

This document and any attachments contain information that is proprietary, confidential, commercially sensitive, and/or competitive, and is protected from public disclosure pursuant to Tex. Gov't Code Ann. §§ 552.101, 552.104, 552.110(a)-(b), and any other applicable exception listed in Subchapter C of Chapter 552 of the Texas Government Code, Tex. Bus. & Com. Code Ann. § 15.10(i), and all other applicable statutes, rules, and regulations.

#### Shannon Health

Quarterly Report for Quarter 3 of Fiscal Year 2021

Reporting Period: 4/1/2021–6/30/2021 Submission Date: October 4, 2021 Re-submission Date: December 22, 2021

Certificate of Public Advantage ("COPA")

#### Quarterly Performance Report for Quarter 3 of Fiscal Year 2021

This Quarterly Performance Report (the "Report") is submitted pursuant to the revised Terms and Conditions of Compliance (dated August 3, 2021) governing the Certificate of Public Advantage ("COPA") issued to Shannon Health System on October 2, 2020 ("COPA Approval Date") with respect to the asset purchase agreement dated April 20, 2020, by and among Shannon Medical Center ("SMC") and Community Health System Professional Services Corporation, Inc. ("CHSPSC" or "CHS") for substantially all of the assets used in the operation of San Angelo Community Medical Center ("SACMC", subsequently to be known as "SMC South") (collectively, the "Merger"), and the underlying transaction that closed on October 24, 2020 (the "Transaction Closing Date"). Information related to each of the Shannon Health System hospitals (SMC and SMC South, collectively, "Shannon Health"), is included in this Report where appropriate.

This Report reflects the performance of SMC and SMC South (formerly SACMC) for the third quarter of fiscal year 2021 ("Quarter 3 FY2021" or "Third Quarter FY2021"), the period of April 1, 2021 to June 30, 2021. Where applicable, this Report includes information or refers to information provided in the Baseline Performance Report that was submitted to HHSC on January 15, 2021, and reflects the pre-Merger baseline period of FY2018–FY2020 (the "Baseline Performance Report").

<sup>&</sup>lt;sup>1</sup> Shannon Health expects to submit its future quarterly reports within 90 days of the previous fiscal quarter end date.

# II. Quarterly Performance Report - Quarter 3 FY2021

# A. Summary of Requirements

As required by Texas Health and Safety Code § 314A.103, Texas Admin. Code § 567.32, and the COPA Terms and Conditions of Compliance, Shannon Health must submit quarterly and annual reports regarding the Merger.

This Report and the associated attachments are based directly on the requirements listed in the guidance documents published by HHSC: "DRAFT COPA Reporting Instructions and Checklist Shannon 12.11.2020.docx" and "Revised COPA Terms and Conditions - Shannon Health - 2nd Revision 8.3.21.pdf."

## B. Description of Process

Shannon Health's senior management team, assisted by outside consultants and counsel, worked closely with relevant department heads to collect, analyze, and prepare for submission the information and data detailed in the HHSC guidance documents. Leaders of each department gathered the required information and validated the summaries and responses included in this Report to ensure accuracy and completeness to the fullest extent possible.

#### Shannon Health Leadership

Name	Position
Shane Plymell	President & Chief Executive Officer

Priscilla Halamicek	Director of Human Resources
Holly Lopez	Director of Health and Wellness
Leslie Hines	Manager of Health and Wellness

## III. Terms and Conditions for COPA-Approved Health System

# A. Quality

- 1. Evidence demonstrating how health care quality has improved.
  - <u>CMS Star Ratings</u>: In April 2021, SMC earned an overall rating of four (4) stars, while SACMC earned three (3) stars (see **Table 1a** below). Due to changes to the CMS Star Rating methodology and reporting schedule, CMS last updated hospital quality star ratings in April 2021, as reflected in the Hospital Data archive files provided by CMS.<sup>2</sup> Under an interim final rule released in August 2020, CMS used pre-Merger data from October 2020 to calculate April 2021 ratings. Shannon Health notes that CMS made significant changes to its methodology between the 2020 and April 2021 ratings. Because different measures are now weighted differently, these changes in methodology make it difficult to compare the April 2021 star rating to historical ratings.

Table 1a: Overall CMS Star Ratings<sup>3</sup>

		Pre-Merger Period											
Location	FY2	018	FY2	019	FY2	FY2021							
	January	July	March	July	January	August	April						
SMC	4	4	4	4	5	5	4						
SACMC (SMC South)	4	4	4	4	4	4	3						

• <u>Leapfrog Hospital Safety Grades</u>: SMC and SACMC each individually earned a "C" overall in the most recent Leapfrog Hospital Safety Grade release (from Spring of 2021) (see **Table 1b** below).

Table 1b: Leapfrog Safety Grades<sup>4</sup>

	Pre-Merger Period											
Location	FY2	018	FY2	019	FY2	FY2021						
	Spring	Fall	Spring	Fall	Spring	Fall	Spring					
SMC	С	С	С	С	С	С	С					
SACMC (SMC South)	Α	Α	Α	Α	В	С	С					

• Patient Admissions & Medicare Cost Report Data: Inpatient admissions and outpatient volumes are provided in Item 2 of this Report. Attachment 1 of this report includes the 'as-filed' 2020 SMC Medicare Cost Report package, which includes patient admissions and outpatient volumes data on pages A-017 through A-019. Shannon Health does not currently have access to the 2020 Cost Report for legacy SACMC, as this report was based on the pre-Merger time period. Shannon Health will provide its updated Cost Report once finalized.

<sup>&</sup>lt;sup>2</sup> Source: Hospitals data archive, CMS.gov, https://data.cms.gov/provider-data/archived-data/hospitals.

<sup>&</sup>lt;sup>3</sup> Source: CMS Care Compare: https://www.medicare.gov/care-compare/#search.

<sup>&</sup>lt;sup>4</sup> *Source*: Leapfrog Research Group: <a href="https://ratings.leapfroggroup.org/">https://ratings.leapfroggroup.org/</a>.

Patient Satisfaction Ratings: During Quarter 3 FY2021, both SMC and SMC South maintained their ratings of four (4) stars on the Hospital Consumer Assessment of Healthcare Providers and Systems ("HCAHPS") survey of patient satisfaction. On November 10, 2020, CMS announced that due to the COVID-19 public health emergency, it would not update the HCAHPS survey for the January or April 2021 public reports, and instead, the previously reported data would carry forward. As such, the Quarter 3 FY2021 ratings (see Table 1c below) were awarded during Quarter 1 FY2021 and carried forward for Quarters 2 and 3 FY2021. Updates to the patient satisfaction ratings will be reflected accordingly in future quarterly reports, once released by CMS.

Table 1c: Patient Satisfaction Rating Results<sup>5</sup>

	Pre-Merger Period												Post-Merger Period			
Location	FY2018					FY	2019		FY2020				FY2021			
	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	
SMC	4	4	4	4	3	3	3	3	4	4	4	4	4	4	4	
SACMC (SMC South)	4	4	4	4	4	4	4	3	4	3	4	4	4	4	4	

- 2. Inpatient and outpatient numbers before and after the merger. [This Item contains proprietary, competitively sensitive information redacted from the public version.]
  - <u>Inpatient Volumes</u><sup>6</sup>: Overall, inpatient admissions for Shannon Health increased by approximately 4.1% from Quarter 2 FY2021 to Quarter 3 FY2021, from 4,936 to 5,136. **Table 2a** shows the quarterly change in inpatient admissions for SMC and SACMC during the Baseline Period, as well as Shannon Health (includes both SMC and SMC South) for FY2021. As stated in the Quarter 2 FY2021 Performance Report, volume numbers are shown on a combined basis for Shannon Health from Quarter 2 FY2021 forward as both hospitals will be reported under a single National Provider Identifier ("NPI").

6

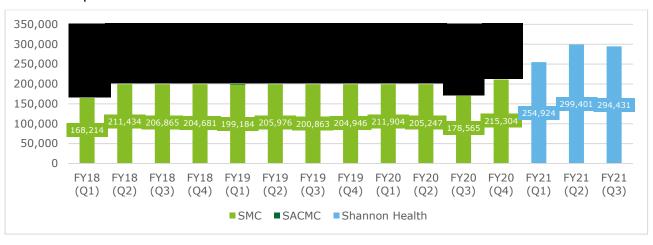

<sup>&</sup>lt;sup>5</sup> Source: HCAHPS Patient Satisfaction Survey: <u>HCAHPS Survey Results</u>.

• <u>Outpatient Volumes</u><sup>7</sup>: Shannon Health's outpatient volume decreased by 1.7% between Quarter 2 FY2021 and Quarter 3 FY2021, from 299,401 to 294,431. Included in this amount is the 21,556 patients that visited Shannon Health's COVID-19 vaccine clinics for vaccines to be administered during Quarter 3 FY2021. **Table 2b** below displays the quarterly change in outpatient volumes for SMC and SACMC during the Baseline Period, as well as Shannon Health (includes both SMC and SMC South) for FY2021. Volume numbers are shown on a combined basis for Shannon Health from Quarter 1 FY2021 forward as both hospitals will be reported under a single National Provider Identifier ("NPI").

Table 2b: Outpatient Volumes

7

- 3. Patient readmission numbers before and after the merger.
  - Patient Readmission Numbers: As described in the Baseline Performance Report and the Quarter 1 and Quarter 2 FY2021 Performance Reports, the reported readmission rates during the Baseline Period included all unplanned readmissions<sup>8</sup> within 30-days of a hospital stay or inpatient procedure and are not adjusted to reflect underlying differences in acuity or co-morbidities. CMS typically reports on readmission data on an annual basis, in July or August. The most recently released readmission numbers are reported in Table 3 under year 2020. Updates to the readmission rates will be reflected accordingly in future quarterly reports.

20% Readmission Rate 15.6% 15.3% 15.3% 15% 16.2% 15.2% 15.2% 14.8% 14.6% 14.1% 10% 5% 2018 2019 2020 SMC SACMC **———** Benchmark

Table 3: Patient Readmissions9

- 4. Any association between increased patient volumes and better patient outcomes.
  - Studies have shown that high volume is associated with better outcomes across a wide range of procedures and conditions. With increased patient volumes, as a result of both the increase in inpatient and outpatient admissions at SMC and increased patient population with the addition of SMC-S, Shannon Health believes it will be more able to identify variations of care, compare the effectiveness of various treatments and observe more efficient modes of care across a larger population of patients, and use this data to inform its policies. Shannon also notes that there is not yet enough information to report on the association between increased patient volumes and better patient outcomes, and will provide updates in subsequent reports after more information becomes available.
  - Shannon Health provides information on the following programs to improve patient outcomes:
    - Quality improvement measures. During Quarter 3 FY2021, Shannon Health continued working toward its quality improvement measures, which were instituted in the First Quarter FY2021 to further enhance quality at all of Shannon Health's hospitals, and in turn, improve patient outcomes. For FY2021, Shannon Health established system-wide quality

Per CMS, the overall rate of unplanned readmission after discharge from the hospital (also called "hospital-wide readmission") focuses on whether patients who were discharged from a hospital stay were hospitalized again within 30 days. All medical, surgical and gynecological, neurological, cardiovascular, and cardiorespiratory hospital patients are included in this measure. Patients may have returned to the same hospital or to a different hospital. They may have been readmitted for a condition that is related to their recent hospital stay, or for an entirely different reason.

<sup>&</sup>lt;sup>9</sup> Source: CMS Care Compare "Unplanned Hospital Visit" benchmark (<u>Medicare.gov/care-compare/</u>).

goals for the following three specific quality measures: (1) Hospital-Acquired Condition reduction for five key conditions (CLABSI, CAUTI, SSI, MRSA, and CDI); (2) Mortality Rate reduction; and (3) Readmission Rate reduction. In establishing and working toward the goals in these key areas, Shannon Health intends to work collaboratively across SMC and SMC South to drive quality improvement performance for the system. In addition, Shannon Health is in the implementation process of integrating Vizient, a clinical data base solution to enhance performance improvement by analyzing data and providing benchmarks to like size hospitals. This program will support Shannon Health going forward in quality improvement measures and goals.

- o Shannon Care Coordination Program. The Shannon Care Coordination Program is designed to improve patient outcomes by utilizing a team to focus on population health efforts as it relates to chronic disease. The Program's structure and ability to utilize a team to focus on population health efforts as it relates to chronic disease has provided Shannon Health the opportunity to identify possible areas for patient care—all in service of providing care to patients in the community. During Quarter 3 FY2021, the Shannon Care Coordination Program continued serving patients discharging from the hospital with Congestive Heart Failure (CHF), Chronic Obstructive Pulmonary Disease (COPD), and COVID-19, as well as patients at high-risk for readmission. Key areas of the program include: medication management, addressing social barriers, and helping the patient manage their chronic condition at home.
- 5. Explanation of how patient services were optimized since the merger and how service optimization impacted patient care.

#### [This Item contains proprietary, competitively sensitive information redacted from the public version.]

- Post-Merger, during Quarter 1 FY2021, Shannon Health began evaluating opportunities across the combined system with the goal of optimizing patient services and enhancing the overall patient experience. During Quarter 3 FY2021, Shannon Health implemented the following initiatives:
  - Outpatient Neuro Rehabilitation Clinic: The new Outpatient Neuro Rehabilitation Clinic, located at 3501 Executive Drive, opened during Quarter 3 FY2021 and includes an expanded floor plan with more space for patients and therapists as well as expanded services including state-of-the-art physical therapy equipment. The new space will allow therapists to provide an enhanced level of care for patients in a more comfortable setting.
  - Health Club equipment upgrades: Shannon Health invested \$105,000 in the Shannon Health Club, providing facility upgrades.
  - o COVID-19 clinics and vaccine distribution: In coordination with the local community, state and local representatives and authorities, Shannon Health organized the Shannon Vaccine Clinic to support COVID vaccine distribution. On June 28, 2021, the COVID Vaccine Clinic moved from the temporary location in the mall to the Shannon South Campus (first floor of hospital facility). Vaccines are available to individuals aged 12 and older. Walk-ins and appointments are accepted. Clinic hours remain the same. Mondays, Wednesdays, Thursdays and Fridays from 7 a.m. to 4 p.m., and Tuesdays from 7 a.m. to 7 p.m. In

addition, Shannon Health continued operating the Shannon COVID-19 hotline. Individuals could call and speak to a clinical provider about inquiries regarding COVID testing or the COVID vaccine. In Quarter 3 FY2021, Shannon Health pharmacy and staff administered 21,556 vaccine doses.

- O COVID-19 education programs: In order to keep the local community informed with the latest information related to the COVID-19 pandemic and vaccine distribution status, Shannon invested in a number of community education programs related to COVID-19, including: Five (5) stories with local media regarding COVID-19 vaccine availability to ages 12+; walk-in availability of vaccines; three (3) stories regarding additional vaccine clinic through Ministerial Alliance to reach additional populations; creation and distribution of a COVID-19 vaccine TV commercial for community that aired on local TV and cable networks; creation and distribution of a COVID-19 vaccine radio commercial in Spanish to local Spanish radio stations; and creation of educational videos for social media channels and website regarding vaccine education in English and Spanish.
- o Community education programs: Shannon Health invested in a number of community education programs. These programs include educational opportunities to healthcare providers in the Shannon Health service area. Shannon's AirMed 1 staff members provided the following educational classes during Quarter 3 FY2021, which included continuing education credits for nursing and EMS providers: (i) Stop the Bleed education - Angelo State University nursing students; (ii) Trauma education - Angelo State University nursing students; (iii) Ventilation Management - Sonora Hospital in Sutton County; and (iv) Cardiac Emergencies and 12 Lead Interpretation - Angelo State University mid-level students. Shannon AirMed1, a partnership with Med-Trans, provides 24-hour emergency air ambulance care to more than 13 West Central Texas counties in its primary service area. Shannon AirMed1 is capable of transporting a wide array of critical care patients such as cardiac, trauma, medical, pediatric, and burn patients. In addition, the AirMed1 crew members frequently travel to rural communities within the region to provide training opportunities to local first-responders and health care professionals. Other educational programs include: partnering with local public safety agencies to host an education safety event related to child injury prevention/water safety for children and parents; two (2) stories with the local media regarding water and summer safety injury prevention for children; and a story with the local media on lyme disease prevention.
- o **Expansion of Mammography services:** Post-Merger, mammography exams are now performed at the Shannon Imaging Center on S. Bryant. At this location, Shannon Health offers three (3) 3D Mammography units along with Breast MRI, Breast Ultrasound, and Breast Biopsy/Needle localization capabilities.

6. A summary of quality improvement measures for each hospital to address performance in meeting quality performance standards.

#### [This Item contains proprietary, competitively sensitive information redacted from the public version.]

- For FY2021, Shannon Health continued working toward its quality improvement measures, which were instituted in the First Quarter FY2021 to further enhance quality at all of Shannon Health's hospitals. For FY2021, Shannon Health established system-wide quality goals for the following three specific quality measures: (1) Hospital-Acquired Condition reduction for five key conditions (CLABSI, CAUTI, SSI, MRSA, and CDI); (2) Mortality Rate reduction; and (3) Readmission Rate reduction. In establishing and working toward the goals in these key areas, Shannon Health intends to work collaboratively across SMC and SMC South to drive quality improvement performance for the system. Shannon Health tracks various quality measures internally to develop strategies and understand current performance. This is a proactive approach to understand and potentially impact the data that will be later publicly reported; Shannon Health anticipates needing more than a year of post-merger data before it has usable data to report.
- The quality measures included in this Report are summarized below in **Table 6**.

Table 6: Shannon Health Summary of Quality Measure Performance

	Page		FY2018				FY2019 FY2020							FY2021		
Quality Metrics	Ref.		FY2	018			FY.	2019			FY	2020		Q1	Q2	Q3

### B. Efficiencies

- 7. A description of the steps taken to reduce costs and improve efficiency.
  - <u>Steps Taken to Reduce Costs</u>: Shannon Health has continued to conduct weekly, joint executive leadership meetings during Quarter 3 FY2021, which oversees SMC and SMC South, discusses post-Merger integration priorities and initiatives, including how to reduce costs and improve efficiency.
- 8. Data regarding emergency department closures since the merger.
  - <u>Current Emergency Department Locations</u>: During Quarter 3 FY2021, there were no changes in the number of Emergency Departments that Shannon Health operated. As such, Shannon Health still operates one Emergency Department at SMC and one Emergency Department at SMC South, as reported in the Baseline Performance Report. Each location is listed in **Table 8a** and **8b** below.

#### Table 8a: SMC Emergency Department

Emergency Department Location	Address	Status
Shannon Medical Center (SMC)	120 E Harris Ave., San Angelo, TX 76903	Open

#### Table 8b: SMC South Emergency Department

Emergency Department Location	Address	Status
Shannon Medical Center South (SMC South)	3502 Knickerbocker Rd., San Angelo, TX 76904	Open

- <u>Emergency Department Closures</u>: Shannon Health has no plans to close any Emergency Departments as of the date of this Report.
- 9. A description of how the hospitals have expanded telehealth and an explanation of how the expansion has improved access to healthcare for the rural community by: (1) Providing data demonstrating the expansion of telehealth and technology; and (2) Explaining how the expansion of telehealth and technology improved the hospitals' ability to treat a larger patient population.
  - <u>Telehealth</u>: During Quarter 3 FY2021, Shannon Health provided telehealth services, including primary and other non-emergency care services, to 3,851 patients through its virtual care platforms (as shown in **Table 9**). Telehealth volumes decreased by 62.7% between Quarter 2 and Quarter 3, from 10,316 to 3,851, primarily due to patients feeling increasingly more comfortable and demonstrative of patient preference to return to in-person care following a decline in COVID-19 cases. The overall inpatient and outpatient volume data reported in **Item 2** of this Report includes in-person and virtual visits that are completed by Shannon Health providers within Epic. Since the COVID-19 pandemic, Shannon Health has tracked telehealth separately to understand utilization across the system, but telehealth visits are still included within the overall volumes. Telehealth capabilities remain available and are utilized by patients choosing that method of care. As noted in the First and Second Quarter FY2021 Performance Reports, Shannon Health has

dedicated additional resources to this area in order to further expand virtual care options throughout the service area.

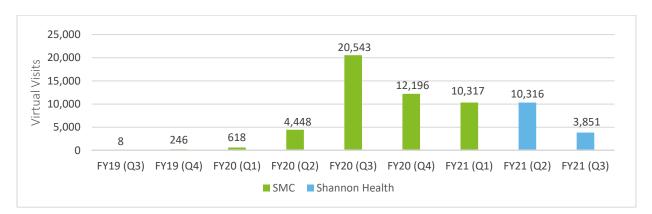

Table 9: Number of Patients Treated via Telehealth<sup>10</sup>

- 10. Progress report regarding the adoption of the new IT Platform.
  - <u>IT Platform</u>: Prior to the Merger, SMC and SMC South utilized completely separate Electronic Medical Record ("EMR") and Enterprise Resource Planning ("ERP") systems, from different vendors. As of Quarter 3 FY2021, Shannon Health's EMR platform has disconnected from the CHS network completely. SMC South and its clinic locations have completed their migrations on Shannon's EMR platform. Shannon Health now has limited access to legacy MedHost data, and Athena data is available upon request.
- 11. Provide the evidence of the onboarding SACMC's system and provide training evidence for personnel.
  - Post-Merger, all legacy SACMC employees have been trained, onboarded, and integrated to Shannon Health.
  - All new employees hired post-Merger (except for Physicians and Advance Practice Professionals) attend a system-wide new hire orientation process, regardless of what campus they are hired to. These system-wide New Hire Orientation sessions are held at least once per month. The New Hire Orientation sessions provide an overview of Shannon Health, the Shannon Health policies and procedures, and the Employee Benefits offerings, with instructions on how to enroll in the offered Employee Benefits. Where applicable, new hires are also trained on Epic, the EMR for Shannon Health.
  - Physicians and Advanced Practice Professionals are onboarded separately, with specific consideration for their individual onboarding timetable, specialty, and job requirements.

\_

<sup>&</sup>lt;sup>10</sup> Volume includes telehealth visits tracked through Epic; additional telehealth visits may occur but are not included in the table if they are not recorded in Epic.

- 12. A description of any workforce reduction since the issuance of the COPA based on occupation, i.e. doctors, nurses, support staff, etc. Include the numbers and job titles of any position eliminated, the total number of employees before and after the reduction, and explain any impact the reduction has on patient service delivery.
  - Workforce: As of the Transaction Closing Date through the end of Quarter 3 FY2021, there were no reductions in workforce other than what is expected through the ordinary course of business (e.g., attrition). Shannon Health continues to experience increased demand for staff. For example, in Quarter 3 FY2021, Shannon Health added 22 new positions to their workforce. In addition, Shannon Health hired 299 new employees during Quarter 3 FY2021, which filled current vacancies at both hospitals, as well as identified staffing needs at SMC South. As of June 30, 2021, Shannon Health employed 3,718 employees, as compared to 3,718 as of the end of the Second Quarter FY2021 (see Table 12 below).

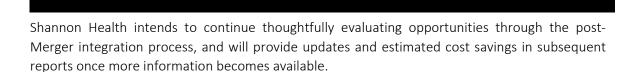

Table 12: Workforce as of Quarter 3 FY2021<sup>11</sup>

Location	Employees as of Transaction Closing Date <sup>12</sup>	Employees as of Q1 FY2021	Employees as of Q2 FY2021	Employees as of Q3 FY2021
Shannon Health	3,709	3,694	3,718	3,718

13. Data and financial reports demonstrating savings from the reduction in duplication of resources.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

• Shannon Health has identified several potential opportunities and initiatives that it believes will generate efficiencies and reduce unnecessary costs. For reference, the following opportunities are specifically related to the reduction in the duplication of resources:

 $<sup>^{11}</sup>$  Note employee headcount includes employed physicians and advanced practice clinicians.

<sup>&</sup>lt;sup>12</sup> Employee count as of the Transaction Closing Date was slightly adjusted from the Baseline Performance Report in order to correct for data errors.

14. Data showing the coordination of services before and after the merger and evidence demonstrating how cost savings will be reinvested locally.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- Pre-Merger Coordination of Services: Please refer to the Baseline Performance Report.
- <u>Post-Merger Coordination of Services</u>: By thoughtfully combining the resources of SMC and legacy SACMC, Shannon Health intends to be able to better coordinate services, increase efficiencies, and optimize patient care. As of the end of Quarter 3 FY2021, Shannon Health has continued enhancing the coordination of services through the following:
  - o COVID-19 clinics and vaccine distribution: In coordination with the local community, state and local representatives and authorities, Shannon Health organized the Shannon Vaccine Clinic to support COVID-19 vaccine distribution. On June 28, 2021, the COVID Vaccine Clinic moved from the temporary location in the mall to the Shannon South Campus (first floor of hospital facility). Vaccines are available to individuals aged 12 and older. Walk-ins and appointments are accepted. Clinic hours remain the same: Mondays, Wednesdays, Thursdays and Fridays from 7 a.m. to 4 p.m., and Tuesdays from 7 a.m. to 7 p.m. In addition, Shannon Health continued operating the Shannon COVID-19 hotline. Individuals could call and speak to a clinical provider about inquiries regarding COVID-19 testing or the COVID-19 vaccine. In Quarter 3 FY2021, Shannon Health pharmacy and staff administered 21,556 vaccine doses.
  - O COVID-19 education programs: In order to keep the local community informed with the latest information related to the COVID-19 pandemic and vaccine distribution status, Shannon invested in a number of community education programs related to COVID-19, including: five (5) stories with local media regarding COVID-19 vaccine availability to ages 12+; walk-in availability of vaccines; three (3) stories regarding additional vaccine clinic through Ministerial Alliance to reach additional populations; creation and distribution of a COVID-19 vaccine TV commercial for community that aired on local TV and cable networks; creation and distribution of a COVID-19 vaccine radio commercial in Spanish to local Spanish radio stations; and creation of educational videos for social media channels and website regarding vaccine education in English and Spanish.
  - Community education programs: Shannon Health invested in a number of community education programs. These programs include educational opportunities to healthcare providers in the Shannon Health service area. Shannon's AirMed 1 staff members provided the following educational classes during Quarter 3 FY2021, which included continuing education credits for nursing and EMS providers: (i) Stop the Bleed education Angelo State University nursing students; (ii) Trauma education Angelo State University nursing students; (iii) Ventilation Management Sonora Hospital in Sutton County; and (iv) Cardiac Emergencies and 12 Lead Interpretation Angelo State University mid-level students. Shannon AirMed1, a partnership with Med-Trans, provides 24-hour emergency air ambulance care to more than 13 West Central Texas counties in its primary service area. Shannon AirMed1 is capable of transporting a wide array of critical care patients such as cardiac, trauma, medical, pediatric, and burn patients. The AirMed1 crew members

frequently travel to rural communities within the Region to provide training opportunities to local first-responders and health care professionals. Other educational programs include: partnering with local public safety agencies to host an education safety event related to child injury prevention/water safety for children and parents; two (2) stories with the local media regarding water and summer safety injury prevention for children; and a story with the local media on lyme disease prevention.

- Expansion of Mammography services to Shannon South: Post-Merger, mammography exams are now performed at the Shannon Imaging Center on S. Bryant. At this location, Shannon Health offers three (3) 3D Mammography units along with Breast MRI, Breast Ultrasound, and Breast Biopsy/Needle localization capabilities.
- O Utilization of SMC South to optimize COVID-19 care: Shannon Health has continued operating the Shannon COVID Vaccine at SMC South. Shannon Health has also continued operating the area's only COVID-19 Infusion Therapy Clinic at SMC South during Quarter 3 FY2021 in order to provide the monoclonal antibody outpatient infusion therapy to identified high-risk patients. The goal of this treatment is to decrease the need for hospitalization in these patients.

- <u>Cost Savings Reinvestment Evidence</u>: Shannon Health plans to and has reinvested cost savings to various local initiatives, such as the Outpatient Neuro Rehabilitation Clinic, Health Club equipment upgrades, Shannon Vaccine Clinic, and other capital expenditures.
- 15. Data demonstrating reinvestment in the combined healthcare system. [This Item contains proprietary, competitively sensitive information redacted from the public version.]
  - <u>Reinvestment</u>: As discussed in this Report, the Merger allows for the better coordination of resources and decision-making, resulting in improved efficiency, elimination of waste, and the achievement of cost savings. Shannon Health is committed to reinvesting these savings in its operations and community, with the goal of improving the overall patient experience and patient care. The following are examples of how Shannon Health continued reinvesting in the combined healthcare system during Quarter 3 FY2021:
    - Outpatient Neuro Rehabilitation Clinic: In Quarter 3 FY2021, Shannon Health opened the new Outpatient Neuro Rehabilitation Clinic at 3501 Executive Drive. This clinic includes an expanded floor plan with more space for patients and therapists, as well as expanded services, such as state-of-the-art physical therapy equipment. The new space will allow therapists to provide an enhanced level of care for patients in a more comfortable setting.

- Shannon Health invested \$182,130 in the Neurology remodel and \$27,003 in the Neurology roof.
- o **Health Club equipment upgrades**: Shannon Health invested \$105,000 in the Shannon Health Club, providing facility upgrades.
- o COVID-19 clinics and vaccine distribution: In coordination with the local community, state and local representatives and authorities, Shannon Health organized the Shannon Vaccine Clinic to support COVID-19 vaccine distribution. On June 28, 2021, the COVID-19 Vaccine Clinic moved from its temporary location at the Sunset Mall in San Angelo to the Shannon South Campus, or the first floor of the hospital facility. The clinic was open five days a week, by appointment or walk-ins. Vaccines were available to individuals ages 12 and older. In addition, Shannon Health continued operating the Shannon COVID-19 hotline. Individuals could call and speak to a clinical provider about inquiries regarding COVID-19 testing or the COVID-19 vaccine. In Quarter 3 FY2021, Shannon Health pharmacy and staff administered 21,556 vaccine doses.
- Community education programs: Shannon Health invested in a number of community education programs. These programs include educational opportunities to healthcare providers in the Shannon Health service area. Shannon's AirMed 1 staff members provided the following educational classes during Quarter 3 FY2021, which included continuing education credits for nursing and EMS providers: (i) Stop the Bleed education - Angelo State University nursing students; (ii) Trauma education - Angelo State University nursing students; (iii) Ventilation Management - Sonora Hospital in Sutton County; and (iv) Cardiac Emergencies and 12 Lead Interpretation - Angelo State University mid-level students. Shannon AirMed1, a partnership with Med-Trans, provides 24-hour emergency air ambulance care to more than 13 West Central Texas counties in its primary service area. Shannon AirMed1 is capable of transporting a wide array of critical care patients such as cardiac, trauma, medical, pediatric, and burn patients. The AirMed1 crew members frequently travel to rural communities within the Region to provide training opportunities to local first-responders and health care professionals. Other educational programs include: partnering with local public safety agencies to host an education safety event related to child injury prevention/water safety for children and parents; two (2) stories with the local media regarding water and summer safety injury prevention for children; and a story with the local media on lyme disease prevention. In Quarter 3 FY2021, Shannon Health's investments related to AirMed1 totaled approximately \$500 in employee time.
- Capital expenditures: Shannon Health incurred additional capital expenditures to improve its facilities and grow its operations, totaling approximately \$9.9 million across both SMC and SMC South.
- O **3D Mammography**: Post-Merger, mammography exams are now performed at the Shannon Imaging Center on S. Bryant. At this location, Shannon Health offers three (3) 3D Mammography units along with Breast MRI, Breast Ultrasound, and Breast Biopsy/Needle localization capabilities.

- 16. Data and financial reports reflecting the savings in each area referenced above. [This Item contains proprietary, competitively sensitive information redacted from the public version.]
  - <u>Post-Merger Operating Efficiencies</u>: During Quarter 3 FY2021, Shannon Health continued the process to identify, track, and report data and financial reports reflecting efficiencies achieved in the areas identified previously, as appropriate, and additional areas as opportunities arise. In Quarter 3 FY2021, Shannon Health identified additional opportunities or initiatives that are likely to generate efficiencies and reduce unnecessary costs, as summarized below. Shannon Health will continue to thoughtfully evaluate potential opportunities throughout the post-Merger integration process and will provide updates and estimated cost savings in subsequent reports once more information becomes available.

#### Annual, Recurring Operating Savings:

17. Operating deficiencies that existed before the merger and how any operating efficiencies have been achieved since the merger.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

• <u>Post-Merger Operating Efficiencies</u>: Shannon Health is in the process of remediating the deficiencies that were identified in the Baseline and First Quarter FY2021 Performance Reports. During Quarter 3 FY2021, Shannon Health invested \$2.8M in equipment and facility upgrades at SMC South. **Table 17** below shows the breakout of \$2.8M.

Table 17: Operating Efficiencies, Quarter 3 FY2021

18. An explanation of how any operating efficiencies achieved have impacted healthcare service delivery, patient care, staff, the local community, and counties served.

[This Item contains proprietary, competitively sensitive information redacted from the public version]

- The transaction has allowed for better coordination of decision-making and resources, resulting in various operating efficiencies, including clinical and SG&A efficiencies. Shannon Health continues to reinvest savings in its operations to enhance healthcare service delivery, patient care, staff, the local community, and counties served. For example, during Quarter 3 FY2021, Shannon Health undertook the following initiatives:
  - Opened a new Outpatient Neuro Rehabilitation Clinic to provide an enhanced level of care for patients in a more comfortable setting;
  - Expanded Mammography services to SMC South to include 3D Mammography and Breast MRI capabilities, increasing access and availability of these services to patients in the community;
  - o Invested in equipment upgrades at the Shannon Health Club;
  - o Offered COVID-19 vaccine clinics and a hotline to the community;
  - Continued to maintain the area's only COVID-19 Infusion Therapy Clinic at SMC South to provide the monoclonal antibody outpatient infusion therapy to identified high-risk COVID-19 positive patients;
  - o Invested in a number of community education programs, including include educational opportunities to healthcare providers in the Shannon Health service area;
  - o Continued efforts to bring additional jobs to the area through the addition of 22 new positions in order to support identified needs for the new combined system, including both administrative and clinical roles; and
  - o Invested \$9.9 million in capital expenditures across both SMC and SMC South to improve and expand its facilities and growth operations.

- 19. Data on the pricing, quality, and availability of ancillary health care services. [This Item contains proprietary, competitively sensitive information redacted from the public version]
  - Ancillary Health Services Pricing and Availability: The actual charges for Shannon Health's ancillary health services are set forth in the Shannon Health Charge Description Master ("CDM"). Shannon Health contracts with various commercial health plans, which generally reimburse ancillary health services based on a negotiated fee schedule or percentage discount of actual charges. However, only approximately of Shannon Health's patients are insured by commercial payors. The majority of Shannon Health patients are insured by government payors which set the reimbursement rates for those patients without negotiations. **Table 19a** below identifies Quarter 3 FY2021 volumes and CDM charges for select tests, treatments, or procedures for the following categories of ancillary health services: Laboratory, Imaging, and Pharmacy.

Table 19a: Ancillary Health Services

		Volu	ıme <sup>14</sup>			Actual CD	M Charges	
Ancillary Service	FY2020	Q1 FY2021	Q2 FY2021	Q3 FY2021	FY2020	Q1 FY2021	Q2 FY2021	Q3 FY2021

 $<sup>^{13}</sup>$  Actual charges are charges prior to any contractual discount allowance for various payor classes.

<sup>&</sup>lt;sup>14</sup> Beginning in Quarter 2 FY2021, the first full quarter post-Merger, and going forward, volume amounts for pharmacy and radiology include both SMC and SMC South data.

<sup>&</sup>lt;sup>15</sup> The clinic and hospital laboratories were consolidated during the Baseline Period, resulting in the appearance of significant changes in certain laboratory service volumes.

<sup>&</sup>lt;sup>17</sup> Pharmaceutical prices can vary month to month, and the pricing shown in Table 19a captures pricing as of end of Quarter 3 FY2021. Shannon Health notes it is part of the Texas Purchasing Coalition, a network of independent health systems located in

• Ancillary Health Services Quality: Table 19b and Table 19c below shows the quality scores for certain CMS Care Compare and Leapfrog Safety Group quality measures specifically related to ancillary health services. The Use of Medical Imaging measures were last refreshed by CMS using October 2020 data to calculate April 2021 (shown below in Quarter 3 FY2021). The Medication Safety measure (Safe Medication Ordering) is refreshed by Leapfrog in the Spring and Fall, and as such, the 100 for SMC and the 45 for legacy SACMC reported in Spring 2021, shown in Table 19b and Table 19c respectively, reflect the most recently available scores. Shannon Health will report updated information as it becomes available.

Table 19b: SMC Ancillary Health Services Quality Scores<sup>18</sup>

	Baseline Period									Post-Merger Period

Arkansas, Missouri and Texas, which aims to provide low, competitive drug pricing for members through comprehensive sourcing, performance improvement and cost management services. TPC engages in strategic sourcing, utilization management, and clinical and operational consulting, as well as service line, clinical and supply chain analytics.

<sup>&</sup>lt;sup>18</sup> Information reported by CMS Care Compare, and Leapfrog Safety Group agencies (<u>Medicare.gov</u> and <u>Leapfrog Group</u>).

<sup>&</sup>lt;sup>19</sup> Please note that lower values are more favorable for measures OP-8 and OP-10 that are included within **Table 18b**. OP-8 measures the "[p]ercentage of outpatients with low-back pain who had an MRI without trying recommended treatments (like physical therapy) first." As CMS explains, "[h]ospitals that are rated well on [OP-8] will have lower percentages. If a percentage is high, it may mean that the facility is doing unnecessary MRIs for low-back pain." As for OP-10, it measures the "[p]ercentage of outpatient CT scans of the abdomen that were 'combination' (double) scans." CMS explains that "[h]ospitals that are rated well on [OP-10] will have lower percentages. If a percentage is high, it may mean that the facility is doing unnecessary double/combination scans."

Please note that Leapfrog does not publicly provide past or historical Hospital Safety Grade reports on its website. As such, hospital scores on the underlying measures, such as "Safe Medication Ordering," are not available for FY2018, FY2019, or Spring of FY2020.

# 20. Data on the pricing, quality, and availability of physician services. [This Item contains proprietary, competitively sensitive information redacted from the public version.]

• Physician Services Pricing and Availability: The actual charges for Shannon Health's physician services are set forth in the Shannon Health Physician Fee Schedule. Shannon Health contracts with various commercial health plans, which generally reimburse physician services based on a negotiated fee schedule or percentage discount of actual charges. However, only approximately of Shannon Health's patients are insured by commercial payors. The majority of Shannon Health patients are insured by government payors which set the reimbursement rates for those patients without negotiations. Table 20 below identifies Quarter 3 FY2021 volumes and the average CPT charge for the select CPT codes for clinic visits or evaluation and management office visits. Please note that legacy SACMC (or SMC South) data is not included in the pre-Merger period (FY2020 through the first month of Quarter 1 FY2021) in Table 20, as legacy SACMC data was not available to Shannon Health pre-Merger. Beginning with Quarter 2 FY2021 (the first full quarter post-Merger) and going forward, the physician services data includes both SMC and SMC South combined.

<sup>&</sup>lt;sup>21</sup> See supra note 18.

 $<sup>^{22}</sup>$  See supra note 19 for more information.

<sup>&</sup>lt;sup>23</sup> Please note that beginning in Quarter 4 FY2018, CMS archived data indicates that legacy SACMC scores for "OP-8 MRI Lumbar Spine for Low Back Pain" are "Not Available" because "[t]he number of cases/patients [was] too few to report." According to CMS's Data Dictionary, this means that either: (1) "the number of cases/patients [did] not meet the required minimum amount for public reporting"; (2) "the number of cases/patients [was] too small to reliably tell how well a hospital [was] performing"; and/or (3) CMS needed to "protect personal health information."

<sup>&</sup>lt;sup>24</sup> Please note that Leapfrog does not publicly provide past or historical Hospital Safety Grade reports on its website. As such, hospital scores on the underlying measures, such as "Safe Medication Ordering," are not available for FY2018, FY2019, or Spring of FY2020.

- Physician Services Quality: The composite Merit-Based Incentive Program ("MIPS") score serves as an indicator of the quality and cost of physician services. SMC received a composite MIPS score of 99.5, out of 100 possible points for FY2018 services. For services provided in FY2019, SMC received a composite MIPS score of 90, out of 100 possible points. The 2020 MIPS score has not yet been finalized, as the CMS filing date is in March 2021. The FY2019 MIPS score is based on four categories, each representing a specific weight of the final composite score: (i) Quality (45%); (ii) Promoting Interoperability (25%); (iii) Improvement Activities (15%); and (iv) Cost (15%).<sup>27</sup> When reporting on the composite score, CMS does not report MIPS scores broken down by category. Additionally, Shannon Health does not have access to historical MIPS scores for legacy SACMC.
- 21. Data on the consolidation of clinic services, identifying the types of services per county.
  - <u>Consolidation of Services</u>: During Quarter 3 FY2021, Shannon Health did not consolidate any clinic services. Shannon Health continues to evaluate opportunities for service line optimization or consolidation and will note any changes in subsequent reports. Services offered as of Quarter 3 FY2021 by Shannon Health are outlined in **Attachment 2.**

<sup>&</sup>lt;sup>25</sup> Excludes legacy SACMC (or SMC South) as this data was not available to Shannon Health pre-Merger

<sup>&</sup>lt;sup>26</sup> Volume amounts include three months of data for SMC and two months of data (November and December 2020) for SMC South, as volume from legacy SACMC was not available to Shannon Health pre-Merger

<sup>&</sup>lt;sup>27</sup> Centers for Medicare Services, Quality Payment Program (https://qpp.cms.gov/mips/overview).

- 22. Data indicating how the consolidation of these services improved patient outcomes.
  - As of the end of Quarter 3 FY2021, Shannon Health has not consolidated any clinic services. Shannon Health continues to evaluate opportunities for service line optimization or consolidation and will note any changes in subsequent reports.

## C. Accessibility

- 23. A list of the severe risks described in the application facing Tom Green County and an explanation of how the merger led to the mitigation of these risks.
  - The COPA application described the severe risks facing Tom Green County in the context of Shannon Health's Community Health Needs Assessment ("CHNA") from 2019. The CHNA report involved a year-long study to identify the more prevalent, unmet health needs of residents within Tom Green County. Typically, Shannon Health utilizes a CHNA to identify prevalent, unmet health needs in order to allocate resources to the areas of greatest need. Accordingly, Shannon Health's CHNA identified five predominant health needs in the community to be prioritized, as of 2019: (1) adult obesity; (2) lack of health knowledge/education; (3) lack of mental health providers; (4) shortage of primary care physicians; and (5) healthy behaviors/lifestyle.
  - Importantly, however, the year-long study for the CHNA, and the resulting 2019 CHNA report, were completed long before the unprecedented COVID-19 pandemic, as well as before the Merger. As a result, Shannon Health has also identified and prioritized responding to the COVID-19 pandemic and increasing access to care as a predominant health need in the community.
  - The Merger allows Shannon Health to continue focusing on impacting the predominant health needs in the community. In particular, during the Quarter 3 FY2021, the following initiatives show efforts in furtherance of mitigating the predominant community health needs:
    - o Increasing Access to Care: Shannon Health has continued to offer local "drive-thru sites" to conduct COVID-19 testing, and has provided vaccines to healthcare workers and first responders throughout the broader rural community. Additionally, in Quarter 3 FY2021, Shannon Health team implemented a community-wide COVID-19 vaccine distribution strategy, administering over 21,556 doses to community members. As part of these efforts, Shannon Health established standalone vaccine clinic operations. This clinic moved from a formerly vacant department store to the first floor of SMC South, and accommodated a high volume of patients that sought the COVID-19 vaccine. In addition, Shannon Health continued operating the Shannon COVID-19 hotline. Individuals could call and speak to a clinical provider about inquiries regarding COVID testing or the COVID vaccine.
    - Adult Obesity: In Quarter 3 FY2021, community-based events continued to be limited due to COVID-19, which is the primary way Shannon Health has worked to address Adult Obesity.
    - <u>Lack of Health Knowledge/Education</u>: Shannon Health has developed health education around the COVID-19 pandemic and has prioritized providing such education to the community. Shannon Health has partnered with local public safety agencies to host an education safety event related to child injury prevention/water safety for children and parents; developed two (2) stories with the local media regarding water and summer safety injury prevention for children; and developed a story with the local media on lyme disease prevention.

- o <u>Shortage of Primary Care Providers</u>: To address the shortage of primary care providers, in Quarter 3 FY2021 Shannon Health continued to recruit for Family Practice.
- o <u>Healthy Behaviors/Lifestyle</u>: In Quarter 3 FY2021, Shannon Health invested \$105,000 in the Shannon Health Club, providing facility upgrades.
- 24. A description of each patient service that changed or has been discontinued since the merger and an explanation of the impact to patient care.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- Post-Merger, during Quarter 3 FY2021, Shannon Health did not discontinue any patient services. Shannon Health expanded patient services in the following ways:
  - Opening of the new Outpatient Neuro Rehabilitation Clinic: The new Outpatient Neuro Rehabilitation Clinic, located at 3501 Executive Drive, opened during Quarter 3 FY2021 and includes an expanded floor plan with more space for patients and therapists as well as expanded services including state-of-the-art physical therapy equipment. The new space will allow therapists to provide an enhanced level of care for patients in a more comfortable setting.
  - o Community education programs: Shannon Health invested in a number of community education programs. These programs include educational opportunities to healthcare providers in the Shannon Health service area. Shannon's AirMed 1 staff members provided the following educational classes during Quarter 3 FY2021, which included continuing education credits for nursing and EMS providers: (i) Stop the Bleed education - Angelo State University nursing students; (ii) Trauma education - Angelo State University nursing students; (iii) Ventilation Management - Sonora Hospital in Sutton County; and (iv) Cardiac Emergencies and 12 Lead Interpretation - Angelo State University mid-level students. Shannon AirMed1, a partnership with Med-Trans, provides 24-hour emergency air ambulance care to more than 13 West Central Texas counties in its primary service area. Shannon AirMed1 is capable of transporting a wide array of critical care patients such as cardiac, trauma, medical, pediatric, and burn patients. The AirMed1 crew members frequently travel to rural communities within the Region to provide training opportunities to local first-responders and health care professionals. Other educational programs include: partnering with local public safety agencies to host an education safety event related to child injury prevention/water safety for children and parents; two (2) stories with the local media regarding water and summer safety injury prevention for children; and a story with the local media on lyme disease prevention.
  - covidence of the Covidence of the Shannon South campus. The clinic was open five days a week, by appointment or walk-in. Clinic hours remained the same as its Sunset Mall location hours. In addition, Shannon Health established and operated the Shannon Covidence of the Shannon South campus. The clinic was open five days a week, by appointment or walk-in. Clinic hours remained the same as its Sunset Mall location hours. In addition, Shannon Health established and operated the Shannon COVID-19 hotline. Individuals can call and speak to a clinical provider about inquiries regarding

COVID-19 testing or the COVID-19 vaccine. Shannon Health's local presence and leadership provided direct COVID-19 vaccine access to the local community. Shannon Health's locally-owned infrastructure yields the opportunity to adapt more timely and make informed decisions as COVID-19 guidance became available or changed. This allowed Shannon Health to increase strategies in response to COVID-19 and adapt processes as CDC guidelines for the distribution of COVID-19 vaccine continued to change, which resulted in great benefit to the community to access the COVID-19 vaccine. In Quarter 3 FY2021, Shannon Health distributed 21,556 COVID-19 vaccine doses.

- 25. Data illustrating the impact to patient wait times, including emergency department wait times, before and after the merger.
  - Emergency Department Wait Times: Average Emergency department ("ED") wait times for the Quarter 3 FY2021 (as reported by CMS) for SMC and SMC South (legacy SACMC) are shown below in Table 25a and Table 25b, respectively. The reporting period for data released by CMS during Quarter 3 FY2021 is 1/1/2019 through 12/31/2019 (or pre-Merger). For the purposes of this Report, average ED wait times is defined as the median time from arrival at the ED until time of discharge for outpatient ED patients. For the CMS data released during Quarter 3 FY2021, SMC maintained an average ED wait time of 186 minutes. Please note that national benchmark information is not available for SMC for Quarter 3 FY2021, as no volume (high, medium, or low) was reported for SMC on the CMS website during this time period. For the CMS data released during Quarter 3 FY2021, SMC South maintained an average ED wait time of 121 minutes. Shannon Health notes the significant decrease in the National Benchmark for Q3 FY2021; however, Shannon Health cannot speak to specifics related to the changes in benchmarking data from CMS.

Table 25a: SMC Average ED Wait Times<sup>28</sup>

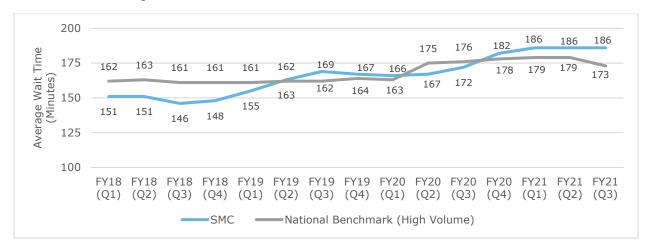

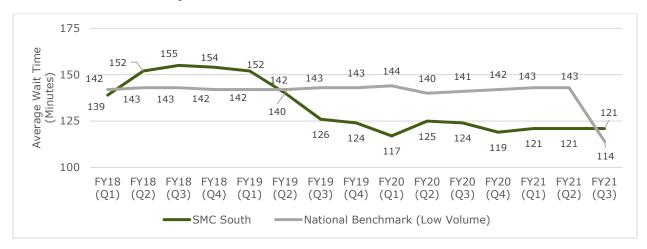

Table 25b: SMC South Average ED Wait Times

# 26. Data demonstrating any expansion in service delivery since the merger. [This Item contains proprietary, competitively sensitive information redacted from the public version.]

- During Quarter 3 FY2021, Shannon Health increased access to health care services for patients in its communities through the following initiatives to expand service delivery:
  - Opening of the new Outpatient Neuro Rehabilitation Clinic: The new Outpatient Neuro Rehabilitation Clinic, located at 3501 Executive Drive, opened during Quarter 3 FY2021 and

\_

<sup>&</sup>lt;sup>28</sup> The April 2021 file from CMS (i.e., 'Timely\_and\_Effective\_Care-National.csv') shows a national benchmark of 173 minutes for high volume hospitals. However, no volume (high, medium, or low) was reported for SMC during this time period. Rather, only the score for SMC (186 minutes in Quarter 3 FY2021) was reported; the volume for SMC was reported as "not available." Thus, the high-volume national benchmark of 173 minutes is not applicable to SMC during this time period. The high-volume benchmark included in **Table 25a** for Q3 FY2021 is for illustrative purposes only and is not an official designation from CMS or any other source.

includes an expanded floor plan with more space for patients and therapists as well as expanded services including state-of-the-art physical therapy equipment. The new space will allow therapists to provide an enhanced level of care for patients in a more comfortable setting.

- Health Club equipment upgrades: Shannon Health invested \$105,000 in the Shannon Health Club, providing facility upgrades.
- Expanded capacity for COVID-19 response: Shannon Health continued operating a COVID-19 vaccine clinic that accommodated a high volume of patients. On June 28, 2021, the COVID-19 Vaccine Clinic moved from the temporary location in the mall to the Shannon South Campus (first floor of hospital facility). Vaccines are available to individuals aged 12 and older. Walk-ins and appointments are accepted. Clinic hours remain the same. Mondays, Wednesdays, Thursdays and Fridays from 7 a.m. to 4 p.m., and Tuesdays from 7 a.m. to 7 p.m. In addition, Shannon Health continued operating the Shannon COVID-19 hotline. Individuals could call and speak to a clinical provider about inquiries regarding COVID-19 testing or the COVID-19 vaccine. In Quarter 3 FY2021, Shannon Health pharmacy and staff administered 21,556 vaccine doses.
- Expansion of Mammography services to Shannon South: Post-Merger, mammography exams are now performed at the Shannon Imaging Center on S. Bryant. At this location, Shannon Health offers three (3) 3D Mammography units along with Breast MRI, Breast Ultrasound, and Breast Biopsy/Needle localization capabilities.
- 27. Data demonstrating rehabilitation room capacity before and after the merger.
  - <u>Pre-Merger Rehabilitation Room Capacity</u>: Please refer to the Baseline Performance Report.
  - Post-Merger Rehabilitation Room Capacity: As noted in the Quarter 2 FY2021 Performance Report, on March 29, 2021, Shannon Health opened the Shannon Rehabilitation Hospital through a joint venture with Encompass Health, a national leader in healthcare and rehabilitation services. The Shannon Rehabilitation Hospital includes 40 private inpatient rehabilitation rooms, an expansive therapy gym featuring the latest technologies and equipment, an on-site cafeteria, in-house pharmacy and a four-chair dialysis suite. The Shannon Rehabilitation Hospital provides inpatient rehabilitation services to treat conditions such as amputations; brain injuries; burns, cardiac and pulmonary conditions; complex orthopedic conditions; hip fractures; multiple trauma; neurological conditions (e.g., Parkinson's disease, Guillain-Barré, Multiple Sclerosis); orthopedic conditions such as joint replacements or lower extremity fractures; spinal cord injuries; and strokes. A multidisciplinary team of providers provide care for patients at Shannon Rehabilitation Hospital, including physicians trained in physical medicine and rehabilitation, physical therapists, occupational therapists, speech-language pathologists, nurses specialized in rehabilitation care, pharmacists, dietitians/nutritionists, case managers and more. The hospital has 40 private, inpatient rooms, an expansive therapy gym featuring the latest technologies and equipment, an onsite cafeteria, an in-house pharmacy and a four-chair dialysis suite. Opening the Shannon

Rehabilitation Hospital expanded rehabilitation capacity from 14 to 40 dedicated patient beds and enhanced patient care available to the community with significant investments in the latest equipment and technology.

- Additionally, during Quarter 3 FY2021, Shannon Health opened the new Outpatient Neuro Rehabilitation Clinic:
  - o The new clinic, located at 3501 Executive Drive, includes an expanded floor plan with more space for patients and therapists, as well as expanded services including state-of-the-art physical therapy equipment. The new space allows therapists to provide an enhanced level of care for patients in a more comfortable setting and has allowed Shannon Health to increase capacity for the number of patients served and the services provided. Shannon Health now offers a community-based exercise program for patients post-therapy; there is now a dedicated exercise room for this program.
  - o Shannon Neuro Rehabilitation is a multidisciplinary team of occupational therapists, physical therapists, and speech language pathologists who provide outpatient neuro therapy services within San Angelo. Shannon Health is looking to grow the Physical Therapy staff to accommodate the increased growth. Speech Therapy increased their services by utilizing the Speech Therapist from South Campus inpatient service.
  - Patients needing specialized physical therapy after suffering debilitating injuries or conditions now have a brand new facility in San Angelo with enhanced capabilities in which to receive treatment.
- 28. A list of rehabilitative services accessible to patients and a schedule of services demonstrating the referenced service delivery hours.
  - <u>Inpatient Rehabilitation</u>: The Shannon Rehabilitation Hospital, a 40-bed inpatient rehabilitation hospital, opened in Quarter 2 FY2021 through a joint venture with Encompass Health. The Shannon Rehabilitation Hospital is opened 24 hours a day, 7 days a week. Care is provided by a multidisciplinary team of providers including physicians trained in physical medicine and rehabilitation, physical therapists, occupational therapists, speech-language pathologists, nurses specialized in rehabilitation care, pharmacists, dietitians/nutritionists, case managers and more. The conditions treated include:
    - o Amputations
    - o Brain injuries
    - o Burns, Cardiac and pulmonary conditions
    - o Complex orthopedic conditions
    - o Hip fractures, Multiple trauma
    - o Neurological conditions (e.g. Parkinson's disease, Guillain-Barré, multiple sclerosis)
    - Orthopedic conditions such as joint replacements or lower extremity fractures
    - o Spinal cord injuries
    - o Strokes
  - Outpatient Rehabilitation: SMC has three locations providing outpatient rehabilitation services:
    - o (1) Shannon Clinic Southwest: providing outpatient orthopedic rehabilitation;
    - o (2) Shannon Clinic Jackson: providing outpatient sports medicine; and

- o (3) Shannon Outpatient Neuro Rehabilitation Clinic: providing outpatient neuro therapy and rehabilitation
- All three locations had service delivery hours of Monday through Friday, 8:00 AM to 5:00 PM.
- 29. Data and financial reports regarding infrastructure investment, capital expenditures, and operating costs since the merger.

#### [This Item contains proprietary, competitively sensitive information redacted from the public version.]

• <u>Infrastructure Investment and Capital Expenditures</u>: During Quarter 3 FY2021, Shannon Health invested approximately \$9.9 million in capital expenditures. See **Table 29a** for a summary of capital, infrastructure and operating expenditures for Shannon Health (SMC and SMC South combined) and **Table 29b** for detailed breakout of capital expenditures for Quarter 3 FY2021.

Table 29a: Shannon Health Capital, Infrastructure and Operating Expenditures for FY2021

	Q1 FY2021	Q2 FY2021	Q3 FY2021
Shannon Health			
Capital Expenditures <sup>29</sup>	\$8,964,071	\$8,936,130	\$9,985,747
Infrastructure Expenditures	\$5,802,203	\$4,218,960	\$2,546,590
Operating Expenditures <sup>30</sup>	\$145,326,793	\$151,336,064	\$164,678,233

Table 29b: Capital Expenditure Breakout for Q3 FY2021

30. Evidence of any expansion of clinical services.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- Shannon Health is continuing to thoughtfully evaluate clinical services across SMC and SMC South for additional clinical optimization and/or expansion opportunities.
  - Opening of the new Outpatient Neuro Rehabilitation Clinic: The new Outpatient Neuro Rehabilitation Clinic, located at 3501 Executive Drive, opened during Quarter 3 FY2021 and

<sup>&</sup>lt;sup>29</sup> "Infrastructure Expenditures" are included within the "Capital Expenditures" Line in **Table 29**.

<sup>&</sup>lt;sup>30</sup> The expenditure amounts reported in this **Table 29** reflect the unaudited financial figures as recorded by Shannon Health.

includes an expanded floor plan with more space for patients and therapists as well as expanded services including state-of-the-art physical therapy equipment. The new space will allow therapists to provide an enhanced level of care for patients in a more comfortable setting.

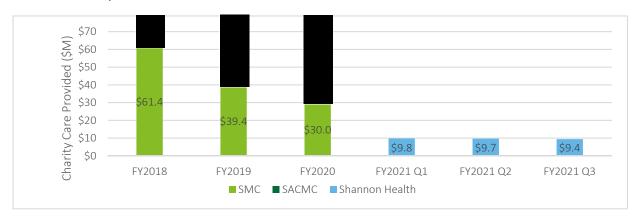

- o COVID-19 clinics and vaccine distribution: In coordination with the local community, state and local representatives and authorities, Shannon Health organized the Shannon Vaccine Clinic to support COVID-19 vaccine distribution. On June 28, 2021, the COVID-19 Vaccine Clinic moved from the temporary location in the mall to the Shannon South Campus (first floor of hospital facility). Vaccines are available to individuals aged 12 and older. Walk-ins and appointments are accepted. Clinic hours remain the same. Mondays, Wednesdays, Thursdays and Fridays from 7 a.m. to 4 p.m., and Tuesdays from 7 a.m. to 7 p.m. In addition, Shannon Health continued operating the Shannon COVID-19 hotline. Individuals could call and speak to a clinical provider about inquiries regarding COVID-19 testing or the COVID-19 vaccine. In Quarter 3 FY2021, Shannon Health pharmacy and staff administered 21,556 vaccine doses.
- Expansion of Mammography services to Shannon South: Post-Merger, mammography exams are now performed at the Shannon Imaging Center on S. Bryant. At this location, Shannon Health offers three (3) 3D Mammography units along with Breast MRI, Breast Ultrasound, and Breast Biopsy/Needle localization capabilities.
- Expanded capacity for COVID-19 response: Shannon Health continued operating a COVID-19 vaccine clinic that accommodated a high volume of patients. Also, in Quarter 3 FY2021, Shannon Health continued to maintain the area's only COVID-19 Infusion Therapy Clinic at SMC South to provide the monoclonal antibody outpatient infusion therapy to identified high-risk COVID-19 positive patients.
- 31. A copy of each hospital's charity care policy, identifying any changes to the policy in the previous quarter when changes occur.
  - Post-Merger, the Charity Care policy for Shannon Health was extended to encompass both SMC and SMC South. Shannon Health's policy is revised annually (but was not revised during Quarter 3 FY2021), and any approved and implemented revised policy will be provided in future submissions as applicable.
- 32. The number of patients enrolled in each hospital's charity care program.
  - During Quarter 3 FY2021, Shannon Health enrolled a total of 1,938 patients in charity care and financial assistance programs. Post-Merger, Shannon Health's Charity Care Policy applies to SMC South, which Shannon Health believes will allow for additional access for patients in need of financial assistance (e.g., Shannon Health patients become eligible at 10% of annual gross income ("AGI"), whereas legacy SACMC patients became eligible at 50% of AGI).

33. Data and financial reports for charity care services provided by each hospital.

#### [This Item contains proprietary, competitively sensitive information redacted from the public version.]

• The financial investment in charity care for Shannon Health for Quarter 3 FY2021 is shown below in **Table 33**. Shannon Health incurred \$9.4 million in charity care during Quarter 3 FY2021.

- 34. Data demonstrating expansion efforts for the Shannon Care Coordination Program.
  - During Quarter 3 FY2021, the Shannon Care Coordination Program continued serving patients discharging from the hospital with Congestive Heart Failure (CHF), Chronic Obstructive Pulmonary Disease (COPD), and COVID-19, as well as patients at high-risk for readmission. Key areas of the program include: medication management, addressing social barriers, and helping the patient manage their chronic condition at home.
- 35. An explanation of how SMC South will utilize providers, nurses and other medical staff to strengthen the Shannon Care Coordination Program.
  - Shannon Health's Care Coordination Program manages high-risk patients with multiple disease processes, addresses social and health care barriers, and supports patients' goals of independence in their health care management. The Shannon Care Coordination program was developed as a patient-centric strategy to impact patient care beyond the four walls of the hospital.
  - The Shannon Care Coordination Program is designed to improve patient outcomes by utilizing a team to focus on population health efforts as it relates to chronic disease. The Program's structure and ability to utilize a team to focus on population health efforts as it relates to chronic disease has provided Shannon Health the opportunity to identify possible areas for patient care—all in service of providing care to patients in the community. Key areas of the program include: medication management, addressing social barriers, and helping the patient manage their chronic condition at home.
  - During Quarter 3 FY2021, the Shannon Care Coordination Program continued serving patients discharging from the hospital with Congestive Heart Failure (CHF), Chronic Obstructive Pulmonary

Disease (COPD), and COVID-19, as well as patients at high-risk for readmission. Key areas of the program include: medication management, addressing social barriers, and helping the patient manage their chronic condition at home.

36. Data demonstrating clinical integration between facilities and providers and whether such integration led to cost savings and a reduction in medical errors.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

• As discussed in this Report, Shannon Health is in the process of evaluating opportunities for clinical integration. As of the end of Quarter 3 FY2021, Shannon Health implemented the following initiatives, which are intended to increase clinical integration between the facilities and providers:

0

Opening of the new Outpatient Neuro Rehabilitation Clinic: The new Outpatient Neuro Rehabilitation Clinic, located at 3501 Executive Drive, opened during Quarter 3 FY2021 and includes an expanded floor plan with more space for patients and therapists as well as expanded services including state-of-the-art physical therapy equipment. The new space will allow therapists to provide an enhanced level of care for patients in a more comfortable setting.

The areas noted above have increased clinical integration between SMC and SMC South, and have generated cost savings for the combined organization. As this Report is based on eight months of post-Merger information, data is not yet available to comment on the longer-term impact to medical errors, but this data will be provided when available.

- 37. A description of how the merger has impacted rural healthcare in the hospitals' 25-county service area during the previous quarter, including any reduction in services.
  - As a result of the Merger, during Quarter 3 FY2021, Shannon Health was able to further enhance or increase the services offered to the hospitals' rural communities, including the following:
    - O COVID-19 education programs: In order to keep the local community informed with the latest information related to the COVID-19 pandemic and vaccine distribution status, Shannon invested in a number of community education programs related to COVID-19, including: Five (5) stories with local media regarding COVID-19 vaccine availability to ages 12+; walk-in availability of vaccines; three (3) stories regarding additional vaccine clinic through Ministerial Alliance to reach additional populations; creation and distribution of a COVID-19 vaccine TV commercial for community that aired on local TV and cable networks; creation and distribution of a COVID-19 vaccine radio commercial in Spanish to local Spanish radio stations; and creation of educational videos for social media channels and website regarding vaccine education in English and Spanish.
    - o **Community education programs**: Shannon Health invested in a number of community education programs. These programs include educational opportunities to healthcare

providers in the Shannon Health service area. Shannon's AirMed 1 staff members provided the following educational classes during Quarter 3 FY2021, which included continuing education credits for nursing and EMS providers: (i) Stop the Bleed education - Angelo State University nursing students; (ii) Trauma education - Angelo State University nursing students; (iii) Ventilation Management - Sonora Hospital in Sutton County; and (iv) Cardiac Emergencies and 12 Lead Interpretation - Angelo State University mid-level students. Shannon AirMed1, a partnership with Med-Trans, provides 24-hour emergency air ambulance care to more than 13 West Central Texas counties in its primary service area. Shannon AirMed1 is capable of transporting a wide array of critical care patients such as cardiac, trauma, medical, pediatric, and burn patients. The AirMed1 crew members frequently travel to rural communities within the Region to provide training opportunities to local first-responders and health care professionals. Other educational programs include: partnering with local public safety agencies to host an education safety event related to child injury prevention/water safety for children and parents; two (2) stories with the local media regarding water and summer safety injury prevention for children; and a story with the local media on lyme disease prevention.

- covided direct Covided serious can call and speak to a clinical provider about inquiries regarding Covided direct Covided dire
- Post-Merger, there were no reductions in Shannon Health services within the service area.

- 38. A list of health plans each hospital contracted with before the merger, an explanation of any change to the accepted health care plans after the merger, and a list of health plan contracts terminated since the merger.
  - Table 38 of this Report lists the health plans<sup>31</sup> that Shannon Health contracted with as of the end of Quarter 3 FY2021. No other health plan contracts have been added or terminated since the Quarter 2 FY2021 Report.

- 39. Data identifying changes to service levels at the hospitals and at other facilities, including service levels available to the public and any reduction in service levels available to the public.
  - Table 39 includes the pre- and post-Merger service levels for both SMC and SMC South (legacy SACMC) for the Emergency department ("ED"), Neonatal, and Maternal. In terms of pre-Merger service levels, only the service levels as of FY2020 are provided in order to establish a baseline for comparison of any changes post-Merger. As of Quarter 3 FY2021, service levels at service levels have changed as follows:
    - o **ED:** Shannon Health is pursuing a Level 4 designation for SMC South. Additional information will be reported in future quarterly reports as available.
    - o **Neonatal:** Post-Merger, as a result of the change of ownership of SACMC, Neonatal was temporarily moved from a Level 2 to a Level 1 designation (which does not require an onsite survey) in order to continue to receive reimbursement for services immediately post-Merger. Additional information will be reported in future quarterly reports as available.
    - Maternal: During Quarter 3 FY2021, SMC South was granted a Level 1 designation for Maternal care (legacy SACMC did not have a Maternal designation pre-Merger) and plans to continue to build the Maternal program in order to eventually pursue a Level 2 designation through an on-site survey.
    - o **Trauma:** Shannon Health is pursuing a Level 4 designation for SMC South. Additional information will be reported in future quarterly reports as available.

Table 39: Pre- and Post-Merger Key Service Levels

Location	Pre-Merger Service Level (FY2020)				Q2 FY2021 Service Level				Q3 FY2021 Service Level

  - As of the end of Quarter 3 FY2021, no new payment models have been established.

-

<sup>&</sup>lt;sup>32</sup> Excludes workers compensation payment models.

## D. Competition

42. Data demonstrating the merger did not reduce competition among physicians, allied health professionals, other health providers, or any other persons providing goods and services with the hospitals.

Shannon Health faces competition from a number of hospitals and health systems in its primary and secondary service areas. Post-Merger, Shannon Health continues to compete with large and significant health systems throughout the region, most of which are gaining strength. These health systems are located throughout the Texas region and are rapidly expanding. Shannon Health considers these health systems, among others, to be competitors for high-end or tertiary inpatient and outpatient services. The robust competition for inpatient acute facility services will continue from many other hospitals, listed below, all located in surrounding counties. Likewise, Shannon Health also faces competition from freestanding emergency departments, urgent cares, ambulatory surgery centers, rural health clinics, and other healthcare providers located in Tom Green County and the surrounding counties.

Shannon Health has identified the following set of competitors, without limitation:

- 1. Covenant Health; 3615 19th St., Lubbock, TX 79410; Lubbock County
- 2. Odessa Regional Medical Center; 520 E. 6th St., Odessa, TX 79761; Ector County
- 3. Medical Center Hospital; 500 W. 4th St., Odessa, TX 79761; Ector County
- 4. Midland Memorial Hospital; 400 Rosalind Redfern Grover Pkwy, Midland, TX 79701; Midland County
- 5. United Regional Health Care; 1600 11th St, Wichita Falls, TX 76310; Wichita County

Additionally, Shannon Health will continue to compete with the large health systems, including without limitation:

- 1. Lubbock University Medical Center
- 2. University Health System in San Antonio
- 3. Houston Methodist The Woodlands
- 4. Parkland Health & Hospital System
- 5. Texas Health Harris Methodist Hospital Alliance
- 6. Texas Health Resources

Shannon Health competes with inpatient acute facilities within the primary and secondary service area, including without limitation:

- Ballinger Memorial Hospital District; 608 Ave. B, Ballinger, TX 76821; Runnels County
- Big Spring State Hospital; 1901 N Hwy. 87, Big Spring, TX 79720; Howard County
- Hendrick Medical Center Brownwood; 1501 Burnett Rd., Brownwood, TX 76801; Brown County
- Concho County Hospital; 614 Eaker St., Eden, TX 76837; Concho County
- Coleman County Medical Center; 310 S Pecos St., Coleman, TX 76834; Coleman County
- Heart of Texas Healthcare System; 2008 Nine Rd., Brady, TX 76825; McCulloch County
- Iraan General Hospital; 600 TX-349, Iraan, TX 79744; Pecos County

- Lillian M. Hudspeth Memorial Hospital; 308 Hudspeth St., Sonora, TX 76950; Sutton County
- McCamey Hospital District; 2500 S Hwy. 305, McCamey, TX 79752; Upton County
- Mitchell County Hospital; 997 W I-20, Colorado City, TX 79512; Mitchell County
- North Runnels Hospital; 7821 E TX-153, Winters, TX 79567; Runnels County
- Pecos County Memorial Hospital; 387 W I-10, Fort Stockton, TX 79735; Pecos County
- Rankin County Hospital District; 1611 TX-Spur 576, Rankin, TX 79778; Upton County
- Reeves County Hospital District; 2323 Texas St., Pecos, TX 79772; Pecos County
- River Crest Hospital; 1636 Hunters Glen Rd., San Angelo, TX 76901; Tom Green County
- Reagan Memorial Hospital; 1300 N Main Ave., Big Lake, TX 76932; Reagan County
- Rolling Plains Memorial Hospital; 200 E Arizona Ave., Sweetwater, TX 79556; Nolan County
- Scenic Mountain Medical Center; 1601 W 11th Pl., Big Spring, TX 79720; Howard County
- Schleicher County Medical Center; 102 N US-277, Eldorado, TX 76936; Schleicher County
- Val Verde Regional Medical Center; 801 N Bedell Ave., Del Rio, TX 78840; Val Verde County
- West Texas VA Health Care System; 2400 S Gregg St., Big Spring, TX 79720; Howard County

Additionally, the following is a non-exhaustive list of "freestanding healthcare facilities" in the primary and secondary service area, sorted by county, that Shannon Health will continue to compete with:

## **Primary Service Area**

#### **Brown County**

- Accel Health Clinic Brownwood; 3804 US-377, Brownwood, TX 76801
- Brownwood Women's Clinic; 98 S Park Dr., Brownwood, TX 76801
- Central TX Women's Clinic PA; 2201 Coggin Ave., Suite B, Brownwood, TX 76801
- Fresenius Kidney Care Brownwood; 110 S Park Dr., Brownwood, TX 76801
- Hendrick Surgery Center Brownwood; 2401 Crockett Dr., Brownwood, TX 76801
- One Source Health Center Early; 2005 Hwy. 183 N, Early, TX 76802

#### Coleman County

- Coleman WIC Clinic; 303 E College Ave., Coleman, TX 76834
- Coleman Medical Associates; 310 S Pecos St, Coleman, TX 76834
- Hensley Family Health Clinic; 105 N 2nd St., Santa Anna, TX 79606

## **Coke County**

Not Applicable

## Concho County

- Concho Medical Clinic; 814 W Broadway St., Eden, TX 76837
- Eden Medical Clinic PA; 506 Eaker St, Eden, TX 76837

- 43. Evidence of how patient choice is being preserved.
  - The patient choice policy for Shannon Health was extended post-Merger to encompass both SMC and SMC South. The policy continues to conform with CMS mandated patient choice requirements. No revisions were made to the patient choice policy during Quarter 3 FY2021. To the extent any revisions are made to this policy in the future, any approved and implemented revised policy will be provided in future submissions as applicable.
- 44. Evidence reflecting efforts to bring additional jobs to the area.
  - <u>Open Positions</u>: As of the end of Quarter 3 FY2021, Shannon Health had 286 open positions. These roles cover both clinical and non-clinical positions across the organization and indicate significant demand for talent within the combined Shannon Health system following the Transaction Closing. A list of open positions as of the end of the Quarter 3 FY2021 is provided in **Attachment 3**.
  - <u>New Positions</u>: During Quarter 3 FY2021, Shannon Health created 22 new positions in order to support identified needs for the new combined system, including both administrative and clinical roles. For example, Shannon Health added the following positions:
    - o 1 New Positions South Campus
    - o 1 ER Tech II
    - o 1 Clinical Research Coordinator South Campus
    - o 1 RN wound Care South PRN
    - o 1 Ultrasound Tech Radiology
    - o 1 Certified Medical Assistant Family Practice
    - o 1 Certified Medical Assistant Pediatrics
    - o 1 LVN Pediatrics
    - o 1 Float LVN Pediatrics
    - o 2 Float Receptionist Cashier
    - o 1 Employee Relations Partner
    - o 1 Radiology Receptionist
    - o 2 Medical Assistant / LVN Float
    - o 2 Office Assistant Radiology South
    - o 1 Medical Technologist
    - o 1 Childcare Assistant
    - o 1 Fitness Instructor
    - 2 Nursing Assistant Unit Secretary
  - New Hires: During Quarter 3 FY2021, Shannon Health hired 299 new employees.

45. Any contracted services that have changed since the last report, with an explanation for each change.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- <u>Changes to Contracted Services</u>:

  Shannon Health will continue to evaluate potential contract alignment opportunities throughout the post-Merger integration process, and will provide updates in subsequent reports once more information becomes available.
- 46. Data illustrating physician contracts for each county in the region specifying the physician specialty or practice area for each contract.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- Table 46a lists the practice areas and counties served by providers employed by Shannon Health as of the end of Quarter 3 FY2021. Care in the various specialties outlined in Table 46 are being provided by Shannon Health providers in those counties. The region is also served by a number of community physicians not employed by Shannon Health. Table 46b lists the number of practicing physicians along with their practice area. Practicing physicians include employed physicians, locum tenes physicians, and contracted physicians related to Shannon Health-offered specialties. While Shannon Health does not maintain a comprehensive directory of these community physicians beyond those with medical staff privileges at Shannon Health, public sources that identify community physicians including the Texas Medical Board Healthcare Provider Search and health plan provider directories are available.
- Shannon Health notes that the numbers presented in **Table 46b** are Practicing Physicians with Inpatient Privileges.

  During the credentialing process, it was determined which physicians saw patients in the hospital. Because the majority of the Family Practice physicians only see patients in the clinic (outpatient) setting and do not see patients in the hospital (inpatient) setting, the number of Practicing Physicians (defined as Physicians with inpatient privileges) decreased between Q2 FY2021 and Q3 FY2021.

## E. Other Requirements

- 47. Any minutes or notes of meetings regarding the COPA and the portion of each hospital's governing body meeting minutes that discuss the COPA.
  - <u>Meeting Minutes</u>: To the extent meeting minutes or notes regarding the COPA, including portions of governing body meeting minutes that discuss the COPA, are kept in the ordinary course of business, and to the extent no applicable privileges exist, such documentation has been provided in **Attachment 4**.
- 48. Any healthcare-related service contract changes in the previous quarter and the explanation for the change.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

• <u>Changes to Contracted Health Care Services</u>: As noted in the Baseline Performance Report, SMC and legacy SACMC maintained agreements with a variety of third-party service providers to support their operations. Following the Merger, Shannon Health began the process of evaluating such services in order to identify potential alignment opportunities across the legacy organizations.

- 49. The number of physicians, allied professionals and other health care providers providing medical services that have privileges to practice at the hospital.
  - <u>Privileged Providers</u>: As of Quarter 3 FY2021, Shannon Health provided privileges to 392 health care providers at SMC and 273 health care providers at SMC South, as detailed in **Table 49** below. This increase is due, in part, to additional TeleNeuro and TelePsych providers that were granted privileges at SMC South.
    - As noted in the Quarter 1 and Quarter 2 FY2021 Performance Reports, beginning in Quarter 1 FY2021, the provider privileging and credentialing policies at SMC South were adjusted to align with SMC's policies, which will allow for a more streamlined, uniform process.

Table 49: Shannon Health Privileged Providers

Privileged Provider Category	SMC	SMC South
Physicians	259	157
AHPs	63	42
Telemedicine Physicians	70	74
Total	392	273

50. Information on additional investments regarding infrastructure, capital expenditures, and operating costs and how this affected patient care outcomes, population access to healthcare, and prevention services.

#### [This Item contains proprietary, competitively sensitive information redacted from the public version.]

- By thoughtfully combining the resources of SMC and legacy SACMC, Shannon Health intends to be
  able to better coordinate services, increase efficiencies, and optimize patient care. As of the end
  of Quarter 3 FY2021, Shannon Health has continued enhancing the coordination of services
  through the following:
  - o COVID-19 clinics and vaccine distribution: In coordination with the local community, state and local representatives and authorities, Shannon Health organized the Shannon Vaccine Clinic to support COVID-19 vaccine distribution. On June 28, 2021, the COVID-19 Vaccine Clinic moved from the temporary location in the mall to the Shannon South Campus (first floor of hospital facility). Vaccines are available to individuals aged 12 and older. Walk-ins and appointments are accepted. Clinic hours remain the same. Mondays, Wednesdays, Thursdays and Fridays from 7 a.m. to 4 p.m., and Tuesdays from 7 a.m. to 7 p.m. In addition, Shannon Health continued operating the Shannon COVID-19 hotline. Individuals could call and speak to a clinical provider about inquiries regarding COVID-19 testing or the COVID-19 vaccine. In Quarter 3 FY2021, Shannon Health pharmacy and staff administered 21,556 vaccine doses.
  - O COVID-19 education programs: In order to keep the local community informed with the latest information related to the COVID-19 pandemic and vaccine distribution status, Shannon invested in a number of community education programs related to COVID-19, including: five (5) stories with local media regarding COVID-19 vaccine availability to ages 12+; walk-in availability of vaccines; three (3) stories regarding additional vaccine clinic through Ministerial Alliance to reach additional populations; creation and distribution of a COVID-19 vaccine TV commercial for community that aired on local TV and cable networks; creation and distribution of a COVID-19 vaccine radio commercial in Spanish to local Spanish radio stations; and creation of educational videos for social media channels and website regarding vaccine education in English and Spanish.
  - O Community education programs: Shannon Health invested in a number of community education programs. These programs include educational opportunities to healthcare providers in the Shannon Health service area. Shannon's AirMed 1 staff members provided the following educational classes during Quarter 3 FY2021, which included continuing education credits for nursing and EMS providers: (i) Stop the Bleed education Angelo State University nursing students; (ii) Trauma education Angelo State University nursing students; (iii) Ventilation Management Sonora Hospital in Sutton County; and (iv) Cardiac Emergencies and 12 Lead Interpretation Angelo State University mid-level students. Other educational programs include: partnering with local public safety agencies to host an education safety event related to child injury prevention/water safety for children and parents; two (2) stories with the local media regarding water and summer safety injury prevention for children; and a story with the local media on lyme disease prevention.

- Expansion of Mammography services to Shannon South: Post-Merger, mammography exams are now performed at the Shannon Imaging Center on S. Bryant. At this location, Shannon Health offers three (3) 3D Mammography units along with Breast MRI, Breast Ultrasound, and Breast Biopsy/Needle localization capabilities.
- O Utilization of SMC South to optimize COVID-19 care: Shannon Health has continued operating the Shannon COVID-19 Vaccine Clinic at SMC South. Shannon Health has also continued operating the area's only COVID-19 Infusion Therapy Clinic at SMC South during Quarter 3 FY2021 in order to provide the monoclonal antibody outpatient infusion therapy to identified high-risk patients. The goal of this treatment is to decrease the need for hospitalization in these patients.
- The Merger allows for the better coordination of resources and decision- making, resulting in improved efficiency, elimination of waste, and the achievement of cost savings. Shannon Health is committed to reinvesting these savings in its operations and community, with the goal of improving the overall patient experience and patient care. The following are examples of how Shannon Health continued reinvesting in the combined healthcare system during Quarter 3 FY2021:
  - Outpatient Neuro Rehabilitation Clinic. In April 2021, Shannon Health opened the new Outpatient Neuro Rehabilitation Clinic at 3501 Executive Drive. This clinic includes an expanded floor plan with more space for patients and therapists, as well as expanded services, such as state-of-the-art physical therapy equipment. The new space will allow therapists to provide an enhanced level of care for patients in a more comfortable setting.
  - o **Health Club equipment upgrades:** Shannon Health invested \$105,000 in the Shannon Health Club, providing facility upgrades.
  - o COVID-19 clinics and vaccine distribution: In coordination with the local community, state and local representatives and authorities, Shannon Health organized the Shannon Vaccine Clinic to support COVID vaccine distribution. On June 28, 2021, the COVID-19 Vaccine Clinic moved from its temporary location at the Sunset Mall in San Angelo to the Shannon South Campus, or the first floor of the hospital facility. The clinic was open five days a week, by appointment or walk-ins. Vaccines were available to individuals ages 12 and older. In addition, Shannon Health continued operating the Shannon COVID-19 hotline. Individuals could call and speak to a clinical provider about inquiries regarding COVID-19 testing or the COVID-19 vaccine. In Quarter 3 FY2021, Shannon Health pharmacy and staff administered 21,556 vaccine doses.

- Community education programs: Shannon Health invested in a number of community education programs. These programs include educational opportunities to healthcare providers in the Shannon Health service area. Shannon's AirMed 1 staff members provided the following educational classes during Quarter 3 FY2021, which included continuing education credits for nursing and EMS providers: (i) Stop the Bleed education - Angelo State University nursing students; (ii) Trauma education - Angelo State University nursing students; (iii) Ventilation Management - Sonora Hospital in Sutton County; and (iv) Cardiac Emergencies and 12 Lead Interpretation - Angelo State University mid-level students. Shannon AirMed1, a partnership with Med-Trans, provides 24-hour emergency air ambulance care to more than 13 West Central Texas counties in its primary service area. Shannon AirMed1 is capable of transporting a wide array of critical care patients such as cardiac, trauma, medical, pediatric, and burn patients. The AirMed1 crew members frequently travel to rural communities within the Region to provide training opportunities to local first-responders and health care professionals. Other educational programs include: partnering with local public safety agencies to host an education safety event related to child injury prevention/water safety for children and parents; two (2) stories with the local media regarding water and summer safety injury prevention for children; and a story with the local media on lyme disease prevention.
- Capital expenditures: Shannon Health incurred additional capital expenditures to improve its facilities or grow its operations, totaling approximately \$9.9 million across both SMC and SMC South.
- O **3D Mammography**: Post-Merger, mammography exams are now performed at the Shannon Imaging Center on S. Bryant. At this location, Shannon Health offers three (3) 3D Mammography units along with Breast MRI, Breast Ultrasound, and Breast Biopsy/Needle localization capabilities.
- As for infrastructure investment and capital expenditures as of the end of Quarter 3 FY2021, Shannon Health invested approximately the following:

o Capital Expenditures: \$9,985,747

o Infrastructure Expenditures: \$2,546,590

o Operating Expenditures: \$164,678,233

# IV. Attachments
