

State Medicaid Managed Care Advisory Committee Annual Report

**As Required by
Texas Administrative Code Title 1, Part
15, Chapter 351, Subchapter B, Division
1 Rule 351.805(d)(1) and (2)**

**State Medicaid Managed Care Advisory
Committee
December 2022**

About This Report

This report was prepared by members of the State Medicaid Managed Care Advisory Committee. The opinions and recommendations expressed in this report are the members' own and do not reflect the views of the Texas Health and Human Services Commission Executive Council or the Texas Health and Human Services Commission.

The information contained in this document was discussed and voted upon at regularly scheduled meetings in accordance with the Texas Open Meetings Act.

Information about these meetings is available at:

Letter from the Chair

Dear Members of the Texas Legislature and Health and Human Services Executive Commissioner Cecile Young:

The State Medicaid Managed Care Advisory Committee (SMMCAC) is pleased to submit our biannual report, due by December 31, 2022, in accordance with Texas Administrative Code Title 1, Part 15, Chapter 351, Subchapter B, Division 1 Rule 351.805(d)(2).

On behalf of the SMMCAC, I want to begin by thanking the Texas Legislature, everyone at Health and Human Services Commission (HHSC), everyone with the Medicaid managed care plans, all of the providers throughout the state, and the individuals receiving Medicaid services along with their families and advocates. The changes that have been made and continued throughout 2022 to ensure some of the most vulnerable citizens in our state were able to receive critical services while maintaining a safe environment due to COVID-19 are some of the most expansive and swiftest changes we have seen in our system of care. The level of effort and cooperation shown throughout the system demonstrates why it takes all of us working together to meet the needs of our citizens. It speaks to the heart of this SMMCAC. The SMMCAC is comprised of representatives from individuals receiving services and their family members or advocates, representatives of managed care organizations (MCOs), and representatives of provider organizations. Working together, as a system of care, we gain a greater understanding of challenges and collaborate to find ways to continuously improve our system of care in order to more efficiently and effectively serve Texans through Medicaid managed care in Texas.

As per the Texas Administrative Code Rule 351.805(b), the purpose of the SMMCAC is as follows:

1. The SMMCAC advises HHSC on the statewide operation of Medicaid managed care, including program design and benefits, systemic concerns from consumers and providers, efficiency and quality of services, contract requirements, provider network adequacy, trends in claims processing, and other issues as requested by the Executive Commissioner.
2. The SMMCAC assists HHSC with Medicaid managed care issues.

3. The SMMCAC disseminates Medicaid managed care best practice information as appropriate.

According to the Texas Medicaid and CHIP Reference Guide Thirteenth Edition, 94 percent of individuals in Medicaid and CHIP in Texas (approximately 4.1 million individuals), receive services through managed care. As members of the SMMCAC, it is our honor and privilege to serve these Texans by working together and making recommendations for continued improvement of the managed care service delivery system.

Thank you for this opportunity to serve. The following report includes reporting of SMMCAC activities as well as recommendations of the committee.

Respectfully,

Jacob Ulczynski

Chair, State Medicaid Managed Care Advisory Committee

Committee Activities in 2022

The SMMCAC has continued to see increased state-wide participation with the availability of conducting subcommittee meetings via virtual, video communication platforms. Subcommittee participation has averaged over 100 individuals per subcommittee meeting. This has enabled robust discussion and inclusion of voices from various perspectives to be heard before recommendations are made.

The SMMCAC continues to receive updates from other HHSC advisory committees within the Medicaid/CHIP division of HHSC in order to enhance collaboration and minimize duplication of effort. Updates from other HHSC advisory committees include:

- Behavioral Health Advisory Committee
- Drug Utilization Review Board
- e-Health Advisory Committee
- Palliative Care Interdisciplinary Advisory Committee
- Texas Council on Consumer Direction
- Value Based Payment and Quality Improvement Advisory Committee
- Hospital Payment Advisory Committee
- Intellectual and Developmental Disability System Redesign Advisory Committee
- Medical Care Advisory Committee
- Perinatal Advisory Council
- Policy Council for Children and Families
- STAR Kids Managed Care Advisory Committee
- STAR+PLUS Pilot Program Workgroup

Additionally, the SMMCAC would like to extend significant thanks and praise to HHSC on the collaborative nature of the work completed in conjunction with SMMCAC over the course of the biennium, but especially during the 2022 calendar year. This collaboration on projects in development allowed the committee and the public to provide input over the course of the year as HHSC actively carried out legislatively directed initiatives. A result of this collaborative approach was a

significant reduction in post-development formal recommendations from the committee. Projects actively monitored by the SMMCAC throughout the year included:

- 1115 Waiver extension and transition
- Provider Enrollment and Management System (PEMS)
- Proposed In-Lieu of Services
- House Bill 4, 87th Legislature, Regular Session (2021) - Teleservices
- Health and Human Services Coordinated Strategic Plan Status
- Managed Care report card
- Medicaid Autism Services Policy
- HHSC plan for ending continuous Medicaid coverage
- House Bill 2658 and Senate Bill 1648, 87th Legislature, Regular Session (2021) – Dental Benefits for adults in STAR+PLUS
- Rider 20 Implementation, 2022-23 General Appropriations Act, Senate Bill 1, 87th Legislature, Regular Session, 2021 (Article II, HHSC)
- Texas Dual Eligible Integrated Care Demonstration Project

In 2023 SMMCAC anticipates continuing a collaborative partnership with other HHSC advisory committees and HHSC staff. In addition, SMMCAC will be collaborating with the Department of State Health Services, Sickle Cell Task Force on improving access to services for people with sickle cell disease.

Recommendation 1

It is the recommendation of the Network Adequacy and Access to Care subcommittee that the Texas Health and Human Services Commission (HHSC), if given direction or authority from the legislature, establish a program under which a parent, guardian, or family member of an enrollee in Medicaid approved by the enrollee's parent or guardian may be licensed as a Licensed Health Aide and, under the direction of a Registered Nurse, provide Licensed Health Aide services to the enrollee through a Private Duty Nursing agency, which services will be subject to an enhanced reimbursement rate of a Certified Nursing Assistant.

This effort is designed to mitigate staffing issues that have affected this benefit for years and worsened during the public health emergency.

Committee Activities in Prior Years

The SMMCAC continues to support the following recommendations promulgated by the committee in 2020 and 2021.

Recommendation 1

HHSC should enhance Medicaid MCOs' participation in long-term services and supports (LTSS) service planning for their members by establishing rules facilitating an MCO representative's voluntary participation in a member's LTSS service planning meeting with the individual/member or legally authorized representative's consent. HHSC should also require Medicaid LTSS case management entities, inclusive of Community Living Assistance Supports and Services (CLASS), Deaf-Blind with Multiple Disabilities (DBMD), Home and Community-based Services (HCS), and Texas Home Living (TxHmL) case management entities, to communicate the: A) date, B) time, C) location, and D) telephone call-in or remote log-in information of an MCO member's LTSS service planning meeting to facilitate the MCO's voluntary participation in the meeting, if the individual or legally authorized representative consents to such participation. HHSC should also establish uniform communication and emphasize patient privacy expectations to facilitate the process.

Recommendation 2

HHSC is encouraged to collect validated, standardized data from providers on the frequency of prior authorization, the time to process prior authorizations, and the time between initial submission and final approval. In determining feasibility of the project, HHSC should take into consideration the provider burden of submitting the data.

Recommendation 3

The SMMCAC recommendation and action log should be made available to all SMMCAC members, representatives from other advisory committees, and to the public via online posting.

Recommendation 4

Recommend HHSC require all participating Medicaid providers to submit their credentialing application through the Council for Affordable Quality Healthcare (CAQH) portal for practitioners or Availity for facility providers to reduce administrative burden, increase data accuracy, and minimize outreach required by health plans and the credentialing verification organization (CVO).

Recommendation 5

Recommend that HHSC create and implement a centralized dentist provider information portal housing information needed for directories and network adequacy. Dentist providers will use the portal to provide initial information, including contact information and taxonomy code, change information, and re-attest information. Information from the centralized portal will be shared with Texas dental maintenance organizations (DMOs). There will be consistent data file formats and data entry requirements for the provider's first name, middle name, last name, and physical address. HHSC would verify the accuracy of the information.

Furthermore, the DMOs would be authorized to update dentist provider information in the portal. HHSC staff should be trained to provide consistently correct information to dentist providers calling for help using the portal.

Recommendation 6

HHSC should develop a list of exceptions to telehealth/telemedicine and ensure fee for service align with the intent of Senate Bill 670, 86th Legislature, Regular Session, 2019.

Recommendation 7

HHSC should ensure all telehealth and telemedicine is included in the medical portion of the Medical Loss Ratio.

Recommendation 8

HHSC is encouraged to conduct an environmental scan regarding any barriers administratively that may limit or discourage utilization of telehealth and telemedicine.

Recommendation 9

HHSC should review potential means for including telehealth and telemedicine in network adequacy standards.

Recommendation 10

Recommend HHSC consider covering audio-only, telehealth/telemedicine services and extending indefinitely the modalities to have increased access to care, and more services be covered by telehealth/telemedicine in line with national coverage standards (e.g. Medicare).

Recommendation 11

Recommend that HHSC permanently allow service coordination assessments and face-to-face visits to occur by way of a telehealth modality if medically appropriate, is the member's choice, and is technologically and physically feasible for the member; in order to reduce costs, improve access to service coordination, and improve efficiency.

Recommendation 12

Recommend review for relief from the duplicative and burdensome (provider) enrollment and credentialing process, request a more streamlined and tighter sequencing of processes, review federal requirements and best practices to streamline the process so that providers can start providing services more quickly, and to allow retro date for service reimbursement to date of enrollment and allow one enrollment to be completed for approval by all MCOs and the Texas Medicaid and Healthcare Partnership.

Recommendation 13

Recommend HHSC consider and explore any potential access and quality issues due to issues resulting from reimbursement rates set for Durable Medical Equipment and if there is a need for establishing a separate recognition and coverage for Complex Rehab Technology products and the services that incorporate the customized nature of the technology and the broad range of services necessary to meet the unique medical and functional needs of people with significant disabilities and complex medical conditions.

Recommendation 14

Recommend HHSC work with stakeholders such as Texas Association of Health Plans, Meadows Mental Health Policy Institute, and Texas Council of Community Centers during the review of cost effectiveness of proposed in lieu of services in order to ensure appropriate aspects are being considered, including factors that may be unique to Texas.

Recommendation 15

Recommend HHSC to convene a workgroup of dentists representing dental school faculty, Medicaid practicing dentists, state policy staff, and the DMOs to thoroughly review and comprehensively update the amount, duration, and scope of the Medicaid dental benefit policies as they impact DMOs.

Meeting Dates

Following are the 2022 and 2021 meeting dates of the SMMCAC as well as the meeting dates of the subcommittees:

Table 1. 2022 SMMCAC and Subcommittee Meeting Dates

Meetings	Dates
State Medicaid Managed Care Advisory Committee (Full Committee)	February 10, May 26, August 25, and November 16
SMMCAC Clinical Oversight and Administrative Simplification Subcommittee	February 10, May 26, August 25, and November 16
SMMCAC Service and Care Coordination Subcommittee	February 9, May 25, August 24, and November 15
SMMCAC Network Adequacy Subcommittee	February 9, May 25, August 24, and November 15
SMMCAC Complaints, Appeals and Fair Hearings Subcommittee	February 10, May 26, August 25, and November 16

Table 2. 2021 SMMCAC and Subcommittee Meeting Dates

Meetings	Dates
State Medicaid Managed Care Advisory Committee (Full Committee)	February 25, May 27, August 11, and November 4
SMMCAC Clinical Oversight and Administrative Simplification Subcommittee	February 25, May 27, August 11, and November 4
SMMCAC Service and Care Coordination Subcommittee	February 24, May 26, August 10, and November 3
SMMCAC Network Adequacy Subcommittee	February 24, May 26, August 10, and November 3
SMMCAC Complaints, Appeals and Fair Hearings Subcommittee	February 25, May 27, August 11, and November 4

How the Committee Accomplished Tasks

In an effort to maximize the breadth of initiatives that SMMCAC can address, the committee utilized five subcommittees that were established in August of 2019, each with assigned focus areas.

Subcommittees

Clinical Oversight and Administrative Simplification

Seeks to strengthen the oversight of utilization management practices to include prior authorization policies and processes used by MCOs. Focuses on reducing Medicaid provider burden through administrative improvements in four areas: claims payments, eligibility information, provider enrollment processes, and prior authorization submissions.

Prior authorization discussions will focus on provider process issues and HHSC oversight of MCO prior authorization data. Also, the subcommittee discusses specific Medicaid medical benefits as needed.

Complaint, Appeals, and Fair Hearings

Focuses on more effectively leveraging complaints data to identify potential problems in the Medicaid program, opportunities for improved MCO contract oversight, and increasing program transparency. Also focuses on appeals and fair hearing processes, including implementation of an independent external medical reviewer.

Network Adequacy and Access to Care

Supports a comprehensive monitoring strategy to ensure members have timely access to the services they need. Objectives include accuracy of provider directories, incentivizing use of telehealth, telemedicine, and telemonitoring services, reducing administrative burden related to network adequacy reporting and monitoring, and integrating network adequacy reporting to include additional measures.

Service and Care Coordination

Focuses on improvement related to service and care coordination within managed care. Objectives include assessing best practices for care coordination, addressing state-level barriers hindering MCO delivery of care coordination services, clarifying terminology and definitions of service coordination and service management activities, and identifying possible improvements to ensure service coordination and service management are consistent within HHSC contract requirements.

Open Meetings Act

Texas Government Code Chapter 551 (the Open Meetings Act or OMA) requires governmental bodies to hold all meetings in public, in an accessible location. As an advisory committee that HHSC established under Texas Government Code, Section 531.012, the SMMCAC is subject to the OMA as if it were a governmental body because of Health and Human Services system policy, as articulated in Rule 1 Texas Administrative Code 351.801(c).

Assuming that less than a quorum of SMMCAC members will be present at an SMMCAC subcommittee meeting (either as subcommittee members or observers), the OMA does not apply to subcommittee meetings. The OMA does not apply to gatherings of less than a quorum of a governmental body, and SMMCAC subcommittees do not have enough members to constitute a quorum. If enough SMMCAC members who are not subcommittee members are present at the subcommittee meeting to constitute a quorum of the full committee, HHSC staff may ask non-subcommittee members to leave the meeting.

Although the SMMCAC assume the OMA does not apply to subcommittee meetings, certain OMA requirements are being applied to subcommittees in an effort to provide transparency and opportunities for public participation. OMA requirements and their applicability to SMMCAC subcommittees are described below:

- SMMCAC subcommittee agendas will include date of meeting, hour of meeting, and place at which meeting will be held.
- SMMCAC subcommittees may discuss topics not posted on the agenda as long as the topic is relevant to the subcommittee charge.
- SMMCAC subcommittee meeting agendas will be posted on the HHSC Public Meetings and Events webpage and sent out to the GovDelivery distribution list at least seven calendar days before the date of the meeting, but

subcommittee meetings will not be posted to the Secretary of State's website.

- Subcommittee members will be informed of their subcommittee's meetings as soon as the meeting is confirmed, no later than three weeks in advance.
- SMMCAC subcommittees will allow public comment and will not restrict public comment on discriminatory grounds. At the discretion of the SMMCAC subcommittee chair, a public comment period may be included in the meeting or the public may actively participate in the conversation. Individuals who are not members of the SMMCAC subcommittee may not vote.
- SMMCAC subcommittees will keep meeting minutes. Minutes may be brief in nature but must include the subject of deliberation and outcomes such as votes, orders, decisions, or actions taken. Minutes must also include action items and responsible parties. SMMCAC subcommittee meetings will be recorded using webinar capability provided by HHSC.
- SMMCAC subcommittees may meet or have discussion outside of public subcommittee meetings. Subcommittee members, however, may only take final action, make decisions, or vote at public subcommittee meetings. SMMCAC subcommittees are asked to include an agenda topic at each public subcommittee meeting to summarize conversations between public subcommittee meetings.

Subcommittee Meeting Procedures

SMMCAC subcommittees will meet at a date, time, and location agreed upon by subcommittee members and HHSC staff, per availability of all parties.

Scheduling

Subcommittees will meet quarterly in a live and virtual format the day before or morning of SMMCAC full committee meetings. Assigned HHSC subject matter experts will be present for each quarterly meeting.

Subcommittees may wish to hold public meetings in between quarterly meetings, called "off-cycle subcommittee meetings." HHSC requests that subcommittees develop a schedule for the calendar year each January, to include quarterly meetings and, if necessary, off-cycle subcommittee meetings. If an additional off-cycle subcommittee meeting, not included on the annual calendar, is requested by

the subcommittee, HHSC will strive to accommodate the request based on the availability of staff to support the off-cycle subcommittee meeting. In this situation, subcommittee chairs should work with their assigned HHSC subject matter experts to schedule meetings at least one month in advance of the meeting date.

To schedule an off-cycle subcommittee meeting that is not included on the annual calendar, the subcommittee chair should work with other subcommittee members to identify three to five possible dates/times for subcommittee meetings.

Subcommittee meetings should last between one and two hours. The subcommittee chair or designated member will then email HHSC staff with the options. HHSC staff will review room and webinar availability and confirm one date and time location within five business days of receipt of request. HHSC staff will also review agenda items and availability to determine whether the assigned HHSC subject matter experts or a different HHSC staff person is most appropriate to represent the agency at the off-cycle subcommittee meetings.

Webinar capability will be used to record all public subcommittee meetings, even if the meeting is conducted over the phone.

HHSC understands that subcommittees may need to have discussions outside of quarterly public subcommittee meeting dates and times. At times, HHSC may also request a discussion or email chain with subcommittee members between quarterly meetings, when stakeholder feedback is required expeditiously. These discussions are allowable. However, subcommittee members may only take final action, make decisions, or vote at public subcommittee meetings. SMMCAC subcommittees are also asked to include an agenda topic at each public subcommittee meeting to summarize conversations had between public subcommittee meetings.

Agenda Development

Agenda topics should be requested no later than three weeks before a subcommittee meeting. HHSC subject matter experts may recommend agenda topics to subcommittee chairs as staff need stakeholder feedback for an issue relevant to the subcommittee's charge.

In addition to topics recommended by HHSC staff, subcommittee chairs may request topics for the agenda. Topics must be requested at least three weeks in advance of the subcommittee meeting. HHSC staff will reach out to needed agency subject matter experts, if applicable, to confirm availability before finalizing the

agenda. If a needed agency subject matter expert is not available, the topic will be tabled until the next subcommittee meeting.

Once the subcommittee agenda is finalized, HHSC subject matter experts will provide the agenda to HHSC committee liaisons, who will send the agenda through the approval process, ensure the documents are accessible, and request distribution via GovDelivery. The agenda should be posted no later than seven calendar days before the meeting.

Day of Meeting

The subcommittee chair will facilitate the meeting. Of importance, the subcommittee chair is tasked with keeping discussions on track within the subcommittee's charge, ensuring that the public has an opportunity to participate either through a public comment period or through participation in the discussion, and moving the agenda along.

The subcommittee scribe will keep notes to include topics of discussion, action items, and responsible parties, and decisions made. Scribe notes will serve as subcommittee meeting minutes and will also be used by the subcommittee chair to update the full SMMCAC at SMMCAC public meetings.

HHSC subject matter experts will be present to answer questions or gather questions to take back to the agency for further review. HHSC staff will set up the meeting room, run the webinar, and escort subcommittee members and members of the public to the meeting room.

Post Meeting Activities

The subcommittee chair will provide an update to the full SMMCAC at the next SMMCAC public meeting.

The subcommittee scribe will provide notes to HHSC subject matter experts, who will provide a post-meeting email to subcommittee members within one week of the meeting. The post-meeting email will include topics of discussion, action items and responsible parties, and decisions made. Responsible parties will work to complete their action items within the required timeframe – ideally before the next subcommittee meeting unless the action item requires work that will take longer than the time between subcommittee meetings.

Inviting Members of the Public to Subcommittee Meetings

HHSC is in contact with chairs of all Medicaid/CHIP supported advisory committees and will send public subcommittee meeting agendas to each chair. Some advisory committees will name a member to serve as a representative from that advisory committee at each subcommittee meeting. Other advisory committees will review each agenda and determine whether a representative should participate in each individual meeting. Representatives of other advisory committees may participate in the subcommittee conversation and provide relevant input.

HHSC will share subcommittee agendas via GovDelivery through the HHSC Public Meetings and Events list. Members of the public are encouraged to sign up for this list.

SMMCAC subcommittee members are welcome to invite members of the public to subcommittee meetings. In some instances, members may wish to invite a special guest to talk on an agenda item. SMMCAC subcommittee members are welcome to do this, at the discretion of the subcommittee chair, and are asked to alert HHSC staff so that the agenda can be developed accordingly.

SMMCAC subcommittee members may also forward the public agenda to members of the public or relevant list serves. This is most easily done by forwarding the GovDelivery posting in which the meeting agenda is sent.

Additional Subcommittee Responsibilities

Subcommittees are tasked with providing feedback to HHSC and developing draft recommendations that can be taken to the full SMMCAC for consideration in the committee's annual report to the Executive Commissioner. For each draft recommendation, subcommittees are required to fill out a form required by HHSC's Advisory Committee Coordination Office, which will be shared with the full committee and agency staff.

Members and Attendance

Following is a list of members of the SMMCAC including the group they represent as well as attendance percentage for SMMCAC full committee meetings during 2022 and 2021.

Table 3. Members and 2022 Attendance (X indicates participated in meeting)
