |
| F11982   | F11988 | F1199  | F1210  | F1211  | F12120 | F12122 | F12129 |
| F12159   | F12180 | F12188 | F1219  | F1220  | F1221  | F12220 | F12222 |
| F12229   | F12259 | F12280 | F12288 | F1229  | F12920 | F12922 | F12929 |
| F12959   | F12980 | F12988 | F1299  | F1311  | F13120 | F13129 | F13159 |
| F13180   | F13181 | F13182 | F13188 | F1320  | F1321  | F13220 | F13229 |
| F13230   | F13232 | F13239 | F13259 | F13280 | F13281 | F13282 | F13288 |
| F13920   | F13929 | F13930 | F13932 | F13939 | F13959 | F13980 | F13981 |
| F13982   | F13988 | F1399  | F1410  | F1411  | F14120 | F14122 | F14129 |
| F14159   | F14180 | F14181 | F14182 | F14188 | F1419  | F1420  | F1421  |
| F14220   | F14222 | F14229 | F1423  | F14259 | F14280 | F14281 | F14282 |
| F14288   | F1429  | F14920 | F14922 | F14929 | F14959 | F14980 | F14981 |
| F14982   | F14988 | F1499  | F1510  | F1511  | F15120 | F15122 | F15129 |
| F15159   | F15180 | F15181 | F15182 | F15188 | F1519  | F1520  | F1521  |
| F15220   | F15222 | F15229 | F1523  | F15259 | F15280 | F15281 | F15282 |
| F15288   | F1529  | F15920 | F15922 | F15929 | F1593  | F15959 | F15980 |
| F15981   | F15982 | F15988 | F1599  | F1610  | F1611  | F16120 | F16122 |
| F16129   | F16159 | F16180 | F16183 | F16188 | F1619  | F1620  | F16220 |
| F16229   | F16259 | F16280 | F16283 | F16288 | F1629  | F16920 | F16929 |
| F16959   | F16980 | F16983 | F16988 | F1699  | F17208 | F17209 | F17218 |
| F17219   | F17228 | F17229 | F17298 | F17299 | F1810  | F1811  | F18120 |
| F18129   | F18159 | F18180 | F18188 | F1819  | F1820  | F1821  | F18220 |

| Diagnosis Codes (Submitted as stand-alone diagnosis codes) |        |        |        |        |        |        |        |
|--|--------|--------|--------|--------|--------|--------|--------|

### 8.6.3 Physician Services

Physician services may be reimbursed separately using the appropriate E/M procedure codes.

## 8.7 Medication Assisted Therapy (MAT)

MAT may be a benefit of Texas Medicaid when using a drug or biological recognized in the treatment of SUD and provided as a component of a comprehensive treatment program per TAC §448.902, or as a conjunctive treatment regimen for individuals addicted to abusable substances who meet the current DSM criteria for a SUD.

MAT is considered part of detoxification (residential and ambulatory outpatient) and residential treatment except for the following:

- Pregnant women with an opioid addiction
- Clients in current treatment for an opioid addiction who also have a substance addiction to another substance other than opioids

Documentation requirements supporting the medical necessity for MAT must be maintained in the client's medical record according to the requirements in Federal Regulation 42 CFR §8. MAT must be performed by a physician; however, the physician may delegate this responsibility to other licensed personnel under his supervision. Documentation must include the name and title of the physician performing or delegating other MAT services. The client's medical records are subject to retrospective review.

Clients who are 17 years of age and younger may not be admitted to a narcotic maintenance program unless a parent, legal guardian, or responsible adult designated by the relevant state authority consents in writing to such treatment. To be eligible for narcotic maintenance treatment, clients who are 17 years of age and younger must have had two documented attempts at short-term detoxification or drug-free (non-opioid) treatment within a 12-month period. A waiting period of no less than seven days is required between the first and the second short-term detoxification treatment.

Every exception to the general age requirement must be clinically justified and documented by a QCC. The facility must maintain the supporting documentation, including the QCC admission approval in the client's medical record.

MAT for the treatment of opioid addiction must comply with the requirements in Federal Regulation 42 CFR §8.

**Referto:** Subsection 8.10.3, "MAT Services" in this handbook for more information on claims filing.

## 8.8 Prior Authorization

The following services do not require prior authorization:

- Assessment

- Ambulatory (outpatient) treatment services
- MAT
- Inpatient hospital detoxification for fee-for-service clients in a general acute care facility

The following services require prior authorization:

- Ambulatory (outpatient) detoxification services
- Ambulatory (outpatient) treatment for clients who are 20 years of age and younger and who exceed the benefit limitation of 135 hours of group service and 26 hours of individual services per calendar year
- Residential detoxification services
- Residential treatment services

Providers must submit the appropriate prior authorization request form for the initial or continuation of ambulatory (outpatient) or residential detoxification treatment and residential treatment services. A physician (who does not need to be affiliated with the CDTF) must complete and sign the Ambulatory (Outpatient) Substance Abuse Extension Request Form. A QCC (as defined by the DSHS licensure standard) must complete and sign the other prior authorization request forms.

Providers must submit one of the following forms to obtain prior authorization:

- Ambulatory (Outpatient) Detoxification Authorization Request Form
- Ambulatory (Outpatient) Substance Abuse Counseling Extension Request Form
- Residential Detoxification Authorization Request Form
- Residential Substance Abuse Treatment Authorization Request Form

Prior authorization for ambulatory and residential detoxification services will not be issued for clients who are 12 years of age and younger unless the request is accompanied by a waiver from DSHS Regulatory and Licensing Division.

Prior authorization will be considered for the least restrictive environment appropriate to the client's medical need as determined in the client's plan of care (POC), based on national standards.

Prior authorization requests for clients who are 20 years of age and younger for services beyond the limitations outlined in this section, may be considered with documentation from a physician (who does not need to be affiliated with the CDTF) supporting the medical necessity for continuation of the treatment.

### **8.8.1 Prior Authorization for Fee-for-Service Clients**

Prior authorization requests for fee-for-service clients may be submitted to the TMHP Prior Authorization Unit online at [www.tmhp.com](http://www.tmhp.com), by fax at 1-512-514-4211, or by mail to:

Texas Medicaid & Healthcare Partnership  
TMHP Prior Authorization Department  
12357-B Riata Trace Parkway, Suite 100  
Austin, TX 78727

Providers may contact the TMHP Prior Authorization Unit by telephone at 1-800-213-8877, Option 2, to obtain information about substance use disorder benefits, the prior authorization process, or the status of a prior authorization request. Prior authorization for substance use disorder services cannot be obtained through this line.

Prior authorization for ambulatory (outpatient) detoxification, residential treatment, or residential detoxification services may be considered when requested within three business days after the date of admission.

## **8.8.2 Prior Authorization for Ambulatory (Outpatient) Detoxification Treatment Services**

Ambulatory (outpatient) detoxification services may be prior authorized for up to 21 days. The level of service and number of days that are prior authorized will be based on the substances that are abused, level of intoxication and withdrawal potential, and the client's medical needs.

### **8.8.2.1 Admission Criteria for Ambulatory (Outpatient) Detoxification Treatment Services**

To be considered eligible for treatment for ambulatory detoxification services, the client must meet the following conditions:

#### **Chemical Substance Withdrawal**

The client must meet all of the following criteria with regard to chemical substance withdrawal:

- The client is expected to have a stable withdrawal from alcohol or drugs.
- The diagnosis must meet the criteria for the definition of substance (chemical) dependence, as detailed in the most current revision of the ICD-10-CM, or the most current revision of the *Diagnostic and Statistical Manual for Professional Practitioners*, accompanied by evidence that some of the symptoms have persisted for at least one month or have occurred repeatedly over a longer period of time.

#### **Medical Functioning**

The client must meet all of the following criteria with regard to medical functioning:

- No history of recent seizures or past history of seizures during withdrawal.
- No clinical evidence of altered mental state as manifested by disorientation to self, alcoholic hallucinations, toxic psychosis, or altered level of consciousness (clinically significant obtundation, stupor, or coma).
- The symptoms are due to withdrawal and not due to a general medical condition. Absence of any presumed new asymmetric or focal findings (i.e., limb weakness, clonus, spasticity, unequal pupils, facial asymmetry, eye ocular movement paresis, papilledema, or localized cerebellar dysfunction, as reflected in asymmetrical limb coordination).
- Stable vital signs as interpreted by a physician. The client must also be without a previous history of complications from acute chemical substance withdrawal and judged to be free of a health risk as determined by a physician.
- No evidence of a coexisting serious injury or systemic illness either newly discovered or progressive in nature.
- Absence of serious disulfiram-alcohol (Antabuse) reaction with hypothermia, chest pains, arrhythmia, or hypotension.
- Clinical condition that allows for a comprehensive and satisfactory assessment.

#### **Family, Social, or Academic Dysfunction**

The client must meet at least one of the following criteria with regard to family, social, or academic dysfunction:

- The client's social system and significant others are supportive of recovery to the extent that the client can adhere to a treatment plan and treatment service schedules without substantial risk of reactivating the client's addiction.
- The client's family or significant others are willing to participate in the ambulatory (outpatient) detoxification treatment program.

- The client may or may not have a primary or social support system to assist with immediate recovery, but the client has the social skills to obtain such a support system or to become involved in a self-help fellowship.
- The client does not live in an environment where licit or illicit mood altering substances are being used. A client living in an environment where licit or illicit mood altering substances are being used may not be a candidate for this level of care.

### **Emotional and Behavioral Status**

The client must meet all of the following criteria with regard to emotional and behavioral status:

- Client is coherent, rational, and oriented for treatment.
- The mental state of the client does not preclude the client's ability to comprehend and understand the materials presented, and the client is able to participate in the ambulatory (outpatient) detoxification treatment process.
- Documentation exists in the medical record that the client expresses an interest to work toward ambulatory (outpatient) detoxification treatment goals.
- Client has no neuropsychiatric condition that places the client at imminent risk of harming self or others (e.g. pathological intoxication or alcohol idiosyncratic intoxication).
- Client has no neurological, psychological, or uncontrolled behavior that places the client at imminent risk of harming self or others (depression, anguish, mood fluctuations, overreactions to stress, lower stress tolerance, impaired ability to concentrate, limited attention span, high level of distractibility, negative emotions, or anxiety).
- Client has no documented DSM condition or disorder that, in combination with alcohol or drug use, compounds a pre-existing or concurrent emotional or behavioral disorder and presents a major risk to the client.
- The client has no mental confusion or fluctuating orientation.

### **Chemical Substance Use**

The client must meet the criteria in at least one of the following conditions with regard to recent chemical substance use:

- The client's chemical substance use is excessive, and the client has attempted to reduce or control it but has been unable to do so (as long as chemical substances are available).
- The client is motivated to stop using alcohol or drugs and is in need of a supportive, structured treatment program to facilitate withdrawal from chemical substances.

#### **8.8.2.2 Continued Stay Criteria for Ambulatory (Outpatient) Detoxification Treatment Services**

A client is considered eligible for continued stay in the ambulatory (outpatient) detoxification treatment service when the client meets at least one of the conditions for either chemical substance withdrawal or psychiatric or medical complications. Requests for continuation of services must be received on or before the last date authorized or denied. The prior authorization unit will notify the provider by fax or electronic portal. If the date of the prior authorization unit determination letter is on or after the last date authorized or denied, the request for continuation of services is due by 5 p.m. of the next business day. Documentation in the client's medical record must support either Chemical Substance Withdrawal or Psychiatric or Medical Complications.

### **Chemical Substance Withdrawal**

The client must meet at least one of the following conditions with regard to chemical substance withdrawal complications:

- The client, while physically abstinent from chemical substance use, is exhibiting incomplete stable withdrawal from alcohol or drugs, as evidenced by psychological and physical cravings.
- The client, while physically abstinent from chemical substance use, is exhibiting incomplete stable withdrawal from alcohol or drugs, as evidenced by significant drug levels.

### **Psychiatric or Medical Complications**

The client must meet both of the following psychiatric or medical complication conditions:

- The intervening medical or psychiatric event was serious enough to interrupt the ambulatory (outpatient) detoxification treatment.
- Evidence that the client is progressing in treatment again.

## **8.8.3 Prior Authorization for Residential Detoxification Treatment Services**

Detoxification services may be prior authorized for up to 21 days. The level of service and number of prior authorized days will be based on the substances that are abused, level of intoxication and withdrawal potential, and the client's medical needs.

Requests for detoxification services for clients who are 20 years of age and younger and who need more than 21 days of residential detoxification require Medical Director review with documentation of medical necessity from a physician who is familiar with the client.

### **8.8.3.1 Admission Criteria for Residential Detoxification Treatment Services**

Clients are eligible for admission to a residential detoxification service when they have failed two previous individual treatment episodes of ambulatory (outpatient) detoxifications or when they have a diagnosis that meets the criteria for the definition of chemical dependence, as detailed in either the most current revision of the ICD-10-CM, or the most current revision of the *Diagnostic and Statistical Manual for Professional Practitioners*.

In addition, the client must meet at least one of the following criteria for chemical substance withdrawal, major medical complication, or major psychiatric illness for admission to residential treatment for detoxification:

### **Chemical Substance Withdrawal**

Impaired neurological functions as evidenced by:

- Extreme depression (e.g., suicidal).
- Altered mental state with or without delirium as manifested by disorientation to self; alcoholic hallucinosis, toxic psychosis, altered level of consciousness, as manifested by clinically significant obtundation, stupor, or coma.
- History of recent seizures or past history of seizures on withdrawal.
- The presence of any presumed new asymmetric or focal findings (i.e., limb weakness, clonus, spasticity, unequal pupils, facial asymmetry, eye ocular movement paresis, papilledema, or localized cerebellar dysfunction, as reflected in asymmetrical limb incoordination).
- Unstable vital signs combined with a history of past acute withdrawal syndromes that are interpreted by a physician to be indication of acute alcohol or drug withdrawal.
- Evidence of coexisting serious injury or systemic illness, newly discovered or progressive.

- Clinical condition (e.g., agitation, intoxication, or confusion) that prevents satisfactory assessment of the above conditions and indicates placement in residential detoxification service may be justified.
- Neuropsychiatric changes of such severity and nature that they put the client at imminent risk of harming self or others (e.g., pathological intoxication or alcohol idiosyncratic intoxication, etc.).
- Serious disulfiram-alcohol (Antabuse) reaction with hypothermia, chest pains, arrhythmia, or hypotension.

### **Major Medical Complications**

For major medical complications, the client must present a documented condition or disorder that, in combination with alcohol or drug use, presents a determined health risk (e.g., gastrointestinal bleeding, gastritis, severe anemia, uncontrolled diabetes mellitus, hepatitis, malnutrition, cardiac disease, hypertension).

### **Major Psychiatric Illness**

The client must meet at least one of the following conditions with regard to major psychiatric illness:

- Documented DSM condition or disorder that, in combination with alcohol or drug use, compounds a pre-existing or concurrent emotional or behavioral disorder and presents a major risk to the individual.
- Severe neurological and psychological symptoms: (e.g., anguish, mood fluctuations, overreactions to stress, lowered stress tolerance, impaired ability to concentrate, limited attention span, high level of distractibility, extreme negative emotions, or extreme anxiety).
- Danger to others or homicidal.
- Uncontrolled behavior that endangers self or others, or documented neuropsychiatric changes of a severity and nature that place the individual at imminent risk of harming self or others.
- Mental confusion or fluctuating orientation.

### **8.8.3.2 Continued Stay Criteria for Residential Detoxification Treatment Services**

Eligibility for continued stay for residential detoxification services is based on the client meeting at least one of the criteria for chemical substance withdrawal, major medical complications, or major psychiatric complications.

#### **Chemical Substance Withdrawal**

The client must exhibit one of the following conditions with regard to chemical substance withdrawal complications:

- Incomplete medically stable withdrawal from alcohol or drugs, as evidenced by documentation of at least one of the following conditions:
  - Unstable vital signs
  - Continued disorientation
  - Abnormal laboratory findings related to chemical dependency
  - Continued cognitive deficit related to withdrawal so that the client is unable to recognize alcohol or drug use as a problem
  - Laboratory finding that, in the judgment of a physician, indicates that a drug has not sufficiently cleared the client's system

### Major Medical Complications

For major medical complications, the client must have documentation in the medical record that indicates that a medical condition or disorder (e.g., uncontrolled diabetes mellitus) continues to present a health risk and is being actively treated.

### Major Psychiatric Complications

The client must meet at least one of the following with regard to major psychiatric complications:

- Documentation in the medical record that a DSM psychiatric condition or disorder that, in combination with alcohol or drug use, continues to present a major health risk, is actively being treated.
- Documentation in the medical record that severe neurological or psychological symptoms have not been satisfactorily reduced but are actively being treated.

## 8.8.4 Prior Authorization for Residential Treatment Services

Residential treatment may be prior authorized for up to 35 days per episode of care, with a maximum of two episodes of care per rolling six-month period, and four episodes of care per rolling year.

### 8.8.4.1 Admission Criteria for Residential Treatment Services

The diagnosis must meet the criteria for the definition of chemical dependence, as detailed in the most current revision of the ICD-10-CM, or the most current revision of the *Diagnostic and Statistical Manual for Professional Practitioners*, accompanied by evidence that some of the symptoms have persisted for at least one month or have occurred repeatedly over a longer period of time.

Clients must meet the following conditions in order to receive treatment in a residential treatment service program:

#### Medical Functioning

The following must be present with regard to medical functioning:

- Documented medical assessment following admission (except in instances where the client is being referred from an inpatient service) indicates that the client is medically stable and not in acute withdrawal.
- The client is not bed-confined and has no medical complications that would hamper participation in the residential service.

#### Family, Social, or Academic Dysfunction and Logistic Impairments

At least one of the following must be present with regard to family, social, or academic dysfunction and logistic impairments:

- The client manifests severe social isolation or withdrawal from social contacts.
- The client lives in an environment (social and interpersonal network) in which treatment is unlikely to succeed (e.g., a chaotic family dominated by interpersonal conflict, which undermines client's efforts to change).
- Client's family or significant others are opposed to the client's treatment efforts and are not willing to participate in the treatment process.
- Family members or significant others living with the client manifest current chemical dependence disorders and are likely to undermine treatment.
- Logistic impairments (e.g., distance from treatment facility or mobility limitations) preclude participation in a partial hospitalization or ambulatory (outpatient) treatment service.

### Emotional and Behavioral Status

The client must meet all three of the following criteria with regard to emotional and behavioral status:

- Client is coherent, rational, and oriented for treatment.
- Mental state of the client does not preclude the client's ability to comprehend and understand the materials presented and participate in rehabilitation or the treatment process.
- The medical record contains documentation that with continued treatment the client will be able to improve or internalize the client's motivation toward recovery within the recommended length of stay time frames (e.g., becoming less defensive, verbalizing, and working on alcohol or drug related issues). Interventions, treatment goals, or contracts are in place to help the client deal with or confront the blocks to treatment (e.g., family intervention or employee counseling confrontation).

### Chemical Substance Use

The client must meet at least one of the following criteria with regard to chemical substance use:

- The client's chemical substance use is excessive, and the client has attempted to reduce or control it but has been unable to do so (as long as chemical substances are available).
- Virtually all of the client's daily activities revolve around obtaining, using, or recuperating from the effects of chemical substances, and the client requires a secured environment to control the client's access to chemical substances.

#### 8.8.4.2 Residential Treatment Services for Adolescents

Clients who are 13 through 17 years of age must meet all above conditions and the following conditions in order to receive treatment in an adolescent residential treatment service program:

- At the maturation level, the adolescent client must meet both of the following criteria:
  - The client is assessed as manifesting physical maturation at least in middle adolescent range (i.e., post-pubescent).
  - The history of the adolescent reflects cognitive development of at least 11 years of age.
- The adolescent client must display at least one of the following with regard to developmental status:
  - Documented history of inability to function within the expected age norms despite normal cognitive and physical maturation (e.g., refusal to interact with family members, overt prostitution, felony, or other criminal charges).
  - A recent history of moderate to severe conduct disorder, as defined in the *Diagnostic and Statistical Manual for Professional Practitioners*, or impulsive disregard for social norms and rights of others.
  - Documented difficulty in meeting developmental expectations in a major area of functioning (e.g., social, academic, or psychosexual) to an extent that interferes with the capacity to remain behaviorally stable.

#### 8.8.4.3 Continued Stay Criteria for Residential Treatment Services

At least one of the following conditions must be present for continued stay in a residential treatment program:

- Chemical Dependency Rehabilitation or Treatment Complications
  - The client recognizes or identifies with the severity of the alcohol or drug problem but demonstrates minimal insight into the client's defeating the use of alcohol or drugs. However, documentation in the medical record indicates that the client is progressing in treatment; or

- The client identifies with the severity of the alcohol or drug problem and manifests insight into the client's personal relationship with mood-altering chemicals, yet does not demonstrate behaviors that indicate the development of problem-solving skills that are necessary to cope with the problem; *and*
- The client would predictably relapse if moved to a lesser level of care.
- Psychiatric or Medical Complications:
  - Documentation in the medical record indicates an intervening medical or psychiatric event that was serious enough to interrupt rehabilitation or treatment, but the client is again progressing in treatment.
  - Documentation in the medical record indicates that the client is being held pending an immediate transfer to a psychiatric, acute medical service, or inpatient detoxification alcohol or drug service.

### **8.8.5 Prior Authorization for Ambulatory (Outpatient) Treatment Services for Clients Who Are 20 Years of Age and Younger**

Prior authorization for ambulatory (outpatient) treatment services beyond the annual limitation of 135 hours of group services and 26 hours of individual services per calendar year, may be considered for clients who are 20 years of age and younger with documentation from a physician (who does not need to be affiliated with the CDTF) of the supporting medical necessity for continued treatment services.

Requests must be submitted before providing the extended services. The documentation must include the following information:

- The client is meeting treatment goals.
- The client demonstrates insight and understanding into relationship with mood altering chemicals, but continues to present with issues addressing the life functions of work, social, or primary relationships without the use of mood-altering chemicals.
- And one of the following:
  - Although physically abstinent from chemical substance use, the client remains mentally preoccupied with such use to the extent that the client is unable adequately to address primary relationships or social or work tasks. Nevertheless, there are indications that, with continued treatment, the client will effectively address these issues.
  - Although other psychiatric or medical complications exist that affect the client's treatment, documentation exists that the client continues to show treatment progress and that there is evidence to support the benefits of continued treatment.

## **8.9 Documentation Requirements**

All services require documentation to support the medical necessity of the service rendered, including SUD services.

All SUD services are subject to retrospective review. All documentation must be maintained in the client's medical record and be made available upon request.

## **8.10 Reimbursement and Limitations**

### **8.10.1 Detoxification Services**

Inpatient detoxification is reimbursed by the reimbursement methodology specific to the inpatient hospital. Separate reimbursement may be provided for physician services performed during an inpatient stay.

Residential detoxification and treatment services are considered outpatient services for the purposes of reimbursement and should be billed accordingly.

Residential detoxification (procedure codes H0012, H0031, S9445, and T1007) are limited to once per day.

Residential detoxification (procedure codes H0031, H0047, S9445, or T1007) will be denied if billed without procedure code H0012.

Room and board for residential detoxification and treatment (procedure code H0047) is limited to once per date of service. Procedure code H0047 is reimbursed for clients who are 21 years of age and older as an access-based fee, and as an informational detail for clients who are 20 years of age and younger.

Ambulatory (outpatient) detoxification (procedure codes H0016, H0050, and S9445) are limited to once per day and may be reimbursed on the same date of service as ambulatory (outpatient) SUD treatment by the same or different provider when medically necessary and identified in the client's treatment plan. For services rendered in the CDTF setting, providers must use the HF modifier.

Ambulatory (outpatient) detoxification (procedure codes H0050 and S9445) will be denied if billed without procedure code H0016.

Separate reimbursement may be provided for physician services during a residential stay.

### 8.10.2 Treatment Services

Ambulatory (outpatient) treatment (procedure codes H0004 and H0005) is reimbursed at a time-based rate.

Ambulatory (outpatient) treatment services are limited to 135 hours of group counseling and 26 hours of individual counseling per calendar year when provided by a CDTF.

Residential treatment services (procedure code H2035) are limited to one per day and are allowed up to a maximum of 35 days.

Ambulatory (outpatient) treatment (procedure codes H0004 and H0005) will be denied if billed on the same date of service as residential detoxification (procedure codes H0012, H0031, H0047, and T1007) or residential treatment (procedure code H2035).

Procedure code H0047 will be denied if billed without procedure code H2035.

### 8.10.3 MAT Services

MAT may be considered for reimbursement on appeal on the same date of service as residential detoxification, ambulatory (outpatient) detoxification, or residential treatment services. For the claim to be considered, providers must:

- Submit supporting documentation that indicates one of the following:
  - The client is a pregnant woman with an opioid addiction.
  - The client is in current MAT treatment for an opioid addiction and is also receiving residential services for a substance other than opioids.
- Submit one of the following opioid diagnosis codes on the claim:

| Diagnosis Codes   | Description                     |
|---|---------------------------------|
| F1120, F1121, F11220, F11221, F11222, F11229, F1123, F1124, F11259, F11281, F11282, F11288, F1129 | Opioid type dependence          |
| F1821, F1920, F1921   | Combination of opioid type drug |
| F1110   | Opioid abuse                    |

- Submit one of each of the following non-opioid and pregnancy diagnosis codes on the claim:

| Diagnosis Codes  | Description                                      |
|--|--|
| F1020, F1021   | Other and unspecified alcohol dependence         |
| F1320, F1321   | Sedative, hypnotic or anxiolytic dependence      |
| F1420, F1421   | Cocaine dependence                               |
| F1520, F1521   | Amphetamine and other psychostimulant dependence |
| F1620, F1621   | Hallucinogen dependence                          |
| F1620, F1820, F1821, F1920, F1921  | Other or unspecified drug dependence             |
| F15120, F15129, F15220, F15229, F15920, F15929, F1610, F1810, F1890, F1910, F551, F553 | Other, mixed, or unspecified drug abuse          |
| O99320, O99321, O99322, O99323, O99325   | Pregnancy-related diagnoses                      |

Claims billed for MAT must include the client's substance use disorder diagnosis.

Procedure codes H0020 or H2010 will be denied if a claim is submitted for the same date of service as procedure codes H0012, H0016, H0031, H0047, H0050, H2035, S9445, or T1007.

Methadone administration (procedure code H0020) for opioid addiction must be submitted with the following modifiers:

- When methadone is administered with supervision in a facility the provider must submit claims using the UA modifier to indicate the facility administered doses
- When methadone is dispensed without supervision as a take home dose the provider must submit claims using the U1 modifier to indicate take home doses

Methadone administration (procedure code H0020) with modifier U1 for unsupervised take home doses must be submitted on the same claim and with the same date of service as methadone administration (procedure code H0020) with modifier UA for supervised facility doses or the take home doses will be denied.

MAT provided in an ambulatory (outpatient) setting (procedure code H0020) is limited to once per date of service, except for unsupervised take home doses (U1 modifier), by any provider and is reimbursed at a fixed daily rate. Reimbursement for procedure code H0020 with modifier U1 is limited to a quantity of 30 per 30 days.

Methadone administration (procedure code H0020) submitted without a modifier will be denied.

Non-methadone (e.g., buprenorphine) administration (procedure code H2010) for opioid addiction must be submitted with the following modifiers:

- When non-methadone is administered with supervision in a facility the provider must submit claims using the modifier combination of HG and UA to indicate opioid addiction treatment facility doses or claims will be denied
- When non-methadone is dispensed without supervision as a take home dose the provider must submit claims using the modifier combination of HG and U1 to indicate opioid addiction take home doses or claims will be denied

MAT provided in an ambulatory (outpatient) setting (procedure code H2010 with modifier HG and procedure code H2010 with modifier HF), is limited to once per date of service, except for unsupervised take home doses (U1 modifier), by any provider. Reimbursement for procedure code H2010 with modifiers HG and U1 is limited to a quantity of 30 per 30 days.

Non-methadone administration (procedure code H2010-HG) with modifier U1 for unsupervised take home doses must be submitted on the same claim and with the same date of service as non-methadone administration (procedure code H2010-HG) with modifier UA for supervised facility doses or the take home doses will be denied.

When non-methadone is administered in a facility for a non-opioid treatment, providers must use procedure code H2010 with the HF modifier to indicate non-opioid treatment in a facility.

Non-methadone administration (procedure code H2010) submitted without a modifier will be denied. Physician services may be reimbursed separately using the appropriate evaluation and management procedure codes.

Injectable administration is considered part of MAT and is not reimbursed separately. Procedure code 96372 will be denied when billed for the same date of service by any provider as procedure code H0020 or H2010.

Texas Medicaid implemented mandated rate reductions for certain services. The OFL and static fee schedules include a column titled “Adjusted Fee” to display the individual fees with all mandated percentage reductions applied.

Additional information about rate changes is available on the TMHP website at [www.tmhp.com/pages/topics/rates.aspx](http://www.tmhp.com/pages/topics/rates.aspx).

**Note:** *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

## 8.11 Noncovered Services

The following SUD services are not a benefit of Texas Medicaid:

- Aftercare
- Occupational therapy as part of a residential detoxification or treatment program
- Services for which the client fails to meet the treatment eligibility or authorization criteria, or which are not clinically appropriate in the setting requested based on the client’s medical condition
- Services for tobacco and caffeine addiction
- Detoxification services and MAT for hashish or marijuana addiction
- Detoxification with an opioid when the client has had two or more unsuccessful opioid detoxification episodes (has left the program against medical advice) within a 12-month period (see 42 CFR Section 8)
- Detoxification or substance abuse counseling services provided by electronic means such as telemedicine, email, or telephone

## 8.12 Claims Filing

Claims for SUD services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms. When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills, or itemized statements, are not accepted as claim supplements.

**Referto:** “Section 3: TMHP Electronic Data Interchange (EDI)” (*Vol. 1, General Information*) for information about electronic claims submissions.

Subsection 6.1, “Claims Information” in “Section 6: Claims Filing” (*Vol. 1, General Information*) for general information about claims filing.

Subsection 6.5, “CMS-1500 Paper Claim Filing Instructions” in “Section 6: Claims Filing” (*Vol. 1, General Information*).

## 9 Claims Resources

Refer to the following sections or forms when filing claims:

| Resource   | Location   |
|--|--|
| Acronym Dictionary                                 | “Appendix D: Acronym Dictionary” ( <i>Vol. 1, General Information</i> )  |
| Automated Inquiry System (AIS)                     | Subsection A.10, “TMHP Telephone and Fax Communication” in “Appendix A: State, Federal, and TMHP Contact Information” ( <i>Vol. 1, General Information</i> ) |
| CMS-1500 Paper Claim Filing Instructions           | Subsection 6.5, “CMS-1500 Paper Claim Filing Instructions” in “Section 6: Claims Filing” ( <i>Vol. 1, General Information</i> )                              |
| State, federal, and TMHP contact information       | “Appendix A: State, Federal, and TMHP Contact Information” ( <i>Vol. 1, General Information</i> )  |
| TMHP Electronic Data Interchange (EDI) information | “Section 3: TMHP Electronic Data Interchange (EDI)” ( <i>Vol. 1, General Information</i> )   |

## 10 Contact TMHP

Providers can call the TMHP Contact Center at 1-800-925-9126 from Monday through Friday, 7 a.m. to 7 p.m., Central Time.

## 11 Forms

## 1 General Information

The information in this handbook is intended for dentists, school districts, physicians, physician assistants (PAs), rural health clinics (RHCs), federally qualified health centers (FQHCs), advanced practice registered nurses (APRNs), home health agencies (HHAs), durable medical equipment (DME) suppliers, hospitals, and clinics. The handbook provides information about Texas Medicaid's benefits, policies, and procedures applicable to these providers.

**Important:** *All providers are required to read and comply with "Section 1: Provider Enrollment and Responsibilities" (Vol. 1, General Information). In addition to required compliance with all requirements specific to Texas Medicaid, it is a violation of Texas Medicaid rules when a provider fails to provide health-care services or items to Medicaid clients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 Texas Administrative Code (TAC) §371.1659. Accordingly, in addition to being subject to sanctions for failure to comply with the requirements that are specific to Texas Medicaid, providers can also be subject to Texas Medicaid sanctions for failure, at all times, to deliver health-care items and services to Medicaid clients in full accordance with all applicable licensure and certification requirements including, without limitation, those related to documentation and record maintenance.*

All providers are required to report suspected child abuse or neglect as outlined in subsection 1.6, "Provider Responsibilities" in "Section 1: Provider Enrollment and Responsibilities" (Vol. 1, General Information).

### 1.1 Medical Transportation Program

The Medical Transportation Program (MTP) is funded with federal and state dollars to arrange nonemergency transportation to medical or dental appointments for eligible clients and their attendants.

The Health and Human Services Commission (HHSC) administrative rules govern parental accompaniment of children who receive Medicaid screenings, treatments, and MTP services.

Titles 1 Texas Administrative Code (TAC), Part 15, §380.207 allows parents or guardians to authorize one adult and one alternate adult to accompany their children on MTP rides when the parent or guardian is unable to do so. The parent or guardian is required to designate the other adult on a form prescribed by HHSC in accordance with section §380.207(4).

An adult who is authorized by a parent or guardian may not be a provider or an employee or affiliate of a provider that submits claims for services.

**Referto:** The *Medical Transportation Program Handbook* (Vol. 2, *Provider Handbooks*) for more information.

### 1.2 Rates Reduction

Texas Medicaid implemented mandated rate reductions for certain services. The Online Fee Lookup (OFL) and static fee schedules include a column titled "Adjusted Fee" to display the individual fees with all mandated percentage reductions applied. Additional information about rate changes is available on the Texas Medicaid & Healthcare Partnership (TMHP) website at [www.tmhp.com/pages/topics/rates.aspx](http://www.tmhp.com/pages/topics/rates.aspx).

### 1.3 NP, CNS, PA, and CNM Claims Submitted by a Physician

Physicians will be reimbursed 92 percent of the established reimbursement rate for services provided by an NP, CNS, PA, or CNM if the physician does not make a decision regarding the client's care or treatment on the same date of service as the billable medical visit. Physicians who submit a claim using the physician's own provider identifier for the services that were provided by the NP, CNS, PA, or CNM must submit one of the following modifiers on each claim detail:

- SA—Services were provided by an NP or CNS
- U7—Services were provided by a PA
- SB—Services were provided by a CNM

**Exception:** *The 92 percent reimbursement rate does not apply to laboratory services, radiology services, or injections provided by an NP, CNS, PA, or CNM.*

### 1.4 Payment Window Reimbursement Guidelines for Services Preceding an Inpatient Admission

According to the three-day and one-day payment window reimbursement guidelines, most professional and outpatient diagnostic and nondiagnostic services that are rendered within the designated time frame of an inpatient hospital stay and are related to the inpatient hospital admission will not be reimbursed separately from the inpatient hospital stay if the services are rendered by the hospital or an entity that is wholly owned or operated by the hospital.

These reimbursement guidelines do not apply in the following circumstances:

- Services are rendered at a federally qualified health center (FQHC) or rural health clinic (RHC).
- Services are for a THSteps medical checkup.
- Professional services are rendered in the inpatient hospital setting.
- The hospital and the physician office or other entity are both owned by a third party, such as a health system.
- The hospital is not the sole or 100-percent owner of the entity.

These reimbursement guidelines do not apply for FQHC, RHC, THSteps, and professional services that are rendered in the inpatient hospital setting.

**Referto:** Subsection 3.7.3.8, "Payment Window Reimbursement Guidelines" in the *Inpatient and Outpatient Hospital Services Handbook (Vol. 2, Provider Handbooks)* for additional information about the payment window reimbursement guidelines.

## 2 Medicaid Children's Services Comprehensive Care Program (CCP)

### 2.1 CCP Overview

CCP is an expansion of the Early Periodic Screening, Diagnosis, and Treatment (EPSDT) service as mandated by the Omnibus Budget Reconciliation Act (OBRA) of 1989, which requires all states to provide all medically necessary treatment for correction of physical or mental problems to Texas Health Steps (THSteps)-eligible clients when federal financial participation (FFP) is available, even if the services are not covered under the state's Medicaid plan.

Under the Early Periodic Screening, Diagnostic, and Treatment (EPSDT) regulation, known in Texas as Texas Health Steps (THSteps), Section 1905(r) of the Social Security Act mandates that all Medicaid-eligible beneficiaries who are birth through 20 years of age receive medically necessary services to treat, correct and ameliorate illnesses and conditions identified if the service is covered in the state's Medicaid

plan or is an optional Medicaid service. It is the responsibility of the state to determine medical necessity on a case specific basis. No arbitrary limitations on services are allowed (e.g., one pair of eyeglasses or 10 therapy sessions per year) if determined to be medically necessary.

Services not covered under this section include:

- Experimental or investigational treatment.
- Services or items not generally accepted as effective and/or not within the normal course and duration of treatment.
- Services for the caregiver or provider convenience.

All EPSDT requirements must be adhered to for beneficiaries who receive services under managed care arrangements.

The following CCP provider sections describe the specific requirements of each area of responsibility:

- Subsection 2.5, "Clinician-Directed Care Coordination Services (CCP)" in this handbook.
- Subsection 2.10, "Medical Nutrition Counseling Services (CCP)" in this handbook.
- Subsection 2.8, "Early Childhood Intervention (ECI) Services" in this handbook.
- Subsection 2.11, "Personal Care Services (PCS) (CCP)" in this handbook.
- Subsection 2.16, "Inpatient Psychiatric Hospital or Facility (Freestanding) (CCP)" in this handbook.
- Subsection 2.17, "Inpatient Rehabilitation Facility (Freestanding) (CCP)" in this handbook.

**Referto:** The *Physical Therapy, Occupational Therapy, and Speech Therapy Services Handbook (Vol. 2, Provider Handbooks)* for information about comprehensive outpatient rehabilitation facilities (CORFs) and outpatient rehabilitation facilities (ORFs).

The *Home Health Nursing and Private Duty Nursing Services Handbook (Vol. 2, Provider Handbooks)* for more information about private duty nursing (PDN) services.

The *Physical Therapy, Occupational Therapy, and Speech Therapy Services Handbook (Vol. 2, Provider Handbooks)* for more information about CCP therapy services.

The *Certified Respiratory Care Practitioner (CRCP) Services Handbook (Vol. 2, Provider Handbooks)* for more information about CRCP CCP services.

### 2.1.1 Client Eligibility

The client must be birth through 20 years of age and eligible for THSteps on the date of service. If the client's Your Texas Benefits Medicaid card states "Emergency," "PE," or "QMB," the client is not eligible for CCP benefits.

Clients are ineligible for CCP services beginning the day of their 21st birthday.

### 2.1.2 Enrollment

**Referto:** Subsection 1.6.16, "Children's Services Comprehensive Care Program (CCP)" in "Section 1: Provider Enrollment and Responsibilities" (*Vol. 1, General Information*) for enrollment information.

### 2.1.3 Services, Benefits, and Limitations

Payment is considered for any health-care service that is medically necessary and for which FFP is available. CCP benefits are allowable services not currently covered under Texas Medicaid (e.g., speech-language pathology [SLP] services for nonacute conditions, PDN, prosthetics, orthotics, apnea monitors and some DME, some specific medical nutritional products, medical nutrition services, inpatient

rehabilitation, travel strollers, and special needs car seats). CCP benefits also include expanded coverage of current Texas Medicaid services where services are subject to limitations (e.g., diagnosis restrictions for total parenteral nutrition [TPN] or diagnosis restrictions for attendant care services).

Requests for services that require a prior authorization must be submitted to TMHP. Prior authorization is a condition for reimbursement, not a guarantee of payment. For information about specific benefits, providers can refer to provider-specific sections of this manual.

Payment cannot be made for any service, supply, or equipment for which FFP is not available. The following are some examples:

- Vehicle modification, mechanical, or structural (such as wheelchair lifts).
- Structural changes to homes, domiciles, or other living arrangements.
- Environmental equipment, supplies, or services, such as room dehumidifiers, air conditioners, filters, space heaters, fans, water purification systems, vacuum cleaners, and treatments for dust mites, rodents, and insects.
- Ancillary power sources and other types of standby equipment (except for technology-dependent clients such as those who are ventilator-dependent for more than six hours per day).
- Educational programs, supplies, or equipment (such as a personal computer or software).
- Equine or hippotherapy.
- Exercise equipment, home spas or gyms, toys, therapeutic balls, or tricycles.
- Tennis shoes.
- Respite care (relief to caregivers).
- Aids for daily living (toothbrushes, spoons, reachers, and foot stools).
- Take-home drugs from hospitals (Eligible hospitals may enroll in and bill Vendor Drug Program (VDP). Pharmacies that want to enroll should call 1-512-491-1429.
- Therapy involving any breed of animal.

#### **2.1.4 Prior Authorization and Documentation Requirements**

Prior authorization is a condition for reimbursement; it is not a guarantee of payment. A prior authorization number (PAN) is a TMHP-assigned number establishing that a service or supply has been determined to be medically necessary and for which FFP is available. It is each provider's responsibility to verify the client's eligibility at the time each service is provided. Any service provided while the client is not eligible cannot be reimbursed by TMHP. The responsibility for payment of services is determined by private arrangements made between the provider and client.

Prior authorization of CCP services may be requested in writing by completing the appropriate request form, attaching any necessary supportive documentation, and submitting them by mail, fax, or the electronic portal to the TMHP-CCP department. Prescribing or ordering providers, dispensing providers, clients' responsible adults, and clients may sign prior authorization forms and supporting documentation using electronic or wet signatures.

Providers who fax new prior authorization requests, resubmitted requests, or additional information to complete a request must include:

- A working fax number on the prior authorization form, so that they can receive faxed responses and correspondence from TMHP.
- The last four digits of the client's Medicaid identification number on the fax coversheet.

Prior authorization may also be requested through the TMHP website. (Providers can refer to Subsection 5.5.1, "Prior Authorization Requests Through the TMHP Website" in "Section 5: Fee-for-Service Prior Authorizations" (*Vol. 1, General Information*) for additional information to include mandatory documentation and retention requirements). All requested information on the form must be completed, or the request is returned to the provider. Incomplete forms are not accepted. If prior authorization is granted, the potential service provider (such as the DME supplier, pharmacy, registered nurse (RN), or physical therapist) receives a letter that includes the PAN, the procedures prior authorized, and the length of the authorization. Providers are notified in writing when additional information is needed to process the request for services.

Providers must submit a CCP Prior Authorization Request Form and documentation to support medical necessity to the CCP department before providing services. Providers must submit the CCP Prior Authorization Request Form when requesting a medically necessary service if the service is not addressed in the *Texas Medicaid Provider Procedures Manual* and the client is 20 years of age or younger.

**Important:** *Documentation to support medical necessity of the service, equipment, or supply (such as a prescription, letter, or medical records) must be current, signed, and dated by a physician (M.D. or D.O.) before services are performed. Providers must keep the information on file.*

**Referto:** CCP provider-specific sections for prior authorization requirements of specific services, including the appropriate prior authorization request forms.

#### **2.1.4.1 Incomplete Prior Authorization Requests**

Providers must respond to an incomplete prior authorization request within 14 business days of the request receipt date. Incomplete prior authorization requests are requests that are received by TMHP with missing, incomplete, or illegible information.

Prior to denying an incomplete request, TMHP's Prior Authorization department will attempt to get the correct information from the requesting provider. The Prior Authorization department will make a minimum of three attempts to contact the requesting provider before sending a letter to the client about the status of the request and the need for additional information.

If the necessary information to make a prior authorization determination is not received within 14 business days of the request receipt date, the request will be denied as "incomplete." To ensure timely processing, providers should respond to requests for missing or incomplete information as quickly as possible.

For fee-for-service (FFS) Medicaid requests that require a physician review before a final determination can be made, TMHP's Physician Reviewer will complete the review within three business days of receipt of the completed prior authorization request. An additional three business days will be allowed for requests that require a peer-to-peer review with the client's prescribing physician.

#### **2.1.4.2 Diagnosis Coding**

All providers must obtain the client's medical diagnosis from the physician. This information must be reflected on each claim submitted to TMHP.

#### **2.1.4.3 Drug and Medical Device Approval**

Manufacturers may request to have drug or medical device products added as a CCP benefit by sending the information in writing to the following address:

HHSC  
1100 West 49th Street  
Austin, TX 78756-3179

HHSC reviews the information. Requests for consideration must *not* be sent to TMHP.

#### 2.1.4.4 Physician Signature

The dated signature of the physician (M.D. or D.O.) on a prescription or CCP Authorization Request Form must be current to the service date(s) of the request, i.e., the signature must always be on or before the service start date and no older than three months before the current date(s) of service requested. Physician signatures dated after the service start date on initial requests cannot be accepted as documentation supporting medical necessity for dates of service prior to the signature date. A request for prior authorization must include documentation from the provider to support the medical necessity of the service, equipment, or supply. If services begin as a result of a verbal order before the physician's dated signature, proof of the verbal order must be submitted with the request.

Stamped signatures and dates are not accepted on CCP Authorization Request Forms or prescriptions for CCP prior authorized services, supplies, or equipment. Verbal orders must be cosigned and dated by a physician (M.D. or D.O.) within two weeks, per provider policy. Signatures of chiropractors or doctors of philosophy (PhDs) are not accepted on CCP Authorization Request Forms or prescriptions for CCP prior authorized services.

Certified nurse midwife (CNM), clinical nurse specialist (CNS), nurse practitioner (NP), and PA providers may sign on behalf of the physician for private duty nursing, physical, occupational and speech therapy services when the physician delegates this authority.

Physician prescriptions must be specific to the type of service requested.

## 2.2 Managed Care Organization (MCO) Clients Who Transition to Medicaid Fee-For-Service (FFS)

When clients transition from an MCO to FFS, providers can request that previously approved authorizations for Comprehensive Care Program (CCP) services, occupational therapy (OT), physical therapy (PT), private duty nursing (PDN), and speech therapy (ST) be transferred from the MCO to FFS.

### 2.2.1 Submission Guidelines

TMHP will consider the reimbursement of claims for services that were rendered on or after the MCO's disenrollment date only when the provider submits a request to TMHP to transfer the previously approved authorization for CCP services.

The request to TMHP must be received on or before the end date of the previously approved MCO authorization. Any requests submitted after the MCO's authorization end date will have to meet the regular submission guidelines for the specific service type.

### 2.2.2 Documentation Requirements

All of the requests to transfer the authorizations from the MCO to FFS must include:

- A copy of the previously approved authorization letter.
- All of the documentation that was sent in the original authorization request, including any physician orders that were used to determine the start of care. TMHP will accept the physician orders as the required documentation for the requested services.
- The completed CCP Prior Authorization Request form, Special Medical Prior Authorization (SMPA) form, Home Health Plan of Care, or Texas Medicaid Physical, Occupational, or Speech Therapy (PT, OT, ST) Prior Authorization Form, whichever is applicable for the requested service. The form must include the dates of service and quantities that are being requested from TMHP, which must match the dates of service and quantities that were approved in the original authorization.

**Note:** *It is not necessary to obtain signatures or dates on the forms listed above when submitted to TMHP for the purpose of transferring an authorization from an MCO to FFS Medicaid.*

Authorizations for services transferred from an MCO to FFS Medicaid are subject to retrospective review.

TMHP will verify the client's eligibility, the dates of service, and the quantities requested.

TMHP will process reimbursement claims as follows:

- Claims for services that were rendered before the date on which the transfer request was received will be denied as a late submission, and the provider will be notified of their administrative appeal rights through the Health and Human Services Commission (HHSC).
- Claims for services that were rendered on or after the date of receipt use the required information from the transferred authorization and will be processed as if the request was received in a timely manner.

If a request to transfer an MCO authorization is submitted after the end date of the MCO authorization or the provider does not have an authorization letter from the MCO, TMHP will process the request to transfer the authorization based on established TMHP authorization submission guidelines for CCP services, PDN, OT, PT, and ST.

All new requests for rendered services must meet the documentation requirements.

### 2.2.3 New Services and Extension of Services

For new services that occur after the client's MCO disenrollment change date, the provider is responsible for submitting all TMHP required paperwork and meeting all established submission guidelines for prior authorization.

Requests for the extension of services that occur after the MCO disenrollment change date must include all of the paperwork that is required by TMHP and meet all established submission guidelines for prior authorization.

### 2.2.4 Loss of Eligibility

If an MCO disenrolled a client and the client also loses Medicaid eligibility, providers must anticipate, if and when Medicaid eligibility is restored, that the client will initially be considered a Medicaid FFS client and will have a retroactive eligibility period.

All requests for services that require prior authorization and that occur during the client's retroactive eligibility period, must be submitted to TMHP following the process that is outlined in subsection 5.1.1, "Prior Authorization Requests for Clients with Retroactive Eligibility" in "Section 5: Fee-for-Service Prior Authorizations" (*Vol. 1, General Information*).

If a client is retroactively disenrolled by an MCO, all of the services that are rendered by the provider during this retroactive disenrollment period (specifically from the date on which the client was eligible for FFS to the date of the client's MCO eligibility change) will be denied by TMHP, and the provider will be notified of their administrative appeal rights.

TMHP may consider services for the MCO transition beginning on the date of the client's MCO eligibility change date and going forward. TMHP uses the MCO transition process for the submission of paperwork and the processing of provider requests.

## 2.3 Breastfeeding Support Services

**Referto:** Section 3, "Breastfeeding Support Services" in the *Gynecological, Obstetrics, and Family Planning Title XIX Services Handbook (Vol. 2, Provider Handbooks)* for information about breastfeeding support services.

## 2.4 Certified Respiratory Care Practitioner Services (CCP)

**Referto:** The *Certified Respiratory Care Practitioner (CRCP) Services Handbook (Vol. 2, Provider Handbooks)* for information about CRCP (CCP) services.

## 2.5 Clinician-Directed Care Coordination Services (CCP)

### 2.5.1 Services, Benefits, and Limitations

Clinician-directed (physician, NP, CNS, and PA) care coordination services are a benefit of CCP for eligible clients who are birth through 20 years of age and have special health needs. These services are payable only to the clinician (primary care, specialist, or sub-specialist) who provides the medical home for the client.

To provide a medical home for the client, the primary care clinician directs care coordination together with the client and family. Care coordination consists of managing services and resources for clients with special health needs and their families to maximize the clients' potential and provide them with optimal health care.

Clinician-directed care coordination services (face-to-face and non-face-to-face) must include the following components:

- A written care plan (either a formal document or documentation contained in the client's progress notes) developed and revised by the medical home clinician, in partnership with the client, family, and other agreed-upon contributors. This plan is shared with other providers, agencies, and organizations involved with the care of the client, including educational and other community organizations with permission of the client or family. The care plan must be maintained by the medical home clinician and reviewed every six months or more frequently as necessary for the client's needs.
- Care among multiple providers that are coordinated through the clinician.
- A central record or database maintained by the medical home clinician containing all pertinent medical information, including hospitalizations and specialty care.
- Assistance for the client or family in communicating clinical issues when a client is referred for a consultation or additional care, such as evaluation, interpretation, implementation, and management of the consultant recommendations for the client or family in partnership and collaboration with other providers, the client, or family.

Clinician-directed care coordination services must also include the supervision of the development and revision of the client's emergency medical plan in partnership with the client, the family, and other providers for use by emergency medical services (EMS) personnel, utility service companies, schools, other community agencies, and caregivers.

Face-to-face care coordination services are encompassed within the various levels of evaluation and management (E/M) encounters and prolonged services.

Non-face-to-face clinician-directed care coordination services include:

- Prolonged services (procedure codes 99358 and 99359).
- Medical team conference (procedure code 99367).
- Care plan oversight and supervision, including telephone consultations with a specialist or subspecialist (procedure codes 99339, 99340, 99374, 99375, 99377, 99378, 99379, and 99380).
- Specialist or subspecialist telephone consultations (procedure code 99499 with modifier U9).

Non-face-to-face clinician-directed care coordination services are not considered case management by Texas Medicaid.

Specifically, non-face-to-face medical home clinician oversight and supervision of the development or revision of a client's care plan may include the following activities, which do not have to be contiguous:

- Review of charts, reports, treatment plans, and lab or study results, except for the initial interpretation or review of lab or study results ordered during, or associated with, a face-to-face encounter.
- Telephone calls with other Medicaid-enrolled health-care professionals (not employed in the same practice) involved in the care of the client.
- Telephone or face-to-face discussions with a pharmacist about pharmacological therapies (not just ordering a prescription).
- Medical decision-making.
- Activities to coordinate services, if the coordination activities require the skill of a clinician.
- Documenting the services provided, which includes writing a note in the client's chart describing the services provided, decision-making performed, and the amount of time spent performing the countable services, including the start and stop times and time spent by the physician working on the care plan after the nurse has conveyed pertinent information from agencies and facilities to the physician.

The following activities are not covered as non-face-to-face clinician supervision of the development or revision of the client's care plan (care plan oversight services):

- Time that the staff spends getting or filing charts, calling home health agencies or clients, and similar administrative actions.
- Clinician telephone calls to client or family, except when necessary to discuss changes in client's care plan.
- Clinician time spent telephoning prescriptions to a pharmacist (does not require clinician work and does not require a clinician to perform).
- Clinician time getting or filing the chart, dialing the telephone, or time on hold (does not require clinician work and does not meaningfully contribute to the treatment of the illness or injury).
- Travel time.
- Time spent preparing claims and for claims processing.
- Initial interpretation or review of lab or study results that were ordered during, or associated with, a face-to-face encounter.
- Services included as part of other E/M services.
- Consultations with health professionals not involved in the client's case.

### **2.5.1.1 Non-Face-to-Face Services**

#### **2.5.1.1.1 Non-Face-to-Face Medical Conferences**

Procedure code 99367 must be used when billing for medical team conferences.

#### **2.5.1.1.2 Non-Face-to-Face Clinician Supervision of a Home Health Client**

Procedure code 99374 or 99375 must be used when billing for services requiring interaction with a home health agency.

#### **2.5.1.1.3 Non-Face-to-Face Clinician Supervision of a Hospice Client**

Procedure code 99377 or 99378 must be used when billing for services requiring interaction with a hospice.

**2.5.1.1.4 Non-Face-to-Face Clinician Supervision of a Nursing Facility Client**

Procedure code 99379 or 99380 must be used when billing for services requiring interaction with a nursing facility.

**2.5.1.1.5 Other Non-Face-to-Face Supervision**

Procedure code 99339 or 99340 must be used when billing for services requiring interaction with an independently-enrolled nurse or other provider (e.g., not a home health agency, nursing facility, or hospice provider).

**2.5.1.1.6 Non-Face-to-Face Prolonged Services**

Procedure code 99358 or 99359 must be used when billing for prolonged services without face-to-face contact. This service is to be reported in addition to other clinician services, including E/M services at any level, or health-care professionals outside of a home health agency, hospice, or nursing facility.

Non-face-to-face prolonged services are limited to a maximum of 90 minutes once per client by the same provider unless one of the following significant changes in the client's clinical condition occurs:

- The client will soon be, or has recently been, discharged from a prolonged and complicated hospitalization that required coordination of complex care with multiple providers in order for the client to be adequately cared for in the home.
- The client has experienced recent trauma resulting in new medical complications that require complex interdisciplinary care.
- The client has a new diagnosis of a medically complex condition requiring additional interdisciplinary care with additional specialists.

Procedure code 99359 must be billed on the same date of service as procedure code 99358. Additional prolonged non-face-to-face services may be authorized if the provider submits supporting documentation for authorization.

Procedure code 99358 must be used to report the first hour of prolonged services and must be billed with the appropriate physician E/M procedure code listed in the following table. Prolonged services of less than 30 minutes are considered part of the physician's E/M service being provided.

| Procedure Codes |       |       |       |       |       |       |       |       |       |
|-----------------|-------|-------|-------|-------|-------|-------|-------|-------|-------|
| 99201           | 99202 | 99203 | 99204 | 99205 | 99211 | 99212 | 99213 | 99214 | 99215 |
| 99221           | 99222 | 99223 | 99231 | 99232 | 99233 | 99241 | 99242 | 99243 | 99244 |
| 99245           | 99251 | 99252 | 99253 | 99254 | 99255 | 99304 | 99305 | 99306 | 99307 |
| 99308           | 99309 | 99310 | 99318 | 99324 | 99325 | 99326 | 99327 | 99328 | 99334 |
| 99335           | 99336 | 99337 | 99341 | 99342 | 99343 | 99344 | 99345 | 99347 | 99348 |
| 99349           | 99350 |       |       |       |       |       |       |       |       |

Procedure code 99359 is used to report an additional 15 to 30 minutes of prolonged non-face-to-face services beyond the first hour. Prolonged services of less than 15 minutes beyond the first hour are considered part of the first hour.

Non-face-to-face prolonged services procedure codes 99358 and 99359 may be used when billing for completion of paperwork required by a judge to determine guardianship of a client. Required paperwork may include a certified medical examination form for clients who are birth through 20 years of age that are eligible for the Texas Health Steps program on the date of service.

**2.5.1.1.7 Non-Face-to-Face Specialist or Subspecialist Telephone Consultation**

Telephone consultations are limited to two every six months to the same provider and will not be reimbursed to the clinician providing the medical home.

The clinician providing the medical home must have an authorization on file for one of the following procedure codes before the specialist or subspecialist can be reimbursed:

| Procedure Codes |       |       |       |       |       |       |       |       |
|-----------------|-------|-------|-------|-------|-------|-------|-------|-------|
| 99339           | 99340 | 99358 | 99374 | 99375 | 99377 | 99378 | 99379 | 99380 |

Because the specialist or sub-specialists cannot be reimbursed without the medical home clinician's current prior authorization information, the clinician providing the medical home should provide their information to the specialist or subspecialist.

The specialist or subspecialist will not be separately reimbursed for the telephone consultation if he or she is the medical home clinician because care plan oversight by the medical home provider includes telephone consultations. The referring provider identifier and prior authorization number must be submitted on the claim.

#### 2.5.1.1.8 General Requirements for Non-Face-to-Face Clinician-Directed Care Coordination Services

These services may be reimbursed for the medical home clinician time involved in this coordination. The clinician billing the services must personally perform the services. Care coordination services delegated to, or performed by others, do not count towards care coordination reimbursement. Care coordination provided during post-surgical care is a benefit if the care is unrelated to the surgery.

#### 2.5.1.1.9 Non-Face-to-Face Care Plan Oversight

The medical home clinician who bills for the care plan oversight must be the clinician who signed the plan of care (POC) in the home or domiciliary (procedure codes 99339 and 99340), home health agency (procedure codes 99374 and 99375), hospice (procedure codes 99377 and 99378), or nursing facility (procedure codes 99379 and 99380).

Procedure code 99339 is denied when billed on the same date of service by the same provider as procedure code 99340.

Procedure code 99374 is denied when billed on the same date of service by the same provider as procedure code 99375.

Procedure code 99377 is denied when billed on the same date of service by the same provider as procedure code 99378.

Procedure code 99379 is denied when billed on the same date of service by the same provider as procedure code 99380.

Care plan oversight services may be reimbursed for the clinician time involved in this coordination. The clinician billing the services must personally perform the services. Care coordination services delegated to or performed by others do not count towards care coordination reimbursement.

Only one clinician-directed care plan oversight service (procedure codes 99339, 99340, 99374, 99375, 99377, 99378, 99379 or 99380) will be reimbursed per client, per calendar month to any provider.

The medical home clinician may not have a significant financial or contractual relationship with the home health agency as defined in 42 Code of Federal Regulations (CFR) §424.

The medical home clinician may not be the medical director or employee of the hospice and may not furnish services under arrangements with the hospice, including volunteering.

#### 2.5.1.1.10 Medical Team Conference

One medical team conference (procedure code 99367) may be reimbursed once every six months when the medical home coordinating clinician attests that they are providing the medical home for the client. The coordinating clinician may be the client's primary care provider or a specialist.

Additional medical team conferences may be considered with documentation of a change in the client's medical home.

The medical team conference time must be documented in the client's record.

### **2.5.1.2 Face-to-Face Services**

#### **2.5.1.2.1 General Requirements for Face-to-Face Clinician-Directed Care Coordination Services**

Providers must use the most appropriate face-to-face E/M procedure codes to bill for care coordination services.

- When counseling or care coordination requires more than 50 percent of the client or family encounter (face-to-face time in the office or other outpatient setting, or floor/unit time in the hospital), then time may be considered the key or controlling factor to qualifying for a particular level of E/M service.
- Counseling is a discussion with the client or family concerning diagnostic studies or results, prognosis, risks and benefits, management options, importance of adhering to the treatment regimen, and client and family education.

Modifiers must be used as appropriate for billing.

Any face-to-face inpatient or outpatient E/M procedure code that is a benefit of Texas Medicaid may be billed on the same day as the following non-face-to-face clinician-directed care coordination procedure codes when the procedure requires significant, separately-identifiable E/M services by the same physician on the same day.

| Procedure Codes |       |       |       |       |       |       |       |       |       |
|-----------------|-------|-------|-------|-------|-------|-------|-------|-------|-------|
| 99339           | 99340 | 99358 | 99359 | 99367 | 99374 | 99375 | 99377 | 99378 | 99379 |
| 99380           |       |       |       |       |       |       |       |       |       |

### **2.5.2 Prior Authorization and Documentation Requirements**

Non-face-to-face clinician-directed care coordination services provided by the medical home require prior authorization. Providers must submit a request for prior authorization within seven business days of the date of service. Prior authorization is limited to a maximum of six months. Prior authorization is required to recertify the client for additional six-month periods and requires submission of a new request with documentation supporting medical necessity for ongoing services.

Prior authorization for initial non-face-to-face clinician-directed care coordination requires documentation of at least one covered face-to-face inpatient or outpatient E/M visit by the medical home clinician directing the care coordination during the six months preceding the provision of the first non-face-to-face care coordination service.

Prior authorization for subsequent non-face-to-face clinician-directed care coordination services requires at least one covered face-to-face inpatient or outpatient E/M visit by the medical home clinician directing the care coordination during the previous 12 months or more frequently as indicated by the client's condition.

Prior authorization of CCP services may be requested in writing by completing a CCP Prior Authorization Request Form, attaching the necessary supportive documentation as detailed below, and mailing or faxing it to the TMHP-CCP department:

Texas Medicaid & Healthcare Partnership  
Comprehensive Care Program  
PO Box 200735  
Austin, TX 78720-0735  
Fax: 1-512-514-4212

For prior authorization to be considered, clients must require complex and multidisciplinary care modalities involving regular clinician development or revision of care plans, review of subsequent reports of client status, and review of related laboratory and other studies:

- *Medically complex.* The health care needed by a Medicaid client achieves the designation of medically complex when the approved POC necessitates a clinical professional practicing within the scope of his or her license and in the context of a medical home to coordinate ongoing treatment to ensure its safe and effective delivery. The diagnosis must be covered under Texas Medicaid and be characterized by one of the following:
  - Significant and interrelated disease processes that involve more than one organ system (including behavioral health diagnoses) and require the services of two or more licensed clinical professionals, specialists, or subspecialists.
  - Significant physical or functional limitations that require the services of two or more therapeutic or ancillary disciplines, including, but not limited to, nursing, nutrition, OT, PT, ST, orthotics, and prosthetics.
  - Significant physical, developmental, or behavioral impairment that requires the integration of two or more medical or community-based providers, including, but not limited to, educational, social, and developmental professionals, that impact the care of the client.
- *Multidisciplinary Care.* Care is multidisciplinary when the medically necessary covered services of an approved POC include the need to coordinate the assessment, treatment, or services of a Medicaid-enrolled clinical provider with two or more additional medical, educational, social, developmental, or other professionals impacting the health care of the client.

Prior authorization is effective for care coordination services provided over a period of six months. Medical home clinicians must submit a revised care plan for subsequent periods of prior authorization.

Documentation of the following components must be submitted with the prior authorization form to obtain an initial authorization or renewal:

- A current medical summary, encompassing all disciplines and all aspects of the client's care, and containing key information about the client's health, including conditions, complexity, medications, allergies, past surgical procedures, and so on.
- A current list of the main concerns, issues, and problems as well as key strengths and assets and the related current clinical information including a list of all diagnosis codes.
- Planned action steps and interventions to address the concerns and to sustain and build strengths, with the expected outcomes.
- Disciplines involved with the client's care and how the multiple disciplines will work or are working together to meet the client's need. Providers must explain how the multidisciplinary approach will or do benefit the client's needs.
- Short-term and long-term goals with timeframes.

The supporting documentation can be any of the following:

- A formal written care plan
- Progress note detailing the care coordination planning
- A letter of medical necessity detailing the care plan oversight and care coordination

Clinician-directed care coordination services must be documented in the client's medical record. Documentation must support the services being billed and must include a record of the medical home clinician's time spent performing specific care coordination activities, including start and stop times. The documentation must also include a formal care plan and an emergency services plan. The supporting documentation maintained in the client's medical records must be dated and include the following components and requirements:

- Problem list
- Interventions
- Short-term and long-term goals
- Responsible parties

Client medical records are subject to retrospective review.

Documentation for care coordination provided during post-surgical care must clearly indicate the care coordination is unrelated to the surgery.

#### **2.5.2.1 Documentation Requirements for the Medical Home Clinician for a Telephone Consult with a Specialist**

The clinician providing the medical home must maintain the following documentation in the client's medical record:

- Start and stop times showing that the consultation was at least 15 minutes
- The reason for the call
- The specialist's or subspecialist's medical opinion
- The recommended treatment or laboratory services
- The name of the specialist or subspecialist

#### **2.5.2.2 Documentation Requirements for the Specialist or Subspecialist for a Telephone Consult with the Medical Home Clinician**

Specialists or subspecialists must complete and retain the Specialist or Subspecialist Telephone Consultation Form for Non-Face-to-Face Clinician Directed Care Coordination Services-CCP. These records are subject to retrospective review. The supporting documentation must include, but is not limited to the following:

- The client's name, date of birth, and Medicaid identification number
- Start and stop times indicating the consultation lasted at least 15 minutes
- The reason for the call
- The specialist's or subspecialist's medical opinion
- The recommended treatment or laboratory services
- The name and telephone number of the clinician providing the medical home
- Provider information for the specialist's or subspecialist's and the clinician providing the medical home

### 2.5.3 Claims Information

Claims for clinician-care coordination services must be submitted to TMHP in an approved electronic claims format or on a CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

**Referto:** “Section 3: TMHP Electronic Data Interchange (EDI)” (*Vol. 1, General Information*) for information on electronic claims submissions.

“Section 6: Claims Filing” (*Vol. 1, General Information*) for general information about claims filing.

Subsection 6.5, “CMS-1500 Paper Claim Filing Instructions” in “Section 6: Claims Filing” (*Vol. 1, General Information*) for instructions on completing paper claims.

### 2.5.4 Reimbursement

Clinician-directed care coordination services are reimbursed in accordance with 1 TAC §355.8441.

## 2.6 Comprehensive Outpatient Rehabilitation Facilities (CORFs) and Outpatient Rehabilitation Facilities (ORFs)

**Referto:** *The Physical Therapy, Occupational Therapy, and Speech Therapy Services Handbook (Vol. 2, Provider Handbooks)* for more information about CCP therapy services.

## 2.7 Durable Medical Equipment (DME) Supplier (CCP)

### 2.7.1 Enrollment

To be eligible to participate in CCP, providers of DME (including customized or non-basic medical equipment) and expendable medical supplies must be enrolled in Medicare.

Home health agencies that provide DME and supplies should refer to subsection 2.1, “Enrollment” in the *Durable Medical Equipment, Medical Supplies, and Nutritional Products Handbook (Vol. 2, Provider Handbooks)*.

#### 2.7.1.1 Pharmacies (CCP)

Pharmacy providers are eligible to participate in CCP. To be enrolled in CCP, the pharmacy must also be enrolled in VDP.

This enrollment allows pharmacy providers to bill for those medications and supplies payable by Medicaid for clients who are birth through 20 years of age but *not* covered by VDP (e.g., some over-the-counter drugs, some nutritional products, diapers, and disposable or expendable medical supplies). Pharmacy providers must continue to bill HHSC for drugs covered under VDP.

To locate a pharmacy CCP provider, use the Online Provider Lookup (OPL) at <http://opl.tmhp.com/ProviderManager/AdvSearch.aspx>.

**Referto:** Subsection 2.1.2, “Enrollment” in this handbook for more information about CCP enrollment procedures.

“Appendix B: Vendor Drug Program” (*Vol. 1, General Information*)

Section 2, “Texas Medicaid (Title XIX) Home Health Services” in the *Durable Medical Equipment, Medical Supplies, and Nutritional Products Handbook (Vol. 2, Provider Handbooks)* for details about coverage through Texas Medicaid (Title XIX) Home Health Services.

### **2.7.2 Services, Benefits, and Limitations**

DME is defined as medical equipment that is manufactured to withstand repeated use, ordered by a physician for use in the home, and required to correct or ameliorate the client's disability, condition, or illness.

Because there is no single authority (such as a federal agency) that confers the official status of "DME" on any device or product, HHSC retains the right to make such determinations with regard to DME covered by Texas Medicaid. DME covered by Texas Medicaid must either have a well-established history of efficacy or, in the case of novel or unique equipment, valid peer-reviewed evidence that the equipment serves a medical purpose, can withstand repeated use, and is appropriate and safe for use in the home.

Requested DME may be a benefit of Texas Medicaid when it meets the Medicaid definition of DME.

The majority of DME and expendable medical supplies are covered through Texas Medicaid (Title XIX) Home Health Services.

If a service cannot be provided through Texas Medicaid (Title XIX) Home Health Services, the service may be covered through CCP if it is determined to be medically necessary for the client and if FFP is available.

If a DME provider is unable to deliver a piece of equipment, the provider must allow the client the option of obtaining the DME or expendable medical supplies from another provider.

Periodic rental payments are made only for the lesser of the following:

- The period of time the equipment is medically necessary
- The total monthly rental payments equal the reasonable purchase cost for the DME

DME will be purchased when a purchase is determined to be medically necessary and more cost effective than leasing the device with supplies. Only new, unused equipment will be purchased. When a provider is replacing a piece of rental DME with purchased DME, the provider must supply a new piece of DME to the client.

Purchase is justified when the estimated duration of need multiplied by the rental payments would exceed the reasonable purchase cost of the equipment or it is otherwise more practical to purchase the equipment.

DME repair will be considered based on the age of the item and cost to repair it. A request for repair of DME must include an itemized estimated cost list from the vendor or DME provider who will make the repairs.

Rental equipment may be provided to replace purchased medical equipment for the period of time it will take to make necessary repairs to purchased medical equipment.

All adjustments and modifications that are made within the first six months after delivery are considered part of the purchase price. However, DME that has been delivered to the client's home and then found to be inappropriate for the client's condition will not be eligible for an upgrade within the first six months following purchase unless there had been a significant change in the client's condition, as documented by the physician familiar with the client.

Rental reimbursement to the same provider cannot exceed the purchase price, except as addressed in specific policies.

All DME purchased for a client becomes the Medicaid client's property upon receipt of the item. Delivered equipment will become the Medicaid client's property in the following instances even though it will not be prior authorized or reimbursed:

- Equipment delivered to the client before the physician signature date on the CCP Prior Authorization Request Form or prescription.

- Equipment delivered more than three business days before obtaining prior authorization from TMHP that meets the criteria for purchase.

As long as the client is eligible for CCP services on the date the custom equipment is ordered from the manufacturer, the provider must use the order date as the date of service since custom equipment is client specific and cannot be used for another client.

To establish medical necessity of the equipment for the client, the provider must have on file in the client's records current documentation that is signed by a physician (e.g., a signed and dated prescription) showing the following:

- A diagnosis relative to each item requested.
- The specific type of supply needed.
- The length of time needed.

### **2.7.2.1 Purchase Versus Equipment Rental**

When providing equipment not prior authorized under Texas Medicaid (Title XIX) Home Health Services for CCP clients with long-term or chronic conditions, it is more cost-effective, in many cases, to purchase the equipment rather than rent it. The client's condition and length of time the equipment will be used must be carefully assessed before prior authorization for rental or purchase is requested. CCP nurses determine whether the equipment will be rented, purchased, repaired, or modified based on the client's needs, the duration of use, and the age of the equipment.

CCP does not pay for the purchase of certain types of equipment; consequently, long-term rental may be considered. Most other equipment is rented for only four months initially. During this time, the provider must assess whether the equipment should be purchased before the rental lapses. Rentals and purchases must be prior authorized.

After prior authorization is obtained for purchase, new equipment must be provided and the rental discontinued. CCP does not purchase used equipment.

Providers of customized or nonbasic medical equipment also must be enrolled as Medicare DME providers.

### **2.7.3 Prior Authorization and Documentation Requirements**

Providers can request prior authorization for most DME through the TMHP website. Providers that make written requests for prior authorization must complete the [CCP Prior Authorization Request Form](#) on the TMHP website at [www.tmhp.com](http://www.tmhp.com), and they must attach the documentation necessary to support the request. The documentation must include a current prescription that has been signed and dated by a physician (M.D. or D.O.), and it must be mailed or faxed to TMHP with the prior authorization request. For specific policy information not contained in this manual related to the purchase of DME, providers can call TMHP-CCP Customer Service at 1-800-846-7470.

A completed CCP Prior Authorization Request Form prescribing the DME or medical supplies must be signed and dated by the prescribing physician familiar with the client before requesting prior authorization. The completed CCP Prior Authorization Request Form must be maintained by the requesting provider and the prescribing physician. The original signature copy must be kept in the physician's medical record for the client.

To complete the prior authorization process by paper, the DME provider must fax or mail the completed CCP Prior Authorization Request Form to the CCP prior authorization unit and retain a copy of the signed and dated CCP form in the client's medical record at the provider's place of business.

To complete the prior authorization process electronically, the DME provider must complete the prior authorization requirements through any approved electronic methods and retain a copy of the signed and dated CCP Prior Authorization Request form in the client's medical record at the provider's place of business.

To avoid unnecessary denials, the physician must provide correct and complete information, including accurate documentation of the medical necessity for the equipment and services requested. The physician must maintain documentation of medical necessity in the client's medical record. The requesting provider may be asked for additional information to clarify or complete a request.

Retrospective review may be performed to ensure documentation supports the medical necessity of the requested equipment or supplies.

A determination as to whether the equipment will be rented, purchased, repaired, or modified will be made by HHSC or its designee based on the client's needs, duration of use, and age of the equipment.

Equipment that has been purchased may be considered for replacement when loss or irreparable damage has occurred outside the warranty terms, conditions, and limitations. A copy of the police or fire report, when appropriate, and the measures to be taken to prevent reoccurrence must be submitted with the prior authorization request.

A request for prior authorization must include documentation from the provider to support the medical necessity of the service, equipment, or expendable medical supply. Physician prescriptions must be specific to the item requested. For example, if the provider is requesting a customized wheelchair, the prescription must request a customized wheelchair, not just a wheelchair. Providers must submit a CCP Prior Authorization Request Form and documentation to support medical necessity to the CCP department *before* providing services. Providers must obtain prior authorization within three business days of the requested date of service.

**Referto:** Section 2.2.29, "Procedure Codes That Do Not Require Prior Authorization" in the *Durable Medical Equipment, Medical Supplies, and Nutritional Products Handbook (Vol. 2, Provider Handbooks)* for details about specific procedure codes that do not require prior authorization through Texas Medicaid (Title XIX) Home Health Services.

### **2.7.3.1 Equipment Accessories**

CCP may consider prior authorization of equipment accessories, such as ventilator and oxygen trays and positioning inserts, when supporting documentation takes into account all the client's needs, capabilities, and physical or mental status.

### **2.7.3.2 Equipment Modifications**

A modification is the replacement of a component due to changes in the client's condition, not the replacement of a component that is no longer functioning.

DME that has been delivered to the client's home and then found to be inappropriate for the client's condition will not be eligible for an upgrade within the first six months following purchase. All modifications that are made within the first six months after delivery are considered part of the purchase price.

However, CCP may consider prior authorization of modifications to custom equipment if a change occurs in the client's needs, capabilities, or physical or mental status that cannot be anticipated. Documentation must include:

- All projected changes in the client's needs.
- The age of the current equipment, and the cost of purchasing new equipment versus modifying current equipment.

### **2.7.3.3 Equipment Adjustments**

Adjustments do not require supplies.

Labor for adjustments within the first six months after delivery are not prior authorized because these are considered part of the purchase price.

Up to one hour of labor for adjustments may be considered for reimbursement with prior authorization through CCP as needed after the first six months. Providers must use procedure code K0739 for adjustments.

#### **2.7.3.4 Repair to Client-Owned Equipment**

Repairs to client-owned equipment may be prior authorized as needed with documentation of medical necessity. Technician fees are considered part of the cost of the repair.

HHSC or its designee reserves the right to request additional documentation about the need for repairs when there is evidence of abuse or neglect to equipment by the client, client's family, or caregiver. When there is documented proof of abuse or neglect, requests for repairs will not be prior authorized.

Providers are responsible for maintaining documentation in the client's medical record that specifies the repairs and supporting medical necessity.

Documentation must include all of the following:

- The date of purchase
- The serial number of the current equipment (as applicable)
- The cause of the damage or need for repairs
- What steps the client or caregiver will take to prevent further damage if repairs are due to an accident
- When requested, the cost of purchasing new equipment as opposed to repairing current equipment

Temporary replacement of client-owned respiratory equipment during the repair may be considered for prior authorization for one month using procedure code K0462.

Labor for repair of client-owned respiratory equipment may be considered for prior authorization using procedure code K0739 up to a maximum of two hours per day (maximum quantity of eight units).

Routine maintenance of rental equipment is the provider's responsibility.

#### **2.7.3.5 DME Certification and Receipt Form**

The DME Certification and Receipt Form is required and must be completed before reimbursement can be made for any DME delivered to a client. The certification form must include the name of the item, the date the client received the DME, and the signatures of the provider and the client or primary caregiver.

The DME provider must maintain the signed and dated form in the client's medical record.

DME claims and appeals that meet or exceed a billed amount of \$2,500 for the same date of service will suspend for verification of client receipt of the DME item(s). The DME Certification and Receipt Form must be faxed to 1-512-506-6615. If the claim is submitted without the form or if receipt of the DME item(s) cannot be verified, the DME item(s) on the claim will be denied. TMHP may contact the client that received the product for verification of services rendered.

**Referto:** [DME Certification and Receipt Form](#) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

#### **2.7.3.6 \* Documentation of Supply Delivery**

Providers must retain individual delivery slips or corresponding invoices for each date of service to document the date of delivery for all supplies provided to a client. Providers must disclose this documentation to HHSC or its designee upon request. These records and claims must be retained for a minimum of five years from the date of service (DOS) or until all audit questions, appeals, hearings, investigations, or court cases are resolved. The DOS is the date on which supplies are delivered to the client or shipped by a carrier to the client as evidenced by the dated tracking document attached to the corresponding invoice for that date.

Documentation of delivery must include one of the following:

- Delivery slip or invoice signed and dated by the client or caregiver.
- A dated carrier tracking document that includes the shipping date and delivery date must be printed from the carrier's website as confirmation that the supplies were shipped and delivered. The dated carrier tracking document must be attached to the delivery slip or corresponding invoice.

The dated delivery slip or invoice must include the client's full name and address to where supplies were delivered, and an itemized list of goods that includes the descriptions and numerical quantities of the supplies delivered to the client, and the corresponding tracking number from the carrier. This document could also include prices, shipping weights, shipping charges, and any other description.

All claims submitted for DME supplies must include the same quantities or units that are documented on the delivery slip or corresponding invoice and on the CCP Prior Authorization Request form. They must reflect the number of units by which each product is measured. For example, diapers are measured as individual units. If one package of 300 diapers is delivered, the delivery slip or invoice and the claim must reflect that 300 diapers were delivered and not that one package was delivered. Diaper wipes are measured as boxes or packages. If one box of 200 wipes is delivered, the delivery slip or invoice and the claim must reflect that one box was delivered and not that 200 individual wipes were delivered. There must be one dated delivery slip or invoice for each claim submitted for each patient. All claims submitted for DME supplies must reflect **either one business day before or one business day after the date of service** as **documented on** the delivery slip or corresponding invoice and the same timeframe covered by the CCP Prior Authorization Request form. The DME Certification and Receipt Form is still required for all equipment delivered.

### 2.7.3.7 Specific CCP Policies

Most DME and expendable medical supplies are available under Texas Medicaid (Title XIX) Home Health Services. If the service is not available under Texas Medicaid (Title XIX) Home Health Services, CCP may cover the requested service, if the client is CCP-eligible and the service is medically necessary, requested by a physician, and for which FFP is available.

**Referto:** [DME Certification and Receipt Form](#) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

*The Durable Medical Equipment, Medical Supplies, and Nutritional Products Handbook (Vol. 2, Provider Handbooks)* for DME services.

## 2.8 Early Childhood Intervention (ECI) Services

The Texas Health and Human Services (HHS) ECI program is available statewide to all children who have been determined to be eligible for ECI services by ECI contractors. To be eligible for ECI services, children must be 35 months of age and younger (i.e., before their third birthday) and have disabilities or developmental delays as defined by ECI criteria. Texas Medicaid covers the ECI claims for children who are Medicaid clients.

All health-care professionals are required by federal and state regulations to refer children who are 35 months of age and younger (i.e., before their third birthday) to the Texas HHS ECI program as soon as possible, but no longer than 7 days after identifying a disability or suspected delay in development. Referrals can be based on professional judgment or a family's concern. A medical diagnosis or a confirmed developmental delay is not required for referrals.

To refer families for services, providers can call their local ECI program, or they can call the HHS Inquiry Line at 1-877-787-8999. For additional ECI information, providers can visit the [Early Childhood Intervention Services page](#) of the HHS website at <https://hhs.texas.gov>. Persons who are deaf or hard of hearing may use the relay option of their choice or dial 7-1-1 to connect with Relay Texas.

### 2.8.1 Enrollment

The Texas HHS ECI program contracts with local non-profit entities to take referrals, determine clients' eligibility, and provide services to ECI-eligible children and their families. The non-profit entities must contract with the Texas HHS ECI program and must comply with all of the applicable federal and state laws and regulations that govern the Texas HHS ECI program.

ECI contractors are eligible to enroll as Texas Medicaid ECI providers to render services to eligible Medicaid clients. After providers meet the criteria of the Texas HHS ECI program, they must complete a Medicaid application.

To participate in Texas Medicaid, an ECI contractor must submit a copy of the current contract award from the Texas HHS ECI program.

**Referto:** Subsection 1.1, "Provider Enrollment and Reenrollment" in "Section 1: Provider Enrollment and Responsibilities" (*Vol. 1, General Information*) for more information about the procedures for enrolling as a Medicaid provider.

### 2.8.2 Services, Benefits, and Limitations

Prior authorization is not required for evaluations, re-evaluations, seating assessments, therapy services, SST, and TCM. The IFSP Services Pages identify the amount, duration, and scope for the provision of SRS treatment services and serves as the prior authorization for ECI services. The IFSP is retained in the client's record and is subject to retrospective review.

ECI services include targeted case management (TCM) and specialized rehabilitative services (SRS), which includes occupational therapy (OT), physical therapy (PT), speech therapy (ST), and specialized skills training (SST).

ECI SRS services may be provided in the following places of service (POS): office/facility (POS 1), home (POS 2), outpatient (POS 5 applicable only to ECI services rendered in a Prescribed Pediatric Extended Care Center [PPECC]), and other locations (POS 9). In addition to these places of service, TCM may be provided in inpatient hospital (POS 3) and outpatient hospital (POS 5).

ECI services of OT, PT, ST, SST and TCM are provided to Medicaid-eligible clients who are birth through 35 months of age and have a documented developmental delay or a medically diagnosed condition as established by HHSC (40 TAC, Part 2, Chapter 108), or an auditory or visual impairment as defined by the Texas Education Agency (19 TAC §89.1040).

To the maximum extent appropriate, ECI services are delivered in the client's natural environment, as defined in 40 TAC, Part 2, Chapter 108, and are family-centered.

The interdisciplinary team must document ECI eligibility decisions in accordance with 40 TAC, Part 2, Chapter 108. The eligibility statement must be in the child's record and updated when eligibility changes or is re-determined.

All documentation of ECI services, including the plan of care specified in the Individualized Family Service Plan (IFSP) must be retained in the client's record and available upon request. The IFSP is a written plan of care for providing early childhood intervention services and other medical, health, and social services to an eligible child and the child's family when necessary to enhance the child's development.

ECI service providers are employees and subcontractors of non-profit entities that have contracts with the State of Texas for the provision of Individuals with Disabilities Education Act (IDEA) Part C Early Childhood Intervention services.

Medically necessary services may be provided by other Medicaid-enrolled providers in addition to the services provided by the ECI contractor. For example, the family may choose to receive speech therapy from the ECI contractor and physical therapy from a home health provider. Or, outpatient clinic personnel may have expertise that will enhance the services of the ECI provider resulting in ECI providers and other Medicaid-enrolled providers providing services within the same discipline.

Only the services provided to ECI enrolled children by ECI contracted entities must comply with the Medicaid medical guidelines for ECI services.

Services provided by other Medicaid-enrolled providers, including other providers of physical, occupational, and speech therapy, must comply with Medicaid medical guidelines that apply to those provider types (e.g., outpatient rehabilitation facility, home health agency).

### **2.8.2.1 Physical, Occupational, and Speech Therapies and Specialized Skills Training (PT, OT, ST, and SST)**

ECI services use techniques by which the ECI service provider engages the family or caregiver in activities to meet the developmental needs of the child.

ECI services are performed in accordance with 40 TAC, Part 2, Chapter 108.

To the maximum extent possible, ECI services are provided in the client's natural environment, as defined in 34 CFR Part 303, unless the IFSP team determines the identified outcomes cannot be achieved in a natural environment. Natural environments are defined as settings that are natural or typical for the same-aged infant or toddler without a disability, and may include the home and community settings such as daycare, playgrounds, stores, and restaurants.

Justification for providing services in other settings (e.g., office, clinic, Prescribed Pediatric Extended Care Center (PPECC)) must be documented in the client's record.

PT, OT, ST, and SST are benefits for clients with an acute or a chronic condition when documented on the IFSP. Documentation on the IFSP is evidence that services are developed and recommended by the child's interdisciplinary team, including the parents and a licensed practitioner of the healing arts (as defined in 40 TAC, Part 2, Chapter 108).

PT, OT, ST, and SST must be performed and delivered as identified in the IFSP.

Missed visits may be rescheduled within the authorization period as long as the total number of visits or units provided does not exceed the amount authorized in the client's IFSP. The ECI contractor must document the reason for visits outside of the weekly or monthly frequency in the client's record.

A single identified need and treatment goal (outcome on the IFSP) may be addressed by more than one discipline.

More than one discipline can evaluate a child at the same time to facilitate compliance with the federal requirement for multidisciplinary evaluation (34 CFR, Part 303).

A client may receive a combination of PT, OT, ST, or SST with any other IFSP service when the IFSP indicates necessity for co-visits or co-treatment (i.e., two or more services to be provided at the same time).

PT, OT, ST, and SST may be delivered to a client individually or in a group setting according to 40 TAC, Part 2, Chapter 108 and when documented in the IFSP.

Documentation of each PT, OT, ST, and SST contact must be entered into the child's record in accordance with 40 TAC, Part 2, Chapter 108.

### **2.8.2.2 Physical, Occupational, and Speech Therapy (PT, OT, and ST)**

Physical and occupational therapy treatment services require orders from a referring provider once a year.

Speech therapy treatment services do not require an order from a referring provider.

Therapy goals for acute or chronic conditions include, but are not limited to the following:

- Improving function
- Maintaining function
- Slowing the deterioration of function

#### 2.8.2.2.1 Physical Therapy (PT)

PT includes services that address the promotion of sensory and motor function through enhancement of musculoskeletal status, neurobehavioral organization, perceptual and motor development, cardiopulmonary status, and effective environmental adaptation.

All services must be performed in accordance with 42 CFR 440.110.

A PT evaluation, re-evaluation, or seating assessment may be performed without an order from a referring provider as allowed by 22 TAC Part 16, Chapter 322, §322.1(a)(2)(A).

PT services must be provided by one of the following:

- A licensed physical therapist who meets the requirements of 42 CFR 440.110(a)
- A licensed physical therapy assistant (PTA) when the assistant is acting under the direction of a licensed physical therapist in accordance with 42 CFR 440.110 and all other applicable state and federal law

#### 2.8.2.2.2 Occupational Therapy (OT)

OT includes services that address the functional needs of a child related to adaptive development, adaptive behavior and play, and sensory, motor, and postural development. These services are designed to improve the client's functional ability to perform tasks in the home and community settings.

All services must be performed in accordance with 42 CFR 440.110.

An OT evaluation, re-evaluation, or seating assessment may be performed without an order from a referring provider as allowed by §454.213 of the Texas Occupations Code.

OT services must be provided by one of the following:

- A licensed occupational therapist who meets the requirements of 42 CFR 440.110(b)
- A licensed or licensed and certified occupational therapist assistant (OTA) when the assistant is acting under the direction of a licensed occupational therapist in accordance with 42 CFR 440.110 and all other applicable state and federal law

#### 2.8.2.2.3 Speech Therapy (ST)

Speech and language therapy includes services designed to promote rehabilitation and remediation of delays or disabilities in language-related symbolic behaviors, communication, language, speech, emergent literacy, or feeding and swallowing behavior.

All services must be delivered in accordance with 42 CFR 440.110 and §401.001(6) of the Texas Occupations Code.

A ST evaluation, re-evaluation, and treatment service may be performed without a physician order as allowed by Chapter 401 of the Texas Occupations Code.

ST services must be provided by one of the following:

- A licensed speech-language pathologist (SLP) who meets the requirements of 42 CFR 440.110(c) and all other applicable state and federal law

- A licensed assistant in SLP when the assistant is acting under the direction of a licensed SLP in accordance with 42 CFR 440.110
- A licensed intern when the intern is acting under the direction of a licensed SLP in accordance with 42 CFR 440.110 and all other applicable state and federal law

### 2.8.2.3 Physical Therapy, Occupational Therapy, and Speech Therapy Procedure Codes

Clients who are eligible for ongoing PT, OT, and ST through the ECI program may request additional therapy under the Early & Periodic Screening, Diagnosis, & Treatment (EPSDT) benefit of Medicaid (also known as Texas Health Steps) when medically necessary.

**Referto:** Section 5, “Children’s Therapy Services Clients birth through 20 years of age” in the *Physical Therapy, Occupational Therapy, and Speech Therapy Services Handbook (Vol. 2, Provider Handbooks)* for information about physical, occupational, and speech therapy procedure codes outside of the ECI benefit that are not defined in this section.

#### 2.8.2.3.1 Evaluation and Re-evaluation Procedure Codes

The following encounter-based evaluation and re-evaluation procedure codes for PT, OT, and ST are benefits of Texas Medicaid:

| Procedure Codes               | Description                       |
|-------------------------------|-----------------------------------|
| 97165, 97166, or 97167        | OT Evaluation                     |
| 97168                         | OT Re-evaluation                  |
| 97161, 97162, or 97163        | PT Evaluation                     |
| 97164                         | PT Re-Evaluation                  |
| 92521, 92522, 92523, or 92524 | ST Evaluation                     |
| S9152                         | ST Re-Evaluation                  |
| 92610                         | ST Evaluation swallowing function |

#### 2.8.2.3.2 Time-Based Procedure Codes

The following time-based PT and OT treatment procedure codes may be a benefit of Texas Medicaid and must be billed in 15-minute increments (units).

| Procedure Codes |       |       |       |       |       |       |       |       |       |
|-----------------|-------|-------|-------|-------|-------|-------|-------|-------|-------|
| 97032           | 97033 | 97034 | 97035 | 97036 | 97110 | 97112 | 97113 | 97116 | 97124 |
| 97140           | 97530 | 97535 | 97542 | 97750 | 97760 | 97761 | 97763 |       |       |

#### 2.8.2.3.3 Untimed PT and OT Procedure Codes

The following untimed PT and OT treatment procedure codes representing supervised modalities are limited to one encounter each, per date of service per discipline, must be delivered on the same day as one or more time-based codes listed above, and are subject to the CMS NCCI relationships.

| Procedure Codes |       |       |       |       |       |       |       |
|-----------------|-------|-------|-------|-------|-------|-------|-------|
| 97012           | 97014 | 97016 | 97018 | 97022 | 97024 | 97026 | 97028 |

The following PT and OT group therapy code may be reimbursed as an untimed procedure code, payable per encounter, and reimbursed once per date of service per discipline.

| Procedure Codes |
|-----------------|
| 97150           |

#### 2.8.2.3.4 Encounter-Based Speech Therapy Procedure Codes

The following speech therapy individual treatment codes must be billed per encounter and are limited to once per day per provider. Only one ST treatment procedure code 92507 or 92526 may be reimbursed per date of service.

| Procedure Codes |       |
|-----------------|-------|
| 92507           | 92526 |

The following ST group treatment code may be reimbursed as an untimed procedure code, payable per encounter, and reimbursed once per date of service.

| Procedure Codes |
|-----------------|
| 92508           |

#### 2.8.2.3.5 Modifier Requirements for PT, OT, or ST Services

The following modifiers must be submitted for PT, OT, and ST treatment services:

| Modifier | Description   |
|----------|---|
| GO       | Services delivered under an outpatient occupational therapy plan of care            |
| GP       | Services delivered under an outpatient physical therapy plan of care                |
| GN       | Services delivered under an outpatient speech therapy plan of care                  |
| UB       | Services delivered by a therapy assistant under supervision of a licensed therapist |
| U5       | Services delivered by a licensed therapist or a physician                           |

Modifier UB or U5 is required on all claims for therapy treatment procedure codes to designate whether treatment was provided by a licensed therapist or a licensed assistant.

Modifier U3 is not used by an ECI contractor for co-visits or co-treatment services.

| Modifier | Description                   |
|----------|-------------------------------|
| U3       | Not used by an ECI contractor |

#### 2.8.2.3.6 Seating Assessments

Seating assessments are reimbursed in 15-minute increments (units) and must be billed with the following procedure code:

| Procedure Codes |
|-----------------|
| 97542           |

The PT completing the assessment must submit procedure code 97542 with modifiers GP and UC in order to bill for the seating assessment.

| Modifier | Description  |
|----------|--|
| GP       | Services delivered under an outpatient physical therapy plan of care |
| UC       | Assessment performed by an OT or PT                                  |

The OT completing the assessment must submit procedure code 97542 with modifiers GO and UC in order to bill for the seating assessment:

| Modifier | Description  |
|----------|--|
| GO       | Services delivered under an outpatient occupational therapy plan of care |
| UC       | Assessment performed by an OT or PT                                      |

#### 2.8.2.3.7 Specialized Skills Training (SST) Services

SST services are rehabilitative services to promote age-appropriate development by providing skills training to correct deficits and teach compensatory skills for deficits that directly result from medical, developmental, or other health-related conditions.

Services must include all the following:

- Be designed to create learning environments and activities that promote the client's acquisition of skills in one or more of the following developmental areas: physical or motor, communication, adaptive, cognitive, and social or emotional.
- Skills training and anticipatory guidance for family members, or other significant caregivers, to ensure effective treatment and to enhance the client's development.

SST services do not require an order from a referring provider. The ECI contractor ensures that SST services are provided by a certified early intervention specialist. SST services must be provided by an early intervention specialist who meets the criteria established in 40 TAC Part 2, Chapter 108.

SST services must be submitted with the following procedure codes and modifiers, and they must be billed in 15-minute increments:

| Procedure Code | Description        | Modifier |
|----------------|--------------------|----------|
| T1027          | Individual setting | U1       |
| T1027          | Group setting      |          |

#### 2.8.2.3.8 Reimbursement Guidelines for PT, OT, ST, and SST

Claims may be submitted to Medicaid when the interaction is directly with the client and the client's parent(s) as defined in 20 U.S.C. §1401, or the client and the routine caregiver(s) as defined in 40 TAC, Part 2, Chapter 108.

ECI services must be billed under the ECI contractor's Texas Provider Identifier, National Provider Identifier, and benefit code of EC1 as the insured's policy group when submitting claims.

**Referto:** "Section 6: Claims Filing" (*Vol. 1, General Information*) for more information about benefit codes.

Physical therapy, occupational therapy, and speech-language pathology evaluations are performed for the purposes of initial determination of need for rehabilitative services and annually to verify the child's ongoing need for rehabilitative services. To ensure there are no gaps in rehabilitative services, the annual evaluation should occur prior to the child's annual IFSP meeting.

Physical, occupational, and speech therapy evaluation and re-evaluation services are benefits through the ECI Medicaid benefit and do not require an order from a referring provider.

Physical therapy, occupational therapy, and speech-language pathology re-evaluations may be performed periodically during the child's annual enrollment in ECI services, and without a physician's order, to determine if changes to the IFSP are necessary.

Evaluations, re-evaluations, and seating assessments are not required to be listed on the IFSP Service Pages. A physical or occupational therapist may provide a seating assessment that is required to order a wheeled mobility system. A seating assessment does not require an order from a referring provider.

**Referto:** Subsection 2.2.16, "Mobility Aids" in the *Durable Medical Equipment, Medical Supplies, and Nutritional Products Handbook* (Vol. 2, *Provider Handbooks*) for information about mobility aids.

Reimbursement is available to two or more of the ECI contractor's service providers when the client receives a combination of any Medicaid-covered service identified on the IFSP and the IFSP indicates necessity for co-visits or co-treatments (i.e., two or more services to be provided at the same time). For example, the child may receive both PT and ST at the same time. Another example, the child may receive counseling and SST at the same time.

Reimbursement is available to two or more of the ECI contractor's service providers when they are conducting an evaluation at the same time.

When an evaluation and treatment service within the same discipline occur on the same day, only the evaluation will pay.

When a re-evaluation and treatment service within the same discipline occur the same day, only the treatment will pay.

PT, OT, and ST equipment and supplies used during therapy visits are not reimbursed separately.

Reimbursement under Medicaid benefit guidelines applies to only the services provided to ECI enrolled children by ECI contracted entities.

Reimbursement for services provided to ECI enrolled children by other Medicaid-enrolled providers (e.g., home health, CORF) is available under the Medicaid medical policies that apply to those provider types.

#### **2.8.2.4 Targeted Case Management (TCM)**

TCM services are provided to assist an eligible client and his or her family in gaining access to the rights and procedural safeguards under Part C of IDEA, and to needed medical, social, educational, developmental, and other appropriate services.

TCM services are performed in accordance with the ECI Medicaid benefit guidelines and 40 TAC, Part 2, Chapter 108.

TCM services do not require an order from a referring provider, but must be delivered by a qualified ECI contractor. The ECI contractor ensures that TCM services are provided by the assigned Service Coordinator who meets the criteria established in 40 TAC Part 2, Chapter 108.

TCM is provided in the natural environment (including office, home, daycare, and other community locations), outpatient, PPECC, and inpatient hospital setting.

The documentation for each TCM contact must be in accordance with 40 TAC, Part 2, Chapter 108. The place of service is the location of the service coordinator at the time of service delivery.

TCM services must be submitted with the following procedure codes and modifiers, and they must be billed in 15-minute increments:

| Procedure Code | Description              | Modifier |
|----------------|--------------------------|----------|
| T1017          | Face-to-face interaction | U1       |
| T1017          | Telephone interaction    |          |

TCM services may be delivered face-to-face or by telephone.

#### 2.8.2.4.1 Guidelines for TCM Services

Claims may be submitted to Texas Medicaid when the interaction is directly with the client or the client's parent(s) as defined in 20 United States Code (U.S.C.) §1401), or other routine caregiver(s) as defined in 40 TAC, Part 2, Chapter 108.

Contacts may be made with other individuals when directly related to identifying the eligible client's needs, helping the eligible client access services, identifying needs and support to assist the eligible client in obtaining services, providing the service coordinator with useful feedback, and alerting the service coordinator to changes in the eligible client's needs. These contacts must be documented in the client's record, but are not submitted as claims to Medicaid if they took place outside of the presence of the client or the client's parent or routine caregivers.

#### 2.8.2.5 Guidelines for ECI Services Performed in a Prescribed Pediatric Extended Care Center (PPECC)

When ECI services are rendered in a PPECC, the place of service will be outpatient hospital (used for a PPECC). The PPECC's NPI must appear on the claim, in addition to the ECI contractor's NPI. The ECI contractor and PPECC must have a written agreement for the provision of ECI services at the PPECC. The written agreement must address responsibilities of both parties, and how the parties will coordinate related to the client's IFSP or plan of care, which includes documentation of coordination with the PPECC. The written agreement must be maintained in the client's record.

### 2.8.3 Claims Filing and Reimbursement

#### 2.8.3.1 Claims Information

Claims for SST and TCM services that have been rendered by an ECI contractor must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Contractors may purchase CMS-1500 paper claim forms from the vendor of their choice; TMHP does not supply the forms. When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills or itemized statements are not accepted as claim supplements.

**Referto:** "Section 3: TMHP Electronic Data Interchange (EDI)" (*Vol. 1, General Information*) for information on electronic claims submissions.

Subsection 6.1, "Claims Information" in "Section 6: Claims Filing" (*Vol. 1, General Information*) for general information about claims filing.

Subsection 6.5, "CMS-1500 Paper Claim Filing Instructions" in "Section 6: Claims Filing" (*Vol. 1, General Information*) to find the instructions for completing paper claims.

Subsection 2.2, "Fee-for-Service Reimbursement Methodology" in "Section 2: Texas Medicaid Fee-for-Service Reimbursement" (*Vol. 1, General Information*) for more information about reimbursement.

##### 2.8.3.1.1 Billing Units Based on 15 Minutes

All claims for reimbursement are based on the actual amount of billable time associated with the service. For those services for which the unit of service is 15 minutes (1 unit = 15 minutes), partial units should be rounded to the nearest quarter hour.

The following table shows the time intervals for 1 through 8 units:

| Units   | Number of Minutes             |
|---------|-------------------------------|
| 0 units | 0 minutes through 7 minutes   |
| 1 unit  | 8 minutes through 22 minutes  |
| 2 units | 23 minutes through 37 minutes |

| Units   | Number of Minutes               |
|---------|---------------------------------|
| 3 units | 38 minutes through 52 minutes   |
| 4 units | 53 minutes through 67 minutes   |
| 5 units | 68 minutes through 82 minutes   |
| 6 units | 83 minutes through 97 minutes   |
| 7 units | 98 minutes through 112 minutes  |
| 8 units | 113 minutes through 127 minutes |

### 2.8.3.1.2 Managed Care Clients

If the child is enrolled in a Medicaid managed care organization (MCO), claims for PT, OT, and ST are submitted to the MCO.

TCM services are carved-out of Medicaid managed care and must be billed to TMHP for payment consideration.

SST services are carved-out of Medicaid managed care and claims must be billed to TMHP for payment consideration.

### 2.8.3.2 Reimbursement

ECI therapy, SST, and TCM services are reimbursed according to a maximum allowable fee established by HHSC. See the applicable fee schedule on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

- ECI therapy services are reimbursed in accordance with 1 TAC §355.8441.
- SST services are reimbursed in accordance with 1 TAC §355.8422.
- TCM services are reimbursed in accordance with 1 TAC §355.8421.

## 2.9 Health and Behavior Assessment and Intervention

### 2.9.1 Services, Benefits, and Limitations

Health and Behavior Assessment and Intervention (HBAI) services are a benefit of Texas Medicaid for clients who are 20 years of age and younger when the services are provided by a licensed practitioner of the healing arts (LPHA) who is co-located in the same office or building complex as the physician, PA, NP, or CNS who is treating the client.

In many cases, the treating physician, PA, NP, or CNS will be the client's primary care provider; however, a specialist seeing a client regularly may function in a similar role to a primary care provider and may also make HBAI referrals to a co-located LPHA.

These services are designed to identify the psychological, behavioral, emotional, cognitive and social factors important to prevention, treatment or management of physical health symptoms.

HBAI services are a benefit when the client meets all of the following criteria:

- The client has an underlying physical illness or injury.
- There are indications that biopsychosocial factors may be significantly affecting the treatment or medical management of an illness or an injury.
- The client is alert, oriented, and, depending on the client's age, has the capacity to understand and to respond meaningfully during the in-person evaluation.
- The client has a documented need for psychological evaluation or intervention to successfully manage his or her physical illness, and activities of daily living.
- The assessment is not duplicative of other provider assessments.

HBAI services that include the client's family are a benefit when the family member directly participates in the overall care of the client.

Family is defined as a responsible adult. This adult individual has agreed to accept the responsibility for providing food, shelter, clothing, education, nurturing, and supervision for the client. Responsible adults include, but are not limited to, biological parents, adoptive parents, foster parents, guardians, court-appointed managing conservators, and other family members by birth or marriage.

HBAI services may be reimbursed when billed with the following procedure codes:

| Procedure Codes |       |       |       |       |       |
|-----------------|-------|-------|-------|-------|-------|
| 96150           | 96151 | 96152 | 96153 | 96154 | 96155 |

These services may be rendered by physician, nurse practitioner (NP), clinical nurse specialist (CNS), physician assistant (PA), licensed professional counselor (LPC), licensed clinical social worker (LCSW), licensed marriage family therapist (LMFT), Comprehensive Care Program (CCP) LCSW, or psychologist provider in the office or outpatient setting.

LMFTs must bill with state defined modifier U8 to identify services billed.

For services that are rendered by physician, NP, CNS, or PA providers, claims must be submitted with the appropriate evaluation and management (E/M) procedure codes (99201, 99202, 99203, 99204, 99205, 99211, 99212, 99213, 99214, or 99215). The physician, NP, CNS, or PA may bill the HBAI procedure codes for an LPHA that is in the medical practice.

HBAI services are limited to four 15-minute units (one hour) per day, any procedure, any provider. A unit is defined as 15 minutes of in-person evaluation time. An in-person evaluation is defined as a patient evaluation conducted by a provider who is at the same physical location as the client. These services are considered acute per rolling 180 days from the initiation of services and are limited as shown in the following table:

| Procedure Codes            | Limitations  |
|----------------------------|--|
| 96150                      | Limited to a maximum of four 15-minute units (one hour) per client, per rolling 180 days, any provider       |
| 96151                      | Limited to a maximum of four 15-minute units (one hour) per client, per rolling 180 days, any provider       |
| 96152, 96153, 96154, 96155 | Limited to a maximum of sixteen 15-minute units (four hours), per client, per rolling 180 days, any provider |

Rural Health Clinics and Federally Qualified Health Centers may be reimbursed for client in-person evaluation visits based on encounter rates.

For re-assessment (procedure code 96151), providers must maintain documentation in the client's medical record that details the change in the mental or medical status warranting reassessment of the client's capacity to understand and cooperate with the medical interventions that are necessary to the client's health and well-being.

Clients must be referred for psychiatric evaluation or psychotherapy as soon as the need is identified. Providers cannot use all 16 units if the need for psychiatric or psychological intervention is identified earlier.

After the initial HBAI assessment (procedure code 96150), if the client is receiving behavioral health services from another health-care provider, the HBAI provider should coordinate with the external behavioral health provider and establish the most appropriate course of treatment for the client.

**Referto:** Section 4, “Outpatient Mental Health Services” in the *Behavioral Health and Case Management Services Handbook (Vol. 2, Provider Handbooks)* for more information about behavioral health services beyond the acute care limitations outlined in this section.

The initial clinical interview, reassessment, psychophysiological monitoring, observation, and intervention do not include the following:

- Conversations about educating the family or caregivers outside of the in-person evaluation sessions
- Psychotherapy

After the initial 180 days of HBAI services, the client may receive another episode of HBAI with the same medical diagnosis if there is a newly identified behavioral health issue. The client may have two episodes of HBAI per rolling year.

HBAI services are adjunct to other services and are to be used as a non-intensive means to identify specific needs. As appropriate, the client should be referred for those additional services that would meet the client's biopsychosocial needs.

## 2.9.2 Prior Authorization and Documentation Requirements

Prior authorization is not required for HBAI services.

Documentation is required for HBAI services to support the medical necessity of the initial assessment, reassessment, and intervention.

For the initial assessment, documentation must support the medical necessity of the assessment and must include the following information:

- The date of initial diagnosis of physical illness
- A clear rationale for assessment
- Outcome of assessment, which includes mental status and the client's or caregiver's ability to understand and respond meaningfully
- Goals and expected duration of specifically recommended psychological intervention(s)

For reassessment, documentation must support the reassessment is necessary and include the following information:

- The date of change in mental or physical status
- Rationale for re-assessment with a clear indication of precipitating events.

For the intervention, documentation must support the necessity of the intervention and include the following information:

- Evidence that the client or caregiver has the capacity to understand and respond meaningfully,
- Clear outline of planned psychological intervention
- Goals of the psychological intervention identifying expected improvement in compliance with the medical treatment plan
- The client's response to the intervention
- Rationale for frequency and duration of acute care services

All documentation must include the amount of time spent in the HBAI assessment or intervention and must be documented in the client's medical record.

All services are subject to retrospective review to ensure that the documentation in the client's medical record supports the medical necessity of the services provided.

### 2.9.3 Claims Information

Claims for HBAI services must be submitted to TMHP in an approved electronic claims format or on a CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

**Referto:** “Section 3: TMHP Electronic Data Interchange (EDI)” (*Vol. 1, General Information*) for information on electronic claims submissions.

“Section 6: Claims Filing” (*Vol. 1, General Information*) for general information about claims filing.

Subsection 6.5, “CMS-1500 Paper Claim Filing Instructions” in “Section 6: Claims Filing” (*Vol. 1, General Information*) for instructions on completing paper claims.

### 2.9.4 Reimbursement

Providers may refer to the OFL or the applicable fee schedule on the TMHP website at [www.tmhp.com](http://www.tmhp.com) for reimbursement rates.

## 2.10 Medical Nutrition Counseling Services (CCP)

### 2.10.1 Enrollment

Independently practicing licensed dietitians may enroll in Texas Medicaid to provide services to CCP-eligible clients. Dietitians who provide nutrition assessments and counseling must be currently licensed by the Texas State Board of Examiners of Dietitians in accordance with the Licensed Dietitians Act, Chapter 701, Texas Occupations Code.

**Referto:** Subsection 2.1.2, “Enrollment” in this handbook for more information about CCP enrollment procedures.

### 2.10.2 Services, Benefits, and Limitations

Medical nutrition therapy (assessment, re-assessment, and intervention) and medical nutrition counseling may be beneficial for treating, preventing, or minimizing the effects of illness, injuries, or other impairments. A case manager, school counselor, or school nurse may refer a client for medical nutrition counseling services.

Medical nutrition counseling services are a benefit when all of the following criteria are met:

- The client is 20 years of age or younger
- The client is eligible for CCP
- The services are prescribed by a physician
- The services are performed by a Medicaid-enrolled licensed dietitian
- Clinical documentation supports medical necessity and medical appropriateness
- FFP is available

Medical nutrition therapy and nutrition counseling may be considered beneficial for disease states for which dietary adjustment has a therapeutic role. Such disease states include, but are not limited to, the following conditions:

- Abnormal weight gain
- Cardiovascular disease
- Diabetes or alterations in blood glucose
- Eating disorders

- Gastrointestinal disorders
- Gastrostomy or other artificial opening of gastrointestinal tract
- Hypertension
- Inherited metabolic disorders
- Kidney disease
- Lack of normal weight gain
- Multiple food allergies
- Nutritional deficiencies

Nutrition intervention for the following conditions is considered experimental and investigational and is not a benefit:

- Attention-deficit hyperactivity disorder
- Chemical sensitivities
- Chronic fatigue syndrome
- Idiopathic environmental intolerance

Medical nutrition counseling services for the diagnosis of obesity without a comorbid condition is not a benefit.

Medical nutrition therapy (procedure code 97802) is a more comprehensive service than medical nutrition counseling and is provided to individual clients for assessment and intervention. Procedure code 97802 is limited to one session per day and four units per rolling year.

Medical nutrition therapy (procedure code 97803) is provided to individual clients for a reassessment and intervention, after the initial assessment and intervention. Procedure code 97803 may be used for direct therapy sessions with clients. These sessions are limited to 1 session per day and 12 units per rolling year.

Nutrition assessments and re-assessments are in-depth evaluations of both objective and subjective data related to an individual's food and nutrient intake, lifestyle, and medical history. Nutrition assessments and re-assessments are performed as part of medical nutrition therapy. Nutrition assessments and re-assessments may be required as a result of a medical diagnosis and may be performed in conjunction with other therapies for treatment or as a goal to help clients make and maintain dietary changes. Documentation must include the following:

- Objective and subjective data obtained
- Height, weight, body mass index (BMI), and correlating percentiles on the growth curves
- Estimated caloric needs
- Nutritional diagnosis
- Intervention and plan
- Evaluation

Medical nutrition counseling (procedure code S9470) is provided to individual clients after an initial assessment and is less comprehensive than medical nutrition therapy. Nutritional counseling may be used to discuss the plan of care or intervention and to determine whether modifications are needed. Procedure code S9470 is limited to one visit per day and four visits per rolling year.

Medical nutrition group therapy (procedure code 97804) is not a benefit in the home setting, and does not include an individual nutrition assessment. Medical nutrition group therapy is limited to eight units per rolling year.

Medical nutrition group therapy may be provided to a group of clients with the same condition. While medical nutrition group therapy must be led by a Medicaid-enrolled dietitian licensed by the Texas State Board of Examiners of Dietitians, other health-care providers may participate in the group sessions. The focus of the therapy is on nutrition and health for chronic conditions such as the following:

- Acquired acanthosis nigricans
- Diabetes
- Dysmetabolic syndrome X
- Eating disorder
- Hyperlipidemia
- Other specified hypoglycemia
- Pure hypercholesterolemia
- Pure hyperglyceridemia

Medical nutrition group therapy sessions must last at least 30 minutes, have a minimum of two clients and a maximum of ten clients, and must include the following:

- An age-appropriate presentation on nutrition issues related to the chronic condition. (The presentation may include information about prevention of disease exacerbation or complications and living with chronic illness. The presentation may also offer suggestions for making healthy food choices or changing ideas about food.)
- A question-and-answer period.

Client participation in medical nutrition group therapy is optional. Providers must obtain an informed consent from a client's parent or guardian before rendering services. The medical documentation maintained in a client's medical record must include the following:

- Physician prescription
- Referral, if applicable
- Location where the services were provided
- Services that were provided during medical nutrition group therapy
- Goals or objectives for the group therapy
- Client participation
- Beginning and ending time of the group therapy session

In the following table, the procedure codes in Column A will be denied as part of another service if they are submitted by any provider for the same date of service as the corresponding procedure codes in Column B:

| Column A: Procedure Codes Denied When Submitted With... | Column B: Procedure Codes |
|---|---------------------------|
| S9470   | 97802, 97803, or 97804    |

Claims for medical nutrition therapy and counseling services should be submitted as follows:

| Procedure Code              | Time Unit  | Limitation                                 |
|-----------------------------|------------|--|
| 97802<br>Initial assessment | 15 minutes | 4 units per rolling year                   |
| 97803<br>Reassessment       | 15 minutes | 12 units per rolling year                  |
| 97804<br>Group              | 30 minutes | 8 units per rolling year                   |
| S9470<br>Dietitian visit    | Per visit  | 1 visit per day/ 4 visits per rolling year |

### 2.10.3 Prior Authorization and Documentation Requirements

Prior authorization is required for services that exceed the limitations for medical nutrition therapy (assessment, re-assessment, and intervention), medical nutrition group therapy, and nutrition counseling visits.

Prior authorization is also required for consideration of other health conditions that are not addressed.

The following documentation must be submitted to the CCP Prior Authorization Unit for prior authorization:

- Completed CCP Prior Authorization Request Form
- Treatment plan
- Diagnosis of a condition for which there is medical necessity for the service
- Obstacles for not meeting goals
- Interventions planned to meet goals

The prescribing physician and provider must maintain documentation of medical necessity, including the completed CCP Prior Authorization Request Form, in a client's medical record. The physician must maintain the original signed copy of the CCP Prior Authorization Request Form. The completed CCP Prior Authorization Request Form is valid for a period of up to six months from the date of the physician's signature.

### 2.10.4 Claims Information

Providers must submit services provided by licensed dietitians in an approved electronic claims format or on a CMS-1500 paper claim form from the vendor of their choice. TMHP does not supply the forms.

Claims for services that have been prior authorized must reflect the PAN in Block 23 of the CMS-1500 paper claim form or its equivalent.

**Referto:** "Section 3: TMHP Electronic Data Interchange (EDI)" (*Vol. 1, General Information*) for information on electronic claims submissions.

"Section 6: Claims Filing" (*Vol. 1, General Information*) for general information about claims filing.

Subsection 6.5, "CMS-1500 Paper Claim Filing Instructions" in "Section 6: Claims Filing" (*Vol. 1, General Information*) for instructions on completing paper claims.

[Medical Nutrition Counseling \(CCP Only\)](http://www.tmhp.com) on the TMHP website at [www.tmhp.com](http://www.tmhp.com) for a claim form example.

### 2.10.5 Reimbursement

Dietitian services are reimbursed in accordance with 1 TAC §355.8441.

## 2.11 Personal Care Services (PCS) (CCP)

### 2.11.1 Enrollment

CCP providers that want to participate in the delivery of PCS to Medicaid clients must be enrolled with TMHP and have the appropriate Texas Department of Aging and Disability Services (DADS) licensure or certification.

All PCS providers must have a TPI and a National Provider Identifier (NPI).

Providers that are currently contracted with DADS to administer consumer-directed services (CDS) or provide PCS through the service responsibility option (SRO), including providers currently enrolled in Texas Medicaid, are required to enroll or re-enroll separately as a CDS or SRO provider. Texas Medicaid enrolls only new providers that are currently contracted with DADS to provide PCS through CDS and SRO.

Providers (other than those discussed above) that want to provide PCS to Medicaid clients must enroll through TMHP. Texas Medicaid enrollment rules for PCS participation require providers to have one of the following categories of DADS licensure prior to enrollment:

- Personal Assistance Services (PAS)
- Licensed Home Health Services (LHHS)
- Licensed and Certified Home Health Services (LCHHS)

LCHH and LHH agencies that are currently enrolled through TMHP do not need to enroll as CCP-PCS providers to provide PCS. Providers must have a TPI in one of the following enrollment categories: LHHS agency, LCHHS agency, or PCS provider.

Providers that are enrolled as any entity other than an LHHS agency or LCHHS agency are required to meet the provider enrollment rules in order to participate in the delivery of PCS through Texas Medicaid.

**Referto:** Subsection 2.1.2, “Enrollment” in this handbook for more information about CCP enrollment procedures.

### 2.11.2 Services, Benefits, and Limitations

PCS is a benefit of CCP for Texas Medicaid clients who are birth through 20 years of age. PCS may not be authorized in hospitals, nursing facilities, or intermediate care facilities for individuals with intellectual or developmental disabilities (ICF-IID). PCS will be denied when billed on the same date of service as an inpatient stay service. The provider may appeal the denied claim with documentation supporting that PCS was performed while the client was not in a hospital setting. PCS are support services provided to clients who meet the definition of medical necessity and require assistance with the performance of ADLs, instrumental activities of daily living (IADLs), and health maintenance activities (HMAs) due to a physical, cognitive, or behavioral limitation related to a client's disability or chronic health condition. PCS are provided by someone other than the responsible adult of the client who is a minor child or the legal spouse of the client.

A responsible adult is an individual, 18 years of age or older, who has agreed to accept the responsibility for providing food, shelter, clothing, education, nurturing, and supervision for the client. Responsible adults include, but are not limited to, biological parents, adoptive parents, step parents, foster parents, legal guardians, court-appointed managing conservators, and the primary adult who is acting in the role of parent.

PCS are those services that assist eligible clients in performing ADLs, IADLs, and HMAs. The scope of ADLs, IADLs, and HMAs includes a range of activities that healthy, nondisabled adults can perform for themselves. Typically, developing children gradually and sequentially acquire the ability to perform these ADLs, IADLs, and HMAs for themselves. If a typically developing child of the same chronological age could not safely and independently perform an ADL, IADL, or HMAs without adult supervision, then the client's responsible adult ensures that the client's needs for the ADLs, IADLs, and HMAs are met.

PCS include direct intervention (assisting the client in performing a task) or indirect intervention (cueing or redirecting the client to perform a task). ADLs, IADLs, and HMAs include, but are not limited to, the following:

| ADLs   | IADLs   |
|--|---|
| Bathing  | Escort or Assistance with Transportation Services |
| Dressing   | Grocery or Household Shopping                     |
| Eating   | Laundry   |
| Locomotion or Mobility   | Light housework                                   |
| Personal Hygiene   | Meal preparation                                  |
| Positioning  | Medication Assistance                             |
| Toileting  | Money management                                  |
| Transferring   | Telephone Use or Other Communication              |
| * Escort or Assistance with Transportation Services includes the coordination of transportation to medical appointments and accompaniment to appointments to assist with needed ADLs. PCS does not include the payment for transportation or transportation vehicles since these services are available through MTP. |   |

**Note:** Health maintenance activities (HMAs) and nurse-delegated tasks that fall within the scope of the task listed above are allowable in PCS.

**Note:** Exercise and range of motion are not available through PCS, but are services that could be provided through PT, PDN, or home health SN.

PCS does not include the following:

- ADLs, IADLs, or HMAs that a typically developing child of the same chronological age could not safely and independently perform without adult supervision
- Services that provide direct intervention when the client has the physical, behavioral, and cognitive abilities to perform an ADL, IADL, or health-related function without adult supervision
- Services used for or intended to provide respite care, child care, or restraint of a client
- Stand-by supervision related to safety
- Potty training
- Grocery shopping for members of the client's family or household
- Cleaning for members of the client's family or household (exception: light housework is approved if the client shares a room with a person)
- Cleaning the entire house (exception: a need for clean environment is approved if related to the client's diagnosis or condition [e.g., asthma, allergies, or autoimmune deficiencies])

**Note:** Cleaning an area or equipment that is used to complete a task may be included in the light housework IADL, as appropriate.

- Laundry services for members of the client's family or household (exception: laundry is approved when related to the client's diagnosis or condition that results in soiled bedding or clothing for the client beyond the norm [e.g., incontinence, feeding tube, trachea, an ostomy, diapers, or skin condition])
- Waiting time for the laundry machine to complete a cycle in the home setting (exception: the time an attendant is at a laundromat completing the laundry task for the client is covered for PCS)
- Meal preparation for members of the client's family or household
- Time of a PCS attendant while acting as the responsible adult for the receipt of medical care or providing medical transportation

An escort is approved if it is related to the client's diagnosis or condition, such as using the toilet at the appointment or assistance carrying equipment (e.g., feeding pump, oxygen tank).

An escort is approved if it is related to the client's diagnosis or condition and the responsible adult is occupied during the transport. For example, a child's condition might include behaviors that create an unsafe situation for the child during transport, such as removing a seatbelt, attempting to open the car door while the car is in motion, or elopement.

PCS does cover the entire time that an attendant is away from the home performing this task.

PCS is considered for reimbursement when providers use procedure code T1019 in conjunction with the appropriate modifier listed in the following table. PCS provided by a home health agency or PCS-only provider, including PCS being provided under the SRO defined in 40 TAC Part 1, Chapter 41, must be billed in 15-minute increments. PCS provided by a financial management services agency (FMSA) under the CDS option defined in 40 TAC Part 1, Chapter 41, must submit the attendant fee in 15-minute increments. FMSAs must bill the administration fee once per calendar month per client for any month in which the client receives PCS under the CDS option and regardless of the number of PCS units of service the client receives under the CDS option during the month. PCS claims are considered for reimbursement only when TMHP has issued a valid PAN to a PCS provider.

| PCS Procedure Codes              |   |
|----------------------------------|---|
| All PCS Providers* (except FMSA) |   |
| Procedure Code                   | T1019   |
| Modifier                         | U6 (PCS each 15 minutes)                          |
|                                  | UA (Behavioral health condition, each 15 minutes) |
| FMSA Under CDS Option*           |   |
| Procedure Code                   | T1019   |
| Modifier                         | U7 (Attendant fee each 15 minutes)                |
|                                  | U8 (Administration fee once a month)              |
|                                  | UB (Behavior health condition, each 15 minutes)   |
| * 40 TAC Part 1, Chapter 41      |   |

Home health agencies and Personal Care Services (PCS) providers that provide PCS and Community First Choice (CFC) Services in the home setting may be reimbursed for nurse evaluation and supervision using procedure code G0162.

The following limitations apply for procedure code G0162:

- For a registered nurse (RN) assessment, procedure code G0162 (without modifier) is limited to three hours per day (12 to 15 minute increments) and two occurrences per rolling year for any provider.

- For training and supervision of the attendant, procedure code G0162 must be billed with modifier U1 and is limited to three hours (12 to 15 minute increments) per 30 days for any provider.

**Note:** *Training and supervision and an RN assessment may be billed on the same day.*

Prior authorization is not required for procedure code G0162.

### **2.11.2.1 Place of Services**

PCS may be provided in the following settings if medically necessary:

- The client's home
- The client's school
- The client's daycare facility
- Other community setting in which the client is located

**Note:** *For claims filing purposes, the PCS provider must bill POS 2 (home) when submitting claims to TMHP.*

Texas Medicaid does not reimburse providers for PCS that duplicate services that are the legal responsibility of school districts. The school district, through the School Health and Related Services (SHARS) program, is required to meet the client's personal care needs while the client is at school. If those needs cannot be met by SHARS or the school district, the school district must submit documentation to the Texas Department of State Health Services (DSHS) case manager indicating the school district is unable to provide all medically necessary services. When clients are receiving both PCS and PDN services from an individual person over the same span of time, the combined total number of hours for PCS and PDN are reimbursed according to the maximum allowable rate.

### **2.11.2.2 Client Eligibility**

The PCS benefit is available to Texas Medicaid clients who:

- Are birth through 20 years of age.
- Are enrolled with Texas Medicaid.
- Are eligible for CCP.
- Have physical, cognitive, or behavioral limitations related to a disability or chronic health condition that inhibits the client's ability to accomplish ADLs, IADLs, or HMAs.

Whether the client has a physical, cognitive, or behavioral limitation related to a disability or chronic health condition that inhibits the client's ability to accomplish ADLs, IADLs, or HMAs, the following needs and conditions of the responsible adult will be considered:

- The responsible adult's need to sleep, work, attend school, and meet their own medical obligations
- The responsible adult's legal obligation to care for, support, and meet the medical, educational, and psychosocial needs of other dependents
- Whether requiring the responsible adult to perform the PCS will put the client's health or safety in jeopardy
- The time periods during which the PCS tasks are required by the client, as they occur over the course of a 24-hour day and a seven-day week.
- Whether or not the need to help the family perform PCS on behalf of the client is related to a medical, cognitive, or behavioral condition that results in a level of functional ability that is below that expected of a typically developing child of the same chronological age
- Whether services are needed based on:
  - The Practitioner Statement of Need (PSON)

- The client's personal care assessment form (PCAF)

Clients who are enrolled in a DADS waiver program may also receive PCS if they are eligible for it, as long as the services that are provided through the waiver program and PCS are not duplicated. Clients who are enrolled in the following DADS waiver programs may access the PCS benefits if they meet the PCS eligibility requirements:

- Community Living Assistance and Support Services (CLASS)
- Deaf/Blind Multiple Disabilities (DBMD)
- Community-Based Alternatives (CBA)
- Consolidated Waiver Program (CWP)
- Medically Dependent Children Program (MDCP)
- Texas Home Living Waiver (TxHmL)
- Home and Community Services (HCS)

**Note:** *Clients who receive HCS Residential Support Services, Supervised Living Services, or Foster/Companion Care Services are not eligible to receive attendant care services through PCS.*

Clients must choose the program through which they receive attendant care, if they meet the eligibility requirements of both programs. Clients will be given the following options for the delivery of attendant care services:

- A client can receive all attendant care services through PCS.
- A client can decline PCS and receive all attendant care service through a waiver program, if the waiver program offers attendant care.

Clients who participate in the CDS option for PCS and for a waiver program are required to choose one FMSA to provide services through both programs. FMSAs will only be permitted to file the financial management services (FMS) fee, also known as the monthly administrative fee, through one program. The FMSA must file the FMS claim through the program that provides the highest reimbursement rate.

#### 2.11.2.2.1 Accessing the PCS Benefit

Clients must be referred to DSHS before receiving the PCS benefit. A referral can be made by any person who recognizes a client may have a need for PCS, including, but not limited to, the following:

- The client, a parent, a guardian, or a responsible adult
- A primary practitioner, primary care provider, or medical home
- A licensed health professional who has a therapeutic relationship with the client and ongoing clinical knowledge of the client
- A family member
- Home health, personal assistance, or FMSA providers

Referrals to DSHS can be made to the appropriate DSHS Health Service Region, based on the client's place of residence in the state. Clients, parents, or guardians may also call the TMHP PCS Client Line at 1-888-276-0702 for more information on PCS. PCS providers must provide contact information for the client or responsible adult to DSHS or the TMHP PCS Client Contact Line when making a referral.

Upon receiving a referral, DSHS assigns the client a case manager, who then conducts an assessment in the client's home with the input and assistance of the client or responsible adult. Based on the assessment, the case manager identifies whether the client has a need for PCS. If the case manager identifies a need for PCS, the client or responsible adult is asked to select a Medicaid-enrolled PCS provider in their area.

Once a provider is selected, the DSHS case manager prior authorizes a quantity of PCS based on the assessment and requests TMHP to issue a PAN to the selected PCS provider. The PCS provider uses the PAN to submit claims to TMHP for the services provided.

#### 2.11.2.2.2 The Primary Practitioner's Role in the PCS Benefit

A client who is assessed for the PCS benefit must have a primary practitioner (a licensed physician, APRN, or PA) or a primary care provider who has personally examined the client within the last 12 months and reviewed all of the appropriate medical records. The primary practitioner or primary care provider must have established a diagnosis for the client and must provide continuing care and medical supervision of the client. Prior to authorizing PCS, HHSC requires the completion of an HHSC-approved Practitioner Statement of Need (PSON) by a primary practitioner. The PSON must be on file with HHSC prior to the initiation of PCS and will only accept the PSON from an individual who is a physician, APRN, or PA.

The PSON certifies that the client is 20 years of age or younger and has a physical, cognitive, or behavioral limitation related to a disability or chronic health condition. The primary practitioner or primary care provider must mail or fax the completed PSON to the appropriate DSHS Health Services Region. DSHS keeps the signed and dated PSON and the client's PCAF in the client's case management record for the duration of the client's participation in the benefit.

When a behavioral health condition exists, the primary practitioner may be a behavioral health provider.

If the client's medical record does not include the primary practitioner's documentation and a PSON that certifies that the client has a physical, cognitive or behavioral health condition that impacts the client's ability to perform an ADL or IADL, then PCS payments may be recouped.

**Note:** *If a client is entering or is already in the conservatorship of the state, PCS may be provisionally initiated for up to 60 days once eligibility has been established through the assessment.*

HHSC requires the reassessment of the client's need for PCS every 12 months or when requested due to a change in the client's health or living condition. A new PSON will be required at each annual reassessment and when there is a change in the client's medical condition that may increase the need for services.

#### 2.11.2.3 PCS Provided in Group Settings

PCS may be provided in a provider to client ratio other than one-to-one. Settings in which providers can provide PCS in a provider to client ratio other than one-to-one include homes with more than one client needing PCS, foster homes, and independent living arrangements.

A PCS provider may provide PCS to more than one client over the span of the day as long as:

- Each client's care is based on an individualized service plan.
- Each client's needs and service plan do not overlap with another client's needs and service plan.

**Example:** *If the prior authorized PCS hours for Client A is four hours, Client B is six hours, and the actual time spent with both clients is eight hours, the provider must bill for the actual one-on-one time spent with each client, not to exceed the client's prior authorized hours or total hours worked. It would be acceptable to bill four hours for Client A and four hours for Client B, or three hours for Client A and five hours for Client B. It would not be acceptable to bill five hours for Client A and three hours for Client B. It would be acceptable to bill ten hours if the individual person actually spent ten hours onsite providing prior authorized PCS split as four hours for Client A and six hours for Client B. A total of ten hours cannot be billed if the individual person worked only eight hours.*

- PCS may be delivered in a client-to-provider ratio other than one-on-one as long as each client's care is based on an individualized POC and each client's needs are being met. Only the time spent on authorized PCS tasks for each client is eligible for reimbursement. Total PCS billed for all clients cannot exceed an individual attendant's total number of hours at the place of service.

When there is more than one client within the same household receiving PCS, the DSHS case manager will synchronize authorizations within the households for all eligible clients. The DSHS case manager will assess all eligible clients in the home and submit authorizations for all eligible clients in the household for the same authorization period. DSHS case managers will communicate with the provider the actions that are being taken using the existing Communication Tool.

***Note:** There should be no lapse in services to the client.*

### **2.11.3 Prior Authorization and Documentation Requirements**

Prior authorization is required before services are provided. All PCS must be prior authorized by a DSHS case manager based upon client need, as determined by the client assessment. DSHS prior authorizes PCS for eligible clients. The DSHS case manager notifies TMHP of the authorized quantity of PCS. TMHP sends a notification letter with the PAN to the client or responsible adult and the selected PCS provider if PCS is approved or modified. Only the client or responsible adult receives a notification letter with an explanation of denied services. PCS is prior authorized for periods of up to twelve months. PCS providers must provide services from the start of care date agreed to by the client or responsible adult, the case manager, and the PCS provider.

PCS may be authorized in the same day as PPECC, if medically necessary. However, they must be rendered in a home setting, before or after PPECC services.

A PCS provider may obtain prior authorization to provide enhanced PCS to clients with a behavioral health condition when the following criteria are met:

- The DSHS case manager completes the Personal Care Assessment Form (PCAF) and identifies the behavioral health condition.
- The PCAF indicates that the identified behavioral health condition impacts the client's ability to perform an ADL or IADL.
- The PCAF indicates which ADL(s) or IADL(s) cannot be performed by the client without assistance.
- The DSHS case manager submits the appropriate modifier on the authorization request.

When a client experiences a change in condition, the client or responsible adult must notify the DSHS Health Service Office in the client's region. A new assessment is required when a client's physician orders services in a PPECC. A DSHS case manager must perform a new assessment and prior authorize any revisions in the quantity of PCS based on the new assessment. TMHP issues a revised authorization and notifications are sent to the client or responsible adult and the selected PCS provider. If the change is made during a current prior authorization period, the new prior authorization will maintain the same end date as the original prior authorization period. The revised authorization period will begin on the SOC date stated in the new assessment.

For continuing and ongoing PCS needs beyond the initial prior authorization period of up to twelve months, a DSHS case manager must conduct a new assessment and submit a new authorization request to TMHP. TMHP sends a notification letter updating the prior authorization to the client, responsible adults, and the selected PCS provider.

HHSC or its designee may suspend an authorization for PCS when either:

- The client or the client's family creates an unsafe environment for the attendant's health and safety.
- The provider requests suspension for the reasons outlined in 40 TAC Part 1, Chapter 41.

Providers can call a toll-free PCS Provider Inquiry Line at 1-888-648-1517 for assistance with inquiries about the status of a PCS prior authorization. Providers should direct inquiries about other Medicaid services to the TMHP Contact Center at 1-800-925-9126. PCS providers should encourage the client or responsible adult to contact the appropriate DSHS Health Service Region with inquiries or concerns about the PCS assessment.

**Note:** *Any organization that employs attendants who provide PCS, and any organization serving as an FMSA, must comply with all documentation requirements as specified by the PCS program.*

### **2.11.3.1 PCS Provider Responsibilities**

PCS providers must comply with all applicable federal, state, and local laws and regulations.

All PCS providers must maintain written policies and procedures for obtaining consent for medical treatment in the absence of the responsible adult. The procedure and policy must meet the standards of the Texas Family Code, Chapter 32.

Providers must accept clients only when there is a reasonable expectation and evidence that the client's needs can be adequately met in the POS. The POS must be able to support the client's health and safety needs and adequately support the use, maintenance, and cleaning of all required medical devices, equipment, and supplies. Necessary primary and backup utility, communication, and fire safety systems must be available in the POS.

The PCS provider is responsible for the supervision of the PCS attendant as required by the PCS provider's licensure requirements.

### **2.11.3.2 Documentation of Services Provided and Retrospective Review**

Documentation elements are routinely assessed for compliance in retrospective review of client records, including the following:

- All entries are legible to people other than the author, dated (month, day, year, time), and signed by the author.
- Each page of the record documents the client's name and Medicaid identification number.
- All attendants' arrival and departure times are documented with signature and time.
- Documentation of services correlates with, and reflects medical necessity for, the services provided on any given day.
- Client's arrival or departure from the home setting is documented with the time of arrival, departure, mode of transportation, and who accompanied the client.

### **2.11.4 Coordination with PPECC Provider**

When a DSHS case manager is notified by the client, client's responsible adult, or client's physician that PPECC services have been initiated, revised, or recertified, the DSHS case manager must conduct a PCS reassessment, and submit all documentation required for a revision, modification, or denial of the original PCS authorization request, including a Physician's Statement of Need if there is a change in client condition. The new authorization request must be submitted within ten (10) business days of notification.

DSHS case managers must provide documentation to support medical necessity if PCS service hours do not decrease when PPECC services are initiated.

DSHS case managers must also document coordination with the PPECC provider, maintaining documentation that the client or the client's responsible adult has participated in the development of the plan of care.

When a client receives both PCS and PPECC in a single day, and decides to receive fewer hours of service in a PPECC (i.e., shifts more services to the home setting), or terminates PPECC services, the PCS case manager must conduct a reassessment, and submit all documentation required for a revision, modification, or denial of the original PCS authorization request, including a Physician's Statement of Need if there is a change in condition within ten (10) business days of notification by the client, client's responsible adult, or client's physician.

Similarly, if the client decides to receive fewer hours of PCS services in the home, and increase PPECC hours, the DSHS case manager must conduct a reassessment, and submit all documentation required for an modification of the authorization request, within ten (10) business days of notification by the client, client's responsible adult, or client's physician.

**Note:** *Coordination requirements may be different in a Medicaid managed care environment.*

PCS services rendered in a client's home may be billed before or after PPECC services on the same day, but not at the same time as PPECC services. PCS services required while a client is in a PPECC are considered part of the PPECC billable rate.

## **2.11.5 Claims Information**

TMHP processes PCS claims. PCS providers must submit claims for services in an approved electronic claims format or on the appropriate claim form based on their provider type. PCS providers, other than home health agencies, that are enrolled as PAS-only providers, FMSAs, or SRO providers must file PCS claims using a CMS-1500 paper claim form. Home health agencies, including those enrolled as an FMSA, or an SRO provider, must file PCS claims using the UB-04 CMS-1450 paper claim form. TMHP does not supply the forms.

Home health agencies and consumer-directed agencies that bill for PCS using procedure code T1019 must include the prior authorization number on claims submitted for reimbursement. Additionally, providers utilizing paper, TexMedConnect, or billing through EDI must include the prior authorization number with all claims submissions.

### **2.11.5.1 Managed Care Clients**

PCS services are carved-out of the Medicaid Managed Care Program for State of Texas Access Reform (STAR) clients and must be billed to TMHP for payment consideration. Carved-out services are those that are rendered to Medicaid Managed Care clients but are administered by TMHP and not the client's MCO. Claims for STAR Health, STAR Kids, and STAR+PLUS are not carved out and must be submitted to the client's MCO for payment consideration.

### **2.11.5.2 PCS for STAR Health Clients**

PCS for eligible STAR Health clients are authorized and processed by Superior HealthPlan.

Medicaid providers that want to provide PCS services to clients in the STAR Health program should contact Superior HealthPlan for information regarding the contracting and credentialing process at:

Superior HealthPlan - Network Development  
Telephone: 1-866-615-9399 Ext. 22534  
Email: shp-networkdevelopment@centene.com

## **2.11.6 Reimbursement**

Providers of PCS are reimbursed in accordance with 1 TAC §355.8441.

## 2.12 Community First Choice (CFC) Services

### 2.12.1 Enrollment

CFC providers, including providers offering the Service Responsibility Option (SRO), must be licensed and enrolled in Texas Medicaid and comply with all applicable federal, state, and local laws and regulations. When CFC is provided through the Consumer Directed Services (CDS) option by a Financial Management Services Agency (FMSA), the FMSA must be certified and enrolled in Texas Medicaid as a FMSA and must comply with all applicable federal, state, and local laws and regulations.

**Note:** CDS, FMSA, and SRO are defined in the Title 40 Texas Administrative Code (TAC), Part 1, Chapter 41. Licensure requirements for FMSA and SRO providers are defined in the Title 40 TAC, Part 1, Chapter 49.

**Note:** Any organization that employs attendants who provide CFC, and any organization serving as an FMSA, must comply with all documentation requirements as specified in CFC program policy.

All CFC providers must maintain written policies and procedures for obtaining consent for medical treatment for clients in the absence of a responsible adult that meet the standards of the Texas Family Code, Chapter 32.

Providers must only accept clients when there is a reasonable expectation and evidence that the client's CFC needs can be adequately met in the place of service.

The CFC provider is responsible for supervising the CFC attendant in accordance with the provider's licensure requirements.

**Note:** For CFC services delivered through a Department of Aging and Disability Services (DADS) 1915(c) waiver or through a managed care organization (MCO), providers must refer to DADS or the MCO for information about benefits, limitations, prior authorization, reimbursement, and specific claim processing procedures.

### 2.12.2 Services, Benefits, and Limitations

CFC services may be rendered by a Home Health Agency, PCS-only provider, Financial Management Services Agency (FMSA) under the CDS option, or by a Service Responsibility Option (SRO) Provider.

CFC is a benefit for Texas Medicaid fee-for-service clients who are birth through 20 years of age and who are:

- Eligible for medical assistance under the state plan
- Need help with activities of daily living; and
- Need an institutional level of care (to include hospital, nursing facility, intermediate care facility for clients with intellectual disabilities or institution of mental disease)

Services included are CFC personal assistance services, CFC habilitation, and CFC support management. CFC personal assistance services is the assistance with activities of daily living (ADLs) and instrumental activities of daily living (IADLs) through hands-on assistance, supervision, and/or cueing. CFC habilitation services are the acquisition, maintenance, and enhancement of skills necessary for the client to accomplish ADLs, IADLs, and health maintenance activities (HMAs). CFC support management is voluntary training on how to select, manage, and dismiss attendants.

CFC includes assistance with ADLs, IADLs and HMAs through hands-on assistance, supervision, or cueing. CFC also includes training on the acquisition, maintenance, and enhancement of skills necessary for the client to accomplish ADLs, IADLs, and HMAs.

ADLs are activities that include:

- Bathing—Assisting the client with any or all parts of bathing; selecting appropriate water temperature and flow speed, turning water on and off; laying out and putting away supplies; transferring in and out of bathtub or shower; washing and drying hair and body; clean up after task is completed.
- Dressing—Assisting the client with any or all parts of getting dressed; putting on, fastening, and taking off all items of clothing; donning and removing shoes or prostheses; choosing and laying out weather-appropriate clothing.
- Eating—Assisting the client with some or all parts of eating and drinking; feeding the client; assistance with utensils or special or adaptive eating devices; clean up after task is completed.
- Personal hygiene: Assisting the client with some or all parts of personal hygiene; routine hair care; oral care; ear care; shaving; applying makeup; managing feminine hygiene; washing and drying face, hands, perineum; basic nail care; applying deodorant; routine skin care; clean up after task is completed.
- Toileting—Assisting the client with some or all parts of toileting; using commode, bedpan, urinal, toilet chair; transferring on and off; cleansing; changing diapers, pad, incontinence supplies; adjusting clothing; clean up after task is completed.
- Locomotion or mobility—Assisting the client with moving between locations; assisting the client with walking or using wheelchair, walker, or other mobility equipment.
- Positioning—Assisting the client with positioning their body while in a chair, bed, or other piece of furniture or equipment; changing and adjusting positions; moving to or from a sitting position; turning side-to-side; assisting the client to sit upright.
- Transferring—Assisting the client with moving from one surface to another with or without a sliding board; moving from bed, chair, wheelchair, or vehicle to a new surface; moving to or from a standing or sitting position; moving the client with lift devices.

IADLs are activities that include:

- Telephone use or other communication—Assisting the client in making or receiving telephone calls; managing and setting up communication devices; making and receiving the call for the client.
- Grocery or household shopping—Shopping for or assisting clients in shopping for grocery and household items; preparing a shopping list; putting food and household items away; picking up medication and supplies.
- Light housework—Performing or assisting the client in performing light housework such as: Cleaning and putting away dishes; wiping countertops; dusting; sweeping, vacuuming or mopping; changing linens and making bed; cleaning bathroom; taking out trash.
- Laundry—Assisting the client with doing laundry; gathering, sorting, washing, drying, folding, and putting away personal laundry, bedding, and towels; removing bedding to be washed and remaking the bed; using a laundry facility.
- Meal preparation—Assisting clients in preparing meals and snacks; cooking; assembling ingredients; cutting, chopping, grinding, or pureeing food; setting out food and utensils; serving food; preparing and pouring a predetermined amount of liquid nutrition; cleaning the feeding tube; cleaning area after meal; washing dishes.
- Money management—Assisting the client with managing their day-to-day finances; paying bills; balancing checkbook; making deposits or withdrawals; assisting in preparing and adhering to a budget.

- Medication assistance or administration—Assisting the client with oral medications that are normally self-administered, including administration through a permanently placed feeding tube with irrigation.
- Escort or assistance with transportation services—Assisting the client in making transportation arrangements for medical and other appointments; accompanying the client to a health care appointment to assist with needed ADLs.

HMA's include tasks that may be exempt from delegation based on the Registered Nurse (RN) assessment that enables the client to remain in an independent living environment and go beyond ADLs because of the higher skill level in which they are required to perform. HMA's will be limited to those within the scope of CFC that include:

- Administering oral medications that are normally self-administered, including administration through a permanently placed feeding tube with irrigation.
- Topically applied medications.
- Insulin or other injectable medications prescribed in the treatment of diabetes mellitus administered subcutaneously, nasally, or via an insulin pump.
- Unit dose medication administration by way of metered dose inhaler (MDIs) including medications administered as nebulizer treatments for prophylaxis or maintenance.
- Routine administration of a prescribed dose of oxygen.
- Noninvasive ventilation (NIV) such as continuous positive airway pressure (CPAP) and bi-level positive airway pressure (BiPAP) therapy.
- The administering of a bowel and bladder program, including suppositories, enemas, manual evacuation, intermittent catheterization, digital stimulation associated with a bowel program, tasks related to external stoma care including but not limited to pouch changes, measuring intake and output, and skin care surrounding the stoma area.
- Routine preventive skin care and care of Stage 1 pressure ulcers.
- Feeding and irrigation through a permanently placed feeding tube inserted in a surgically created orifice or stoma.
- Those tasks that an RN may reasonably conclude as safe to exempt from delegation based on an assessment consistent with 22 Texas Administrative Code (TAC) §225.6 of this title (relating to the RN Assessment of the client).
- Reporting as to the client's condition, including changes to the client's condition or needs and completing appropriate record.
- Skin care: Maintenance of the hygienic state of the client's skin under optimal conditions of cleanliness and comfort.
- Use of durable medical equipment (DME).
- Such other tasks as the Board of Nursing may designate.

Whether the client has a physical, cognitive, or behavioral limitation related to a disability or chronic health condition that inhibits the client's ability to accomplish ADLs, IADLs, or HMA's, the following needs and conditions of the responsible adult will be considered in the determination of hours for CFC personal assistance services:

- The responsible adult's need to sleep, work, attend school, and meet their own medical obligations
- The responsible adult's legal obligation to care for, support, and meet the medical, educational, and psychosocial needs of other dependents

- Whether requiring the responsible adult to perform the CFC personal assistance services will put the client's health or safety in jeopardy
- The time periods during which the CFC personal assistance services tasks are required by the client, as they occur over the course of a 24-hour day and a seven-day week.
- Whether or not the need to help the family perform CFC personal assistance services on behalf of the client is related to a medical, cognitive, or behavioral condition that results in a level of functional ability that is below that expected of a typically developing child of the same chronological age

CFC also includes training on the acquisition, maintenance, and enhancement of the following additional habilitation needs:

- Community integration—Client may need assistance finding, participating in and accessing community activities or community services such as free meal programs, churches, parks or self-advocacy training or events.
- Use of adaptive equipment—Client may need assistance operating, learning to use, or accessing adaptive equipment.
- Personal decision-making—Client may need assistance making decisions for him or herself, including assistance in assessing what is important to that client, pros and cons, as well as consequences.
- Reduce challenging behaviors to allow clients to accomplish ADLs, IADLs, and HMAs—Client may need assistance in increasing positive social encounters and engagement in preferred activities. Client may have challenging behaviors that can be reduced through behavior support plans, prompting, rewards, or redirection among others.
- Socialization/relationship development—Client may need assistance with development and maintenance of relationships or appropriate social behaviors.
- Accessing leisure and recreational activities—Client may need assistance identifying, finding, or accessing activities they would like to participate in during leisure time.

CFC does not include the following:

- Direct intervention to perform a task the client has the physical, behavioral, and cognitive abilities to perform;
- Skilled nursing services, or the supervision of delegated nursing tasks as described in the Texas Nurse Practice Act, the Act's implementing regulations, the Texas Medicaid Provider Procedures Manual sections for Private Duty Nursing (PDN) Services - THSteps - Comprehensive Care Program (CCP) and Home Health Skilled Nursing and Home Health Aide Services;
- Costs associated with purchasing products for ADLs or IADLs;
- Services used for or intended to provide respite care, child care, or restraint of a client;
- Duplication of services provided by another program;
- Tasks that a typically developing child of the same chronological age could not safely and independently perform without adult supervision;
- Services provided in an institutional setting including hospitals, nursing facilities, psychiatric hospitals, or intermediate care facilities for clients with intellectual or developmental disabilities.

CFC is considered for reimbursement when billed with procedure code T1019 in conjunction with the appropriate modifier listed in the following table. CFC provided by a home health agency or PCS-only provider, including CFC being provided under the SRO defined in 40 TAC Part 1, Chapter 41, must be billed in 15-minute increments. CFC provided by a FMSA under the CDS option defined in 40 TAC Part 1, Chapter 41, must submit the attendant fee in 15-minute increments.

| <b>CFC Procedure Codes</b>             |   |
|--|---|
| <b>All CFC Providers (except FMSA)</b> |   |
| Procedure Code                         | T1019   |
| Modifier                               | UD (CFC —client needs attendant care only, each 15 minutes)   |
|  | U9 (CFC—client needs habilitation only, or attendant and habilitation, each 15 minutes)   |
| Procedure Code                         | T1019   |
| Modifier                               | U3 (CFC attendant care for PCS - CDS Option, each 15 minutes)<br><b>Note:</b> This modifier will be used for individuals receiving attendant care only.           |
|  | U4 (CFC Habilitation for PCS - CDS Option, each 15 minutes)<br><b>Note:</b> This modifier will be used for individuals receiving attendant care and habilitation. |
|  | U5 (CFC CDS, per month)<br><b>Note:</b> This modifier is used for the administrative fee for CFC provider under the CDS option.                                   |

FMSAs must bill the administration fee once per calendar month per client for any month in which the client receives CFC under the CDS option and regardless of the number of CFC units of service the client receives under the CDS option during the month. CFC claims are considered for reimbursement only when TMHP has issued a valid PAN to a CFC provider.

Home health agencies and Personal Care Services (PCS) providers that provide PCS and Community First Choice (CFC) Services in the home setting may be reimbursed for nurse evaluation and supervision using procedure code G0162.

The following limitations apply for procedure code G0162:

- For a registered nurse (RN) assessment, procedure code G0162 (without modifier) is limited to three hours per day (12 to 15 minute increments) and two occurrences per rolling year for any provider.
- For training and supervision of the attendant, procedure code G0162 must be billed with modifier U1 and is limited to three hours (12 to 15 minute increments) per 30 days for any provider.

**Note:** Training and supervision and an RN assessment may be billed on the same day.

Prior authorization is not required for procedure code G0162.

### **2.12.2.1 Place of Service**

CFC may be provided in the following settings:

- Client's home;
- Client's school;

- Client's daycare facility; or
- Other community setting in which the client is located.

**Note:** For claims filing purposes, the CFC provider must bill POS 2 (home) when submitting claims to TMHP.

Texas Medicaid does not reimburse providers for CFC services that duplicate services that are the legal responsibility of school districts. The school district, through the School Health and Related Services (SHARS) program, is required to meet the client's personal care needs while the client is at school. If those needs cannot be met by SHARS or the school district, the school district must submit documentation to the DSHS case manager indicating the school district is unable to provide all medically necessary services.

### **2.12.3 CFC Attendant and Habilitation Services in Group Settings**

CFC may be provided in a provider to client ratio other than one-to-one. Settings in which providers can provide CFC in a provider to client ratio other than one-to-one include homes with more than one client needing CFC, foster homes, and independent living arrangements. A CFC provider may provide CFC to more than one client over the span of the day as long as:

- Each client's care is based on an individualized service plan.
- Each client's needs and service plan do not overlap with another client's needs and service plan.
- Only the time spent on authorized CFC tasks for each client is eligible for reimbursement. Total CFC billed for all clients cannot exceed an individual attendant's total number of hours at the place of service.

When there is more than one client within the same household receiving CFC, the Department of State Health Services (DSHS) case manager will synchronize authorizations within the households for all eligible clients. The DSHS case manager will assess all eligible clients in the home and submit authorizations for all eligible clients in the household for the same authorization period. DSHS case managers will communicate with the provider the actions that are being taken using the existing Communication Tool.

### **2.12.4 Prior Authorization**

Prior authorization is required before services are provided. All CFC must be prior authorized by a DSHS case manager based upon client need, as determined by the client assessment. DSHS prior authorizes CFC for eligible clients. The DSHS case manager notifies TMHP of the authorized quantity of CFC. TMHP sends a notification letter with the prior authorization number (PAN) to the client or responsible adult and the selected CFC provider if CFC is approved or modified. Only the client or responsible adult receives a notification letter with an explanation of denied services. CFC is prior authorized for periods of up to twelve months. CFC providers must provide services from the start of care date agreed to by the client or responsible adult, the case manager, and the CFC provider.

When DSHS has approved CFC services, DSHS will send the client's selected CFC provider: A CFC Communication tool, specifying the approved hours and CFC tasks and a copy of the Personal Care Assessment Form (PCAF) CFC Addendum, which documents that client's goals and preferences for the delivery of CFC services. The CFC provider may receive a Practitioner's Statement of Need (PSON) for the client, but this form is not required documentation for CFC and is intended merely for informational purposes.

When a client experiences a change in condition, the client or responsible adult must notify the DSHS Health Service Office in the client's region. A DSHS case manager must perform a new assessment and prior authorize any revisions in the quantity of CFC based on the new assessment. TMHP issues a revised authorization and notifications are sent to the client or responsible adult and the selected CFC provider. If the change is made during a current prior authorization period, the new prior authorization will maintain the same end date as the original prior authorization period. The revised authorization period will begin on the start of care date stated in the new assessment.

For ongoing CFC needs beyond the initial prior authorization period of up to twelve months, a DSHS case manager must conduct a new assessment and submit a new authorization request to TMHP. A new in-home assessment must be conducted every twelve months with the client. TMHP will send a notification letter updating the prior authorization to the client, responsible adults, and the selected CFC provider. HHSC or its designee may suspend an authorization for CFC when either:

- The client or the client's family creates an unsafe environment for the attendant's health and safety; or
- The provider requests suspension for the reasons outlined in 40 TAC Part 1, Chapter 41.

Providers can call a toll-free Provider Inquiry Line at 1-888-648-1517 for assistance with inquiries about the status of a CFC prior authorization. Providers should direct inquiries about other Medicaid services to the TMHP Contact Center at 1-800-925-9126. CFC providers should encourage the client or responsible adult to contact the appropriate DSHS Health Service Region with inquiries or concerns about the CFC assessment.

#### **2.12.4.1 CFC Provider Responsibilities**

CFC providers must comply with all applicable federal, state, and local laws and regulations. All CFC providers must maintain written policies and procedures for obtaining consent for medical treatment in the absence of the responsible adult. The procedure and policy must meet the standards of the Texas Family Code, Chapter 32. Providers must accept clients only when there is a reasonable expectation and evidence that the client's needs may be adequately met in the place of service (POS). The POS must be able to support the client's health and safety needs and adequately support the use, maintenance, and cleaning of all required medical devices, equipment, and supplies. Necessary primary and backup utility, communication, and fire safety systems must be available in the POS. The CFC provider is responsible for the supervision of the CFC attendant as required by the CFC provider's licensure requirements.

#### **2.12.4.2 Documentation Requirements**

Documentation elements are routinely assessed for compliance in retrospective review of client records, including the following:

- All entries are legible to people other than the author, dated (month, day, year, time), and signed by the author.
- Each page of the record documents the client's name and Medicaid identification number.
- All attendants' arrival and departure times are documented with signature and time.
- Documentation of services correlates with, and reflects medical necessity for, the services provided on any given day.
- Client's arrival or departure from the home setting is documented with the time of arrival, departure, mode of transportation, and who accompanied the client.

#### **2.12.5 Claims Information**

TMHP processes CFC claims. CFC providers must submit claims for services in an approved electronic claims format or on the appropriate claim form based on their provider type. CFC providers, other than home health agencies, that are enrolled as PAS-only providers, FMSAs, or SRO providers must file CFC claims using a CMS-1500 paper claim form. Home health agencies, including those enrolled as an FMSA, or an SRO provider, must file PCS claims using the UB-04 CMS-1450 paper claim form.

TMHP does not supply the forms. Home health agencies and consumer-directed agencies that bill for CFC using procedure code T1019 must include the prior authorization number on claims submitted for reimbursement. Additionally, providers utilizing paper, TexMedConnect, or billing through EDI must include the prior authorization number with all claims submissions.

### 2.12.5.1 Managed Care Clients

CFC services are carved-out of the Medicaid Managed Care Program for State of Texas Access Reform (STAR) clients and must be billed to TMHP for payment consideration. Carved-out services are those that are rendered to Medicaid Managed Care clients but are administered by TMHP and not the client's MCO. Claims for STAR Health and STAR+PLUS are not carved out and must be submitted to the client's MCO for payment consideration.

## 2.13 Private Duty Nursing (PDN)(CCP)

**Referto:** *The Home Health Nursing and Private Duty Nursing Services Handbook (Vol. 2, Provider Handbooks)* for information about private duty nursing (PDN) (CCP) services.

## 2.14 Prescribed Pediatric Extended Care Centers (PPECC) (CCP)

PPECC services may be a benefit of the Texas Health Steps (THSteps) Comprehensive Care Program (CCP) for Medicaid clients who are:

- 20 years of age and younger;
- THSteps - CCP eligible;
- Medically or technologically dependent;

**Note:** *The term "medically dependent or technologically dependent client" does not include a minor or occasional medical condition that does not require continuous nursing care, including asthma or diabetes, or a condition that requires an epinephrine injection.*

- Have an acute or chronic condition;
- Require ongoing skilled nursing care beyond the level of Skilled Nursing (SN) visits normally authorized under Texas Medicaid Home Health Skilled Nursing (HHSN) and Home Health Aide (HHA) Services;
- Meet the medical necessity criteria for admission to a PPECC detailed in the authorization and medical necessity requirements, including a prescription from the client's ordering physician, and;
- Have chosen to receive PPECC services.

A PPECC does not provide emergency services. PPECCs must follow the safety provisions in state PPECC licensure requirements, including the adoption and enforcement of policies and procedures for a client's medical emergency. PPECCs must call for emergency transport to the nearest hospital when emergency services are needed by a PPECC client.

### 2.14.1 Services, Benefits, and Limitations

PPECC services are provided in a non-residential facility licensed by the Texas Department of Aging and Disability Services (DADS). PPECCs serve four or more medically dependent or technologically dependent clients who are 20 years of age or younger and who require ongoing skilled nursing prescribed by the client's physician to avert death or further disability or require the routine use of a medical device to compensate for a deficit in life-sustaining body function.

Services must be included in a PPECC plan of care (POC) and are limited to no more than 12 hours in a 24-hour period. PPECC services may not be provided overnight. PPECC services are intended as an alternative to private duty nursing (PDN). When the services duplicate, PPECC services must be a one-to-one replacement of private duty nursing (PDN) hours, unless additional hours are medically necessary.

PPECCs must comply with:

- Medicaid program rules, as well as PPECC licensing statute and rules;

- Mandatory reporting of suspected abuse and neglect of children;
- Texas Medicaid provider participation requirements; and
- The requirements of the TMPPM.

Clients who receive PPECC services through THSteps-CCP require ongoing medical supervision by the ordering physician who has a therapeutic relationship with and ongoing clinical knowledge of the client. A face-to-face evaluation must be performed each year by the ordering physician for each client. A physician order is required for each authorization period including initial, revisions, and recertification. A physician in a relationship with a PPECC (employed by or contracted with a PPECC) cannot provide the physician's order, unless the physician is the client's treating physician and has examined the client outside of the PPECC setting.

The following services may be rendered at a PPECC, but are not considered part of the PPECC services covered by Texas Medicaid, and must be billed separately by Medicaid-enrolled service providers:

- Speech, physical, and occupational therapies
- Certified respiratory care practitioner services
- Early intervention services provided through the Early Childhood Intervention (ECI) program, which are subject to ECI policies.

When the client's plan of care indicates that therapy services are required while the client is at the PPECC, clients must be provided a choice in speech, occupational, and physical therapy providers, as well as certified respiratory care providers. PPECC providers must coordinate care with the therapy providers to ensure the client receives therapy services as required in the PPECC setting.

Clients from birth through 36 months of age must be given the option of receiving ECI services in addition to their PPECC services. The PPECC providers must coordinate care with the client's ECI service coordinator.

ECI services rendered in a PPECC are provided by entities that are contracted with the state to provide early intervention services.

When therapy services (occupational, speech, and/or physical therapy), or certified respiratory care services are rendered in a PPECC, they may be provided by:

- Medicaid-enrolled providers contracted with or employed by the PPECC or Medicaid-enrolled providers not employed by or contracted with the PPECC.
- Independent therapists
- Home health therapists
- Certified respiratory care providers

**Referto:** *The Physical Therapy, Occupational Therapy, and Speech Therapy Services Handbook (Vol. 2, Provider Handbooks)* for additional information about CCP therapy services.

**Referto:** *The Certified Respiratory Care Practitioner (CRCP) Services Handbook (Vol. 2, Provider Handbooks)* for information about CRCP (CCP) services.

An admission authorized under this section is not intended to supplant the right of a client to access private duty nursing (PDN), personal care services (PCS), home health skilled nursing (HHSN), home health aide (HHA), and therapies (PT, OT, ST), as well as certified respiratory care practitioner services and early childhood intervention (ECI) services rendered in the client's residence when medically necessary.

PPECC providers must collaborate and coordinate care with the client's existing service providers, including physicians, therapists, certified respiratory care practitioners, and home health agencies rendering services such as private duty nursing and/or home health skilled nursing, home health aide services, personal care services, hospice, and other providers who render medically necessary services. The PPECC must ensure the provision of the following basic services:

- The development, implementation, and monitoring of a comprehensive POC in collaboration with the client or the client's responsible adult that addresses the client's medical, nursing, psychosocial, therapeutic, and developmental services, including the following prescribed services:
  - Skilled nursing
  - Personal care services to assist with activities of daily living or instrumental activities of daily living while in the PPECC
  - Functional developmental services
  - Nutritional and dietary services, including nutritional counseling

**Note:** *Nutritional services must comply with standards in DADS licensure rules related to nutritional counseling and dietary services.*

- Occupational, physical and speech therapy
- Respiratory care
- Psychosocial services
- Physician's oversight of services
- The POC must also include the following, as applicable:
  - Training for the client's responsible adult associated with caring for a medically or technologically dependent client.
  - Transportation services needed by a client to access PPECC services.
    - Transportation must be provided by a PPECC when a client has a stated need or a prescription for transportation to the PPECC.
    - When a PPECC provides transportation to a PPECC client, Registered Nurse (RN) or Licensed Vocational Nurse (LVN) employed by the PPECC must be on board the transport vehicle.
    - The client does not need to be accompanied by the client's responsible adult when a PPECC provides transportation.
    - When a client has a stated need or prescription for transportation, the client must be able to utilize transportation services offered by the PPECC with the assistance of a PPECC nurse to and from the PPECC, rather than a non-emergency ambulance.
    - A non-emergency ambulance may not be utilized for transport to and from a PPECC.

**Note:** *A client may decline a PPECC's transportation, and choose to be transported by other means, including his or her responsible adult.*

- Direct care staff, defined in licensure regulations, provides assistance with personal care services.
- PPECC services must be:
  - Individualized, specific, and consistent with symptoms or confirmed diagnosis of the condition, illness or injury under treatment, not in excess of the client's needs;
  - Consistent with generally accepted professional medical standards as determined by the Medicaid program and may not be experimental or investigational;

- Reflective of the level of service that can be safely and effectively furnished;
- Furnished in a manner not primarily intended for the convenience of the client, the client's responsible adult, or the provider.

**Note:** *The fact that a client's ordering physician has prescribed, recommended, or approved medical care, goods or services does not, in itself, make such care or services medically necessary or a covered service.*

### **2.14.1.1 Prior Authorization and Documentation Requirements**

Prior authorization is required for PPECC services, excluding PPECC transportation. All requests for PPECC services must be based on the client's current medical needs. Texas Medicaid defines medically necessary THSteps services as health care, diagnostic services, treatments, and other measures necessary to correct or ameliorate any disability, physical or mental illness, or chronic conditions.

Documentation of medical necessity is required for PPECC services. PPECC services are considered medically necessary when a client meets all of the following admission criteria:

- Eligible for THSteps-CCP;
- 20 years of age or younger;
- Requires ongoing skilled nursing care and supervision, skillful observations, judgments and therapeutic interventions all or part of the day to correct or ameliorate health status;
- Considered to be a medically dependent or technologically dependent client in accordance with Texas Health and Safety Code chapter 248A;
- Stable for outpatient medical services, and does not present significant risk to other clients or personnel at the PPECC;
- Requires ongoing and frequent skilled interventions to maintain or ameliorate health status, and delayed skilled intervention is expected to result in:
  - Deterioration of a chronic condition;
  - Loss of function;
  - Imminent risk to health status due to medical fragility; or
  - Risk of death.
- Has a prescription for PPECC services signed and dated by an ordering physician who has personally examined the client within 30 calendar days prior to admission and reviewed all appropriate medical records;
- Has consent for the client's admission to the PPECC signed and dated by the client or the client's responsible adult. Admission must be voluntary and based on the preference for PPECC services in place of PDN by the client or client's responsible adult in both managed care and non-managed care service delivery systems.
- Resides with the responsible adult and does not reside in any 24-hour inpatient facility, including the following:
  - General acute hospital
  - Skilled nursing facility
  - Intermediate care facility
  - Special care facility, including sub-acute units or facilities for the treatment of AIDS.

- The PPECC will hold interdisciplinary conferences when PPECC services are initiated, recertified, or revised, and at least every 90 calendar days. Interdisciplinary conferences should include the client's responsible adult and the following, as applicable:
- The client's Department of Family and Protective Services case worker.
- The client's therapy provider(s) and
- Hospice provider.

**Note:** For clients who receive their PPECC services through a Medicaid managed care organization, the MCO service coordinator and/or service manager should be included in interdisciplinary conferences.

When the sole purpose of PPECC services is to train and educate the client's responsible adult or the client (e.g., how to administer total parenteral nutrition (TPN) or how to manage a chronic condition), PPECC services will not be approved.

Training in a home setting for certain services such as how to administer TPN may be considered through intermittent home health skilled nursing visits.

**Referto:** The *Home Health Nursing and Private Duty Nursing Services Handbook (Vol. 2, Provider Handbooks)* for more details on training and education for the client or the client's responsible adult on TPN administration in a home setting.

#### 2.14.1.1.1 Initial Authorization Requests

Initial requests may be prior authorized for a maximum of 90 calendar days. Requests for the prior authorization, including all required documentation, must be submitted to the Texas Medicaid Claims Administrator by electronic portal, fax, or mail no later than 3 business days following the start of care (SOC). Requests received after the 3 business day period allowed will be denied for dates of service (DOS) that occurred before the date the request is received.

When PPECC services are authorized, the authorized period begins on the day of the week that prior authorization starts. For example, if services hours are authorized on a weekly basis, the period would begin from the day of the week the prior authorization period begins and continue for 7 calendar days. PPECC services may be authorized on a daily, weekly, or hourly basis.

Consistent with PPECC licensure requirements, an initial nursing assessment must be completed, signed and dated by the PPECC Registered Nurse (RN) no earlier than 3 business days before the SOC at the PPECC. The initial nursing assessment must be performed by a PPECC RN and cannot be delegated. The initial nursing assessment is used to establish the POC and must support medical necessity for the client to receive on-going skilled nursing care. The assessment must include, but is not limited to the following:

- Complexity and intensity of the client's care;
- Stability and predictability of the client's condition;
- Frequency of the client's need for skilled nursing services;
- Identified medical, nursing, psychosocial, therapeutic, nutritional, dietary, functional, educational, and developmental needs and goals, and any training needs for the client or the client's responsible adult;
- Description of wounds, if present;
- The client's equipment needs and whether the setting can support the health and safety needs of the client and is adequate to accommodate the use, maintenance, and cleaning of all medical devices, equipment, and supplies required by the client;
- The comprehension level of the client's responsible adult; and

- Receptivity to training and ability level of the responsible adult.

**Note:** *The PPECC provider may be asked to submit additional documentation to support medical necessity as defined in this section.*

Initial prior authorization requests for PPECC services must include the following documentation:

- A completed CCP Prior Authorization Request form signed and dated by the ordering physician.
- A completed Prescribed Pediatric Extended Care Center (PPECC) Plan of Care (POC) form signed and dated by the ordering physician, the PPECC RN completing the POC, and client or client's responsible adult. A PPECC may also submit the POC on their own form, but the POC must contain the elements listed in this section. A written or verbal physician approval of the POC from the ordering physician must be in place by the SOC. If the PPECC has a verbal approval of the POC at the time the prior authorization request is submitted, the dated documentation of this POC verbal approval must be submitted with the POC, followed by the physician-signed and dated POC within 14 calendar days from receipt by the Texas Medicaid Claims Administrator.
- A completed Nursing Addendum to Plan of Care for Private Duty Nursing and/or Prescribed Pediatric Extended Care Centers form signed and dated by the ordering physician, RN completing the assessment, and client or client's responsible adult. This completed form must include:
  - Updated problem list
  - Updated rationale and summary page
  - A contingency plan
  - A 24-hour daily care flow sheet
  - Physician and client acknowledgment
  - A written or verbal order for PPECC services from the ordering physician. A physician's order (written or verbal) must be in place by the SOC. If the PPECC has a verbal order at the time the prior authorization request is submitted, dated documentation of this verbal order must be submitted separately, or it must be included on the POC.
- Per PPECC licensure requirements, the physician order must include:
  - Client's name, date of birth, gender, and Medicaid ID number
  - Provider name, address, phone number, TPI number, and NPI number
  - Date the client was last seen by the physician
  - Description of current medical diagnosis or condition
  - Nursing services
  - Medication administration, if applicable
  - Dietary needs, if applicable
  - Permitted activities, if applicable
  - Therapies, if applicable
  - Transportation authorization, if applicable
  - Other services, if applicable
  - Approval of the client's admission to the PPECC.

**Note:** *For authorization purposes, a physician signature on the PPECC plan of care serves as the physician order. However, the physician order as outlined above must be maintained in the client's medical records.*

- Signed and dated consent of the client or client's responsible adult documenting his/her choice of PPECC services. The signed consent must include an acknowledgement by the client or the client's responsible adult that he/she has been informed that their private duty nursing might be reduced as a result of accepting PPECC services. Consent to share the client's personal health information with the client's other providers to ensure coordination of care must also be obtained.
- A client signature on the Nursing Addendum to Plan of Care for Private Duty Nursing and/or Prescribed Pediatric Extended Care Centers form meets the client consent requirements.
- The POC must be developed by a PPECC RN, in collaboration with an interdisciplinary team, in compliance with PPECC licensure requirements. The POC, using either the Prescribed Pediatric Extended Care (PPECC) POC form or a PPECC-developed form, must include the following components:
  - The client's name, date of birth and Medicaid number;
  - The PPECC's name, TPI, NPI, and hours of operation, as well as address, phone, and fax numbers
  - The ordering physician's name, phone number, TPI and NPI
  - Date the PPECC nursing assessment was completed and name, title, and credentials of the RN who completed the POC and his/her dated signature
  - Name, title and credentials of the team member who completed the POC and his/her dated signature
  - Date the client was last seen by the ordering physician
  - The requested SOC date for PPECC services
  - All pertinent diagnoses and known allergies
  - Nursing services to be provided, including amount, duration, and frequency
  - The client's prognosis
  - The client's mental status
  - Rehabilitation potential
  - The equipment and/or supplies required
  - Therapies (occupational, physical, speech, and respiratory care), including how those therapies are accessed, amount, duration, and frequency. Therapies provided in the PPECC, as well as outside the PPECC (e.g., school based), must be documented.
  - Other prescribed services, including amount, duration, and frequency
  - Nutritional requirements, including type, method of administration, and frequency
  - Medications, including the dose, route, frequency and any medication-related allergies if known
  - Treatments, including amount and frequency
  - Wound care orders and measurements
  - Safety measures to protect against injury
  - Functional developmental services and psychosocial services, including amount, duration and frequency
  - Name, phone number and signature of responsible adult when the client is a minor child
  - Client emergency contact name and phone number

- Confirmation that a signed contingency plan is in place in circumstances when PPECC services are not available (e.g., fire, flood, windstorm, or electrical malfunctions), and for emergencies that occur while the client is in the care of the PPECC
- List of services the client receives in the home and school settings. (e.g., ECI, therapies, school-based services (SHARS), PCS, PDN, therapies, skilled home health, case management services, hospice, and Medicaid waiver programs such as Medically Dependent Children's Program (MDCP), Home and Community-Based Services (HCS), Deaf-Blind Multiples Disabilities (DBMD), Texas Home Living (Uxmal), and Community Living Assistance and Support Services (CLASS)).

**Note:** *Services provided under these programs will not prevent a client from obtaining medically necessary services.*

- Client-specific measurable goals, including, if receiving PDN, the goal of ensuring coordination of ongoing skilled nursing services with the PDN provider, if receiving PDN
- Responsible adult training needs
- Prior and current functional or medical limitations
- Permitted activities
- Client's scheduled days and hours of attendance
- Confirmation of a discharge plan, including instructions for timely discharge or referral
- Emergency contact information
- Method of transportation
- Private Duty Nursing provider name, TPI, NPI, phone, address and fax number, if known
- Ordering physician signature and date of signature

The ordering physician, PPECC RN and client or client responsible adult signatures must be current. Current is defined as signed and dated within the 30 calendar day period before the SOC. To be current, the ordering physician's dated signature must be within the 14 calendar day period following the receipt of the authorization request by the Texas Medicaid claims administrator, when services are initiated by verbal order. All the following documentation requires the ordering physician's signature with date, the CCP Prior Authorization Request form, the Prescribed Pediatric Extended Care Center (PPECC) Plan of Care, and the Nursing Addendum to Plan of Care for Private Duty Nursing and/or Prescribed Pediatric Extended Care Centers form.

If documentation is submitted solely with the ordering physician's verbal order, it must be resubmitted with the ordering physician's dated signature within 14 calendar days of the receipt of the authorization request by the Texas Medicaid Claims Administrator.

If the request is not received with a dated physician signature within 14 calendar days of the receipt of the authorization request by the Texas Medicaid Claims Administrator, the prior authorization will be considered incomplete and will be denied.

When there is documentation of a verbal order, if all required documentation is not signed and dated by the ordering physician and received by the Texas Medicaid Claims Administrator within 14 calendar days of the receipt of the authorization request, claims with dates of services prior to the receipt of the signed and dated documentation will be denied.

Requests for authorizations of PPECC services should always be commensurate with the client's medical needs.

- The length of the authorization is determined on an individual basis and is based on the goals and timelines identified by the physician, provider, and client or responsible adult. PPECC services will not be authorized for more than 90 calendar days from the SOC for an initial authorization.

**Note:** *Clients enrolled in a Medicaid managed care health plan may receive services from a PPECC. Authorization must be received from the health plan.*

#### 2.14.1.1.2 Revisions to the Plan of Care

The PPECC provider may request a revision to the plan of care at any time during an authorization period. Requests for changes in the service hours during a current authorization period should be submitted if there is a change in the client's condition, or the authorized services are not commensurate with the client's medical needs and additional authorized hours are medically necessary.

**Note:** *Schedule changes that do not affect overall authorized ongoing skilled nursing hours do not require a revision authorization request, but must be documented in the client's medical record.*

Requests for revisions must be submitted to the Texas Medicaid Claims Administrator as soon as the PPECC identifies the need for a revision. Revision requests may be submitted by electronic portal, fax, or mail.

Requests for revisions must be submitted within 3 business days of the revised SOC date. Requests received after the 3 business days will be denied for dates of service that occurred before the request is received.

When a client's condition changes during the course of the authorization period that impacts the amount or duration of services, a reassessment performed by a PPECC RN is required. A reassessment is not necessary if there is not a change in the client's condition.

The PPECC provider must notify the Texas Medicaid Claims Administrator and the client's ordering physician at any time during an authorization period if the client's condition changes, the authorized services are not commensurate with the client's medical needs, and the client requires additional hours of ongoing skilled nursing services. Submission of a revision authorization request, with physician signatures on required documentation, meets the notification requirement.

Revisions require all the following documentation:

- A completed CCP Prior Authorization Request form signed and dated by the ordering physician.
- An updated Prescribed Pediatric Extended Care Center (PPECC) Plan of Care form signed and dated by the ordering physician, the PPECC RN completing the POC, and client or client's responsible adult. A PPECC may also submit the POC on its own form, but the POC must contain all required elements listed under Initial Authorizations in this section. A written or verbal physician approval of the POC from the ordering physician must be in place by the revised SOC. If the PPECC has a verbal approval of the POC at the time the prior authorization request is submitted, the dated documentation of this POC verbal approval must be submitted with the POC, followed by the physician signed and dated POC within 14 calendar days from the receipt of the authorization request by the Texas Medicaid Claims Administrator.
- A completed Nursing Addendum to Plan of Care for Private Duty Nursing and/or Prescribed Pediatric Extended Care Centers form signed and dated by the ordering physician, RN completing the assessment, and client or client's responsible adult. This completed form must include:
  - Updated problem list
  - Updated rationale and summary page
  - A contingency plan
  - A 24-hour daily care flow sheet

- Physician and client acknowledgment
- A written or verbal order for PPECC services from the ordering physician. A physician's order (written or verbal) must be in place by the revised SOC. If the PPECC has a verbal order at the time the prior authorization request is submitted, dated documentation of this verbal order must be submitted separately or it must be included on the POC. The signed, dated order must be received within 14 calendar days of the receipt of the authorization request by the Texas Medicaid Claims Administrator.

**Note:** *For authorization purposes, a physician signature on the PPECC plan of care serves as the physician order. However, the physician order, as detailed in "Initial Authorizations," must be maintained in the client's medical records.*

- Signed and dated consent of the client or client's responsible adult documenting his/her choice of PPECC services. The signed consent must include an acknowledgment by the client or the client's responsible adult that he/she has been informed that their private duty nursing might be reduced as a result of accepting PPECC services. Consent to share the client's personal health information with the client's other providers to ensure coordination of care must also be obtained.

**Note:** *A client signature on the Nursing Addendum to Plan of Care for Private Duty Nursing and/or Prescribed Pediatric Extended Care Centers form meets the client consent requirements.*

- The ordering physician, PPECC RN, and client or client responsible adult signatures must be current. Current is defined as signed and dated within the 30 calendar day period before the SOC. To be current, the ordering physician dated signature may be submitted within the 14 calendar day period following the receipt of the authorization request by the Texas Medicaid Claims Administrator, when services are initiated by verbal order. All the following revision documentation requires the ordering physician's dated signature: the CCP Prior Authorization Request Form, the Prescribed Pediatric Extended Care Center (PPECC) Plan of Care form, and the Nursing Addendum to Plan of Care for Private Duty Nursing and/or Prescribed Pediatric Extended Care Centers form.
- Revisions during a current authorization period must fall within that authorization period. If the revision is requested beyond the existing authorization period, the provider must request a recertification authorization and submit all required documentation for a recertification.

When there is a revision request, and documentation is submitted solely with the ordering physician's verbal order, it must be resubmitted with the ordering physician's signature and date within 14 calendar days of the receipt of the authorization request by the Texas Medicaid Claims Administrator. If the request is not received with a dated physician signature within 14 calendar days of the receipt of the authorization request by the Texas Medicaid Claims Administrator, the prior authorization will be considered incomplete and will be denied.

When there is documentation of a verbal order and all of the required documentation is not signed and dated by the ordering physician and received by TMHP within 14 calendar days of the receipt of the authorization request by the Texas Medicaid Claims Administrator, claims with dates of services prior to receipt of the signed and dated documentation will be denied.

#### 2.14.1.1.3 PPECC Provider Change During an Existing Authorization Period

If a provider or client discontinues PPECC services during an existing prior authorized period and the client requests services through a new PPECC provider, the new PPECC provider must follow all of the processes and submit documentation required for an initial request, as well as the following:

A change of provider letter signed and dated by the client or the client's responsible adult documenting the date the client ended PPECC services (effective date of the change) with the previous provider, the names of the previous and new providers, and an explanation of why providers were changed.

When the new provider submits an authorization request, including all required documentation for an initial request, it will be authorized for no more than 90 calendar days. Regardless of the number of provider changes, clients may not receive PPECC services beyond the limitations outlined in this section.

#### 2.14.1.1.4 Recertification

A recertification is a new authorization period that may be approved for up to a maximum of 180 calendar days when the client meets medical necessity criteria. Revision requests may be submitted by electronic portal, fax, or mail. The client or the client's responsible adult, physician, and PPECC provider must agree in writing that the recertification is appropriate each certification period.

An updated nursing assessment must be performed by the PPECC RN no more than 30 calendar days before the current authorization period expires. If there is no change in the client's condition, the POC must document medical necessity to support continued PPECC services.

A recertification request must be submitted no more than 30 calendar days and no fewer than 7 calendar days before a current authorization period will expire. Requests received after the current authorization expires will be denied for dates of service that occurred before the date the request is received. The following documentation is required for a recertification request:

- A completed CCP Prior Authorization Request form signed and dated by the ordering physician within 30 calendar days prior to the SOC date.
- A completed Prescribed Pediatric Extended Care Center (PPECC) Plan of Care form, signed and dated by the ordering physician, the PPECC RN completing the POC, and client or client's responsible adult within 30 calendar days prior to the SOC date. A PPECC may also submit the POC on their own form, but the POC must contain the elements listed under "Initial Authorization Request" requirements in this section.
- The PPECC provider is responsible for ensuring that the ordering physician reviews and signs the POC within 30 calendar days of the expiration of the authorization period and this documentation must be maintained in the client's record.
- A completed Nursing Addendum to Plan of Care for Private Duty Nursing and/or Prescribed Pediatric Extended Care Centers form signed and dated by the ordering physician, RN completing the assessment, and client or client's responsible adult within 30 calendar days prior to the SOC date. The addendum must include an updated 24-hour nursing services flow sheet and if there are changes, an updated problem list, and updated rationale summary page, a contingency plan, and a signed physician and client acknowledgment.
- A written order for PPECC services signed and dated by the client's ordering physician. A physician's order must be in place by the SOC.

**Note:** *For authorization purposes, a physician signature on the PPECC plan of care serves as the physician order. However, the physician order, with elements outlined in "Initial Authorization Requests," must be maintained in the client's medical record.*

- Signed, dated consent of the client or client's responsible adult documenting their choice of PPECC services. The signed consent must include an acknowledgment by the client or the client's responsible adult that he/she has been informed that other services such as private duty nursing might be reduced as a result of accepting PPECC services. Signed and dated consent to share the client's personal health information with the client's other providers, as needed to ensure coordination of care, must also be obtained.

**Note:** *A client signature on the Nursing Addendum to Plan of Care for Private Duty Nursing and/or Prescribed Pediatric Extended Care Centers form meets the client consent requirements.*

The provider may request a revision of a recertification at any time during the recertification period. Revisions must follow the instructions outlined under Revisions in this section. The provider must notify the claims administrator at any time during a recertification period if the client's condition changes and the authorized services are not commensurate with the client's medical needs.

All authorization timelines apply to recertification.

#### 2.14.1.1.5 Termination of Authorizations

Authorization for PPECC services will be terminated when:

- The client is no longer eligible for THSteps-CCP.
- The client no longer meets the medical necessity criteria for PPECC services.
- The place of service cannot ensure the health and safety of the client.
- The client or the client's responsible adult refuses to comply with the service plan and compliance is necessary to assure the health and safety of the client.
- The client changes providers, and the change of notification is submitted to the claims administrator in writing with a PA request from the new provider.
- After receiving PPECC services, the client opts to decline PPECC services and receive his or her services at home. The home health agency or independent provider offering ongoing skilled nursing (e.g., PDN) must submit or update all required authorization documentation to the claims administrator.

#### 2.14.1.1.6 Appeal of Authorization Decisions

Providers may appeal denials or modifications of requested PPECC services with documentation to support the medical necessity of the requested PPECC services.

Appeals must be submitted to the Medicaid Claims Administrator's CCP department with complete documentation and any additional information within two weeks of the date on the decision letter. If changes are made to the authorization based on this documentation, CCP claims administrators will go back no more than 3 business days for initial, or revision requests; and no more than seven calendar days for recertification requests when additional documentation is submitted.

The client or the client's responsible adult will be notified of any denial or modification of requested services and will be given information about how to appeal the claims administrator's decision or request a fair hearing.

PPECC services may be denied when:

- The client does not meet medical necessity criteria for admission.
- The client does not have an ordering physician.
- The client is not 20 years of age or younger.
- The client's needs are not beyond the scope of services available through Medicaid Title XIX Home Health SN and/or HHA Services because the needs can be met on a part-time or intermittent basis through a visiting nurse.
- The services are primarily intended to provide respite care or child care.
- The services are provided for the sole purpose of responsible adult training.
- The signed and dated POC is not received by the claims administrator within fourteen business days from the SOC.
- The request is incomplete.
- The information in the request is inconsistent.

- The requested services are not ongoing skilled nursing services.
- There is a duplication of services.

Prior authorization requests must be submitted for processing to the Texas Medicaid Claims Administrator Prior Authorization Department (fee-for-service clients).

**Note:** *Clients enrolled in a managed care health plan may receive services from a PPECC. Prior authorization requests for these clients must be submitted solely to the client's managed care organization.*

#### 2.14.1.1.7 Documentation Requirements

In addition to documentation requirements outlined in the "Authorization Requirements" section, the following documentation requirements apply. Services not supported by documentation are subject to recoupment.

All services outlined in this section are subject to retrospective review to ensure that the documentation in the client's medical record supports the medical necessity of the service(s) provided.

PPECCs must maintain documentation in the client's medical record, including but not limited to the following:

- Evidence that the client's condition will allow safe delivery of PPECC services as described in the POC.
- The PPECC nursing assessment.
- The client's individualized PPECC plan of care and documentation of medical necessity.
- The physician's specific, written, signed and dated orders for PPECC services. Documentation of verbal orders must also be maintained.
- All prior authorization request forms for Medicaid.
- The signed, dated consent of the client or the client's responsible adult.
- The PPECC must provide documentation that the client or the client's responsible adult has been informed about how care will be coordinated between the client's providers (e.g., client signature on the Nursing Addendum to Plan of Care for Private Duty Nursing and/or Prescribed Pediatric Extended Care Centers).
- The PPECC must maintain evidence in the medical record that client or the client's responsible adult has been involved in the development of the POC. (e.g., client signature on the Prescribed Pediatric Extended Care Center [PPECC] Plan of Care).
- Evidence of PDN provider notification when a child receives PDN, and the date notification was provided.
- Notes from interdisciplinary team meetings.
- Documentation of all discrepancies between the weekly service hours scheduled and the service hours provided. Examples include but are not limited to, doctor's appointments; the PPECC was closed one day for unforeseen reasons; the child was hospitalized; or the client's responsible adult was ill and could not provide services that he or she would normally provide.
- For each day that PPECC services are provided, the client's medical record must identify:
  - The names of the specific person (e.g. nursing, direct care staff, therapist) providing services,
  - Date of service,
  - Type of services performed, and
  - The start and end times of services performed.

- The PPECC must be able to calculate the cost by practitioner and type of service provided as requested by HHSC.

To complete a prior authorization process by paper, the provider must complete and submit the prior authorization documentation through fax or mail and must maintain a copy of the prior authorization request and all submitted documentation in the client's medical record at the PPECC's place of business.

To complete a prior authorization process electronically, the provider must complete and submit the prior authorization documentation through any approved electronic method, and must maintain a copy of the prior authorization request and all submitted documentation in the client's medical record at the PPECC's place of business.

The ordering physician must also maintain a copy of the signed and dated physician order and signed and dated POC in the client's medical record.

PPECC service providers must provide written notice to clients of their intent to voluntarily terminate PPECC services at least fifteen (15) calendar days prior to terminating services, except in situations of a potential threat to the provider's personal safety.

The PPECC must sign, date, and indicate the time the client is boarded on PPECC transportation, and the time when the client arrives at the PPECC. The PPECC must also sign, date, and indicate the time when the client is boarded for a return trip from PPECC services, as well as the arrival time at the client's destination. The PPECC provider may use any reliable method to record times, dates, and signatures provided that it is accurate and allows for an auditable review of the records, including electronic census, time-stamp, scanning, and signature records.

For any Medicaid client that is in transport for longer than one hour, the PPECC must document the reason for the extended time in transport.

A responsible adult must sign and confirm the time that the client is boarded on PPECC transportation, as well as when a client returns from the PPECC. If a responsible adult provides the transportation, the responsible adult must sign and indicate the date and time that the client is dropped off and picked up from a PPECC. The PPECC provider must keep these records in case of an audit or monitoring.

A responsible adult must be provided daily a written, one-page summary of services provided to the client for each day that the client is in the PPECC's care.

The PPECC must maintain documentation in the client's medical record of the notification provided to the client and/or the client's responsible adult of an intent to transfer or discharge the client as follows:

- A copy of the written notification provided,
- Personal contact with the client and/or the client's responsible adult, and
- The client's ordering physician was notified of the date of transfer or discharge.

The PPECC and the therapy provider must have a written agreement for each client regarding the provision of therapy services when therapy services (occupational, speech, physical, and respiratory care) are provided at the PPECC. The written agreement must address responsibilities of both parties, and how the parties will coordinate related to the client's plan of care. The written agreement must be kept in the client's medical record.

The PPECC and hospice provider must have a written agreement for each client regarding the provision of hospice services when hospice is provided at the PPECC. The written agreement must address responsibilities of both parties, and how the parties will coordinate related to the client's plan of care. The written agreement must be kept in the client's medical record.

#### 2.14.1.1.8 Exclusions

The services that are not covered by the PPECC benefit include the following:

- Baby food or formula.

- PPECC services to clients related to the PPECC owner by blood, marriage or adoption.
- Services that are intended to provide mainly respite care or child care and do not directly relate to the client's medical needs or disability.
- PPECC services rendered to a client who does not meet the definition of a medically or technologically dependent minor.
- Services covered separately by Texas Medicaid, such as:
  - Speech, occupational, physical, respiratory therapy services, and early childhood intervention services.
  - Durable medical equipment (DME), medical supplies, nutritional products provided to the client by Medicaid's DME and medical supply service providers.
  - Private duty nursing, skilled nursing and home health aid services provided in the home setting when medically needed in addition to the PPECC services authorized.
- Services that are the legal responsibility of a local school district.
- Individualized comprehensive case management beyond required service coordination.

#### 2.14.1.1.9 Claims Filing and Reimbursement

PPECC services may be reimbursed when billed with procedure codes T1025, T1026, or T2002.

Services begin when the PPECC assumes responsibility for the care of the client (i.e., the point the client boards the PPECC transportation, or when the client is brought to the PPECC by a responsible adult) and ends when the care is relinquished to the client's responsible adult.

Providers must use appropriate procedure codes for the PPECC services performed. Procedure codes T1025 and T2002 are limited to once per day.

The PPECC per diem code (T1025) and hourly procedure code (T1026) may not be billed on the same day.

Procedure code T1026 is allowed on an hourly basis, up to four hours. Services beyond four hours must be billed using T1025. At a minimum, four hours and fifteen minutes of services must be provided before T1025 may be billed.

Procedure code T2002 is not allowed without a PPECC service on the same day, same provider.

For procedure code T1026, a minimum of 15 minutes of service is required to round up to a full hour after the first hour.

Therapy services are billed separately by Medicaid-enrolled licensed therapists, including ECI providers, and are subject to prior authorization and policies governing Physical, Occupational, and Speech Therapy - Children (Acute and Chronic), or ECI services, as applicable.

If hospice services are rendered in a PPECC setting, they must be billed separately by Medicaid-enrolled hospice providers, and are subject to prior authorization and policies governing hospice reimbursement.

The following services may be billed on the same day as PPECC services, but they may not be billed simultaneously with PPECC services. These services may be billed before or after PPECC services:

- Private Duty Nursing
- Home Health Skilled Nursing
- Home Health Aide services

PCS services provided in a PPECC are considered part of the PPECC billable rate. PCS services rendered in a client's home may be billed before or after PPECC services on the same day.

PPECC services may be reimbursed only to a licensed PPECC.

**Note:** *Texas Medicaid will not reimburse PPECC services that duplicate services that are the legal responsibility of the school districts. The school district, through the SHARS program, is required to meet the client's skilled nursing needs while the client is at school. However, if those needs cannot be met by SHARS or the school district, documentation supporting medical necessity may be submitted to the Texas Medicaid Claims Administrator.*

Parental accompaniment is not required for PPECC reimbursement.

Non-emergency ambulance service providers will not be reimbursed for transportation to and from a PPECC.

PPECC services are subject to retrospective review and possible recoupment when the medical record does not document the provision of PPECC services is medically necessary based on the client's situation and needs. The PPECC provider must explain all discrepancies between the service hours approved and the service hours provided. For example: The parents withdrew their client from a PPECC and released the provider from all responsibility for the service hours; the PPECC was closed one day for unforeseen reasons; the client was hospitalized; or the responsible adult was ill and could not provide services that he or she would normally provide.

Payment will not be rendered for services that are not prior authorized.

## 2.15 Therapy Services (CCP)

**Referto:** Section 5, "Children's Therapy Services Clients birth through 20 years of age" in the *Physical Therapy, Occupational Therapy, and Speech Therapy Services Handbook (Vol. 2, Provider Handbooks)* for information about CCP therapy services.

## 2.16 Inpatient Psychiatric Hospital or Facility (Freestanding) (CCP)

Inpatient psychiatric treatment in a nationally accredited freestanding psychiatric facility or a nationally accredited state psychiatric hospital is a benefit of Texas Medicaid for clients who are birth through 20 years of age at the time of the service request and service delivery, if the client meets certain conditions.

**Referto:** Subsection 3.4, "Services, Benefits, Limitations, and Prior Authorization - Inpatient Psychiatric Services" in the *Inpatient and Outpatient Hospital Services Handbook (Vol. 2, Provider Handbooks)*.

## 2.17 Inpatient Rehabilitation Facility (Freestanding) (CCP)

### 2.17.1 Enrollment

**Note:** *Rehabilitation provided at an acute care facility is covered through Texas Medicaid fee-for-service.*

To be eligible to participate in CCP, a freestanding inpatient rehabilitation facility must be certified by Medicare, have a valid provider agreement with HHSC, and have completed the TMHP enrollment process. Texas Medicaid enrolls and reimburses freestanding inpatient rehabilitation facilities for CCP services and Medicare deductibles or coinsurance according to current payment guidelines. The information in this section is applicable to CCP services only.

**Referto:** Subsection 2.1.2, "Enrollment" in this handbook for more information about CCP enrollment procedures.

### **2.17.1.1 Continuity of Hospital Eligibility Through Change of Ownership**

Under procedures set forth by the CMS and HHSC, a change in ownership of a hospital does not terminate Medicare eligibility; therefore, Medicaid participation may be continued subject to the following requirements:

- The provider must obtain recertification as a Title XVIII (Medicare) hospital.
- The hospital under new ownership must submit a new signed and dated HHSC Medicaid Provider Agreement between the hospital and HHSC.

Providers can download the HHSC Medicaid Provider Agreement from the TMHP website at [www.tmhp.com](http://www.tmhp.com).

### **2.17.2 Services, Benefits, and Limitations**

Inpatient rehabilitation services include medically necessary items and services ordinarily furnished by a Medicaid hospital or by an approved out-of-state hospital under the direction of a physician for the care and treatment of inpatient clients. Inpatient rehabilitation services will be considered for an acute problem or an acute exacerbation of a chronic problem resulting in a significant decrease in functional ability that will benefit from inpatient rehabilitation services. A condition is considered to be acute or an acute exacerbation of a chronic condition only during the six months from the onset date of the acute condition or the acute exacerbation of the chronic condition.

When a client is admitted to an inpatient facility for acute care physical, occupational, or speech therapy services, the therapy services are reimbursed as part of the inpatient hospital reimbursement methodology (Diagnosis-Related Group [DRG] or Tax Equity and Fiscal Responsibility Act [TEFRA]) and not reimbursed separately to the individual therapist. The hospital must include the physician's written treatment plan that supports the medical necessity of the hospitalization and services.

#### **2.17.2.1 Comprehensive Treatment**

The intensity of necessary rehabilitative service cannot be provided in the outpatient setting.

Comprehensive rehabilitation treatment must be under the leadership of a physician. Comprehensive rehabilitation treatment must be an active interdisciplinary team, defined as at least two types of therapies.

Comprehensive treatment must consist of at least two appropriate physical modalities designed to resolve or improve the client's condition (OT, PT, and ST), and must be provided for a minimum of three hours per day for five days per week.

### **2.17.3 Prior Authorization and Documentation Requirements**

All inpatient rehabilitation services provided to clients who are birth through 20 years of age in a freestanding inpatient rehabilitation facility require prior authorization.

Prior authorization will be considered when the client has met all of the following criteria:

- The client has an acute problem or an acute exacerbation of a chronic problem resulting in a significant decrease in functional ability that will benefit from inpatient rehabilitation services.
- The intensity of necessary rehabilitative service cannot be provided in the outpatient setting.
- The client requires and will receive multidisciplinary team care defined as at least two therapies (OT, PT, or ST).
- This therapy will be provided for a minimum of three hours per day, five days per week.

The physician and the provider must maintain all documentation in the client's medical record.

Inpatient rehabilitation may be prior authorized for up to two months when the attending physician submits documentation of medical necessity. The treatment plan must indicate that the client is expected to improve within a 60-day period and be restored to a more functional lifestyle for an acute condition or the previous level of function for an acute exacerbation of a chronic condition.

Requests for subsequent services for increments up to 60 days may be prior authorized based on medical necessity. Requests for prior authorization of subsequent services must be received before the end-date of the preceding prior authorization.

A prior authorization request for an additional 60 days of therapy will be considered with documentation supporting medical necessity.

Supporting documentation for an initial request must include the following:

- The request for inpatient rehabilitation and the treatment plan must be signed and dated by the physician. The physician's signature is valid for no more than 60 days prior to the requested start of care date.
- A CCP Prior Authorization Request Form signed and dated by the physician.
- A current therapy evaluation with the documented age of the client at the time of evaluation.
- Therapy goals related to the client's individual needs; goals may include improving or maintaining function, or slowing of deterioration of function.
- An updated written comprehensive treatment plan established by the attending physician or by the therapist to be followed during the inpatient rehabilitation admission that:
  - Is under the leadership of a physician and includes a description of the specific therapy being prescribed, diagnosis, treatment goals related to the client's individual needs, and duration and frequency of therapy.
  - Includes the date of onset of the illness or injury requiring the freestanding inpatient rehabilitation facility admission.
  - Includes the requested dates of service.
  - Incorporates an active interdisciplinary team.
  - Consists of at least two appropriate physical modalities (OT, PT, and ST) designed to resolve or improve the client's condition.
  - Includes a minimum of three hours of team interaction with the client every day, five days per week.
- In addition to the documentation for an initial request, supporting documentation for a request for subsequent services must include the following:
  - A brief synopsis of the outcomes of the previous treatment relative to the debilitating condition.
  - The expected results to be achieved by an extension of the active treatment plan, and the time interval at which this extension outcome should be achieved.
  - Discussion why the initial two months of inpatient rehabilitation has not met the client's needs and why the client cannot be treated in an outpatient setting.

After receiving the documentation establishing the medical necessity and plan of medical care by the treating physician, prior authorization is considered by CCP for the initial service and an extension of service as applicable. A request for prior authorization must include documentation from the provider to support the medical necessity of the service.

### 2.17.4 Claims Information

Providers must submit inpatient rehabilitation services to TMHP in an approved electronic claims format or on a UB-04 CMS-1450 paper claim form. Providers must purchase the UB-04 CMS-1450 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

For OT, PT, and ST services, freestanding inpatient rehabilitation facilities and acute care hospitals can use revenue codes 128, 420, 424, 430, 434, 440, and 444.

TMHP must receive claims for payment consideration according to filing deadlines for inpatient claims. Claims for services that have been prior authorized must reflect the PAN in Block 63 of the UB-04 CMS-1450 paper claim form or its electronic equivalent.

**Referto:** “Section 3: TMHP Electronic Data Interchange (EDI)” (*Vol. 1, General Information*) for information on electronic claims submissions.

“Section 6: Claims Filing” (*Vol. 1, General Information*) for general information about claims filing.

Subsection 6.6, “UB-04 CMS-1450 Paper Claim Filing Instructions” in “Section 6: Claims Filing” (*Vol. 1, General Information*) for paper claims completion instructions.

[Inpatient Rehabilitation Facility \(Freestanding\) \(CCP Only\)](http://www.tmhp.com) on the TMHP website at [www.tmhp.com](http://www.tmhp.com) for a claim form example.

### 2.17.5 Reimbursement

Reimbursement for care provided in the freestanding inpatient rehabilitation facility is made under the Texas Diagnosis-Related Group (DRG) Payment System.

A new provider is given a reimbursement interim rate of 50 percent until a cost audit has been performed. Payment is calculated by multiplying the standard dollar amount (SDA) for the hospital's payment division indicator times the relative weight associated with the DRG assigned by Grouper.

**Important:** *Outpatient services are not reimbursed.*

The DRG payment may be enhanced by an adjusted day or cost outlier payment, if applicable. For example, the limit per spell-of-illness under Texas Medicaid guidelines is waived for clients who are birth through 20 years of age. An outlier payment may be made to compensate for unusual resource utilization or a lengthy stay.

The following criteria must be met to qualify for a day outlier payment. Inpatient days must exceed the DRG day threshold for the specific DRG. Additional payment is based on inpatient days that exceed the DRG day threshold multiplied by 70 percent of the per diem amount of a full DRG payment. The per diem amount is established by dividing the full DRG payment amount by the arithmetic mean length of stay for the DRG.

To establish a cost outlier, TMHP determines the outlier threshold by using the greater of the full DRG payment amount multiplied by 1.5 or an amount determined by selecting the lesser of the universe mean of the current base year data multiplied by 11.14 or the hospital's SDA multiplied by 11.14.

The calculation that yields the greater amount is used in calculating the actual cost outlier payment. The outlier threshold is subtracted from the amount of reimbursement for the admission established under the TEFRA principles and the remainder multiplied by 70 percent to determine the actual amount of the cost outlier payment.

If an admission qualifies for both a day and a cost outlier, the outlier resulting in the highest payment to the hospital is paid.

The Remittance and Status (R&S) Report reflects the outlier reimbursement payment and defines the type of outlier paid, day or cost.

Providers should call the TMHP provider relations representative for their area with questions about the outlier payment.

### **2.17.5.1 Client Transfers**

When more than one hospital provides care for the same case, the hospital furnishing the most significant amount of care receives consideration for a full DRG payment.

The other hospital(s) is/are paid a per diem rate based on the lesser of the mean length of stay for the DRG or eligible days in the facility. The DRG modifier PT on the R&S Report indicates per diem pricing related to a client transfer.

Client transfers within the same facility are considered one continuous stay and receive only one DRG payment. The facility must bill only one claim.

After all hospital claims have been submitted, HHSC performs a post-payment review to determine whether the hospital furnishing the most significant amount of care received the full DRG. If the review reveals that the hospital furnishing the most significant amount of care did not receive the full DRG, an adjustment is initiated.

## **3 School Health and Related Services (SHARS)**

### **3.1 Overview**

Medicaid services provided by school districts in Texas to Medicaid-eligible students are known as SHARS. The oversight of SHARS is a cooperative effort between the Texas Education Agency (TEA) and HHSC. SHARS allows local school districts, including public charter schools, to obtain Medicaid reimbursement for certain health-related services provided to students in special education under IDEA that are documented in a student's Individualized Education Program (IEP).

**Important:** CMS requires school districts to be enrolled as a SHARS Medicaid provider, participate in the Random Moment Time Study (RMTS), claim on an interim basis, and submit an annual SHARS Cost Report.

SHARS reimbursement is provided for students who meet all of the following requirements:

- Are 20 years of age and younger and eligible for Medicaid
- Meet eligibility requirements for special education described in IDEA
- Have IEPs that prescribe the needed services

Services covered by SHARS includes:

- Audiology services
- Counseling
- Nursing services
- Occupational therapy (OT)
- Personal care services (PCS)
- Physical therapy (PT)
- Physician services
- Psychological services, including assessments
- Speech therapy (ST)
- Transportation in a school setting

These services must be provided by qualified personnel who are under contract with or employed by the school district.

### **3.1.1 Random Moment Time Study (RMTS)**

CMS requires SHARS providers to participate in the RMTS to be eligible to submit claims and receive reimbursement for SHARS services. SHARS providers must comply with the *Texas Time Study Guide*, which includes, but is not limited to, Mandatory Annual RMTS Contact training certification of RMTS participants for all three annual RMTS quarters, and compliance with participation requirements for selected sampled moments. The three annual RMTS quarters are October through December, January through March, and April through June. A July through September RMTS is not conducted.

An existing school district can only become a SHARS provider effective October 1, each year and they must participate in all three RMTS quarters for that annual period. SHARS providers that do not participate in all three required RMTS quarters, or are RMTS non-compliant, cannot be a SHARS provider for that entire annual period (October 1 through September 30) and will be required to return any Medicaid payments received for SHARS services delivered during that annual cost report period. The school district can return to participating in the SHARS program the following federal fiscal year beginning on October 1.

A new school district (i.e., a newly formed district that began operations after October 1) can become a SHARS provider effective with the first day of the federal quarter in which it participates in the RMTS. New SHARS providers may not submit claims or be reimbursed for SHARS services provided prior to the RMTS quarter in which they begin to participate and they must participate in all remaining RMTS quarters for that annual period.

School districts can access the Texas Time Study Guide, on the HHSC website at [www.hhsc.state.tx.us/rad/time-study/ts-isd.shtml](http://www.hhsc.state.tx.us/rad/time-study/ts-isd.shtml) and refer to the link titled Guides/Manuals.

SHARS providers can contact the HHSC Time Study Unit by email at [TimeStudy@hhsc.state.tx.us](mailto:TimeStudy@hhsc.state.tx.us) or by telephone at 1-512-491-1715.

### **3.1.2 Eligibility Verification**

The following are means to verify Medicaid eligibility of students:

- Verify electronically through third party software or TexMedConnect.
- School districts may inquire about the eligibility of a student by submitting the student's Medicaid number or two of the following: name, date of birth, or Social Security number (SSN). A search can be narrowed further by entering the county code or sex of the student. Verifications may be submitted in batches without limitations on the number of students.
- Contact AIS at 1-800-925-9126.

## **3.2 Enrollment**

### **3.2.1 SHARS Enrollment**

To enroll in Texas Medicaid as a SHARS provider, school districts, including public charter schools, must employ or contract with individuals or entities that meet certification and licensing requirements in accordance with the Texas Medicaid State Plan for SHARS to provide program services. Since public school districts are government entities, they should select "public entity" on the enrollment application.

SHARS providers are required to notify parents or guardians of their rights to a "freedom of choice of providers" (42 CFR §431.51) under Texas Medicaid. Most SHARS providers currently provide this notification during the initial Admission, Review, and Dismissal (ARD) process. If a parent requests that someone other than the employees or currently contracted staff of the SHARS provider (school district) provide a required service listed in the student's IEP, the SHARS provider must make a good faith effort to comply with the parent's request. The SHARS provider can negotiate with the requested provider to

provide the services under contract. The requested provider must meet, comply with, and provide all of the employment criteria and documentation that the SHARS provider normally requires of its employees and currently contracted staff. The SHARS provider can negotiate the contracted fee with the requested provider and is not required to pay the same fee that the requested provider might receive from Medicaid for similar services.

**Referto:** Subsection 2.2, “Fee-for-Service Reimbursement Methodology” in “Section 2: Texas Medicaid Fee-for-Service Reimbursement” (*Vol. 1, General Information*) for more information.

### 3.2.2 Private School Enrollment

A private school may not participate in the SHARS program as a SHARS provider.

## 3.3 Services, Benefits, Limitations, and Prior Authorization

All of the SHARS procedures listed in the following sections require a valid diagnosis code. SHARS includes audiology services, counseling, physician services, nursing services, psychological services, OT, PT, or ST services, personal care services, and transportation.

**Reminder:** *SHARS are the services determined by the ARD committee to be medically necessary and reasonable to ensure that children with disabilities who are eligible for Medicaid and who are 20 years of age and younger receive the benefits accorded to them by federal and state law in order to participate in the educational program.*

### 3.3.1 Audiology

Audiology evaluation services include:

- Identification of children with hearing loss
- Determination of the range, nature, and degree of hearing loss, including the referral for medical or other professional attention for the habilitation of hearing
- Determination of the child’s need for group and individual amplification

Audiology therapy services include the provision of habilitation activities, such as language habilitation, auditory training, audiological maintenance, speech reading (lip reading), and speech conversation.

Audiology services must be provided by a professional who holds a valid state license as an audiologist or by an audiology assistant who is licensed by the state when the assistant is acting under the supervision of a qualified audiologist. State licensure requirements are equal to American Speech-Language-Hearing Association (ASHA) certification requirements.

Audiology evaluation is billable on an individual (procedure code 92620) basis only. Audiology evaluation (procedure code 92620) is limited to a combined maximum total of twelve units in a 30-day period.

Audiology therapy is billable on an individual (procedure code 92507) and group (procedure code 92508) basis.

Only the time spent with the student present is billable; time spent without the student present is not billable.

Session notes for evaluations are not required; however, documentation must include the billable start time, billable stop time, and total billable minutes with a notation of the activity performed (e.g., audiology evaluation).

Session notes are required for therapy. Session notes must include the billable start time, billable stop time, total billable minutes, activity performed during the session, student observation, and the related IEP objective.

### 3.3.1.1 Audiology Billing Table

| POS*   | Procedure Code         | Individual or Group | Therapist or Assistant |
|--|------------------------|---------------------|------------------------|
| 1, 2, or 9   | 92507 with modifier U9 | Individual          | Licensed audiologist   |
| 1, 2, or 9   | 92507 with modifier U1 | Individual          | Licensed assistant     |
| 1, 2, or 9   | 92508 with modifier U9 | Group               | Licensed audiologist   |
| 1, 2, or 9   | 92508 with modifier U1 | Group               | Licensed assistant     |
| 1, 2, or 9   | 92620                  | Individual          | Licensed audiologist   |
| *Place of Service: 1=office; 2=home; 9=other locations |                        |                     |                        |

Providers must use a 15-minute unit of service for billing.

**Referto:** Subsection 3.5.1.2, “Billing Units Based on 15 Minutes” in this handbook.

The recommended maximum billable time for audiology evaluation is three hours, which may be billed over several days. The recommended maximum billable time for direct audiology therapy (individual or group) is one hour per day. Providers must submit documentation of the reasons for the additional time, if more than the recommended maximum time is billed.

### 3.3.2 Counseling Services

Counseling services are provided to help a child with a disability benefit from special education and must be listed in the IEP. Counseling services include, but are not limited to, the following:

- Assisting the child or parents in understanding the nature of the child’s disability
- Assisting the child or parents in understanding the special needs of the child
- Assisting the child or parents in understanding the child’s development
- Health and behavior interventions to identify the psychological, behavioral, emotional, cognitive, and social factors that are important to the prevention, treatment, or management of physical health problems
- Assessing the need for specific counseling services

Counseling services must be provided by a professional who has one of the following certifications or licensures: a licensed professional counselor (LPC), a licensed clinical social worker (LCSW), or a licensed marriage and family therapist (LMFT).

Counseling services are billable on an individual (procedure code 96152) or group (procedure code 96153) basis. Session notes are required and documentation must include the billable start time, billable stop time, total billable minutes, activity performed during the session, student observation, and the related IEP objective.

School districts may receive reimbursement for emergency counseling services as long as the student’s IEP includes a behavior improvement plan that documents the need for emergency services.

#### 3.3.2.1 Counseling Services Billing Table

| POS*   | Procedure Code         | Individual or Group |
|--|------------------------|---------------------|
| 1, 2, or 9   | 96152 with modifier UB | Individual          |
| 1, 2, or 9   | 96153 with modifier UB | Group               |
| *Place of Service: 1 = Office; 2 = Home; 9 = Other Locations |                        |                     |

Providers must use a 15-minute unit of service for billing.

**Referto:** Subsection 3.5.1.2, “Billing Units Based on 15 Minutes” in this handbook.

The recommended maximum billable time (individual or group) is one hour per day. Providers must submit documentation of the reasons for the additional time, if more than the recommended maximum time is billed.

### 3.3.3 Psychological Testing and Services

#### 3.3.3.1 Psychological Testing

Evaluations or assessments include activities related to the evaluation of the functioning of a student for the purpose of determining eligibility, the needs for specific SHARS services, and the development or revision of IEP goals and objectives. An evaluation or assessment is billable if it leads to the creation of an IEP for a student with disabilities who is eligible for Medicaid and who is 20 years of age or younger, whether or not the IEP includes SHARS.

Evaluations or assessments (procedure code 96101) must be provided by a professional who is a licensed specialist in school psychology (LSSP), a licensed psychologist, or a licensed psychiatrist in accordance with 19 TAC §89.1040(b)(1) and 34 CFR §300.136(a)(1).

Evaluation or assessment billable time includes the following:

- Psychological, educational, or intellectual testing time spent with the student present
- Necessary observation of the student associated with testing
- A parent/teacher consultation with the student present that is required during the assessment because a student is unable to communicate or perform certain activities
- Time spent without the student present for the interpretation of testing results
- Report writing

Time spent gathering information without the student present or observing a student is not billable evaluation or assessment time.

Session notes are not required; however, documentation must include the billable start time, billable stop time, total billable minutes, and must note which assessment activity was performed (e.g., testing, interpretation, or report writing).

##### 3.3.3.1.1 Evaluation or Assessment Billing Table

| POS*   | Procedure Code | Individual/Group | Unit of Service |
|--|----------------|------------------|-----------------|
| 1, 2, or 9   | 96101          | Individual       | 1 hour          |
| *Place of Service: 1=office; 2=home; 9=other locations |                |                  |                 |

**Important:** One unit (1.0) is equivalent to one hour or 60 minutes. Providers may bill in partial hours, expressed as 1/10th of an hour (six-minute segments). For example, express 30 minutes as a billed quantity of 0.5.

**Referto:** Subsection 3.5.1.2, "Billing Units Based on 15 Minutes" in this handbook.

When billing, minutes of Evaluations or Assessments are not accumulated over multiple days. Minutes of Evaluations or Assessments can only be billed per calendar day.

The recommended maximum billable time for psychological testing is eight hours (8.0 units) over a 30-day period. Time spent for the interpretation of testing results without the student present is billable time. Providers must submit documentation of the reasons for the additional time, if more than the recommended maximum time is billed.

#### 3.3.3.2 Psychological Services

Psychological services are counseling services provided to help a child with a disability benefit from special education and must be listed in the IEP.

Psychological services must be provided by a licensed psychiatrist, a licensed psychologist, or an LSSP. Nothing in this rule prohibits public schools from contracting with licensed psychologists, licensed psychological associates, and provisionally licensed psychologists who are not LSSPs to provide psychological services, other than school psychology, in their areas of competency. School districts may contract for specific types of psychological services, such as clinical psychology, counseling psychology, neuropsychology, and family therapy, that are not readily available from the LSSP who is employed by the school district. Such contracting must be on a short-term or part-time basis and cannot involve the broad range of school psychological services listed in 22 TAC §465.38(1)(B).

All psychological services are billable on an individual (procedure code 96152) or group (procedure code 96153) basis.

Session notes are required. Session notes must include the billable start time, billable stop time, total billable minutes, activity performed during the session, student observation, and the related IEP objective.

School districts may receive reimbursement for emergency psychological services as long as the student's IEP includes a behavior improvement plan that documents the need for the emergency services.

#### 3.3.3.2.1 Psychological Services Billing Table

| POS*   | Procedure Code         | Individual or Group |
|--|------------------------|---------------------|
| 1, 2, or 9   | 96152 with modifier AH | Individual          |
| 1, 2, or 9   | 96153 with modifier AH | Group               |
| *Place of Service: 1=office; 2=home; 9=other locations |                        |                     |

Providers must use a 15-minute unit of service for billing.

**Referto:** Subsection 3.5.1.2, "Billing Units Based on 15 Minutes" in this handbook.
