## About This Guide

The purpose of this guide is to educate public partners of the Health and Human Services Commission (HHSC) to better understand mental health care in Texas. This guide provides basic information regarding the services available across the state and the organizations that can help connect people to those resources.

### **Local Mental Health Authorities/Local Behavioral Health Authorities:**

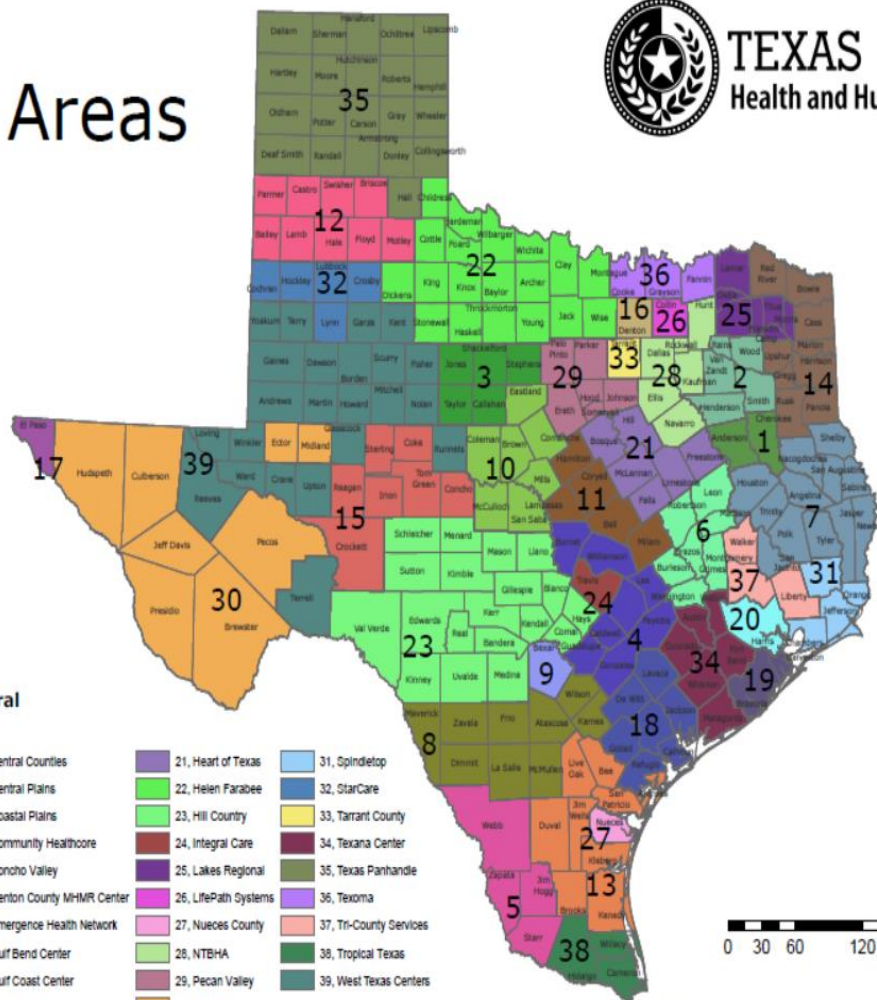

Every community in Texas is served by a designated local mental health authority (LMHA) or local behavioral health authority (LBHA). LMHAs/LBHAs help inform people about available treatment options that can address the challenges associated with their mental illness and ultimately achieve recovery. LMHAs/LBHAs provide a wide array of treatment services and supports and seek to connect people with resources unique to their communities.

The following map shows LMHA/LBHA service areas. To identify the LMHA/LBHA serving a specific community, please visit <https://hhs.texas.gov/services/mental-health-substance-use/mental-health-substance-use-resources/find-your-local-mental-health-or-behavioral-health-authority>. A complete list is available at the end of this report in [Appendix B: Local Mental Health Authorities and Local Behavioral Health Authorities](#).

# Service Areas

TEXAS  
Health and Human Services

March 2019, v1

Source: Health and Human Services Commission, Behavioral Health Services

## Available Services

LMHAs/LBHAs offer a range of services to help meet the unique needs of each person, including services that help prevent issues from escalating into a crisis. Services are available to assist people in accessing treatment, finding competitive employment, finding or keeping safe housing, and getting access to medications when needed. LMHAs/LBHAs serve people of all ages.

Services are available on an ongoing basis and not tied to a specific event. Support can be accessed at any time. LMHAs/LBHAs have a variety of services to assist people in crisis, including people not already connected with the LMHA/LBHA. For many, a crisis event may be the first time they receive help from an LMHA/LBHA. Some services are available in every community while others have been developed by communities to meet a local need.

## **What happens after a person or family member contacts the LMHA/LBHA?**

After someone contacts an LMHA/LBHA for mental health services, the LMHA/LBHA conducts an intake assessment--the Adult Needs and Strengths Assessment (ANSA) for adults or the Child and Adolescent Needs and Strengths Assessment (CANS) for children and youth. The LMHA/LBHA relies on assessment results to determine a level of care and identify available services.

## **Is there a wait list for crisis services?**

For the person experiencing a crisis, LMHAs/LBHAs have mental health professionals available 24/7 to help them understand what types of care are available to meet their needs and how they can receive services. LMHAs/LBHAs can explain available resources and help ensure they receive help when needed. HHSC encourages people in need to contact their LMHA/LBHA for assistance directly.

## **When should 9-1-1 be called?**

If someone has a physical injury that requires medical attention, calling 9-1-1 for an ambulance or going directly to a medical hospital or similar acute-care facility for immediate care is most appropriate. In a crisis, the LMHA/LBHA may also recommend the person call 9-1-1 or go directly to a medical hospital.

## **How much do LMHA/LBHA services cost?**

LMHAs/LBHAs charge for services based on a "sliding scale," meaning payment for services may be free or greatly reduced, depending on the person's income. LMHAs/LBHAs also accept most forms of private insurance.

## **Are there options for people who have been arrested?**

Several services are available to people involved with the criminal justice system. "Forensic services" are community-based services for a person unable to stand trial due to mental illness. LMHAs/LBHAs also collaborate with the Texas Correctional Office on Offenders with Medical or Mental Impairments (TCOOMMI).

# Types of Services Available

## LMHA/LBHA Core Services

Across the state of Texas, the following core services are available at every LMHA/LBHA to help a person achieve and maintain recovery.

**Access to Benefits:** When a person is enrolled in services at the LMHA/LBHA, the benefits specialist may assist them in applying for Supplemental Security Income or Supplemental Security Disability Income.

**Assertive Community Treatment (ACT):** ACT is an evidence-based practice specifically designed for adults with repeated admissions or long stays in inpatient psychiatric facilities. ACT provides a full array of intensive, in-home services that uses person-centered recovery planning to help people achieve stability and facilitate community living.

**Case Management:** Case managers help adults, children, or caregivers obtain needed services, such as counseling, employment, medication, and substance use disorder intervention and treatment services.

**Counseling:** Individual, family, and group therapy can reduce or eliminate a person's symptoms of mental illness and increase their ability to perform normal daily activities.

**Co-Occurring Psychiatric and Substance Use Disorders:** LMHAs/LBHAs offer evidence-based outpatient services designed specifically for a person with both a mental health and substance use disorder diagnosis. Both adults and children age 13 and older may benefit.

**Crisis Hotline:** Hotlines provide information, support, referrals, screening, and intervention services 24/7.

**Crisis Intervention, Relapse Prevention, and Follow-Up:** This is appropriate for a person who is not in imminent danger of harm to self or others, but requires additional assistance to avoid reoccurrence of the crisis event. Mental health professionals respond to crises to reduce symptoms and prevent admission of someone to a more restrictive environment.

**Family Partner Support Services:** This is comprised of peer mentoring and support provided by Certified Family Partners, or Family Partners awaiting certification within the first year of hire, to the primary caregivers of a child receiving community-based mental health services. The service may include introducing the family to the treatment process; modeling self-advocacy skills; providing information; making referrals; providing non-clinical skills training; and assisting in the identification of natural/informal and formal community supports. A Family Partner/Certified Family Partner is the parent or legally authorized representative (LAR) of a child or youth with a serious emotional disturbance, with at least one year of experience navigating a child-serving system (e.g., mental health, juvenile justice, social security, special education) as the LAR to that child or youth.

**Medication and Medication Training:** Physicians and their clinical staff (e.g., nurse practitioners and physician assistants) assess whether medications can help a person of any age address symptoms, achieve stability, and ultimately recover. Physicians also work with treatment teams to provide education and guidance to children/youth and their LARs about these medications and possible side effects.

**Mobile Crisis Outreach Teams (MCOT):** An MCOT provides immediate response at the location where a psychiatric crisis is occurring. MCOT is available 24/7 and mental health professionals respond to calls from the home, school, street, or clinic.

**Peer Services and Supports:** A Certified Peer Specialist (CPS) is a person who uses lived experience, in addition to skills learned in formal training, to deliver strengths-based, person-centered services to promote a person's recovery and resiliency. A CPS shares their experience related to recovery; acts as a model of hope and resilience to others; provides education, training, advocacy, and interventions within the recovery process; and promotes integration with community resources. CPSs have lived experience with mental health challenges, which makes them uniquely able to promote wellness, recovery, and an independent life in the community. Peer support is available to Home and Community Based Services-Adult Mental Health program participants. For information on training and certification, please visit:

[https://texreg.sos.state.tx.us/public/readtac\\$ext.ViewTAC?tac\\_view=5&ti=1&pt=15&ch=354&sch=N](https://texreg.sos.state.tx.us/public/readtac$ext.ViewTAC?tac_view=5&ti=1&pt=15&ch=354&sch=N)

**Screening Brief Intervention and Referral to Treatment (SBIRT):** SBIRT is a comprehensive, public health approach to the delivery of early intervention and treatment services for people who have, or are at risk of developing, a substance use disorder. SBIRT is provided by licensed practitioners of the healing arts or

certified nurse midwives. Services are delivered in a variety of locations, including an outpatient hospital, federally qualified health center, rural health clinic, office, home, or other setting. SBIRT is intended to be used as an individualized (not group) intervention.

**Supported Employment:** This evidence-based practice builds upon rehabilitation services and works to help people choose, obtain, and maintain employment in regular community jobs.

**Supportive Housing:** This evidence-based practice builds on case management and rehabilitation services to help people choose, obtain, and maintain regular, long-term integrated housing. This service is available to those with demonstrated housing needs.

**Skills Training and Development:** This training provides evidence-based intervention services as part of the overall treatment planning process to facilitate recovery.

## Other Community-Based Services

LMHAs/LBHAs provide additional services and programs unique to their service area. Additionally, some services and programs may be provided by other service providers, to which the LMHA/LBHA may then refer.

**Coordinated Specialty Care for First Episode of Psychosis (CSC):** CSC is a team-based model designed to meet the needs of people between ages 15 and 30 who have experienced their first episode of psychosis within the past two years. CSC emphasizes shared decision-making and a recovery-focused approach. To learn more, visit <https://hhs.texas.gov/services/mental-health-substance-use/adult-mental-health/adult-mental-health-coordinated-specialty-care-first-episode-psychosis>.

**Critical Time Intervention Program:** This program assists people with mental illness who are homeless in their transition from the street, shelter, psychiatric hospital, or criminal justice system into the community.

**Community Resource Coordination Group (CRCG):** CRCGs are county-based groups of local partner agencies and community members working with parents, caregivers, children, youth, and adults with complex needs that cannot be met by a single agency, and who would benefit from interagency coordination. CRCG members help identify and coordinate local services and supports. CRCGs are

located across Texas and available in most counties. To find the CRCG in your county visit <https://crcg.hhs.texas.gov/>.

**Home and Community Based-Adult Mental Health Program (HCBS-AMH):**

The HCBS-AMH program is designed to serve adults age 18 and older who have a diagnosis of a serious mental illness and require a very intense level of support to be successful in the community. Eligible applicants fall under one of the following population categories: (a) long term psychiatric hospitalization: resided in an inpatient psychiatric hospital for three or more years (cumulative or consecutive) during the five years prior to referral (including days of forensic inpatient commitments); (b) jail diversion: arrested four or more times and experienced two psychiatric crises during the three years prior to referral; or (c) emergency department diversion: had 15 or more emergency department visits and experienced two psychiatric crises during the three years prior to referral. Additionally, the applicant must be eligible for Medicaid if currently in the state hospital, or have an active and accepted Medicaid type and meet specific functional criteria to receive HCBS-AMH services. The HCBS-AMH program provides an array of services, appropriate to each person's needs, to enable them to live and experience recovery in their community. Interested persons can be referred to the program through their LMHA/LBHA or by a state hospital. For more information on the services available through HCBS-AMH and where the program is available, visit <https://hhs.texas.gov/services/mental-health-substance-use/adult-mental-health/adult-mental-health-home-community-based-services>.

**Projects for Assistance in Transitions from Homelessness (PATH):** PATH provides services for people with serious mental illness experiencing homelessness and people with co-occurring mental health and substance use disorders who are experiencing, or at risk of, homelessness. Supported activities include screening and diagnostic treatment, community-based mental health services, substance use treatment, case management services, supportive and supervisory services in residential settings, referrals for primary healthcare, job training, educational services, and housing. The primary objective is to provide outreach to these persons and connect them with mainstream services. There are currently 16 PATH providers in the State of Texas, covering 15 geographic locations. PATH also serves people involved in the criminal justice system who meet eligibility criteria.

**Substance Use Services:** LMHAs/LBHAs work closely with Outreach, Screening, Assessment, and Referral programs (OSARs) to help people with issues related to substance use. Regardless of their ability to pay, Texas residents seeking substance use services and information may qualify for services based on need. Substance

use services include prevention, intervention, treatment, and CPS-provided recovery support services.

Programs that contract with HHSC for the provision of substance use services can be found at:

<http://txdshs.maps.arcgis.com/apps/webappviewer/index.html?id=0ebf2016e97243cb8aa665b01818cf4c>.

For a complete list of OSARs visit: <https://hhs.texas.gov/services/mental-health-substance-use/mental-health-substance-use-resources/outreach-screening-assessment-referral-centers> or [Appendix C: Outreach, Screening, Assessment, and Referral Centers](#).

For additional information regarding OSAR services and a link to the substance use program location map, visit:

<https://hhs.texas.gov/sites/default/files/documents/doing-business-with-hhs/provider-portal/behavioral-health-provider/substance-use-intervention/hhs-substance-use-services-flyer.pdf>.

**Supportive Housing Rental (SHR) Assistance Program:** The SHR Assistance Program provides funding to LMHAs/LBHAs to enhance their ability to provide rental and utility assistance to people with mental illness who are homeless, or at imminent risk for becoming homeless, and supportive housing and mental health services. Funds are used for rent and utility assistance, deposits, move-in costs, and other one-time/time-limited expenses to obtain and maintain housing. SHR funds can be used for up to 12 months of rental assistance based on the person's identified need. To remain in SHR, the participant must continue receiving mental health services through the LMHA/LBHA and attempt to apply for federally subsidized housing. Participants also develop a transition plan outlining steps to be taken to increase personal income and secure housing without SHR assistance.

**Youth Empowerment Services (YES) Waiver Program:** The YES program is a 1915(c) Medicaid program that partners with families and the community to ensure qualifying Texas youth have access to a wide range of community-based services and supports. To participate in the YES Waiver program, the applicant must: (a) be three through 18 years old (b) have serious mental, emotional, and behavioral difficulties; (c) have a qualifying mental health diagnosis; (d) be at risk of being placed outside of their home because of their mental health needs; (e) meet the criteria to be admitted in a psychiatric hospital; (f) be eligible for Medicaid (parental income does not apply); and (g) currently reside in a home setting with a legal guardian; or on their own, if legally emancipated; or in a public or private

residential treatment center or public or private hospital with a planned discharge date of 30 calendar days or less.

The YES Waiver program provides intensive home and community-based services delivered within a strengths-based, team planning process called Wraparound. Wraparound builds on family and community support and utilizes YES services to help grow a family's natural support network and connection with their community. Eligibility for the program is determined by the LMHA/LBHA after the child or adolescent, LAR, or managing conservator calls the YES Waiver Inquiry Line. For more information on the YES Waiver program, including the non-traditional services offered in the YES service array, please visit:

<https://hhs.texas.gov/services/mental-health-substance-use/childrens-mental-health/yes-waiver>

## Crisis Services and Facilities

Across the state, there is a wide array of services available to people in crisis. A crisis may be a period of intense difficulty where the person may be experiencing severe symptoms related to mental illness, be a danger to themselves or others, or feel extremely hopeless. Each LMHA/LBHA operates a crisis hotline to provide support during a crisis. The crisis hotline numbers are provided in the following pages of this guide under each region. The services listed below are in order from least intensive to most intensive treatment options. The availability of facility-based services is dependent on LMHA/LBHA funding.

**Crisis Respite:** Crisis respite programs provide short-term, community-based crisis care for people who pose a low-risk of harm to themselves or others and may have some functional impairment that necessitates direct supervision and care, but who do not require hospitalization. This is the least intensive, facility-based crisis option. Services may be provided for a few hours or a few days. Many of the people served in these programs have experienced an event causing significant distress, are having housing challenges, or have loved ones/caretakers who are seeking temporary support or supervision for them. Facility-based crisis respite services have trained staff on-site 24/7. Some crisis respites are run by peers (people who have at least one cumulative year of receiving mental health community services).

**Crisis Residential:** Crisis residential provides up to 14 days of short-term, community-based residential crisis treatment to people who have a severe impairment in their ability to function, demonstrate a psychiatric crisis that cannot

be stabilized in a less intensive setting, and may pose a risk of harm to themselves or others. This is a more intensive, facility-based crisis option with trained staff on-site 24/7.

**Psychiatric Emergency Service Center (PESC):** A PESC provides walk-in access to immediate behavioral health emergency screening and assessment, extended observation services, and a continuum of crisis stabilization and behavioral health emergency stabilizing treatment for people who pose a high level of risk of harm to themselves or others and who may have a high level of functional impairment with behavioral symptoms that cannot be stabilized in a less restrictive setting within a 48-hour period. PESCs are co-located with licensed hospitals or licensed crisis stabilization units that have trained staff on-site 24/7 to provide voluntary or involuntary psychiatric emergency care. PESC services may be provided to children, adolescents, or adults depending upon LMHA/LBHA service availability. PESCs provide some of the more restrictive facility-based emergency care options within the crisis services continuum.

**Extended Observation Unit (EOU):** EOUs provide emergency services for up to 48 hours to people in psychiatric crisis. Services are provided in a secure, protected, clinically staffed, psychiatrically-supervised environment with immediate access to urgent or emergent medical and psychiatric evaluation and treatment. People seeking treatment in an EOU may pose a moderate to high risk of harm to themselves or others. Prior to the end of the 48-hour period, a determination is made regarding whether they are stabilized or requires a psychiatric hospitalization.

**Crisis Stabilization Unit (CSU):** CSUs provide short-term, residential treatment designed to reduce acute symptoms of mental illness in a secure and protected, clinically staffed and psychiatrically supervised treatment environment. Although it is slightly less intensive than a full psychiatric hospitalization, this is one of the most intensive facility-based crisis options. CSUs are the only facility type in the crisis array that requires licensure in accordance with the Texas Administrative Code, Chapter 411, Subchapter M. HHSC allocates PESC funds to three LMHAs to operate CSUs.

**Residential Treatment Center (RTC):** RTCs provide 24-hour care for children younger than 18 years of age and may offer programmatic services such as transitional living or emergency care or may offer treatment services for emotional disorders or primary medical needs. An RTC is a type of General Residential Operation that serves only children needing treatment services for emotional disorders.

Specialized RTC initiatives implemented through a partnership between HHSC and the Department of Family Protective Services (DFPS) provide an intensive service alternative for children at risk for parental relinquishment of custody due to a lack of mental health resources. Children remain in these facilities an average of six to nine months. Children between five and 17 years of age needing this service must be referred by DFPS Child Protective Services following an investigation resulting in “no finding” of abuse or neglect by the LAR. LMHAs/LBHAs provide help to families to complete the RTC “Common Application” and assessment for eligibility to an RTC.

**Waco Center for Youth:** This state-operated, psychiatric residential treatment facility located in Waco, Texas, serves youth 13 to 17 years of age with significant or severe emotional difficulties and/or behavioral problems. This facility serves approximately 70 youth from across the state. The applicant’s LMHA/LBHA facilitates the admission application.

Contact: Admissions Coordinator (254) 745-5399 or Admissions/Aftercare Assistant (254) 745-5302.

## **Community Services for People Involved in the Criminal Justice System (Forensic Services)**

Many services are available to people who are involved in the criminal justice system. Typically referred to as forensic services, this guide lists the communities that offer community-based services to divert those who may be involved in the criminal justice system due to mental illness, as well as the services described below.

**Crisis Intervention Response Team (CIRT):** The CIRT at Tri-County Behavioral Healthcare assists law enforcement officers with behavioral health calls, evaluates persons in behavioral health crises in their natural environment, and makes appropriate referrals for mental health services, thereby reducing the number of people who inappropriately land in a jail or emergency room.

**Harris County Jail Diversion Program (HCJDP):** The HCJDP provides a continuum of services and supports to reduce criminal justice involvement and unwarranted admissions for emergency room services, while increasing enrollment in long-term mental health services.

**Home and Community Based-Adult Mental Health Program (HCBS-AMH):**

See description provided under Community-Based Services.

**Interdisciplinary Rapid Response Team:** Team of qualified staff, consisting of clinicians working in tandem with law enforcement, trained to safely and appropriately serve someone with a suspected mental illness or intellectual disability who is experiencing a behavioral health crisis, and when appropriate, divert them from extended involvement in the criminal justice system and connect them to necessary behavioral health or intellectual disability services.

**Jail-Based Competency Restoration Program:** This program offers mental health services in a jail-based setting to persons deemed incompetent to stand trial. Four LMHAs and one LBHA provide services and supports as an alternative to inpatient treatment for competency restoration at state mental health facilities. These programs can be found in Dallas, Lubbock, Midland, Nueces, and Tarrant counties.

**Mental Health Deputies (MHD) or Officers:** Several LMHAs subcontract with local sheriffs' departments to deploy a certified MHD to address people in crisis. An MHD is an officer specially trained in crisis intervention who works collaboratively with the community and the LMHA's crisis response teams. MHDs help improve the crisis response system by diverting persons in need of behavioral health crisis services from hospitals and jails to community-based alternatives providing effective behavioral health treatment.

**Mental Health Docket:** Mental health courts promote accountability by helping people understand their public responsibilities and connecting them to services in their communities. Mental Health Docket services are provided to a person with a primary or co-occurring diagnosis of serious mental illness who has frequent interaction with the criminal justice system. These services are offered as part of criminal justice system diversion efforts. Services include case manager screening and assessment, recovery plan development, medication management, psychosocial rehabilitation, skills training, case management, peer support, supported housing, supported employment, and counseling. This type of program is currently operating in Potter and Randall counties and MHMR of Tarrant County.

**Outpatient Competency Restoration (OCR) Program:** The OCR program offers mental health services to adults deemed incompetent to stand trial. LMHAs/LBHAs provide services and supports in a person's home or community, as an alternative to inpatient treatment for competency restoration at state mental health facilities.

**TCOOMMI:** LMHAs/LBHAs connect juvenile and adult offenders with special needs to a full array of psychiatric and medical services upon their release on probation or parole. The Texas Department of Criminal Justice, county jails, and Texas Juvenile Justice Department institutions refer juveniles or adult offenders to this program. LMHAs/LBHAs also work closely with parole and probation officers to help the person comply with the court-order, with a focus on engaging them in behavioral health treatment. Contact the Texas Department of Criminal Justice – Reentry and Integration Division, TCOOMMI at (512) 671-2134.

# Northern Region of Texas

## Betty Hardwick Center (LMHA)

<https://bettyhardwick.org/>

2616 S Clack St., Abilene, TX 79606

**Main Phone:** (325) 690-5100

**Crisis Hotline:** 800-758-3344

**Counties:** Callahan, Jones, Shackelford, Stephens, and Taylor

Population Served: Children and adolescents ages three through 18

YES Waiver Inquiry Line: (713) 970-7212

### **Crisis Services and Facilities:**

#### **Interim Care Clinic:**

Provides interim psychiatric assessment and medication support for persons with a psychiatric diagnosis who do not have a psychiatric outpatient provider, or who have experienced a disruption in their outpatient treatment and experiencing symptoms of a crisis and therefore in urgent need of treatment. The Interim Care Clinic is a one-time walk-in intervention.

Population Served: All ages

Address: 1502 Taub Loop (2nd floor), Houston, TX 77030

Phone: (713) 970-7070

#### **Psychiatric Emergency Services and Extended Observation Unit and Crisis Stabilization Unit**

The Psychiatric Emergency Services Unit is staffed 24 hours a day with registered nurses, clinical social workers, licensed professional counselors and psychiatric technicians. Each person treated receives an individualized clinical service plan that includes medication administration, reinforcement of coping skills, close observation by clinical staff, family meetings, and determination of appropriate community supports.

Population served in Walk-in Services: Screening available for all ages

Population Served in EOU/CSU: Adults 18+ years of age

Address: 1502 Taub Loop, Houston, TX 77030

Phone: (713) 970-7070

## **Appendix C. OSARs**

OSARs may be the first point of contact for those seeking substance use services, including prevention, intervention, treatment, and recovery support services. Regardless of ability to pay, Texas residents who are seeking substance use services and information may qualify for services based on need. There are 14 OSARs incorporated into LMHAs/LBHAs across the state.

For immediate and confidential help, 24 hours a day, seven days a week, people can call the OSAR in their area.

### **Andrews Center**

2323 West Front St.

Tyler, TX 75702-7747
