Additional Recall: Prescribed Formula - Abbott Similac PM 60/40

Abbott Nutrition has issued another recall for additional infant formulas manufactured in Sturgis, Michigan. The latest recall involves prescribed formula, Similac PM 60/40. The most recent impacted formulas are:

- Lot # 27032K80 (can)
- Lot # 27032K800 (case)

Similac PM 60/40 is a highly specialized prescribed formula most commonly sold through pharmacies and DMEs but may also be sold through full-line grocer pharmacies and Predominantly WIC stores. WIC participants should be directed to return to their healthcare provider for an alternate formula. For additional information, go to Abbott's Similac Recall Product [website](#).

Be advised, this is in addition to the previous recalled lots of Similac, Alimentum, and EleCare powder formula. Please reference our recent Vendor News Flashes for information and guidance:

- February 18, 2022-[VNF - Voluntary Recall of Similac Infant Formula Products \(texas.gov\)](#)
- February 22, 2022-[VNF - Vendor Guidance on Voluntary Formula Recall \(texas.gov\)](#)

As a reminder, WIC participants have the same rights as all other consumers under this recall and should be treated like all other customers. You are not required to determine whether a product was purchased with WIC benefits as a part of the exchange process.

Texas WIC is very appreciative of the decisive leadership vendors have shown to ensure food is available to infants in Texas. For questions

This institution is an equal opportunity provider.
