

Local Agency High Risk Policy Development Resource

Local Agency High Risk Criteria

LAs must follow all the high risk criteria specified in Policy CS:33.0.

Does your LA use additional high risk criteria beyond those listed in Policy CS:33.0?

If so, list the high risk criteria and the categorical group(s):

Procedures for follow-up with the WIC family

Method of Follow-up:

Internal Referrals

- What is the procedure that your LA uses to follow-up with the WIC family for referrals to the WIC RD and IBCLC?

External Referrals

- What is the procedure that your LA uses to follow-up with the WIC family for referrals to the HCP?

- If your LA does not have a RD or IBCLC, what procedures does your LA use to follow-up with these referrals?

Measurable Length of time between referral and follow-up

Internal Referrals

- What is the length of time from when a referral is made and a WIC RD or IBCLC performs a consultation/completes the referral with the WIC family?

External Referrals

- What is the length of time from when a referral is made and a WIC staff member contacts the WIC family to find out if they have been seen by the HCP?

- If your LA does not have an RD or IBCLC, what is the length of time from when a referral is made and a WIC staff member contacts the WIC family to find out if they have been seen by a RD or IBCLC?

LA Procedures for Red Flag criteria

What process do you have in place when participants are identified as having a red flag criterion?

What medical facility or service will your LA immediately refer a participant to for medical care when a red flag criterion is identified for a participant?
